

BLUFF

Lots of people make a bluff at telling you a whole lot about something they know absolutely nothing of. You find them in every walk of life, but none more so than in the clothing business. Many salesmen take a keen delight in bluffing a customer into something he doesn't want, or making him believe cotton's wool. It's done every day, but not in THIS store. Every man we have must know his business, and sell goods honestly. It may take a little longer, but it wins out in the end. We are selling clothes to-day and building for next year's business. That's the kind of faith we have in our clothing.

"COME ON IN" where they don't bluff.

A NEW NATIONAL PARK IN NORTHERN ALBERTA

Will Be 52 Miles Long and 33 Miles Wide—Honors for Glendon and Stewart.

OTTAWA, Nov. 8.—(Special.)—By an order-in-council, which will appear in the Canada Gazette to-morrow, a new forest park, to be known as the Jasper Forest Park of Canada, is established.

It will comprise an area of about 33 miles by 52 in Northern Alberta, east of the British Columbia boundary, on the height of land between the tributaries of the Athabasca, McLeod, Pembina, North Saskatchewan and Brazeau Rivers. An area of 105 square miles is subtracted by order-in-council from the Yoho Park Reserve in British Columbia.

D. A. G. Glendon and J. F. M. Stewart, Toronto, have been appointed commissioners to administer oaths under the naturalization act.

SHE PATIENTLY BORE DISGRACE

A Sad letter from a lady whose Husband was Dissipated. How She Cured Him with a Secret Remedy.

"I had for years patiently borne the disgrace, suffering, misery and privations due to my husband's drinking habits. Hearing of your marvelous remedy for the cure of drunkenness, which I could give my husband secretly, I decided to try it. I procured a package and mixed it in his food and coffee, and, as the remedy was odorless and tasteless, he did not know what it was that so quickly relieved his craving for liquor. He soon began to pick up flesh, his appetite for solid food returned, he stuck to his work regularly, and we now have a happy home. After he was completely cured I told him what I had done, when he acknowledged that it had been his saving, and he had the resolution to break off his own career. I heartily advise all women afflicted as I was to give your remedy a trial."

Free Package and pamphlet giving full particulars, testimonials and price sent in plain sealed envelope. Correspondence strictly confidential. Address THE SAMARIA REMEDY CO., 30 Jordan Chambers, Jordan St., Toronto, Canada.

Also for sale by Geo. A. Bingham, 180 Yonge-street, and by E. Doak, Drug-gist, 1466 Queen-street west.

HAMILTON TAKES STEPS FOR TECHNICAL SCHOOL

Deputation Will Wait on the Ontario Government at Early Date—General News.

HAMILTON, Ont., Nov. 8.—(Special.)—Next Tuesday a deputation from the board of education, headed by Hon. J. B. Hendrie and J. J. Scott, K.C., will wait upon the Ontario Government and ask for the establishment of a technical college in Hamilton. The trustees had a conference this afternoon with Messrs. Hendrie and Scott on the subject. It was agreed that the board could easily start a technical school in the room now vacant in the collegiate institute building by the removal of the normal college, and the trustees are willing to provide a site in the College, providing that the government is willing to pay the cost of erecting the building and help maintain it.

Martin Malone's appeal against the assessment of the late Edward Martin's estate was called this afternoon at the court of revision, but was adjourned till Monday evening, owing to the fact that some papers were not ready. Mr. Malone said he would drop his appeal against the assessment of \$15,000 off the taxes. The board wiped out the new Federal Life Building. The total reduction up to date amounts to \$15,028, compared with \$17,139 last year.

The board of works this afternoon decided to open up Chatham-street, from Garth-street westward and to apply to the railway board for an order compelling the T. H. & B. to build a bridge over its tracks.

The House of Refuge committee made an inspection of the new home for incurables this afternoon. The building will not be completed for five months. Miss Mary M. Smith, sister of Inspector J. H. Smith, died suddenly this morning.

Baker Wants Satisfaction

A. M. Ewing, a baker, has served notice of an action for libel on The Hamilton Times, because it reported Rev. J. W. Hollnake as saying in a sermon on the subject of how the poor was helped up, that the bakers had a profit of 60 per cent on their bread.

Dr. S. Morley Wickert, Toronto, was the speaker at the Canadian Club luncheon at the Royal Hotel this evening, and his subject was "Municipal Government, which he said was the greatest problem of the age. The trouble now was that attempts were being made to run cities with machinery of villages. He referred to the Toronto system of board of control and said that the salary of \$2500 a year was utterly inadequate for the right kind of man.

Responsible department heads what was needed

Municipal government was what was needed. Municipal government was not politics, but business. He favored paying high salaries and getting good men for heads of departments. W. W. McCleim presented, and other who spoke in support of the C.M.B.A. this evening on the order.

The Hamilton Orangemen celebrated the 30th anniversary of the gunpowder plot this evening by a concert and banquet in their new hall.

The Hamilton Science Association celebrated its 50th anniversary this evening. The speakers were H. B. Whitton and A. T. Freed.

The quartering of Matthew and Mrs. Skedden's home, 162 West King-street, yesterday, Nov. 8, and presented them with twin boys. Mrs. Skedden and the children are doing well.

It was reported the other day that the householders and storekeepers in Hamilton were beginning to complain that the Cataract Power Company's new electric lighting rates were pretty much like a gold brick. This is now more evident than ever because the Hamilton Gas Light Company announced in the Hamilton papers on Wednesday that they will continue to furnish a steady, more brilliant and reliable light than the Electric Light Company at their new rates.

The resident of Barton Township in the district bounded by Barton and Trolley-streets, the Beach-road, Ottawa-street and King and Main-streets, have petitioned the county clerk for incorporation as a village.

Mayor Stewart and the aldermen, after attending the meeting of the Niagara Power Union and the Hydro-Electric Power Commission, are more enthusiastic than ever over the municipal

NEWS FROM NORTH PELHAM

One of the oldest residents, Mr. Thomas McClashan, has been permanently cured of muscular rheumatism. Pelson's Nervine was the remedy. "I suffered all manner of pain for years," states Mr. McClashan, "and Nervine was the only thing that did me any good. It went right to the core of the pain and brought lasting relief. I can honestly recommend Nervine for all kinds of rheumatism. Every sufferer from aching joints, swollen limbs, sore shoulders and lame back can be swiftly cured by Nervine. It is quick to act, very thorough—absolutely safe. Extensively used for nearly fifty years; sold in 25c. bottles under guarantee."

CLUB BAGS

Just another of those sacrifices we are making each day to get you acquainted with our goods. Made of fine grain leather, Vienna handle, brass trimmings, leather lined, inside pocket, colors brown or olive.

Xmas gifts—early selections of Xmas gifts will be laid aside upon payment of a small deposit.

