FAMOUS GEMS OF PROSE

A WORKINGMAN'S PARTY By Edward Everett.

From an address to the whigs of Charlestown, Nov. 7, 1834.

MR. MODERATOR, to a workingman's party, in my apprehension of what ought to be the composition of a party so dominated, that is the great mass of honest and industrious men of every pursuit and calling, and the exclusion of the irreligious and the immoral—the idle, the intemperate, the busybody, the do-nothing, the miser, the spendthrift—to such a party I am so far from being opposed that I would fain be thought an humble member of it.

It may be in your recollection that some two or three years ago I endeavored, in a public address from this place, to set forth the true principles of such a party.

I know not whether my claim to be a workingman will be allowed by all who compose it, as at present organized. I have, since I have been a public man, been denounced very frequently as an aristocrat. I do not know precisely what that imports in a court of law; but I do know that I have no object in life, but by the steady and laborious exertion of an humble capacity, to discharge the duties of a good citizen and an inoffensive neighbor, and to bring up my children in the paths of virtue, temperance and honest industry.

If this makes a workingman, I am one.

Let me go farther and say that I have no feelings at variance with the rights and interests of those who, in the narrower sense of the term, are more commonly classed as workingmen. I was born and brought up in that condition of competence bordering much more closely on poverty than riches. I got the chief part of my early education at the public schools of my native town, Dorchester, and Boston; and if on the face of the earth there was ever such a thing as an humble and friendless orphan boy, I felt myself such the day I first made acquaintance with good old Master Tibleston's ferry at the North End writing school.

God knows, that if anything on earth commands my sympathy and respect, it is the struggles of the poor and poverty and want of the world, under the obstacles of want and poverty and want of friends.

If I thought these feelings peculiar to myself, I should have kept them in uttering them. It is because I know they are not—because I speak in the hearing of hundreds whose bosoms beat with the same emotions—that I boldly appeal to them to give me credit for participating in them.

For a moment the two men faced each other silently, the one amazed by the news he was imparting, the other staggered by its seeming absurdity. Then he spoke in a low, hoarse voice.

"Look here, Mr. Brett," he went on, "if Jack himself stood there and told me that he was a 4-4 last!"

"I don't know what you mean," cried the other, "but I will believe it if I see it!"

"It will do nothing of the sort," cried the other, "but I will believe it if I see it!"

"It will do nothing of the sort," cried the other, "but I will believe it if I see it!"

"It will do nothing of the sort," cried the other, "but I will believe it if I see it!"

MORNING NEWS OVER THE WIRES

Bates-Powell will open the Toronto exhibition this year. He will inspect the 5,000 boys counts of the city on the opening day.

It was announced yesterday that on August 15, 1910, the 500th anniversary of the death of St. Stephen will be celebrated in Toronto.

Many recommendations were made for better fire protection in Montreal last

THE ENQUIRY

The necessary enquiry has been sent to Mayor Frink and the city council will set to investigate the Main street paving contract. Inspector Carleton has stated that the foundation being laid is fifty per cent cheaper than that called for in the specifications.

The council will want to know whether this is a fair statement of relative cost, and also whether the other contractors were given to understand that they could get a cheaper substitute accepted by the engineer.

HERE'S A SAMPLE

Any citizen who wishes to know whether the street department does its work thoroughly should pay a visit to Ward street, the short street running from South Wharf to Walker's wharf. It is a street of wholesale houses, with heavy traffic. It has lately been macadamized.

When a minister from the pulpit deals with such delicate matters as a great strike he should measure his words. The Ottawa Citizen furnishes a case in point: "The rev. gentleman who preached the sermon on Sunday night, accusing the newspapers of Ottawa of being dominated by capitalist influences to the extent of suppressing the men's side of the case during the strike, now says that he was misreported; that he did not refer specifically to the Ottawa newspapers, but to the whole press of Canada. On the other hand, the remarks of the gentleman, as originally published, were based upon information furnished by that body regarding the Ottawa press. You pay your money, and you take your choice."

RUMORED CRIPPEN HAS CONFESSED

All Authorities, However Vehemently Deny That a Statement Has Been Made by Either Crippen or Miss Le Neve

Quebec, Aug. 6.—It was persistently reported here last night that Dr. Crippen, the accused murderer, had confessed to having killed his wife, Belle Elmore. The statement is said to have come from the office of the attorney-general, Inspector Dew and the police authorities vigorously deny the report, claiming that it is absolutely untrue. Crippen is rumored to have said that he would make no fight here, but would do so on the other side.

