CONDITIONS BEST FOR MANY YEARS

Better Chance for Stream Driving on the Upper St. John This Year Than for Years Past--Operators Report Everything Going Along Well.

FREDERICTON, N. B., May 16--Isaac Good, of Kingsclear, who has been working on John Kilburn's drive in Quebec, returned home last evening. He says that the conditions for stream driving on the upper St. John waters have not been so favorable in twenty-five years. The rivers and streams are bank high, and there is still two feet of snow in the woods. A heavy frost is sure to follow the first spell of mild weather. He reports that all of Kilburn's logs are coming along well and will soon reach the corporation limits.

The Gibson Company's lumber drives on the Nashwaak and tributaries are all in safe waters. The Arnold Brook, Cross Creek, McLean Brook and Nappadogan drives got out Saturday night, and the Tay and Main Nashwaak logs are expected out this week.

"THE POWER OF THE PRESS"

Queens County Job Press Almost Put Charles Linton Out of Business at Indiantown This Morning.

Charles Linton, teamster, had a very narrow escape this morning from being fatally injured at the Public wharf at Indiantown. James A. Stewart, who formerly published the Queens County Gazette, brought a printing press to the city this morning from Gagetown by means of a woodboat and is having it sent out west where he is going. After the woodboat arrived at the Public wharf Charles Linton went to haul the press to the depot. While Mr. Linton was assisting in raising the press the latter overturned in the rope by which it was being lowered to the team, striking Mr. Linton over the right eye and throwing him several feet. The injured man staggered to his feet and men working with him took him to E. J. McLaughlin's drug store, and summoned Dr. McLaughlin. On arriving at the doctor found that the injured man had received an ugly cut over the right eye and was otherwise hurt about the body. Several stitches were required to sew up the cut, and Dr. McLaughlin drove Mr. Linton to his home at 179 Victoria street.

Botha-Henderson

A pretty wedding took place yesterday afternoon when Andrew Botha of Springfield, Belleisle, was united in marriage to Miss Mabel Henderson, of Henderson by Rev. Gibson Swain, at his parsonage, Cedar street. Mr. and Mrs. Botha will reside in the city. Rev. D. H. Nobles' parsonage was the scene of a very pretty wedding yesterday afternoon, when John Henderson, of Gray's Mills, was united in marriage to Miss Clara Prepper, also of Gray's Mills, by Rev. D. H. Nobles. Mr. and Mrs. Henderson left on the Plains last night for Gray's Mills, where they will reside.

WILLIAM SOLMIXEN'S HIGH DIVE OFF THE SOUTH WHARF

Russian Finn Fell Into Market Slip This Morning and Bruised His Back.

Wm. Solmixen, a Russian Finn, who is a member of the crew of the schooner W. E. and W. L. Tuck, had an experience this morning that he is not likely to forget. He has been drinking heavily of late and in fact has only been out of jail for a short time. When he tried to navigate along the South wharf this morning he lost his balance and fell into the slip, with the result that he bruised his back severely and had to be taken to the hospital. The point from which the high dive was taken was near Andrew Malouin's store. The tide was very low at the time and the man landed in the soft silt at the bottom of the slip, so that when he was picked up he was almost covered with the silt. In falling he struck one of the stays of the schooner. Charles Troop and broke it. He landed face downward in the mud and appeared unable to move. Several men tried to the unfortunate man's assistance. He seemed to think that his back was broken and it was deemed advisable to carry him up the slip rather than land him on the wharf. An express wagon was summoned and the man was carried on a tarpaulin and placed in it and conveyed to the hospital. After being given a bath he was examined and it was found that he was bruised considerably about the back but his condition is not considered serious. The incident created quite a lot of excitement about the wharf for a time. The men who went to Solmixen's assistance had to go home for a change of clothes as they were pretty well covered with mud as a result of their efforts.

NEVER TURNED A SINGLE HAIR

Boy Run Over at Glace Bay Takes the Affair With Wonderful Coolness.

GLACE BAY, May 16 (Special)--Simon Morrison, a boy employed as a greaser at No. 2 colliery, had three ribs broken and received other injuries by being run over Tuesday afternoon. Twenty-six loaded boxes passed over him, and only the fact that he was small saved him from worse injuries. He lay between the rails when the boxes were going over him. The boy took the accident coolly and, as he was going up the shaft, remarked as he pocketed three loosened teeth, "This is the worst thing that ever happened me," as if getting a rib or so broken was an everyday occurrence.

A QUOT MATCH

Yesterday's Boston Journal says--A quot throwing contest will be held early next week at the L. street bath-house between Thomas Lenny, of South Boston, and Peter Mitchell, of St. John, N. B. Lenny is reputed to be the champion of the quot throwers in the "Point" section, and Mitchell is said to be very clever at the sport. A close and exciting contest is assured. Note--Peter is well known here as a quot pitcher, and when he goes against the South Boston man he will make him bluish.

The condition of Dr. E. J. Gaudet, of St. Joseph, N. B., who is seriously ill with pleuro-pneumonia, is not improving, and there is considerable doubt as to his recovery.

NATIONS MAY INSIST ON BELGIAN REFORM IN CONGO

Members of British Parliament Favor Conference Between Great Britain, United States, France and Germany to Force Belgium to Action in the Congo Free State.

LONDON, May 16--In winding up the animated, but fruitless debate on the Congo question in the House of Commons yesterday, Sir Edward Grey, the foreign secretary, said that those interested in the matter would naturally wait to see what the conditions of the plans annexed to the Congo Free State would be, and that pending this information he was reluctant to set forth definitely what would be considered satisfactory to the British government. For this reason, the speaker continued, Belgium should be allowed to act in the matter without interference or pressure of the outside. The British government must wait a reasonable time, but it could not wait indefinitely. In case of a breakdown and the passing of the Congo State into other hands, the government would share with other powers in the resultant responsibility. There must, however, be a change in the system of governing the Congo, Sir Ed-

ward declared, it being impossible for the state to continue under its present irresponsible rule. The government always had been willing to take part in a conference of the treaty powers, and the government of the United States had expressed its willingness to approach the question from the same point of view, but two powers by themselves were not enough to form a conference. The late British government had issued invitations to a conference which had not met with affirmative answers. Sir Edward said he was afraid that in the past two or three years conferences in general had not increased in popularity, and he would not like to repeat this invitation until he had some assurance from other powers besides the United States that the question would become an international one. In the course of the discussion Sir Charles Dilke, advanced radical, and other members of the house expressed the belief that a conference between the United

States, Great Britain, Germany and France might result in forcing Belgium to take some action. [The Belgian house of representatives on Dec. 14th, voted that a committee should immediately make a preliminary examination of the accounts of the Congo Free State, and of the already drafted Belgian Colonial Law, with a view to an early report on the advisability of Belgian annexation of the Congo, and the terms under which the transfer should take place. King Leopold, who claims that the Congo is his personal property, to do with as he likes, and who has exploited it for his own purposes to the tune of \$14,000,000, opposing the natives in the most scandalous manner, made a will in 1889, bequeathing the territory to Belgium, and by a subsequent agreement gave Belgium the option of annexing it in his lifetime. It is this question of annexation to which Sir Edward Grey refers--Editor Times.]

MR. LEMIEUX WANTS THE MEN TO KNOW WHERE THEY STAND

Dominion Labor Official at Montreal to Explain the Lemieux Bill to Striking 'longshoremen--The Strike Situation in Toronto.

OTTAWA, Ont., May 16 (Special)--Rodolph Lemieux, minister of labor, who returned from Montreal last evening, has sent F. A. Acland, secretary of the department of labor, to Montreal to explain the provisions of labor disputes act to the longshoremen, as it seems perfectly clear that they come under the bill. Mr. Lemieux wants the men to thoroughly understand their position, so that they may avoid becoming liable to severe penalties. The minister hopes that the men will submit their case to the arbitration board so that they may not lose the sympathy of the public. If they are not satisfied with the result then it will be open for them to pursue whatever course they may deem prudent.

TORONTO, May 16 (Special)--At a crowded meeting held in labor temple last night, the Brotherhood of Teamsters decided to leave the question of a strike among the employees of the Shedd, Dominion transport and Verral Companies to the executive board. Another meeting will be held on Friday night, at which the matter will be finally and definitely settled. Those who spoke at last night's meeting against striking took the stand that if they went out, the companies would be able to get men from Montreal and Ottawa, to take their places. The funeral of the late Mrs. "Thorne" was held from her late residence on High street this morning at 7 o'clock to the depot. The body was taken to the station, where interment was made in the family lot. A son of the deceased accompanied the remains.

