W. J. PUGH, Esq., Barrister-at-Law, has

been admitted to the Bar of the Province of

St. John, N. B., and is now in possession of

The Weekly Freeman.

Saturday, June 7, 1879.

The Week.

Large additional reinforcements are to be

sent to South Africa where Lord Chelmsford

has now about thirty thousand men under

his command. One-half of this force are

regulars. Cetero, threatened by the

reasonable projects of some of his chiefs,

has completely disposed of the force

of the Government and has conducted the

war against the English on more scientific

principles, attacking weak and exposed

positions and avoiding those which are

strong. There is an impression that this

war cannot be brought to a close this year,

but great things are expected of Sir Garnet

Wolkeley, who is now on his way to the

Cape.

It seems too probable that we shall have

a war with Burnah. The King of that

country, it is said, disregards and violates

his treaty obligations, and he is now sending

strong forces to garrison his frontier

fortresses. The country appears to be in a

retched condition.

It is now said that the French Government

will for the present abandon those

clauses of the Education Bill which

prohibit the teaching in schools and

colleges, and that they will insist only upon

the clauses which abolish the Catholic Uni-

versities. So far they have been discomfited

by the force of public opinion, which at one

time seemed so powerful. But the suppo-

sition of the Parliament that the govern-

ment has obtained the right to establish Uni-

versities that at great cost established five,

and in these are at present nearly three

thousand students. The number of students

was rapidly increasing, and that their

children should be educated as Catholics, but

also because the education afforded in Universities

was unquestionably superior to that afforded

by the State establishments. All that could

otherwise be done to prevent the success

of the Catholic Universities was tried in

the vain, and now it is proposed to deprive them

of the right to grant degrees, which means

much more in France than it does in

Great Britain or in this country. It is to

be hoped that they will fail in this also.

It is not pleasant to hear from Spain that

there is a deficit of nearly three millions,

and that it has been found to have been

desirable to declare the Baque Provinces

once more in a state of siege, nor is it

pleasant to learn that the army in Cuba

has been ordered to govern on the principles

of the Continental Europe are called liberal

principles. It is well that the strength of the

army is to be reduced, that the colonies are

to be admitted to a share in the General

Government, that the virtually irredeemable

paper currency is to be got rid of, and that

the steps are to be taken for the speedy

abolition of slavery.

The Pope has issued an Encyclical in

which he strongly condemns the law passed

by the Italian Parliament requiring that all

marriages shall be performed by the civil

authorities. Like all his predecessors he

reprobates civil marriages, which every-

where find such favor with the enemies of

the Catholic Church because they believe

that to be one of the chief means of alienat-

ing the people from Christianity.

The Liberals in Germany, and their sup-

porters without, complain bitterly of the

alliance which they say has been formed

between Germany and the Ultramontanes,

and they hold that it has gone to the

benefit of the latter. Authentic news from

Russia is that the Emperor has by no means

the least perceiving, formidable opposition

to the proposed reforms, and that he is

very bold, defiant and troublesome.

The Governor General and Princess

Lois visited Kingston last week.

Afterwards they went to the Hotel

Victoria, where they were received by the

authorities to their honor. On the wharf at

which they landed rows of trees were planted,

and a pavilion was erected in which they

unfairly, because Mr. Joly chose to

postpone the election until the electoral lists

of the Town of St. Hyacinthe, destroyed by

the great fire, which almost demolished that

town was in part rebuilt; but it can not be

truthfully said that any one was admitted to

vote who had not a complete, legal and equi-

table right to vote, or that anyone was

excluded from the exercise of the

right to vote, or that this is not a true

electoral district. The writs for the elections

in Rouville and Chambly have been issued,

and in these districts nominations will be on

the 10th, and polling on the 17th. The

friends of the Joly Government believe they

will carry both districts.

We look everywhere for some evidence

of the prosperity which the National Policy

was to bring to the Dominion, and we look

in vain. From all over the country we hear

of the bad times. Ever since that fatal Sep-

tember 17th the country has gone steadily and

rapidly from bad to worse. We have for a time

of great manufacturers that were to spring

into existence under the benign influence of

the policy, but even those promises died

away. The enormous duties imposed on

the importation of foreign goods, and the

restriction of the importation of foreign

goods, have done more to ruin the

country we hear of the old establishments.

