REFUGEES. Lorenzo Marquez, Oct. 9.-Hundreds of Boers, with their families, are flee-ing, to begin life again in some other country. Most have America as their ultimate destination. The refugees are not paupers. They are taking passage in French and German ships, and are willing to pay for the best accommodations. Special trains are engaged to meet the ships at Marsellles and carry them through France to Holland, their motherland, which is their first stopping-place in their search for new homes. But Holland is over-crowded, and is only a temporary asylum. The name America is on every lip. Two German ships left here last week carrying 1,200 Boers. They were closely followed by two French ships, with 950 souls from the Transvaal, mostly wo-men and children. All of these belong-ed to the better class of Boers, and all were bound for Holland. Between Striking and Non-Striking Coal Miners.

President Mitchell and His Party Have Gone to Scranton-A Great Demonstration.

Pottsville, Pa., Oct. 10.-There was a clash this morning between strikers and non-strikers at the Coxe Bros. & Company colliery at Oneida, Schuylkill County. The strikers gathered in large numbers near the colliery and endeavored to persuade men on their way to work to return to their homes. When they refused, a fight ensued, and both sides used sticks and stones freely, with the result that several were injured, though not seriously. During the fight two shots were fired. The officials of the mine telephoned to Sheriff Toole asking for protection for their men to work.

GREAT DEMONSTRATION. Scranton, Pa., Oct. 10.—All interest in the strike of the mine workers of the Lackawanna region today centered in the great parade and mass meeting arranged for this afternoon. President John Mitchell and his party reached here this morning.

harbor improvements. A bright little girl, returning from school, was asked by her father what she had been learning that morning.

"All of us been learning to spell," said she. "What did you learn to spell?"
"Learned to spell rat."

"Well, how do you spell rat?"
"R-A-T—rat." "Now, how do you spell mouse?" "Just the same, only in little smaller letters," said the little maid.

Annual Meeting of the Shareholders in Montreal.

rension Fund To Be Established-Change of Date of Annual Meeting-Directors Ro-Elected.

The 45th annual general meeting of the shareholders of The Molsons Bank was held Tuesday in Montreal. The president, Mr. W. Molson Macpherson, occupied the chair.

REPORT OF THE DIRECTORS.

The general manager, Mr. James Elliot, read the annual report of the directors as follows: The net earnings of the bank, after making full provision for bad and doubtful debts, amount to \$308,128 92, equal to about 13½ per cent on the average capital. This has been distribut-

ed by two semi-annual dividends of 4 per cent, and a bonus of 1 per cent, in all \$205,288 72; business taxes, \$8,-252 51; bank premises, \$20,254 68, and exceptional donations, \$13,250, leaving \$61,083 01 to be disposed of, \$50,000 of which has been carried to rest account. The balance, \$11,083 01 has been carried to profit and loss account, which, with the balance carried over from last year, now amounts to \$26,992 48. The premium obtained on the \$500,000 new stock, authorized by you at our last with the \$50,000 transferred from the past year's profits, now amounts to \$2,050,000, equal to 82 per cent of the

capita! We are pleased once more to record the fact that the officers of the bank continue to perform their duties with efficiency and zeal, and possess the con-

fidence of the board. The branches of the bank have been inspected once, at least, during the

It is with deep regret we refer to the death since last we met of our much-esteemed general manager, Mr. F. Wolferstan Thomas. His connection with the bank lasted for 30 years, during which time it grew under his able management from a local institution to its present position. Mr. Thomas' personality was well known, not only in this city, but throughout the Dominion, and his death was a loss to many important interests outside the banking

We have also to record the loss by death of Mr. Henry Archbald, a director of the bank for many years, whose caution and prudent counsel was much valued. Lieut.-Col. Henshaw was called to fill the vacancy on our

The position of general manager was filled by the appointment thereto of Mr. James Elliot, manager of the Montreal branch, who has been in the service of the bank for upwards of 40 years.

fluence and prominence I am happy to say that we were fortunate in hav-ing Mr. James Elliot, manager of the Montreal branch, ready to accept the position of general manager of the bank.

Death has removed from our board, I regret to say, Mr. Henry Archbald, one of our most careful and painstaking directors. He for years watched the affairs of the bank.

A bylaw will be submitted to you asking that the board be authorized to establish a pension fund for the benefit of the officers of the bank. It is usual now for banks to have a pension fund, and we have realized the hardship arising through not having one. I feel sure that our application will meet with your approval. I have much pleasure in moving the

adoption of the report. The motion was seconded by Mr. S. H. Ewing, vice-president.

The General Manager—We have two bylaws to propose. The first, which

is bylaw No. 2-we passed Np. 1 last year-reads: The annual meeting of the bank

shall be held on the third Monday in October in each year." On account of having so many branches, as we now have, spread over such a large extent of country, we cannot get the returns in in time perly for the second Monday, so that we would like to have the annual meeting take place on the third Monday in October. The bylaw was adopt-

The General Manager-Bylaw No. 3 reads: "The directors are authorized to establish a pension fund for the officers of the bank and to set aside annually, from the earnings of the bank, meeting, amounting to \$375,000, has such contribution as they may think been placed to rest account, which, proper for the said fund." The bylaw

> Mr. John Crawford was well satisfied with the financial statement, and in view of the position of the bank, he thought that a regular annual dividend of 10 per cent, payable quarterly, should be initiated.

The President-It is very pleasing to hear the shareholders move that resolution a year in advance, and we shall feel very grateful if we can offer the dividend to you next year, but you cannot expect it to come from me that such will be the case. As regards a dividend, of course, the first thing we have to do as your trustees is to take every year, and in the way we have been paying it in the past; but don't ask us to pay more than we feel warranted in doing, because safety is the great thing. As regards the increased capital of the bank, I remember Mr. Crawford's remarks last year in reference to it, and it might have been wise to have asked power to issue \$1,000,000 when we required; or \$500,000 at the time and \$500,000 in the future. But we required only the \$500,000, as shown by the statement, and so far we have not discovered that we require further; when that times comes we must ask you to extend that power to us. As to branches, I think there is no doubt this year. The year before the one just closed we discovered places which, owing to the growth of the country and

its enlargement towards the Pacific, made it necessary for us to open branches, and in connection with that we naturally had to strengthen our inspecting staff, which is of a very strong character, and we have every confidence in it. We fully appreciate what Mr. Crawford says; there is great danger, but we have got to face it, and must ask you to intrust us with its management as far as possible. As regards the banking act, which Mr. Crawford spoke about, I don't think bylaw. he expects me to answer him at the moment. (Mr. Crawford: "No. no.") It is very possible for varied opinions. We have not had occasion to take an opinion upon it, and at the moment I

am afraid I cannot give one. The motion for the adoption of the report was unanimously carried.

The meeting then proceeded to the election of directors, viz.: Messrs. Jas. P. Cleghorn, S. H. Ewing, Samuel Fin-ley, H. Markland Molson, W. Molson Maepherson, W. M. Ramsay, F. C.

