## REFUSE RAISE OF \$8 A WEEK TO GARMENT WORKERS

Arbitration Board's Decision  
in Montreal  
Labor Campaign in Ohio—  
Crop Shortages Close Score  
of Banks in North Dakota—  
Other Business Matters.

Montreal, Dec. 10.—Refusal of the ladies' garment workers request for an increase of \$8 a week is the outstanding feature of a decision by an arbitration board jointly appointed by the cloak, dress, waist and millinery makers union of Montreal and the cloak and suit manufacturers' association, which has been in session here since September 7. C. B. Barnes, the chairman, said:—  
"The chairman feels that his decision should take into consideration the present depressed conditions of the garment industry and the uncertain outlook for the coming season, as well as the general condition of unemployment and the tendency to wage reduction throughout the country. It is therefore, decided that the request of the union for an increase of \$8 in wages is refused."

Labor Campaign.  
Toledo, Dec. 10.—A campaign against reduction of wages and lengthening of working hours was begun last night by the Central Labor Union, the labor governing board of Toledo. It was reported that men had been laid off then given an opportunity to return under reduced wages. One instance was reported in which an attempt of a foundry to extend working hours from eight to nine hours instead of eight resulted in a walk-out. The membership of Central Labor Union here is about 30,000 men and women.

Word to Garment Men.  
New York, Dec. 10.—Indications are that the "tide of the market has turned" and the manufacturers should make cautious preparations for revival of the market after January 1. Stanley A. Sewell, head of a large overall concern, declared yesterday in an address before the annual convention of the International Association of Garment Makers.

Cleveland, Dec. 10.—The wages of 7,000 unions employees in the women's garment industry here will remain unchanged under a decision last night by the board of referees which settles labor relations between the Cleveland garment manufacturers' association and the Cleveland branch of the International Ladies' Garment Workers' Union. The decision also provides that a scientific system for measuring production shall be installed as soon as possible.

The workers and the thirty-five large manufacturers of women's garments affected announced they will abide by the decision.  
The workers had demanded a wage increase of fifteen cents. The employers requested that wages be reduced to the scale established in October, 1918, which was about fifteen cents lower than the present scale. The manufacturers later withdrew their demand.

Sugar Workers' Wages Cut.  
New York, Dec. 10.—The American Sugar Refining Company yesterday announced a general reduction of ten per cent in wages which affects more than 2,500 laborers in its northern refineries.

Why Banks Closed.  
Bismarck, N. D., Dec. 10.—Crop shortages are largely responsible for the closing of more than a score of banks in North Dakota in the last three weeks, according to a statement yesterday by F. W. Cathey, director-general of the Bank of North Dakota.

His statement says: "There has been more banks failed in other states because the banks in the new territory of the western portion of the state are smaller proportionately and because of four short crops. The crop of 1919 was almost a total failure."

Shut Down For a While.  
Toledo, Dec. 10.—Suspension of work at the plant of the Auto Lite Co., a subsidiary of the Willys-Overland Co., on December 12, was announced yesterday by the president, O. J. Munniger. The company has been employing 450 men and women in the production of lighting system for automobiles, and it was said these will be thrown out of employment. The president said it is planned to reopen early next year.

Tobacco Growers.  
Owensboro, Ky., Dec. 10.—Serious outbreaks are threatened here because of the condition of the tobacco market, low prices of which, it was said, threaten the farmers of the Green River with bankruptcy.

## As Hiram Sees It

"Well," said Mr. Hiram Hornbeam, "that there C. P. R. ain't too bad, after all. I didn't think they'd do it."  
"Do what?" asked the reporter.  
"I have not heard of any unusual conduct on the part of the C. P. R."  
"You didn't?" said Hiram.  
"Why a feller just told me they was going to raise that two railroad bridge as high as the other one—or higher—and make a sub-way for Douglas Avenue—and give it to the city as a Christmas present."

"No?" said Hiram—"not when I was there."  
"I didn't know him," said Hiram, "but he was telling 'everybody' about it. 'Is he still at large?' asked the reporter.  
"You didn't see anybody ask him to go back over the bridge?"  
"No?" said Hiram—"not when I was there."  
"Did he wear his hair long?" asked the reporter, "and were his arms a good deal?"  
"No," said Hiram, "was you thinking?"  
"No, no," said the reporter, "Certainly not. But why didn't you bring him in?" He has got this gift thing back. It is the city that is going to give the C. P. R. a present—another present, I may say."  
"Well—by Jeez!" said Hiram.

Toronto, Dec. 10.—(Canadian Press)—Very early this morning there were rumors abroad in Toronto, and other cities on the American continent that Premier Lloyd George had been shot at, and the story grew till at daylight it was told in the streets that the British premier was dead—assassinated.  
The Associated Press, having fully investigated the matter by direct cable reported that there was no such news in England, and the supposition is that the story had its origin on this side of the Atlantic.

## ATTACKS ON THE GREEKS IN ASIA MINOR REPORTED

London, Dec. 10.—The forces of Mustafa Kemal Pasha are attacking the Greeks in Asia Minor, reports a dispatch to the London Times from Smyrna. The dispatch adds that General Papoulas, commander-in-chief of the Greek forces, accompanied by his staff, has left for the front.

Premier Lloyd George announced this today in the House, in delivering his expected address on Irish conditions and the prospects for a truce. Safe conducts will not be granted, the premier said, to those members who had been involved in the commission of serious crimes.

## URGE GOVERNMENT TO CUT THE COST OF PUBLIC SERVICE

Big Question Up in British  
Commons  
Motion Placing Limit on the  
Amount is Rejected—Reduce  
Military Estimates and  
Hold Up Social Reform In-  
volving Expenditure.

(Canadian Associated Press.)  
London, Dec. 10.—Members of the House of Commons had been warned yesterday that important divisions were impending and accordingly mustered in strength in anticipation of a vigorous and exciting debate on the question of economy in public expenditures.  
A motion was submitted by George Lambert, Liberal M. P., which would have prohibited expenditure during the coming year in excess of 808 million pounds sterling, but the house showed itself unfavorable to a hard and fast line, and approved an amendment urging the government to reduce the cost of the public services to the utmost possible limit.

Rt. Hon. Austen Chamberlain, chancellor of the exchequer, announced that the cabinet had resolved on reduction in the military estimates; on stopping schemes of social reform involving expenditures, and on ceasing new construction for the navy until the lessons of the war had been definitely ascertained.  
Questions brought the information that the government is still buying wheat, but would cease as soon as it was safe to do so in the interests of economy. The food minister's transactions during three years amounted to 1,000 million pounds sterling and a profit of one-fourth of one per cent had been made.

## THE TERMS OF INDEPENDENCE FOR EGYPTIANS

Lord Milner's Commission  
Presents Report to British  
Government.  
London, Dec. 10.—The commission of the Egyptian situation presided over by Lord Milner, has now signed an unanimous report and presented it to the government.  
The report makes the following proposals:  
1.—Recognition by Great Britain of the independence of Egypt and her safeguard against foreign aggression.  
2.—Acknowledgment by Egypt of Great Britain's privileged position in the Nile Valley and assurance of free access by Great Britain to Egyptian territory in case of a war.  
3.—Maintenance of a British garrison in the sphere of the Suez Canal, probably at Kantara.  
4.—Control by Egypt of her foreign relations subject to her not making treaties at variance with British policy. Egypt also to have her own diplomatic representations abroad, these last to be confined at first to those countries where Egypt has commercial, in other countries the British representation would act for her.

