CONTRACTORS, — PLANING MILL, — BUILDERS.
DRY KILN, DOOR AND SASH FACTORY.
CAMPBELLTON, N. B.

BEAVER BOARD
If you are building or going to complete some unfinished rooms, let us show you some colored samples, illustrating the beautiful color effects obtained by using this material and durable board for walls and ceilings in all classes of buildings.
We carry a large stock in assorted sizes.

MAIL ORDERS
We solicit out of town orders which receive our personal attention. The length of time taken to fill orders is governed very largely by how busy we are in the department of our factory in which the particular goods are made. While we have exceptional facilities for promptly turning out goods, it is important to place orders as far ahead as possible. Orders are filled by us in the rotation in which they are received, and customers can always depend on our doing everything in reason to give prompt dispatch.

Our Office is connected with the N. B. Telephone by two separate lines insuring prompt attention.
Office Hours—8 A. M. to 6 P. M.

THE POINT ABOUT OUR HARNESS

are strength, best leather, lightness and superior workmanship. They mean harness that will wear like iron, that will stand any strain. They mean a trial of a set will please you more.

The big risk has been most artistically decorated, to the right on entering are located the kitchen and lunch room, then various booths. At the extreme end are the exhibits of farm produce, and the showing is said by experts to equal, if not surpass anything shown at the big provincial fairs. There are vegetables of all kinds and some of them are wonderful.

WE CAN SHOW YOU FARMS

that offer excellent opportunities for investment. Farms of fertile soil that are productive of good crops with fine buildings, and fences in good repair. We don't urge you to buy, but if you're of that mind, we sincerely hope you will look at our bargains before closing. We're always at your service.

THE FAIR IS NOW IN FULL SWING

Exhibits of Vegetables Said to be Ahead of Either Chatham or Fredericton.

The Fair, Campbellton's first exhibition of the products of the farm, the forest and the sea, was officially opened Wednesday morning at 10 o'clock by His Worship Mayor Murray, and His Honor Judge McLatchy. Everything was in order and after a few remarks by the before mentioned gentlemen the Fair was declared officially opened.

The big risk has been most artistically decorated, to the right on entering are located the kitchen and lunch room, then various booths. At the extreme end are the exhibits of farm produce, and the showing is said by experts to equal, if not surpass anything shown at the big provincial fairs. There are vegetables of all kinds and some of them are wonderful.

Of all the exhibits sent in by the different districts, that from Jacques River is said to be the largest, and most varied. The exhibit of the Grammar School garden plot is a revelation of what can be done by the children under experienced guidance. To Miss McPherson there is certainly due great praise.

The various vegetables, flowers and other exhibits are splendid. Every parent should examine this.

The donations of potatoes and other vegetables and farm produce, comprising also poultry, a pig, butter and eggs are being sold at very reasonable prices, and are meeting a ready demand.

Meals are served each day and there are many attractions to catch the eyes.

The Fair will continue this evening and all day Friday and we assure our readers that if they have not already attended they should do so at once.

The price list and other details will be published in full at a later date.

ANOTHER VOTE ON FIRE STATION

Council Orders Vote of Ratepayers for Friday, October 3rd.

A meeting of the town council was held last evening. His Worship Mayor Murray presiding. There were present Councillors Bigset, Matthews, Dickie, Ingram, Devereau, McKay and Campbell.

The following communication was read from Mr. W. H. Wallace.

To His Worship Mayor Murray,
Sir,—

At last evening's public meeting, I found there were a few members of the Fire Dept., who thought it would be advisable to have the caretaker of town houses, and his family occupy rooms up stairs in the proposed fire building; and while this arrangement is not usually made in other progressive towns, it will be noticed that the plans I submitted could be easily changed to provide the family quarters required.

I would agree to build an underground concrete foundation and brick case the walls, in exchange for the proposed caretaker's house on the Waverly lot, the same to be moved from said lot. I will further agree that if my plans and proposals should meet with the approval of the ratepayers and Council, on or before the first week of Oct. to sign a contract, and at once start work on both City Hall and Fire Station.

I will agree to have the station completed November the 15th, 1919 and the first floor and basement of City Hall on or before the first day of February 1920, the balance of the contract not later than July the 20th, 1920.

I wish to put myself on record as being opposed to the issuing of bonds for such purposes, and in order to avoid this, I will agree to take in payment as the work progresses, all over due taxes for this year and last.

I can arrange to sublet the most of this work to local firms and builders. I also further agree to furnish bonds to protect the Town, and to complete both buildings under the supervision of our local architect Mr. Peter H. Blythe, Mr. D. A. Stewart, and Mr. Thomas Dickey. I trust that the above offers will meet with your consideration and approval.

I am, sir, yours very truly,
W. H. WALLACE.

This was ordered placed on file.

The Mayor said that the School Board had been asleep for nearly ten years, then they had awakened long enough to appoint a committee and had gone peacefully to sleep again until the town had moved the cannon. Now they wanted to claim them. The cannon would remain on the Park so long as he had anything to say or until the School Board could prove that they belonged to that Board.

Coun. Devereau moved that the Mayor, Solicitor and Town Clerk be authorized to get all information in reference to this matter.

Sanford Dickie was granted license to conduct a livery stable.

Departmental accounts were passed.

Coun. McKay from the Assessment and Appeals Committee reported favoring exemption of returned soldiers assessed on income, who were unable to work or who had not been able to find work. Report received and adopted.

