FIVE FOR AND TWO AGAINST
 Handwriting Experts Had a Set-to in the Rennes Court.
 One of Them Has Changed His Opinion—M. Charvay Was Formerly Against the Prisoner, But Is Now the Other Way—Fay de Claim to be the Author of the Document—M. Charvay Agrees to Have a Commission Sent.
 Rennes, Aug. 29.—When the trial of Captain Dreyfus opened in the Rennes Building yesterday morning, General Mercier, who was Minister of War when Dreyfus was first tried in 1894, was present as usual, in the front row of the court, and he had the honor of reading the reports as to his having led to the island of Jersey and as to his flight.
 General Mercier did not seem to be very cheerful yesterday. He hardly said a word to General Gosse the whole morning, and he spoke to him only once in the course of the trial, and that was to ask the court's sittings and General Gosse and Rose walked up and down the court yard of the Rennes, generally engaged in conversation.
 General de Solleffro was not present in court yesterday. He has been absent for the past few sessions, and it is rumored here that he is desirous of leaving the sinking ship of the general.
 The centre of interest in the court yard was Captain Freytag of the Marine Infantry, who held a terrible reception of his friends. These friends, however, were all civilians. Not a single uniformed officer spoke to him, and he was the fruit of his frankness, and a clear indication of the determination of the military oligarchy to exterminate him.
 Bertillon's Theory Uproar.
 M. Paraf-Javal resumed his testimony. With the assistance of a Major, he proceeded to show the fallacy of the calculations of M. Bertillon and the latter's unfairness in not admitting that he had entered the island of Jersey severely punished, and that the conditions are favorable for the formation of a civil government under military supervision, as has been directed. Little change in Panama and Cuba Island is to be expected.
 As a reply for the Americans.
 Manila, Aug. 29.—A report received here from Cuba says that General Ballesteros, who has given them a warm bath, would not allow the Americans to say he was anxious to become an American citizen, and asked permission to fight in the ranks of the Spanish army. General Ballesteros will return to the Sulis archipelago to arrange for establishing American garrisons there.
 The Bluejackets Called Off.
 Shanghai, Aug. 29.—A telegram received yesterday from Hankow, on the Yangtze River, shows that the Russians, who had attempted to eject workmen employed by the British concern of Jardine, Matheson & Company, from property which they had been instructed to fence in, and which was checked by the prompt action of the British consul and the captain of the British gunboat "Woodcock," refrained from further interference, and the party of bluejackets that was landed from the "Woodcock" to guard the property has been withdrawn.
 Trial of the Alleged Conspirators.
 Paris, Aug. 29.—The Cabinet has almost determined to summon the Senate to sit as a High Court for the trial of the alleged conspirators in the Chamber of Deputies and president of the League of Patriots, and the other prisoners of the revolution, who are charged with conspiring against the Government. It is believed that the decree summoning the Senate to sit as a High Court will be signed at an early meeting of the Council.
 Wellman in England.
 Hall, Eng., Aug. 29.—Walter Wellman, the leader of the Wellman polar expedition, accompanied by the American members of the expedition, who are well, arrived here yesterday.
 More Papers Seized.
 Paris, Aug. 29.—The police yesterday raided the home of President Douville of the Young Men's Anti-Semite League, where many important papers were seized.
 Sixteen Minors Dashed to Death.
 St. Etienne, Aug. 29.—While 16 men were descending into the Courcharin mine at Haute Croix yesterday, the cable broke, and they were all killed.
 British Baron Dead.
 London, Aug. 29.—William Draper Mortimer, Baron Wynford, died yesterday in his 74th year.
 Two More Deaths.
 Oporto, Aug. 29.—Two more deaths from the bubonic plague have been reported here.
 San Domingo's Revolution.
 Cape Haytien, Aug. 29.—News from the Republic of Santo Domingo shows that General Piquin, returned from Santiago, was detained by the Dominican revolutionists and obliged to retreat on Monte Cristi. Mao and a section of Guaymas have declared in favor of the revolution, and the revolutionists are marching in these places, cutting off communication with Monte Cristi.
 It is reported that General Piquin, the Minister sent by the Dominican Government into the Cibao territory, seeing that the success of the mission was impossible, has joined the partisans of Jimines, the leader of the revolution.
 Government Surrendered.
 New York, Aug. 29.—Andriano Grullon, the representative of the Santo Domingo revolutionists in this country, had received a despatch from Santiago de Cuba to the effect that the Government of President Figueroa at Santo Domingo had surrendered to the party of which General Jimines is the head.
 Mrs. M. J. McFarland of Ottawa has received information that she has been left a sum in the neighborhood of \$50,000 by the death of a relative in the United States.
 The Berlin Lokal Anzeiger says Empress Augusta Victoria is again so indisposed that her physicians have forbidden her to accompany Emperor William to the autumn manoeuvres in South Germany.