HOW TO INVEST ONE DOLLAR

Try this week and open a savings account by depositing one dollar. Keep it up, and at the end of the year you will have saved a month's fair wages, on which we are paying full compound interest as your account grows.

The Home Bank of Canada is the particular friend of the small depositor. The highest rate of interest is paid, and customers who wish to save closely are loaned handy metal banks free—vest pocket size for men.

It will be no trouble for you to open an account. Leave your name and address, deposit one dollar and take your pass book. When you are out of the City, deposits or withdrawals may be made by letter.

ADAM AND THE SERPENT.

If the Globe is the friend of the Hon. Adam Beck, and the Globe says it is, then may Mr. Beck pray that he be delivered from his friend.

Citizens of Toronto need not to be told that the Globe is the organ of the electrical ring and therefore no friend to the Whitney-Beck public power policy.

How could the Globe be anything but an enemy to the Hon. Adam Beck? Robert Jaffray is president of the Globe and its active editor, and directs its policy on all power matters.

Yes, the Globe, in its leading editorial yesterday, protests that it is Hon. Adam Beck's friend. Why this hypocritical protestation? It manufactures history to prove that it was in the power business before Adam.

Many citizens think the cry comes too late, but others hold, with Rev. Mr. Brown's "ramp editor," that, "while the lamp holds on to burn, the slinger may return."

But what would Editor Robert Jaffray say to that?

RAILWAY CORPORATIONS AS PUBLIC SERVANTS.

The Macmillan Company, under the above title, publishes in book form a series of lectures addressed to the Boston University Law School by Henry S. Haines, ex-president of the American Railway Association, and for years connected with the "Plant System" of railway and steamship lines.

The problem of transportation was first studied by the ancient Romans, who, at the expense of the imperial government, constructed and maintained those magnificent roads and bridges which to this day command the envy and admiration of the world.

the local authorities and, in time, was shifted by them to turnpike companies, who recouped their expenditure by levying tolls upon all transportation.

The turn-pike idea was predominant when the first steam railway charters were granted by the British Parliament. Charters were granted to all applicants and a frenzy of speculation in railway shares brought upon the British people a financial panic which rivaled the South Sea bubble.

Railway building began later upon the continent, and there, the Roman idea prevailed. The state either built the roads or it had them built by concessionaires with the title in the state and ultimate possession.

In the United States, the railways were built by private companies, enormously bonused by states and municipalities. In many cases they also received free gifts of land and labor from the people thru whose neighborhood the railway was being constructed.

Mr. Haines is free to admit that the railway companies grossly abused the confidence of the people. Even after statutes were passed to protect the people, the railways continued, by rebates and other discriminations, to oppress certain individuals, companies and localities, and to build up enormous fortunes for other favored shippers.

The Montreal Herald returns to the Russell-Graham-Blair plot of 1904 and says the election of that year was highly interesting, to some highly interested persons, from the fact that it was to settle the question whether the Grand Trunk was to be allowed to go on with the new transcontinental railway or whether the contracts for the great piece of construction work might not be steered into other hands.

It is a matter of record, "The Herald" says, "that every obstacle was put in the way of the passage of the Grand Trunk Pacific bills, and that it has several times been mentioned as a curious coincidence that some of the most vigorous of this fighting was done by men who, like Mr. Fowler, Mr. Bennett and Mr. Pope, have since been shown to have been in the fortunes, beneficiaries first of Mr. Dan Mann, who gave them a secret view of the route the Canadian Northern was to take, and then of Messrs. Mackenzie and Mann, whose endorsements enabled them to finance the famous land deal. It is now suggested that in case Mr. Borden had been returned to power in 1904, the adoption of the government's transcontinental deal offered the country, taken with the party, and his own, denunciation of the Grand Trunk Pacific bills, would have obliged him to cancel the contract with the Grand Trunk, and, possibly, with Mr. Blair as once more minister of the interior, and that he took the work of constructing the transcontinental road for the government."

Further, "The Herald" says: "Just when was, if there was any, between this alleged desire to earn an honest penny by doing an honest day's work, and the various specious features of the campaign of 1904, it may take a long time to disclose, the filtering is so slow. We know that Mr. Blair resigned, and that he changed his mind. We know that Mr. Russell was very close to Mr. Blair, and that he took Mr. Borden for a ride in his private car one fateful day of October; also that he went in with Mr. Graham on the purchase of the La Presse under circumstances so peculiar as to attract universal attention; also that in some way Messrs. Mackenzie and Mann came to have their names and possibly their fortunes associated with the La Presse deal. We know that Mr. Borden had already created a railway policy for which there has never been a reasonable explanation. But who is to carry much less to prove, that all this has any bearing upon the horrid scheme, of which the Dartmouth paper tells, that he had twenty-five Liberal candidates in Quebec abandon their posts on or after nomination day, thus leaving the field clear for the order candidates provided by the exertions of the Zandry-Zandring-Zandring and making a difference of fifty on a division in the house? Who is to connect it with the sending of \$25,000 to one, New Brunswick contractor, where the minister of railways is supposed to have been a candidate and the return of a telegram, "Can't you repeat the dose?" Really, in this age, it is quite too much to associate such tricks with high-minded (not high-handed) business enterprise, or with the still higher and nobler aspiration which inspires patriotic Rich Men to Finance the Campaigns of Men of Ability, and to send "gifts of money" to the aid of candidates in all the provinces.

There have been more than 20 by-elections since the winter of 1905, and three more are imminent. Should Mr. Aylesworth and Mr. Bourassa both be absent the house will lose no little entertainment. The minister of justice begins the day calmly enough, almost staccato, but he is thin-skinned, and a tell-tale flush betrays his nerves. Yet he invites a certain amount of baiting, for, in answering the members of the opposition, even when their questions are phrased in the order paper, he does so with acerbity, and sometimes with an impatience that borders upon contempt. His speeches are never very long, but he is one who has never caught the tone of

Hysterical in Court. Phoebe Conklin, an aged lady, charged with stealing smallware in a department store, became hysterical in court yesterday and had to be given a chair. Thru Mr. Robinette she pleaded not guilty and elected to be tried by "Bill" was allowed in two surties of \$20.

Rifle Shooting for Boys. LONDON, Nov. 8.—(C.A.P.)—Lord Strathcona, speaking at the school prize distribution, advocated the teaching of rifle shooting to boys. He pointed out the desirability of extension of the teaching of knowledge of empire and voiced his pride in Canada's system of education.

Unveiling of Memorial Window. The family of the late Stapleton Caldwell have placed a handsome memorial window in the north transept of St. Paul's Church, East Bloor-street. This window will be unveiled at a short service of dedication to be held in the church on Sunday afternoon, Nov. 10, at 4.15. The service will be conducted by the rector, Canon Cody, D.D., LL.D.

ARTHUR EN TERPRISE And Wellington News.

ARTHUR, ONTARIO, NOVEMBER 7th, 1907.

