To Date Crown Has Interned 1,855 Persons in Its War Camps.

## DEATH LIST IS GROWING STEADILY

Courts Martial Result in Sixty-Six Convictions and Two Death Sentences.

Dublin, Feb. 11.—The official survey of conditions in Ireland during the week ending February 6, issued today, states that the campaign of outrages against the Crown forces was continued with intensity, entailing 25 casualties among those forces during the week, twenty-one cases involving mortal injury. The most extensive execution it is recounted, was the big ambush at Brankan, County Limerick, when eleven of the police were killed.

The survey says the appearance of some of the bodies of the men ambushed suggested the men were killed in cold blood after having been reduced to helplessness by wounds. The feature of the week, it is declared, was the increased frequency of bomb attacks on police and military forces on the streets of Dublin, showing a callous disregard of public safety.

Seven Attacks in Week. There were seven such attacks during the week. The casualties of the Crown forces were slight, but one boy was killed and fourteen other persons injured.

The survey states that Sinn Fein assassinated four civilians during the week. Ninety-seven arrests were made for outrages and political offenses. Eighty-four court martials were held for the trial of civilians resulting in sixty-six convictions and two death sentences, one of which was commuted. The other sentences ranged from ten months to fifteen years imprisonment.

Interned Number 1855. In the seven days 187 persons were interned, making the total of persons under internment 1,855. The statistics on outrages, as given in the survey, up to February 5, include a total of seventy court martials, 535 police barracks destroyed and 205 barracks damaged. The Sinn Fein arms have numbered 3,032. Police to the number of 224 have been killed and 336 wounded, while 57 soldiers have been killed and 143 wounded.

## MEIGHEN HAS THREE QUEBEC MEMBERS READY TO ENTER HIS CABINET BEING RE-FORMED NOW

J. R. Manion, J. A. Stewart and W. A. Boys Will be the New Ontario Ministers—H. H. Stevens Likely to Enter as Western Representative—Two of the Quebec Men Are Old Time Liberals, While Third is a Conservative—By-Elections Will Test Place of Government in the Country.

Special to The Standard. Ottawa, Feb. 11.—While there were no new developments today, it can be authoritatively stated that the Prime Minister's cabinet re-organization plans are proceeding satisfactorily and that an announcement of their consummation may be issued some time next week.

For obvious reasons names have to be withheld, but it can be stated that the Premier's plans include the taking in of three prominent French-Canadians, all of whom are in sight, and that the re-organization, so far as the English-speaking section of the cabinet is concerned, will be upon an extensive scale, at least five young, aggressive men taking the place of veterans of the present cabinet, who are to retire.

One of the men, a Westerner, is one of the outstanding Liberals in Manitoba, as well as a leader of the bar of that province, while another, also likely to be called in, is an ex-New Brunswicker, whose name is a household word in the politics of Alberta.

The Ontario Men. As for Ontario the new men are likely to be J. R. Manion, of Fort William and J. A. Stewart, of Perth, with W. A. Boys, of Simcoe coming as Solicitor General. Manion, who will come in without portfolio as a representative of Ontario Roman Catholics, is a young man, who had a brilliant record in the war, a physician and an author. For two sessions past he has been one of the Ontario whips in the Commons and is a debater of considerable power.

Who from Quebec? The proposed Quebec representatives cannot be mentioned for the present. Two of them are old time Liberals, however, and the third a Conservative; the first two are at present in the House, one of them being among its foremost members.

Just how long it will take before the re-organization is completed it is not easy to say. The problem is more difficult than most people imagine.

String of By-Elections. At all events, it is coming. It will be followed by a series of by-elections that will afford an adequate test of the Government's popularity in the country. If the new ministers are rejected it will be the signal for a general election. If they are successful, it will be a mandate to the Government to carry on.

PERSIAN HORDES NAILED HUSBAND TO ROUGH CROSS

Appalling Tale of Cruelty is Related by Woman Who Reaches America.

COMPELLED TO SEE HUSBAND KILLED

Body of Murdered Man Was Cut to Pieces and Then Tossed Away.

Cleveland, Feb. 11.—I have seen women crucified, women tortured, women outraged. I have stood by a highway while my husband was murdered by Persian hordes.

I have seen horror upon horror enacted under my very eyes, until sickening sights no longer sickened me, until even the bloodiest of massacres failed to move me.

Thus spoke Mrs. Sophie Badal of Cleveland as she related in the home of her mother, Mrs. L. B. Biers, here, after a search for a haven of safety.

She drove here from Persia to which she and her husband had gone back in 1912.

With her, as she talked, were her three children, a girl, born in the United States before the family left for Persia, and two boys, born in the latter country.

Safe at last after six years of terrors, Mrs. Badal told of the murder of her husband in Persia and her efforts for two years to bring her three children back to this country.

Arrived on Freighter

Since August Mrs. Badal and her children, Mildred, 13, Clyde, 7 and Daniel, 5, have been on their way to Cleveland from Tabriz, Saturday they arrived in Philadelphia on the British freighter Kingsbury, which brought them from Bombay.

Although her husband's death left her with a Persian estate valued at \$8,000, Mrs. Badal has been bereft of a large portion of this and the authorities say it is impossible to turn the remainder into money.

Mrs. Badal has asked the organization to find work for her.

In 1912 Saul Badal, who was naturalized in Cleveland in 1911, a graduate of the school of pharmacy of the University of Pennsylvania, took his wife and daughter to Persia. The sons were born there. Caught by the war he applied for passports to America, but conditions prevented their being issued.

He joined the British army and left his wife and children with his mother.

Later he was employed by Major Eads, British intelligence officer at Tabriz, and sent to Urumia, where the family was reunited. Two weeks later the Persians broke into the mission yard where the family was housed and murdered 250 persons, including Badal, who while trying to get his family to safety was shot in the back.

When she had hidden her children Mrs. Badal tried to find her husband's body, but was told it had been cut to pieces.

Report Many Cases Of Rheumatism Now

Says we must keep feet dry, avoid exposure and eat less meat.

Slay off the damp ground, avoid exposure, keep feet dry, eat less meat, drink lots of water and above all take a spoonful of salts occasionally to keep down uric acid.

Rheumatism is caused by poisonous toxin, called uric acid, which is generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine.

The pores of the skin are also a means of ridding the blood of this impurity. In damp and chilly, cold weather the skin pores are closed, thus forcing the uric acid to double work, they become weak and sluggish and fail to eliminate this uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and muscles causing stiffness, soreness and pain called rheumatism.

At the first twinges of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast, each morning for a week. This is said to stimulate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with Epsom salt in such a way that it is gentle on the stomach.

SOUTH END BOYS CLUB BOOMING

Good Attendance at Executive Meeting — Over Hundred Boys on the Roll Call.

The South End Improvement League's executive met in the Boys Club, Broadview avenue, last evening and discussed the affairs of the club and of the league. The president, Frank White, presided.

The executive were much pleased to learn that the club was talking well with the boys of the South End and everything was going along with a swing. Director Bentley reported that 101 boys were already on the roll, and a number more would be admitted to the club next week.

The matter of making the club of greater benefit to the boys was taken up and discussed at some length. In regard to the South End rink it was decided that if the weather permitted, some interesting events would be staged within a short time after Charles Gorman returned from his triumphant tour of the American skating meets.

The South End Boys' Club is being taken full advantage of by the youth of that section of the city, who are very proud of the fine building and equipment that has been placed at their disposal for a nominal fee.

The club is open from 4 to 5.30 in the afternoon for the smaller boys, and from 6.30 to 9.30 for the big boys, some of whom sixteen and seventeen years of age.