 War Material Going In—A Lot of Ammunition and Rifles From the Netherlands Have Reached Johannesburg—Business District Is Again, and the Utiander Council Has Decided to Tell the Imperial Government.
 Cape Town, Aug. 29.—Replying to the latest propositions of the British Secretary of State for the Colonies, the Government of the Transvaal has notified him that it adheres to its latest offer and will not make any further concessions.
 According to reports from Johannesburg the Burghers are everywhere exchanging Maximins for Mausers, heavy loads of ammunition, including 800 Mausers, arrived at Johannesburg on Friday, from Utiander, the Netherlands.
 The Business District.
 Johannesburg, Aug. 29.—The Utiander Council held a long meeting yesterday to discuss the business district, and it has followed the prolonged political crisis it was decided to bring the situation to the notice of the Imperial Government.
 Old Ammunition Is Sent.
 London, Aug. 29.—The St. James' Gazette yesterday says it learns that a recent inspection by General Joubert, commander-in-chief of the Transvaal forces, disclosed the fact that nine tenths of the reserve shells and cartridges in the Pretoria forts were inefficient, and that an immediate order to renew the supply was placed in Europe.
 On the Brink of War.
 Cape Town, Aug. 29.—The Cape Town House of Assembly is again debating the question of the transit of arms intended for the Orange River states, and the extreme tension exists, as every speech made yesterday from either side almost absolute silence in the chamber.
 The Hon. William P. Schreiner, the Premier, personally appeared to his fellow citizens to refrain from answering the questions of the Opposition, lest they would drop the store business.
 The entire Opposition rose to support the motion for adjournment made by the Right Hon. Sir John Gordon-Sprigg, the former Premier, who repeated the argument he had used in the previous debate, and asked the House to support the Cape Cabinet proposed to take in the matter. He said that the recent speech of the Hon. Sir John Gordon-Sprigg, the former Premier, who repeated the argument he had used in the previous debate, and asked the House to support the Cape Cabinet proposed to take in the matter. WHERE IS ISRAEL RICHARDSON?
 A Millbrook Driver of 80 Years' Standing Is Missing.
 Millbrook, Ont., Aug. 29.—Much excitement was caused by the sudden disappearance of Isaac Richardson, one of the most prominent drivers in this section, and who is well known to have taken with him a great amount of money, the proceeds of several years' work, and who is well known to have taken with him a great amount of money, the proceeds of several years' work, and who is well known to have taken with him a great amount of money, the proceeds of several years' work.
SIX MEN MET QUICK DEATH.
 Twelve Steel Arches of Cellulose Building Collapsed at Chicago Yesterday.
 Chicago, Aug. 29.—Twelve steel arches, each weighing 30 tons, which were being supported the superstructure of the Cellulose Building in course of erection on Wabash avenue, fell to the ground yesterday afternoon. It is known that six lives were crushed to follow the bodies of these men are supposed to be under the wreckage. Several are in the hospital with injuries received, and the other two will surely die, one may possibly recover and the rest are for the greater part seriously injured. Nearly all the men who were killed were at work on top of the arches, 40 feet above the ground.
HIGH JOINT COMMISSION.
 American Members Propose to Prepare a Report for Congress.
 Washington, Aug. 29.—Correspondence in progress between the members of the American contingent of the Canadian high joint commission, looking to a meeting at an early date with a view to making preparations for a report to Congress upon the state of the negotiations undertaken by the commission. As Secretary Hay is expected to return to Washington in the course of a week or ten days it is probable that the meeting will be held at Washington.
 The Belter Exploited.
 Hamilton, Aug. 29.—Daniel and Ira Jacobson of Winona narrowly escaped being killed on Saturday evening near Hastingsport, south of Grimsby. They were taking their traction engine eastwards, toward Smithville. When near Hastingsport the water tank became detached from the engine, and the Jacobsons stepped down on the road to connect them. A few seconds later the boiler exploded, and scattered sections of the engine over the countryside. Neither was hurt.
 A Soldier Drawn.
 Toronto, Aug. 29.—On Saturday morning Private Cummings found the body of a British Grenadier, a private in the Royal Canadian Dragoons, in the water off the pier at Toronto. The body was recovered after making an examination, communicated with Corporal Cotton, who deemed an inquest unnecessary. Deceased, who was 40 years of age, could not swim, and it is thought he fell off the pier while in a fit. He came from Todcaster, York, and his wife lived at 100 St. Nicholas Street, England.

