TWENTY-SEVENTH YEAR

ASK FIVE YEAR FRANCHISE MAY BURN POWER CAMPAIGN

Galt Town Council Will Meet Tuesday to Renew Old Contract.

Galt is face to face with a problem. Spiers and McCullough have been lighting the town without a contract and now ask for a five year franchise.

The price for all night service to be \$25 with bonus of \$500.

But the point is, acceptance may interfere with the cheap power campaign in western Ontario.

Galt June 23.—(Special.)—A meeting of the five and light committee tonight a resolution was passed that the council be recommended to sign an agreement with the Niagara Power Company for an all-night service on a month long schedule at \$25. The present rate is \$21 per lamp midnight service.

The new agreement would bring the cost per lamp to \$25. The contract with the local company expired several weeks ago, and at the last council meeting a letter was read from the company to the effect that the new contract must be drawn up immediately.

The letter was interpreted as a demand for a new contract or discontinuance of the service. The resolution will be submitted at the next meeting of council.

The council of the board of trade met this afternoon to consider suitable entertainment for the delegates to the power convention of the whole collection of delegates will be present from all parts of Western Ontario.

MONUMENTS.—Galt, June 23.—(Staff Special.)—On Tuesday night next the Town of Galt will decide to accept or to refuse all night electric lighting contract which will tie its hands for five years.

Spiers and McCullough, a local firm, have had the contract for lighting the town for five years, but the contract expired last April, and the city has declined hitherto to enter into another bargain.

Spiers and McCullough, who are confident of their ability to supply the town with electric light, are now making every effort to secure a new contract. The town council has also refused to enter into a contract and is still getting its light from former contractors.

It is further urged that the Council Act compel the Town of Galt to enter into a five-year contract with the dispensers of electric light, an argument that will appeal only to those who are familiar with the town.

Waterloo has also refused to enter into a contract and is still getting its light from former contractors.

Commonwealth Sustains The Marine Department Minister Brodeur Savagely Attacks Critics

All Day Debate In House On Outfitting Expedition to Far North—Mr. Borden Says Statement of Minister of Marine is a "Deliberate Falsehood."

Ottawa, June 28.—(Special.)—The vote upon Mr. Northrup's amendment to adopt the minority report on the A.A. Arctic expedition resulted, yesterday, 38, says 32. The majority report was carried by the same vote reversed.

Except for the Brodeur-Borden incident, the debate on the Arctic, for long hours, has attracted but slight attention.

Mr. Northrup read an affidavit from Mr. Van Veeter of Toronto stating that the Williams Davies company would furnish pemican at 35 cents per pound for which 1.25 per cent was paid by the government.

Mr. Brodeur (Saskatchewan) complained that this witness was called to testify. He had no respect for expert testimony.

Mr. Brodeur devoted his defense to savage personalities directed against R. L. Borden and Geo. E. Foster. Mr. Foster had sent the Neptune to the north and had stocked it with wines and liquors.

Mr. Brodeur had spoken as fit to be a minister of the crown. The debate was begun in the morning and lasted all day.

Dr. Stockton of St. John, N.B., opened the discussion. He said: The report was a whitewash; the opposition had been getting sample prices of the supplies put on board the vessel and from sending to Sorel to secure accurate information.

Dr. Stockton laid stress on the scene of the last day when the Conservative members proffered an expert witness to testify as to the price of pemican. That expert would have shown that the government had paid more than three times the price.

Mr. Brodeur explained that he was only quoting from Mr. McPherson (Vancouver), but that gentleman emphatically denied that he was the author. It was finally attributed to Mr. Smith (Nahaimo), who was not present to deny it.

Later on Hansard was produced and the term "condonation of murder" was traced to Mr. MacPherson and Mr. Smith.

Mr. Brodeur claimed that Mr. Foster had issued a circular appealing for funds to carry on a "scandalous session." In that circular he had explained that the "school question" was a failure and that it would be good politics to investigate the government.

No Coward. R. L. Borden touched upon Mr. Brodeur's attack upon the government. He was not a coward. His successor was cowardly in hiding behind his memory. It was contemptible.

Mr. Brodeur's attack upon the government was a deliberate falsehood. He had no respect for expert testimony.

SUNDAY CARS IN WINNIPEG.

