

The Best Clothing for Boys in Canada

WE CLAIM for our boys' clothes first rank, not only in Toronto but in Canada. We have never advocated cheap clothes for boys because it is not a good policy to sell garments for boys that will not stand up to the test put upon them by the average active boy. On the other hand our boys' clothing is not expensive because of the wearing qualities and length of service you obtain from our garments. As one lady told us just the other day, that after trying other makes for her boys she was glad to come back to us to get the good wearing qualities, and that her boys never looked so neat as when dressed with our garments.

This fall we have a truly fine showing of Suits, Reefers and Overcoats for boys of every age, and our price range is as fine as the showing is large. Suits from \$3.50 to \$18.00; Reefers from \$5.00 to \$15.00, and Overcoats from \$5.00 to \$18.00, with convertible and storm collars.

We are showing many new clothes this season that are particularly adapted to boys' wear. Our all-wool Germania Naps are winning new friends daily and once worn are sure to give entire satisfaction and lasting service. One special feature we wish to call your attention to is our range of Bloomer Suits for large boys. We carry them right up to 38 size and can fit almost any boy that walks. For an all-clothing store you'll find us hard to beat; and if your boy is not wearing our make of clothes we can assure you that he will appreciate a visit to our splendid Boys' Department. Ask any of the salesmen to show you some of the letters that come to us daily from our little boy friends; it will do you good to read them, and help you to understand the feelings of a well-pleased boy.

TORONTO WORLD'S Proverb Contest

\$5,000 IN PRIZES

Began Oct. 3rd. Last Picture Dec. 16th
NO. 23 PICTURE Represents the Following Proverb:

Name
No. Street
City or Town

DO NOT SEND IN ANSWERS UNTIL AFTER LAST PICTURE IS PUBLISHED.
Pictures need not be sent in with the answers.

What Well-Known English Proverb Does This Picture Represent?

TORONTO WORLD'S PROVERB PICTURE NO. 23

The World's Book of English Proverbs Solves the Pictures Correctly

THE Toronto World's Book of English Proverbs will prove of great assistance to contestants in the Proverb Contest. It contains several thousand commonly used and well-known English Proverbs, including all of the correct ones to be selected to the series of proverb illustrations. The book is well printed and neatly bound, the Proverbs being alphabetically arranged and classified for quick reference. Its use to contestants in arriving at the correct Proverb answers, together with the proper spelling, wording and punctuation, will prove indispensable. The price of the book is Fifty Cents, at the office of The World. By mail, two cents extra.

MAIL ORDERS SHOULD BE ADDRESSED TO THE CONTEST MANAGER THE TORONTO WORLD, TORONTO, CANADA

Entry to Contest May Be Made at Any Time

Have Your Newsdealer Begin to Serve You With a Copy of The Daily and Sunday World Every Day From Now On.

Back numbers of the Proverb Pictures and their Coupon Blanks may be had at the office of The World, or by mail. The price is 1 cent for the Daily and 5 cents for the Sunday. Where back numbers are ordered by mail 1 cent additional for every ten numbers must be remitted for postage. All of the back numbers from October 3rd to date will be mailed prepaid to any address in Canada upon receipt of 37 cents.

POPULARITY IN CONTEST GROWS

Continued From aPage 1.

reading The Daily and Sunday World and solving the proverb pictures as they appear each day.

To enter one only needs to get the back numbers of the proverbs, all of which will be sent to any address in Canada, by return mail, upon receipt of 37 cents, stamps, coin or money order.

After you once have the back numbers, the rest is easy. Send for these back numbers today and then follow up the contest by buying a copy of The Daily and Sunday World every day. A good plan would be to place an order with your newsdealer, instructing him to serve you with a copy of the paper daily.

An opportunity to earn a \$250 automobile, a \$750 piano, a suite of furniture, motorcycle, diamond or one of the many other valuable prizes does not come to one every day. Thus, if you have not taken part in this fascinating competition, you should not hesitate any longer, but secure the back numbers and join the contest at once. The simplicity of the rules makes it extremely easy for everyone to com-

pete. They have been carefully drawn along very broad lines, and cannot fail to meet with the approval of everyone. New contestants entering the contest should read them carefully in order that they may understand fully what is required of them.

CHOLERA MENACES EUROPE.

WASHINGTON, D.C., Oct. 24.—Cholera again is sweeping India, according to a report to the United States public health service. In August, in the Province of Madras alone, there were 10,500 deaths.

Cholera is also said to be prevalent in Asiatic Turkey, and with Turkish troops being hurried into southern Europe, officials here fear the plague may spread thru Europe.

Take Notice, Proverb Contestants

Contestants in The World's Proverb Contest are cautioned not to pay any attention to unscrupulous persons who are advertising and otherwise offering to sell answers to the proverb pictures. These persons have absolutely no connection with The Toronto Daily and Sunday World, and it should be understood that they are merely contestants who are competing for prizes, and at the same time attempting to make a little money on the side.

Just the Thing For That Cozy Corner

Why Not Start Today to Try and Solve the Proverb Pictures Now Appearing, and Get in Line to Win

This \$100 Fumed - Oak Library Suite

THE TORONTO WORLD'S Great Proverb Contest NOW GOING ON!

TO enter the Contest you need only to secure the back proverbs, all of which will be sent to any address in Canada, by return mail, upon receipt of 37 cents, stamps, coin or money order.

Royal Grenadiers
Saturday will be the fiftieth anniversary of the organization of the 10th Royal Grenadiers. The Sunday World is featuring this event. More than a page of pictures of the men who have been identified with the regiment's progress will be shown, and the paper will, we believe, be prized by thousands of members and ex-members in Toronto and elsewhere. To make sure that you will get your copy, order early from your newsdealer.

\$1,000 REWARD

murder. Two men were killed at the same time. Kyoehk was accused and tried, one of the victims being named in the indictment. He was found guilty. New evidence was then found which threw a new light on the matter. Kyoehk was again tried, the other victim being named in the indictment. This time he was found innocent. As both men had been killed at the same time and under the same circumstances, this created an anomalous position. The department of justice has, therefore, granted a retrial on the first indictment on which Kyoehk was found guilty.

For information that will lead to the discovery of whereabouts of the person or persons suffering from Nervous Debility, Fits, Skin Disease, Blood Poison, Genito Urinary Troubles, and Chronic or Special Complaints that cannot be cured at The Ontario Medical Institute, 233-265 Yonge Street, Toronto.

RAIL SERVICE PLEASES GALT

GALT, Oct. 24.—(Special).—New C. P. R. winter timetable announced today to go into effect Sunday, makes Galt a still more important railway centre, with, it is claimed, the best connections of any town of its size in Canada. Six trains daily east and is provided in two local Toronto and Hamilton trains, and also good New York connections. The better service is largely due to the strong and persistent effort of the Galt Board of Trade.

Indian May Yet Escape Gallows

Kyoehk, Acquitted on One Murder Charge, Will Get New Trial on Other.

OTTAWA, Oct. 24.—The justice department has ordered a new trial for Stephen Kyoehk, an Indian under sentence of death at Sarria. Kyoehk was charged with, and found guilty of the murder of two men. On the second trial he was found not guilty. Now, owing to the peculiar circumstances surrounding the case, the minister of justice has ordered another trial. The attorney-general is now arranging for it. Kyoehk was tried on two charges of

Rugby U.C.C. 19 S.A.C. 12 Bicycle Two Teams Drop Back Bowling League Scores

DeGruchy is Hurt, But U.C.C. Wins 19-12—St. Andrew's Line Strong—Sloppy Going.

Yesterday afternoon Upper Canada College defeated St. Andrew's 19-12 at St. Andrew's after a grand game, in which both teams started continuously. A sharp northwest wind prevailed over the field and a drizzling rain provided for the greater part of the game. A fairly large turnout was present and both teams were well supported with cheers and college yell.