Under the capable direction of Mr. Bentley, who was a physical instructor in the army, and a veteran of the South African and Great Wars, the boys go through "P. T." They have also travelling traps, a rope and ladder, boxing gloves and a wrestling mat, to work out on.

Opening out the gymnasium room is set off for reading and games, books and amusements are there placed at the boys' disposal.

The club's accommodations are quite spacious and it is hoped to add manual training later on. If vocational training doesn't prove a wash-out locally, steps will be made to secure an instructor from the schools.

The department officials here, replying to the captain's appeal, say that they have no vessel available for the purpose, but advise the skipper of the disabled steamer to procure aid from nearby ships, as his given position, latitude 42.50, longitude 63.90, is in the trans-Atlantic steamship lanes. ### PROMINENT FREDERICTON MAN IS DEAD

Thomas A. Wilkinson, Deputy Mayor, Died on Thursday.

ALDERMAN FOR PAST NINE YEARS

Funeral Sunday Under Auspices of Masonic Lodge—Was 48 Years of Age.

Special to The Standard. Fredericton, N. B., Feb. 11.—Thomas Stephen Wilkinson, deputy mayor of Fredericton and alderman for Charlotte ward, died on Thursday night, at 10 o'clock at his home in Charlotte street, after an illness of about a fortnight. Death was caused by pneumonia which was the latest complication.

His death caused deep regret. The flag at city hall was lowered to half staff as a token of respect.

Mr. Wilkinson was born in this city on February 21, 1872 and was in his forty-eighth year. He was of Imperial Army ancestry, his father, the late Edward Wilkinson having been sergeant-major of the coast brigade, Royal Artillery, taking his discharge and returning to Canada. Ald. Wilkinson took a marked interest in the affairs of this city and was for many years a member of the Finance committee, his connection with the insurance business particularly fitting him for that position. Last year upon the election of ex-ald. J. A. Reid, as mayor, he became chairman of the Finance committee.

During the last two years he had been deputy mayor.

In Masonic circles he occupied a prominent place. He was a member of Hiram Lodge, No. 6, for some years and held offices of distinction in it. He made his home in this city for the greater part of his life. He went west early in life after remaining there several weeks, returned to Fredericton. A few years ago, as a member of the committee for the purchase of the Ass-Company building at the corner of Queen and Regent streets, since known as the Burchill, Wilkinson Building.

Appeal to Provincial Government to Grant Relief from Poverty-Stricken State.

### BIG CONFERENCE IS CALLED FOR MONDAY

Miners Threaten to Take a Lien on Mine if Pay is Deferred.

Halifax, N. S., Feb. 11.—A delegation of citizens of Inverness, the Caperton community threatened with privation through the shutting down of the coal mines of the Inverness Coal and Railway Company, which provides the town's sole industry, came to Halifax today to confer with the Provincial Government and the Eastern Trust Company, which represents the bondholders of the company, in pressing upon both the urgent necessity of immediate relief to save Inverness from depopulation and some of the inhabitants from starvation.

### To Confer Monday

The result of the two conferences is that a conference will be held on Monday with the people of Inverness, the Government and the company represented. Besides this, \$10,000 of the back pay due the miners was distributed yesterday afternoon, the railwaymen will be paid today, and \$10,000 more will be distributed to the miners on Monday. It was said by the delegation tonight that, should Monday's meeting fail to settle the situation, the miners of Inverness will take a lien upon the company's property for the \$51,000 wages three weeks overdue.

### Urges Government Action

J. C. Bourcier, M.P.P., for Inverness introduced the delegation, strongly advocating Government action in remedying the distressing circumstances confronting his constituency.

The delegation expressed satisfaction over the attitude of the Government and the result of the meeting which was the arrangement for the conference on Monday. They said they had intended to request appointment of a committee of enquiry into the situation at Inverness, but felt that the conference between represent-

### Rothsay

Rothsay, Feb. 11.—On Monday evening members of No. 2 Rothsay Troop Boy Scouts gave a very successful entertainment to a large audience. A. W. MacKain presided and announced the programme which began with Scout songs by the boys and an exhibition of Scout work, which was most interesting. The main features were the Boy Scout play, "Crossing the Rubicon," and a humorous sketch, "The Dentist's Den," which were well done. The Wolf Cubs were very clever in their part of the programme which included a sign-hunt sketch and exhibitions of Scout work. Two recitations by Joe Allison and Hugh Ross deserve special mention. An attractive candy table in charge of Miss MacMurray, Mrs. T. C. Wetmore and Miss Kit Henderson, added well to the proceeds which will be used for the work of the Troop.

At the home of Miss Allison on Wednesday afternoon a few of our Red Cross members met and made dressing gowns for the soldiers in the Military Hospital, West St. John. Those present were Mrs. John H. ### HIGHWAYS PROBE WILL END TASKS AT HALIFAX SOON

Only Six or Seven Witnesses Remain to be Examined Now.

### MUCH EVIDENCE IS REPETITION OF FACTS

Percy Black of Amherst Recalls Formation of the 1920 Programme.

Halifax, Feb. 11.—The beginning of the end of the investigation into the expenditures of highways monies in Nova Scotia, which has been proceeding intermittently since November 1 of last year, before a Royal Commission, headed by Mr. Justice Mellish, have in sight this afternoon, when Percy Black of Amherst the only remaining member of the provincial highways board to be examined, took the witness stand, following the completion of the evidence of Walter Crowe, K.C., of Sydney. Some six or seven witnesses in all remain to be examined, but these, it is anticipated, will take up little time, and in all probability the actual taking of evidence will be completed early next week.

Much Evidence Repeated. Today's evidence was largely a repetition of that adduced previously. Walter Crowe, K.C., Sydney, testified that Premier Murray's consent to the 1920 programme had been secured as a necessary preliminary to the adoption of the report by the board since in the ordinary course of events it would have to be implemented by legislation. He was not aware that the minister of highways had unduly interfered with the powers of the board, since he did not feel that he was in a position to do so. He emphasized, at the same time, with the views of Colonel Canby, who had attacked the alleged aggressiveness of the minister, on several occasions, Percy C. Black stated that he still felt the Imperial Road contract should never have been entered into, despite the fact that it was now known that the chairman of the highways board had approved of the undertaking.

Gagetown, N. B., Feb. 11.—G. W. Dingel of this place has been elected a director of the Canadian Brown Swine Association at the annual meeting held this week in Toronto.

# ARISTOCRACY CONFRONTING DEMOCRACY

BY WILLIAM T. ELLIS  
The International Sunday School Lesson For Feb. 13 is, "Lessons on Citizenship."—Matt. 22:15-22, 34-40

Persons of short views think that our day's issue is new. Far from it. The question which is racking this old earth today is almost as old as the race. In some form or other the conflict between the servile and the servants; between aristocracy and democracy; between privilege for a few and fairness for all, has raged since the first records of organized society flared up in vividness when democracy was incarnated in Jesus, and the aristocratic order of His dangerous teachings.

As His life of paradox drew to its close, an inward calm amid outward turbulence, Jesus clashed almost daily with the leaders of the privileged group in His nation. Evidently His doctrines and His personality had stirred the established leaders to their depths. So by wiles of cunning they sought to extinguish Him: an open conflict they feared; for vested interests and in every battle His discerning spirit of truth got the victory.

