

# Telegraphic News.

London, Sept. 14.  
The concentration of the German armies ordered to participate in the grand autumn manoeuvres is to be effected on Monday, when the manoeuvres will begin and continue through the week.

The daughter of Prince Bismarck has been betrothed to Count Wendtzenberg of the Prussian Civil Service. [What an outlandish name.]

Montreal, Sept. 11.  
The result of the deliberations of the recent Council of Roman Catholic Bishops of this Province is awaited with anxiety by the people of that faith. It is stated that an Episcopal circular will shortly be issued in which the immunity of the clergy from the operation of the civil laws will be energetically affirmed.

Mr. Geoffroy, Minister of Inland Revenue, is dangerously ill.

New York, Sept. 11.  
The steam barge Equinox foundered last night off Point au Sable, Lake Michigan, with all hands.

Gold fluctuated between 116 1/2 and 117 1/2.

Ottawa, Sept. 13.  
There are nine Ontario, four Quebec, three Nova Scotia, and two New Brunswick riflemen entitled to go to Wimbledon by to-day's train. Corbin, N.S., won first prize; Corporal Mitchell, 13th Battalion, second prize; Sergeant Sutherland, Guards, third prize. The Nova Scotians and New Brunswickers left for home this afternoon.

In the first stage of the Wimbledon match, Sprout and Johnson won twenty dollars each, and qualify for the next stage.

London, Sept. 13.  
The reports of a resumption of hostilities by the insurgents, with the sackings of Turkish villages and the massacre of the inhabitants are not confirmed.

Eleven persons perished on Saturday from poisonous gas in Dorington wood Colliery, Shropshire.

It is reported that all the country between Serbia and Montenegro is in full revolt against Turkey, and that at least 10,000 "insurgents" are in the field. The insurrection in Turkey is gaining strength, the Turkish troops are demoralized, and a general war is regarded as inevitable.

It is stated that the Orleans Princess in France will henceforth adhere to the Republic without reserve.

New York, Sept. 13.  
An extensive fire occurred at Middleburg, Vermont, on Saturday morning, destroying property to the value of nearly \$200,000.

Montreal, Sept. 13.  
The Jacques Cartier Bank has resumed business. The Bank does not discounting, and will not for some months to come.

H. Colter, late Cashier of Jacques Cartier Bank, has been again arrested, this time at the instance of the Federal Government.

Mr. RIMMOLL'S efforts are bearing good fruit, as will appear from the following copy from a late English paper: "At last we have an example of a shipowner prosecuted to conviction for sending a ship to sea in an unworthy condition. Sentence was passed at the Waterford assizes upon Mr. Loughton Freeman, a merchant and shipowner in Waterford, who was convicted at the last assizes of sending to Cardiff a brigantine named the *Alcedo* in an unworthy state. The ship, if ship it can be called, was twenty-six years old, and the timber was so rotten that the decayed parts could be taken out in handfuls. Before sending it to Cardiff the prisoner wrote to Messrs. Begg, of Cardiff, in these terms:—'I would be inclined to renew the former insurance of £250 at eight guineas if I thought there would be no danger of Plimsoll. This between ourselves—Private.' In reply to this Messrs. Begg wrote:—'We don't think there is any fear of Plimsoll interfering with deed (at all events on this side), as they don't appear so much on the look out over there.' Thus reassured, Mr. Freeman sent the ship to sea; but fortunately some one seems sufficiently on the look out to institute prosecution against him, and he has now been sentenced to pay a fine of £300 and to be imprisoned for two months. The adequacy of such a sentence is not to be judged of by its mere penal weight, but by the effect which it must produce on a man in the presumable position of the prisoner; nor can we doubt that a vigorous enforcement of the law against delinquents of this sort, followed by the infliction of a disgraceful punishment, would go far to reduce their number. No shipowner with a shred of respectability to lose would run the risk involved in wilfully sending an unworthy ship to sea with such consequences hanging over his head."