LANDLORD WINS RENT SUIT

Tenants received a few straight tips from a city court case which came up for hearing this morning, and future demands upon landlords are not likely to be so heavy, or perhaps unreasonable as heretofore. The case referred to is that of McHugh vs. Kelson, in which the plaintiff claimed \$8 for a month's rent and the defendant held he had no right to pay it as during part of the six months for which he took the house was not tenable. Several witnesses were examined, most of them for the defense and in the evidence it was stated that during the last month the house was occupied, Mrs. Kelson had to wear rubbers in the kitchen as the floor was covered with water from melting snow from the yard. His honor found for the plaintiff, saying the rent would have to be paid and the tenant with three able-bodied men in the house, had no right to expect the landlord to remove the snow after every storm.

The funeral of the late Mrs. Annie Sesley took place this afternoon from her residence on Watson street to Cedar Hill cemetery, where interment was made. Rev. A. C. Marr read the burial service. The funeral of the late Mrs. "Thorne" was held from her late residence on High street this morning at 7 o'clock to the depot. The body was taken to the station, where interment was made in the family lot. A son of the deceased accompanied the remains.

President Diaz Ready to Stop Frequent Wars in the Central American States.

MEXICO CITY, via Galveston, Texas, May 15--In the course of a lengthy interview in the palace President Diaz gives a statement of the exact feeling of Mexico toward Guatemala and his ideas for remedying the deplorable conditions existing in some of the Central American republics. "Please say to the American people," said he, "that Mexico has throughout all this trouble with Guatemala, which came so near forcing us into war, maintained the attitude of a friendly power. That attitude is still maintained. We do not want to shed blood to show the Guatemala government the error of its ways, and will not resort to that extreme measure unless some overt act or insult is committed which will demand the infliction by Mexico of a short, sharp punishment."

PORFIRIO DIAZ.

"If it becomes necessary to have war, we will make it a very brief one. Mexico's present wonderful development and progress must not be hindered by a long drawn out conflict. The blow, if struck, will be hard and quick. "It is only a temporary condition, however. The problem of the Central American republics is a great one that for the benefit of their salvation must be settled sooner or later. It is none of my business, and I am not ambitious to settle it. Nevertheless, I have an idea. I believe the best solution would be an amalgamation of all the Central American countries into one strong government under a man with enough strength of character and common sense to hold in check the revolutionary spirit that has done so much to retard the progress and development of these countries. "Mexico is willing at any time to cooperate with the United States in a project to come over them and in any measure that will be beneficial. I do not know the feeling of your government in this matter, but I assure you I stand ready to work with it."

THE TIMES NEW REPORTER

HIRAM ON PEACE.

"Speakin' of peace," said Mr. Hiram, who had come across a copy of the "Point" section, "reminds me of an old Dave Toedles, out to the Settlement. Dave he got religion one spring, an' got it from one o' them peace

fellers--the kind that tells you it's blessed to be persecuted, even by man that a good swit' kick would do a heap of good--as well as save you from any further trouble. Well, Dave he studded the thing out, an' made up his mind we orto trust one another more. This here bein' always ready to get out the axe was all wrong. An' it wasn't Christian to suspect any of your things. So Dave took the locks off his doors an' give away his dog. One day the family went out somewhere, an' when they come back they found somebody'd been there an' stole a heap o' stuff--fifty or more--Dave's wife said. Dave was mournful for a day or two after that--an' then one day he went up to the store an' got some locks, an' it wasn't long till he had the all-fired cross dog in the Settlement. He come to the conclusion that it was all right to trust people--if you had some locks an' a good dog. An' I callate it's about that way with nations. I s'pose maybe the world's gettin' better--an' some day soldiers won't be needed--but I don't expect to be here then--ner some o' my neighbors. As things is now, you don't let on tellin' every feller I meet that I'd take either his word or his oath. The peace business--like charity--begins at home. As long as people can't trust one another in a honest trade, I callate nations 'll need soldiers. I do, by Hen!"

BLACK DIPHTHERIA CASES AT GAGETOWN

Diphtheria of Malignant Type Broke Out There on Friday--One Death Already Reported, and There is Another Case in the Same Family.

As stated in this paper yesterday, there is diphtheria of a malignant type in Gagetown, which, if not stayed in its fatal course immediately, may result in many deaths within a short space of time. The disease is in the family of Mr. Horseman, who is a grammar school teacher. The first intimation that Mr. Horseman had of the disease was when his seven-year-old daughter took seriously ill on Friday last. Medical aid was not

obtained until Tuesday, when it was too late; the disease having done its work. The child was buried immediately, and now another one of the children has the diphtheria, and it is questionable whether or not she can recover. The appearance of the disease has wrought and justly so, considerable excitement among the residents of Gagetown, who feel that no stone should be left unturned in the effort to wipe out the threatened danger.

MORE STOVES FOUND TODAY

In All Five Stoves and Quantity of Enamel Ware Have Now Been Traced to Wm. Mahoney.

Fresh developments in the McClary-Mahoney theft case continue to come to light. Sergt. Kilpatrick and Patrolman Green landed three more stoves and a quantity of enamel ware at central station this morning. Two of the stoves, a range and a heater were found in a shed near the prisoner's house and a heating stove was discovered in the house of his mother-in-law, Mrs. Garvin, Short street. The enamel ware was found in Mahoney's house.

GOING TO THE KLONDYKE

Charles Ingles, who has been in the employ of White's express for the past nine years, leaves tonight for the Klondyke, where he will locate. Last evening a number of friends called at his home on Metcalf street and many offers of assistance to the assembled party presented him with a handsome dressing case. The evening was pleasantly spent with games and music after which refreshments were served and the gathering dispersed about midnight after wishing Mr. Ingles every success in his new home. The funeral of the late Mrs. Bessie A. Lord took place this afternoon at three o'clock from her husband's residence, Water street, West End, to Cedar Hill cemetery, where interment was made. Rev. W. A. Sampson read the funeral service.

DRINK CREATES A NEW TUBERCULOSIS

Prof. Lancereaux Finds it Begins at the Right Top of the Lung.

PARIS, May 15--Prof. Lancereaux, a member of the Academy of Medicine and one of the greatest authorities in France on alcoholism, declares that the abuse of spirituous liquors is responsible for a new variety of tuberculosis. Tuberculosis of the hard drinker develops first, according to Prof. Lancereaux, at the right top of the lung toward the back, whereas ordinary tuberculosis begins at the left top and toward the front of the lung. "This is an undeniable fact," says Prof. Lancereaux, "and whereas a century ago it was universally recognized that tuberculosis began at the left top and in the front part of the lung, it is now quite the contrary in a majority of cases. Many legislative measures have been taken to prevent the spread of tuberculosis, but the only efficacious one would be to check the march of alcoholism."

STRAWBERRIES

(Sackville Post.) The Upper Sackville farmers are evidently going into the strawberry business for keeps. Over ten thousand plants have arrived in Sackville during the last few days, all for Upper Sackville people and it is understood several thousands are on the way. Probably little short of fifteen thousand plants will be set out this spring. Of course, the yield will be very very light this year, but next year there will be something doing in strawberries in the neighborhood of Upper Sackville.

BROTHER AGAINST BROTHER IN THE POLICE COURT TODAY

WILL CONTINUE A SUMMER SERVICE Manchester Line Will Run Steamers to St. John all Summer.

Steamship Manchester Corporation, Captain Heath, arrived today from Manchester, England. After discharging some cargo here she will proceed to Philadelphia for which port he has on board a general cargo. Messrs. William Thomson & Co., the agents of the Manchester line, received word yesterday that the Manchester line will continue a summer service to this port.

BRAVERY SHOULD BE RECOGNIZED

John Thomson, of Long Wharf, a Hero for the Second Time in Two Weeks.

Twice within two weeks John Thomson has distinguished himself by saving human life and is certainly deserving of much credit for his bravery and daring. About three o'clock yesterday afternoon the son of Cal. Kemp fell over the Long wharf, between the crib-work and the trestle. Thomson, who was near by, saw the lad's danger and, jumping over the wharf, saved him from a watery grave. A week ago last Monday Jack Collins, the eleven-year-old son of Oscar Collins, fell over the wharf in about the same place, and but for the bravery of Mr. Thomson would undoubtedly have been drowned. Mr. Thomson's bravery is well worthy of special recognition.

James Brennan Sues His Brother for Board and Recovers \$42.

