## MRS. JENNIE MAY EATON FREED BY JURY TO-DAY

She Was Charged With Poisoning Her Husband,  
Rear Admiral Eaton, With White Arsenic—  
Jury Deliberated All Last Night Before Reach-  
ing a Verdict—Details of the Trial.

[Canadian Press Despatch]  
PLYMOUTH, Mass., Oct. 30.—Mrs. Jennie May Eaton was acquitted on the charge of murdering her husband, Rear Admiral Joseph G. Eaton, by the verdict of the jury rendered at 5 o'clock this morning.  
The jury had retired at 6 o'clock last night. Notwithstanding that there seemed little prospect as the night wore on of a verdict before morning, a crowd of nearly two hundred persons sat out the tedious night. Mrs. Eaton awaited the verdict composedly, and smiled when she heard the foreman of the jury pronounce her "not guilty."  
After Mrs. Eaton had left the court room the jurors through their foreman asked that they might be allowed to meet her. The permission was granted and they formed a semi-circle in the corridor. Mrs. Eaton came out from the judge's lobby and thanked them individually. As she did so, she burst into tears for the first time since her trial started. A little later Mrs. Eaton gave out the following statement:  
"I am so glad, glad most of all because of my aged mother and my lame child, both of whom need me. I am so much to them. I shall go home probably late to-day and I hope a new life will be opened to me and that the trials and tribulations which have been mine in the past are ended."  
Because of the prominence of Rear Admiral Eaton, the trial of Mrs. Eaton, who was his second wife, has attracted country-wide interest. The Admiral took a prominent part in the battle of Santiago. After his retirement he settled down on a little chicken farm at Assinippi, where he died on March 8th, last.  
As a result of the report made by the physician who had attended him the day before, the medical examiner held an inquest. Portions of the internal organs of the admiral were sent to Prof. Whitney of the Harvard medical school, who reported that they contained a "large quantity of white arsenic. The grand jury reported against Mrs. Eaton, charged with murder. She was arrested March 19th.  
Her trial commenced Oct. 14. The government sought to show that Mrs. Eaton poisoned her husband by placing arsenic in his beverages and his medicine, and that she was jealous of his attentions to other women. Mrs. Eaton's counsel contended that the admiral's death was due to self-administered drugs, but did not attempt to show whether the alleged overdose was taken intentionally or by accident.

## SCENE AT THE HAPPIEST OF ALL ROYAL WEDDINGS.

THE WEDDING CEREMONY OF PRINCE ARTHUR OF CONNAUGHT AND THE DUCHESS OF FIFE  
One of the happiest of all royal weddings that have been solemnized in the little Chapel Royal of the Palace of St. James was that of Prince Arthur of Connaught and Princess Alexandra Victoria, Duchess of Fife.

Besides King George, Queen Mary, Queen Mother Alexandra, the King and Queen of Norway, Princess Patricia of Connaught and other royal relatives of the couple to the number of a score or more, the congregation consisted of members of the Diplomatic Corps, of the British Cabinet and of the royal households and of a few distinguished persons, who had been especially honored.

## MEXICAN TROUBLE AWAITS A SETTLEMENT BY UNCLE SAM

Powers Have Conceded United States Right to  
Make Terms—It Will be a Week Before Pres-  
ident Wilson Decides as to What's What—  
Latest Development in Situation.

[Canadian Press Despatch]  
WASHINGTON, Oct. 30.—Secretary of State Bryan, leaving to-day to speak in the New Jersey political campaign, said there was no change in the Mexican situation. Mr. Bryan will speak in Perthamboy and New Brunswick to-night; in Elizabeth to-morrow afternoon and in New Jersey to-morrow night. He will return to Washington Saturday morning.  
That the next step in the Mexican policy of the administration had not been finally worked out and may not be announced for another week was indicated to-day at the White House.  
"It has been necessary," said Chairman Bacon of the Senate Foreign Relations committee, "that the European nations should recognize the right of the United States to deal with the situation. Now that we have that recognition, it will take a little time for the President to work out the problem."  
The possibility that within the next few days a definite announcement will be made by the Huerta Government of the result of the election last Sunday is having the effect of postponing action by the United States. While the election has been repudiated here the actual formalities of proclaiming the result may have some bearing on the situation, for while the United States Government has already refused to countenance the result, foreign governments have not taken any position, and it is felt in many quarters that the United States should wait for action by the authorities in Mexico City before putting on record its rejection.  
President Wilson is carefully considering suggestions from his advisers and it was said to-day that the plan might not be ready until next week's cabinet meeting.  
To insure the safety of General Felix Diaz and his party of fugitives now aboard the Battleship Louisiana, Rear Admiral Fletcher has asked the Navy Department to decide whether they should be transported to some port outside of Mexico on one of the American warships.  
Most of the commercial ships clearing from Vera Cruz usually touch at Tampico or some other Mexican port where it would be easy for the Huerta government to arrest the refugees.  
American naval officers on the warships now patrolling the west coast of Mexico seem to know nothing of any peril impending at San Ignacio to the French colonists there. Rear Admiral Cowles, from his flagship, California, (Continued on Page 5)

## WILL ASK FOR RECONSIDERATION

Deputation Wants Britain  
Represented at Panama  
Show.

[Canadian Press Despatch]  
LONDON, Oct. 30.—With the view of asking the British Government to reconsider its decision in regard to participation in the Panama-Pacific exposition at San Francisco in 1915 an influential committee has been formed here composed of the heads of the great steamship, commercial and manufacturing companies.  
The committee points out to-day that since the government announced its negative decision circumstances have changed considerably and many of the large manufacturers have determined to take advantage of the improved tariff conditions in the United States and send exhibits to San Francisco.  
The committee is non-political. Its membership comprises such prominent Liberals as Lords Abercromby and Cowdrey and such well known economists as John S. Harwood-Barnes, Sir J. Fortescue Flannery and Sir Charles Allen as well as the chairman of the Cunard, the White Star and the Allans, Sir Algernon Fretton-Firth, president of the Association of Chambers of Commerce of the United Kingdom, Stanley Machin, vice-president of the London Chamber of Commerce, Marquis Graham, son of the Duke of Montrose and representative manufacturers from all parts of the United Kingdom.  
Information is being gathered by the committee for presentation to the government, the members of which are being pressed already by their supporters, including the Irish nationalists to reconsider their decision.

## Conservative Notice

There will be a rally at the Borden Club quarters, corner of King and Dalhousie streets, on this Thursday night. The program will consist of songs, music, and recitations, and a good time is assured. Everybody welcome.

## POLO POPULAR SAYS THE BRITISH PRESS

Meaning That Which Was  
Played at the Big Polo  
Grounds.

