LUNACY COMMISSION WILL HEAR EXPERT EVIDENCE.

Dr. Hamilton Has Been Summoned to Testify—May be No Report for Some Time Other Alienists to be Called

NEW YORK, March 30.—Resumption of the examination of Harry K. Thaw by the lunacy commission in lunacy, which will determine his competency to understand his trial for killing Stanford White and to consult his counsel, will take place this morning. Two hours were spent in interrogating the prisoner on Thursday, but how long the commission will take to question him fully, is not known. It is conjectured that he will be in the witness chair all of this morning's session, and part of the afternoon. Almost as important as the inquiry and observation of Thaw by the commissioners will be the examination of the witnesses, including Allan McLane Hamilton. The news that he has been subpoenaed was a surprise, as it had been stated by Chairman McClellan on Thursday that no medical experts would be called by the commission.

The peculiar position Dr. Hamilton occupies towards the case makes his testimony very valuable. He was one of the first physicians called into the case. He examined Thaw not long after he killed White and was furnished with evidence gathered by Thaw's previous counsel as to Thaw's pathological condition prior to his shooting White. He was quoted as saying that Thaw was hopelessly insane and it was while he was on the stand, having been called by the defense, that the appointment of a lunacy commission was called for. He will probably be examined when Thaw's examination is finished and will be questioned at length by the commission as to his reasons for believing Thaw a paranoiac. Fresh sensations are looked for on his testimony. Now that Dr. Hamilton has been subpoenaed it is rumored that other alienists will follow him before the commission. There is therefore much speculation as to what the commission will be able to reach a conclusion and report to Justice Pillsbury. It is said that the person called by Thaw's counsel and by the prisoner himself that the commission will call its work with his examination. He was shattered. The person in the Tombs who had had anything to do with Thaw since he has been confined there, will also testify before the commission. Included in this number are Drs. McGuire and Campbell, respectively the present prison physician and his predecessor, and such other alienists as have talked with the defendant.

NEW YORK, March 30.—Thaw lunacy commission went into executive session at 10.25 a. m. today with Harry K. Thaw before them.

CAR WORKS ON FIRE FOR THE THIRD TIME

Damage to Baltimore Plant May Amount to \$100,000—Negro Villagers Burned.

BALTIMORE, March 29.—For the third time since November, 1906, fire broke out tonight at the works of the Baltimore Car Works, about five miles from this city. The place is difficult to reach at night and the fire was very bad, but from the tops of the highest buildings here the flames can be plainly seen.

A telephone message to the office here of the Associated Press from the plant near the fire that can be reached, says the entire plant appears to be burning.

The company is at work on large contracts for cars for the Atlantic Coast Line, the Chesapeake and Nashville R. R., and the Coal and Coke Railroad, United States Senator Henry G. Davis having placed an order on behalf of the last named concern for \$1,000,000 worth of cars about a month ago.

The flames were first discovered in a part of the plant of the Maryland steel car wheel works immediately adjoining the South Baltimore car works, and in a very short time the whole plant of the car wheel company was blazing and beyond control. The Baltimore Car Works, the Maryland Steel Car Wheel Company are closely affiliated corporations, having the same offices. The estimates of damage vary, ranging from \$50,000 to over \$100,000.

SANDUSKY, O., March 29.—Fire broke out here tonight at the grinding department of the Castalia Portland Cement Co. at Castalia. The loss is \$50,000.

Most of the buildings burned were negro shacks. In their places will rise modern buildings. Policemen Williams rescued two elderly women who had been almost overcome by heat and finally had a narrow escape from falling.

LAURENS, S. C., March 29.—Fire at Newberry, S. C., today destroyed 22 residences, ten stores and two churches, entailing a loss estimated at between \$150,000 and \$200,000 with insurance.

EMPERESS OF BRITAIN ARRIVED THIS MORNING

The C. P. R. steamer Empress of Britain arrived in port at 9.30 o'clock this morning from Liverpool via Halifax. Besides a good general cargo she brought here 1,472 passengers. The steamer had a fair winter passage out to Halifax where she landed 29 passengers. The trip round from Halifax was fine. The passengers were 162 in all, 463 second cabin and 448 steerage. With the exception of a few who did not pass the examination by the immigration officials the passengers will go west by special train this afternoon.

WOODSMAN'S AXE FELL FROM HIS DEAD HANDS

Ezekiel Nason Stricken While at Work Today.

Wesley Tracy, of Tracy Station Died Suddenly at His Home This Morning.

With his axe held high in the air, and about to bring it down on the piece of timber which he was chopping, Ezekiel Nason, of Fredericton, Junction, this morning fell to the ground dead. Mr. Nason with others was engaged in cutting railway ties some two and a half miles from his home. About nine o'clock while at his work, and without any warning, he was seized with a heart failure, became insensible and died. Mr. Nason was fifty years of age and leaves a wife and six small children.

Wesley Tracy, of Tracy Station, died suddenly at his home at four o'clock this morning. He had been suffering for some days from heart trouble, and although Dr. A. J. Murray, the attending physician had pronounced him incurable, his sudden passing was entirely unexpected. Mr. Tracy, who was in his fifty-fourth year, was one of the best known men in the district in which he lived, and was highly esteemed by all. He was unmarried.

BATTING NELSON WANTS A WHOLE LOT

His Terms for Another Fight With Gans.

Ringside Weight Only to be Accepted—McCarney and the Burns-O'Brien Bout.

