ORGANIZATION OF POTATO GROWERS

The N. B. Potato Growers' Association was formed at Woodstock last week at a convention of prominent potato growers. Between fifty and sixty were present and keen interest was taken in the proceedings. Several exhibits of farm machinery and potatoes were displayed in the exhibition hall of the vocational school, where the meeting was held.

At the Wednesday afternoon session addresses were delivered by G. C. Cunningham, of the department of agriculture; W. W. Hubbard and Prof. W. S. Blair, of Kentville. The session held in the evening was quite largely attended and the speakers got a most attentive hearing. A. D. Holyoke presided.

Hon. J. A. Murray, who was to speak on Agriculture in New Brunswick, was unable to be present and J. B. Daggett made a few remarks in which he expressed the regret of the acting premier as not being able to be present owing to his duties at Fredericton. Mr. Daggett had great faith in the agricultural possibilities of New Brunswick as compared with other provinces he had visited and felt the the agricultural work was on and was here to stay and increase. Formerly agriculture was only a side line of the lumbering interest but our people are now turning to agriculture, having reached the place where they are of the conviction that agriculture is awakening and deepening the interest of our young men along scientific lines.

We are speedily coming into our own, said Mr. Daggett, and taking an interest not in evidence years ago.

An instructive address by W. T. Macoun, Dominion horticulturist, Ottawa, was heard with deep interest. He spoke on The Potato and Its Culture.

The potato crop, he said, was greatly affected by cultivation and needed study always. "New Brunswick," said the speaker, "has as large if not larger yield of potatoes per acre than any other province." In five years' test of 800 varieties at Ottawa the highest yield was 580 bushels per acre. We imported over 200 varieties of seed from Great Britain and Europe and few compared favorably with our own varieties and at the end of four years we eliminated all but four varieties.

He showed the yield per acre from several places and seed from Fredericton was one of the leaders in production. He advised changing seed every year to keep up the standard. Green tops, till frost cuts them down, indicate very high vitality. Loose soil, with plenty of moisture, is best for potatoes. This has been proven in Alberta, where they get immense yields by irrigation. Potatoes are a rapid growing crop and if the seed is in good condition the growth will not be checked. One or two extra harrowings will repay in the crop gathered. Clover sod gives best results, and the seed of strong vitality will get an early start. Experiments had shown the best results were obtained by planting in the last week of May in an average season. He attached great importance to cutting, and planting the seed soon after or as

quickly as possible. Seed covered with land plaster will make a difference on the yield of sixteen bushels per acre. The highest yield is from planting one inch deep. He would suggest from five to six inches deep for commercial crops.

He strongly advised the use of Bordeaux mixture to prevent blights, for no tops, no potatoes. Always keep free from insect pest. Paris green and arsenate of lead make a good mixture.

E. W. Jarvis spoke on Potatoes and Community Financing.

On Thursday the meeting elected the following officers:

T. W. Caldwell, Florenceville, president; Donald Innis, Tobique River, vice-president; G. C. Cunningham, secretary; W. H. Moore, Scotch Lake, treasurer; C. M. Shaw, Victoria, auditor.

Addresses were delivered at this session by W. W. Hubbard, G. C. Cunningham and Prof. Wm. Stewart. H. H. Hatfield was unable to be present.

A public meeting was held in the evening in the Hayden-Gibson Theatre with Mayor W. S. Sutton as chairman. A short musical programme was carried out and addresses were made by J. D. McKenna and J. H. Grisdale, director Dominion Experimental Farms, Ottawa.

Centerville Red Cross Society

On Feb. 10, the above society shipped to the Soldiers' Comfort Association, St. John, one box, contents as follows: 66 pairs of socks and 18 pairs of mittens.

On Feb. 17 a package was forwarded to Provincial Headquarters, contents as follows: 38 hospital shirts and 47 bandages.

