# Col. Gibson Off For Bermuda To-morrow.

The question as to whether the city will be able to make a deal with the Street Railway Company will probably be definitely settled at a meeting called for 3 o'clock this afternoon. Hon. J. M. Gibson and General Manager Hawkins, of the company, have arranged to leave to-morrow for Bermuda. The aldermen seem determined that the matter shall come before the council at its meeting on Monday night in some shape. The conference committee had a meeting on Saturday afternoon, but as only Aldermen Sweeney, Clark, Lewis, Jutten, Allan and Sweeney turned up, Chairman Sweeney thought it was best to have a full meeting to-day The aldermen on Saturday discussed the matter for a long time, and the general opinion was that the company's latest proposition would not be entertained,

During the negotiations the question of the company selling the railway to the city had been broacned, but the company officials are reported to have declared most emphatically that they would not put a price on the road or consider for a minute a proposition for the city to take it off their hands. They say they have held it with a struggle for years when it was losing money, and that they are going to keep it now when there is a chance to make something out of it.

The aldermen take the view that the company's offer means the company comes first and the city last, while they consider it should be the other way around. They do not think that after all the expenses and the interest on the capital stock was paid that there would be much left for the city. The company's chief objection to accepting the city's proposition was that it could not raise the money, the bondholders refusing to sink any more money in it unless they were pretty certain of getting y were pretty certain of getting nething out of it. LOCAL DOCTOR COLLECTED FAT FEE FOR EXAMINATION,

But Would Not Take Mining Stock That Was Sure (?) to Pay Him \$35,000 Profit.

Two siick individuals were testing the financial conditions of this city and on Saturday they decided they would make a bold bid for \$10,000, belonging to a out that the city would stand by the well known professional man. A prominent local doctor received a call from nattily dressed gentleman from New York, during office hours and the stranger, when "next" was called for its turn, complained of a pain in the back. He was examined and the doctor could find very little wrong with the man. During the examination the mentioned the fact that he had met a man at the hoted where he was staying who might be induced to part with 10, 000 shares of gilt-edged mining stock at \$1 per share. The doctor liked this joke and enquired more fully into the idea. The stranger said he knew little of it was a delicate operation and Dr. Remie was at work for some time proving, so an operation was performed. It was a delicate operation and Dr. Remie was at work for some time stitching up some lacerations in the stranger said he knew little of it was a positive it would rise at least 250 er or the control of the York, during office hours and the after the stranger was gone a cab drove up to the doctor's residence and the man with the stock strolled casually in. He inquired for the doctor and when alon with him immediately started to "shoot he con." The doctor listened to it all the con." The doctor listened to it all and after waiting till his philanthropic visitor had finished asked him why this insane desire on his part to separate himself from such a bunch of the filthy lucre. He claimed that an output of \$10,000 would net the investment at least \$25,000 in the short time of three or four months. The doctor was seriously thinking of examining the man for traces of "brainstorm," or "dementia Americana" but decided that he had made enough money out of his two visitors. He gently but firmly refused to separate the anxious stranger from his wad. The slick individual went away rather crestfallen and no more has been rather crestfallen and no more has been heard of the pair. The joke is on them,

A small army of the unemployed as-embled on the Market Square, adjoining the City Hall, this morning, and appointed a deputation to wait on Mayor Stewart and demand work for the idle men in Hamilton. It was quite an orderly gathering. On Saturday the news was spread that such a meeting would be held at 10 o'clock. An hour before that time two or three hundred men, ome of them there merely out of curiosity, gathered along James street. When S. Wilson, an Englishman who has been in this country about a year, and who appeared to be the leader of the movement, appeared, the crowd followed him around to the north side of the City Hall.

Mr. Wilson mounted a soap box, and the crowd stood at attention. Chairman Sweeney, of the Board of Works, and several of the clerks watched the proceedings from the City Hall windows. "There are over eleven hundred idle men in Hamilton to-day whose families are on the verge of starvation," declared the speaker. "When we have gone to the City Hall for bread we have been given a stone. When we asked for employment the best we could get was an order to crack stones at 40 cents a day. We had hopes that when the spring opened the situation would be relieved, but the conditions are far worse now than two months ago. We must get work and supply bread for our starving families." would make a clean sweep of the village, she would share the fate of the others and there would she no one to tell the tale.

Even when he promised Chowsky to lead the Pawnees in the massacre against the villagers, he promised himself scretcy that he would only do so providing he could not in the meantime make his secape from Hadley.

He had no relish to be in the thick of a skirmish, with the weapons of either party against him.

"I did not come out into this western wild for this," he muttered to himself. "I came to get the Barrison millions; I accomplished what I came for, and I have no huimess here and hoir longer, so the quieter I leave the place behind me the better."

When he discovered that there was no train, that it might be a matter of a day of two ere it reached Hadley, and, in fact, might not come through any further than Spokane, his intense terror and amiogrance knew no bounds.

"If we are to have a through train at all," said the ticket seller, "ii will be on Wednesday right at this time; this is Monday night; the chances look favorable to me, for it is getting warmer, and that means a thaw, and if that occurs the Eastern express will have little trouble in making headway. I think I can promise you will have little difficulty in getting off Wednesday night."

"I am caught like a rat in a trap," thought Carlisle, wildly, "there is no escape from this accursed place.

But one course presented itself to his mind, and that was not to go back to Barrison Hall, thereby arousing the suspicion of Florice Austin, but to remain in hiding in the mountains until the great battle between the villagers and the Pawnees was well over, then watch out for the Eastern express, which was bound to come through sooner or later. Clifford Carlisle had a natural horror of all hardships; camping out, as he proposed to do, was most horrible to him, but he saw no other way out of the difficulty which hedged him in.

With cumning foresight he made his way back to the village, and there purchased a stock of supplies which sh

his heavy sealskin overcoat would amply protect him.

At the juncture of the mountain road and the road to Hadley there was a deep hollow in a pile of rocks, which he had discovered during his ramblings quite by chance. This place had served him well on several occasions when he had been forced to find a retreat quickly. Neither the villagers nor the Pawness seemed to know of its existence, he soon discovered, and therefore in it he felt eafe from both alike.

With Clifford Carlisle, his own safety was of the utmost importance to him;

With Clifford Carlisle, his own safety was of the utmost importance to him; he would never face danger when there was a way to avoid it. Therefore he hied himself to his place of concealment with all possible despatch.