[Canadian Press Despatch]  
LONDON, Oct. 30.—Some amusement is caused here by one of the illustrated London papers showing a picture of the crowds besieging the gates of the Polo Grounds in New York on the day of the first game of the world's baseball championship, under the caption "Polo is popular in New York." Beneath the photograph there is further explanation which reads as follows: "The Polo grounds in New York were rushed by an excited crowd when the gates opened for the first game of a world's series. The police were bowled over like nine pins and many people did not pay for admission."  
WANT IT ABOLISHED  
NEW YORK, Oct. 30.—A cable from Madrid says: The Institute of criminology, one of the foremost scientific associations in Spain, sent a strong recommendation yesterday to the government for the abolition of capital punishment. Almost simultaneously a large number of students headed by those of the Madrid school law, paraded before the palace and asked the king for the pardon of several convicts sentenced to death. These developments are significant, because the records of the Conservative cabinets show that the latter make considerable use of capital punishment in cases of political offences.  
Montreal business men may get excited over the news that the Controller Wanklyn is to run for the mayoralty.  
A Goodfellow of the Whitty Chronicle, was elected president of the Lake Shore Press Association.

## Local Cheque Forger Is Said to Have Jumped Bail

When Paul Farago, the Maltese check artist, departed for parts unknown to the police the scene was changed in the Bank of Montreal forgery case. It is now a case before the civil courts. Farago, who boarded at the same house as Luca Debona, a fellow-countryman, was arrested on Saturday night by Sergt. Wallace for forgery and theft. The artist first stole Debona's bank book and then drew \$84 on a check from the Bank of Montreal.  
Farago was given his liberty on bail to the amount of \$200, being put up in two sureties, \$100 by himself and the balance by friends, who borrowed the money to bail him out by giving their note. He was to have appeared on Monday, but did not, and now an effort is being made to locate him.  
When arrested over \$180 was found on him, and this amount was taken by the department. The Bank of Montreal has furnished the police department for the amount of their claim. This action turns the case over to the Division Court, and upon an order being made by Judge Hardy the bank will secure their amount.

## Leonard Memorial Tower

Work has been commenced on the foundation of the "Leonard Memorial Tower" in connection with Grace Church. It will be erected over the main entrance of the edifice, facing on Albion street, and Schultz Bros. have the work in hand at the contract price of \$3000. The foundation will be of concrete 14 feet deep. The tower will be 100 feet high, with a circumference of 30 feet at the base. It will be of very handsome design. The letting of the work on the superstructure has not yet been announced. A splendid deal of bells will be one of the features.  
This splendid gift is made by Colonel Leonard, an old Brantford boy, now chairman of the Transcontinental Commission, Ottawa. The tribute is in memory of his father and mother, for very many years most highly-respected residents of this city.

## GEO. H. RYERSON NEW BURSAR AT O.I.B.

Appointment Has Been  
Announced To-day  
at Toronto.

Is Chairman of School  
Board and Well Known  
Business Man.

The announcement has been made of the appointment of Mr. George H. Ryerson as Bursar of the Ontario School for the Blind in this city. Mr. Ryerson returns to-morrow from a trip south, where he was obliged to sojourn a while for the betterment of his health. He is reported to have been greatly improved after a holiday in the south, gaining considerably in weight.  
The position of Bursar at the O.S.B. was rendered vacant by the death of the late Mr. Hossie, who fulfilled the duties for many years. The appointment of Mr. Ryerson to fill the post, it is generally believed, will be a popular one. For several years Mr. Ryerson has been actively engaged in the store of T. E. Ryerson & Co., and he is one of the best known young business men of the city. He has

## Extension At The Malleable

Officials of the Pratt & Letchworth Company are hopeful that within two weeks' time the firm will be having unprecedented business and a large number of employees will be necessary. There have been a number of employees laid off recently, but it is expected confidently that the lay-off is only temporary. The company is preparing to greatly increase its capacity by installing three new double ovens, contracts having already been let for the work. The cost of the ovens will be over \$10,000.

## QUEEN MARY WAS AT NEWMARKET RACES

Cambridgeshire Day Proved  
a Notable One—Some  
Results.

[Canadian Press Despatch]  
NEW YORK, Oct. 30.—A London cable says: Cambridgeshire Day at Newmarket will be memorable in the history of the turf as being the first occasion on which Queen Mary has attended its headquarters. The Queen accompanied by the King, and the royal couple took a keen interest in the sport.  
The big handicap was won by Lord Harewood's Cantilever at 33 to 1, from Cheerful at the same price with Santair at 100 to 9 third.  
Had any other horse than Cantilever won nobody would have been so open that 9 to 1 was offered against the field. But the victory of Cantilever was totally unexpected as the colt was indisposed only yesterday and reported to be coughing. However he came out with practically an unknown jockey named Southey on his back to make all the running and win the race.

## GRAFT CHARGES WILL BE PROBED

Mysterious Little Black Book  
Goes to the State  
Attorney.

[Canadian Press Despatch]  
NEW YORK, Oct. 30.—The mysterious little black book supposed to contain the confession made by ex-Senate Senator Stephen J. Stilwell in Sing Sing prison and embracing charges against Tammany leaders here and in the State Legislature was expected to reach the hands of District Attorney Whitman through John A. Hennessy erstwhile graft investigator for William Sulzer and now fusion orator in the city campaign. It was Hennessy who visited the convict-senator in prison. Their conversation, he has declared, was recorded by a dictaphone, secretly installed and it is a record of this as contained in the black book, which the district attorney will make the basis for an investigation.  
Hennessy has quoted vague excerpts from the book in campaign speeches withholding certain matter, he said, in view of his promise to Stilwell. By virtue of a subpoena, however, the district attorney will have full access to it.  
Leonard Sherman, last of the pioneer family of that name in Thamesville, is dead, aged 86.

MR. GEO. H. RYERSON  
Who has been appointed Bursar at the O. S. B., succeeding the late Mr. Hossie.

been a member of the Public School Board for some years, representing Ward 4, and at present holds the chairmanship of the board. He has also been a prominent officer of the Brantford Conservative Association.  
Mr. Ryerson belongs to one of the best-known Brantford families. He is a grandson of William Ryerson, brother of the late Dr. Ryerson, the pioneer educationalist of Ontario.  
In matters pertaining to the business of the office of bursar it is believed that no better selection could have been made.  
The appointment of members of the staff of the Institution is not local, but provincial, and principals and others have quite usually been sent here from other places. However, Mr. W. S. Brewster, M.P.P., worked hard and successfully to have the post offered to a Brant county man, and in this he was supported by Mr. J. Westbrook, M.P.P. for North Brant.

## HUERTA'S HENCHMAN.

GENERAL BLANQUET  
General Blanquet has been appointed President of Mexico, but he is Huerta's strong man.

## South Bruce Election

There is very keen local interest in the South Bruce by-election, which is taking place to-day. A race appeal to those of German descent, many of whom reside in the riding, against the Borden naval proposal, has been the main object of the Liberals. The constituency has always been close fighting ground, and in the last general election Conservative by 705, an abnormal outcome, owing to the reciprocity issue.  
The Courier will bulletin the outcome.

## HAD TO ABANDON SHIP IN MID-OCEAN

Crew of American Schooner  
Lands Safely in  
England.

[Canadian Press Despatch]  
THE LIZARD, Eng., Oct. 30.—The crew of the American schooner Lottie Beard, was landed here to-day from the British Tank steamer Sylvia, Captain Kendall of the Lottie Beard, and his men having abandoned their vessel on October 16.  
Captain Prouse of the Sylvia which left Arthur, Texas on October 6 by way of Newport News for Sheerness, picked up the shipwrecked crew who had been compelled to abandon the Lottie Beard while that vessel was making the voyage from New York to Augusta, Maine.  
The Lottie Beard was built at Fairhaven, Mass. in 1866. She hailed from the port of New Bedford and was owned by O. E. Kendall. Her displacement was 288 tons.

