THURSDAY, JUNE 12, 1913.

THE DRILL HALL SITE.

Perhaps Col. Sam Hughes will not accept the site which Calgary has selected for a drill hall; perhaps he will. If he should deign to accept the site it will become government property.

The Dominion government is acting very cheap when it insists upon the different cities furnishing sites for drill halls. There is no more reason why they should furnish a site for a drill hall than that they should furnish a site for a customs office or for a post office. If the drill hall should be located in this city, the government should secure its own site and go ahead with the building. If it should be located here, the gift of a site is neither wise nor fair.

The city of Calgary is not well supplied with lands at the present time, as we all know. No western Canadian city is. The Dominion is rolling in wealth derived by excessive taxation of the people. It has just given sixteen million dollars to a couple of railway promoters. It could well afford to pay one-half of one per cent. of that amount for a site for a drill hall.

And these people not only insist upon us going down in the city strong box and digging up for the site, but they insist upon getting the very best that we have, and scoff at anything less than that. First, they wanted the barracks site. Then they insisted upon getting the heart of Mewata park. Now they are not so sure that they will take what they offer. They propose to look hard at the mouth of the gift horse, and perhaps they will turn it aside.

Winnipeg declined to give alms to the beggarly department. If Col. Sam Hughes doesn't like this site, the city should directly take the same course. We can manage to worry along without a drill hall if it comes to the worst.

The Dominion government has money enough to buy its own sites. It is leaving tribute upon the different cities which believe they should have drill halls.

U. S. IMPORTATIONS.

An examination into conditions across the line will show very clearly why the president of the United States and a very large section of his supporters desire the removal of the duties upon grain and cattle. During the last Dominion election campaign, the people who favored the wider markets pointed to the decline of the republic as an agricultural country. They insisted that Canada must take the wider market, and that wider market was the United States. That country was not a competitor, but furnished the logical market.

For the calendar year figures just issued by the United States government show an exportation of only 33,000 cattle, as against 164,000 in 1911, 204,000 in 1906, and 599,000 in 1904. In other words, eight years ago the total number exported was nearly twenty times as great as last year.

In the matter of imports the same facts are shown. In 1904 the total imports of cattle amounted to 16,000 head, valued at \$310,000, while in 1912 the total imports amounted to 300,000, valued at \$2,000,000. The exports of meat show a similar falling off. Moody's Magazine states that the exports in 1901 amounted to 354,000,000 pounds, in 1905, 270,000,000; in 1908, 156,000,000; in 1911, 200,000,000, and in 1912, 9,000,000.

Meat exports in 1912, while showing a larger total than in 1911, on account of the much greater market, show a great falling off compared with the earlier years. The total for the year 1912 approximated \$165,000,000, against \$215,000,000 in 1907, and \$277,000,000 in 1901.

These facts indicate very clearly that the United States is practically importing its food at the present time. During the recent election opponents of reciprocity looked with some alarm at the prospect of

Editorial Notes

Such growth will suspect that they exaggerate. The man who has no very great amount of stocks at the present time is having rather the better of it, and is escaping an amount of worry.

The Presbyterians have decided upon church union, and have given them a reasonable time limit to carry that decision into effect. Having beaten Edmonton twice in succession at baseball, life is somewhat more pleasant and everything is very much more rosy.

R. B. Bennett returned from Ottawa yesterday with some interesting information, but he says nothing about the time of Premier Borden will fall on the promise he made years ago to transfer the control of the nature.

Canada widening its markets to take advantage of the needs of our nearest neighbor. That alarm was to a great extent fictitious, for the same people are now rejoicing because the United States will probably remove the tariff from meat, grain, and flour. The removal of that duty must come some time.

AIRMANSHIP IN WAR.

Some time ago a suggestion was made that Calgary should raise money to build an aeroplane for the British air squadron; a movement well intentioned, but seemingly ill-advised. Nothing seems to have come of it. It is well that it is so, for whatever may be the merits of such a scheme, the time has not arrived, seemingly, for very much expenditure in that direction.

The London Nation deprecates the fact that there is a campaign on foot in the Old Country to induce the government to spend vast sums on air craft for military purposes. The armament-mongers, for their own self-interested motives, are doing their best to drag the most glorious and soaring human achievement down from the height where it might have disseminated the spirit of brotherhood and peace among men, to the lower level of the "Krupps" atmosphere, for the selfish object of putting puff into their pockets. It is difficult—may, idle—not to suppose that the ubiquitous "Krupps" is not behind the scene who through the Aerial Defence Committee of the Navy League has fallen of late a victim. It might not be too curious to inquire what are the grounds for assuming at the present moment that the aeroplane or airship has revolutionized warfare, or that either of them is yet a practical military machine.

