BREAK IN BRITISH DEER LOCK INDICATED

MINER CHIEF SAYS PEACE POSSIBLE ANY MOMENT; MARKET IS OPTIMISTIC

Government Spokesman Declares Tide Has Turned; Tendency of Strikers To Drift Back To Work, He Says

SIR H. SAMUEL MENTIONED MEDIATOR

King George Meets Privy Council and Relief Measures Believed Talked—General Strike Declared Illegal By Court Hearing Injunction Case of Miners' Union

LONDON, May 11.—The stock exchange, which so frequently has been a barometer of future good or bad news, today showed indications of confidence that an early settlement of the general strike is in sight.

The British Broadcasting Company today radioed to the British public that, although no official confirmation can be obtained, there is reason to believe moves toward settlement of the general strike are taking place.

LONDON, May 11.—Indications of an easing in the general strike deadlock became more pronounced this afternoon. A. J. Cook, the miners' chief, declared "Peace is possible at any moment, on terms that will give economic security to the miners."

Numbers of people had been approaching the miners' leaders, he asserted, with a view of settling the deadlock.

At almost the same time a government spokesman was saying to the newspapers: "Without being unduly optimistic, I think we may say that the tide has turned. There is a tendency all over the country for the strikers to drift back to work."

The Trades Union Congress, which has charge of the general strike, scouted this statement, reiterating that the solidarity of the men was being maintained.

Reports of peace negotiations, with Sir Herbert Samuel, chairman of the Royal Commission, as one of the central figures, continued to fill the air, but neither the labor chiefs nor the government would discuss these reports.

TRAIN WRECKED.

The famous "Flying Scotsman," running from Edinburgh to London, having on board 400 passengers, was wrecked yesterday at Crumlington, a mining district near Newcastle. All the passengers were unhurt, but the engine and two coaches were damaged.

The train was running about six miles an hour when an inspector on the engine with the volunteer engineer, who had been pulled up, saw the engine and two coaches toppling over. The train was moving slowly, and it was not until the engine had been pulled up that the train was stopped.

OTTAWA.—The Trades and Labor Congress of Canada is appealing for financial support for the British miners at present on strike in the Old Country. Telegraphic appeals and descriptions was sent out by Secretary P. M. Draper to all trades councils affiliated with the Trades and Labor Congress.

STRIKE COLLAPSING

Reports from the provinces indicated that the strike was steadily collapsing in South Wales, as far as the tramway men, railwaymen and electricians were concerned. The government spokesman, citing improvement in the transportation services said 5,508 trains were run yesterday in the United Kingdom, as compared with 849 on the first day of the strike.

SAYS STRIKE ILLEGAL. LONDON, May 11.—The general strike is illegal, Justice Astbury declared in the Chancery Division today, and those inciting it or participating in it are not protected under the laws regulating the trades union.

His opinion, the first handed down from a judicial bench since the general strike began, was in general an injunction against certain branch leaders of the Sailors' and Firemen's Union. The injunction restrains the branch leaders from calling out their men without orders from general headquarters of the union.

URGES REDS DEPORTED. Notwithstanding the government's action in commanding the newspaper publishers, the Daily Mail brought out its first London edition this morning. In its leading article the paper suggests that it is not denied by anyone that the general strike is illegal, the Trades Union Congress has no legal sanction, its orders are contrary to the law, and it should be dissolved.

The Mail also urges that "the five hundred Soviet agents in Great Britain" be deported. Sir John Simon's declaration that the strike is illegal is declared by the government spokesmen to have caused many trade unionists to return to work unconditionally.

Amundsen Leaves In Norge on Pole Trip

BIRD SANCTUARY STARTED HERE

Big Dirigible Starts on Hazardous Polar Flight

FIRST BIRDS ARE PLACED IN ROCKWOOD PARK

Four Acres Devoted To Pioneer Safety Spot

A LAUDABLE MOVE

Interesting Experiment Also Being Made at Rothsay With Imported Partridge

IN A SPACE surrounded by wire netting, adjacent to the deer enclosure in Rockwood Park, two pairs of Canada geese and two pairs of canvas-back ducks with clipped wings were placed this morning to become what is hoped will be the pioneers of a safety spot for migratory birds in a space of a few years will rival the world-famous bird sanctuary of Jack Miner, Ontario farmer of Kingsville, near Windsor, a few miles back of Lake Erie.

Mr. Bruce claims that Saint John lies in the direct line of flight of all migratory birds and that with the public's co-operation in protecting captive birds in the park there seems no reason why the project will not be feasible and an invaluable asset to our tourist attractions. By the Migratory Bird Act enough protection has been given flights of feathered game to vastly increase their numbers.

Strike News In Brief

LONDON.—Neither the police nor the special volunteer constables have displayed unnecessary toughness in dealing with strike disorders.

OTTAWA.—The Trades and Labor Congress of Canada is appealing for financial support for the British miners at present on strike in the Old Country.

Above is shown how the dirigible Norge appeared as it sailed over the rugged Arctic wastes, near King's Bay, Spitzbergen.

Roald Amundsen Lincoln Ellsworth

ROALD AMUNDSEN, the noted explorer, and Lincoln Ellsworth, his companion on his unsuccessful attempt to reach the North Pole by aeroplane last year, hope primarily to discover land during the flight of their Italian built dirigible Norge, which began today.

BIG SEASON IS PREDICTED AS DINGLEY HERE

"Boston Boat" On First 1925 Trip—Empress Resumes Bay Run

Docking this morning at 11:30 o'clock on her first trip of the season, the S. Governor Dingley, Captain L. C. Ingalls, brought 71 tons of mixed freight and 35 passengers from Boston, Eastport and Lubec. Among the passengers was D. E. Coughlan, a Boston fish merchant, who made the trip on business.

The steamer has been thoroughly overhauled and painted, and presented a trim appearance. Captain L. C. Ingalls, chief officer; A. E. Hall, first officer; H. N. Larabee, second officer; E. E. Scaries, chief steward; Lewis P. Clark, clerk; John Smith, chief engineer; P. Knight, first engineer; Thomas Cummings, second engineer; and Mr. Perry, third engineer. Heavy tourist traffic is expected to commence about the middle of June.

Arthur W. Roome, clerk on the Governor Dingley last season, made the trip today, but will return to Boston tomorrow and take over his duties as purser on the steamer Brandon, to which he was recently promoted. The Brandon is on the Boston-Portland route.

The Dingley will leave for Boston tomorrow morning at 10 o'clock, Daylight Saving time.

EMPRESS RETURNS. The steamer Empress, which has been undergoing a thorough overhauling and a general clean-up, will go to sea on the Saint John-Dingley route once again and will make her first trip tomorrow morning. It was announced this morning.

J. M. Woodman of the C. P. R. said this morning that indications point to a busy tourist season and a banner summer in this respect.

The S. S. Prince Arthur, which has taken the place of the Empress while she was being renovated, will sail for Boston tonight. It is thought she will be put on the Saint John-Boston route with the Dingley when the tourist rush commences.

MUSSOLINI PLANS TRIP. ROME, May 11.—Premier Mussolini's next official visit will be made in June to Apulia, a territorial division in the extreme Southwest part of Italy, says the Giornale d'Italia.

BALDWIN SEES VICTORY FOR GOVERNMENT AS INEVITABLE

British Premier Hopes Coal Negotiations Will Be Resumed As Soon As General Strike Is Called Off

By RT. HON. STANLEY BALDWIN, P. C. Prime Minister of Great Britain. Written exclusively for the United Press. Copyright, 1926, by the United Press in all countries. Unauthorized reproduction prohibited.

LONDON, May 11.—At the beginning of the second week of the general strike it is reassuring to be able to state that the community has shown itself not only determined to overcome the threat which has been made to its political rights but fully capable of defending them efficiently and calmly.

There is no longer any doubt that transport and other vital services can be carried out effectively and are being improved hour by hour.

Ultimate victory for the nation and of the cause of constitutional government is in fact assured. For there must be no constitution between stoppage in the coal industry and the general strike. They are two distinct issues. Stoppage in the coal industry has followed nine months of enquiry and negotiations.

RESUME PARLEYS. Those negotiations will, I hope, be resumed directly the general strike has been cancelled by the Trades Union Congress and I shall continue my efforts to see that in any settlement justice is done both to the miners and the owners.

No one, I repeat, must confuse the issues in the coal industry, which are purely local and industrial, with those of the general strike, which is called by negotiations between the government, the mine-owners and the miners.

Calling the general strike the Trades Union Congress tried to decree that railways should not run; that transport should not move; that unloading of ships should stop; and that no news should reach the people. None of these objects have been attained. The nation has not been paralyzed. Railways are running; transport is moving; ships are being unloaded; news is being distributed; and what is most important of all, adequate food supplies are reaching all parts of the country.

"HOLD UP" FAILS. In short, the attempt to "hold up" the nation has failed and it is to be hoped that before long the Trade Union Council and the men who have obeyed their orders, will realize the futility of continuing the general strike, the collapse of which is inevitable.

When the strike is over the British nation will, by defeating it, have done much to protect political institutions throughout the world. The government will, of course, continue to safeguard the legitimate rights of trade unions, but the country has shown that neither now nor hereafter will constitutional interference be tolerated in the political affairs of the nation by any organization in the state.

FREDERICK FELLING. The freshest in the Saint John River here subsided about three inches since last night, with the weather cold. Rain is falling, and a further rise in water is expected. Stream driving continues.

MARRIED AT CAPITAL. FREDERICTON, May 11.—(Special)—The wedding of Wentworth LeBaron Carr and Minerva Geraldine Chase, both of Fredericton, took place at the Brunswick street Baptist parsonage Monday afternoon. Rev. G. C. Warren officiating.

TO HOSPITAL POSTS. E. L. McQuade, son of Mr. and Mrs. W. H. McQuade, Elliott row, who is a medical student at Dalhousie University, Halifax, is home for a few days visiting his parents. He is accompanied by a friend, R. E. Bennett, son of the Colonial Secretary of Newfoundland. These young men have both been appointed as internes at the Halifax Hospital and will leave on Thursday evening to assume their duties at that institution.

Big Motor Bus Here For Summer Service. A large Studebaker Intercity 21 passenger coach arrived in the city today and will be operated between Saint John and Gondola Point by the Saint John Motor Lines, Ltd. Stops will be made at Rothsay, Fairville and intermediate points. T. W. Enright, manager of the new line, will begin operation so soon as the roads are opened to heavy traffic. It is the intention to make a round trip in 1 1/2 hours, commencing at 7 o'clock in the morning and continuing until about 11 p. m.

Two Congregations Plan To Hold Service In Same Church. KINGSTON, Ont., May 11.—Both of the non-concurring Presbyterian and the United Church congregations of St. John's church, Pittsburgh township, have announced that they will hold services in the church next Sunday. The church for some months has been the centre of a dispute between the two factions. At the service of the Presbyterians last evening Rev. W. M. Fee announced that they would hold meetings weekly henceforth, commencing next Sunday.

Today it was learned officially that the unionists would hold their service next Sunday as usual.

W. C. McFETERS HAS LEG FRACTURED. Sussex Newspaper Man Run Over by Horse Frightened by Others.

Special to The Times-Star. SUSSEX, May 11.—W. Carey McFeters met with a serious accident in Main street, near the railroad crossing, a little before 8 o'clock this morning. One of his legs was fractured. The accident was caused by a horse frightened of other horses. Men from Devine's stable were leading a shipment of spirited animals at the time. A horse in a light wagon, driven by a resident, shied when it approached the Devine horses, and struck Mr. McFeters, who was waiting to cross the street, knocking him down and ran over him.

Mr. McFeters has been connected with the Kings County Record for many years and previously had been in the office of the Saint John Telegraph.

BLIMP STARTS THIS MORNING FROM KING'S BAY

Connecting Link Between America and Europe Sought

3 DAYS' FLIGHT

Explorers Plan To Fly Straight Across Earth's Top To Alaska

Canadian Press. OSLO, May 11.—wireless message received from Captain Amundsen at 11:45 o'clock this morning said: "Now flying across the polar ice."

It was officially announced this afternoon that Captain Amundsen will take possession of any land found during the voyage, in the name of the King of Norway.

OSLO, May 11.—The Amundsen-Ellsworth dirigible Norge started on its flight to the North Pole and Alaska at 10:10 o'clock this morning, says a message from King's Bay.

Roald Amundsen, the noted explorer, and Lincoln Ellsworth, his companion on his unsuccessful attempt to reach the North Pole by aeroplane last year, hope primarily to discover land during the flight of their Italian built dirigible Norge, which began today.

2,000 MILE TRIP. Amundsen has pointed out that it is only 2,000 miles from Spitzbergen to Alaska, and that the discovery of even a small piece of land near the top of the world, would afford an invaluable connecting link between America and Europe.

Under the plans outlined by Amundsen this spring, the Norge will fly in almost a straight line across the pole and through the centre of the unexplored region of the Arctic area in the Polar Sea. The leaders of the expedition have estimated that it will take three days to fly from King's Bay, Spitzbergen, to Point Barrow, Alaska.

The first pilot of the Norge is Col. Umberto Nobile, the Italian aviator officer who superintended her construction, and who flew her successfully from Rome across Europe to England, thence to Norway and Leningrad and finally to Spitzbergen, from which point Lieut. Commander Richard E. Byrd made his aeroplane flight to the North Pole early this week.

MEMBERS OF CREW. Among the fliers whom Amundsen planned to take on the trip to the pole were Lieut. Hilmer Riser Larsen, Lieut. Oscar Omdal, Captain Oscar Wisting and Lieut. Gustave Amundsen, a nephew of the explorer. All these men had been on previous polar expeditions. Mr. Ellsworth is the only United States member of the flying crew.

One of the gravest dangers which Amundsen has recognized, is the difficulty of landing in the polar area, and it was for this reason chiefly that he decided to use a dirigible instead of an aeroplane in the belief that the dirigible can be kept in the air with much more certainty than an aeroplane.

Rails Ordered For Douglas Avenue. M. A. Pooler, general manager of the New Brunswick Power Company, said this morning that the Federal Light and Traction Co., Ltd., had authorized the purchase of steel for the car track from the end of the present Douglas avenue paving to the highway bridge, and for three curves for the loop line in West Saint John. The order for the steel has been placed, he said, and it should arrive here in between four and five weeks.

TO HOSPITAL POSTS. E. L. McQuade, son of Mr. and Mrs. W. H. McQuade, Elliott row, who is a medical student at Dalhousie University, Halifax, is home for a few days visiting his parents. He is accompanied by a friend, R. E. Bennett, son of the Colonial Secretary of Newfoundland. These young men have both been appointed as internes at the Halifax Hospital and will leave on Thursday evening to assume their duties at that institution.

N.S. PREMIER SAYS BRITISH STRIKE TO FAIL

Authority of Parliament Must Be Vindicated, He Avers
INDUSTRY HURT

Expresses Opinion Solution of Problems Lies in Co-operative Management
By HERBERT BAILEY
British United Press.
LONDON, May 11.—"The strike is no longer an economic or an industrial dispute, but a political movement challenging the authority of the British Parliament," declared Hon. E. N. Rhodes, Premier of Nova Scotia, in an exclusive interview with the British United Press this afternoon.