SAN FRANCISCO, Cal., March 30.—Ringside weight and split the purse 75 and 25 are Batting Nelson's very latest terms, which he will submit to Joe Gans the next time there is a meeting to talk match. Soon after the Dane returned from London he spoke about fighting the negro at 135, but the bean three or four hours before ring time. Either Nolan was misquoted, or else he has a change of heart, for 135 ringside is the only weight he will consider now. As to the division of the spoils he has not such set views, though Gans has. One hundred and thirty-three ringside Joe can make with little effort, and will if he can dictate about the purse. Ben Selig has stated that Joe will be satisfied with 60 per cent. of the purse, win, lose or draw. As a compromise, it has been suggested that Gans collect 60 per cent. of the purse, and if he loses, in view of the fact that Nelson expected 60 per cent. win, lose or draw from Gans at Goldfield, the proposed compromise would seem fair and equitable. Billy Nolan will arrive here shortly and then we will see what we shall see.

It will be recalled that "some gamblers from San Francisco," meaning Jimmy Coffroth, Henry Corbett and a half dozen others, slipped him (Nolan) a phoney check at Goldfield. That is, Nolan died that day. No one else ever thought so, but Nolan had to take some excuse east with him. Now that he is about to return to the land of thieves, it is to be presumed that he will have a body-guard to put him wise to the antics of the pes-and-shell boys, who may conspire to snare him. The wily manager has sent word ahead that he is not coming to effect a championship. It is purely a pleasure voyage. To see his folks, and nothing more.

Of course, the promoters won't have his car and he'll have a match will undoubtedly be made eventually, but who will promote it is problematical. The Nevada plunger is not in dead earnest about booming Ely with a fight this summer. Willie Britt came down from Reno with Tex, and all Rickard could talk about was matching Nelson and Gans.

DEATH LIST IN WESTERN WRECK NUMBERS 22

Eighteen of the Victims Were Italian Immigrants—Half a Dozen of the Injured Will Die.

COLTON, Calif., March 30.—The list of those who met death in the wreck of the Sunset Express, which was wrecked Thursday afternoon in the Southern Pacific yards, has been completed and the search for additional bodies, supposed to be buried under the debris of the demolished cars, was abandoned as useless. The corrected list of dead, including two men who have died, is twenty-eight. Eighteen of these were Italians, notably all of whom were immigrants on their way to San Francisco.

Egan, who died last night, is not believed to have been aboard the wrecked train. He was found unconscious near the scene of the disaster. His death is believed to be due to an epileptic fit, induced by witnessing the accident. Fully half a dozen injured are reported in a condition so precarious that death is but a matter of hours.

WESTERN RAILWAYS ARE LIKELY TO BE TIED UP.

WILL ARREST SCOTT ACT WITNESSES.

Too Many Are Dodging the Moncton Courts.

Former Police Chief Goes to Campbellton—Arthur Logan Fatally Hurt in Boston.

MONCTON, March 30.—Another Scott Act case, the one against Edmond Bourque, had to be adjourned in the police court today because witnesses did not appear. Several cases have had to be adjourned on this account of late, the dealers sending witnesses away and thus making it impossible to secure convictions against them. As a result instead of summonses will be served on witnesses, thus ensuring their appearance at the trials.

Leslie Chappell, formerly chief of police in Moncton, has decided to accept the position of chief of police at Campbellton and will report for duty the first of the month.

F. A. Logan, of City Market, this morning received a telegram from Boston announcing that his brother, Arthur, had been fatally hurt at that place. No particulars were given. The young man was twenty-three years of age, belonged to Prince Edward Island, and had been in Boston for several years. He was a carpenter by trade.

HUSBAND'S HEART PUMPED BLOOD INTO HIS WIFE

Woman in New York Undergoes a Most Remarkable Surgical Operation

NEW YORK, March 30.—For the first time in this city, transfusion of blood was resorted to yesterday to save the life of a patient, says a despatch from Philadelphia. Mrs. Anderson was dying from an aneurism of the Polycystic Hospital. The doctors decided on a blood transfusion to save her life, and the husband of the dying woman cheerfully permitted a quantity of his blood to be pumped into his wife's veins. The woman was brought back to consciousness and now has more than a fighting chance for complete recovery. Anderson, himself, though weakened by the loss of blood and the ordeal of the operation, soon rallied, and bids fair to be himself again in a few days.

Anderson was anaesthetized and the pulse in the left arm was severed. The large vein in Mrs. Anderson's left arm was severed and the artery of her husband was inserted in the incision. For an hour the man's heart pumped blood into his wife's veins. Then the arteries were loosened and the proper connection made.

HUNDREDS OF PEASANTS KILLED BY ARTILLERY FIRE

BUCHAREST, March 30.—Field guns loaded with grape shot, according to the official reports, are winning against the revolutionary peasantry, whose arms are mostly hay forks and scythe blades. The insurgents were able to hold their own against the troops at close quarters and even without cavalry charges, doing terrible work with long pronged forks and scythe blades strapped to long poles, but the slaughter since the troops used artillery appears to be terrifying them into submission. In the district of Vlasieva, where the outbreak was particularly serious, large numbers of insurgents have surrendered and denounced their leaders to the authorities, with the result that many of the latter have been arrested. The government hopes that with the leaders in jail the undisciplined bands will soon abandon the field.

The self-styled "generals" usually turn out to be country schoolmasters and village priests. Numbers of women are fighting in the insurgent ranks, and many of them have been found among the killed, shot by side with their husbands, sons and brothers.

Winnipeg Learns That Conductors Will Go on Strike

—Murder Suspected in Death of Man in Ontario

TORONTO, March 30.—By a landslide on the Canadian Northern Railway at Harnedale yesterday, traffic on the line was interrupted for several hours and a train carried away. The sudden change in the weather caused the bank to give way and it slid down just as a freight train was passing. Train and trucks were carried away by the force of the earthen avalanche, the trucks being shifted for some distance.