At a subsequent meeting of the directors, Mr. W Molson Macpherson was re-elected president, and Mr. S. H. Ewing, vice-president.

A Pretty Fall Wedding Solemnized on Simcoe Street This Afternoon.

A beautiful home wedding was sol-

emnized at the residence of Mr. Peter W. Earle, No. 331 Simcoe street, this afternoon, when his daughter, Miss Tillie, was united in marriage to Mr. William J. Cooper, a popular young resident of Stanley street, South London. In the parlor, where the cere-mony was performed by Rev. R. D. Hamilton, under a draped canopy of Stars and Stripes and Union Jacks, a charming effect was obtained by an arrangement of palms and ferns. A dainty gown of white organdie, over white silk, trimmed with lace and chiffon, was worn by the bride, who carried Bride roses. She was attended by her sister, Miss Jessie, who was attired in white organdle, with pink, and carried pink roses. Two little maids of honor, Edith Nash and Care Chap-man, nieces of the groom, were prettily dressed all in white. Mr. Will Orchard was best man. When the ceremony had been concluded, the bridal party, numbering 60 guests, of whom many came from Detroit, Cleveland, Cobourg, St. Thomas, and other places, partook of a dainty wedding luncheon. An informal reception of congratulating friends occupied the time that intervened before the young couple left to take the express for the east, where they will spend their honeymoon. The gifts that they received attested their popularity among many friends, whose best wishes they will carry to their new home, No. 29 Stanley street, where Mr. and Mrs. Cooper will be at home after Oct. 24.

Local Legal Cases.

The following legal cases, of interest to Londoners, were heard at Osgoode Hall, Toronto, yesterday, the first being heard in the court of appeal before Justices Osler, Maciennan, Moss and Lister, and the second being heard in divisional court, before Justices Boyd, Ferguson and Robertson:

Marshall vs. London Street Railway Company—Heilmuth, for defendants, appealed from Judgment of Armour, C. J., entered upon verdict of jury for \$200. Action for damages for injuries sustained by plaintiff, who while riding her bicycle on Ridout street south, in the city of London, across the defendants' tracks, was, owing to their projecting above the surface of the street, thrown to the ground and injured. It is one of the brightest devices for creating laughter that has been introduced in melodrama for some time. The fun, and there is lots of it, is caused by the trials and tribulations of a newly-wedded couple, who are enjoying, or rather trying to enjoy their honeymoon by journeying over the continent. Every place they visit they are greeted with this everlasting "Honeymoon Smile." Hotel clerks, railroad conductors, hackmen, each, all and everyone give them a pitying, cunning, or quizzical smile. This keeps up until they become almost distracted. In order to deceive people, they hit upon the plan that when in public they are to quarrel, which they do, only to fly into one another's arms the minute they are

COULDN'T LACE HIS BOOTS.

Mr. P. L. Campbell, of Fortune Miada 6 5 from pain in the back.

Doan's Kidney Pills completely and permanently cured him.

Mr. P. L. Campbell, the well-known general merchant of Fortune Bridge, P.E.I., was troubled with severe pains in his back and hips for over two years.

At length he became aware of the fact that backache was simply a symptom of kidney trouble and did not hesitate long in taking Doan's Kidney Pills, and was

promptly and permanently cured.

Here is his statement: "I was in an awful state for two years with pains in my back and hips. Some mornings these pains were so severe that I couldn't stoop to lace my boots. I started taking Doan's Kidney Pills, and one box so completely cured me that I have been perfectly well for ever a year new and free from the least trace of pain."

INSURED FOR HER AFFIANCED

Alleged Attempt to Swindle Independent Order of Foresters.

Arrests in Chicago in Connection With the Suspicious Death of Marie Detenbach-Confession of One of the

Chicago, Oct. 9.-Frank M. Smiley, Released—By Hartford to Brooklyn, Harris, Gatins, Donovan, Steelman. By Marion to Worcester, George A. Grosart. By Montreal, James Garry. Suspended—By New York, J. B. Seymour, for balance of season of 1900. Contracts, 1901—With Chicago, Sam Strang, J. Kling, T. Hughes, W. M. Eason, E. Heimeri. the detective of the Mooney & Boland agency, who was one of the men arrested yesterday in connection with insurance frauds which ended with the death of Marie Defenbach, Aug. 25, has made a full written confession of his part in the crime. The confession, if true, implicates with him Dr. August Unger and Frank Wayland Brown, assistant manager of the Mooney & Boland agency, the other two men under arrest.

When the case goes on trial Smiley, it is announced, will turn state's evidence. States Attorney Deneen expects that all three men will be convicted of conspiracy to defraud the New York Life Insurance Company and the two benevolent orders, the Canadian Order of Foresters and the Knights and Ladies of Security, but it is very doubtful whether any charge of murder can, even formally, be made on

the evidence available. At least one other man connected with the Mooney & Boland agency is now under surveillance for suspicious actions at the time of Miss Denfenbach's death, and it is not improbable that several other conspirators may

yet be connected with the crime.

Last June Miss Marie Defenbach, of From Near-By Places. Chicago, who was described as a young lady of means who traveled a great deal and had no occupation, applied to the Independent Order of Foresters for an insurance of \$5,000 on her life. When the application reached the head office in Toronto, special inquiry was instituted as to the desirability of the risk, the amount of insurance applied for being unusually large for a risk in the female class. Dr. Shrender, one of the Foresters' regular court medical examiners in Chicago, reported most favorably upon the applica-ant's physical condition, and a bene-ficiary policy for \$5,000 was issued to Miss Defenbach.

In her application, Miss Defenbach directed payment of the insurance, in case of death, to whoever she might, by will, designate as its recipient, but early in August she had this changed, and "Frank H. Smiley," of Chicago, her "affianced husband," was named as the beneficiary.

YOUNG WOMAN DIED. Two weeks later, Miss Defenbach naw. died under circumstances decidedly by the most horrible agony. The attending physicians refused to issue a

certificate of death, but a coroner's jury, after the body had been embalmdecided that death had been due to dysentery. The next day the body was cremated. No time was lost on the part of the "affianced husband" in proceeding to collect the insurance. The suspicions of the officers of the Foresters in To-

ronto were aroused, however, and the detectives were engaged on the case. Meanwhile, payment of the insurance 1:314. Tortugas Castle, George Lebar, Pharoah, Race Bud and Charles Estes was rfused. It was soon discovered that Miss Defenbach was also insured in a New York company for \$5,000, having an-Khaki 1, Little Joe 2, Bramble Bush 3. plied for a \$10,000 policy, and in an American benefit order for \$2,000. The Time, :57%. Mudder, Glesseg, Virginia T., Sarey Gamp, Princess Mel, Otto Bell, Dream Life and Xerxes also ran. New York company paid the amount

of its policy into court under protest, and also started in to investigate. TWO MEN ARRESTED. A dispatch from Chicago announces the arrest of the "affianced husband," Frank H. Smiley, and Dr. August M. Unger, who are accused of conspiracy to defraud the insurance company and societies in connection with the wo-