In the last two years Europe has been the spectator of two wars, both of them conducted by highly expert and well-found combatants on either side, each of whom was equipped with, and ready and anxious to use, this new arm which man's genius and daring had provided. In Tripoli the Italians had many aeroplanes, and they had also a dirigible balloon; Italian airmen, too, are among the most skilled and daring in the world. In the deserts of Libya, furthermore, they had an arid and level country without any natural means of concealment, and therefore singularly well adapted to aerial reconnaissance. Yet absolutely nothing was accomplished in reality. The airmen failed on every important occasion to locate the enemy they were sent out to find, and their bomb-dropping failed to cause either damage or terror. A more ambitious attempt to use the aeroplane in the field was made by the Bulgarians a year subsequently; and the armies of King Ferdinand I. had a large number of the latest and most effective machines, and the services of some very competent English, French, and Russian airmen. Yet it is very clear that in all the functions for which it is claimed the aeroplane is indispensable in modern war the Bulgarian air corps accomplished nothing. Finally, coming to yesterday, A. M. Williams, an aviator, of Douglas, Ariz., U.S.—who has been flying with Didier Masson in his Guaymas, Mex., experiments—is reported to have just returned to Douglas. It is stated by him that Masson is not able to manipulate his machine at an altitude consistent with safety for the airmen, and has consequently given up the much trumpeted attempt to blow up the Federal gunboat now lying in Guaymas harbor. It is added that it has been decided to use the machine only in scout work.

In view of these facts, therefore, it is impossible not to agree with the writer in The Nation when—concluding a lucid and convincing article—he remarks that "no competent student of flight, still less any airman with any practical experience, would assert for the aeroplane at the present moment any effective offensive qualities at all. We must have them, so the argument runs, because Germany has them; and though nobody knows how many Germany has, we must have twice as many." The public, it would seem, is to be stampeded into the expenditure of untold millions upon aircraft, aircraft not being enough for us; said millions to ultimately swell the bank accounts of the armament-mongers and their friends. The study of the early history of the balloon is not without its value in this connection. Invented in 1783, by 1785 the British Channel had been crossed; and by 1794—at the Battle of Fleurus—it had been applied to military purposes by the generals of France's first republic. Yet we now see that, though expected a century ago to revolutionize the art of war, the art of war has not been revolutionized by it as yet. May it not prove to be the same with the airship and the aeroplane as with the balloon?

The Women's Press club is honoring its a strong and worthy organization. Women's invasion of the newspaper has been of comparatively recent times, and the newspaper is all the better for it.

And while we are talking of lobbyists, it may be added that the corridors of the United States senate are not the home of them all. They even get as far as Ottawa and to the legislatures of some of the provinces, and even in some city halls.

The member for Calgary does not explain why he agreed to the loan to the Grand Trunk Pacific and did not

advocate taking over the road, as at a meeting in Calgary last January he announced very positively that he would do so.

Until the aeroplane is somewhat more readily in battle than it has been able to show up to the present time, the Calgary enthusiasts might halt with the preparations of presenting one to the air fleet of the Mother Country.

The figures of 178 for and 64 against in the final vote in the union question before the Presbyterian assembly, look suspiciously like the runs for and against the Australian cricket team which is now regularly taking the scalp of the western Canada cricket teams.

An evening paper tells of the romantic story of Bill and Dan. There is nothing to compare with it since the days of King Midas or the Count of Monte Cristo.

R. B. Bennett tells an evening newspaper that there must be a greater display of evidence needed to prove that a man is guilty of a crime than that which is required to prove that a man is innocent.

The Poet Philosopher

CROP PROSPECT IS BETTER THAN EVER

Ottawa, June 11.—A telegraphic report just received by the immigration department from Mr. J. White, inspector of agencies, who is making a trip of inspection through the west, conveys a most encouraging outlook for the farmers of the western provinces, both as to grain conditions and livestock industry.

Mr. White found all crops showing fully as much progress as this time last year. While much grain was sown late, the stored moisture and frequent showers gave wheat, oats and flax an excellent start, and the crops are now as far advanced as they usually are at this time of the year, and showing more uniformity all over the country.

Spring conditions have been highly favorable to stubble seeded grain. In the north and central north he notes that a very large number of farmers are giving attention to cattle grazing in the Battleford district.

To Name Forty Auditors

Ottawa, June 11.—Soon after the new bank act comes into operation at the beginning of next month the Canadian bank managers will be called together to select the list of auditors authorized by the new law.

The crop reports from Southern Alberta and Southern Saskatchewan are exceedingly favorable, and in the opinion of Mr. White, there never was a spring when the prospects were so good throughout the entire west, he says the air of optimism is all prevailing, and farmers are busy with larger areas of summer fallowing than ever before.

Mr. White found all crops showing fully as much progress as this time last year. While much grain was sown late, the stored moisture and frequent showers gave wheat, oats and flax an excellent start, and the crops are now as far advanced as they usually are at this time of the year, and showing more uniformity all over the country.

May Change Hands Again

Emblematic of the Southern Alberta lacrosse championship, and at present held by the High River team, who will defend it against the Chinooks of Calgary at Victoria Park on Friday.

Eight Innings, but the New Yorker was effective in the pinches.

Washington, June 11.—Detroit was in a batting mood today and easily shut Washington out, 11 to 0. Daus pitched his second winning game of the series, and toyed with the locals. Crawford hit a home run to the centre field fence in the second inning with the bases full, and Cobb drove one over the fence later in the game with first base occupied. Washington used three pitchers in a vain effort to check the slaughter.