BUY AT HOME AGAIN ADVOCATED

Public Weights of Campbellton and vicinity Will Tell Why This is Necessary.

During the following fifty-two weeks the Graphic will publish a series of cartoons illustrating the important question of patronizing the merchants and manufacturers of your own section. These cartoons are drawn by one of the very cleverest artists in the province, and are an exceptionally good and show conclusively why every citizen should when possible buy from the local merchant.

The publication of these pictures was made possible by the following merchants contracting for space on the page carrying the cartoons:

also brought to the attention of the council the matter of the town having paid a bonus of \$5000 to the I.N.R. railway, in lieu of their building their machine shops be removed the \$5000 would be returned. These shops had been removed. The town should now ask the government which had taken over the railway for the land upon which these shops and works were located, as the government had no further use for the land. The land should be got or the \$5000 returned.

The matter of a nine hour day for the employees of the Water, Sewerage and streets department was then taken up, and on motion a nine hour day was adopted, with same rate of pay.

On motion town clocks were ordered set back one hour on Oct. 1st, or on each day as the railway adopts the same.

Councillor Devereau asked who had ordered the transfer of the old cannons from the school grounds to the Park.

Coun. McKay replied that the Education and Improvement Committee had done so. He felt it was a matter entirely within the jurisdiction of that committee, of which committee he himself was a member.

There being nothing further the council adjourned.

OVERCOATS

We would advise all intending purchasers of winter overcoats to make their selection as early as possible, as it is more difficult to obtain deliveries of goods this Fall, than at any time since war broke out.

We have received a portion of our fall stock of these goods and would be pleased to have you call and examine them. You are under no obligation to buy simply because you look them over; it is not our policy to force a sale upon anyone as such sale usually means a dissatisfied customer.

ANDREW'S CLOTHING STORE

Men who work in Steel Mills

and similar plants coming from an overheated shop out into the chilly night air require extra good underwear protection.

During their strenuous work, perspiration opens the pores and gripe frequently results unless the body is protected with heavy, honest wool underwear. Atlantic Underwear affords the best protection for such workers. It absorbs the perspiration and protects against dangerous chills resulting from extremes of heat and cold.

Sold in five different weights and qualities. Our lower-priced lines are not equal to the more expensive ones, but each is guaranteed to be the best value of its class. Compare them with others of like price and see for yourself.

ANOTHER VOTE

The Town Council has ordered another vote to be taken on the question of whether or not the ratepayers are in favor of the Town issuing \$20,000 debentures for the erection of a fire station. The voting will take place tomorrow, Friday Oct. 3rd. There is not a doubt but that Campbellton needs a fire station, and the only regret is that so much time has been taken up in calling meetings of the ratepayers to discuss this matter, and then ignoring the wish expressed at such meetings.

If the vote had been called upon the propositions as set forth at the last meeting of the ratepayers, we would have been sure of having a fire station this year, as under both proposals one would have been chosen. But under the present plan we fear that a majority of the citizens will feel that it is too late now to undertake this work and vote no.

She Was Quite Safe.

A few days ago a well-dressed and charming young lady hailed a four-wheeler, there being no taxi in sight, just as she was getting in the vehicle, that the horse seemed inclined to be frisky.

She was jumping about and swishing his tail in a way that alarmed her.

So she addressed a few words to the aged driver.

"I hope," she said, smiling bravely, "that you will not run away with me!"

The cobby sighed mournfully.

"No, mum," he replied, "I have a wife and seven kids at home already."

MAKING PLANS FOR CONVENTION

Tourist and Resources Convention at Dalhousie Next June to be Big Affair.

Dalhousie, N. B., Sept. 30.—You correspondents are informed that Mr. and Mrs. John E. Dean, Mr. J. Edwin Dean and Mr. Reginald H. Dean, of the Inch Arran House, have been interviewed recently, about the Tourist convention, which is to be held in Dalhousie in June next.

The Vice-President for the Co., of Restigouche, is endeavoring to form a forecast as to what plans are to be arranged for, in order that the North Shore of New Brunswick, which for the first time, will have the honor of seeing so many leading citizens meet together, to discuss the wonderful resources of our province, shall derive all the benefits possible, from the ideas, that will be given by the experienced men of Canada and the United States, who have already expressed a desire, to attend the convention to be held at the Inch Arran House, next summer.

Among those who are expected to attend the convention, are Hon. William Pugsley, Lieutenant-Governor of New Brunswick; Hon. Walter E. Foster, Premier of New Brunswick; Hon. James A. Murray, Leader of His Majesty's Opposition, Fredericton; Mayor of the city of St. John, and the mayors of other cities and towns of New Brunswick; Dr. Brundage, New York; L. O. Armstrong, C. P. R. and others.

The business part of the convention, we need not say anything about at this stage. The citizens of our towns and tourist sections, will be prepared to offer suggestions, which, with the large experience of the public men, who will be present, will no doubt result in important results being passed, which when put into effect will result in bringing to our province, hundreds and thousands of visitors in the future, who will, as a matter of course, spend thousands of dollars in our midst.

The question is, what are we going to do to attract attention and amounts for so many strangers, who are to honor us with their presence, for at least two or three days?