man's death. A third person, for whom a warrant has been issued, is not yet under arrest. According to the theory on which the prosecution will proceed, the young woman was originally one of the quartet of conspirators. She had expected that her death was to be felgned, and that another dead body was to play the passive role of her cropse; instead of which, real death came to Lexington, Ky., Oct. 10.—The track yesterday was in fairly good shape. her. She left a will, which directed that a part of these insurance policies should be paid to Smiley and that her

body be cremated. SMILEY'S CONFESSION. Chicago, Oct., 10 .- Detective Frank H. Smiley's confession of the details, as he claims to know them, of the in-surance fraud conspiracy that brought death to Maria A. Denfenbach, was made public yesterday at the county jail, where he is confined with the other alleged conspirators. In his confession Smiley says that Unger and Brown had arranged to gain the insurance, and that they were to

vide it. Unger was to receive \$3,000 and Brown was to take \$7,000. Smiley asserts that he was only a tool in the plot, and that all he was to receive was \$1,000 from Brown for allowing himself to be known as the intended husband of Miss Denfenbach. ANOTHER VICTIM.

Information has reached the prosecuting officials that a young lady stenographer who had worked in the offices of a firm of insurance solicitors. and who had familiarized herself with their methods, was intimately acquainted with one of the three men now under arrest in the Denfenbach case. Some time ago this mysterious young woman, who is thought to have carried considerable insurance on her life, left suddenly for California, seeking health, and 24 hours later word came from Chicago that she had died suddenly on the train. But before she died, as it developed later, the close friend, who now is involved in the Defenbach case remarked to another young woman acquaintance that she had gone into a "decline," and that he feared she could not live long. As events proved, he was a good prophet.

A PRECAUTION. The three prisoners, Dr. A. M. Un-ger, Francis Wayland Brown and Frank H. Smiley, remained in the county jail all yesterday. The prose-cution swore out two additional warrants for the trio, one warrant charging them with conspiracy to get \$5,000 fraudulently from the Canadian Order of Foresters, and the other with the same acts in connection with the in-suring of Miss Defenbach for \$2,000 in the Knights and Ladies of Honor. The warrants will not be served until Brown or either of the other accused men seems likely to gain his freedom on a writ of habeas corpus.

Mems on the Merry War.

One-man-one-vote this time. bringing in of trainloads from all over the Continent to vote early and often, as when the Conservatives were in

Perhaps the greatest regret of our esteemed friends the enemy is that this time they have not the control of the election machinery. To recall what it eant against Liberal candidates, one does not need to travel a hundred miles from the capital of Western Ontario.

Our contemporary the Free Press ceases caressing its venerable beard long enough to show its uneasiness over the prospects. For instance, in today's issue alone, it makes three bad breaks. (1) It is juvenile enough to say, "All Grits are not disloyal, but all disloyal men are Grits." And yet under Sir Wilfrid Laurier more has been done than ever before to cement the Empire! (2) It follows Tupper in his poor race cry tactics, by inviting Englishmen to vote for Toryism, on the ground that Englishmen do not get enough offices. Is it not time our contemporary became Canadian? (3) The Free Press also feels in the mood to ask "Is there one Minister who is not better off to more than the extent of his salary?" Let the Free Press take a little courage in its right hand. Let it speak out. We ohallenge it to name any one Minister who has made money dishonestly. If it does not do so, its arithmetic is the addition of cowardice

What sort of campaign, here and elsewhere, shall it be? Bright and sharp, a little hot, perhaps, now and the rank of the leaders of men in Canthen, but broadly good-natured? Or shall it be needlessly bitter? The Advertiser's judgment, even from the standpoint of good tactics, is in favor of the former idea. We have all to live together after the election is over, and there is not the slightest sense in importing too much personal bitterness into the contest in London, or in any for their coming to Canada. From other constituency. Votes are not in- this statement the following particuuenced that way. Our esteemed opponents, when they look a month piements the Doukhobors now possess, ahead, may be excused somewhat if and the amount they hold lost they break out occasionally; but for Liberals, about to achieve an important line of victories stretching from ocean to ocean, the natural mood and the best policy are to be good-natured and persuasive, yet alert and energetic. until the last moment of the final hour of the day of polling.

Rebellion Suppression Equip.

Some of the Opposition papers, with as little judgment as Mr. Beattie, have the temerity to remind the electorate of what the Prime Minister said of the bility for the outbreak in the Northwest in 1885. Col. Denison, in his book, thus confirms the impression which Sir Wilfrid Laurier and very many others in Canada entertained with regard to the criminal neglect of the authorities at Ottawa at that time:

"The storm burst on March 20, 1885.

A party of police from Fort Carlton vent to Duck Lake to remove some Government stores. With them were volunteer company from Prince Albert, consisting of 40 men. They ere met by a largely superior force half-breeds, an altercation took place, firing began, and in a few minutes eleven were killed and three wounded. The police had to retreat. The news was flashed to Ottawa, and Government found an expensive and troublesome campaign on their The whole dispute was over some 40,000 or 50,000 acres of land, in wilderness of tens of millions of acres or which the Government were cryng for settlers. It cost Canada the lives of 200 of her people, the wounding of many others, the expenditure of about \$6,000,000 in each, and losses of time and business that cannot be esimated. When it was all over the Government offered free to the voluneers 1.800.000 acres of the land if they whole dispute was mainly about some red-tabe regulations as to surveying ome forty or fifty thousand acres of land on which people were already settled. It is not often a country suf-

This explanation is exactly in accord with the views always entertained by Sir Wilfrid Laurier. Liberal speakers would do well to clip it for reference.

There is another matter on which the Opposition has had much to say. They have criticised without stint the conduct of the militia officers who arranged for and sent out the emergency rations to the troops in South Africa. For the cake of argument, let it be admitted that Dr. Neil, the medical erpert, who has been in the service of the Dominion for over a quarter of a century, was wrong when he recommended the food, and that more care might have been exercised in this matter. It would be the one mistake in the whole equipment of the army of 4.000 men who were sent to South Africa. In all other respects there has been nothing but praise for the staff of the department, who, working early and late for many months, completed task of a magnitude such as had

wer been undertaken in Canada be-

not only of the Government of Canada, but of the imperial authorities. Col. Denison, who was in charge of one regiment in the Northwest expedition in 1885, shows that the severe critics of the department at the present time had in that time far more reason to complain, but they were not heard from. Referring to the supplies handed out to the cavalry, Col. Denison

We were issued blankets that had been condemned, in most of which there were holes, more or less. I insted on an extra supply, and obtaind three for each man, and as the holes ere not all opposite one another they were all some use."

Then the water bottles all leaked, and had to be thrown away as useless, and, generally speaking, the equipment seems to have been very poor. shortcomings of 1885 are mentioned here as a setoff to anything that may have been found deficient in the equipment of the men sent to South Africa; but we give Col. Denison's independent testimony with the object of showing the critics that it becomes them to be modest in their cavillings, for the past record, either in governing the Northwest or in equipping the forces when a rebellion was the direct result of their misgovernment, is not such as to command public respect or make it wise for them to set their friends up as infallible administrators, who would have succeeded where the medical director of the Canadian militia has fallen

The Premier's Popularity.