W. F. McLean M.P. of S. York Stands for a Great Principle

At St. Andrew's Church on Sunday evening, the Rev. Jas. Barber, B. A., the former pastor, in harmony with the occasion took for his theme—"National Thanksgiving" enumerating the many blessings for which Canada should be thankful. During his discourse he advised a reform in our judiciary. He had to admit that it was almost impossible for a poor man to obtain justice, owing to the cost of appeals. There is an opportunity for both political parties to benefit their country. In this connection he took occasion to commend W. F. McLean M. P., who was, he considered, exerting a very potent influence to secure law reform and was also putting up a strong fight against the encroachments of monopolies and great corporations. While not always agreeing with the Member for South York, he considered that he was doing a valuable work for Canada.

The Rev. gentleman, however, found much to commend and believe Canada to be far in advance of other lands—having peace and plenty within her borders—still as a patriot, he believed it was necessary to call attention to whatever defects existed and to secure the best results, it was necessary for the church to interest herself in the welfare of the state and bring her great influence to bear in order to secure three-needed reforms in public life. If the church would do her duty along these lines, he believed the Tammany's and corruption, which are a blight and curse to this fair Dominion would soon disappear.

POLITICS IN INTELLIGENCE

The Montreal Herald returns to the Russell-Graham-Blair plot of 1904 and says the election of that year was highly interesting, to some highly interested persons, from the fact that it was to settle the question whether the Grand Trunk was to be allowed to go on with the new transcontinental railway or whether the contracts for the great piece of construction work might not be steered into other hands.

There will be some curiosity as to the future of Armand Laverge, who is a far cry from Bourassa to young Laverge, but for all that, the latter was a faithful lieutenant and he has no less courage than Bourassa himself. He will be lonesome in Ottawa. The man without a party, when the house is not in session, can read and read the newspapers in the reading room or sit with the messengers on a bench in the hall. He is not welcomed where members all the English never fails to proclaim that in Laverge's case, according to Le Nationaliste, extended to his wife.

Mr. Lémieux, too, will be absent, but he is seldom heard in general debate. It would not be surprising if Dr. Pugsley seized the laboring oar at the next election. There are many in the opposition who are ready to meet him, but they will find in the suave yet forceful Eliam a more experienced campaigner and a more dangerous antagonist than the present minister of justice.

WORK OF NORMAL TEACHERS

Increased attention to the academic side of education will be the leading feature in the new course of study for the normal schools which is now being prepared, and will shortly be announced. Hitherto the course has been a professional one, and inadequate for the purposes of real scholarship.

All the normal schools being located in cities, have lost the requirements of rural teachers have not been fully recognized. In future it is proposed that the normal schools, with the normal schools the ungraded rural schools in adjoining county or counties. A week in each year will be spent by each normal school master in accompanying the public school inspector on his rural school inspection tours.

The high school examinations previously arranged will conform to the new plan.

Italian Killed at Cobourg. COBOURG, Nov. 8.—While alighting from a passenger train here Domenico Troisi, an Italian, accidentally fell under the wheels and was so badly mangled that he died a few hours later.

The Dominion line steamer South-west, which sailed from Liverpool on the 31st ult., has on board a large number of experienced domestics for the Women's Domestic Guild, 71 Drummond-street, Montreal. This party, which numbers 56, consists of Scotch, Irish and English members; the majority, however, come from Scotland.

The efforts of the Queen in solving the domestic problem is proving very successful, as over 500 girls have come out under its auspices since the first of the year. While the winter season, these girls have remained in the Province of Quebec, a number have gone to other Canadian cities and some to Manitoba and British Columbia.

It is intended to continue the bringing out of these parties of domestics to Canada during the winter season. Mrs. E. F. Francis having recently sent several weeks in Great Britain making arrangements for the bringing out of a larger number of domestics to Canada.

Pull-braid the Queen of Dress-trimming

From the fashion centres of the world—Paris, London and New York—comes the decree for a still greater popularity in pull-braids as THE trimming for this season's dresses.

Accordingly there is a greater demand than ever for variety in color to suit all shades and weights of dress materials.

This charming trimming adds greatly to the finish of any dress, giving a smart, stylish effect and enriching the whole appearance with an air of individuality. It permits of being used either plain, or by pulling a single thread, running the entire length, it can be modeled into a variety of fancy loops and twirls according to taste and ingenuity.

Being early advised of all coming points of fashion, we were able to anticipate the popularity of the pull-braid here, and accordingly made large buyings beforehand of all varieties, weights and colors. These we are now exhibiting at prices remarkable for their lowness, considering the high quality of the goods and their increasing popularity.

The accompanying illustration shows the widths; colors include white, black, cream, brown in two shades, green, red in two shades, navy and grey; prices 3c, 4c, 5c, 6c, 7c, 8c per yard, according to width.

Books Issued at Library. The statistical report of the public library board for October shows that 42,969 books were issued to readers, as against 42,838 for the corresponding month last year. There were 2,139 books issued for home reading, 7533 magazines issued in reading-room, 3887 books in reference library and 69,331 non-fiction tickets were issued during the month.

At the meeting of the board yesterday \$22,145.80 was ordered to be paid to the contractors on account of work at the new library on Colgate-street, \$2885.84 on general accounts and \$187.01 on library committee account.

Why Catarrh Poisons the System. The Catarrhal germ excites inflammation, offensive secretions are thrown off and pass into the circulation, contaminating the river of life and thus wreck the whole body. Every catarrhal sufferer should use fragrant healing Catarrhoxone, the surest cure for every type of catarrh yet discovered. Catarrhoxone can't fall short of cure because its vapor kills the germ and removes the cause of the trouble. Then it soothes and heals, stops the cough and relieves the sufferer's condition of the nose and throat. Tens of thousands have been cured by Catarrhoxone, which is guaranteed. Use only Catarrhoxone. Complete outfit, \$1.00; trial size, 25c.

CAMPBELL AND BELCOURT WILL GO TO THE SENATE

Third Vacancy From Ontario Has Several Claimants—Charlton or Calvert Probable.

OTTAWA, Ont., Nov. 8.—Announcement will be made in a few days of the appointment to the senate of Hon. N. A. Belcourt, ex-Speaker of the house of commons, and M.P. for Ottawa, and of Archie Campbell, M.P. for Centre York.

Mr. Belcourt is a native of Toronto, and was 47 years old on Sept. 15 last. He was educated at Queen's University in Montreal, and later was called to the Ontario bar. He practiced in Ottawa, and in 1887 was the unsuccessful candidate of the Liberal party in that city.

Mr. Archie Campbell came to Toronto Junction from West Egin, where he had been a successful business man. His milling business at the junction, and the soap canning industry in which he became interested are important to that town. He was always a staunch Liberal.

BUCKINGHAM CASES.