## Labor Case

It May Take Weeks Before  
Appeal Decision  
is Rendered.

[Canadian Press Despatch]  
CHICAGO, Oct. 30.—When the United States Circuit Court of Appeals resumed the hearing to-day of the appeal of the thirty officials and members of the International Association of Bridge and Structural Iron Workers, who were convicted at Indianapolis on the government's dynamic conspiracy charge, and who are asking that the Indianapolis verdicts be set aside, attorneys for the labor men expect to complete their arguments in the case by noon or shortly afterwards.  
United States District Attorney Charles W. Miller of Indiana, was prepared to begin at the afternoon session the government's opposition by asking that the convicted men be sent back to the Leavenworth Federal prison to serve out their terms. The hearing will be concluded to-day and a half for arguments. Decisions of the case may not be made for weeks.

London will send a deputation to the Provincial government to prove that the city's population exceeds 50,000 and to get permission for a vote on Spydax car service.

## DECLARES THAT HE IS INVENTOR

Italian Trusts His Secret With  
the British Admiralty  
—Its Success.

[Canadian Press Despatch]  
ROME, Oct. 30.—Signor Ulivi has issued the following statement: "I have learned from newspapers, but not yet officially, that the British admiralty has used F-Rays with complete success at Portsmouth, where a ship's bottom has been blown up from a great distance. I am awaiting detailed particulars of the experiments, which will triumphantly prove the truth of my theory and will demonstrate the terrible efficiency of my invention.  
"I am not surprised at this magnificent success, because all the preliminary experiments undertaken by myself were invariably completely successful. The entire world will be amazed when the results are known of new modified machine I am now completing.  
"If I am proud of my success it is simply owing to the added glory it brings to my beloved country, Italy. I have full trust in the British admiralty, which I deem to be incapable of committing a breach of confidence against me and of defrauding me of my incontestable rights as an inventor."

## GENERAL ELECTION IN NEWFOUNDLAND

Is Taking Place Today—Morris and Bond Are Opposing.

[Canadian Press Despatch]  
ST. JOHN'S Nfld., Oct. 30.—The question of government expenditures formed the chief issues in the general election held in Newfoundland to-day. The party of the premier Sir Edward Morris, urged the election of his supporters to the 36 seats in the House of Assembly on the plea that he had done much to develop the colony by his policy of government aid to the construction of many branch lines of railway. Sir Robert Bond, heading the Opposition has assailed this policy, declaring it has been too expensive and has placed a needless tax on the island's revenues.  
Because of the remoteness of many of the districts it is likely to be several days before the result of the election is known. The government provided special polling places in this city for fishermen now here disposing of their summer's catch and unable to return to their homes in time for the election.

## THEY MAY BE LOST.

PORT ARTHUR, Ont., Oct. 30.—Grave fears are entertained for a party of hunters, W. Gray, of Collingwood; Charles Woodward of Molson's Bank and W. Taylor, who left a week ago last Saturday and were due to arrive back last Friday. No explanation can be given for their extra long stay near Black Bay. A tug will be sent to look for them.

## A GOWN THAT IS STRIKINGLY INFORMAL

The trim and trig woman who adores tailored effects will hold up her hands in holy horror at this slouchy-looking gown, but the gown is just from Paris, and its slouchiness is its first claim to Parisian chic. It combines Bayadere striped silk in lemon, shrimp and Dutch blue coloring with olive green lansdowne, the latter material forming the draped-up skirt, hip sash and limp cape-collared. The skirt drapery crosses at the front and long chenille fringe depends from the opening to hide the ankles.

## Rummage Sale

All Kinds of Goods at the Y.W.C.A. This Afternoon.

The annual rummage sale conducted by the ladies of the W. H. A. opened this afternoon in Victoria Hall at 2 o'clock. Sales will be held this evening, to-morrow afternoon and evening. There were a large number of ladies waiting long before two o'clock for the doors to open. Victoria Hall presents an appearance worthy of a second-hand store. There is order prevailing which is not the case, generally, in a second-hand store. Ladies are in charge of the various departments.

## Golden Wedding

On Tuesday Mr. and Mrs. F. Tottle Cainsville very pleasantly celebrated the golden anniversary of their wedding. In the afternoon a reception was held. Their friends in goodly numbers congratulated them and wished them many more years of happiness. Wedding cake and cocoa was served. Mr. and Mrs. Tottle told their guests of the wedding day so pleasantly recalled by the occasion.

In the evening a family dinner was held and afterwards a pleasant time was spent with music and games. Many beautiful gifts were received.

Mr. and Mrs. Tottle spent some of their early married life in Blenheim Township. Thirty one years ago they moved to this county, taking up their residence on a farm on the River Road, where they resided ten years ago, when they purchased their present home in Cainsville.

The immediate family are Mr. and Mrs. W. F. Warne, city, Mr. W. Tottle on the homestead and Miss Edith at home.

Shirley Manor, an occupied house near Bradford, England, which has associations with the writings of Charlotte Bronte, was almost destroyed by fire by suffragettes.

## Good Work

Only 16 Appeals are Made Against This Year's Assessments.

Up-to-date only 16 appeals have been filed against this year's assessment. When it is taken into consideration that the assessed value of the city property is up in the millions, the work of the Assessors this year must have been very satisfactory to the community as a whole. The number of appeals this year is the smallest in the history of the City of Brantford and the assessors should be complimented on the satisfaction they have given.

One-year there were over 400 appeals.

Dr. Mowatt said death was due to infantile scurvy and disease of the blood. It was a peculiar disease, which gave rise to bleeding on the slightest provocation. No doubt the slight fall caused the bursting of a blood vessel. The slightest pressure of any part of the body would cause black marks. It was a very interesting case from a medical point of view. The jury returned a verdict in accordance with the doctor's evidence.

Mr. F. C. Beupre, who for the past year has been assistant to the representative in the Department of Agriculture, has been appointed manager of a large fruit farm adjacent to Coburg, and will leave to take up his duties early next month.

Mr. Charles Cordery, the lady's prize going to Miss O'Connor. A very dainty lunch was then served, to which everyone did justice. The remainder of the evening was spent in games and singing. The merry-makers departed at an early hour for their homes after thanking Miss Wood for the splendid time they had enjoyed.

Mr. and Mrs. D. Sinclair of Paris, announce the engagement of Miss Nan Brown, to Mr. Jno. J. McCormick, son of Mr. H. McCormick, of Paris. The marriage will take place on Nov. 12th.

A party of Brantford gentlemen composed of Messrs P. Matthewson, E. Secord, R. Lambden, A. Wood, H. Wood and W. Stevens leave this evening on a hunting trip in the vicinity of South River for a period of three weeks.

Mr. and Mrs. Willie McEwen, "Hillcrest," Mt. Pleasant, announce the engagement of their younger daughter, Annabel Elizabeth, to Mr. Frederick William Halterman, Passaic, N.J. The wedding will take place in November.