The following have contributed work and donated cash and supplies: Mrs. Maggie Payson, 7 pairs socks; Mrs. Emerson Crouse, 4 pairs socks; Mrs. Amos White, 1 pair socks; Mrs. Wilmot Webb, 5 pairs socks and 4 pairs mittens; Mrs. Wm. Phinney, 1 pair socks; Mrs. Henry Thomas, 4 pairs socks; Mrs. Eliza Smith, 2 pairs; Mrs. Edward West, 1 pair socks; Mrs. L. B. Clark, 1 pair socks; Mrs. Francis West, 1 pair socks; Mrs. James Prior, pair socks; Clark McBride, 2 pairs socks; Miss Anna Anderson, 2 pairs socks; Miss Mary J. Reid, 1 pair socks; Miss Marion White, 1 hospital shirt; Miss Mildred White, 1 hospital shirt; Mrs. George Prior, 1 pair socks donated; Mrs. Wm. D. Balloch, 50 cents in cash; L. B. Clark, \$1 in cash.

NO SOLDIERS FOR HARTLAND!

There is much disappointment among the young men from Hartland and vicinity who during the autumn and winter enlisted with the understanding that they would be billeted here. This feeling reached a point of keen resentment last week when most of our boys were transferred from Woodstock to Perth. There seems now no likelihood of their being sent to Hartland.

Most of the men, particularly those who are married and have families here and nearby, enlisted at great personal sacrifice and were induced to do so by the promise that their months of training would be spent where they could be with their families.

Months ago quarters were secured here, and the rumour went forth that "the soldiers are coming next week" until the matter became a joke—the point of which never became apparent to the soldiers themselves.

The boys justly feel that they were duped, deceived and misled.

Business interests of the village properly looked to receive an impetus and local merchants, too, were duped.

Deputy Officer Cameron has for many months made recruiting his chief business and has given most of his time and energy to the work. He has succeeded in signing on a great number of men, and if Carleton county as a whole has not sent so large a proportion of her men as some other counties, the Hartland district has done its full share, and with efforts properly recognized, could and would gladly do a lot more. But the cheerful enthusiasm with which not only Mr. Cameron but M. L. Hayward, S. S. Miller and others threw themselves into the work of recruiting has been wet-blanketed. While all know the need for soldiers is infinitely beyond the catering to the good will of those in charge of the billeting of recruits, there is a natural feeling among local enthusiasts that the authorities might well co-operate with them.

There seems to be too many men in control, too much red tape, and endless machinery. Recruiting Officer Wootton of Perth seems to have what might be termed a "pull" with the officers in command, for he has not only the men of Victoria sent there to drill, but the promised Hartland billet as well. Besides it is his exceeding good fortune that the hazards of war brought

Such papers as the Woodstock Press and The Gleaner, and they are few, apparently possess no facility for meeting the criticism of those who are politically opposite in their views.

Having no logical argument to use against F. B. Carvell they seek to turn his brilliant work in parliament to cheap and vulgar ridicule. These papers would serve their masters better if they ignored Carvell altogether rather than regularly devote so much space to libels and jeers, lacking utterly the ability to use concrete argument. Fortunately the people who read the papers referred to read also other papers, and those who peruse the independent, or respectable Conservative journals know that Mr. Carvell's charges against the Shell Committee have created a profound impression from coast to coast. His more recent speech on the new Valley railway outrage is of even more interest to Carleton and Victoria people. The Press and The Gleaner, absolutely without argument or defence, before their columns with ridicule of Carvell to no purpose. The people of Carleton have got to have it from some other resource than the two irresponsible journals referred to, or such journalistic frocks as Beck's Weekly, before they will believe that Carvell is anybody's fool.

If The Press is short of editorial material it might soothe its readers feelings by telling them something about the new Valley railway scheme. In fact, it's up to The Press—and to the Victoria County News—to tell the people why the Valley road is not going to be built north of Centreville. The people are languishing to hear the reason—from those papers.

