LORD BEAVERBROOK VISITS NEWCASTLE

Lord Beaverbrook, accompanied by his daughter Hon. Janet Aitken and two sons, Hon. Max Aitken and Hon. Peter Aitken, arrived in Newcastle last Tuesday to visit His Lordship's mother, Mrs. Wm. Aitken of this town. The party arrived here in their private car, the "Mayflower" which was set off awaiting their return. His Lordship spent Tuesday and Wednesday quietly at his mother's residence and was called on by a large number of his friends who welcomed him back to his home town.

His Lordship left by motor for Bathurst Thursday morning, accompanied by friends at which place they were informally entertained at the tea hour at the beautiful summer home of Mr. and Mrs. Angus McLean, The Points.

LABORERS LEAVE FOR GRAIN FIELDS

The three Canadian National Railway trains from the Maritime provinces passed through Newcastle on Friday last. Each train was filled on its arrival here and the number was augmented by many from Newcastle, Chatham and other Miramichi points. The number of harvesters leaving here this year has been considerably below the average. Those leaving from here were mostly young men of a clean cut type and the station platform was crowded with their relatives and friends who gathered to see them off.

CONSERVATIVES PLAN FOR PICNIC

The Liberal-Conservatives of Nova Scotia are to have a picnic in Victoria Park, Truro, on Labor Day, according to an announcement made by Frank Stanfield, president of the provincial organization. Among the speakers announced are Right Hon. Arthur Meighen, Federal leader of the Liberal Conservatives, and W.L. Hall, Provincial leader. Invitations have also been extended to Dr. J.B.M. Baxter, M.P. St John; Hon. Dr. Landry, Richibucto N.B. and Lord Beaverbrook, a former resident of Truro who is visiting in New Brunswick.

NO FEDERAL ELECTION

In his address at Markham, Ont on Saturday, Premier King announced that there would be no Federal election this fall. This announcement will tend to clear the political atmosphere.

JACK RYDER TURNS UP IN FREDERICTON

Jack Ryder of St. Stephen, formerly of Newcastle, who was reported missing from his home about a week ago, walked into the Fredericton police station yesterday morning and announced his identity. He left by car in the afternoon for St. Stephen. Ryder said he came to himself early in the morning near Glazier station on the Fredericton division of the C.P.R. and from there walked into the city. Mrs. A.L. Nutter of Fredericton Junction was approached Saturday by a young man dressed in khaki trousers and shirt, who had about a pall of blueberries in a birch bark receptacle which he had made. He offered the berries for a meal. Mrs. Nutter asked him if he were not Jack Ryder of St. Stephen. He denied it and said that he had been asked the question before. Ryder was accompanied then by a dog and the dog was with him when he arrived in Fredericton yesterday morning.

WINNERS OF MEDALS IN HIGH SCHOOL ENTRANCE

Following are the names of the winners of Medals in the High School Entrance Competition for the Lieut. Governor's Medals for 1924 with the name of the school where each wrote the examination: Albert County—Hilda L. Tingley, Fernalde. Carleton County—Harriett Harris, Hartland. Charlotte County—Edwin Toy, St. George. Gloucester County—Donald Harper, Archibald, Bathurst. Kent County—Thelma McDougall, Richibucto. Kings County—Elsie Northrup, Aphaoqui. Madawaska County—Ruth Trafton, Edmundston. Northumberland County—Lillian Sacler, Chatham. Queens County—Edgar Baird, Chipman. Restigouche County—Geo. J. Maher, Campbellton. St. John County—Mary Gray, St. John. Sunbury County—Stella E. Smith, Fredericton Jct. Victoria County—Easter Faye Merritt, Andover. Westmorland County—Ernest McBeath, Moncton. York County—Reginald M. Beatty, Fredericton.

The 3 highest in the above list in order of merit are:—Ruth Trafton Edmundston; Ernest McBeath, Moncton and Mary Gray, St. John.

MR. A. M. McLELLAN DIED SUDDENLY

The death summons came suddenly Friday evening to Mr. A.M. McLellan, a well known and highly respected citizen of Moncton. Although Mr. McLellan had not been feeling as well as usual during the past week or two, yet nothing serious was anticipated and he was about his business as usual as late as the day before his death. On Saturday last he had accompanied his wife and family to Cape Tormentine where they were to spend the remainder of the summer. Recently, however, while on a business trip to the North Shore Mr. McLellan suffered from an attack of indigestion and was incapacitated for nearly a week. He recovered from this however, and nothing serious was thought of it. Since returning home Mr. McLellan while complaining of not feeling just right, had been about and nothing serious was anticipated. Word of his death therefore, came as a great shock to his friends and acquaintances.

The late Mr. McLellan was a native of Newcastle, his father having been a trackmaster for the O.A.L.C. for many years. Before embarking in the insurance business, the late Mr. McLellan was an employee of the I.C.N. offices for many years. Deceased was a member of the Masonic Order and was also a member of the Order of the Mystic Shrine. The late Mr. McLellan had been a resident of Moncton for a quarter of a century. In addition to being a member of the Masonic fraternity he took a keen interest in amateur sports and was a contributor of his time and means in amateur athletics. He was a prominent and popular member of the Moncton Curling Club and his passing will be learned of with the most sincere regret by a wide circle of friends and acquaintances not only in the city of Moncton but throughout the Province of New Brunswick.

Deceased is survived by his widow (formerly Miss Beatrice Thomson) one son Alexander, of the staff of the Royal Bank of Canada and one daughter, Mary; also by two brothers, Robert W. McLellan, barrister and William of Fredericton and a sister, Mrs. John Russell of Newcastle.

GOOD FLOW OF WATER FOR CREOSOTE PLANT

Mr. T.R. Kent, Artesian Well Driller, of St. George, N.B. has just completed a satisfactory well for the Canada Creosoting Co. here. Mr. Kent, who makes a business of drilling artesian wells has six machines constantly at work throughout the Maritime Provinces and has been most successful in his line of work. Drilling for the new well at the Creosote plant here began on the 6th inst, and only one week was required in obtaining a most satisfactory flow at a depth of three hundred feet. In conversation with Mr. Kent he said that the drilling done here was through gray sandstone, which is the best obtainable for good, pure water and he considered the Miramichi district one of the best he has ever seen for water. The driller has been taken to Mr. Wm. Sullivan's mill, Neson, where a well will be dug this week.

TANLAC MEETS TEST FOR OVER 3 YEARS

"The more I know about Tanlac the more I feel like praising it," says Mrs. Samuel Shelley, 66 Wood St., Toronto, Ont., Canada. "I always take Tanlac when I begin to feel run-down and it has met my health needs for the past three years."

"For years before I learned of Tanlac I was in such a fearful run-down condition that at times I would get so weak and nervous I couldn't do my housework. I was down to almost a skeleton and still losing weight all the time. Head-aches nearly drove me mad and I

had a sickly, sallow complexion."

"Tanlac has increased my weight 14 pounds and has given me a wonderful appetite. My nerves are steady. I sleep well and have health and strength that makes life a pleasure."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 Million bottles sold.

TANLAC VEGETABLE PILLS for constipation, are recommended by the manufacturers and distributors of Tanlac.

The Old Time Planing Day

Before ledgers and account books were cheap and to be had at any time, the old New England storekeeper had what was known as planing day about once a week. On this day, known to all of his customers he planed his shingle so as to be ready for the coming week of accounts.

The shingle was used for marking down small accounts of customers who could not pay cash or who presented bills or coins when change was short and the storekeeper could not give back the right amount.

"Never mind today" he would say. "Pay me next time you come in I'll set it down on the shingle."

In those days there was not a great deal of money passed from hand to hand, as goods were exchanged with the majority of customers, so the accounts to be kept on the shingle were not many. But when the shingle was filled up with accounts, the storekeeper would n' up another, and then when the week was up he would plane down the shingles ready to have fresh accounts marked on them. This day was known as planing day, and his customers always figured to be at the store and pay what was due to the storekeeper on that day. To let an account run indefinitely, as often occurs today was considered almost a disgrace and very few ever attempted to cheat the storekeeper.

A BOBBED HAIR EPISODE

While bobbed hair is popular with the fair sex at Pembroke, Ont., and the barbers report a rushing business in the "shingle" nevertheless, in some quarters the newest in ladies hair style has not met with approval from some of the fond parents. In one of the biggest barber shops in town an irate parent rushed to the proprietor recently and asked him if he was responsible for cutting his oldest daughter's hair. "I was," said the barber. "Then if you bob my youngest daughter's hair I'll take proceedings against you, as she is under-age, and defied me," replied the father.