Sir Wilfrid Laurier has represented the same constituency for 23 years, and when he went down to speak to his constituents the other night 15,000 turned out to welcome him. The longer the Premier holds the seat, the bigger become his majorities. He has been three times elected by acclamation; in 1887 his majority was 1,927; in 1896, it last year, and is now 12,110. rose to 2,191, his opponent losing his deposit. It would be a graceful thing if the Conservatives were to permit the Premier to be returned without opposition once more. He cannot be beaten. His popularity where he is best known is another evidence of the power of Sir Wilfrid's charming personality. and ability to lead his fellow-men. We have had but one other such men in ada-Sir John Macdonald.

Almost every village has a mowing machine, and one has a seeding machine, which have proved such a success that the other villages will certainly obtain them next spring. The Doukhobors, contrary to the prophecies of those opposed to the settlement of these continental Quakers, are fast learning the English language, sending their children to schools as fast as schools are established, and adopting Three Murders in Manitoba-The Kenmodern implements for the cultivation of their farms. Passionately fond of agriculture they are, and will desire at an early day to devote all their energies to their homesteads. During the last year, however, their services have been gladly sought by their more advanced neighbors, who, without it, would have had great difficulty in sav-

Few people in Camada have any idea of the great public work that has now been entered on at Montreal. By agreement with the harbor commissioners of that city, and with the sanction of the Dominion Government, what I knew Bresci, but I know of no plot is known as the Connors' syndicate has being hatched here by him, or any begun the construction of terminal fabegun the construction of terminal facilities, elevators, etc., at that port, so that the best possibile facilities may be provided both for the storage and loading and unloading of freight. The work involves the expenditure of nearly two million dollars, independent of the cost of a fleet of steam vessels and steel barges, which will be operated in connection with the undertaking. The syndicate is composed of United States capitalists, who have faith in the future of this country, and who are prepared to take considerable risks because of the bright prospects for the future of the Dominion under the new condition of affairs.

The purpose is to advo-cate the abolition of all government restriction and the substitution of indvidual liberty. When it comes to the matter of killing a ruler we are divided; some approve of it, and some do not, because it is likely to throw discredit on us and our work. If an Anarchist kills a king he does so of his own volition and this, I believe, was done in the case of King Humbert.

indicate murder. YOUTSEY ON TRIAL.

Georgetown, Ky., Oct. 10.—The evidence against Henry E. Youtsey, charged with being a principal in the murder of Gov. Goebel, has begun. John Ricketts, of Knox county, testified that Youtsey told him the only way to settle the contest was to put Goebel out of the way; that Goebel could be killed from the executive building, and the man who fired the shot could escape through the base-ment; that his (Youtsey's) job depended on this contest and he wanted it settled his way. He said Youtsey posted men in the hallway of the executive building, and told them some-

thing was going to happen. Sam Shepard, of Frankfort, said he saw Youtsey about a minute after the shooting, running through the hall of the executive building from the east entrance, with a pistol in his hand. Arthur Goebel was called, and said: 'I talked with Youtsey the day he was arrested, late in the afternoon, in the jail in Frankfort in reference to the

murder of my brother.' Just at this point Youtsey arose behind his attorneys, and in a loud voice said: "It is untrue; it is a lie; I never spoke a word to that man in my life, nor he to me." Col. Crawford told him to be quiet and sit down, and others took hold of

"I will not sit down; I never said a word to that man; it is untrue." He was shouting by this time, and every one was becoming excited. Youtsey's wife sprang to his side, and while endeavoring to make him sit down, could be heard saying. "Now you have killed my husband, I suppose you are sat-

Then Youtsey hysterically shouted again, "I am innocent; there is no blood on my hands; these men are swearing my life away." Two or three deputy sheriffs went over and grabbed him. He struggled wildly, and said, "Let me alone; I will not sit down."

Arthur Goebel meanwhile sat Spyhnx-like in the witness chair, and never turned his head. Finally, after Youtsey was forced into a seat he shouted again: "Goebel is not dead, all the demons in hell could not kill

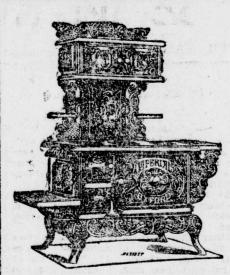

him."
"Mr. Sheriff, if the defendant does not behave himself, put handcuffs on him," said Judge Cantrill. Youtsey settled back in his chair, closed his eyes and seemed to be in a state of collapse. He waved his hand-kerchief above his head in an aimless sort of way and groaned and cried hys-

terically. The court was adjourned on account of the defendant's condition.

WEEKLY REVIEW.

Wheat-Deliveries for the week just closing have been fairly good, but not quite so big as last week. The demand was good, and prices about the same. Sales ranged from \$1 05 to \$1 10 for milling samples, the majority of transactions being at \$1 08. Few grades sold at 90c to 95c.

Oats-The demand and supply were both lighter and prices were steady, at 70c to 72c, the close of the week witpessing the lowest of the week. Barley-Only a few small lots came in; these were colored and only fit for

feed. The price paid for them was 70c to 75c; demand light. Peas-Several small lots were mar-

keted at 80c to 84c for poor and 90c to 95c for milling samples.

Buckwheat—Two loads were the only receipts; 85c and 95c were the prices

No corn or beans offered. One load of damp, weedy rye offered, and was sold at \$3, private sale.

None of the regular market men cared to bid on it. Hay-Sales ranged from \$7 to \$8 per Receipts were uneven and the price easily affected.

Dressed hogs sold at \$7.75 per 100 lbs, and live ones at \$6. The demand for both was good and the supply light.

15c to 20c. Cheese, dull and weak; large, 10%c; small white, 11c; large colored, 10%c; small colored, 11c. Young pigs sold all the way from \$425 to \$6 per pair, according to size The inquiry was large,

the price restricted trade. All that of-

MAY BE REPEALED

Special Charters of the M. C. R. G. T. R. and Lake Shore

Granted by State of Michigan May Be Abrogated.

Detroit, Oct. 10 .- Railroad Commissioner Chase S. Osborn, State Treasurer George A. Steel and Secretary of State Justus S. Stearns, comprising the special commission to confer with representatives of the interested railroads relative to the repeal of the special charters of the Michigan Central, Lake Shore and Grand Trunk railroads in Michigan, submitted a report to Gov. Pingree yesterday afternoon recom-mending that the legislature at its coming special session repeal the char-

The report recommends that this matter be referred to some court of competent jurisdiction. Despite the absence of specified terms

it was pretty clearly intimated that the Michigan Central would want be-tween \$2,000,000 and \$3,000,000 to relinquish its special rights, while the amount which the other roads would claim may be calculated on damages amounting annually in the case of the Lake Shore to about \$50,000, and the Grand Trunk at \$35,000.