Sir Lomer Gouin, attorney-general, denied that he knew of Crippen making a confession to Le Neve either. Crippen's counsel, Arthur Newton, in London, said yesterday that he did not believe the facts brought forth to their attention, and they are far from comfortable. From many other counties there is

similar complaints, so numerous that there is alarm in local government circles, and some of Mr. Hazen's supporters are saying he must not only change the road law but revolutionize his whole scheme of dealing with public expenditures. Mr. Hazen will do nothing of the sort. It is too late for one thing, and he has shown clearly that he cannot organize or reorganize, least of all when under fire. The whole province has found him out. The day of settlement is to come.

PLAY THE GAME

The gentlemen who play base ball would do well to restrain their feelings if they expect the public to patronize the game. When bats are thrown or players manifested a desire for pugilistic encounters the people who want to see a ball game are likely to protest, and, protesting, stay away. The games that have been played on the Every Day Club grounds this season have attracted large crowds, but it has seemed as if the series drew to a close that something more than friendly rivalry had developed among some of the players. Last night a player who was hit by a pitched ball lost his temper and threw a bat at the pitcher, and, but for prompt interference there would have been a fight in presence of seven or eight hundred spectators, including many ladies. No doubt the man who threw the bat is sorry today, but the time to be sorry was before it left his hand. If there is bad blood between any members of the teams the field is not the place to settle it. The man who plays base ball where there are gate receipts is under an obligation to the public to play the game and do nothing else. Moreover, the agreement of the teams with the league of the grounds is that the latter are to be used for base ball purposes only. Quarrelling is not base ball, nor will it be so interpreted. The onlookers at the games would make for peace if some of them would do their shouting in some secluded spot the night before. Let us have peace.

There may be a stormy time at San Sebastian, in Spain, tomorrow. Church and state threaten to clash with serious results.

Food supplies are running short at Campbellton and recourse may be had to the fund which it was hoped would be available to aid in erecting homes for the people. There is still great need of generous aid.

Sir Wilfrid Laurier has again promised the western people freer trade. There can be no doubt of the government's intention in this matter. The premier speaks manfully, however, as befits his position of great responsibility. It must be admitted that the western folk are not loath to any opportunity to press their views. The tariff once more looms up in the politics of Canada.

When a minister from the pulpit deals with such delicate matters as a great strike he should measure his words. The Ottawa Citizen furnishes a case in point: "The rev. gentleman who preached the sermon on Sunday night, accusing the newspapers of Ottawa of being dominated by capitalist influences to the extent of suppressing the men's side of the case during the strike, now says that he was misreported; that he did not refer specifically to the Ottawa newspapers, but to the whole press of Canada. On the other hand, the remarks of the gentleman, as originally published, were based upon information furnished by that body regarding the Ottawa press. You pay your money, and you take your choice."

An editorial in the Boston Herald says: "Despite the liberal gifts of supplies and money which Campbellton has received from outside friends, the stricken inhabitants are facing the extremities of a severe winter. Towns in Alaska or Nevada gold fields, beside the transcontinental railroad surveys or when smitten by fire in Indiana. But when a town is smitten with flood or fire, like Galveston, Jamestown, Martineque, Messina or San Francisco, there comes the great test of its utility. Small towns like Campbellton are the strong pegs which hold nations together."

MR. HAZEN'S FAILURE

Premier Hazen is reaping the harvest that springs from broken pledges. The Telegraph the other day told of the disgraceful condition of the roads in the vicinity of Grand Bay, and the Standard, which foolishly rushed to Mr. Hazen's defence without any consideration of the evidence, made a vicious attack on the Telegraph. The latter journal came back yesterday with interviews from leading citizens whose names are given and who show that the roads are even worse than the Telegraph had stated. The evidence is conclusive. Commenting on it the Telegraph says: "The matter is most damaging to the Hazen government. Premier Hazen and several of his supporters have had some of the facts brought forth to their attention, and they are far from comfortable. From many other counties there is

TRUPE. "That's just like a man." "What is?" "Never hungry except on the nights when I have a picked-up supper."

PROVING THE SUDDENNESS. "Your poor husband met a sudden death, didn't he?" "That's what we're trying to prove" replied the widow, "but the chauffeur swears he wasn't going over 20 miles an hour."

THE MODERN SPELLER. When little Katherine came home from school, her aunt asked her what she had learned that day. "I learned to spell walnut, was the proud reply. "H-e-c-k, wal; o-o-y; nut; walnut!"

STRANGE AND DOUBTFUL. "Well, that was a remarkable experience." "Brown said he'd take me to a spot where we could catch a nice mess of fish." "You didn't get a bite?" "No, that's the remarkable feature of it. We actually caught fish there."

TIME ENOUGH

I know it is early morning, And hope is calling loud, And your heart is a-fire with Youth's desire To fling along with the crowd, But linger a bit by the roadside, And lend a hand by the way. The curious fact that a generous act Brings leisure and luck to a day.