THE GIBBORD CASE.—In a lengthy and judiciously written article in the *Scottish American Journal*, the action of the misguided mob in Montreal which is attempting to prevent the burial of Joseph Guibord's remains in the Catholic Cemetery, is severely condemned; the following passages contain so much truth in a few words that we transfer them to our columns:—  
"It seems almost incredible that any body of men whose special function it is to preach peace and enforce order should, in direct even, either by words or deeds, incite to rebellion and sanction bloodshed. In too many instances ecclesiastics have given the people with their crime and folly; although the list were not already long and black enough, an addition is being made to it by the obstinate perversity, or

hot-headed indiscretion, of the Roman Catholic clergy of Montreal. The attitude at present assumed by them is very seriously to be deplored, as much for their own sake as for that of the public peace. A persistence in their course will inevitably lead to scenes of disorder which may have a fatal termination; and should they form the prelude to an agitation, having for its object the alteration of the law affecting the property and power of the Roman Catholics in the Province of Quebec, they will have only themselves to thank."

"The burial of the body of Joseph Guibord is in reality only the external form of, or a decent pretext for, a battle for supremacy by the civil and ecclesiastical powers; and when divested of all its outward accompaniments, the question really is whether the authority of the Crown is to be supreme in Quebec, as it is in other parts of the Dominion and the empire; or whether the Roman Catholic hierarchy shall be independent and irresponsible, in civil as well as ecclesiastical matters?"

## The Standard.

SAINT ANDREWS, SEP. 15, 1875.

### Publisher's Notice.

Persons indebted to the STANDARD OFFICE for the paper, advertising, &c., will please pay our collector, and those at a distance can remit by mail. Many owe us for a year and upwards, and we trust that they will liquidate their accounts without delay. There is no good reason why publishers should not be paid as promptly as others. We are happy to learn that the postage is now pre-paid by publishers, subscriptions &c. must henceforward be paid in advance.

Sir A. T. GALT.—This gentleman has written a letter on "existing Dominion affairs," which is commented upon at length by many of the dailies, and from their utterances it appears to us, (although we may err that some of them are preparing for a change of Government. While admitting that changes are sometimes forced upon the country, and that it is necessary to keep pace with the times, it is not desirable to jump the fence, or to desert a party simply for the love of change, with perhaps a dash of self-interest to obtain a larger slice off the Government loaf. Such political sumo-runs probably increase the incomes of some journals, but they undoubtedly lessen respect for their utterances, no matter how talented; and besides they beguile a want of confidence in their managers. No party ever was or ever will be perfect; and undoubtedly the men who are in power, have done more for the Dominion than their predecessors; some of whose engagements they are bound to carry out, and are accused of heaping up an enormous debt for doing. These journals need not flatter themselves that there is the most distant prospect of a "third party." The Government will continue a liberal one. The old Conservative element is too extravagant and selfish. The people feel that they are the rulers, and will think and act for themselves, feeling that they understand the country's interests. Let the "outs" watch the "ins" and trip them up if they can, but from present indications it will be a hopeless task. Advanced political men may discuss abstract questions of finance, tariff, and other leading subjects, but they would find it impossible to carry out their peculiar views in governing the country.

Toronto papers contain letters which are passing between the Chief Superintendent of Education, Dr. Ryerson, and two other members of the Council of Education, upon a question of accuracy with reference to some proceedings of the Council. Prof. Goldwin Smith, clever as he undoubtedly is, has met his match in the old Trojan, Dr. Ryerson. After all, the public should never have known of the differences between the disputants, as the discussion will not subserve the interests of education, nor will it benefit the contestants.

THE CROPS.—We are happy to learn from farmers that the crops are being secured in good order, and that they are generally an average; the army worm and weevil did but small injury. May was somewhat damaged during the wet weather last month, but the crop was large, and the prices are moderate. The next crop to be housed is turnips, and from specimens we have seen they promise a fair yield.