A Fighting Hero  
It was in the thick of a splendid fight that Jesus fell. If there be any reader who still clings to the ancient notion that Jesus was a pale anemic, shrinking, colorless saint, strong only in the passive virtues, this is the time to take down the four inspired biographies of Him to read anew that here tale of a Captain battling to the end. In vigorous and unconventional verse, Ezra Pound portrays the Master as the "Goodly Fere," or comrade, putting lines in the mouth of Simon Zelotes, after the Crucifixion:

"Ha, was not the goodliest Fere of all For the priests, and the gallow tree? O'er ships and the open sea. When they came 'er a host to take Our Man His smile was good to see. First let these get 'er our Goodly Fere. 'Or I'll see ye damned,' says He, 'Or I'll see ye damned,' says He. 'Aye He sent us out through the crossed high spears And the scorn of His laugh rang free. Why took ye not Me when I walked about in the market? Alone in the town? says He. 'Oh we drank His 'Hale' in the good roll wine. When we list made company, No capon priest was the Goodly Fere, But a man of men was He. 'I ha' seen Him drive a hundred men. 'Wf a bundle of cords swung free. That they took the high and holy house For their pawn and treasury. 'They'll no' get him a'n a book, think. Though they write it cunningly, No mouse of the scrolls was the Goodly Fere, But aye loved the open sea. 'If they think they ha' shared our Goodly Fere, They are fools to the last degree. 'Till go to the feast, quo' our Goodly Fere, 'Though I ha' seen to the gallow tree. 'Ye ha' seen Me heal the lame and blind, And wake the dead,' says He, 'Ye shall see one thing to Master all: 'Tis how a brave man dies on the tree. 'A Son of God was the Goodly Fere 'That bade His brothers be. 'I ha' seen Him cow a thousand men. 'I ha' seen Him upon a tree. 'He cried no cry when they draw the nails.

## TO BE TROUBLED WITH CONSTIPATION The Cause of Many Ills.

If you do not feel well and go to your family physician, one of the first things he will do is ask you to hold out your tongue. The reason for this is that the condition of the tongue shows the condition of the stomach and bowels. If you allow your bowels to become constipated you will have bilious attacks, sick headaches, coated tongue, foul breath, heartburn, water brash, etc., and those troublesome piles, which cause so much annoyance and misery. Keep your bowels moving regularly and you won't be sick. In Millburn's Laxa-Liver Pills you will find just the remedy you require for this purpose. They are purely vegetable and do not grip, weaken or sicken. Mr. Jas. S. Harris, Box 904, Halifax, N. S., writes: "For two years I suffered with constipation. I could not get anything to cure me, and hardly anything would give me even temporary relief. One day my mother induced me to try Millburn's Laxa-Liver Pills and even brought me a trial. I tried them without much faith, but I soon found they were doing me good, and after using the second trial I was relieved of my trouble." Millburn's Laxa-Liver Pills are 25c a trial at all druggists, or mailed direct on receipt of price by The T. Millburn Co., Montreal, Toronto, Ont.

And the blood gushed hot and free, The bounds of the crimson sky gave tongue But never a cry cried He. 'I ha' seen Him cow a thousand men On the hills of Galilee, They whined as He walked out calm between. 'Wf His eyes like the gray of the sea. 'Like the sea that breaks no voyaging With the winds unleashed and free, Like the sea that he cowed at Geneva. 'Wf three words spoke suddenly, 'A master of men was the Goodly Fere, 'A man of the wind and sea; 'They think they ha' slain our Goodly Fere, They are fools eternally. 'I ha' seen Him eat of the honey-comb 'Sin' they mailed Him to the tree.

Strange Bedfellows  
Expediency and self-interest effect discordant alliances, as our present world reveals; and of old, as today, politics makes strange bedfellows. Aligned against Jesus were the strict Pharisees, the Nationalists, or anti-Rome party, and the moderates, or Herodians. With deep craftiness they tried to overthrow the previous failure to entrap Jesus by this time bringing Him into public opposition to the jealous and watchful Roman authorities. Then Rome would do their dirty work for them, and they would stand aside, unscathed by either party to the strife. It was a deep political stratagem, in which the leaders kept themselves out of sight. For in the background lurked "that fox," Herod, affrighted by the rise of every new personality, and the arrogant leaders of the social-political-ecclésiastical organization that ruled the Jews. A common fear of Jesus, and a panicky desire to get rid of Him, bound these antagonistic groups together.

In Carlo I once watched a government official, whose nickname was "Silly," try to entrap an American by exactly the same dishonorable methods used by the emissaries of the aristocratic party, who came to Jesus with their mouths filled with false professions of admiration for Him and of sympathy with His viewpoint. In another world, they are contestants of affairs in this one. I wonder what those Mars now think, as they contemplate themselves upon the pillars of the centuries?

There is something uncanny about the judgment of posterity and of one's peers. Recently a distinguished general, retiring from the general of a public official who had been a paid-bearer, spoke to me with shame and sorrow of the fact that this man, a publisher, had in his private life been guilty of dishonorable business practices—a "crook." In short, He left a fortune to his widow, but most of the persons for whose opinions she cares knows that it is tainted. Those inevitable post-mortem judgments should deter a certain class of unscrupulous-minded persons from the misdeeds they contemplate. Jesus perceived their wickedness; and the record concerning His questioners, and all the world ultimately, in this realm or the next, will likewise "know fully." The worst punishment of a judgment day for the wicked is complete revelation.

Religion and Citizenship  
The cunning trap laid for Jesus by these contemptible adversaries was "is it lawful to give tribute to Caesar, or not?" A "yes" or "no" answer would land Him upon one horn of a dilemma. He would either affront the Jewish Nationalists or the Roman government. Had Jesus answered categorically His reply would have had only local and temporary application. Instead, He laid down a principle of permanent application. It has come ringing down the ages; and His clear voice was never more needed than amid the confusion of our own day: "Render therefore unto Caesar, the things which are Caesar's, and unto God the things that are God's."

## Cuticura Insures Thick Glossy Hair

Shampoo with Cuticura Soap prepared by light applications of Cuticura Ointment to the scalp skin do much to cleanse the scalp of dandruff and promote the healthy condition necessary to producing luxuriant hair.

It was the new-old line-up of aristocracy versus democracy that Jesus faced. Today it confronts us with difficult variations. The average person—and thank God for the sanity and loyalty of the average person today—wants to be sympathetic with all right men and right causes, and especially with democracy, for he feels that it is Christ's side. Nevertheless, he distrusts, as demagogues very much that call for democracy. He desires a simple test and standard. I suggest that today we ask of every citizen only that he sincerely stand by the Bible and the national flag.

The man who is divinely loyal to the Bible cannot be a Bolsheviki, and he must be a democrat. There is no following Jesus without entering into fellowship with His other friends, and acquiring His spirit. "One who is a Christian, and another is a brother"—made brethren by that common allegiance. This is the teaching of the second part of our Lesson: that the greatest of all good commandments is to love God first, our neighbor as ourselves, and to love our country as ourselves. This is the teaching of the third part of our Lesson: that the greatest of all good commandments is to love God first, our neighbor as ourselves, and to love our country as ourselves.

Eggs are moving freely. Hens have laid well throughout the winter so far on account of the open winter. Shipments have been heavy. Said Mr. James the other day in discussing the new campaign with the New York Times, "Eggs coming here from the South, the Southwest and the West, in addition to the general movement from nearer points. The proportion of breakage bears no relation to the distance. Perhaps in a journey from a point 100 miles away, the shipment is 'handled' more times than a shipment coming from a distant point. The number of times a case is handled in express service will average higher, anyway, than in freight service."

Professor Benjamin of the New York State Agricultural College at Cornell, who has become interested in the egg in transit, and the claim department of the express company has been making test shipments with various kinds of packing. The professor receiving the shipments and making reports on the packing ideas embodied, from a scientific viewpoint.