Thus that night passed, as did the following, and as there was as yet no sign of the encounter which the half-breed had spoken to him about, it dawned upon him that the Pawnees were waiting for him to join them.

Thus he settled the matter and dismissed the subject from his thoughts. There was only one thing that troubled his conscience, and that was the fate little Norine had met with at the hands of Chowster. Chowsky. During the leasely hours spent in his place of concealment he build think of nothing else.

In those hours he learned a startling truth, and that was, that he cared for Norine—ay, cared for her a thousand times more than he had dreamed postible that he could ever care for anyone was hivestiff.

Great Heaven! is there any ty, I wonder, by which I could see lowsky and induce him to give her up me?"

Chowsky and induce him to give her up to me?"

But the howling winds careering past his hiding place brought him no answer. The eventful Wednesday night rolled around, and Clifford Cartisle waited with all the impatience imaginable for the welcome whistle of the train. He was glad to think that it would come and go ere the raid of the Pawnees would take place; perhaps that was the very thing that they were waiting for. He wondered that that solution of the mystery had not occurred to him before; the Pawnees would not put their said against the viblagers into execution until after that train had gone, if it were a month.

White these thoughts were drifting shrough his mind, quite a thrilling scene was being enacted less than half a mile from the spot where he was so securely conceased—a scene in which Norine and Joe—honcet, faithful Jue—were the ac-

It was with a feeling of joy at their heart that can better be realized than described when their feet struck into the mountain road at last.

Norine could have cried aloud for very joy, but Joe was strangely silent; when his compainon rabled bim upon it, he made her evasive answers. How could he teel her the fear that was weighing down his heart so heavily—that, of Chowsky's threat was true, there was no village and no kindred for them to return to. If the Pawnees had carried out the half-breed's threat, Halley was now lying in ashes, and every man, woman and child in the village were massacred!

No, no, he dared not tell Norine of the brooding fear that say like a dark poll over his troubled heart. He his his estimated that he had been a straight with the straight over his troubled heart. He his wife her when site entered the village.

He did not rise quickly to his feet, as Norine supposed he would do, and when she reached his side and bent over him a moan of intense pain, which he vainly endeavored to repress, broke from his lips.

He took her trembling hand in his.

"I am afraid I cannot, little one," he said, with almost a sob in his voice, "but let me tell you what you must do, Norine. You must go on to the village without me. Tell them, if you find any one, what has happened me; if you can get no one to—to come to me, come back yourself, little Norine."

She was too excited to notice how strangely his sentence was worded then, but it all came back to her afterward. In vain she begged to stay by him, but Joe made her understand presently that the plan he suggested was best, and the only feasible one. So, leving her tears, Norine set off bravely on her mission to summon assistance for him. Joe was suffering far more than he had intimated to Norine; the world seemed to grow dark around him; he feared his last hour had come—that he was dying.

Meanwhile Norine sped rapidly onward, swiftly nearing the bend in the road where were the huge pile of rocks that she had regarded so curiously many and many a time. At last she was abreast of them, and then suddenly in the clear, bright moonlight she saw a dark figure. The next instant Norine had fallen senseless in the path, and knew no more.

"Come, Norine!" he cried, catching the slight figure up in his stalwart arms.

"I haven't time to attempt to restore you to consclousness now; when next you open your bonny eyes, it will be far away from Hadley."

Louder and more shrill sounded the whistle of the far-off train, as it thundered over the frozen rails.

Clifford Carlisle knew that it would reach the station now quite as soon as lee could; he had not one moment to lose. Down the mountain road he ran swiftly, though the burden which he carried was no light one.

For a moment he paused to see if the coast was clear; he had no wish to encounter anyone, for take Norine aboard of that train he would, he told himself, no matter what occurred; but he trusted to the darkenses well he crieve the terment to the darkenses.

of that train he would, he told himself, no matter what occurred; but he trusted to the darkness and the excitement to escape attention.

He more than suspected that Florice Austin would take that identical train, but it would be a very easy matter for him to come in contact with her by boarding a different ear.

He would not buy an extra ticket for Norine, thus being obliged to step up to the ticket seller's window, but would pay for her on the train.

Thus he settled the difficulties of the carrying out of his dastardly scheme, one by one, as they presented themselves.

By the terms of the bill workmen contribute 2 per cent, of their wages and the employers a like percentage during a period of 30 years, thus creating a fund from which the workman hereafter is to receive an annual minimum pension of \$72. The State is to contribute only when the forced savings of the workmen do not create a fund large enough to furnish a pension of that amount.

Upon the promulgation of the law it is proposed to grant annual pensions to all workmen over 60 who have worked 20 years, and then gradually increase the scale of pensions of those "graduating" each succeeding year until, at the end of 30 years all will receive at least \$72. Chief Justice Decides-City Will Likely Appeal Against Judgment- Three Controllers Confirmed in Their Seats.

Toronto, March 23.-The license re duction by-law was quashed by Chief Justice Meredith on Saturday. with delight. "Norine will be just in time to take the train with me."

Before he had time to call to her, he may her half quickly, then drop suddenly down in the path.

"Comfound sel." he mutbered, "Size has sainted, I do besieve."

As soon as he reached her side he found that his corrents was correct.

"Of course, I frighteened her," he muttered. "I suppose it is little wonder. A pretty fix I would be in to be sure, if the train came slong accounsess. By George! there's luck in this opportune encounter. Norine is far too beautiful to pass the rest of her day's on these wild western plains. I'll trainplant her to the gay metropolis, and I'll warrant there would be auty in Gotham who can compare with my little western wild flower. I'll—"

But here his soliloquy was suddenly cut short by the loud, shrill, earsplitting screech of the eastward-bound express whistle, resounding far over the plains and dying away over the mountain.

"The train at last!" he cried, with wild enthusiasm.

"Come, Norine!" he cried, catching the come. Norine!" he cried, catching the cried catching the come. Norine!" he cried catching the cried Lordship also gave judgment confirm-

said to cover this point, as that no more than 150 licenses may be issued in any case in Toronto.

The by-law reducing the licenses to 110 was quashed on the ground that it limited the number of licenses to be issued in the calendar year instead of the license year. The city legal department, which is responsible for the drafting of the quashed by-law, has not yet given an opinion on the matter, but will likely report to the Board of Control to-morrow. There is a possibility that an appeal will be taken from the judgment of the Chief Justice. This is the only hope of the temperance members of Council, as it is too late now to pass another by-law this year. The opinion is being freely expressed that, no matter what the outcome of the by-law may be, there will be a stirring contest next January between the temperance and linuar forces for means of the stirring contest next January between the temperance and liquor forces for possession of the city Council.