## SASKATCHEWAN IS PROSPEROUS.

The recent delay in discharging and examining passengers from the steamers at Mayor Schofield this morning, was to the effect that the government had decided to add a third story to government immigration building at West St. John. It is understood, he said, that the work would be commenced almost immediately.

**EMPRESS TO COME DIRECT IN FUTURE**  
C. P. O. S. officials at Montreal said yesterday that the protest of Halifax against the Empress of Britain calling at that port and not discharging mails would be well founded if the liner regularly called there, but the present voyage of the Empress is an exception to the routine mapped out for her. In future the Empress will call at Halifax on the eastward run to take fuel oil.

THE PURCHASING POWER  
of a dollar is a matter which has been under constant discussion during the trying years of the war. With falling prices, the dollar is becoming more valuable every day; even the despised little "quarter" shows its worth very clearly in the Appleby ad, on page 3. You will be amazed and deeply interested. Read this ad! Appleby, Cor. St. James and Charlotte.

AN ONTARIO INSTANCE  
Northwestern Ontario has a grievance against the province of Ontario to some extent similar to that which the maritime provinces have against the Dominion, except that ours is made more serious by broken pledges.

THE MORAL ELEMENT.  
Mr. Roger W. Babson, an eminent American statistician, made a very striking statement the other day when he declared that the world's troubles today are moral rather than economic.

With regard to the movement in Northwestern Ontario a recent speech by Mr. F. H. Keefer, K. C., M. P., for Fort Arthur-Kenora, delivered at a convention of municipalities in Fort William tells the story. He said—

Three courses lie before North-West Ontario: First, continue as you are; second, join Manitoba; third, start out on your own housekeeping.

There can be no doubt that the mental attitude of the people has a great deal to do with hastening or lessening a period of depression.

OPPOSES SELFISH POLICY.  
In a recent address in New York, Mr. A. C. Bedford, chairman of the Standard Oil Company, plainly pointed out to the American people that to increase their tariff would not be an unmixed blessing.

Another speaker, Brig-General D. M. Hogarth, M. P., for Fort Arthur, said he was in favor of separation also. He declared that he was 100 per cent. for the principle underlying the eventual self-government of Northwestern Ontario.

The Toronto Telegram is not well pleased by the selection of Hon. G. H. Ferguson as Conservative leader in Ontario. It intimates that in accepting leadership before he has been acquitted by public opinion of the implied charge of maladministration of the crown lands, he has "paralyzed the prospects of a public man."

RISKS LIFE FOR SHEEP.  
Barnmouth, Eng., Dec. 10.—While many persons looked on, David Griffith risked his life to save a sheep. He was lowered by a rope a distance of 800 feet to a place where the sheep had remained for five days. He grasped the animal, and both were hauled to safety.

TIPS.  
I always tip the waiter who blithely brings to me my slice of alligator, and cup of sparkling tea. I don't believe in tipping, in principle less soon or later abolished it will be; but now I tip the waiter who brings my lunch to me.

BURYING A CHIEF.  
In 1737 the French, in one of their assaults on English territory, killed a chief of the Nipissing tribe. The French were in charge of a large military convoy and had almost reached the place they sought when 1,000 savages suddenly swooped down upon them from a hidden bay and the chase began.

MORNING NEWS OVER THE WIRES  
The body of a man who died on Thursday night from inhaling gas in a New York house was yesterday identified as that of Charles McDonald, a writer of 103 Close street, Montreal. Inquiry at the Montreal address elicited the information that there had been a Rev. Ralph McDonald there, but no Charles, and that Ralph had gone to New York some time before. Ralph (R. S.) came originally from Halifax, and had one daughter eighteen months old in Montreal at present.  
Several hundred men and women employed by the Wabasso Cotton Company at Three Rivers, Que., were dismissed by the company because they did not work on Wednesday, a Catholic holiday. An attempt will be made to straighten the matter out.  
At a meeting of cotton and woolen manufacturers in Boston, yesterday, a decision of the executive committee of textiles manufacturers' association on Nov. 29 to reduce wages was ratified. The cut will amount to 2 1/2 per cent. and ordinarily would affect 225,000 operatives in the six New England and New York states. The reduction is expected to go into effect on Dec. 20 and in some cases on Dec. 27.  
The much heralded British Empire Steel Corporation seems to be hanging fire at present and rumor has it that for the present at least the consolidation will embrace only four companies whose field of operation lies in the maritime provinces. They are the Dominion Steel Corporation, the Nova Scotia Steel & Coal Company, the Halifax Shipyards and the Annsdale Coal Company. Several

PORT OF RIGA TO REOPEN  
Riga, Latvia, Nov. 10.—(A. P. Correspondence)—American shipping agents have recently visited Riga and say it is likely that regular sailings of American ships between America and the Baltic ports will be inaugurated providing passenger as well as freight service. Rev. Riga, Libau, Memel and Danzig have become centers from which the large Jewish emigration from Poland, Lithuania, Latvia and Estonia is moving or preparing to move toward America.  
Since the war only one American merchant ship, the Wheeling, had visited the port of Riga. It carried chiefly Red Cross and relief supplies and called at most of the important Baltic ports.

WHAT DOES THE KAISER DO WITH ALL HIS MONEY?

Question That Worries the Burgers of Doorn

Is Taxed on Annual Income of \$520,000—Says That He is Financially Embarrassed, Yet Lives in Fine Style.

Doorn, Holland, Nov. 29.—(Associated Press Correspondence)—Revelations in the Prussian state legislature at Berlin of the sums of money which the former German Emperor has been permitted to draw from Germany during the past two years, together with the announcement that the Dutch government will tax him for an annual income of 1,000,000 guilders, have caused the burgers of Doorn to speculate as to what he does with all this money. (Nominally a guilder is worth forty cents.)

From Germany the former emperor is said to have drawn 1,000,000 guilders, equivalent at present rates of exchange to 11,188,000 German marks, also the proceeds of the sale of some of his property in the Wilhelmstrasse, said to be 40,000,000 marks. Besides all this income, the Prussian government has contributed additionally to the furnishing of his new house at Doorn.

Says He Is Poor. For a long time William complained of being financially embarrassed. Now, however, according to the people of Doorn, he appears to be living in high style.

Not counting his marshal, General von Gostard and other members of his immediate suite, approximately fifty servants are now employed to keep up the house of Doorn. This does not include the workmen who are still engaged in various repairs about the house and grounds.

There are twenty-four charwomen, who are kept busy polishing the floors, brass-work and otherwise keeping the castle up to the standard of old German cleanliness demanded by the former Emperor Augustus Victoria. They receive the equivalent of about a dollar a day. Ten of them live in the castle.

In all, William now employs six cooks, who include a chef and an assistant, living at the castle, and four women who come in to work by the day. There are also a number of gardeners and personal servants.

To maintain this army of servants, whose average wages, the people of Doorn say, must be something more than a dollar a day, William pays in wages alone about \$20,000 a year. Their upkeep costs him as much more and this does not include the high salaries of employes, like General von Gostard, Captain Von Hlesman, the "court physician," and secretaries, who must cost the emperor about \$20,000 more.