Ratepayers Favor Proposition as Well as Municipal Power Plant.

Winnipeg, June 28.—Ratepayers voted two to one to-day in favor of allowing the Street Railway Company to inaugurate a Sunday car service. Although the city's population is over 100,000, no Sunday cars have ever run.

The bylaw to spend three and a quarter millions on a municipal power plant carried by three to one. The city will bring power from the Winnipeg River, fifteen miles east of the city. The establishment of a board of control was also favored.

TEMPORARY APPOINTMENTS TO HIGH SCHOOL STAFFS

Mr. Haggarty Succeeds Mr. Spotton as Principal of Harbord Collegiate.

In a discussion among the school management committee yesterday as to a would be a good thing, but said the memorial to Alex. Muir, Trustee Kent thought a brass tablet in the school really fitting memorial would be a statue on the lawn in front of the city hall. Trustee Kent's argument found strong support.

Principal H. L. Spotton's resignation was accepted, to take effect Sept. 1, and E. W. Haggarty, M.A., was nominated to succeed him as principal of Harbord-street Collegiate. Then it was suggested that no permanent appointment should be made until a long-talked-of readjustment of the whole collection system should be accomplished. The committee adopted this suggestion. Mr. Haggarty was appointed to act as principal, pending a reorganization of the system.

In a like manner, vacancies for seven specialists were temporarily filled by picking out the best available men, and calling them assistants. They are: Science—A. E. Jewett, B.A., of Chatham. Classics—T. G. Bragg, B.A., of Dawson, and J. H. Mills, B.A., of Waterloo. English—R. H. Wailes, B.A., of Lindsay; W. A. Phillips, M.A., of Listowel, and H. P. Tapscott.

"CHICKEN STEALING" CRIME INSPIRES GUILTY AS AGENT

Richter, London Life, Gives Some Interesting Evidence Before Commission.

London, June 28.—(Staff Special.)—The royal commission on insurance, counsel, reporters and stenographers opened up shop at the court house here to-day. J. G. Richter of the London Life was on the stand all day.

T. H. Purdon, president of Northern Life Co., was examined as to the organization proceedings of that company. He will be in the box again to-morrow, when the actuary will also be called.

The commission will adjourn early to-morrow afternoon. An Old Company. The London Life was established in 1774, with capital of \$1,000,000, of which \$250,000 is subscribed and \$750,000 paid up.

From the organization of the company up to 1883 non-participating and accident policies were issued only. The witness expressed himself entirely against insurance companies writing both participating and non-participating business unless two sets of books were kept.

The lower the premium, the greater the mortality, said Mr. Richter. "The company issuing both classes of insurance policies should certainly have representation on the board of directors."

The witness said that on the London Life board there were three policyholders. A shareholder could also hold this office.

The late President Jeffrey controlled the majority of the stock, and both his sons are officers of the company. Loans to Directors.

Mr. Richter admitted that the company had made loans to the vice-president, Dr. A. O. Jeffrey, and to a director, William Bowman. He explained to the commission that, although in this case there had been no loss, still the lending of funds to directors was capable of abuse.

Mr. Richter explained that the London Life did a large industrial business—about half the total—from which the company had reaped large profits after the third year. The minimum amount of insurance fixed by the province was \$20 on infants lives up to \$100 on a child of ten.

The examination of Mr. Richter was continued at 2:15. The settled form of insurance agreement, provided by the Officers' Association, was read by Mr. Tilley. He deciphered the standard provisions.

In reference to a clause, Mr. Tilley asked the witness when a company imposed an extra premium after the policy had been taken, Mr. Richter explained that these were cases where a man entered into a more hazardous occupation, which really cancelled the existing policy.

Witness said that the companies were in no way bound to this agreement with the Officers' Life. Rates premium were not mentioned and were under the private control of each company.

Mr. Tilley asked what practice existed between the companies as to their premium rate when there was re-insurance. Is the rate paid by the guarantee company the same as the principal company is paid by the insured?

"It was not always the case, but practically." "What about agents' commissions?" "The principal company pays the agent his commission, and the principal company receives a commission from the guarantee company."

of profits were 95 per cent. to the policyholders and 5 per cent. to the shareholders. Mr. Tilley asked why the policyholders' profits were not divided from the shareholders, from a bookkeeping standpoint. Witness said it was necessary to establish an undivided fund until the company was reasonably safe as a sound business.