New Horst.—We learn that Mr. Clark, proprietor of the Railway Hotel, destroyed by fire upwards of twelve months ago, purposes erecting a large Hotel on the site of the one destroyed. The demand for accommodation is increasing every successive year, and Mr. Clark has yielded to the wishes of his former patrons, and we are informed, will erect a handsome and commodious house, finished in modern style, with all the late improvements and conveniences. In connection with the hotel he is to have large stables; and is negotiating for the purchase of a shore property, where he intends building a Bathing House. He will also have pleasure boats for sailing and rowing, and will spare no efforts to make his premises attractive to those who may please to patronize it. All this is creditable, but unless he knows how to conduct an hotel it would be of no account. Mr. Clark, however, is admitted to be adapted for a host, and understands how to

manage a hotel, as during the time he directed the "Railway Hotel" he gave general satisfaction. We have not been informed the exact date he intends to commence building operations—but there is no time to lose, if he purpose opening his establishment during the next spring. His many friends throughout the Dominion will be pleased to hear that he will resume business as a hotel manager.

Mr. Ross, a graduate of Dalhousie College, and who has been engaged in Missionary labor at Prince William, for the past few months, preached in the Presbyterian Church on Sabbath last, morning and evening, to large congregations. He is a fluent speaker, close reasoner, zealous in his Masters Work, and gives promise of being an earnest and devoted Minister; for which sacred office he has received the necessary Collegiate education and training. It is probable that after a few weeks sojourn here, he will be ordained.

ROLLER COMPOSITION.—Mr. Finley, foreman of the Daily Telegraph, has been appointed agent for the sale of the Anglo-American Composition for making rollers used by printers. We know the article, and will avail ourselves of advantages of purchasing so good an article near at hand. It is cheaper than the old glue and treacle, takes less time to melt, and makes rollers that do the work and is more durable.

CALIFORNIA.—From our regular weekly files of San Francisco papers, we learn that the Bank of California is again open. It appears that the late President, Mr. Ralston, speculated in stocks, and brought on the collapse of the bank, but that when it took place, he at once placed his princely fortune and property in the hands of the Directors. From private sources we learn, that Mr. Ralston was really a good man, and that he will be missed by many, both rich and poor. His private life was that of a devoted husband and parent, his great worth did not blunt his sensibilities nor lead him to forget his Christian duties. His case is a parallel to others in the States and the Dominion, with the single exception that they succeeded and the banks funds were not reduced.

### The Shore Line.

The Editor of the *Edinburgh Times* deserves well of his patrons, for he spares no effort to promote the prosperity of Canada and vicinity—material and moral. His advocacy of the Shore Line Railway will be crowned with success.

In Washington County, Maine, we find the best field for a railroad remaining unopened in New England. In the whole extent of territory from the St. Croix to the Penobscot, by the shore, there is not a mile of railroad; a fact which is unparalleled and almost beyond belief to strangers, when it is stated that this great section of Maine, thus deprived of the means which in these days of competition it must necessarily possess in order to develop, is dotted with large and prosperous towns, with numerous thriving villages; that it embraces one seventh of the entire population of the State; that it exhibits a magnificent water power; that it possesses superior agricultural resources, and has hundreds of dormant industries waiting to be called into life by the opening of railroad facilities and the introduction of capital, which is sure to follow. This is the section of the Shore Line which it is proposed to build the Shore Line Railroad.

EXCURSION.—About a 100 excursionists from Houlton and Woodstock arrived here by train this morning.

The New Brunswick Manufacturers and Mechanics Exhibition is to open at St. John on the 27th inst. We called attention to this fact last week, and now do so again, as the arrangements have been completed and greater facilities offered. Mr. Cornwall, the Secretary, has spared no efforts to make the Exhibition what we trust it will be—a success.

A TRICE BILL has been found by the Grand Jury at the present term of the Circuit Court, at Bathurst, against the Carquet rioters who are to be tried for murder. A true bill will also be found against Richard Jago, Jr., for the murder of Wm. Spearin, belonging to the Circus. The above report appears to be incorrect, from the following despatch to the *Globe*, dated Bathurst Sept. 11:—

"The Grand Jury ignored the bill against the Carquet prisoners for riot on the 26th January, and a bill is put before them to-day them indicted for unlawful assembly."

In the case of Eddy, the jury did not agree, and a new trial will take place.