I know it is only the noontime— There is chance enough to be kind But the hours run fast when noon has passed, And the shadows are close behind. So think while the light is shining, And act ere the set of the sun. For the sorriest work that a soul can know Is to think what it might have done.

I know it is almost evening, And the twilight is long. If you listen and heed each cry of need You can right full many a wrong. For when we have finished the journey We will all look back and say: "On life's long mile there was nothing worth while but the way." Ella Wheeler Wilcox

FISHERMEN WERE SAVED

Members of Crew of Schooner Cavalier Thought Lost Off Coast of Labrador Turn Up Alright

Gloucester, Aug. 5.—The crew of the schooner Cavalier, Capt. Robert Porter, which arrived yesterday from a halibut voyage to Balakias banks and the waters of Labrador, were greatly surprised when they hauled their vessel into the wharf to be greeted by two of their ship mates, "Bennie" Campbell and Albert Roberts whom they supposed had perished among the ice floes of Davis straits and for whom the vessel drew her colors at half mast on entering port.

The Cavalier was on a halibut trip, and about three weeks ago the crew, while the vessel was anchored about 100 miles from their travels. While so engaged a storm arose, cutting off all possibility of their regaining their vessel, although the little schooner was a craft, so they were more fortunate. The two men, being leeward, were cut off by the force of the waves and drifted before the gale. They succeeded in keeping their craft afloat through the night and the next morning came in with a thick fog, which continued until they reached land, 72 hours later. Fortunately the men had a compass and they headed for the land, using their oars and dory sail. They had nothing but a jug of water, which they husbanded throughout the three days and nights they were astray.

Their greatest peril was in the fact that about three miles away from the coast of icebergs and ice floes, which at any moment might crash into and crush the little schooner. While so engaged they were compelled to observe the utmost vigilance in threading their way to land. However, after making the coast of the Labrador coast, the site of the mission of Dr. Grenfell.

They were thoroughly exhausted from hunger and loss of sleep, all of the latter being gained in short naps in 1400 feet of the dory while the other stood guard. They were succored by Dr. Grenfell, and his men, and occasionally touched that out of the way settlement, which landed them at Newfoundland from which place they were dispatched home by the American consul, arriving here yesterday.

Exports of Frozen Meats from Victoria, N. S. W.

The Victorian export of frozen carcasses of mutton and lamb has this season beaten all previous records. So far the best showing of any single year was held by the 1907 season, when about 50,000 carcasses were shipped. But from July 1 of last year no less than 1,060,047 carcasses of mutton and lamb have been shipped abroad, largely from the port of Melbourne. It is estimated that when all returns are in the present season will displace any of its predecessors by about 250,000 carcasses. It is reported that considerable improvements have been made in the shipping facilities of Melbourne. A new pier is to be constructed at a cost variously estimated at 1,400,000 to 1,700,000, the apparent discrepancy in the estimate being due to the fact that it is not yet decided what fresh storage facilities are to be provided in conjunction with this pier. Deciding operations on a large scale will precede the construction of the pier. One proof of the progress of Victoria is furnished by the continued growth of its population, both by natural increase and by immigration. The estimated population at the close of the first quarter of this year was 1,202,034, the excess of males over females being 10,496. The natural increase of the population in the first three months of the current year was 3,029, while the excess of immigrants over emigrants was 1,481.

KING GEORGE STAMPS

New Issue Will Not Be Printed by Firm That Has Had Contract for Past Thirty Years—Some Reminiscences.

At WATSON & Co.

Cor. Charlotte and Union Sts. Issuer of Marriage Licenses. Phone 1685

London, Aug. 6.—By a coincidence, the new King George stamps are to be printed by a firm fresh to the business of British postage stamp manufacture. It is announced that the contract with the famous firm of De La Rue and company, who have been responsible for the printing of all British stamps for the past thirty years, will not be renewed when it expires at the close of 1910, a lower tender for the work having been received from another firm. "We regret the change," the secretary of the company said, "very largely on account of its effect on our staff. Several hundred workpeople will have to go, and some of them are very old employees. At the same time, it only means the loss of a portion of our stamp business, for we print vast numbers of stamps for the colonies and the smaller foreign nations." The first penny stamp printed by Messrs. De La Rue was the venetian red of thirty years ago, superseding the clumsily-executed and heavily-printed rose-red familiar to all collectors. In the same year also they printed the first full-size half-penny—the Queen Victoria green—following the quaint little half-size red first produced in 1870. In the second year of their contract came the best known of all British stamps, the Victoria penny lilac. Those of the impression which had fourteen instead of sixteen "pearls" on the border are now worth 3d each, if unsoiled. Those of the impression of 1885 were the 2d, 1 1/2d, and 6d. oblongs, the same size as the ordinary stamp, but with first designed longwise—an awkward arrangement that was quickly abandoned. Over five thousand million stamps have now to be printed every year in this country.