It Looks Like Reasoning

Do animals reason? "Mike" an Irish settler belonging to Sterling E Lordly at Courtepay Bay, N.B. swam out to the raft upon which two boys were hopelessly drifting. Boarding the raft the dog again took to the water and brought to shore one of the lads. The other was rescued by human aid. No long ago a collie in Ontario drove off a bull which had gored his master, and dragged the wounded man to the farm doorstep. Doubtless every lover of the canine breed has his pet story of animal affection or intelligence. The question is whether under such circumstances as these dogs are capable of reasoning? Reason, as distinguished from instinct, may be defined as the gift of thinking from cause to effect. In the case of bees and ants, whose wonderful skill, corporate economy, and social organization, men like Lubbock and Fabre have described, for aught we know, what seems like design to us may be due to instinct. The neat and coherent results may be purely automatic or mechanical. But in the Courtenay Bay instance, this explanation will not suffice. The dog saw the craft from the shore. Somehow he knew the youngsters were in danger. The drift of the hapless thing in the water had a meaning for this dumb creature. The sequel makes it clear he planned rescue and did the deed upon his own initiative. If this is not reasoning it would be hard to find an appropriate term for the action. We are often told that animals only become cognizant of the significance of action by their effect upon them for good or evil. In other words, man can shape and can use an idea, but animals are incapable of doing so. If animal's argue at all—we are told—it is only a very low form, they do so gathering a memory of things through sensation and experience. The conscious life of man is supposed to differ from animals in that he can co-ordinate his actions with a purpose.

RECKLESS DRIVING

The many accidents support the contention that timid persons would use the highways more were it not for the abuse of their privileges on the part of some motorists. That there is reckless driving on narrow stretches of road is a well known fact. A bicyclist remarked that he would rather get arrested for riding on the sidewalk than take the chance of getting his neck broken by being run into by an automobile on the streets. It don't take long for the reckless driver to bring the whole automobile fraternity into disrepute and it is the duty of the motorists, who are sensible of the rights of others and they are in the majority, to join in an effort to make it possible for everyone to use the streets and highways without fear of danger.

THE FORGING OF FINGER PRINTS

New York, Aug 18—The value of the finger-print system as means for the identification of criminals was never better exemplified than in the capture here, a few days since—of a gang of alleged burglars and the recovery of stolen furs to the value of more than \$100,000. The robbery had been committed in another city and the only clue on which the police had to work were a few vague fingerprints which the thieves had left behind them. Yet, so exact is the finger-print system and so well has it been perfected for practical use that the arrests were made and the loot recovered within 48 hours after the robbery had been reported.

That the finger-print system is a bugaboo to the professional thief who would rather face a loaded pistol than have his "prints" taken is evidenced by the round up of another gang of loft burglars a week or so ago. Included among the elaborate outfits carried by the thieves, and probably regarded by them as one of the most important items, were gloves for each member of the band, intended to prevent the leaving of finger-prints behind them after they had done their "job."

All of which goes to show that the modern burglar, if he wishes to be successful in his "profession" must be something of a scientist as well as a skillful cracksmen. He must be capable of coping with the every new device adopted by the police, and producing something that makes the inventions of the guardians of the law useless.

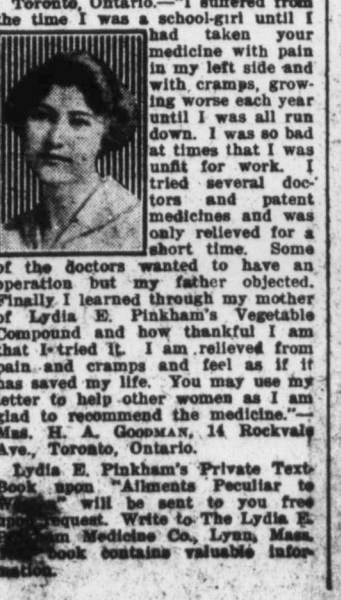

Usually the skilled burglar has been remarkably successful, but so far he has found it an almost impossible task to beat the finger-print system of identification. However the police in one of the large European cities recently discovered that finger-prints have been forged.

This is done by means of stamps made of rubber, wax and even bread. Photography has also played a part in baffling the forces of law and order. The criminal must first obtain specimens of the finger-prints of the person on whom he wishes suspicion to fall. This is done by arranging that the dupe shall handle a piece of glass or some other highly polished surface. The finger-prints which are left are then photographed.

When rubber stamps are used the impression of the finger-prints is obtained by means of a transfer paper, and the surrounding rubber is cut away with a knife. Another method is to obtain a print of the dupe's fingers in a lump of soft wax, clay, plaster of Paris or bread.

YOUNG WOMEN WHO SUFFER

Letter Points Way Towards Relief—Lydia E. Pinkham's Vegetable Compound

Toronto, Ontario.—"I suffered from the time I was a school-girl until I medicine with pain in my left side and with cramps, growing worse each year until I was all run down. I was so bad at times that I was unfit for work. I tried several doctors and patent medicines and was only relieved for a short time. Some of the doctors wanted to have an operation but my father objected. Finally I learned through my mother of Lydia E. Pinkham's Vegetable Compound and how thankful I am that I tried it. I am relieved from pain and cramps and feel as if it has saved my life. You may use my letter to help other women as I am glad to recommend the medicine."

Mrs. E. A. GOODMAN, 14 Rockvale Ave., Toronto, Ontario.

Lydia E. Pinkham's Private Text-Book upon "Affections Peculiar to Women" will be sent to you free on request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Mass. The book contains valuable information.

To Have Beautiful Hair Shampoo this way

Women who command attention and admiration have pretty hair. Hair with softness, and silken sheen.

Such hair is within the power of every girl and woman to possess.

We are offering you a test of the shampoo which specialists on hair treatment recommend. It will bring out new beauty in your hair.

Without perfect cleanliness of hair and scalp, no hair can be really lovely. Do not use shampoo which leaves the hair dry and brittle, dull or lifeless.

Shampoo containing olive oil is best, authorities say.

It cleanses each hair, clear down to the tiny scalp pores.

Yet mildly, so that your hair is left soft,

PALMOLIVE SHAMPOO

Made in Canada

When this mould has hardened, rubber, candle grease or even common getafine is melted and poured in, and left to harden. By this means a perfect cast of the original grooves and ridges in the finger is obtained. The drawback of this method is that it can be used only when the dupe is unconscious or dead.

An other method has only been used once so far as known. This was in the case of Anthony Trent, known as the American "gentleman crook" who operated extensively in London, Paris and other cities of Europe. Trent was engaged in stealing the jewels of a wealthy German baroness. They were in a plain gold casket, which offered an excellent surface for recording finger-prints. As Trent had neither gloves nor any other precaution against discovery, he was baffled. Then he noticed that his victim's husband was sprawling on the bed in a state of intoxication. Trent seized the hands of the unconscious baron and placed them on the jewel case. In this way he made the baron open his wife's jewel case and record his own finger-prints on the surface.

Washington St., Boston Is Very Crooked

Washington street in Boston is one of the great thoroughfares of America worthy to rank with Broadway in New York and Michigan Avenue in Chicago. Like nearly everything else in Boston, it has a history of almost incredible length and respectability making other streets seem painfully young and callow and crude.

Moreover Washington street is one of the longest in the world running all the way through Boston and on to another town without a stop or a break. This is not accomplished without many a bend and meander however, for Washington street is amazingly crooked, as are nearly all the thoroughfares of Puritan origin. It seems that the Mayflower party did not realize how big Boston was going to be, and so they carelessly let the cows lay out the streets as they wandered homeward.

Washington street today does not look like an aristocrat of ancient lineage however. On the contrary it appears decidedly democratic swarming with all sorts of people who jostle and push each other on the narrow overflowing sidewalks in the glare of numerous electric signs that flash the rival merits of moving picture shows, bars and cafes.—Exchange.

GIVE US THIS KIND OF A BOY

Every now and then we parents of ordinary children are apt to feel discouraged by reading of the phenomenal development of some one else's child. A few years ago there was a child prodigy who knew six languages when he was six years old, passed college entrance examinations when he was eight and entered Harvard when he was eleven. He was the son of a noted scholar.

Theoretically, he ought to have been a world wonder. His mind evidently was so constituted that he could grasp and retain most complex and difficult texts. As a lad in short trousers he lectured the Harvard professors on the fourth dimension which is just about as simple as Einstein's theory.