"The opinions by Lord Grey and Lord Oxford, as well as by the Archbishop of Canterbury and Cardinal Bourne, leave no doubt about that. As Lord Grey points out, the last revolution in Britain was for the purpose of establishing the authority of Parliament, and this strike will inevitably fall in order that authority of Parliament shall again be vindicated. Its supreme tragedy is that the miners who would have had a considerable measure of the sympathy of the gen-

eral public, have alienated the large body of public opinion because their friends have invoked the general strike. Their position will naturally be worse than ever at the end of the strike, because the state of industry, which was just beginning to show signs of improvement, will be seriously depreciated by the strike. It is tragic that Britain on the very eve of her recovery from her serious economic difficulties should be thrust back again into the forward movement to stability and prosperity further retarded for a long time to come.

IS IMPRESSED
"As an outsider I am much impressed with the splendid way in which the British people have maintained their traditional calmness and coolness, although there is an element of danger in the cheerfulness with which they regard the strike. There is the danger of a lack of appreciation of the seriousness of the peril to the national fortunes and the levity with which the situation is accepted in the danger of degenerating into an expensive joke."

Premier Rhodes also expressed the opinion that Britain may be forced to find a way out of her troubles through co-operation on the lines along which some industries are successfully run in Canada and the United States.

Wilkins Prepares Base In Alaska

Canadian Press.
NEW YORK, May 11.—Captain George H. Wilkins, commander of the Detroit Arctic Expedition, has completed the establishment of his base at Point Barrow, Alaska, the North American Newspaper Alliance announced. Captain Wilkins will hop off soon on a flight over the unexplored Arctic ice paths in search of new lands.

N. S. MAN KILLED.
SPRINGHILL, N.S., May 11.—Telegraphic advices from Coleman, Alta., yesterday announced the death by official of the United Mine Workers of district 26.

ENGLISH MINISTER TO BE DEPORTED

Mexico Government Decides on Broad Application of the Law.

MEXICO CITY, May 10.—Pending the government's decision as to whether Dean Peacock, an English clergyman of the Church of England shall be allowed to remain in Mexico City, services were suspended yesterday in Christchurch Cathedral, where he officiates. Meanwhile the government is considering the question of strictly enforcing the constitution, prohibiting foreign priests and ministers from exercising their religious offices in Mexico, or whether to grant permission to a few foreign clergymen to officiate only in foreign churches for foreigners.

Heretofore enforcement of the religious clauses had principally affected the Roman Catholics, but with the recent order calling for the deportation of Dean Peacock, the government seemingly has decided upon a broad general application of the law. The British and French ministers here have sent a request for Foreign Secretary Saenz asking that one foreign priest be permitted to officiate in Mexico City for the British and French colonies.

If the request that one foreign priest be granted permission to remain in each of the foreign colonies is granted, the government may allow Dean Peacock to remain here permanently.

Sousa's Band Coming To The Maritimes

Special to The Times-Star
MONCTON, May 11.—Final arrangements have been completed by the Westmorland Lodge Knights of Pythias to have Sousa's band appear here on its Maritime tour, the first appearance in this part of Canada of this internationally famous musical organization. The band will play here on September 21. On the following day it will give a concert in Halifax, returning to Saint John and appearing here on September 23. From there the organization will go on to Boston. It will travel by special train while in the Maritimes.

Heretofore enforcement of the religious clauses had principally affected the Roman Catholics, but with the recent order calling for the deportation of Dean Peacock, the government seemingly has decided upon a broad general application of the law. The British and French ministers here have sent a request for Foreign Secretary Saenz asking that one foreign priest be permitted to officiate in Mexico City for the British and French colonies.

If the request that one foreign priest be granted permission to remain in each of the foreign colonies is granted, the government may allow Dean Peacock to remain here permanently.

STRIKERS BACKED BY MEXICAN LABOR

Miners Refuse to Increase Output—Port Workers Shun Ship Loading.
MEXICO CITY, May 11.—Organized labor of Mexico continues in active support of their British comrades. The railroad workers, unions which are not affiliated with the regional federation of workers in Mexico, are collecting money in addition to the Federation's collections which also are continuing. The miners in all coal regions have decided not to increase the normal output lest the excess production would reach Britain.

Port workers have declared they would not permit ships to load coal for England if such action was attempted. Electrical unions reacted work half an hour at noon yesterday in a "sympathy strike."

Conservatives In Ontario Divided

TORONTO, Ont., May 11.—The Conservative Electoral District Riders Association at a meeting here last night decided to place independent Conservative candidates in each of the local ridings at the next provincial election as a protest against alleged "machine" tactics of the Central Conservative Association.

10-Day Tube FREE—Mail the Coupon

Mother—Be sure you get Pepsodent for child's teeth and gums

DO you want your child to have prettier teeth now, and better protection from serious tooth and gum troubles all through later life?

Mail the coupon then for a 10-day tube of Pepsodent, free. See what the world's leading dentists urge mothers to use as science's latest attainment in tooth and gum care.

Film . . . what it is
The enemy of teeth and gums
You will notice a film on your child's teeth. That's a frequent danger sign—an invitation for tooth and gum troubles. The same stubborn film that you can feel by running your tongue across your own teeth.

More brushing won't do. You must combat it. Ordinary dentifrices fail to fight that film successfully.

Film is the greatest enemy of tooth health. It clings to teeth, gets into crevices and stays. Germs breed in it and imperil both teeth and gums. The acid that leads to early decay forms. Old-type methods failed to combat it. So men of science engaged themselves in discovering an effective combatant—one new and different from any known.

It removes that film
And Firms the Gums
Now in Pepsodent, two new combatants are embodied—combatants approved by highest dental authority. It curdles the film, gently removes it; then firms the gums. It keeps the teeth whiter, cleaner, more sparkling. It is the modern scientific method for better tooth protection. Insist upon it. Get a tube today at your drugist's. Or mail the coupon.

DANCING MOTHERS SHOWN AT IMPERIAL

Alice Joyce and Conway Tearle in a Superbly Presented Picture—Other Features.

Imperial Theatre did mid-winter volume of business last night when the favorites Alice Joyce and Conway Tearle appeared in a super-society drama entitled "Dancing Mothers." It was a rich Paramount picture of recent release and the story dealt with the heart-breaks of a loving parent whose husband and young daughter were devotees of night clubs and dancing places. Fearing her child was in line for a dangerous liaison with a bachelor of scandalous fame the mother, a former French actress—throws her own charms into the melée and seeks to break up the affair. The result is surprising, for instead of withstanding the wiles of the charmer she herself comes to love him. The finale finds the mother leaving home broken-hearted following highly dramatic and emotional scenes with her erring spouse and daughter. The picture was charmingly rich and sumptuous, splendidly acted by Miss Joyce, Mr. Tearle and Clara Bow, the flapper-child. The Imperial's musical treatment of the picture was very fine.

An unexpected and interesting feature of the Imperial's program last night was a brief glimpse of the dancing and athletic show to be put on by the Y. W. C. A. in the Y. M. C. A. gymnasium this week. The children did a picture-book dance and gave a smart exhibition of tumbling. They were well received by the large audience.

Another innovation was the first

Mothers Who Were Missed

Sunday was honored as Mother's Day the world over. Sons, daughters and husbands took some special way of letting Mother know how fondly they thought of her.

A beautiful custom.

Others, whose Mothers had passed over the Great Divide, felt a little lonely and at a loss about their message of devotion.

Did it occur to some that Mother's grave is still waiting for its Monument?

A elegant catalog of pictures, sizes and prices mailed on request—also a guest card available by day or evening on appointment to drive out to our extensive display.

SAINT JOHN, N. B., MAY 11, 1926.

THE FAIRVILLE INQUEST.

Without in any way commenting on a case that is still sub-judice, it may be allowable to draw the attention of the public to the inquest into the death of three-year-old Velma McGilnechy. The case drags to the fore once again the eternal conflict between the "fully qualified" medical practitioner and the man who has been trained along other lines of the healing art, which he, rightly or wrongly, holds to afford the right treatment for most, or many, human afflictions.

For purposes of illustration, and perhaps to indicate the important character of the issue raised by this unfortunate incident, we are quoting here a few passages from the report of the proceedings at the inquest as published in The Telegraph-Journal:

"Repeated questions by C. F. Inches, K. C., who appeared for Dr. Baker (Chiropractor) as to who had instigated the investigation, were disallowed."
Then:
"The child was ill a week before her death. Dr. Comeau (a regular practitioner) was called in. The following Monday he was called again. Dr. Baker later summoned and was given permission to treat the child."
"Dr. Comeau was diagnosed as pneumonia in both lungs. He brought in a nurse shortly before the child's death."
"Dr. Comeau was in consultation with Dr. V. D. Davidson on Tuesday."
"He (the child's father) sent for Dr. Baker the same day."
"Witness (the nurse) had no complaint to make against Dr. Baker. She knew nothing of the inquest until he was subpoenaed."
"The nurse—a 'practical' nurse—testified as to treatments by the various doctors which disclose the conventional medical practice on the one side and the manipulative method on the other. After the latter the state of the patient is described as 'coma' by this witness, whereas the father had called it 'sleep.'"
"Both Dr. Comeau and the father asked witness not to mention Dr. Baker's visit."
"She believed the child was doing well up to the time of Dr. Baker's treatment."
"Dr. Comeau believed that Dr. Baker's interference had taken away from the child her only chance of recovery."
"Dr. Davidson thought chiropractic treatment of pneumonia directly contrary to all scientific law."
"Dr. S. H. McDonald gave his opinion that chiropractic treatment in the case would have been harmful."
"Dr. Addy gave evidence similar to that of Dr. McDonald."
"Dr. Baker, after expounding the theory of chiropractics, 'was favorably impressed with Dr. Comeau's treatment. The nurse had not taken the temperature since being on the case and had no thermometer.'"
"The Times-Star has no brief for the medical profession which needs no defence—or any branch of it, and it is not within its province as a newspaper to make capital against any of the other schools of medicine or of surgery. It is not a newspaper's duty, or even privilege, to give medical advice. Above all, it is improper for a newspaper to comment upon a case which is in process of trial, if its comment is in any manner likely to influence the parties concerned, or the public interest, which is paramount, and because of which chiefly trials, laws, established rules as to the practice of medicine, and other legislation relative to human life and human affairs, are found necessary at our stage of civilization."
"Public attention is deliberately directed to the case under review because, manifestly, the result of it will—or certainly should—throw much light upon the whole situation in this province regarding medical and surgical practice. The rights, or lack of rights, under existing laws of all practitioners, registered, recognized, regular, irregular, graduates of all kinds of institutions, which have, or purport to have, the power to arm a man or a woman, after a course of five years, or three years, or perhaps of a few months, with a diploma, or certificate, or introduction, by means of which he or she is entitled, or asserts to be entitled, to stand between a patient and a patient's relatives and friends on the one hand, and the Angel of Death on the other, must be defined."
"Where lies the public interest in this case? First, it is but assembly to express sorrow for those bereaved, and to regret that through circumstances over which they had no control the anguish of parting is rendered more poignant by a measure of publicity which is unavoidable in all cases where the intervention of a coroner becomes necessary, and where it becomes impossible, even legally impossible, to avoid an investigation designed to determine authoritatively the cause of death, and whether or not the form of treatment, or the lack of treatment, had any bearing upon that death, in order that be tragic or lamentable incident may be used to shed light upon all the questions here involved, to the

Just Fun

EVEN in this day of funny hair cuts it is easy to pick out the men on the beach. They don't mind getting their bathing suits wet.

TEACHER: How many make a dozen?
Grocer's son: Twelve.
"How many make a million?"
"Very few."

ASKED if he believed in the dinosaur, the great scientist replied, "Obsoletely."

FEW failures are so complete as that of a bald man with a pug nose in his effort to be a sheik.

ABOUT all a correspondence school can do is to forbid smoking in the post office.

IN THE CHAIR

I felt his soft breath on my cheek
And the gentleness of his hand;
His very presence near me
Seemed a breeze on the desert sand.
He deftly sought my lips
My head he did unfold,
Then he broke the silence with
"Shall the filling be silver or gold?"

"ISN'T it difficult to keep a budget straight?" asked Mrs. Buford.
"My dear, it's terrible," confided Mrs. Wisner. "This month I had to put in four mistakes to make mine balance."

THE average woman has a vocabulary of only 800 words. A small stock—but of what a turnover!

AN OPEN mind is all right if you know when to close your mouth.

GLADYS: "Do you like to recite?"
Little Girl: "No, but mamma always asks me to because it makes visitors go home."

THOMAS A. EDISON has many great inventions to his credit, but the country is still waiting for a waterproof straw hat that can be pulled down to keep the ears warm.

NONE of them who would make perfect husbands are married yet. It's impossible to have flowers and chickens on the same lot, because flowers won't grow in chickens.

SHE: What are your views on kissing?
HE: I have none. Her hair always gets in my eyes.

"VES, sic, I have a wonderful wife," ejaculated the man. "Why, when I am out of work she supports me. Last winter I was fired and she took in floors to serve me."

GIVE US OUR SHARE

The Board of Grain Commissioners for the Dominion meeting at Montreal on Monday, discussed plans for the handling of the 1926 grain crop through the ports of Vancouver and Montreal. The chairman predicted another bumper crop, and said that the Commission was going to see that "as much grain as possible is handled through Canadian ports."

Now, the second way of expressing it appeals more strongly to us than the first.

We are all inclined to be shortsighted when personal interests are involved, but after all Saint John and Halifax are Canadian ports even if they have, hitherto, been regarded as "winter" ports. The Maritimes already have facilities for handling grain, and we intend to have these extended. There is no reason why Saint John and Halifax should not be all-the-year ports, and most emphatically we object to being crowded out of the picture or, at the best, being relegated to a position in the dim background when the picture is being painted.

Somewhat we were under the impression that we had mentioned this matter before, and still further that the people of Montreal and other parts of the Central Provinces had taken cognizance of our demand for fair treatment. Insofar as the routing of grain by all-Canadian routes is concerned we are at one with the Board of Grain Commissioners, but we do wish to draw their attention to the fact that Montreal and Vancouver are not the only Canadian ports, that we in the East can handle grain—and anything else—both summer and winter, and are determined to do so.

DINNER STORIES

EVERY seat was occupied, when a doctor noticed a man who he thought was asleep.

"Wake up!" shouted the conductor. "I wasn't asleep," said the passenger. "Not asleep! Then what did you have your eyes closed for?"

"It was because of the crowded condition of the car," explained the passenger. "I hate to see the woman standing."

A KANSAS man wrote to his newspaper and asked: "What's the matter with my hens? Every morning when I go to feed them I find some of them have keeled over to rise no more."

"To which the editor replied: 'They're dead.'"

Odds and Ends

I Would Take With Me
(Margaret E. Singler in New York Sun)

If I were called away from all the laughter,
And all life's vividness and tender mirth,
I would remember little things that cluster
About the days that I have known
on earth,
I would take with me, even into heaven,
The yellow shimmer of pale candlelight,
And stars that touch with gentle silver fingers
The loneliness that sweeps across the night!

I would take with me memories of faces
That turned to me when all the way
seemed sad;
And I would take the touch of hands
that loved me,
And whispered words that made me strangely glad,
I would take with me flowers, blue and yellow,
And the faint fragrance of the April rain,
And then I know that all the shining angels
Would seek to murmur "Welcome home again!"

