No 33] SAINT ANDREWS, N. B., WEDNESDAY, AUGUST 13, 1886. [Vol. 23

One Week later from Europe!

New York, Aug. 5
The Atlantic arrived last night. The Eng-
lish news is unimportant. Parliament would
adjourn about the 30th.
From Spain there are contradictory reports,
but it appears the insurrection had been put
down in Madrid with the loss of two hundred
killed. In other parts of the country the insur-
gents are making head way.
Money.—The London Money Market was
unchanged.
Breadstuffs were generally firm; the better
grades of flour exhibit a slight improvement,
but lower grades had a declining tendency.
In wheat, the better grades had advanced one
penny, while other descriptions were about
two pence per bushel lower. Corn was firm
but transactions small. Other markets un-
changed.
The weather was unsettled.

Effects of Poverty on the Domestic Affections.

The most delicate sentiments find much to
chill them in the abodes of indigence, a fam-
ily crowded into a single and often narrow
apartment, which must answer at once, the
ends of parlour, kitchen, bed room, nursery,
and hospital, must, without great energy and
self-respect, want neatness, order, and com-
fort. Its members are perpetually exposed to
annoying petty interferences. The decen-
cies of life can with difficulty be observed.
Woman, a drudge and in dirt, loses her at-
tractions. The young grow up without the
modest reserve and delicacy of feeling, in
which purity finds so much of its defence.
Coarseness of manners and language, too sure
a consequence of a mode of life which al-
lows no seclusion, becomes the habit almost
of childhood, and hardens the mind for vi-
cious intercourse in future years. The want
of a neat, orderly home, is among the chief
evils of the poor. Crowded in filth, they
cease to respect one another. The poor
man's table, strewn with broken food, and
seldom approached with courtesy and self-
respect, serves too often to nourish only a
selfish animal life, and to bring the partakers
of it still nearer to the brute. We speak
not of what is necessary and universal for po-
verty, under sanctifying influences, may find
a heaven in its narrow home; but we speak
of tendencies which are strong, and which only
a strong religious and moral influence can
overcome.

A good story is told of an officer in the
American army, during the war of 1812-14,
who was, and is still, more accustomed to the
use of the sword than the pen. While sta-
tioned on the Lake frontier, two of his sol-
diers, brothers, by the name of Kennedy,
and usually called Kennedy, deserted.
The officer of whom we are speaking, wrote an
order, and issued it to a subaltern, to take a
file of men and proceed to a place named,
and take the two Kennedys. The order was
peremptory, and not to be trifled with. The
officer looked at his instructions, and prepared
to obey them, but he remarked he did not be-
lieve he could take more than one of the pro-
vinces without a reinforcement!

[This story smacks strongly of being made
up of a trifle of Yankee bragadoocio.]

One open nail hole in a sheet of copper
upon a vessel's bottom, will allow the worm
access to ruin its work of destruction. All
kinds of wood used in shipbuilding are at-
tacked by it. To secure the bottoms of ships
from the salt water worm, and from coral de-
posits, Mr. Jarvis recommends putting three
coats of white zinc paint on the dry bottom
of the vessel, then copper them; and to make
the whole invulnerable put three more coats
of white zinc paint upon the outer surface of
the copper. To preserve piles, drive them
with the bark on. There is no danger while
the bark remains. The barnacle on piles
does no injury. Charring is excellent, pro-
vided the fissures are well filled with hot
coal tar, or zinc paint, which will be found
excellent to keep the shell fish from the wood
where piles may have the bark broken off
before being driven.

THE COMMANDER IN CHIEF.—The Morn-
ing Post says:—"We are enabled to state
that her Majesty has appointed Lieut. Gen-
eral, his Royal Highness the Duke of Cam-
bridge to be Commander in Chief of the army
in the room of Viscount Hardinge, whose
state of health is such as to have induced him
to resign."
The Daily News, in its leading article
says:—"The attack of paralysis which Lord
Hardinge was seized with at Aldershot has
not seriously impaired his mental faculties,
and is so little of a mortal character that there
is every reason to hope the gallant officer's
life may for some years be spared to his fam-
ily and friends."

KILLING MADE EASY, should be the title of

Judge Crawford's charge to the jury on the
first trial of the Herbert case. The sub-
stance of the doctrine laid down from the
bench, is that a man may provoke a quarrel
and then, if he thinks he is in danger of the
antagonist whom he has forced into the fight,
whether he be really in danger or not, he is
justified in killing him.—On this ground, if
Mr. Sumner had not been stung by the first
blow of Mr. Brooks, but had risen in self de-
fence, and Mr. Brooks had shot him, as he
intimates he should have done, it would
have been justifiable homicide.—[Providence
Journal.]

HAZEL-EYED GIRLS.—Major Noah said
"a hazel eye inspires at first a Platonic sen-
timent, which gradually but surely expands
into love, as securely founded as the Rock of
Gibraltar. A woman with a hazel eye
never elopes from her husband, never chafes
scandal, never sacrifices her husband's com-
fort to her own, never finds fault, never talks
too much or too little, always is an entertain-
ing, intellectual, agreeable and lovely crea-
ture." "We never knew," says a brother
editor, "but one uninteresting or unamiable
woman with a hazel eye, and she had a nose
which looked, as the Yankee says, like the
little end of nothing whittled down to a point.
The gray is the sign of shrewdness and tal-
ent; great thinkers and captains have it. In
women it indicates a better head than heart.
The dark hazel is noble in its significance, as
well as in its beauty. The blue is amiable,
but may be feeble; the black, take care!"

Lawyers Nonsuited.

Not far from the city of Montgomery in
Alabama, on one of the stage roads running
from the city, lives a jolly landlord by the
name of Ford. In fair weather or foul, in
hard times or soft, Ford would have his joke.
It was a bitter stormy night or rather morn-
ing, about two hours before daybreak, he was
aroused from his slumbers by loud shouting
and knocks at his door. He turned out, but
sorely against his will, and demanded what
was the matter. It was dark as tar and he
could see no one, he cried out, who's there?
Burdur, Yancy, and Elmore, from Mont-
gomery, was the answer, on our way to Tus-
caloosa to attend court. We are benighted,
and want to stay all night.

Very sorry I can't accommodate you so
far, gentlemen. Do anything to oblige you,
but that's impossible.

The lawyers for they were three of the
smartest in the State, and all ready to drop
down with fatigue, had a brief consultation,
and then, as they could do no better and were
too tired to go another step, they asked,
Well, can you stable our horses, and give us
chairs and a good fire till morning?

Oh, yes, cin do that gentlemen.
Our learned and legal friends were soon dry-
ing their wet clothes by a bright fire, and they
composed themselves to pass the few re-
maining hours in their chairs dozing and then
sweating a word or two of impatience as they
waited till daylight did appear.

The longest night has a morning, and at
last the sun came along, and then in due time
a good breakfast made its appearance; but
to the surprise of the lawyers, who thought
the house was crowded with guests, none but
themselves sat down to partake.