WINNIPEG TRIBUTE TO LATE S. RENNE

Winnipeg Free Press: The despatch came a gloom among local curlers, as the late Simpson Renne was well-known to nearly every curler in the west. He was not known personally, his name was familiar to all, as a friend for a few days. He was a notable character at last winter's notable bonspiel at the Curling Club and watch the Scottish curlers perform, and was soon mixed up in the game. For 25 years of curling he had been a part of the open event, which was made up at the last minute from a bunch of stragglers from the east, and for a few days their performance was remarkable, they winning several games. The veteran Renne showed that he had not forgotten the fine points of the game as he skipped with wonderful cleverness and delivered the stones with a lot of force on the ice in his younger days. That was a true sportsman, he had a lot of connection with a little incident which occurred when the Renne rink, playing under the name of the "Winnipeg" rink, in a game at the Union Terminal Rink, the local curlers were defeated by the Winnipeg rink in all the open events and being kept in the game for most of the day happened to be over an hour before the game. When the game finally got started the third man of the visitors picked up 6 ends and called for a stone for his side. This did not appear very favorable to the local curlers and they said so in many words. The curling man said that they intended to take advantage of the rule, until Mr. Renne, being appealed to on the subject, stated that they would certainly not take any such mean advantage of his opponents and would play on even terms. The curling world loses one of its greatest devotees in the late Simpson Renne.

McCracken Gets His. NEW YORK, Oct. 24.—Jack Britton of Chicago outpiled the champion of Boston in a ten-round bout here tonight. While Duffy had the reach on Britton and is a rouser, Britton had the better of him in every round but the fifth. In this round Duffy swung both hands to Britton's head and had the Chicagoan covering up. Jim Savage, John Orange, N.J., heavy-weight, and Bill Keating of North Dakota were scheduled to go six rounds, but referee Young stopped the bout at the end of the first round after Savage had knocked Keating to the floor. The latter arose but was staggered about the ring until the bell, when the referee declared the bout ended. The referee stopped the scheduled six-round exhibition between Tommy Hudson of Windsor, Ont., and Johnny McCracken of Toronto, both bantams. Hudson punched McCracken severely and at the end of the fifth round the Toronto lad was in such bad shape that the bout was stopped.

West End Boys' Handicap. Last night West End held a two mile handicap for boys, which was won by F. McGrath with 30 seconds handicap. H. Dalton, the scratch man, finished fourth. The limit man had 1 minute and 30 seconds handicap. The result: 1. F. McGrath, 29:10.5; 2. G. Osborne, 30:10.5; 3. T. Orr, 31:10.5; 4. H. Dalton, 32:10.5; 5. S. J. Kennedy, 33:10.5. The annual field day of Trinity College, which was postponed on account of last Tuesday's rain, will be held next Tuesday, Oct. 29.

Aunt (to engaged niece)—"So Henry went away yesterday, I hear. Parting is very painful, isn't it?" Niece—"I should think so. Every rib in my body is aching today."

White Horse Whisky 10 YEARS OLD. Universally Recognized as the Best Whisky in the Market.

Varsity Out Again In Sloppy Going

When the Blue and White turned up for practice yesterday afternoon many were the involuntary shivers and visions of icy showers that were uppermost in their minds when they saw the field. In some places the water was four inches deep and somehow or other the drainage system of the field either overworked or not working at all. Gave and Webster did not turn up and others tried to invent excuses U.C.C. away, but Do Wright and Pete Campbell were obdurate and put the boys thru a grueling half-hour, and it was not until the end of the following day when the sun came out very strong today, the field will be pretty sloppy. Also it is pretty hard to see it is nothing in comparison with McGill on Saturday. Stan Clarke showed up better, and so did Pierce. Brock is working hard and with his speed has been sitting up the ball, but seems rather weak in the arms and unable to turn out tacklers, but on a clean field nobody can catch him. Muntz, Dow and Campbell look to be the best on the team, especially Campbell, who looks to be the find of the season as a punter, while Muntz is a very good kicker. The whole team has strengthened up considerably.

Last night Parkdale rested up for their game with Alerts on the holiday morning and things are looking bright for a good game. The Paddlers have gathered together quite a number of Varsity stars, with Bell, Gail, Sifton and Rankin on their line-up, and they certainly will be heard from in good advantage at Rosedale. With Gail and Rankin at the Queen's star, who is rated as one of the best in the city, in a punting duel, it is sure to be a real treat. For Evans will also be a great help on the back line.

The Toronto received a severe blow yesterday when Hal DeGraffenhede, a star kicker half-back, received a smash on the ankle at the Upper Canada-St. Andrew's game. He is expected to be out for a week, and it looks as if he will be out for the season. This may affect their chances of winning the cup, and unless they can secure somebody to fill his place they will be sorely punished for a good kicker.

Ridley and Trinity play their game on Saturday at 12:30 o'clock at the Varsity stadium, where some pretty football will be seen, as both teams are exceptionally strong.

The Capital Junior O.B.F.U. team will leave for Montreal on Saturday afternoon. All friends wishing to take the trip are requested to notify J. L. Richards at his home, 115 St. George Street, before 10 o'clock on Friday evening. Special coaches have been secured for the team and supporters.

All Capital teams practice in Jesse White's gymnasium tonight in preparation for Saturday's game with Toronto, Key Beach A.A., High Park and Riverside.

Ben Simpson was suggested by Ottawa as referee of the Ottawa-Montreal fixture, and Frank Robinson had already undertaken to handle the Varsity-Queens game. Ben, as vice-president of the Four, will have to make the appointments for the Montreal contest.

CITY RUGBY LEAGUE.

The City Rugby League games for Saturday are as follows: Senior-Kew Beach A.A. v. Capitals, Jesse Ketchum Park, 3 p.m.; Intermediate City-Capitals v. High Park, Trinity College, 3 p.m.; Juniors v. North Toronto, Glen Grove, 3 p.m.; Juniors v. Kew Beach A.A., Kew Gardens, p.m.; Junior-Riverdale v. Capitals, Jesse Ketchum Park, 3 p.m.; St. Michael's v. North Toronto, Glen Grove, 2 p.m.

Notice to T. and D. Clubs. Club representatives are requested to meet Secretary G. W. T. & D. Saturday afternoon at 1 o'clock at the Rosedale lacrosse grounds.

Frenchman Starts Jam That Turns the Trick — How They Stand at End of Fourth Day.

The 22nd hour standing was as follows: Cameron and Magin 602 11; Grendis and Pyle 602 11; Hehr and Root 602 11; Wells and Kiffin 602 11; Ryan and Thomson 602 11; Moran and Perchott 602 11; Drobach and Lawrence 602 10; Gardell and Diefenbacher 602 10; Colburn and Lottes 602 9.

THE AUTO RACES ON THE HOLIDAY

Many Entries in Speed Events and Plenty of Fun in Novelty Series. The automobile races and sports at the Exhibition on Thanksgiving Day will create no end of excitement and fun, the novelty events on the program being exceptionally amusing and new to Toronto. The speed contests have many entries and there will be the keenest contention for the prizes. Arrangements have been made to have automobilists park their machines in the infield and owners are requested to be on hand before 2:30, when the big program will commence. Inspector J. L. Hughes and S. H. Armstrong will play the Toronto position and running race, for which there are several hundred entries. The whippet owners, trainers and supporters are expected to be on hand by 2 o'clock and ready to race, as there will be no delays or no waiting for late arrivals. There will be a special street car service to the grounds and a hand concert by the 4th Highlanders' Band will play after the middle of the day. It is sure to be a large crowd in the immense stand.

INDOOR BASEBALL.

