Czar in a Panic

St. Petersburg, June 29.—The general staff no longer conceals the fact that the morale of the entire army is profoundly shaken and that with Parliament championing the cause of the mutineers in each instance as it arises, the first big test may find troops will line up as the French guards did two days before the Bastille fell, on the side of the people and against the monarchy. The Stovo today says that the troubles in the army have routed the reactionary court camarilla and have precipitated a definite decision, not only to dissolve Parliament, but to dismiss the Goremykin cabinet, and that in the meantime the Emperor has directed the ministers to reply to all interpellations in Parliament,

Health Board Doctors Have Tried to Make Examinations.

New York, June 28.—A hatless young Jewess, with hair flying in the wind, and the look of a mother tigress in her eyes, ran across Broome street toward public school 110, in Cannon street, yesterday morning about 10 o'clock, crying 12 Yiddish: "The Christs are cutting my beby's throat," and within a few mineroken out into panic and riot.

Before 11 o'clock more than 50,000 children were pushing and surging through the narrow streets south of Houston and east of the Bowery, school windows were being broken by maddened parents; window screens were being torn, and mounted police, patroimen and roundsmen were charging the mobs in an effort to restore order.

Starting at Broome and Cannon streets, the news that Jewish school children were being butchered flew in some mysterious way in all directions. From the crowded tenements there tumbled a shrieking crowd of parents, older brothers and sisters, their minds filled with the red ink, job type headlines of massacres; and their one object to throw protecting arms around little Sarah or Isidor before the Alvinston and Kingsville Pedagogues butchers killed him.

Each mother told the other as she ran along, and, of course, each ran straight for the public school where the awful slaughters were taking place None stopped to inquire as to the truth of the rumors, and so in a few minutes every one of the many public before it a howling mob, while the frightened teachers and doubly scared children listened to the uproar and wondered what it was all about.

The terror of the mothers was not al layed when they reached the schools and found gibbering curbstone orators in the middle of impassioned speeches about the butcheries that were taking

place within the buildings.
"They've killed four now and buried one young mother to the throng in til recently in Kingsville, where she Lashbrook (c), Flora McLachlan (c). arrival. them in the cellar of the school," cried front of school No. 110, and like was most highly appreciated and speeches were made in front of many other schools. The wounded officers were brought to the city and their wounds dressed. Mayor Mowatt called out the Royal Canadian Horse Artillery and the men -mounted and armed-soon cowed the Italians. Ten were secured at the station and nine at Cataragui.

The ringleader is thought to be one Delalla, a victous-looking fellow. He bears a bad cut over his left eye. The contingent was brought in in hopes of identifying some of the as sailants. Sergeant Nesbitt's wounds are quite serious.

The Italians did not escape unhurt Probably a dozen of them were knocked down by the clubs of the police and detectives. The latter had "billies," which knocked down the men without cutting. The policemen's clubs, however, cut the Italians severe ly about the head. Detective Harnott, a companion of Detective Mc Rae, was seen at Dr. Bogart's, where he was waiting to accompany his wounded chief to the hospital. The extent of McRae's injuries were not just known. The knife went in deeply, however.

Detective Harnott said that unfortunately both he and his chief came away without revolvers, or they would have made short work of the ringleader. It was impossible to handle the Italians, who were fairly well armed and who were fairly crazy. He escaped with a crack on the back with a stone. All kinds of missiles were thrown and the station windows were mostly broken.

This evening a treacherous looking Italian was caught on the Perth road and brought to the police station. Police Constables Naylon and Driscoll are quite positive he was the murderous assailant who used the knife on the sergeant and detective.

needn't cook it

The price of Celluloid Starch buys just this: A starch that needs no cooking that's made so it can't possibly ever ick or cling to the iron . . . that swells under the heat, so there's never a pucker in stiff-starched things . . . that gives a far better finish with far, far less iron rubbing. Isn't that a lot for a few cents to buy, isn't it, when you thin

Less rub-rub the iron gives the starched pieces, longer those pieces keep from going to pieces. For it's the iron more than the wear that wrecks starched things. Here's a starch we say will save that wear . . . and save worry ironing day. If it will do that, it's worth the cost, ... isn't it now?

Dear Mrs. Pinkham:—
"I take the liberty to congratulate you on the success I have had with your wonderful medicine. Eighteen months ago my periods stopped. Shortly after I felt so badly that stopped. Shortly after I felt so badly that I sübmitted to a thorough examination by a physician and was told that I had a tumor and would have to undergo an operation.