Mr. N. C. Cameron of Toronto, treasurer of the Ontario Provincial board, the Retail Merchants Association of Canada, was in the city for a few hours to-day enroute from Dundas to Mitchell. Mr. B. A. Chaffin, organizer for British Columbia, was with him.

The out-of-town guests at the Swartz-Daniel wedding were Mr. F. E. Townsend and Miss Townsend, Toronto; Mr. and Mrs. Marshall Daniel, Hamilton; Mr. and Miss Iola Daniel, Paris; Mr. and Mrs. Daniel, Brook, Paris; Mr. and Mrs. J. Forbes, Princeton; Mr. and Mrs. Spiers, Drumbo; Mr. and Miss Perrin

WELL PUT

Mr. J. H. Burnham, M.P., for Peterboro sends this pungent letter to the Toronto Globe with reference to the navy issue:

(1) That co-operation must ensue whether we have a full-fledged Canadian navy or merely the Borden unit. To go it alone, to refuse alliances to ignore the immense value of free national co-operation upon the part of Canada with other nations may be very brave, but it is very silly.

(2) The additional expense of the Laurier program is enough to appal the stoutest heart. (3) If your fleet had independent Canadian fleet on the Pacific and the nations of the east...

(4) The settlement of this last question now is the germ of the Borden policy. Putting it off and leaving it unsettled is the Laurier policy. Which is the wiser?

(5) Moreover, does a great united co-operative fleet tend more towards peace than a number of independent national fleets? If so, on that ground vote for the Borden navy. If not, vote for the Laurier policy.

THE LAND PROPOSALS OF LLOYD GEORGE

There can be no doubt with reference to the tremendous driving power and the exceptional ability possessed by Great Britain's Chancellor of the Exchequer.

The "little Welsh lawyer" has earned the enmity of a great number and others look upon many of his sweeping reforms with doubt, but the outstanding personality of the man cannot be gainsaid.

His latest scheme of land reform is in many respects the most radical he has yet attempted. There can be no question, whatever, that so few men holding vacant thousands of acres in a kingdom of small area, is subversive of the popular welfare.

Table with 2 columns: Country, Acres. England 32,578,478; Ireland 20,731,244; Scotland 19,069,500; Wales 4,749,901.

In Ontario alone we have 260,544, 636 acres or more than three times the area of Great Britain, and for the whole Dominion 2,386,985,395 acres.

Yet in a land possessing a surface over three times smaller than this province there are some fifty millions of people, tens of thousands of them in most crowded quarters.

Perhaps the chief weakness of the Lloyd George plan is that it contemplates too much with regard to a peasantry not prepared for such a revolution.

The immediate outcome will, of course, be the sale of holdings by the territorial magnates. Owing to previous taxation penalties on lands of large area imposed by the Chancellor, the Duke of Newcastle, the Duke of Grafton, the Earl of Portsmouth, Lord Crawthor and other big holders have been offering ancestral estates for sale. Unquestionably more of them will now do so.

The whole incident serves as one more illustration of the fact that the civilized world over, the masses of the people are looking for their share to a greater extent than has hitherto been vouchsafed them.

NEW ZEALAND'S NAVAL POLICY

Under the above heading the Toronto Globe in a leading editorial goes into hysterics in part as follows:

"New Zealand's announced intention to abandon the policy of paying naval subsidies to Great Britain, and to begin the construction and organization of a fleet of her own, comes as a stunning shock to the naval centralizers on both sides of the Atlantic. Australia's example was bound to tell sooner or later, but no one outside of New Zealand expected that the change would come so rapidly as it has done. Its first effect is to stagger the persistent Canadian contribution advocates. If there had been any doubt before this announcement that the Borden naval subsidy bill of last session would be dropped the action of New Zealand would have sealed its fate. The Canadian Senate has been justified, and a new policy will have to be found by Mr. Borden and his Nationalist allies."

The leading Grit organ should get somebody to cool its fevered brow, really it should.

CONDITIONS BAD SAYS RICHARDSON

There hasn't been any "stunning shock." There hasn't been any staggering. The naval bill will not be dropped. Mr. Borden will not have to adopt any new policy.

The situation with regard to Australia and New Zealand is not in any sense Canada's present situation. Let it first of all be remembered that for years Australia and New Zealand have contributed towards the British navy while to our deep shame we have not put up a single cent.

Having their own navies is the logical outcome of their previous course just as without much doubt Canada will have her own navy in the years to come on the same basis as that decided upon by our antipodean cousins, viz., said vessels to pass automatically under control of the British Admiralty in periods of war.

Moreover, Great Britain, owing to urgent demands in other quarters has been obliged to withdraw vessels of promised type under an agreement made four years ago with New Zealand and Australia.

The Globe and other globes may rant and rave but you can paste this in your hat for future reference:

1. Johnny Canuck is going to redeem a long overdue duty.

2. Premier Borden and the Conservative party will not abate one jot, or tittle in connection with their naval programme.

3. The thirty-five million dollars in good hard cash will be sent to John Bull for the three new warships, said warships to be returnable to Canada if we start a navy of our own.

4. Not a single soul need make any mistake about the fact that the Borden policy will be put into force just as it stands and nothing short of that.

NOTES AND COMMENTS Robert Bruce, even in his best days never had as much attention paid to him as South Bruce has to-day.

Tis the voice of The Globe you hear it exclaim.

"Helped to wreck one party; like to do it again."

The sinews of a bear are to be grafted into a hip of a Toronto patient. Isn't he running the risk of developing a bearish tendency?

The Brantford Expositor refers to The Courier as its "most sapient contemporary." As sapient means wise, this great family journal accepts the compliment, and is exceedingly sorry that it cannot return the same.

The Toronto Globe seems to have got the idea into its foolish head that it is the dictator of the Conservative party. Having largely helped to ruin its own side—it was the editor of that sheet who was the forerunner at Washington on behalf of the reciprocity stupidity—the organ now apparently wants to lend its hand in another wrecking campaign. No, thank you.

Oh, I'd hate to be a clerk, in the glad rags store and work, showing forty thousand samples to the wives, while those women paw around saying that they never found any goods so fierce and flimsy in their lives!

There are women, scores indeed, who can buy the things they need without driving all the salesmen to despair, without causing frantic gents, when they're spending seven cents, to attempt to blow their brains out with a chair.

But the limp and languid dame who adopts the shopping game as a sort of life profession of grace, bores the salesmen weary-eyed, till they think of suicide, and would like to cut their heads off with a spade.

She examines miles of silk and remarks that Mr. Bilk, in the store around the corner sells the same at a kopeck less a yard, and she kicks around so hard that the salesman raises gooseflesh on his frame.

And she says those eyes of hers never saw such doggone furs, and the satins and the muslins make her sad; everything is on the blink—and the snotsick salesmen think if she'd die she'd have to wait on the floor!

BRITISH M.P. LOOKS INTO LABOR CONDITIONS AT B. C. MINES

OTTAWA, Oct. 30.—[Canadian Press Despatch.] He has no hesitation in saying that the miners in Nanaimo, B.C., are subject to conditions which boys, let alone men, working in English mines would not tolerate for 24 hours," declared Tom Richardson, Labor M.P., in the British parliament for Whitehaven and a member of the Miners' Federation of Great Britain, who is in Ottawa to-day, the guest of J. C. Waters, President of the Dominion Trades and Labor Congress.

