THE COURTER.

trial Exhibition, to be held in London in the year 1851; that they have labored unceresingly since the idea was first started in January last, and that the latter gentlerum has ected indestigably as the Secretary of the Montreal Committee. Great, therefore, was the astonishment of the parties principally interested in bringing this praise worthy undertaking to a prosperous conclusion, to find that Mr. Leeming's name was omitted entirely in the Gazette of the 27th of July, appointing the Commission for managing the Exhibition, as well as at the om ssion of the names of Messra. Speins and Ostell—the former gent eman the President of the Mechanics' Institute, and the later a gentleman eminently interested in accentific pursuits, and qualified to undertake any task for their promotion and advancement. Equal astonishment was felt at the fact, that the Government had seen fit to place on that Commission one individual from the District of Montreal, a lawyer by profession, and not having any more acquaintence with the arts and sciences involved in such an undertaking than has the Chief of the Chockawa, and who, moreover, has not subscribed one aixpense to this, or any other popular object, that we

would be odd indeel if the "organ" could not find a pretext on which its justify any act of the Government, no matter how unjust or how unpopular; he is paid for it, however, and it is the cappers that tell—but the Mentreel mechanics are not to be so easily gulled. The "organ" talls us that the "list of names of the Montreel portion of the Commission contains every name in a list suggested to the Government by the Secretary of the Montreel Committee"— apeciously put and sangewrable, were it only true; but the real fact is, that, when that list was transmitted it was not known that there was an intext on on the part of the Government to propose a Parliamentary grant, or to interfere in the matter. It was thought that a Commission of eight persons would be sufficient for the whole Province, and four names were sent, those of Mr. Fabre, Major Campbell, Mr. Young, and Mr. Hays, as intended to see the Towar Canada. But the Government to not the Tower Canada. But the Government institutes a Commission of twenty-two persons, eleven of whom are nominally from such section of the Province, with a Secretary resident at Turonto; but as all the business of the Commissions. Thronto; but as all the business of the Commission is to be done at that city, so far as Lower Canada is concerned, they might have appointed none, or five handred; inasmuch as it will be next to impossible for the Lower Canada members to be present at meetings of the Committee, so far from their residences. Surety, if the Exhibition is to take place in Montreal, this city should have been appointed as the place of meeting of the Commission, and here should be the majority of the working members and the Secretary, and who so fit for the office as Mr. Learning, who may be said to be the father of the undertaking, and who

evenions refuge of the property age and clime.

No, the simple fact is, that the whole affair has ageographed into a mean, shuffling intrigue; party solities have been brought into play, as saust in this country, and we have reason to believe, and reason too, that Means. Leening and Ostell, and reason too, that Means.

(Signed) J. W. Dungcons. Quaber.

REPORT OF COMMITTEE OF COUNCIL.

23rd February, 1850.

The Committee of Council are respectfully of opinion that without in the alightest degree intringing on the sovereignty over the waters of the St. Lawrence, Your Excellency might authorize the Collector of Quebec to grant licences to Foreign vessels to proceed to Montreal either with or without cargo, and tikewise authorize the Collector of Montreal to grant licences to such Foreign vessels to return with cargo to Quebec, so as to clear from that port. Such an arrangement would, in the opinion of the Committee, afford the only relief which it is possible under existing elecumstances to extend to the trade of Montreal, but they have little doubt that it would effect the desired object without in any way compromising rights which the Committee of Council are of opinion ought at all times to be most carefully guarded.

Two instances having occurred of Foreign veasels passing Quebec for Montreal without obtaining the required licence, a further order has been
issued thereon:

(EXTRACT)

CUSTON HOUSE, LONDON,
20th July, 1502,
Siz,—I am commanded to acquaint you that, as
the permission for Foreign vessels to proceed under
licence to Montreal has been granted as a special
indulgence, and not as a matter of right, American
and other Foreign vessels being restricted from

INFORMATION FOR THE PUBLIC.

INFORMATION FOR THE PUBLIC.

