Threatening Weather Works Against the Attendance.

All the Departments Now in Running Order.

The Big Rush of People Due to Begin.

A Glance at Several of the Departments—Agriculture a Little Behind—No Ring Attractions All Yet in Running Order—Performance—Notable Exhibits.

WEDNESDAY, SEPT. 15—FARMERS' DAY.

Annually, for 29 years, Wednesday has been recognized as the Farmers' Day, the banner day of this live stock and agricultural fair. Farmers' trotting races, farmers' running races and farmers' everything.

The mammoth live stock parade will take place at 1 p.m., on the ring in front of the grand stands.

At 2 p.m. the trials of speed—farmers' trotting and pacing, and farmers' running events—with the exhibition of high jumping horses, and also the attraction programme.

The leading bands of the west will give a number of selections during the afternoon and evening.

In the evening Prof. Hand, of Hamilton, will personally superintend the greatest agricultural pyrotechnic display of fireworks ever presented to a Canadian audience.

The set pieces will be specially prepared to represent husbandry, and, as on the previous evenings, the mammoth sized portrait of her Majesty Queen Victoria will be shown to commemorate her diamond jubilee year of the Fair.

THURSDAY, SEPT. 16—INTERNATIONAL VISITORS' DAY.

This day is named in honor of the American visitors, who annually flock to the Fair in large numbers. It generally rivals Farmers' Day in magnitude. At 2 p.m. the bell will call out the fast ones to contest the 250 pace and team trotting and pacing—open.

Light-weight hunters will give exhibitions over the jumps in front of the grand stand. Sir Hassan Ben Ali will take charge of the attraction programme, and all the specialties will be given.

The last evening exhibition in the ring will be given at 8 p.m. The fireworks will be prepared by Prof. Hand, changing the programme wherever possible. The special artists will take their places on the amusement platform and entertain patrons until 10:30 p.m.

Monday Sept. 13—Citizens' Day.

A threatening sky everywhere and a downpour of rain over a large area in the neighborhood no doubt worked against the interests of the Western Fair yesterday. Had attending visitors known that the weather would clear up so beautifully the attendance would have been evened. Between 1,000 and 2,000 people passed the turnstiles morning and afternoon, and saw the exhibits in all their freshness.

Some of the directors feel that the larger sum of money than is at present appropriated to this department could be judiciously spent increasing the exhibits. They say the prizes are not sufficiently large to tempt farmers to make the imposing display that is desired. Others on the board point to the small premiums offered for the cattle and horses, and the smallness of the prize for the pig.

Archibald Philon, the spiral tower artist, made his initial appearance in a really clever performance. He climbed down the dizzy tower on a revolving globe, propelled with his feet on a narrow strip. On the top he crossed a bar in mid-air. It was a daring feat and a marvel of the balancing act.

Miss Leopoldine, a pretty and agile young woman, gave a gymnastic pot-pourri on horizontal bars, which was very skillful. She spun like a top.

The story is told of a young married woman who asked another young married woman how she managed to get along so amicably with her husband. The answer was, "I feed the brute with food and his mind with flattery." Even a man will have to admit that this young woman had solved about two-thirds of the art of making the average man happy.

The other third consists of keeping his body in such condition that he will enjoy his food and his mind in such condition that he will be susceptible to flattery. It isn't much use to put tempting food before a man who hasn't an appetite. It doesn't pay to lavish smiles on a man whose nerves are racked and overworked.

The average man pays very little attention to his health, and won't take medicine of his own accord until he is flat on his back. A shrewd wife will keep an eye on her husband's welfare in this respect, and when she sees that he is bilious or suffering from indigestion, or is generally out of sorts, will see that he resorts to that most wonderful of all invigorators, quinine. Dr. Pierce's Golden Medical Discovery. It is the best of all appetite-sharpeners, blood-makers and kindred ailments. Medicine dealers sell it. Mrs. Rescoe G. Gardner, of Graham, York Co., Va., writes: "I was so sick with dyspepsia that I could not eat anything for over four months. I thought I was going to die. I weighed only 80 pounds. I took two bottles of Dr. Pierce's Golden Medical Discovery. I am now as well as ever and weigh 120 pounds."