There is considerable activity among the indoor baseball fraternity these days, and the prospects for a good season are excellent. This game has taken hold in some of the city clubs, such as Victoria and Granite, and as well among the different corps of the military and naval forces. The club are commencing work for the new season for the Toronto and the 19th Regiment of St. Catherine's. There is every indication that a new feature will be introduced this year in indoor baseball, it being now practically assured that there will be a sergeant-inter-city league, composed of Queen's Own Rifles, Royal Grenadiers and 4th Highlanders of Toronto; 12th Regiment and 1st Highlanders of Hamilton, and the 19th Regiment of St. Catherine's. A schedule is to be announced in the near future.

PROS OPEN HERE CHRISTMAS NIGHT

MONTREAL, Oct. 24.—Arrangements for the coming hockey season are well under way not only with the clubs that will be represented in the National Hockey Association, but also with the five of the National Hockey Association. The opening dates at Toronto and Montreal were made public today, the visit of "Lol" Solman, the manager of the new Arena in Toronto. There will be six clubs playing in the N.H.A. this winter, which will make the schedule a little better one, and from the manner in which the clubs are getting on, it is expected that the quality will show improvement. The opening game will be played at the Arena here on Saturday, Dec. 28. The team yet to be decided on, with the Teanum arena on artificial ice, with the Teanum arena as the home team, the visiting team yet to be decided on. The opening game in Ottawa will likely be about the same date. There will be a meeting on Saturday, when some important matters will be discussed. Many amendments to the playing rules will be taken up and prepared for the annual meeting on Nov. 4 in Montreal. At the annual meeting the schedule for the season and the terms of the various teams will be known. It is likely that some of the eastern clubs will have to give up players to the Toronto teams so they can hold their own in the race.

Attell in a Draw.

BOSTON, Oct. 24.—Abe Attell of San Francisco, former featherweight champion, and Jimmie Walsh of Boston, fought 12 rounds to a draw before the Filistin Athletic Association tonight. Walsh insisted on the time of the rounds being shortened when Attell refused to accept his fighting, frequently getting a lead in the early part of the contest by his lightning, frequently getting Walsh in a corner and beating a rapid tattoo on his stomach. After the seventh round Walsh went the California way, a distance with stiff left punches to the jaw.

Acid-Proof Iron Compo-Hin.

Iron alloys containing a certain percentage of chromium are usually employed in the manufacture of articles which are subjected to the action of acids. These compositions are, however, not absolutely acid-proof. Recently a known German metallurgist, Professor J. A. de la Chaille discovered that by adding molybdenum to an iron composition containing more than 10 per cent. chromium, in amounts of 2.5 per cent, an absolutely acid-proof composition could be obtained. It is essential, however, that the iron be free from carbon, or at least nearly so. A composition containing 35 per cent. iron, 60 per cent. chromium and 5 per cent. molybdenum, it is claimed, remains unaffected by hot aqua regia. This alloy has the tenacity of cast iron and can be worked like the latter. The addition of vanadium may be used instead of molybdenum, but the latter is preferable.

THE Fitrite label assures you of everything desirable in clothes—at a price you are able to pay. Style book free. Price from \$15 to \$25. Marks & Price 380 Yonge Street, Corner of Gerrard.

Arlingtons Spring Surprise in Central League — All the Bowling Scores.

At the Brunswick Bowling Club last night the instant of the bowling game (the Arlingtons) with their limit handicap, took the Queens into camp for straight games. In doing so they hung up the highest games for the season when they put in 261 with their handicap and 285 for the three. All but the leader of the team were over the five hundred mark. M. Samuels was the big noise for the night with 215 in his middle game, which contributed liberally towards his 685. The captain, A. Easton, Cayley led the Queens, who showed many form on the Queen's outfit, putting in his initial string and totaling 645. Following are the scores:

Table with 3 columns: Name, Hdp. T1, Hdp. T2. Includes names like H. Polin, E. Samuel, R. Pickins, M. Samual, C. Adams, Jr., Johnson, Team hdp.

Table with 3 columns: Name, T1, T2. Includes names like St. Mary's League, Colts, Dolen, Smith, Lynch, Bennett, Johnson, Team hdp.

Table with 3 columns: Name, T1, T2. Includes names like On Athenaeum Alley, The Simcoes, League last night, Capt. Eddie Sutherland, J. L. Hughes and S. H. Armstrong.

Table with 3 columns: Name, T1, T2. Includes names like Beaches Hockey League, At a meeting of the Beaches Hockey League, held last night, it was decided to have three sections, the senior, junior and juvenile.

Table with 3 columns: Name, T1, T2. Includes names like Beach Canoe Club General Meeting, The annual general meeting of the Beach Canoe Club will be held on Saturday evening in the club house at 8 o'clock.

JOHN CATTO & SON 55 to 61 King St. E., Toronto

FATALLY CRUSHED IN AN ELEVATOR

Richard Hard died in Hospital From Injuries Received While Installing New Apparatus.

Richard Hard, who boarded on Keele street in Ward 7 and worked for the Standard Plumber Co. of New York, was crushed so badly yesterday afternoon while installing a new elevator for the Robert Simpson Co. that he died in St. Michael's Hospital a few minutes before 7 o'clock.

Constable Hobson, who is on traffic duty at the corner of Yonge and Queen streets, heard of the work, in order to get particulars. Not being acquainted with the Toronto police system, Mr. Will, the foreman, refused to give any information.

Both have had long experience in the north country, the former having been connected with the diocese of Athabaska since 1899 and the latter with Mackenzie River since 1892.

Change amounting to \$65 and the insurance policy and private papers of Jack J. A. Austin were stolen from his drug store, 1482 West Queen street, early yesterday morning.

Shackles Around Necks. "The shackles and the hands of Whitney and Pyne, and it is your fault if they place them round your necks," Trustee Armstrong shouted.

At the outset, when the communication from the Ontario department of education was brought up, Trustee French, who is the spokesman for the French trustees, stated that the regulation was illegal because it was passed just before the house closed at the end of the session.

At the meeting of the board of trustees, which was held at the Ontario hall staff, where he said the sign hung out was "No Catholics Need Apply."

It is clearly an economic advantage to a poor woman who is keeping her family by working doing housework if she can shut up her house during the day while she is away at work and leave her children where they will receive the best of care.

Up till last night the ladies of the English committee have secured \$960 of the \$20,000 needed to out up a splendid new creche on the corner of Leonard avenue and Bellevue place.

Mr. Coderre, while a successful lawyer, is not considered as possessing all the necessary qualifications for the job, and just at present there is no other man in sight.

Mr. Ryding was appointed to the chairmanship of the reception and the chairman of the reception and the chairman of the reception and the chairman of the reception.

THE WEATHER

OBSERVATORY, TORONTO, Oct. 24. (8 p.m.)—The storm has since yesterday been almost stationary near New York and the accompanying rains have spread backward into Ontario and the Middle States.

PRIEST WILL GO PERLEY MAY BE GIVEN WORKS PORTFOLIO

Rev. Father Amorosins Parashakis and Fifty Members of His Congregation, Including Prominent Greek Business Men, Will Leave on Monday to Participate in the War.

Before a number of his fellow Greeks, gathered in the Greek Orthodox Church of Toronto, 170 St. George street, Rev. Father Amorosins Parashakis, priest of the church, announced his intention of leading his Greek army of his congregation back to Europe to take part of their country's struggle against Turkey.

Enthusiasm with the spirit imparted by their priest, that of the best known Greeks of the city announced their intention of going with him.

The Greek Orthodox Church here, which is known as St. George's Greek Church, and is the only Greek church in the city, will hold the last service under Father Parashakis on Sunday.

The influence of the Turkish war is even pervading the juvenile court here. On the chance that the boy may be useful in the Balkan war, the court is sending Theophilus Bracediosky, a husky and athletic boy, to the front.

Commissioner Harris Will Be Given a Free Hand, and Civic Car Lines Will Soon Be in Operation—No Agreement With the Toronto Railway Company.