Why Ford, I thought your house was so
full you couldn't give us a bed last night!

I didn't say so, Ford replied.

You didn't? what in the name of thunder
did you say?

You asked me to let you stay here all
night, and I said that would be impossible,
for the night was nigh on to two thirds gone
when you came. If you only wanted beds,
why on earth didn't you say so?

The lawyers had to give it up. Three of
them on one side, and the landlord alone had
beat them all.

According to the statement of Marshal
O'Donnell, the war minister of Spain, the
recent disturbances at Valladolid, Valencia,
and other towns, may be traced to the influ-
ence of Socialist doctrines. It is said that
these ideas, which strike at the root of all
respect for property, are very prevalent in
Spain, and that the cry of "Death to the
Rich!" was frequently heard in the mouths
of the insurgents of Valladolid. Voe to a
country where treason to society of this de-
scription finds a resting place amongst the
people.

The English Revenue Returns for the
year and quarter just ended have been pub-
lished. In the twelve months ending June
30, the increase has been four millions, and
of this increase three millions and a half are
due to the income tax. In the Excise there
has been a decrease of £300,000; in the
Customs an increase of £650,000. The gen-
eral result may be briefly dismissed with this
remark, that the war has had little or no
disturbing power on the national finances.
The Corporation of London have present-
ed the freedom of the City to General Sir

W. F. Williams, of Kars, Bart. KCB. with
a sword of the value of 100 guineas.

A letter from Paris asserts, that should the
King of Naples transmit an unfavourable
reply to the joint remonstrance of France and
Great Britain, a combined fleet will immedi-
ately appear before his Majesty's capital.

ANNIE LAURIE.

Maxwellton's braes are bonnie,
Where early fa's the dew,
And it's there that Annie Laurie
Gie'd me her promise true;
Which ne'er forgot will be;
For bonnie Annie Laurie
I'd lay me dune and dee.

Her brow is like the snow drift—
Her throat is like the swan—
Her face it is the fairest
That e'er the sun shone on—
That e'er the sun shone on;
And dark blue is her e'e;
And for bonnie Annie Laurie
I'd lay me dune and dee.

Like dew on the gowan lying,
Is the fa' o' her fairy feet;
And like winds in the summer sighing
Her voice is low and sweet;
Her voice is low and sweet;
And she is a' the world to me,
And for bonnie Annie Laurie
I'd lay me dune and dee.

ANECDOTE OF SHERIDAN.

Holland's theatre, the handsomest in the
kingdom, was destined to a short existence,
being totally burnt down on the night of Feb.
24, 1866. When it had stood only fifteen
years. The following authentic anecdote in
connection with the building, has not before,
as we believe, appeared in print. Holland
could never obtain a settlement, or an inter-
view on the subject, with Sheridan. He
hunted him for weeks and months at his
own house, at the theatre, at his usual re-
sorts, but he was nowhere to be seen. At
last he tracked him to the stage-door, rushed
in spite of the opposition of the bulky porters,
and found the manager on the stage convers-
ing with a party of gentlemen who he had
invited, to show them the theatre. Sheridan
saw Holland approaching, and knowing that
escape was then impossible, put a bold face
on the matter.

Ah! my dear fellow!" exclaimed he, "you
are the very man I wanted to see, you have
come most apropos. I am truly sorry you
have had the trouble of calling on me so
often, but now we are met, in a few moments
I shall be at liberty; we will then go into
my room together and settle our affairs.—
But first, you must decide an important
question here. Some of these gentlemen say
there are complaints, and loud ones, that the
transmission of sound is defective in your
beautiful theatre—that, in fact, the galleries
cannot hear at all—and that is the reason
they have become so noisy of late."

"Sound defective? not hear!" reiterated
the astonished architect, turning pale and
almost staggering back; "why, it is the
most perfect building for sound that ever was
erected, I'd stake my reputation on it, the
complaint is most groundless."
"So I say," retorted Sheridan; "but now
we'll bring the question to issue definitely,
and then have a paragraph or two in the
papers. Do you, Holland, go and place
yourself at the upper gallery, while I stand
here on the stage and talk to you."

"Certainly," said Holland, "with the
greatest pleasure."

A lantern was provided with a trusty guide,
and away went the architect through a la-
byrinth of dark and winding passages, almost
a day's journey, until he reached his distant
and elevated post.

"Now, Mr. Holland," cried Sheridan,
"are you there and ready?"
"Yes," was the immediate answer.

"Can you hear me?"

"Perfectly, perfectly, Mr. Sheridan."

"Then I wish you a very good morning!"

So saying Sheridan disappeared, and was
two or three miles off before Holland could
descend. Another long interval occurred
before he was able to chase the fugitive to his
lair.

AN INGENUOUS RIDDLE.—"It was done
when it was begun; it was done when it
was half done; and yet it wasn't done when
it was finished. Now what was it? O!
course you can't guess. Will this do?"

Timothy Johnston courts Susanah
Dunn." It was Dunn when it was begun;
it was Dunn when it was half done; and yet
it wasn't Dunn when it was done—for it was
Johnston.

An honest Hibernian called at a news-
paper office with an advertisement, the price
of which, he was told, would be 2s. 6d. for

the first time, and 1s. for the second. "Faith,
then," said he, "I'll have it in the second
time, and not the first at all."

JAPAN-PEA.—Dr. Wilson Dennis, of Ap-
plebachville, Bucks County, Pa.—writing to
a neighboring paper regarding the Japan
pea, says—

Among the different varieties of seed I have
recently received from the Patent office, was a
new species of pea called the Japan pea, which
created considerable interest among cultiva-
tors here, on account of its prolific qualities and
the ease with which it may be cultivated. As
an instance of its great productiveness, I may
mention the case of a single plant cultivated in
this neighborhood which had upon its branches
over four hundred pods, the larger portion of
which contained from 2 to 3 peas, mostly
three, yielding about one thousand per cent.
This from a single pea, in a single year's
growth, is something worthy of notice. If
each pea possessed the qualities of reproduc-
tion in the same degree we should have in the
second year's growth, nearly half a million of
peas. I will leave it to others (who are per-
haps better skilled) to estimate the number of
bushels this would make, and what number
of pounds its produce, at sixty pounds to a
bushel, the weight of peas and wheat to the
bushel, being nearly identical.

This new and rare plant is found well ad-
apted to our soil and climate, and yields
beautifully, whether planted on rich or poor
soil. It grows from two and a half to three
and a half feet high, putting forth long bran-
ches, soft and woolly like a shrub. The
leaves are large, resembling those of an ordi-
nary bean, growing in sets of three, with long
quadrangular arms. The flowers, which are
small and white, but rather inconspicuous,
grow in thick clusters, nearly covering the
branches. These are succeeded by downy
pods, from an inch to an inch and a half in
length, each containing from two to three
oval peas. When boiled, the pea is very nu-
tritious in its qualities, and makes an excel-
lent food for man or beast. It should be
planted about the usual time for planting
corn, in rows from two and a half to three
feet apart, one or two in a hill, and cultivated
in the same manner. It requires a long sea-
son to ripen, but matures its seeds where
Indian corn can be grown.