The statement of dividends declared from 1874 to 1905 was read. In 1889 Mr. Tilley found that the dividend was not paid, but was applied to wipe out a debt of \$200 in the expense account.

Mr. Richter stated at this point that to charge the basis of reserve to 2 1/2 per cent. by the regular agent would require \$35,000 over and above the old basis of reserve. They were laying part of this aside each year. Last year it was \$200,000.

The London Life paid small bonuses to agents, which witness did not approve of, but on account of competition it was done. "It was capable of abuse," he said.

The large item, traveling expenses, was not due to the industrial business, but was run up by the regular agents. In the policy issued by the London Life automatic non-forfeiture clause did not appear.

Mr. Tilley asked if it was fair to say the difference in the London Life premium from 1874 to 1883 and the present time indicated a higher expense without legislation, the kind of legislation that punishes "chicken stealing."

"If it was entirely prohibited would it cut out some of the business?" asked Mr. Langmuir. "Witness did not think so. Commissioner Kent thought it would have the tendency to lessen lapses and increase profits to the policyholders."

"If the parliament of Canada are called upon to legislate to enable an agent to keep these rebates in his pocket, and the policyholder is not going to reap the benefit, I should like you to say so," continued Commissioner Kent.

"I did not mean to leave that impression. It would certainly rebound in a great measure to the benefit of the policyholders." The London Life do not issue estimates that are not realized. Their booklet was called "actual results."

WANT TO LOSE NO TIME BUILDING BRIDGE

Plans Ready, and Railway Commission Will Be Asked to Give Approval—Parks Comm. 26.

At a conference held yesterday of the board of control and members of the engineering and legal departments it was decided to lose no time in getting to work on Yonge-street bridge. The mayor said the plans and specifications were ready, while the solicitors of the companies and the city are preparing the agreement. When this is ready the railway commission will be asked to give approval. The board discussed the question as to the advisability of filling in the Yonge-street slip, and decided that this work would be done until the piers of the bridge are located. "We have a few details to arrange with the government as to the height of the bridge and its exact location. We will advertise for tenders as soon as possible."

A Report on Parks.

The park and amusement commissioners will on motion of Aid. Noble, made at the meeting of the parks and exhibition committee yesterday, bring in a report on the various properties owned to the city for park purposes. This will include the Leuty-avenue property, Munro Park, Victoria Park, Falling Brook, the proposed addition to Riverdale Park.

The buildings on Alexandra Park will not be torn down for the present. The mayor will be asked to see that the school grounds through the city are kept open after 4 o'clock, to be used as playgrounds.

A letter was received from Neville S. Munro, offering the Munro Park property to the city for \$40,000. Mr. Neville stated there would be no use in the city offering less, as he would not consider a lower offer, nor enter into any negotiations. That was the price and that only. The board of control will deal with the letter.

The committee will recommend that a bylaw be passed preventing heavy traffic on the North Rosedale drive. J. Clode wrote, asking that he be permitted to charge a small fee for music from a mouth-organ band in the parks. Aid. Noble objected, as everyone with a mouth organ would want to make a charge.

"What if they did?" said Emmerson Costenoble, Mayor of Toronto, in his lady-like winning way, "they are no worse than the six organs that are permitted in Victoria, 3315, Gordon street. The committee to fade away, and he went to consult his secretary, perhaps to see if there was anything he had forgotten to hand over to the railways."

Engineer's Report.

In the fortnightly report of the city engineer's department, the "T" rail for the street railway is favored, excepting downtown.

The substitution of vitrified brick for asphalt is not desirable unless the ratepayers are affected so decide.

The proposed sea wall from the barracks to Spencer-avenue will cost \$75,000.

Haney & Miller, contractors for the water tunnel, went to Champlain, Quebec from horsehoe to cylindrical, and to use concrete only instead of concrete and brick, effecting a saving of \$117,112. The engineer favors a cylindrical tunnel.

New Pavements.

The city engineer recommends the construction of the following pavements: Asphalt pavement, 24 feet wide, from Bay street to Victoria-square, \$21,212; concrete and brick, effecting a saving of \$117,112. The engineer favors a cylindrical tunnel.

OBITUARY.

Dr. Robt. Craik.