The city must own its own equipment at all costs is the opinion of the board of control, which is on a recommendation to the council that Commissioner Harris be given a free hand in the matter of purchasing and erecting car barns and the purchase of cars.

The board of control initiated a big campaign for hydro-electric radial railways at the meeting yesterday, when a sub-committee, consisting of Controllers Foster, McQuinn and Church, were appointed to confer with the city and the Municipal Association for the purpose of entering into an agreement with the government-owned railways, as suggested at the recent council meeting.

It is clearly an economic advantage to a poor woman who is keeping her family by working doing housework if she can shut up her house during the day while she is away at work and leave her children where they will receive the best of care.

Up till last night the ladies of the English committee have secured \$960 of the \$20,000 needed to out up a splendid new creche on the corner of Leonard avenue and Bellevue place.

SCHOOL BOARDS CITY MUST OWN EQUIPMENT FOR CARS

Resolution Asking That New Bilingual School Regulations Be Not Enforced in Mean-time Passed by Ottawa Separate School Board—English Trustees Weakened.

OTTAWA, Oct. 24.—(Can. Press.)—After much discussion and a number of objections on the part of some of the English-speaking trustees, the Ottawa separate school board, at a meeting held tonight, passed a resolution asking the Ontario Government not to enforce the new bilingual regulations until the minister of education had received a report on the situation of the school boards at Toronto.

At the outset, when the communication from the Ontario department of education was brought up, Trustee French, who is the spokesman for the French trustees, stated that the regulation was illegal because it was passed just before the house closed at the end of the session.

It is clearly an economic advantage to a poor woman who is keeping her family by working doing housework if she can shut up her house during the day while she is away at work and leave her children where they will receive the best of care.

Up till last night the ladies of the English committee have secured \$960 of the \$20,000 needed to out up a splendid new creche on the corner of Leonard avenue and Bellevue place.

PERLEY MAY BE GIVEN WORKS PORTFOLIO

Rumors of His Permanent Appointment Are Persistent—Coderre May Be Named as Solicitor-General to Prevent Quebec From Becoming Dissatisfied.

OTTAWA, Oct. 24.—(Special.)—With details both from T. Chas. Casgrain and L. T. Marchal that they have been asked to enter the Borden cabinet, there has started a persistent story that Hon. George H. Perley will be asked to take the permanent portfolio of public works.

This, if true, would mean that Quebec would have but two cabinet representatives and that she would lose what is perhaps the greatest patronage and spending department in the government. It is said, however, that a solicitor-general will be appointed, and that this will be given to Mr. Coderre or Hochberg, who was mentioned as being in the running to succeed Mr. Monk.

Mr. Coderre, while a successful lawyer, is not considered as possessing all the necessary qualifications for the job, and just at present there is no other man in sight.

Mr. Ryding was appointed to the chairmanship of the reception and the chairman of the reception and the chairman of the reception.

ALD. GARLAND IN CARLETON

Conservative Convention Chooses Him on First Ballot—Liberals May Not Contest.

OTTAWA, Oct. 24.—(Can. Press.)—Ald. W. A. Garland of Ottawa was the choice of the Liberal Conservative Association of Carleton County which met in convention at Suttville today to appoint a successor to contest the riding by the federal seat made vacant by the death of Edward Kidd, M.P.

It is likely that the nomination will mean an acclamation, as the Liberals have not yet held a convention or signified their intention of placing a candidate in the field.

Ald. Garland was made the choice of the first ballot, the votes standing Garland, 163; R. W. Grant, Hazeldean, 72; A. L. Swan, Eastview, 5, and St. James Grant, Ottawa, 0.

ADD'S BINEY ILLS

THE PR...

MORE ITALIANS COMING TO TORONTO AT PRESENT THAN AT ANY OTHER TIME

Two Thousand Have Arrived Already This Year and All Are in Demand by Contractors and Railways for Construction Work.

The recently closed Turkish-Italian war has upset the labor situation to such an extent in Italy that the migration from that country has reached record proportions...

More than two thousand Italians have already arrived in Ontario this year as compared with nine hundred last year. The reason given by Prof. Sacco for this is the Turkish-Italian war and its demoralizing effect on the industrial life of Italy.

ICE AS AN AID TO BEAUTY

Miss Lloyd, star of "Little Miss Fix-It," does not worry about little things. She only fumes and frets about the big things, and she has to be hard to fix and very big at that.

Now Feels Strong and Vigorous

And Fit for Any Amount of Work as the Result of Using Dr. Chase's Nerve Food.

Mr. J. Hurlbert, 25 James street, Brantford, Ont., writes: "It is so easy to overlook the warning given by headaches, indigestion, falling memory, lack of power to concentrate the mind, irritability and worry over little things, that many a man does not realize his danger until on the verge of breakdown."

High Wages. The reason that Canada, especially Ontario, is getting such a good proportion of the Italian immigration is because of the high wages being paid here in Ontario and on being given employment with contractors...

"It is generally admitted by contractors here that the Italian is the best worker for construction work that can be found and they are therefore greatly in demand."

"The demand for Italians in Toronto and the Province of Ontario is now far ahead of the supply, and although the Italian laborer in this season is more than double that of any other year, I would have no trouble in placing every man who comes here."

USE OF OZONE FOR PURIFYING WATER. Ozone works for the sterilization of drinking water. It has been erected in Wiesbaden, Paderborn, Hermsdorf and Chemnitz, in Germany; Paris, Nice, Chartres and Dinard, in France; Florence, in Italy, and St. Petersburg, in Russia.

A representative of a large European concern manufacturing ozone apparatus claims that the ordinary conditions of the approximate cost of sterilizing water on an extensive scale is about one-half cent per cubic yard.

A "LIVING TOWER" AND HOW IT CAME TO BE BUILT. What is known as the "Living Tower" stands on the summit of a hill more than 300 feet high at Camp Meeker, a summer resort in Sonoma County.

The trees were each about 150 feet high. Fifty feet of each was lopped off, and the work of building the tower was then commenced. From top to bottom the "Living Tower" is 100 feet high. Each floor is about 12 x 12 feet, and rests on strong timbers, the ends of which are securely attached to the four trees by means of steel cables and bolts.

Profits of Duck Farming. A certain variety of duck, called the Indian Runner, will produce more eggs than any other duck. According to a writer in The Country Gentleman, and her product.

THE CARLISLE INDIANS. Powell, full-back, and Welsh, quarter-back. Both will play against Varsity on Monday. The young ducklings grow four times as fast as chickens. Here would seem to be reason for going into duck-farming—if it were not for the widespread prejudice in favor of the hen and her product. ELECTRIC APPARATUS FOR SHOE REPAIRING. When the great shoe factories of this country demonstrated that they could make boots and shoes better, and cheaper than the best hand cobblers, these knights of the swif and last were relegated to the past, or they managed to eke out a meagre living by repairing worn boots and shoes. And now, declares The Electric News Service, comes the electric cobbler, and the days of the hand cobbler and his bench appear to be numbered. The electric cobbler, such as can be found in most large cities, consists of one long machine, which is, in reality, a number of machines connected on the same shaft. This shaft is turned by an electric motor. The electric cobbler fixes a shoe, while you wait. It will sew on a sole, put on a patch, fix the heels or relace a shoe in a very few minutes, as all the work is done by machinery at a high rate of speed. And it is not to be denied that the finished product is fully as good as the best cobbler had spent a half day on the job. If the shoe needs resoling the attendant picks up and places a piece of leather of the right size, and the machine stitches it fast to the upper. At the next machine an emery wheel cut down the edge of the sole and trims it to the right shape. The next machine finishes and polishes the edges. From the stitching machine to the polisher is but a step, and the work is done long before the old-fashioned shoemaker could have the shoe fitted to the last.

