

FIFTY-FOUR MAJORITY FOR THE G. T. P. BILL

And Fifty-Six Against Borden's Amendment --Puttee, Liberal, Voted Against Both --Speeches by Laurier and Bell.

OTTAWA, April 22.—After routine this afternoon Borden of Halifax, read a letter he had written to chief of the Hansard staff, asking if he had in his reference to Blair's letter to G. T. P. deal used the word "publishers" as reported in the unreviewed standard. He also read the reply of the chief of Hansard staff stating that the word he used was "preparer" and that the error was due to a mistake in transcription of the reporter's notes. This disposed in a summary manner of the busy attack made on Borden's veracity by the government and some of its supporters with respect to this document.

Mr. Pringle, on motion to adjourn, showed that the woolen mills of Canada were being closed down by the government's policy and completely knocked the legs from under Hon. Mr. Fielding who had attempted to contradict his remarks on this head last evening. The debate was continued by Oliver and Hance Logan for the government, and Taylor for the opposition. Logan's remarks on this head last evening were the best in Canada's interest and that under it the woolen mills in his riding were making big money. The discussion of the G. T. P. resolution was resumed at 4.30 by Mr. Kemp of Toronto.

Mr. P. E. I. (liberal) continued his debate after dinner. He dealt with the benefits of this trans-continental railway and expressed surprise at the maritime policy. The Canadian Express, through its mouth-piece, has been the head and front of the G. T. P. resolution. Mr. P. E. I. said \$45 p. m. He scathingly criticized Hughes for his ignorance of the railway construction and the character of the railway. He said that the railway will run through the heart of the country and will be a great benefit to the people. He also criticized the government's policy of closing down the woolen mills.

Mr. Laurier rose at 11.35 to close debate. He said that he was not a member of the G. T. P. and that he was not in favor of the bill. He also criticized the government's policy of closing down the woolen mills.

The government was opening up to the maritime provinces a new connection with the great Grand Trunk system. While Laurier talked, Hon. Mr. Emmerson, minister of railways, who is supposed to have charge of the railway policy of Canada, sat silent in a back bench and smiled a sickly smile, as he applauded his leader, who would not trust him to open his mouth.

A turn came in the debate when Borden faced down Laurier, but was refused a hearing by the premier, who would not let the bill come before the house. The opposition greeted his announcement with prolonged cheers.

Bell of Pictou, N. S., continued the debate at 1.45 a. m. Bell's practical address was in strong contrast with Laurier's graceful platitudes, and late as the hour was, roused the attention of both sides of the house. It was a most valuable contribution to the debate and a complete answer to the prime minister's sophistry.

Mr. Bell closed at 1.30 a. m., when the vote was taken on Borden's amendment. Borden's amendment was defeated, 54 to 114, by a strict party vote. Mr. Emmerson rose to vote he was greeted with derisive cheers from the opposition benches. When the vote came up the speaker, who had the whole of Winnipeg asked that his name be recorded against the resolution. The house adjourned at 1.55 a. m.

In the senate this afternoon during the reading of the report of the committee on standing orders, Hon. Mr. Wark, who attended his hundredth year during the recess, entered leaning on arm of Sir Mackenzie Bowell. He was received with high honors, the senators all standing and applauding until he had taken his seat. The aged senator bowed his acknowledgments and took his favorite place, not at his desk but in the front row of the gallery.

Mr. Ferguson spoke of the great value of the new means for fertilizing the soil. He said that the new fertilizer was a great benefit to the farmers and that it would increase the yield of the crops. He also criticized the government's policy of closing down the woolen mills.

Mr. Laurier rose at 11.35 to close debate. He said that he was not a member of the G. T. P. and that he was not in favor of the bill. He also criticized the government's policy of closing down the woolen mills.

TORONTO FIRE

Swept Business Part of the City.

Loss Between \$10,000,000 and \$17,000,000—123 Buildings Destroyed—One Life Lost.

