

RUSSIANS NOW ON HUNGARIAN SIDE OF MOUNTAIN PASSES AND ARE PUSHING FORWARD ALONG WHOLE EASTERN FRONT

CZAR'S TROOPS HAVE CAPTURED CISNA AN IMPORTANT STRATEGIC POSITION IN THE CARPATHIANS

Are Also Advancing From Dukla Pass to Head of Line of Railway Running South Into Hungary and Fighting Near Other Important Railways—Have Taken Many Prisoners—They are Forging Ahead in Northern Poland as Well—Quiet in the Western Theatre of the War.

London, April 5, 10.50 p. m.—The attention of the public for the time being is directed toward the great struggle for the Carpathian passes where the Russians apparently are making very steady progress despite the obstinate resistance offered by the Austrian and German troops. The Russians are on the Hungarian side of both the Dukla and Lupkow passes, and with the aid of continual reinforcements are gaining the heights which dominate Usok Pass. Even the Austrian official report admits that fighting is now taking place in the Laborca Valley, which is south of Lupkow Pass, while the Russians tonight announce the capture of Cisna, an important station on the high mountains between Lupkow and Usok Passes, where they captured a great stock of war munitions and provisions.

The Russians are also advancing from Dukla Pass on Bartfeld, which is at the head of the line of railway running south into Hungary, and fighting not far from Mezolaborca, another important railroad head. On Saturday and Sunday they captured in the Carpathians upwards of 3,000 prisoners. They also claim another success in Bukovina and the capture of another thousand prisoners, while the Austrians also assert that they repulsed a Russian force which attempted to cross the Danube river.

The Russians also are making progress in Northern Poland, a German official report telling of the repulse of a Russian attack on Mariampol, which is considerably west of the region which a few days ago was in the possession of the Germans.

So far as the western front is concerned, comparative calm continues, the French having little to report, while the Germans announce the repulse of French attacks in the Woerre and Argonne regions, and of a Belgian attempt to recover ground which they recently lost in Flanders.

BRITISH ARMY SPREAD OUT LIKE FAN, GRIMLY HOLDING THIRTY MILES

(Continued from page 1.)

Plug street, although it is spelled a little differently on the maps. To reach you have of course to come within the shot of the enemy, for in most places the Germans and British trenches are more than 200 yards from each other, and here and there they are only fifty yards apart. One company crawls at dusk along paths which bits of experience has told the soldiers are the best means of approaching. One eventually scrambled into a communication trench, which, with a number of zig-zags, leads you to the first trench, where the men are waiting. In hand, in case of attack, or to arrange an occasional snapshot through a loophole in the trench parapet. The trenches in Plug street are like the other trenches—very exciting to look about before you reach them—unless you happen to arrive when they are bursting overhead, accompanied by a dull and matter-of-fact when you are there. It is only the chance of death that gives them their peculiar interest. Other holes excavated by men in army earth. The bee-like buzz of occasional bullet overhead reminds you that death is awaiting for its prey. Plug street has a fame which will endure. All winter the men squashed out in its awful mud, making little number of slimy, ankle-deep or knee-deep lanes from point to point among the trees. In course of time each of the muddy woodland alleys received its name from the men in the ranks.

ANADIAN POTATOES SELLING AT \$2.75 ON HAVANA MARKET.

Havana circulars of March 28, received by the Cuban consul report that the demand which was prevailing for the h in drums has not fallen off, but the arrivals reported are heavy, prices have declined to \$8.25 for codfish, \$7.50 for haddock, and \$5.75 for hake. The demand for codfish in cases has been very limited during the week, and although some animation can be expected, prices have declined to \$1.35 and \$1.50 for case for Norwegian variety and \$1.00 to \$1.07 for cod from other sources. There is no change to report in the price of 25 lb. heavy boxes prevailing for blower herring. The market for potatoes has continued wavering without any variation to report, but due to heavy stocks, holders wish to get rid of them. Quotations are \$2.75 per Canadian barrel and \$1.87 per 100 pounds for bags.

WILL RECOMMEND IT.