President for the County of Restigouche, is very grateful to the Dalhousie Town Council, and to the Campbellton Board of Trade, for what they have already done in encouraging the "All New Brunswick" Tourist, Game and Resources Association. The speakers will be given during the second evening of the convention. That feature of the programme will be attended to by the Inch Arran House management. The large dining room can seat 250 people at a banquet. The parlours will be used to hold the business meetings of the convention.

Several of the outside intended guests have expressed a desire to bring their wives and families to the Inch Arran House, during the convention, the idea of holding a reception and dance the first evening, is engaging the attention of the organizers of the affair. This would furnish an opportunity for the younger set, from our different sections, to participate in the good work of the convention, and would furnish a splendid occasion for the strangers to become acquainted with our people.

Another idea that is being considered is whether they will on the Restigouche River and Lake des Chaleurs, during one of the sessions of the meeting, would be a very enjoyable affair. A committee from Dalhousie and Campbellton, could no doubt arrange for sufficient steamboats, to accommodate the strangers at least.

Another suggestion made and a very good one, is that the visitors be treated to an automobile drive from Dalhousie to Campbellton, to see the great progress that Campbellton has made since the fire, and to go as far as St-Augustin, to see the grand scenery along the Restigouche River.

It is the intention of the owners of the Inch Arran House, if labour can be secured early next spring, to make an extensive repair to the hotel. A thorough painting of the exterior is to be made. If this can be done, any visitors of Dalhousie, who have not had their buildings painted since the great war started, made an effort this fall and early next spring, to paint their houses and outbuildings, and with a little start on permanent sidewalks, our quaint little town, would be admired, and the impression that would be made on the minds of the visitors, who are to spend a few days with us in June next, would have far reaching results for our good.

To the Editor of the Graphic.

The up town editor in his biased and misleading report of my remarks at last Friday's meeting of the Council is endeavoring to make capital against me. My remarks re the Assessment Act were misunderstood by Councillor Devereux and we had about strengthened this out satisfactorily after the meeting when we were interrupted by the highly musical voice of the said editor in heated discussion with two councillors.

After the said discussion it was pitiful to witness him. He appeared about the size of the small end of nothing and was quite anxious to wind his way home and endeavor to sleep the sleep of the innocent. It is the invariable rule of all reputable newspapers to give true reports of public meetings and if the editor has any criticism, to say it editorially. Thanking you for space.

I remain

Yours truly,

Too Much For Her.

It was Sarah Jane's day out, and she was comparing notes with Susan, from a neighboring house. "So I hear you've left that artist's," Susan said. "Yes, indeed," remarked Sarah Jane. "I couldn't stand the misuses, insults. I hadn't been there a day when she said to me: 'Sarah Jane,' she says, 'when you're dusting off the studio you must be very careful not to touch the old master. It's worth hundreds of pounds,' she says. Well, that got my temper up proper. Excuse me, ma'am," says I, but I've got a young man of my own and I don't want any older master, not if he is worth millions!"

The Why? of Another Victory Loan

WHEN, on the morning of November 11th, 1918, the guns were hushed and glad tidings flashed across the world, there followed with the Nation's Prayer of Thanksgiving, one yearning query, which found echo in the faster beating hearts of wives, mothers, fathers, brothers, sisters and sweethearts. That query was, "How soon will our boy be home?" And, from France and Flanders, from Italy and Egypt, from Palestine and from far-off Siberia, there came an answering echo, "How soon, how soon, may we go home?"

CANADA caught the spirit of these longings, and at once resolved to satisfy them. It was an appalling task. Shipping was tragically scarce. The composition of the Army of Occupation had not then been settled. And other parts of the Empire as well as Canada were looking for the speedy return of their men.

THE problem was this. The half-million men that Canada had overseas had taken more than four years to transport to the field of battle. To bring them home in a few months was a gigantic undertaking—one to tax all Canada's ingenuity and resources. Canada solved the problem, but it meant crowding into a few short months, an expense for demobilization which it was impossible to foresee.

THEN, too, besides the sentimental aspect of the necessity for bringing the men home quickly the economic side could not be overlooked. That was, to transform efficiently and speedily the nation's army of fighters into a national army of workers.

Need Divides Itself in Two Parts

(a) To finish paying the expenses of demobilization, and the obligations we still owe to our soldiers.

(b) To provide national working capital.

The obligations to soldiers include: That already incurred cost of bringing home troops from overseas.

The payment of all soldiers still undemobilized. This includes more than 20,000 sick and wounded who are still in hospital, and who of course remain on the Army payroll list discharged.

The upkeep of hospitals, and their medical and nursing staffs, until the need for them is ended.

These three items alone will use up at least \$200,000,000 of the Victory Loan 1919.

There is also the gratuity which has been authorized, and has been and is being paid to assist soldiers to tide over the period between discharge and their re-adjustment to civil life.

For this purpose alone, \$61,000,000 must be provided out of the Victory Loan 1919, in addition to the \$59,000,000 already paid out of the proceeds of the Victory Loan 1918.

Furthermore, soldiers who desire to become farmers may, under the Soldiers' Land Settlement Act, be loaned money by Canada with which to purchase land, stock and implements. The money so advanced will be paid back; meantime each loan is secured by a first mortgage. Up to August 15th, 29,495 soldiers had applied for land under the terms of this Act; and 22,281 applications had been investigated, and the qualifications of the applicant approved.

For this purpose Canada this year requires \$24,000,000.

For this work, with the Vocational Training and Soldiers' Service Departments, embraces the major activities of the Department of Soldiers' Civil Re-establishment, an appropriation of \$57,000,000 is necessary.