Tigers Shut Out Nationals

Philadelphia, June 11.—A home run drive by Catcher Sam Agnew scoring two runs ahead of him in the ninth inning today, checked Philadelphia's winning streak of fifteen consecutive victories and gave St. Louis the final game of the present series by 5 to 2. Up to the seventh inning St. Louis had not scored and had made but two hits off Houck. Houck was relieved by Bender in the eighth after the visitors had scored two runs.

American Association.

Manassas, Va., June 11.—The Baltimore look sweet revenge on the Indians at Newark today by handing them a 19 to 0 beating. Both sides fielded ruggedly, and the Orioles had both ring-donging with well-placed bunts. Roth twirled a masterly game for Baltimore.

Northwestern League.

Port and Starling, June 11.—The Port and Starling team grabbed the last game here today by a 4 to 2 score, succeeding in cleaning up the series. The Red Sox only garnered four hits off Nelson but every misplay the Maroons made helped in the scoring.

Northern League.

Winnipeg, June 11.—Taking advantage of errors by the Maroons, the Superior team grabbed the last game here today by a 4 to 2 score, succeeding in cleaning up the series. The Red Sox only garnered four hits off Nelson but every misplay the Maroons made helped in the scoring.

Canadian League.

Giants Won in Tenth

Chicago, June 11.—A batting rally in the tenth inning today gave New York the long end of a 5 to 2 score and an even break with Chicago. Burns led off in the tenth with a double, and this was followed with two singles and a double, which netted three runs.

Joe Tinker Some Fighter

Cincinnati, June 11.—In a game marked by near rioting, in which Manager Tinker, of the Cincinnati team, and Knabe, the second baseman of the Philadelphia team, were expelled from the field, Cincinnati took the final contest of the series here today 3 to 2.

Marty O'Toole Back in Uniform

Pittsburg, June 11.—Pittsburg hammered Stack, Yarbinger and Kent for 18 hits this afternoon, and with O'Toole pitching magnificent ball, won easily 10 to 3. Viox for Pittsburg and Knabe with the bat, getting two singles, a double, and a home run to the temple.

The Queen of Santa Clara
The Santa Clara Province in Cuba is growing some extra choice cigar tobaccos, these days. New lands are being cultivated. New tobaccos are being harvested—tobaccos, that have the full, mellow Havana flavor, yet are sweet and mild.
10c.—"Flor de Claro"—10c.
contains these choice Santa Clara tobaccos, blended as only experts like ourselves can blend them. "Flor de Claro" is a fine looking cigar—a generous size—a most delightful smoke,—rich, mellow, sweet, satisfying, yet light and mild.

HUDSON'S BAY COMPANY
Only Once in a Long Time Such Well Tailored Suits At \$14.85
BOTH young men and their elders have an equal interest in this bit of news today.
It concerns a late shipment of suits that would sell in the ordinary way at \$20, \$22.50 and \$25.00, but which have got to be cleared at a fraction of these prices. It is our effort, then, to clear them all Friday and Saturday, and to that end we have marked them at a remarkably low price.

BISHOP PINKHAM WINS JUNIOR FOOTBALL CHAMPIONSHIP
After a game which well repaid the effort, the winner of the competition, promotion league was the Bishop Pinkham school last year. The goal of the match was taken by the display put up by the team. The game was not a close one, the Western Canada team being too good by a wide margin. The game was held at all in the day and it was certainly a pay put up by the team. There was no further contest as their victory against the team of Mr. H. E. Sheldon in the style and through in order to speed the boys went was scored by the Big Brown team. The game was held at all in the day and it was certainly a pay put up by the team. There was no further contest as their victory against the team of Mr. H. E. ## Not In The Box Score

The Bronks have won two successive games now which is going some for any team in the league except the Quakers.

Umpire Arnold may or may not be the worst umpire in baseball history but there is one thing sure, he gets the games finished in a hurry, which will cover a multitude of sins. Arnold has a batting average of 1.29 for the three games he has worked here. This is something of a record.

The Bronks left last night for Edmonton where they will play for the remainder of the week with the Eskimos. They will return to Calgary on Monday and open a three-days' engagement with the Regina Red Sox.

The remarks made by The Albertan to the effect that the Eskimos used rather strong language which even got on the nerves of the hardened sport scribes, hit the visitors in a rather tender spot as they had been trying

all season to curb their language as much as possible. They forgot themselves, however, on Tuesday and the calling was coming to them. The profane rough stuff which has been pulled off in this league during the past two years has done the game inestimable harm. However, the Eskos assured the writer that if they did make a slip it was because of the excitement attendant to one of Umpire McDonald's decisions and promise never to do it again if they can help it.

To show that they did not approve of profanity some of the Eskos last night shouted "By Heck" and "Hon-awagie" every time they passed the press cage. These rather harsh expletives were sung out loud enough for the assembled multitude to hear and were used in an attempt to get back at the man who criticized them. However, the volume of the sounds did not compare with that which featured the game the night before when some expressions which would not

look very well in print were used in a very offensive manner.