During his eighteen months stay at the Bentneck castle, at Amerongen, William lived at the rate of about \$225 daily. In his own estate he is believed to be spending much more.

In addition to buying the House of Doorn, he has this year approximately \$20,000 on a little hospital which he presented to the village of Amerongen.

LIVING UP IN AUSTRALIA. Melbourne, Aust., Dec. 30.—Owing to the increased cost of commodities Justice Clarke of the Arbitration Court has granted bonuses to 20,000 commonwealth public servants instead of permanent wage increases.

STANDING OF THE RUSSIANS IN CHINA

Peking, Nov. 9.—(Associated Press Correspondence)—Russians in China are having a difficult time in establishing their status and rights since the Chinese government severed relations with the legation which represented the government of the late Russian Emperor Nicholas. This left them without representation since the Chinese government has not established diplomatic relations with the Soviet government of Russia.

The condition in which the Russians are placed by this turn of events is illustrated by the fact that the military governor of the northern province of Manchuria has asked the Chinese government whether Russian offenders are not liable to the death penalty like the Chinese, since the governor understood that Russian offenders were amenable to Chinese law.

The question was referred to the Chinese ministry of justice and the foreign office for consideration. In an effort to solve the problem of the standing of the Russians now in China, several non-political organizations in Harbin, Tientsin and Hankow have asked the Chinese foreign minister to appoint a Russian administrator to have control of Russian affairs in China. They ask that Russian consuls be appointed to assist Chinese commissioners in centres where there is considerable Russian population.

The Russian petitioners requested that legal cases affecting the property or personal rights of Russian citizens in China be left to the decision of Russian courts in conformity with the Russian code.

THUG'S WIFE TELLS OF BOND ROBBERY

Gives Information Which Will Probably Lead to Recovery of \$200,000.

Kansas City, Mo., Dec. 10.—A girl, wife of a former member of a band of bank robbers, obtained information from Bay Majors, a prisoner in the Missouri penitentiary at Jefferson City, which federal authorities said will probably lead to the recovery of between \$100,000 and \$200,000 of Liberty bonds stolen by the gang in Kansas.

The girl, 17 years old, wife of Charles Morris, who was wounded in a fight with police in Colorado Springs, two years ago, told federal officers where the bonds are supposed to have been hidden. A promise to Majors, the leader of the band, that his mother would receive the full amount of the bonds in return for the recovery of the bonds to ensure her a life of comfort caused him to disclose the hiding places, she said.

After the arrest of her husband in Colorado, Mrs. Morris surrendered to the police in the opening city and disclosed valuable information. The girl related to federal officers how she had been with Morris from Oklahoma City, when she was fourteen, lured by promises of travel and beautiful clothes. She said she heard the band discussing proposed robberies, but was warned, she said, to remain silent or she would be killed.

WOULD SPANK BOYS GUILTY OF STEALING

Judge Tells Grand Jury a Smooth Strap Works Wonders.

Toronto, Dec. 10.—Boys guilty of auto thefts and other offences should be spanked, not with a cat-of-nine-tails, but with a smooth strap, declared Judge Coatsworth in his charge to the grand jury at the opening of the December sessions for the county of York. His honor felt that judges should have the right to impose that form of punishment and recommended the grand jury to interview Major Morrison as to what he would do with a strap had not had a good effect in former days, and whether he would recommend its restoration.

He told the grand jury that he regretted motor car accidents had not decreased to the extent hoped for. "There seems to be a large proportion of people," he said, "who are unfit to drive cars."

Judge also requested the jury to express themselves on the probationary system. He laid great stress on the movement for reformation of prisoners on humane and economic grounds, stating if it were possible to lift up the fallen and restore them to decent citizenship, it was much better than sending them to jail.

MUST CHANGE GAUGE OF SOME RAILWAYS

Difficultly Regarding Establishment of International Road in South America.

Santiago, Chile, Nov. 9.—(A. P. Correspondence).—Diversity in railway gauges in use in the southern republics of South America is one of the difficulties facing railway officials in this continent who are trying to facilitate international train service. In the Argentine the gauge mainly in use is 1,483 meters; in Brazil a meter, and in this country, 1.68.

Travelers from Argentina to Chile must change trains at Mendoza, Argentina, where the wide gauge ends and a meter gauge crosses the Andes to the Chilean town of Los Andes. Here another change must be made, since virtually all the Chilean state lines, including the longitudinal railway of 1,620 inches, are 1.68 gauge. If, however, the traveler's destination is northern Chile, he proceeds to Valparaiso, where the meter gauge changes again to a meter line. If he wishes to visit copper mines in this vicinity he must also change at Santiago or Hancagua.

A traveler may proceed by rail from Buenos Aires to Bolivia, but he must change trains in Tucuman, Argentina, where the wide gauge ends. He then rides over a narrow gauge state line to the frontier. A similar diversity in gauges exists in connections from the River Plate countries to Brazil.

PLAN NEW LINE TO EUROPE

Royal Mail Steam Packet Co. Announces Channel Port Service. The passenger and freight service between New York and the Channel ports will soon be increased by the entry of the Royal Mail Steam Packet Company into the North Atlantic trade, so it was announced in New York this week. The company will inaugurate a ten-day service between New York, Southampton, Cherbourg and Hamburg, which will be operated by the liners Orduna, Oritia and Orepa. The two last named are new vessels of 15,000 gross tonnage, with a speed of 17 knots and the Orduna made a record for herself by running the submarine and mine zones throughout the war without a scratch, while under charter to the Cunard Line. The Royal Mail Steam Packet Company is the oldest British shipping company and received its charter from King William IV, in 1835, which gives the principal American and foreign steamship lines are members. The date for the starting of the new service has not been announced.

STAYED INDOORS 20 YEARS

Ramsgate, Eng., Dec. 10.—Albert Pritchard, fifty-nine years old, left his home the other day to attend the funeral of his mother. It was the first time he left the house in twenty years. He voluntarily went into his hermit-like existence, saying he was tired of loneliness, on corners. His mother supplied him with tobacco and things he needed. He says he will now go to work.

HEALTH AND HAPPINESS

Women of today seem to listen to every call of duty except the supreme one that tells them to guard their health. Home duties, church duties, war activities, and the hundred-and-one calls for charitable enterprises soon lead women to overdo. Nervousness, headaches, backaches and female troubles are the inevitable result.

Many Tonics fail to strengthen because they are minus true food values.

Scott's Emulsion is the worthwhile tonic that builds up the body and restores strength through nourishment.

Philadelphia, Pa.—"I was very weak, always tired, my back ached, and I felt sickly most of the time. I went to a doctor and he said I had nervous indigestion, which, added to my weak condition, kept me worrying most of the time—and he said if I could not get well, that I could not get well. I heard so much about Lydia E. Pinkham's Vegetable Compound my husband wanted me to try it. I took it for a week and felt a little better. I kept it up for three months, and I feel fine and can eat anything now without distress or nervousness. Health and happiness? Yes, I have both now."—Mrs. J. WORTMILLER, 2342 North Taylor Street, Philadelphia, Pa.

The majority of women nowadays overdo, there are so many demands upon their time and strength; the result is invariably a weakened, run-down nervous condition with headaches, backache, irritability and depression—and soon more serious ailments develop. Avoid them by taking in time

## WAR 'VET' TELLS HIS EXPERIENCE

"I Just Feel Fine All the Time," Says McDougall, After Taking Tanlac.

