The Pavilion was fairly well filled and as bee as a furnace last night upon the occasion of charity concert in aid of the Hospital for Sich Children. Heintzman's Band, under the lead of Mr. Baugh, late of Gilmore's Band, played a number of selections in excellent style and proved itself to be an excellent musical organiszation. They opened the concert with Reeve's "2nd Regiment" march and afterwards rendered a descriptive piece, Bucalossi's "Hunting Scene," the "Anvil Chorus," from "Trovatore"; "Gems of Faust" from Gounods great work and wound up the concert with Godfrey's burlesque rode "A Comical Contest" in which the bass drummer takes the prize. Mr. Baugh gave a cornet solo "Alexis Air Varie" and Mr. George Holderness a clarinet solo, both in excellent style, The vocal part of the program was contributed by Mrs. Caldwell, Mr. Fred Warrington and Mr. A. Mr. John Magwood, Victoria Road, writess "Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure is a splendid medicine. My customers say they never used anything so effectual. Good results immediately follow its use. I know its value from personal experience, having been troubled for 9 or 10 years with Dyspepsia, and since using it digestion goes on without that depressed feeling so well known to dyspeptics. I have no hesitation in recommending it in any case of Indigestion, Constipation, Heartburn, or troubles arising from a disordered stomach."

Parallel Lines.

Every student knows that in close reasoning parallel lines of thought are laid down and deductions educed.

We have drawn the above visible lines simply to bring them prominently before your eye and to ask what they represent to you.

A railroad man to whom we showed them said, "To me those four lines represent a double-track railway."

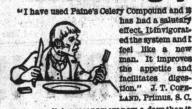

A doctor replied to the same interrogatory, "The lines are to me the large arteries and veins lying alongside each other in the human body."

veins lying alongside each other in the human body."

As every intelligent man or woman knows, the blood of every living person flows with almost railroad speed through the arteries, forced by that wonderful engine, the heart. From the arteries it is side-tracked through the capillaries and veins, and every drop of blood goes through the kidneys for purification no less than 2500 times every twenty-four hours. If the kidneys be diseased the impirities of the hlood containing the worn-out tissues, and deleterious acids are not drawn out or excreted as nature intended, but continually pass and repass through every fiber of the system, carrying death and decay with every pulsation. Unless remedied the heart becomes weakened, the lungs trying to do double work break down, the liver becomes congested, the stomach refuses to digest food and the result is a general break down.

PAPE - AVE IN THE WARD OF ST. MATTHEW.

This plan represents a valuable piece of property situated at the head of Pape-avenue in the Ward of St. Matthew, beautifully located and overlooking the city and lake. It is one of the dryest and most healthy districts of Toronto, having a perfect and natural drainage, being situated about two hundred feet above the level of the lake.

Pape-avenue has already become one of the leading streets of our fast growing city and is now the best street east of Sherbourne. It is within ten minutes ride of St. Lawrence Market, and the leading thoroughfare of the Northeastern portion of the County of York

into the city.

The Grand Trunk suburban train, which runs twelve trips daily between Weston and East Toronto, stops at Pape-avenue, while the Toronto Street Railway sses along Queenstreet every ten min-utes, and the rails are now being laid by the Toronto Street Car Co. for the extension of their tracks across the bridge and along Gerpard-street to Papeevenue, thus giving the residents the facility of reaching any part of the