The plant was obtained in 1851 from some
Japanese sailors, who were wrecked on a
coral island in the Pacific and saved by some
American seamen. The crew of the wreck-
ed vessel had supported themselves for a
number of days solely on these peas. One
of the sailors obtained some and took them to
Oregon or California, thence to Ohio, from
which they were disseminated through the
Patent office over the Union. Should any
of the readers of this paper wish to make a
trial of the above pea, I will forward a few
(gratis) as far as they will go, and should be
unable to supply all this spring, I will try to
supply the others next fall. A letter en-
closing a pre paid envelope superscribed with the
applicant's post office address, will insure a
return of peas."

AGRICULTURAL.

ASHES IN AGRICULTURE.—Wood ashes is
one of the most important fertilizers.—It is
easily obtained in any quantity, and at little
or no expense. Take them carefully away
from your hearths and save until your corn
and potatoes have risen two or three inches
from the ground, and then take a basket on
your arm, and from it a small handful of ashes
and cast them at the root of your plants and
hoe them soon, so as to cover over the ashes.

Ashes contain all the inorganic sub-
stance of the wood or plants which are consumed;
part of these are soluble and part insoluble.—
But the soluble substances, mixed with water,
will dissolve the insoluble. This potash will
dissolve silica and prepare it for glazing the
stalks of corn, wheat, &c.

Not a particle of these ashes should go to waste.
Leached ashes has parted with most of its
potash, but still retains its phosphoric acid
and most of its lime.

Ashes neutralize acids in the soil; they
warm cold, messy, wet places; they are very
destructive to insects; they assist to break
down and dissolve the coarse fibres and stalks
in compost heaps; render hard clayey soils
open, loamy and fertile.

The potash, so material to most crops, can
be obtained here only from ashes. In granite
regions potash is obtained from the dissolu-
tion of the felspar, but we have none in this
region of country. Wheat contains a large
proportion of potash. Fifty-nine per cent.
of the ash of corn is potash; one half of the
earthy portion of Irish potatoes is pure
potash.

Save your ashes, therefore, as carefully as
you do your five and ten cent pieces, apply
them to your crops with care, and you will
find them of a rich deep green color while
growing, and heavy with nutriment at har-
vest.—[Ancient City.]

A RAFT INFERED!—A modern traveller in
Germany gives a description of the immense
rafts which occasionally descend the Rhine.

LAW RESPECTING NEWSPAPERS.

Subscribers who do not give express notice
to the contrary, are considered as
wishing to continue their subscriptions.

If Subscribers order the discontinuance
of their papers, the publisher may continue
to send them till all arrearages are paid.
If Subscribers neglect or refuse to take
their papers from the office to which they
are directed, they are held responsible till
they have settled their Bill, and ordered
their papers to be discontinued.

If Subscribers remove to other places
without informing the publisher, and the
paper is sent to the former direction, they
are held responsible.

He states it is nine hundred feet long and two
hundred wide on which was built a village for
accommodation of the boatmen and the pas-
sengers, consisting of one thousand persons.
There were cattle, hogs, and other animals
on board—and also a shop where the passen-
gers could be supplied with every necessary
article.

DEEDING THE ST. LAWRENCE.—The
work of deepening the channel of the St.
Lawrence between Quebec and Montreal is
making satisfactory progress. The principal
field of excavation is Lake St. Peter, where
a powerful dredging machine is at work,
bringing up the hard clay from the bottom of
the lake at the rate of fifteen hundred to two
thousand cubic yards daily. Last year two
million of cubic yards were thus excav-
ated, lifted into bateaux, and transport-
ed to the flats. When this work is com-
pleted, the trade of Montreal and Quebec,
will reap a decided benefit. The Montreal
Transcript says, that vessels of upwards of
one thousand tons burthen can already come
to that port deeply loaded, and all that is re-
quired to make Montreal a port easy of access
at all times to ships adapted to the convey-
ance of western produce is a channel of 20
feet deep throughout, when the water is at
the lowest. The channel is already 16 1/2
feet deep.—[State of Maine.]

PRETTY GOOD.—As the brig Pinta of Ellis
worth lay at South Boston bridge on Friday
afternoon, her forlorn condition (as reported
under marine head in our last) attracted a
large crowd of idlers, most of whom were
Irishmen. "Cap. Harden and his crew had
been hard at work all day trying to right
their vessel. They had just rigged a block
and tackle from the mast of the brig to a
neighboring wharf, and Cap. H. was endeav-
oring to coax the bystanders to give him a
pull. One of the Irishmen said, "Arrah,
now, and why didn't ye save some of the tar
yer put on the priest in Ellsworth, and put
it on your vessel, and ye would not be in
the state yer in."—[Argus.]

RELICS OF GIANTS.—The Burlington
(Iowa) State Gazette says, that while some
workmen were engaged in excavating for the
cellar of Governor Grimes' new building on
the corner of Main and Valley street, they
came upon an archway, some ten feet
square, which, on being opened, was found
to contain eight human skeletons, of gigantic
proportions. The walls of the vault were
about fourteen inches thick, well laid up with
cement or indurated mortar. The vault is
about six feet deep from the base to the
arch. The skeletons are in a good state of
preservation, and we venture to say are the
largest human remains ever found, being a
little over eight feet long.

NAPOLEON III.—When the Emperor Na-
poleon III. undertook his last trip to Angres,
he took particular pains to inquire which of
the inundated districts were inhabited by
the most violent of his opponents, and forth-
with betook himself to the place indicated,
attended only by the Bishop and Prefect of
the Department. Here he mingled familiarly
with men whom he knew were thirsting
for his blood, and when he got into a boat to
visit the scene of ruin, he selected his boat-
men from among the most avowed and fanat-
ical of his Republican enemies. The utter
contempt of danger thus manifested, produc-
ed a complete reaction in the minds of peo-
ple; and persons who had been his bitterest
opponents ever since the inauguration of his
dynasty, were the first to rent the air with
the shout of *Vive l'Empereur*.

SHOCKING ACCIDENT.—We learn by tele-
graph from Digby, that a young woman
named Pappoon, in Lower Granville, on
Monday last, while assisting her husband in
stowing hay, fell from the mow upon the
pitchfork in his hand, which penetrated her
heart, causing instant death!—She had been
married only a fortnight previous.—[Yar-
mouth Herald.]

Smith and Brown running opposite ways
round a corner struck each other.

Oh dear! said Smith, how you make my
head ring.

That's a sign it's hollow, said B.

No! yours ring, said Smith.

No.

Then that's a sign it's cracked, replied his
friend.

I find, Dick, that you are in the habit of
taking my best jokes, and passing them off as
your own. Do you call that gentlemanly
conduct.

To be sure I do, Tom. A true gentleman
will always take a joke from a friend."

One of the best rules in conversation is
never to say a thing which any of the com-
pany can reasonably wish we had rather left
unsaid; nor can there be any well more
contrary to the ends for which people meet
together, than to put unsatisfied with each
other or themselves.