Commissioner McEllan said yesterday morning that he would recommend at the next meeting of the common council that the request of a local company for the use of the machinery hall in the exhibition building for the manufacture of shrapnel shells, should be granted. The company would pay rental, and would install the additional power and the special machinery at their own cost. The commissioner said he regarded it as of as much importance as matters of patriotism for the city to assist in the manufacture of ammunition as to help in housing the soldiers and that the proposal would have his support.

Nothing is known as to the fate of the crew of the Luigi Parodi, which was made up entirely of Genoese.

Approximately 400 others who had just entered the mines, escaped uninjured. Ten bodies of the dead had been recovered tonight. Only the body of T. H. Burns, who was among the first to enter the mine and whose lamp is believed to have caused the explosion, could not be found.

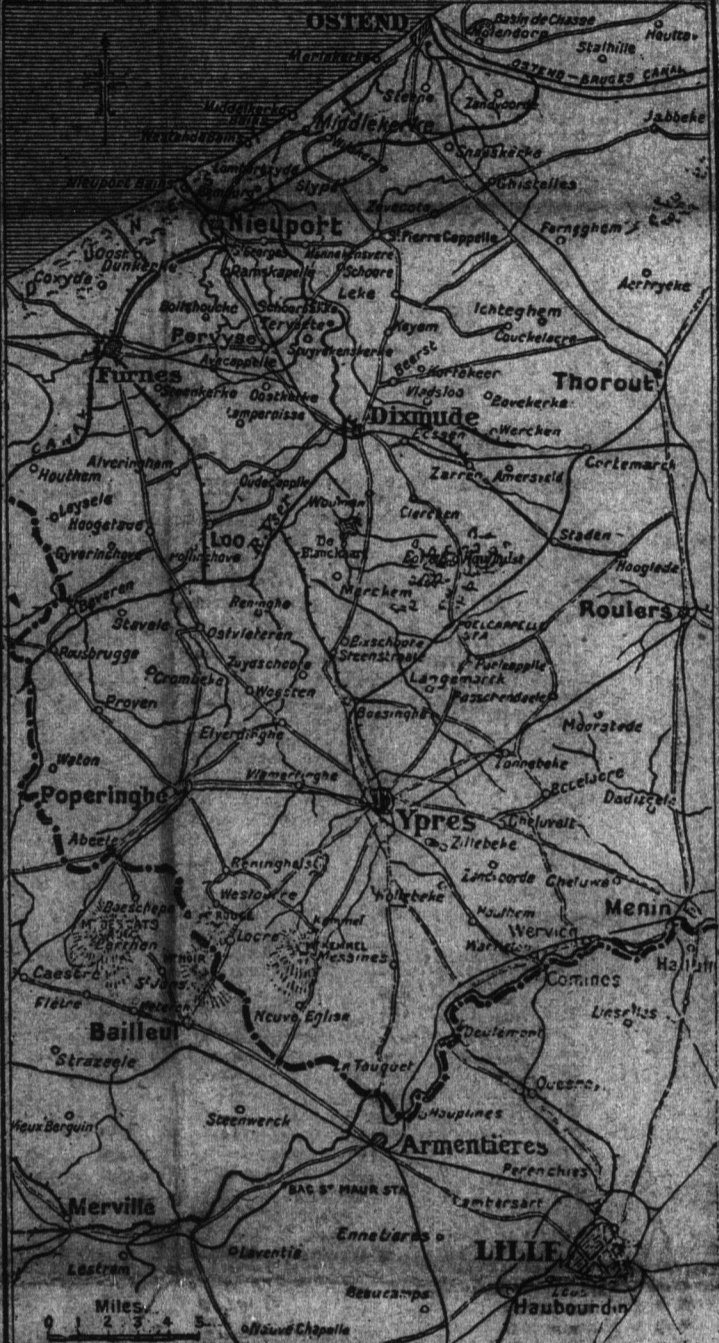

An hour before the explosion the mine inspector, after the customary daily examination, had pronounced the mine safe. In 1910 six men were killed in a similar explosion at this mine. In 1911 two men were killed in a black damp explosion there.