It was not reported that any serious damage was done, however, and nobody was injured. It took several hours to get the track into shape again, so that the express from Parry Sound could get through.

TORONTO, March 30.—With his neck on one of the rails, with four wounds in his head, and with his clothing partly torn off, Edward Elliott, an English laborer, was found dying at midnight on Thursday on the C. P. R. main line, between Port Credit and Lorne Park. Within a few minutes after being picked up in an unconscious condition, he passed away and from the attending circumstances there are grave suspicions of foul play. This tragedy was discovered by the crew of a freight train coming into Port Credit, the engine being stopped in time to prevent running over his head and neck. While being hurried to Port Credit he died without being able to tell any of the events that led to his death. A horrible gash in the back of the head, which bled profusely, was in itself sufficient to cause death, while a small hole in the chin had the appearance of being the result of a revolver shot. This wound was partly probed by the coroner, but no bullet was found. The post-mortem examination will be held at Port Credit this morning, and it is expected that this will show whether or not murder was done.

WINNIPEG, March 30.—It was reported here last night that conductors on both the C. P. R. and C. N. R. will strike in the near future. The announcement came as a thunder bolt, following the declaration yesterday that western Canada would not be affected by the great railway struggle in the States. No rate has been announced, but the union believe they have gone too far and are asking too much, but whether their influence will be sufficiently strong to act as a restraint, it is impossible to say. If a strike is declared, it will come suddenly, when finally decided upon, and the lines will be closed. The men anxious to strike are disposed to defy the labor disputes law on the ground of making this a test case.

Hance Logan, M. P., left for home last night.

Instructor Long, of the M. A. A. A., formerly of the Citadel, Halifax, left yesterday for Halifax in connection with the M. A. A. A. summer camp on McNab's Island, which begins July 29.

Details of the attack made by the peasants on Galatz show that a pitched battle was fought. The insurgents, who were several thousand strong, began the assault at midnight, carrying the outer earthworks by storm, and captured a provision camp, which they set on fire after pillaging it. Three battalions of infantry tried to stem the advance into the city itself, but the fork and scythe men fought desperately hand to hand and had almost routed the troops, when the government ordered field guns loaded with grape shot to be fired at the insurgents. The field guns wrought great conflict, killing the peasants in masses.

A number of conflicts between troops and marauders continue to be reported. Two thousand insurgents at Gorj are said to have been quieted by the assistance of the authorities without resorting to force. A hundred and fifty more rioters have been wounded at Blustechi, and many of them have since died. Artillery was used at Cucueti, Valoalele and elsewhere, and in some instances whole villages are said to have been utterly destroyed by fire of nine-inch shells.

WESTERN UNION MAKES AN INCREASE IN RATES

CHICAGO, March 30.—The Western Union Telegraph Company has announced a new scale of telegram rates representing an increase in some cases, of 20 per cent., effective April 1. An or-

der to this effect was received yesterday by the local office of the company. The increase in rates is not the same in all instances. Between Chicago and New York the day rates have been increased 20 per cent. Where 40 cents has been charged for a message of 10 words between Chicago and New York, it will be raised to 56 cents after April 1st. The night rate between Chicago and New York has been increased from 30 to 45 cents. In other cases the increase is smaller.

**KILLS FAMILY HE WAS  
UNABLE TO SUPPORT**  
Wife and Five Children Victims  
of Former Forester of  
Saxony's King.  
The Dead Was Planned by Both Parents  
After Fruitless Struggle Against  
Poverty.

**DRESDEN, March 29.**—In despair at his inability to support himself and his family on his meagre pension, Herr Wildorf, formerly chief forester to the King of Saxony, murdered his wife, three sons and two daughters and committed suicide at Dresden last night.  
His eldest daughter, 22 years old, was also shot after a frantic struggle to disarm her father. She is still alive, but is in a dying condition.  
The family lived in a flat, but the neighbors, though they had heard nothing of the Wildorfs since Friday, suspected something wrong until early this morning, when the janitor discovered that a milk can left in front of the door had not been touched. He summoned the police, who forced open the door.  
Upon the floor of the first room lay the body of the eldest daughter, in whom a spark of life was still flickering. After she had been removed to hospital the police searched the other rooms, discovering the body of the mother in bed, with a bullet through her temple.  
In an adjoining room, littered with broken furniture, were the bodies of the remainder of the family, three boys and two girls, the eldest of the latter 12 years old, and two of the boys twins, aged 12.  
Wildorf had attempted in a variety of ways to earn enough money to support his family, but without success. The sevenfold tragedy appears to have been prearranged by Wildorf and his wife, who were reduced to the belief that simultaneous death was the best and happiest escape from the menace of starvation.  
Not until the eldest daughter entered the flat after her mother, brothers and sisters had been murdered was the father disturbed in the execution of his mad resolve. The girl even then fought hard to save her father's life and her own, but fainted before she could disarm him from bullet wounds in the head and breast. The father, believing her dead, then stretched himself upon a sofa and blew out his brains.

**PAPA PHONES CONSENT  
AND SPOILS ROMANCE**  
Elopers Were Held Up by Hard-Hearted  
Marriage License Clerk.

**LEWISTON, Pa., March 29.**—Edith, only daughter of Mr. and Mrs. William Miles, of Lewistown, and H. Z. Harwood, a civil engineer from Harrisburg, Pa., left here Monday of this week and went to Huntingdon, thirty-eight miles away, where they applied to the clerk of the marriage license bureau for a license. The fact that the bride was only sixteen years old and didn't have her parents' consent acted as a bar to their hopes and there was nothing to do but appeal to the sympathetic side of the elopement by appealing to papa by phone for his consent.  
This was freely given, and the pair were married by J. R. Patton, justice of the peace. They returned to Lewistown last night, where the parental blessing was bestowed.  
The bride is an exceptionally pretty and accomplished young woman and the bridegroom is the son of a railroad man in Philadelphia, and a stepson of E. M. Nead, a prominent attorney of Harrisburg, being known under the name of Nead until his marriage made public his real name.  
He is employed as a locomotive with the Pennsylvania Railroad Engineer Corps now running lines between Marysville and Petersburg for the new low grade freight line.