A case of brother against brother was held up to public gaze, when in police court this morning, James Brennan, proprietor of the Union Hotel, sued his brother Patrick, for thirteen weeks' board amounting to \$42. The case caused considerable interest and after hearing of evidence, in the course of which it developed that the defendant thought he was simply there as a guest instead of a regular boarder--his honor gave judgment in the plaintiff's favor for 12 weeks' board amounting to \$42. When the case was called, his honor remarked that the parties to the suit were brothers, and asked if there was no hope of a settlement out of court, but efforts in that direction proved fruitless. The plaintiff claimed that his brother had stayed with him from Nov. 10, 1906 to Feb. 28, 1906 and had intimated that he would pay him. After witness had lost his wife he wrote his brother, Patrick, then living in the old country and suggested that he come out here. He came and after a short stay returned home, at the suggestion of the witness and brought his wife with him and she was employed at the Union Hotel at \$10 a month. Witness came to the conclusion that since Patrick was not working, this amount could go for his board. Witness stated further that he had on several occasions advanced money to the defendant, who after a time left the house and took his wife with him. He returned, however, and told witness that he might as well pay board there as anywhere else. Witness had got ten him employment in the way of longshore work but received no money from him save \$5 of the money he had advanced and finally told him that he would have to "stop the grub," if he received no payment and at last had him and wife ejected by the police, in March, just as he had refused to go when told to do so.

The defendant declared that nothing had been said about payment for board, and admitted that he had refused to put in a load of coal, saying it was "rather too much like work." He also denied having abused his brother. His wife, he said, was working for Col. Edwards. Defendant has worked aboard the Lansdowne. His honor said that Patrick had no right, since he was a strong able man to expect his brother to keep him for nothing and found, as already stated for the plaintiff.

STORE OPEN TILL 8 P. M. UNION CLOTHING CO., 26-28 Charlotte Street, St. John, N. B. Old Y. M. C. A. Building, ALEX. CORBET, Mgr.

WHY NOT BUY NOW?

We have a very choice selection of the very latest style suits for Men, Youths and Boys.

A ROMANCE OF LOMBARDY. BY MARJORIE BOWEN.

(Conclusion.) "How indeed?" said Visconti, with a curious smile. "And yet there are enough ways of dying ahead of me. I will see for myself—so that if it indeed be Isotta d'Este she may have fitting honor."

Daily Fashion Hint for Times Readers.

HATS AND DRESS OF FINEST EMBROIDERY. The prettiest summer costume of the small maid will be the lingerie hat and dress of fine eyelet or blind embroidery.

WEDDINGS

Mills-Manchester. Apohaqui, N. B., May 15.—An event which has been looked forward to with unusual interest in society circles took place in the Church of the Ascension this afternoon at 3 o'clock, when Miss Emma Manchester, eldest daughter of Mrs. John Manchester, became the bride of Walter J. Mills, of the Sussex Mercantile Company.

For the third of a century the standard for strength and purity. It makes the hot bread, hot biscuit, cake and other pastry light, sweet and excellent in every quality. No other baking powder is "just as good as Royal," either in strength, purity or wholesomeness.

Many low-priced imitation baking powders are upon the market. These are made with alum or phosphate acid, and care should be taken to avoid them, as neither alum nor bone phosphate in abnormal quantities should be taken in the food.

ROYAL BAKING POWDER CO., NEW YORK.

BRITAIN IS PLEASED WITH FAST MAIL SERVICE PROJECT

The Atlantic Line Must be Independent of Railway Control and Treat All Roads Alike—Winston Churchill Denies the Story of Bond's Humiliation

London cable says: In authoritative Anglo-Canadian circles the assent of the British government to the scheme of Empire mail services is spoken of as already assured. The official press of yesterday's proceedings at the imperial conference gives an inadequate notion of the warmth of the support given by Premier Deakin and Ward on behalf of Australia and New Zealand, though they insisted upon the necessity, and are willing to pay proportionately, for at least an eighteen knot service between Vancouver and Australia.

the slightest resemblance or form to what took place at the conference. Sir Wilfrid Laurier, Sir Jos. Ward and Sir Robert Bond were today presented with the freedom of the city of Bristol and afterwards they visited the docks at Avonmouth.

Let me mail you free, to prove merit samples of my Dr. Shoop's Restorative, and my book on either Dyspepsia, The Heart, or The Kidneys. Address me, Dr. Shoop, Racine, Wis. Troubles of the Stomach, Heart or Kidneys are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—means stomach weakness, always. And the heart and kidneys as well, have their controlling or inside nerves. Weaken these nerves and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write for my free book now Dr. Shoop's Restorative sold by all druggists.

Hon. H. R. Emmerson came to the city from Fredericton last night and is at the Royal. He will go to his home in Dorchester probably at noon today. Of his visit to the provincial capital, Mr. Emmerson would say only that he had been in consultation with his counsel, Hon. Wm. Pugsley, Hon. A. B. White and Judge Barry and A. B. Copp.

Confirmation Services. There was a large congregation in the Methodist church of St. John Baptist, Paradise row, last evening, when Bishop Richardson confirmed twenty-two candidates, eleven male and eleven female.

TO BURN THE MORTGAGE

The chief feature of the celebration of the sixty-sixth anniversary of the Ludlow street Baptist church to be held tonight will be the burning of the mortgage. All the Baptist ministers of the city will be present and take some part in the proceedings.

GOT A PAIN IN YOUR BACK?

You get a pain in your back, and you wonder what it means. You perhaps pay no attention to it. Backache is caused by impaired action of the kidneys, in fact, is the first sign of kidney trouble to follow.

WHY SPRING BRINGS WEAKNESS. Winter weakens the system and allows Disease Germs to Enter.

Great epidemics, such as fevers, infectious skin diseases and pestilence break out in the spring. Winter shuts out fresh air from many homes, and only a few get even a little fresh air.

WINTER WEAKENS THE SYSTEM AND ALLOWS DISEASE GERMS TO ENTER. You must create resistance and strength. The blood must be purified, must be given power to expel the seeds of spring fever.

Ferrozene is the only remedy. It calls back vim and energy, fills the body with vitality, makes every fibre sing with new found life and health.

W. J. Mahoney, state deputy, Knights of Columbus, and Dr. T. H. Lunnay, grand knight of St. John council, returned yesterday from Halifax, where they attended the annual meeting of the state council. They report a big growth in the order in the maritime provinces and fine condition, both financial and general prevailing. They also tell of very happy and enjoyable entertainment by the Hal. Knights.

A WORD WITH MR. "PEACE"

No injustice should be done to an official who has served the city as long as Mr. Cushing, and on the other hand no official should set at defiance any reasonable demands made by the board. Those not familiar with civic work cannot speak with authority on the amount of work that should be done by the engineer, but the interests of the city suffer so long as there is serious friction. The whole matter must now be settled, and it ought to be settled without injustice either to Mr. Cushing or any member of the board.

REUF'S CONFESSION

Reuf, the San Francisco boss, has confessed himself a briber and extortioner of the kind that makes city government a scandal and a reproach. Though he is described as having almost collapsed while on the stand he was well enough to make a theatrical appeal to the court and the public, pledging himself hereafter to endeavor to be "a power for good."

VERY POLISHED. Betty—Mr. Cynique is very polished, isn't he? Will—Oh, dear, yes. Everything he says reflects on some one.—Illustrated Bits. DEORATED. "I thought you were working on Crockett's house," said the house painter's friend. "I was going to," replied the painter, "but we had a quarrel and he said he'd put the paint on himself." "And did he do it?" "Yes, that's where he put most of it."—Philadelphia Press.

MADE HIMSELF SO. Naylor—I called to see Nery last night, but he wasn't at home. Subbuba—And he was, he was. Naylor—Not at all, I tell you. Subbuba—But I tell you he was, and very much at home. He monopolized the Morris chair in my den all evening.—Philadelphia Press. LOST IN STRANGE CITY. Five-year-old Earle Fredericksen became separated from his mother on Sydney street yesterday afternoon, about two o'clock, and after wandering through the city at length, he arrived at the Union Depot, where a tenderhearted official, seeing him and at 8.30 last night he was again placed in his mother's arms.

LOCAL GOVERNMENT. After attending a meeting of the government at Fredericton, Premier Pugsley, and Hon. Messrs. LaBilios, Robinson and Messey arrived in the city last evening. At the meeting the question of having a system of inspection of the railways within the control of the provincial legislature was discussed and all the members seemed to favor the scheme. Hon. Messrs. Sweeney, LaBilios and Robinson were appointed a sub-committee to advise as to the method of inducing the young men of the province to settle on crown lands especially suited to agriculture. At the meeting, Judge A. W. Ebbett, of Gagetown, who is going west, was granted leave of absence and R. W. McLellan, of Fredericton, was appointed to fill his positions of judge of probate and clerk of county court for Queens, in his absence. Several applications for wholesale liquor licenses in rural districts of the province were under consideration and refused.