If you had trouble with your gas the last few days and could not get any one from the Gas Co. to come and fix it the reason was that the whole staff of the Nat. Gas Co. was out at the professional baseball game watching Ible lablell perform in left field. Ible is one of the chief Turfocrats of the gas company but has been helping out the crippled Bronks during the present home series. Ible will be back at his regular job today and so there should be no further trouble.

Some one must have told Jimmy Flanagan that Sam Savage was watching his pretty closely and was thinking seriously of getting another man to take his place for last night he showed more pep in that right garden than he has evidenced all season and when he caught Forey's short fly in the ninth he appeared to be just the same gingery fielder that he used to be. Jimmy's leg has been pretty sore this spring but he is getting over it nicely now.

Every member of the Eskimo squad with the exception of Buzz Forey got a safe sweat last night. Buzz made four

efforts to get safeties but played in hard luck. Each time at bat he lifted up files. Two of them would ordinarily have been safe except for brilliant work on the part of the fielders. Hollis ran back of third and copped one in the fourth and Jimmy Flanagan stole a hit from him when he got under his short fly to right in the eighth.

If Lew Reddiok had not fanned in the last inning and thus retiring the side, Smoak Mayers would have gone through the game without a single strike out. The remarkable part of it was that although the Eskos got 19 hits and only one on them fanned, but one run scored.

That man Skeels who the Eskimos are using in left field may be all in as a pitcher but he is sure covering the ground out of his territory. He has accepted every chance offered during this series and some of them have been of the sensational order. His peg to the plate is pretty to watch. It is not all in as a baseball player by any means, although his pitching arm may have gone back on him.

Ten hits may look well in the batting averages, but when they are scattered among nine innings they are

net of a great deal of use in winning all five runs, but the five hits and the games, sometimes, as the Eskimos error were all bunched together. Off found out last night. It only took the their ten hits the Eskimos tallied but Bronks' five hits and an error to score one run.

# 10,000 Yards of New Cloth

## BISHOP PINKHAM COLLEGE WINS JUNIOR CUP

### Created Western Canada College Team By Lone Goal of Match

After a game which went from end to end the winner of the knock-out competition promulgated by the Junior League was found to be Bishop Pinkham college last night by the lone goal of the match. \$25.00 at a 10 cent admission was taken at the gate, and the display put up by the boys certainly repaid the spectators. There was a scolding between the teams but the Western Canada college was certainly unlucky to lose. Their display was good but they were weak at goal. They did not seem to be able to settle down at all in the close movements.

There was certainly a very plucky display put up by the Bishop Pinkham team and they, for that reason alone, are entitled to congratulate themselves on their victory against the Western Canada boys. Mr. H. E. Sheldon handled the game in fine style and had to look lively all night in order to keep up with the speed the boys went at. The only goal was scored by Irwin, who got the ball as the Big Bowls in fine style. Immediately afterwards Mitchell of the Western Canada college was sent off a field for fighting with Jack Eaton, and after the game was finished the Western Canada boys evidently had some soreness left in them and waited to continue the argument off the field. There was no further incident and the matter closed. The Junior League will deal with the matter.

## HILLHURST VS. CITY TONIGHT AT VICTORIA

Hillhurst make their initial appearance in Calgary City and District League tonight, when they will play the City at Victoria park. The game will start at 7:30 and both teams will be fully represented. The importance of the game cannot be overestimated, and there is sure to be a good crowd on hand to welcome these two old rivals. Notwithstanding the absence of Hillhurst to play on Victoria park, they will find the ground in excellent shape, and as the City will have out their best team of the season, the spectators will get their money's worth. The charge for admission will be 25 cents. The following team will take the field: "Tip-tops" - Dickinson and Harrison, Couits, Emery and Walker, Ward, Wylie, Banks, Stuart, Judge, Wade or Wilkinson.

## ALDERMAN CRICHTON IS A FRIEND OF FOOTBALLERS

### Favors Erection of Pavilion Club House at Victoria Park to Help the Game

Alderman Crichton was an interested spectator at the Callie-Post Office at Victoria park last night, and expressed himself as gratified at the condition of the grounds. He was particularly anxious that all privileges should be granted the footballers at Hillhurst, but said that Victoria park was a good drawing card, especially for the weaker teams. He suggested the erection of a small pavilion and said that he might be able to help in the direction of lumber and would try to. He also said that the water was right in the park, and could be fixed up easily, in whatever way the league desire. The Alderman was very sympathetic over the whole question of grounds, and said it was the duty of every athlete and his friends to get up and work for the passing of the day to be put up shortly by the city council to appropriate Hillhurst grounds.

THE ERA OF WIRELESS

Ivan Nardony, in The Technical World Magazine.

Within the next two generations we shall have not only wireless telegraphy but also wireless transmission of all power for individual and corporate use. Wireless heating and wireless fertilizing of fields...