Montreal, June 28.—Dr. Robert Craik, LL.D., for many years dean of the medical faculty of McGill, died this morning at the age of 78. Dr. Craik graduated in 1834, joined the McGill staff in 1856 as demonstrator, and in 1860 as professor of anatomy. He was various grades rose to the deanship. His graduating thesis 52 years ago, claiming that all infectious diseases arose from distinct germs, and that some day these germs would be discovered, caused considerable discussion and some mockery, but was the solid basis of his fame.

He leaves no family. He was well known as a breeder of stock, having won the Quebec Queen's Plate several times, and won prizes for his cattle at the Chicago and World's Fair and at several Toronto fairs.

HANLAN'S ON THE HOLIDAY.

New Attractions at the Peoples' Play Ground on Dominion Day.

At Hanlan's Point, which is truly the playground of the people, many special arrangements have been made to provide amusements for those who spend Dominion Day at this popular resort, the greatest of its kind in Canada.

The ladies' favorites are the "Figure 8," with its great speed, twists and turns; and "The Old Mill," where one can enjoy a cool boat ride and view the spectacular scenery. For the boys there is the "hurtle-gurgle," the shooting gallery, and the ball games. But it is the little ones that people like to see enjoying themselves, and there is no place like Hanlan's where they can have so much fun as whirling on the merry-go-round and riding the ponies and donkeys.

For those who prefer quieter amusement, there is the vaudeville theatre, where an excellent performance will be given by leading artists. The Princess Theatre Orchestra will render concert performances. Those who would like to see the world is another novelty this season. The gypsy camp is always worth a visit from those curious to look into the future. Those who should not range to take the earlier boats and avoid the afternoon crowds.

Visitors to Toronto at any time should not fail to visit this interesting place, as they will find much to amuse and amaze them at Canada's Coney Island.

IMPERIAL OFFICERS COMING

Ten Are Given Appointments With Canada's Permanent Corps.

Ottawa, June 28.—Militia general orders contain the appointment of ten officers from the Imperial army temporarily to the Canadian permanent forces. Those appointed to the Royal Canadian Artillery are Captain S. J. Montgomery Moore, R.G.A.; and Lieutenant Travers Kirkland, R.F.A. To the Royal Canadian Engineers go Major J. B. Ward, R.E.; Captain J. J. Millar, R.E.; and Lieutenant J. H. Wright, R.E. The Ordnance Corps gets Captain J. O. O'Connell, A.O.D.; and Lieutenant E. H. Robinson, A.O.D.; Inspector of Ordnance Machinery, second class; and Honorary Lieutenant John Wright, A.O.D., assistant commissary of ordnance. To the Permanent Army Service Corps go Lieutenant M. L. B. Lambert, A.S.C.; Major A. H. Roberts, A.S.C.; and Lieutenant J. H. Wright, A.S.C. To the Royal Canadian Mounted Police go Captain J. F. Wilson, R.C.M.P.; and Lieutenant A. Roy, D.O.C. No. 7, are gazetted Honorary A.D.C.'s to the governor-general.

Cap. G. H. Casells retires from the 9th Toronto Light Horse, going to the rank of lieutenant. J. H. MacIntyre is gazetted honorary lieutenant in the same corps.

Major A. A. Fisher becomes lieutenant-colonel in command of the 41st Regiment, Brockville Rifles; Capt. J. Power becomes major of the corps, and Capt. W. S. Buell, adjutant.

JUVENILE HEROISM

Chicago, June 28.—In spite of the efforts of three-year-old Donald Jordan to save her life from the flames which enveloped her, Dorothy, his twin sister, was fatally burned yesterday.

The children were playing with matches in the yard of their home when Dorothy's clothing caught fire. Donald tried to beat out the flames, but failed, and throwing the girl on the grass he tried with all his strength to roll her over and over. His little hands were severely burned, but he stuck to his task until his mother arrived, who set her baby in her arms and dipped her in a tub of water. The flames were extinguished, but too late to save her life.

The World Man Goes to Fair-weather's.

"It's making no boast to say that we're holding the biggest clearing sale in fashionable apparel for men and women that we've held since making ready-to-wear garments a part of our business," is the way the head of the "ribbon counter" on a Friday match-greeted the World's representative when he dropped into the "house of quality" to see what was going—and to draw—the sale is doubly interesting because of the special prices going, and the fact that the sale happens on Canada's national holiday, when most everybody is looking for something new to wear. A visit to the store will prove as interesting to anybody as it was to the World man. So drop over.