**BOY, AS THIEF, SCARES  
MOTHER; SHE MAY DIE**  
Lad of 12, Playing Burglar, Frightens  
Woman Into Fatal Convulsions.

**BOSTON, March 29.**—As the result of a practical joke played upon her by her 12-year-old son, Fred, last night, Mrs. Annie Williams, of 3803 Cuthbert street, lies writhing in convulsions in the Presbyterian Hospital, where physicians fear she may die.  
Mrs. Williams retired early in the evening, and her son, Fred, wishing to scare her, crept quietly up to her bedroom door and gave it a kick and said in a gruff voice:  
"Open the door, or I'll break it down!"  
He was more successful than he had wished, for his command was answered by shrieks from his mother, who believed a burglar was attempting to gain entrance to her room.  
Frightened by the child's cries, neighbors rushed in, forced the lock of the door and found Mrs. Williams lying in a swoon.  
When she came to she writhed in convulsions, and was removed to the hospital.

**WOMAN SWALLOWS  
PINS AS SHE SNEEZES**  
Half Dozen of Brass Kind in Her Stomach  
—She May Die.

**RICHMOND, March 29.**—Mrs. C. H. Lewis is in a critical condition at the Virginia Hospital as the result of a very peculiar accident.  
She was in her own yard and in the act of placing some clothes on a line to dry, when instead of using the ordinary clothespins to fasten them on the line, she swallowed at least half a dozen of the pins.  
A physician was immediately summoned and the woman sent to the hospital, where she has been suffering intense agony ever since. It was stated at the hospital this afternoon that no operation had yet been performed. It was announced that the condition of the woman was critical. The X-ray will be used in an endeavor to locate the pins. The surgical knife will probably be used today in an effort to remove the foreign articles.

**FOUND \$1,400 HID IN  
DEAD WOMAN'S CLOSET**  
Estate of Recluse Yields Unexpected  
Return to Only Living Relative.

**NORRISTOWN, Pa., March 29.**—While the jambo and Thomas Rambo, who had been appointed administrators in the estate of Miss Sallie Rambo, were making an inventory of the goods in her home today they found hidden away in a closet \$1400 in gold and paper money.  
The dust-covered but valuable find was turned over to the executor of the estate, Benjamin Thomas, who will transfer it, with the other portion of the aged woman's estate, to Miss Rambo's only surviving relative, Mrs. Sarah White.  
Miss Rambo was a recluse, living alone for years in her unpretentious house adjoining Christ Sweden's Church, of which she was one of the oldest members and a faithful attendant.

**SITS UP AND TAKES  
NOTICE IN HIS COFFIN**  
Man Ready for Burial Rides in Ambulance  
Instead of Dead Wagon.

**WASHINGTON, Pa., March 29.**—Terribly crushed by a fall of 100 feet and believed to be dead, John Brady was carried to the Wright undertaking establishment at Monessen to be prepared for burial.  
In the coffin, where he had been placed, he sat up and took notice, and his next ride was in the ambulance, not the dead wagon, as had been expected.  
With other workmen, Brady was assisting to put a casket in the boiler house of the Monessen Steel Works, when he lost his footing and fell into a steel car. Both legs were broken and one arm.  
When picked up he was, to all appearances, dead. It was almost a half hour later when he revived at the mortuary.  
Brady was taken to the hospital, and will recover.

**MAN ATE PIG'S FOOT;  
DIED IN 30 HOURS**  
Rancher Seized With Cramps After Lunch  
and Expires in Agony.

**STEAMBOAT SPRINGS, Col., March 29.**—A pickled pig's foot, which he ate in a local restaurant, caused the death of Frank Campbell, a rancher, at his home on Cow Creek, after thirty hours of terrible agony. Dr. Crannell, who was called to attend the sufferer, says ptomaine poisoning was the cause of death. Thursday afternoon Campbell came to Steamboat Springs to purchase supplies for his family, and while here took a lunch at a restaurant. On returning home he complained of severe pains in the stomach, and was later seized with cramps. A hurry call was sent for Dr. Crannell, but he could not give relief.

OLD AGE PENSIONS.  
(The Circle.)  
Germany has expended \$13,500,000 for age pensions, to say nothing of \$55,700,000 for sickness and \$227,000,000 for accidents.  
It is strange that this matter has not attracted more attention in an advanced country like the United States, which pays out more than \$142,000,000 a year to army and navy pensioners and has spent \$2,261,120,257 in that way since 1861.  
The census figures show that in 1900 there were some \$3,880,498 persons of 65 or more years in the United States. This is 4 per cent of the whole population.  
Of these 600,926 were of 70 to 74 years, 209,696, 75 to 79 years; 182,304, 80 and 84 years; 66,389, 85 to 89 years; 18,826, 90 to 94 years; 4,298, 95 to 99 years; and 3,068, 8 hundred years and over.  
Among the 3,880,498 persons of 65 years and more, there were 1,044,031 married men and 531,220 married women, 410,565 widowers, 905,180 widows, 69,152 bachelors and 80,858 spinsters.