Migration to Southern Lands

There is no more promising sign for the southern states, and we may say for the country as a whole, than appears in the quiet migration of the people from the central west and the northwest, and even from Canada, to farming lands in this section.

crop, and especially those fruits and vegetables which are in constant demand in growing industrial communities and cities. The farming possibilities of the southern states and the benefit to be derived from them are not fully appreciated there.

Daily Hints For the Cook

STUFFED TOMATOES.

Select smooth, round tomatoes of equal size. Cut a slice off the stem and remove the pulp carefully and fill the shell with the following mixture:

Chop fine the chicken or veal left over; use equal parts of the meat and crumbs of bread; add the yolks of two hard-boiled eggs, season with chopped parsley, a little onion juice, pepper and salt. Moisten with the pulp taken from the tomatoes or stock, or with both of them.

Cover the top of the stuffing with bread crumbs moistened with melted butter, bake them about an hour or half an hour until they are tender, but not fallen out of shape.

Have a little water in the bottom of the baking pan; use them for garnishing meat dishes or serve them on rounds of brown bread as an entree.

CHERRY PUDDING.

Beat two eggs lightly, add one cup milk, little salt, tablespoon sugar and sufficient flour to make a thick drop of batter, adding one teaspoon baking powder to each cup of flour.

Lastly, stir in one cup of stoned cherries. Turn into a buttered mold and steam two hours until done. Serve with a hard sauce.

BEEF A LA MODE.

Order three to five pounds of round beef and have the butcher skewer it and tie the roll with stout twine. Make five or six incisions and stuff them with fragments of salt pork. Then put the meat in the vessel in which it is to be cooked, add salt, six peppercorns, two bay leaves, a little mace and two Bermuda onions.

Pour over all two tablespoonsful of cider vinegar, cover the vessel and let it stand over night in a cold place. This is done to permit the seasoning to permeate the meat. It must be cooked not more than one hour—that is, without water, so pour off the juice that has drawn during the night and start the roasting with a piece of salt.

When this shows signs of cooking away, put in more stock and add the juice again. When the meat has been browned on both sides, simmer very slowly until the meat is tender and then allow it to get cold in such juice as remains. Hominy, boiled very dry, goes very well with this meat, which is far more delicious cold than hot.

CREAM OF SPINACH SOUP.

Two quarts spinach, small onion, butter size of egg, pint of milk, salt, pepper, paprika. Thoroughly wash and pick apart the spinach. Put to boil in two cupsful of water, with the onion cut up in three or four thick slices. Stew for one-half hour; take out onion now and drain water from spinach and set aside. Chop spinach fine, put through a puree sieve and add to the puree the water the spinach was boiled in. Bring milk to a boil.

Add to spinach mixture; also add salt, pepper and butter; serve with crostons.

BLUEBERRY PANCAKES.

While sour milk is best for these, sweet milk and baking powder will answer. It is a good idea to make the batter of flour and sour milk in the evening and let it stand over night, adding the soda, salt, berries and eggs in the morning. To make them, mix together two cupsful of sifted flour and two scant cupsful of sour milk. Beat well. In the morning stir in one teaspoonful soda, a teaspoonful of salt, two cupsful of berries dredged with flour and the yolks of two eggs well beaten. If the batter seems too thin, add a little more flour. Lastly, fold in the stiffly beaten whites and bake on a hot griddle well greased. These cakes may be made without eggs and be the more tender for the omission.

Court Welford, I. O. F., will hold the annual Foresters' excursion and blueberry picnic at Welford on Saturday, Aug. 27. The City Cornet Band will furnish music for dancing in the beautifully decorated pavilion. The usual games and sports will be on the programme of amusements. The ladies of the Church of England will furnish excellent meals.

The Evening Chit-Chat

By RUTH CAMERON

THE time when half a dozen professions were all that were open to women is now left in the dim past and is almost as unthinkable as stage coach transit.

Women daily are entering new fields of endeavor and making good at new lines of work.

It is good for other women in conventional positions to hear about their more original sisters, both as a matter of human interest and because of the germ of suggestion that may await them there.

For that reason I devote this column occasionally to telling of some of the "other things" that women are doing.

If there are any women among my readers who have unusual occupations I wish that they would write and tell me about them so that I might pass on the story.

Be sure to tell the advantages and disadvantages of your occupation, how you started in it, what education is necessary and what the compensation is apt to be.

One of the most interesting methods of earning a livelihood with which I ever happened to come into personal contact, was a bird boarding house.