"If the legislature acts upon our re-commendation," said a member of the commission, "the state will regulate the fare to be charged passengers in accordance with the earnings of the roads. This will probably bring the Michigan Central rate down to 2 cents a mile, the Grand Trunk to 2½ cents, and the Lake Shore to 2 cents."

RAILWAY NOTES. The G. T. R. Company are laying down 80-pound rails on the twenty miles of roadbed between Fort Erle

and Welland Junction. William Oldham, who, for over twenty years, has had charge of the G. T. R. town freight warehouse at the Cromwell street depot, Sarnia, has resigned his position and retired from active business. Mr. Oldham is one of the oldest and most respected employes of the Grand Trunk.

STOLE BY WHOLESALE New York, Oct. 10 .- William Schreiber, the clerk in the Elizabethport, N. J., Banking Company, who failed to return from his two weeks' vacation, made raids on the institution until he had filched between \$100,000 and \$125,-000. He lived a "fast" life.

THREE BURNED TO DEATH. Boston, Oct. 10 .- Three persons, a father and two sons, were burned to death in a shanty in Roxbury early this morning. The victims were: Ed-ward Touzalin, 45; Edward Touzalin, jun., 7; James Touzalin, 14. Several years ago Touzalin's wife was burned to death through her clothing catch-

Viceroys Threaten to Resign Unless the Imperial Court Returns to Pekin.

Pekin, Oct. 6.-The Pao Ting Fu expedition is waiting for the Germans, who are not ready to start. It is reported that there are 12,000 Chinese imperial troops at Pao Ting Fu. General Chaffee has returned here.

The Shanghai correspondent of the Times, wiring Monday, says it is reported that the allies have arrived at Pao Ting Fu without opposition. The Times has the following from Tien Tsin, dated Oct. 7: "Three French battalions started yesterday for Pao Ting Fu. The British are waiting for the Germans, but may start without them."

TO LOSE THERR HEADS. Pekin, Oct. 7-Via Tien Tsin, Oct. 8, and Shanghai, Oct. 9.—A response to the German demands has been transmitted to Li Hung Chang. This says that Ying Nien, president of the cen-sorate; Kang Yi, assistant grand sec-retary and president of the civil board, and Chao Shu Chao, president of the board of punishment, will be decapitated, and that Prince Chwang, Duke Tsai Lan and Prince Yih will be sentenced to life imprisonment, and that Prince Tuan will be banto the imperial military post roads on the Silberian frontier as a further punishment for aiding the

MORE "IMPERIAL" YARNS. Trustworthy Chinese reports say that the downger empress is seriously ill at Tai Yuan Fu, Province of Shan Si, and the free hand of the emperor in affairs of state of late is regarded as confirmatory of these reports.

The Berlin correspondent of the London Standard understands that the Chinese imperial edicts are regarded there with skepticism, and that Count Von Waldersee has been instructed to resume operations.

The London Standard's Tien Tsin correspondent, wiring on Sunday, says: "I hear that the Chinese are concentrating at Hwang Lu Pass, leading into the province of Shan Si, with the intention of opposing any attempt of the allies to pursue the imperial

ARE QUICK TO SEE

Good Doctors Are Quick to See and Appreciate Real Merit in New Medicines.

Stuart's Dyspepsia Tablets are a discovery of great value to the medical profession and the public. They are an unfailing specific in all cases of dyspepsia and disordered digestion. Almost everybody's digestion is disordered more or less, and the commonest thing they do for it is to take some one of the many so-called blood purifiers, which in many cases are merely strong catharties. Such things are not needed. If the organs are in a clogged condition they need only a little help and they will right them-Cathartics irritate the sensitive linings of the stomach and bowels and often do more harm than good.

Purging is not what is needed. The thing to do is to put the food in condition to be readily digested and assimilated. Stuart's Dyspepsia Tablets do this perfectly. They partly digest what is eaten and give the stomach just the help at needs. They stimulate the secretion and excretion of the digestive fluids and relieve the congested condition of the glands and membranes. They put the whole digestive system in condition to do its work. When that is done you need take no more tablets, unless you eat what does not agree with you. Then take one or two tablets-give them needed help and you will have no trouble.

It's a common sense medicine and a common sense treatment, and it will cure every time. Not only cure the disease, but cure the cause. Goes about it in a perfectly sensible and scientific

THE MISSIONARIES KILLED.

New York, Oct. 9. - A complete list of Protestant missionaries known to have been killed from the beginning of the Boxer movement to Sept. 5 has been received by the American Bible Society from Rev. John R. Hykes, D.D., its agent at Shanghai. They number 54. Besides these there are named 124 others, very few of whom will escape. Of these 66 are men, 73 women (41 married and 32 single, and 39 children. The list contains 69 Americans, 25 men, 24 women (16 married and 8 single), and 20 children. The casualties occurred principally in Shan Si, Chi Li and Tai Yuen Fu. There are still some misto resign unless the court returns to get to places of safety. Robert E. Pekin. Presbyterian board of foreign missions, today received the following cable dispatch from Rev. George F. Fitch, from Shanghali: "Killies, Leonard, McKillican, Mackey, wintering Pekin." The persons named are all members of the Pekin mission. They are Rev. and Mrs. C. A. Killie, Miss Eliza E. Leonard, Miss Jane McKillican and Miss Maud Mackey.

SAFE! San Francisco, Oct. 10.-Among the arrivals from the Orient on the steam-er American Marau is F. D. Gamewell, to whose energy and engineering skill the safety of the beleaguered Pekin legations till the arrival of the allied forces was in a large measure due. Mrs. Goodrich, a missionary, and her three children have also arrived here from Pekin. Rev. J. A. Miller and

Chafing and

Exasperated by Summer Heat Became Intolerable-Relief Is Prompt and Cure Certain When Dr. Chase's Ointment Is Used

To many fleshy people summer is the time of much misery from chafing and skin irritation. Some complain particularly of sore feet, caused by perspiration while walking. Others suffer from itching skin diseases, such as eczema, salt rheum, rash or hives. Persons who have tried Dr. Chase's Ointment for itching or irritated skin are enthusiastic in recommending it to their friends, because it is the only preparation which affords instant relief, and speedily brings about a thor-

ough cure. As a matter of fact, Dr. Chase's Ointment has come to be considered the standard preparation for Itching skin diseases, and has by far the largest sale of any similar remedy.

Try it when the feet are chafed, and sore with walking. Try it when the skin is chafed, inflamed and irritated. Try it for pimples, blackheads, hives, eczema, salt rheum, and every form of itching skin diseases. It cannot fail

Mr. M. A. Smith, Brockville, Ont. writes: "I suffered many years with chafing, burning, and itching of the skin, and never found anything to do me good, or even give relief, until I used Dr. Chase's Ointment. I would advise all sufferers, and especialy bicycle riders, to always have it on hand."