Mr. Richardson has just returned from a four weeks visit to the Canadian West, principally British Columbia. While in Nanaimo, he made a little private investigation of the dispute between the miners and their employees, and his opinion of the situation is that the miners have been remarkably tolerant in the face of the conditions they have had to face.

Referring to the lack of representation in the Dominion parliament, the provincial legislature and civic administrative bodies, Mr. Richardson said in conclusion:

"I would suggest that the Trades Unionists and Socialists in Canada if they want due recognition in the Federal parliament and the Provincial Legislatures as well as civic bodies, they should apply themselves to electing their own representatives. Not until then can they hope to have their ideals realized."

Building Permit. A building permit was granted Joseph Hall at the City Engineer's office for the erection of a brick building on Dalhousie St. between George and Charlotte Sts., the same to be a store with offices above, the building to cost \$3,800.

An Infant Auto. The first automobile manufactured in the city by the Brantford Autocycle Company, was tested on Dalhousie street this morning in the presence of Mr. Rowell and a number of the shareholders of the company. The machine was given a thorough test and proved satisfactory. In fact the new cycle looks like an infant automobile and excited admiration all along the street.

The Broom Case. Mr. Justice Kelly will preside over the Assizes to be held at Woodstock on Nov. 4th. The only criminal case is that of murder preferred against Mrs. Grace Beemer, who is accused of poisoning her husband in Blenheim township. She will be defended by W. T. Mullen of Woodstock. There is a great deal of interest in the case, as shown by the generous response on the part of the public to the request for subscriptions to defray the cost of producing evidence on her behalf, and there is much speculation as to the evidence the Crown is supposed to have but has not yet produced.

A WONDERFUL COLD CURE. Just think of it, a cold cured in ten minutes—that's what happens when you use "Catarrhzone." You inhale its soothing balsams and out goes the cold—sniffles are cured—headache is cured—symptoms of catarrh and gripe disappear at once. It's the healing pine essences and powerful antiseptics in Catarrhzone that enable it to act so quickly. In discharge of the nose, for irritable throat, bronchitis, coughs and catarrh it's a marvel. Why Mrs. Dionne Praises Dodd's Kidney Pills. Fine Old Quebec Lady Was Wasting Away When She Turned to Dodd's Kidney Pills and Found a New Lease of Life.

ST. MATHIEU, Rimouski Co., Que., Oct. 27.—(Special)—"Publish it to all the world that Dodd's Kidney Pills cured me." Those are the words of Mrs. Dionne, an old and respected resident of this place. And surely that cure was a wonderful one. Mrs. Dionne had reached the advanced age of sixty-one years when ill health overtook her. From 184 lbs. she wasted away till she weighed only 120 lbs., and she was a very sick woman, indeed. Speaking of her case, she says:

"My back and head ached, my heart troubled me, my sleep was broken and unrefreshing, and I perspired freely at night. I also had a pressure or sharp pain on the top of my head, and I found it difficult to collect my thoughts."

It was at this stage that Mrs. Dionne concluded that her trouble came from her kidneys and she turned to Dodd's Kidney Pills. The first box helped her. She took twelve boxes, and is cured.

Dodd's Kidney Pills always help old people, because when the human body starts to wear out, the kidneys are the first to go. Dodd's Kidney Pills always cure the kidneys.

By Mrs. Dionne Praises Dodd's Kidney Pills.

The Old Quebec Lady Was Wasting Away When She Turned to Dodd's Kidney Pills and Found a New Lease of Life.

ST. MATHIEU, Rimouski Co., N.S., Oct. 27.—(Special)—"Publish to all the world that Dodd's Kidney Pills cured me." Those are the words of Mrs. Dionne, an old and respected resident of this place. And truly that cure was a wonderful one.

My back and head ached, my art troubled me, my sleep was broken and unrefreshing, and I perspired freely at night. I also had a pressure or sharp pain on the top of my head, and I found it difficult to collect my thoughts.

It was at this stage that Mrs. Dionne concluded that her trouble came from her kidneys and she turned to Dodd's Kidney Pills. The first box helped her. She took twelve boxes, and is cured.

Dodd's Kidney Pills always help old people, because when the human body starts to wear out, the kidneys are the first to go. Dodd's Kidney Pills always cure the kidneys.

BALLINGTON BOOTH

BRAMWELL BOOTH

General William Bramwell Booth, head of the Salvation Army, will sail shortly for America. It will be his first visit to the United States, where he expects to secure some American Salvationists as volunteers for China, where the work of the Salvation Army is to be increased.

While in New York General Booth may meet his brother, Ballington Booth, but it is felt in Salvation Army circles here that all hopes of a reconciliation will be futile unless the Volunteers of America make the first advances.

Book Committee Will Meet. The book committee of the Public Library Board will meet to-morrow evening in the board room.

Story Hour. The subject for the Story Hour at the Public Library this afternoon will be the "Magic Forest" by Stewart Edward White.

House of Refuge. This morning five patients from the Asylum in Hamilton arrived in the city and will be cared for at the House of Refuge.

Oyster Supper. At the conclusion of the apple-picking on the Orchard Hill farm, Mr. R. A. Cole, manager, a very enjoyable oyster supper was given to the pickers.

Witnessed Inspection. Lieut. Col. Howard, accompanied by a number of the officers of the Dufferin Rifles journeyed to Hamilton last night where they witnessed the annual inspection of the 91st Highland Regiment at the armouries.

Have Not Struck Rock. The workmen who have been digging in the trench at the foot of Justice Terrace have not up to the present struck rock, although they are down many feet. The piling from the island to the main land is almost completed and the filling is well rushed with all haste.

The New Battery. Lieut. Col. Ashton stated that he would soon commence to look for good men who wish to join the new battery. The Colonel may be able to secure some men who served in a battery in the Old Country or in Canada.

Interesting Meetings. Interesting meetings at which there is a gratifying attendance every night have been held at Bethel Hall this week. The meetings are being addressed by Max Wertheimer, a converted rabbi, and are proving of helpful interest to all those in attendance.

Communication Received. A communication is on file at the City Clerk's office from W. N. Stone, President of the Board of Trade of Toronto, enquiring if there is a by-law in force here to compel proprietors of Gents' Furnishing stores to close their places of business at 7 o'clock in the evening, and if so, would like copy of same.

This is Copying. Announcement was made yesterday by the canners that they have decided to cut down the price of canned tomatoes from \$1.12 1/2 to 97 1/2 cents per dozen. Representatives of the Dominion Canners stated that the reduction in price was due to the unusually large crop of tomatoes.

Will Have Team. If the ambitions of Mr. Fred Johnson materialize, a hockey team known as the Alexandras will be formed and entered in the City League Senior series. There are a goodly number of fellows agreeable to becoming members of the team. A meeting will be held in the Conservative Club rooms to-morrow evening when it is likely the team will be organized. The meeting starts at 8 o'clock.