The negroes throughout the district, which is one of the largest negro communities in the country, were decidedly discontent.

SCENE OF FAMOUS BATTLE OF YPRES

GERMANS SAID FRENCH FIRE WAS HORRIBLE

Survivors Captured After Terrific Fighting at Meuse Declare the Eighth Bavarian Regiment Was Decimated—"Must Not Give In," is the Order—Violent Hand-to-Hand Contests.

Paris, April 6, 1 a. m.—Combats at the Eparges, in the department of Meuse, on March 18, 19 and 20, were no less brilliant and successful than the preceding engagements, according to the French official "eye-witness" in a report giving further details of the battles on this part of the front.

"The most recent success," says the report, "was due to the intense artillery preparation, the very prompt assault and violent hand-to-hand fighting. In the trenches captured from the enemy, in which our heavy artillery fire caused great excavations, we found bodies cut up and half buried in earth.

"Survivors who were captured declare that the French artillery fire was horrible. Others say that the Eighth Bavarian regiment was decimated, having lost two thousand men and sixteen officers during February. One battalion was reduced to eighty-seven men. Despite this one of the German prisoners asserted that he heard a German general say:

"We are ready to sacrifice a division, even an entire army corps of one hundred thousand, but we must not give in."

An official note relates facts performed by several officers and soldiers among them Private Rooquet, who, during a counter-attack by the Germans, jumped on a parapet and killed seven of the enemy."

Snowden Marshall regarding the state of affairs he claims to have discovered and tonight declared he expected to bring the subject to the attention of the federal grand jury.

FRIENDLY COMMENT ON NOTE TO GREAT BRITAIN FROM UNITED STATES

American Government Makes Mild Protest Against Rights of Allies to Place Embargo on All Commercial Intercourse Between Germany and Neutral Countries—The Feeling in England.

Washington, April 5.—The United States government today made public its note to Great Britain, announcing that it "could not admit," either the right of the Allies or their claims for justification in placing an embargo on all commercial intercourse between Germany and neutral countries.

"To admit it," says the communication, "would be to assume the attitude of impartiality toward the present enemies of Great Britain, which would be obviously inconsistent with the solemn obligations of this government in the present circumstances, and for Great Britain to make such a claim would be for her to abandon and set at naught the principles for which she has consistently and earnestly contended in other times and circumstances."

The note reviews at length the legal phases of a blockade of belligerent territory, and virtual blockade of neutral coasts. In conclusion, the United States states its expectation that Great Britain, after having considered "the possibilities of serious interruption of American trade," under the order-in-council, "will take steps necessary to avoid them, and in the event that they should unhappily occur, will be prepared to make full reparation for every act, which under the strictest interpretation of international law constitutes a violation of neutral rights."

The American communication interprets the circumstances under which Great Britain claims to be justified in adopting retaliatory measures toward her enemies as "merely a reason for her extraordinary activities," by her naval forces, "and not a cause for a blockade, involving on neutrals all the penalties of attempting to break through."

"We apprehend that jurists will contend that the proposal involves a far more serious infraction of international law than the Allies' present measures, but the plain certainty is worthy of a more friendly examination."

These considerations apart, the Washington government makes an important and valuable contribution in a suggestion which appears to bear the character of an invitation to the allied governments to declare a formal long distance blockade, involving on neutrals all the penalties of attempting to break through."

"We apprehend that jurists will contend that the proposal involves a far more serious infraction of international law than the Allies' present measures, but the plain certainty is worthy of a more friendly examination."

GERMAN COMMENT.

Ambassador Sharrp, at Paris, was instructed to present a copy of the American note to Great Britain to the French foreign office, with the statement that although the French admiralty decree had not been officially received in Washington, it was understood here to be identical with the British order-in-council and the American government therefore made similar reply.

WANT COTTON PLACED ON CONTRABAND LIST.

Froment British Scientists Point Out That it is Used for Explosives—Government Has so Far Declined to Move.

London, April 6, 8.34 a. m.—A number of influential scientists and engineers, headed by Lord Kelvin, have been for some time urging the government to place cotton on the contraband list, on the ground that it is used for explosives.