There was talk of a sugar refinery at

Toronto, but that has died out. They are

still talking of a refinery at Halifax, and

we are afraid that that will die out also,

although Halifax is so favorably situated for

the success of such a project. The

Government has offered a premium of

over a million dollars a year in addition to

ordinary profits to those who engage in re-

fining. So far only the Redpaths have

engaged in the business and they are making

enormous profits. They employ for

four hundred men, and the people pay

over a million dollars a year more for

sugar than they would pay if it were

imported from the United States.

Bank stocks and property of all kinds

were to advance in value and price the

moment the Tories were in power. The

fact is that the Tories have been

in power for a long time, and the

fact is that the Tories have been

in power for a long time, and the

fact is that the Tories have been

in power for a long time, and the

fact is that the Tories have been

in power for a long time, and the

fact is that the Tories have been

in power for a long time, and the

fact is that the Tories have been

in power for a long time, and the

fact is that the Tories have been

in power for a long time, and the

fact is that the Tories have been

in power for a long time, and the

fact is that the Tories have been

in power for a long time, and the

fact is that the Tories have been

in power for a long time, and the

fact is that the Tories have been

in power for a long time, and the

fact is that the Tories have been

in power for a long time, and the

fact is that the Tories have been

in power for a long time, and the

fact is that the Tories have been

in power for a long time, and the

fact is that the Tories have been

in power for a long time, and the

fact is that the Tories have been

in power for a long time, and the

fact is that the Tories have been

in power for a long time, and the

fact is that the Tories have been

in power for a long time, and the

fact is that the Tories have been

in power for a long time, and the

fact is that the Tories have been

in power for a long time, and the

fact is that the Tories have been

in power for a long time, and the

fact is that the Tories have been

vinced, but at late they are a small minority,

and many of the English complained that

the country was to be divided for electoral

purposes into the French, who had only

more than their fair proportion of representa-

tation and demanded a readjustment. All

the French supported the National Policy

Government, but the English-speak-

ing members, a majority probably of nine or

ten, opposed the Government. The tele-

grams say that the French began the trouble;

that they were not satisfied with having only

two Frenchmen in the House of Commons

and that they demanded a readjustment which

would give them a representation in the

the protection of two iron and the still higher one, steel, &c., demanded to be carried over the Interstate than those hitherto paid at those rates, and even when only small cost over the road, and explained that they could not have it. It was stated that Canada had succeeded in the revision of the tariff, but a late telegram from Montreal, says:—

(MEXICO, Londenbury,)
June 5, 1879.

Canada having failed for a readjustment of the tariff and the demand for their furnaces. The step in operation a short time contracts on hand, what rates the company understood that the rates sufficient to pay the actual cost of rolling their iron. It was not clear why this has arisen.

Time's' one day last week of many, in which Smith, made the following, that many who suspect are disappointed and there is a less content government than formula arises not from the "Telegraph" the management which, and, will always make

by some difference of use of the dissatisfaction, and of the dissatisfaction whatever.

[illegible]

LOCAL AND PROVINCIAL.

REMOVAL.

The FREEMAN OFFICE has been removed to Chubb's Corner, Prince Wm. street. First door, soon immediately over the Prince Wm. street entrance.

The Corporation horse, wagon and harness, were sold by auction on Saturday last, at the price realizing \$104.

This City Council of Montreal have resolved that they will not pay the \$10,000 voted to Dr. John after the great fire.

Mrs WALLACE ROSS, New Brunswick's representative sculler, arrived home on Friday, and was warmly received by his many friends.

FAY CAPTAIN.—The "Summeride " Progress" says St. John butchers are taking large droves of cattle from that locality for this market.

Persons gratuitously gray can have their hair restored to its youthful beauty, by using Kallie's Vegetable Scliffian Hair Renewer, the best article in the market.

FATAL ACCIDENT.—Rolt, Irvine, Jr., son of Rolt, Irvine, yard master at Campbellton, was killed at that place on Saturday by a shunting engine while working there. He had been 19 years married. His remains were brought to Carleton for interment.