**STAGE WAR MADE ON  
WHITE SLAVE TRAFFIC**  
Italian Government and Aristocratic Women Join in Novel Crusade Against Evil.  
ROME, March 29.—With the consent of the Italian Government and under the special patronage of a committee of women of the Roman aristocracy a movement has been set on foot in Rome for combating the growth of the white slave traffic by stage plays.  
Last night the expedition was initiated in the performance of a powerful five-act melodrama by Signor Giuseppe Parini called "The White Slaves." The plot unfolds a sad story of vice and violence used to enslave with the offer of a remunerative post as governess in a wealthy family at Buenos Ayres a beautiful Italian girl just bereaved of her mother. The author's thesis is that the first fall is either irreparable in its consequences or else inclines the woman to seek refuge from her shame and misery in death.  
The large and popular theatre was crowded to its utmost capacity, at the boxes and stalls being thronged with prominent citizens of either sex. The author received enthusiastic recalls before the curtain, and an effective verse prologue setting forth the moral of the play was recited by Gabriellino d'Annunzio, a son of the famous poet.

**UNDER A LOCOMOTIVE,  
HE DIRECTS RESCUERS**  
SHARON, Pa., March 29.—"Mind you, don't let me hear of any more of these loco-boomers," said the Erie engineer, directed the work of rescue early this morning until rescued, four hours later. He was conveyed to the hospital, where he died at noon.  
The rain washed the cinders from under the Erie track near Paltz, and when the freight struck the weakened roadbed it left the rails and the engine rolled over on its side. The train jumped, but Engineer Lewin was caught and held down and rescued by escaping steam and hot water.

# FOR THE HOME DRESSMAKER

## TAFFETA FROCKS ARE AGAIN IN GREAT FAVOR

THE day when the silk gown was considered one's "very best," and religiously kept for high days and holidays, is quite past. We have discovered its usefulness when adapted to morning wear, for traveling and church, and intend to make the most of it.

Not for years has there been such a silk season ahead as this coming spring promises. Silks of every kind and color, of every conceivable weave and design will be extensively worn for all occasions.

There will be the simple shirt-waist frock of silk, which, by the way, has this season lost much of its simplicity; the silk coat-suit, more elaborate costume for afternoon wear, or for cool evenings at summer resorts. Silk will also be used for motor cloaks and for the short, dressy wraps which will be much in evidence.

The new silks are many, and most of them very lovely in coloring and texture. As a rule, the color schemes are not pronounced; indeed, there is a harmonious softness among the newer and better class silk materials which is really delightful.

While many fancy silks and satins, messalines and louisines are

seen, popular favor has declared quite strongly for taffeta, rajah and foulard, with, of course, the omnipresent pongee.

Taffetas seem to have taken an entirely new lease of life, possibly because, with the softer finishes, some prospect of endurance is held out. The chronic objection of most women of moderate means to the ordinary crisp taffeta is that they will cut—worse yet, cut just as much whether they are worn hard or carefully hung in the closet.

The popular supple chiffon taffetas, besides being free from this objection, lend themselves to graceful draping and to the long, easy lines so much in demand. For the home dressmaker, especially, are they preferable, as the stiff taffeta is distinctly hard to handle well.

There are many new and beautiful effects shown among the soft taffetas. Stripes, checks, plaids of every imaginable kind are seen; sometimes even combinations of two or more of them in the same material. Black-and-white effects are particularly popular; or very often they have an underlying note of soft color introduced, as a tiny dot or design sprinkled over the surface of a check or plaid.

Many plain taffetas are seen in this soft chiffon texture, or often

there is a changeable look given by a skillful blending of self-tones.

All the colorings, by the way, are uncommonly beautiful, and far from being as crude and glaring as they were even last season.

The women—and there are many of them—who feel that nothing quite takes the place of a blue silk, either plain or figured, will be glad to know that blues of every description, from indigo to electric, with a wide range of blues with a leaning toward gray, delft tones, Japanese blue and a rich, bright navy, called matelot, will be among the choicest shades of the year.

Greens are also good when on the almond and reseda tones, while browns, especially in soft ester

shades and in a very warm, bright brown, without a trace either of the usual chestnut red or mustard tones that spoil so many browns, will be equally in favor.

Grays in both light and dark shades are much used, while even in taffetas the rather strange but decidedly popular combination of gray and brown, either in stripes, plaids or changeable tones, are seen.

As said before, the taffeta shirt-waist gown is less strictly tailored than for several seasons past. This is probably due to the vogue of the guimpe idea, which is to more than retain its favor of the last winter, despite the fact that it has been much overdone. New ideas in it are constantly being brought out, how-

ever, and the ordinary bretelle, or strap effect, is less seen than a blouse cut down some graceful way to show a guimpe and lingerie sleeves underneath. The prevailing sleeve is the sleeve cap either slashed or plain on kimono lines.

The models which come to us today straight from Paris show charming and very practical ideas for making these soft taffetas at home. Most of them, moreover, are equally adapted for the colored and white linens which will be widely worn.

The first frock to the left is a specially simple but stylish design for a dark-blue taffeta. It has no trimming, but stitched bias bands, machine stitching and large buttons

covered with the silk. With it is worn a yoke and under-sleeves of sheer linen tucked by hand. A stiff little cravat of brightest green gives a French touch to the whole gown, which, by the way, would look very smart made walking length. A second yoke and sleeves of lace might be made to make the gown more dressy. The hat is of coarse natural-colored leghorn, trimmed with many loops of bright green ribbon.

For calling and more formal occasions is the next gown, of apricot taffeta, with its graceful tucked sleeves and its long yoke effect of a deep cream-colored embroidery. The skirt is plain and long. Choux of black taffeta form a pleasant color contrast. The hat of deep cream chip, with long apricot-colored plumes and ribbon to match the gown, finishes a very striking costume.