This is a copy of the letter from Mrs. James Bradley, Amberley, Huron county, Ontario: "I was afflicted with eczema for

over six months, and it was so bad that my head was a solid mass of scabs, and would ulcerate when scratched. The itching was intense. I could not stand it. I had dectored for four months, and it did not do me any good. I had to give up housework and go home to my mother. I tried nearly everything, but could get no relief. Seeing your advertisement in one of the Toronto papers I decided to try Dr.

Chase's Ointment.
"I got relief from the first application, and it only required one box and part of another to cure me. I am sure that Dr. Chase's Ointment is worth

its weight in gold."
Dr. Chase's Ointment has never yet been known to fail to cure piles. It is the only remedy guaranteed to cure piles of every form. 60 cents a box at all dealers, or Edmanson, Bates & Co., Toronto.

Mrs. O. Cady were the other missionaries on board the American Marau. Dr. Miller and wife were stationed at Itehing Skin Pao Ting Fu, 100 miles distant from Pekin. On account of Mrs. Miller's Pekin. On account of Mrs. Miller's illness they left for the coast about the last of May. The day after their departure the railroad track was torn up. There were three missions and fifteen missionaries at Pao Ting Fu. The Rev. Dr. Miller is certain that none of them is now alive. Miss Ogborn comes from Central

China, and Mr. and Mrs. Cady from Western China. **Principal Grant on** Sir Wilfrid Laurier.

In view of the campaign started by Sir Charles Tupper against Sir Wilfrid Laurier, and carried on with virulence by the allies and lieutenants of the Opposition leader in the Province of Quebec, nothing could be more appropriate than to reproduce the language of the Rev. Principtl Grant, of Queen's University, Kingston, when declaring the reasons for conferring on the Prime Minister the degree of LL. D. in the fall of 1898. Dr. Grant said:

"One reason was that Sir Wilfrid represents in himself the best spirit of the two great races, the union of which is necessary to the making of Canada. He is the first by birth, for he is true to the best ideals and spirit of France, just as every true Scotchman is true to the best spirit of Scotland, and the Englishman to that of England, and the Irishman to that of Ireland, and the German to that of Germany, without one of them being any worse Canadian, but all the better -(applause)-because the man that is false to the highest feelings, the traditions and sentiments, and ideals of his race cannot be a true man. But while he has that spirit by birth, he has another by deliberate choice. Knowing that on this continent everyone is handicapped who does not know the English language and literature, he has studied the great masterpieces of British literature, and so is able to speak from the pure well of English undefiled. And he has studied the great models of British statesmanship, as affording the best school for the history of constitutional development and constitutional liberties. And thus Sir Wilfrid is able to understand and interpret the best spirit of each of the two races to the other. And that is what we need above everything else in Canada." (Applause.)

In the course of an eloquent reply, which formed afterwards the text of purchasing.

wife, Miss Kate Ogborn and Mr. and an attack upon him by the leading Conservative journal in Montreal, Sir

Wilfrid said: "Let me remind you, my own fellowcountrymen, that you belong to a proud race. You belong to a country which is descended from the best of all the races of Europe. We are Canadians, and the term Canada does not apply to one class, or to one race, or to one creed. Of course, I agree in everything which was stated a moment ago by Principal Grant; woe to the man who would forget his origin, and still more woe to the man who would allow his origin to pass before the broad duties of Canadian citizenship." Continuing, Sir Wilfrld made a happy reference to the universality of the English language, and urged upon the young men the duties of patriotism.

A Toronto Druggist Tried All the Catarrh Remedies Known. SAYS JAPANESE CATARRH CURE IS THE ONLY PERMANENT CURE.

Mr. John Wylie, the well-known sen-ior clerk for Mr. George Marshall, the leading Queen street east druggist, Toronto, writes: "When I say I believe Japanese Catarrh Cure the only cure for catarrh on the market, I think I know just what I am talking about.I have tried every remedy which I thought would do me good, and also several doctors, but only received a little temporary relief. After hearing several of our customers, who had used Japanese Catarrh Cure, speak so highly of it, I tried it, From the very first it gave me very much relief; soon the dropping in my throat ceased, and now, after using in all four boxes of Japanese Catarrh Cure, find myself completely cured of this most disagreeable disease, after suffering for years. I have since recommended it to some of our customers, and know of several of them whom it has cured.' Japanese Catarrh Cure permanently cures catarrh and catarrhal deafness. All druggists; 50 cents. Will Be Enlarged at Once-Forty-Five Feet To Be Added, Making & First-Class Stage.

Next week there will be started a series of improvements at the London Opera House which will remove most of the objections against playing in it which have been made by some of the first-class companies on the road, and which will make it one of the finest upstairs theaters in Canada. A new back wall will take the place of the present one, adding over 45 feet to the space now extending between the footlights and the rear wall. With the area of the dressing-rooms which will be constructed subtracted from this, there will remain a stage ample in depth for the presentation of even the most elaborate scenic productions. First-class facilities for the handling of scenery will be provided, and if the London Opera House bookings do not include some of the best attractions on the road, it will not be because of any unsuitableness in the house. The work of reconstruction will be finished be-fore Christmas, and will not interfere in the least with the playing of the many excellent attractions already

hola's Secret,

A Romance.

But Dolores knew that in the squire's present state of mind the lively and at times half mulicious conversation of Lola would be intolerable. There was nothing else to be done but ask the am sure-Iyoung lady to accompany her while the operation of packing was going on. She would have liked, however, some not?" little time to collect her thoughts. To others it seemed that she was simply going out for an evening's amusement, and that her chief anxiety was her dress; but in reality she was going out knowing that the happiness of her life was at stake, going out in the hope that she would discover whether Sir her father!" that she would discover whether that Karl cared for her. No wonder that she looked grave and thoughtful. She she looked grave and thoughtful. She quoted.

The beautiful French girl, with a slender fingers she held a lovely ripe peach, talking while she ate it; and Dolores, looking at her, thought she was more like a picture than ever. "You are debating in your mind, Dolores, about your dresses," observed

Lola. "I can see the perplexity in your Let me decide. But Dolores had already decided. She took from her wardrobe a dress of creamy slik with rich lace trimmings, the only ornaments she chose being a

beautiful parure of pearls. The dark

eyes watched steadfastly.
"Evidently," said Lola to herself, "Dolores means to eclipse us all to-Now, for whom is she going to dress in this style? Not for Lord Rhysworth—that is certain, for he is not coming. It must be for Sir Karl! I must put a stop to that. Delores," she said, aloud, with the girlish frankness no one could better assume, "you have selected your very prettiest dress; yet Lord Rhysworth will not be with

But Dolores was on her guard, and

made no answer. She was more silent than usual ail the way to Beaulieu. Lola laughed, talked, told her some absurd anecdotes of the Parisian visitors: but on the sweet face of Dolores there was a look of anxious thought. What would the evening bring for her?"