TO BE TROUBLED WITH CONSTIPATION The Cause of Many Ills. If you do not feel well and go to your family physician, one of the first things he will do is ask you to hold out your tongue. The reason for this is that the condition of the tongue shows the condition of the stomach and bowels. If you allow your bowels to become constipated you will have bilious attacks, sick headaches, coated tongue, foul breath, heartburn, water brash, etc., and those troublesome piles, which cause so much annoyance and misery. Keep your bowels moving regularly and you won't be sick. In Millburn's Laxa-Liver Pills you will find just the remedy you require for this purpose. They are purely vegetable and do not grip, weaken or sicken. Mr. Jas. S. Harris, Box 904, Halifax, N. S., writes: "For two years I suffered with constipation. I could not get anything to cure me, and hardly anything would give me even temporary relief. One day my mother induced me to try Millburn's Laxa-Liver Pills and even brought me a trial. I tried them without much faith, but I soon found they were doing me good, and after using the second trial I was relieved of my trouble." Millburn's Laxa-Liver Pills are 25c a trial at all druggists, or mailed direct on receipt of price by The T. Millburn Co., Montreal, Toronto, Ont.

### Suggests Marking Of Chinese Eggs

**Local Council of Women Discusses Vocational Training, Health for Marrying.**

Vocational training, the minimum wage, mothers' pensions, illness during the sex appeal and health certificates for those desiring to marry, were matters which were discussed at length before a special meeting of the St. John Local Council of Women held yesterday afternoon. The president, Mrs. B. Atherton Smith, was in the chair. Members took strongly on many matters, but a spirit of mutual forbearance marked the discussion.

In speaking of the resolution passed at the last meeting regarding the taking over of Free Kindergartens in the public school system, Mrs. Smith stated that the Government will take over the kindergarten teaching at Easter. Up to this time the salary of a teacher has been paid by the Daughters of the Empire of St. John. Mrs. Maclean read a letter from Mrs. Parsons, speaking with regard to the resignation of Mrs. David McLellan as provincial president, and giving notice of an executive meeting to be held at Niagara Falls February 22nd to 26th. Mrs. E. Atherton Smith was elected to fill Mrs. McLellan's place until the annual meeting and it was unable to attend this meeting, Miss Carmichael will act.

**Word from Mrs. Smith**

Mrs. Ralph Smith wrote thanking the society for congratulations on her reelection. She spoke of the cordiality shown her both by men and women societies in St. John. She stated she was to be sworn in as president of Cabinet Council. A letter to Mrs. McLellan from Miss Carmichael suggested that the committee of the Maritime Provinces make Mrs. Eddy, who has done so much for the cause of education, a life member of the National Council. Mrs. Eddy is a native of Chatham. On motion, the St. John Council will send their share, \$10, toward the one hundred dollars necessary to do this. Miss Ryan, vice president of the Moncton Local Council, who was present yesterday, will bring the matter before that body.

**Want Eggs Marked**

Mrs. Melver wrote to Miss Gladys Dowling, convener of Household Economics, drawing attention to the importation into Canada through British Columbia of Chinese eggs and milk, and asking that a resolution be passed that such eggs should be marked. They are of less nutritional value than Canadian eggs. Mrs. W. Edmund Raymond, in the absence of Miss Dowling, volunteered to write to the British Columbia Council, making enquiries as to what steps are being taken in this matter.

Resolutions from the N. B. Federation of Labor of Moncton, the Women and the Minimum Wage for women and girls, were read with a request that the council endorse them. Much discussion took place over the second resolution, some members feeling that employers might be forced to dismiss employees if forced to pay a higher wage, and that it is the present high wages which are keeping up prices. Many employers provide boarding places at a small cost for girls to give them good home conditions. Others said that too many girls are paid only \$5 per week, and that it is impossible to live decently on those wages. Several spoke strongly on the fact that girls will not go in for household service, where they are kept up prices, and good homes, and that women are at present well paid for work by the day in houses; also that a minimum wage gives the inexperienced the same rate as the competent. It was pointed out that girls should get a living wage under every condition, and the resolution which had already been passed at the annual meeting was endorsed unanimously.

Mrs. R. A. Corbett gave a report on the Boys' Industrial Home, telling of the assistance given by the committee towards the Christmas treat, \$31.25 had been spent.

**Some Things Wanted**

Resolutions passed at the sub-committee held recently in Moncton were read and endorsed. They favored an advisory member on the Educational Film Company, Ltd., Boards of Motion Picture Censors with an equal number of men and women on them, assistance of national recreation, a clinic for women afflicted with venereal diseases to have women doctors and trained nurses, and a clean bill of health for persons desiring to marry. On motion, a resolution will be sent to the Provincial Government reminding them that this council has asked that a woman be appointed on the Board of Motion Picture Censors and asking that their nominee, Mrs. A. C.

### Jewels Should Be Chosen With Care

**Many Necklaces and Rings Are Worn Because They Are Fashionable Not Suitable.**

Jewelry for true adornment chosen to accord with the individual style of the wearer rather than as an index to the size of the bank account of the possessor of her husband, is strongly advocated by Miss Harriet Knott Fobes, of New York, an artist who has made her name as a designer of jewelry. She said that the originator of the cult of burnt leather and wood work in the United States some years ago, and devoted some time to interior decorating, but for many years has concentrated on hand-crafted jewelry, studying her craft at the work benches of the Artisans, also in Egypt and in Italy.

Miss Fobes made at Montreal some observations on the making and wearing of jewelry made during many years of intensive study of such subjects.

It is Miss Fobes' conviction that for every woman certain stones reserve their greatest beauty and one's special affinities in the matter of jewels ought to be sought out as diligently as the correct shades of eyes, hair and complexion.

**Beauty of Setting.**

Of equal importance with the choice of the stones or combination of stones was said to be the beauty and originality of the setting. The constant mental computation of values in looking at jewelry, either in the show case or on the person, was said to be equally responsible with the conventional ideas of what was the proper thing to wear for many fashions.

The almost universal wearing of pearls was quoted as an example of unconsidered conventional choosing of adornment, most unsuitable in many cases. Many a woman draws attention mercilessly to defects of coloring or contour of face or throat with pearls, who perhaps with jade or amethyst could have enhanced beauty of hair tints or eyes and advanced real pleasure in the eye of the beholder.

**Unsuitable Rings.**

The most flagrant offense against true sentiment, good taste, and implying overt sacrifice of beauty in Miss Fobes' opinion is the conventional insistence upon the diamond engagement ring in all cases. A betrothal ring of any other gem, expressing the personal tastes of the recipient, whether of very costly or less valuable materials, seems more suitable than the conventional diamond just as large and in many cases larger than the man can afford to purchase. It is for the young women of this country to change this convention which is so often based on false pride or the foolish determination to emulate a companion or friend, no matter what the difference in circumstances or at what ultimate cost.

### REFLECTIONS OF A BACHELOR GIRL

By HELEN ROWLAND  
(Copyright, 1920, by The Wheeler Syndicate, Inc.)

Marriage "humanizes" a woman—but, somehow, it sort of de-humanizes a man.

Nothing keeps a man so good as the knowledge that he is at liberty to be as bad as he likes; and nothing keeps a woman so young as the knowledge that she is at liberty to grow as old as she likes—without apologizing.

Before marriage, a man vows that his dearest wish is to do everything to make you happy; after marriage you have to exert all your strength to FORCE him to grant his own wish.

Love may make the world go "round"—but, somehow, another love always manages to restore a man's equilibrium in time to prevent him from toppling over into matrimony.

In love, a young girl carries thrills, excitement, and a stimulant; but what a man wants from a woman is sympathy, soothing, and an anaesthetic.