But instead of setting the world on fire this mental marvel is earning \$23 per week as a statistical clerk in a New York office. And according to the newspapers he doesn't seem to care much whether school keeps or not. He doesn't show much ambition.

It would have been better if he had shown, some years ago this disregard for the continuity of school sessions. The boy, from one point of view had every opportunity thrown his way. Instruction was his on all sides on any subject. But in another sense of the word, he didn't get a square deal.

The good Lord never intended that little boys should be showing their noses into books all the time or that instructors should take the place of play fellows. The Lord

did intend that they should be out in the open playing, getting dirty and tired, and it is quite easy to believe, when they played hockey and forgot to turn up at school some fine morning when the skating was extra good, that the Lord entered this lapse from virtue, in vanishing ink.

Of course, the little book worm didn't have time to get dirty and tired. When he should have been out rooting in the garden, he was digging out Greek roots, and when he should have been down at the old swimming-hole he probably was all muddled up in mathematics or hydraulics. Mighty poor substitutes.

Give us the boyish boy, the little dirty faced human animal, who gets to school in good spirit most of the time and who plays his fool head off when it's time to play, who has an appetite that makes his father and mother look on in wonder mixed with envy, and who gets his English woefully and wonderfully mixed up at times.

That's the kind of boy who is going to develop into the man who takes his place along side his fellows and who will pull his weight in the boat. Not a world beater, but a good, competent kind of a citizen who had a boyhood and looks back to it with kind remembrances. It's this kind of a boy who will put his education to the best use in the days to come and he will have a real human background, which this poor prodigy seems to lack most woefully.

WELL PLEASED WITH SPORT IN PROVINCE

E. F. Wolfe, vice-president and editor of Sportlife, published in Philadelphia, is having a good time in camp just 26 miles beyond Newcastle, and he has written the following appreciative letter to C. B. Allan secretary of the New Brunswick Tourist Resources Association who was active in arranging for Mr. Wolfe's camping trip:

We are living the life of Riley on the Miramichi. Water is much too low for salmon fishing but we managed to catch a 10 pound salmon the first day here, and two others since.

This is a wonderfully appointed camp, splendidly located, and we are having a fine time and getting a lot of good photographs. Seeing lots of game. In a bog just below camp we can see moose and deer any evening and have photographed some of them. One moose called on us in camp at dinner, the first evening we were here.

Tomorrow we are going on a two or three day trip to a hunting camp owned by Mr. Matchett, the caretaker of this camp and warden here.

Am getting a wealth of material for good stories here, as Matchett knows the whole province and all about it. Colonel Loggie of Fredericton paid us a visit and stayed here with a party of friends for three days. The Colonel told me that if I gave them good publicity he would get me free license up here! There is no question about the publicity as I am getting the material.

Will write in more detail when I get back home.

Will stop over for a day in Fredericton to get some information and data about the province there.

With best personal regards, I am

Very truly yours,

(Sgd.) E. F. WOLFE

Mr. Wolfe was gathering material and illustrations for stories and articles on outdoor life in New Brunswick and he appears to have been favorably impressed with the province's attractions.

The camp which served as his headquarters was one of about 30 or 40 located in various parts of the province, which possess every convenience for the sportsmen and afford excellent opportunities for hunting and fishing.

There were in New Brunswick at present, Mr. Allan said, about 600 guides and this year there had been one or two new camps opened as well as some new hotels on the North Shore which would promise an exceptionally good year for the guides with a large number of sportsmen going into the woods.

The hunting season for moose is from Oct. 1 to Nov. 30 and for deer from Sept. 15 to Nov. 14 while geese and ducks etc. may be shot from Sept. 15 to Dec. 31.

The New Brunswick guides are a fine lot, kind and courteous to the stranger, and well posted in their business. Many of them have first rate camp outfits, such as camps, boats and supplies and can take care of parties, including ladies, with every satisfaction.

The improved roads of the province make it possible to motor to all parts in comfort and many of the sport camps are reached by automobile.

ANTI-UNIONISTS ISSUE CIRCULAR

Presbyterian Association Review Progress of Church Union

The Federal Executive of the Presbyterian Association has issued the following statement setting forth its attitude and indicating the action it will take following the passing of the Act incorporating the United Church of Canada.

It points out that amendments made in the Bill were to its advantage. This is the first official statement since the passing of the Bill and will be distributed in printed form in the Presbyterian churches throughout the country. The statement says:

The Act now provides that within six months before it comes into force (June 10, 1925) any congregation may, by a majority vote, decide whether or not it will enter the United Church of Canada. If by such vote it determines to remain a congregation of the Presbyterian Church, it retains its congregational property; this, it will be seen is a decided gain. We also secured, after much effort another favorable amendment to the Bill in the method of taking the congregational vote. Provision has been made for voting by ballot which will make it possible for all who are entitled to vote to have a voice in the disposition of their congregational property.

The date set for the commencement of congregational voting is December 10th next, and provisions for taking this vote are as follows:

A meeting of the congregation for the purpose aforesaid may be called by the authority of the Session of its own motion or, if any session should be unwilling to call such meeting then a meeting must be called by the session on requisition to said session in writing of ten members entitled to vote in a congregation of 100 members or less, or 25 such members in congregations having over 100 and not more than 500 members, and 50 members in congregations of over 500 and not more than 1000 members, and 100 such members in congregations of over 1000 members.

We would counsel congregations to take such vote as soon after December 10 as possible and also warn them that if any congregations remain inactive and fails to take a vote in the appointed time—December 10, 1924 to June 10, 1925—such congregation automatically becomes a congregation of the United Church and further we would urge all Presbyterians to remain members of the congregation with which they are now connected until the congregational vote shall have been taken.

PAYS \$54 A DAY FOR HIKE OF PULLMAN CAR AND CREW.

Robert T. Crane of Ipswich, has paid \$54 a day for the last year to the Pullman Company for the hire of a Pullman car. He still has the car and when he is not travelling in it, he keeps it ready for the next trip. The \$54 which is the regular rent for a Pullman whether in use or not, includes the pay of the crew which consists of waiter, cook and porter. It does not purchase food. This figure is additional to paying the fares for every seat in the car whether used or not. An ordinary car has 25 seats.

ANOTHER PROPHECY

One of the early weather prophets predicts that, on account of the proximity of Mars to the earth, exceptionally mild and fine weather is likely to last up to nearly Christmas time. Not being in the coal business, we trust he is correct. Possibly, pending the damming of the Straights of Belle Isle, it would be a good idea to put a permanent hitch on Mars.

UNION OF N. B. MUNICIPALITIES MEETS AUG. 21-22

As previously announced the ninth annual convention of the Union of New Brunswick Municipalities will be held in the City Hall, Moncton, on August 21st and 22nd, Thursday and Friday. The opening session will be at 2:30 p.m.

The program for the two days' convention will be as follows:

The School Law of New Brunswick Re-stated—George J. Trueman, M.A., Ph.D., President of Mount Allison University

Housing Problem—Mayor N.C. McKay, Mayor of Campbellton.

New Brunswick Hydro Problem in Relation to Grand Falls—Samuel D. Weston, B.Sc., A.M.E.I.C. Engineer New Brunswick Electric Power Commission

Tuberculosis in Children—The Deadly Contact—Hugh A. Farris, M.D., Superintendent St. John County Hospital.

Provincial Valuation—J.Y. Mercier, Ex-Mayor of Chatham.

The Administration of Criminal Law in Relation to Insanity as an Excuse for Crime—J. King Kelley, K.C., B.C.L.

OPEN DISCUSSION

1. Resolved that the Government of New Brunswick be requested by the Union of New Brunswick Municipalities to enact legislation providing for a just valuation of the real and personal property of all ratepayers within the Province of New Brunswick free from local and partisan control

2. That school districts be abolished and the collection of rates and the payment of public school teachers be made by the City and Town Treasurers and the County Secretaries and the appointment of public school teachers be vested in a non-political board of education, for the entire Province.

3. The establishment of a Board of Arbitration to whom might be referred all ultra municipal disputes.

Advanced Safety Devices

Stimulated by the rapid motorizing of Swedish highway traffic, native engineers have patented three inventions for the comfort and safety of motorists in that country. These are an automatic beacon light for giving warning at railroad crossings; an automatic slot machine for refilling gas tanks, and a device which prevents the accidental running out of batteries.

The crossing beacon consists of a flashing light in a cylindrical lan-

SUCCESS
in baking is assured when you use

MAGIC BAKING POWDER

It contains no alum and leaves no bitter taste

tern with red and white sections in opposite quadrants. When the railroad is clear the white lights no indicate to the highway traffic, but when a train approaches the lantern rotates automatically showing a red light to the highway and a white light to the train. This beacon will work under unfavorable conditions of snow and ice.