### BRONZE BUST COMING. Supposed to Have Been Stolen for Smuggling Abroad.

Rome, March 22.—A gilt bronze bust of Pope Clement VIII., weighing two hundredweight, and two small objects of art, have been mysteriously stolen from the Villa Albobrandi at Frascati. Although the property is difficult to hide, searches by the police have been fruitless and it is believed it has been buried until an opportunity presents itself by which it may be smuggled abroad.

TURNED DAUGHTER AWAY,

But Toronto Man Gave Shelter to Mother and Child.

Toronto, March 23.—The story of the sudden death of a three-weeks-old child of Lillian Angus, aged eighteen, yesterday morning has brought to light a remarkable exhibition of the kindness of the poor to the poor in time of trouble. The story is this: Three weeks ago, Lillian Angus, an English girl of eighteen, gave birth to a child at the general Hospital. She came out about a week ago with her child, and, of course, went back to her mother's house at 22 Tate street. When she presented herself, however, she was turned awaz, it is said. At 44 Tate street a man named George Davis, with his wife and eight children, were living in two coons, and here he gave the poor girl sanctuary. She and the child had to sleep downstairs on the same couch with two children of six and eight years, but it was his mite. When the child left the hospital it was suffering from bronchitis and died rather suddenly of that complaint in the crowded bed on Saturday night. In the course of the inquiry it was discovered that the room in which the girl had been living at 44 Tate street was in a fearful condition. It lay very low and the water came into the room and under the lounge behind a curtain, which was all the seclusion and resting place the mother and baby and the two children had. The oilcloth on the floor, was green with damp and the plater on the walls was mouldy. The house has four small rooms in it, but two of these are sub-let to another family, and the Davises have but the two left for themselves.

PAY-AS-YOU-ENTER CARS.

150 of Them Are Set in Operation in New York.

New York, March 22—New York, a city where transit conditions and facilities have been a constant vexing municipal problem, was introduced to a novesty in surface car transportation to-day, when pay-a-syon-enter cars were placed in operation on Madison avenue line from Harlem to Brooklyn Bridge. The public service sontainsion has ordered that no more than 75 passengers may be carried in a car at one time, so that there will be no crowding. Seats are provided for 35 passengers, and 37 passengers can be accommodated standing.

he no crowding. Seats are provided for 38 passengers, and 37 passengers can be accommodated standing.

The cars are so arranged that the passenger makes his entrance by the one door and his exit by one of the tayo doors at either end of the car. Passengers are supposed to give the conductor the exact fare on entering the car. Those not having the actual fare step inside on the large platform until change is made, when they are permitted to pass into the car. One hundred and fifty of the new cars were in operation to day, and railroad officials pronounced them a success.

TRIED TO BURN BARRACKS.

Ownership.

Thorald, March 21.—The friends of municipal ownership will receive decided encouragement from what the town of Thorold has accomplished in that respect with the electric light plant, then owned by a private corporation, greatly improved it and lowered the price of its service finally to four cents a week per sixteen-candle power light, perhaps the cheapest lighting in the country. There's hardly a house in the town which is not equipped with electric lights.

The auditor's statement for last year shows that after paying all expenses, which was necessarily heavy, the department has a surplus of \$758,50.5 This is clear cash and does not take into consideration the cost of lighting the streets. There are twenty-five incanadesent street lights and figuring these at a cost of \$35,50 cheh, the lowest price street lightning has been offered to any place in Canada, \$1,987,50 should be added to the \$758,55, leaving the recurse of the Law.

Winnipeg, March 22—Druggists must bereafter be more careful in solling poisons. One druggist is to appear in court on Wednesday under the rew law, which requires that all persons purchasing poisons must register their names. The case is the outcome of the suicide of Mrs. James McLeod, who field about two weeks ago from drinking carbolic acid. She obtained the poison by telephoning for it. She stated that ehe wished to procure poison for we higg purposes, and the drug clerk sent the acid to her home.

A nustber of breaches of the by-law have been actived recently, and the police have decided to take steps to stop further violations.

Failures Last Week.

March 21.—Commercial failures this week in the United States, as reported by R. G. Dun & Co., are 323 against 322 last week, 332 the preceding week and 185 the corresponding week last year. Failures in Canada number 36, against 43 last week, 36 the preceding week and 25 last year. Of failures this week in the United States, 114 were in the East, 109 South, 71 West and 29 in the Pacific States, and 123 report liabilities of \$5.000 or more, against 141 last week. Liabilities of commercial failures thus far reported for March are \$10,825,167, against \$3,706,655 for the same period the previous year.

Dun's Review. Failures Last Week

Dun's Review. Trade reports indicate a little chinery decreases, but more reductions in wages and dividends show that the process of readjustment will take some time. Weather conditions in all sections facilitate the distribution of seasonable wearing apparel and house furnishings, improving sentiment, yet retailers are not disposed to replenish stocks beyond the business actually in sight. Thus for no strife is expected to follow the new wage scales that go into effect next month, and the number of unemployed will be materially reduced if labor will contribute its share to the lower cost of production necessary to restore normal consumption. Prices of securities have fluctuated irregularly, but no general weakness followed the cuts in dividends, as the previous decline presumably discounted smaller returns on investments. counted smaller returns on investments. Final returns for February established a new high record of exports from all ports of the United States for that short month, while imports were smaller than in the same month of any recent year, supplying a trade balance in favor of this nation of \$88,743,361.

Clew's Report.

New York, March 21.—The upward movement in stocks, which has been in progress for some time past, received a check in the latter part of the week, owing to unfavorable railroad reports and a disposition to take profits. A good deal of realizing has recently taken place, especially by the larger interests which brought stocks during and immediately after the panic to check the decline. It evidently appears to be the motive of the big leaders to induce activity by creating frequent moderate fluctuations. While the technical situation of the market appears to favor the taking of profits and the exercise of caution in buying, the general situation appears to be growing better rather than worse. Among the signs of recovery are a slightly better demand for some products of steel and iron. The most disturbing issue in the stock market is the political outlook. The Presidential campaign is growing in intensity, and more or less uncertainty is inevitable until the nomination can be ascertained.