Six Strikers Appeared in Hull for Trial.

OTTAWA, Nov. 8.—Adelard Hamelin, Hilare Charette, Louis Landry, J. B. Clement, C. D. Bastien and G. R. Coteau, the six strikers implicated in the Buckingham riot of over a year ago, by which three lives were lost, appeared in court for trial in Hull before Magistrate Talbot.

The chief witnesses to-day were Dr. McCormick of Buckingham, who performed the autopsy, and Albert MacLaren, president of the James MacLaren Lumber Co., against which the demonstration was made. The story of the riot was retold in a succinct manner.

IN AN INDIAN WAS MURDERED ON SIX NATION RESERVE

Arrest of Wife and Stepson is Expected—Alleged That They Beat Old Man Terribly.

BRANTFORD, Nov. 8.—(Special.)—Dr. Fissette, coroner, to-day opened an inquest into the death of Richard Baptiste, an Indian, in Tuscarora Township. Last Saturday Baptiste, who was about fifty years old, came into conflict with Jacob Scott, aged 18, his son-in-law.

According to Dr. Fissette, there are no signs of an assault on Baptiste, except his blackened eye, and, it is probably, resulted from concussion. In Scott's weakened state from illness, it is unlikely he could have struck a heavy blow.

ANOTHER VERSION.

HAGERVILLE, Nov. 8.—Particulars of a tragedy, which occurred in Tuscarora, Six Nation Reserve, about three miles north of Brantford, on Saturday, were given by a police officer.

STRIKE OF NATURAL GAS EXCITES ALL COOKSVILLE

"Real Thing" is Found on Gordon's Farm and Whole Neighborhood Gathers There.

Cooksville was intensely excited yesterday morning in consequence of a big lot of natural gas in Gordon's farm, lot 17, concession 1, in Toronto Township, at a depth of only 300 feet below the surface.

Yesterday morning the men noticed a smell of gas, faint at first, but as the boring rig kept pounding away it became stronger. Soon it increased to such a density that it almost overpowered the men, and they had to leave the shed and seek fresh air outside.

The rig kept working, and the volume of gas increasing to such an extent that it impregnated the atmosphere and was noticed by the residents of the village nearly a mile away.

Mr. Gordon was quickly on the spot in consultation with the expert who is conducting the operations. They were satisfied they had struck a large flow of gas and wired the news to Messrs. Wits Co. of Adelaide-street, at whose expense the exploration is being made.

As fast as the law would allow representatives of the firm sped out to Cooksville in an automobile. From tests made during the afternoon it was found there was a pressure of 150,000 cubic feet.

The news spread through the district like wildfire; villagers and farmers turned out to witness the strange phenomenon. Many came in from the more distant parts, and fully 500 must have visited the farm. The collection of rigs, carts and wagons was almost as great as at a fair. Everyone had a story to tell of traces of gas on his farm and was eager to make arrangements for sinking a well.

WASHINGTON, Nov. 8.—"In God We Trust" is omitted from the new \$10 gold piece just received from the Philadelphia mint. This new coin was designed by Augustus St. Gaudens.

There are several explanations of the omission, but none of them official. One is that the Indian who designed the coin had so many feathers in his head dress that there was no room for the motto. Another is that anything relating to religion is offensive to the present administration. Still another is that the motto has become inappropriate, since in these troublous times the administration knows not whom to trust.

Wives and Mothers Suffer With Backache

Unfortunately They Fall to Recognize the Dangerous Cause of the Trouble.

Constantly on their feet, attending to the wants of a large and exacting family, women often break down with nervous exhaustion.

In the stores, factories, and on a farm are weak ailing women, dragged down by torturing backache and bearing down upon them the weight of a heavy load.

Such suffering isn't natural, but it's dangerous, because due to diseased kidneys, the dizziness, insomnia, deranged menses and other symptoms of kidney complaint can't cure themselves.

They require the assistance of Dr. Hamilton's Pills which go direct to the seat of the trouble.

To give vitality and power to the kidneys, to lend aid to the bladder and liver, to free the blood of poisons, probably there is no remedy so successful as Dr. Hamilton's Pills.

Many of our readers should benefit by this article. Save the recipe.

MARKETS GET NARROWER AND MUCH LESS ERRATIC

Wall Street Begins to Show a Steadier Tone—Rios Are Sold by London.

World Office, Friday Evening, Nov. 8. There was no special feature to the Canadian stock markets to-day. There was no activity at the Toronto exchange. The points of interest in the market were another outbreak of liquidation in Rio common and a sharp break in Toronto Electric. The selling of Rio emanated from London, showing clearly that the English market for the stock is not a good one at present. Sao Paulo held steady during the morning session, but the bid was reduced three points later in the day. Mackay common declined to 47 1/2, but the preferred was held intact. Toronto Ralls were quite active at Montreal, but only 15 shares were dealt in on this market. The undertone to investment issues was easier. A fair amount of Commerce was traded in at 160, but only small lots changed hands in the other banks represented in the market. Canada Permanent stock improved to 115 to-day.

Wall Street Pointers. Berlin bank rate advanced to 7 1/2 per cent. London fears further advance in the bank rate if American demand for gold is not checked. Fair demand for stocks in loan crowd. Big surplus for third quarter insures that New York Central will earn more than 6 per cent. dividend this year. Some bankers beginning to question advisability of further gold engagements.

Minneapolis & St. Louis surplus, after preferred dividends, \$114,434, decrease \$101,595, and equal to 1-3/10 per cent. on common. Twenty-four hours, for fourth week October, show average gross increase 3-5/10 per cent. D. & H. September net earnings increased \$285,073 and for nine months increased \$1,182,690. Sub-treasury loss \$5,848,000 to the banks yesterday, but since Friday it has gained \$3,325,000 from the banks. 30. Hereafter and until further notice, the bank statement will not be issued until after the close of the market on Saturdays.

The board of directors of the North American Company in view of the disturbed conditions now prevailing, have decided to defer the declaration of the dividend on the company's stock for the present. All holders of T. C. & I. have been offered the privilege of turning in their stock at par for T. C. Steel sinking fund five at \$4. A holder of \$100 T. C. & I. stock receives \$1,100 in bonds. These bonds are being sold, which accounts for their weakness.

CHICAGO.—At a meeting of the directors of the American Steel Foundry Company yesterday, it is said, that plans were set in motion whereby the company will declare a cash dividend of 3 per cent. and a scrip dividend of 20 per cent. to holders of the preferred stock. The scrip will bear interest, it is reported, at 4 per cent. per annum. Foundry rights, when issued, quoted 17 1/2 to 18 on the curb.

Joseph says: Those who hold Cotton Oil common should average. The dividend has only been deferred. The company borrows money at this season, but because of the abnormal conditions banks cannot loan, hence necessity for asking stockholders' indulgence. Hold some Steels, do not be afraid of Union Pacific, buy St. Paul on dips.

