Clark's best six cord 300 yard spools, black or white, numbers 10 to 60 net sale price 10 cents each or \$1.19 per dozen. Beckwith has to pay \$1.20 for the spools he sells and they only contain 250 yards. I hereby challenge Beckwith or any other dealer to contradict this statement. The lowest price for 200 yard spools elsewhere is 8 cents. A 300 yard spool at 10c costs you three and one-third cents per 100 yards. Therefore 200 yard spools at the same rate is only worth six and two-third cents. If 200 yard spools are worth 8 cents 300 yard spools are surely worth 12 cents.
SNAPS, S-N-A-P-S. Dress Snaps, best quality, Beckwith's price until I cut it in two was 10 cents per doz. His present price 7 cents per doz. My Regular price 5 cents, sale price 4½ cents. They cost 3½ cents.

What will Spools, Snaps and the rest of the bunch cost you, in a few days, when I am sold out? Be Wise and Buy Now. Teach your Dollars to have more cents than to shop elsewhere.

13 Electric lights cost \$1.80 per month at Annapolis Royal. What do yours cost?
 Shaffner's Limited state that they are offering some lines of goods at pre-war-prices. They have sold for months a blue denim Work Shirt at \$1.75. My highest price for precisely the same garment has been \$1.20, my sale price is \$1.08. If \$1.75 is a pre-war-price it would not, in my judgment, need advancing. I have spoken. Just about 25 per cent of my trade comes from Lawrence town, Inglisville, Williamston and between there and Middleton.---See!

Bookcase and Shop chairs have been sold. In a few days my shop lamps will be for sale. "Keep up with the procession."

N. B. Any goods not listed subject to ten per cent discount.

GRANVILLE CENTRE

(By an occasional correspondent)
We regret to report Mrs. Samuel Bent still very seriously ill.

Miss Edith Goodwin, student at Annapolis Royal Academy, is spending the week end at her home here.

Mr. and Mrs. D. Gilliat, of Granville Ferry, recently spent a few days at the home of Mr. and Mrs. A. L. Gilliat.

Mrs. George W. Chisholm, of Karsdale, after spending a few days with her friend, Mrs. Everett Withers, returned to her home on Saturday.

Rev. A. Melton, of Montreal, made a brief visit last week at the home of Mr. and Mrs. John McCormick. Other visitors at the time were Mr. T. Smith Bohaker and daughter, Miss Lilian, of Granville Ferry, and Misses Sadie and Luey Chesley of Upper Granville.

Mrs. G. T. McCormick has received word that her nephew Roland McCormick, of Boston one of the first American boys who enlisted had arrived home from France. Mr. McCormick who has been in habit of spending his vacation here has many Granville friends glad to learn that he was not harmed in any way during his war experiences.

There is general and deep regret throughout Granville that Mr. C. H. Poole, who for fifteen years was our faithful kind and obliging mail carrier has been favored because of ill health to resign the position. That he may have a speedy and complete recovery is the heartfelt wish of every one. The new carrier is Mr. Robert Walker, and since we cannot have our Mr. Poole any more we are glad to see Mr. Walker has received the appointment.

The Lenten Services held in All Saints' Church every Thursday are well attended and most interesting.

Although the Rev. R. A. Penny, has only had charge of the parish for a few months, Mrs. Penny, already holds a very warm place in the hearts of the parishioners. The Bible class under the excellent leadership of Rev. Isaac Brindley is also well attended. Pastor Brindley's broad minded manner of handling the topics attracts those of other denominations who feel that the meetings by cultivating fellowship one with another and with the All Father, have besides the spiritual uplift for those who attend them a very great influence for good upon the social and public life of the community.

The pastor is ably assisted by Deacon Withers and also by Mrs. H. A. Goodwin and Miss Vera Eaton who occasionally contribute very interesting papers. Many thanks are due

Leut. C. W. Cook former student pastor of the Baptist church here and lately returned from Germany where for nine months he was a prisoner of war for kindly taking the Class on several occasions when the President was unable to be present. Surely Mr. Cook has the same great ideal of brotherhood which his pastor, Rev. Melton is so happy when he could leave his University and all that was dear to risk his life for the freedom and happiness of humanity.