For constipation—Dr. Pierce's Pellets.

It's the best thing for the hair under all circumstances. Just as no man by taking thought can add an inch to his stature, so no preparation can make hair. The utmost that can be done is to promote conditions favorable to growth. This is done by Ayer's Hair Vigor. It removes dandruff, cleanses the scalp, nourishes the soil in which the hair grows, and, just as a desert will blossom under rain, so bald heads grow hair, when the roots are nourished. But the roots must be there. If you wish your hair to retain its normal color, or if you wish to restore the lost tint of gray or faded hair use

to solo artist, and others of corresponding rank; second, their virtuosic talent; third, the great Canadian institutions of musical instruction, such as the Toronto Conservatory of Music, the Metropolitan School of Music, the Toronto College, the London Conservatory of Music, etc. Twelve hours daily work on a piano for several consecutive years tells its own story; third, good taste in the selection of material, the rich woods, and especially in the carving. The proof offered is so conclusive that to further elaborate would be useless. It only remains for the intending purchasers to investigate the proof. This can be done now at the Exhibition, or at the warehouses of W. McPhillips, 229 Dundas street.

MUNYON'S TIMELY WARNING

And Terrible Exposure of the Spurious Testimonials, Published

London Advertiser.

FOUNDED BY JOHN CARLSON IN 1862.

London, Tuesday, Sept. 14, 1897.

Sir Oliver Mowat and Hon. David Mills.

All Ontario is naturally interested in the report that Sir Oliver Mowat will probably take the Lieutenant-Governorship of Ontario, of which Province he was the Premier for a quarter of a century. In the Ottawa dispatches which give currency to this intelligence there is the further statement that Sir Oliver holds the view that when he takes the position of Governor it is desirable that Hon. David Mills should be called in as Minister of Justice.

We are inclined to give full credence to this report. When the Ministry was formed, it was regarded as among the possibilities that the veteran statesman of Ontario, after he had seen the new Liberal Administration fairly on its way, would prefer to round off his career with a term as Lieutenant-Governor of his native Province. If he presents to the Prime Minister the name of his tried friend, Hon. David Mills, for the important portfolio which he desires to lay down, it would not be surprising, for Sir Oliver has long entertained the highest regard for the attainments of Mr. Mills, and he has found in him an able coadjutor in the conduct of the business of the Dominion Senate. The accession of Senator Mills to the Ministry, were he to accept a portfolio, would give general satisfaction to the people of Canada, and would be especially gratifying to his many friends in Ontario.

We have seen it stated that there was a possibility of the portfolio of Justice going to a Maritime Province representative. That would mean that in the rearrangement a portfolio of less importance would come to Ontario. It need scarcely be stated that any rearrangement of the Dominion Cabinet that does not do full justice to this the Premier Province of the Dominion would be injurious to the Ministry. It would be unpopular in Ontario, because it would not be just.

This Province has a population of over 2,000,000, and it is steadily increasing. While we have never been among those that demanded a rigid adherence to the view that there must be sectional representation in the Cabinet, no good purpose is to be served by attempting to conceal that in the past the Cabinet has been made up, in large measure, with the object of giving the main divisions of the Dominion proportional representation in the Government. This has been the case in all governments, whether Liberal or Conservative. It may have arisen from the fact that the Maritime Provinces contingent were invariably brainy men, or the cause may be their superiority as tacticians, but it is certain that they have invariably got fully their share of the good things going. In the present Administration, with the portfolios of Finance, Militia, Marine and Fisheries, and Railways and Canals held by Maritime Province men, our brethren by the seas are now exceedingly well cared for in the Administration of Sir Wilfrid Laurier. They can scarcely with good grace ask for a rearrangement that will increase their prestige. They must recognize, as time goes by, that the West, with its big hopes, its ever-increasing population, its vast interests, and greatly augmented taxpaying capacity, will assert itself, and demand greater attention in the formation of governments and formulating of policies. Ontario, in all these matters, must hold her own. Those charged with looking after her interests must see to it that she gets it.