Heavy selling took place in United States Steel common by Barney & Co., Chapman, and Halstead & Hodges. The principal buying was by Day, Adams & Co. and Harriman & Co. There seems to be heavy liquidation still going on for account of important inter-ferable Tennessee Coal & Iron stock. While we are not so aggressively bearish on it as we have been, when it was much higher, we feel that bullish operations can be carried in much more successfully among the railroads, especially as the reaction in the steel trade seems only to have begun.—Town Topics.

Charles Head & Co. R. Bonnard: It is going to take time to even things up in this country, and we are bound to have a good deal of trouble in mercantile circles and a more or less gradual liquidation throughout the country in all lines. I don't see how we can have think the market will work off again.

Charles Head & Co. R. Bonnard: The market to-day has ruled generally strong with substantial gains in many leading issues. London traded in thirty thousand shares, buying ten thousand on balance and advance in the Berlin Bank rate appeared to be the financial situation has improved, and that money is easier in the interior. Union and Southern Pacific will declare quarterly dividends about the middle of this month, and the Union Pacific segregation plan is now under consideration. J. W. Gates is said to be actively bullish, being credited with purchases of at least 10,000 Union Pacific. The U. S. Steel bonds declined under sales by T.C.I. Interests. It is evident that short selling rather than liquidation caused weakness yesterday and the entire atmosphere seems clearer, than for many days. Such outside embarrassments as are now developing are merely incidents pointing to easier money conditions.

A. O. Brown & Co. & J. Lorne Campbell: The market has been decidedly firm with sales about equal to those of Wednesday. Substantial gains were made in the majority of the list. It is believed that the liquidation in short selling, and the market appeared overvalued. Fresh gold engagements were reported bringing the total above \$40,000,000.

Money Markets. Bank of England discount rate, 7 per cent. Money market, 4 1/2 per cent. Short bill, 5 1/2 per cent. Three months bill, 5 1/2 per cent. Six months bill, 5 1/2 per cent. Highest 20 per cent. lowest 2 per cent., last loan 2 1/2 per cent. Call money at Toronto, 5 per cent. Mexican dollars, etc.

Foreign Exchange. Building. (Tel. Main 757), to-day report exchange rates as follows: Between Banks. Buyers. Sellers. Counter. N. Y. funds, 100 dis. 46 1/2 dis. 46 1/2 dis. DOMINION SECURITIES CORP. LIMITED

25 KING ST. TORONTO

The indications in England and on the continent are far from comfortable, and I think a further rise in the Bank of England rate is not unlikely. But we must remember that the liquidation in Wall Street has been very thorough and I don't believe there are any more big blocks of stock to be thrown on the market. Stocks are on a very low level and the financial situation in New York is clearing. Dulness in business and restoration of confidence will bring easy money and a demand for investments on a large scale in the course of a few months. To sum up, I think we are likely to see a feverish and sagging market for the time being, but believe we are thru with the panicky times in the stock market.

NEW YORK, N.Y., Nov. 8.—All grades of copper dropped a quarter of a cent again to-day. The new price was: Lake, 13 1/2 to 14 electric, 13 1/2 to 13 3/4; castings, 13 1/2 to 13 1/4.

Berlin Rate Raised. BERLIN, Nov. 8.—The rate of discount of the Imperial Bank of Germany was raised to-day from 6 1/2 to 7 1/2 per cent. The increase in the bank rate had an unfavorable influence on the market, depressing stocks soon after the announcement was made. Prices, however, partly recovered later, but business was meagre.

LONDON, Nov. 8.—The increase in the discount rate of the Imperial Bank of Germany, had been expected here, so beyond consoling declines 1-3 it had little effect on the stock exchange, where trading was comparatively quiet after yesterday's flurry. Americans were offered earlier, but they subsequently tended to sell above par. Considerable quantities of gold from Paris arrived in London to-day.

On Wall Street. Charles Head & Co. to R. R. Bonnard: The stock market to-day showed a much improved tone over that which prevailed yesterday, despite a display of weakness in specific instances. There was no news of importance to account for the better feeling, but the absence of selling pressure and the unexpected appearance of London as a buyer started short covering, and developed a scarcity of offerings, until advances of from one to three points had been scored, after which stocks were more freely supplied. The leader of the advance was Union Pacific, and a number of rumors accounted for the buying, the chief of which were the renewal of the buying control had passed to Morgan interests, that Standard Oil interests had accumulated a large line on the recent decline, and also that John W. Gates had sold the United States Steel sinking fund bonds received for Tennessee Coal and Iron, and was investing the proceeds in Union Pacific. The strength in this stock was quickly reflected in the general strength, declining five points on the passing of the dividend. At the advance enough stocks were supplied to check the buying movement and traders turned sellers, causing reactions averaging about a point, but there was no pressure of liquidation on the decline. The large gold arrivals were reflected in larger offerings of currency and easier call money rates in the afternoon. The closing was dull and irregular, without definite tendency.

Marshall, Spader & Co. to J. G. Beatty: The figures of bank statement will reflect the heavy loss of the banks in New York thru the interior movement not yet offset by gold arrivals exceeding nine million dollars not appearing in this week's figures. The fact that New York institutions have supplied the interior with forty-five million dollars during the past three weeks in the direct money movement should be noted with extreme satisfaction at this juncture, particularly at a time when the resources of our institutions have been more severely taxed by the anxiety of local depositors. It is not improbable that a reduced demand for currency will follow in the near future, which in turn will influence gold imports, of which enough has already been secured to supply American requirements without more seriously affecting the European situation. As before stated advances are a difficult problem until the money situation clears up. Ennis & Stoppani wired to J. L. Mitchell: The market to-day has ruled generally strong with substantial gains in many leading issues. London traded in thirty thousand shares, buying ten thousand on balance and advance in the Berlin Bank rate appeared to be the financial situation has improved, and that money is easier in the interior. Union and Southern Pacific will declare quarterly dividends about the middle of this month, and the Union Pacific segregation plan is now under consideration. J. W. Gates is said to be actively bullish, being credited with purchases of at least 10,000 Union Pacific. The U. S. Steel bonds declined under sales by T.C.I. Interests. It is evident that short selling rather than liquidation caused weakness yesterday and the entire atmosphere seems clearer, than for many days. Such outside embarrassments as are now developing are merely incidents pointing to easier money conditions.

A. O. Brown & Co. & J. Lorne Campbell: The market has been decidedly firm with sales about equal to those of Wednesday. Substantial gains were made in the majority of the list. It is believed that the liquidation in short selling, and the market appeared overvalued. Fresh gold engagements were reported bringing the total above \$40,000,000.