Very becoming to a woman with a graceful figure is the next model, which has a princess effect. It is in the new parma shade of violet, and is trimmed with shaped bands of the silk. The yoke and sleeves are of an all-over point de Venise lace, and the collar is outlined by a cravat of a deeper tone of violet.

Very easy to make, yet extremely good looking, is the last gown, which is equally good in China blue or in a green with a narrow black stripe.

The blouse is made of cream-colored all-over lace, and the buttons on the girdle are antique silver ones. If wished, the skirt may have the lace bands omitted, being trimmed instead with graduated tucks. All-over embroidery or batiste would make a good substitute for the lace. This is a particularly good model for linen. The hat is of blue or green coarse straw in the popular mushroom shape, and is trimmed with a long black velvet bow and ends and a wreath of small dark-red roses.

### Fashion Notes

FAVORITE colors for spring will be pale gray, beige, and a new rose for afternoon gowns. For street wear there is a new sapphire blue that is bright, but cool looking and very becoming.

Pale covert cloth with touches of black satin in trimmings is popular for the tailor suit.

Fine linen with pale colored or black stripes is shown for the spring tailor-made waist.

Irish lace is enjoying renewed popularity. It is often used in combination with sheerer laces on the same blouse.

The Regal Test

The famous Regal Buzz-Saw is now at REGAL SHOE STORE, and is running daily from 10 to 11 a. m. and 3 to 4 p. m. It costs the Regal factory over \$600 per day extra to put the best Oak-Bark-Tanned Sole Leather into every pair of Regals instead of the "Yankee Oak," "Union," and plain ordinary hemlock used in most other shoes sold at the same price.

But the best Oak-tanned soles look exactly like any of the substitutes after the black finish has been applied. That is why the famous Regal Buzz-Saw was started going in our window opening up Regal Shoes to show how they are made; and that is why the "Window of the Sole" was devised—a little removable label attached to the bottom of every Regal shoe, which can be turned back before you pay your money, and which exposes the actual color of this clean, close-fibred Oak-Bark-Tanned Leather.

SENSATIONAL HIGHWAY ROBBERY LAST NIGHT Handbag Containing \$40 and Gold Watch Snatched by Bold Crook from Mrs. J. Hamblet Wood, at Corner of Leinster St. About Nine O'clock—Thief and His Pal Escaped—Police Think They Know the Men.

Mrs. J. Hamblet Wood, the well known proprietress of the ribbon stamp works at 175 Prince William street, was last night the victim of the boldest and most sensational highway robbery that has occurred in this city for a long time.

While passing along Sydney street the man kept close to the houses, Mrs. Wood said, and she thought he might have thrown the handbag away, but it fell in some place where he could return and get it.

"I will take that" and he did. "As I was crossing Leinster street," she said, "I noticed two men standing in front of St. Malachi's Hall, and almost before I could give them any further thought the taller of the two stepped quickly to my side and said in a quiet voice:

"What he meant I did not immediately realize, and I thought perhaps there was something wrong with my coat, and I glanced downwards. "I was not allowed to remain long in ignorance of man's intentions, however, for simultaneous with my downward glance he made a dive for my handbag, and with a sharp tug broke the chain by which it was fastened to my wrist and made off almost before I could get my breath.

Mrs. Wood made good use of her breath when she did get it, however, and instead of fainting or going into hysterics as the majority of women in such a case are expected to do in a

similar experience, she screamed at the top of her voice, and started in hot pursuit of the thief. The two men then ran up Leinster street towards Carmarthen retaining again and walking down Sydney street. They became alarmed, however, by Mrs. Wood's cries of "murder" and again started to run. The taller man, who had snatched the satchel, ran down Sydney street, past the court house and then through the graveyard. He was seen by two men who did not know of the theft and allowed him to pass. The other man ran through King Square, where all traces of him were lost.

Mrs. Wood's cries had alarmed the neighborhood, and people rushed out of the houses on Sydney street, but none then seemed to realize what was the matter, and the men were lost sight of in the general confusion. While passing along Sydney street the man kept close to the houses, Mrs. Wood said, and she thought he might have thrown the handbag away, but it fell in some place where he could return and get it.

Mrs. Wood thinks she could identify the man who snatched the handbag. She described him as being about six feet tall, and well dressed, wearing a long black overcoat and a black cloth cap. He was young, no more than twenty or twenty-one, she thought, and in a general way of refined appearance, which impression was heightened by his well modulated voice. Mrs. Wood believes that the man was not a novice at the game.

The other man was considerably shorter and of a more rough and unkempt appearance, but Mrs. Wood has become perceptibly disorganized, is contained in the Neue Politische Correspondenz, a Berlin news agency, which is often the medium for the official utterances of the German government.

"England is a Colossus with feet of clay. She will do well not to provoke too hastily the world-historic decision as to whom the supremacy in Europe belongs," it says. "If she continues in this course, even the entente cordiale need have no terrors for us."

"Germany has at present 5,600,000 soldiers, who are available not on paper, but actually. The French army has become perceptibly disorganized."

"We wish sincerely to live in peace with France and England, but that can only be if England benevolently refrains from a diplomatic policy which sooner or later must lead to war—a war which, as we are firmly convinced, will be the beginning of the end for the British Empire."

The Montreal river rush before the ice gives way is now on. Cobalt liverymen charge ten dollars a day for horse hire and require a deposit of the full value of the rig to be made before starting, owing to the treacherous nature of the ice on Elk Lake. Some remarkable finds are reported from that district, where silver is said to be more plentiful than in Cobalt.