No Rush.
(New York Herald-Tribune)

Mr. Dempsey has agreed to fight anybody Mr. Rickard may select. We do not believe Mr. Rickard will be swamped with applications.

"Marianne Hates Medicine"

"However low her financial vitality may be, Marianne refuses to take any of the cures suggested by her advisers. Will Dr. Briand succeed with his pill in the jam?"
—The Bulletin, Glasgow.

POEMS I LOVE

"The Last Leaf," by Oliver Wendell Holmes.
HERE is another American poet who has been sadly neglected. A wonder who reads him now, save a few of us who really care to keep alive the American tradition in letters. A gentleness pervades his work, and though he was a Calvinist, he tried, in everything he wrote, to prove what a rebel he was against inherited doctrines. His "Autocrat of the Breakfast Table" made him famous on two continents. He knew how to mingle humor with pathos, and this, his favorite poem of mine, is a gorgeous example of how he could reach the heart.

I saw him once before,
Ere he passed by the door,
And again,
The pavement stones resound,
As he tatters off the ground
With his cane.

They say that in his prime,
Ere the pruning-knife of Time
Cut him down,
Not a better man was found
By a better hand than I
Through the town.

But now he walks the streets,
And he looks at all he meets
Sad and wan,
And he shakes his feeble head,
That it seems as if he said,
"They are gone."

My grandmamma has said—
Poor old lady, she is dead
Long ago—
That he had a Roman nose,
And his cheek was like a rose
In the snow;

But now his nose is thin,
And it rests upon his chin
Like a staff,
And a crook is in his back,
And a melancholy crack
In his laugh.

I know it is a sin
For me to sit and grin
At him here;
But the old three-cornered hat,
And the breeches, and all that,
Are so queer!

And if I should live to be
The last leaf on the tree
In the spring,
Let them smile, as I do now,
At their old-fashioned bow,
Where I cling.

THE BEST OF ADVICE

IT IS NEARLY 2,000 years since the Chinese teacher, Confucius, lived. It is interesting to read the teachings of this great Oriental philosopher and compare them with our own modern western thought and with the teachings of our great teacher, Jesus (also from the East), who lived 600 years later.

The Chinese civilization antedated the Jewish by a good many centuries, and we generally think of it as entirely different to our own, but its standard of morals seems to be much the same, according to the sayings preserved for us. Here is Confucius' definition of a true gentleman:

"The true gentleman is never contentions. If a spirit of rivalry is anywhere unavoidable, it is at a shooting-match. Yet even here he courteously salutes his opponents before taking up his position, and again, when having lost, he retires to drink the forfeit-cup. So that even when competing he remains a true gentleman."

"The princely man" and "the nobler sort of man" are the phrases Confucius uses to express, in our phraseology, a "prince," or a "desirable citizen."
"The princely man," he says, "never for a single instant quits the path of virtue; in times of storm and stress he remains in it as fast as ever."
"The nobler sort of man in his progress through the world has neither narrow predilections nor obdurate antipathies. What he follows is the line of duty."
"The nobler sort of man is proficient in the knowledge of his duty; the inferior man is proficient only in money-making."

As the Wise Man Does.
(Milverton Sun.)
The fool shoos his neighbors hens from his back yard, but the wise man fixeth up a snug place for them to lay in.

"The princely man" and "the nobler sort of man" are the phrases Confucius uses to express, in our phraseology, a "prince," or a "desirable citizen."
"The princely man," he says, "never for a single instant quits the path of virtue; in times of storm and stress he remains in it as fast as ever."
"The nobler sort of man in his progress through the world has neither narrow predilections nor obdurate antipathies. What he follows is the line of duty."
"The nobler sort of man is proficient in the knowledge of his duty; the inferior man is proficient only in money-making."

The Very Idea!

By Bill DeGraham

IDEAL SPOTS.

SAID Neighbor White to Neighbor Brown, "You shoulda been with me. I took my family drivin', just to see what we could see. We packed ourselves a picnic lunch, and I talk about your treat—we found about the sweetest place I've ever seen, in fact."
"Right down along the water on a dandy piece of ground. A lot of spreadin' shady trees, and not a soul around. We built a roarin' camp fire, while the kids rolled in the sand. You oughta try it out some time. I'm tellin' ya, it's grand."
Said Neighbor Brown to Neighbor White, "That's fine—but not so much. I found a place, just yesterday, that, say you couldn't touch. It's way down in a valley. Towering rocks on every side. You'll think the place you found is best—until this spot you've tried."
"Yes, that's the life of touring, and when Sunday comes around, each fellow thinks there's no place like his own place that he's found. For this and that and other things in nature's line we fall, and I'll never be satisfied until I've seen them all."
The frame work of the bed, and the mattress arrived safe and sound—but the most important part was missing. Then a wagon drove into the driveway and, after looking out the window, little Mary shouted, "Mother, spring has come."
"All are entitled to their own opinions—but they seldom keep them."
A doctor is annoyed when he's out of patients.
The alarm clock started in to ring. Then suddenly upset.
It fell into the bathtub, and the thing was ringing wet.
You can't expect sympathy if you're fired for making a mistake, if it's the mistake of thinking the place can't get along without you.
There's considerable difference between how hard a man works, when he's telling a friend about it, and when he's telling the boss.

FABLES IN FACT.
THIS IS THAT SAME OLD STORY ABOUT THE FELLOW WHO CAME HOME KINDA LATE ONE NIGHT COMMA AND TOLD HIS WIFE HE'D BEEN SITTING UP WITH A SICK FRIEND PERIOD THE ONLY DIFFERENCE IS THAT FOR QUITE A TIME HE THOUGHT HE WAS GETTING AWAY WITH IT PERIOD THEN COMMA SUDDENLY HIS WIFE SAID COMMA QUOTATION MARK WHAT MADE HIM SICK DASH DASHI WAS HE LOSING QUESTION MARK QUOTATION MARK.

INTERESTING

A Feature Page of Interest to Everyone

INSTRUCTIVE

Dorothy Dix

"Believe Me, Ladies," Says Dorothy Dix, "the Time You Spend in the Kitchen Will Bring You Better Results Than the Time You Spend in Beauty Parlors, for No Siren Can Lure Away the Well-Fed Man From His Own Dinner Table."

MANY a time and oft in this column have I warned wives, and maidens about to become wives, that their one best matrimonial bet was the gas range, and that if they wished to look perpetually young and beautiful and alluring to their husbands there was no better way to do it than to surround themselves with the aura arising from savory dishes.

DOROTHY DIX

The traditional old lady who gave the famous recipe for managing a husband: "Feed the brute," said it all. No better method has ever yet been devised for dealing with a man than by tickling his palate, and any wife can keep her husband eating out of her hand as long as she has in it the particular tidbits he fancies.

ALL this is, of course, one of the things that every woman knows, even if a lot of them are too busy to act upon it. It is part of the wisdom that every mother passes by word of mouth down to her daughter, and now comes along a famous English scientist, who confirms this theory of the effect of food on the masculine psychology.

"The overfed man is the puppet and plaything of woman's diplomacy," declares Dr. Leonard Williams, the noted diet specialist, in a contribution to the Journal of Hygiene. "The man who is gorged on a good dinner does not possess keen critical faculties, and a woman can therefore exercise an influence over him that she probably could not wield if he were in a proper condition. For the time being his powers of observation are dimmed, and he becomes, in short, a fathead, easily influenced and ruled by his wife."

EVERY wife's experience will confirm this renowned dietitian's opinion. Every wife knows that it is dangerous to approach, while that same man after he is fed is a housebroken, domesticated pet that will purr under her hand and that a girl baby could lead whither she chose.

Every woman knows that a hungry man looks at the world through blue glasses while the well-fed one views the universe through rosy spectacles. And every wife knows that it is perfectly safe to impart to a husband after dinner the same bad news, such as that mother is coming for a long visit, or that the bill has come in for her new dress, that it would have been more judicious to have mentioned to him before dinner.

UNDOUBTEDLY, a good, hot meal, perfectly balanced, admirably cooked, daintily served, does dull the critical faculty, and no man sitting across the table from the woman who has fed him on pie better than either ever made it going to either whether she has a boyish figure or not. Now will he observe that her complexion has lost its schoolgirl tints, for good food always look good to a man.

Neither will he be tempted to trade her off for some flapper, who knows more about the Charleston than she does about Boston baked beans. We have no statistics on the subject, but assuredly good housekeeping does more than the strongest moral principles to keep husbands from roaming. They may be able to silence the still small voice of conscience, but their stomachs thunder a warning to them against trusting their digestion to snips of young girls, and against leaving the old wives, who may not be sirens, who are warders with saucers.

MOREOVER, the woman who is an expert cook has a charm to compare with that is not only potent in youth, but that grows stronger and more efficacious as the years go by. Beauty fades and pallid. A man tastes to notice even a living picture when it is under his eyes every day of his life. Wit dulls in domesticity. No man bids his wife discuss to entertain him with intellectual and scintillating conversation.

But appetite never fails. Every day a man is hungry. Every day he wants to eat. And the older he grows the more picky he gets about his food and the more it becomes his one never-ending source of pleasure. So the wife who can supply this need can snap her fingers in the face of all the vamps in creation. None of them can cast a spell that will lure the well-fed man from his own dinner table.

AND the reverse of this is equally true. If, as the learned scientist asserts, the full-fed man's physical faculties are blunted and his observation made less keen, the poorly fed man's faculties are whetted to a razor edge and his hunger turns a spotlight on all of his wife's faults and imperfections.

Many a young husband has got his first cold, unimpassioned, disillusioned view of his bride as he sat down to a dinner of overdone meat and underdone bread and soggy vegetables. He had envisioned her as an angel and thought himself fortunate to have won her for a wife, but as his hungry stomach shrieked in protest against such a meal he realized just how lazy and slothful and impatience to make him tie such a millstone around his neck for life.

NO WONDER such a couple quarrel, for hunger does not make for amiability. Despair breeds gloom and gloom, and while most men have enough philosophy to endure with fortitude the big troubles of life, their morale cracks and breaks under the strain of dishwater soup, burnt toast and seven-minute eggs.

You seldom hear of a marriage going on the rocks if the girl has entered into matrimony knowing her business as a housekeeper. It is in those trying, strenuous first few months, when the young wife is learning how to cook and sweeping over jelly that won't jelly and concocting adamantite biscuit, when a hungry man comes home to meals that would kill an ostrich and sees his good money being wasted in foolish buying, that love's young dream gets the bloom rubbed off it. The grounds of many a divorce are the grounds in the coffee pot.

THE moral of all which is that if wives want to hold their husbands, the best way to do it is to learn to be good cooks. Take it from me, ladies, the time you spend in the kitchen will bring you in better results than the time you spend in the beauty parlors.

With Vegetable Iron
Quick Way to Build
Up Weight

Thin, run-down and underweight men, women and children can now improve their health, increase their energy and regain normal weight in a surprisingly short time.

A new combination of yeast vitamins with vegetable iron, renews the action of sluggish blood cells, drives out dangerous body poisons, increases energy and supplies the system with the vitamins that build up weight.

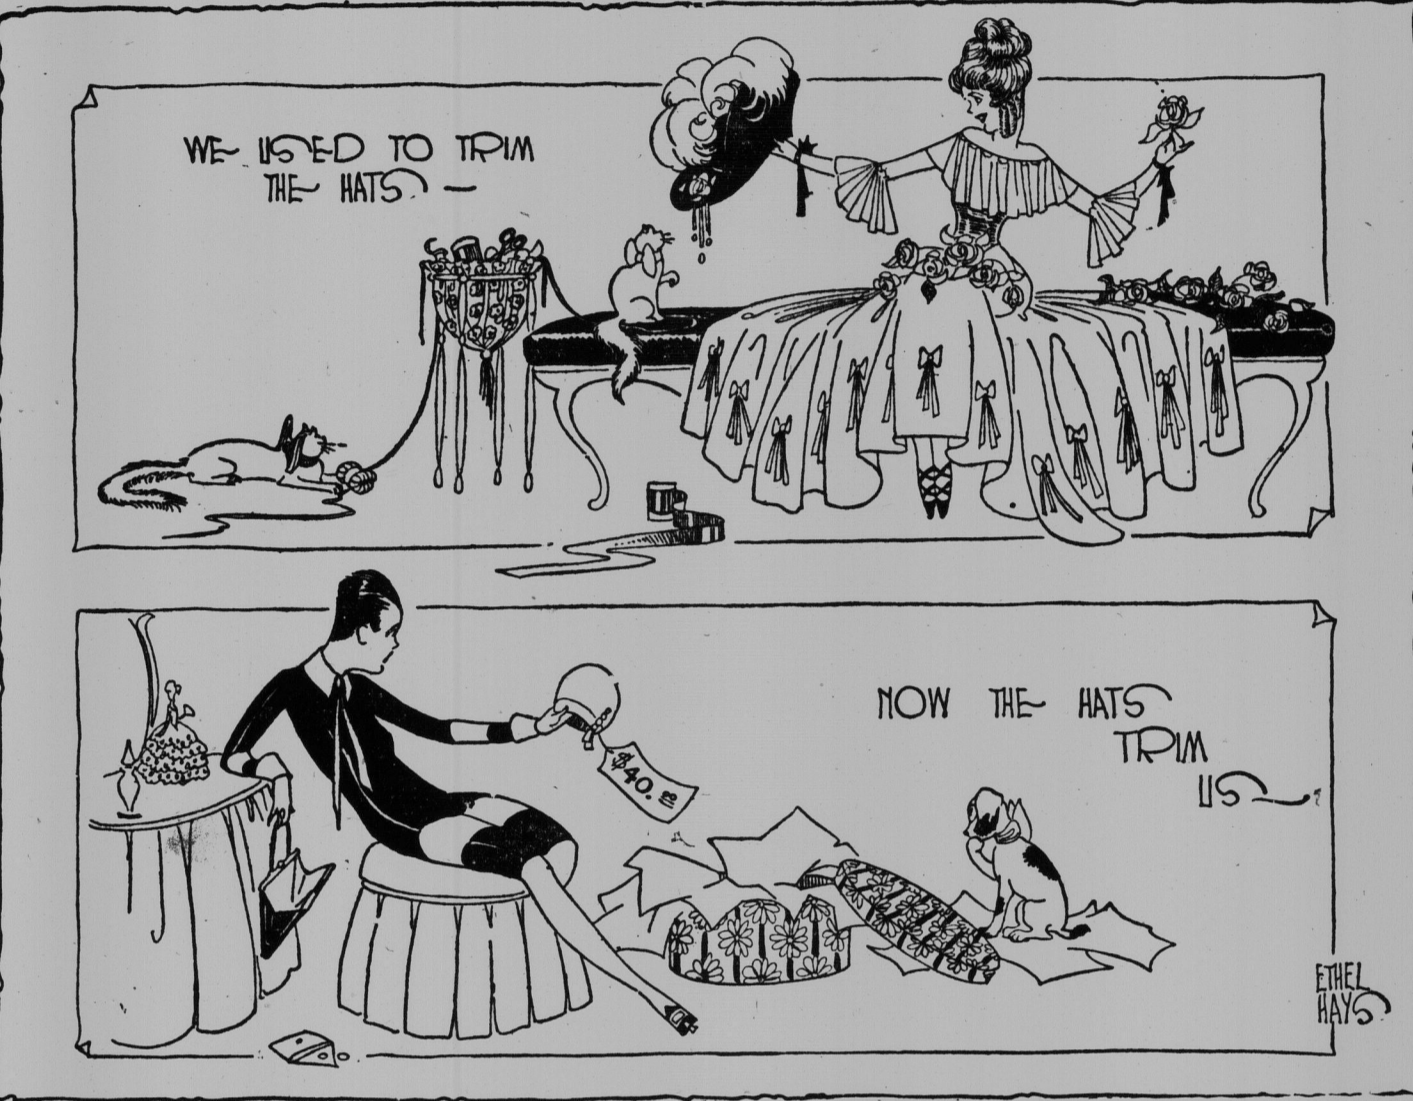

For years yeast has been known as a rich vitamin food, but not until we perfected "ironized yeast"—which comes in concentrated tablet form, was it possible to take yeast and iron in the right proportions to build up weight.