BIG FIRE AT BURK'S FALLS.
 Business Block in Centre of Town Completely Destroyed.
 Burk's Falls, Ont., Aug. 29.—At 8 o'clock yesterday morning Dr. Campbell, his daughter Edith and a guest, Miss A. Lantz, Hamilton, were awakened from their slumbers by the crashing of glass, as though the postoffice building had been bombarded. They rushed to their beds they found suffocatingly full of smoke, so much so that it shut off their only means of escape from the building.
 They then rushed to the windows, threw them open and screamed despairingly for help.
 The smoke followed them and rolled out of the windows through which they held their heads for a brief moment, while their cries became desperate before leaders of sufficient length could be secured. The smoke which they had escaped to descend with nothing but their slight dresses.

General Mercier did not seem to be very cheerful yesterday. He hardly said a word to General Gosselin the whole morning. But during the afternoon, when the court was sitting he and General Gosselin and Roger walked up and down the court yard of the Lyons, greatly engaged in conversation.

General de Boisfleur was not present in court yesterday.

General de Boisfleur is not present in court for the past few sessions, and it is rumoured here that he is desirous of leaving the sinking ship of the Rennes trial. The centre of interest in the court yard was Captain Freytag's of the Marine Infantry, who had just returned from his friends. These friends, however, were all civilians. Not a single uniformed officer spoke to him, and he is the first of his frankness, and a clear indication of the determination of the military clique to estimate him.

Bertillon's Theory Upheld.

M. Paraf-Javal resumed his testimony. With the assistance of a blackboard he proceeded to show the jury the calculations of M. Bertillon and the latter's unfairness in not submitting the handwriting of the prisoner to the same test as the prisoner's. He declared, however, that even if M. Bertillon had done so the results would have proved anything. The witness, however, insisted that M. Bertillon had adopted a vicious method of making a partial expert.

He contended that the alleged irregularity of the key word "interior," was only apparent, and proceeded to illustrate his argument on the blackboard showing that all M. Bertillon's proof applied to the same key word as the prisoner's. He declared, however, that even if M. Bertillon had done so the results would have proved anything. The witness, however, insisted that M. Bertillon had adopted a vicious method of making a partial expert.

War Material Going In—A Lot of Ammunition and Rifles From the Netherlands Have Reached Johannesburg—Business District Is Acute, and the Ultimatum Council Has Decided to Tell the Imperial Government.

Cape Town, Aug. 29.—Replying to the latest proposals of the British Secretary of State for the Colonies, the Government of the Transvaal has notified him that it adheres to its latest offer and will not make any further concessions.

According to reports from Johannesburg the Burgers are everywhere exchanging Martini for Mausers. A heavy load of ammunition, including 200 Mausers, arrived at Johannesburg on Friday, from Utrecht, the Netherlands.