The Plague of the "White Nun."

From present indications it appears that the dreaded "white nun" butterfly, which in previous years caused such injury to pine forests in Bohemia, is likely this year to reappear in even greater numbers. The Ministry of Agriculture has, therefore, appointed a commission of experts to consider how best to stop the ravages of this destructive pest. Beginning in the forests of Saxony and Bohemia, the "white nun" has gradually spread over Moravia and Silesia, and even down to lower Austria as well. As the forest lands in Austria cover some twenty-four million acres, more than twenty-four million acres, more than two-thirds of which are pine woods, the necessity for stopping this work of de-struction is very urgent.

#### THAT NEW OFFER.

The latest proposition which the Street Railway Company has laid before the aldermen presents a somewhat difficult will require much careful study to thoroughly analyze it and guard the interests of the ratepayers, if any action is to be taken along the lines it lays down. Whether it is likely to be regarded as ore attractive than former propositions discussed, we are inclined to doubt.

As it now presents itself to us, it is. in a sense, a partnership proposition. But the partnership is not a full one. The city is made a partner only in relation to the net profits; it is not given any representation on the directorate, or any voice in the management of the pro-This, we fancy, will be regarded as an arrangement that will not satisfy the people. Beyond these features, too, it is to be proposition would mean the abrogation of the present agreement, instead of its amendment: and to that there will doubtless be strong objection by many citizens. The effect of the proposals for financing improvements and extensions would be to revolutionize the arrange ment dealing with the situation at the franchise term: and that alone makes it a matter that must be very cautiously approached. It is conceivable that the proposition might form basis for a new deal, acceptable to the city, if her partnership rights were carefully guarded; but we are at present of John was obliged to grant it. The damthe opinion that the former proposals wassuming, of course, that the ent and future street railway requirements are fully secured-are less con plicated, leave less to contingencies of the future, and involve fewer chances of rious mistake than the one just made. #### WHITNEY VS. DOWNEY.

Poor Joe Downey got his bumps last week in the Legislature. Mr. Whitney arose, declared him self in favor of the bonusing system and asserted that he did not beli single clause of the bill. Mr. Whitney cannot get over the good old Tory idea that the money of the individual should be liable to be taken from him by the vote of the majority, and without his consent, to be given to somebody else who may have obtained the favor of that majority. His reproof of Downey was quite in keeping with his whole course in dealing with the Hydro-Elec tric and many other matters in which municipalities are concerned. Mr. Downey is on the right track in this mat ter, and the only objection to his bill is that it is not thorough enough. The bonus should go.

#### At the Savoy.

At the Savoy.

The Savoy's splendid bill should draw big business all week. "The Vaudeville Exchanges," presented by the Watson-Hutchings Company, is said to be one of the cleverest comedy sketches on the stage to-day. It is full of bright, rollicking fun, and with such clever people as Miss Alice Hutchings and Henry Watson in the cast, is sure to prove a most attractive headliner.

"As a person is truly loved, so are they truly wealthy," is the theme about which one of the cleverest sketches of the vaudeville stage has been written by Frances Owen. Dealing as it does with an old man's love for children, it is a playlet bound to create ca'husiasm even in a heart of the most blase patron of the varieties. The entire act is full of rare, rich comedy of the finer sort, and the human interest shown lends additional charm to this delightful little lay. We Green has the summer to be the side of the little lay. cal entertainments that can boast of a plot. It tells an amusing story built upon farce lines, and while the plot is made subservient to many explosions of mirth and melody, nevertheless it lends tangibility and sanity to the whole atmosphere. sort, and the human interest shown lends additional charm to this delightful little play. Mr. Owen has the sup-port of a clever little company. The ti-tle of the sketch is "The Benediction," series of a clever fittle company. In the tele of the sketch is "The Benediction," and it will be the special attraction. Minerva, the handculf queen, will be another hig number of the headline variety. She is the only lady handculf artist in the business, and her manager guarantees that she will give an exhibition that will set Hamilon talking. Her act will be changed at almost every performance. Minerva in berself should prove a record-breaking drawing card. The bill includes Billy Barlow, the minetrel comedian; William J. Hagan and Evelyn Westcott, singing, talking and dancing comedians; Joseph Fields and Mark Wolley, real German comedians, and the Beardsley sisters, dainty duetists. To-morrow is Limerick night.

SUCCESSFUL INSTITUTE MEETING THERE LAST WEEK.

Large Gatherings and Much Enthusiasm Shown in the Three Day Meetings Just Held:

The Fruit Institute meetings held at the Town Hall, Dunnville, on the 18th, 19th and 20th, proved quite successful They were well attended, and great inwas taken in the various sub jects. The farmers around Dunnville are just beginning to go into fruit, and are just beginning to go into fruit, and there is no doubt that a great deal of nice fruit will be grown in that country in the future. On Wednesday Mr. H. S. Peart, of Jordan Station, addressed the growers on "Causes of Failure in Fruit Growing," and "Progress in Experimental Work," and in the afternoon on "Tillage, Fillers, and Orehard Cover Crops."

On Thursday Mr. J. W. Crowe, of the O. A. C., spoke on "The Ordering, Selecting and Planting of Nursery Stock," and upon "Insects and Diseases," and Mr. Kuttenhouse, of Jordan Station, upon "Strawberries and Bush Fruits." In the evening Prof. Hum spoke on "Home Decoration and Vegetable Christians." In the evening Prof. Hurt spoke on "Home Devoration and Vegetable 'Ohidens," Mr. Worner acted as chairman, and infertibiled what the horticultural acciety had done for Dunnville. Mr. Werner, jun, gave some excellent vocal selections, to the accompaniment of a banjo. Professor Hutt gave directions for making and taking care of the vegetable garden, and the various kinds of vegetables to grow, and also how to lay out home grounds and how to take care of lawns. This lecture was much appreciated, and a special vote of thanks was tendered the professor at the close of the meeting. On Friday the whole day was taken up by Prof. Hutt on "Pruning and Graiting," and Mr. Thompson, of St. Catharines, on "Packing and Marketing." These two gentlemen did not confine themselves rigidly to their subjects, but spoke on a wide range of matters specially interesting to their audience. Almost the whole range of fruit growing was taken up, and great interest was shown by the growers. It will not be long, probably, before Dunnville will be heard from favorably in the fruit markets.

Boer General Wants British Protection

New York, March 22 - General Fran-OYAL WEDDING.