Vegetable "iron" when combined with yeast is quite easy to digest, therefore better for the system. And "yeast" when ironized, becomes just twice as beneficial as ordinary fresh or cake yeast.

Ironized Yeast tablets are composed of concentrated food elements, therefore they are pleasant to take and free from drug-like effects. If you are under weight, do not enjoy good health, lacking in energy and force, "ironized yeast" tablets will pick you right up, and if they fail, you get your money back.

Sold by druggists, at \$1.00 for a large 60-tablet package. Harold F. Ritchie & Co., Ltd., Toronto, Canada.

As Things Were Yesterday and As They Are Now

Fashion Fancies

By Marie Belmont

The little girl will find any use of the new sweater costumes much to her liking, especially if they use such a lovely sweater as the one shown above.

It is made of cashmere wool of the softest texture, in cream color trimmed with tomato-colored bands. The little skirt is of cream crepe, with a broad panel at the front, and ample fullness imparted by groups of pleats at the sides.

The slippers are brown kid, and the socks of cream cashmere wool.

IN NEW YORK SEE-SAWING UP and DOWN BROADWAY

SCATTERED notes from an afternoon's ramble about Manhattan: Hurdy-gurdies giving up their old East Side haunts in despair now that radio loud speakers shout, sing and or chestrate from every third window. What chance has a mere amateur hand organ against the endless sounds obtained by a mere twirling of a couple of knobs. I met an old organ man and his wife wending their way westward where competition is less keen. The rising generation of street gamins will stand in no awe of wealth and aristocracy. A generation ago, the sight of millionaires and society folk stopping in at their splendor, in the hotels and theatres would have been something to record in a Horatio Alger tale. Today impudent and incredibly noisy youngsters rush up to any taxi stopping at any public spot and open the door in hopes of hearing the doorman say, "Perhaps this is the beginning of a new democracy."

Goings! Goings! Gones! The world famous "Gedon's" mansion is now but an irregular sequence of brick-piles. A sandwich man rides past on an 1880 variety of velocipede, cutting cunningly in and out among the taxis and chummy roadsters. He attracts attention at the purring of an airplane motor. The new is old, the old is new, and if it's old enough it's never the newest.

The army of hatless boys and girls comes marching down the street. If this hatless movement keeps up it will be tough on batters but fine for barbers. East Side streets are so much more many shawls, when warm weather comes. Broadway crowds seem to drift without rhyme or reason. In the push-and-shove crowds of neighbors they laugh and chatter and gossip. The streets stack solidly. The people move slowly. More laughter and chatter in a single block than you will see up town in half a mile. Everyone seems at home. There are few hats and seems at home. The sunshine drives them out. Two by two. Four by four. Perhaps it is the dreariness of the tenements. Surely they spend little time there in pleasant weather. And the up-towners seem so cooped up, even when out of doors.

In pleasant weather give me any street east of Third avenue.

GILBERT SWAN.

A Thought

And whosoever shall exalt himself shall be abased; and he that shall humble himself shall be exalted.—Matt. 23:12

THE sufficiency of my merit is to know that my merit is not sufficient.—St. Augustine.

quarter cup flour. Bake about 30 minutes in a moderate oven. Serve warm with whipping cream. This serves 10 people. Take just half of the batter for five people; using as many apples as will cover bottom of dish. The apples can be prepared hours before time to bake.

Healthful Salad—A good healthful salad, which can be served the year round and "dressed up" to suit the occasion, and which is especially appetizing this season of the year, is made as follows: Shred enough head lettuce for a serving, on salad plate, on top of lettuce mince one slice of Bermuda onion and one-fourth of an apple, then grate a tablespoon of carrot on top and serve with mayonnaise. To vary this salad omit the carrot, slice rings of hard-boiled egg over salad and grate yolk on top. If a dressier salad is desired, take one-half package lemon flavored gelatin, and dissolve in one-half pint of boiling water; when cool, add one raw medium-sized onion, apple and carrot which have been put through the fine knife of grater, add one-half teaspoon salt and sugar and juice of one-half lemon. Stir mixture well and pour in oblong mold; when cold set, serve in slices on shredded lettuce. Different vegetables, such as celery, peas or red beets, can be added as a change.

BEHIND THE SCREEN

Mr. and Mrs. Albert Prisco and their 13 youngsters who are all movie actors and actresses. Left to right, the mother and father, Emily, Leon, Maggie, Salvatore, Agnes, Tony, Rose, Annie, Fanny, Charlie and Vinci.

ALBERT PRISCO and his wife, Frances, are two persons who can't be convinced that there is anything wrong with the movies, for the films mean bread and butter to them. The couple have a brood of 13 youngsters ranging from 19 years down to one. When you figure it up that means about three new pairs of shoes each week, besides food and clothing. When the family first came here from Italy, Albert found the going hard, but now, for a time at least, money is flowing into his purse for the entire 13 have been listed by a movie casting director and in two days' work the father and mother collected \$200 day.

When they took part in "Puppets," First National picture in which Milton Sillis is starring, they earned \$200. With a couple of extras the Priscos can do the filling in almost any mob scene. They're easier to handle than the regular run of extras because Papa Prisco has only to whistle and the children give their attention and carry out director's orders.

Technicians at the movie studios seem able to accomplish more remarkable results each day. Recently Vilma Banky's blonde tresses were made to appear brunette, now Greta Garbo's eyes, by means of red lights, appear dark in "The Temptress" in which she plays the title role.

Actual work on "The Fire Brigade" has been started at the M-G-M studios. It is intended as a living document in the cause of the profits will go to various fire organizations for their benefit.

RED ROSE TEA "is good tea" TEA

Perhaps you use good tea. We think Red Rose extra good.

ADVENTURES of the TWINS

COFTY GOOTY WRITES A LETTER

"I do believe that Snitcher Snatch and the three Gazookumases have come home to bed," said Mister Tintaling. "We haven't seen them for nearly two hours."

"Yes, they have, most likely," said Nick. "You never knew what they were going to do next, and their manners were dreadful."

"That's right," declared the fairymen. "Dreadful! But of course they may grow up into good Gazookumases. One never can tell. By the way, my dears, here we are at the Post Office! I'll just go in and get my mail. Mister Snatch, the fairy postman, said that he would try to have one for me today."

"Dear Landlord! If you and your two helpers will come to the briarpatch at five o'clock you will get your fortunes told. Please don't be late."

"Expectingly yours, 'Cofty Gooty."

The Post Office clock said one minute to five, so you may be sure that Tintaling didn't even wait to put his letter back into the envelope. Off went the three of them pitter patter as fast as they could run to the briar patch—rent-book, pocketbook, lead pencil and all!

But just as they reached the place, they saw a white line on the ground. Near it was a sign which said: "Chalk line. Stop!"

So they all stopped—just like that. "Does Cofty Gooty live here?" called Mister Tintaling.

"Yes," answered a squeaky voice from the briar-patch. "This is Cofty Gooty. Do you wish to have your fortune told?"

"Yes, sir! I mean, yes, ma'am. Cofty Gooty," said Mister Tintaling nervously. "Will you tell me a good fortune or a bad fortune?"

"A good fortune," said the voice.

"Cofty Gooty!" said Mister Tintaling to the Twins with a puzzled look. "Where have I heard that name before?"

But although Nancy and Nick and the fairy landlord tried and tried, they simply could not remember who Cofty Gooty was.

"Yes, Cofty Gooty says you are to have a good fortune!" went on the voice. "But you must do as I say."

"All right, I'll do it," said Mister Tintaling. "What is it?"

"First you must all go and hide your eyes and count to 500 by fives. But the charm won't work unless your hands are empty. You must lay everything you have with you right on the chalk-line and then go over to three yonder birch trees and do your counting. When you come back you will know all about your fortune!"

"Do we have to go, too?" asked the Twins.

"Sure!" said Cofty Gooty.

So the fairymen and the Twins laid the rent-book and the pencil and the pocketbook down on the chalk line, and went and counted up to 500 in fives.

When they came back, everything was a gone. And there was another sign which said: "Don't try to follow me by your hair will turn green. Cofty Gooty."

There's more to this story, my dears. To Be Continued

LITTLE JOE

MANY A MAN MAKES A HIT BY STRIKING OUT—FOR HIMSELF.

Is this your BIRTHDAY

MAY 11—You are strong, both mentally and physically. You are energetic, artistic and good-natured, happy in your home life, a leader in your social life, and generally accepted as a comfortable, reliable person. Your love is profound, and you never allow anything to cast a shadow upon it. You will travel a great deal, and live an open-air life as much as possible. Your birth-stone is an emerald, which means success in love. Your flower is a lily. Your lucky colors are red and yellow.

Miles and Smiles In Sisman Shoes

SOLID leather selected for wearability and fashioned into good shoes by skilled shoemakers are the reason for the traditional value of Sisman Shoes for the whole family.

There are many miles and lots of smiles in Sisman Shoes for boys and girls as well as for grown ups. Sismans are "hard wear" shoes, made to stand the rigors of all weathers, and are unusually comfortable to wear. Over sixty years of downright practical experience is built into them, therefore to secure real hard-wearing shoes, look for the Sisman trade mark on the shoes you buy.

If your dealer cannot supply you with Sisman Shoes, ask him to get in touch with his wholesaler or write us direct. Above all things, make sure you get Sisman Shoes.

Kindergarten Association Hears of Needs of Children

The great need for boots and clothing for the children attending the free kindergartens in the city was stressed in the reports of all the teachers read yesterday afternoon at the meeting of the Free Kindergarten Association held at the residence of Mrs. F. E. Holman, 262 St. James street.

Hearty endorsement was given the suggestion of Mrs. A. F. Robinson, instructor of the Kindergarten Teacher Training School, that Mrs. Douglas V. White give instruction in English subjects for the school, while Mrs. Robinson goes to Chicago to learn the latest kindergarten and primary school methods.

Central figure in one of England's most famous law suits is Master Geoffrey Russell, whose latest picture is shown above. He is the only child of the Hon. Mrs. John Russell, who defends his legitimacy in a suit to establish his right to the Amphill peerage. Trial of the case will be held in London.

TRAINING TEACHERS

With reference to the training of kindergarten teachers, it was said there must be many opportunities for opening kindergartens in districts where they have not yet been established, as there are so few in the province outside Saint John.

Social Notes of Interest

Made With Fresh, Creamy Cows' Milk. And the Purest and Best of Other Materials.

MAY BE HOUSED IN VOCATIONAL SCHOOL PLANT

Trustees to Secure Information About Manual Training Classes

BOY ATHLETICS WIN APPROVAL

Application for Places on City Teaching Staff Are Received

The use of the vocational school as the home of manual training instruction was one of the matters discussed at a meeting of the Board of School Trustees last night. Schoolboy athletics were approved and the taking over from the contractors of the vocational school was discussed at some length.

It was decided to furnish Centennial School with a flag and new hallways for the flagpole. Request for the flag had been made by H. C. Ricker, principal of the school. The fact that there was no flagpole on the High School was brought to the attention of the meeting.

The matter of taking over the vocational school and arranging with the contractors concerning financial obligations was also discussed.

Dr. L. M. Curren, chairman, presided. Others present were Trustees Mrs. E. R. Taylor, Mrs. D. P. Chisholm, T. H. Carter, W. C. Cross, H. Colby Smith, E. R. W. Ingraham, S. W. Palmer, Dr. J. K. Higgins, Thomas Nagle, S. A. Worrell, superintendent, and A. Gordon Leavitt, secretary.

G. Herbert Green, trustee officer, having urged a change in the city by-law with reference to trusts, the matter was referred to S. W. Palmer.

The possibility of having the manual training classes conducted in the vocational school was spoken of and information was to be secured.

Mr. Worrell with reference to criticism of the history text book in use in the schools, said he had looked into the matter of supplementary reading and found some copies of "The Children's Story of the War" in use. He was asked to find what it would cost to procure sufficient copies of this book.

Applications for positions on the teaching staff came from S. Chown, Buctouche; Russell L. Brown, Lower Brighton; James E. Gallagher, city; D. K. McLeland, Harry; Miss Frances H. Dickie, Sherbrooke, Que.; Miss Emma Lanterman, Reston, and Miss E. Robina Downey, Centerville, and from the following students, T. Allan McBeath and the Misses Marion E. Williams, Hazel M. Fisher, Jean E. McAllister, Audrey Gregg and Irene Eleanor Galbraith.

Applications for positions on the domestic science staff were received from the Misses E. S. Burnell, Rhena Brown, Marion K. Smith and Doris Brast.

Letters of thanks for sympathy extended in bereavement were received from the relatives of the late Mrs. James Dever and the late Michael Coll. An offer of James P. Moran to sell complete sets of 70 distinct species of native and foreign woods was referred to a committee.

MATTER OF BOILERS

It was stated the boilers were not according to the original specification, although the assurance was given that the boilers were of a better type than those specified. Dr. Curren felt a special meeting should be called in order to have the architect's statement on the condition of the building. Mr. Nagle said the architect advocated having the full board meet at the school and give over every item before the building was taken over.

Mr. Hennessey's communication was filed for reference.

As the contractors were to have finished the work on March 1, the special committee was asked to take up with the contractors the matter of financial adjustment and report to the board.

SECRETARY'S REPORT

The secretary's statistical report showed 8,998 pupils enrolled and 8,624 belonging, of whom 7,883 were in average daily attendance. Teachers made 215 visits.

The health report sent by the Board of Health showed four cases of scarlet fever, two of diphtheria and one of chickenpox.

A gift of \$2 for a prize for the pupils in one of the Opportunity classes was received with thanks.

The buildings committee's recommendation that tenders for the supply of coal be called for and June 7 be set for the closing date for receiving tenders was submitted.

SPEAKS OF ECONOMY.

Dr. Curren spoke of economy secured through burning slack at the General Public Hospital and said he understood the system in some of the schools could be adopted for burning slack. The schools' annual expenditure for coal was about \$30,000 and had run higher. An agent is now in the city, it was said, and could give a report. The buildings committee was asked to secure information regarding the heating system savings at the hospital.

Water rates for the schools were read and while all other schools had a rate below \$80, the King George school was charged \$101.80. This unequal charge was discussed and the water system in that school was said to be at fault.

The monthly financial statement was given to each member and withheld from the press.