The automatic gasoline vendor can be utilized by the customer at any time of night and day by connecting the tube with the gas tank of the car, dropping it in the slot, and operating a lever. The quantity of gasoline received naturally varies according to the market price, which can be quoted at the minimum, owing to the saving of wages for attendants.

The attachment which automatically cuts off the batteries when the engine is stopped involves the principles of suction and gravity. It is essentially a switch system which is connected with the gas intake or the lubrication pipes so that the suction actuates a weight that rises and closes the electric circuit. When the suction stops, the weight falls and throws the switch open.

SUNBURN SPRAINS ACHING FEET

JARS 25c. & 50c.—TUBES 25c.—At all Drug Stores

WHEN USING **WILSON'S FLY PADS** READ DIRECTIONS CAREFULLY AND FOLLOW THEM EXACTLY

There is only one way to kill all the Flies

This is it—Darken the room as much as possible, close the windows, raise one of the blinds where the sun shines in, about eight inches, place as many Wilson's Fly Pads as possible on plates (properly wetted with water but not flooded) on the window ledge where the light is strong, leave the room closed for two or three hours, then sweep up the flies and burn them. See illustration below.

Put the plates away out of the reach of children until required in another room.

The right way to use Wilson's Fly Pads

STOP that cough before it begins—take **SCOTT'S EMULSION** right now to nourish the system and to build up strength and resistance.

Editorial

A BAND NIGHT COMPLAINT

A number of complaints have been heard regarding the noise made by automobiles last Wednesday evening, while the Band Concert in the square was being rendered. The citizens felt that the least automobile drivers might do, is to remain quietly parked around the square especially when the band is in the act of playing. People who congregate about the band stand on band night, gather there for the purpose of hearing the music, not to near automobile horns blowing, or motors buzzing,—they get enough of that every day in the week. In future, it is hoped that on band nights, drivers of automobiles will park their cars and remain quiet during the program, unless it is imperative that they move. If this is done, band concerts will be enjoyed more by everybody.

NORTHUMBERLAND POLITICS

All kinds of political rumors for the County of Northumberland are now "on the tapis". Some say that a by-election will be held in October and many predictions are heard of who will and who will not be the candidate for the respective parties. Hon. A. B. Copp, Secretary of State and leader of the N. B. Liberal party was in Newcastle and Chatham last week, as was also Mr. A. J. Brooks of Sussex, organizer for N. B. of the Conservative party. No doubt these visits have had much to do with the many rumors which have recently been broadcasted. In the main,—such political gossip are usually "feelers" and as yet it is very probable that nothing definite has been decided on by either party. Elsewhere in this issue will be found an advertisement issued by Mr. K. Gill of Barnaby River, president of the Northumberland County Liberal Association, calling the attention of the liberals of the county, to a convention which is to be held in the Newcastle Opera House on Tuesday September 2nd, for the purpose of nominating a candidate for the by-election, which will be held to fill the vacancy caused by the death of the late Hon. John Morrissey, M.P. provided that a general election is not held before the next session of Parliament. This move on the part of the Liberals is probably the result of the recent visit of Mr. Copp and is a warning to the Conservative party to "get on the job" and not be caught napping when the election is sprung.

CO-OPERATION

The kind of co-operation of that

amounts to something and which is practised by many other citizens would make Newcastle and vicinity, not only one of the best, but the best community in the province in which to live, has been shown by Mr. Allen McLellan manager of North Shore Motors of Chatham and Newcastle. Mr. McLellan has very kindly donated a prize worth \$15.00 to the young lady who sells the largest number of tickets for the Firemen's Dance to be held in the Town Hall tomorrow night. This is the proper spirit and it now rests with the citizens to show their co-operation by purchasing tickets from the young lady whom they would like to see win this magnificent prize which is on exhibition in Messrs. C.M. Dickson & Sons drug store window. There is only tomorrow left to purchase tickets so get busy in the interests of your favorite ticket seller.

DO NOT HEAR ENOUGH ABOUT THE MARITIMES

Provinces is that we do not hear enough of them in Scotland; we never hear of the places which we have seen on the tour we are now completing and the people of Scotland do not know what the Maritime Provinces have to offer for intending immigrants to Canada. said James Reid of the Dumfries and Galloway Standard, who with Colonel E.W. Watt of the Aberdeen Press and Journal, completed a tour recently, of the Maritime Provinces looking into the conditions for intending immigrants from Scotland.

They were members of a party of Scottish Journalists brought to Canada through the Canadian National Railways to look into immigration and agricultural conditions throughout Canada. They were accompanied by F.A. Talbot publicity representative and F.C. Bletto, Co-ordination Representative of the Canadian National Railways.

Delighted To See Paper Mill In N. B.

Lord Beaverbrook, Canadian proprietor of the London Daily Express who is at present in Montreal believes that Canadian producers of newsprint will soon have to cut the price of their product.

"Canadian firms are getting too high a price for newsprint at present and the price is sure to come down" he said. "By this time next year it will not be so high as it is today"

"I have just visited at Bathurst, N.B; a most compact newsprint plant owned by Mr. Angus McLean" said Lord Beaverbrook "and I was delighted to see that Canada's premier industry is being developed so well in my native province"

Big Profits In Liquor

A profit of \$3,000,000 of trade account was realized by the Province of Quebec from the operations of the Liquor Commission during the fiscal year which ended June 30 last. This is in addition to the revenue obtained from permits, the 5% tax on beers, fines etc. which brought an additional \$1,305,29. The figures are contained in the current issue of the Quebec Official Gazette

BOBBED HAIR PENALTY

An epidemic of neck carbuncles that has attacked Ponca City, Oklahoma, young women is the indirect result of bobbed hair, local physicians declare. The carbuncles are caused by shaving the back of the neck with razors. It is said that now bobbed hair is going out of style there.

Fires In New Brunswick

The number of forest fires in N.B. for the six months of 1924 was 529 of which 254 were in the first quarter and 275 in the second. In the total number was 555 of which 254 were in the first and 297 in the second, making a net decrease of 26 in the six months. Sunbury is the only county in the province that can boast of having no fires during the three months of the second quarter. The other counties had fires as follows: St. John 53; Westmorland 51; Charlotte 29; York 29; Kings 24; Gloucester 22; Northumberland 21; Carleton 15; Victoria 9; Restigouche 8; Queens 6; Kent 6; Albert 2. The following table shows the amount of loss and insurance loss, the total average being \$537,997; in insurance loss \$421,671; and loss not covered by insurance, \$116,326.

OBITUARY

MRS ANNE HARRIMAN
The death of Anne Harriman, widow of John Harriman, occurred here last Saturday morning. Mrs. Harriman has been an invalid for several years. With her at the time of her death were her three daughters, Sister St. John of the Congregation de Notre Dame of Montreal; Adelaide of St. Mary's Hospital, Brooklyn, N.Y.; and Mrs. R.H. Mullen of Vancouver. The funeral was held Monday morning at 8:45 o'clock, with interment in St. Mary's Cemetery.

MRS. DANIEL CRIPPS SR.
Aged 71 years, Mrs. Daniel Cripps Sr. died at the home of her daughter, Mrs. Allen Phee, Chatham on Wednesday. She leaves seven sons and four daughters—John, Pennsylvania; A.D. Daniel, William, Martin, David, Frank and Edward all of Chatham. Mr. John Bryce, Bangor, Me.; Mrs. Allan Bell, Danforth, Me.; and Mrs. Allan Phee and Mrs. Joseph Kidgey of Chatham.

DIED IN BOSTON
The death took place, Thursday of Mrs. Fred Ives, Boston after a lengthy illness following an operation some months ago. Deceased was formerly Miss Florence E. Ramsay, Newcastle. She had no children and is survived by her husband, her mother, Mrs. W.F. Copp, Newcastle and one brother, J.H. Ramsay, Fredericton.

Too Many Home Cares

The Reason Whyso Many Women Are Weak and Run-Down

The work of the woman in the home makes greater demands on her vitality than men realize, and there is always something more to do. No wonder women's backs ache and their nerves are worn out. No wonder why they get depressed and irritable, suffer from headaches, and always feel out of sorts. But of course all women are not like that. What is the difference?