The correspondence between these parties and the government has been published, showing that they have brought the strongest arguments before the government that unless drastic measures are taken to exclude cotton from Germany, Great Britain is virtually supplying the Germans with ammunition.

The government, however, so far has declined to move, and has referred the petitioners to the recent order-in-council.

"The Standard, in an editorial on the American note, complains of the supineness of the government in this connection, which, it supposes, is out of deference for the United States, and says:

"If the British government thereby hopes to avoid offending the United States it has little luck, for it is not with regard to these matters that President Wilson is insistent. He protests against shadowy and ineffective claims much more than against the severe enforcement of unambiguous rights."

GERMAN BALTIC FLEET CUT OFF BY ITS OWN MINES.

London, April 6, 8.38 a. m.—The German Baltic fleet has been cut off from its base by its own mine field, which broke adrift in a storm, according to a Copenhagen despatch to the Mail. A large number of mines have floated into neutral waters.

The German fleet, returning from a Russian expedition, found the mines dangerously thick, and decided to retire towards the Islands of Gotland and Oland, until the sweepers can clear a passage.

"DRY" MAKE BIG GAINS IN MICHIGAN ELECTIONS

Detroit, April 5.—Returns received up to midnight tonight indicated sweeping victories for the "Dry" in the local option contests which featured the Michigan state election today. Incomplete returns also showed large majorities for the Republican state ticket.

The Daily Mail says: "The American people are naturally reasonable and just, and the distinguishing feature of the note is its friendly tone and general fairness." The Mail reminds Americans that the British government has carefully avoided the use of the word "blockade," admits that the demands for the expeditious settlement of prize court cases is a perfectly fair demand, and concludes:

"When all is said, England has reason to be profoundly grateful to America." The Telegraph.

The Daily Telegraph in an editorial says that it finds in the American note a tendency to discuss the British case.

SOCKS, SOCKS, SOCKS! GREATEST NEED OF SOLDIERS AT FRONT

Monday, April 5. Receipt of a telegram yesterday by Mayor Frink from the national headquarters of the Canadian Red Cross Society places the responsibility so far as New Brunswick is concerned, for the collection and forwarding of socks for our soldiers at the front on the shoulders of Royal Standard Chapter, Daughters of the Empire, who originated the call for New Brunswick and who are now making the necessary arrangements to carry it out successfully.

The telegram received by Mayor Frink follows: Toronto, April 3. James H. Frink, Mayor, St. John N. B. THIRTY-FIVE DROWNED WHEN AUSTRIAN SHIP IS BLOWN UP IN DANUBE

Paris, April 4.—Thirty-five members of the crew were drowned by the destruction of the Austrian steamer which blew up in the Danube on the night of March 30, after striking a mine near the spot, according to a despatch from Nisih to the Havas Agency. The character of the disaster was especially terrible because the steamer was especially large and loaded with a large quantity of munitions and artillery supplies destined for Turkey. The wreck of the steamer was carried by the current within range of Serbian artillery at Nisih. Another explosion followed, the wrecked vessel sank, and the captain is reported to have reformed the members of the crew to secure permission to advance their boats to a safe anchorage. A bonus of 100 francs (200) is paid.

HAD COW FEELERS ON THE GRILL

Ottawa, April 4.—(Special)—Edmund Froux of Russell is pointed and practiced in his "linking together" two sets of public figures. They are the expenditures of the cabinet ministers and the taxes imposed on the people. He recognizes that Premier Borden and Finance Minister White challenged the opposition to "make good" its criticism of governmental extravagance by pointing out specific cases. Mr. Froux pointed out some of them at Saturday night sitting of parliament. He did it with directness, and careful attention to detail, and he gave the cabinet ministers in the house a very uncomfortable half hour.