WALL PAPER. We still have a good assortment of Wall Papers at 2c., 4c., 5c., to 25c. Roll, best patterns are going fast. Lace Curtains, 22c. to \$2.10 pair. Window Shades, 15c. to 60c. each. Curtains, Poole, 25 and 35c. Brass Sash Rods, 5c., 10c., 15c., Curtains Muslins.

TO MUCH FRICTION

Ald. Lewis alleges that there is a plot to force Director Cushing to resign office. As ten aldermen supported the motion which Ald. Lewis denounced and he stood entirely alone it is clear that his remarks neither frightened nor converted those at whom they were directed. The issue was clear enough. The board is of opinion that the director should take on more assistance. Possibly some of the members would be pleased to receive their action. From the public such friction has existed for most unfortunate. The Good Association might organize its services as mediator.

A FAIRVILLE ROMANCE

A rather romantic story has found its way from the provincial hospital to the city. About a year ago John Kelly, a young Englishman, acted as coachman for Dr. J. W. Anglin. Being of good appearance and possessing other attractive qualities he became a prime favorite with his employer and the staff of the institution. A young lady attendant nurse in the hospital who is well known in the city became much attached to the young man and the last of April the handsome coachman announced that he had accepted a more lucrative position in Winnipeg and left for the west. About a week after his departure the young lady resigned and her friends have since been unable to learn her address. It is thought, however, that the wedding took place in Manitoba's capital. A well-to-do young gentleman in this city is said to have wooed by him. The new stamping machine has been installed in the post office. It is capable of stamping 1,000 letters a minute, 60,000 an hour. The old machine will be sent to Fredericton and installed there. The new machine was made by the Henry Dolphin Co., New York, and is rented to the government by the International Postal Supply Co. of that city. J. J. Burrell installed the machine. He expects to leave this city Friday or Saturday. From here he will go to Dawson and Vancouver, where he will install these machines, and then to Australia and Japan for the same purpose. By the time he returns to headquarters he will have been seven years on the road installing machines. W. B. Morgan recently secretary of the boys' department of the Ottawa Y. M. C. A. is a former New Brunswicker and an old St. John High School boy. He is to visit Nova Scotia and later will spend the summer with his parents in his old home at Hartland. Mr. Morgan supplied two summers in St. John Presbytery. In 1904 he was sent by the Home Mission committee at Toronto as missionary to the Barr colony at Lloydminster (Sask.) where he labored successfully for two years. He will first spend a few weeks in Charlottetown, St. John and Fredericton.

WOODROW'S PRIZE MEDAL HATS

WHERE JOHN W. GATES OWNS EVERYTHING IN SIGHT

He is the Veritable Czar of the Little Town of Port Arthur, Texas, As He Owns it All Even to the Sewer.

PORT ARTHUR, May 15—There is at least one rift of consolation in the financial cloud that recently gathered in Wall street to envelop John W. Gates. He is still the proprietor of Port Arthur, and he owns a graveyard in the Beaumont oil fields.

Port Arthur is a flourishing city on the Texas Gulf coast, twenty miles south of Beaumont. It has an estimated population of 6,000, and the assertion that Mr. Gates is "proprietor of the town" lacks but little of being literally true.

Along in the early '90s, when Arthur P. Stillwell, now president of the Kansas City, Mexico and Orient Railroad, built the Kansas City Southern, he brought Port Arthur into existence and heralded it over two continents as the southern deep-water terminus for his straight as the crow flies road.

It was to be a great seaport—a young Chicago. Mr. Stillwell is a man of action, and there is no telling what he might have done for Port Arthur in the way of metropolitan building had not Mr. Gates and a coterie of his business friends happened along with designs upon the railroad.

They bought the route and ousted Stillwell. Port Arthur was, of course, a part of the deal. Mr. Gates took a fancy to the place, and such part of it as was not already the property of his railroad he bought, acquiring it indirectly by establishing a bank. Then he placed the bank in the keeping of an obedient lieutenant, and went away trusting the lieutenant to take the index finger of his right hand firmly planted upon the Port Arthur financial pulse.

The lieutenant—George M. Craig is his name—did as Mr. Gates expected him to do, and became the money doctor for everything and everybody in and about Port Arthur. Sometimes he may have prescribed somewhat bitter medicine, and the dose may have run to allopathic proportions, but the people as a rule, swallowed it and tried to relish it, chanting the while, "What a grand man is this Gates."

Then it came to pass in the history of Port Arthur—the town is not quite twelve years old—that John W. Gates gradually secured ownership of or an interest in everything worth having. The Gates bank is the regulator by which all Port Arthur Gates bank, and it is wise to the hapless mortal who dares attempt the breaking of this precedent. Other banks have been started in Port Arthur, but none has flourished like the Gates bank.

A small dark-eyed man of wiry build and great executive force is this George M. Craig, and he sits in a little office in the rear of his Port Arthur home, and studies of some wonderful tarpon fishing—not to mention numerous spectacular poker games—in a local circulation.

WALL STREET TRADING IS STILL PROFESSIONAL

Inactivity Rather Than Weakness the Feature—Broadening Speculation in Commodities—The Condition of Wheat and Cotton.

(New York Commercial)

It seems to be the general opinion of experts that trading in the stock market is characterized by a restricted professional basis, subject to varying degrees of the labor difficulties, actual or prospective, in various quarters, to developments in federal and state proceedings, and otherwise, for the regulation of corporations, to the character and circumstances of the requests for new capital by railway companies and last but by no means least, to the tendency of the rate for loans. There is also a disposition among experienced observers to believe that the early future will be marked by inactivity rather than weakness and that in all but a few highly priced issues, subject to regular massage for the sake of keeping the Stock Exchange organism from arterial degeneration the current levels discount with tolerable accuracy the effects of most of the adverse happenings probable during the next six months. Numerous securities are at figures attractive to investors capable of a broad survey of the business position of the United States and of a logical estimate of market conditions. The situation is not favorable to a sustained upward movement; but, to the present average, though much above the level of the year, is also much below a level that sagacious judges have thought not extravagant, when considered in the light of all the factors bearing upon intrinsic values.

Arguing from these premises, it seems a fair inference that during the next few weeks the market as a whole will display a fair degree of firmness and consistency despite the oscillations of individual issues selected from time to time as points of attack by the party seeking to depress quotations in order to protect over-extended sales. Stocks have been passing of late into stronger hands.

Even on the assumption that unreasonable weather has injured or retarded the grain and cotton crops to such an extent that we must reckon upon a substantial contraction in both, the general position is not as yet undervalued. Reliable organs of wheat and cotton are still in excess of the loss estimated in the new harvest. The broadening speculation in the commodity markets is due to a second one started with an anti-gates policy and met an early death.

Mr. Gates has for several years made it his custom to spend a part of each winter in Europe. He has built a magnificent home on spacious grounds near the beach. Projecting from the front of the ground is a pier running far out into the water to a large pavilion. No matter how torrid the summer may be a welcome breeze always fans the Gates mansion, and although Mr. Gates uses the palace mainly for winter recreation he is also a frequent summer visitor.

His trips to Port Arthur in his elegant appointed private car are invariably the signal for a great demonstration of welcome. United States senators, judges, and other notable of the United States, as well as many foreign noblemen, have been the guests of Mr. Gates in his Port Arthur home, and stories of some wonderful tarpon fishing—not to mention numerous spectacular poker games—are in local circulation.

THE ESTATE OF SENATOR FULFORD

Income From His Business is to go to a Huge Fund for His Grandchildren.

Toronto, May 15—The late Senator Geo. T. Fulford planned a gigantic fund which would be absolutely protected from possible dissipation by his children and would revert to his grand children, was revealed by a motion made before Justice Teetzel at Osgoode Hall this morning. By this scheme the profits of the Dr. Williams' Medicine Company will be set aside, year by year, to form a fund which at the death of the late Senator Fulford's children, will be distributed among the grandchildren.

Mr. Malone explained that Senator Fulford had owned the Dr. Williams Co. and he had owned half the stock in two American companies—Fulford-Hanson Co. and W. T. Hanson Co., which carried on a similar business in the United States and Mexico. Under the will the income from the business was to be funded for the benefit of the grandchildren, while the income from "other investments" was to be immediately distributed among the children. The question was whether the income from the two American companies was to be funded and accumulated, or whether it was to be distributed among the children.