A woman with plenty of healthy red blood in her veins finds work in the home easy; her vitality is at par. This points the way to health in women who feel run down and depressed. Make new rich blood. You can do it with Dr. Williams' Pink Pills. These pills have the marvelous property of building up the blood and toning up the nerves. That is proved by the case of Mrs. H. Eppinger, Scott street, Vancouver, B.C. who says:—"Dr. Williams' Pink Pills brought back my health and restored my nerves to normal condition after other medicines had failed. It was after the birth of my second child that I became so anaemic and nervous that I thought I would lose my mind as well as my strength. I tried several medicines, but got no relief until I was advised to try Dr. Williams' Pink Pills. After using a few boxes of these I could see a change; I felt stronger; my appetite was better, I slept better, and my nerves were stronger. I continued the use of the pills for some time, and again found myself a well woman, and I can sincerely say that my health has since been the best. I can cheerfully recommend the pills to all, weak, run down women."

If your dealer does not keep these pills you can get them by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

COTTAGE FOR SALE

PILES
Do not suffer another day with the itching, burning, or protruding Piles. No surgical operation required. A cure guaranteed. Dr. Chase's Ointment will relieve and afford lasting benefit. Sample 1 cent. Paper and enclosed.

JACK RYDER, A FORMER RESIDENT AGAIN MISSING

John Ryder, son of Captain Geo. P. Ryder of St. Stephen, has been missing from his home since Monday, 11th inst. His brother Frank, telephoned him early Monday morning about bringing something down to the early train and he left the house apparently to do so. When he did not return home for dinner his wife became anxious and enquiries were made and it was found that he had not gone to the train, and the last seen of him was about 7:30 Monday morning at the Custom House when he said to those there: "Well, I have just about time to make it," and then started up through the cove. At that time he seemed to be all right but nothing has been heard from him since.

He had on khaki pants and shirt but wore no coat and it is thought that he had no money with him. About four years ago when he was in the customs service at Newcastle he suffered a similar attack which is said to be caused from a strained heart which he developed overseas. At that time he left Newcastle and was missing for several days, turning up in Montreal. This is the first attack he has had since leaving Newcastle. Last week he went to Sussex and took part in the rifle shooting and it is thought that the excitement affected his heart again. On Sunday he marched with the G.W.V.A. to the cemetery for Decoration Day and he then complained of not feeling well. Everything possible is being done to locate him. He is well known and was one of the first to enlist for service in the Great War. He was also prominent in sporting circles and had for the last few years tended goal for the St. Stephen hockey team at different times.

TWO NOMINATIONS OCCUR TO-DAY

Nominations occur today, in the two Dominion by-elections, St. Antoine Division of Montreal and Rimouski. In the latter constituency it is a straight fight between Sir Eugene Flit, Liberal, and E. Sas-souille, conservative, but in St. Antoine division the situation is still confused. There are two Conservatives, Birks and Bell in the field, but while W.J. Hunshion, M.L.A. is a prospective Liberal candidate, he has not officially accepted.

Fraser Cos. Sell lands In Nova Scotia

Hollingsworth and Whitney Limited, Boston, have purchased all the lands of the Fraser Pulp & Lumber Company amounting to some 280,000 acres. These properties are largely situated in Halifax, Colchester and the St. Mary's district of Guysboro. There is acreage in Pictou and Hants as well. They were the lands of the Alfred Dickie Lumber Co and have been operated on for some fifteen years.

The price is kept private but the Frasers have been holding out for ten dollars for their lands. Hollingsworth and Whitney, Limited, have now a very large acreage in Nova Scotia consisting of the Davison lands in Lunenburg County and several scattered properties along the Bay of Fundy Coast. This last purchase from the Fraser Company will bring up their acreage in Nova Scotia in excess of half a million acres.

Hollingsworth and Whitney have their paper mills at Waterville, Me and evidently are buying Nova Scotia lands as a reserve.

THIS SENTENCES INCLUDES A NUMBER OF SENTENCES

Los Angeles, July 23—Sentenced to read every newspaper in this city each day for six months and re-write the traffic accidents in them in his own handwriting, was the punishment meted out here yesterday to W.G. Lowe, 18, charged with speeding.

There is no doubt that if this sentence was served generally and often on offenders, the public would be much safer and much happier. A good idea.

Liberals Attention!

A special County Convention of the Liberal Party of Northumberland will be held in the Opera House at Newcastle, on Tuesday the 2nd day September 1924, at 2:30 p.m. Parish associations are requested to hold meetings and appoint delegates to attend the County Convention in order to select a candidate to contest the county in the coming Federal By-election.

N.J. GILL, President.
342 Barnaby River, Aug. 16, 1924

THE RAGWORT OR STINKING WILLIE A MENACE TO CATTLE

It Has Gained A Footing In Northumberland. Eradicate It Now.

For many years the farmers of Pictou and Antigonish counties in Nova Scotia had been experiencing loss, by the death of not a few of their cattle. One farmer in Antigonish lost sixteen head in the course of a couple of years. The situation was serious. The veterinary Director General at Ottawa was communicated with and he sent a man into the affected districts to try to ascertain the cause. Not a few of the farmers were inclined to believe that eating the Ragwort or Stinking Willie, a weed that was first gaining a footing in the districts, was the cause of the trouble. It had been noticed that the cattle did not feed on the weed while in the green growing stage in the field, but that they ate it when cured in the hay. They also noticed that most of the trouble took place while the cattle were confined to and fed in the stables during the winter period. The officer whose duty it was to investigate returned to Ottawa without ascertaining the cause of the trouble and pooh-hooing the idea that the matter had been properly sible for the trouble.

The farmers were not satisfied until the matter had been properly investigated and so they kept right after the Veterinary Director General until they succeeded in getting him to send a real investigator in the person of Dr. Pethick, who now occupies the position of Dominion Veterinary Inspector at Charlottetown, P.E. Island. Dr. Pethick went at his work with characteristic skill and thoroughness. He leased the farm on which many cattle had died and by a series of experiments proved that the stables were not contaminated and that the disease, which by this time had become known as the Pictou Cattle Disease, a curious and fatal disease of the liver (Hepatica Cirrhosis) is not contagious. Cattle fed on imported hay remained well despite the fact that they were tied up alternately with animals that eventually sickened and died after being fed for sometime on local grown hay containing Ragwort.

Dr. Pethick positively cornered the culprit and confirmed the opinion held by farmers for some years.

The Ragwort is a short-lived perennial that finds its way into grass lands, cultivated fields and through the woods and wild lands. As each plant produces a lot of seed which are like thistle down, and blow around in winter time, it multiplies very rapidly and extends its area far and wide. Eastern Nova Scotia is polluted with it. While on a trip to Chatham a week or two ago the writer noticed a considerable spread of this noxious weed along the railway right of way from Boiestown to Chatham. It also appears in scattered clumps outside the railway fences on many of the farms adjoining the track. From Newcastle to Chatham both sides of the tarvia road are fairly bewhiskered with the weed and it is also on the adjoining farms. It also appears along the road leading from Newcastle to Whitneyville and I have no doubt in other adjoining districts.

The railway track men have been notified at the request of the New Brunswick Department of Agriculture, by the trackmaster, to eradicate the weed along their respective sections by cutting or pulling.

Concerted action is needed to stamp out this weed before it gains a further foothold and becomes a menace to New Brunswick cattle. Will the farmers on whose farms it now is, take a day or

Crimean Veteran Praised "Fruit-a-five"

MAJOR GEO. WALKER

Major George Walker, now a familiar figure in Chatham, Ontario, is one of the men who went through the terrible Indian Mutiny. As he says: "I am a veteran of the Crimean War and the Indian Mutiny, serving under Lord Roberts. Fierce hand-to-hand fighting and continual exposure hit me a great sufferer from Rheumatism, so much so that my legs swelled up, making it impossible for me to walk. My bones were so constricted that I was in terrible shape until I began to use 'Fruit-a-fives.' They relieved me both of the Rheumatism and the Constipation. Today, I enjoy perfect health—no more Rheumatism or Constipation."

And in another letter, written December 1st, 1923 (George Walker writes): "Major Walker says: 'Fruit-a-five kept me in the best of health and I shall never be without them.'"

"Fruit-a-fives" are the famous Fruit Treatment—intense fruit juices combined with tonics—that is, an excellent kidney cure, 25¢ and 50¢—at all dealers or from Fruit-a-five, Limited, Ottawa, Ont.