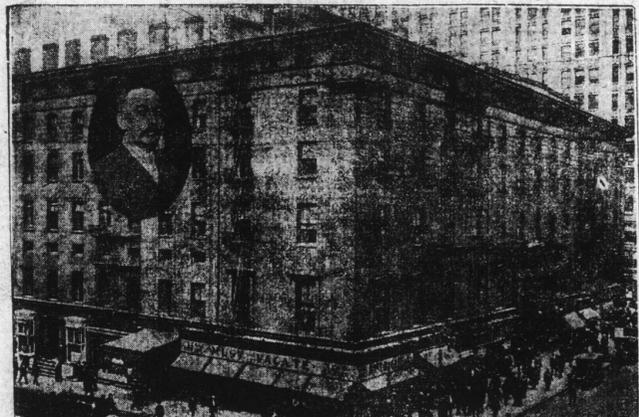

The coming of the wireless era will make war ridiculous. The inventor is the greatest revolutionist in the world. The man who made these startling predictions is not a visionary...

Electric vibrations of four hundred million waves in a second produce light twice as fast violent vibrations of two hundred million waves...

As soon as the use of wireless energy becomes universal it will necessarily sweep out all the present privileged corporations of power and create a semi-socialistic state of affairs.

No invention has had a directed opposition that has wireless telegraphy. There have been directed also widespread hostility and animosity against the inventor. I have been attacked most aggressively in every possible way.

Money transferred by telegraph of mail, and Drafts issued on all parts of the world in any currency. Collections made in all parts of Canada and in Foreign Countries at minimum cost.

LIVE STOCK MEN AND RAILWAYS CANNOT MAKE AGREEMENT

Railway Commission Board Will Have to Step in to Decide in the Dispute About Equitable Freight Rates for Live Stock.

RAILWAY BOARD LIKELY TO ORDER REDUCTIONS

But May Also Order Increase in Freight Rates in Eastern Canada; Both Questions Coming up for Consideration at Next Meeting of Board.

Ottawa, June 11.—After two years of unsuccessful negotiations between live stock men and the railways the question of live stock transportation contracts will come up before the railway commission June 18 for final decision.

As far as can be learned, however, no agreement has yet been come to and the board will probably have to do the deciding. A number of questions besides the main matter of rates will be discussed, regarding the delivery of cars and other such matters.

The live stock matter will come up following the Western rates case, which is also down for June 18. The latter will probably be a much more serious one.

(Continued from page one.)

Doubtful of Cuck Fighting His lordship then gives his opinion that the only games which in this jurisdiction are strictly lawful are those which are played for money.

Fan-tan, declares the judge, is a game of chance or of chance mixed with skill. The bank, it appears, is not for one group of players exclusively.

He to the matter of the police search of the house the judge held that the entry was not proved to have been made on a warrant.

Japanese Arrest Yacht of American Citizen

But Nothing Will Come of It and Action Is Not Unusual in Any Country

Tokio, June 11.—The American yacht Columbia was arrested today when she put in at Wakayama for repairs.

The yacht Columbia, which belongs to James Lacey, of the New York Yacht club, left for the waters of the Pacific in November, 1912, is believed to be the vessel whose arrest at Wakayama is reported in a cable dispatch.

The detention of the vessel, it is thought in yachting circles, was probably brought about by her entering a port where there was no customs house. A similar course is taken by the authorities of any country under similar circumstances.

R. JAMES M. MUNYON SEEKS TO BE FREE FROM HIS ACTRESS WIFE

Having decided after his third experiment that marriage is a failure, James M. Munyon, a manufacturer of patent medicines, filed an action for divorce against the actress to whom he was married in 1908, when he was thirty-two years old and she only twenty-four.

The third Mrs. Munyon before her marriage was Pauline Neff Metzger.

Mr. Munyon's first wife was named Clayton. She conducted an employment agency in Philadelphia. A divorce decree ended their marriage.

The second Mrs. Munyon was Miss Dora Harvey, sister of Dr. Charles M. Harvey, a Philadelphia physician. She obtained a divorce several years after the marriage.

The third Mrs. Munyon originally married in Vandellville as Pauline Neff. She went to Santa Fe, N. M., and was married there to Carl Metzger, a young home in Alabama. Pa. but soon went back to the stage.

Mr. Munyon's first wife was named Clayton. She conducted an employment agency in Philadelphia. A divorce decree ended their marriage.

BAPTISTS DELIBERATE IN THREE PLACES AT RED DEER

General Convention, Ministerial Association and Women's Convention Meet in Different Places; Women Will Publish a Monthly Bulletin.

240 BAPTISMS DURING YEAR; 80 IN CALGARY

While 582 Were Received by Letter During Same Period; Total Membership Is 3,171 and Are 30 Sunday Schools With 230 Scholars.

Red Deer, June 11.—The Baptist convention continued this morning with three simultaneous meetings. The ministerial session was held in the Presbyterian church with the Rev. C. McLaughlin in the chair.

The general convention was opened at two o'clock the Hon. A. C. Rutherford being in the chair. The summary of church reports presented by Mr. McLaughlin showed 46 churches in all, \$22,048 paid for pastoral support, \$20,000 for building fund, and \$18,191 for missions.

There were 240 baptisms during the year, 80 in Calgary. While 582 were received by letter during same period, total membership is 3,171 and are 30 Sunday schools with 230 scholars.