A Nuisance. Complaint has been made that the practice of posting bills promiscuously on poles and every other available spot, is becoming a nuisance in the city. The practice of billing telegraph poles is said to be against the law. It has been suggested the civic improvement association might also take up the elimination of the bill board nuisance in the city, which shows no signs of abatement in spite of recent by-laws regarding it.

Fire Alarm. The central Fire Department were called out last evening at 8.15 by Stedman Bros wholesale, George St., to extinguish a blaze in the chute used for conveying paper cuttings from the second floor to the basement. Each evening two men bale up these clippings and it was one of the men who discovered the fire when he removed a quantity of the clippings from the chute. The origin of the fire is unknown. Little damage was done.

ENEMY OF GOMEZ. PORT OF SPAIN, Trinidad, Oct. 30.—General Jose Manuel Hernandez, the exiled Venezuelan known as "El Mocho" arrived here to-day from St. Thomas, Danish West Indies, and was enthusiastically received by a number of friends and adherents. He declared that if free elections were held in Venezuela, he would become president of the republic. By suppressing free elections under the pretence that the country was engaged in crushing a rebellion, which existed only in his imagination, President Juan Vicente Gomez was likely to produce a conflict in the opinion of "El Mocho." General Hernandez was reticent in regard to his future movement, but is said to be actively engaged with various schemes.

Busy Burford

Board of Trade's Annual Meeting Held Last Night.

Hydro Electric was the principal topic of discussion at the annual meeting of the Burford Board of Trade held in the village last night. It was decided that an effort should be put forth to have Burford village thoroughly lighted by that system.

The election of officers resulted as follows: Hon. President, C. F. Saunders, President, Allan Kneale. Vice-President, G. H. Armstrong. Secretary-Treas., G. Pite. After the election of officers refreshments were served and the cigars were passed around. Speeches were made by Mr. A. G. Ludlow, Lieut.-Col. M. F. Muir, J. W. Westbrook, M. P. P., Dr. Johnson, J. G. Hauser, Rev. E. D. Cameron, W. J. Flynn and the officers of the board.

It was decided that efforts be made to secure natural gas in the village. An old boys reunion was talked of and it is altogether likely that one will be held in the village some time next year.

Another important point which was brought up and discussed, was the advisability of laying out small farms of 5 to 10 acres for market gardening, poultry raising, etc. It was decided to look into the matter, and it was proposed to try and inaugurate 50 of these, as many enquiries for these kind of farms had been received, and it was the opinion of the board that such farms could be very successfully run. It was pointed out that the canning factory there would purchase all the "vegetables" that could be grown and would also buy all the eggs and poultry available.

The scheme will be thoroughly looked into. Before the meeting closed it was announced that 41 new members had been added to the board. During the course of the evening a number of musical numbers were given, both vocal and instrumental. A trio sang by Messrs Hunt, McWebber and Kneale mad ethe hit of the night. A recitation by Mr Charles was also very well received. The meeting was one of the best ever held by the Burford Board of Trade.

The board were certainly very strong on the securing of Hydro Electric for the village, and a committee was recently formed to endeavor to make arrangements for same.

BURNED TO DEATH.

MATTOON, Ills., Oct. 30.—Clarence Altes and Charles Johnson, advertising man and linotype operator respectively on a Mattoon newspaper, were burned to death early to-day when fire destroyed a boarding house in which they were asleep. They evidently were overcome by smoke before the fire reached their room.

A recent law report tells that a spiritual teacher imparted to one of his pupils an incantation guaranteed to be effective against snake bites. The trusting pupil took a snake in his hands, was bitten and died. The teacher was thereupon sued for damages, but the council of elders who heard the case decided that justice be done by a sentence of two months' imprisonment and refused to order damages on the ground first that the mullah had taught the incantation in good faith, secondly that the pupil had been advised by others not to rely too implicitly on the incantation, and thirdly that he was predestined to die by snake bite in any case. The mullah, on the other hand, deserved to be punished because he ought to have known that an incantation loses its power if it is sold for money, and also that some snakes are contemptuous of incantations.—London Express.

A Poet's Home

An Indianapolis lawyer, with a friend, motored down to Greenfield, Indiana, the birthplace of James Whitcomb Riley, the Hoosier poet. They had dinner at the hotel, and thought they would like to see the house where Riley lived. So they asked the hotel man: "Where is the Riley house?" "I don't know any hotel by that name," he replied; "though there may be some such boarding house here."

"I mean the James Whitcomb Riley house," said the lawyer, thinking his host had misunderstood.

"I don't know him, you may be able to find his name in the city directory."

"I guess he's moved," said the lawyer as he aimlessly thumbed the directory.

"Probably," the hotel-keeper commented. "Some of them Irish don't stay long in a place—Philadelphia Post.

To The Editor

ARE WAGES CUT?

Editor of the Courier: Sir—I see by to-day's Courier that Sir Melvin Jones, President of the Massey-Harris Co., speaking at Regina advised the west to employ cautious financing for the next few years; which is very good advice. But it is to be hoped the west will not adopt the same method of financing as has been done in the local Massey-Harris shop, whose employees have had to suffer a marked reduction in their wages, ranging from 10 to 35 per cent, while the necessities of life are costing the poor workman a great deal more. Sir, to me such treatment of employees, who give of their best (and some of them have done so for twenty years or more), to say the least is scandalous, and it is a great pity that there is not a Lloyd George here to bring the monsters to taint, who so cruelly grind their workmen. The poor fellows have to sweat and labor from morning till night so as to enable Sir Melvin Jones to tour the country in his own palatial car.

LABORER. RE DR. FISSETTE'S LETTER.

To the Editor of The Courier: Sir—I do not know Dr. Fissette. All I can judge of him is by his letter of yesterday in your great family journal, and if I misjudge the real man by his letter, it is the letter's fault, not mine. I am quite in accord with his views regarding the conservation of human life and that every possible means for doing so should be placed within the reach of all, and if he says that he has knowledge that the Pulmotor when properly used is superior to the old method of resuscitation I am satisfied that he means

what he says, and that he believes that it would be a good thing for the city to have, and so far as I know it is going to have it. But, Mr. Editor, while Dr. Fissette, has made some things clearer to me, and while we may like the artist's picture, we may differ with his taste in a frame. His frame suggests that the artist is sitting on the topmost rung of the ladder of knowledge and that as he has nothing more to learn he occupies his time teaching the ignorant masses below him. He even propounds a new theology and makes God the author of ignorance and man the discoverer of intelligence. He is not only conversant with the intricacies of his own profession but has a wonderful knowledge of the tricks of mine some of which I have yet to learn. It was unnecessary to throw this sneer at my trade, as in point of age and that carries with it a point of honor, I am older than his, Adam having needed clothing before he needed a doctor, and I hope that when I have nothing to learn I may be wearing a wooden overcoat and be past the need of pulmotor.

Respectfully yours, ALD. McFARLAND.

FIRE AT KNOXVILLE. KNOXVILLE, Pa., Oct. 30.—Fire destroyed thirteen business places and ten residences here to-day, inflicting a loss estimated at greater than \$100,000. The fire started from an unknown cause in the clothing store of Max Heldman and burned over two solid blocks on both sides of Main street before it was checked. The post office, telephone and telegraph exchanges were destroyed and the town is without wire communication. The reservoir was emptied yesterday to clean it and the firemen were compelled to pump water from the Cowanesque river.