Two off from other work and save the situation, not only for themselves but also for other parts of the province? Farmers who do not know the Stinking Willie Plant will possibly recognize it by the following description:—

"It is a large conspicuous, strong growing plant about two to three feet high. The flowers are in numerous heads in clusters, bright yellow in color and very showy. The root leaves are 6 to 8 inches long and quite jagged on the edges. The stem leaves issue directly from the stem without a projecting support and clasp the stem, all leaves dark green, deeply twice notched, the segments crowded and overlapping, crisped and waved. It is a short lived shallow rooted perennial and is not difficult to eradicate, all that is necessary being to cut it in time to prevent it from seeding for several succeeding years.

The Department of Agriculture will be pleased to send a representative to point out the menace of this plant to any group of farmers, in infested areas, that may ask for a meeting. In the meantime, if you know the plant and you have it on your farm, plan with your neighbors to make a raid on it. It can be eradicated now before it gains a more extensive foothold.

M. A. MACLEOD,
Supt. of Agricultural Societies,
N.B. Dept. of Agriculture

PUT ON YOUR MUZZLE

What a glorious pace this town would be if no one of us ever said an unkind word. No more scolding nagging or bearing false witness. Did you ever stop to think how many neighborhood quarrels have started from the hasty word? How many family differences have had their beginnings in scolding and nagging?

A group of so-called friends will be together and suddenly someone drops a word of criticism about an absent one. In a few minutes they're like a pack of dogs, snapping and snarling. Their muzzles are off and they all take a snap at the under dog. He is criticized as a tightwad, when perhaps no one knows the financial burden he is bearing. It is so easy to say unkind things about the one who is not present to defend himself. Then a talebearer carries the criticism, a coolness that grows into an estrangement follows and another friend is lost. Put on your muzzle and keep the unruly member between your teeth. In that way you will avoid being misquoted and misunderstood and you will keep your friends.

OPPOSITION CONVENTION IN KENT COUNTY AUG. 27

An Opposition convention has been called in Kent County for Wednesday afternoon August 27th at 2 p.m. at Rexton for the purpose of nominating three candidates to contest the county in the next provincial election. Opponents of the present government in each school district in the county are requested to meet and select two delegates and two substitutes. The convention is called by Mr. John Morton, President of the Conservative executive and Mr. Telesphore Arsenault, Secretary. It is expected that the convention will be a large one and that three strong men will be chosen to run in the interest of the Opposition.

Young Man At Forty

Come, gather 'round, you men of forty. If you're a year or two over you can attend too. Consider the case of Stenos, the Finn—who at forty years of age has just romped home with the championship of that classic, 26 mile run, the marathon.

He met the best in the world, the fleetest of foot and the soundest in wind, fifty of them gathered from the points of the compass. When it was all over he raced back to the finishing point, a mile ahead of the next man, and for good measure tore around the track to show that he was far from the point of exhaustion. He went up hill and down hill, along dusty roads, over the cobblestones of villages, seldom altering his pace, and never in trouble.

And he is forty years of age, a woodmaker by trade.

Just one question, Mr. Man of forty—how far can you run? Some time you may participate in a 50 yards at a picnic, and you puff, and blow, and perspire, and then content yourself by telling the folks how you won a pair of curl links once for winning a race at a school picnic.

If you live in the city remember the day before yesterday when you ran half a block to catch a street car. You bumped along and every person laughed at you. A small boy said "Go it, old man you'll catch it if it stops." And your legs were stiff for two days after.

But Stenos is forty and so are you. He can go it for 26 miles faster than any man in the world.

His pulse starting was 77; at quitting it was 110. Mr. Forty what would your pulse do if you stooped over ten times and touched your toes—or can you do it at all?

Isn't it a fact that a lot of you are a little on the pudgy side, especially you who live in town and cities? You d'ye a great deal you sit a great deal you seem to take it for granted that you have passed the stage of exercise.

Remember Stenos. He was forty. You ought to be proud of him for he has stuck a feather in the cap of your class, and has shown that a man at forty can beat the world.

WORSE THAN MURDER

The most callous case on record comes from Montreal, where Armand Gregoire, a 6 year old lad, was struck down and killed by a heavy touring car.

The car stopped, and it might have been supposed that the occupants were getting out to rush the child to a doctor.

Not at all. They simply pushed the mangled body from under the car, left it on the side of the street and sped on and away from detection.

If there is a degree of crime worse than murder, that man entered into it and took full possession,

EARLY FALL PLOUGHING OR AFTER HARVEST CULTIVATION

Early fall ploughing or as it is sometimes called, after harvest cultivation, is not widely practised in the Maritime Provinces. This method of handling sod land was introduced into the Eastern Provinces by the Division of Illustration Stations. It has certain well defined advantages over late fall ploughing that should enlist the attention of careful farmers. It is an admirable way of preparing old sod or pasture land for hoed crop or for reseeding.

The procedure, in the case of old sod or pasture land, is as follows: Immediately after haying, say the first of July, plough the land shallow and flat. Then roll it to compact the ground and disk lightly. From this time on until fall, harrow periodically to control weed growth. The last thing in the fall plough again. Plough the same way but deeper and with the furrow set up rather than flat as in the first ploughing.

Land treated this way may be used for a hoed crop the following year and if it is, a nice, mellow and clean seed bed will be available. Further, the rotted sod will serve as plant food. If it is desired, the field may be sown to grain and seeded down. In any case, if the preparatory work has been done carefully, weeds will have received a check from which they cannot recover, more particularly couch grass which, with the exception of mustard is the hardest to control in the East.

The chief objection registered in opposition to after harvest cultivation is the amount of labor involved in the preliminary preparation. This undoubtedly is true, and while the initial labor cost mounts high, yet the succeeding year it is correspondingly low and better crops are produced. After harvest cultivation is practised on all of the Dominion Illustration Stations and merits the attention of more farmers. This treatment is especially applicable to old sod land or pasture fields.

RATIFICATION OF HALIBUT TREATY

The formal ratification of the halibut treaty bearing the signature of King George, has been received from London by Hon. Ernest LaPointe, Minister of Justice. Mr. LaPointe signed the treaty at Washington on behalf of Canada.

A handsome binding in dark blue and gold encloses the papers which will be exchanged for the formal ratification of the United States, the exchange will be made through the British Ambassador at Washington, unless it should be decided to send a representative of the Dominion Government to Washington for the purpose.

IN VIEW FOR INSPECTOR GENERAL OF BANKING

Grant S. McIntyre of Toronto, Supt. of Agencies of the Bank of Nova Scotia is in view for the post of Inspector General of Banking. It is understood by the Evening Citizen A salary of \$25,000 a year, has been authorized by Parliament.

Assuring Your Business

A policy of advertising is a policy of life assurance, and the protection thus secured is well worth its annual cost.

Old customers die or move away—they must be replaced.

Old customers are subject to the influence of temptation—they may be induced to divide their custom—to do some of their shopping at a competitor's.

New comers to this community will shop with you—become regular customers—if they are invited to do so.

Your competitor's advertising is an influence which must be offset if you are to maintain your trade.

Not to advertise regularly to the readers of the UNION ADVOCATE is to leave your business unprotected.

A WORD TO THE PUBLIC

It is no sign of weakness to follow the lead of advertising. You owe it to yourself to get the most for your money, the best goods and the best service. And if you find that your inclination is to shop where you are invited to shop rather than to continue to be a customer of the shop which never solicits your good-will you need have no compunctions of conscience.

CANADIAN EXHIBIT
AT WEMBLEY

"Canada leads the procession at
Wembley." This is admitted by
the hundreds of thousands of visit-
ors to the British Empire Ex-
hibition. No Canadian can visit
Canada's Classic Building and the
truly wonderful exhibit at Wembley
without being deeply impressed with
the magnificent showing which
his country has made at the great
exhibition and he comes away feel-
ing prouder than ever of the land
of the Maple Leaf. In magnificence
of structure, in tone, in atmos-
phere, in utility and art, the Cana-
dian Pavilion at once presents the
Dominion as a living entity of
industrial activity and as an unex-
plored field of vast potentialities and
untouched reserves. The glory of
work is veiled in the glamour of
Romance. Proudly and distinctively
Canadian, the Dominion exhibit
breathes the spirit of Empire, told
in moving panorama of her mar-
velous resources, in the rich display
of all her gifts of nature, of fruit
and food, of gold and silver, of
iron, copper and timber, and in the
telling exposition of her industrial
energy and manufactures.