The nit soril er bege one o respectfully to submit to his friends and the public at mage, the following facts, e upforwardly of the value of the PLANTAGERST WATER, not only as an alternise, but for its immediate and sensible operation in the improvement and ultimate restoration of health to invalide generally.

T. S. P. McDonald, Esq., from Toronto, had been in a low state of health for the last seven years, so much so as to be incapable of pursaing any useful or preditable occupation. He, recently vasted the neighborhood of the Plensingenet Eprings, so as to use daily the water of the same. At the expendition of twenty-most days, he left the Springs, so growthy renewed in beath and sparins, that he activated at a party of friends the evening before he left the neighborhood, and danced during the entiretainment—uctually danced fourteen Jigs.

He would further state another semarkable instance of the value and efficacy of these belebrated Waters:—Mr. D. Frany, in, the employment of Peter Coburn, Esq. from the County of Stormout, of which the Hoo. A. McClean is at present a Espresentative in Parliament, came reconsily to the Plantagenet Eprings, so much reduced in health, that it was with great difficulty he was enabled to walk or use his linbs with case or comfort. He 2-mained about aixteen days, drinking each day freely of the Water, and recovered his health so capility, that his mind and body appeared to assume new fauctions of health and vigor. He returned home in most excellent health.

The advertiger, in making known three circumstruces.

desires to affer to the public no exaggerated details of
faisome representations—they are given as facts, which
cannot be constrovered, and will speak for thomselves
with a testimony which will prove satisfactory to every
unprejudiced usus sensable mind.

He has still another remarkable case to report, as follows: 2---

He has still another remarkable case to report, as fol-lows: —

The child of Mr. R. J. Fowler, Professor of Mn. i. residing at No. 50, Craig Street, Montresi, had been earliering severely from an attack of the usual summer compaint, attendant on Teething. The infant became greatly reduced by the severity of the disease, as well as the influence of the heat of the weather; and great fears were entertained as to its recovery. The jacents were not the Plantagenet Water, and knowing that their family physician, Dr. McCulloch, had favourably recommended the use of this Water in many cases, they consented to make use of the amme, and they believe it was the means of restoring their child to such an improvement of health, as to afford a hope for its utinante recovery. The above circumstances will, as doubt, prove interesting to those families or, individuals who are auffering from diseases incident to infants, and the netson of during and un-wholescene fruits and vegetables.

c. LAROCQUE, Agent, For the pair eleven years I have inhored under an impaired state of the digestive organs, from which I have found no relief, even by following the prescriptions given by the best physicians of Pans, of Benavas, of Crepy, and I Gresy, on the facts: but since I have made use of the Plantagenst Waters, I find myself much better. My health has sensibly improved, and I am quite include to believe that, by the means of those beneficial Wasers, I can be radically circle. MAURICE PROUX,

Soulanges, May 24, 1859.

My disease in a Hypecondre, which has become chronic I feel an oppression and observation in the articulations of the Epitagatic up to the shoulders, where the contracting of the articulations is more especially felt. Since I drawk of the Plantagenet Mineral Waters, it eems to me as though my shoulders have been stored of fifty Rilegamus. Before I made us of your Mineral Waters, I never expectorated now I expectorate a large quantity of slimy matters. I think that for those who are troubled with viliated humors, there is no better catherite than the Plantagenet Waters, is cause they operate without dibilitating of irritating the dispessive organs. These advantages are never found with Pharmacutick medicines, as experiences has taught me, for after many faise digestions, caused by a diet ton ardeniary, I have tried and used prerequires of the Pharmacutor of my great encoderation, Arcopt, Sir, the assurance of my great consideration,

SILE AND WOOLLEN DEER, AND FURNITURE CLEANER,
No. 139, Novam Dana Straugy,
Monfreal,

MOFFATS Life Pills and Phonix Bitters.

These Medicines have now been hefure the ... in for a period of FIFTREN YEARS makes that time have maintained a high charafuring that time have melatified a high character in almost every part of the globe for their stitute, dimensional membrates power of reserving persect health to persons suffering under nearly every health to persons suffering under nearly every health of discuss to which the hismon frame is list in IN MANY THOUSANDS

of certificated instances, they have even reaching them from the very verge of an unimely given after all the deceptive nestrums of the day had at terly failed; and to many thousands they have

newed once and vigor, that they were indebte, for their name.