"I have been going over the auditor general's report," said he, "and I have found a great many extravaganzas, for which I think the people who are to undergo increased taxation are entitled to a full explanation. Why did it cost over \$500 to furnish the office of the minister of justice? Why did it cost over \$800 to furnish the office of the secretary of state? Why are big bills presented from nearly all the ministers for furniture and fixtures? Were not furnishings that were good enough for their predecessors good enough for them? What has been done with the old furniture? Was it thrown out or given away to some favorite?"

Then Mr. Froux went into detail. Just \$285 had been paid for a rug for the minister of justice's office. "I'd like to see that rug," commented Mr. Froux. "It must make one think he is in Windsor palace. Three new chairs had cost \$75.00 and a dayenop had cost \$90; a desk, \$125, and a waste paper basket had cost \$9. Then there were two diners, a number of cloths, bookcases and covers, all at figures Mr. Froux characterized as 'recklessly extravagant.'"

Mr. Froux went on over the list. He thought all the ministers should explain these personal extravaganzas to the public before asking the people for more taxes. He also dealt in some detail with the bills for private telephone calls of various ministers and officials, and other expenditures of such nature as might be argued, well be dispensed with during these times of heavy taxation and general public sacrifice.

COW TESTING PAYS OFF SELECTING HEIFER CALVES

The records of two herds or dairy cows owned by two neighbors furnish a striking example of the utility of dairy records to the man who really wants to build up a good herd. The first man has been cow testing for four years and has selected his cows carefully, studying their various preferences and capacities, such one as an individual. He raises his best cows from his best cows; our two-year-olds gave last year an average of 1,444 pounds of milk, while his herd of ten gave an average of 5,089 pounds of milk and 250 pounds of butterfat.

The neighbor considers it simpler to buy just what cows he can, he does not raise any calves. Last year his nine cows, all purchased from other old, except two heifers, gave an average of only 4,240 pounds of milk. This is only just about one half as much milk per cow as in the first herd. The average of only 6,355 pounds, less than the average of the two heifers in the first herd. He has nothing on which to start building up a good herd. The only judgment in "picking a winner," which judgment, by the way, does not appear to be of A. J. quality. The owner of the first herd presented a bill to the municipality of Victoria to enable the municipality to incorporate St. Clare Water Works Limited.

Mr. Carter presented petitions in favor of bills to incorporate Tobique Valley and to amend the school law, and to enable the municipality of Victoria to incorporate St. Clare Water Works Limited.

GERMANS' CHANCES MAKE "CELEULOG" GAT'S'N HADES"

London, April 2, 5.30 p. m.—A German protest and threat of reprisals on account of treatment by Great Britain of the prisoners taken aboard German submarines was made public today. This protest was transmitted by Germany to Great Britain through the United States. The reply of Great Britain was made public.

The German government, in its protest, asked whether Great Britain intended to accord less favorable treatment to captured German submarine crews than to other war prisoners, and if so, what form this discrimination would take. Germany stated that if Great Britain attempted such a course, a British army officer held prisoner in Germany would receive correspondingly harsher treatment for each member of a captured German submarine crew.

Mr. Slipp having obtained suspension of the rules for the purpose, introduced a bill to incorporate New Brunswick Power Company Limited.

Mr. Bourque presented a petition from the Port Canada Docks Railway in favor of a bill relating to that company.

Germany stated that if Great Britain attempted such a course, a British army officer held prisoner in Germany would receive correspondingly harsher treatment for each member of a captured German submarine crew.

Mr. Slipp having obtained suspension of the rules for the purpose, introduced a bill to incorporate New Brunswick Power Company Limited.

Mr. Bourque presented a petition from the Port Canada Docks Railway in favor of a bill relating to that company.

DR. MICHAEL CLARK, M. P., DEFENDS PATRIOTIC ADDRESS IN WOODSTOCK

Woodstock, N. B., April 4.—(Special)—Dr. Michael Clark, M. P., addressed a large audience tonight in the Hayden-Gibson Theatre on the great war now being fought in Europe. Dr. Clark divided his discourse into three parts in harmony with the war—its cause, its course, its consequences. It was a conflict of ideas between the forces of freedom and the forces of autocracy.