The general convention was opened at two o'clock the Hon. A. C. Rutherford being in the chair. The summary of church reports presented by Mr. McLaughlin showed 46 churches in all, \$22,048 paid for pastoral support, \$20,000 for building fund, and \$18,191 for missions.

(Continued from page one.)

churches to continue the negotiations in the hope that the union may be consummated without delay.

"That the union committee be continued and that for the fullest and most consideration of every aspect of the question, further amendments to the present basis of union be proposed by the committee invited from Presbyterians and from sessions, congregations and individuals through presbyteries and referred to this committee, in order that after considering them it may enter into conference with the committee of other negotiating churches with a view to settling before our second final presentation of the question for their judgment.

The purpose of the union is to secure the findings of the joint committee of the negotiating churches on all such proposals be sent to presbyteries, sessions and congregations, with the view of the vote already taken and all other relevant information."

These proposals are of a large extent just as they were when they were submitted to the assembly by the majority of the union committee. The only alteration which was regarded as an important one was suggested by the Rev. David Christie, of Winnipeg. Mr. Christie moved that the words "in the hope that the union may be consummated without delay" be inserted, instead of the phrase which was proposed by the committee. He thought it desirable that the expression should be made much stronger, and the assembly agreed with him.

Later on in the business of the afternoon, November 29 of the present year was fixed as the last day on which any suggestions would be received with reference to changes in the basis of union.

Procedure for Union. The procedure of the church in the future in the matter of securing actual union, as explained by Rev. M. E. Ramsay of Ottawa, will be as follows: "Up to the end of November clerks of Presbyteries throughout the Dominion will receive any suggestions with reference to changes in the basis of union. In December the union committee will meet in Toronto, and after full consideration of all the proposed amendments, the matter will be ready for submission to the general assembly in 1914.

That assembly will send the matter to the members of the church, if this is deemed desirable, for a vote, and the presbyteries throughout the Dominion will be asked to vote on the question. The final motion was carried today, a number of amendments were withdrawn or voted down.

Dr. Clay, of Victoria, suggested a compromise which did not secure any support. Mr. Goodwin offered a substitute motion, but withdrew it chiefly on the advice of Rev. Dr. Ramsay, of Ottawa, the leader of the union element since the departure of Rev. Dr. W. J. Christie, of Montreal, who was called home.

Rev. Dr. A. S. Grant, general superintendent of home missions, at the last moment moved that the whole matter be deferred and no action taken until next year. This was defeated by a very large majority. The report of the minority union committee was defeated by a very large majority yesterday. The amendment offered by Dr. Christie to home mission efforts, especially in the case of the Presbytery of St. John's, was carried by the vote of 173 to 54.

Opposition in Session. As soon as the decision was reported, Rev. Dr. E. Scott, of Montreal, announced that a meeting of those opposed to union would be held tonight in St. Andrew's church. A number of those who were active in opposing union in the meetings of the assembly were present.

A meeting of the full union committee will be held tomorrow, and there will be further developments. The best informed in the assembly anticipated that the union would be consummated in 1915. There will be some loss to the Presbyterian church. This is estimated at five to fifteen per cent. The balance of the denomination will enter on the union. The minority are said to expect that the courts will give a large proportion of the property of the church to the Presbytery of St. John's in England and that the Presbytery of St. John's in England will have, however, fully protected against contingencies of this kind in Canada.

Two Vacancies to be Filled in Ottawa Soon. Deputy Ministers to be Appointed in Departments of Inland Revenue and Mines.

Ottawa, June 11.—The filling of two deputy ministerial vacancies, that of inland revenue and that of mines, is expected at an early date.

The position of deputy minister of inland revenue has been vacant for over a year and it is said that Wm. Flanagan, acting deputy minister, will be promoted to the position temporarily at least. Mr. Hamworth, however, is now 65 years of age and is expected to retire shortly.

Mr. Latham, secretary to Hon. W. E. Nantel and a well-known journalist, is mentioned for the position. A further aspirant is J. C. Vincent K. C., defeated Conservative candidate for Russell county in the last election.

The name of Prof. W. R. Brock, director of the geological survey, is mentioned in connection with the vacancy in the mines department created by the superannuation of Dr. A. H. Low.

Mr. Joseph Ruse, of the Canadian Estates Limited, is responsible for the coming of Mr. Gliddon to the Canadian west. Mr. Ruse met the publicist in Los Angeles last winter, and he was so interested in some of the narratives of the Californian, who is always exporting his home stories when away that he promised Mr. Ruse that, like the Queen of Sheba, he would come and see if the half had been told him.

Mr. Ruse was advised a year ago that he could expect Mr. Gliddon to arrive in Calgary in the course of a few days. He comes here to write stories of the development and possibilities of Calgary and Alberta, for his magazine, which enjoys a wide circulation among a most exclusive class.

WEST INDIES CLAIM BREACH OF FAITH BY G. E. FOSTER

Man Who Signed the Reciprocity Agreement Says He is Bitterly Disgusted as Steamship Arrangements Have Been Broken Off.

BETTER HAVE BEEN WITHOUT THE PACT Meeting of Protest Held in Trinidad This Week; Foster Undertook to Give Guarantee for Fast Steamship Service From Canadian Ports.