These national expenditures are war expenses. They will be accepted readily by every citizen who gives thought to the task which Canada faced following the Armistice, and to the success with which she has met it.

Canada needs national working capital, so that she may be able to sell on credit to Great Britain and our Allies the products of our farms, forests, fisheries, mines and factories.

You may ask "Why sell to them if they can't pay cash?" The answer is, "Their orders are absolutely essential to the continuance of our agricultural and industrial prosperity."

The magnitude of these orders and the amount of employment thus created, will depend upon the success of the Victory Loan 1919.

Farmers and manufacturers (and that includes the workers on these orders) must be paid cash for their products. Therefore, Canada must borrow money from her citizens to give credit, temporarily, to Great Britain and our Allies. Actually, no money will pass out of Canada. If Canada does not give credit, other countries will; and they will get the trade, and have the employment that should be ours, to distribute amongst their workers.

And remember, we absolutely need these orders to maintain employment. If we don't finance them, business will feel the depression, employment will not be as plentiful, and conditions everywhere will be adversely affected.

Money must also be available to carry on the nation's shipbuilding programme, and other transportation development work.

For loans to Provincial Housing Commissions who are building moderate priced houses.

These, then, are some of the things for which Canada needs national working capital. She is in the position of a great trading company, and her citizens who buy Victory Bonds are the shareholders.

Those who give thought to our outstanding obligations to soldiers, and to our need for national working capital, cannot fail to be impressed with the absolute necessity for the

The Enormous Profits of the Laurentide Company, Limited.

While the Toronto Times and many other newspapers have been compelled to cease publication because of excessive costs of production, the mills which make the paper on which the newspapers of Canada are printed continue to report unprecedented surpluses and dividends. Even the "Financial Times," a journal friendly to the paper and pulp interests, enlarges upon the extraordinary showing just reported by the Laurentide Company, Limited, and points out that it has not only made a large increase in the amount of surplus available for dividends, but has done so after making new and additional provisions for depletion of timber and depreciation of buildings and plant. The allowance for timber depletion is an entirely new one, while depreciation has been allowed with what the Financial Times modestly calls "an even more generous hand." How this company has been able to pile up its reserves, etc., and at the same time increase its annual profits is shown by the following table:

Net. 1916 \$ 59,561 \$ 917,822 1917 116,670 1,729,019 1918 271,833 1,701,656 1919 505,395 1,825,657

Including \$175,554 timber depletion. Even the above profits, and in addition to the amounts paid out in war tax, which in 1919 alone was \$210,000.

In other words, Laurentide has in four years been able to pay \$947,000 into its pension fund, increase its depreciation allowance nearly 750 per cent, and still show an increase in profits of nearly 100 per cent.

When these figures are considered in conjunction with the history of Laurentide, the story becomes one which could hardly be equaled by fiction. The profits of 1919 after paying of the war tax are equivalent to over nine per cent on the outstanding capital stock (as compared with 8.2 per cent in 1915), but when the evolution of this capital stock is taken into account, the reader begins to realize "the full solemnity of the meaning."

In 1911 Laurentide capital was \$9,600,000. In a reorganization which took place in that year, the shareholders received \$200 of new stock for every \$100 of old which they held, thus increasing the capital to \$1,700,000. This dividend of 19 per cent available this year applies to \$3,600,000 of purely gift stock. And the story does not end there. In 1913 the stock was increased to \$9,600,000 by an issue of \$2,400,000 at par when it was selling on the market at 91. So the 19 per cent available-as-dividend in 1919 applies not only to the legitimate stock of the company, but to \$3,600,000 of gift stock, and to \$2,400,000 more which was handed out to the shareholders at nearly half price.

How Market Value Has Risen. If further proof of the extent to which paper mills are profiting were required, it is furnished by the market quotations for Laurentide, and a study of these before and after the fixing of a sixty-nine dollar price for newspaper last September is particularly interesting. The following table not only affords this comparison, but shows how the whole capital stock it increased in value by applying the market price to it:

Total Value. Stock at Par value, \$100 per share \$ 9,600,000 Close 1917, \$152 per share 14,598,000 Close 1918, \$197 per share 18,912,000 Sept. 15 1919, \$222 per share 21,312,000

The market value of Laurentide stock has thus increased \$11,712,000 in excess of par value, even without taking into account that the par value in question includes \$3,600,000 stock issued for nothing and \$2,400,000 issued at nearly half price.

A groom was brought in to help the butler and he was very anxious to do everything just right. He asked a deaf old lady if she'd have some peas and she put her big bell-mouthed ear trumpet to her ear to hear him.

"Heavens," said the groom to himself. "This is a new wrinkle to me; but if she wants 'em that way I'd better let her have 'em." And he poured into the ear trumpet a generous supply of peas.

"Same old lot," he said sadly—"a wife and six kids."

HAG'S PRAISE OF CANADIAN TROOPS

No Anxiety as to the Result Wherever They Were Placed.

"Hundreds of thousands of Canadians have left this country in the last four years to serve in the great cause. I do not know one instance where a Canadian has not fulfilled his duties with honor to himself and country."

In these words, Lieut.-Col. Sir George McLaren Brown, concluded his address before the Empire Club this afternoon, he being the guest of that body at a special luncheon in the King Edward. The subject of his address was "Canada's Achievements and Opportunities in Europe." The fact that Sir George, during the past year acted as the War Office as Assistant Director-General of Movements and Railways shows that he spoke with an authoritative grasp on his subject.