The Canadian Pavilion is an im-
posing and distinctive building of
classic architecture. Flanked on
the west by the Canadian National
Railways and on the east by the
Canadian Pacific Railways, at once
commands attention, covering
nearly six acres. At the opening of
the exhibition, Canada was the only
country ready and waiting, a fact
that redounds to the credit of Mr.
A. W. Tolmie, the Canadian Exhibit
Commissioner and to Mr. J. O. Tur-
cotte, Canada's Designer. In fact
the warmest thanks of the Cana-
dians are due Mr. Tolmie, through
whose wise and un tiring effort the
success of Canada at Wembley are
largely due.

When you speak of Canada at
Wembley, I at once think of the
Dairy Exhibit and of the huge
glass case, 60 feet long, in which
the Prince of Wales with his favorite
charger has been modelled out in
Canadian butter, with the buildings
of his ranch in the background.
Two and a half tons of Canadian
butter were used in this work and
no feature of the exhibit attracts
greater attention. The Prince visit-
ed the exhibit and at the Dominion
Day Dinner, where the members of
the Canadian Press Party were
privileged to attend and listen to
the speeches, signified his intention
of paying another visit. "I am cer-
tainly going there again," he said
"If only to see how I am faring in
the hot spell. I want to see if my
hat has acquired a dangerous angle
or my horse is going at the knees."
"There is no better way of recalling
happy days in Canada and learning
a great deal that is new at the
same time, than by visiting the
Canadian Pavilion at Wembley."

Among the outstanding features
of Canada's Exhibit are the follow-
ing:—A train with shining head-
lights disappears through the tunnels
of the Rockies; a waterfall with
real water, splashes over colored
rocks into a mountain stream; tiny
steamships sail leisurely up and
down the water model of Vancouver
Harbor as it will be in 1930; a
wonderful fresco running round the
top of the stands, represent every
phase of Canadian life—orchards,
prairies, wheat lands and timber
forests; a lighted model of Niagra
Falls; working models of gold and
nickel plants; peach and apple
orchards; mineral and fishery sec-
tions. Altogether the showing is
thoroughly complete, representative
and worthy of the best Canadian
traditions.

To the man from the Maritime
Provinces, Canada's exhibit has
much to interest and instruct. In
the Mineral section, Nova Scotia
and New Brunswick show up excep-
tionally well. Samples of quartz,
rich in yellow gold came from
Nova Scotia. One specimen, show-
ing free gold is valued at \$1000.
Perfect specimens of salt and po-
tash salt from Malagash, Nova
Scotia; antimony and manganese
from New Brunswick and Nova Scotia;
coal—a wonderful exhibit—from
Nova Scotia and New Brunswick;
crude petroleum and shale oil, bit-
uminous shales and Albertite from
New Brunswick; gray and red gran-
ite and sandstones from Nova
Scotia and New Brunswick; grind-
stones from Nova Scotia; all help
to impress the visitor with the
natural richness and vastness of
the natural resources of the Atlan-
tic Provinces. Notable too, is the
showing of gypsum by the Albert
Gypsum Co. of Hillsboro, New
Brunswick, as well as gypsum from
Nova Scotia.

The woods of Eastern Canada are
shown both in their manufactured
and unmanufactured state. Among
the woods exhibited are red, black
and white spruce, pine, fir; hemlock
tamarack, birch; beech and maple.
New Brunswick supplied three
large rolls of newsprint, while pulp
wood in various stages of manufac-
ture, add interest from an indus-
trial standpoint.

The panorama showing a typical
experimental farm, might well be
that near Charlottetown, Prince
Edward Island, whose grains form
an exhibit that gladdens the heart
of every native of "The Island O'er."
The Silver Fox pelts on view at the
Canadian Pavilion are fine speci-
mens from the Island Province,
where the great fur-farming indus-
try is proving so very successful.
The Panorama of a Canadian or-
chard while not supposed to re-
present any particular section of
the Dominion, might easily depict
a typical fruit farm in the far-famed
Annapolis Valley. All kinds of
Canadian apples are everywhere in
baskets and clusters while peaches
and other fruits are shown in glass
jars.

The fish exhibit is a most credit-
able one, specimens of fish caught
in the east as well as in other
parts of Canada prove of unusual
interest.

From an industrial standpoint the
Maritimes are not as strong as one
might wish. Aside from the
Bathurst Company Limited which
manufactured New Brunswick's
share of the newsprint exhibit, only
three Maritime firms are represented
viz., The British Empire Steel Cor-
poration, The Simms Brush Co. and
Moirs Limited. The Besco exhibit
though small is comprehensive.
There are samples of rails, railway
 fittings; rolled sections, wire pro-
ducts, wire nails; steel billets, fire
bricks and by-products of the coke
ovens. There is a model of the
S.S. Daghead, 12,150 tons; one of

Handy "Bayer" boxes of 12 tablets
Also bottles of 24 and 100—Druggists
Aspirin is the trade mark (registered in
Canada) of Bayer Manufacture of Mon-
sieur's Center of Salsylacid

the fleet carriers owned by the
company.

The Simms Brush Co. of St. John
New Brunswick, have a fine display
of brushes, with appropriate signs
showing that this firm has been
manufacturing brushes for 50 years
It is noteworthy that Simms Brushes
can be purchased both in England
and Scotland where an eager de-
mand is developing.

Moir's Chocolates in attractive
boxes, occupy a booth which is
serving to add to the popularity of
the justly famous products. Mr. J.
Edgar Belton, a native of the An-
napolis Valley is in charge of the
Moirs' Exhibit. It is gratifying to
note that Moirs' goods have been on
sale in the British Isles for ten
years and with ever increasing
success.

It is to be regretted that the
Maritimes are not better represented
industrially. Possibly in view of
the tremendous success of the great
exhibition and of the statement of
the Prince of Wales that Wembley
is likely to be continued next year
it might be wise for some of our
Maritime Manufacturers to arrange
for an exhibit, even at this late
date. Certainly those who for one
reason or another have failed to
take advantage of Wembley, have
passed up a golden opportunity
which may not come again.

ENGLAND WILL SUPPORT CANADIAN ENTERPRISES

Before leaving England, recently after a short visit to that country, E. W. Beatty, president of the Canadian Pacific Railway said "I cannot help but regard Canada as the greatest actual potential asset in the Empire, and when exchange is at parity I feel quite confident that England will support Canadian enterprises and Canadian development will be very extensive." The photograph reproduced above shows Sir Thomas Fisher, general manager, Canadian Pacific Steamships, (left); Sir George McLaren Brown, European General Manager of the Canadian Pacific, Mr. Beatty and Captain J. Turnbull, commander of the Montaurier.

Local and General News.

ROYAL BANK INSPECTION
Messrs. Fash & McKay, Inspectors of the Royal Bank of Canada were in town last week, making an inspection at the local branch.

CAMP SITES SOLD
At the Crown Land Office on Thursday two camp sites were bid in by Jonathan Buckley and Charles Cremin. Both were in the parish of North Esk, Northumberland Co.

APPOINTMENT APPROVED
The appointment of Agnes A. Lawlor as Deputy Registrar of Deeds for the County of Northumberland has been approved by His Honor the Lieut. Governor.

RE-APPOINTMENT
Robert Nicholson, M.D. has been re-appointed chairman of the Board of School Trustees for the Town of Newcastle in place of Robert Nicholson, M.D. whose term of office has expired. Term of office to expire June 30th, 1928.

Good tea is a beverage. Poor tea is merely a drink. And a cup of MORE'S SELECTED ORANGE PEKOE Tea will tell you the difference in a jiffy. Yes, a cup of MORSE'S SELECTED ORANGE PEKOE Tea hasn't any substitute. "Just as good" is merely a makeshift.

ENJOYED BAND CONCERT
The Band Concert given last Wednesday evening in the Band Stand was appreciated and listened to by a large gathering of citizens. Ten delightful musical numbers were rendered and judging by the encores each was well received. It is hoped that the residents will be treated with many more such evenings between now and the time for the snow to fall.

RE-MODELING CONVENT
Mr. B.A. Tozer has received the contract for re-modeling and enlarging the George Stables' residence on Kings Highway, recently purchased by the Sisters of St. Mary's Congregation which will be used as a convent in lieu of St. Mary's Convent which was destroyed by fire last winter. Mr. Tozer has a number of men already engaged in the work the completion of which will be rushed as speedily as possible.

VACCINATION TIME
Two weeks from today the public schools in Newcastle re-open. Parents of children who enter school this year for their first time should see that they are properly vaccinated before opening day. It is very desirable that the children should be vaccinated early in order that there may be time to see if the vaccination has "taken" and also time for a small patient to have fully recovered from the effects of that not very serious operation.