SPA SPRINGS

It is the first break in our school for some years to the bereaved ones. What He doeth we know not here, but sometime will know and understand.

HOW TO AVOID BACKACHE AND NERVOUSNESS

Told by Mrs. Lynch From Own Experience.

Providence, R. I.—"I was all run down in health, was nervous, had headaches, my back ached all the time, I was tired and had no ambition for anything. I had taken a number of medicines which did me no good. One day I read about Lydia E. Pinkham's Vegetable Compound and what it had done for women, so I tried it. My nervousness and backache and headaches disappeared. I gained in weight and feel fine, so I can honestly recommend Lydia E. Pinkham's Vegetable Compound to any woman who is suffering as I was."—Mrs. ADELNE B. LYNCH, 100 Plain St., Providence, R. I.

Backache and nervousness are symptoms or nature's warnings, which indicate a functional disturbance or an unhealthy condition which often develops into a more serious ailment. Women in this condition should not continue to drag along without help, but profit by Mrs. Lynch's experience, and try this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound—and for special advice write to Lydia E. Pinkham Med. Co., Lynn, Mass.

Riverside Cemetery Birthday Party

The seventh Birthday Party of the Riverside Cemetery Co held last week at Warren's Hall in connection with the annual business meeting of the Co. proved as in former years, a social and financial success.

It had been feared that a meeting of the Municipal Council and Board of Trade announced for that same evening at which many of the business men of the town and also some of the directors of the Cemetery Co. must necessarily be present might interfere with the success of the Birthday Party.

During the evening, however, substantial tokens of their continued interest in cemetery work were sent in to the treasury, making it evident that while the important question of a Memorial Hospital for Anna Co. discussed at the present first place and though their presence and inspiring words must be missing from our meetings their moral and financial support were assured.

In the absence of the President, Capt. Longmire occupied the chair. The treasurer's report for the past year showed receipts from perpetual care payments, sale of lots, taxes, interest from bonds and donations etc. to be over \$22,000, while expenditure for markers, care taker's salary, etc. amounted to over \$2200 leaving a small balance in the treasury, showing that the past year has been by far the most prosperous in the history of the company.

Some matters due for consideration at this meeting were not discussed because of the absence of directors and will be attended to later. After the election of officers for the year, no change being made with the exception of adding the Mayor's name, A. B. MacKenzie to the directorate, messages from absent friends were received and letters containing contributions to cemetery funds. One letter enclosed \$100 another \$50 a third \$25.00 for perpetual care. Then there were letters enclosing \$25, \$20 and several with \$5, \$2, \$2, \$1, etc., toward current expenses. There were also two checks for \$100 each handed in by residents of Bridgetown for the perpetual care of lots.

Fruit and candies were then passed around among the guests while the envelopes were being opened and the receipts for the evening counted up, the whole amounting to about \$700. Since then the sum has been increased to \$725 and is still growing.

Our Returned Heroes

Among those who landed in Halifax this week from overseas were the following: T. J. Hamer, East Dalhousie; H. Rice, Digby; C. E. Bain, Digby; A. Amero, Digby; C. K. A. Brooks, Weymouth; A. Belliveau, Weymouth and L. P. Brinton, Bear River.

Word has been received announcing the death at Tompkins, Sask., of Laura Congdon, wife of Joseph Little, daughter of Ernest S. Congdon of Berwick, Kings Co., after a short severe illness of influenza. She passed away on Sunday morning at 8:30 March 30th, Saturday night she seemed better, rested well and 10 minutes before she died talked to the nurse then went to sleep, leaving a kind, devoted husband, a little son, aged 6 1/2 years old a brother, Theodore F. Congdon, of Tompkins, Sask., Clark of Fields Corner, Mass., and Ernest of Berwick, N. S. Ernest had the influenza last December and has not yet recovered his health.

Mrs. Little was married in 1911 and went to her new home at Tompkins, Sask., where prosperity smiled on them but she had to leave a lonely home and everything she could wish for when the call came.

The funeral was largely attended. The casket was covered with flowers, showing the esteem for her many friends. Her husband and brother were both very ill with influenza at the time of the funeral and at this writing are just able to be around.