The youngest child of the late senator is four or five years old. Judgment served.

DEADLOCK IN MONTREAL LONGSHORE STRIKE

Montreal, May 15—Matters are at an absolute deadlock in the longshoremen's strike, the employers still keeping aloof from the union men, while the latter are emphatic that they must get their raise of five cents an hour or stay out until they get it.

Mayor Ekera was the new arrival in the situation today. He met the leaders of the union in the afternoon and the men themselves in the evening and gave them his excellent advice, which seems in a fair way to be disregarded by both sides.

In his address to the men, Mayor Ekera told them frankly that they had gone after the shippers a little too roughly and also demanded too much. He suggested that instead of sticking to their demand of a five cent an hour increase it would be in their interest to consider an increase of two and a half cents an hour. By doing this he pointed out the men would show the people of Montreal that they were prepared to be reasonable in the dispute, and if their offer were turned down would place the onus of the trouble on the shippers.

Several speakers followed who dwelt in lively terms upon what they considered as the discourtesy of the shipping federations towards the union, and also stated that if the shippers could not treat their employees as gentlemen they were not entitled to any better treatment themselves. The speakers insisted that the five cent an hour increase was the least they could possibly consider, and also stated that they would continue to strike until their demands were met.

This afternoon three delegates called at the city hall upon the invitation of his worship. They were Messrs. Hugh Allan, of the Allan Lines; W. A. Gear, representing the Robert Redford Company, who are agents for the Donaldson and Thomson lines; and J. Thom, representing the Dominion and Leyland lines. While they were closeted with Mayor Ekera a delegation of longshoremen came in and they were given a hearing soon after in an adjoining room.

Mayor Ekera spoke to both of the gravity of the situation from a commercial point of view, and asked them to do all they could to make a settlement possible. When the longshoremen came out they ordered the newspaper men to get out of the building as quickly as possible.

The shippers were reticent even to the point of muteness. Mayor Ekera will continue the good offices today and it is likely he will try and get the men to start to work as a preliminary for settlement of the trouble by arbitration.

OBITUARY

Mrs. Thomas E. Green, a former resident of this city and a native of Fredericton, died in Boston last Monday, aged eighty-one years. Deceased, who was Miss E. Green, survived by three sons and three daughters, all of whom live in the States.

Salisbury, N. B., May 14—Mrs. Thomas R. Campbell of this place received the sad intelligence this week of the death of her sister, Mrs. Fred Philbert (nee Miss Clara M. Wortman), at the age of thirty-two years, which occurred at her home in Edmonton, Alberta, on the 2nd inst. Mrs. Campbell, at the late residence of Samuel H. Wortman of the state of Vermont, formerly of Salisbury. Besides her husband and father, deceased, leaves three brothers, Walter W. Wortman, of Melrose (Mass.), and Samuel and Stanley of Vermont. The sisters are Mrs. Thomas R. Campbell of Fredericton, Mrs. J. E. Reed of British Columbia and Miss Kate Wortman at home in Vermont. The late Mrs. Philbert spent her childhood in Fredericton, where she had a large circle of relatives and friends who will learn with deep regret of her death.

Digby, N. S., May 15—(Special)—Miss Jeanette Hill died at Miss Ella Burnham's yesterday, after several operations which it was hoped would save her life. She was twenty-five years of age, a daughter of the late Captain Hill of Chelsea (Mass.), and was a member of the Baptist church. She had a host of friends in her native country and had many here who regret to hear of her unfortunate death at such an early age.

Digby, N. S., May 15—(Special)—The body arrived here this afternoon of the late Alice Marie, wife of Charles Mason, who died last Friday at Hanover (Mass.), aged 54 years. Interment was in Forest Hill cemetery, the service being conducted by Rev. H. A. Harley, rector of Holy Trinity church. She survived by her husband and one brother, Vincent Alexander, who resides in Liverpool, England.

State of Ohio, City of Toledo, Lucas County. Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, Ohio and State aforesaid; and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Catarrh Cure. FRANK J. CHENEY, sworn to before me this 6th day of December, A. D. 1906.

A. W. GLEASON, Notary Public. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces of the system. Send for testimonials free.

FIREMAN BLOWN FROM CAB Orangeville, Ont., May 15—Blown from a vintage cab by scalding steam, receiving a fatal wound in the fall, ducked in a pond and lying shivering on the floor of a caboose partly unconscious for over an hour before a doctor appeared, was the experience of C. P. R. Fireman Baker of Owen Sound this morning.

The accident occurred in a mile and a half from here and was caused by the braking of the side rod of the engine pulling a freight train to Toronto. No sooner had the rod broken than the plug blew out and so strong was the rush of scalding steam that Fireman Baker was blown from the cab. In falling he struck the side of his head and fell into a pool of water beside the track.

Mr. and Mrs. C. N. Beal arrived home yesterday from Albany (N. Y.). Mrs. E. L. Perkins and daughters left last evening for a trip to Montreal.

OLEOMARGERINE SOLD FOR BUTTER

Inland Revenue Inspectors Discover Eight Packages of Imitation Butter.

Ottawa, May 15—For the first time in several years oleomargarine has been discovered on the Canadian market. Inspectors of the inland revenue department recently turned in eight samples, which had been sold to them as butter. Two came from Montreal and six from Quebec.

The sellers violated two provisions of the statute, one forbidding the sale of oleomargarine, and the other forbidding substitution or adulteration of articles sold as food.

For the protection of the dairy interests of Canada, it is proposed to take prompt action and prosecute the dealers under both provisions of the law. It is thought that oleomargarine was not made in Canada, but was brought in from Newfoundland or the United States.

James Clarke, who has been for twenty years a conductor with the Canada Atlantic railway, now the Grand Trunk railway, has been appointed inspector of accidents and rolling stock by the board of railway commissioners.

Hon. A. B. Aylesworth left today for Three Rivers, where he attended tonight a banquet given to Jacques Bureau by his constituents, in honor of his being appointed solicitor-general.

GOOD SHOW AT THE NICKEL The five pictures that have afforded entertainment and amusement to some thousands of people during the past three days at the Nickel will be replaced today at noon by an entirely new series, entitled "A Trip to Niagara Falls, Pay Day, Cavalry Exercises, and Weary Willie and the Motor Car."

A Trip to Niagara is claimed to be one of the most realistic and interesting subjects ever secured in motion pictures. Pay Day is described as a "comic of comics," and is one of those funny stories that accomplish the inventor's aim of keeping all in roars of laughter. The scene opens in Campbell's Saloon, Mrs. J. E. Reed of British Columbia and Miss Kate Wortman at home in Vermont. The late Mrs. Philbert spent her childhood in Fredericton, where she had a large circle of relatives and friends who will learn with deep regret of her death.

Digby, N. S., May 15—(Special)—Miss Jeanette Hill died at Miss Ella Burnham's yesterday, after several operations which it was hoped would save her life. She was twenty-five years of age, a daughter of the late Captain Hill of Chelsea (Mass.), and was a member of the Baptist church. She had a host of friends in her native country and had many here who regret to hear of her unfortunate death at such an early age.

ROD AND GUN FOR MAY

Fishing is the subject uppermost in the minds of all sportsmen at the opening of the month of May, and the May number of Rod and Gun and Motor Sports in Canada, published by W. J. Taylor, at Woodstock, Ont., contains many fishing stories. No fisherman should set out on his trip without this companion. He may read of fishing experiences in five of the Provinces of Canada, including New Brunswick and Nova Scotia; he may also note the defence of the dog advocates against the onslaught of those who ascribe the vanishing of our deer entirely to the dogs; and can further find interest and recreation in poring over hunting stories. An illustrated forecast of some of the trips the members of the Alpine Club of Canada will take on the occasion of their second annual camp in July is given while the descriptive account of the Automobile Motor Boat, and Sportman's Show at Montreal—the only one this year in the Dominion—with boating, trap shooting, etc., will provide a variety such as the sportsman can find nowhere else.

Good Reason for Its Success

Without a doubt the largest selling catarrh medicine is "Catarrhogen." Not advertising, but honest merit, has made fame for Catarrhogen, which cures catarrh in any part of the system. Guaranteed under the Pure Food and Drug act, and warranted satisfactory in every case; try it yourself.