"What man alive," said Sir George, "can tell the story of Canada's fighting men or the equally glorious record of Canada's women? That host of gallant souls who went forth to fight that we might live. As Canadians we can never forget the debt we owe them." He would not attempt to define what Canada's fighting men had done for their country, spoke louder than words. It was not from the men of Canada he had heard of their deeds, but from British officers, who had been in company with them and as a Canadian he listened with pride when he heard the remark made on one occasion by the British commander-in-chief.

It was just prior to the great advance at Cambrai. To his chief of staff that British Field Marshal had said: "I have no anxiety as to the result, wherever the Canadians are placed."

"It may have been thoughtlessly stated in this country," said Sir George, "that British appreciation of the gallantry of Canadian soldiers is not extensive. Believe me, that is not the case. In the mind of the British the achievements of all the overseas dominions are one and the same. Do not think that the British are not proud of the Canadian record."

Other branches of the Canadian fighting men had been honored, namely the railway troops, the medical corps, the Y. M. C. A. and the Canadian Engineers. The speaker told of one instance of connection with the Canadian Engineers.

Forestry Corps Feet

Some months ago just about the time the great German push was stopped, the authorities found they were short of measurement timber. Sixty-five thousand tons were needed, equivalent to about 175,000,000 feet. This was needed for delivery in France in a matter of six weeks, and there was no chance of getting it from across the Atlantic.

The French demurred at the idea of its being cut in France, for fear it would wipe out some of their historic forests. The only alternative was to sacrifice the timber of the park of England, which they could ill afford to lose," said the speaker.

So the Canadian Forestry Corps were turned loose among the historic parks of England and in five weeks they had filled the order. In railway construction work the Canadian's had also made a fine record. But they had some fighting to do occasionally, and it was well they did it," said Sir George, warmly up a bit.

Then there had been the Canadians, who had taken part in inland water transportation, which was not confined to one theatre of war. In fact, in all parts of the world it had been his experience that Canadians were taking on an important part, and in no instance had one of them fallen down.

Setting House in Order

During the second part of his address, Sir George said: "The man who can prophesy the immediate future confronting the world will have more tenacity than I. The fighting is apparently over, but unrest prevails, and in some quarters there is chaos. I believe that the ultimate destiny of mankind will not be affected, and she will go on, but to define the immediate future of this country is a very hard task."

"The first duty of Canadians is to set their own house in order. They must take care of the widows and men who come home bearing the scars of battle. If we are alive to this first and only duty, I believe that Canada will advance both spiritually and temporarily. Out of the welter of evil which the world has experienced good and only good can result, but Canadians are now faced with greater problems than they have faced in the last five years."

He did not anticipate, said the speaker, that Canada would have the serious labor troubles that were now taking place in Britain, and he believed that before the end of the year the British would conquer their troubles. He believed that Canada's future was assured if Canadians were true to themselves.

Mayor Charles H. G. found a vote of thanks to Sir George and a pointer to the fact that while men like he were in London they needed no Hoover Commission there. R. A. Stedje presided.

"What do you intend to say in your next lecture?"

"The same thing in different language. That lecture is so profound that nobody is expected to understand it at the first hearing."

BAD CUT HEALED BY Zam-Buk

Mr. S. B. McClure of Ballinasfad, Ont., writing to the proprietors of Zam-Buk, says: "I cut my hand very badly between my thumb and first finger, with a saw. The place became very painful and swollen, and before I realized it blood-poisoning had set in. Having heard that Zam-Buk is the best thing for blood-poisoning, I got some at once, and it was really wonderful how the first few applications stopped the pain. Soon the poison was all drawn out and continued use of Zam-Buk entirely healed the cut."

Zam-Buk should be kept handy by everyone, and applied immediately an injury is sustained. By doing so, not only can pain and soreness be almost immediately ended, and healing effected in the shortest time possible, but Zam-Buk being antiseptic, prevents any danger of festering or blood-poisoning. AN INVENTOR WHO IS DEAF AND DUMB

William E. Shaw, born in St. John, a Genius; Associated With Edison.

Yarmouth, Nfld.—A very interesting visitor to Yarmouth on Saturday was William E. Shaw, the deaf and dumb inventor, associated with Thomas A. Edison at the E. Orange, N. J., laboratories. Mr. Shaw, despite what to some would be an unsurmountable handicap, has become one of the best known inventors in the country. He is the creator of the talkies telephone and he has utilized the movies in the instruction of the deaf and dumb, his special plan of the lip movement being as plain as ordinary speech to those deprived of the sense of hearing. Among Mr. Shaw's talents is a remarkable flying machine to be operated without a crew. He has in his possession letters from Secretary Daniels and others at Washington speaking favorably of this invention.