How Schools of Fish Guard Against Enemies. The water in the vicinity of the East Indies is said to be so clear that fish can be seen many fathoms below the surface. So many enemies abound to disturb the fish that they have a curious way of protecting themselves. The mullet, for instance, swim in schools of several hundred and one might imagine it was a miniature army, the way they go about it. In front of the main school, writes B. M. Walker, in The Texas Christian Advocate, are scouts, usually not more than a half dozen in number, which seem to be doing nothing but watching out for danger ahead. At each side or flank are similar watchers, while below and above the school is a fully protected, if a sea bird plunges, the moment it strikes the water the scouts above dive into the school and they all scatter to still lower depths. If a dolphin or other larger fish attacks from in front the vanguard retreats and gives warning of the danger. If the danger lurks in the coral beds below one of the under skimmers is sure to see it, and the entire fish army rises to the surface to swim along until the under-fish, tastefully swimming deeper, find that all danger has passed. They come to a bond formed by the coal; but no matter how good it looks like a feeding-ground, the main body of fish does not enter until the scouts ahead, have gone forward and made a thorough investigation, and returned to guide the army into the feeding-ground. A guard is always left picketed at the entrance to warn of any impending danger. The guards at all points seem to have a certain length of time on duty, for at regular intervals they are relieved and new fish take their places while they eat. Never does the number of fish change; it is always the same while the fish remain at a certain place.

INSTRUCTION IN THE ART OF SHOPPING. "I am not buying today. I am only teaching my daughters to shop" was the remark made by a fashionably-dressed woman to a weary store clerk who had been displaying wares for over an hour. The clerk in question lost her temper and was reported to the manager who intimated to the "shopping teacher" that the store wasn't run as a girls' school. REVIVAL OF ARCHERY. Archery is showing signs of revival as a sport. The National Archery Association at its tournament a few weeks ago in Boston had the largest attendance it has had for many years. Several American archers are said to hold records that have not for 50 years been equaled in England, the original home of the sport. WHERE, PRITHEE, IS KANO? At Kano a man, his wife and two children can feed themselves well on one and one-half pence per diem.

DR. A. W. CHASE'S CATARRH POWDER 25c. It is sent direct to the diseased parts by the Ejector. It cleans the air passages, stops drainage in the throat and permanently cures Catarrh and Hay Fever. 25c a box blower free. Accept no substitutes. All-Drug-Edmonton, Bate & Co., Limited, Toronto.

TORONTO TEACHERS SAY PRESENT CURRICULUM NEEDS REVOLUTIONIZING

Grammar Should Be Taught Only to Outgoing Classes—Writing, Reading and Arithmetic Treated as Incidental to Other Subjects—More Attention to Commercial Studies—Dr. Noble on Sending "Infants" to School.

That the present public school curriculum is antiquated and needs revolutionizing was the keynote of a score of more addresses delivered by prominent educators before the grade meetings of the Toronto Teachers' Association, which opened its annual convention in the city yesterday. The teachers of the different grades met separately in a number of the principal schools to discuss the problems faced by each at the class-rooms. Today general sessions will be held in Convocation Hall. In the morning the consideration of requests will be taken up and officers elected for the ensuing year. At the afternoon session addresses will be delivered by Dr. Fred Comby, chairman of the board of education, and J. B. Reynolds, M.A.

The dominant issue at the various grade meetings held yesterday was the question of improving the present curriculum with a view to giving the pupils more substantial knowledge, and a better training for the practical things of life.

Miss Gertrude Lawler, M.A., emphasized the need of more thorough drilling in commercial studies.

"The time is coming when the public schools of Toronto will teach all that is necessary to be taught in writing, reading and arithmetic, in bookkeeping, geography and history," said Miss Lawler, "provided we teach in the schools only the facts and not the philosophies. These subjects will not then be taught in the high schools, but they will give way to more important tasks. Much of the time of the pupils in the high schools is being frittered away on these subjects. It would be startling if the order were to be issued that no more direct arithmetic would be taught, yet there is a rumor that the teaching of grammar is to commence in the third grade classes. I would go further than that. I say that formal grammar should only be taught in the outgoing classes; pupils learn more from the literature put before them, by the inductive process, than by formal grammar lessons."

A new system of spelling, outlined by E. S. Mott of McCauley school was subjected to some severe criticism. He urged the necessity of presenting the word to the mind of the child thru the ear and eye and testing by writing. He would limit the number of words taught to the capacity of the class, taking a number so low that the pupils would make no mistakes. Mr. Mott said he had found from experience in his commercial classes that the number should be limited to about 15 a day. In his present class he had as low as eight words a day and was now trying to raise the number to ten.

Principal Mott's proposal was criticized on the ground that it was gaining the work of the class by the capacity of the duller pupil rather than by that of the average. What would be heavy for the weakest scholar would not be stimulating others to their maximum capacity. Those who attain anything worth while, it was contended, always made mistakes.

Spelling System.
In the Ryerson school Inspector E. W. Bruce addressed the commercial grade on "What Geography is Best Worth Knowing." While not deprecating

the geography that dealt with names and places, Mr. Bruce made a plea for what he called physiography, the study of physical conditions, more particularly as they affect the relationship of the different nations.

Physical conditions determine population and industry. So extensive are the differences in the relationship of climate are enemies to productivity. Mr. Bruce showed the influence of mountains on a child human race. Nice, Cannes, Mentone and the famous Riviera, winter resorts in the south of France, are in the same latitude as the direction of trade routes, and of industrial minerals. These are the facts in connection with geography that have a practical or economic bearing upon civilization, and this side of the subject, the speaker maintained, is the valuable part of geography for the pupil.

Only a few years ago, little or no attention was paid to the dependence of commercial and political geography upon the facts of the physical. Now there must be taught the tremendous influences, which environment has upon the character, occupation and civilization of the individual, the tribe, and the race. Mr. Bruce made clear the necessity for stability of government and investments in an essential in commercial greatness. There must be ready supplies of raw material for manufacturing cheap markets to get goods before customers. By way of illustration, the varying industries of Great Britain were treated at length. A most interesting and spirited discussion followed.

School Age.
Dr. John Noble of the board of education introduced an important discussion at Ryerson School on the age at which a child should be admitted to school. His statement that the government should enact a law preventing the admission of a child under seven years of age, was greeted with applause by the teachers, among whom this argument is popular. Dr. Noble said he had been endeavoring to persuade the government to take this action and he had also been urging upon the board of education that all primary classes should be put on an age basis. "Brutes have instinct," said he, "and infants have instinct until the brain ceases to exist. The period of instinct extends even beyond the first seven years of age."

"The most valuable thing in the world today is brains. Any system of education that decreases happiness is a curse to the country. Health is the first essential to happiness, and children should not be shut up in herds in school rooms for several hours every day. They should be kept as active as possible until they have a good start at growing."

Habit in Pupils.
Inspector W. H. Elliott, B.A., gave an interesting talk on "Habit." He dwelt on the importance of habit to the individual in the school and in the state, and its relation to teachers of the young.

An instructive address was also delivered by H. R. Frost, barrister, on "Same Law, Everybody Should Know." He showed the importance of the ability of lessening the amount of litigation by educating the scholars in the schools on what is correct in bills of exchange, promissory notes, etc.

The election of officers for the senior fourth grade for the coming year resulted as follows: Principal, H. S. Mott, president; Miss Mable, secretary; Principals Macintosh, Spears and Blaney, executive.

THANKSGIVING REUNIONS.
About Thanksgiving time the fancies of young and old turn joyfully to the venerable roe tree that is honored by a suit of new fall clothing of the style and quality that can be obtained from D. Morrison, 218 West Queen street, the home of the largest credit store of its kind in Canada. Today and tomorrow he is affording special opportunities for men and women, and there is yet plenty of time to fit out properly for the national holiday. Mr. Morrison's store is open again and yet again, and his plan of small weekly payments has been one of the striking successes of the century. His large and well-selected stock can meet all tastes and requirements.