"Soon after I read one of your advertisements and decided to give Lydia E. Pinkham's Vegetable Compound a trial. After trying five bottles as directed the tumor is entirely gone. I have been examined by a physician and he says I have no signs of a tumor now. It has also brought my periods around once more, and I am entirely well."—Fannie D. In tion in yesterday's police court, precautionary steps meant the sending of a child to the diphtheria ward at Victoria Hospital, though in the opinion of the attending physician, the ailment was tonsilitis and quinsy.

The physicians of the city have been accused of habitually violating the regulations, which require that all diphtheria cases be at once reported to the health officer, but they are often placed In a difficult position. If a physician is not absolutely convinced that his patient is suffering from diphtheria he hesitates to cause the house to be placarded, and the inmates exposed to the publicity and discomfort which ensue if he notifies the M. H. O. It print it. is better for the household that the patient should be sent to the hospital, but the diphtheria ward is the only place for the reception of such cases. Although tens of thousands of dollars have been spent in enlarging that institution, and the annual cost to the citizens has enormously increased, it still lacks an isolation building. If a patient sent to the diphtheria ward as a suspect proves to have tonsilitis or quinsy, he must be confined for weeks and exposed to the contagion of diphtheria. This is a most undesirable state of affairs, and strengthens the demand which the medical men of the city have made from time to time for the appointment of a local bacteriologist, or, better still, the establish- money at nearly 4 per cent in England? ment of a bacteriological institute in the city for the benefit of all Western be realized.

LONDON'S INTERSWITCHING FACILITIES.

in the House of Commons on Tuesway, a new section was added to the Dominion railway act, with the intention of meeting the interswitching situation in this city, although the secton will be general in its application. Mr. Hyman explained the position in

this city as follows:

Connection was made by loop line or spur line between the Grand Trunk and the Canadian Pacific Railway. The connection was ordered by the board, and put in by one of the railway companies. Then a difficulty arose as to the working of the connection upon the private sidings and other lines of the other road. The act had not contemplated any more than the physical connection, and, in the opinion of the board (of railway ecommissioners) did not give the full power to control the question of rates and the question of the manner in

I The meaning of the new section was further elucidated in a question put to Mr. Hyman by Mr. Maclean, as fol-

"Let me put a case, and see whether this section will meet it. I have had my attention directed to facts such as these: A farmer residing ten miles from Toronto is the consignee of two carloads of freight, which comes to him a distance of one hundred miles over the Grand Trunk. He wishes it switched to a siding of the Canadian Pacific Railway, seven or eight miles out of the city. The Canadian Pacific Railway charges onehalf as much for switching a car seven miles as the other company charges for the hundred miles. Now, does it regulate a case of that kind? There ought to be some regulation to compel one road to give to another road switching and siding connections, and the whole carriage should be charged as one proposition.

Mr. Hyman replied that the new section exactly fitted the case cited by Mr. Maclean. In the city of London the Grand Trunk had built the spur line, and the price per car which shall be charged by and paid to that company for the interchange of traffic will be had." determined by the railway board.

Interswitching facilities for the city, on reasonable terms, are now an ac complished fact, thanks largely to Mr Hyman's persistence. They will be of great convenience to many shippers. and will improve London's position as a railway and industrial center.

Dear Mrs. Pinkham:—

"I take the liberty to congratulate you on the success I have had with your wonderful medicine. Eighteen months ago my periods stopped. Shortly after I felt so badly that I schmitted to a thorough examination by a physician and was told that I had a tumor and would have to undergo an operation.

"Soon after I read one of your advertisements and decided to give Lydis E. Pinkham's Vegetable Compound a trial. After trying five bottles as directed the tumor is entirely gone. I have been examined by a physician and he says I have no signs of a tumor now. It has also brought my periods around once more, and I am entirely well."—Fannie D. President and Attorneys Talk of Method to Tackle Big Trust.

Washington, June 28.- A conference was held at the White House this afternoon in which Attorney-General Moody, Assistant Attorney-General Purdy, Messrs. Kellog and Morrison, special counsel in the case connected with the investigation of Standard Oil affairs,

participated with the President. The anti-trust phase of the question was under consideration. It was said that this question was still in the course of investigation and that no conclusion has yet been arrived at. In reference to the other phase of the question, as to whether there has been any violation of the inter-state commerce act by the Standard Oil Company, the several district attorneys summoned here by Mr. Moody have gone to their respective homes and will be guided in their actions by An announ existing conditions. It was said that will make "emotional insanity" the the department of justice wants immediate action and they will either call special grand juries or file inforto be most expeditious.

of a flour is always an important item to a careful housekeeper, but the results obtained with it should be considered when estimating the cost. A cheap flour, giving poor results on baking day, is dear at any price, whilst one costing a few cents more per bag and giving better results is cheaper in the end.