Inventor Shaw has a number of relatives in Portland, and St. John, N. B. where he was born. The former city, however, was the beginning of the intelligent development of his genius, as he is a graduate of the school for the deaf in Portland, and from there he took a course of study at Hartford, graduating with honors. Among his possessions that are the most prized are an autographed photograph of Edison and letters from Alexander Graham Bell and Philip Brooks. Mr. Shaw left Yarmouth by the D. A. R. for Windsor, N. S., where he will visit his uncle, Judson D. Shaw. This is his first visit to this province since 1904. He is an electrician of considerable ability, and is also a marked genius, for in the past 22 years he has worked out and put into service 52 devices, all of which have proved to be of the greatest assistance to all persons afflicted as he is. Mr. Shaw is personally acquainted with Thomas A. Edison and was for over five years with him in his laboratories. As to his auto flying machine mentioned above Mr. Shaw is now having correspondence concerning it with the object of getting the powers that be at Ottawa interested in it. Just how long he will stay in the province he is not fully decided, but before he returns to the United States he contemplates a visit to relatives in St. John.

RECOVERY OF THE STOLEN MONEY

Authorities Get the \$71,000 Taken From Mail Car.

Quebec, Sept. 2.—The \$71,000 in currency that had been stolen from a mail coach of the Ocean Limited were recovered before dawn to-day and is now in safe hands, according to a statement made at nine this morning by Detective Walsh of Quebec city, who has been engaged on the search for the loot in the interests of Lloyds Insurance, with Mr. McQuarrie of the Quebec Secret Service.

The news of the money being recovered came to the Canadian Press this morning about seven, when it is said it was brought to Quebec, to the Chateau Frontenac and deposited into the hands of the insurance operatives.

Quebec, Sept. 26.—Without the least trace of discomfort George Topping, who is accused of robbing \$71,000 from the mail car of the Ocean Limited train on the morning of Sept. 18, sat almost beside Mrs. Lemieux, his former boarding house mistress, Thursday, and heard her relate a story which materially strengthened the chain of circumstantial evidence connecting him with the daring holdup. Mrs. Lemieux was equally calm, but it became plain towards the close of her evidence that the task was disagreeable to her, for she leaned toward him with a knife and a rose. Some time before Topping had asked her for a box of cartridges, which she had given him. She next saw Topping on Friday, and when he returned he did not wear the same clothes as when he left Wednesday night. He did not tell her where he had been, but a few days later warned her not to mention his absence from the house on Thursday.

J. T. B. Proteau, who, with Topping is jointly accused of the hold-up, was brought into the room for a moment and was identified by Mrs. Lemieux as the man who had left her home with Topping on Wednesday night. Different articles of clothing were also produced.

Mrs. Lemieux was the only witness examined Thursday, and when the inquiry is resumed to-morrow, J. A. Proteau, the 19-year-old brother of one of the accused, will be heard, and will probably be released on bail. The inquiry will then be adjourned until Monday, the 29th.

In the meantime the search for the missing money is being diligently continued. The police believe they are on the right trail, but the fact that the money has been moved since it was first hidden makes the work of finding it much more complicated.

AN EARLY WINTER A FREDERICTON VIEW

Fredricton, Sept. 26.—Local observers of weather conditions are confident to-day that cold weather is about to set in and there will be an early winter.

Yesterday afternoon the wild geese started flying over Fredericton on the way south, one flock alighting in the St. John river in front of the Steamer Judy's wharf to break their journey.

F. W. H. of Akron saw a man holding a tooth in his hand, looking at it meditatively, and F. W. H. said: "What's on your mind?" And the man said: "I just had this tooth pulled, and I'm an Elk, and wouldn't it be alright to have it made into a watch charm?" "No," said F. W. H. "Such charms should not be made of human teeth but of Elk's teeth." "But I tell you I'm an Elk," insisted the man, with triumphant logic.

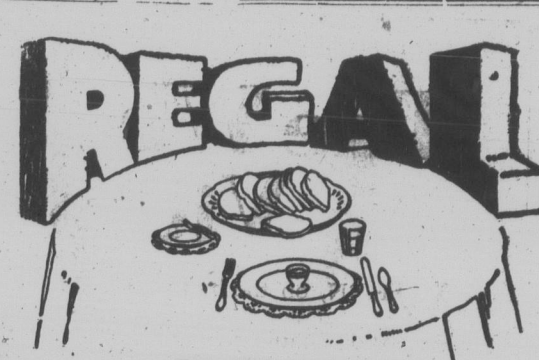

THE TIME TO PAINT.

In the Maritime Provinces the fall is the best time for house painting, and for the reason that the climatic conditions at this season are the best. Paint put on in the fall takes longer to dry and therefore it dries more uniformly. There is no such danger of scuffs or sun-cracks in the fall as there is in the summer. A man whom we used to know years ago, whose house, a white one, was famous for always looking well, once said that for many years he had always done his painting in the month of October. He said that this was the ideal month for such work in the Maritime Provinces, that the good appearance of his house was largely due to the fact that he painted it at the right time. Painting is a thing, which one should regard from another standpoint than appearance—namely its value as a preservative. The house that is frequently painted is the one that least quickly decays. The more paint affords the outside of a house absorbs, the stronger is its ability to withstand.

The best time to give it its dose of preservative is when the weather is cool, when everything soaks in and nothing escapes by evaporation.

REPORT OF BONAVENTURE COUNCIL

(Continued from page two.)

And further resolved that copies of the present resolutions be forwarded to Sir Lomer Gouin, Premier of Quebec, and to the Hon. J. H. Kelly, M.L.A., and Mr. J. F. Bibeau, M.L.A.