That considerable dissatisfaction exists in the West Indies over the way in which the reciprocity treaty is being worked out is the statement of Mr. E. H. Mount, Montreal, secretary of the Canadian West Indies League.

Mr. Mount said today that many of the West Indian colonies were to Canada far more than Canada was giving in return under the reciprocity agreement, and they expected that a difference would be made up by the provision of an adequate steamship service.

This, in fact, has definitely promised by Mr. Foster and the West Indian delegates has instituted that an essential feature of the treaty is the agreement must be given reciprocity communication between Canada and the West Indies. The imperial secretary recommended a weekly service to the larger colonies, and a fortnightly one to the smaller islands.

Instead of this having been given, the steamship contract made by the Canadian government in 1908, which recommended a weekly service to the larger colonies, and a fortnightly one to the smaller islands, is being broken off.

Some of these colonies are now practically in revolt against what they consider to be the bad policy of the Canadian government. In a petition drawn up in Antigua one of the most important of the colonies, a resolution has been signed by practically all the leading merchants and planters of the island, in which they have recognized great significance of fact that in your judgment its business will require the service of such magnificent fleet. This club pledges best efforts to justify your estimate of an invulnerable progress."

To which Sir Thomas Shaughnessy replied: "I feel that unless a service is indicated by the arrangement of the reciprocity agreement, and we are in opinion that Antigua, one of the colonies once every 12 days, and to the six others which are parties to the agreement every 24 days."

The Markets

Excitement in New York Abates; C. P. R. is Weak

Wheat is Stiff on Markets of New World

Falls Eight Points and Touches Lowest Price Since 1911; Steel Goes Below Fifty

New York, June 11.—The excitement which attended yesterday's violent break in stocks was absent from today's trading which was comparatively calm and on a smaller scale. Some progress was made toward the recovery in the early session but the effect of this movement was nullified by a severe break shortly before the close. Canadian Pacific was the particular point of weakness, falling nearly eight points on its high price of 137 3/4, and number of other stocks sold below 50 for the first time since 1909. Union Pacific dropped to 127 1/4, and number of other stocks with low records were made, with virtually the entire active list selling below yesterday's close.

Chicago closed 3-8 to 1 5-8 higher. American corn closing especially strong. Cash prices closed 3-4 to 1-4 higher.

C. P. R. BREAKS SIX POINTS ON MONTREAL MARKET

PROFIT IN MONTREAL

DRIVERS ROSE; BUYERS

PROFIT IN MONTREAL

Montreal, June 11.—Losses to drovers were profits to the buyers at the west end stock yards today, as the market prices all showed an easier feeling. The lower prices, it was claimed by the drovers, were the result of a "cut rate" war which is on between several packing houses. Prices for the top grades of butcher beef were off 25c and the lower grades 50c per cwt. to day. Old sheep and lambs also felt the effects and eased off 1-4c per pound. Receipts of butcher cattle 600 head. Receipts of sheep, 25 to 47, good, \$2.25 to \$2.50; fair, \$2.75 to \$3; medium, \$2.25 to \$2.50; butcher bulls, \$4 to \$5.50; butcher cows, \$2.50 to \$3.50; good, \$3.10 to \$3.35; fair, \$4.70 to \$4.95; poor to medium, \$2.25 to \$4; canners, \$2.75 to \$3. There was also an easier feeling in milkers, and prices were on an average of 15c to 20c per cwt. according to quality. Receipts of sheep and lambs, 500 head. Market easier, 1-4 to 1-2 lower. Old sheep, 1-2 to 1-2c, and spring lambs \$4 to \$5 each, according to size and quality. Receipts of hogs, 975. Easier, 25c to 30c. Selects \$10.25 (few 10c higher), sows \$8.75 to \$9, stags \$5 per cwt. all weighed off. Receipts of calves, 1400. Steady under good demand. Prices \$4 to \$12 each according to quality and size. As usual calves were in good demand, and prices held fairly steady. Receipts of butcher cattle 600 head. Receipts of sheep, 25 to 47, good, \$2.25 to \$2.50; fair, \$2.75 to \$3; medium, \$2.25 to \$2.50; butcher bulls, \$4 to \$5.50; butcher cows, \$2.50 to \$3.50; good, \$3.10 to \$3.35; fair, \$4.70 to \$4.95; poor to medium, \$2.25 to \$4; canners, \$2.75 to \$3. There was also an easier feeling in milkers, and prices were on an average of 15c to 20c per cwt. according to quality. Receipts of sheep and lambs, 500 head. Market easier, 1-4 to 1-2 lower. Old sheep, 1-2 to 1-2c, and spring lambs \$4 to \$5 each, according to size and quality. Receipts of hogs, 975. Easier, 25c to 30c. Selects \$10.25 (few 10c higher), sows \$8.75 to \$9, stags \$5 per cwt. all weighed off. Receipts of calves, 1400. Steady under good demand. Prices \$4 to \$12 each according to quality and size.

Chicago Wheat

Chicago, June 11.—Important enlargement of investment demand, consequent to some extent on the possibility of a dry weather scare in the spring crop belt, led to a decided upturn today in wheat. The market closed steady at a net advance of 7-8 to 11-2.