We are very sorry to state that our teacher or principal of the Melvern School, left 15th inst, for the V. G. Hospital, Halifax, where she is to undergo an operation for appendicitis. Miss Troop is very popular here and has many friends wishing for her a successful operation and speedy recovery. We understand that Miss Hortense Spurr is to act as substitute for her in the schoolroom during her absence.

The death angel has again visited our community, three funerals being held within ten days the first of little Edith Archibald, only daughter of Mr. and Mrs. Leonard Archibald, of Melvern West, death following an operation for appendicitis at the Annapolis Valley Hospital, Middlebrook. Edith was a child of sweet and lovable disposition, and the sorrowing parents and little brother have the heartfelt sympathy of the whole community in this sudden and trying affliction.

One half hour later on the same afternoon, Friday, April 11th, the funeral of Mrs. Shilpa Spurr took place at her home, death following a brief attack of pneumonia. Her husband and family survive her. As in on Wednesday, April 10th the body of Mary, wife of Harvey Morse, was laid to rest in the Presbyterian cemetery, her death following an operation for appendicitis at the Annapolis Valley Hospital. CHRIST AND THE MONEY TEST

(By Rev. W. W. Scudder in Bear River Church Chronicle)

Christian stewardship the doctrine that we are entrusted with life power and property, never for selfish use, but ever for the service of God and humanity, is a fundamental teaching of Jesus. He made this ideal the unvarying rule of His life. He demands it unconditionally from all of His followers. This requirement undergirds every utterance of His on discipleship. How many of our church people know this? (Luke 6:46.)

The real test of stewardships, according to Jesus, is found in the way a man uses money. For money is an embodiment of both material and spiritual values. Each dollar I earn has a labor value representing so much of my thought, energy and effort. It also carries a character value, since it reveals in its acquirement and use the inner motives and habits of my life. Money, therefore, can become the root of all evil or the fruit of all good a cause of vice or a means of grace. It can exert and influence sordid and brutal, or spiritual and brotherly. Wealth is one of the most accurate crystallizations of life. The money test is the most comprehensive, searching, and revolutionary test of social character.

This was why Jesus was so deeply concerned about the use and abuse of wealth. We have overlooked the tremendous emphasis He put upon this. For instance, the importance of His teaching concerning the "New Birth" we all admit. But how often did Jesus speak of it? Specifically once and then to one man. About money, however, He spoke repeatedly and to crowds. His parables and sermons drip with it. No element in His teaching is more pronounced.

Whom did Jesus put in hell? Not the thief on the cross, but Dives who ignored his stewardship obligations and "fared sumptuously every day."

Who had to be left out of the kingdom? Not the repentant prodigal, bad as he was, but the exemplary "rich young man" who in sorrow turned away from the acknowledgment of stewardship. Who was cast into outer darkness? The adulteress? No! It was the man who with his unused talent buried also his stewardship responsibilities. And who was the "Fool"? Not, according to modern thrift, the poor widow who rashly threw in all her living, but the rich farmer who stored his goods for his personal gratification.

The sheep and goats in the great judgment scene were divided according to the stewardship obligation of life. Why couldn't a rich man enter the Kingdom? Primarily because there can be no such person there. You can't imagine in Christ's Kingdom a steward entrusted with great resources, but not a "rich man" in the pagan sense of absolute ownership of wealth. Moreover, wealth held and used for selfish ends, by blinding its possessor to brotherly outlook and paralyzing sacrificial impulses, automatically shuts any man out of the Kingdom.

Wherever the church has lived the law of stewardship she has been victorious. Conversely when the church has ignored her stewardship she has placed herself in a fatal situation. When religious orders grew rich and luxurious men closed the doors of their hearts against them. Consider our present danger in the enormous increase of Christian wealth with little corresponding growth of consecration! It has been pointed out that the curse that covers the world today is not pagan but a Christian control of its money power. Is there a more gigantic social evil than the love of money and its power over men? A fresh study of the teachings of Jesus should show us how far from His standard has fallen: (1) the man who has ignored his stewardship; (2) the church that has forgotten to teach it; (3) the society that has been built on its practised denial. It will uncover also: (1) Christendom's great weakness and shame; (2) the gigantic task

of her regeneration; (3) the chief cause of the world's wickedness and woe.