TORONTO, Ont., April 22.—The fire which originated last night in the premises of E. & S. Currie, Wellington street, has almost wiped out the entire business district, and is by far the worst in the history of the city.

With great rapidity it spread east to Bay street, north on Bay street, west to the National Club, and on the east side to the office of the Specialty Co., the adjoining Telegram building being saved with difficulty. From Currie's, the fire swept across to Wellington street, Front street and the Esplanade, devouring Warwick Hotel, Rutter's, but sparing Queen's Hotel, which was threatened at one time.

By half-past seven this morning, the fire was under control. Its progress being stopped on Front street, and on the north side by the Bank of Montreal building, and on the south side by the Customs House, both of which had a very narrow escape.

In all it is estimated that 123 buildings were destroyed, and the loss is estimated between \$10,000,000 and \$17,000,000. An insurance broker estimates the insurance loss at \$12,000,000 on buildings and \$4,000,000 on stock. Fortunately, with the exception of an accident to the Chief Thompson, who jumped from the roof of a burning building and broke his ankle, only a few minor casualties are reported.

In an early stage of the fire, Fire Chief Thompson, in order to effect his escape from the devouring flames leaped from the roof of Anselby & Co.'s building, sustaining a fracture of his right leg. At the time the chief made his leap for life a traveler from Montreal was on the roof of the building and no trace of him has since been seen. It is just possible that he perished in the flames.

The fire started in the elevator hoist in the rear of the Currie building. Night watchman, J. H. Johnston, saw his leap for life a traveler from Montreal was on the roof of the building and no trace of him has since been seen. It is just possible that he perished in the flames.

FREDERICTON.

Several New Mercantile Concerns Incorporated.

Tenders Being Called for Sale of Road Plant—Ice at Springhill Still Holds.

FREDERICTON, April 21.—J. Norman W. Winslow, barrister, Henry W. Bourne, accountant, Woodstock; Henry Post, Wentworth Stone and Arthur Stone of Grafton, Carleton county, are applying for incorporation as The Woodstock Lumber and Manufacturing Co., Ltd., to operate a lumbering and general mercantile business within the province, with head office at Woodstock, and a capital stock of five thousand dollars.

Letters patent have been granted to Archibald Staves, Charles J. Osman, Fred M. Thompson, William Woodworth and Albert McLaughlin, of Hillsborough, Albert county, to carry on a general mercantile business by The Company, Limited, with a capital stock of \$30,000.

The chief commissioner of public works is calling for tenders for the following road plant, now owned by the government: One rock crusher and steam roller, one Canadian steam hand drill, one engine and locomotive and two wagons. The steam roller is here and it is understood the city authorities will put in a tender.

The ice in the river moved several feet today. A large quantity of loose logs is being borne along with the big jam at Springhill has not yet broken, and the bulk of the ice will not move until this gives way. Below this point there is no large body of ice and navigation is practically open.

The fire department was called out twice this afternoon to extinguish small fires in the grass in the vicinity of Wilmet Park. No damage was done.

The City Council has notified the Fredericton Gaslight Co. and the People's Light and Power Co., that hereafter the use of the streets in and about the city for the purposes of the companies is to be regulated by the city corporation, and that no poles belonging to the city and not used without written permission.

The supreme court today disposed of all the cases on the docket and adjourned till Friday at 11 o'clock to hear counsel in the case of the City of Fredericton v. the City of Fredericton. The court will also hear argument in a crown case reserved.

County court appeals—Read (plaintiff) v. Brown, M. C. Crockett (defendant), respondent. The court has granted a writ of habeas corpus for the defendant. The court will also hear argument in a crown case reserved.

School Trustees, No. 9 Southampton (defendants), appellant, v. Haines (plaintiff), respondent—A. J. Gregory, C. C. Crockett, contra. Court considered.

The members of the local government held a session this morning to close up the work of the session. They went to St. John tonight.

I. C. R. RUMORS.

Pottinger and Schreiber May Both Be Superannuated.