SAVES OFF DANDRUFF. HAIR STOPS FALLING

Save your Hair! Get a 25 cent bottle of Danderrine right now—Also stops itching scalp.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life, eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderrine tonight—now—any time—will surely save your hair.

Get a 25 cent bottle of Knowlton's Danderrine from any drug store. You surely can have beautiful hair and lots of it if you will just try a little Danderrine. Save your hair! Try it.

about the placing of his son, a youthful lieutenant, as one of the officers in command. But The Observer does not want in this article at least, to hint at "pull" or political patronage. We are told that such is not permitted in the department of Col. Sir Sam Hughes.

At present writing it is said certain of the commanding officers still promise that 100 men will be sent here at once. Indeed last week J. S. Faulkner, a Hartland carpenter, while in Woodstock was taken to the armory and instructed in the preparation of sleeping bunks, and was told that immediately an order would follow, to fit up the Hartland quarters for a hundred men. But the order, of course, has not come. There is nothing doing.

Deputy Recruiting Officer Cameron has tendered his resignation. He feels that since he had the definite promise that Hartland recruits would be billeted here he has been made a party to the breaking of faith with the boys. His issue seems well taken, nevertheless the village people hope his zeal will not be permanently dampened for the Empire needs fighting men. Referring to the billet at Perth the Victoria County News says: "There is not the least doubt that their advent will be a great stimulus to recruiting. Already Officer Wootton has received valuable aid."

VALLEY RAILWAY TO BE ADJUNCT OF C.P.R.

Ottawa, March 20—According to the official government statement of the latest plans for the St. John Valley Railway as sold to parliament today by Hon. Mr. Rogers, the road is to continue to be merely an adjunct of the C.P.R.

The province of New Brunswick, after entering into an obligation of \$6,000,000 in bond indebtedness to secure the construction of the road from St. John to Grand Falls, it is to be left with an incomplete line, ending at Centreville instead of Grand Falls and at Westfield instead of St. John.

Mr. Carvell, Hon. Dr. Pugsley, and other New Brunswick members told the story of the road to parliament today—how it had begun with the distinct pledge that it would be carried through from St. John to a connection with the National Transcontinental at Grand Falls, how Premier Fleming had carried his province on that pledge, how the provincial government, with the connivance of the federal government, had deliberately plotted to thwart the original plan for the benefit of the C.P.R., and how, finally, the last move was being made to consummate the plot.

Hon. Robert Rogers was the only member of the government designed to listen to the arraignment of the New Brunswick Liberals and he was put forward to give the answer. In brief, he declared that, owing to the fact that the Grand Trunk Pacific had decided not to take over the National Transcontinental, the government did not now consider it necessary to build the line from Centreville to Grand Falls. As to the change of the route to St. John, he declared that it had all been done on the recommendations of Mr. Gutelius, and had been practically settled in about a week's time, and that the New Brunswick government had promptly acquiesced. The line is to end, apparently, at Westfield, as a junction point with the C.P.R.

MAGIC READ THE BAKING LABEL NO ALUM POWDER

R. At some time in the distant future, Mr. Rogers held out hope that the original project might be carried through by the dominion government. The provincial government is to do nothing more. Meanwhile the C. P. R. holds the whip hand. With regard to the proposed branch line from Fredericton connecting with the Maine Central, involving another expenditure of a million and a half, the province is apparently to be also saddled with the cost of this.

Mr. Carvell effectively demonstrated that this branch was absolutely unnecessary and would mean another millstone around the neck of the province. It was being put through merely to gratify a whim of Mr. Gutelius.

A Bad Snow Blockade

Last Thursday while no snow fell here, and the sun shone clear all day, there was general throughout the province and Nova Scotia one of the worst storms in years. Even within a few miles of Hartland trains were stalled and the first indication of a snowfall was when the express came in from the south heavily snow-laden.

The Valley railway suffered severely. A double-header train went off the track at Centreville and another train was derailed at Meductic. An attempt was made to break the blockade on Saturday but the effort culminated in a serious wreck at Bull's creek, a few miles below Woodstock. A plow and two engines were badly smashed and an engine and a fireman, somewhat injured, escaped death as by a miracle. There was no through train on the Valley road from Thursday until Monday.