Keeping Your Schoolgirl Complexion

By FRANCINE

Copyrighted 1926 by P. O. Beauty Features

Safe Soap

For your face... That's the important thing to women

This simple rule in skin care is bringing the allure of natural skin beauty to thousands

To endanger a good complexion with unapproved soaps is a folly. The kind of soap to use on your face is a beauty soap. A soap made for one purpose only—to safeguard your complexion.

Thousands have learned how true this is. For Youth is thus preserved. Complexions are treated kindly; natural loveliness retained.

Start today. Follow this rule in skin care for one week. Note the difference in your skin. World's authorities urge it. Countless thousands now employ it.

Do this... then note the changes in your skin

Wash your face gently with Palmolive Soap, massaging it softly into the skin. Rinse thoroughly, first with warm water, then with cold. If your skin is inclined to be dry, apply a touch of good cold cream—that is all.

Do this regularly, and particularly in the evening. Use powder and rouge, if you wish. But never leave them on over night. They clog the pores, often enlarge them. Blackheads and disfigurements often follow. They must be washed away.

Get real Palmolive

Do not use ordinary soaps in the treatment given above. Do not think any green soap, or represented as of palm and olive oils, is the same as Palmolive.

It costs but 10c the cake!—so little that millions let it do for their bodies what it does for their faces. Obtain a cake today. Then note what an amazing difference one week makes. The Palmolive Company of Canada, Limited, Toronto, 3162c

Dr. Curren said, was \$28,000, but Mr. Leavitt said rents and other heavy bills came due in May. Dr. Curren asked if it would be possible to assure the city council there would be no overdraft.

Coburg Street W. M. S. Session of Interest

The monthly meeting of the W. M. S. of the Coburg street Christian church was held last evening at the home of Mrs. H. V. Currie, Victoria Lane, with 24 members and six visitors present. Mrs. W. J. Johnston, president, was in the chair. A nominating committee consisting of Mrs. J. B. Prince, Mrs. W. J. Dunlop and Mrs. J. Shepherd was appointed to select a slate of officers for election at the annual meeting to be held on the first Tuesday in June.

It was reported that so substantial had been the growth of the society that 189 calls were made in the month.

After the business had been dealt with Mrs. E. N. Stockford took charge of the program and all of the members told of what the W. M. S. meant to them.

Miss L. Hoyt gave an interesting reading, contrasting two themes, "The Widow's Mite" and the "Miser's Parable." One new member was received at the meeting. At the close the hostesses served dainty refreshments and a very pleasant social hour was enjoyed.

Let Your Boy Cycle Joycycle

CHIROPRACTOR AND M.D.'S IN FAIRVILLE CASE

Inquest Is Begun Into Death of Three-Year-Old Child

VARIED TREATMENT FOR PNEUMONIA

City Doctors Called to Stand and Dr. Baker Also Testifies

AN INQUEST into the death of 3-year-old Verna McGlinchey, who died on April 28 of pneumonia, was begun last evening in the fire hall, Fairville. The taking of evidence occupied the court until 1 o'clock this morning when adjournment was made until this evening at 8 o'clock. The inquest produced evidence of an interesting nature several doctors testifying that they believed treatment given the child by Dr. H. T. Baker,

chiropractor, had destroyed her chance of recovery. Dr. Baker gave evidence in which he told of successfully treating pneumonia cases and said that the child was benefited by the treatment which produced results the medical doctors had been trying in vain to produce for many hours. Repeated questions by C. F. Inches, K. C., who appeared for Dr. Baker, as to who had instigated the investigation, were disallowed.

Coroner Clarence Quinton presided. It was his first inquest since he took office. The jury members were: Marshal Stout, foreman; C. A. McMasters, Joseph Boyle, Charles Mason, S. E. Chittick, Arthur Corland and John Fenney. B. L. Gerow, clerk of the peace, conducted the direct examination.

CHILD ILL FOR WEEK

The father of the dead child was first called to the stand. He said the child was ill a week before her death. Dr. Comeau was called in. The following Monday he was called again. Dr. Baker was later summoned and was given permission to treat the child. To Mr. Gerow, witness said that Dr. Comeau was in attendance on the case and diagnosed it as pneumonia in both lungs. He brought a nurse shortly before the child's death.

Dr. Comeau was in consultation with Dr. V. D. Davidson on Tuesday. Witness thought that they had done all they could and the child appeared to be getting worse. He therefore had sent for Dr. Baker the same day. Dr. Baker arrived about 5 p. m.

CHILD GOES TO SLEEP

The child could not rest and was unable to sleep. Dr. Baker adjusted the child in the presence of the nurse, after which it went to sleep. Witness felt sure the child was improved and went to the barn to milk. Dr. Baker left instructions to keep the baby warm and said that he would like Dr. Comeau's treatment stopped if he was to take the case. This was done until Dr. Comeau arrived about an hour later, after which the treatment was continued.

DIAGNOSED AS "FLU"

Questioned by Mr. Inches, the witness said that the child had got a cold and Dr. Comeau pronounced it "flu" or gripe. When it became apparent that the child was serious, witness requested the doctor to get a nurse, which he did.

Monday morning when Dr. Comeau saw the little girl he said: "My God, I believe she has got pneumonia in both lungs." Dr. Davidson was called at Dr. Comeau's suggestion and confirmed the

SEND FOR CHIROPRACTOR

Witness had known of cases where good work had been done by chiropractors and he sent for one as he believed that the case was hopeless as it stood.

Witness had no complaint to make about Dr. Baker. Witness went on that Dr. Comeau and the nurse were in the house when the child died but left immediately after. Witness knew nothing of the inquest until he was summoned by telephone.

NURSE TESTIFIES

Mrs. Jakes was the next witness. She said that she was a practical nurse and was in attendance on the McGlinchey child. When Dr. Baker was called, she said, he took the child's temperature. He said that he did not want Dr. Comeau to know he had been there. He ordered all medicines and had applications stopped. The child was handled roughly. Dr. Comeau's instructions were that she was to be handled on pillows.

Dr. Comeau ordered hot applications of onion poultices, medicine and brandy and milk and for the child to be kept warm and quiet. The patient slept as much as a child with pneumonia could.

After the consultation the applications were changed to hot linseed. The child seemed to be resting more easily after this was done. This continued until after Dr. Baker's arrival.

MASSAGES SPINE

Dr. Baker ordered the poultices removed and placed the child on her face with her back exposed while he massaged her spine and body. He placed his left hand over the base of the left lung and struck it three times hard enough to make the body spring.

When the child was struck over her lips were white, the face blue and clammy and the nostrils pinched.

PATIENT GETS WORSE

Dr. Comeau came in just after Dr. Baker left. He immediately noticed that the child was worse. The child was then in a coma. Both Dr. Comeau and the father asked witness not to mention Dr. Baker's visit. Witness believed the child was dying from the time of the treatment.

To Mr. Stout witness said she believed the child was dying well up to the time of Dr. Baker's treatment.

Dr. Comeau at this point asked witness several questions as to the treatment.

To Mr. Inches witness said that she

was not a registered nurse. Dr. Comeau had kept a chart of the case from figures supplied by her by telephone.

Mrs. Jakes said she had come to Saint John about three weeks ago and had sent her name to the doctors as ready to do nursing work.

TELLS OF TREATMENT

Dr. O. Comeau told of treating the McGlinchey child and of the development of pneumonia. He believed that Dr. Baker's interference had taken away from the child her only chance of recovery. Witness said that he had attended the case at the earliest reasonable times when he was summoned by telephone.

CHANCE ABOUT EVEN

To Mr. Inches witness said that when a child of the patient's age took double pneumonia it had about an even chance of recovery.

"Mr. Inches—When you saw the child in a state of shock, was it not your duty to stay with her?"

Witness—"I spent all the time with her that I had to give. I did not think she had any chance to live."

Coma and stupor were frequent in cases of this kind, he said.

MORTALITY ONE IN FOUR

Dr. Davidson said that he had been called into consultation in the case on April 27. He thought chiropractic treatment of pneumonia directly contrary to all scientific law. The mortality in bronchial pneumonia in children of the age of the patient would be about one in four.

The witness had told the parents that the child might recover, but was

WALL PAPERS

Reports Show Protestant Orphanage Has Increased Activities During Past Year

Many Children Cared For in Twelve Months—Payments For Maintenance Said to Have Fallen Off Greatly—Directors Named at Meeting

GREATLY increased numbers of children were cared for in the New Brunswick Protestant orphanage during the year just closed it was reported at the annual meeting held last night in the Board of Trade rooms with Dr. James Manning, first vice-president, in the chair.

It was also reported, however, that payments for maintenance had fallen off most seriously and the overdraft on maintenance was a very grave concern. Hearty thanks were tendered to various members of the directorate for exceptional service and congratulations were extended to Hon. J. G. Forbes on his birthday. H. C. Rankine regretted that he could not accept nomination for the directorate. He has served on the directorate for more than 20 years and his retirement was felt to be a loss to the organization.

DIRECTORS ELECTED.

The election of directors resulted as follows: County representatives, Albert George E. Dawes, Hillsboro; Carlston, W. S. Sutton, Woodstock; Charlotte, Dr. H. J. Taylor, St. George; Gloucester, L. A. Palmer, Bathurst; Kent, to be appointed later; Kings, Ralph March, Hampton; Madawaska, W. W. Hall, Edmundston; Northumberland, F. E. Nesle, Chatham; Queens, W. B. Evans, Riverview; Westmorland, J. G. Forbes, Grand Falls; York, R. L. Phillips, Fredericton; and Victoria, N. A. Hanson, Perth, Saint John members, Mrs. J. H. Harding, Mrs. William Lewis, Mrs. T. A. Graham, Miss M. Sidney Smith, Mrs. H. E. Robinson, Miss E. Cushing, Miss B. MacLaren, Mrs. J. A. McAvity, Mrs. Simon Jones, Mrs. E. Watters, Mrs. J. E. Evans, Allan C. Beatty, W. A. Steeper, Simon Jones, Hon. J. G. Forbes, secretary-treasurer, and H. Usher Miller, secretary-treasurer, submitted the following reports:

Ladies and Gentlemen:—The past year has been one of progress in the number of children cared for. It is in the greater number of those for whom we have found excellent homes by adoption. By this latter means we have thus been able at nearly all times without undue delay to care for every normal, healthy, worthy substitute child for whom admission has been sought. Of course we have decided that many of our children will not be approved for adoption for many different reasons.

On May 1, 1926, we had 168 children in our care. On April 30, 1925, we had 188 children in our care. Of these 198 children are divided in the manner as follows: 47 children under 4 years old at Britain street; 188 boys between 4 and 14 years old at Manawagonish Road; 83 girls between 4 and 14 years old at Manawagonish Road. Our capacity is for 252 children divided as follows: 79 children under 4 years old at Britain street; 188 boys between 4 and 14 years old at Manawagonish Road; 84 girls between 4 and 14 years old at Manawagonish Road.

The principal reason for 23 vacancies in the babies division is the large number adopted out therefrom. The older girls division is filled to its capacity with 9 boys on our waiting list for admission. The older girls division has grown rapidly than the boys and we have 31 vacancies there. Of the 198 children in our care 54 were for adoption out divided as follows: 9 girls under 4 years old; 20 boys under 4 years old; 7 girls between 4 and 14 years old; 19 boys between 4 and 14 years old. During the year 154 children were taken into our care as follows: 68 children under 4 years old; 87 boys between 4 and 14 years old; 89 girls between 4 and 14 years old.

STATISTICS OF CASES.

Of these 154 children admitted: In 40 cases the mothers died and their fathers had no other means of support. The fathers all pay an agreed sum per month per child ranging from \$1 to \$20, according to income. In 11 cases the fathers deserted their children and the mothers had to go to work, and place the children in our care and they also pay an agreed sum per month per child. In 28 cases they were little babies taken by us for adoption out, and for 23 of them excellent homes have been already found. In 22 cases the fathers had died and the mothers put the children in our care so that they could go to work. They each pay an agreed

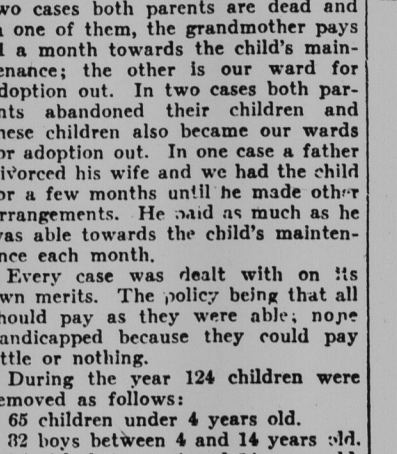

sum per month per child. In 11 cases the mothers had to go into hospital for a considerable period of treatment, the fathers in each case paid as near as possible what it cost us to keep their children in our care, for the period of the mother's absence; all but two of these children are now again in their own homes.

SEVEN DESERTIONS. In seven cases the mothers deserted their children, and the fathers in order to go to work had put the children in our care and they pay an agreed sum per month per child; as much as they can when income and other dependents are considered. In five cases the fathers are incurable invalids, and the mothers work and pay an agreed sum per month per child for their children in our care. In three cases the father is in the penitentiary and the mother works and pays for the child.

MAINTENANCE ACCOUNT. Statement of receipts and disbursements for the year ending April 30, 1926.

Table with columns for Receipts and Disbursements, listing various categories like Children's support, Church collections, and Disbursements.

\$20,000,000? HE'LL WAIT

Peter Mullin, San Francisco grocer, has just been informed that he is the man to make a \$20,000,000 fortune in England, but while his lawyers are looking it up to make sure, he'll continue to measure sugar in his little store.

Scotland Yard's System Invariably Is Successful

LONDON, May 10.—Once Scotland Yard decides that a man or woman wanted there comes into operation an organization unequalled anywhere in the world. A striking example of this was afforded recently when a Frenchman named Charles Emile Berthier, who was wanted by the Scotland Yard officers, for drug carriers and international truckers.

The whole description of the wanted man is transmitted in less than half an hour. That information is acted on by the local police, but is conveyed at once either by messenger or by telephone to the Scotland Yard officers. The present case at Liverpool, for the description of the wanted man, intimate in every detail, facts regarding his whereabouts, everything that was wearing in the possession of Scotland Yard officers at every port in England within half an hour of his departure from any other port in England, his detention would have been equally successful.

Mr. and Mrs. Gordon Fullerton Honored by Friends; Presented Gifts

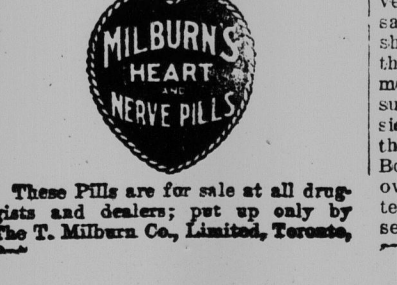

PUGWASH, May 10.—Mr. and Mrs. Gordon Fullerton were the guests of honor at a pleasant gathering last evening at the home of Mr. and Mrs. G. N. Allan, the occasion being the celebration of Mr. and Mrs. Fullerton's thirty-third wedding anniversary. The evening was delightfully spent in vocal and instrumental music, readings and games in which old and young joined enthusiastically.

Her Heart Palpitated She Had Fainting Spells

Mrs. J. Wilson, Port George, N.S., writes:—I suffered from palpitation of the heart and fainting spells, and at times, I could not be left alone I was so nervous. My trouble was caused from overwork and worry, having been left alone with a large family.