If, therefore, Sir Oliver Mowat is willing to become the representative of her Majesty in the government of this Province, as there seems good reason for believing, it is most necessary that his successor in the Ministry should be a man that will have the full confidence of the people of Ontario, and who can be relied on at all times to stand up for her rights, while conceding justice to all sections of the Dominion. Such a man is Hon. David Mills, whose standing in Parliament and in the country is exceptionally high. His selection to the office, soon to be vacant, we are assured, would give general satisfaction, not only in this Province, but throughout the Dominion.

The great change for the better which has been inaugurated in Canada is reflected in the smiling faces of Western Fair visitors. Our farming population have for long battled against adverse circumstances. No one now grudges them their inings of good crops, better prices, growing markets.

The revival of trade continues. Grumbling is the least fashionable occupation now.

Canada in Evidence.

The way Canada is now being advertised in Great Britain is remarkable. Everybody is talking about the Dominion and its new departure, and praising it. Bristol, that great historic seaport, has sent a special delegate to Canada to urge that our trade be diverted her way. Then the London Times, in a column editorial, proves to its readers that Canada is the healthiest country in the world, and that its people are sober to a demonstration, consuming less intoxicants, in proportion to population, than any country in Christendom.

Within the next few months seven murder trials will take place in Ontario. Farmer Convey will be tried next week at Woodstock for the murder of his hired boy. On Nov. 15, Mrs. Stearns will be tried at Cayuga for poisoning her husband. On Nov. 29, James Allison will be tried for murdering Mrs. Orr at Galt. Wm. H. Hammond will be tried on the same date at Gravenhurst for murdering his wife. This is his second trial, the jury having disagreed in the first instance. The alleged accomplice of Troy, the Napier murder, will also be tried. Troy's sentence being deferred till the result of this case is known. The alleged Morden murderer, Thompson, will also be tried this fall, as will also the girl, Mary McGraw, for child murder, in this city. The probabilities are that the capital charge will not be proved in all these cases.

In future all letters from the Klondike gold fields should be addressed "Yukon District, Northwest Territories."

THE CABINET RUMORS.

[Branford Expositor.] Ottawa rumor has it that Sir Oliver Mowat is to be made Lieutenant-Governor of Ontario, and that Hon. David Mills will be appointed Minister of Justice in the Laurier Administration. All such reports are to be received with caution until officially or semi-officially made, but the suggested arrangement is not an improbable one, and certainly will give general satisfaction. It is no secret to say that the gubernatorial chair has been offered to Sir Oliver more than once, but it is understood that he has usually made objection to accepting it on the ground that he did not feel that he had ample private means to properly maintain the dignity of the position.

In the Mud.

Some of the Troubles That Gold Seekers Meet With.

Rain for Three Weeks - Skaguay Pass Is Closed.

Lots of Whisky Confiscated - Wintering at Juneau - Safety - An All-the-Year Route - New and Rich Field Found and Gobbled Up.

SKAGUAY PASS CLOSED FOR THE SEASON.

Port Townsend, Wash., Sept. 14.—The steamer City of Seattle has arrived five days from Skaguay. Among the passengers are twelve men who started for the Klondike but failed to cross the water. A. C. Warner, Seattle, an artist who has been getting views on both the Dyea and Skaguay passes for the past week, was a returning passenger on the Seattle. He says the Skaguay pass is closed for the season, but that many are still floundering around in the mud in vain attempt to get through. The first fourteen miles of the trail from Skaguay to the sea is strewn with the carcasses of 600 horses.

Eleven saloons and three dance halls are doing business there, but Warner says there is no trouble, there being no fighting or thieving.

IN THE MUD. At Dyea the people are still moving slowly forward, though greatly impeded by mud and rain. With the exception of two days rain has fallen continuously for three weeks. Collector of Customs Ivy is doing a rushing business in the confiscation of whisky. He has 50 inspectors on the beach, and but little stuff gets through.

WHISKY \$36 A GALLON. Frank Cain, a Canadian, was caught in a sloop a few days ago with an \$8,000 stock of whisky. The stock was seized and Cain sent to Juneau jail. Whisky sells at \$36 per gallon at Lake Lindeman.