GIVE "SYRUP OF FIGS" TO CONSTIPATED CHILD

Delicious "Fruit Laxative" can't harm tender little stomach, liver and bowels.

Look at the tongue, mother! If coated, your little one's stomach, liver and bowels need cleansing. "Syrup of Figs" is a natural, healthy, and safe laxative. When peevish, cross, restless, doesn't sleep, eat or act naturally, or is feverish, stomach, bowels, or liver bad; has sore throat, diarrhea, rashes, or cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the food, constipated waste, undigested food, and sour bile gently move out of the little bowels without pain, and you have a well, happy, child again. Ask your druggist for a 5-cent bottle of "California Syrup of Figs," which contains full directions for babies, children of all ages and for grownups.

PERSONAL AUTOMOBILE TALKS

Number II

Why should I order my FORD at once?

Up to Friday, March 10, the Ford Motor Co. of Canada had made and shipped 144 more FORD automobiles than they had shipped all the season of 1915. Notwithstanding this, they are 10,000 cars behind with dealers' orders. My own shipments are a month late coming, and before I get more cars the 5,000 Fords burned on the Matatua will have to be replaced.

If you order your FORD now you will have reason to be glad when the season opens.

Presto-Lite Tires

Letter from Sergt. Sipprell in Montreal

Dear Editor: If you have space to spare in your newsy paper kindly insert a few lines to let my friends know that I am enjoying city life very well indeed, and so far am very much pleased with the special course in physical training and bayonet fighting by authorized instructors just recently out from Aldershot, Eng.

The course is to stretch over a period of three weeks and after the expiration of that time I shall expect to join my unit again and instruct in what I have learned while here.

Life in Montreal goes along as usual and it is surprising to me to notice how few are wearing the khaki here as compared to large numbers of healthy looking, able-bodied men who are still clad in those "detestable civilian rags." Of course this phrase does not justly apply to every man wearing plain clothes, but it applies to a great number of young men in particular here in the city. Just recently some khaki lads (including myself) were riding upon a street car when one of the fellows offered his seat to a woman. She declined and a young man, who would have looked fine in khaki, was just about to slip down into the seat when I blocked the way. I told my soldier friend that no civilian of recruiting age and physically fit was going to occupy the seat he had vacated for a woman, as long as I was around.

Nor would I give my seat up to a civilian who did not have gumption enough to don the uniform and to be glad to serve in this great conflict that is being waged that right and righteousness might not be trodden down and finally blotted out.

Recruits seem to be coming forward rather slowly here, and various forms of printed matter is being freely distributed by the 148th Batt. here in the city. Perhaps the most novel scheme that has been brought before the public gaze is the one having attached to it a small mirror with words like these alongside "The 148th Batt. wants this man to enlist." It is to be proven yet whether this rare device will be the means of getting more recruits or not, but it seems to me that it must be awfully suggestive to many who will pose before the mirror before they realize they are going to see their own reflection in the glass.

There are upwards of eighty N. C. O.s taking the same course as myself and a finer bunch of fellows I never saw. They are from the Maritime Provinces and different parts of Ontario and Quebec.

I am of firm belief that when these splendid fellows go across to engage the enemy, with the large numbers of trained Canadian soldiers that will go along with them, that the grief of the Kaiser will be much greater than it is at the present time and he may well try and console his "slave subjects" by sending them messages saying "their sorrows are being shared by himself." I sincerely trust that that "faker Kaiser" may live to see the day

when he shall drink to the very dregs of that bitter cup "for the whole world's domination" and also that spirit of militarism which he has so cruelly contested for.

Sergt. H. A. Sipprell.