SMALLPOX IN DARTMOUTH

Halifax, N. S., May 15—Smallpox was discovered at the hospital for the insane at Dartmouth, Richards, an attendant, has been sick for two days but it was only today that it became known that his illness was caused by smallpox. A temporary hospital is being constructed outside, where the case can be attended to, until in the meantime the entire hospital has been quarantined.

Let me send you three for Catarrh, just to prove merit a Trial Size Box of Dr. Shoop's Catarrh Remedy. It is a snow white creamy, healing, antiseptic balm. Containing such healing ingredients as Oil Eucalyptus, Thymol, Menthol, etc. It gives instant and lasting relief to Catarrh of the nose and throat. Make the free test and see for yourself what this preparation can and will accomplish. Address: Dr. Shoop, Racine, Wis. Large jars 50 cents. Sold by all druggists.

JOHN DILLON'S WIFE DIES

Dublin, May 15—The death is announced of Mrs. John Dillon, wife of the member of parliament for East Mayo. She was a Miss Elizabeth Mathew. The death of Mrs. Dillon will result in the absence of her husband from the Dublin convention on May 21, and the loss of his moderating influence will tend to make the task of John B. Redmond—to induce the convention to accept Mr. Birrell's bill—all the harder.

Hon. A. S. White came in from Fredericton last night and went home to Sussex.

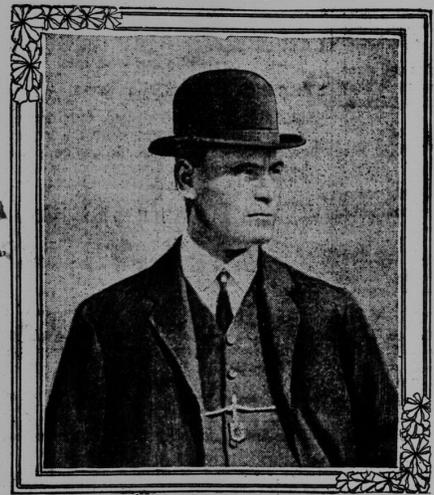

Zin Shoe Polish. Don't be deceived by imitations. It means long life to your shoes to be sure of 2 in 1. Black and all colors, at all dealers, 10c and 25c. Sold by all druggists.

Australian Boxer Begins Training

"BILL" SQUIRES

NEW YORK, May 16.—Much interest has been aroused among boxing enthusiasts over the recent arrival in this country of "Bill" Squires, an Australian pugilist. He has already begun training in San Francisco, even though, as yet, he has not been matched to fight any one.

In his road work he has J. J. Denton, of Fitzroy, Melbourne, as his companion. They went ten miles around San Rafael

day signed the agreement willingly, after he discovered that it was to benefit the Y. M. C. A. The man thought that if he ran Nebraska in Buffalo he would be benefiting Fred Vokes, the 74th Regiment man, who he says treated him badly when he ran Bohag there this spring in the armories. Nebraska meets Longboat in a return match here on June 8th at the C. U. meet, promoted by the West End Y. M. C. A.

AUTOMOBILE AN AUTO STORY.

In Cleveland, that bustling Ohio town where so many automobiles are made, there is a building that makes the best speed indicator ever turned out by anybody, not excepting a Warner. The animal in question has long been known as possessing unusual going qualities. A few days ago it was decided to make a test of its speed. A straightaway course was laid out and the dog in pursuit was a passing motor car. It was learned, with satisfaction, that the brute has a running average of 33 miles an hour. Keen to discover new methods of containing the ever-present speed indicator, the officers thought out a means of utilizing the dog in upholding the law. The dog was made yesterday, proved successful. The dog was sent in pursuit of scorching automobilists and those he could not overtake were arrested.

CONSTIPATION CLOGS THE BOWELS

No other cause produces so much sickness as constipation, and therefore it is dangerous to allow the bowels to become clogged up. Bad blood, dyspepsia, headaches, biliousness, boils, pimples, and piles, are all caused by constipation.

BURDOCK BLOOD BITTERS,

nature's remedy for all diseases of the stomach, bowels and blood. It acts on the bowels and promotes their free and regular action, curing constipation and all troubles which arise from it. It has been on the market for over thirty years so you are not using a new and untried remedy. B.B.B. has cured thousands of others and will cure you. Mr. E. Woodcock, New York Bridge, N.Y., writes: "For over two years my wife was troubled with constipation. She tried several physicians but could get no relief, but after taking three bottles of Burdock Blood Bitters she was completely cured and is to-day in good health. My wife and I cannot speak too highly of B.B.B."

CROP OUTLOOK IN THE WEST

The Prospects Are Not As Unfavorable As Some Reports Indicated.

MONTREAL, May 15.—W. W. Thompson, Winnipeg, Manitoba, the leading expert of the Ogilvie Flour Mills, Limited, stated that the present season is undoubtedly the latest in his experience of a quarter of a century, and the steadily advancing prices for all these grains will in a measure assist the producer very materially, besides being conducive to the general welfare of the country.

"On the whole," concluded Mr. Thompson, "I think we can look forward with a reasonable hope, because of the steadily advancing prices, to a fairly successful season for the farming community."

Alberta, according to reports on the grain exchange, is really better than Manitoba.

Saskatchewan too, is said to be in better condition, especially that fertile section on the Soo line.

An authority on western matters, G. W. Spore, of the Dominion immigration department, has just returned from a tour of the west, and regarding crop conditions he states:

"I find that conditions are very backward throughout the grain producing districts but farmers have been taking advantage of any little time suitable and have been sowing a little wheat. The acreage sown is not very great. Large farmers will continue to sow during the entire month of May. There is still a spirit of confidence among our producers, and no serious fears are entertained as to the results following the late spring. Although conditions have retarded general progress, I am still hopeful that we will have a prosperous year. The area sown in wheat may be curtailed, but coarse grains, somewhat in demand, may take their place, and there has been as much profit in oats, barley, potatoes, etc., and dairy produce as there has been in wheat."

Piles get quick and certain relief from Dr. Shoop's Magic Ointment. Please note it is made alone for Piles, and its action is positive and certain. Itching, painful, protruding or blind piles disappear like magic by its use. Large nickel-capped glass jars 50 cents. Sold by all druggists.

YARMOUTH CONVICT ESCAPES

Yarmouth, May 15.—This morning Percy Tasco, who was sentenced to eight years in Dorchester for burglary, made a daring escape from jail and is still at large. When Jailer Burrill took him breakfast he seized the jailer by the left arm, gave it a quick twist dislocating it at the shoulder, rendering Burrill helpless. Tasco took the keys and made his escape.

ALDERMAN LEWIS FLIES TO DEFENCE OF CUSHING

Sydney Ward Veteran Says Ald. Baxter is at the Bottom of a "Scheme Full of Poison" to Oust the Director — Interesting Board of Works Meeting Yesterday.

The board of works decided yesterday, by a majority of ten to one, that the council should be recommended to amend the by-laws to include those of city engineer. The question arose on the failure of Mr. Cushing to have his plans for the repairs to Union street in readiness for the board. The reason assigned being that the consulting engineer, who was to assist, had not had the time after preparing his own. The occasion was taken by Ald. Lewis to accuse Ald. Baxter and other aldermen of having by means of the superannuation of Mr. Peters, hatched a plot to get rid of the director.

The total cost of widening Union street was mentioned as likely to amount to about \$25,000. Ald. McDonald occupied the chair and Ald. Hamm, Willet, Holder, Sprague, Lewis, Pickett, Bullock, Vanwart, Baskin, Baxter, Christie and Sproule were present with the director, consulting engineer, harbor master and common clerk, General Superintendent Downie and Mr. Brown, C. P. R. divisional engineer, were also present.

In opening the meeting the chairman asked the director if he had any plans and specifications prepared for the repair of Union street.

The director said he had not. Mr. Peters had his hands full getting up his own views.

The consulting engineer then submitted a plan for two crabs; one to be placed on the roadway and the other on the sidewalk. The plan was approved.

Ald. Baxter said with regard to the proposed route for traffic a motion passed June 19 last year had left the matter in the hands of the director to make a roadway and incur any expense. So far the work had not been completed.

Ald. Lewis asked the consulting engineer what instructions the director had given him.

The letter of instructions from the director was read. After stating that he was in a hurry to get the work done, Mr. Cushing wrote that in his view all the work should be done on piles. A portion of the street should be sufficiently restored to permit of pedestrian and vehicular traffic, and piles and trestles constructed to carry the tracks of the C. P. R. from New Brunswick Street to Union street to the east line.