New York, March 22.—General Francois Joubert-Pienaar, who fought in the Boer army against Great Britain, and who is now in the United States, urging that efforts be made to bring about the suppression of slavery in Portuguese West Africa, has appealed to Sir Edward Grey, the British Secretary for Poreign Affairs, to save his family from alleged unjust treatment at the hands of officials of the Portuguese government in Angola.

HORDES SWARM ON "PAY AS YOU ENTER CARS AND FIGHT.

Police, Too, in Melee-Many Combatants Are Hurt and Shoppers in Fright as Conveyances Run Gauntlet.

Chicago, March 22.-The war of the newsboys against the Chicago City Railway Company reached a bloody and riotous stage yesterday. From the time the night extras were out at 5 o'clock until the great homegoing crowd had thinned out at 7 o'clock there was a

thinned out at 7 o'clock there was a fight a minute along Wabash avenue between Madison and Adams streets. The Lilliputians seemed to more than hold their own with the Brobdingagian conductors and police.

Fifty newsboys with their "huskies" marched to the attack of every car that made its way around the Randolph street loop. The railroad company had provided an extra conductor for each car and a gang of guards at the crossings. The result was broken heads and blackened eyes, and cuts and bruises without number.

The police entered into the melee with caution at first. They had orders to

In the thick of the battle, however, several policemen lost their heads and with brutal courage assaulted boys that came up to their knees. One boy's head was cut open by a blow from a policeman's club.

The conductors first pushed the boys The conductors first pushed the boys off smilingly, but after a few of them got hit with rocks and saw their trolleys cut they fell to kicking at the eager faces that constantly pressed over the platforms. Some of the conductors as a consequence were beaten into unconsciousness by men of their own size.

Passengers Innocent Victims.

Passengers Innocent Victims.

The net result of the affray was that passengers were half an hour or an hour late in getting home. The elevated was taken by most of the frightened women. The cars were blockaded for two hours. Spectators in the street were hustled and thrown out of the way by the police. Four newsboys and one slugger for the railroad company were arrested.

The dark valley under the Wabash as The dark valley under the Wabash avenue elevated became a gory field of battle, with the contending forces surging back and forth in a glory of menacing fists and distorted faces. The people who came to take the Indiana avenue and Cottage Grove avenue cars gave one look at the scene and fled up the elevated stairs.

Lilliputians Eager for Fray.

Lilliputians Eager for Fray.

The conductors did not waste time in arguments. They had their instructions. They had to fight, not collect fares. The crowd pressed forward in a compact, yelling mass. Some one pulled the trolley off the wire. A few boys jumped for a conductor's face. Then in the darkened car the sereaming passengers rushed in panie waves for the front exit, while the rear platform was a scene of flying fists and hair. This was the method of attack. When the first few boys were hurled out others packed in after them. The conductor of car 5412 kicked at the first boy to get into the car, and then drew a blackjack to threaten those following. In a flash one of the strong arm followers of the "newsies" clambered on the platform and dealt the conductor two swift blows in the face that sent him sprawling. Freeman was thrown off the car, but tried to get back to get his cap, which had been grabbed by the conductor, when the officer stepped up and hit him Policeman Sullivan was heard to say: "The only way to do is to lay these boys out stiff."

After Inspector Lavin arrived the police charged the crowd that blocked all passage on the street. When the streets were cleared a group of policemen stood at the entrance of every car and helped the passengers aboard. In place of crowded cars, however, every car that went south was more than half empty. Only men and a few daring women tried to get on.

Even after the police took such a firm stand the newsboys did not give up. They charged the police and succeeded in getting on board several cars and starting fights. Their policy of delaying traffic was successful, and the conductors let caution get ahead of valor after their first trip through the line of battle.

The next shareholder to speak wanted to know Mr. Stewart's position; this was explained. He evidently thought that Mr. Stewart's sbares were not paid for, but the position was made quite clear. "I have seen and heard much regarding the use of proxies by the directors of the bank. We did not use, neither did we intend to use any proxies at the meeting. We just desired the shareholders to decide the course of action. I hold proxies for the Dresner Bank, and J. P. Morgan's interests. If the resolution regarding a Government commission to inquire into the affairs of the Sovereign and other banks had been forced upon us at the meeting, naturally we should have exercised our voting power by proxies. She saw blackjacks and pieces of gas pipe brought into action. Her hat was nearly torn off by an arm that reached over her to hit the conductor in the face. This was one of the incidents of the homegoing throng.

Toward 6 o'clock the battle became worse. The company tried strategy. The cars were switched back at Monroe street and sent south. This only changed the scene of the fight a block south. Capt. Gibbons and his handful of police did not appear to have any definite action in view. For the first half hour the police were lenient. Then an extra squad was sent for and the trouble began.

Policeman Charged With Brutality.
Policemen Sullivan and Crozier soon brought the hatred of the newsboys upon themselves. Sullivan was charged with picking boys up and throwing them down on the pavement. Crozier struck Frank Mulholland, a 15-year-old boy, on the bead with his stick, inflicting a deep wound. The boy was taken to the Palmer House and four stitches were taken in his head.

Nearly everybody knows "Billy" Stift, or ought to. He has been more or less "prominently" mentioned in the newspapers for years—in some connection or other. A dozen years ago he was the amateur champion middleweight prize fighter of Illinois, then broke into the professional class, and for a few years ranked as a "topnotcher." He was known then as "the man with the fighting face."

But that's getting away from "Bill's" sermon, for he also said:

"The life of a prize fighter is simply fierce. You cannot fight other fellows without fighting whiskey. I have fought many a hard battle with both men and whiskey, and, while I bested the men, the winskey floored me. Nobody derives any good from the life I led. I'm going the clean way now.

"Look at your palms," he continued, "and you will find certain classical lines. These lines—the so-called lines of life, heart, and head, and the girdle of Venus, and the bracelets of life around your wrists—what do you suppose they really are? They are nothing more nor leve than creases or folds produced by the action of the muscles. The line of heart, for instance, is the flexure of the four fingers. The line of life is the result of the action of the thumb. All these lines that have been given astronomical names by palmists are characteristic flexures. ### The children's laxative—Cascarets. Candy tablets, pleasant to take. gentle in their effects. Throw out the old-time physics.