Howard McDougall, well known carpenter and life long resident of Harcourt, N. B., is still another who has cause to be glad that he was induced to give Tanlac an honest trial. Mr. McDougall is a veteran of the recent world war, having served overseas for more than two years with the famous 28th Battalion, Canadian Expeditionary Force, and participated in a number of the hardest fought engagements. Here is his statement regarding Tanlac:

"Ever since I returned from overseas about two years ago I have been in a mighty bad fix, that is until I got Tanlac recently. I suffered terribly with indigestion all the time, nothing tasted good to me, and my appetite was so poor I couldn't eat half a meal. I suffered dreadfully from bloating, would wake up every morning with a severe headache and some days it wouldn't leave me at all. I had such awful pains in my back every morning it felt like it would break in two when I stooped over, and it would be late in the day before the pain began to ease up. I didn't know what it was to get a good night's sleep, and I simply felt miserable.

"One day one of the boys where I was working told me about the good Tanlac had done him, and got me started on the medicine also. Well, sir, it just knocked my troubles sky-high, and has put me in the best of health. I'm eating great now, my stomach never troubles me, and I'm picking up in weight right along. I sleep good and every night, never have an ache in, and just feel fine all the time. It's now what it is but there's something about Tanlac that certainly does the work, and I can't speak too highly of it for what it's done in my case."

Tanlac is sold in St. John by the Ross Drug Company and F. W. Munro; by G. W. McKay, Beaver Harbor; Willard J. Colwell, Evans; C. V. Parsons, Highland; John F. Meagher, Debec; O. D. Hanson, Lepreau; E. L. Conley, Leonardville; N. H. Johnson, Clarendon Station, and by the leading druggists in every town.—(Advt.)

## FARMERS' INNINGS AT THE TARIFF COMMISSION

Representative members of the U. F. O. have appeared before the commission in Toronto and declared that the tariff is responsible for hard times in Canada. Picture is of R. W. E. Barnaby, president of the U. F. O. and the Canadian Council of Agriculture who presented a long argument for reduction of the tariff.

## EXPECT RETURN TO MONARCHY IN GERMANY

Berlin, Nov. 21.—(A. P. Correspondence)—The time for the return of the monarchy will come when the German people will have "drained to the dregs the blessings of the republican form of government," says the Kreuz Zeitung, discussing the anniversary of the German revolution.

The Conservatives' organ adds "that the time is likely to come much sooner than most people imagine."

The paper declares that the German proletariat in the last two years has been torn by dissensions which are constantly growing and that it is anything but a collective unit, inasmuch as a section of it prefers to celebrate the Russian revolution, while the so-called reformists accept the German revolution as marking a new era.

## AGRICULTURAL SOCIETY ELECTS OFFICERS

The annual meeting of the St. John Agricultural Society held yesterday-afternoon at its rooms in Peel street, it was decided at this meeting to hold a county fair and exhibition next fall at Mossepark Park. Officers for the ensuing year were elected and other matters of routine business completed. The officers elected were: President, J. M. Donovan; first vice-president, G. P. Stevenson; second vice-president, F. P. Hamm; third vice-president, E. J. Young; fourth vice-president, F. B. Waters; secretary-treasurer, R. R. Patchell; corresponding secretary, Dr. J. M. Donovan.

Rabbi Abraham Max Hains of Fredericton, a native of Russia, and Louis Rubin, of Bathurst, a hile- and fur buyer who is a native of Russia, have been naturalized as British subjects.

## FINDS EVEN BABIES ADDICTED TO DRUGS

New York Police Official Says Four Children, Ranging from 2-12 to 12 Years, Are Victims.

Four children, ranging in age from 2½ to 12 years, who were taken from their parents a few days ago because the parents were accused of being drug addicts, have themselves been found to be addicted to drugs, according to Dr. Carlsson Simon, Special Deputy Police Commissioner in charge of the Narcotic Squad, says the New York Times. Dr. Carlsson said yesterday that after the children were taken to the Babies' Hospital they refused food, and their lack of appetites was found to arise from addiction of the stimulants to which they had become accustomed.

Dr. Carlsson said the children would be taken to a hospital, where they would receive special treatment. "This is a particularly pitiful case," he added. "Cases of small children who are addicts unfortunately are not rare however. Luckily it is a simpler matter to effect a cure with them than it is with adults. We know of babies not yet weaned who acquire the habit from their mothers."

An important arrest in the crusade against illicit drug selling was made when Charles Phillips, alias "Charuk," was taken by one of the narcotic squad in the Post Office Building. Dr. Simon said that Phillips sold some cocaine to one of his men. The man was carrying on an extensive traffic around Broadway and Forty-seventh Street, Dr. Simon said, and his detection and capture was the result of months of effort. Other arrests are expected to follow.

Dr. Simon said that he had exact information of a well organized "ring" for drug traffic in New York, conducted by former divorcees and gamblers. He is carrying on an extensive campaign against the evil with the cooperation of Federal and State officials, he said. Leaders of the ring he says

## SOME PROSPECT OF CHEAPER TRAVEL

The Canadian National Railways tariff bureau, Montreal, is at present engaged in revising the passenger fares tariff and there is an expectation of a reduction of about ten per cent in fares with the coming of the new year.

"THREW AN EVIL SPELL" Quebec, Dec. 10.—Hearing was commenced here in a peculiar damage suit in the Superior Court on a claim for \$5,000, filed by A. Marceau, of St. Camille, who contends through his attorney, Joseph LeBlond, that a resident of the same parish came to his home last August, and, while intoxicated, "threw an evil spell" over his house and his wife, who was at the time in a precarious condition of health. The result was that Mrs. Marceau, it is alleged, became mentally deranged and is still in that condition.

## Help The Starving Orphans Of Eastern Europe

In one section of Eastern Europe alone there are 140,000 homeless, destitute, starving kiddies. They range in age from 3 to 15 years. Children of the age of 8 and 9 years are unable to walk from malnutrition.

Many of them are roaming in the woods like wild animals fearing human beings; because they have seen their fathers and mothers and older brothers and sisters ruthlessly maltreated and killed in towns and villages.

Think of these unfortunate waifs! The civilized world is duty bound to come to their aid.

It is the duty of those who live in comfort and security and amid plenty to succor those unfortunate.

### THE ANCIENTS SLEPT ON SKINS, BUT LATER BEDS WERE MADE OF RUSHES, HEATHER AND STRAW.

The Romans were the first to use feathers to make their beds most comfortable. Heliogabalus, 218 B. C., credited with having employed air cushions, and air beds were used generally in the 16th century.

## HARDING HAS LOTS OF POSITIONS AT HIS ORDER

Some 240,000 Government Posts in U. S. Service at New President's Disposal.