When Harkness Comes.

To-morrow evening, in the Metropolitan Church, Robert Harkness, pianist of the Torrey-Alexander mission, will address a meeting on "The Opportunities Canada Offers to Young Men." Other speakers will include Dr. P. P. MacKay, Rev. J. G. Brown, Dr. L. Norman Tucker, Rev. T. B. Hyde and Dr. F. C. Stephenson, who will conduct five-minute talks on the Whitty Summer Conference. The Torrey-Alexander choir will assist.

Changes Among Editors.

The New York, June 28.—Wendell Phillips Garrison retires from the editorship of the Nation to-day, after 41 years of service. Hammond Lamont, for six years managing editor of the Evening Post, succeeds him. With Mr. Lamont will be associated Paul Elmer More, now literary editor of the Evening Post. Harold J. Lenoyd, the principal city editor, succeeds Mr. Lamont as managing editor of The Evening Post.

FIRE CHIEF THOMPSON WOUND IN PROTECTING SMALL BOY

To Avert Driving Over Youngster Gets Into Collision and is Thrown Out.

Fire Chief Thompson met with a mishap yesterday which might easily have proved quite serious. As it is, he is suffering from injuries to his shoulder, the full extent of which was known last night.

He was driving up Munro-street, in Riverdale. There is an excavation in the roadway, leaving a path wide enough for the passage of a single vehicle. Two small boys were playing with an express cart, one of them suddenly moved into the roadway.

The chief was cantering along and to save the boy from harm he jerked his horse sharply to one side. As he did so, the buggy swung into a gravel wagon which was coming along behind him.

The chief was leaning over to see that the boy came to no harm and the jar of the collision was sufficient to throw him out to the roadway. He alighted on his head and shoulders and the shock was stiff enough to render him unconscious for a time. Last night he was suffering considerably from the injury to his shoulder. The shafts of the buggy were broken, but no other damage was done. The boy was hurt.

CUBA GIVES SUBSIDY.

Van Horne to Give \$200,000 Annually for Railway Building.

Havana, Cuba, June 28.—The senate last night passed the Van Horne railway subsidy bill appropriating \$800,000 per kilometre for the construction of twelve branch railroad lines which are feeders for the Van Horne system.

The subsidies will be paid at a rate not exceeding \$200,000 annually until all roads are completed. There has been considerable opposition to the bill, but it was taken up by the senate last evening in the absence of the strong advocate of the amendment providing for public bidding.

The senate not only refused to amend the bill in this particular, but also struck out the original provision, that in case of more than one application for privileges they might be granted to the one making the best offer.

President Palma has decided to approve the bill on the ground that the bill has already been passed by the House of Representatives. Sir William Van Horne for building many lines of Cuban railroad. This measure gives the Van Horne people full control of transportation regulations in Central and Eastern Cuba.

CORONATION HOTEL SOLD.

Purchased by William Kraussmann and the License Transferred.

Yesterday afternoon, the Board of License Commissioners agreed to the transfer of the license of the Coronation Hotel, King and Church-streets, from the Hugh Sullivan estate to William Kraussmann.

Mr. Kraussmann is a well known hotel man. He formerly lived in Toronto, but for some time in connection with his brother John, has been conducting the Hotel Richmond Cafe and restaurant in Montreal.

The new proprietor of the Coronation has already taken possession of the building and is having the interior remodeled and decorated the entire building. The most up-to-date fixtures and furniture will be put in, and an expensive and attractive front to the building will be made.

AN AUTOMOBILE FATALITY THRU BURSTING OF TIRE

Columbus, O., June 28.—Frank E. Stoneman, president of the North American Lead Co., and identified with numerous other interests, was killed and Joseph F. and George W. Davidson, were painfully injured in an automobile accident at Alton, Ohio. The machine was going at high speed when the tire on one of the rear wheels burst and the automobile was overturned.

FRIDAY MORNING

PLEASURE AND BUSINESS MIX IN COBALT THESE DAYS

Visit of the Passenger Agents Association to the World-Famous Mines—Camp is Becoming Larger and Brisk But Solid Activity Prevails.