Upon the motion of Mayor Adams seconded by Mayor Fair, the County Council adopted the following resolution, to wit:—

"Whereas Private Allan Dixon, belonging to the County of Bonaventure and a member of the Canadian Expeditionary Forces has been imprisoned in England, and is at the present time undergoing a sentence there for mutiny;

Whereas the military records will show that the said soldier has served his country truly and well during the great war and the term of his voluntary enlistment, and that he was wounded during the fulfillment of his duties as a soldier;

Whereas the said soldier belongs to one of the most highly respected and esteemed families of the County of Bonaventure, and claims that he is absolutely innocent of the charge laid against him, and prays for a new trial before his innocence;

Whereas the said County of Bonaventure stands opposed to non-compliance with the order of the Government authorities at Ottawa to the effect of the voluntary enlistments for the great war, and in other matters relating thereto, and that the County Council of the said County feel that it is a duty incumbent upon them, under the circumstances, of respectfully pray the Government authorities at Ottawa to grant the said Private Allan Dixon a new trial of the serious charge against him;

Therefore be it resolved by the County Council of the County of Bonaventure, now in session, to respectfully memorialize and pray the Government authorities at Ottawa to take into their kind consideration the case of the said Private Allan Dixon, and that they do adopt whatever measure may be expedient to procure a new trial for the said soldier so that he may further establish his innocence at the earliest period of time, the whole in consonance with the justice of the circumstances;

Further resolved that copies of the present resolution be forwarded to the Right Honourable Sir Robert Laird Borden, Prime Minister of Canada, and General Meighen, the Honourable Minister of Militia and Defence at Ottawa.—Adopted.

Moved by Mayor Dufour, seconded by Mayor Fair that the attention of the Department for Indian Affairs at Ottawa be called to the fact that the state of affairs happening upon part of the Indian Reserve situated within the limits of the County of Bonaventure, and of the recent riots that took place there, the local justices having to disburse from their private means to cover the costs of legal measures to have the King's Peace kept, the refusal of the Government authorities to pay the same, entailing the refusal of the said justices to act any further in the future.—Adopted.

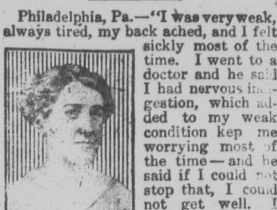

Moved by Mayor Blois, seconded by Mayor Fair that the Secretary-Treasurer be instructed to communicate with the County Council of the County of Gaspe with the object of getting up a fitting memorial or record of all overseas soldiers belonging to the two counties, and further to make enquiries and obtain information as to the cost of publishing a record of all overseas soldiers belonging to the two counties, and to report thereon at the next meeting of this Council.—Adopted.

Mayors Dufour and Martin gave notice that, at the next meeting of the County Council in March, 1920, they would move and second a resolution to the effect that the County Road between Lots 12 and 13, Third Range of the Township of Restigouche, between the Local Municipalities of St. Laurent of Matapédia and Restigouche North West Part, will be for the future at the charges and maintenance of the two said local municipalities in the future, according to their respective valuation rolls. The Secretary-Treasurer was instructed to give notice of the whole to Mr. Edouard Lapace, superintendent for said road, and to the Municipalities interested.

Moved by Mayor McPherson, seconded by Mayor Adams that the following accounts be approved of, and adopted:—
Road Officer Clement Bibeau \$36.22

—Adopted.

THIS WEEK, NERVOUS MOTHER

Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health.

Philadelphia, Pa.—"I was very weak, always tired, my back ached, and I felt sickly most of the time. I went to a doctor and he said I had nervous indigestion, which added to my weak condition. I was so worried most of the time, and I said if I could not stop that, I could not get well. I heard so much about Lydia E. Pinkham's Vegetable Compound, and I bought a bottle. I took it for a week and felt a little better. I kept it up for three months, and I feel fine and can eat anything I wish. I am stronger and nervousness is gone. My husband and I are now happy and content. I am at 2842 North Taylor St., Philadelphia, Pa."

Channey M. Depey is a great admirer of Ring Lardner and delights to relate an anecdote concerning the well-known sport writer and humorist, who was at a club in Philadelphia, and a certain gentleman whom the crowd were trying to entice into spending the evening there declared he could not remain because he had promised his wife he would come home.

"I'll fix it for you," said Lardner and dashed into the phone booth. Presently he emerged shouting: "It's all right, old chap, your wife says you can stay!"

"How in the world did you manage to bring her round?" asked the amazed man.

"Easy," replied Lardner. "I told her you were roaring drunk, and should I bring you home or keep you here."

IS NOW ABLE TO GO DOWN TOWN

Mrs. Hoffman Makes the Trip First Time This Year.

"I had to live on milk for five months before I found Tania and now I can eat meat, potatoes or anything I want and am building up every day," said Mrs. Mary Hoffman who resides at 106 Clough Avenue, Superior Wis.

Nearly a year ago I began to have trouble with my stomach, she continued. "After every meal, gas would come and start terrible pains in my stomach. I just suffered agonies and would not be able to keep from crying out with pain at times. I just couldn't digest anything but milk and a little bit of tea once in a while. Then my nerves began to give way and even the bustle of a paper on the floor would make me tremble like a leaf. I couldn't do any of my housework and at night I was so nervous and in such pain that I couldn't sleep and finally got so weak and run down that I could hardly walk. Then I read about Tania and persuaded my husband to get it for me.