NUTRIMENT IN THE MOST USEFUL FORM

Father John's Medicine contains as one of its most important constituents the Purest Cod Liver Oil—Blended by Exclusive Process with Other Valuable Ingredients.

If the nutriment which a food contains cannot be extracted by the digestive organs, then such food is of little value. Cod liver oil is rich in nutriment but in its ordinary form is difficult for most people to digest.

Dr. Harvey A. Sell, expert chemist of New York, made an analysis of Father John's Medicine and in addition to commenting on the high quality of the different ingredients, he made special mention of the cod liver oil as follows: "The cod liver oil is broken up more completely than in any other medicine we have ever examined of this type, some of the particles being as small as 1/250,000th of an inch in diameter. This increases the rate of absorption by the digestive organs."

ROTARY SPEAKER AT YARMOUTH SAYS RESERVES NEEDED

N. S. and P. E. I. Are Only Provinces Without Protective Areas. YARMOUTH, May 10.—At the meeting of the Rotary Club today, Rotarian G. Harry Allen, secretary of the Nova Scotia Guides' Association, occupied the chair and the speaker was Rev. Dr. D. B. Hemmison, pastor of the United Church at Westville, who is deeply interested in the establishment of game sanctuaries in this province.

BOUNDARY ROCK IS SECTION APPROVED

Increase of Wild Animal Life a Better Tourist Attraction. YARMOUTH, May 10.—At the meeting of the Yarmouth Chamber of Commerce today, the boundary rock area and borders on the five counties of Queens, Shelburne, Yarmouth, Digby and Annapolis, while nine-tenths of it possesses natural boundaries.

NEWCASTLE CHURCH CALLS REV. M'LEAN

NEWCASTLE, May 10.—At a congregational meeting held in St. James' United Church, after the evening service on Sunday evening to consider calling a minister for the United Church. The Rev. L. H. McLean was unanimously chosen. It will be some little time before it is definitely known whether Mr. McLean will accept such call or not.

BAPTISTS TO MEET

Fourth District Gathering at Maugeville Slated For June 11 to 13. FREDERICTON, N. S., May 10.—The quarterly meeting of the United Baptist fourth district will be held at Maugeville June 11 to 13. Among the speakers will be Rev. W. B. Crowell of this place, "Our Baptist Heritage"; Rev. D. A. Corbett, of Fredericton, on "Denominational Work"; Rev. David Patterson, of Rustyford, will preach the annual sermon and Rev. W. H. Jenkins, of Blissville, and Rev. E. Gosline, of Upper Gagetown, on Sunday school work.

"RADIO BURGLAR" IS SENTENCED TO DIE

NEW YORK, May 10.—Paul E. Hillon, known as the "Radio Burglar" was today sentenced to die in the electric chair for the murder of Patrolman Arthur Kenny, who was shot to death on March 25 as he was attempting to arrest Hillon.

TRADE PROSPECTS

Commenting on trade in other directions, Mr. Pedrick said that inbound cargoes from Europe have been increasing steadily, but that coffee imports from South America have declined. The situation with respect to coffee is similar to that in the North Atlantic, he remarked. The Lloyd Brasileiro, which operates to New Orleans, withdrew from the rate conference some time ago, he stated, and reduced the rate on coffee from 70 to 40 cents a bag. This, Mr. Pedrick added, was coupled with an appeal to Brazilian shippers to patronize vessels of their own nationality, with the result that other lines have suffered.

DRAGGING-DOWN PAINS RELIEVED

Woman Suffered Nearly a Year. Lydia E. Pinkham's Vegetable Compound Brought Her Health. Moose Jaw, Sask.—"I am going to try to tell you what Lydia E. Pinkham's Vegetable Compound has done for me. I suffered very badly with dragging-down pains and inflammation, also pains in my right side over my hip and down my whole side into my leg. I had it nearly a year when I went to a doctor and he said I would have to have an operation. But my mother said to take Lydia E. Pinkham's Vegetable Compound as I saved her life years ago. I took two bottles and I found I was better, so I kept on taking it and also used Lydia E. Pinkham's Sanative Wash. I have had two more children since then and am perfectly well. I used to have to lie down two or three times a day, and now I do all my household work without trouble. I always keep the Vegetable Compound in the house as I find a dose now and then helps me. I am willing for you to use this letter any way you see fit and I will answer letters. If I can help any other woman I'd be only too glad to try."—Mrs. ESTHER HOUTON, 712 Athabasca W., Moose Jaw, Sask. Katchewan.

DOUBT CAST BY EUROPEANS ON POLAR FLIGHT

Scientists in Denmark and Norway Await Proof

ITALY DUBIOUS
United States Navy Experts Accept Achievement as Fact

NEW YORK, May 11.—United States navy experts are accepting as a fact accomplished, the flight of Lt. Commander Richard E. Byrd and Pilot Bennett from Spitzbergen to the North Pole and back, notwithstanding the feeling of reserve held in Italy, Denmark, Norway and Germany pending positive proof of the achievement.

It is pointed out that with his dumstard sun compass and his own bubble sextant, Byrd at all times was able to determine his exact position and to know positively when he crossed over the pole and circled about it. It is the belief of the naval experts that with a bright sun shining and absolute freedom from fog or clouds, Byrd was able to announce when he returned to King's Bay Sunday that he had visualized from the air, the scene that the late Admiral Peary had observed from the ice years ago—the exact top of the world.

FORMULA CORRECT.

The argument is advanced in naval circles that with the formula which had been worked out for him to determine his geographical position, Byrd's claim will prove outside the realm of contradiction. It is contended that with the use of the sun compass and the Byrd bubble sextant, resort to the mariner's compass, which is of little value in the Arctic regions because of magnetic variations, was unnecessary. In proof of this, it is pointed out that Byrd sailed away straightway toward the pole without any markers below to show him the route and that the plane winged its way back over the vast stretches of ice, straight as an arrow in its flight, directly to the spot from where the birdmen started on their momentous journey.

ROME DOUBTS

From Rome comes reports of some incredulity over the success of Commander Byrd, but it is admitted that if the claim is scientifically proven, it will mark a wonderful achievement. The chief doubt raised in the minds of the Italians is over the ability of the Josephine Ford to negotiate fifteen hundred miles from Spitzbergen to the pole and return in fifteen and one half hours. It is contended that when the Amundsen-Ellsworth dirigible Norge, which was built near Rome, makes its flight over the pole, it will be possible to make scientific investigations under more favorable conditions than from an aeroplane. The Norge is now at King's Bay ready for the start.

In Germany, although reserving final judgment until Commander Byrd presents proof supporting his claim, the Amundsen-Ellsworth expedition is regarded by the newspapers as promising a more valuable contribution to science.

If the belief of the famous Danish explorer Peter Freuchen that, with the excellent instruments at his disposal,

Byrd was able to determine his position with exactitude. While Dr. Skattum, president of the geographical society of Norway, asserts that it is impossible to accept Byrd's claim until his observations are published, Lt. Boec, chief of the Army Aeronautical School at Oslo, does not doubt the success of the United States expedition. He believes Byrd reached the pole or near it. He doubts, however, whether Byrd can prove through his observations that he arrived at the top of the world.

MARINE NOTES

S. S. Karma arrived early this morning from New York with 2,000 tons of coal for local dealers. The Karma replaced the steamer Facto on this voyage. The Canadian Squatter is expected to sail today for Montreal with general cargo. The Dampier, berthed at Sand Point, commenced loading potatoes this morning. She is expected to sail for Havana before the end of this week. Schooner, Schomberg, F. E. Elgin, Captain Haugh, arrived at Eastport today with a cargo of salt from Turk's Island. S. S. Kearny arrived in port early this morning with general cargo from Norfolk. She is expected to sail Saturday with cattle for Glasgow. The steamer Tiska arrived in port last night from Halifax. She is due to sail tomorrow with a cargo of refined sugar for the United Kingdom. The Canard liner Tuscunia is due to sail from New York Friday with passengers and general cargo for Plymouth, Havre and London. The Esterstad is expected to leave this afternoon for Havana with potatoes. The Canard liner Mauretania is due at New York Friday from Southampton. The White Star liner Adriatic is booked to leave New York Saturday for Liverpool with mails, passengers and general cargo. The White Star liner Majestic is scheduled to leave New York Saturday for Southampton. The Red Star liner Samland is due to leave New York Saturday for Antwerp. The Canard liner Samaria is due to leave New York Saturday morning for Liverpool. The steamer Rosalind, Red Cross Line, is booked to leave New York Sunday for St. John's, Nfld. The Canard liner Athena is due to leave Montreal Friday with passengers, mails and general cargo for Plymouth, Cherbourg and London. The C. P. R. steamer Monticore is booked to leave Montreal Friday for Liverpool. The S. S. Empress of France, C. P. R. steamer, is scheduled to sail from Quebec tomorrow for Cherbourg, Southampton and Hamburg.

U. S. SHIPMENTS TO INDIES INCREASED

Imports of Dutch West Indies Show Substantial Gain in 1925

The increasing popularity of American goods in the Dutch West Indies is disclosed in a special survey of that region made public by the U. S. Commerce Department. Last year, the report shows, American exports to the islands were valued at \$4,207,000, an increase of \$490,000 or 13 per cent over the previous year's figure. During the same period this country increased its purchases from the islands \$1,900,000—from \$7,400,000 to \$9,300,000. The bulk of the islands' exports to the United States consists of petroleum products while American shipments to them are made up of coal, foodstuffs, and miscellaneous manufactures.

The development of the Venezuelan oil fields, the bulletin points out, is largely responsible for the marked increase in the foreign trade of the island during the past three years. A British-Dutch petroleum company maintains a large refinery and storage plant at Willemstad, Curacao, which of late years has expanded rapidly in sympathy with the growing production of Venezuelan oil. A new petroleum plant is being constructed on the island and of Aruba by American interests, according to the report. Several tanks have already been erected and the first shipments of Venezuelan oil received. The steamers Ohio, from Southampton; Colombo, from Southampton; and Tuscunia from Glasgow were due at New York yesterday.

WILKINS ARRIVES AT POINT BARROW

NEW YORK, May 10.—The North American Newspaper Alliance announced today that Captain George H. Wilkins had arrived safely at Point Barrow, Alaska, after his flight from Fairbanks. He plans to hop off soon in his quest of undiscovered lands believed to lie near the centre of the Arctic ice pack.

ands during the past three years. A British-Dutch petroleum company maintains a large refinery and storage plant at Willemstad, Curacao, which of late years has expanded rapidly in sympathy with the growing production of Venezuelan oil. Over One Hundred Million "Wear-Ever" Utensils Now in Use

CO-OPERATIVE SALE

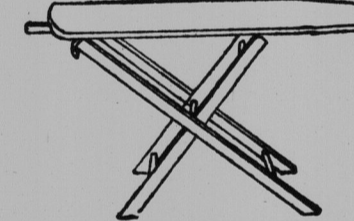

This week we are conducting a big demonstration of Connor Washing Machines, and during the week are making the most remarkable offer ever made on an Electric Washer. During the demonstration we will give away free with each Connor Electric Washer sold any four of these useful articles.

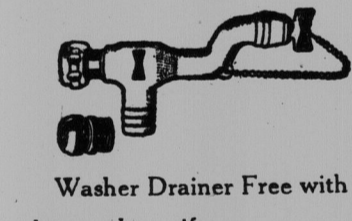

This 6-lb. High Grade Electric Iron and any three other gifts with your washer.

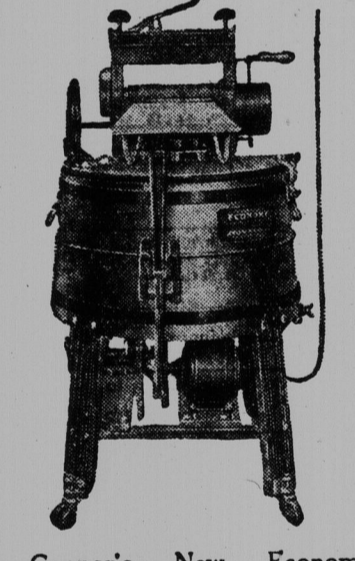

This Clothes Horse Free and any three other gifts with your washer.

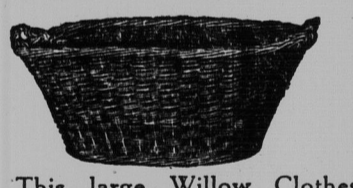

This Ironing Table Free and any three other premiums with your washer.

Washer Drainer Free with any three other gifts.

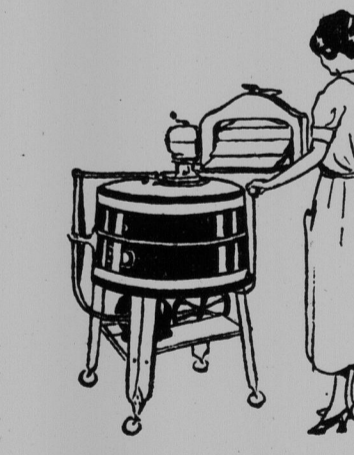

This Tub Bench to use with your Connor Washer to hold rinse tub and basket.

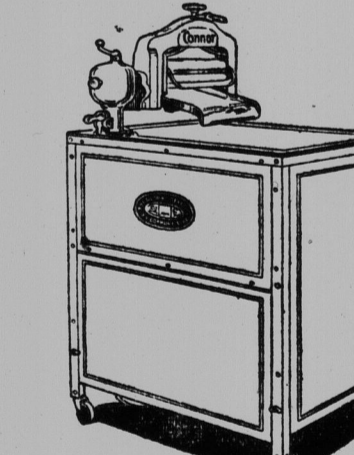

This large Willow Clothes Basket Free with any three other gifts.

Galvanized Rinse Tub Free with any three other gifts.

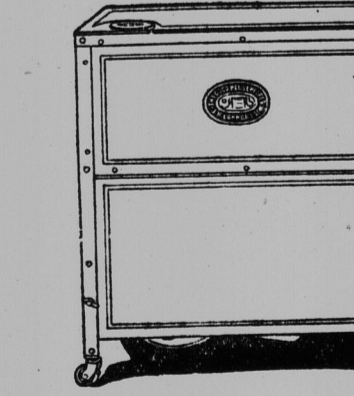

The new Connor Electric Model 25. The secret of washing clothes cleaner and more quickly is in the Aluminum Agitator. Washes the dirtiest overalls clean in a few minutes or the daintiest clothes without injury.

The Good Housekeeper—The Washer De Luxe complete. Cabinet style specially designed for small homes and apartments.

The clothes pass quickly from the washer to the rinse tub through the rubber rolls of the wringer. The wringer swings over the machine, rinse tub or bluing tub as required.

The Good Housekeeper with wringer removed gives you a porcelain top table.

Connor's New Economy Washer and Wringer competitive price \$147.50
Our price—12 months to pay, with 4 premiums 98.00
Saving to you \$49.50

Bread Board FREE to Every Adult

Bread Board Free to every adult attending this sale. No obligation to buy. Just clip this coupon, bring it in and get a 50c. Bread Board today Free.