SLID DOWN ROPES.
Alex. Murray injured in New Hospital Building.
In trying to slide down the ropes of a hoist in the new General Hospital from the fourth floor to the basement, Alex. Murray, 462 College street, was painfully injured at 2 o'clock yesterday afternoon. Murray, who is 22 years of age, is employed by the Canadian Plate Glass Co., and at the time of the accident was working in the new hospital building. Early in the afternoon he had occasion to go to the basement and in order to save time he decided to slide down the ropes of the hoist, the platform of which was resting on the basement, four floors below. Murray succeeded in getting hold of the ropes with his hands, but was unable to get his feet around them. For two floors he clung desperately to the ropes, and to this fact he owes his life, as his hands were dreadfully burned.

When picked up from the floor of the hoist the young man was quite conscious, but an ambulance was called immediately and he was taken to the General Hospital, where he was examined. His left leg was badly bruised, but no bones were found to be broken. Later in the afternoon he was taken home.

Old Dutch Cleanser
—is a pure, hygienic, cleanser entirely free from acids, caustics and alkali. Avoid dangerous chemical cleansers—Old Dutch is a mechanical cleanser. Its fine particles quickly loosen and remove all grease and burn without leaving a scum on the surface. Use it on the floors, wood-work and metal work all over the house.

THANK GOD FOR HONEST JUDGES

So Said Father Conway When Inspector Archibald Failed to Have Him Charged With Perjury.

Because he disputed the evidence of a constable in a motor car speed case, Inspector Archibald demanded in the police court yesterday afternoon that Rev. Father Conway, one of the Paulist Fathers, now conducting a mission in St. Peter's Roman Catholic Church, be arrested on a charge of perjury. Father Conway had attended a university lecture and was crossing the railway track at Sunnyside going to Mimico in a motor car when he was halted by Constable May for speeding over the crossing. Master Judge Kennedy refused to arrest the chief inspector's request on the ground that it was only the constable's word against the priest's "Thank God, Hamilton judges on the Canadian bench if we haven't on the police force," exclaimed the priest as he left the court.

Injury to Prince Leads to Suicide Of Admiral Chagin

ST. PETERSBURG, Oct. 24.—(Can. Press.)—Current rumors attribute Rear Admiral Chagin's suicide to remorse over the illness of Crown Prince Alexis, which is reported to have been the result of an accident while the prince was aboard the Standart, the emperor's yacht which the admiral commanded. It is said that the crown prince injured himself while imitating sailors diving, although it is positively affirmed that he slipped and fell in his bath.

Admiral Chagin killed himself with a rifle. He spent the previous night in writing letters to relatives. He left a note on the table saying, "I ask that no one should be accused of my death."

He was a great favorite with the royal family. He left the Russian naval detachment at the relief of Pekin and commanded the cruiser Almaz at the battle of Tsushima.

May Operate on Crown Prince.
WARSAW, Oct. 24.—(Can. Press.)—Dr. Raum, a noted surgeon, has been summoned to the palace for consultation over the condition of Crown Prince Alexis. The crown prince is suffering from an injury to the groin and an abscess has formed which will probably necessitate an operation.

Foreigner Arrested at Marmora is Wanted in Toronto.
At the instigation of the Toronto police department, John Hendrickson, a Finlander, was arrested in Marmora yesterday afternoon by Burns, a town's chief constable. He was charged with Hendrickson's arrest, Inspector Kennedy sent an officer to bring him back to Toronto, where he will be charged with obtaining by fraud a quantity of clothing, gloves, shirts and boots from Benjamin Axler, 828 Lansdowne avenue, in September of this year.

Railways of the World.
An estimate of the length of railways in the world has been made by the German bureau of railway economics. According to this there are 528,511 miles of railway in the world, of these being in America, 206,987 in Europe, 68,388 in Asia, 23,850 in Africa, and 19,229 in Australasia.

PLANT RUN BY WIND.
What is probably the smallest farm lighting plant in the country has been installed on the farm of a dairyman near Powmette, Wis. This tiny plant supplies current for 24 lamps and is operated entirely by the farm windmill, at a total of a few cents a year for labor.

HOMELESS WOMAN IS SENT TO JAIL.
ST. CATHARINES, Oct. 24.—(Special.)—Mrs. Catherine Bowen, a colored woman, over 70 years of age, who was discharged from the county industrial Home on Tuesday, was found under a verandah on a Grutham Township farm on Wednesday, where she was trying to escape the fall rain-storm. The home officials state that they notified the proper authorities in St. Catharines that the woman was to be discharged, but the civic officials say no notice was received.

GOES TO THE CENTRAL.
Morris Zesor, a man in the "hot wire" business, was sentenced to three months in the Central Prison for his practice of receiving stamps from office boys. Stamps amounting to the value of \$60 were traced to Zesor by the police and two of the boys have been sent to Mimico.

STUDENT WAS FINED.
Colin C. Grant, the Varsity sophomore who was arrested on Wednesday night during his fracas between the students and the police, was fined \$1 and costs by Magistrate Ellis yesterday afternoon. As a result of the encounter between the police and the students it is rumored that no more parades along the streets of the city will be allowed to take place.

DR. MACKELLAR TO SPEAK.
Dr. Margaret MacKellar will give the address at the annual meeting of the Canadian Auxiliary of the Women's Christian Medical College, Luthiana, on Saturday afternoon next in the Y. W. C. A. Hall, McGill street, at 3 o'clock. Dr. MacKellar knows India and its needs and all interested are invited to her.

MRS. MARTIN IS DEAD.
As the result of drinking some intoxicant which was intended for a friend, Mrs. Martin, formerly of St. Mary's, died in the Western Infirmary yesterday. Mrs. Martin was seeking work in the city and roomed at 1195 West Bloor street.

Exclusive patronage. Three sessions of the foot and mouth disease virus of the foot and mouth disease would pass thru the finest porcelain filter, and a recent summary by Dr. S. B. Wolbach of the Harvard Medical School, shows that 39 diseases—including many of the most important in man and animals—are now known to be due to micro-organisms too small to be intercepted by filters that retain bacteria. These organisms constitute the so-called "filterable viruses." The diseases include yellow fever, mumps, contagious disease, typhus fever, measles and scarlet fever, as those peculiar to man; and diphtheria, and chicken cholera, in the case of animals. The others—smallpox, typhoid, and cholera—are not so easily filtered. The organisms are now known to be due to micro-organisms too small to be intercepted by filters that retain bacteria. These organisms constitute the so-called "filterable viruses." The diseases include yellow fever, mumps, contagious disease, typhus fever, measles and scarlet fever, as those peculiar to man; and diphtheria, and chicken cholera, in the case of animals. REAL ESTATE NEWS

Surveyors Are Working at King-Simcoe

For over a week surveyors have been working on King west from Simcoe street to John. They are half a dozen or more of them, and they seem to be taking very careful records, and are doing considerable checking. They are railway men. It may be that they are going over the government house site, on which a few men are working, and the neighboring property, with a view to getting locations for the new station there.

REAL ESTATE IS SAFER IN EAST

Such is Opinion of Galt Man After Investigation of Western Conditions.

Winnipeg, Oct. 24.—(Special).—Dr. F. G. Hughes returned today from a trip thru Manitoba and after a careful enquiry into real estate conditions, he expresses the conviction that real estate investments in Galt and rapidly growing Ontario cities like Toronto, offer a safer and better return than

much of the land for residential or business purposes on the western market today. "Take Winnipeg, for instance," said Dr. Hughes. "Of course, much of the inside property is good, but people are buying land 5-1/2 and 6 miles from the city at \$100 a foot. Even if present growth of the city continues, these investors are discounting five or six years of future, and in the back band of years of depression, would mean that their money would yield little, if any, return for a long time.