An attempt was made to wreck the train which left the I. C. R. depot, St. John, on Saturday evening last, some soundal having placed a sleeper across the track. Fortunately no passenger discovered the obstruction in time to prevent the disaster.

"THE CARLETON BRANCH."—Since Monday night, trains have been run as usual on the Carleton branch railway, the track near where the great "land slide" took place having been thoroughly repaired under the inspection of Mr. J. H. McLean, Chief Engineer of the Railway Company.

FIRES AT THE NORTH.—On Friday last, about five o'clock, two fires broke out at the North Bridge was destroyed by fire, caused from sparks of burning woods near at hand. It costed two flat cars were also burned. The rails along the main track were bent upwards, and it would take several days before the line could be broken for a considerable distance.

A SERIOUS ACCIDENT.—A young man named Stanley Burke son of Edward Burke, in the employ of Messrs. W. H. Thorne & Co., met with a serious accident on the Long Wharf, Portland, on Saturday last. The young man came offboard a barket, which was lying close to the wharf. His head was very badly injured and he was carried in an unconscious condition to his home on Port Howe, where medical aid was summoned.

RAILWAY EXTENSION. On Monday last found was broken on the new piece of railroad between Macdon Junction and Vancouber, and the work of construction is now being proceeded with. It seems to us that any apparent need really for this branch, in the interest of the public or of any corporation, must rest upon facts of fact, and not upon the mere pastime of somebody. It is certainly not mandated by the pressure of traffic.—[Carleton Times.]

The Customs receipts at St. John during the month of May were \$60,244.24, against \$11,889.09 in May, 1878—a falling-off of over per cent, or nearly one-half, in the month compared with the same period of 1877.

The Inland Revenue receipts during the first six months were: May, 1878, \$27,479.86; June, £20,855.86, another serious falling off in comparison with corresponding periods of 1877. In Halifax the Customs receipts were: In January, £20,000; February, £16,000; March, £15,000; April, £14,000; May, £13,000; June, £12,000. A falling off of over \$7,000. The inland revenue receipts were: May, 1878, \$18,128.35; June, £15,000; July, £14,000; August, £13,000; September, £12,000; October, £11,000; November, £10,000; December, £9,000. A falling off of over \$7,000. The customs receipts from the sale of bill stamps in the month of May passed was £1,000 less than in the month of May, 1878, £1,000 more than in the month of May, 1877, and £1,000 more than in the month of May, 1876.

LITTLE FAIRY IN WOMEN'S CROWNING BEAUTY.—When she fades like the fade away! While her bright light, her personal attractions are still maintained. By preserving the hair fresh and restoring a youthful appearance is continued long life and health, and freedom from wrinkles and fading hair turning grey too early, should you that Ayer's Hair Vigor prevents it, and restores gray or faded hair to its natural color. It is a clear and healthful preparation, containing nothing but vegetable ingredients, and imparts to the scalp what is most needed sense of pleasant and delightful freedom on sear and dandruff.—(New Berne (N.C.) Freeman)

A WEEK IN THE WOODS.—A little boy named Willie Baker, aged seven years, son of William Baker, of Millville, who lives on N. B. Railway, wandered off into the woods Monday, 28th ult. He was not missed until midnight when search was at once instituted. The next following day hundreds of persons set out in scouring the woods in all directions, but no trace of the little fellow could be found, and all hope of rescuing him given up when on Saturday, 31st the engineer of the down train, from Millville, discovered the traces about fifteen miles from Millville station. He was almost famished, having eaten nothing since morning meal.

CHEAT COURT.—In the case of Brewing, charged with stealing various articles from A. Sheraton's warehouses, the prisoner was acquitted.

McKinnon was tried on the charge of assaulting Constable Dunham, at Fairville nine months ago. The jury failing to agree, he being looked up all night, they were discharged, and the prisoner was admitted to bail.

The case of Mrs. Kiggan, charged with receiving stolen property was not brought on, on account of the suicide of her husband, which occurred on the morning of the day fixed for trial.