Stewardship bears also the gospel of redemption. It is a fundamental requisite for world transformation. It is the basis of all right life. In the home, the school, the estate, the market, as well as the church, it holds the secret of friendly relationships.

It is every where a lens that can bring into focus for the man whose eye is single, the beauty of that rich, unexplored and wonderful world of brotherly love the Master tried so hard to reveal.

How Mr. Childs' Furnished the Money

During the life of the late George W. Childs, the great Philadelphia publisher and philanthropist, a young man once called on him to borrow money enough to start in business. "Do you drink?" said Mr. Childs. "A little," replied the young man. "Quit it. Quit it for a year and then come to me."

At the end of the year the young man presented himself and said that he had not taken a drink during the year.

"Do you smoke?" "Sometimes."

"Quit it. Quit it for a year and then come to me."

At the end of the year the young man again called and told Mr. Childs he had given up smoking.

"Do you chew?" "Occasionally."

"Quit it. Quit it for a year and then come to me again."

The young man gave up chewing also, but at the end of the year he did not return to Mr. Childs. When asked by a friend why he did not go to see the philanthropist again, he said, "Oh if I go to see him now, I know what he will say. He will tell me now that I have given up drinking and smoking and chewing, I ought to have money enough to start in business for myself. And I have."

Co-Operative Live Stock Marketing

To get better and quicker results from any industry or calling it is generally necessary to have some external or internal stimulation. No matter how favorable the soil and how high the quality of the seed, the plant does not reach its best possible growth unless care has been given to the cultivation of the soil. It was with this principle in mind that the Government of Saskatchewan five years ago established a branch of its department of agriculture to foster among the farmers of the province the idea of co-operative marketing of their products. Natural conditions in the province have always been favorable to the development of balanced farming, but the stimulation given to the farmers in providing markets by means of co-operative organization in the sale of their products has been responsible for the development of many phases of farming which were hitherto, comparatively speaking, almost negligible. Dairying, sheep-raising and beef production have all grown to a point of considerable importance in a province which has carried its reputation for grain growing, and the end is not yet reached, though the yearly revenue from the farmer is gradually catching up to the latter.

One of the first steps undertaken by this branch of the Provincial Government was the organization of a co-operative system of live stock marketing, which would eliminate all needless middlemen, and secure for both the smaller and the larger producers the benefits of competitive bidding obtainable on central markets. A bulletin explaining these benefits to farmers was compiled in 1914, and sent to farmers in the province. As a result nine co-operative stock marketing associations were formed the following year.

During the first year thirty cars of stock which realized \$42,034.00 were handled by these associations. By 1918 the number of associations had grown to fifty, which handled seven hundred and fifty cars of stock of a value of \$1,422,000. This does not show the whole growth of the movement, however, for its success is reflected in the Grain Grower's Association, the largest co-operative association in the province, and the consideration of stock, and the considerable numbers handled by this association through its locals in all parts of the province are not included in the figures quoted.

Little or no capital is required in the formation of these societies. Through some of the associations at the beginning and the local bank to obtain a loan from the local bank to pay advances on stock, the practice is generally discontinued, as they become firmly established. A number of farmers in a district get together and form an association, which is incorporated under an act of the province, called the Agricultural Associations Act. Each organization is required to submit a statement annually to the government, showing the amount of business transacted during the previous calendar year. This statement serves to show the progress of the association, besides enabling the government to keep a check on its transactions and to protect the interests of the shareholders.

In the marketing of stock all the associations employ a somewhat similar method. A manager is appointed whose duty it is to look after all the details. He is usually remunerated at a set rate per hundred on the number of stock sold, or he may receive a commission on the proceeds of each sale. Certain shipping schedules are set every week or every month, and the members deliver their stock at the local stockyards on these days. Many

realized by farmers who have sold their stock through these co-operative associations. This is equal to about \$200 a car. On this basis the savings effected last year would amount to \$150,000.