Ald. Baxter said he considered the letter a wildfowl and he did not intend to sign it. He thought it was the spirit of the resolution. He (the speaker) had been looking at the regulations and he would now move that the board recommend that the common council that rule the regulations governing the director of the board, should be amended by adding the words "to permit of pedestrian and vehicular traffic" to the end of the first paragraph.

Ald. Bullock thought the matter should be discussed privately in committee. They started to reorganize once before and soon got into hot water because the situation had not been well thought out. Personally he was tired of the way matters were being carried on. The chairman knew the trouble and could get it remedied. As it was, the plan and also the dredging were all hung up.

Ald. Baxter at this point read a resolution of the common council of Feb. 21, 1906, under which the director was defined as holding his appointment at the will and pleasure of the council. "If the director," continued the alderman, "is not prepared to carry out our instructions, I for one propose that he shall remain no longer in the employ of the city. It's no longer a question of the director taking us by the throat and talking about resigning his appointment and going west, and backing and filling as was done last year. He got his increase then, and was not asked to do a thing more. It comes to this, Mr. Peters can assist but not do anything, and Mr. Cushing must vacate his office or Mr. Cushing must vacate his office."

terial, the expropriation of the thirty foot strip, the damages due to the C. P. R. for shifting the tracks, and the damages to be paid Messrs. A. C. Smith & Co. and the St. John Milling Company. He estimated the total expense would be at least \$38,000. He favored a conference with the C. P. R.

Ald. Frink did not agree with the alderman's suggestion. It would appear, he said, as if the city's officials were incompetent. All the trouble with Union street had been caused by C. P. R. officials asking for another 100 feet of wharf. If they had stayed at home, there would have been no 100 feet and no bill of \$35,000 to pay.

Ald. Baskin recalled that the city had one experience with a C. P. R. engineer which cost \$125,000, when the wharf at Sand Point was carried out by the tide. He would withdraw his motion, however, if a committee was wanted.

On motion of Ald. Baxter the chairman appointed Ald. Holder, Baxter and Christie with himself and the director and consulting engineer to confer with the C. P. R. as to cooperation with regard to the filling.

Ald. Christie moved that the director should be instructed to submit plans for Union street at next Monday's meeting. The director—"What help will you give me?"

Ald. Christie—"Not any more than you had better expect."

The director—"That would be the consulting engineer, I suppose."

Ald. Christie—"Not that far as I'm concerned."

The director—"It's not worth while passing such a resolution, gentlemen. I don't propose to carry it out unless the necessary assistance is given me, then I would be glad to do it."

The motion was put but there was no quorum present.

After a short discussion on whether the gravel from the Carleton pit should still be used on the side streets the board adjourned.

Charles McL. Troop will leave Friday for Cranbrook (B. C.), to enter the employ of the King Lumber Company. J. R. Stone returned yesterday from Schenectady (N. Y.)

BASE BALL CHICAGO GETS JAKE STAHL

WASHINGTON, May 14.—The Washington American League club has sold Jake Stahl to Chicago America Club for a price said to be \$4,000. The club is the result of a recent decision of the national commission requiring Washington club to dispose of Stahl within a week.

KILLED BY FOUL TIP

TROY, N. Y., May 13.—Edward Bove, aged thirteen years, was killed at a baseball game here yesterday. The lad was looking at an amateur game. A foul tip struck him on the head. He was removed to the hospital, where he died later.

VALUE OF THE SQUEEZE PLAY

The "squeeze" style of attack now is for the batsman or the catcher to signal the runner on third to come in on a certain ball pitched. It may be the first, second or third. It's up to the batsman to the plate then to tap the ball to the infield and so pave the way for a certain run.

This is all fine and lovely as long as the sloman isn't wise and keeps 'em over the pitcher. As a matter of fact, however, the hurler always has a good chance of drawing the proper lunch when this play is coming, and all that is left for him to do is to lay the ball a few feet to the side. The runner is then a doomed being.

It would be a good deal better to put the base runner on third vice to the fact that the "squeeze" is coming, but not on any certain ball. He could then get ready for a lead, while the pitcher pitched out one to his liking. Any sort of a punt down the third or first base line will send a fast man home, and the "squeeze" is at its best in a healthy play for a slow base runner to figure in. There might be a few more people nipped at the plate by this method, but the danger of having the sloman outguess the batter would be eliminated. As it stands, there isn't a chance when the pitcher shoves one too far away from the man at bat to even foul.

The "squeeze," however, is a minor detail of team play. Without any doubt the best single element of machine work is the old reliable "hit and run."

To bring back home the best results, you've got to mix 'em up. It's the team which sacrifices its base runner along one time, uses the hit and run the next and springs a clean steal for a change, that keeps the other people guessing. No brand of team play is any good that works by a set system. It's the people who keep their eyes open, watch every chance, work together and think and act quickly that deliver the largest bundle of selected goods.

There's no great task in landing a base runner on first. The main point is to work him around home against first class pitching. There are an awful lot of sensible chances in a ball game, and quite a batch of foolish ones. And it's the team which figures where the risk is due that gets value received for its base hits.

THE TURF TO OIL READVILLE TRACK

BOSTON, MASS., May 16.—As the time approaches for the closing of the

ENTRIES FOR THE MEMORIAL DAY MEETING

of the Bay State Automobile Association at Readville the prospect of a good afternoon's sport increases. The committee this week made a trip to the track and, after looking it over, made arrangements to have it smoothed off for the race and put in first-class condition. The surface will be thoroughly oiled a day or two before the races so that there will be no rust to bother the drivers and make the spectators uncomfortable. It will be necessary to give the track surface a very thorough soaking, as with the 100 and 50 mile races, there will have to be a good surface or the dust will be sure to fly.

It has been decided to start the 100-mile race at 1:30 o'clock instead of 1 o'clock, as previously announced. It was found that if the race was started at 1 o'clock it would be practically impossible to accommodate the many cars filled with spectators which would reach the track after the race began. It was decided, therefore, to keep the gates to the track open until 1:30 to permit automobiles to take up positions along the inner rail. Cars will have to arrive promptly, for after the first meal started it will be impossible to open the gates until it is completed. This will probably mean a period of from two to three hours.

The entries that have so far been received indicate that there will be an interesting contest in both the 100 and 50-mile races. A. E. Morrison, who is one of the best known track drivers in New England, will pilot the Stearns touring car in the 100-mile event, and the Oldsmobile runabout in the 50-mile race. In the longer contest he will have among his opponents the American Mors, a Jacobsen, a Moon and a Dragon, and other high-powered machines will be entered later. There will also be a high-class entry in the 50-mile runabout test.

SOFAS FOR HORSES

An artist was talking about the late Walter Appleton Clark, who died at the beginning of his artistic career. "And you know what a millionaires' stables nowadays are like—floors and walls of translucent white tiles, drinking fountain of marble, mahogany managers, silver trimmings and so forth, and 'Well, gentlemen," said the millionaire, proudly, "is anything lacking?" "I can think of nothing," said Clark, "except a sofa for each horse."

Driver Thomas Holmes has purchased from Mr. Wm. Clarke a promising Judge Wilkes mare, aged five years, which he expects to send to be a pretty good trotting proposition. He paid about \$250 for the mare, which is now with his string in the fast ones at the trotting park. Fredrick Gleason, May 14.

Frank Troit, the well known turf writer has the following in the Boston Globes of recent date:

"Aintree, 2:10 1/4, may go to Nova Scotia. The son of Chimes, who was beaten only a head in 2:05 1/4 last summer, should be a useful horse in that country, for he can race a half-mile track as well as any horse in sight, and is absolutely sound."

The more merrier, With Terrace Queen, 2:06; Simasie, 2:08 1/4; Coney, 2:02; Aintree, 2:10 1/4, and Gloria, 2:10 1/4 probably here in the fall also, there should be lots doing in the free-falls this year.

ATHLETIC Two Hour Race.

The management of the Queen's Railway have made arrangements to start a two hour roller race, commencing Friday night, the 17th, and ending Tuesday, the 22nd, the contestants are to state one half hour each night, after the tenth race. The probable starters will be Alward, Nixon, Wilson, Gibson, Hunter, Coleman, Whitehouse, Gleason, Black and Olive.

LONGBOAT TO MEET NEBRICK

TORONTO, May 13.—Tom Longboat, who had declared that he would under no consideration run Nebraska a three-mile race in Buffalo on Decoration Day, Saturday

Your Hair Going? Stop it, then. And why not? Falling hair is a disease, a regular disease, and your own doctor will tell you the remedy. He knows that Ayer's Hair Vigor, new improved formula, quickly stops falling hair, cures dandruff, and makes the hair grow. Just ask him. We supply the formulae of all our preparations.