When a husband was a woman's only "career," a man used to assume that a woman was doing him a great honor and favor to marry him. Nowadays, when a girl can earn her own living, and a husband, by merely an avocation—well, he acts just as though he KNEW he were a luxury.

If it weren't for the extra padding over her ears, and the glow of vanity in her heart, surely the average girl would die of exposure, these days!

The verb "to love" is the first that a young man masters in Latin—and the last that he ever really understands in English.

Golf is a magic madness, which turns a sane man into a monomaniac, an old man into a boy, and a Don Juan into a woman-hater.

### Exmouth Street Church Supper

**About 300 in Attendance Last Evening—Under Auspices of Ladies of Church.**

In the anniversary celebration of Exmouth Street Methodist church, the ladies of that church held last evening a very successful supper at six o'clock. Some three hundred persons sat down to a splendid supper served by the ladies. The tables were prettily decorated with red candles, hearts and cupid.

Mrs. M. E. Bonnell was general convener, and the following ladies were in charge of the ten tables:—Mrs. A. D. Hopkins, Mrs. William Moore, Mrs. Gertrude Melick and Captain S. B. Stokes. The captain also acted as chorus master and led in many fine songs, both old and new. Miss Irene Maclean very ably accompanied the singing.

Following the musical portion of the entertainment all adjourned to the gym floor where old time games and dances were enjoyed. Eric Dykeman and Rex Stewart provided the music, and later in the evening refreshments provided by the Young Ladies League were served by the social committee. The meeting broke up at about midnight.

### Young Ladies Were The Guests

**About 75 Couples Present at Valentine Social in Y. M. C. A. Parlor Last Evening.**

The Young Ladies of the Y. M. C. A. were the guests of the Seniors and intermediates at a Valentine Social last evening. About seventy-five happy couples gathered in the Y. M. C. A. parlors in what was the biggest and best entertainment of the season. It was a real old time social with music, solos, games and refreshments. The pleasing musical programme consisted of solos by Paul Cross, Miss Gertrude Melick and Captain S. B. Stokes. The captain also acted as chorus master and led in many fine songs, both old and new. Miss Irene Maclean very ably accompanied the singing.

**INSANE OVER RELIGION.**

Kingston Feb. 11.—Worry over religion is believed to have driven Robert Ballantyne, aged 38, insane, this morning. He was locked up by the police and later became a raving maniac and was taken to Rockwood Asylum.

His wife is a patient in the General Hospital, suffering. It is alleged from maltreatment at the hands of her husband.

Very little hope is held out for her recovery. Ballantyne was engaged as a milkman.

### Chicago House Was Kidnapped

**Owner Found His Residence Gone—Police Ordered to Watch for it.**

Chicago, Feb. 11.—Police today were notified to keep a sharp watch for a "kidnapped" three-story house. It is an "Van Winkle" house, reported to have disappeared from its foundation off a south side lot.

Van Winkle, who lives on the north side, told the police the house had been vacant for some time. Today he took a prospective purchaser out to look at the building. When they arrived where the house had stood for years, they found nothing but the badly battered foundations.

Persons in the neighborhood said that a short time ago they noticed a number of trucks belonging to a wrecking company standing in front of the building and that a gang of men had worked all of one day getting the house on the rollers, when they started down the street with it.

Van Winkle told the police that some time ago he had some trouble with a member of the Henry Krug and Sons Wrecking Company and asked representatives of this firm to bring to court for questioning about the mysterious disappearance.

## Penn Crews Stay In Hudson Races

### Rowing Committee Decides Not to Withdraw from Poughkeepsie Regatta.

Special to The Standard. Philadelphia, Pa., Feb. 11.—Pennsylvania's rowing committee today decided that the Penn crews will remain in the intercollegiate regatta at Poughkeepsie and also complete the schedule for the coming season.

There was some talk of dropping out of the Poughkeepsie regatta on account of its coming so late in the season and the added expenses that are necessary to keep the crew in training. John Arthur Brown, president over the meeting.

When informed that no observation train would be put on by the West Shore Railroad this year Brown said: "This is very unfortunate, as well as there will be an entry from the Pacific coast. If we cannot get an observation train at Poughkeepsie we may continue to hold the regatta there, or may change to Lake Cayuga, as we did last year. The rowing was as follows:

April 16, Yale, on Homotonic River; 90th, Navy, at Annapolis.

May 14, Childs cup race, on Harlem River, New York; 28th, American Henley, Philadelphia.

June 23, Poughkeepsie regatta.

## American League Annual Meeting

### Complete Harmony Marked Session at Cleveland Yesterday.

Cleveland, Feb. 11.—Complete harmony marked the annual meeting of the American League here today, all of the clubs being represented, except New York.

The American League owners voted down the rule recommended by the new National Baseball Council that twenty-five per cent. of the club's shares of receipts in city post season series be paid into the league treasury and adopted a rule that fifteen per cent. go to the funds of the new commission instead of ten per cent. as formerly.

The rule governing sending of first year players to the minor leagues was amended to make the number unlimited. Such first year men, however, cannot be "selected" or drafted players. Formerly the limit was four. The limit also was removed from the number of players to farm out, the previous limit being eight.

Another rule amended permits players who have been in nine major leagues for ten consecutive seasons to demand an unconditional release after waivers have been served on him. Under the former rule a club could claim within ten days after the waiver period.

The matter of umpire salaries was not discussed, this having been adjusted at the Chicago meeting. League officials decided to limit requests for world series tickets for newspaper prizes in contests to newspaper prizes having major league teams. The officials also authorized payment of \$100 each for batons to be awarded to players on winning teams of world's series.

## Canadian Dogs Won At New York

### Special to The Standard.

New York, Feb. 11.—At the combined show held today in Madison Square Garden, as a curtain raiser to the Westminster Kennel Club Show opening tomorrow, Canadian dogs were well represented in the winners in the three breeds to which the show was devoted.

In Alredale terriers, Joe Russell, of Toronto, president of the Canadian Kennel Club, scored heavily with Clayville, Man of War and Clayville Vanity in quite a heavy entry. Other Canadian winners were E. A. Murby, of Toronto, owner of Harey Warlock, and E. A. Darby, of Prince Albert, Sask.

In wire-haired fox terriers, Jan F. Strachan, of Montreal, showing nine dogs, won with Ormsby Wild Rose, General, Metapama and Snowball.

In Irish terriers, H. T. Armstrong, of Lachine, Que., carried off an unusual success, with West Park Cadet.

## Boxers Cannot Use Mouth-Pieces

### New York, Feb. 11.—The New York State Boxing Commission today ruled as illegal the use of a rubber mouth-piece protector, such as worn by "Kid" Lewis in his bout at Madison Square Garden last Monday with Jack Britton, world's welterweight champion.

The ruling was announced after a hearing before a sub-committee, at which Britton, charged with misconduct in the ring, admitted that he went to his opponent's corner but struck Selig Goodman, one of Lewis' seconds, during an argument over the use of the protector. Decision in the case was reserved for consideration of the entire boxing commission and license committee.

## Briton Apologized.

Britton, who apologized to the committee for his action, said that as a championship title was at stake he felt justified in going to his opponent's corner to demand that Lewis refrain from using the protector. It was necessary because he had tender lips, which were cut easily, while Britton contended that it really was a shock absorber. The champion added that he had met Lewis a score of times and always had argued against the use of the mouthpiece, especially in a contest at Boston four years ago when they had a "wangle" over it.

## Visiting Basketball Teams

Visiting basketball teams are expected in the city in the near future. The U. N. B. basketball squad are to play here against the Y. M. C. A. Seniors at the end of the month. The Wanderers leaders of the Halifax city league will play the local Y. M. C. A.'s fast squad early in March.