SELLING AGENTS REMAIN IN CASE

W. Harris & Co. Also Fall to Have Attorney-General Added to Plaintiff in Proceedings.

W. Harris & Co., against whom an injunction is being asked by Robins, Limited; Tanner & Gates, and W. N. McEachern & Sons, alleging that their Danforth avenue glue factory is a nuisance, failed yesterday before the master in chambers to have Tanner & Gates and Robins, Limited, struck out as party plaintiffs on the ground that they were merely selling agents, not owners. This reason was regarded as insufficient, because their injuries are just the same.

The Harris Co. also failed in their endeavors to have Attorney-General Fox added as a plaintiff, on the ground that the party plaintiffs declare the nuisance is general. The plaintiffs had particularized themselves. The decision re the attorney-general will be appealed by Harris & Co. The plant owners succeeded in having struck from the plaintiffs' statement a clause alleging the company maintained the nuisance, to allow them to acquire property in the vicinity. An appeal from Justice Riddell's order for a speedy trial will be argued on Oct. 29.

Fined Men Not Knowing Law Says Magistrate McMicken

Should Be Given Credit in That he Did not Dismiss Charges as Was Previously Invariable Practice, His Contention—Cases Go to the Courts Today.

Winnipeg, Oct. 24.—(Can. Press).—Two cases in connection with the recent Macdonald by-election will be tried tomorrow in the courts. Before the court of appeal, the infamants in the St. James' persecution cases, in which Magistrate McMicken imposed fines but not imprisonment, will place the magistrate on trial for malfeasance. The other case is a police court charge by Magistrate McMicken against W. H. Truman and E. J. McMurray for theft and assault respectively in connection with the mix up in Saturday in that court.

Magistrate McMicken, defending his action, says that he thought he had dealt very fairly with the Liberals. The only men he had fined were Conservatives, and he was not aware at the time that imprisonment was compulsory under the Dominion Election Act. Besides, he thinks he should get credit for the time that he was in court. He is not merely dismissed, as had been the invariable previous practice in Manitoba.

LAY RAILS SOON

Work on C.P.R. Toronto-Ottawa Line Being Rushed to Completion.

An official of the Canadian Northern Railway informed The World yesterday that an immediate start is to be made on the laying of steel rails between Chaffey's Locks and Smith's Falls on the C. N. R. Toronto-Ottawa line. The construction is to be from Chaffey's Locks easterly and will be proceeded with without delay, it being the intention of the C. N. R. to push to completion the line between Chaffey's Locks and Smith's Falls before the frost sets in.

G. W. STOKES PROMOTED

General Yardmaster Becomes Superintendent of Terminals.

Geo. W. Stokes, general yardmaster of the Toronto terminals for the Grand Trunk Railway, has been promoted to the position of superintendent of Toronto terminals. In this position he succeeds W. H. Farrell, who recently left to take up a similar position at Montreal.

CHADWICK & ROGERS 310 LUMSDEN BUILDING Main 1380 and 1631

MOTOR LEAGUE SECRETARY

W. G. Robertson Succeeds Main Johnson November 1.

W. G. Robertson of The Toronto Star staff has been appointed secretary of the Ontario Motor League as the successor of Main Johnson, who has recently taken the position of secretary to N. W. Rowell, K.C. Mr. Robertson assumes his new duties Nov. 1. He is a newspaper man, and before joining the Star, gained his experience as editor of "Varsity," and later in Edmonton.

Much important work lies before the Ontario Motor League. Efforts will be continued to secure fairer methods of prosecution in speeding cases, and a special effort will be made to get reciprocity in automobile licenses," said Mr. Johnson to The World yesterday.

DR. STRASSEMANN SICK. Lecture Postponed Till Saturday Evening.

Owing to indisposition, the German lecture to be given by Dr. Strassemann, Architect and German Imperial Parliament, in the club house of Des Deutschen Vereins last night at 8 o'clock Saturday evening. The German population of Toronto are sorry for the eminent German politician's illness, and trust that he will be in good shape for next Saturday evening, as they are anxious to once again hear a political address in their native tongue.

SIR WILLIAM GOES TO EDMONTON. WINNIPEG, Oct. 24.—(Can. Press).—Sir William Mackenzie, accompanied by Chief Commissioner of the C. N. R., arrived here this morning and left at noon for Edmonton. Sir William declined to say what the object of his visit was, and it is rumored that he is on a confidential mission to the officials of the G. T. R. in St. Paul regarding the strategic position of the C. N. R. in Minnesota and the middle west.

TEACHERS' TRAINING. The interdenominational teachers' training class will open its season's work at Victoria College on Thursday evening, Oct. 31. Prof. J. F. McLaughlin and Prof. H. J. T. Coleman will each give a course of lectures to the class.

CURIOUS VOLCANIC LAKES IN KOREA. Roy Chapman Andrews, assistant curator of the Department of Mammals of the American Museum, arrived in New York City the other day after his tour around the world, with a number of rare specimens for a museum, and the story of the discovery of three singular little lakes in Korea. The native folkore mentioned the "Three Big Rivers," the Samche-ung, as the natives called them. Mr. Andrews took six natives and went in search of them. They passed thru forests that for days the party could not see the sun. The explorer found the lakes on the top of a plateau. Their shores were of volcanic dust and their clear waters did not have any fish. Then the young explorer turned back into the watershed of the Yalu River.

CATTLE MARKET

Good Cattle Steady—Common From 25c to 50c Lower—Hogs Firm at \$8.80 to \$8.90.

Receipts of live stock at the Union Yards for Thursday were 55 cars, 700 cattle, 1,200 sheep, 21 sheep and lambs, and 50 calves.

The total receipts for the week thus far were 387 cars, 615 cattle, 1,078 hogs, 1,200 sheep and lambs, 21 sheep and lambs, and 50 calves.

There were few good to choice cattle on sale, but a record run of medium, common and inferior light eastern cattle which were hard to sell at almost any price, and many of which were still up for sale at the close of the market.

Not only was the quality of the cattle bad, but the weathering quality of the stock was the poorest in the market for some time.

Who could appreciate how bad the market was for the light common cattle, this week, but those who had them to sell, how much was depending upon the seller, for there were many and various opinions about the extent of the decline.

Who could appreciate how bad the market was for the light common cattle, this week, but those who had them to sell, how much was depending upon the seller, for there were many and various opinions about the extent of the decline.

Who could appreciate how bad the market was for the light common cattle, this week, but those who had them to sell, how much was depending upon the seller, for there were many and various opinions about the extent of the decline.

steers, \$4.75 to \$5.00; milkers and springers \$4.00 to \$5.00; calves, at \$4 to \$5.00; sheep, \$2.25 to \$4.25; lambs, \$4.10 to \$4.25; hogs, \$8.50 fed and watered.

George Rowntree bought for the Harris Abattoir Co. 200 lambs, at \$3 to \$3.50; 200 sheep, at \$4 to \$4.50; good to choice veal calves, at \$3.50 to \$4; 50 common calves, at \$2.50 to \$3.

The Swift Canadian Company bought 225 cattle as follows: Steers, at \$5.50 to \$6.00; milkers, at \$6.00 to \$6.50; medium cows, \$4.50 to \$5.00; canners and cutters, \$2.50 to \$3.00; 200 lambs, at \$3.50 to \$4.00; 200 sheep, at \$4.50 to \$5.00.

Alexander Levack bought for Gunn's, Limited, 110 cattle as follows: Butchers, \$5.50 to \$6.00; milkers, at \$6.00 to \$6.50; medium cows, \$4.50 to \$5.00; canners and cutters, \$2.50 to \$3.00; 200 lambs, at \$3.50 to \$4.00; 200 sheep, at \$4.50 to \$5.00.