European Intelligence.

ARRIVAL OF THE STEAMSHIP ASIA.

New York, Aug. 8th.
The steamship Asia arrived last night bringing Liverpool dates to the 26th July. The insurrection in Spain was mostly subdued. In Barcelona the people fought desperately for three days, losing 1200 killed when the city submitted to the Royal troops. The London Morning Advertiser of Saturday says that the Central American question has been settled on the basis of ceding the Bay Island to Honduras, with the provision that that power shall always retain them.
Cotton unchanged. Beadstuffs dull; good Flour 9d to 1s decline; lower grades available. Wheat and Corn 6d lower. The weather was fine for agriculture. No change in Revisions. Console 95½ to 95¾.

EUROPEAN ITEMS.

The large failures alluded to in the last steamer news were—John Munns, Cotton Broker, Liverpool; Jos. Wright & Co, Spinners, Stockport; Lane & Co, Merchants, Manchester; Baxter & Co, and four other houses. The liabilities were all large, and the assets small.

A serious riot occurred at Aldershot camp on the nights of the 17th and 18th, between the troops and a party of the first regiment (the foreign legion); two Germans were killed; and several soldiers wounded on both sides. The immediate cause of the outbreak was not known, but for some time there had been an alarming state of excitement.

When the British troops evacuated Kertch the other day, the Russian soldiers fraternised cordially with them.

ITALY.—Serious disturbances had broken out at Cassena, in the Papal States, and also at Naples. A Republican conspiracy had been detected in the two Sicilies. It is said the Russian Ambassador at Rome has arranged all difficulties with the Holy See, relative to the nomination of Bishops for Poland.

SPAIN.—Narvaez now in Exile in France is expected to return to Spain to take advantage of the present state of affairs.

Telegraphic communication between Paris and Madrid ceased on the 17th.

SUB-MARINE PHENOMENA.—The Cleveland Herald publishes a letter from Harrington the diver employed to recover the safe of the Atlantic which contains some facts of interest. It will be recollected that a marvellous account of what the diver saw on his sub-marine excursion was published in many of the papers. We stamped the account at the time as "Munchausenish," and are not surprised to find that our surmise was correct.

The Atlantic lies careened, her larboard side being 175 feet, and the water on her starboard 160 feet deep. The safe was about 157 ft. from the surface. Upon her deck Mr. H. found a light sediment of three or four inches depth. He could see nothing, and encountered nothing but the woodwork chains glass and chest. "The water was very chilly and Mr. H.'s hands were so numb that he could not by mere feeling distinguish glass from wood. It was only by the former's breaking that he knew its material. He thinks his strength when below not more than one-tenth that he has when in open air. He suffered but little from pressure except two or three times, when such was the rush of blood to the head, that as he says, he saw bright flashes in his helmet, like electric sparks."

RAILWAY PROGRESS.—At last we are enabled to announce that Contracts have been accepted by the Chief Engineer, and Commissioner of the European and North American Railway for the completion of the Line from Shediac to this place.

A number of tenders had been handed in three of which from among the lowest, were approved of as follows, viz: First Section commencing at Point de Chene, thence to the 9 mile stake, including the Scadook Viaduct, by Messrs. Walker, Rankin & Walker, of Canada.

Second or Middle Section, by Mr. Wm. Stevens, formerly Manager of the late firm of Messrs. James Sykes & Co.

Third Section, including Hall's Creek Bridge, by Mr. John Brookfield, the late well-known Contractor of the St. Andrews and Quebec Railroad.

These Contractors we believe are men of experience and high standing as Railway Builders, and we have been assured that it is the determination to proceed with the work forthwith, and this being the case we hope now to see matters progress rapidly to a conclusion of which we think there is at length a reasonable prospect.—Westmorland Times.

English and French Rifles.—A shooting match recently came off near Paris, between Capt. Wellington Guernsey, lately returned from Turkey, and Lieut. Arnaud, for a purse of five hundred francs, to be decided by the shooting of twenty-five pigeons, with single bullets, at a distance of one hundred and fifty yards. Lieut. Arnaud used one of Minie's improved rifles and killed eighteen birds, out of the twenty five; Captain Guernsey used one of the English military rifles, which are now used in the British army, and killed twenty four out of twenty five, only missing the last shot.

DROWNED.—On the afternoon of Friday last while bathing in the River opposite the residence of the late Colonel Shore—Frederick William eldest son of James Robb, Esq. M.D., Professor King's College, Mass., or Robb was in the 11th year of his age, and in addition to his being a universal fa-

vourite was a youth of much promise. We most sincerely sympathise with the bereaved parents in this distressing visitation.

AN ANTAGONIST FOR BROOKS.—An old lady, Mrs. Elizabeth Mapes, of Concord, Mass., offers to meet Bully Brooks on the same terms as he met Mr. Sumner. He must be seated with a desk before him, so that he cannot rise, and she will approach him with a broom-handle. If Brooks accepts, he is to address Mrs. Mapes immediately. He dare not fight Burlingame; now let us see if he has courage enough to encounter Mrs. Mapes.

THE REV. MR. CHURCHILL.—This gentleman, after a residence of four years in this city, as pastor of the Wesleyan Church, departed for Halifax, with his family on Tuesday last, in accordance with his appointment as Book Steward to the Conference, and Chairman of the Halifax district. No minister of religion has ever officiated in Fredericton with greater zeal and more commanding talents than those of Mr. Churchill, and none ever received, not only from his own congregation, but from all other denominations, a larger share of Christian consideration and esteem. It was impossible to know without respecting him, for the spirit of his Divine Master appeared on all occasions to support him in his work and endear him to the hearts of the people. We believe there are many who will join us in the opinion that it would be hard to find the Christian Minister and the English Gentleman better exemplified than in the life and manners of Mr. Churchill.—[Fredericton Reporter.

MIRAGE ON LAKE ONTARIO.—The Lockport Journal says: "A beautiful mirage was witnessed by the passengers on board the steamer Bay State, on her recent trip from Youngstown to Oswego, when nearly opposite Wilson, on Lake Ontario. It occurred just as the sun was setting, at which time some dozen vessels were seen reflected on the horizon in an inverted position, with a distinctness and vividness truly surprising. The atmosphere was overcast with a thick haze, such as precedes a storm, and of a color favorable to represent upon the darkened background vividly the full outlines of the rigging, sails, &c., as perfect as if the ships themselves were actually transferred to the aerial canvass. The unusual phenomena lasted until darkness put an end to the scene."

APPALLING!—The Ohio Gazette contains the following letter respecting the murder of Laban Parker from Cleveland, Ohio, at Blue Spring, in Kansas. Three persons append their names to the letter and say:—"Yesterday morning we were going to Tecumseh, but when about eleven miles from that place, we were appalled by the sight of the body of a murdered man tied firmly to a tree by the roadside. He was tied with his back to the tree, with his hands and feet partially around it. He had been shot just above the left eye; with, as we suppose, a rifle ball. A huge hunting knife was sticking in his breast. It had been driven clear through him and the point was two or three inches in the tree. He was evidently murdered yesterday or the day before. There was a roadstool tied to the knife-handle, on which the following inscription was written:—Let all those who are going to vote against slavery in Kansas, take warning!"