Look back at your childhood days.
Remember the physic that mother insisted on once in a while—castor oil, salts or cathartics.
How you hated them. How you fought against taking them.
How you dreaded their after-effects.
That was all wrong, but then nobody knew better.

With our children it's different. They belong to the day of the gentle in medicine. The day of harsh physics is over.

We don't force the bowels now; we coax them.

We have no dreaded after-effects.

And the dose is a candy tablet.

Mothers who cling to the old form of physic simply don't

w what they do.
The children's revolt is well-founded. Their tender bowels are harmed by them. The modern way is to give a gentle laxative, and to give it more frequently. To keep the bowels always active.

The best method is Cascarets. One-half a tablet, as often as needed, does more than anything else to keep a child well.

Cascarets are candy tablets. They are sold by all druggists, but never in bulk. Be sure you get the genuine, with CCC on every tablet. The price is 50c, 25c and

The opening of this growth revealed the presence of over three pounds of iron, consisting of 1,410 one-inch nails, 160 bent pins, 70 double-pointed needles, and seven nail heads. For variety's sake, there were four splinters of giass. The girl came out of the operation eplendidly.

No explanation has been published to show how it came about that this large stock of thardware got together in the young womann's interior and became enoysted there.

Markham. Markham, March 22.—Mr. John Eby, of the eighth concession of Markham, was killed in Mr. Tilman Receou's bush resterday. He and Mr. Albeit Wideman went for a load of wood. In felling a tree it lodged, and they hitched the horses to it to push it down, when a limb broke, striking Mr. Eby on the head and crushing the skull. He lived a couple of hours after the accident. He leaves a wife and two stepchildren to mourn his untimely loss. He belonged to the Memonite Church, and was a good citizen in every way.

# PREACHED AT **OLD CHURCH.**

Dr. Wilson at Wesley's Anniversary Yesterday.

Sunday School Anniversaries In Two Churches.

Other Special Services In the City Yesterday.

The anniversary services of the Wesley Church brought out large congregations at the morning and evening services to hear their former pastor, Rev. Dr. Wilson, of Trinity Church, Toronto This was the second time that Dr. Wilson has preached from the pulpit of Wesley, in over six years, and his visit was very much appreciated. He has lost none of his well-known vigor and gift of speech, and, as a tribute to his popularity at the evening service the church was filled to its utmost capacity. In the morning Dr. Wilson said he was indeed glad to be back in old Wesley, and stated that he and his famcherished recollections of the times that have gone.

His subject in the morning was the "Work of the Church in the Development of the Nation." There are some things in life that one may and must do, he said. One must inhale the air, eat, drink and think. So it must be said that the church must do things to maintain her place. She must have her hand in the building of the great nation of which we form a part: The foreigners who are coming to this country, who are illiterate, and in many casea have no conception of law and order, must be looked after by the church as well as the state. It must be a combining of the press, state and the church, to do the work to make the country good. Coming to the individuals, the church must help to put down the selfish spirit in the breasts of men. The day is soon coming when the big ships of the ocean and the big armies of the nation shall be no more, and the church will rule as the founder of peace, through its leader, Jesus Christ.

Livingstone was not afraid to undertake and fight the battle of life. His first journey in Africa covered some 700 miles. He found slavery in full force there and made up his mind to get rid of this curse. He decided to press farther forward into the interior of Africa. He met with many difficulties, but he fought manfully onward. During his journey the came to the famous Victoria Falls. David Livingstone returned twice to England, and, going back the third time, pressing still further into the heart of Africa. He sought to find the source of the great River Nile, and during this journey subsisted mostly on raw corn, often suffering from thirst and hunger. Weak and with a broken arm he crawled along often on his hands and knees. Stanley was sent out to find him, broken in health and strength almost gone. David Livingstone laid down to die alone far from home and friends, all for the love he bore to the people in Africa and love for Christ the Saviour.

In the morning Rev. Saitzett, a nissionary from the Northwest, gave an address. He paid a compliment to the Women's Foreign Missionary Society, which he said was doing a good work in that country in clothing needy children and in many other ways a very great source of helpfulness. He spoke of the greatness of the country, which was only beginning to see a brightness and prosperity. The work Mr. Saitzett is engaged in covers a territory of 100 square miles, and has 11 mission stations. A glowing tribute was paid to the late Kev. Dr. Robertson, who did a noble and enduring work that will ever live in the hearts of the people. To night the annual entertainment, which will consist of a programme of moving pictures and illustrated songs, will be given.

A Galician Spoke.

Rev. N. Saintzeff, of Yorktown, Sask. Greek Church of Canada, occupied the pulpit of Central Presbyterian Church last night. Mr. Saintzeff was in Toronto last week attending the Prosbyterian missionary conference, and he was induced to come here to tell of the work of his church in the far west. He gave a short history of the Indepedent Greek Church, which is an off-shoot of the Roman Catholic Greek Church of Russia, but which is now under the wing of the Presbyterian body. He said that thousands of Galicians gladly took advantage of the conditions of this free country to throw off the yoke of the Catholic Church, and he was glad that in this country the church and state were entirely separate. He stated that there are 40 Independent Greek Churches in the new territories in the west, and ten more are in course of erection. These churches are self-governing and self-directing, and he had no doubt would affiliate with the Presbyterian Church as soon as that body was willing to take them in. Many of these churches are now self-supporting. The Edmonton church has over 100 families in it. to last week attending the Presbyterian

have become a moral pestilence."

Rev. Dean Mahoney, rector of St. Mary's Cathedral, explaining the regulations to the congregation yesterday, declared that marriage was the foundation of the family, on the family depended society and on society rested the stability of the state. The administration of the sacrament of matrimony belonged to the church appointed by Christ and to the church alone. The dean emphasized that he was speaking of Catholics. Regarding the marriage of non-Catholics the church admitted their validity. It only legislated for its own people. only legislated for its own people.

Don't Effect Mixed Marriages.

"It has been stated," he said, "that there are to be no more mixed marriages. That is entirely incorrect." The power of the bishop will be exactly the same after the law has gone into effect as in the past. The bishop will have the same power to grant dispensations. This explanation is not made as an encouragement. You know very well it is only with great reluctance and sorrow that these dispensations are granted."

One important point in the new regulations is having the agagement in writing. While the verbal engagement is not forbidden, it is strongly urged that in every case it be in writing. "It will prevent many frivolous and foolish engagements made to day only to be broken to-morrow," said Dean Mahoney, "and, moreover, in case of breach of promise such a document will be valuable in the courts of the land."