The strmr. "City of St. John," which was wrecked a few weeks ago at the North Shore, and the wreck purchased by Mr. H. Lunt, has been raised and got round to Pictou, where she will be repaired, and in the course of a few weeks resume her trips on the North Shore. Her machinery was

not injured, and the damage to the hull not very serious. Her owners might do worse than place the steamer on her old route to the Border Ports.

FALE GOODS.—Messrs. Odell & Turner advertise to-day their Fall Stock of merchandise, purchased by the senior partner during his late visit to the British and Continental markets. From a cursory inspection we may state, that for extent of stock, variety, quality and style their present fall importation has never been equalled here; and having been, as heretofore, purchased with cash, the goods are being sold at unusually low prices.

The public Schools of Fredericton like those of St. Andrews are fast filling up. In Fredericton the Board is introducing a more systematic arrangement of studies; at the commencement of the next term all the pupils in the eighth grade will be required to study Latin six months previous to entering the High School. This is an excellent regulation, as the Teacher of the High School, will be in a position to devote his time to pupils prepared to pursue their classical studies, which many of them are not at present. We have seen boys in Grammar Schools hardly fit for Advanced Schools.

The Canadian papers report a number of failures, some of them heavy. They are attributed to a variety of causes—such as the failure of the Jacques Cartier Bank; the desire to avoid the working of the new bankrupt law; force of circumstances; overtrading, and the pressure of the times. It seldom happens, however, that a bankrupt in the Dominion, or elsewhere for that matter, closes his business without a good reason. They can always find means to keep their families comfortable, and obtain what they desire, while hardworking, industrious people find it difficult to support their families on the plainest fare, and practicing the most rigid economy. The difference between the two classes is, simply—cunning, duplicity, vanity and dishonesty on one side; and on the other, industry, frugality and honest poverty. A common saying now-a-days is,—"That man only requires to fail again when he will be rich."

One of the most remarkable ideas we have ever heard advanced is that now commonly expressed by some of the leading United States journals, who appear to rejoice in the falling off in the tide of emigration. We always believed that the introduction of immigrants with money, increased the wealth of a country, and aided in the development of its resources—in a word, enriched the country, and made it great, and prosperous.

The Montreal *Witness* gives a full description of a "Fashionable Wedding," which took place in Eskine Presbyterian Church in that city, on the 8th inst., of which a notice appears under the proper heading in this day's issue. The accomplished young lady, Miss Robertson, and Mr. Tupper, are favorably known in St. Andrews, where their friends join in wishing them great happiness in their union.

"The *Courier* states that there is no truth in the story which has gained currency in some of the papers that Hon. Dr. Tupper has leased all the available wharf property in St. Andrews in view of the early construction of Megantic Railway."

No one but a dolt would have given currency to such a palpable absurdity. The old adage says—"It is a nasty bird that fouls its own nest," and the author of the above has deservedly earned the sobriquet long since."

THE GRAND SOUTHERN RAILWAY survey is finished, and the Engineers party have returned to the States. A favorable line between St. John and St. Stephen has been found.

We copy the following sensible remarks from the *Halifax Daily Reporter and Times*:—"The confederation of these provinces would have been a paltry and dishonest thing if its benefits were exclusively for Nova Scotia, or for Quebec or for Ontario, or for any one of the two or three provinces. Its benefits and advantages are intended for the whole Dominion, from the far east to the far west. It is perfectly right that the friends and advocates of union should point out the favorable features as circumstances arise, and require facts to be brought into prominence. In Ontario and Quebec we would naturally show how the movement had benefited those provinces; and so in any one of the lesser members of the confederacy. Any great national policy or movement is many-sided, and can be looked at from many different points of view. Only political bigots or blind leaders of the blind can deal otherwise with matters of this sort. We have a common interest in the common prosperity of the whole country. The central Government must not be sectional, but national and not be Nova Scotian or Ontarian, but Canadian in the wide sense of the word."