When they reached the hall, Dolores, after exchanging greetings with Ma-dame de Ferras, went straight to her room, and Lola went to dress also. On that evening Miss de Ferras wore a dress of white and gold, with gold ornaments, and her favorite flowers, red roses, in her hair. She had never looked more brilliant, more beautiful, or more animated. Yet, when the two girls stood together, it was almost impossible to judge between them. Dolores, with the graceful silken folds of her dress falling around her, her golden hair and flower-like face, was perhans more bewitching in her way. Lela was dazzling; she reminded one of a rich tropical flower. Dolores was the type of a sweet English girl, fresh and pure as a lily. No one thought either of innocence or simplicity when looking at Lola.

Dolores had vowed to herself that she would not be shy, cold or proud to Sir Kirl, that she would give him every of portunity of speaking to her, and that she would be as amiable as possible to Yet when the first sound of his valce came to her, she grew faint and sick at heart; she seemed to realize all at once the great stake she was to win os jose that night

He did not come straight to her. Lola had gone forward to meet him, and kept him for some minutes in close conversation about the French guests. "You must talk to Madame Glenlise," ne said. "She was a great favorite the Empress, and knows more

about the French court than anyone She was a devoted imperialist, continued Lola. "She would give he last shilling to the cause. When you have heard her speak of the Empress you will be compelled to love her."
"Be explicit, Miss de Ferras. Love whom? Madame Glenlise or the Em-

The Empress, of course! You know I love the Empress, too. Her life always reminds me of a tragic poem. I think she is the most beautiful, the most charming woman who ever graced a throne, and if you wish to please me," she paused and looked at him archly, "that is, if you really wish to please me-y"
"Can you doubt it?" he said, with

laughing gallantry.

"Have you any other commands," he asked, with a low bow. "I will tell you as the evening goes on," she replied, and her dark eyes seemed to flash light into his.

He said to himself that to look at the fair angelic beauty of Dolores

after a flash from those dark eyes was like changing the sultry beams of a ot noonday sun for clear calm moon-Unfortunately he put his thoughts into words.
"How beautiful Miss Cliefden looks

conight! What a poetical face she has." he said. The remark gave Lola the very opening she wanted.

'Yes; she looks more like a white rose than ever. But, do you know, Sir Karl, I have more than a suspicion that the white rose is won already?" Was it the changing light of the chandelier, or did his face really grow pale as she spoke? She could not tell.
"Yes," she continued, "the wars of the roses-so far as Dolores and I are concerned-are, I believe, ended."
"You speak in riddles, Miss de Fer-

ras," he said, "and I detest riddles. What do you mean?" There was some little emotion in his voice. 'You must promise me not to tell,' she replied. "I have perhaps no right to speak, and mind, Miss Cliefden herself has not told me, but I know-I

"You know that I shall respect your confidence," he said. "Why should I

"I believe," she went on, "and I have every reason for my belief, that there is some understanding or promise between Lord Rhysworth and Dolores

Sir Karl felt that he had lost the only treasure life held for him, for a sudden conviction had come to him that he loved Dolores Cliefden as he should never love anyone else in the world. It was with something like wonder that Lola watched the handsome face of her companion. There could be no mistake as to the agitation and annoyance expressed there. She asked herself if she had been blinded, mistaken, misled. Was it possible that he cared for Dolores after all?

"Are you quite sure of what you say, Miss De Ferras?" he asked pres-"Quite sure," she replied; "and an excellent match it will be. I laugh now when I remember that on my re-

turn from Germany I considered Lord Rhysworth the most eligible parti in 'Do you not now?" he asked, trying

to speak carelessly.
She looked him full in the face as she answered, her eyes flashing-"No, most decidedly I do not."

CROPS IN INDIA.

London, Oct. 10 .- Lord George Hamilton, secretary of state for India, has received the following dispatch from the vicercy of India, Lord Curzon of Kedleston: "The general condition of the crops is excellent, and, except in a part of Bombay, famine conditions are disappearing. The total number on the relief list has fathen to 2,746,000." GREEK CURRANT CROP FAILS. London, Oct. 10 .- The report that the

Greek currant crop is an entire failure is confirmed. One dealer says that instead of 250,000 tons it will not amount to 40,000. He adds that the Christmas market here alone usually requires 50,000 tons. There is no reserve from last season's crop, and the present price is \$30 a hundredweight.

BRITAIN'S FOREIGN POLICY. London, Oct. 10. - Mr. Chamberlain, had never yet tried to attract him; but she resolved that she would make the most of her beauty on this eventher most of her beauty on this eventher most of her beauty on this eventher most of anger and annoyance, tache—words of anger and annoyance, ery great country in Europe, and on the heart why something more than friendly terms. secretary of state for the colonies, speaking at Stourbridge, said: "Great which pierced her to the heart. Why something more than friendly terms should he care? What could it possibly matter to him? beriain ridiculed the attempt of the opmosition leaders to hold him up as a bogey to foreign nations. "Great Britain's foreign policy," he exclaimed, "is in the hands of Lord Salisbury, and I have not the presumption to meddle

with it. BRILLIANT STRATEGY. London, Oct. 10 .- Lord Charles Beresford has amazed the naval world by the brilliant strategy with which he won the snam battle in the recent maneuvers of the British fleet in the Mediterranean. His tactics have been pronounced the eleverest in naval annals. The fleet was divided into parts. Beresford in command of one and Admiral Fisher of the other.

Beresford was blockaded in the ports of Mitylene by Fisher's torpedo boats, and Fisher's fleet was hovering about and lying in wait outside. Beresford's task was to coal his fleet, get out of the harbor and attack Fisher. By putting lights on launches to make them resemble ships in the darkness. Beresford decoved the torwith every light out on his own war-Fisher's squadron was Lemnos. steaming in parallel columns, and Beresford maneuvered his shins so skillfully that the admiral had no opportunity to change his formation or to do anything but clear decks for instant action. Beresford ran his ships in single file right in between the lines, enabling him to fight with both broadsides, while each of Fisher's vessels could use but one. The victory was so complete and overwhelmthat the umpires awarded it on the spot to the dashing hero of Alexandria bombardment, who ran the Condor in right under the guns of the Egyptian fort and battered it to atoms at close range.

BRITISH ELECTIONS. London, Wednesday, Oct. 10-3 a.m.-From the returns received at midnight, it appears that the government gained two seats in yesterday's polling in the parliamentary general election. These are the Middleton division of Southeast Lancashire, where Mr. E. D. Fielden defeated Mr. J. Duckworth, Liberal, who represented the constituency in the late parliament, and Monmouth, where Dr. Rutherford Harris, who now enters parliament for the first time, received 4,412 votes, as against 3,720 cast for his Liberal opponent, Mr. Albert Spicer, who represented Monmouth since 1892.

NOTEWORTHY RESULTS. Among the other noteworthy elecions was that of Mr. Wm. St. John Brodrick, under secretary of state for foreign affairs in the Guildford division of Surrey, with a majority of 2,207 over his Liberal opponent, Mr. A. W. Chapman, and that of Sir John Ed-ward Ellis, Liberal, in the Rusheliffe division of Nottinghamshire. Mr. Ellis has represented Rushcliffe since 1885. The Ministerialists, in fighting him, made effective use of his pro-Boer let-ters, recently published by Mr. Cham-berlain, and the majority he secured at the general election of 1895 wah reduced by about 187 votes.