A GOOD DIGESTION A GREAT BLESSING A Sufferer Tells How New Health Was Found.

Very few people appreciate what good digestion means until they lose it. To be able to eat what you want and to promptly digest it is a blessing. But your digestion is impaired if you cannot afford to risk experiments by trying uncertain remedies. Strong medicines are hard on the stomach; pre-digested foods only aggravate the trouble. What is needed is a tonic that will so strengthen the stomach as to enable it to do its own work. There is no tonic for the stomach that is not, at the same time a tonic for every other part of the body. As the blood circulates through all the body an improvement in its condition quickly results in strengthening any weak organ. Rich, red blood is absolutely necessary to good digestion. If your stomach is weak, if you are troubled with sour risings in your throat, feeling of nausea, loss of appetite or suffering about the heart, try the tonic treatment of Dr. Williams' Pink Pills. So many people have been helped by this treatment that every sufferer from indigestion should promptly try Dr. Williams' Pink Pills. Among the many who rejoice in a better digestion through the use of this medicine is Mr. D. Gouty, of Bath, N. S., who says: "For nearly four years I was an almost constant sufferer from indigestion. Any food I took disagreed with me, and I always felt drowsy and uncomfortable after eating. I had frequent headaches, and the trouble made me nervous, and I slept poorly at night. I was constantly declining, but did not find much benefit until I began using Dr. Williams' Pink Pills. By the time I had taken six boxes of these I could eat anything with relish, and felt better than I had done for years. For this reason I highly recommend these pills."

You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail at 50 cents a box, or six boxes for \$2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

On Friday evening of last week Mrs. Parke entertained at the Aphoqui House, in honor of the 15th birthday of her son, Master Roy Parke. The guests included about 20 sturdy lads of similar age, who enjoyed a hilarious evening in games and did justice to the dainties provided among which was a huge birthday cake, on which burned fifteen candles.

The residents of this village were deeply shocked and saddened on Thursday morning when news came of the death of Mr. Murray Gilchrist of St. John.

The late Mr. Gilchrist and family were residents of this village for 18 years and only last year moved to the city, and his sudden death will be sincerely mourned as an upright man whose kind and agreeable personality won him friends wherever he went and it is safe to say, "he hadn't an enemy." To the widow, daughter and sons, sincere sympathy goes out from the friends here. Though not natives of this place, they had resided here through so long a time, that their removal to St. John was generally regretted. Interment will be at Riverview Cemetery, a few miles down the river from this village, where there lies the remains of a little son. The date of the funeral is not yet known, but probably will be on Sunday.

WAR ON "COOTIE GARAGES." Winnipeg, Feb. 11.—A new war has been declared here amid much opposition from the fair sex. The "cootie garages" must go, is the dictum of a department manager in one of Winnipeg's large stores. He has issued orders that none of the female employees under his jurisdiction will be permitted to wear the "knobs" of hair over their ears which have been in vogue for more than a year. Several young girls who violated the order were promptly sent home.

Prosperous Days Ahead Say Big Business Leaders A Nation-Wide Poll of Industry

Why business should be depressed in a land overflowing with supplies that the rest of the world is suffering for, with ships lying idle that could carry them, will puzzle future generations, and to say that such a depression can not last long in the face of the whole world's need of our products, is very much like saying one and one make two.

THE LITERARY DIGEST has asked hundreds of authorities covering the entire country, comprising business leaders, professors of economics, and financial editors of daily papers for their opinion as to the prospect of prosperity's return—and when. The answers are published in this week's issue, and people who can see nothing but gloom all around the business horizon may revise their ideas when they glance over the returns. Of course, it is very much like a survey of a battle-field, but it is a battle-field where the forces are already rearming and reforming, and are here and there beginning to advance again. Moreover, the American business army is one that has never known defeat, and the reason why is evident in the tone of unconquerable optimism that runs through even the casualty reports.

"Actual business recovery to begin about April 1st;" "expect gradual improvement from now forward;" "expect business recovery gradual until inauguration—then rapid;" "expect business recovery to begin probably in spring;" "recovery is already under way;" "conditions will improve from now on." These expressions reflect the general tenor of the many replies we have received from big business leaders throughout the country.

This poll of American industry is nation-wide, and covers every State in the Union and practically every important industry. Do not fail to read it in this week's DIGEST, February 12th.

Weekly Chat

My Dear Boys and Girls: This is one of the times when I might find good reason to feel quite "stuck up" if you will excuse that expression. And the reason for indulging in such feelings is because I have had such a large number of very excellent letters this week. Then because this cheerful state of affairs is a great many new friends have requested to join our very own Club or properly speaking the Children's Corner. Do you wonder then that I am fairly bursting with pride and in order to prove my statements you will see many evidences on our page today. There were a great number of the letters I should like to have published for they were all really good. Some were perhaps a little too personal to appear in print. For the most part however several of the most suitable ones and know you will enjoy reading them as much as I did. Had I printed all the good ones there would have been room on our page for another word and that would never do. However, I am going to make my chat just a chat and nothing more, so that you will have more room for your own contributions.

Answers To Letters

MARSHALL B.—Very glad indeed to have you join us, you are rather a good writer too, and I liked your letter. Suppose you will go to school, if so tell me about it next time, Good luck.

AGNES F.—You show me already that you are going to be among the interested group of members and I can't tell you how pleased I was to know of the success you had in your hunting. Your letter was splendid, and I am going to be generous and let the members read it. What good times you are having, and indeed right on hay loads are unique for winter time. Glad the Christmas drawings were so useful to you.

IDA B.—Your first letter was very interesting indeed and helps us to become quite well acquainted already. Too bad you have no pond or river for skating on as it is such good sport and of course your skating is fine too. Even your school has started by now, and if it is such a long piece away, but the worst of the cold will soon be over. No wonder you were frightened at the sight of a wild cat, anyone would be but were you sure that that was what you really saw? Hope to hear from you soon.

ROYDEN C. B.—Welcome to our midst, glad to know you and hope to know you even better as time goes on. You ought to be glad over two things. First because the operation is successfully over with, and second, because you have accomplished the art of skating. No doubt you will feel heaps better hereafter, as do the many other fellows who have to go through that operation. You write very well for your age.

HAZEN A. R.—Certainly we are pleased to enroll you as a new one among us, but you might write a follow-up letter, telling all about yourself and your doings. Then we can feel much better acquainted.

MILBRED L.—So glad to hear from you while at your temporary home and so you are having good times too, with the mild winter weather and plenty of snow about.

TALMAGE L. H.—That was a dandy letter you sent. Rover is surely a fine sport and what fun you must have with him. I believe the other members would like to read about your cooing experiences so hope you will feel proud of yourself if your letter appears on our page today. Not every chap can do as well, but an example printed occasionally helps a lot. Hope you had the Christmas party later. Many thanks for the valentine.

HELEN O. G.—Your nicely written letter received and it is so much more satisfactory to know something more about you than just your name. Dandy is a swell name for a good dog, can he do any showing or clever things? Perhaps some other in your family are the right age to belong to the C. C. too, if so we will be glad to have them.

LEON B.—Yes, you are quite a stranger Leon and it was good to hear from you again. I don't like that cross dog you write about. Do your family think it wise to keep him around? One never knows what the cross kind might do so by very careful, hauling is fun, but a little is serious.

OLIVE B.—What a pity it took you a long time to get courage enough to join our happy club. However, better late than never and you are just as welcome as if you had come earlier. Thanks for the nice little valentine. You have quite a family of dolls to care for and besides seem to have little tasks to perform. Hope you continue to enjoy our C. C. and write often.