ARE IMPRESSED WITH OUR PORT Party of Western Senators and Members Here

Yesterday the party of western senators and members of parliament, who came to St. John on the invitation of the Minister of Railways, viewed the harbor front from a tug and in the evening were entertained by the mayor and aldermen at dinner at the Royal Hotel.

The party consisted of the following legislators: Senator Watson of Portage la Prairie; Senator Young of Kamalame, Man.; L. A. Burrows, M.P. of Humboldt, Man.; J. E. Cyr, M.P. of Dauphin, Man.; J. S. Crawford, M.P. of Providence, Man.; A. J. Bill, M.P. of Selkirk, Man.; S. J. Jackson, M.P. of Portage la Prairie, and A. J. Adamson, M.P. of Prince Albert.

The train with the special car arrived at about four in the afternoon. The hour of arrival being later than was expected, the programme of entertainment was necessarily altered.

A dinner was given at the Royal in honor of the city's guests and besides the western party there sat down to the table Mayor Sears, Ald. Bullock, Ald. Baxter, Ald. Rowan, Deputy Mayor Tilley and J. H. McKibbin, president of the local Board of Trade.

After the dinner had been finished the party adjourned to the gentlemen's parlor of the hotel. Here for about an hour an informal discussion took place, at which the needs of Canada's West and Canada's winter port were outlined.

Senator Watson's Views. Senator Watson, when interviewed by The Sun, said that what he had seen of the harbor or front had impressed him with the idea that in St. John Canada possessed a most magnificent seaport. The senator also alluded to cordial welcome that the party had received.

"An Excellent Foundation." J. S. Crawford, M. P. of Providence, Man., commented upon the hospitality which St. John had shown the Westerners. With regard to the export facilities Mr. Crawford said the port had an excellent foundation, but that money and labor were needed to give St. John the place she should have as an exporting centre.

The visitors have impressed all who have met them with the idea that they represent business men. The visit was intended to show of what service the ports of Eastern Canada can be to the west and it is thought that the desired results will be attained.

MISS EFFA M. TRYON.

Prof. Postel—Dear Sir—You are certainly the most wonderful astrologer living. Every one of your predictions came true. I consider that you not only saved me from an awful death, but prevented the loss of hundreds of dollars.

The accuracy of the recent predictions made by this eminent Astrologer has caused many of his friends to believe that he possesses a supernatural power, but he modestly asserts that his predictions are due alone to scientific understanding of natural laws.

His majesty's original intention was to send a miniature statue as a private present to King Edward, but the idea was given up in favor of a full-sized figure, which, according to the words of the Kaiser's written instructions, is intended "for the English nation."

AUSTRALIANS QUIT SOUTH AFRICAN CITIES

Depression in Business Drives Thousands to Their Former Antipodean Homes.

CAPE TOWN, March 29.—The depression which prevails in the cities of South Africa is without parallel. Business is paralyzed in Cape Town, Johannesburg and Durban, and the newspapers are filled with reports of creditors' meetings and announcements of sales of bankrupt stocks and furniture.

All these are to be granted free passages to Australia, and the authorities in Johannesburg are so glad to get of the surplus population that they have communicated to Mr. Valour, their willingness to pay the fares of the stranded Australians to the port of embarkation.

FRENCHMEN TO HAVE THEIR FIRST FOX HUNT

PARIS, March 28.—Since Sir Conan Doyle made Brigadier Gerard cut a fox in two with his sword when he went out with his hounds, Frenchmen have smarted under the aspersion that they know nothing about foxhunting.

Such a hunt as Englishmen have never dreamt of has now been arranged, and the meet will be at Satory, near St. Cyr, next month.

To avoid the trouble of drawing covers the foxes have already been caught in the Ardennes and are now possibly receiving lessons in decorum. The number of hedges, ditches and streams in the Plain of Satory is being largely increased.

Paris is wildly excited over the event, and tailors are new busily making pink coats for ambitious sportsmen who are determined to show Englishmen that they know how a foxhunt should be conducted.

KAISER AIDS SCULPTOR IN DESIGNING WORK

Careful to Collect His Notes and Take Them Away From Studio.

BERLIN, March 29.—The statue of William III of Orange, which the German Emperor is about to present to King Edward, is a bronze figure nine feet in height. It will be shipped to England in June, when the exact duplicate will be erected on the terrace of the royal palace in Berlin.

According to Herr Heinrich Baucke, the sculptor who is making both the figures, the Emperor decided to send the statue to England after seeing the sculptor's rough sketch. "What a capital present that would make for England!" he exclaimed.

His majesty's original intention was to send a miniature statue as a private present to King Edward, but the idea was given up in favor of a full-sized figure, which, according to the words of the Kaiser's written instructions, is intended "for the English nation."

It Makes a Difference. "How old would you take my friend Jenkins to be?" "How can I tell? I don't even know whether he's married or single."

### POCKETBOOK STOLEN IN COUNTRY MARKET

Lady Dropped it and Assyrian Woman Picked it Up

No Arrest Made in Last Night's Robbery—Police Visited the Suspects This Morning.

The daring highway robbery on Sydney street last night, which is fully described in another section of this paper, was widely discussed this morning and the police are hard at work in an attempt to capture the thief. Suspicion rested on a couple of young men who are in the city acting as agents, and they somewhat correspond with the description given the police by Mrs. Wood, the victim of the robbery. This morning the police visited the King square boarding house where the men are stopping and made a search of their belongings, but failed to find a clue, and although the men were under suspicion they have not been taken into custody. Wood or others who claim to have seen the crooks might have a chance to try and identify them. The men feel that they have been treated wrongly, that any suspicion should rest on them, although one of them was a few years ago arrested on suspicion of theft but acquitted. Following last night's robbery another occurred about noon today. Two ladies entered a stall in the city market and purchased some meat. There was quite a number of customers in the stall at the time and among them were two women who from their appearance it is thought were Assyrians.