An Over-Shadowing News Feature

T. J. Carter's harangue against prohibition, delivered in the Legislature a few days ago, and specially reported by himself, occupies fifteen columns of space in the last issue of the Victoria County News. It is noticeable that while the News was able to find space for Mr. Carter's speech, it entirely ignored the Government announcement that the Valley Railway will not be extended beyond Centreville. One would almost think that the people of Victoria County would much prefer the Valley Railway to Mr. Carter's views on the temperance question.—Mail.

10 CENT "CASCARETS" IF BILIOUS OR COSTIVE

For Sick Headache, Sour Stomach, Sluggish Liver and Bowels—They work while you sleep.

Furred Tongue, Bad Taste, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill-barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret tonight will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months.

WILL WE EVER WALK ON AIR?

Train Of Thought Inspired By A Letter About "Fruit-A-Tives"

Mrs. D. McLean

Orillia, Ont., Nov. 28th, 1914.
For over two years, I was troubled with Constipation, Drowsiness, Lack of Appetite and Headaches. I tried several medicines, but got no results and my Headaches became more severe. One day I saw your sign which read "Fruit-A-Tives make you feel like walking on air." This appealed to me, so I decided to try a box. In a very short time, I began to feel better, and now I feel fine. Now I have a good appetite, relief everything I eat, and the Headaches are gone entirely. I cannot say too much for "Fruit-A-Tives," and recommend this pleasant fruit medicine to all my friends.

The Year of the Deep Snow

A correspondent of the Fort Fairfield Review, writing from Caribou, says: "The snow is deep but it is a mild March for this arctic clime, for I have known it for 38 years. In 1887 the snow was seven and eight feet deep, clear to the level of the old pine stumps. This was a record-breaker, which was unknown to us before or since, although a short time after one winter it was six feet deep for a short time. In 1860 it came on in September, before the ground froze, on a piece of uncut oats here, and never went off until May."

"Granny" Chamberlain

Everybody's friend when they have coughs and colds and their children have croup and whooping cough. Most everyone knows me. I have been going from home to home for nearly fifty years—always welcome, too, for I never fail in their hour of need.

I have helped young mothers whose babies were choking with croup, and been the comfort of parents whose children tramp to school through the wet winter weather. Many a cold and attack of bronchitis I have warded off, and thousands I have helped through the anxious moments of whooping cough. I have come to the aid of mothers and fathers when they had colds and influenza, and have been a relief to old folks suffering from bronchitis and asthma.

I have had a most varied experience; I go everywhere—among the rich and the poor in cities and the country. Now don't forget "Granny" Chamberlain! You will see me often now, for I am going to tell you of my experience and what can be done in your home with

The Joy of Good Health Is Now Experienced

Nervousness, Dizzy Spells and Sleeplessness Are Now a Thing of the Past.

This is a cheerful letter from Mrs. Peacock, and it should bring joy to the heart of many a reader of this paper. Dizzy spells and sleeplessness are symptoms of exhausted nerves, and are the bugbear of many women, who do not know just what treatment to use.

You can read Mrs. Peacock's letter and take courage, for she has proven that Dr. Chase's Nerve Food is a complete cure for these troubles. So pleased was she with the results obtained that she wants other women to know about this food cure.

Mrs. Thomas Peacock, 23 Flawatha street, St. Thomas, Ont., and whose

husband is conductor on the Wabash Railway, writes:—"I was quite run down in health, was very nervous, did not sleep well, and had frequent dizzy spells. Believing this to be the result of an exhausted nervous system I began using Dr. Chase's Nerve Food, and can say that this medicine did me a world of good. It entirely freed me of the symptoms stated above, built up my health generally, so that to-day I feel that I am quite well again."

In a more recent letter Mrs. Peacock writes:—"Dr. Chase's Nerve Food has done me a world of good, and I would be pleased to tell everybody so."

In nearly every issue of this paper you will find letters about Dr. Chase's medicine. If this one does not describe your case watch for others or write to us. Dr. Chase's Nerve Food, 50c a box, 6 for \$2.50, all dealers, or Edmondson, Bates & Co., Limited, Toronto.