OUTRAGE AT CAPE MAY.—On Sunday afternoon an outrage occurred at the Mount Vernon Hotel, Cape May. Several young men were seated in a room, and one of them drinking wine. A waiter, Joshua Gibbs, who is said to be a very civil and inoffensive man, was passing below, when for mischief, a glass tumbler was thrown at him. He remarked that "the act was not that of a gentleman," and then made his way back to the hotel with the object of making complaint. At this one of the young men, the son of a highly respectable citizen of Washington, became excited, and hastened down stairs, armed with a pistol and a dirk. A collision took place, and the waiter was stabbed in the back. The wound is said to be about an inch deep and not dangerous. The father of the young man expressed himself as deeply pained by the occurrence, and proffered all the assistance and reparation in his power. The affair, however, was the theme of conversation throughout the evening, and the colored waiters generally were much incensed. When will the hot headed young men of this country learn to control themselves? And when will the cowardly practice of carrying deadly weapons be abolished. [Philadelphia Inquirer.]

The Explosion of the "Empire State".—The coroner's jury on those killed by this accident, have returned a Verdict to the effect, that there appears to have been the usual amount of water in the boiler at the time of the explosion, and no want of care or attention on the part of the engineers and fireman, and that therefore this accident is to be regarded as one of the unforeseen casualties incident to steamboat travel, and for which no persons can be held accountable.

REMARKABLE ESCAPE.—The Rochester, (N. Y.) Union, notices a remarkable escape on the Central Railroad, near Lockport.—A small boy, son of Mr. Richardson, was struck by the locomotive and thrown a distance of eighty five feet by actual measurement. The fireman said he first saw the child in the air some fifteen feet from the ground, and supposed it was a dog. Though at first insensible, the child had nearly recovered.

"Go where Glory waits there."—We are gratified to learn, that our fellow towns-

man, Mr. Frederick H. Ruel, Lieut. Royal Marines, has returned to Chatham Barracks, where he with his companions "the Jolies" of the saucy Agamemnon, were greeted with a delighted populace. Mr. Ruel has "toughed" it through the whole Crimean campaign, and now wears on his breast the well earned honorary medal with two clasps, for Balaklava, and for Inkerman. "Honor to the brave."—[Chronicle.

THE ROCK ISLANDER says that one of the Mormon women who was in the company of the late crowd which has passed through that town for Salt Lake, had no less than four husbands. She is an intelligent, pleasant looking individual. She contended that women had as good a right to have a number of husbands, as a man had to have as many wives as he wished, provided the men were all members of the Mormon Church.—[Boston Atlas.

BALTIMORE, Aug. 6.—The Baltimore up-train last night, run over a cow near Gray's Ferry, and the engine, baggage car and two passenger cars were thrown down an embankment and demolished.

A special train has been sent down to the scene of the disaster with several physicians on board. It was found that the only person severely hurt was A. Schuremann, canvasser for the Argus, whose spine is hurt, and who is internally injured; Josiah S. Ball, mail agent, is cut and bruised severely; John Fox fireman, had his thigh fractured, and was otherwise injured. The engineer escaped injury. There was between 300 and 400 passengers on the train.

To our Subscribers.—As we are about to purchase a supply of type, &c. for our Office, we respectfully request those indebted to us to pay the amounts of our bills without delay. Money may be sent by mail at our risk.

The Standard.

WEDNESDAY, AUG. 13, 1856.

The present Government have given evidence that they are resolved to carry on the Public Works in the Province with vigor.—The line of Railway from the Bend to Shediac has been let by Contract in three sections. The first to a Canadian firm, the second and third to two of the best men from the St. Andrews Railroad viz: Mr. Brookfield, one of the partners of the firm of J. Sykes & Co., contractors on the St. Andrews & Quebec R. R., and Mr. Stevens their foreman.—The opposition press however is not content, it keeps growling and grumbling in the most approved style, and complains that the Government do not intend to carry on the Railways provided for by the act. We do not believe that the former Government ever seriously intended to carry on all the Railways; and the present Administration; has more regard for their character as statesmen, and the welfare of the Province than to attempt to carry out so wild and visionary a scheme.

As one of the late Government's pet electioneering projects for a Railroad we need only instance the line from Fredericton to Woodstock, which we learn from those well acquainted with Railway construction would cost upwards of £15,000 per mile; and when in operation would not have sufficient traffic to pay the working expenses. In addition to which the Province would be taxed an enormous sum, for many years to pay for its construction.

A great hue and cry has been raised against the Cabinet for not filling up all the principal offices—but no allusion is made to the length of time which elapsed before the Fisher government filled up the Council even to seven members. Of this the opposition may rest assured, that when the appointments are made, competent men will fill the offices, and the Government will act constitutionally, and not select from the Upper Branch, as their predecessors did.

All that the Government requires is a fair field and no favor—if they find the business of the country cannot be carried on by them, without running the Province over head and ears in debt, they will resign the reins into other hands.

The Submarine Telegraph is now in successful operation between Newfoundland, Cape Breton, and Prince Edward's Island.—By the completion of this work, it has put at rest all doubts as to the laying of a cable from one point of land to another across the ocean. Newfoundland is now in connection by telegraph with the whole American continent; and when the new steamers which are to touch at Newfoundland commence running, English news may be received in America, in five or six days; and it is not improbable that before 1860—a continuous line of submarine telegraph may be in successful operation between Great Britain and this Continent.

The Hon. Joseph Howe, we understand, forwarded to England by the last steamer the copy of a pamphlet on the notorious Enlist-

ment business, which is to be printed and circulated in that country.

OBITUARY.

It is our melancholy duty this morning to record the sudden death of the Hon. HARRIS HATCH, which took place on Saturday last, 9th inst., in the 76th year of his age. While presiding at the Special Sessions on Friday, he was taken suddenly ill, and was conveyed to his residence. Medical aid was at hand, but all efforts to restore him proved unavailing; he continued to linger until 2 o'clock A. M., when his spirit returned to Him who gave it. Mr. Hatch while an infant, came to this country with his father one of the Loyalists, who was an officer in the British service during the American Revolution; he was educated at Windsor College, Nova Scotia; and for many years held a number of important offices in this County, of which he was one of the oldest and most respectable inhabitants—he was a member of the Legislative Council, President of the C. C. Bank, Judge of Probates, President of the Agricultural Society, and held other offices.

Mr. Hatch complained of debility since his return from Fredericton;—the heat and fatigue he underwent during the short Session, having overcome his usually robust constitution.

In common with the community, we sincerely sympathise with his amiable partner (who has been for some time in ill health,) in her affliction, and condole with her large and respectable family in their bereavement.