When Warren G. Harding assumes the office of chief executive of the nation next week, says the New York Times, he will automatically become the greatest dispenser in the world. As soon as was published that Mr. Harding had named Point Isabel as a playground for the thousands of the thousands of the lowest class there. The "I did it" boys, get to get into the first line of attack on the ple counter, wanted the president-elect to have first-hand information on their valiant services in his behalf the battle of the hills. Before starting wind spooled tarpon fishing at Point Isabel, the correspondents with Senator Harding reported that he was planning out about his visit here and more even rather away from the job seekers' on-looker. He was safe from their on-looker while at sea and from his trip to Panama, at least so far as a fit was placed on the wireless communication with the ship on which he is a passenger. With the president-elect's return to this country, the scramble for jobs is on in earnest. The president-elect is merely paying a penalty of having attained greater power. His predecessors have had similar experiences, although no former president at the beginning of his term has had so much patronage to dispose of as Senator Harding will have. The last records of the Census Bureau and the Civil Service Commission disclose that when Senator Harding enters the White House there will be approximately 240,000 persons on the executive rolls of the government, and this does not include the judicial and legislative lists, nor the muster rolls of the army and the navy. Of this great total 200,000 men and women are in the classified service, which means that having used civil service examinations they are reasonably immune from political attack. The remaining 40,000, however, are the places, large and small, upon which the covetous eyes of the job hunters are set.

Upon his return to his home in Marion, Ohio, the president-elect will sign to think that a goodly proportion of the 180,000 men and women who are expected to be placed on the Senate's prodigious payroll. His retainer will, of course, be the largest of the attack, and if they are no recent from men who have been around the mill before them, they will, sporting parlance, be hanging on to a rope before the Harding household moves to Washington for the inauguration.

It is recorded in the memoirs of one of his physicians that Grover Cleveland, while under the influence of an anesthetic during an operation, cried out in protest against the office-seekers who entered him, and this in the closing days of his second term. President Wilson may have had Mr. Cleveland's existence in mind when he assumed office at inauguration to shift to other channels the long line of job hunters who ooked to the executive office. Here the method Mr. Wilson employed: The White House, March 5, 1913. The president regrets that it is his duty to decline to see applicants for office in person, except when he himself writes the interview. It is his purpose and desire to devote his attention very earnestly and very constantly to the business of the government and the grave questions of policy affecting the whole nation and he knows from his experience as governor of New Jersey where it fell to him to make innumerable appointments that the greater part of his time and of his energy will be spent in personal interviews with candidates unless he sets an invariable rule in the matter. It is his intention to deal with appointments through the heads of several executive departments. Civil service reforms inaugurated during the term of former President Taft, added to by President Wilson, in postal service will lessen some of the most of the government's patronage worries, if he continues them in force. This is true particularly in regard to postmasterhips.

**Highest Salaries.**  
But, without the post offices of any class, the new president will have a multitude of jobs to fill. Then ten cabinet posts, each paying \$12,000, or more, rank first, although they are not so remunerative as other places at the disposal of the president. The best paying position in the government service, aside from the office of president himself, is that of governor-general of the Philippines, which carries a salary of \$18,000; the vice-governor receiving \$10,000. Other territorial governorships which President Harding will fill are Porto Rico, \$10,000; Alaska, \$7,000, and Hawaii, \$7,000. Naval officers, who receive in pay of their rank as governors of our other island possessions, such as Samoa, Guam and the Virgin Islands, the latter purchased from Denmark during the Wilson administration. The governor of the Panama Canal, usually an army officer, is paid \$10,000.

Next in importance in places in the Cabinet are the eleven Ambassadorships. They each pay \$17,000, and include:

**CHINESE COMMISSION**  
Peking, Nov. 10.—(A. P. Correspondence)—The Peking government has organized a Peace Treaty Commission, headed by C. T. Wang, one of China's delegates to the Paris Peace conference, to act in an advisory capacity to the ministry of foreign affairs on matters concerning China's interests in the League of Nations. Other members thus far named are Liu Ching-shan, former minister to Russia, and Shen Jui-ken, one time minister to Austria. One of the first questions to be considered by the commission will be the Shantung affair.

**SEARCH FOR OIL IN HONDURAS**  
Tegucigalpa, Honduras, Nov. 22.—(A. P. Correspondence)—The government of Honduras has granted two concessions to British representatives by which they acquire rights to search for and exploit any oil fields found by them within the territory of Honduras. One of the British syndicates, The British Consolidated Oil Fields, Limited, has already sent its engineers to this country, and they are now searching for oil in various departments of this country.

## Had Bad Cough For Three Years

The constant hacking, racking, persistent cough that sticks to you in spite of everything you have done to get rid of it, is the kind that is dangerous. The longer the cough sticks, the more serious menace it becomes to your health. There is no remedy that will relieve coughs—coughs that won't let go—like Dr. Wood's Norway Pine Syrup. It has a healing and soothing action on the air passages and at the same time acts as a disinfectant of the respiratory organs, destroying the germs that produce serious lung complications.

Mrs. John Miller, Minburn, Alta., writes: "I had a very bad cough for three years. I went to several doctors and tried different cough medicines but nothing seemed to help. One day a friend told me about Dr. Wood's Norway Pine Syrup, and after using several bottles I became completely relieved. I always keep a bottle in the house, and also recommend it to others. Dr. Wood's Norway Pine Syrup has been universally used for over 30 years, and so great has been its success, it is only natural that a great many imitations have been placed on the market. The genuine is put up in a yellow wrapper; 3 pine trees the trade mark; price 35c. and 50c. bottles; manufactured only by The T. Milburn Co., Limited, Toronto, Ont."

posts in Argentina, Belgium, Brazil, China, France, Great Britain, Italy, Japan, Mexico, Peru and Spain. If the international atmosphere clears sufficiently during his term, the new President also will have Ambassadorial posts, not now filled in Germany, Austria, Hungary, Russia and Turkey.

in diplomatic importance are the Ministers. Six of these, China, Cuba, Netherlands, Luxembourg, the Netherlands and Poland, pay \$12,000 each, while these are in the \$10,000 class. Bolivia, Bulgaria, Columbia, Costa Rica, Denmark, Dominican Republic, Ecuador, El Salvador, Greece, Guatemala, Haiti, Honduras, Montenegro, Morocco, Nicaragua, Norway, Panama, Paraguay, Persia, Portugal, Rumania, Salvador, Kingdom of Serbia, Croatia and Slovenia, Spain, Sweden, Switzerland, Uruguay and Venezuela, Liberia pays only \$5,000. On the commissions that will not be disturbed there are places that are sure to attract numerous applicants. These include the Interstate Commerce Commission, with eleven members, under the new Transportation act, at salaries of \$12,000 each, and a general counsel at \$10,000; the United States Shipping Board, with five members at \$7,500 each, and three administrative places that pay \$10,000 each; the Federal Trade Commission, with five members at \$10,000 each; the Federal Reserve Board, with five members at \$12,000 each, and an executive secretary who is paid \$10,000; the Farm Loan Board, with five members at \$10,000 each; the United States Civil Service Commission, with six members at \$7,500 each, and the Civil Service Commission, with three members at \$5,000 each.

**Field for the Job Hunters.**  
Most of the places in the various departments of the Government, not under civil service, will be quickly taken from Democrats and appointed to Republican faithful. The Treasury Department, which has expanded greatly as a result of taxation laws and other changes growing out of the incident to the war, seems to offer a good harvest for the incoming crowd. There are sixty-three district collectors of Internal Revenue, with salaries ranging from \$4,000 to \$6,000 a year. There are five of these posts in New York State, two in Greater New York at \$6,000 each; one at Albany at \$5,000; another at Syracuse at \$5,000; and still another at Buffalo at \$6,000. There are an equal number of Chief Deputies at each post at salaries ranging from \$2,000 to \$4,000, and many Deputies at relatively smaller salaries. Auditors at various departments of the Government are places usually eagerly sought. The compensation runs from \$4,000 to \$5,000. Then there is the post of Treasurer of the United States, a comfortable office with a perquisite of \$8,000 a year, and a Register of the Treasury, who draws \$4,000 a year for the privilege of having his signature printed on all \$1 bills.