MONCTON, April 22.—Jas. R. Hayward, Intercolonial agent, who was taken to Montreal some weeks ago for treatment of the left eye, which was badly injured by the bursting of a boiler, has had the injured optic removed. The right eye was also affected by the operation. Loss of the eye will necessitate him giving up his position of locomotive engineer.

G. R. Joughins, the new mechanical superintendent of the Intercolonial, arrived here this morning and takes his seat in the office. It is reported that he is to be responsible only to the minister of railways and not to the general manager. It is also reported that he will be in charge of the Intercolonial and that he will be in charge of the Intercolonial.

Considerable comment was caused by the return this morning of General Bruce, Intercolonial agent, who was taken to Montreal some weeks ago for treatment of the left eye, which was badly injured by the bursting of a boiler, has had the injured optic removed. The right eye was also affected by the operation. Loss of the eye will necessitate him giving up his position of locomotive engineer.

The heat from the Anselby Co.'s building was so intense, that soon Brown Bros. had to leave the building on the south of the street was in jeopardy. To add to the difficulty, sucking of Currie's building to the east and adjoining Currie's building, the great force of flame had leaped to the high building occupied by Anselby & Co. With every fresh puff of wind, the flames leaped forward in torrents, making the strenuous efforts of the brigade puny in the extreme. At the outset the great force of flame leaped forward in torrents, making the strenuous efforts of the brigade puny in the extreme.

ANGLICAN SYNOD.

Motion to Form a New Bishopric Finds Favor.

HALIFAX, April 20.—The Anglican synod met today earlier than usual in order to transact business before the resignation of Bishop Courtney. His worship's address was comprehensive and also set forth the reasons for the division of the diocese. Most of this evening's session was spent in discussing a motion by Rev. V. E. Harris of Cape Breton for the formation of a new bishopric consisting of Prince Edward Island, Cape Breton and the rural deaneries of Amherst and St. George. The prevailing sentiment of the synod seemed to be in favor of the resolution. Among the strong speeches were those of Rev. W. C. Vernon and A. Smith of North Sydney. An amendment carried unanimously referred the matter to a committee to report at this synod.

LAMBERT ARRESTED.

Alleged Murderer of William Keaton Captured Yesterday.

QUEBEC, April 20.—Louis Lambert, who is alleged to have murdered William Keaton near St. Andrews on Friday, was arrested yesterday. When the police went for him on Saturday they found the house in which he lived burnt to the ground, and it was thought that he was burnt to death with the house. Subsequent search of the ruins, however, failed to reveal any trace of Lambert's body, and he was subsequently learned that he had been on the woods towards the St. John river.

Lambert was arrested today at St. Paschal by Constable Emile Marier of Fredericton. Constable Marier arrived here tonight with his prisoner, who was jailed to await trial.

Sch. Arlett sailed from Barbados Feb. 6 for St. Vincent with oil and shingles ex sch. Alert from New York for Africa, which put into Barbados in distress.

PHILADELPHIA, April 22.—Ar. sch. Chas. L. Jeffrey, from Hyannis.

OTTAWA LETTER.

OTTAWA, April 14.—The debate on the amended transcontinental railway resolutions is drawing to a close next week. After the resolutions are adopted, the bill itself will have to come up for consideration, then by when the government will be forced to explain many of the points they have so far evaded or slurred over.

The need of definite information emphasizes the utter absence of Hon. Mr. Emerson from this debate. He has almost a standing order of every parliament in the British possessions that railway legislation shall be introduced by the minister of railways, but on this instance the premier is carrying on the warfare, and as he did last year when he introduced what his cabinet said was the most favorable contract ever entered into Canada with a great railway corporation.

Mr. Clancy of Bothwell, Ontario, put Mr. Emerson's case in a nutshell in the course of a plain business speech on the railway resolutions. He expressed regret that the bill of railways was not in his place, and said: Let me say that one very strange thing in connection with this bill is the position of the Hon. Mr. Emerson. When the bill was originally introduced last year it was presented by the prime minister instead of the head of the railway department.