BUYING OUTSIDE THE PROVINCE TO THE EDITOR OF THE TELEGRAPH. Sir—Allow me to call the attention of the business men among your readers to the fact that they are losing the trade of this province, which is going in ever increasing quantities to Toronto and Montreal. The main order system is robbery of the manufacturers and dealers of New Brunswick. Some years ago only dry goods were ordered in this way, but now our people get groceries, hardware, such as kitchen ranges, house furniture and other articles made in New Brunswick. I was amazed to discover from a man who has the means of knowing that about \$100,000,000 worth of goods were formerly traded here and are now being shipped to Toronto and Montreal. There are good stores in this village within reach of a large farming population, but these stores do not run in favorable directions for the 21st.

THE LOOPING OF OTTAWA. (Toronto Star). In every direction in which enquiry is turned, as far as enquiry has gone yet, we find that the revenue which has been revealed in connection with the buying of war supplies.

Family Affairs. Papa and the three children were to give mother a birthday gift. The youngest boy was chosen to make the present. He prepared it with due care and thus delivered it in due season.

WINDY AT ALISON OWNER OF DEBATE ON PRESENTATION

Sackville, April 1.—After a very keenly contested windy battle, the Mount Allison University debating team on Tuesday evening defeated St. Francis Xavier at Antigonish (N. S.). The subject for discussion was: "Resolved—That for the settlement of international disputes, all and sundry (tribunal, backed by armed force, would be better than present methods, namely, optional appeal to the Hague Arbitration Tribunal, or resort to arms by individuals." St. Francis Xavier upheld the affirmative, and was represented by W. F. Chisholm (Antigonish), S. MacEachern, and J. A. Walker.

The negative side of the case, Mount Allison, was defended by C. E. Helms (Antigonish), C. H. Blakemore, and S. MacEachern. The debaters, and judges were afterwards entertained at luncheon at the college residence.

THE HALF-SPEED MAN AND WOMAN

What It Means When You Feel "All Out of Sorts."

You know what it means to feel "all out of sorts." Most people have felt that way at some time. Nerves out of order, irritable, languid, depressed. An aching head, a fagged brain, appetite lacking, nervousness, and a host of other people this condition comes and goes with "others it is chronic; they can't shake it off. It interferes with business and makes life a hell. It is the result of a lack of vitality which enables others to go "full-speed-ahead" through life. Their energy and nerve power have evaporated—they cannot work long without breaking down. The trouble is nerve weakness caused by poor, watery blood. You can begin to improve your condition today by taking Dr. Williams' Pink Pills. The excelsus from the capital continues, and the removal of the seat of government to Asia Minor seems virtually decided upon.

RUSSIAN REPORTS ABOUT SEPARATE PEACE OVERTURES.

Petrograd, April 2, via London.—The Rusky Slovo returns today to the subject of alleged Russian peace overtures. The newspaper asserts that the Austrian emperor appealed through the Pope to Berlin with a view to overcoming Bismarck's opposition to the desirability of continuing the war, but that this effort failed and that he is now trying through the same medium in Petrograd to secure a separate peace with the Allies, including Bosnia, Herzegovina and Galicia.

DRINK PROBLEM OVER SHADOWS WAR INTEREST

All Great Britain is Shaken by Agitation for Prohibition—Supplies Hidden Against "Famine." London, April 2.—The question of prohibition in the British Isles as a war measure has been seized upon by public attention to the extent of overshadowing the military operations. Public opinion is divided between favoring total prohibition and favoring stringent control of the liquor traffic. Adherents of the former have to contend with the strongly developed sense of the sacredness of personal liberty, but they are receiving increasing help from the equally pronounced sense of fair play, which prompts many to favor making universal a measure which they believe it necessary to enforce upon the makers of munitions of war if the struggle is to be carried to a successful conclusion.

Close observers of politics and students of history admit that if prohibition comes it will be the biggest shock ever felt in this country. The Norman conquest, the York-Lancaster civil war and the drastic dictatorship of Cromwell will bear no comparison to it. Wine and beer are already being hidden in large quantities. Beer is being buried in back yards, hidden in attics, stowed under coal cellars and pushed up into unused chimneys. The suburban gardens are getting sudden orders to cancel plans to use the sequestered patch for a lettuce crop. He is told to have trenches dug by 10 p. m. and then to go home to bed. When he comes in the morning he finds the ground smooth again, and a message from the master that if he is observed conducting agricultural operations in that truck patch he will be discharged.