Considerable adverse comment, Con-servative as well as Liberal, has been caused by the declaration attributed to Mr. Chamberlain in a recent speech. "A seat lost to the government is a seat sold to the Boers." Mr. Chamberlain writes to the Daily Mail this morning, repudiating the statement. and explaining what he really said was a quotation from the mayor of Mafeking, "A seat lost by the government is a seat gained by the Boers." THE OCEANIC'S CLOSE CALL.

New York, Oct. 10 .- The Evening world has a copyrighted dispatch from Queenstown, saying: "The glant White Star liner Oceanic, which arrived here today had a narrow escape from shipwreck off the coast of Ireland. While approaching the coast at 4 a.m., and trying to pick up the Fastnet Light, breakers were suddenly seen crashing on the rocks ahead, and the vessel touched bottom. Capt. Cameron immediately reversed his engines; the watertight compartments were closed; the lifeboat was cleared away and the

crew were at quarters at once. The big ship got back into deep water without being injured. There was no BUBONIC PLAGUE IN BOMBAY. "COWSLIP FARM." A highly-satisfied audience witnessed

the production at the London Opera House last night of the pastoral comedy-drama, "Cowslip Farm," with Edward Warren and Marguerite Hammond in the leading roles. The play is an amusing story of rural life, and is fully up to the average of its kindred productions. Mr. Warren, as the gawky but good-hearted old maid, and Miss Hammond, as the frolicsome Trix, supplied the main portion of the amusement, Miss Hammond's descriptive song of "The Way They Do on the Stage," was especially good. Lawrence Wakefield and Roy Stanton gave laughable representations of jealous country swains, and Edmund Marshall was convincing as that uncommon figure in drama, the villain who is not wholly heartless. The balance of the company filled their parts acceptably. The company play this afternoon and evening, and they should receive good houses at both.

churches was held in the South London Church Tuesday afternoon and evening. The afternoon meeting was presided over by Mrs. (Hon.) David Mills. Papers from the different circles, relative to their work, were read by Mrs. (Dr.) Sowerby, of Taibot Street. Miss Hendrie, of Maitland Street. The interest of the meeting was intensified by and Mrs. Sharp, missionaries at St. Peter's Reserve. A bountiful tela was served, and sociability prevailed until the hour for the evening meeting, of which Rev. Mr. Walker, pastor of the South London Church, was chairman. After devotional exercises a solo was beautifully rendered by Mrs. A. E. Brown. Then Rev. W. J. Clark, of the First Presbyterian Church, was introduced. Mr. Clark was listened to with close attention, as he spoke of the different kingdoms of the world becoming "the kingdom of our Lord and of his Christ," and the faithful discharge of every duty, in the condition in which

DIED IN DAKOTA. On Monday last the death occurred, after a brief illness, of Mrs. Catherine Brown, relict of the late Robert Thacker, of Hamilton, North Dakota. Mrs. Thacker was known to a very large circle of friends in the counties of Oxford and Middlesex. Her husband, who resided for many years in London, Caradoc, Woodstock, Otterville, Tavistock and other portions of Western Ontario, died a little over three years ago, and after his demise the old lady failed in health very perceptibly. In company with her daughter, Mrs. Abram, she paid a visit to Ontario friends two since, and spent a pleasant time with her numerous relatives and friends. After returning home she was troubled with heart weakness, and suffered at times considerably from that cause Among the Ontario members of the Thacker, of Preston; Mrs. Joseph Skelton, of Hickson; Mrs. Thomas G. McIntyre, of St. Thomas, and Mrs. J. T. Gentleman, of this city. Out of a family of sixteen, only two of Mrs. Thacker's brothers are elive Rev. H. W. Brown, of Chicago, and Dr. A. Brown, of Rochester, Indiana.

ALL DAY SUNDAY She Thought About a Food That Would Agree With Her.

An unnatural appetite for rich and improper food is really kept alive by the use of such foods, whereas a change to healthful, nourishing and scientifically made food, will correct the unnatural appetite. A little wo-man up at Peekskill, N. Y., Margaret Smith, P. O. Box 193, gays:

THE W. C. T. U.

Meet in Annual Session-Interesting Reports Presented and Officers Chosen.

There was a good attendance of members at the annual meeting in Somerset Hall yesterday afternoon of the W. C. T. U. Mrs. Gordon Wright presided. The year just closed has not been successful from all standpoints. The membership has decreased and departments of the work have not been pushed ahead with vigor. that there has been no head to the organization, owing to illness in the family of the president, Mrs. McDermid, was probably the cause of the somewhat disappointing situation revealed by the annual reports. The coming year is, however, looked forward to

with hope. The reports of the superintendents of departments were heard with evident interst. In fair work, narcotics and work among lumbermen the reports showed considerable aggressiveness.

The treasurer, Mrs. Darch, reported receipts of over \$1,860. The Western Fair booth had netted \$487. The total amount taken in at the dining hall was \$1,500 or \$1,600, but the expenses were beavy, despite the assistance given by members of the union.

> TUESDAY AFTERNOON. The afternoon service of the Y. W.

C. A. conference in St. Andrew's Church was presided over by the president for Quebec, Mrs. J. F. Stevenson, of Montreal, in the absence of the Dominion president, Mrs. McDougall, also of Montreal, who is detained owing to illness in her family. Mrs. Stevenson made an earnest address after the proceedings had been opened with prayer by Miss W. J. McDonald,

of Toronto. A satisfactory treasurer's statement was read by Miss Blackburn, of Ottawa, and was followed by an address of cordial welcome presented by Miss Jarvis, president of the London assoclation.

The reports of various associations were then given-that of Toronto by Mrs. Laird; Montreal, by Miss Tenney; Ottawa, by Miss Blackburn; London, by Miss Kirkpatrick; Brantford, by Miss Mackenzie; Quebec, bf Miss Pope; Halifax, by Mrs. MacPherson. Miss McDonald read reports from seven college associations, which are confined entirely to evangelistic and mission-

ary studies. Mrs. Boomer expressed her pleasure that so many branches were carrying on work in domestic science, her remarks leading to a discussion of the servant girl problem.

On behalf of the National Council of Women, Mrs. Boomer presented Mrs. Stevenson with a beautiful bouquet of roses and bade the delegates welcome to the city.

The session was closed by the sing-

ing of the doxology. TUESDAY EVENING.

In the evening the choir of the Memorial Church very kindly assisted at the service. The conference was welcomed to the city by Rev. Dr. Johnston, who, although not authorized to speak for the citizens, was sure that the coming of the delegates would be a blessing to the city, and he hoped that the only sadness of the visitors would be on the occasion of their home-going. He looked for an inspiration to come into the lives of many who would attend the sessions of the conference an inspiration that would remain with the city workers and bring about increased prosperity in the