Under the heading of what the people should know about the new marriage law the following extracts are taken from the official regulations:

"In the eyes of the church and before God, private betrothal after Easter between Catholic parties, or between fallen-away Catholics, begets no matrimonial obligation whatever, because the church decrees that every pre-nuptial contract is void unless it is written and duly attested.

"Parties wishing to become engaged must sign the pre-nuptial contract, and have the bishop or their pastor witnesse it. In the absence of the bishop or duly authorized priest, two witnesses must sign the engagements should be encouraged. ion in place of the late Justice Killam, Mr. Justice Mabee was here on Sat-urday on court business. It was annrounced recently that Mr. Justice Mabee was offered and declined the position because the act, as it stands at present, would not entitle him to his retiring allowance as a judge. In other words, he would have to drop his superannuation. It is understood that the act will be amended to enable Mr. Justice Mabee to receive superannuar. Justice Mabee to receive superannuation at the end of ten years' service in the commission. This would place him in the same position as was Mr. Justice Killam. The only reason for changing the act is that while Mr. Justice Killam had five years' service as a judge, Mr. Justice Mabee has had only three.

As the Government was anxious to secure his services for the important position it was decided to make the necessary change, and Mr. Justice Mabee accepted. He will assume his new duties without delay.

Fine Quality Grain From Old Land for

Western Farmers.

Fort William, March 22.—Three hundred thousand bushels of seed oats from Scotland, England and Belgium arenow passing through Fort William for use in the Northwest. Grain men who have inspected the grain say that it is the finest that has ever been seen here, and with the majority of farmers using it this spring for seed, next fall's crop of oats should be far in excess of any hitherto harvested.

# **BRITISH PREMIER** RAPIDLY SINKING.

VERY LITTLE ENCOURAGEMENT TO BE DERIVED FROM BULLETINS.

Mr. Haldane Mentioned as Probable Successor to Mr. Asquith in the Exchequer-Winston Churchill and Mr. Lloyd-George Accused of Trying to Form a New Party.

New York, March 22.-The Herald has received the following cable des-patch from London:—Members of all s of politics are becoming more and more concerned every day over declining strength of the Prime

the declining strength of the Prime Minister.

The Prince of Wales is a constant visitor to Downing street, going there every day. But no messages of sympathy or anxious inquiry are more welcome to the suffering Premier than those personally sent upstairs by his greatest political opponent, Mr. Balfour, who, though in common with all visitors is excluded from the sick room, calls every day and sometimes twice a day at the Premier's residence.

It is recognized in the lobby of the House of Commons that Sir Henry's health is rapidly declining. Sir Thomas Barlow spends considerable the with his patient, but very little encouragement is to be derived from the bulletins. The chances of his being able to resume the active duties of the Premiership, indeed, are absolutely nil.

Within the Liberal party wire-pullers are hard at work arranging for a reshuffle in the Liberal Cabinet. Mr. John Morley would like to go to the Exchequer, but it is not believed he has the knowledge of financial affairs requisite in that position. It is now suggested that Mr. Haldane would make an admirable Chancellor of the Exchequer, and his friends declare that he is the only member of the Ministry who understands the Asquith budget and scheme for old-age pensions. Mr. Haldane is also keen on getting his promotion, for the Chancellorship is a more important post than his present one. But who is to fill Mr. Haldane's shoes? It is difficult to think of anyone who could carry through his army scheme, for truth to tell, hardly any other Minister understands it.

Unpleasant allegations have been made against Mr. Lloyd-George and Mr. Winston Churchill, both exceedingly clever young members of the Liberal Ministry. It is hinted that they have both been intriguing with a view to the formation of a new party. It is well known that all is not harmony within the Liberal ranks. Mr. Winston Churchill wants to get into the Cabinet, but he does not know the way. If he takes Cabinet rank he will, according to constitutional rules, have to face the storm and stress of re-election. To judge from the results of the recent by-elections his re-election as the member for Manchester is doubtful. It is understood that he is in favor of an early dissolution, so that he can choose a safer seat and demand a higher position in the new Ministry.

The young politician is gifted with a good-humored, self-complacency which never fails, and a be'ief in his own genius as a statesman which has good-humored, self-c

fice as Premier.

And what are the misgivings about Mr. Lloyd-George? Since he became President of the Board of Trade the little Welshman has shown a very open disregard for the teachings of the Cobden Club. Indeed, he has been tearfully written down by The Spectator as at heart a protectionist. One allegation against him is that he is prepared to formulate some positive tariff proposals to meet a great tive tariff proposals to meet a great

London, March 22.-Doleful tales of hard times are being told in London just now, and while they are palpable exaggerations in some respects, there exaggerations in some respects, there is no gainsaying the fact that in respect to one set of London's business men they are fairly truthful. There is no doubt that the Stock Exchange is suffering grievously from the stagnation prevalent for some time past. It has been stated that as many as 500 members of the Stock Exchange will not renew their subscriptions. Whether this statement be true or not cannot be verified before the end of March. The deplorable shrinkage in business, however, is shown by the cutting down of office staffs. Nearly '00 clerks employed in the "House" have been withdrawn.

There are some 5,300 members of the Stock Exchange at present, and at least a dozen dealers where there is not enough business for one.

A member of the Stock Exchange said yesterday that many of his fellow-members had barely enough money in their pockets to pay their train fares.

This dearth of spending money is the basis of many tales of woe in the west end. The times are almost as bad, according to one authority, as just after the Boer war. s no gainsaying the fact that in re

AUSTRALIA'S TRADE.

Mr. J. S. Larke Forwards a Report Showing Large Increases.

Ottawa, March 22.—A report received by the Trade and Commerce De ed by the Trade and Commerce Department from Trade Commissioner J S. Larke, of Sydney, Australia, gives figures of the Commonwealth's trade for 1907. The total imports were £51.898,380; the total exports £72,913,-647. The growth in imports during the year was £7,000,000, and the exports increased by £3.000,000. Mr. Larke says that financial conditions in Australia are sound, and the outlook for continued, steady growth in the prosperity of the Commonwealth is good.

Drunken Brawl.