The United States' papers are busy discussing the relative merits of their favorite Candidates for the Presidency. From what we have seen, the main issue, the present election, is, slavery or no-slavery. Mr. Buchanan is the favorite with the slave holding States and the old line Democrats; while Col. Fremont is the universal favorite of the Northern and Western States, as he would be also of the Provinces had they a word to say, or a vote to cast on the subject.

Political feeling appears to have no bounds with our neighbors "across the lines;" they adopt the most loose style of abusing their prominent men (of course there are exceptions, but they are rare) when set up for office. The Republican party are more select in their language than the "black Democracy," as they are termed, and argue their case with much force and ability for Col. Fremont. A respectable Democrat puts the following question for Mr. Buchanan to answer. Alluding to the late brutal attack of Mr. Brooks upon Mr. Sumner in Congress, he says:—

"I want to see such vulgar conduct reprimanded, and I, as an old and true democrat of sixteen years' standing, as a late Pierce elector, would respectfully request Mr. Buchanan to make known his sentiments on Parliamentary cudgelings, and whether free and enlightened America is to relinquish the glorious emblem of the stars and stripes for emblems of clubs and sling shoes."

The Weather for the last fortnight, has been unpropitious for the haymakers, owing to the fog which has been a daily visitor, accompanied by occasional showers of rain. Large fields of grass were cut in this neighborhood some days ago, and owing to the weather were left in swarth, until in many instances they became discolored. For the last two days the weather was more favorable, and the haymakers are "making hay while the sun shines." Oats, barley, wheat and potatoes, promise a large yield.—The "potatoe rust" has made its appearance, but there is no apprehension of any serious damage, as it is confined to certain localities, which are but slightly touched.—Carrots, turnips and mangold wurzel, are abundant, of large size and excellent quality, a small field of about two acres, in the town plot, owned by Lethlan Donaldson, Esq., will compare favorably with a field of equal extent in any part of the Province, both as to quality and quantity, if it does not surpass it.

The French Loss in the Crimea.—The Paris Monitor publishes a complete list of the losses of the French army in the Russian war, showing a total of 62,492 men, of whom 56,805 were privates, 4,402 non-commissioned officers, and 1284 commissioned officers. This does not include the wounded. Even supposing this to be accurate, it is a fearful reckoning, and France has paid dearly for the glory won in the war; but the best information leads to the belief that the total is at least three times as great as that stated.

A SURE CURE FOR A FELON.—This we know will be gladly received by all our readers. When the soreness first commences, or even when far advanced, it can be relieved and entirely cured by holding the finger or part afflicted in Perry Davis' Pain Killer for half an hour. It has been thoroughly tested, and proves a never-failing remedy. A felon is a troublesome thing, and we would advise all so troubled to test the remedy.

ST. STEPHENS RURAL CEMETERY.—The last Patriot contains a brief notice of the grounds recently laid out for a Cemetery in the vicinity of St. Stephens; and concludes his remarks with the following merited tribute to the ability of our friend, WALTER M. BUCK, Esq.:

"We cannot close these brief remarks without saying a word in favour of Mr. Buck, a civil Engineer, of St. Andrews—that gentleman, we believe, laid out the grounds, and prepared plans and specifications of the same."

The St. Stephen Rural Cemetery Committee, we believe, as well as their Secretary, Mr. David Brown, are highly satisfied with the talent, taste, and ability displayed by Mr. Buck, whom they employed for the occasion.

A gentleman possessing such Engineering attainments, combined with exceedingly good taste in the profession, merits, we think, a much more extended sphere of usefulness than is to be found in the vicinity of St. Andrews. We may say this without any intention of penning a word disparagingly of our sister town."

Holloway's Ointment and Pills—an effectual cure for Hemorrhoids (commonly known as Piles.) Nearly half of the human race suffer with this distressing malady, unconscious that these celebrated remedies are a certain cure for it. Professor Holloway has received during the past year upwards of 1400 Testimonials from parties who have been cured by Holloway's Ointment and Pills. The delicate nature of the complaint prevents Professor Holloway from giving publicity to names, but their astonishing efficacy in this peculiar class of diseases render them invaluable to the patient who pines with suffering, unwilling to let the world know the amount of agony endured, to which these medicines afford almost immediate relief, and by persevering a lasting cure.

MARRIED.

At St. John, on the 7th inst. by the Rev. Charles Stewart, Mr. John Whelpley, of Carleton, to Miss Margaret Deborah Smyth, late of Geanville, N. S.

DIED.

At St. George, on the 30th July, Miss Eliza Andrews, eldest daughter of the late Eliza S. Andrews, Esq.

At St. John, on Saturday morning last, after a short illness, Charles S. Sweeney, aged 9 months, only child of Mr. Ross Woodrow, of that city.

At same place on Thursday morning, suddenly, William, infant son of Rev. Charles McKay, aged two months.

NOTICE.

THE Subscriber begs leave, most respectfully, to call the attention of the Inhabitants of St. Andrews and vicinity, to the fact, that he has opened SCHOOLS in that conveniently situated School-house of Mr. F. BRAY'S, lately occupied by Mr. GEMMELL, which is accessible to all, without respect to Sex or Denomination; and flatters himself (from former success and acknowledged aptitude in the art,) that he will never fail to discharge the duties incumbent on him, with impartiality and discretion, and thereby give general satisfaction to all who may favour him with their patronage. Terms moderate, viz:—

For Spelling, Reading or Writing, per quarter, per scholar,	0 5 0
" Arithmetic, English Grammar, or Geography,	7 6
" Book Keeping, Mensuration, Geometry, or Algebra,	10 0
" English Composition, French, Latin or Greek,	15 0
" Extra for Fuel,	7 6

JAMES PETERSON, Teacher.

St. Andrews, Aug. 13, 1856.

Crown Land Office.

July 31st, 1856.

THE Petitions of the undermentioned persons for Land under the Labour Act, (12 Vic. c. 4.) are, complied with, subject to the Regulations of 28th May, 1856, but no Commissioner under the said Act is to allow work to be done in payment for any unsurveyed Land, nor for any Land at present in the occupation of any other person. And the Commissioners are required in every instance to satisfy themselves that the representation which the applicant has made to Government, that he owns no land already, is correct.

CHARLOTTE.

Samuel Ash, Hugh M. Quade, Thomas Boyne, Charles Ash, Patrick Curran, Patrick M. Callum, Joseph Campbell, Francis O'Neill, Joseph Christophers, Arthur Sutherland, George Gegan, JOHN MONTGOMERY, Surveyor General.

NOTICE.

THE Subscriber being about to leave the Province, requests all persons indebted to him to call and settle their accounts immediately; and all persons having any demands against him, to present them for adjustment. He also forbids all persons trusting any one on his account, without an order from him.

JOHN HANSON.

AYER'S

CHERRY

PECTORAL,

FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

Prepared, Mass., Dec. 1855.
Dr. J. C. AYER, I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the common symptoms of a Cold, is your Cherry Pectoral. It is constant use in my practice, and I have seen it cure many cases of Croup, whooping Cough, and other severe affections of the Throat and Lungs, in a few days.