Williams, the negro convicted of stabbing James O'Brien, was sentenced to 2 years in the penitentiary. The judge said that under the law he could not make the sentence lighter, although he regretted the destruction of his house, yet let the man off with 6 months imprisonment, because if he had kept him longer, owing to the circumstances of the case to the Minister of Justice with the view of having the matter taken to the extent of a retrial, according to law.

FIRE.—What at one time threatened to be a disastrous fire, occurred on Saturday morning at 11, in a barn in front of Mr. E. L. Johnson's residence corner of Victoria Street and the river. The fire spread quickly and the neighbourhood is closely covered with wooden buildings the entire block was in danger. The barn was almost wholly destroyed, and the adjacent buildings belonging to Messrs. Crothers, Henderson & Wilson, Murray & Co., Mr. John Fitzpatrick, the Oddway estate, and Geo. Carrivick, Esq., were seriously damaged, the latter however believe in every case covered by insurance.

At an early hour the same morning, a fire broke out behind the store of a house on Carmichael street, near Jones' brewery, owned by Robert Gough, and the building was filled in one of the outbuildings and the place was then fired, but fortunately the fire did not get beyond the outbuilding, and was easily extinguished, very little damage done except the burning of the building of P. Goughlin, in Chat Emerson's building, Union street, Carleton Place, which was burnt to the ground, valued at \$200 on Tuesday morning.

At 5 o'clock on Thursday morning the burners started a fire, got housed an immense blaze, and took many people from the streets.

Of the trial of a man named James F. Turner at the Carleton County sizer, the "Sunset" says:—
The prisoner is being tried upon an indictment charging him with robbing the bank between Boston and New York, on their trip taken in connection with the purchase of shares in purchasing surplus money. Moore claims that he invested some \$1500 in the speculation, and that he afterwards gave up the whole lot, but that in New York he was robbed in the winding up of each party's business. As far as we know, neither of them was satisfied with the satisfaction of getting out of that which he was in quest. His defence counsel, however, seemed to think so, though not so full and complete as was expected, was interesting to the jurors, and well executed, and the prisoner had already stated that he was informed, containing some of the known names, created some sensation.

[illegible][illegible][illegible]

Married.

At the Cathedral, on Monday morning, 31st inst., by Rev. A. Onahel, Albert R. Shaw, of Liverpool, to Miss E. Moore, daughter of the late James Shaw, of the Firm of Portland.

At the Cathedral, on the 3rd inst., by the Rev. A. Onahel, Mr. Bernard McGowan to Miss Emily H., third daughter of the late James H. McGowan, of the Firm of Portland.

At the Cathedral, on Tuesday, 3rd inst., by the Rev. A. Onahel, Mr. John Condon to Miss Mary O'Brien, of St. John.

At the Cathedral, on the 5th ult., by the Rev. Father, Mr. Thomas Bourke, of Fiddisland, to Miss Mary Keenan, of Blackrock, Dorchester.

Agent.

DR. J. S. SARPAPARILLA,
FOR PURIFYING THE BLOOD.

This compound of the vegetable—artificially—Sarsaparilla, Dock, Sella, Sillings, and Mandrake—with the addition of Potash and Iron, makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system, underlines health and settles into troublesome eruptions. Eruptions of the skin are the appearance of the surface of humors that should be expelled from the blood. Internal derangements are the foundation of these same humors to some internal vice, or organs, whose action they derange, and whose removal they effect. It is a powerful blood purifier, expels these humors from the blood. When are gone, the disorders they produce disappear, as in Disorders of the Liver, Stomach, Kidneys, Glands, and Urinary Passages of the skin (Anthrax, Pimples, Bores or Bristles, Pimples, Tetter, Itch, Bores, Tumors, Tetter and Scald Head, Female Wounds, Sterility, Leucorrhoea, Ringworm, Internal derangements, and various diseases, Dyspepsia, Emaciation and General Debility. With their departure health returns.

PREPARED BY
DR. J. C. CAYNE & CO.,
LONDON, MARK,
Practical and Analytical Chemists.
Sold by all Druggists and Dealers in Medicine.

[illegible]

A dark, vertical, textured surface, possibly a book cover or a piece of wood, with a lighter, textured area on the left side. The image is oriented vertically and shows a close-up of the material's grain and texture.