10 Years Younger in 10 Days

You, too, can have hair free from those telltale streaks of gray—hair glowing with health and youthful beauty. Just make this test—as thousands of men and women have done. Get a bottle of Kolor-Bak and use as directed. This wonderful preparation is not sticky or messy to apply—just a clean, colorless, pleasant liquid almost like water. But it has the remarkable power to restore any gray hair to its natural shade. Kolor-Bak does not change the hair coloring instantly, as do ordinary dyes. It works more gradually, yet a week often suffices to accomplish desired results. And while restoring the color, it also acts as a tonic, routing dandruff and giving the hair a lustrous, soft texture.

Ask for Kolor-Bak today. No sample necessary. The same bottle is for any gray hair. If desired results do not appear, we will return your money. Guarantee in each package.

Kolor-Bak
Banishes Gray Hair
SPECIAL SALE \$1.29

PRICE CONFLICT MARKS OPENING ON N. Y. MART

Short Covering Continues to Aid Dupont, General Motors and Others

BRAZILIAN IS FEATURE ON MONTREAL MARKET

Other Issues Selling in Broken Lots; Besco Gains Half Point

NEW YORK, May 11.—(Opening)—Conflicting price movements marked the opening of today's stock market, with professional operators making an effort to carry over yesterday's late rally. Short covering continued to aid Dupont, General Motors, United States Rubber and other recent weak features, but fresh selling cropped out in Dodge, Studebaker, Pepsico, American B. and United Cigar Stores. Radio eased off on profit taking.

MONTREAL, May 11.—Trading on the local stock exchange at the opening this morning was confined to Brazilian, with all other issues selling in broken lots only. On a turnover of 1,329 shares Brazilian opened at 90 3/4 for a gain of a quarter point, and subsequently sold at 91 for a gain of a half point. Cement eased a half at 10 1/4, while Besco preferred gained a half at 12. Smelters and Thompson sold unchanged at 196 and 294 respectively. Shawinigan gained a quarter at 180 1/4.

ACTRESS AND ACTOR TO WED

Teddie Gerard, well known American actress, has announced her engagement to marry Tom Douglas, American actor, shown in the inset above. The two have been playing recently in separate productions in London.

NORMA TALMADGE STAR IN GRAUSTARK

Eugene O'Brien and Other Notables in Cast at Palace Theatre.

"Graustark," starring Norma Talmadge, which Joseph M. Schenck has produced from the George Barr McCutcheon novel for First National, opened yesterday at The Palace. The romantic story of love and intrigue in a mythical kingdom in southern Europe has been modernized to the ideas of the new generation. A dashing young American loses his heart to a princess who happens to be touring his country and then follows her to her plot-torn kingdom. Add an evil priest who wants to do away with the crusading foreigner and marry the royal beauty himself. And surround this situation with kings, ambassadors, conspirators, old-world dungeons, and regiments of picturesque soldiers. Then love via intrigue in the unfolding story that has thrilled millions of readers.

Lovely Norma has a perfect role as the princess. Romantic Eugene O'Brien plays the young American.

Others in the cast are: Marc Madernotti, Roy D'Arcy, Albert Gran, Lillian Lawrence, Michael Vavitch, Frank Currier, Winter Hall and Wanda Hawley.

MARIE PREVOST IN CAVEMAN AT UNIQUE

Matt Moore in Striking New Role, and Support is Good.

When a flapper tries to tame a cave man she is more likely to find herself the tamed one, according to the Warner Bros. film, "The Cave Man," which opened yesterday at the Unique theatre.

Matt Moore has undergone an astonishing metamorphosis for this production and makes his characterization of Smuggs a coal heaver, stand out strongly after all the timid, faltering youths of his screen past. Moore is a grimy, husky, aggressive he-man in this film version of Gillette Burgess' story, and does the best work of his career.

Marie Prevost, as ever, is a delight to watch, and is perfect as the pampered little beauty who goes in search of a thrill and finds more than she expected.

John Patrick, Myrna Loy, Phyllis Haver and Hedda Hopper give consistently entertaining performances in a photoplay which has much humor, romance and drama; and "The Cave Man" is certain to please all picture-goers.

FRED THOMSON AT GAIETY THEATRE

Alturas Round-up is Feature of Stirring Picture—Silver King is in It.

A famous rodeo, the Alturas Round-up, is an integral part of Fred Thomson's latest production, "All Around Frying Pan," which was shown yesterday for the first time at the Gaiety Theatre. Really the picture is two shows in one; for the shots of this cowboy classic are a show in themselves, and they are only an important incident in the picture.

Another thing that distinguishes "All Around Frying Pan" is the fact that Thomson's great horse, Silver King, appears first as an outlaw bucker. Silver and Fred were actual contestants at Alturas when they shot the scenes for this picture, and they run away with the honors among a group of the world's best riders.

A strong story with a melodramatic flavor has been provided for the star by Frank Harrison Pierce and David Kirkland; the former the author of the original magazine tale and the latter the adapter as well as the director.

Mr. Thomson has never been better directed, and Silver has an even more important role than usual. Lovely Clara Horton takes the role of Jean Dawson, playing opposite the star, and proves as able as she is attractive. The remaining important roles are filled very capably by Jim Marcus, William Courtwright, John Lince, Monte Collins, Elmo Lincoln and Newton Barber.

THE McCLARY BUILDING 221-223 PRINCE WM. STREET.

QUEEN SQUARE HAS GOOD POLICE DRAMA

Marguerite De La Motte and John Bowers Star in Strong Story.

There seldom has been an underworld melodrama on the screen quite like "The People vs. Nancy Preston," featuring Marguerite de la Motte and John Bowers, which opened yesterday at the Queen Square theatre for today also. It was accorded a flattering reception by a large audience.

The story tells of crook life in the New York underworld and in and outside Sing Sing prison. There is real action throughout. It has an element of suspense and mystery with romance and heart interest aplenty.

Mike Horgan, released from Sing Sing, plans to "go straight" and provide for his buddy's wife and child. Nancy Preston and Bubsy. The business of "going straight" isn't as easy as he thinks, for a series of circumstances arise, aided by a vindictive detective, that throw him back in prison again, an innocent victim. He escapes, joins Nancy, who is wrongfully accused of murder and they save New York only to be pursued again by the minions of the law. Then follow incident after incident that hold one tense until the smashing climax.

The cast features Marguerite de la Motte and John Bowers. They are finely supported by William V. Mong, Frankie Darro, Gertrude Short, David Butler, Alphonse Ehlert, Ed. Kennedy, Ray Gallagher, Jackie Saunders and Mary Gordon.

THE EVENING TIMES-STAR, SAINT JOHN, N. B. TUESDAY, MAY 11, 1926

POSSIBILITIES OF BASEBALL CONFERENCE ARE BEING DISCUSSED

BAPTISTS OUT; PRESENT TANGLE CHANGES LITTLE

One League On Record Favoring Conference, Is Report

POSSIBILITIES of a get-together conference to settle the present senior baseball tangle were a bit stronger today as a result of the Water Department, Trojans and Saint Johns deciding to stay together as a City League, despite the withdrawal of the St. John Baptist team, as forecasted by The Times-Star last week. The tangle, however, remains practically the same as far as the leagues go and the impasse that has been reached with the fans facing the prospect of three leagues in action is still there where they would welcome the invitation of a third interested party to call a conference and seek some way out. That three leagues is bound to split up the senior strength available in the city with the resulting falling in of the standard of play is the view of the fans who would like to see the matter straightened away before the opening day on May 24. Public patronage will not be as heavy as the leaders might think if the fans carry under their skin a feeling that they have been poorly treated in this matter. There is no more disgruntled person in the world than a disgruntled ball fan and in the final analysis he is the man who makes and breaks leagues. It is for these reasons, serious thought is being given to a league being held to arrive at an amicable solution. One of the leagues, it is understood, is on record on this matter already and it would not be surprising to see something of this nature transpire before the work is out. At last night's meeting of the City League held in A. W. Covey's office, the St. John Baptist team officially withdrew, leaving the Trojans, Water Department and Saint John's to carry on. Upon motion it was decided that these three teams will form one league or will receive into the league additional teams that may be considered strong enough.

MR. COVEY PRESIDES

Mr. Covey presided at the meeting and pointed out that the decision made must be made that evening as to whether the City League would operate or not. This, he claimed, was only fair to the public, which should be given first consideration. To bring the matter to a head it was decided that the secretary should be applied for immediately and the secretary was instructed to make the application last evening. An application was also forwarded to the East End Improvement League for the use of their grounds two nights a week, together with the three nights already arranged for on the North End grounds, will give the league five games a week, if desired. The question of umpires was next dealt with. Seven applications had been received and were voted on at the meeting. The umpires appointed were Robert Atcheson, Arthur E. Selys and Eddie Ramsey. In the event of other teams being admitted to the league, other umpires will have to be added. Other details in connection with the organization of the league for the season were left over until the next meeting, which will be held at the call of the chair.

Wins Title On Third Showing

One of the features of the dog show recently concluded at the Exhibition Castle was the going to championship of Silver Birch Miss Quality, owned by the Merryfield Kennels. This Airle terrier bitch won her first points at the dog show in connection with the Saint John exhibition last year and then cleaned up all opposition at the big Halifax show, beating among others, Champion Rockwood Ranger, who completed her championship at the show here and not only won her class but was adjudged best of all terrier shows—a high honor for such a young canine and opposing the class of the recent exhibition which was an exceptionally high order. Doing so well on three showings is a record in which her owners take justifiable pride and with such a start, the outlook for better things is bright.

Rowing Club May Send Sculler To Canadian Henley This Year

Along The Sport Trail

THE baseball-loving public of the city has stood by quietly enough for the last few weeks while the various leagues endeavored to settle their differences. No league can exist without public support, so the first essential to success is to please the average fan. Proceeding on this basis, the league executives can ask themselves this question: "Does the present situation please the average fan?" Find out, we strongly advise, what public opinion is on this question. If the leaders discover that the majority are well satisfied with three leagues in operation and that the class of ball will not suffer, go to it, is our advice. But if the verdict is the other way and you find a lot of fans who are disgruntled over the present tangle and would like a conference on the entire matter, then speak out before it is too late and let's have the whole mess wiped out and a clean start made. The time is not too far gone and no league would sacrifice anything of its pride. What do the leaders say on this important question? The fans are waiting for an answer.

Stribling Tackles Risko At Garden On Friday Night Garden Feature

Young Stribling, Georgia youngster who is scheduled to replace Jack DeLaney as the opponent for Paul Berlebach in a world's light-heavyweight championship battle at the Yankee Stadium on June 10, risks his chance for that title meeting in Mullion Square Garden on Friday night when he engages Johnny Risko, Cleveland, in the stellar bout of ten rounds. This bout is the principal event of three ten-round bouts in which bantamweights, light-heavyweights and heavyweights will be engaged. The first of these bouts is between Johnny Brown, English lad who holds the European bantamweight championship, and Chick Suggs, New Bedford negro, are to clash in the semi-final. The first ten-round bout is to bring together Yale Okun, east side, and George Cook, Australian heavyweight. Baby Stribling, younger brother of Young Stribling, is to engage Joe Werner, local lad, in the six-round bout, while Steve Nugent and Lew

CUBS WITHIN HALF GAME OF LEAGUE LEAD

Babe Ruth Gets His Third Homer In Four Days

NEW YORK, May 11.—The Chicago Cubs, pennantless for eight years, and tall end 1926 selections of some baseball critics, today were within striking distance of the National League pinnacle. With a smashing offensive against the pacemaking Robins and pitcher Jess Petty yesterday, the Cubs qualified as the west's miracle team of the early season. The Dodgers, propelled on the heels of brilliant pitching, had been setting a dizzy pace and Petty, Robinson's southpaw ace, had won five straight games before the debacle. For seven innings Petty pitched as masterfully as he had from the opening day of the campaign. Then a "windy city" baseball storm broke, sweeping seven runners across the plate to give McCarthy's cohorts a decisive nine to nothing victory. The triumph advanced the Chicago Cubs to within half a game of the top.

The New York Yankees, unseated as American League leaders, by Washington, a few days ago, soared back to the peak under a heavy batting barrage which subdued the Tigers 13 to 9. Home runs by Ruth, Gehrig and Combs figured in the Yankees' triumph. Washington fell with a thump all the way to fourth place, as the result of a shutout defeat 2 to 0, at the hands of Thurston, White Sox hurler, while three hits proved sufficient for the Cleveland Indians to keep pace with the Yankees and share their first place berth. While the four leaders were exchanging positions, the Mackmen, balked by a slow start, picked up a little more ground by scoring their seventh straight victory over the expense of the Browns, 8 to 2. The Giants, erstwhile National League leaders, suffered their eighth defeat in ten starts, when Cardinal extra base bawls administered to Jack Gibson was the victim yesterday.

His Bat Should Help Red Sox

LEE FOHL is keeping his misfit Red Sox out of last place, which, under existing conditions on his team, is a large word of praise for the silent one from wherever Lee was born. Starting out with but five regular base hits in for a total of 873 bases. Get that. He stretched 143 extra bases out of those slugs. As a further indication of his fitness of foot, he stole 34 bases for the Lincolnites last season. He also ranked far as a felder in the outfield regions. When Shaner reported to Fohl in the spring he was set to prove that he could hit big league pitching as well as minor. Then one day he got

SOUTH END WILL HAVE OWN LEAGUE

Important Meeting of the S. E. Executive Called For This Evening. An important meeting of the executive of the South End League has been called for this evening at 7:30 o'clock. It was announced this morning to consider the matter of forming a South End baseball league to operate on the South End grounds this summer. The withdrawal of the St. John Baptist team from the City League has cleared the air somewhat in regard to the South End's plans and the members are anxious to lineup the teams and get the schedule adopted. As the

ACADIA BACK

The Acadia Amateur Athletic Association, which withdrew from the western section of the Intercollegiate League, decided at a meeting yesterday to apply for readmission to that section. The application probably will be made at the intercollegiate meeting to be held in the fall.

SAINT JOHN'S PRACTICE

The Saint Johns of the City League will hold a workout on the East End grounds this evening at 7 o'clock sharp and all players are requested to be out, rain or shine.

SEAMAN WON

RUFFALO, N. Y., May 10.—Solly Seaman, New York lightweight, won a 10-round decision over Bobby Tracey in the main bout here tonight. The weights were: Seaman, 135; Tracey, 136½.

GOLFING BREAK

An extraordinary golfing break occurred in the match between the British Army Society and St. Andrews played recently at St. Andrews. Colonel Howard and Lieut.-Col. Buchanan Dunlop, while staying in the fourteenth green, hit their second on the sixteenth green. Each thought he had to play the ball first, and hidden by a bunker, the two struck the balls simultaneously.

SOCCER TONIGHT

The St. Andrew's soccer team has arranged a game for this evening with the team from the steamer Concordia, now in port. The game is scheduled to start at 7 o'clock sharp and the scene of activities will be the Barrack Green. This will be the first game of the season.