OUTSIDE LIQUIDATION LOWERS PRICES. World Office, Friday Evening, Nov. 8. The announcement of an advance in the Berlin Bank rate to-day was accepted as a direct corollary of yesterday's action at London, and was not, therefore, a new influence in the stock markets. At the Toronto Exchange, there was no increase in the volume of business. Prices generally were steady, but, where outside liquidation was present, quotations were lowered. This was the case in Rio, most of the selling of the stock being from London. The support in Sao Paulo was weakened thereby, and bids were reduced well below prospective offerings. Toronto Electric continues to act in a most untidy way. A five-share lot of this stock was disposed of at 110—a decline of nine points on the last previous sale. There are a few investment orders on the market each day, but it is impossible to arouse the enthusiasm of speculators. Herbert H. Ball.

BIG FINANCIAL LOSS WAS WESTOWN EXPO.

Excess of Liabilities Over Assets, \$1,855,000—Receiver Seeks Certain.

NORFOLK, Va., Nov. 8.—A detailed financial statement of the Jamestown Exposition was obtained to-day for the first time.

The liabilities of the exposition are heavy, being more than three and a half times greater than the assets.

It is anticipated that within twenty-four hours after the exposition closes on the night of Nov. 30, if not sooner, a receiver will be appointed to wind up the complicated financial affairs.

With assets involved by judgments, attachment suits, first and second mortgage bonds, original purchase price deficit mortgage, the government loan unpaid, salaries and many lesser credits, the receiver will have much to do.

The financial statement follows: Liabilities—U.S. Government balance of loan, \$1,207,000

First mortgage bonds due June 1, 1908, 400,000

Second mortgage bonds due Oct. 1, 1907, 370,000

Judgments recorded, 107,000

Current indebtedness, 500,000

Total, \$3,885,000

Add to this cost of maintenance for six months to June 1, 1908, 200,000

Grand total, \$3,885,000

Assets—Furniture and fixtures, 10,000

Real estate with sewerage water pipe, 600,000

Unpaid stock subscriptions collectable, 100,000

Total, \$710,000

Excess of liabilities over assets, \$3,175,000

The total admitted date are 1,271,773, and the total receipts, \$82,669.

Up to within the last few days, complaints were being made by James M. Marr, former director general, the receipts have been daily sufficient to take care of the larger part of the daily expenses.

It is planned by the exposition management to send a strong lobby to the U.S. Senate to get the bill passed.

Director General Marr has never been heard of since he was removed from office.

Trading in the Mining Market Continues Dull—Prices About Steady.

World Office. Friday Evening, Nov. 8. The volume of business on the curb exchange was small to-day.

Foster was fairly active at 60 and 61-1/4 for 3000 shares. Temiskaming sold at 77, Nova Scotia at 19-1/2, Silver Queen at 74.

Trethewey at 81-1/2, Cobalt Lake at 10, and Silver Leaf at 8-1/4 and 8-1/2. There was some talk on the afternoon board regarding an amalgamation of Silver Leaf, Nova Scotia and Kerr Lake (Crown Reserve), but nothing definite was forthcoming.

Brokers still report a quietness in trading circles, but this is a natural result of stagnant money markets and approaching cold weather at the mines.

ANOTHER CONSOLIDATION. Rumored that Nova Scotia, Silver Leaf and Kerr Lake will combine.

It was rumored yesterday that an amalgamation of Silver Leaf, Nova Scotia and Kerr Lake (Crown Reserve) is about to take place.

The latter property was originally bought from the Ontario Government for \$315,000.

The properties are adjacent to each other. The new vein on Silver Leaf runs into Kerr Lake. During the summer numerous veins were discovered under Kerr Lake with diamond drills, but having no land rights they have been unable to work them.

It is said that the Kerr Lake veins could be worked much more economically.

WHAT ANGORA GOATS DID.

ST. LOUIS, Mo., Nov. 8.—A work train drawn by an electric engine on the Illinois Traction system ran into a flock of forty-five angora goats near here yesterday. The long goat-hairs wound around the trucks and wheels in a way that derailed the engine and six cars. The track was torn up for 400 feet and traffic delayed for 12 hours.

Chicago Cattle Market. Ennis & Stoppani wired to J. I. Mitchell at the close:

Wheat—After a changeless session to-day wheat closed at 3c lower than one time when it showed nearly 2c loss and ruled 1/2c in the late trading, when the strength in Wall Street and Brooklyn forecast of light shipments from corn proved a formidable opponent as market factor and held wheat in check.

Cash markets ruled last week. The professional element are friendly to the market at this level and we think wheat can be bought for a cash at last week's price.

Corn—Closed about 1 1/2c from the top. The government figures were a surprise as the analysts expected an estimate of 200,000,000 bushels below the 2,000,000,000 bushels at which the expert at Washington put the crop and 140,000,000 bushels above the forecast of one month ago which closed 370,000,000 bushels below last year.

Oats—Closed 3/4c lower, being depressed by the raid in corn prices. We think corn and oats are worth the money at present levels.

Charles W. Gillett to Peter J. Morgan: Wheat—The advance in the German bank rate from 5 1/2 to 7 1/2 per cent created further weakness in continental and Liverpool markets, but the latter still shows a handsome difference as a profit on shipments. About 35 boat-lodes were worked to-day for export, owing to a break of two or three cents in cash prices at Kansas City. But the general demand for cash wheat was slow, with numerous reports of domestic holders selling what they bought last week.

Export clearances for to-day were large at 940,000 bushels of wheat and flour and the total for the week according to Bradstreet's amounts to 5,600,000 bushels. At this rate of export our surplus would be taken care of before next spring and it is only the banking situation that keeps prices at present. The local situation is improving and money in moderate amounts is obtainable, one prominent bank stating that it is ready to re-sume cash payments at any time. This has created a little more confidence in wheat values, but the weakness in Liverpool followed the publication of the crop report preventing any material improvement. We would advise taking profits on short wheat and feel very friendly

to the market.

North Toronto Association Will Meet To-Night—General News From Junction.

TORONTO JUNCTION, Nov. 8.—Some residents of the Junction, who are anxious that the paving of Dundas-street should be done in a manner that will not cast a reflection on the town or the contractor, would like to know why the concrete has settled so considerably at the northeast corner of Union and Dundas-streets, also it has only been laid a week.

Mr. Johnson of Lakeview-avenue lost a Persian lamb coat last June and Louis Stafford Lawrence was arrested on the charge of stealing it. The evidence, however, being insufficient, he was allowed to go on suspended sentence.

The six-inch depth of mud on Keele-street, the discriminated against by many people, was the means this morning of preventing what might have been a serious accident.

AGINCOURT.

Retiring Pastor is Kindly Remembered by Congregation.

AGINCOURT, Nov. 8.—(Special.)—Anticipating the removal of the Rev. J. A. Brown, who is shortly to leave this place, a number of the members and adherents gathered in the school room of Knox Church last night and presented Mr. Brown with a well-filled purse, together with an address.