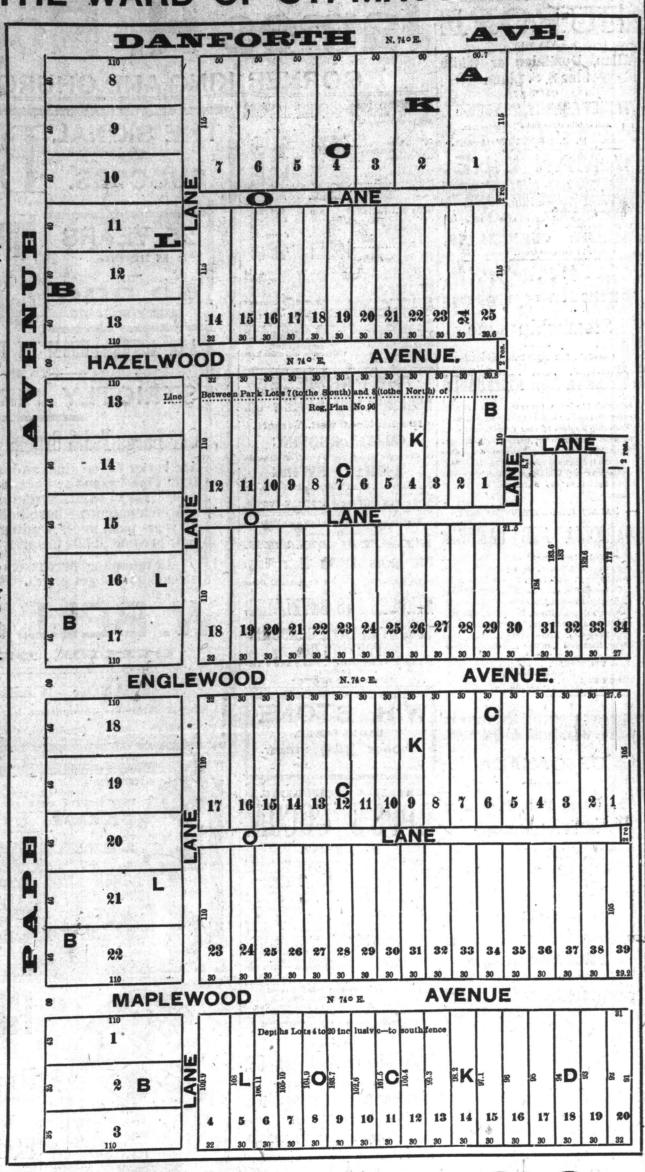

Pape-avenue is already sewered and block paved, water and gas is now laid on beyond the railway and will be extended through to Bloor without delay.

No troublesome or expensive searches are required as to the title of this property, there being only four or five transfers from the Crown to the present

We beg to direct the attention of intending purchasers to this property and request them to examine it and get terms and price list be-fore purchasing elsewhere, for without doubt this property will double itself in value within the next three months.

Special terms will be given to purchrsers about to build.

VALUABLE PROPERTY FOR SALE

242 Feet

QUEEN-STREET.

Above we present a plan of one of the Choicest Properties for sale in Toronto; and while shrewd investors by the score are investing in outside properties, HERE IS EVEN TO-DAY a Central Property which must have escaped their serious and best attention. Now, when all are agreed that the growth of Eastern Toronto has been phenomenal, during the past three years, and will be sure to continue, Queen-Street will be the only business street worthy the name in the East End of Toronto for some years to come: it must therefore clearly follow that Queen-Street East, Toronto, at the price which we can sell the above property, is the place above all others to buy first-class business property to-day for a future substantial advance. Queen street as far East as Pape-Avenue will, ere long, discount in every respect her namesake in Parkdale. It is more central, it has none of the disabilities and drawbacks of Queen-strect in the West. It is the only direct route for all traffic to and from the centre of the city eastwards; being therefore without a rival. It has to-day a sturdy class of steadily pushing merchants througing either side as far eastward and even beyond Logan-Avenue. The Woodbine Racing Track, (the Derby race-course of Canada), Kew Beach, Balmy Beach, Picturesque Norway, Victoria Park, the Newmarket Racing Track (where Beach, Balmy Beach, Picturesque Norway, Victoria Park, the Newmarket Racing Track (where training uniformly begins earlier than on any other race course in Canada). Little York. The Grank Trunk and Canada Pacific Railroad interests rapidly increasing from month to month and the large number of admirable building sites iin the mmediate vicinity, all combine in contributing their share to the rapid and permanent development of Queen-street into the great business street of the east end of Toronto. It will be observed that the property shown on above plan comprises all the block including the two grand corners of Booth-avenue and Logan-Avenue; the total frontage on the north side of Queen-street being 242 feet by a depth of 201 feet, which can be sub-divided into about 428 feet frontage in all without radicing the valuable Queen-street frontage. On the north side of Queen-street in all without radicing the valuable Queen-street frontage. into about 425 feet frontage in all without reducing the valuable Queen-street frontage. On the property are creeted buildings all rented to good tenants, the rents of which would aid materially in carrying the property. For further particulars as to price and terms apply or write to