ANNA W.—So your new year letter is with me again and you are as usual, active and doing. You surely will forget a lot of the studies by having no school, but the best way to overcome that is to keep reviewing your past work. You must be a very musical crowd and that always means happy times. Best of wishes for your success with the violin.

MARGARET C.—You are very welcome to join us and although so near yet we call you a U. S. friend. What a lot of you know here. In these parts there is very little. Suppose brother will want to join us too. That will be good, even if he can't read yet. Hope to hear again soon.

FLORENCE MCB.—Delighted to know you Florence, and you are now enrolled in our membership book. You sent such a nice letter along too which helps us to get acquainted all once. Those were two very pretty poems you sent and they will surely be in our page though I don't know just when. Bunsy must have thought your finger was a piece of the heart of a cabbage when he tried to nibble it. Yes, that Jack Frost is a saucy fellow and he is always ready to

THE next day I received the nice letters but also some very good poems. Just now I want to make the suggestion concerning our New Member. It would be real nice to pick out any name you wish from that list and write a nice letter to the new friends. You would not only do a kindly act, but you would be starting a correspondence which would surely turn out to be most enjoyable to both of you. You often express a wish to hear from other members this is the most successful way we have yet discovered of getting acquainted. By every one of course always wanting to receive the first letter, isn't that just a little bit selfish to have that feeling? So in order to overcome it we have the new list of members occasionally printed to choose your correspondent from and of course you would never expect them to write to you who are unknown to them.

We are so very near to St. Valentine's day that we must not forget to make that a party. I trust that none of you will be so such. Let us follow his example of using the valentine as an expression of love and good will and then cheer up any who may receive them. Do your family hear dear kiddies just a chat and here I am forgetting myself, but I am sure you would all have been disappointed had we made no reference to St. Valentine and noble a memory of that dear old St. Valentine. You are all having such glorious outdoor fun this winter that I can quite believe you are sorry for the little folk who live where there is no ice or snow. Enjoy it while you may kiddies, for before very long some other in your family are the right age to belong to the C. C. too, if so we will be glad to have them.

With heaps of the best to the best,  
UNCLE DICK.

Birthday Greetings

Here's wishing a very jolly happy time to all the kiddies who have a birthday during the coming week. On our list are the following names: Francis Wandless, Fredericton. Little Alice, who had learned to read words of one syllable only, pored for a long time over an article in the Sunday School paper, entitled, "The Legend of Santa Claus." Finally she asked a puzzled tone, "Mother, what is the leg end of Santa Claus anyway?"

I arose with great alacrity To offer her my seat. 'Twas a question whether she or I Should stand upon my feet.

A Tale of a Valentine

Come all you little girls and boys and listen while I tell About a comic valentine and learn with purpose to amuse. Unto his teacher good and kind with purposes to amuse. She had been scolding him because his work kept getting worse. So he sent a valentine on with a horrid verse. And when he went to bed that night his dreams were strange and rare. That valentine he thought such fun brought him an awful scare. He found himself within a shop of most prodigious size. All hung with monster valentines with dreadful staring eyes. And as he looked in terror each stepped down from out its place. And gathered with the others there a-grinning in his face. And when with fear-set lips he tried to raise a cry for aid. The ugly luring troop struck up a frightful serenade. They all broke out in screechy roars and sang the foolish lines That had been printed on their sheets as comic valentines. The din was something terrible—a hundred graphophones. And noisy automobile horns, mixed up with ghostly groans. And as he looked in terror each stepped down from out its place. When all the transformed valentines began their discord queer. And as they passed around him they reached out and tweaked his nose Or trapped with their distorted feet upon his tender toes. But he looked in terror each stepped down from out its place. A-pulling at his toes and saying, "Get up, you sleepy head!" And as he realized that he was safe at home and well, A feeling of deep thankfulness caused his glad heart to swell; And never send again a comic valentine!"

EVERYBODY'S FRIEND

"I'm writing an 'I love you' letter to Daddy," said Polly drawing a gold arrow through a red heart. "Miss Peggy told us in school that tomorrow was St. Valentine's Day, and she said we should send 'I love you' letters to all our friends." "Not 'I love you' letters," scoffed Tom, "Valentines," they're called. Sure, tomorrow's St. Valentine's Day. I'll have to buy some valentines to send out, myself. Guess I'll get a few funny ones for the fellows." "But that's not the spirit of St. Valentine," said Mother, putting down her sewing and joining the two at the play room table. "St. Valentine stands for love and kindness and not jokes and ugly tricks." "St. Valentine?" cried Polly and Tom together. "Was there really ever such a person? Oh, do tell us about him." "Long years ago," began Mother, "there lived across the sea a man who was known as 'Everybody's Friend.' So kind and thoughtful was he of all that knew him. Many were the friends he had rich or poor, of high degree or humble birth, mastered not to him, he treated all with the same gracious kindness and consideration. Now this good man made it a habit to visit all the poor, sick and needy people of his town, wherever he went. Tears changed to smiles and sighs to laughter. His coming was awaited by the poor folk with eagerness, and his goings were attended by blessings from the lips of the poor whom he had befriended. **MUNICIPAL FINANCE COMMITTEE DISCUSSES HOSPITAL NEEDS**

**Municipality Representatives Attended Meeting to be Shown Wherein the Needs of An Additional Wing Was Closed in Peace and Harmony With Nothing Accomplished.**

The finance committee of the Municipality of St. John City and County, and the staff and commissioners of the General Public Hospital met at the hospital last night to discuss the needs and requirements of the hospital at the present time, and for years to come.

Some time ago there was sent to the Municipality a set of resolutions setting forth what the staff and commissioners thought should be done to make the hospital meet the demands being made upon it by the public. These resolutions called for a new epidemic and an additional unit to provide a maternity wing, an outdoor department and a number of extra private rooms, Warden Bullock presided.

Commissioner Thornton started the ball rolling by saying that the municipality representatives were present for the purpose of finding out why additions to the hospital were required and to learn all they could in order to make the hospital meet the demands being made upon it by the public. These resolutions called for a new epidemic and an additional unit to provide a maternity wing, an outdoor department and a number of extra private rooms, Warden Bullock presided.

Commissioner Thornton started the ball rolling by saying that the municipality representatives were present for the purpose of finding out why additions to the hospital were required and to learn all they could in order to make the hospital meet the demands being made upon it by the public. These resolutions called for a new epidemic and an additional unit to provide a maternity wing, an outdoor department and a number of extra private rooms, Warden Bullock presided.

President Agor said the resolutions were sent as a result of deliberations the commissioners had with the hospital staff. Being close to the people suffering with disease, he said, they probably were better acquainted with what was needed. Health of the community should be of first consideration. In order to supply needs of public we are lacking in accommodation, he said. People of all classes are being turned away as there is not the room to provide the different branches of service required. We are, therefore, he said, forced to appeal to the municipality to provide what the public health demands. In the way of public welfare he did not know of any way that money can be better expended than by supplying the hospital requirements. The situation must be faced sooner or later, and might as well be grappled with now.

When the new home is finished, he said, there would be some extra space in the main building that could be utilized for more hospital room. But this will not be sufficient. A new epidemic was badly needed, he said, and should be provided before any extra wings are built.

The Mayor thought it was understood we knew all that was wanted, but he would like to know what proposition the staff has to make, then let's get down to ways and means of providing same.