The latter was as follows: To the Rev. Jas. A. Brown, B.A.: Dear Pastor,—It is with mingled feelings of sadness and joy that we meet you on this occasion to bid you farewell.

During the past three years your labors have been characterized by faithfulness, self-sacrifice and love. The reverential and efficient manner in which you have conducted the services of the sanctuary, your regular and punctual attendance at all appointed meetings of the congregation, and other meetings of general interest held in the community have won for you our highest respect, while your genial manner and sympathetic nature has gained our warmest affection.

Ever ready to lend a helping hand to those in need, to counsel and advise the young and the old, and to cheer the needs of the sick room, speaking words of comfort and consolation to the depressed, your influence has been far-reaching and many beyond the limits of this congregation will attest with us the loss sustained by your removal.

During your pastorate here we have enjoyed, not only the fruits of your labor among the people, but also those of your loving wife. Words fail to express our deep sense of appreciation of the efforts of Mrs. Brown to promote our Heavenly Father's work in our midst.

Rest assured that we shall ever cherish fondest memories of the years we have spent together and accept as a slight token of our appreciation and love this purse—with our best wishes, our earnest prayer being that you may both be spared for many years of usefulness, filled with joy and happiness and when life's work is ended may we be reunited in the great congregation that knows no separation.

Signed in behalf of the congregation of Knox Church, Scarborough, John Kennedy, John Elliott, William H. Paterson, John Doherty, R. M. Loveless.

Agincourt, Nov. 7, 1907. Rev. Mr. Brown has been deeply affected, and thanked those present on behalf of himself and family. The associations have been of the evening with the work of the Ladies' Home and Foreign Missionary Societies has rendered her services almost indispensable.

Rest assured that we shall ever cherish fondest memories of the years we have spent together and accept as a slight token of our appreciation and love this purse—with our best wishes, our earnest prayer being that you may both be spared for many years of usefulness, filled with joy and happiness and when life's work is ended may we be reunited in the great congregation that knows no separation.

EAST TORONTO.

Funeral of Young Stanford Takes Place This Afternoon.

EAST TORONTO, Nov. 8.—The East Toronto Y.M.C.A. football team play the St. Joseph's on the Queen Alexandra School grounds to-morrow (Saturday) afternoon, at 2 o'clock. The East Toronto team will be chosen from among these players: Trebilcock, Fitzgerald, Scanlon, Mulhearn, Sincley, Thompson, Broughton, Hurd, McLuckie, Davis, Brown and C. Fitzgerald.

The Kimberley School A team played the Coleman Club in the East Toronto School League here this afternoon. The score was 2-0 in favor of the Colemans, at 8 o'clock. The East Toronto team will be chosen from among these players: Trebilcock, Fitzgerald, Scanlon, Mulhearn, Sincley, Thompson, Broughton, Hurd, McLuckie, Davis, Brown and C. Fitzgerald.

The funeral of the late Charles Stanford will take place from the family residence on Lyall-avenue to-morrow (Saturday) afternoon at 2 o'clock. The remains will be interred in Norway Cemetery and the obsequies will be conducted by the Plymouth Brethren, of which deceased was a member. Mrs. Stanford is prostrated and is only the intimate friends of the family were admitted to the home.

Judge Morgan will hold division court tomorrow (Saturday) afternoon. The home of School Trustee Thomas J. and Mrs. Le Cros, on Kensington-avenue, was last night invaded by a large party of friends, the occasion being the anniversary of their crystal wedding. Mr. and Mrs. Le Cros were the recipients of many beautiful gifts. A delightful evening was spent.

Among those present were the Misses Port, Deer Park; Mr. and Mrs. Sauld, Eglington; Mr. and Mrs. A. Cox, Mr. and Mrs. Gardner and Miss Gardner, Mr. and Mrs. E. Butler, Mr. and Mrs. Arthur, Mr. and Mrs. Houston, Mr. and Mrs. J. Lye, Mr. Gavins and H. Gibbons of Toronto.

WESTON.

Activity is Being Shown Along Building Lines.

WESTON, Nov. 8.—A new hardware store has been opened in the west end of the town which is now showing increased signs of activity in consequence of the new chemical works that are being installed there. Messrs. Fielding, Taylor and McKenzie are starting at the Russell House to superintend the construction of the two factories that will house the new concern. The Epworth League meeting next

is immediately available for a public hospital building, and it looks something like neglect of the situation to allow the conditions complained of to continue into the approaching winter.

Richmond Hill. Camp Elgin, Sons of Scotland, are holding a particularly fine concert in Masonic Hall on Wednesday, the 13th inst., and expect a full house to enjoy the rare treat they are providing. They have engaged the Heather Male Quartet, who were the feature attraction of the great Caledonian concert in Montreal on Halloween, and of the 48th Highlanders' Night-under-canvas in Massey Hall last Thursday; and with them as headliners, assisted by Miss Grace Merry, the talented Toronto educationist, and another Toronto artist, they can indeed guarantee about the best concert that has ever been given in Richmond Hill.

Crossing Nuisances. Riverdale Residents and Things They Are Complaining About. Complaints which Riverdale residents have against the C.P.R. and G.T.R. in regard to the obstruction at the Don and Degraasi-street crossings have been placed before the company officials, but there seems to be but little prospect of relief.

Of the C.P.R. crossing, it is complained that the protection gates are lowered so quickly and noiselessly that several times street cars have crashed into them. At present one of the arms is broken thru this cause. An electric gong that would give ample notice is requested.

The G.T.R. crossing at DeGrassistreet is often blocked by the trains, which stop at the station. It is pointed out that there is ample room to extend the station platform to the north, which would do away with the nuisance.

In both cases the question of the division of expense is the obstacle in the way of improvement.

MAYOR KELLY AMBITIOUS.

BUCKINGHAM, Que., Nov. 8.—(Special.)—Mayor W. H. Kelly, who was conspicuous a year ago in connection with the strikers' riot, has aspirations for the Liberal nomination in Labelle and expects to carry the convention.

Aftermath. Visitor—"How are conditions here? Has confidence returned?" Resident—"Conditions are slowly settling down to their former basis, but confidence has not returned. Most of the people still believe it was the children of their next door neighbors that carried away their gates last Thursday night."

Aldermanic Aspirations. Zeph'Hilton of Hilton Bros. bakers, is mentioned as a possible candidate for alderman in the first ward.

CHESTER. Young People's Society Pledge Themselves to Good Work.

CHESTER, Nov. 8.—Rev. W. H. Vance, pastor of the Church of the Ascension, will preach at St. Barnabas Church on Sunday evening.

At the regular meeting of the members of St. Barnabas' Young People's Society, held on Thursday evening, the members pledged themselves to meet the cost of producing 12 leaded glass windows in the new Sunday school basement.

The city will shortly install an electric light at the corner of Danforth and Hampton streets. The intention is a good one and not before it is urgently needed.