ELIMINATION MAY BE HELD THIS SUMMER

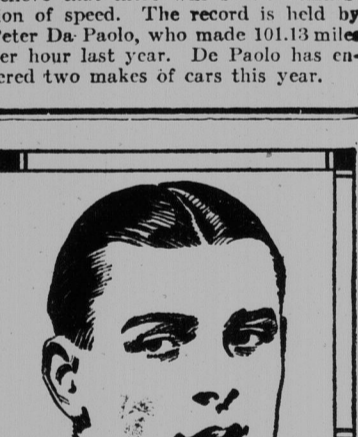

Meeting Called In Near Future To Discuss Outlook

SAINT JOHN may witness another sculling tangle with the custom in the last several years this season if present tentative plans of the St. John Rowing Club, the body under which Hilton Belyea competed at the Olympics in 1924, can be put into effect. It is mainly a question of finances and a special meeting of the club will be called in the near future by the president, J. O. Chesley, to consider ways and means of securing the needed revenue. President Chesley, who has always taken a deep interest in amateur sport here and times without number had donated trophies for competition, believes that there is some excellent rowing material in this city that when properly developed can hold its own with the best in Canada, but lack of public interest has practically killed the game. Interest was at a high pitch when Belyea's notable victories were being celebrated but no meet of national stature ever was held to sustain that interest, and it died down—but not quite out. There are several promising young juniors hereabouts who would jump at a chance to compete for a chance to go to the Canadian Henley this year and something of this nature is held in mind by President Chesley and the executive of the club. A. J. Cavour, Ingraham and Anthony Belyea, to mention only a few, have shown considerable talent at this game and it is the feeling of the club they should be encouraged. Hilton, of course, would not be barred from this and a race between the veteran and youngsters on Courtenay Bay would draw numbers and well repay the promoters for their time and energy. The proposed meeting, therefore, of the club is being awaited with interest.

\$100,000 IN PRIZES.

Thirty-seven cars have been entered for the fourteenth annual international 500-mile race at the Indianapolis Speedway, where they will compete on May 31 for approximately \$100,000 in prize money. Although the cars this year are limited to 91½ cubic inches piston displacement instead of the 122-inch allowance of recent years, the experts believe that there will be no diminution of speed. The record is held by Peter De Paolo, who made 100 miles per hour last year. De Paolo has entered two makes of cars this year.

GRADUATION HITS U. N. B. ATHLETICS

Paul Fraser, Rugby Star, Most Notable Loss—Seely Also Goes

FREDERICTON, May 11.—The class of 1926 of the University of New Brunswick which is to be graduated on Thursday is taking out of the university some of the best athletic material which ever wore the red and black. Four Rugby football players, two hockey players, three basketball players and two track men are included. In several cases the same man figures in more than one sport. Paul W. Fraser, of Saint John, and H. Chipman Seely of Fredericton, formerly of Saint John, are the outstanding athletes of the class. Fraser being a four-sport man and Seely a three-sport man. The Rugby football players are Gordon M. McPhail of Woodstock, T. T. Odell, of St. Andrews; Fraser and Seely. Fraser was the captain, the greatest kicking back field player who ever played with the provincial university and one of the most effective all around backs. Seely stood out by reason of his speed as a wing three-quarter. The others are forwards. The hockey players are Tracey Carter, of Fredericton, captain and goal keeper, and Paul Fraser. The basketball players are Paul Fraser, McPhail and Seely all very effective and figuring more than one season on an intercollegiate championship team. The track men are Fraser, a pole vaulter, and Seely a sprinter. It is doubtful if any U. N. B. class has in five men displayed the athletic ability which '26 has.

ANTICOSTI ISLAND IS SOLD OUTRIGHT

Wayagamac Co. Purchases Land From French Senator for \$6,000,000.

QUEBEC, May 11.—It is revealed that the entire Island of Anticosti in the Gulf of St. Lawrence, comprising some 3,000 square miles, has been purchased from Senator Menier of Quebec by the Wayagamac, Pulp and Paper Company, instead of only the timber limits as previously reported. A cheque for \$6,000,000 francs or approximately

\$6,000,000 has been paid over. Senator Menier, it is said, insisted upon a cash transaction as he wished to make substantial contribution out of it to the "Save the franc" fund of the French government.

The steamer Dampfire, consigned to H. E. Kane and Co., shifted from the stream yesterday afternoon to No. 14 berth, Sand Point, to load potatoes for Havana.

FOR YORK CUP

For the first time in the history of the River Thames an international boat race will take place this year for the Duke of York's International Gold trophy. The course will be over the Putney to Mortlake stretch and six laps will be covered. At present four countries have signified their intention to compete—the United States, Great Britain, Canada and France, and it is hoped that Italy and Germany also will enter. The races are scheduled to begin June 26.

SPARROW CAUSED IT.

A sparrow today sent Ralph Hepburn, automobile racer, to a hospital and knocked him out of his chance to participate in the Spring meet recently. Hepburn was making approximately 123 miles an hour in a qualifying test when the bird collided with the goggles over his left eye. The goggles were smashed and particles of glass under his eyelid caused him much pain and he was barely conscious when he stopped his car after his motor had forced him to drive it almost a full lap of the track.

NEAR JOURNEY'S END.

MANILA, May 11.—Captains Loriga and Gallarza, the Spanish aviators, flying from Madrid to Manila, landed safely at Aparri today from Misoco, China, with but one more hop ahead to reach their destination.

The Rossley Private Dancing School

For Adult Boys and Girls. New Classes Now Being Formed.

MRS. JACK ROSSLEY is now prepared to give lessons to older boys and girls who would like to learn stage dancing. These dancing lessons are not for stage work, but to build up and make young bodies strong and graceful, unless parents wish their children to take up a stage career. The younger children already enrolled are learning quickly and just love the work, even the tiny tots, who think it is all play, take a great interest and on two lessons are shaping well.

Only bright, intelligent children of good families enrolled. For further information call, write or phone MRS. JACK ROSSLEY, Phone 884-11 237 Charlotte St.

IVANHOE Sir Walter Scott's Classic in Pictorial Form - By REDNER

WHILE EVERYONE, FROM PRINCE JOHN DOWN TO THE LOWEST YEOMAN, WONDERED WHO THE VICTORIOUS STRANGER WAS, THE MARSHALS BROUGHT FORWARD THE DISHERITED KNIGHT TO JOHN'S THRONE. WHERE THE PRINCE PRESENTED HIM WITH THE NOBLE WAR HORSE ASSIGNED AS THE PRIZE.

BY LAYING ONE HAND UPON THE POMMEL, THE DISHERITED KNIGHT WAILED INTO THE SADDLE AND RODE TWICE AROUND THE LISTS, EXHIBITING THE STEEDED FINE POINTS. THEN, "SIR DISHERITED KNIGHT," SAID PRINCE JOHN, "IT IS NOW YOUR DUTY AND PRIVILEGE TO NAME THE FAIR LADY TO PRESIDE OVER NEXT DAY'S FESTIVAL."

HE OBSERVED THE KNIGHT PASSED ALONG THE GAL- LERY AND FINALLY CAME TO A PAUSE BENEATH THE BALCONY OCCUPIED BY THE LADY ROWENA. WHERE HE REMAINED STATIONARY FOR MORE THAN A MINUTE. THEN, SINKING THE POINT OF HIS LANCE, HE DEPOSITED THE CORONET AT THE FEET OF LADY ROWENA.

SAYS HE WAS HIT IN SAND POINT SHED

Thaddeus Merrit, With Head Bleeding, Calls at West End City Hall.

A little after 5 o'clock this morning the watchman at City Hall, West Saint John, telephoned to the West Side police department that a man was "bleeding to death" in the Market place.

According to the story Merrit told the policemen, he had crossed the harbor on the last trip of the ferry in company with two other men, who told him that they belonged to a boat at No. 2 shed, Sand Point.

Merrit said that he walked down to Sand Point with them and just after they had left him and he had entered No. 2 shed, where it was dark and he could not see anything, he was struck a blow on the head. He said he remained in the shed from the time he was hit until he went to notify the watchman at the City Hall.

The injured man was sent to the General Public Hospital in the police car and it was found he had received a cut about three inches long in his head. Stitches were taken in the wound and the injured man sent to his home.

JESSIE CHIPMAN CIRCLE

The Jessie Chipman Mission Circle of Portland United Church held their monthly meeting last evening in the Y. M. A. Hall.

Says There's No Money For City Clean-Up

"THE public works department has no money for clean-up day," was the reply of Commissioner Frink to a query as to what was being done about the suggestion that the city have a clean up day this year.

Local News

TWO TODAY

Two men, charged with drunkenness, appeared in the police court here this morning and were fined \$8, or two months in jail.

TO BE OPERATED ON

Dr. G. G. Melvin, chief medical health officer of the province, left yesterday for Montreal to undergo an operation. Dr. Wm. Warwick accompanied him.

ON INSPECTION TRIP

E. D. Riley of Montreal, superintendent of the Dominion Express Company, arrived in the city today on a trip of inspection. He said there was nothing new in connection with his department.

COURT ADJOURNS

The Circuit Court sat again this morning with Chief Justice Barry presiding, but no business was transacted, adjournment being made immediately after opening until Thursday morning of this week.

ON D. S. C. R. BUSINESS

Col. S. S. Wetmore of Halifax, administrator of the D. S. C. R. for the Maritime Provinces, arrived in the city this morning and was at the Royal Hotel. Colonel Wetmore said that things were quiet in his department and that no changes were contemplated.

HERE FOR MEETING

Hon. D. W. Mesereau, provincial minister of agriculture in the Venlo Government, arrived in the city this morning from his home at Fredericton Junction. Mr. Mesereau came to attend a meeting of the Tourist association to be held this afternoon. He said that agriculture was very backward in his locality.

LAST OF SEASON

The last meeting of the Saint John Character Analysis Club for the season was held last night at the home of J. King Kelly, Barrington street. The president, Mrs. E. B. Sprague, was in the chair and there was a good attendance.

ON DUTY SATURDAY

Friends of A. E. Edwards, accountant with the Royal Bank of Canada, King street, will be glad to hear that he has sufficiently recovered from his recent illness to be able to resume his duties next Saturday. Mr. Edwards was formerly accountant in the Woodstock branch of the Royal Bank.

DANGER PERIOD PASSED

The danger of damage to the Canadian Pacific Railway in this province from the effects of spring freshet conditions has practically passed it was said this morning by J. W. Woodman, superintendent of the New Brunswick division of the road. Most of the ice and snow has melted from the woods, he said, and no trouble was now anticipated.

DRY LAW OFFICER SOMEWHAT HASTY

Local prohibition inspectors have been checking up on government liquor vendors here and according to a report in circulation, one well known vendor had a narrow escape from being emmeshed in the net of the law. It seems an inspector overheard two devotees of John Barleycorn making a bet as to whether a bottle of the "fluid that cheers" could be procured from this vendor without the required prescription. The alleged betters proceeded to settle the matter by testing out the vendor, and the inspector took care to be present, somewhat disguised. One of the persons asked the vendor for a bottle and threw the money down on the counter. The bottle was placed on the counter and the vendor said the would be purchased for a prescription. The latter was somewhat slow in complying with the request and it was said the inspector somewhat precipitated matters by stepping forward and taking the bottle, proclaiming his identity at the same time.

PIGEONS DESTROY 200 TULIP PLANTS

Com. Frink Hopes to Make Public Grounds More Attractive Than Ever

Commissioner Frink, accompanied by City Gardener Babcock, this morning made a visit to the various square and public grounds and discussed the layout for the coming summer. He said that with the co-operation of the public it was the intention this year to make the city grounds more attractive than in the past, but the citizens must help by seeing that the flower beds were not disturbed by children or dogs.

The pigeons are the latest offenders and have lately destroyed about 200 of the tulip plants in King Square.

Mr. Babcock said at the city green-house they had about 25,000 annuals ready for transplanting as soon as the ground was ready.

It was the intention very soon to make a raid on the dogs running loose in West Saint John and other parts of the city, the commissioner said.

SCHOOL BOARD WAITS SUM FROM MUNICIPALITY

\$13,000 Due But Has Not Come in From Tax-payers

COUNTY SECRETARY SPEAKS OF MATTER

Question of Obligation For Interest Comes Up at Board Session

Payment of the amount due the Saint John Board of School Trustees out of their proportion of the county school fund, a fund created by the collection of 60 cents from each resident of the county, was discussed by the city Board of School Trustees last night, and it was decided to take up with the chief superintendent of education the matter of non-receipt of this amount from the municipality.

The amount due is \$13,000 for the term ended December 31, 1925, and the order for payment of the sum has been in possession of the treasurer of the municipality for some time. The opinion was expressed by members of the board that the municipality should pay the interest on this amount rather than the board borrow and pay bank interest.

MATTER OF OVERDRAFT

Mr. Nagle, chairman of the finance committee, said rents would make the expenses of May exceed income by \$13,000. The secretary had had a draft from the county secretary for \$13,000, received in January, which was not cashable. It was felt not to be right that the board should carry this charge. It was decided to notify the chief superintendent of education of the state of affairs with reference to non-payment of the municipal assessment which was said to be "now quite the custom."

EXPLAINS MATTER.

J. King Kelly, county secretary, said this morning that this amount of \$13,000 referred to was a notification from the provincial government that this amount was due the School Board from the county school board. The matter had been paid just so soon as it had been collected, but the county authorities felt they had no legal right to borrow the money from the bank in advance of payment of taxes and hand it over to the School Board. The matter had been discussed before and the suggestion had been made to the chief superintendent of education that he try to secure legislation giving the municipality authority to borrow in advance of the tax collection and pay it over to the School board, but there had not been any action taken.

NEW TRUCK READY FOR SALVAGE CORPS

Now is Being Tested Before Being Taken Over by the City.

A much stronger and better motor truck for No. 1 Salvage corps company was yesterday installed in the Union street fire station to take the place of the one placed in commission about ten years ago by the then commissioner, H. R. McLellan. The new truck was given a floor to yesterday by Commissioner Harding and K. J. MacRae, captain of the corps. Further tests will be made before it is taken over by the city.

MANUFACTURERS TO MEET IN SAINT JOHN

Maritime Branch of C. M. A. Will be in Session Here May 18.

On Wednesday, May 19, the council of the Board of Trade will give a luncheon to J. H. Fortier, president of the Canadian Manufacturers' Association and the members of the Maritime Branch of the Association who will be in attendance at the meeting here. The Maritime branch meetings will begin at 2:30 on the afternoon of Tuesday, May 18. On the next day the party will leave the Admiral Beatty Hotel at 12:30 and luncheon will be served at the Riverside Golf and Country Club at 1 o'clock. It is expected that J. E. Walsh, general manager of the C. M. A. will also attend the meeting and be present at the luncheon.

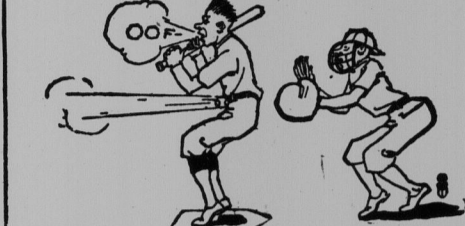

Photo Shows Miss H. Allison in Egypt

"In the Lap of the Gods" is the caption under an illustration in the New York Times of Sunday showing Miss Helen Allison of Saint John standing on the lap of a stone god, at Luxor, Egypt. Miss Allison is the daughter of Walter C. Allison of Manchester (Robertson Allison Ltd.) accompanying her on her visit abroad is her aunt, Mrs. Bonnae of Pasadena, Calif. They sailed from New York on Feb. 9 on a trip to the Mediterranean. After visiting Egypt and other countries they landed in France, spending three weeks in Paris. They are now in London and hope to sail for New York about May 20.