Trade in wheat broadened from the start of the session, but the lack of rain in the northwest there was encouragement for bulls in the early cheerfulness regarding stocks and because of hints of renewed export inquiry. Aggressive activity in the market was a great deal in driving shorts to cover and forcing prices higher.

Persistent buying of September wheat for one of the largest houses on the Chicago market, the possibility of a dry weather scare in the spring crop belt, led to a decided upturn today in wheat. The market closed steady at a net advance of 7-8 to 11-2.

Trade in wheat broadened from the start of the session, but the lack of rain in the northwest there was encouragement for bulls in the early cheerfulness regarding stocks and because of hints of renewed export inquiry. Aggressive activity in the market was a great deal in driving shorts to cover and forcing prices higher.

Persistent buying of September wheat for one of the largest houses on the Chicago market, the possibility of a dry weather scare in the spring crop belt, led to a decided upturn today in wheat. The market closed steady at a net advance of 7-8 to 11-2.

### FORT FRASER

has outlived its first struggle for existence. Today Fort Fraser is a trade centre, with substantial business houses. Today Fort Fraser is the seat of government jurisdiction for the Fort Fraser district and the Nechaco Valley. Today the Nechaco Valley, of which Fort Fraser is the centre, is known to have the largest and most productive area of agricultural land in the entire province. For these reasons and many others, an investment in Fort Fraser at the present low prices can not be otherwise than profitable.

**Five Years For Norbreck**  
Cour D'Alene, Idaho, June 11.—In the federal court here this morning Judge F. S. Dieckhoff sentenced P. C. Norbreck convicted of having misappropriated funds of the Wallace National bank, to serve five years in the federal penitentiary at McNeil's Island, giving him the minimum sentence.  
Imprisonment is for conviction on two counts. The other indictments, which charged the making of false entries in the books of the bank, were dismissed.

### INDUSTRIAL BUILDING BYLAW PASSED BY THE COUNCIL

Measure Appropriates \$250,000 for New Building and Will Be Resubmitted to People in About Three Weeks; Quick Action Given.

### PARKS AND FIRE HALLS ALSO GET MORE MONEY

Applications Already in Hands of Commission for All-Space in New Structure; Charges Will Be Based on Nominal Rental and Sinking Fund.

The industrial building bylaw, to appropriate \$250,000 for the purpose of constructing a building to house small industries, was passed at an adjourned meeting of the city council at 10:30 yesterday morning. The bylaw, after the usual period of explaining, will again be submitted to the people for action, the vote being due in about three weeks.

### BENGOUGH SUFFERS FROM SEVERE STORM

Moose Jaw, June 11.—On Sunday there was a severe electrical storm over Bengough in the south country, ranching and farming districts. Several buildings were struck by lightning, one of them, the residence of A. L. Hubbard, six miles southwest of Bengough, the stove was shattered and several people were injured. Mrs. Hubbard and her children were slightly burned. About the same time a cyclone, which was blowing from a small town in the south country, not far from the boundary, one of the elevators at Colgate was blown down and a box car blown from a siding onto the main line. The lumber yards at Pangman were badly damaged and one livery barn was blown down and church spires and other buildings were scattered around Pangman and the huge black cloud could be clearly seen from Bengough.

### MAWSON IS DUE BACK FROM VANCOUVER THIS MORNING

City Planner and Manager of His English Offices Prepare for Final Conference

City Planner Thomas H. Mawson will return to Calgary this morning from Vancouver, where he has been straightening out that city, and resume work on the new plan for the laying out of Calgary.

### FORESTERS WILL HOLD HIGH COURT TODAY IN CALGARY

Hundred Delegates Expected From All Parts of Province; Officers Elected for 3 Years

The session of the High Court of Alberta of the Independent Order of Foresters will open in St. Hill this morning at 9 o'clock, when the various committees will be appointed and the work of the day will be commencing. High Chief Ranger Webster will preside, and an executive meeting will be held at 10 o'clock. The session of the High Court will be held at the afternoon session and formally welcome the Foresters to the city. The Chief Ranger replying on behalf of the visitors, it is expected that there will be in attendance about 100 delegates from the 35 lodges in Alberta. There will be 25 delegates from the three Calgary lodges.

### BIG LUMBER MILL IS DESTROYED WITH ENORMOUS LOSS

Damage at Prince Albert Will Amount to Over Half Million Which is Insured; Favorable Winds Saved the Offices and Power House.

### BIG RIVER LUMBER COMPANY IS LOSER

Big Consignment of Lumber of Thirty Million Feet Saved; Shipping to Go On in Meantime Till Mills Are Rebuilt and All Work Resumed.

Prince Albert, Sask., June 11.—Word reached here at noon today that the main part of the Big River Lumber Company's mill, consisting of the department used for the manufacture of logs into lumber was destroyed by fire shortly after 7 o'clock this morning. Loss amounted to \$2,000,000 which is covered by insurance controlled by Osher Hammond & Nanton of Winnipeg. Offices, warehouses, power houses, planer and electric generators were saved mainly because of favorable wind and sufficient work done by mill water service.