"I honestly believe that if I hadn't taken Tania when I did, I wouldn't have been here now to tell the story. I began to build up right away after I had taken one bottle. My stomach was relieved, the gas stopped coming and I began to eat and enjoy my food. Now I can eat three good meals every day and never have a bit of trouble. I came upon the other day for the first time this year and enjoyed the walk. I can get around and do all my housework, am getting stronger every day and think it is just wonderful that I found a medicine that would do all this for me. Everybody ought to know about Tania and what it will do for a person who suffers like I did, and I am glad to tell how it helped me." Tania is sold in Campbellton by THOMAS WRAN, Druggist.

Mayor Peter Cyle and Martin gave notice that at the next meeting of the County Council in March, 1920, that they would move and second a resolution to the effect that the County road known as the St. Louis Road be placed at the charges and maintenance of the two interested Local Municipalities of St. Onay and St. Jean L'Evangeliste. The Secretary-Treasurer was instructed to give notice of the whole to the interested parties. Moved by Mayor Claperton, seconded by Mayor Poirer that the Secretary-Treasurer do follow up his correspondence with the Municipalities at Ottawa with regard to the obtaining of suitable War Trophies for the County.—Adopted.

Resolved by the Council, the meeting then adjourned upon the motion of Mayor Fair, seconded by Mayor McPherson.

EDITOR'S MAIL

All letters addressed to the Editor must be accompanied by the name and address of the writer, so that we may be able to return answers or publish them, but no notice will be taken of anonymous communications.

Dear Sir:

Please grant me space in your valuable paper to speak a few words of interest to the present government. In the first place we are to have an election in the near future, as we see the Culligan wharf is again under repair. Every season in the past year a new hundred coats is spent repairing this wharf, then the wharf is high tide in the water and away the work of the summer, so in the past it has simply been a landmark for fish boats, but in the future the Government intend to make it a permanent wharf by the high cost of living it would be more profitable as a war station, of course the war is over and the wharf is now a permanent wharf, and you take seven hundred and fifty feet of beams or potatoes would be more profitable than the wharf, so they have sent a gentleman from Ottawa or somewhere to get the ground ready for spring, at present he has teams hauling seaweed to fill it in, I understand he intends carting seaweed over that, so no doubt he will make a good crop, but he will have to build a stone wall around to keep the tide out, or some day his vegetables will go sailing down the Bay.

You I understand have some money granted for the roads in Restigouche this summer, well the shore for Durham must have had to come out of the pocket of the commissioner, as the work done so far in Durham shows if an extra team was on the road, against the said Private Allan Dixon, his head and almost cry, he was so mortally afraid to spend an extra dollar. But very few dollars were spent at the lower end of the Bay. Then from Jacques River across the mountain to the north, the money was spent.

were some Liberals in the lower end of Durham who would have liked to earn a few dollars with work but they will be a lot wiser men next election.

If this letter catches the eye of the Minister of Public Works, he might take a trip through Durham and note how much Government money was spent, view the by-roads in particular, also discuss this subject with the people, and not only then will he wake up to the situation, not only in Lower Durham, but upper Durham as well.

END STOMACH TROUBLE, GASES OR DYSPEPSIA

"Pape's Digestin" makes sick, sour, gassy stomachs surely feel fine in five minutes.

If what you just ate is souring on your stomach or lies like a lump of lead, or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach-ache, you can get relief in five minutes by neutralizing acidity. But an end to your stomach trouble now by getting a large fifty-cent box of Pape's Digestin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorder caused by food fermentation due to excessive acid in stomach.

FOUND WHISKEY STILL NEAR JACQUET RIVER

One of the secrets of the North Shore is out. For some time past liquor inspectors have been rather mystified as to the supply of liquor in that part of the province but now they know where some of it, at least, has come from.

Inspectors this week got wind of some stills in operation and on making a search found one flourishing near Jacques River. They confiscated the "plant" and some of the goods it had produced and prosecutions will follow. Sub-inspector McAmish of this city assisted in the capture, with inspectors from Restigouche county.

Chief Inspector Rev. W. D. Wilson said today that the inspectors had done good work at the Chatham Exhibition and were to-day at the Stanley fair. They had made some seizures of whiskey in Nelson and Chatham. It is said that other stills are being operated in Restigouche county but have not yet been located by the inspectors.

Advertisements under this head are charged for at the rate of two cents a word for the first week, and a cent a word per week for each additional week. Minimum charge 10c.

Which is the worst, a wife's uncombed hair or a husband's unshaved face?

Which would you rather see, a faded Kimono or a Coatsless, bedraggled man?

Cecil B. DeMille "stripped the four walls from married life" in "Old Wives for New." He's at it again, but this time the husband "gets his."

The man who "trimmed the market" wouldn't trim his beard—and it cost him his wife.

The Author

Jean MacPherson, who wrote the scenario for "Old Wives for New," is the author also of "Don't Change Your Husband."

She has transposed the conditions set out in the former picture, so that instead of reflecting the elements that make home unpleasant for the man, she shows how a man by his carelessness may make life mighty unpleasant for a woman. It is not a sequel to nor an answer to "Old Wives for New" but it is a mighty fine companion piece.

He could "smell" a "turn" of the market, but he couldn't down the smell of onions on his breath.

He could squeeze as close a deal on the Stock Exchange as old John D. himself, but he never wore creased trousers.

He like the untidy wife in "Old Wives for New" was a matrimonial bankrupt.

Did you see "Old Wives for New"? Then you can have a good laugh on "Hubby" when you see "Don't Change Your Husband."