Old Ammunition Is Bad.

London, Aug. 29.—The St. James' Gazette yesterday published a report of a recent inspection by General Joubert, commander-in-chief of the Transvaal forces, disclosing the fact that nine-tenths of the reserve shells and cartridges in the Pretoria forts were inefficient, and that an immediate order to renew the supply was placed in Europe.

On the Brink of War.

Cape Town, Aug. 29.—The Cape Town House of Assembly is again debating the question of the transit of arms intended for the Orange Free State, and presumably the Transvaal. Exponentially the extreme tension exists, as every speech made yesterday was received with an almost absolute silence in the chamber.

The Hon. William P. Schreiner, the Premier, personally appealed to his followers to refrain from answering the criticisms of the Opposition, lest they should drop words of provocation.

The motion for adjournment made by the Right Hon. Sir John Gordon-Spiggall, the former Premier, who reported the debate, had been used in the previous debate, and asked the Premier to take in the matter. He said that the recent speech of the Hon. Mr. Schreiner, in the Chamber of Deputies, Birmingham, England, had forced all to the conclusion that the British Government was on the brink of war unless the Transvaal met the British demands. In his opinion, the Cape Government was bound to follow the example of Portugal at Delagoa Bay, and refuse to permit the transit of arms as long as the crisis lasted.

WHERE IS ISAAC RICHARDSON?

A Millbrook Driver of 50 Years' Standing Is Missing.

Millbrook, Ont., Aug. 29.—Much excitement is being created by the sudden disappearance of Isaac Richardson, one of the most prominent drivers in this section. Richardson is 50 years of age, reported to have taken with him a great amount of money, the proceeds of several years' work. Richardson has been in the cattle and hog buying business here for upwards of 20 years, and his disappearance is a serious loss to the community. It is believed that Richardson had been in the neighborhood of Millbrook, and was supposed to be financially quite sound. When the last couple of shipments were made, he was told by Richardson that he would pay them in the course of a few days. Matthews ran on, and it was learned that he had left for parts unknown. After it was found that he had left town, it was ascertained that he had a few days previously mortgaged his house for as much as could be called for, and had borrowed hundreds of dollars from numerous friends in and around Millbrook. They never dreamed of his financial condition. It is estimated that Richardson has taken about \$50,000 away with him. He was well known throughout this district, and ran successfully for reeve of the village last January.

At Chatham the jury's verdict in the Stephens inquest was that the death of the man was caused by a bullet fired from a shock and acute pneumonia caused by a ball fired into his body from a Flaesket rifle in the hands of William Houston, on the 14th inst. The evidence does not, in our opinion, show that the man was shot by the party of the said William Houston, but we find that he had knowledge that there were powder in the immediate vicinity of the boat, opposite to where the firing took place, and that he recklessly and carelessly fired the shot which caused the death of the said Loyal Stephens.

It is the practice and pleasure of Capt. and Mrs. Phillips to occasionally illuminate their beautiful little island in honor of guests, and as their summer home can be seen from all parts of Charleston bay, the sight is much enjoyed by lake dwellers, tourists at the hotels, and summer visitors generally. One of these events occurred on Wednesday evening last, and as Mr. and Mrs. Joseph Thompson, on very short notice, also decorated Lake View cottage.

The effect was a most beautiful and beautiful. To the south, down a vista between the giant shadows cast by high rockland Cornwell's island, a single red light gleamed, and beyond the lofty form of Blue mountain, the sky was lit up at once with an undulating horizon across the starry sky. To the east, a row of lights in a great wall of blackness marked the location of Cedar Park hotel, and to the left the lights of Harbor View and of the houses in Charleston village twinkled in the distance. The northern shore of the harbor consists of a high, wooded bluff on which is located Lake View cottage, from which gleamingly brightly from a dome of dark blue and were faultlessly reflected in the dark waters, but they served only to intensify the shadowy uncertainty that seemed all-prevailing. From a point opposite Cedar Park, the view was at once awe-inspiring and beautiful.