When one of the ladies, first mentioned, went to pay for her purchase she discovered that she had lost her pocket book containing about \$15 and some other valuable papers. She naturally became quite excited and assisted by the clerk made a hasty search of the stall where she was sure she dropped the pocketbook. She remembered seeing it when she first entered the place. A gentleman customer learning of the loss then said that he saw one of the Assyrian women pick a pocketbook up off the floor a few minutes before and with her companion leave the stall and mingle with the crowd in the market. He did not pay much attention to the matter at the time as he thought the Assyrian woman had dropped her pocketbook and was simply recovering the same.

Accompanied by the clerk of the stall the lady who lost the money hastened to Charlotte street but was unable to see the Assyrian woman, who had disappeared. Detective Killen happened to take the pocketbook and on entrance at the time and he was informed of the affair and given a description of the supposed female thief. The detective is now working on the case and expects to locate the two suspects this afternoon.

Accompanied by the detective the lady who lost the pocket book and who resides on Waterloo street, made a hasty visit to a number of the stores on Charlotte and King streets in the hope of seeing the suspects but met with no success.

### NUTANA EAST SIDE SASKATOON BOOMING

According to recent Saskatoon papers the railways are planning big things there. During the coming year, it is estimated that the C. P. R. alone will spend two million of dollars and the G. T. P. and C. N. R. about a similar amount on their depots, shops, yards and coal bunkers, which will be largely erected on the east side portion of Saskatoon, where these railways have extensive land holdings.

The Northwestern Land and Investment Company, Limited, has closed out the remainder of odd lots for sale in section 22, and are now considering another purchase of vacant property, said to be valued at fifty thousand dollars.

### COUNCIL GRANTS \$1,000 TO THE MONUMENT FUND

Bringing to Total Now Available to \$9,760—Only \$240 Still Needed—Board of Assessors Re-Appointed

Dr. A. J. Murray of Fredericton Junction is at the Victoria.

A pocket book containing money, found on Paradise row a few days ago, still awaits the owner at North End police station.

In the police court this morning six drunks were each fined \$5 or a month with hard labor. Two forfeited deposits, and the others went to jail. James Barry, for refusing to move when ordered by the police, paid \$3. The magistrate in fining the drunks said that they all professed to be Christians but went out on Good Friday and got drunk. He said they ought all to be ashamed of themselves.

The common council met in special session this morning at 11 o'clock. Those present were: Deputy Mayor Tilley, presiding; Ald. Bullock, Baxter, Rowan, Christie, Holder, Lewis, Sprout and Willet.

Ald. Bullock, as soon as the meeting had been opened, stated that he had read with much pleasure of the government's action in making a grant of \$1000 towards the erection of the Champlain monument. Ald. Bullock thought that the monument would be a valuable ornament to the city and he moved that the council make a grant of \$1,000 towards the fund.

Ald. Willet was not opposed to the city giving the amount but he thought that the matter should be considered at a future meeting.

Ald. Holder was not in favor of the city giving any money towards the erection of the monument. He thought that the required amount could be raised by subscription. There would be some poor men who could not afford to give money for the monument and if the council makes a grant, every voter will be forced to pay.

Deputy Mayor Tilley put the question and the council agreed to make a grant of \$1,000. The only ones opposing the grant were Ald. Holder and Sprout. Ald. Sprout stated that he is not opposed to the city making a grant, but he thinks that \$1,000 is too large a sum. The estimates for the year were to have been passed, but this business was laid over until Monday when the regular meeting of the council will be held.

Deputy Mayor Tilley read a communication from the chairman of the treasury board, which was as follows: "Your board recommend that Uriah Drake and Richard Farmer be appointed under the provisions of the Saint John City Assessment Law 1889 and amending Acts, assessors of taxes for the city of St. John in the present year to constitute with the chairman, Arthur W. Sharp, the board to assess the balance of 1906 required will no doubt be raised in a very short time, and the work on the monument begun."

The monument fund now amounts to \$9,760. Of this \$5,000 was granted by the federal government, \$1,200 by the provincial government, as announced to-day, \$1,000 by the common council, and \$2,560 raised by public subscription.

### SAID THAT DEFOREST DENIED EVERYTHING

Hearing of the West Side Stealing Case Resumed in Police Court Today.

The case against Fred DeForest, who is charged with stealing a jar of cheese from a C. P. R. car early this morning, was resumed in the police court this morning.

Robert Greig, shed foreman for the C. P. R., gave evidence of finding a jar of cheese broken open, and that DeForest offered to forfeit his month's wages if the matter was allowed to drop. DeForest also denied stealing a dinner can, and afterwards the stolen jar of cheese was found in his can. DeForest claimed that an unknown man had given him the jar.

Fred R. Taylor, who represented the C. P. R., asked for an adjournment to get the evidence of Terminal Agent Gilliland, who was unable to appear today owing to illness. The case was adjourned until Monday morning at eleven o'clock. E. S. Ritchie appeared for the prisoner.

### ADVANCE IN WAGES TO IRON MOULDERS

CHICAGO, March 30.—A joint conference yesterday between the stove and heating apparatus foundrymen's National Defense Association, representing a majority of the manufacturers throughout the United States and the Iron Moulders' Association of North America, resulted in an advance of five per cent. in the wages of the moulders. The new scale is to run for twenty-one months, and will affect about 25,000 men.