Commenting on the above quotation, Mr. Clancy asked: Is it any wonder that the hon. minister of railways has refused to rise in his place and defend this scheme? Could he consistently repeat the speech he made last year? Mr. Clancy could him with honesty and with a wonder whether he would not rest his words or take the more usual course and resign his position in the cabinet.

Mr. Lanester, conservative of Lincoln and Niagara, who amplified the views of the leader of the opposition that if the people pay the money for the transcontinental road, they ought to get the road they pay for, likewise paid his respects to Hon. Mr. Emerson, and said: Hon. Mr. Emerson, the cabinet ought not to have signed the present agreement unless he was prepared at an early stage in the debate to come into the house and explain to himself in not occupying his seat and listening to the arguments pro and con in this debate. "Does the minister know all about it?" He went down to St. John not long ago and returned a strong hint that the people did not want any such scheme.

It was on St. Patrick's day that the member for Montserrat put the question that has so much annoyed Sir Wilfrid. It is not very pleasant for a party which made loud promises of reform when in opposition, to be confronted with the record of the manner in which it has cared for its lame ducks out of the public treasury.

Mr. Borden's reply, too, was to the point and was made at the earliest possible moment. His offence, he remarked, was in reading, or rather in reciting, a memorandum that Hon. Mr. Blair had presented to his colleagues against the proposed Grand Trunk Pacific gold brick deal.

Mr. Borden's reply, too, was to the point and was made at the earliest possible moment. His offence, he remarked, was in reading, or rather in reciting, a memorandum that Hon. Mr. Blair had presented to his colleagues against the proposed Grand Trunk Pacific gold brick deal.

PROVINCIAL NEWS.

CHATHAM, N. B., April 19.—In the civic election today the result was as follows: Gallivan, Snowball, Watt, Bentley and Fraker standing in order named. The first named with Mayor Murdoch, Ald. Maher, McLachlan and Morris constitute the town council for the ensuing year.

County Councillor Thomson V. Flett was stricken with apoplexy at noon today at Nelson, where he resides. He was restored to consciousness by the efforts of several medical men and at the time of last report was resting easily.

HAEMPTON, April 19.—The corporation and parishioners of the Church of England parish of St. Paul's in the parish of Hampton, met last evening. An interesting feature was the presentation of the financial statement which showed that after years of effort the debt which weighed down upon them so heavily had been entirely wiped out.

The following officers were elected for the current year: Warden—G. O. Dickson; Clergy—R. DeMille; Vestry—Geo. Langstroth, Captain Percy Belyea, J. Heber Smith, J. H. Dickson, J. M. Scovil, Dr. Wetmore.

The Rev. H. S. Erb has resigned the pastorate of the Baptist church at the Station, Smithtown, Titusville, Salt Springs and Lakeview, over which he has presided since early last summer.

Mr. and Mrs. Percy Humphrey and their two children will be summer guests at Hampton, making their home at the residence of Mrs. George Brown on Station Road.

A pleasant meet of the Whist Club took place last Friday evening at the residence of Mr. and Mrs. Thos. Huxley.

HOPEWELL HILL, April 19.—The steamer Beaver, which has been laid up for the winter at Harvey, left yesterday for St. John on her first trip of the season.

ST. ANDREW'S, N. B., April 19.—Robert Alexander Clarke of Montreal and Laura, only daughter of Mrs. Annie Small, are to be married at St. John's, N. B., on Saturday, April 24, at 8 o'clock p. m. of the 24th inst.

A pleasant meet of the Whist Club took place last Friday evening at the residence of Mr. and Mrs. Thos. Huxley.

For Horses and Cattle. Used for the treatment and cure of Distemper, Worms, Indigestion, Loss of Appetite, Scourches, Mud Fever, Swollen Legs, and all Skin Diseases.