**QUEBEC FIRE**  
Quebec, Dec. 9.—Three persons were injured, several others had narrow escapes, while property damage to the extent of \$50,000 was caused here this afternoon, in a fire which broke out in the Louis Deschenes shoe store, St. John street, and communicated with the stores of C. Bruneau, bookseller, and Miss M. Brownrigg, milliner, badly damaging all three stores. The most seriously injured was Michael Monaghan, an insurance agent, who attempted to rescue a child. He was trapped by the flames, but fought his way out. The child was saved.

**TWO SENT TO PENITENTIARY FOR MAIL THEFT**  
Ottawa, Dec. 10.—Sentences of three years each in Kingston penitentiary were imposed on James Snyder of Westboro and C. E. Lethem of Ottawa, in the police court yesterday, when they pleaded guilty to charges of theft from the mails at the Ottawa post office. A third man arrested on December 3, on a similar charge, Clarence H. Irish, will be returned to the hospital at Ste Anne de Bellevue from which he escaped last August while being treated for mental trouble. The theft charge against him was withdrawn.

**MATTER OF NATIONALITY.**  
Montreal, Dec. 10.—The fact that a prisoner who appeared recently in the Montreal police courts did not realize that he had a right to style himself as being of Canadian nationality was responsible for the court making a recommendation that he should be deported after a short jail sentence, was cited by A. Regimbal, chief of the government immigration offices here yesterday. It was later ascertained that the man was born in Nova Scotia and was therefore not liable to deportation. When asked his nationality by the court, he had stated that he was "English."

## JURY PASSES ON LIQUID EVIDENCE

Trenton, N. J., Dec. 10.—A jury trying Edward Kuhn of this city for stealing fifty-one cases of whiskey valued at about \$4,000 from a warehouse here, returned a verdict of guilty, after a policeman had been put on the stand and testified, following his drinking of some of the stolen liquor, that it was real whiskey and after the jury had also taken a pint of it into the jury room to test whether or not it was real or spurious, the point on which Kuhn's conviction hinged.

While in the city they were looked after by officials of the Seamen's Institute.

ST. JOHN GIRL KILLED BY AUTO IN PROVIDENCE

Friends of Miss Blenda MacLennan will regret to hear of her sudden death which occurred at her home in Providence, R. I., at an early hour on Thursday morning, Dec. 9th. She was returning from work when she was struck by an automobile, causing injuries which proved fatal. Miss MacLennan was a former St. John girl and was loved by all who knew her. STEAMSHIP LINE FROM HERE TO ST. JOHN'S, N.F.L.D.

East Side Berth Only Matter to Arrange—Sailings Twice a Month Proposed.

If docking facilities can be obtained on the eastern side of the harbor, the Canada Steamship Lines will open a direct steamer service between St. John, N. B., and St. John's, Newfoundland, for the winter months at least. Announcement to this effect was made this morning by Thomas Nagle, of Nagle & Wigmore, local agents for the line. Mr. Nagle is conferring today with the civic authorities to see if the matter of a berth can be arranged. Mr. Nagle in conversation with a Times reporter, said that the service would be practically a continuation during the winter season of that which was operated between Montreal and St. John's during the summertime. The proposed schedule calls for two sailings a month. For this reason a berth where the steamers could dock immediately on arrival was necessary. The steamer people were agreeable to making the rate from St. John meet that from Halifax and were satisfied if the business done for the first season was only sufficient to meet operation expenses, in view of the traffic which might be opened up here. Several of the local merchants and Mr. Nagle expressed themselves as being anxious to see this port connected directly with St. John's as they felt that they could do considerable business with the island colony, except for the fact that they could not compete with the life line merchants on account of the lower cost of transportation. With a competitive freight rate, however, it is the opinion that a flourishing trade could be built up between St. John and St. John's.

That there is unemployment in St. John as well as elsewhere in the province, is an experience of the secretary of the provincial Red Cross recently, though if all the unemployed were in this case they deserve every assistance. The secretary had a table in the rooms of the Red Cross, where he wished to hold a table in the rooms of the Red Cross. A man was standing by and she asked him if he would mind carrying it down for her. He agreed and took the table to the rooms. While there he told her that he had been out of work since Saturday and had a wife and young child who were in actual want. He said he had been doing his best to get work but to no avail. He remarked that the table was shaky and asked if there was a hammer and nails about. When they were produced he set to work and strengthened the legs of the table, working about an hour. When he finished the work he returned to the secretary, who thanked him for his help and what he had done. He would not take any money from a society which had done so well for the men overseas, he having fought for two years in the Dardanelles.

The gymnasium of the U. S. S. Granite State now moored in the Hudson River is where Jack is training. Dempsey has a mighty corps of assistants, including Bill Tate, who serves as his first string mate during the roughest of the work. There has been a varied list of sparring partners, but most of them have deserted under fire.

It is a certainty that Dempsey will be a well-conditioned man when he meets Brennan.

BLAMES THE  
PARENTS FOR  
JUVENILE CRIME

Judge MacBeth Says They  
Don't Restrain Children or  
Keep Them at School.

London, Ont., Dec. 10.—Judge Macbeth at the opening of the County Court session here declared that the list of cases of juvenile crime is the worst he has ever been called upon to deal with. Parents, he said, are very largely to blame for this state of affairs, because they neither restrain their children, nor keep them at school. One serious obstacle to corrective effort, he said, is the fact that the law provides reformatory sentences as the only penalty for juvenile crimes. He asked the Grand Jury to make a recommendation as to some other means of punishing or correcting delinquents. Forty children have been in the local courts within a few months charged with serious offences.

Under the auspices of the United missionary societies of the Ludlow street church last evening, D. C. Clark gave an interesting address on his visit to England when he attended the Masonic celebration of peace in that country. The address was illustrated with a fine series of lantern slides. Mr. Clark also showed some pictures of rescue work which were of special interest from a missionary viewpoint. Rev. W. R. Robinson presided. Sales were sung by Miss Thompson and Miss Currie and Miss M. E. Mullin acted as accompanist.

### BERLIN IN A LABOR TURMOIL

Increasing Prices Bring Demand for More Wages

A Million Unemployed in Germany—Hard to Adjust Wage Scale to Cost of Living—Further Rise in Prices Looked for.

(Associated Press Correspondence.) Berlin, Nov. 12.—Gradually increasing prices for food in Berlin have caused a corresponding increase in the demands of workmen for higher wages, and strikes, or the threat of strikes, hang over virtually every business in the city. Approximately 1,000,000 persons are reported unemployed in Germany, the majority of them in reduced circumstances, some facing starvation. Four months ago 284,181 women were seeking employment, according to the labor ministry's estimate, and it was announced 800,000 persons shortly would be out of work or on short time, the latter being unable to earn enough to support themselves.