A LIFT UP THE HILL. Farmers and others who know how hard it is on their horses to tug a load up Galloway Hill, on Yonge-street, above the C.P.R. tracks, will appreciate the venture E. Archer will make next week. He will have a tow horse on the hill, for the use of which any small contribution that may be given will be the only charge.

Hospital Facilities at the Junction. Efforts have been made to supply the Junction with hospital facilities, but appear to have encountered delay upon consideration of the question whether the proposed institution should be in every sense a public hospital. That point is settled. There is but one opinion as to the necessity existing in the large industrial community on the western bank of Toronto for the kind of treatment of surgical and medical cases, the former in the nature of things quite numerous and the latter also unfortunately large. The Heydon House property, which has been spoken of as most suitable for hospital purposes, is immediately available for a public hospital building, and it looks something like neglect of the situation to allow the conditions complained of to continue into the approaching winter.

Richmond Hill. Camp Elgin, Sons of Scotland, are holding a particularly fine concert in Masonic Hall on Wednesday, the 13th inst., and expect a full house to enjoy the rare treat they are providing. They have engaged the Heather Male Quartet, who were the feature attraction of the great Caledonian concert in Montreal on Halloween, and of the 48th Highlanders' Night-under-canvas in Massey Hall last Thursday; and with them as headliners, assisted by Miss Grace Merry, the talented Toronto educationist, and another Toronto artist, they can indeed guarantee about the best concert that has ever been given in Richmond Hill.

Crossing Nuisances. Riverdale Residents and Things They Are Complaining About. Complaints which Riverdale residents have against the C.P.R. and G.T.R. in regard to the obstruction at the Don and Degraasi-street crossings have been placed before the company officials, but there seems to be but little prospect of relief.

Of the C.P.R. crossing, it is complained that the protection gates are lowered so quickly and noiselessly that several times street cars have crashed into them. At present one of the arms is broken thru this cause. An electric gong that would give ample notice is requested.

The G.T.R. crossing at DeGrassistreet is often blocked by the trains, which stop at the station. It is pointed out that there is ample room to extend the station platform to the north, which would do away with the nuisance.

In both cases the question of the division of expense is the obstacle in the way of improvement.

MAYOR KELLY AMBITIOUS.

BUCKINGHAM, Que., Nov. 8.—(Special.)—Mayor W. H. Kelly, who was conspicuous a year ago in connection with the strikers' riot, has aspirations for the Liberal nomination in Labelle and expects to carry the convention.

Aftermath. Visitor—"How are conditions here? Has confidence returned?" Resident—"Conditions are slowly settling down to their former basis, but confidence has not returned. Most of the people still believe it was the children of their next door neighbors that carried away their gates last Thursday night."

Aldermanic Aspirations. Zeph'Hilton of Hilton Bros. bakers, is mentioned as a possible candidate for alderman in the first ward.

CHESTER. Young People's Society Pledge Themselves to Good Work.

CHESTER, Nov. 8.—Rev. W. H. Vance, pastor of the Church of the Ascension, will preach at St. Barnabas Church on Sunday evening.

At the regular meeting of the members of St. Barnabas' Young People's Society, held on Thursday evening, the members pledged themselves to meet the cost of producing 12 leaded glass windows in the new Sunday school basement.

The city will shortly install an electric light at the corner of Danforth and Hampton streets. The intention is a good one and not before it is urgently needed.

A LIFT UP THE HILL. Farmers and others who know how hard it is on their horses to tug a load up Galloway Hill, on Yonge-street, above the C.P.R. tracks, will appreciate the venture E. Archer will make next week. He will have a tow horse on the hill, for the use of which any small contribution that may be given will be the only charge.

SAYS THIS IS BEST

A leading health journal, in answering the question, "What is the best prescription to clean and purify the blood?" prints, in a recent issue, the following: Fluid Extract Dandelion, one ounce; Compound Salsaparilla, four ounces.

Shake well and use in teaspoonful doses after each meal and at bedtime.

A well-known physician states that these are harmless vegetable ingredients, which can be obtained from any good prescription pharmacy.

This mixture will clean the blood of all impurities. In just a few days the skin begins to clear of sores, boils and pimples. It puts vigor and energy into run-down men, women and children. For many years Sarsaparilla alone has been recommended as the best medicine. But while it built up and made new blood, the impurities remained within and the good accomplished was only temporary. Sarsaparilla, however, when used in combination with Compound Salsaparilla and Fluid Extract Dandelion works wonders. This combination puts the kidneys to work to filter and get rid of uric acid, uric acid, and other impurities that cause disease. It makes new blood and relieves rheumatism and lame back and bladder troubles.

The only regrettable feature was the lack of perfect order, due to a number of young men in the gallery. Ruby Newcombe, Miss Isabel Turner, "The Publican," Miss Jean Sutherland, "Lead Kindly Light," Mrs. Miss Star, "A Green Hill"; W. G. Shepherd, "The Plains of Peace"; Willard Demery, "God is King"; "On Sweetly Solomn Thought"; E. Williams, tenor and baritone, duet, "Say, Watchman, What of the Night"; by Messrs. W. J. Laurence and R. G. Kirby, "Festival Te Deum," by Miss Jennie E. Williams, Miss Jean Sutherland and Messrs. W. J. Laurence and R. G. Kirby. The chorus sang, "Treasure and Sanctus" unaccompanied, captivated the audience, and the male quartet, "On Sweetly Solomn Thought" and chorus from Galla made a grand finale to the evening's entertainment, and the wish was expressed that Mr. Kirby would shortly be able to bring his well-trained choir again to North Toronto.

The residents of North Toronto begin to wonder why they pay for electric street lighting. Seldom the town council meets before a petition is presented. Last night there was no light at all, but if the moon shines brightly the lights are in operation in the streets.

Rev. Mr. Brown has been deeply affected, and thanked those present on behalf of himself and family. The associations have been of the evening with the work of the Ladies' Home and Foreign Missionary Societies has rendered her services almost indispensable.

Rest assured that we shall ever cherish fondest memories of the years we have spent together and accept as a slight token of our appreciation and love this purse—with our best wishes, our earnest prayer being that you may both be spared for many years of usefulness, filled with joy and happiness and when life's work is ended may we be reunited in the great congregation that knows no separation.

Signed in behalf of the congregation of Knox Church, Scarborough, John Kennedy, John Elliott, William H. Paterson, John Doherty, R. M. Loveless.

WESTON.

Activity is Being Shown Along Building Lines.

WESTON, Nov. 8.—A new hardware store has been opened in the west end of the town which is now showing increased signs of activity in consequence of the new chemical works that are being installed there. Messrs. Fielding, Taylor and McKenzie are starting at the Russell House to superintend the construction of the two factories that will house the new concern. The Epworth League meeting next