Charles McCurdy bought 1 load of cattle, 200 to 250 lbs., at \$5.00. Fred Armstrong bought 75 milkers and springers at the Union Yards this week at \$5.00 to \$5.50.

There was a good active trade, reported at this market for all stock offered. The demand is still on the quiet side. The market is still on the quiet side.

Mining Stocks Gradually Working Back Into Public Favor

TENSION IN WHEAT PIT WAS MUCH LESSENER

Heavy Selling in Chicago Market Carried Prices Down—Reaction Due to Lower Cables Reflecting Easier Feeling Regarding War Scare

CHICAGO, Oct. 24.—Heavy selling of wheat today resulted mainly from lower cables, the effect of less tension concerning the influence of the Turkish war. Closing prices were easy, 1/2 to 3/4 to 1/2 under last night. Corn showed a net decline of 1/4 to 3/8, and oats a loss of 1/4 to 3/8. Provisions closed 1/2 down to 5/8 up.

Weakness in wheat prevailed from the start. Export demand had ceased and the foreign financial tone was reported improved. Alleged Turkish victories counted somewhat in favor of the bears. In addition, there were a number of a flattering outlook for the Argentine crop. Prices suffered also because of the lack of support from shorts, who had been forced to cover on yesterday's advance.

Chances of a rally in wheat received a check thru signs that much of the British stock would be brought to Chicago by boat. Several cargoes were reported to have been already sold. Moreover, prospects pointed to continued big primary receipts. Fine weather brought about an easy feeling in corn. Wheat weakness formed another aid for the bear side. Cash grades were steady.

Disappointing cables took the edge off the oats market. Unloading on the part of longers carried down provisions. The only exception was for October ribs, which would up at an increased cost of 5 cents.

Northwestern Receipts. Receipts of wheat at northwest points, with usual comparisons, follow: Week Year. Chicago 2,400,000 1,910,000. Minneapolis 1,000,000 1,600,000. Duluth 1,000,000 1,600,000.

European Markets. The Liverpool market closed 1/4 to 1/2 lower on wheat, 1/4 to 1/2 lower on corn. Antwerp wheat closed 1/4 higher. Buenos Aires wheat closed 1/4 higher. Berlin wheat closed 1/4 higher.

Primarys. Wheat—2,400,000 1,910,000. Shipments—1,000,000 1,600,000. Corn—2,400,000 1,910,000. Shipments—1,000,000 1,600,000.

Argentine Estimates. Argentine estimates shipments this week: Wheat 2,400,000, corn 1,000,000. The new wheat crop is making good progress and shows a good healthy plant.

LIVERPOOL GRAIN EXCHANGE. LIVERPOOL, Oct. 24.—The market opened steady with prices unchanged to 1/2 higher, partially reflecting the advance in America yesterday and the easier opening of cables this morning.

MINING MARKET DULL BUT REMARKABLY FIRM

Overcoats for Fall and Winter

The man of fastidious taste will find here styles and materials that will satisfy his most exacting requirements—outer-apparel that is distinguished by good taste and refinement, but not necessarily expensive.

Comparison will prove that our overcoats at \$22.50 to \$45.00 offer more real worth than any similar garments in Toronto—because they possess more individuality of style, finer materials and better workmanship than are found elsewhere.

Brodericks LIMITED TORONTO CANADA

MONTREAL PRODUCE. MONTREAL, Oct. 24.—The demand from foreign buyers for Manitoba spring wheat was fair, but cables were easier.

Will Hollinger Give Xmas Box This Year? An interesting report to the effect that Hollinger shareholders will receive a Christmas gift in the shape of a new stock issue from the company was current on the street yesterday.

BAILEY COBALT PLANS TO REDUCE CAPITAL. A report has been going the rounds lately to the effect that the Bailey Cobalt Co. is planning to reduce its capital.

CANADIAN BREWERY ISSUE IN LONDON. LONDON, Oct. 24.—The Pabst & Co. Bank in London has announced that it will issue a 20-year first mortgage gold bond of \$5,000,000.

THE STORE SERVICE

Fifteen (15) Standard Plunger Passenger Elevators

(And More to Follow)

WE ANNOUNCE THE COMPLETION of fifteen Standard Plunger Passenger Elevators, situated as follows:

Seven on the Queen St. Side Four on the Yonge St. Side Four on the Richmond St. Side

These give a perfect elevator service—the best that money can procure—speedy, steady and absolutely safe. Our plan is to make every floor as accessible and convenient for customers as the ground floor. When you ride on one of these elevators the sensation is that a portion of the floor has moved up with you. Fifteen now complete and more to follow.

The steady growth of this business during these last years of construction and rebuilding has been a marvel to everybody. No sooner was any part of the new store ready than business overflowed it. We have been doing business under difficulties. Some of them manifest to everyone; many of them evident to the staff only, who have worked loyally at great inconvenience.

We take this opportunity of thanking our customers for their patience and forbearance in the past. It has been our growing time—physically—and the oldest of us has not forgotten the inconvenience and annoyance of our "growing pains." Stores have "growing pains."

But having come to the full stature of a store we put away these things and undertake to give

FIRST-CLASS SERVICE

courteous and prompt attention, speedy delivery, ready adjustment of differences, and all that pertains to a well organized, fully equipped establishment.

Instead of having our energies crippled for want of space, we now have store premises which facilitate the service and enable us to give undivided attention to its improvement. You've seen us grow bigger, now watch us grow better.

The new location of Exchange Office, Transfer Office and Adjustment Office--Centre of Main Floor

Our Strongest Line-up for Men

The demands of Thanksgiving Day--its parties, its dinners and its varied outing attractions--must impress upon you the necessity of being well dressed. You cannot enjoy the holiday as you should with an old Overcoat or Suit. They must be new, and they must be right.

Simpson's Men's Suits and Overcoats, for Fall and Winter wear, are the best productions of this continent. There are a large variety of modes to meet every requirement of slender, medium and stout figures. You will find exactly the right model for your figure, and ready to put on. They are high-grade garments, in materials, in workmanship, in style and in finish--yet at most moderate prices.

MEN'S TWEED SUITS.

Excellent Medium-Priced English Tweed Suit, brown, with diagonal weave, and also in rough surface tweed; cut single-breasted three-button style; correct in every detail. Price 12.50

MEN'S FALL AND WINTER OVERCOATS.

The Price for the Young Man's Overcoat is \$15.00 --It has all a young man's snap and dash of style carefully tailored into it. The material is a two-tone brown English tweed overcoating, in a diagonal weave. This Chesterfield is lined with good mohair, and has velvet collar; also a beautiful fawn diagonal, with plain back, in a smart Chesterfield style, with self collar, patch pockets, double-stitched edges. Wonderful value 15.00

The Warm Overcoat Without Excessive Weight is made from chinchilla cloth, in plain gray; the cloth so much worn by good dressers. A Chesterfield coat with class and distinction 22.00

BOYS' BANNOCKBURN TWO-PIECE SUITS.

Smartly-Tailored Double-Breasted Two-Piece Suits, made from genuine Bannockburn Scotch tweed, in brown or dark gray shades, lined with mohair. Sizes 27 to 33 7.50

BOYS' ETON BLOUSE SUITS.

Made From a Winter Weight Brown Tweed, in double-breasted "Eton collar" styles, silk bow tie and white linen collar; full cut bloomers and first-class making. Sizes 23 to 27 3.50

BOYS' ROUGH TWEED PRUSSIAN OVERCOATS.

Very stylish double-breasted, cut with close-fitting collar and adjustable belt on back; gray herringbone tweed, with satin-finished linings; 3 to 7 years. 4.50

BOYS' ULSTER OVERCOATS.

Up-to-Date Double-Breasted Ulster Overcoats, made from gray diagonal English tweed, wide convertible collar and full skirt:

Sizes 29 and 30 8.00
Sizes 31 to 35 8.50

Extra Values in Furnishings