**Unemployed Problem.** Nearly every municipality in Germany is occupied with the problem of providing work for unemployed and adjusting wage difficulties, in an effort to forestall the spread of strikes and further discontent. The meat shops of Berlin are well stocked with choice cuts and have large supplies of imported cheese, oils, pickles and other viands, but as winter advances, prices continue to go up and fall off. With nothing saved from summer wages, workmen are facing the problem of expenditures for fuel for heat and warm clothes, in addition to food, and the fact that the pay of many falls short of meeting these expenses has caused a spread of unrest.

**Situation Critical.** Sporadic strikes already have occurred, not only in Berlin but also in the provinces and, while there has been no evidence that a general strike is probable, the situation is causing state and municipal governments much concern. Proprietors of food shops say prices are higher than they were a year ago when nothing was being imported, because a vigilant watch is kept on smuggling and import duties, now being paid, are necessarily added to the cost of commodities. As a result they say only the very well-to-do and foreigners are unable to buy imported stuffs. Meat at 36 marks a pound, sausages at 90 to 95 and cheese 85 is still beyond

### Potato Profits

Last Spring a farmer came to us telling us he was wondering whether fertilizer would help his potatoes. We said it would. He thought it over and finally said: "You tell me what fertilizers are good for potatoes and I'll try them out." He bought Gunns Shur-Gain 4-8-4 and 6-13 Fertilizers—used them side by side but planted a few rows without fertilizer for a check. All rows were 440 ft. long—notice the results—

Two rows fertilized with 4-8-4	yielded 20 bushels marketable potatoes
Two " UNFERTILIZED "	" 10 " "
Two " UNFERTILIZED "	" 10 " "

In other words the judicious use of fertilizer doubled the yield.

the means of the average workman. Meat merchants say the average German can afford meat not often than once a week, and he must buy cuts of poorest quality. The Cost of Living. With wages for a skilled workman ranging from 30 to 40 marks a day, and for common labor at 25 marks, the food experts estimate the minimum cost of existence in Berlin, for a single man, at 145 marks a week; for a man and wife, 215 marks a week; for a man and wife and two children between seven and fourteen years, 296 marks. These prices have shown a gradual increase since February and it is expected will continue to rise during the winter. While bread is still rationed, meat

### TURBULENT HISTORY OF CITY OF VILNA

In Aspirations of Polish Expansionists for 700 Years—Changed Hands Twice This Year.

Danzig, Nov. 16.—(A. P. Correspondence.)—Vilna, which the former Russian general, Zeligowski, recently occupied with troops of the Polish army, has figured in the aspirations of Polish expansionists for nearly 700 years. The Free State of Danzig is interested in the outcome of the campaign for possession of the city because it is felt here that Vilna must be the strategic point upon which will always hang the issue of peace or war. (The League of Nations decided at its first assembly in Geneva to send an international force to Geneva to enable the people of that city to decide what their nationality shall be.) What its possession means to the Poles is indicated by recounting some of its turbulent history.

Vilna was founded by Prince Godim, of Lithuania, who reigned from 1315 to 1340, and, with Kiev, formed an important part of Southern Russian. Godim and King Wladislaw of Poland united in a war against the order of German Knights, but it was until nearly 100 years later that the two countries established a common Reichstag. This was at Horodna, on the Bug River, and here the rulers of the two lands cooperated in deciding all important issues. There was a complete union of Poland and Lithuania in 1569, as far as all state affairs were concerned, and this continued until the end of the eighteenth century. Although Lithuania was divided into six governmental sub-divisions in 1795 and was under the rule of Russia, a writer in the Danzig Zeitung says Vilna's sympathies remained with Poland.

Vilna was occupied by Russian "red" troops in the summer of last year and twice changed hands during the Polish-Russian campaign this year. It has been called the capital of Lithuania, but the writer in the Danzig Zeitung says the number of Poles in and around Vilna probably would decide the issue in Poland's favor. In conclusion, he believes there is no question but Poland will seek to re-establish the boundaries existing before Poland's first division in 1772. The state of Danzig is interested in early stabilization of Poland's eastern boundary, therefore, to give Danzig an opportunity to begin working out its economic problems. L. P. Clarke, of the Maine Central Railroad staff, passed through the city last night on his way to Rocky Gulch (near Campbellton) to purchase ties for his company.

**BE OF GOOD CHEER.** (Canadian Finance.) Roger Babson a noted statistician is reported to have said that in the ordinary course of events we should look for a depression in 1921 but that much depended upon the attitude of the people. If we make up our minds that there shall be no depression in 1921, then the chances are that we shall ward it off. Where there's a will there's a way. Pessimists point to the labor situation and hold it up as an illustration of the hard times ahead. This situation is not as bad as some would have us believe. Conditions are changing. Jobs have ceased to seek men—men are seeking jobs. The drones are being driven from our industrial beehives, with the

result that the employer is getting nearer to the time when he will once again receive an honest day's work for an honest day's pay. These are days when the business man must go forward cautiously and courageously.

Nothing impairs human efficiency quite so much as "nerves." Gordon E. Phinney and John P. Ashe, of St. John, have been confirmed in their appointments as railway mail clerks.

## FRED CASE HERO OF STIRRING RESCUE

(Bathurst Northern Light)

The keen frost of the past two weeks made splendid looking ice on the calm waters of the rivers around Bathurst, and although it was known that the freezing process had not lasted long enough to make the ice perfectly safe, yet many of the young people were out and as a result many narrow escapes from drowning were reported.

None of the venturesome youths had a narrower escape from a watery grave, however, than fifteen-year-old Aurel Normandeau, of East Bathurst, who, with a companion, went once too often on the unsafe surface of the Nepeaugait River not far from the pulp mill and iron bridge. At this point the water runs very smoothly and very deep, and when the two men broke through the ice on Thursday of last week their chances on life looked very slim, for a while.

Normandeau's friend was singularly fortunate in being able to clamber back on to the thicker ice and thence to safety, but all Normandeau's efforts to extricate himself only resulted in the breaking of the thin ice and his rapid exhaustion in the icy water. His lusty cries for help brought a number of people of the vicinity, but none were able to get near him and stood looking helplessly while the young man's strength ebbed away and his body became chilled and numb. Mr. Fred Case, a well-known foreman at the pulp mill, heard the cries while engaged in his work, and, guessing the cause of the uproar, hurried across the bridge. When he reached the scene of the accident, he saw at once that Normandeau could not hold out much longer, so without the least hesitation he plunged into the icy water, and reaching the now utterly exhausted youth, started a wonderful fight to shore and safety. Time after time he had to break the ice with his arm while supporting the almost unconscious youth with the others, and the small crowd of spectators watched the slow but painful struggle with a feeling of intense anxiety and suppressed excitement. Hope gained strength as the two figures gradually and painfully neared the shore, but once, when Normandeau slipped under the ice and his gallant rescuer went after him, the hearts of all around sank as it looked to be the end of the heroic struggle. Hopes rose again, however, when the two figures succeeded in extricating themselves from their fearful position under the ice, and a great shout of relief and joy was heard when the almost lifeless pair finally reached the shore. Both were chilled and exhausted, and willing arms quickly conveyed them to their homes. Normandeau recovered rapidly from the effects of his gruelling experience and was able to be about the next day. His rescuer did not come out of the experience so well, however,

having suffered severely from the exposure and from painful cuts in his arm caused by the sharp ice. Mr. Case is now able to resume his duties, however, and it is hoped will soon be fit as ever. Witnesses of the gallant rescue state that it was a case of exceptional heroism and deserving of public recognition as there is no doubt that young Normandeau would have lost his life if Mr. Case had not gone to his rescue. Steps are therefore being taken to have the case brought to the attention of the proper authorities so that an award befitting the occasion may be made. Bathurst, Dec. 7. — Steps are being taken to bring to the attention of the proper authorities the heroism of Fred Case.