"Five Roses" Flour will, pound for pound, make more bread and better bread or pastry than any ordinary brands. Consequently, although its price may be higher it is more economical in the end, as it saves time and trouble and guarantees good results.

Mr. George Black, formerly of London mild tempered and calm, an umpire once himself, has been arrested for slugging "a umpire," Now, George, behave, behave! You will soon be the J. Muggs McGraw, of the Southern Michigan League

Stanford White, who was killed by Harry Thaw the other day, attended 300 performances of Florodora. Looks like justifiable homicide, alright.

An American preacher spoke on editors last Sunday at Louisville, Ky., and dealt specially with sporting editors. He said they had a chance, because one minister's brother was a sporting writer. If John D. Rockefeller wants to be an angel all he has to do is to purchase a stable and heigh-ho to Longchamps. Willie Vanderbilt can show him a lovely pair of wings by way of encouragement.

John L. Sullivan is reported at West Baden for the first time in twelve years. John never could see the use of boiling out that which had been so industriously put in.

The doubles championship in the Thistle Club tournament went to A. W. Keith and John F. Sifton, when they defeated J. W. Westervelt and W. B. Gillespie in a well-bowled match, by a score of 14 to 9. The winners had somewhat the best of the bowling all the way, and were never in very great danger. Neither Gillespie nor Weservelt bowled as well as on the previous

Graham and Jack McNee had a great round in the singles. Jack out to make a runaway race of it and soon had Charley Graham 14 raham settled down then and managed to beat McNee out by a of 21 to 18. It was rare sport. Graham is drawn against Bert Heaman

Russell, 2:10 3-4. He is vastly improved from last season, and Geers likes him. The pacer Baron Grattan, which will start in the free-for-all race at the Libertyville meeting the first week in July, never looked better than possibly one or two others with fast marks. Among the Libertyville pacers, however, Blacklock is the sensation. He is eligible to the 2:10 class, and the other day stepped a mile in 2:05, doing the last half in 1:01, which is by far the best move by a northern pacer this year. Geers' Chamber of Commerce pacer. Ardelle, is up to anything asked of her, but will not be strung out for a week or two. She is said to have worked in 2:08 1-2 before leaving Memphis, and to have shown a half a shade slower than a minute.

When will the turf of Canada again see the like of Mr. William Hendrie? For generations he has stood out as a bright light in the racing world. Carrying his personal integrity and strength of character into every interest in life, he gave to the turf a standing in this country which has been its pride and the chief source of its success. The Mail and Empire thus refers to him:

The news of the death of Mr. William Hendrie, of Hamilton, though not Unexpected, was received here with widespread and sincere regret. Horsemen have long looked on Mr. Hendrie as a pillar of the turf, giving largely of his means and influence for the support of an industry and a recreation that was honored by his adherence. The true type of a real sportsman, the late president of the Ontario Jockey Club has been so long a princely patron of racing that the present generation cannot recall the earlier days when his efforts to bring it to its present popularity and integrity were necessarily and unceasingly exerted. Mr. Hendrie bred and raced thoroughbred horses with no other motives than the most praiseworthy and unselfish. There was no thought of material gain in all that he did for the sport he loved and belleved in. For more than two score years the brown and yellow jacket of the Valley Farm stable has been beloved of racegoers and of all who admired a brave and honest gentleman. The successes of recent years of Martimas in the Futurity, Butter Scotch and Lyddite at the King's Plate, and Royal Bob through the field have been accompanied by the possession of many other good horses, but, as might be expected from a good sportsman, he found his greatest pride in the achievements of those of his own breeding.—Hamilton COVERPOINT.

NO IRREGULARITIES

Berlin, June 28.-President Duff, of the W. F. A., has issued his report regarding the alleged irregularities of the lead in the last sixteenth, and won Seaforth registrations.

In the case of E. E. Bryans, who was disqualified, Mr. Duff finds no indication of any kind on the part of the the only favorite to win. Seaforth club to violate either the letter or spirit of the rules. Regarding W. McLean, of the same

town can be safely termed his place of men. It is a standard remedy in these of residence, and it cannot be charged that either player or club is seeking to evade the residence law.

Opportunities for trade in iron bedsteads are reported by the Austrian consuls. An important trade is done in Saloniki, Turkey, especially for beds with tall posts for carrying mosquito nets; rich brass ornamentation is favored.