### International Law on Steering.

The sad fatality in the Solent will, no doubt, result in a better understanding of what is or should be the rule of the road at sea. The subject was introduced into the House of Commons again last session, but after a brief discussion was referred to a Departmental Committee of the Board of Trade. The existing law—the steering and sailing rules—is not in unison with the custom and practice of the sea, and it has been stated in court by the Queen's Advocate that it has no Parliamentary obligation as regards her Majesty's ships, against whom it is not binding, although instructions have been issued. This came out conspicuously in the court-martial at Portsmouth, on board her Majesty's ship *Victory*, on the captain's officers, and men of her Majesty's ship *Amazon* after her collision with the *Osprey*, when both ships sank. When the rule of the road at sea was spoken of, the officers and men one and all declared that they had never heard of those rules, and they supposed that, if they had been sent on board, they had been relegated to the gunner's store. Foreign Governments have repeatedly urged upon the English Government the importance of a uniform and international law on the subject of steering, but hitherto to no purpose. Commander La Touche points out that full view ahead was intercepted on board the *Alberta* by the foremast funnel, which is fully 4 feet in diameter. If the wheel were close before the forecast there would be nothing at all to intercept the full view of everything ahead, and the gallant writer believes there would be a vast reduction of these "collisions at sea" if the steering wheel were placed where he affirms that it should be.

NEW FIND OF COAL.—In prospecting for iron at East Folly Mountain, a few days ago, strange to say, the Steel Company of Canada discovered a seam of coal three feet in thickness. A seam of this thickness would not be worth working, but we presume that further explorations will be made at once to ascertain if seams of greater thickness can be found at the same place, which is only a few miles from the works. A good seam of coal so near the works would be of almost incalculable value to the Steel Company.—*Halifax Herald*.

An advertisement in a respectable paper does not excite suspicion, but the irregular manner is hardly ever successful. The slip is not read, but disdainfully consigned to the fire or waste basket. We cannot compel people to buy. The best way to give satisfactory information to those intending to purchase is in the columns of a good newspaper.—*London Standard*.

The excursion on Saturday to St. George in the "Stroud" is described as a pleasant one. The day was fine, and the excursionists enjoyed the trip.

MARRIED.  
On the 10th inst., by Rev. Mr. Foley, P. P., Mr. John Verrier, to Miss Ellen Kenney.  
At Erskine Church, Montreal, on Wednesday, 8th September, by the Rev. William Taylor, D. D., assisted by the Rev. J. S. Black and the Rev. J. Hally, cousin or the bride, James Stewart Tupper, Barrister-at-Law, Toronto, eldest son of the Honorable Charles Tupper, C. B. M. P., to Mary Wilson, eldest daughter of Andrew Robertson, Esq., Edinburgh.

DIED.  
At St. John on Thursday 9th inst., at his residence, Prince Wm. street Francis Ferguson, Esq., in the 68th year of his age.  
Suddenly in Boston, on Monday last, 13th inst., Leonora, eldest daughter of Mr. Henry Stentford of St. Andrews, N.B., aged 27.

### Ship News.

#### PORT OF ST. ANDREWS.

##### ARRIVED.

18, Nellie Clark, Clark, Boston, ballast.  
Matilda, Stinson, St. Stephen, sundries.  
14, Ned, Tutton, Dorchester, coal.

##### DEPARTED.

Sept. 8, Robert Ross, Clark, Boston, 3700 sleepers, R. Ross.  
11, Mary Ellen, Britt, Dorchester, ballast.  
15, Clara, Maloney, Boston, 2500 sleepers, R. Ross.

##### GENERAL SESSIONS.

THE Court of General Sessions of the Peace for the County of Charlotte, will be held at the Court House, St. Andrews, on THURSDAY, the 21st of September, instant, at 12 o'clock, noon.

At which time and place all officers of the law, and other persons required to be at this Court, are publicly notified to give their attendance.  
ALEX. T. PAUL,  
Sheriff of Charlotte.

Sept. 7.

LOST.—On Saturday last, from the St. George Stage, a Black Travelling Bag, with wearing apparel.  
Any one who has found it, will be rewarded on leaving it at the  
Aug. 23, 1875. STANDARD OFFICE.

THE ALDINE  
THE ART JOURNAL OF AMERICA  
PUBLISHED MONTHLY  
A MAGNIFICENT CONCEPTION. WONDER-  
FULLY CARRIED OUT.