Unlike the host of perulcious quackeres which hast of registable ingredients, the LIFE MEDI GENES are parely and solely vegetable; and make their flectury, nor Antimony, nor Argenia, nor any other nimeral, in any lotte whatever they are untirely composed of extracts from rans and powerful plants, the virtues of which, though long known to several Indian tribes, and recently to some eminent pharmaceutucal chamma, are allogether unknown to the ignorant pretenders in medical science; and were never before administrated in as happily efficacious a combastion.

The first operation is to loosen from the costs of the stouach and lowers the various imparities and crudities constantly settling round them; and in remove the hardened faces which collect in the convolutions of the small intostines. Other medical control makes behind to produce habitual Control man, with all its traits of evils, or sudden Darrhau

coines only partially cleanes these, and leave such collected masses behind to produce habitual Custremen, with all its train of evils, or sudden Diarries with all its train of evils, or sudden Diarries with its imminent dangers. The fact a well house test regular anatomina who exames the human bowels after death; and hence the prepades of those well-informed men against the quark medicines of the age. The second effect of the Top of the Lips MEDICINES as to be the suddens and the bladder, and, but he means, the liver and lungs, the healthful action of which twist and color from the agency of the liver and lungs, before it passes into the heart, being thus purified by them, and arourished by food coming from a clean stomach, courses freely through the vents, renews every put of the system, and trumphantly mounts the banes of health in the blooming check.

The following are among the distressing variet of human discusses in which the VEGETARIES of human discusses in which the VEGETARIES of human discusses in which the VEGETARIES of human discusses in which the VEGETARIES.

TEPICINES are well known to be manufactured by the property of the first and second stomachs, and creating a flow of paneatity bile, instead of the stale and ard kad, PLATULENCY, Loss of Appetite Heathers, Heathers, Teathers, Heathers, and Melancholy, which are the praceing myptoms of Dyspepsia, will vanish, as a nature consequence of its cure.

Continuous, by cleaning the whole length of the intestiner with a solvent process, and subset violence: all violent purges leave the bowshourse within two days.

Dist. on and Cholera, by remeving its charge acred fluids by which these complaints as accusioned, and by promoting the lubricative sees tion of the miscous membrane.

sharp serid fluids by which these complains as a consisted, and by promoting the lubricative seems tion of the mutous membrane.

Fevers of all kinds, by restoring the blood is a regular discussion, through the process of peoparion in such cases, and the thorough relates of all intestival obstruction in others.

The Lers Manicates have been cosen is care. RHEUMATISM permanently in the weeks, and GOUT in half that time, by resease local inflammation from the muscles and hymnus of the joints.

Droubles of all kinds, by freeing and strengthening the kindseys and bladder: they operate not delightfully on these important organs, addening the kindseys and bladder: they operate not delightfully on these important organs, addening the kindseys and bladder: they operate not delightfully on these important organs, and low worst cases of GRAVEL.

Also Worms, by dislodging from the usuap of the bowels the slimy matter to which these operators address.

of the bowels the slimy matter to which these createrest adhere.

Asthum, and Consumption, by relieving the air-vessels of the lutge from the stucous which evaluate the lutge from the stucous which evaluate the lutge from the stucous which evaluate the direction of the lutge from the stucous which evaluate the direction of the lutge from the profess hy the profest purity which there LIFE MENICULES give to the blood, and all the human sorthing in the state of which consider the state, and the merital state of which consider the state, and the merital state of which consider the state, and the merital state of which consider the state, and the merital state of which consider the state, and the merital state of which consider the state, and the merital state of which consider the state of these Pills for a very short time will offer a merital curse of SALT RIEUN, as a striking improvement in the clearness of the state COMAON care by an distinct and consider the worst case.

As a remedy for this most decrease of the state of the stat

and obstitute mainty, the YEGETABLE LIZE

REDICIES As deserve a distinct and capies recommendation. It is well known to business the sity, that the former proprietor of them with the interest of the site of the