A. B. MORTLEY, Esq., of Uxbridge, N. Y., writes: "I have used your Cherry Pectoral in my family for several years, and I have seen it cure many cases of Croup, whooping Cough, and other severe affections of the Throat and Lungs, in a few days."

Group, Whooping Cough, Influenza.
BROTHER AYER: I will cheerfully certify your Pectoral is the best remedy we possess for Croup, Whooping Cough, Croup, and the chest disease of children. We of your family in the most appropriate your skill, and commend your medicine to our people.

AMOS LEE, Esq., of Uxbridge, N. Y., writes, 20 Jan., 1856: "I had a tedious Influenza, which continued for six weeks; my many medicines without relief, finally I used your Pectoral, by the advice of my clergyman. The first dose relieved the sore throat, and I felt better; I then used it half a bottle, and I am now completely well. Your medicine is the cheapest as well as the best we can buy, and we commend you, Doctor, and your remedy, as the poor man's friend."

Asthma or Phthisis, and Bronchitis.
Wm. Macomber, Esq., of Uxbridge, N. Y., writes, Feb. 4, 1856: "I have used your Cherry Pectoral in performing many cures in this section. It has relieved several from asthmatic symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last two years."

A. A. RAMSEY, M. D., of Andover, Mass., writes, Sept. 8, 1855: "During my practice of thirty years I have found nothing equal to your Cherry Pectoral for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtue of this remedy is found in its effects upon trial.

Probably no one truly has ever been known which cured so many and such dangerous cases as this. Some so human aid can reach; but even to those the Cherry Pectoral should be of relief and comfort.

Ayer's Cherry Pectoral, New York City, March 5, 1856.
Dr. J. C. AYER, I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the common symptoms of a Cold, is your Cherry Pectoral. It is constant use in my practice, and I have seen it cure many cases of Croup, whooping Cough, and other severe affections of the Throat and Lungs, in a few days."

G. F. CAMPBELL.

St. Andrews, 26th March, 1855

Ufford's Smoke Consuming Patent Lamp.

Is warranted to produce, without smoke or grease, at an expense of less than half a cent per hour, a light equal at least to four wax candles. Extremely simple and durable, less injurious to the eyes than any other artificial light, and will prove the truth of these statements.

Price £1 2s. 3d. 6d. 6d.

We have one of the Lamps in use, and are able to conform to the favorable testimony of the traveler, having found it answering well to what it claimed for it. (Porter Recorder.)

No person who has ever tried one of the Lamps would be willing to give it up for ten times its cost, if it could not be replaced. [New England Farmer.]

Boston, 117 Court street, head of Sudbury.

PARKS & FOLSON.

236, Washington St., Boston.

P. & F. would respectfully give notice, that they still continue to manufacture the Melodeon and Seraphine, in a variety of styles, which, in point of finish and tone, are not surpassed by any other manufacturers.

Also, the Melodeon Organ, with a sub base, suitable for Churches, Vestries and Halls. The public are invited to call and examine before purchasing.

Dealers supplied on favorable terms

However Caused!!

TESTIMONY.—Mr. Editor: Seeing an advertisement that the Deaf might be relieved by applying to DR. BOARDMAN, 304 Washington street, corner of Suffolk Place, BOSTON, I was induced to leave home and test the Doctor's skill. I was so deaf that I was unable to hear ordinary conversation. To my astonishment, in twenty minutes my hearing was perfectly restored. I recommend all persons to try the Doctor's new method of cure.

LET US REASON TOGETHER.

HOLLOWAY'S PILLS.

WHY ARE WE SICK?

It has been the lot of the human race to be weighed down by disease and suffering. HOLLOWAY'S PILLS are specially adapted to the relief of the WEAK, the NERVOUS, the DELICATE, and the INFIRM, of all climes, ages, sexes, and constitutions. Professor Holloway personally superintends the manufacture of his medicines, and offers them to a free and enlightened people, as the best remedy the world ever saw for the removal of disease.

THESE PILLS PURIFY THE BLOOD

These famous Pills are expressly combined to operate on the stomach, the liver, the kidneys, the lungs, the skin, and the bowels, correcting any derangement in their functions, purifying the blood, the very fountain of life, and thus curing disease in all its forms.

DYSPEPSIA AND LIVER COMPLAINTS.

Nearly half the human race have taken these Pills. It has been proved in all parts of the world, that nothing has been found equal to them in cases of disorders of the liver, dyspepsia, and stomach complaints generally. They soon give a healthy tone to those organs, however much deranged, and when all other means have failed.

GENERAL DEBILITY. ILL HEALTH.

Many of the most despotic Governments have opened their Custom Houses to the introduction of these Pills, that they may become the medicine of the masses. Learned Colleges admit that this medicine is the best remedy ever known for persons of delicate health, or where the system has been impaired, as its invigorating properties never fail to afford relief.

FEMALE COMPLAINTS.

No Female, young or old, should be without this celebrated medicine. It corrects and regulates the monthly courses at all periods, acting in many cases like a charm. It is also the best and safest medicine that can be given to children of all ages, and for any complaint; consequently, no family should be without it. Holloway's Pills are the best remedy known in the world for the following Diseases:—

- | | |
|-----------------------|--------------------|
| Ague | Jaundice |
| Asthma | Liver complaints |
| Bilious complaints | Lumbago |
| Blowches on the skin | Rheumatism |
| Bowel complaints | Retention of Urine |
| Colic | Scrofula, or |
| Constipation of the | King's Evil |
| Bowels | Sore Throat |
| Consumption | Stone and Gravel |
| Debility | Secondary symptoms |
| Dysentery | Tio Douleurux |
| Erysipelas | Tumours |
| Female Irregularities | Ulcers |
| Fever of all kinds | Veneral Affections |
| Fits | Worms of all kinds |
| Gout | Weakness, from |
| Head-ache | Whatever cause |
| Indigestion | &c. &c. |
| Inflammation | |

Sold at the Establishments of Professor HOLLOWAY, 244, Strand, near Temple Bar, London, and 50 Maiden Lane, New York, also by all respectable Druggists and Dealers in Medicines throughout the Civilized World, at the following prices:—
1s 4d; 3s 6d; 5s 6d each box.

There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each Box.

Sold by all Vendors of Medicines throughout New Brunswick, and by A. H. Thompson, St. Stephen; Billings & Dyer, Eastport, and

AYER'S PILLS.

A new and singularly successful remedy for the cure of all Bilious diseases—Constipation, Indigestion, Jaundice, Dropsy, Rheumatism, Fever, Gout, Humors, Nervousness, Irritability, Inflammation, Headache, Pains in the Breast, Side, Back, and Limbs, Female complaints, &c. &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable disorders which load the system all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing anything hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth.

Among the eminent gentlemen to whom we are allowed to refer for these facts, are

PROF. VALENTINE MORRIS, the distinguished Surgeon, New York; and the City of Lowell, who has long used them in his extensive Practice.