Cobalt, June 28.—(Special Correspondence.)—Hello Jim, is that you? Stepping off the rear Pullman car of the special train carrying the Association of Passenger Agents into Cobalt the other day, W. S. St. George of St. Louis, Mo., addressed the above remark to the first man his eyes lighted on among the people who were at Cobalt station awaiting the arrival of the special.

Mr. St. George expected that "Jim" was down in the land of his nativity and "Jim" was equally surprised to see his friend St. George so far north from St. Louis.

A meeting of this sort and this manner of salute is common here.

When Mr. Gillies, an engineer, came into the camp he desired his presence kept a secret. The first working proposition that he visited was the Mount Pleasant mine, owned by the Silver Queen Mining Co., and the first man he ran into was an old employee of his, whom he had last seen at Tompkinsville, Ky.

The area of the camp is slowly being enlarged, but there have been relatively few new silver discoveries during the past six weeks, outside of those made on the working properties. These are constantly occurring. At the Savage, the Jackson, the Silver Leaf, the Gilpin-Cobalt, Columbus-Cobalt, the Nova Scotia, and in fact at nearly every working property.

Development continues. Both in Lorraine and Buckle genuine development is taking place on a business and scientific basis. At the Gilpin-Cobalt property, three new veins have been discovered and the same speed and regard for comfort.

The trouble seems to have started over the raids on the brokers and handbook men. The staff inspector was not consulted, previous to the raid, but was sent with the rest, who were to work the drag-net.

At present there is a large amount of ore stored in Coleman Township. Much of this will be shipped during the next three or four weeks and dividends will be declared on some of the stock propositions.

The dissatisfaction over the present mining law is seeking an outlet in public meetings. The complaint is made that the law as it now stands encourages claim jumping and the government will be asked to reduce some of the existing fees.

Many distinguished parties have come into the camp during the past twelve months, but the selection by the Passenger Agents Association of Cobalt and Temagami as the chief points of interest for the present year is a safe and positive indication of the general manager of the Canadian Railway and has been inspecting the New York Central and Lehigh Valley systems.

As one of the agents said: "We are being posterized to death with enquiries about this country. Now we will be able to give some accurate information."

What they saw at the working mines amply justified Cobalt's claim to be the world's wonder-camp, was their unanimous verdict. These were representative men of the best type, the stamp of men which has made the abiding republic the mighty nation that it is, and to win the good opinion of such a body means much for the future development of New Ontario.

The party consisted of Messrs. Wm. T. Morris, C.P.A., Pittsburgh & Lake Erie Railway; Pittsburgh; L. S. Hunterford, general superintendent and J. P. Clements, general ticket agent of the Pullman Company, Chicago; Col. Samuel Moody, general passenger agent Pennsylvania lines, Pittsburgh; W. H. St. George of St. Louis, general passenger agent Missouri, Kansas & Texas Railway; W. H. Fisher, general passenger agent Working Valley Railway, Columbus, Ohio; Frank P. Dwyer, G. T. B. eastern passenger agent, 200 Broadway, New York; Geo. W. Vaux, assistant general passenger agent for the same system, Chicago, Ill.; J. H. Black, general superintendent, T. & N. O. Railway and W. D. Cunneyworth, general passenger agent, North Bay, Ont.; J. E. Quick, general baggage agent G.T.R. and Jno. Watson, the dining car inspector; C. E. Hornung, C.P.A.G.T. agent; A. J. MRS. JAFFRAY'S ESTATE. FAVORS TO COLONIALS.

Will Dispose of Over \$85,000 Among the Family. Party of Them Given Special View of His Money, the King.

Application has been made by Hon. Robert Jaffray, William G. Jaffray and Christopher Eaton for probate of the will of the late Sarah Jaffray, deceased. The estate consists of \$16,881.75 in real estate, \$64,222.22 in stocks, \$68,811.75 in mortgages, besides cash and personal effects.

WHEN IT IS DARK.

Big Chimney in Fire Area Will Be Dynamited.

A spectacular treat is in store for those who happen to learn the date that the 120 foot tower which stands majestically amidst the ruins of the great fire will be collapsed with dynamite.

The work of clearing out the bricks and debris from the site where the tower and depot is to be erected is progressing favorably, but there is such an enormous quantity of this debris that it will take some time to clear it up.