The keeper of this establishment made a fairly comfortable living by boarding birds whose owners were travelling and by treating sick birds. She also raised a few canaries.

She had no especially built aviary, but simply devoted three large sunny rooms in her home to her birds. Canaries and parrots were the chief of her guests, but she also had many less common birds such as Japances nightingales, thrushes and bullfinches.

For a well canary she charged twenty-five cents a week; for a parrot fifty. Sick birds cost according to the care they required.

Although she is very fond of her work, she says it is by no means as easy as it sounds.

There is much responsibility, as many of the birds are very valuable. One beautifully plumed parrot, which she was treating was valued at \$300. One hundred dollars is a very common price to pay for a good bird.

Then the diet of the sick birds, most of which are being treated for indigestion is a great care. Of the fourteen parrots that she had when I visited her, no two were being fed alike.

But, then, of course, there are responsibilities and difficulties in all kinds of business and the lady of the birds thinks that for anyone who has a home where she can keep the birds so that she need not reckon rent, and who loves and understands birds, there is a comfortable living in the business.

In talking with this woman about the diet of her guests, I stumbled upon a business as much more unique than hers as hers is than school teaching or any ordinary profession.

My lady of the birds has to have a certain kind of meal worms for some of the soft billed birds.

"Where do you get them?" I asked.

"From a New York dealer," she said, "but I used to get them from a woman a few miles from here who raised them for a living."

Don't you think that caps the climax?

These worms are merely ordinary meal worms—the kind that come in your meal creak if you aren't careful. Certain birds have to have them. The raising is done by putting meal and two or three other things into a dark creak and letting the worms breed. When ready for the market they are sold for eight cents a dozen. This woman not only supported herself, but educated her two children and sent them abroad on the money earned by raising meal worms.

Can you beat it?

Now don't neglect to let me know of that unusual thing, perhaps more unusual than any of these, that you are doing.

**TROUBLE AT THE CLIPPER-ST. JOHN BASE BALL GAME**

Result of Game in Dispute and Players Nearly in a Fist Fight

The result of last night's game between the St. John's and the Clippers is in dispute and not only this but the play was marred by an incident which nearly resulted in a fist fight and which brought crowds running across the field, to the centre of the diamond where two of the players were being held in restraint by others.

The St. John's led the Clippers all the way, and the score stood 9 to 0 when the game was called soon after the start of the fourth inning, owing to the fact that the St. John's claim the game, but the Clippers contend that the match does not count and will have to be played over again. Their contention is that it takes the innings to make a game, while the St. John's claim that there is an agreement to call a stop at 8 o'clock, and that the game should be called at that time.

During the third inning, Tommy Howe in the box, Eddie Hanney came to the bat and a pitched ball struck him on the side of the neck and he fell. On regaining his feet he threw the bat at Howe, but the latter dodged it. It looked like a fist fight, but some players got between the men. Many of the spectators had left the benches and grandstand and had run on the field, and there was considerable excitement for a while. The incident brought from members of the St. John's statements that would be rather serious if substantiated.

The following is the score:

**PROPER FLYING OF SIGNALS AND THE NATIONAL FLAGS**

Information That Will be of Interest to Members of the Various Outing Associations—How and When Flags and Signals Should be Flown—Yachtmen Paste This in Your Hat for Reference

With R. K. Y. C. St. John Boat Club, Westfield Outing Association, Renfrew Outing Association, and Long Beach Outing Association, all with large memberships and each having a large fleet of sailing and rowing craft, practically all of which fly bunting of some description, the question of the flying of flags, the meaning of certain signal flags and national flags, that it is permissible to fly, is becoming a live question.

Many questions are asked about the meanings of the various flags, which are flown according to the laws of the country, the rules of the yacht clubs and the usage of yachting.

Colors, properly speaking, consist of three flags, except the club burgee, and the private flag, and of these the ensign is the one most often improperly used.

The laws regarding the flying of proper national colors are very strict, but the ensigns they have not been enforced. The Canadian Navy will probably cause a more strict observance of them.

**The Ensign**

There are four ensigns, but of these three only may be flown by Canadian yachts. The White (or St. George's) Ensign is reserved exclusively for the British Navy, as is also the Union Jack, and any vessel or boat other than a warship flying either of these is liable to a fine of £50. The Blue Ensign is the flag of the Royal Naval Reserve, and it may be flown on a yacht having a warrant from the British Admiralty. The R. N. Y. C. has an Admiralty Warrant, but a yacht belonging to this club wishing to fly the Blue Ensign must have a special Warrant issued by the Lords Commissioners of the Admiralty. Flying the White Ensign without a warrant carries a penalty of £500. The Blue Ensign must always be flown in conjunction with the White Ensign, which the warrant is issued; that is if a yacht belongs to two clubs, one of which has a warrant and the other does not, the Blue Ensign should be flown only when flying the burgee of the club with the warrant; the use of the burgee of the club without a warrant calls for the Red or Canadian Ensign.