DR. J. C. MOORE, M. D., an eminent Surgeon and Physician, of the City of Lowell, who has long used them in his extensive Practice.

DR. C. A. DAVIS, M. D., Capt. and Surgeon of the United States Marine Hospital, at Chelsea, Mass. Did space permit, we could give many hundred such names, from all parts where the Pills have been used, but evidence even more convincing than the certificates of these eminent public men is shown in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process, in a state of purity and combined together in such a manner as to insure the best results. This system of composition for medicines has been found to be the most effective, and the Pills have proved more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities; by this, each individual virtue only that is desired for the curative effect is present. All the hurtful and acrimonious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effect should prove as they have proved more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world.

As it is frequently expounded that my medicines should be taken under the counsel of an attending Physician, as at all cost not properly judge of a remedy without knowing its composition, I have supplied the accurate Formula by which both my Pills and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If however there should be any who have not received them, they will be promptly forwarded by mail to his address.

Of all the Patent Medicines that are offered, how few are so well adapted to the human system as these. Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject, freely acknowledge their convictions of their superiority to all other remedies. They were pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same since they have seen and used them, and even more candidly, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal organs to purify the blood and stimulate it to healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their regular action to health, and correcting whatever error in their action deranges them as the first origin of disease.

Being sugar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

For minute directions, see the wrapper on the Box.

Prepared by JAMES C. AYER, Practical and Analytical Chemist, Lowell, Mass.

E. D. SPEAR, INDIAN DOCTOR.

15 Kneeland Street, BOSTON, Mass.

THE great success which has ever attended the Indian Practice of Medicine, as perfected by E. D. SPEAR, M. D., excites envy in the hearts of the many advocates of Mercury. Many of his remedies, as the public have already learned from newspapers of the day, are prepared from recipes which are believed to have originally been received from the Indians one hundred and seventy years ago. No other remedies deserve the name of Indian.

DR. SPEAR'S GREAT INDIAN MEDICINES.

(For names and description see his "Family Physician") to be had, free, at his office, or sent to order, prepaid on receipt of a paper postage stamp.

Are certain cures for Asthma, Ague and Fever, Croup, Whooping Cough, Bronchitis, Cancer, Canker, Colds, Consumption, Coughs, Costiveness, Cramps, Debility, Diabetes, Derangement of the Bowels, all humors in the blood, Giddiness, Headache, Inflammation of the Eyes, Jaundice, Kidney Complaints, Liver Complaints, Loss of Hair, Lumbago, Milk Leg, Nightmare, Palpitation of the Heart, Pains in the side, back, and other parts of the body, Pustular Eruptions, Pin Worms, Rheumatism, Salt Rheum, Scald Head, Scrofula, Shortness of Breath, Sore Throat, Spinal Complaints, Strangury, &c.

Dr. Spear's Female Medicines have become very celebrated, and it is now admitted that his treatment of Female Weaknesses, Eruptions, Vitis, Irregularities and Suppressions is far superior to every other treatment for these complaints.

It is also celebrated in the treatment of children. His medicines being vegetable, do not poison the eyes.

Dr. Spear is now being visited by one thousand patients every month, some of whom travel hundreds of miles to consult him and to obtain his medicines.

Dr. S. will warrant a cure in every curable case. After giving his remedies a fair trial, if a cure is not effected, he will pay any other physician, who will effect a cure, his bill, not exceeding \$100.

Persons at a distance can consult him by letter, enclosing a stamp to pay the answer.

Dr. Spear consults with patients at his Office No 15 Kneeland Street, upon all conditions and diseases of the system, free of any charge.

GOVERNMENT EMIGRATION OFFICE

St. John, 10th April, 1856.

NOTICE is hereby given, that JOHN SHANNON, has been appointed keeper of Hospital Island in the County of Charlotte, and of the public buildings thereon.

M. H. PERLEY,

H. M. Emigration Officer for New Brunswick

A MARVELLOUS REMEDY FOR A MARVELLOUS AGE! Holloway's Ointment.

THE GRAND EXTERNAL REMEDY.

By the aid of a microscope, we see millions of little openings on the surface of our bodies. Through these, this Ointment, when rubbed on the skin, is carried to any organ or inward part. Diseases of the Kidneys, disorders of the Liver, affections of the Heart, Inflammation of the Lungs, Asthma, Coughs and Colds, are by its means effectually cured. Every housewife knows that salt passes freely through bone or meat of any thickness. This healing Ointment far more readily penetrates through any bone or fleshy part of the living body, curing the most dangerous inward complaints, that cannot be reached by other means.

ERYSIPELAS, RHEUMATISM AND SCORBUTIC HUMORS

No remedy has ever done so much for the cure of diseases of the skin, as this Ointment. They may assume, as this Ointment—Scoury, Sore Heads, Scrofula, or Erysipelas, cannot long withstand its influence. The inventor has travelled over many parts of the globe, visiting the principal hospitals dispensing this Ointment, giving advice as to its application, and has thus been the means of restoring countless numbers to health.

SORE LEGS, SORE BREASTS, WOUNDS & ULCERS.

Some of the most scientific surgeons now rely solely on the use of this wonderful Ointment, when having to cope with the worst cases of sores, wounds, ulcers, glandular swellings, and tumours. Professor Holloway has dispatched to the East, large shipments of this Ointment, to be used in the worst cases of wounds. It will cure any ulcer, glandular swelling, stiffness, or contraction of the joints, even of 20 years' standing.

PILES AND FISTULAS.

These and other similar distressing complaints can be effectually cured if the Ointment be well rubbed in over the parts affected, and by otherwise following the printed directions around each pot.

Both the Ointment and Pills should be used in the following cases:

- | | |
|--------------------|----------------------|
| Bad Legs | Chiefo-foot |
| Bad Breasts | Chilblains |
| Burns | Chapped hands |
| Bunions | Corns (soft) |
| Bite of Mosquitoes | Cancers |
| and Sand Flies | Contracted and Stiff |
| Coccy-bay | Joint |
| Elephantiasis | Fistulas |
| Gout | Glandular Swelling |
| Scoury | Lumbago |
| Sore Heads | Piles |
| Tumours | Rheumatism |
| Ulcers | Scalds |
| Wounds | Sore Nipples. |
| Yaws | |

Sold at the Establishment of Professor HOLLOWAY, 244, Strand, (near Temple Bar) London, and 50, Maiden Lane, New York, also by all respectable Druggists and Dealers in Medicines throughout the Civilized World, in Pots, at 1s. 3d., 3s. 3d., and 5s. sterling, each Pot.

There is a considerable saving by taking the larger sizes.

Soap and Candle Factory

AGAIN.

THE subscriber in returning thanks for the extensive patronage received for the last twelve years, respectfully informs his friends and customers, that since the late disastrous fire in Water-street, he has erected a new Factory in Princess-street, a very short distance above the Post Office, and next adjoining Dunn's Steam Mill, where he will be happy to receive and execute all orders from his old customers and the trade generally; and by manufacturing a good article, at a fair price and light profit, to give satisfaction.