KIRBY'S SUGGESTION IS A FOOLISH ONE

Reputation of Idea of Competition Between Amateurs and Pros.

Gustavus T. Kirby, the retiring President of the Amateur Athletic Union of the United States, accomplished at least one thing by his proposal to mix amateurs and professionals, and it may be that this was his real purpose. He brought out the most positive declarations against the principle he appeared to advocate. The New York Evening Post says: "As if in answer to Gustavus T. Kirby's foolish suggestion that amateurs and professionals should meet on practically a level money basis—although he suggests that the amateurs should receive plate instead of money, his own College, Columbia, has taken a step in the other direction by declaring that any student who takes part in any other outside athletics during the scholastic year, which lasts from late September until early June, shall be prohibited from taking part in the intercollegiate contests. This action was taken by the committee on athletics on the request of the Athletic Association. The University authorities have been considering this step for some time, and when the students themselves made the request decisive action was taken at once."

THE BITE OF A SPIDER DISABLES HARVARD STAR. CAMBRIDGE, Mass., Oct. 30.—Rex Hitchcock, the famous Harvard right tackle, twisted his ankle in practice yesterday for the second time this year, and will probably be out of the game with Princeton a week from Saturday. S. B. Withington was substituted on the Harvard team for Hitchcock in the practice game. R. C. Curtis, the regular substitute, is also suffering from an ankle sprain.

Another Harvard star, Eddie Mahan, left halfback in the infirmary with an injured foot. He is likely to remain there four or five days. A spider bite is said to be cause of his injury. Bradley will take Mahan's place next Saturday.

PRES. MAHONEY IS READY TO FIGHT

He States Emphatically That Guelph Will Not Be Ousted From League.

GUELPH, Oct. 30.—Relative to the story to the effect that at the Canadian League meeting on Friday, Guelph and Berlin would be voted out, President Mahoney of Guelph stated most emphatically yesterday that the Guelph franchise would remain here just as long as Guelph people wanted it. He said that no vote of the league could take it away. He expressed the opinion that some soreheads at Ottawa and London, where the clubs went many hundreds of dollars over the salary limit in an endeavor to put a winning team in the field, are the ones who are trying to cause all the trouble, but that their efforts would fail.

A strong company of local gentlemen are getting behind the team here. A manager for 1914 has all but been signed up, and a good one too, and the fans here can rest assured that they will be given better baseball than ever next year, says President Mahoney. The fact that J. J. McCaffery of Toronto, has become a part owner of the Hamilton franchise meets with approval here, as with strong teams in Hamilton, London and Ottawa the league will be better than ever. According to President Mahoney there is not the slightest chance of Niagara Falls or Erie, Pa., being included in the Canadian League in 1914, and Guelph and Berlin will have teams that will make them all get out and hustle.

Christy Mathewson says he aspired to be a playwright long before he ever attended college or took to baseball.

## CARSON AND LAW REPLY TO ASQUITH

Support of the Unionist Party is Pledged to Ulster.

### LET PEOPLE DECIDE

NEWCASTLE-ON-TYNE, Oct. 29.—Bonar Law, leader of the Conservatives in the House of Commons, and Sir Edward Carson, leader of the Ulster malcontents, replied to the Ladybank speech of Premier Asquith, on the Home Rule question at a meeting here last night.

Mr. Bonar Law said that if the Premier meant to invite the Unionist leaders to exchange views and suggestions with the Liberals they would respond that they would consider carefully any proposals with a real desire for an agreement. This, he said, was one possible course; another was, quoting Mr. Asquith's phrase, "full steam ahead," upon which the Unionist leader's verdict was "That way madness lies."

Another way, he said, was a general election, which was the duty of the government.

"The people alone," concluded Mr. Bonar Law, "are entitled to decide. If their decision is against us we will bow to it, however unjust it may be." He said he could not speak for Ulster, but believed that such a result might even settle the question there.

"If, however, the Government tries to drive Ulster out of the Union before the question is submitted to the country, Ulster will rightly resist, and will be supported in her

### A Kick About Coal Quality

is by no means a rare thing these times. But it is a rarity with us, because we take care to buy only the best grades of coal, as we know our customers would not buy from us any inferior qualities—not twice anyway. At it is our policy to keep our customers, we could not afford to give them any but the best coal, full weight, without dirt or rubbish and at a reasonable price.

## RHEUMATISM KEPT HIM IN BED

Suffered Tortures Until "Fruit-a-tives" Cured Him

McMILLAN'S CORNER, ONT., SEPT. 30th, 1910  
"Your remedy, 'Fruit-a-tives' is a perfect panacea for Rheumatism. For years, I suffered distressing pain from Sciatica or Sciatic Rheumatism, being laid up several times a year for days at a time. I went to different doctors who told me there was no use doing anything—it would pass away. They gave me mustard plasters and other remedies that did no good. Plasters took no effect on me—except to blister me and make raw spots. I took many advertised remedies without benefit, but fortunately, about two years ago, I got 'Fruit-a-tives' and they cured me.

Since then, I take 'Fruit-a-tives' occasionally and keep free of pain. I am satisfied 'Fruit-a-tives' cured me of Rheumatism and they will cure anyone who takes them as directed. If this letter would be of value to you, publish it." JOHN B. McDONALD.  
Indeed, this letter is of value to me and to the thousands of sufferers from Rheumatism, Sciatica, Lumbago and Neuralgia. It points the way to a certain cure. See a box of 'Fruit-a-tives', size, 25c. At dealers or from Fruit-a-tives Limited, Ottawa.

resistance by the whole Conservative party.

The Unionist leader compared the situation in Ulster to conditions in America preceding the Civil War. He said he had urged Sir Edward Carson to attend the meeting so that the pledge he (Law) had made at the Blenheim Palace rally in July, 1912, to support Ulster in her resistance to Home Rule might be made perfectly clear. The speaker maintained that the government had brought forward its last proposals in order to confuse the issue. If the Government refused to go to the country the Unionist leaders would not decline the invitation to a conference, and would properly consider any proposals made to them and answer them with a real desire to find a solution.

Sir Edward Carson said he would consider all overtures when put in plain language, but as far as he was concerned, no offer will be of any use unless it is consistent with the Ulster covenant.

Sir George Kékewich, at one time Liberal member of Parliament, made a speech denouncing the British Parliamentary system, of which, he said, bribery was a recognized part. The Corrupt Practices Act was, he said, voided, and there is a recognized market price for honors. He said the price of a knighthood was \$25,000, that of a baronet \$125,000, and of a peerage \$300,000. Sir George was secretary of the Board of Education 1900-1903.

### A VEGETABLE CONSTIPATION CURE.

Because they contain mercury and mineral salts, many pills are harsh. The easiest and safest laxative is Dr. Hamilton's Pills of Mandrake and Butternut. They clean the stomach, intestines and bowels—drive out waste matter, tone the kidneys and forever cure constipation. As a general tonic and system cleanser nothing is so mild and efficient as Dr. Hamilton's Pills of Mandrake and Butternut. Sold everywhere in 25 cent boxes.