The government renders assistance in the formation of these associations by providing each new association with a set of receipt and account forms, sufficient to record all its transactions for the first year. A bulletin explaining how the accounts should be kept, is also furnished. When the first consignment is ready, an experienced man is sent by the government to assist the manager of the association in receiving, weighing, grading, loading, and warding the stock. This man will also accompany the manager to the central market to aid him in the disposal of his stock if desired. Through this assistance many associations have been encouraged to undertake the work, and having once started it is very seldom that the undertaking is abandoned.

There is no doubt that these associations are a means of increasing the prosperity of the farmer. Not only does he get higher prices for every shipment he makes, but this fact and the convenience of the market also encourages him to increase his live stock holdings. The success of one stock holder also encourages others to follow its example. As farming is the occupation of by far the largest portion of the inhabitants of the province it is not difficult to see how its benefits from this movement, which is helping the farmer to obtain an increased revenue from his land.

Fertilizer Prices

became an active subject for discussion as the ending of the war. An immediate reduction was expected by many.

If prices had advanced immediately at the beginning of the war a like reduction might be expected at its close, but there was no actual advance in fertilizer prices until the spring of 1918, notwithstanding at that time the war had been on for over three years. This course did not apply to Potash fertilizers, the supply of Potash being cut off at once.

Late in the fall of 1917 on account of the high prices of fertilizer materials, the scarcity of shipping and the shortage of all fertilizer there was a general feeling that there would not be an adequate supply. This was called to the attention of the Government officials and the manager of the COLONIAL FERTILIZER COMPANY was asked to appear before the Committee on Increased Production of the Nova Scotia Legislature, and gave all possible assistance to relieve the fertilizer shortage.

In the summer of 1918 with the experience of that spring the Agricultural Department of New Brunswick called together the fertilizer manufacturers and recommended they put in a heavy stock of fertilizer materials. The Secretary of Agriculture for Nova Scotia also urged the COLONIAL FERTILIZER COMPANY to put in an extra supply of raw material irrespective of their cost. He realized as did the manufacturers the importance of fertilizer to the food supply, and to get large crops fertilizer must be used.

At the close of the war all fertilizer manufacturers in Canada being urged by the Government officials had on hand a very large stock of fertilizer bought at the extreme outside prices quoted in the summer and fall of 1918.

The expected lower prices have not been realized but on the contrary there was a heavy demand for export and prices on some materials have actually advanced.

A sensational report appeared late in March as to heavy reduction in price of fertilizers in Aroostook County. This is traced back to one brokerage firm in New York which is attempting to dispose of undesirable fertilizer materials directly to the farmers. This material is such that no fertilizer manufacturer will buy it although it has been on the market for sometime and the holders of it are willing to sacrifice it at a cut price. An Aroostook County farmer writes: "Have been investigating the chemicals that the New York firm is offering and have found out that it is taking chances to use it. You may refer to me or any of our Aroostook County boys in reference to this stuff as we have made a close study of these goods and feel quite safe in denouncing its use for the Aroostook County spuds." The amount of this material is but a drop in a bucket of the requirements of fertilizer and it is offered cheap because it is a cheap material.

The farmers must decide now whether or not they are going to plant this season and with a falling off of 50 per cent. in the acreage of potatoes and garden trucks in the Southern States and the immense demand for food in Europe, it appears the farmer of Nova Scotia and New Brunswick are in a position to put in a big acreage and get the advantage of the market conditions which must prevail in the fall.

Some light cars cost more than the Gray-Dort cars—but you cannot find wherein they give you more. Ride in a Gray-Dort—and you will not be satisfied to own a car that gives you less. Nor will you wish to pay a higher price—for nothing more.

The touring car is \$1245; the Gray-Dort Special—the car with added refinements and extra equipment, is \$135 extra; there are also a coupe, and a sedan. All prices f.o.b. Chatham and are subject to change without notice.

Help the Y.M.C.A. Finish its Work For Soldiers

Help the "Y" Construct the Manhood that will Re-construct Canada

ALL the world now knows that the Red Triangle of the Y.M.C.A. was the "Sign of Friendship" to thousands of your brothers, sons, nephews, cousins and neighbours' boys in the last four and a half years. Wherever the Canadian Soldiers went, the "Good old 'Y'" went too. And now it is coming back home with them!

For the support which has made possible the war work of the Y.M.C.A. we thank you. Your money has been well expended. We have rendered full account.