TAUGHT SCHOOL FOR MORE THAN FIFTY-FIVE YEARS

M. A. Wall, of Botsford, Westmorland County, Probably Has Longer Teaching Career Than Any Other Teacher in the Province--Taught in St. John for 25 Years.

(Sackville Post.) As my career as an instructor of youth is somewhat chequered I thought I would give to the public through your valuable paper a brief outline of my ups and downs among some of the schools of New Brunswick, hoping it may be of interest to the friends of education in this province. I finished my education in old Sackville Academy in its early days when it was in its infancy. I recollect among the pupils that attended at that time, the present Chief Justice Tuck, Ex-Governor Metcalfe and many others who have distinguished themselves. I attended the training school in St. John obtained a first class home, took a school at Lancaster, St. John, at the age of nineteen and taught in that school district 25 years, thus teaching two generations, or in other words children and their children. When Superior schools were established in the province it became the Lancaster superior school, and continued as such while I remained there. No doubt there are many now engaged in their respective callings, such as doctors, lawyers, merchants, teachers, legislators, politicians, who remember their Alma Mater. Names of schools and length of time taught in each: Lancaster, St. John, 25 years; Jerusalem, Queens County, 3 years; Caraquet, Gloucester Co., 12 year; Midgie, Westmorland Co., 3 years; Jolicoeur, Westmorland Co., 6 years; Upper Cape, Westmorland Co., 4 years; Baie Verte Road, West. Co., 2 years; Baie Verte, West. Co., 2 years; Cape Spear, West. Co., 2 years; Bayville, West. Co., 6 years; Frosty Hollow, West. Co., 1 year; Fair View, West. Co., 12 year; Lost through sickness, etc., 3 years. This shows that I have been 58 years in the school service during that time I lost 3 years and actually taught 55 years, teaching in one place 25 years. If there is any teacher who can beat that record now is his opportunity. Let him come to the front. Finally I wish to say a few words concerning myself. I have been unfortunate in my financial affairs. I was insured in 2 different companies, Fairmount Mutual and Mass. B. A. They both failed and all the money put into them by me for my support in old age went to the wind. I also lost in other ways, so that I am now a sick and helpless old teacher, depending on my friends. I was surprised when I received a letter a few days ago containing a handsome present in cash and stating that he had attended the Lancaster Superior School when a boy for four years and that I was his teacher. He is now a flourishing business man in St. John, and I shall never forget his kindness and generosity. This letter has led me to write this hoping that others may follow his example, and other noble minded men may contribute to their abundance. I may be that some of my former pupils may be inspired on reading this with a like generosity and make a similar donation which will be thankfully received and acknowledged. There should be a fund for broken down teachers, who have worn themselves out in the profession and the province is indebted to those Pioneers of Education who labored at starvation salaries that the children of this country might be educated. Any parties who wish to correspond with me will please address M. A. Wall, Baywater, West. Co., N. B. (Reads Office). Hoping this may be of interest to some readers I flatter myself to think seriously of what they owe to those Educators of the past, I remain, your obedient servant, M. A. WALL.

THIS EVENING

The Every Day Club meets as usual. Kirk Brown Co. in A Gentleman of France, at the Opera House. New bill at the Nickel. Band at the Queen's Rollaway. St. Vincent's alumnae will meet in St. Vincent de Paul Hall, Waterloo street, at 7:30 o'clock. Marathon Athletic Club will meet at White's at 8 o'clock. No. VIII held ambulance unit will meet for drill at 8 o'clock in their armory, 87 Union street. Confirmation in St. Mary's church. Mass meeting of Knights of Pythias in K. P. hall, Germain street, to form Boston '08 club.

THE WEATHER

FORECAST--Moderate to fresh southerly winds; showery this evening, sunnier and fair on Friday. SYNOPTICAL--The low over Ontario and Quebec and showers are now spreading into the Maritime Provinces. To Friday and Saturday, moderate to fresh southerly winds; fair, with light showers, southwest, 12 miles, thick fog at 11 a. m. LOCAL WEATHER REPORT. Highest Temperature during last 24 hours 48. Lowest Temperature during last 24 hours 40. Temperature at Noon, 44. Humidity at Noon, 75. Barometer Readings at Noon (sea level and 32 deg. Falt.), 30.06 inches. Wind at Noon, Direction, S. Velocity, 12 miles per hour, cloudy. Same date last year. Highest temperature, 62; lowest, 42. Fair. D. L. HUFFINSON, Director.

LATE LOCALS

The American schooner W. E. & W. L. Tack, Capt. Haley, cleared today for Hillsboro, to load plaster for a United States port.

W. Adams and wife, Toronto; A. H. Wagenseil, New York; Thos. Parkinson, Boston; Chas. Burnhill, Portland, are at New Victoria Hotel.

The American schooner Julia P. Cole, Captain Jerome E. Cole, cleared from St. George, N. B., on the 13th inst., for Norwalk, Conn., with 18,200 bundles wood pulp, shipped by the St. George Pulp and Paper Company. Valued at \$5,886.

British schooner Cheslie, Capt. Brown, arrived this morning from Fernandina with a large cargo of pitch pine lumber. She brought as a passenger one donkey for R. Earle Burgess, of Wolfville.

During the month of April, 1907, 1,348,746 bushels of potatoes were shipped over the B. & A. R. R., making a total from crop of 1906 up to and including April 30, 1907, 10,785,621 bushels, or an increase of 3,916,472 bushels over same period in 1906--Bangor Commercial.

Director Wisely has bought a new horse for the fire department and has placed it in No. 1 Wellington fire station. The horse is grey in color, and is four years old, and under the training of Herbert Alward, engine driver of No. 1 company, will, as he says, make a good one, and a fine mate for the black horse, Jim. The bay horse, Star, has also been sent to No. 1 station, from No. 2 station, and will be used for the hose wagon.

GREAT NEW STORY TOMORROW

The Blue Diamond

will begin the publication of a great new serial story, The Blue Diamond for which the rights have been secured for this territory. It is a romance of English life, and of absorbing interest throughout.

THE FAMOUS HALL METHOD. Boston Dental Parlors.

The Sportsman's Rubber Blankets

Three and 4-fold Cherry and Oak Screen Frames, at half price. All in very handsome woodwork.

Feather Pillows, best quality, at low prices and with fancy ticking covering.

CIRCUS COMING HERE IN JUNE

Hargreaves' Circus Will Play in St. John on June 5th.

St. John is to be visited by a circus on Wednesday, June 5 Arrangements have been made for the use of the grounds near the Marsh road, known as the old shipyard, situated just across the Marsh bridge, and in the rear of the blacksmith shop at that point. The attraction is Hargreaves' American Circus, and consists of fourteen cars of properties, etc. Mr. Dixon, the advance agent of the show, is now in the city making necessary preparations. The advertising car will arrive next week, when the posters will be displayed, showing the many magnificent, stupendous, gorgeous and awe-inspiring features, as the showman would say. Hargreaves' circus has never been seen in Canada before, though it is well known across the border and has given performances in Maine the past four or five years. In addition to showing here the organization will make two stops between this city and Sydney, and then go up along the north shore and into Quebec.

GETTING READY FOR THE SPORTS

St. Mary's Band has been engaged to play at the sports on Victoria grounds on May 24th.

A Kings county runner will compete in some of the races on that day. Several runners were practising on the grounds again yesterday, or on rolled the grounds will be in good condition, both for sports and base ball.

A larger attendance of members than usual at the Victoria grounds is urgently requested for this evening, if it is fine. There will be a meeting of members later at the club rooms, at 8:45, when business matters will be discussed and the committee on Friday evening's entertainment programme are asked to report.

Those who intend participating in the sports on the 24th should not forget to send in their entries before Monday night next.

Pelley--Lunnon

A quiet but pretty wedding took place on Tuesday last at the residence of the bride's sister, Mrs. Archibald Field, 86 Sherbrooke street, when Miss Margaret Lunnon, daughter of the late Edward Lunnon of St. John's Nfld., became the wife of Edward Pelley of this city. Rev. E. B. Hooper, rector of St. Paul's church, performed the ceremony, only the immediate friends and relatives of the contracting parties being present. The bride was attired in a costume of champagne voile and was attended by Miss Margaret Bennett. The groom was supported by Mr. Fields. Many beautiful and costly presents were received. Mr. and Mrs. Pelley will reside at 84 Sheriff street.