A CLASH OF AUTHORITY.

Staff Inspector Archibald is Settling on Ruffled Waters.

There was a rumour around the city hall yesterday that unless Staff Inspector Archibald and Crown Attorney Corley can agree better, the staff inspector will be assigned to other duties.

JUMPED HIS BAIL.

But Will Be Brought Back and Bondsmen Reimbursed.

Detective Mackie left last night for Detroit to bring back Alex. M. Ross, who is under arrest there. Ross is wanted here on the charge of obtaining goods by fraud from the Silver Queen and Co., \$150 from S. P. McKinnon & Co., \$50 from A. A. Allen & Co., and other amounts from other firms.

NIGHT GUARDS AT 'PEN.'

Kingston, June 28.—On July 1, a new guard system will come into force at the penitentiary. Hereafter there will be a separate set of night guards, who will do nothing but night duty.

ESTATE OF REV. MR. LEWIS.

The estate of Rev. J. Pitt Lewis totals \$68,422.32, and includes: cash, \$27,049; mortgages, \$49,675.08; bank debts, \$1200; furniture, \$250. The will is made up by Emily J. POSTCARD RIOT.

Japs Climb Roof to Secure Copies and Fall Thru.

Tokio.—The craze for picture postcards led to extraordinary rioting in the streets of Tokio yesterday, when the series of picture postcards issued by the government in commemoration of the war with Russia were placed on sale at the postoffices.

Double files of people a mile long were waiting outside most of the offices as soon as they opened.

At one place the police lost control of the crowd, who began a desperate struggle to gain admittance. The fence round the postoffice was trampled down, and the people climbed up the walls on the roofs and fought their way in thru the windows.

Under the weight of people part of the roof fell in, while the walls were damaged and the windows were smashed. Those who could not get near threw stones at the building.

To quell the disturbance soldiers were called out. They charged the crowd with fixed bayonets, and the fire brigade played streams of water on them. The postcards which caused the riot consisted of views of the sacred shrines where regular services for the dead soldiers were held, and where the emperor worshipped in the past. The Japanese victories, and of photographs of the military and naval peace reviews.

QUEBEC IS STIRRED SOME BY SUNDAY LEGISLATION

English and French Agree That Bill in Commons Will Not Do.

Montreal, June 28.—(Special.)—The politicians are rapidly reaching the conclusion that this city is being deeply stirred as the last stages of the Sunday bill are being reached in the house of commons, and people who come in from the country declare that the hostility against the measure is quite as intense in the rural sections of the province.

It is quite evident that the meeting called for to-morrow evening, on the Champ de Mars, to protest against the leading details of the bill, will be a monster affair. The speakers announced for the occasion are evenly divided as far as party affinity is concerned, although, of course, the heaviest gun of them all will be Henri Bourassa of Labelle.

English Also.
One of the remarkable features in the present agitation is the open hostility to the bill manifested by the English-speaking business men of the city. They, in fact, oppose it to a man as mischievous, intolerant and unworkable. His worship the Mayor of Montreal, who is an Anglican, has made the following statement, which truly represents the citizens:

"I shall not be able to attend the demonstration, but I shall send a letter to the meeting, stating that I am in full accord with the sentiment of those who have called the meeting. After considering the bill, I feel convinced that it is not one that is suitable to the people of this province. It would be a constant source of discord and irritation. It would be one of the most difficult measures in the world to enforce. So far as Montreal is concerned, it is now a large and important city, and it cannot have Sunday legislation that would be suitable only for a village."

"I cannot believe that the bill will pass. It is so foreign to the wishes of the people of this province that it can never meet with favor. In all such measures as these there ought to be a lot of give and take. There does not need to be much of the 'give' in the bill. Tolerance is the only principle that will enable the people of this province to live in harmony. This tolerance is not to be found in the bill in question."

Continuing, his worship said that he had received a telegram from a leading citizen of Winnipeg, asking if the people had a chance to vote on Sunday cars, if they would vote in the affirmative. In reply, he dictated the following telegram: "Sunday street cars have a better chance of being passed if the people will never be without. (Signed) Ekers."