FIREMEN'S DANCE
Remember that the Firemen's Dance takes place tomorrow night in the Town Hall. Are you going? If you are not you ought to! No doubt some will be unable to attend but they can assist the Firemen in purchasing fire apparatus by buying a ticket whether they can or cannot attend. To those who do attend, a good time is awaiting them. Have you seen the new Fire Truck yet? It has been out several times already and if you have not yet seen it, call around at the Fire station and inspect it. It belongs to the Town and was made possible by the efforts of the firemen. The dance tomorrow night is for the same purpose and you should give the firemen your support and thereby encourage them to do even greater work. Let us all pull together and put Newcastle in line with the cities.

NEARING PAR
The discount at New York last week on the Canadian dollar was 1-6 (one-sixth) of one per cent.

COMPLETED AUTO TRIP
Dr. Doolittle, president of the Canadian Automobile Association, arrived in Vancouver last week, having completed an automobile trip from the Atlantic to the Pacific in the interests of a national highway.

MARRIED
At the Manse, Tide Head, N.B. on Wednesday, August 12th at 4 o'clock, by Rev. E.V. Forbes M.A., Frederick John MacKell of Chelmsford, was united in marriage to Miss Ada May Jardine of Quarryville, Northumberland Co., N.B.

SALMON SEASON EXTENDED
Notice has been received of alteration in the fisheries regulations whereby the close season for Salmon in the Miramichi river is made from September 1st to February 28. This amounts to the extension of the open season from August 15th to August 31st. Ordinary the netting season would close last Friday night.

SHIPPING POPULAR
Mr. A.R. Voyer is loading the S.S. "Maplebay" at Nordin with a cargo of poplar wood for the Ontario Pulp and Paper Co. This is the second time the "Maplebay" has been in port to take a cargo of poplar for Mr. Voyer and it is expected that she will also make another trip this season.

BATHURST HOKSE WINS
The second and final day of the Halifax meet of the Maritime Circuit took place at the Exhibition speedway Saturday afternoon, when Hal Gentry, owned by W.S. Hall Bathurst, won the 222 trot and pace which required six heats and Jean Bingen of the Merrytime Stables, Halifax, won the free-for-all trot and pace in three straight heats.

FUNERAL ON MONDAY
The funeral of the late A.M. McLellan of Moncton was held yesterday afternoon. After a private service at the home, Steadman street the remains were taken to St. John's church where service was conducted at 2:30 o'clock by Rev. J.A. Ramsay. Members of the Knights of Pythias attended in a body and conducted the service at the grave. Interment was made in Elmwood cemetery.

SEWING CIRCLE GOSSIP
There was some discussion at the Sewing Circle this week about the beverages to be served at the Tennis Club Bazaar. The wife of the Radio Operator said she had had no objection to the list of these being as long as her arm, but as for herself and her husband there was nothing they liked so well as LUXOR COFFEE, which they drink three times a day and as many times oftener as they can get it.

BALL PLAYER INJURED
In turning wide to give plenty of room to the Miramichi Hospital ambulance, Wednesday afternoon, Joe Currie, the express messenger received an injury to his chest that has necessitated his laying up for some days. Mr. Currie had been driving one of the two cars in which the Newcastle basketball team had made a trip for a game with Bathurst. It was after their return to Newcastle that the accident happened, while Joe was getting back to his duties at the station. He turned out so far that his car hit a small bridge or culvert with such force that he was thrown against the steering wheel and received injuries to his chest.

SPECIAL MEETING
A special meeting of the Town Council, for the transaction of general business will be held tonight at 8 o'clock.

EXCAVATING FOR NEW SEWER
The Public Works Committee has a large crew of men at work excavating for the new sewer which will be laid on Legden street.

BOY SCOUTS TO TOUR N.B.
Three Boy Scouts, Cuthbert Kane St. John; Cyril Barnes and Christopher Shorten of Fredericton, who are making a tour of New Brunswick were in Newcastle on Monday. These young men had visited St. John, Sussex and Moncton and left here for Fredericton.

NEARING COMPLETION
The new mill under construction for Messrs. O'Brien Ltd., South Nelson, is fast nearing completion and it is thought will be ready for sawing within the next two or three weeks. Mr. James L. Hill of Chatham is the contractor.

ENJOYED EXCURSION
A large number from Chatham and Newcastle enjoyed the excursion to Kedbank on the "Max Aitken" last Saturday afternoon. The weather was delightful and everyone thoroughly enjoyed the sail.

RENDERED UNCONSCIOUS
Sam Muzerall, an employee at the Fraser Co's Dominion Mill, Millbank was accidentally hit on the head Saturday morning by a block which fell off the electric conveyor and was knocked unconscious by the blow. He was taken to Hotel Dieu Hospital where he is suffering from concussion of the brain.

PLUCK THE FLOWERS
The flower beds in the public square present a delightful appearance with the beautiful blooms, which at this season of the year are particularly profuse. It should be remembered however, that unless blooms are plucked the supply of flowers soon becomes exhausted. The Park Committee might make arrangements to have the flowers properly cut and sent to the hospital, where we have no doubt they would be gladly welcomed and would cheer the sick and suffering.

REDBANK W.M.S.
The W.M.S. Kedbank held their monthly meeting at the home of Mrs. Robert Tozer, on Wednesday afternoon, August 6th, at 2:30. President in the chair. Meeting opened by singing "I Need Thee Every Hour." Prayer by the President and members. Scripture reading, St. John, 15 ch. Roll call answered by 9 members. Minutes of last meeting read and approved. Reading by Mrs. Charles Hubbard, also address by the President. Meeting closed by singing "What a Friend We Have in Jesus" and the Lord's Prayer in unison.

FIREMEN TESTED NEW MOTOR TRUCK.
The Newcastle Fire Department tested their new motor truck last Wednesday evening. It was driven about the streets of the town, then on the tarred road to Chatham, and on its return as far as Sinciers bridge. The truck worked exceptionally well and the firemen were well pleased with it. The citizens were loud in their praise and appreciation of the truck and the good work which the Fire Dept. was doing. It now only remains for them to show their appreciation in a tangible way by helping the department foot the bills in purchasing a ticket for their dance in the Town Hall, tomorrow night.

C.N.R. TO HAVE DEFICIT
Sir Henry Thornton says "the people of Canada must face the unpleasant possibility that the loss on operation on the C.N.R. lines will be from 13 to 15 million dollars for 1924, much of which is due to bad business in the U.S.A. where the C.N.R. has large and productive mileage."

ONE STEP NEARER PEACE
Peace between France and Germany came one step nearer Saturday night, when the representatives of the Allied Powers and Germany assembled in Premier MacDonald's room in the Foreign Office and signed or initialled a protocol providing the means for putting into effect the Dawes plan, designed to settle the perplexing reparations problem.

POACHEKS GET CAUGHT
Last week about thirty salmon poachers, who have been doing a profitable business by illegal drift fishing at night, were surprised by Fishery Officers, who suddenly swooped down on them while they were engaged in their illegal work. Some twenty odd boats were boarded by the officers, the others escaping, but their names are known and all will be summoned to appear in court. Not only will the owners of the boats be prosecuted but every person who was on board will also be held equally guilty.

BROTHERHOOD PICNIC
The Brotherhood of the Newcastle Methodist Church entertained St. Luke's Brotherhood of Chatham last Friday evening, to a picnic at Bushville. About 45 members of each society was present. Music was provided by a band made up of Newcastle members and readings were given by Mr. Ed. McGrath of Newcastle and Mr. L.H. Abbott of Chatham. Mr. Waddo Crocker president of the Newcastle society was in charge and all present enjoyed both the entertainment and refreshments provided. The party returned to their respective homes by auto about 10 o'clock.

Red Cross Society Meets In St. John

The provincial Red Cross Society is now being arranged and notices have gone out to the society's representatives asking for assistance. The programme will include addresses on the Red Cross hospital work; public health nursing; relief and emergency work; travelling clinics and Junior Red Cross work. It is expected that there will be a large attendance. One of the chief speakers will be Miss Hamilton, Dominion organizer for home nursing classes, who will arrange for visits to the various localities where the organization of home nursing classes is desired.

Baby's Own Tablets Always Kept On Hand

Mrs. David Gagne, St. Godfrey, Que. writes: "I have used Baby's Own Tablets for my three little ones and have found them such an excellent medicine that I always keep them on hand and would strongly advise all other mothers to do the same thing." The Tablets are a mild, but thorough laxative which quickly relieve constipation and indigestion; break up colds and simple fevers and promote that healthful, refreshing sleep which makes the baby thrive. The Tablets are sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

"BUY AT HOME"