The necessity of a popular medium for the representation of the productions of our great artists, has always been recognized, and many attempts have been made to meet the want. The success of these attempts, which so invariably allowed each attempt in this country to establish an art journal, did not prove the indifference of the people of America to the claims of high art. So soon as a proper appreciation of the want and an ability to meet it were shown, the public at once rallied with enthusiasm to its support, and the result was a great static and commercial triumph—THE ALDINE.

The ALDINE, while issued with the regularity, has none of the temporary or timely interest characteristic of ordinary periodicals. It is an elegant miscellany of pure, light, and graceful literature; and a collection of pictures, portraits, and illustrations of artistic skill, in black and white. Although each issue contains many fine reproductions of the work of the great masters, the ALDINE is not a mere collection of pictures. It is a work of art in itself, and its value is not in the pictures it contains, but in the way in which they are presented. The ALDINE is a work of art in itself, and its value is not in the pictures it contains, but in the way in which they are presented.

Every subscriber for 1875 will receive a beautiful portrait, in all colors, of the same size as the picture in a former issue, and of such a nature as to be of great value to the subscriber. The ALDINE is a work of art in itself, and its value is not in the pictures it contains, but in the way in which they are presented.

THE ALDINE ART UNION  
The Union opens the originals of all THE ALDINE pictures, which, with other paintings and engravings, are to be distributed among the members. To every series of 5.00 subscribers, 100 different pictures, valued at \$2.50, are distributed as soon as the series is full, and the awards of each series are made to be published in the next succeeding issue of THE ALDINE. The Union only applies to subscribers who pay for one year in advance.

TERMS  
ONE SUBSCRIPTION, EXTENDING TO THE ALDINE ONE YEAR, THE CHROMO AND THE ART UNION, \$5.00 per annum, in advance.

CANVASSERS WANTED  
Any person willing to act permanently as a local canvasser will receive full and prompt information by applying to  
THE ALDINE COMPANY,  
103 Madison Street, New York.

REMOVAL  
JAMES STOOPE, MERCHANT TAILOR, has removed to his new establishment, at the building lately occupied by W. D. Hart, next door to J. R. Bradford's, where he will be happy to see his customers, and by promptness and efforts to please, to receive a continuance of the patronage hitherto afforded him.

VISITING & BUSINESS CARDS

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the slopes of the Sierra Nevada mountains of California. The medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of Walker's Bitters?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and life-giving principle in the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of Walker's Bitters in holding a chief place in the medicinal world. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

If men will enjoy good health, let them use Walker's Bitters as a purgative, and avoid the use of alcoholic stimulants in every form.  
E. H. McDONALD & CO.,  
Druggists and General Agents, San Francisco, California, and cor. Washington and Chatham Sts., New York.  
Solely for medicinal purposes.

No Person can take these Bitters according to directions, and remain long unwell, provided they have not been destroyed by mineral poison or other means, and vital organs wasted beyond repair. (Indigestion) Thousands of persons have been cured of the most inveterate and dangerous diseases by the use of Walker's Bitters. Biliousness, Rheumatism, and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, and other rivers, Rio Grande, Rio Colorado, Rio San Juan, Savannah, Roanoke, James, and other rivers, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence on the liver, various organs, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. Walker's Bitters. By its use, they will speedily remove the dark-colored bile matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Congestion of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia. One bottle will prove a better guarantee of its merit than a lengthy advertisement. Scrub your face with Walker's Bitters. For Skin Diseases, Eruptions, Tetter, Salt Rheum, Blisters, Spots, Pimples, Freckles, Boils, Carbuncles, Ringworms, Scald Head, Sore Eyes, Erysipelas, Itch, Scabies, Discolorations of the Skin, Humors, and Diseases of the Skin of whatever name or nature, are instantly cured by the use of these Bitters. Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no remedies, no cathartics, will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood or the turn of life, these Tonic Bitters display so decided an influence that improvements are soon perceptible. In all cases of jaundice, rest assured that your liver is not doing its work. The only reliable treatment is to promote the secretion of the bile and favor its removal. For this purpose use Walker's Bitters. Cleanse the vitiated blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure and the health of the system will follow.