One of the tricks of the politicians is to tell the French-Canadians that it is not a government measure, but the people see thru such a falsehood. The government or prime minister responsible for the legislation will be charged to defeat in the Province of Quebec. The feeling against Hon. Mr. Fielding is particularly bitter, as the finance minister's attitude on the question of Sunday labor has sealed his fate in the Province of Quebec. It has always been the custom with the French party priests to advise their people to get out and save their hay or grain on Sundays when the weather is threatening, and any interference with such a practice will certainly be resented.

Significant.
The tone of the Herald's staff correspondent from Ottawa today is most significant. "Old parliamentary history," he says, "do not remember a time when the house was so out of hand as it has been to-night. The cabinet was divided and sub-divided. The Liberal party was divided. The opposition was divided. Even the third party was divided. The proposal to exempt the Jews from the operation of the penal clauses of the bill was beaten by 79 to 57. And when it was a lover members wondered whether it was worth while going on with the contentious clauses of the bill. The Lord's Day bill has for the last ten days been undergoing a transformation. Two weeks ago it was an item on the order paper; to-night it is a political problem, and a problem of so much importance that the lesser lights are throwing up their hands and leaving the solution to Sir Wilfrid. If Sir Wilfrid elects to hold over the bill the Liberal members will breathe a sigh of relief. If he elects to see it thru they will trust to his judgment, which they say has never failed yet, and will sit in to see the thing thru, even if the temperature gets to be as high outside the house as it is inside. And after that there will be the senate to hear from, and it is said that the able athletes of that body are just aching to show their prowess."

TORONTO MEN GRADUATE.
New York, June 28.—(Special.)—At the annual commencement of Yale University, New Haven, Conn., yesterday, Allan Ellsworth Taylor, B.A., M.A., Toronto University '03, was given the degree of doctor of philosophy in the graduate school.

Erskine Douglass Warren was graduated in the department of law, with the degree of bachelor of laws. Both are from Toronto.

BOARD HAS TO BE SHOWN.
The application of Stratford to be allowed to extend its waterworks system will be up again before the provincial railway and municipal board on Wednesday next. Witnesses will be presented by the city to satisfy the board that the added revenue will be sufficient to pay the increased debenture debt and interest, as required by the board.

Mysterious Epidemic.
Paris.—All the markets and schools around Rouillet, in the department of the Charente, have been closed and public meetings forbidden owing to the ravages of a mysterious epidemic which was described by Prof. Chantemesse at the Academy of Medicine to-day.

The chief symptoms are profuse perspiration, followed by great prostration, and an eruption which makes the skin look as if it were covered with millet seeds. The cause of the disease is a mystery to the doctors.

A Want Supplied.

GUEST AT WEDDING FEAST SHOT BY CHARIVARI PARTY

Joseph Hussey Wounded in Face and Side by Charge From Shotgun.

Goderich, June 28.—Joseph Hussey, guest at a wedding party at Kingsbridge, was wounded by a shot from a gun in the hands of one of a charivari party last night, and may die.

Yesterday was the wedding day of John Dalton and Miss Frances Moss of that place, and in the evening there were festivities at the couple's new home.

About midnight a charivari party put in an appearance, and Joseph Hussey, 25 years of age, went outside to quiet the disturbance.

A gun carried by one of the demonstrators was discharged, and several of the shot struck Hussey in the head and side, blood flowing freely from the wounds. Doctors were summoned from Goderich and Kintail, and in response to a message Provincial Constable Phelan left this morning for Kingsbridge to investigate. It is likely several arrests will be made.

Six Months in "2 in 1."

A Consulting Chemist Makes a Novel Experiment. An Unsolicted Letter that Explains Itself.

"I write to state that on account of your '2 in 1' Shoe Polish being criticised, and the charge made that it injured leather, I made this test as follows:

I mixed the contents of a box of '2 in 1' Shoe Polish, bought at a retail store from regular stock, with four ounces of water and into this mixture put a kid glove, and left the said glove in the mixture in a bottle from June 15th to December 15th, 1905—a full six months. I then took the glove out, washed it and examined it. The fine leather of the glove was not affected in the least. It was as pliable and soft as when new, and was not altered in condition, nor were the stitches affected in any way. This test, I consider, proves that '2 in 1' does not injure the finest leather.

I hereby state that these facts are correct and true.

J. M. WILLIAMS, Consulting Chemist, Hamilton, Dec. 15th, 1905.