Dr. Curran said there is urgent need and great need of additional wing. Staff was unanimous that the thing needed was epidemic and an additional unit. All physicians were meeting many urgent cases with no place for them. Almost a tragedy existed on the outside today. Without beds available, he said, we cannot take care of patients. I am telling people to ring up Councilors and all and howl about lack of accommodations. Hospital is now caring for 1-3 more than it should. Admitting demand, we must admit we cannot do anything with general nurses home as it is thoroughly untidy for purposes that will be required. The ground floor is needed for laboratory work and that alone.

There must be accommodation for all classes of people and we do not favor taking private rooms and turning them into wards. It could be done and provide 30 more beds. If you do this the public will cry out and make you do differently. If you just alter the present hospital to make these thirty extra beds then there will be a swift public demand for the private ones.

The additional unit, which we ask he said, will pay for itself, he was sure. The epidemic is urgent and so is the other. Both should be provided together and at once.

The need of a maternity wing was discussed by Dr. Skinner. He said that the epidemic was not a fit place cases going there, and one going there was going at his own risk.

The present epidemic should be stopped. Let's go at the requirements which the public is demanding in hospital facilities, he said.

**Promises Made.**

Commissioner Thornton said they were told that with the building of the Nurses' Home that would provide for fifty extra beds for hospital cases. Now, he said, the staff says new units must be built. He said he couldn't quite understand where they were at. He thought the private rooms were not necessary.

Dr. Rolley argued for the need of a maternity wing at the hospital. He thought the nurses' home building and heating plant were pushed along too soon. The hospital accommodation should have been cared for first. He didn't think proper consideration had been given the subject.

The need of increased accommodation is imperative and must be considered at once. He pointed out that the building of the new unit was not alone for today but was making provision for the future. He emphasized the need of the epidemic and the need of rooms for private patients.

**Mayor Starts Something.**

The Mayor said he expected to see here some plan or sketch for a building. He said other cities were just as hard pressed for hospitals as St. John. He suggested that the staff propose a plan of what they want, the revenue they expect from private rooms, etc. If the demand is here, he says, as has been pointed out, then show it so the municipality can know where it is at. He didn't think they should be pushed into the thing blindly.

**Mr. Agar Aroused.**

Mr. Agar thought the new unit should not be treated as a commercial enterprise. He was not prepared to say that the new unit as proposed would be self-sustaining. He said the staff wanted the hospital fixed up for all classes of people. That could only be brought about by the erection of the new unit. The rooms in the present building must be utilized for other pressing work.

**Responsibility on Municipality**

Dr. Curran said he was telling everybody the responsibility for the situation today as with the municipality and he intended to tell it for all time until something was done to relieve the tension.

The Mayor said he assumed no responsibility until a definite plan was laid down by the staff as to what was wanted.

Dr. Agor cleared the smoke by saying the new unit should be self-supporting. There was an outdoor department in connection, and a maternity wing, many of whose patients would not be pay patients. The private rooms, of course, would be self-supporting, but it could not be expected that the private patients would support the entire wing.

He referred to a proposition put up to Dominion Government to capitalize a certain number of beds here for sailors. They agreed to do it, he says, but have never come across. Should they do it, it would be a big help to the institution. Today they are getting their work done for \$8,000.

He said the local government is not doing what it should be doing. They are giving \$3,000. If they can't do better than that, he thought it should be sent back to them and the hospital cut loose from the Government.

Dr. Allingham asked whether the council admitted the need of extension, and was answered in the negative. He pointed out there should be at least 250 beds for the hospital, figuring on a minimum basis. Today there are 250 beds in the hospital. The facilities for catering to these 250 beds are inadequate. He said the staff had agreed that the extra unit or wing was an absolute necessity. He said the present Nurses' Home was impossible for hospital purposes and not to be considered.

It is absolutely necessary, he said, that the new wing be built. The question to settle are needs of the community such as to require the new unit. If they are required then it is up to the council to act and act at once to fulfill the requirements.

**Thought Council Slow**

Dr. Roberts could not understand why the council had not been convinced of the needs of further accommodations. The Mayor's idea of places and a prospect of business he regarded as far-fetched. He said the nurses had been cared for by the providing of a beautiful home. We have the power and now, he thought, there should be provision made for the actual need, increased accommodation for 125 more patients. He said it was his opinion that provision should be made for all classes of people, and, therefore, private rooms ample to the requirements, be provided in the new wing. He said he believed a committee representing the municipality, hospital commission and staff should be appointed to get down to business and have a crystallized proposition for the council to act upon.

**Not Convinced**

Commissioner Thornton admitted he hadn't been convinced as yet. He said when funds were asked for in the building of a Nurses Home, the funds were granted on the statement that with the building of the home it would permit an additional 50 beds in the present home for hospital cases. With that promise ringing in his ears, he said, he couldn't understand why now the demand for the building of a new wing. There was nothing then said about the untidiness of the present Nurses' Home for hospital purposes.

**Dr. Bentley's Record**

Dr. Bentley read a list showing how he had been hampered in his work by not being able to get patients into the hospital, because of the crowded condition existing. As a result some of those patients had suffered. With the presentation of that list of patients who could not get accommodation, Dr. Bentley thought it sufficient proof of the need of a new wing.

Councillor Anderson felt things had been misrepresented to the municipality when the Nurses' Home was asked for. He certainly understood that with the building of the home it would make way for 50 more beds for the hospital. Now they tell us, he said, that a new wing must be built. He couldn't understand that way of doing business.

**Same Old Story**

Councillor O'Brien said the same old story of hospital needs had been told for seven years to his knowledge, and nothing had ever been done. He looked for some plan tonight to work up, coming from the staff, but he hasn't seen it. Let the staff present something feasible and then the council could get down to business. He asked for something authoritative so the council could go ahead and do some thing.

The meeting adjourned in peace and harmony with nothing accomplished.

**Engineer Seeds 25th Anniversary**

**Oyster Supper and Presentation to S. T. Seeds at No. 1 Fire Station.**

Samuel T. Seeds, engineer in No. 1 fire station, on Charlotte street, has completed twenty-five years of a faithful service in this capacity, and after looking after a steamer for that long term of service, he is now in charge of the new electrical motor pumping and chemical engine No. 2, which is housed in "Ones." Engineer Seeds is a very popular fireman and the members of No. 1 company along with some friends took occasion to give him a genuine surprise at the station last evening.

There was a large number present and after all had done ample justice to a real oyster supper, J. S. Seaton, the chairman for the evening, called on Mr. Seeds and read the following address:

St. John, N. B., Feb. 11, 1921.  
Samuel T. Seeds, Engineer No. 1 Fire Station:  
Sir—We, the members and friends of No. 1 Fire Company, take this opportunity of expressing to you on your 25th anniversary as engineer in this station, our sincere appreciation of your efforts as a fireman and of your genial manner during that long period.

As a small token of our esteem, we ask you to accept this case of pipes, and trust that you will be spared to enjoy the pleasure of smoking them for many years to come, and that every ring of smoke may remind you of one of your friends among the members and friends of No. 1 Company.

We have chosen pipes as a most suitable token, for the reason that we recognize that since you have recently lost your old smoke wagon you had taken over an electrical apparatus, but must still smoke, you had better smoke here than in the here- after.

Sincerely yours,  
J. S. SEATON,  
For members and friends of No. 1 Company.

Mr. Seeds was taken by surprise, and in a brief address of thanks, he expressed his appreciation for the kind thoughts and present from the givers.

Addresses of a complimentary nature and congratulatory were delivered by the chairman, Mr. Seaton, Joseph McAuley, an ex-member of the Bangor Fire Department; J. Corbett, Thos. McCullough, H. Atkinson, Chas. Perry, George Hays and others, after which the party enjoyed music and games, and incidentally talked over old times in the fire department. The evening proved most enjoyable and the occasion was a most popular one.