The Red or, preferably, the Canadian Ensign is the proper flag for all yachts without Admiralty Warrants.

This proper ensign should be flown as follows:

The Canadian or Red Ensign by yachts without Warrants.

On schooners, when under way, at peak of mainmast.

On power craft, when under way, at the foremast.

On launches and dinghys at stern jack-staff.

The Ensign is the only flag that may properly be flown from the mast.

**The Club Burgee**

The Club Burgee is the distinguishing flag of the club. The R. K. Y. C. Burgee is a pennant, with one blue and two white stripes, and the distinguishing mark being a white St. Andrew's Cross, and the upper red Royal Crown, the latter being on the top of the flag.

The R. N. Y. C. Burgee is a blue pennant with a golden anchor, from the center of the flag, and a white burgee, using the private flag only.

The Burgee is flown as follows:

On schooners and two-masted power craft, at main truck.

On sloops and other single masted sailing and power craft, at main truck when under way or when cruising alone.

On masted power boats, on bow jacks when under way or cruising alone.

The private signal is flown on a yacht being a personal flag is not transferred to new owners should a yacht be sold.

On sloops and other single-masted sailing and power craft at main truck when under way with the squadron, when racing, or when entering or leaving the club's home port.

On masted power boats, on bowsprit when cruising with the squadron, when racing, or when entering or leaving the club's home port.

**The Jack**

As previously stated, the Union Jack is reserved for the British Navy, but the Pilot Jack (which is the Union Jack with a white border) may be flown on yachts in company with a Vice-Commodore and red for a Rear-Commodore. On a single stickler they are worn at the main truck, from 8 until sunset, either at anchor or under way; on a vessel with two masts they are flown from the foremast and the mainmast, the Vice-Commodore's as well as the club to which he belongs. The Fleet-captain, who is an appointee of the Opposition, and not an executive officer, also flies his official flag in place of his private signal, and on single sticklers it is also substituted for the Burgee.

**Meal and Abent Flags**

The other flags flown daily are the meal and abent pennants. At meal times a small white rectangular flag is flown from the main starboard spreader, giving warning that visitors should wait while, as the bad form is to have it flying. A small blue rectangular flag flown from the main starboard spreader signifies that the owner is not on board. Meal and abent flags are not colors and may be flown at any time they can be seen by the other yachts in the vicinity.

**White Flag**

From sunset until 8 a.m. a night pennant is flown from the main truck, with yachts with masts, and on the bowsprit of masted power boats.

These flags are flown from 8 a.m. and lowered at sunset, the time being taken from the clubhouse or, if away from the club station, from the senior officer's watch. The only point to be made in making colors no two flags should be set up on the same hoist, and the burgee of two clubs should not be flown at the same time on one hoist.

**FOR SKIN DISEASES**

**A Treatment That Costs Nothing Unless It Provides Satisfactory Relief**

I have a grayish-white ointment with a pleasant odor that is clean to use, which is the best I have ever used for the relief of skin diseases. It is especially efficacious for overcoming eczema in all its various forms, pimples, acne, blotches, freckles, itching, and burning caused by skin eruptions. It is so simple to use that it can be used by anyone. I have had a number of letters from patients who have written me that they had been cured of their skin diseases by using my ointment. I want you to try Rexall Eczema Ointment. The first application gives a refreshing sense of relief, and because of its germ-destroying power, it eradicates the germ or parasite which causes eczema and many other eruptions. It quickly allays the inflammation, gives protection to the inflamed surfaces, and helps restore healthy tissue. It is particularly active in relieving skin ailments peculiar to children. You certainly cannot use anything by trying it. I would not dare make this offer except I am positive Rexall Eczema Ointment will satisfactorily benefit you. The size, 50c. and \$1.00. Remember, you can only obtain it at my store, The Rexall Store, Chas. R. Watson, 100 King street.

**TIRE FEET**

It's not the rush of society that tires you, it's the weight that bears directly on the arch of the foot. We have a new method of making shoes and foot wear, that isn't the old-fashioned, back-to-back, shoe with a hundred other distressing details. It's a shoe that is made by all the best makers in the world. The shoe is made by the Rexall Store, Chas. R. Watson, 100 King Street, Toronto.

**AN AUTO AUGUST**  
 (Worcester Telegram.)

In anticipation of the crops of a small section of the west, it is reported that five thousand automobiles are stored in Kansas City ready for delivery to farmers as soon as they get their crops. The products next month. That bunch of motor wagons is valued at \$8,000,000, and is delivered for the advance. Some of the farmers get pay in advance for portions of their crops, and in what makes the date for moving the autos come in August.