We ask now your continued sympathy and support for Red Triangle Service for our Soldiers during demobilization, and for Y.M.C.A. work for Canada generally during the Reconstruction period. The Annual Red Triangle Campaign will be held throughout Canada May 5th to 9th, 1919. The objective is \$1,100,000.

The Y.M.C.A. will keep its chain of service unbroken till the end.

For Our Men Returning

For the soldiers and their dependents, returning from Overseas, we have provided as follows:—

1. A Red Triangle man on board every ship when it leaves Great Britain, with a full equipment of games, gramophones and records, magic lantern, literature and writing materials. Where possible, also a piano or an organ. Lectures, concerts, sing songs, instruction re Government repatriation plans, and Sunday Services.
 2. Red Triangle comforts and facilities for the men on arrival at Halifax, St. John, Quebec and Montreal, including coffee stalls, with free drinks, free canteens, cigarettes, candies, etc.
 3. Red Triangle men on every troop train to provide regularly free drinks, canteens and cigarettes, organize games and sing songs, and furnish information.
 4. Red Triangle free canteen service, information bureau, etc., at each of the 22 Dispersal centres in Canada.
 5. Red Triangle Clubs in the principal cities of Canada in the shape of large Y.M.C.A. hostels to furnish bed and board at low rates and to be a rendezvous for soldiers.
 6. Seventy-five Secretaries to superintend Red Triangle service in Military Hospitals, Camps and Barracks throughout Canada.
 7. Tickets entitling soldiers to full Y.M.C.A. privileges for six months at any local Y.M.C.A. furnished.
- In addition to our work for the returning soldiers, we have to maintain the Red Triangle service to the full for the soldiers in Siberia, as well as the work of special secretaries in Northern Russia, Palestine and Poland.

For Canada's Manhood

The Reconstruction program of the Y. M. C. A. includes the following vitally important developments:—

1. An increased service to 300,000 teen-age boys in the Dominion—the development of Canadian Standard Efficiency training; Bible Study groups; summer camps; conferences; service for High School boys, for working boys, in the towns and cities; for boys on the farm and for boys everywhere, who have lacked opportunity for mental, moral, physical or social development.
2. Inauguration of Y.M.C.A. work in the country, and the smaller towns and villages lacking Association buildings and equipment, on a plan of county organizations. This will include the establishment of Red Triangle centres for social, recreational and educational work among boys and men, in co-operation with the churches.
3. The promotion of Y.M.C.A. work among Canada's army of workers in industrial plants, both in Y.M.C.A. buildings and in the factory buildings, organizing the industrial workers of our cities by meetings, entertainments, games and sports.
4. The establishment of the Red Triangle in isolated districts where lumbermen, miners and other workers hold the front trenches of industry.
5. Besides these main fields of increased activity for 1919, we have to provide for enlarged work among railway men, college students and for our campaign to encourage physical and sex education. Under all our work we place the fundamental foundation of manly Christianity.

Y.W.C.A.

For the wives and children Overseas, dependent upon Canadian soldiers, and for Y.W.C.A. work in Canada generally, a sum of \$175,000 from the Red Triangle Fund will be set aside for the Dominion Council of the Y.W.C.A., which is caring for the soldiers' women folk, and their little ones on the long journey, from Liverpool to Canada, and is also extending its work for Canadian girls.

For their sake also be generous when you make your contribution.

FOR the sake of our victorious soldiers and their dependents, and the happiness of their home-coming; for the sake of our future citizens, our teen-age boys; for the sake of rural life in Canada; for the sake of the social betterment of the toilers in factory and workshop; for the sake of lonely men and boys in our mines and forests; for the sake of Christian Society and Canadian manhood—we appeal to you. Give us your contribution, little or big. Be as generous as you can.

Hand your contribution to the canvasser when he calls, or if you live where it is difficult for him to call, send it by check, money order or registered letter to the National Treasurer, Red Triangle Campaign, 120 Bay Street, Toronto.

Please Note:

We are not asking for money to carry on our work Overseas, with the Army in Great Britain, France or Belgium. That work will continue at its maximum for some months, financially provided for by the liquidation of our assets Overseas, and will not terminate till the last man has sailed for home.