The sudden shutting off of the sale of drink is certain to be dramatic. It is likely that it will be done at night by the police and the inland revenue officers. It happened in Russia. Full page advertisements appear in several of the newspapers this morning with petitions which readers are requested to cut out and send to Chancellor Lloyd George. The petitions read: "I am entirely in favor of the suspension of the manufacture and sale of intoxicating liquors during the war, which would be a great benefit to our country and a successful termination of the war. I shall heartily support the government in any such measure." Will Weir points is divided it is believed that the cabinet favors total prohibition for the duration of the war. The government under the defence of the realm act has the power to enforce the prohibition of the sale of beer without any further enabling legislation.

Hopewell Hill News. Hopewell Hill, April 4.—The April session of the Albert circuit court opens at the shiretown next Tuesday, April 6. The cases will come on before the grand jury. Judge Crockett will preside, and the crown prosecutor will be Daniel Mullin, K.C. of St. John. George Lower, M.P., is to be present in the afternoon at a brief visit to friends. Miss Louise Long of the Consolidated school staff, went to Hillsboro recently to meet her brother, G. F. H. Long, formerly of Centreville, Carleton county, who has been practicing law in the town and has enlisted for active service. Mr. Long at one time taught school at the Cape. Miss Aileen Turner, who has been teaching in Florenceville, came to Hopewell on Friday to spend the Easter vacation with her mother, Mrs. James Turner, Harvey. Mrs. S. Mitton has been visiting his daughter, Mrs. S. W. Smith, at Round Bay Creek. Mrs. Goodwin, of Moncton, came to Hopewell recently to spend some time with her mother, Mrs. Stebbins, at the Methodist parsonage. Private Clyde Newcomb, returned from St. John on Saturday to spend Easter with his mother, Mrs. W. H. Long, of Hopewell. Mr. Wright is sorry to learn that he is ill with diphtheria at St. John. His attack, however, is a mild one. Private S. J. Easter, being laid up with grippe, and Private Albert Steeves, it is learned, is having quite a bad time with ear trouble. Misses Edna and Hazel Hayward, of Riverside, and Miss Jessie Downing, of Albert, are spending Easter with friends in Moncton. There was a letter from Hon. Senator Costigan which showed his keen interest in the convention. He wrote the secretary of the Andover and Perth Liberal Club, regretting that he could not be present and added: "I may, however, state that I am strongly in favor of Mr. Carvell, M. P. for Carleton and Victoria, nominated by our committee, and he is sure of being elected. I feel sure that he will get a big majority in Victoria. I regard him as one of the most useful members of the house of commons. Hurrah for Carvell and the Liberal party."

Special trains left at a late hour for Grand Falls, Woodstock and Plaster Rock, and everybody who attended had but one comment to make: "It was the greatest convention ever held." Great Britain has 70 women paper-hangers and 4 bricklayers. Many questions and answers were asked and given concerning this transaction which had so shocked the province, and the quick and apt replies of all parts of the audience, when any one asked a question, showed how well the people had followed the evidence given at the investigation. Mr. Carvell then told the story of how Flemming and his associates had held up the railway from Plaster Rock to Riley Brook, how they had tried to get control of the stock from John Stewart and how they had failed. Had Flemming wished he could have guaranteed the bonds of that road, Michaud had kept the subsidy renewed. Sufficient work had been done to keep it alive and Fleming and his associates had had the road assisted, if he had been able to have his associates build it and thus get another big rake-off for himself. Turning to Dominion affairs, Mr. Carvell talked for a short time about the investigations at Ottawa and wound up with a humorous description of the factiousness of the speaker in Ottawa, which prompted many to favor making universal a measure which they believe it necessary to enforce upon the makers of munitions of war if the struggle is to be carried to a successful conclusion.