**LONDON FINANCIAL NEWS ON COLONIAL PREFERENCE**

An Interesting Discussion on the Recent Debate in Parliament and Sir Wilfrid Laurier's Tour Through Western Canada

(London Financial News.)

Once again the question of Colonial Preference has been raised in the House of Commons. It is seven years and two months since Mr. Joseph Chamberlain first brought the question of Colonial Preference before this country, and we should be afraid to say how many times this question has since been raised in the House of Commons. It is not said that the Premier has engaged the attention of Parliament. It cannot be said that this latest debate in which both the Premier and the Leader of the Opposition took part, shed much light on the question. Yet there have been recent developments in the Dominion of Canada which should bring home this vital issue to every business man in the United Kingdom.

Some sharp observations have been made on the subject on the second reading of the Consolidated Funds Bill, which, technically, was as good a means of bringing the matter forward as any other. It must be admitted that Mr. Balfour's speech on this occasion had more historical than practical interest. He told us what we are quite ready to believe—namely, that Colonial Preference would, in some shape or another, have become part of our fiscal system in 1913 but for the determined opposition of the then Secretary of the Colonies, the late Lord Ritchie. Mr. Balfour might also have said that to have then forced Mr. Chamberlain's hand, the country would have entailed not only the resignation of Mr. Ritchie (as he then was) but also the resignation of several other influential members of the Cabinet, including the late Duke of Devonshire. But that is ancient history. The fact is that the country has not, indeed, undergone a fiscal revolution; but it is safe to say that the constant preaching of Sir Wilfrid Laurier has caused the land to live through a quarter of a century of fiscal discussion in the relatively short space of three years. The only point to which Mr. Balfour's pronouncement was obscure was in regard to the position of colonial wheat and other foodstuffs under Preference.

**GAMPBELLTON NOTES**

**Food Supply About Gone and Relief Committee Alarmed—More Subscriptions**

Campbellton, N. B., August 5.—Time has brought little change in the dire straits which the relief committee has been constructing, every one of them will have to be torn down again. Permanent structures will, no doubt, be erected in their places, but even this in many instances is a matter of uncertainty.

The gravity of the situation was fully realized by the relief committee today when they found that they had only a limited amount of cheese and biscuits to hand out to the many who applied for assistance. In a few days even this scanty supply will be run out and then the committee will have to draw on their building fund or else shut down on the free distribution list altogether, which would be a pitiable consequence.

The relief fund was greatly augmented today, more than \$1200 being received. The following is the list of subscriptions: Robert McKean, \$25; W. D. Ross, \$10; Joseph Davenport, \$5; H. M. Armstrong, \$5; J. C. Cushing, \$5; Caldon, Queens county, \$5; C. G. G. St. Paul, Kent county, \$5; J. Bartley Corbett, Quebec, \$5; John W. Peck & Co., Montreal, \$10; Davis & Co., Montreal, \$5; W. H. Allen, Penniac, \$5; Town of Marville, \$5; Town of Pictou, \$5; A. Friend, \$5; C. J. Osmun, Hillsboro, \$5; City of Hamilton (Ont.), \$20; John L. Peck, Hillsboro, \$25; William Crockett, Fredericton, \$5; Citizens of Charlottetown, \$5; William Crockett Runnymede, \$5.

**LOCAL NEWS**

The police report that a water pipe burst yesterday in Sewell street, near the corner of Pond.

A purse found in Coburg street and a raincoat found in Dorchester street awarded owners at central station.

Rev. R. F. McKim, of St. Luke's church will conduct the services in Trinity church, St. Stephen, on Sunday.

Many bargains await purchasers at N. J. Lahood's great sale at 282 Braselia street, corner of Hanover. Don't fail to come today!

Sunday night meetings in the Every Day Club will be resumed a week from tomorrow evening when Rev. W. R. Robinson will be the speaker.

G. Earl Logan has been retained by Andrew Ross, the Italian charged with murder, to defend him at his trial. In this case the evidence of Detective Kilen and Policemen Gooling, remains to be taken, for the prosecution.

The following have been reported for having vehicles for hire in the city without a license: Wm. and Vincent Caples, W. H. and L. E. Blizarski, Chas. Haley, Leo Smith, and James Alexander. The report is made by Sergeant Campbell.

A meeting of the C. J. John typographical union will be held in their hall in the Opera House this evening. It is expected that the question of taking steps to organize a Trades and Labor Council to include all the international unions of the city will be brought up.

Robert Allison of Apohaqui, chose a precarious seating place yesterday afternoon, when under the influence of liquor he lay down near the track at the Union depot, with \$200 in his possession. He parted with eight of it in reporting in the police court. Wm. Livingston was fined \$8 on a charge of drunkenness.