The Thompson party started across from Mission to the Yukon Valley a few days ago with 30 head of cattle. They expect to make the drive in 35 days.

VISIT POSTPONED. Seattle, Wash., Sept. 13.—The minister of the Interior has decided to postpone his trip to Dyea until about the end of next week. This is owing to a telegram received from Superintendent McIlreath, of the mounted police, at Skaguay, who says that the white pass is filled with people who are making very little headway on account of the heavy rains. Major Walsh will also delay his departure a few days.

STOPPING AT JUNEAU. Seattle, Wash., Sept. 13.—The following letter has been received from Juneau, Alaska, Sept. 6: "Among the recent arrivals at this port are the steamers Rosalie, Mayflower, Detroit, Willamette and Topeka, and the fall-off in the volume of travel is very noticeable. The majority of newcomers will remain at Juneau until spring. An effort will be made next year to turn the tide of travel by way of Sitka, going from there to Yakutat and Disenchantment Bay and up the White River, the distance being only about 425 miles from Sitka to Dawson, as against 700 miles from Juneau over the present trail. The building of a railroad from Juneau to Lake Lenina is now assured. Everyone is now mapping out arrangements for winter quarters, as it will soon be out of the question to enter the Klondike before February or March."

THE ELIZA ANDERSON SAFE.

Seattle, Wash. Sept. 14.—The steamer Humboldt arrived this morning from St. Michaels. She brings 14 passengers and about \$100,000 in gold. The Humboldt also brings news that the side wheel steamer Eliza Anderson,

from Seattle, which was reported lost, is safe in Dutch Harbor.

THE CLEVELAND'S CARGO. Chicago, Sept. 14.—The Chronicle has advices from Alaska via Seattle. The amount of gold brought out in the steamer of the Cleveland was \$150,000. Some of the holders were: T. G. Allen, \$37,000; F. S. Egan, \$17,000; Herman Schroeder, \$15,000; Chas. Engle, \$20,000; Fritz Cloak, \$12,000; A. H. Barber, \$10,000; Sam Matthews, \$5,000; George Reynolds, \$5,000; Bank of British Columbia, \$5,000; M. Misamore, \$3,000; B. Alderson, \$3,000; James Gallagher, \$2,000; Hans Anderson, \$2,000. It is thought that about \$250,000 was concealed in the cabins.

TYPHOID AT DAWSON. Unsheltered Dawson has a mild epidemic of typhoid fever, and a few have died from sheer want of necessities that their money could not buy. There have not been licensed physicians enough to attend to the cases.

There seems no doubt but that starvation will be rampant in Dawson owing to the cupidity of the trading companies which have loaded the steamers with whisky in order to reap the enormous profit of \$14 a gallon. One vessel which became disabled near Fort Yukon actually jettisoned its flour and provisions, while saving its whisky.

Clarence Berry's claim has cleaned up \$22,406 since he left this spring.

AN ALL THE YEAR ROUTE. Victoria, B. C., Sept. 14.—J. J. McArthur, who has been appointed up by the Dominion Government to explore routes into the Yukon, has returned. The party first went to Dalton trail to Hootchin Lake, thence to Pink Rapids on the Lewis River, and thence to Fort Selkirk, at the mouth of the Pelly.

This route is 300 miles overland from Lynn Canal to Selkirk, and is not difficult. A wagon road or railway could be built over this trail via Hootchin Lake and Nordenskiöld River to the Lewis River, and could be operated the whole year.

STEEL STEAMERS. Seattle, Wash., Sept. 14.—The treasure ship Portland got away from St. Michaels at noon Sunday with big cargo, consisting principally of machinery for four steamers, which are to be constructed by Moran Bros., at St. Michaels this winter. One steel steamer, the John C. Barr, was complete. On the Portland's deck was a Maxim rapid-firing gun. Inside the captain's cabin are a dozen new rifles, which will be used effectively to protect the treasure which the Portland will bring from the Yukon mines.

SCENE OF THE LATEST GOLD EXCAVATION.