### MICROBE PERIL LURKS IN KISS

Chicago Health Inspector Issues Warning Against Indulgence in Osculation.

Chicago, Dec. 10.—Kissing is a serious matter, but health authorities seem unable to stop it. Health Commissioner Robertson issued a solemn warning to the youth of Chicago and those of more mature years, who incline to osculation, that forty thousand microbes find lodging on every pair of lips.

He endorsed a recent announcement to the same effect, made by a distinguished Viennese specialist. "It is no joking matter," said Dr. Robertson. "No matter what we say, people will continue to kiss each other. The best we can do is to show the extreme danger of kissing at times, when pneumonia, tuberculosis and diphtheria are prevalent. Any one of these maladies

can be communicated by kissing. In fact breathing the air of pneumonia patients may infect the visitor."

**DEFINED WIFE'S DUTY TO HUSBAND**

**Make Husband Provide Luxuries, Says Mrs. Riffle.**

Atlantic City, N. J., Dec. 10.—Calmly asserting that she only married her aged husband for what she could get out of him, the pretty 19-year-old wife of Wm. H. Riffe, 85 years old, and a formerly well-to-do resident of Uniontown, Pa., created a sensation with her testimony on the stand in the suit brought by her husband for an accounting of \$50,000 he claims to have given Mrs. and Mrs. Frank Mathews, her aunt and uncle, to invest for him. The girl was a striking figure, garbed in costly furs and gleaming with diamonds and pearls. She was formerly Ellen Johnson, of Philadelphia. Mrs. Riffe's philosophy of married life as narrated by her on the witness-stand brought comment even from the court. "Her story takes my breath away," observed Vice-Chancellor Learning when the girl boldly admitted that she considered it the wife's sole duty to get all the luxuries possible from a husband.

Mrs. Riffe told of purchasing gowns and dresses at one shop alone to the amount of \$4,000 in a period of two months. An automobile with a liveried chauffeur in attendance, diamonds, jewels and four or five fur coats were among her extravagances, she admitted. She said that her husband told her she could buy anything she wanted, and she did. "He told me that he was very rich," she testified, "and would give me \$10,000 if I would marry him."

**FAT MEN AND WIVES FEAST IN BOSTON**

**B. H. Bent of That City at 395 Pounds Reported Doing Well.**

Several tons of fat men and their wives, representing the United States Fat Men's Club, gathered in Boston the other night to honor "The greatest indoor sport—eating."

The club after going on record as eating not a whit whether the cost of living went up or down weighed in and it was learned that the star member, B. H. Bent of Boston, was doing well at 395 pounds. The heaviest of the fat men's spouses, who played whist with their husbands after dinner, weighed 285.

One member of the club reported that he had fallen away from 300 pounds to 220 since the last banquet, but added that the shrinkage had "helped his dancing." The club claims membership of 1,500.

A communication was received yesterday by the board of trade from England in regard to fish canners and apple shippers of this port.

**FLU WILL NOT RAGE WITH OLD VIOLENCE**

Not Likely to Assume Epidemic Proportions of Last Two Years.

Washington, Dec. 10.—"There is absolutely no way of definitely foretelling whether this winter will witness any recurrence of influenza in epidemic form," said Surgeon-General H. S. Gunning of the United States Public Health Service.

As a result, however, of very careful analysis of the epidemiology of influenza, especially as the result of intensive studies in homes where influenza occurred in 1918 and 1919 it may be stated that an attack of influenza appears to confer a definite immunity to subsequent attacks, an immunity lasting for several years.

"Inasmuch as the epidemic of 1918 and 1919 affected so very large a proportion of the population there would seem to be reasonable grounds for believing that even should 'flu' become prevalent here and there it would not assume the epidemic proportions of the past two years, nor would it rage in such severe form."

**TWO ALARMS IN WEST ST. JOHN LAST EVENING**

In response to a call from Box 118, the fire engine from Number 7 station turned out promptly last evening at 9:30 and, with little difficulty, in about half an hour had extinguished a fire in the second story of the residence of Mr. Northrup at the corner of Watson and St. James streets in West St. John. The fire was caused by an overturned oil heater and the alarm was rung in by a member of the household. The

engine of No. 6 station came to the assistance of No. 7 engine but little remained to be done. The damage was slight. Some windows were broken in putting out the fire and the floor was burned to a considerable extent. Number 7 engine was called out again by a still alarm at 11:40 p. m. The second fire was in the chimney of the residence of John Emerson, at the head of Rodney and Watson streets. No damage was done because of the promptness of the response to the alarm.

**"VALLEY SWELLS" IN MINSTREL SHOW**

The Valley Swells Minstrels of St. Paul's V. P. A. put on a realistic minstrel show, under the guidance of D. Gandy as stage director, last evening in St. Paul's Sunday school room in Winter street. The programme opened with a quartette. Solos were given by Miss Audrey Hunter, Ernest Tili, Chester Bourne, Miss Love, Miss McConnell and A. C. Ritchie. Miss Angeline Gregory executed several pleasing dances. End songs were rendered by Leonard Wilson, R. J. Cochrane, Jr., and Henry Evans. A quartette was given by Miss Edith Hamm, obligato, Chester Bourne, D. Dandy, Ernest Tili and A. C. Ritchie. H. A. Allison was pianist. The musical director was A. C. Ritchie. The programme was interspersed with choruses by thirty-six voices. Jack Sullivan was interlocutor.

Word has been received in the city that there are opportunities at Perth (N. B.) for those out of employment who would be interested in such work as masonry, painting, carpentry and kindred lines.

**LOWER PROVINCES STAND BY RIGHTS**

Montreal, Dec. 9.—There was much difference of opinion expressed today at a conference here between the Montreal branch of the Canadian Manufacturers' Association and representatives of the

maritime provinces branches. The conference was private, but it was ascertained that the divergencies arose over the insistent demands of the maritime provinces men that in any re-adjustment of freight rates the eastern end of the dominion should be given the former preferential differentials in rates which existed until a year or so ago, and which gave

the maritime provinces shippers a decided advantage as compared with Montreal.

UNPUBLISHED POEMS OF SWINBURNE What He Wanted. Business was rather slow in the only shop in the village.

The death occurred on Monday night at 804 Bourgeois street, Point St. Charles of Miss Esther James, a young woman who created some emotion in old St. Andrew's Church, Beaver Hall Hill, three weeks ago by leaving a stretcher bed on which she had been lying, walking across the platform and then going home in the ordinary way after she had received the ministrations of the visiting evangelist, Mrs. Almce Temple McPherson.

The London Mercury prints two hitherto unpublished poems by Swinburne. They were discovered by T. J. Wise among papers long preserved at "The Pines" and disposed of by Watts-Dunton after Swinburne's death.