At the board of health office this week, six deaths were reported, from the following causes: Cholera infantum, 2; and heart failure, cirrhosis of liver, convulsions, meningitis, one each. Owing to the body of John Sherwood not having been found, the seventh death was not registered.

Preaching services have been conducted during the past four Sundays in the grounds at Egworth Park. This week the foundation of the new place of worship has been laid and on Sunday afternoon at 10 o'clock Rev. Neil McLellan will preach and it will be Mr. Crisp's last Sunday at the park for the present.

Volunteer Aidmen—Old Home Week is to be observed at Kingston and Trenton, this county, from August 14th to 18th. All the native-born sons and daughters are invited to be present. A good programme is being prepared. Revs. Dr. DeWolfe, W. V. Higgins and W. H. Rolt are in charge of the exercises.

This morning while conveying the Hasam concrete mixture from one side of Main street to the other, the gears which hold the shafts to the mixer broke, and as a result, cars, teams, and traffic generally were stopped for at least ten minutes. A team of horses, however, came to the rescue and after much difficulty removed the obstacle.

At Parrboro on Thursday evening when Rev. E. E. England, of Port Greville, and Rev. Joseph E. Donkin were driving home from Southampton, they met another car on the road while climbing the Digway hill, a few miles from town. It was very foggy and in trying to avoid a collision Mr. Donkin drove over the bank, overturning his carriage. He had two ribs broken and was badly bruised and some severe bruises.

The home of Daniel Connelly, Mill street was the scene of a very enjoyable home party last evening in honor of John Willoughby and William Gofney, relatives of Mr. Connelly. There were about twenty couples present, and a very pleasant evening was spent with music and games. Messrs. Willoughby and Gofney leave this evening on the Boston train for their homes in the States. While in the city, both young gentlemen have made numerous friends, and no doubt their absence will occasion much regret.

Thursday's St. Croix Courier says—Rev. S. Howard and Mrs. Howard leave tomorrow for a trip across the continent, Mr. Howard being one of the delegates from the New Brunswick conference to the general conference of the Methodist church in Canada which meets this year in Victoria, British Columbia. The best wishes of many friends in St. John accompany them for a pleasant journey and a safe return. Since assuming the pastoral charge of the Methodist church here about a year ago, Mr. Howard has faithfully ministered to his charge and has greatly endeared himself to his people. During the next five weeks Rev. C. W. Squires, M. A. B. D. will occupy the pulpit and supply the pulpit of the St. Stephen Methodist church.

**MELBA**—THIRD  
That the opera Melba with four great artists will be the highest water mark of local social and musical events will probably be readily conceded. Efforts are being made to have the great singer at the Lyric, and the view of the fact that in recognition of the concert the exhibition management very kindly changed the formal opening hour from eight to nine o'clock in the afternoon, and it seems quite likely that, if possible, the diva will concert.

Miss Minnie Holt left Monday for a visit with relatives in St. John and Orancton. She was accompanied by Miss Lena Miller, who has been the guest of Miss Margaret Holt during the past month. St. Croix Courier.

**READY FOR THE BIG BAND CONCERT**

Preparation are Well Advanced  
—Seats for About 2,000 People

Preparations for the big band concert in King Square on Monday evening next in aid of the fire sufferers of Campbellton, are nearly completed, and it is expected to be one of the grandest musical events in late years in St. John. This morning workmen from the St. John street railway were at work placing lights in position about the walk, and over the tops of all the benches owned by the city, so that about two thousand people will be able to find seats.

The programme for the entertainment has not yet been definitely completed, but will be given by the city's eight bands, in the following order: Pipes band, Scotch pipes; Elm Artillery; Capetown Cornet, City Cornet, and St. Mary's. Beginning at 7.30 with the pipes, the concert will probably start at 8 o'clock. Boys will be in evidence at various sections, into which may be dropped whatever amount the citizens desire to contribute to the worthy cause.

**MARKET BUILDING IS BEING PAINTED**

First Time in Nine Years—Little Change in Prices of Produce

For the first time in nine years, the city market building is to be given a thorough painting and to this end work was begun yesterday by a gang of men under James Hays. When completed the market will present a much cleaner appearance, and will be in better form for an inspection by visitors during the period of the exhibition. It will be probably nearly a month before the whole building has been given a new coat, the coloring of which will be slightly different from that which is to be seen at present.

The market this morning was quite plentifully stocked with meats and new vegetables, and there were many buyers. There has been but little change in the prices of meats for some time, but lamb this morning was slightly cheaper, selling for from 11 to 14 cents. New vegetables are becoming more abundant, and consequently lower in cost.