Seattle, Wash., Sept. 14.—Sulphur Creek, branch of Dominion Creek, which is tributary to the Indian River, is the scene of the latest gold excavation. The Klondike. From the counts of the new district brought down on the steamer South Coast, it seems that the new diggings will rival even the famous Bonanza and Eldorado. Gold was found just below the surface, running \$34 to the pan. Two men took out \$300 in a day by simply prospecting their claims.

A STAMPEDE FOLLOWED the reports of the new finds, which reached Dawson City Aug. 15. In a week 500 men had crossed the isthmus between Eldorado Creek and Dominion Creek. They traveled day and night, and the Klondike was the whole stream was staked out.

GIRLS STRIKE FOR UNLIMITED CLOVERPORT, Ky., Sept. 14.—A strike in the Breckinridge News office is the sensation in Cloverport. Misses Mary Ryan, Laura Yeager and Della Ryan, whose homes are in this city, have been setting the type for some time. Some weeks ago a notice was placed under the clock in the office, which read: "Am I on time?" One morning when the girls came to work the words "A still tongue makes a full stick" stared them in the face. This made them mad, and they demanded of J. E. Babington, the publisher, that all such "mottos" be removed. Mr. Babington refused, and the girls walked out of the office, not to return.

In the Dining-Room.

WEDNESDAY, SEPT. 14.
BREAKFAST—Stewed pears. Baked hash. Cornmeal puffs. Coffee.

LUNCHEON—Bouillon. Wafers. Banana sandwiches. Marshmallow cakes. Tea.

DINNER—Onion soup. Beefeates. Baked sweet potatoes. Green beans on toast. Peach trifle. Coffee.

Cut out these recipes and paste them in a scrap-book.

Baked Hash—One pint of cold cooked beef, chopped fine, one pint of chopped raw potatoes, one-half pint of gravy or water, one tablespoonful of melted butter, a large teaspoonful of salt, and a quarter teaspoonful of pepper. Mix all well together, turn into a mold, and bake in a moderate oven one hour.

Marshmallow Cakes—When making cookies roll out some of the dough thin and cut with a diamond-shaped cutter in size about four inches between its long opposite points. Place marshmallow in the center and fold the two opposite long points over it and press them together. In baking, the marshmallow will swell and round the joined dough, which will be left like the handle of a tiny flat basket when the cooling marshmallow contracts.

Beefeates—Purchase one and one-half pounds of round steak cut about half an inch thick. Then cut in pieces about six inches long and four wide. Place on each piece a large tablespoonful of dressing made of one cup of stale bread crumbs, one tablespoonful of chopped parsley, one tablespoonful of chopped onion (brownied), one-half teaspoonful of salt and two good dashes of pepper. Roll up the beefeates and fasten with wooden toothpicks. Put a tablespoonful of butter and a cup of water in a baking pan with the beefeates, and bake three-quarters of an hour in a hot oven. Baste them when done with thick gravy, strain and pour over the meat and serve on a hot platter.

Green Beans on Toast—String one quart of fresh tender beans, put over the fire, cover with boiling water and add a pinch of baking soda, boil a few minutes, then pour off the water. Return them to the fire, with hot water to cover, a large teaspoonful of salt and a saltspoonful of pepper. Toast six squares of bread, and when the beans are tender dip each slice in hot water; butter and arrange on a platter. Remove the beans with a skimmer and lay evenly on the toast. To the water left in the kettle add a cup of rich milk, and when it boils add a small tablespoonful of flour, rubbed

smooth in a little cold milk, and stir until done; add a tablespoonful of butter, and when melted pour over the beans and serve at once. The beans are left full length.

Peach Trifle—Make a boiled custard with the yolks of four eggs, one pint of milk and two tablespoonfuls of sugar. When cool flavor with a small quarter teaspoonful each of almond and vanilla flavor and set on ice. Cut stale sponge cake in slices, lay it in the bottom of a pretty dish and cover with a few spoonfuls of the custard.

Peel and slice six large, ripe peaches, spread them over the cake, dust thickly with powdered sugar, pour over this the custard and cover with a meringue made by whipping the whites of eggs with four tablespoonfuls of powdered sugar and four drops of almond flavoring to a very stiff consistency.