## PROTESTANTS OF SOUTH IN FAVOR

Believe That All Will be Well in Ireland in a Short Time.

MONTREAL, Oct. 30.—Windsor cables The Star as follows:—

Dublin, Oct. 29.—Here is the Nationalists' side of the home rule battle. Whatever the interpretation read into Mr. Asquith's speech by Ulstermen and English Unionists, one thing is certain; Nationalist Ireland will not tolerate the exclusion of Ulster or the six counties.

For the last few days I have been visiting such centres as Cork, Wexford, Wicklow and Westmeath, and there I talked with men who have been at the head of the home rule fight for the last 20 years, with the exception, of course, of Cork O'Brienites, lieutenants of Redmond, and they emphatically declare the bill will be in operation on schedule and will include Ulster, though they admit the Orange counties may win certain considerations.

In the southern counties, too, I have found Protestant home rulers who live on good terms with their Catholic neighbors, and do not fear, as does Ulster, that the priests will dominate, through the Nationalists and the proposed parliament in Dublin.

These southern Protestants want to see a united Ireland, and firmly believe that when such time comes, religious questions will take a back place, and legislation by Irishmen for local affairs will further mend conditions.

### Fair Living From Land

Both the towns and agricultural districts are certainly not of the type of uneducated serfs one used to read about that is found now in the south. Although conditions cannot compare with the lot of the farmer in Canada, tenants are beginning to gain a fair living from the land. It is the financial credit of England that assisted them.

Despite the fact that home rule has to be paid for by Ireland, the land problem, under home rule, is reserved for some years to the Westminster Parliament.

An interesting and thoroughly Irish answer to Ulster volunteers are parades in Atholone, where 5,000 home rulers have formed brigades, duplicating the manoeuvres of the Ulsterites, even to cheers for the King. Cheers were also given for the Fenians, who invaded Canada.

### Both Sides in One Corps

Atholone's regiments have many Protestants in the ranks and a military executive containing men of both religions was formed. Greatest argument against exclusion or possible bloodshed was given me by a commercial traveller from Ulster whom I met in Waterford. He said Belfast without question is the commercial capital of Ireland. If Belfast were excluded from home rule she would lose four fifths of her immense trade throughout Ireland, and big exporters and manufacturers of Ulster are not losing sight of this, for once home rule became operative, there would be a signal change of front in Ulster's stronghold.

## Cause of the Explosion

How 28 Germans Were Killed When Air-ship Exploded.

BERLIN, Oct. 30.—The explosion of the dirigible Zeppelin LZ 12, which on October 17 cost the lives of 28 officers and men of the German navy and army, composing the entire crew, is attributed in the official report on the disaster to a partial vacuum formed in the centre gondola behind a new kind of wind shield. This was used for the first time on the ill-fated airship for the better protection of the crew and it sucked the gas escaping from beneath the aluminum structure of the dirigible into the gondola, where it was exploded by a spark from the motor.

The possibility of such suction had been overlooked by the Zeppelin constructors and it has now been decided that the shield is not to be used in the future.

## MYSTIC SHRINERS WILL GATHER IN HAMILTON

First Temple Will Pay First Visit to Ambitious City on Friday Night.

HAMILTON, Oct. 30.—Friday night will see the largest gathering of Mystic Shriners in the history of the city. The occasion will be the first visit of Ramesis Temple, of Toronto. Special trains will be run from Toronto, Brantford and London and also expected that there will be a large representation from Rochester and Buffalo (George J. Tuckett, an old Hamiltonian, is here from Rochester to help the local committee in making arrangements for the visitors. The parade will leave the T. H. & B. station at 7:30. It will be headed by the famous Thirteenth Royal Regiment band, which has been engaged by the Knights Templars to head all their big parades on the other side. It will be followed by the famous Ninety First Pipers, the Arab patrol of Toronto, the famous Tom-Tom band, the Arab patrol of Hamilton, commanded by Arthur Garthwaite, and the nobles in proper regalia. A large number of candidates from Hamilton and district will be initiated.

The program will be furnished by high class local talent and acts from the Hamilton theatres. Mr. Tuckett is president of the general committee; A. B. Goring, vice-chairman and Frank E. Walker secretary. Jack Appleton, manager of the Temple Theatre, is chairman of the press and entertainment committee.

## MUSICIANS UNION THREATEN STRIKE

And There Would be Great Furore in London Music Halls.

[Canadian Press Despatch] LONDON, Oct. 30.—The Musicians' Union threatens a strike, and which, if carried into effect, will leave many west-end theatres and music halls without music for their performances. The men demand a minimum pay of \$10 a week in houses where two performances are given nightly and \$9 a week in houses where there is only one performance nightly, with full pay for matinees.

The men have consented to consider arbitration and will wait until Tuesday before calling a strike.

### WEATHER WAS ROUGH.

LONDON, Oct. 30.—Owing to rough weather in the English channel yesterday the firing experiments at Portland in which the old battleship, Empress of India, was to be used as a target, were postponed. At Plymouth the Swedish warship, Flygja, bound for the West Indies and North American ports was removed to the dockyard in the harbor for safety.

## END OF CAMPAIGN IN SOUTH BRUCE

Attempt to Stir Race Feeling Worst Feature of the Fight.

### CONTEST A CLOSE ONE

TEESWATER, Oct. 30.—A dozen meetings in different parts of the riding last night brought to a close a Federal bye-election campaign strenuous even for South Bruce, which is not a political bye of either party, and where he who would win must work. In several instances, as at Walkerton and Chesley, two final

meetings were held in the same town last evening, the Liberal organization having shown no liking for joint debates. Mr. W. D. Cavill, the Conservative candidate, and the speakers who have assisted him have striven to lay the issues of the day and the policy of the government fairly before the electors. Mr. R. E. Truax, the Liberal candidate, has been engaged in a personal canvass of the constituency for months past, and he and the band of members of Parliament who have aided him have been heard on platforms all over South Bruce. The regrettable feature of their campaign has been the deliberate endeavor to stir race prejudices among the German-Canadian voters. Having fought a good hard fight until the last moment, Conservatives are looking forward with confidence to the result of to-morrow's polling. Both parties, however, feel that the contest will be a close one, and are praying for better weather than has prevailed for the past two weeks.

Convincing replies to such arguments as were advanced by Sir Wilfrid Laurier and Hon. George P. Graham at yesterday's meeting were given by Hon. Arthur Meighen, the Solicitor-General, and Mr. A. H. Musgrove, M.P. of North Huron, here last night. They were listened to by an audience which was large enough in spite of the unpropitious weather to crowd the Town Hall, and which was attentive, appreciative and at intervals demonstratively enthusiastic. Dr. G. S. Fowler acted as chairman.

A very rare prize was bagged a few days ago by Mr. Wm. Riddell, Ayr, Ont., a local hunter, in the shape of a fine specimen of whistling swan. The bird measured seven feet from tip to tip and was in fine condition, being very fat and having beautiful white plumage. It is very seldom this species of bird is seen in Ontario, its common haunts being in the Mississippi Valley and along the Atlantic coast.