INQUISITOR WON IN TERRIFIC DRIVE

Twenty-to-One Snot Beat Out Favorite for Sheepshead Bay Handicap.

New York, June 28. - In a terrific drive, Inquisitor, a 20 to 1 shot, won the Sheepshead Bay handicap at Sheepshead Bay today, and in doing so broke the track record for the distance by stepping it in 1:37 3-5, which is one-fifth of a second faster than the best previous time over this course and within a fifth of a second of the world's record. The finish was close and exciting, the first four horses, Innamed. Halifax, the favorite, set a terrific pace for 71/2 furlongs, where Miller brought Inquisitor up on the outside and won. Peter Pan, second choice, won the Surf stakes.

By the victory of Captain Emerick in the fifth race the ring received the hardest blow it has experienced in some time. The colt opened at 10 to 1, and closed at 5 to 1, but while the horses were at the post he was again pounded to 21/2 to 1, and in many books he was at even a shorter price. Off in a fairly good position, he took ridden out by three-quarters of a length from Umbrella, with the favorite, J. C. Core, third. Pearl Jones was

Recommended-Norman James, Clare In the meantime the income from the estate, or such part of it as is not required to maintain and educate the heir, is to be expended in the support of a school of socialism. The income available for that purpose is expected to be not less than \$7,500, and may perhaps reach \$10,000 a year. Professor and Mrs. Herron are now living in Italy, and they expect to remain there indefinitely. They will have no direct connection with the school, although they will take a deep interest in its welfare and the results which are expected to follow. The funds have been placed at the disposition of the American Socialistic Society, an incorporated organization formed in 1901, for the purpose of receiving and disbursing bequests given for the advancement of the socialistic cause. It has now 26 members, most of them prominent in the socialistic propaganda of New York On behalf of Mrs. George D. Herron

Afternoon Session.

The commission continued its investigations of the insurance companies yesterday afternoon, when the session, after luncheon, was resumed. The probing into the affairs of the London Life was carried on by Mr. Tilley, the Dominion Government counsel, and by Mr. Geary, counsel for the Ontario Government, but each question only served to show that the company is straight in its dealings, and is on a solid, businesslike basis. It was shown by Mr. Tilley that the average cost of securing an industrial policy was something like two and one quarter times as much as the such companies. In fact, many companies pay much more in their reaching out for new business. On the whole, the local company

CHILD OF THE STAGE.

The other day a benevolent old gentleman beheld a little 6-year-old girl walking gravely along with a basket on her arm. Patting the chubby tot under the chin, he said:

"And where are you going, my pretty maid?"

A BRIGHT PAPER

Tomorrow's Advertiser Will Be Brim Full of Good Things.

The Advertiser of tomorrow will be found of special interest to its thousands of readers. It will contain twenty pages, brim full of the latest telegraph and local news, as well as a large number of specially prepared

articles. Dominion Day being at hand, when the anniversary of Confederation is to be celebrated throughout the land, the Catechism on Canada will be found of particular interest to both young and old. The catechism was prepared by Frank Yeigh, of Toronto, and it contains a wealth of facts relating to the growth of the Dominion financially and industrially, as well as a great amount of general information. The article will be found invaluable for reference and no doubt many people will wish extra copies.

The lover of good fiction will find special satisfaction in a complete short story by Anthony Hope, entitled "The Indifference of the Miller of Hofbrau." Anything from the pen of the author of "The Prisoner of Zenda," is worth reading. "The Indifference of the Miller of Hofbrau" is copyrighted by Mc-Clure's, but the privilege of reproducing it was secured for The Advertiser. Other features include a story of the late Detective John Murray and his clever capture of one of the slickest counterfeiters ever run to earth by

the police of the Dominion. Rev. Arthur Bowen, pastor of the Egerton Street Baptist Church, this city, contributes an article on the Congo Free State atrocities. Mr. Bowen was a missionary in the Congo for some years, and he was an eyewitness of many of the horrors that have so stirred the Christian world of late, and are resulting in representations being made to the King of Bel-

gium to have an end put to them. The Marquise de Fontenoy, that mysterious contributor to many of the leading journals of the world, has an interesting batch of gossip concerning the aristocratic families of the old world, whose histories she seems to

have at her fingers' ends. The life story of James J. Hill, one of the greatest of American railroad kings; Prof. Emil Fischer's discovery of how to produce nutritious food from coal; Mrs. Symes' health and beauty page, and the Home Dressmaker, will all be found of interest.