London, Ont., March 22.—Night Statton Agent John S. Gilean, of the G. T. R., is in a seriozs condition at his home, 648 Waterloo street, as the result of an attack made on him while trying to quell a drunken brawl in the yards, between Wellington street and Clarence street, carly Saturday morning. A party of young men, who are said to have been in a drunken condition, became engaged in an altercation while returning from a dance, where they had made trouble. A fierce fight resulted, and when word was brought to Mr. Gillean, he went down to stop the fight. The men turned on him, and after throwing him down, kicked him brutally about the head and abdomen.

Mr. Gillean was in an unconscious condition for some minutes, and was rescued by several railwaymen and taken to his home.

these are harmiess vegetable ingredients, which can be obtained from any good prescription pharmacy.

This mixture will clean the blood of all impurities. In just a few days the skin begins to clear of sores, boils and pimples. It puts vige and energy into run-down debilitated men and women. For many years Sarasparilla alone has been considered a good blood medicine. But while it built up and made new blood, the impurities remained within and the good accomplished was only temporary. Sarasparilla, however, when used in combination with Compound Salatone and Extract Dandelion, works wonders. This combination puts the kidneys to work to filter and sift out the waste matter, uric acid, and other impurities that cause disease. It makes new blood and relieves rheumatism and lame back and bladder troubles.

No Danger of Anti-Foreign Outbreak, Savs President.

Says President.

Port au Prince, Hayti, March 22.—
President Nord Alexis, in an interview at the palace to-day, declared that conditions in the republic were absolutely tranquil. He said that he did not question his ability to preserve order and protect foreign interests here. Should the powers, however, decide to keep the warships in this harbor he would not object, but he added that there was no necessity for such a thing; there was no possibility of a popular outbreak against the foreign residents.

The Government, continued the President, did not intend to take further action looking to the prosecution of the participants in the recent revolution, except in the case of the disloyal soldiers, who are subject to military punishment.

more injurious to smoke quickly than slowly.

They tested pieces of absorbent cotton placed in the mouthpieces of pipes and cigar holders, and found them colored yellow with brown flecks. These were found to be of a tarry nature, produced during the process of combustion, and highly poisonous. It was found also that two cigars of the same brand and strength often produced differing degrees of discoloration of the cotton.

Further investigation showed that these differences were due to the length of time occupied in smoking. The same weight of tobacco smoked in five minutes produced nearly three times as many yellowish-brown spots as if smok-ed in fifteen minutes.

The professors, therefore, concluded that a rapid smoker inhales a much larger quantity of poisonous substance than does the slower devotee of nico-PRIEST-SLAYER MUST HANG.

Mr. Stroud had an interview with Mr. Fred Paige, who has been working for the organization of a new International eague and that gentleman at once realized that if an Eastern League team were placed in Hamilton there would be no possible chance for his would be no possible chance for his league, so he agreed to turn over his option on Britannia Park, provided he was recouped for the expense he has been put of. Of course, his conditions were accepted as reasonable. Full particulars by letter were sent on to Mr. Powers and are in his possession now, and he may be heard from at any moment.

Mr. Powers and are in his possession now, and he may be heard from at any moment.

As far as can be learned from what has already passed it is the intention of the present owners of the Montreal franchise, if the change is made, to put the Montreal team and outfit complete into Hamilton. Manager Farrell has a strong team and one that would give Hamilton high class ball. It could be run at an expense no greater than that of the old International of 1887 and 1888, and if Hamilton could—and did—support that team liberally, it should be able with 20,000 more of a population and electric suburban railways all over the country, to do a good deal better now. If local capital is desired Mr. Stroud is prepared to provide it in any one of three ways—out of his own pocket as, a business venture; by subscriptions as a scheme in which many Hamiltonians are interested, or by the organization of a joint stock company. He does not think, however, that any local money will be required, or that anyone but the present owners will get a chance to invest in the enterprise.

of the manly art show considerable chagrin over the easy defeat of the Irish champion by Burns. It is regret-fully admitted on all sides that Great Britain no longer produces men capable of meeting the best American boxers. An authority on the subject thus ac-counts for the deterioration of Engish fighters:

at the Canadian Amateur Athletic Union wrestling championships, decided under the auspices of the Central Y. M. C. A. in Association Hall, and before the bill

"Some seem to think that the decline in boxing here is a matter of the last few years. But this is not so. For the last twent's five years we have been going from bad to worse. I attribute the superiority of the American boxer today to his methods of living outside the ring, his methods of training and his general discipline of life. The American is so bright, so quick, so brainy that he sees an opportunity and the moment it is in his mind he makes some use of it. Our men don't notice, too, how when Our men don't notice, too, how when they are going to lead, the Americans get in close to their man. But the Brit-

a limbs are not elastic enough. But look at Burns when he is in the ring. Every muscle is relaxed until it is wanted, and, when it is needed, it can be used with a force that is all the greater by reason of its sudden tension.

"Then as regards training. The only training that is of any use to a man is that which suits his constitution, but that is not the modus operandi of the English trainer. He says to his man: This has always been done and you shall do it." The Americans do not make a burden of their training. The American fighter when his work is done chances into comfortable clothes and make a burden of their training, and American fighter when his work is done changes into comfortable clothes and has a nice little party of friends in the evening, and in this way breaks the monotony. motors in the world, while at the present time there were that many in Canada. Ten years ago the annual output of the factories, was about 2,500, while in 1907 it was 200,000.

Sir Mortimer Clark gave an interesting account of automobile manufacturing. By foolish prohibitive laws, the industry had received a great setback in England, while France, Germany and the United States took the lead. He hoped that such a mistake would not be made in Canada, for a trade once lost was very difficult to recover. He was glad that the league was setting its face against all reckless driving. He himself had seen cruel instances of it.

His Honor in referring to the exhibits made special reference to the significance of that of the Canadian Northern Railway, which shows, among other things, the canoe in which the noted hand Patally linjured.

The Mayor and Chairman Sweeney also agreed that a resolution would be introduced at the council meeting next Monday calling on the Dominion Government to stop emigration for the present to the cities in Ontario, and especially Hamilton.

A crowd of about a hundred men waited outside the City Hall to hear the result of the interview. Some of those in the crowd seemed to treat it as a joke. While a box was being hunted up for the speaker to stand on some one called for "the hook."

The crowd seemed quite pleased when the result of the interview was related to them, and cheered lustily when it was stated that the council would pass a resolution asking the Dominion Government to stop the Salvation Army bringing immigrants to the city.

The Mayor explained to the reporters that he made no mention of the Salvation Army. He thinks that by the first of April and with the opening of the season in the building trade that nearly all the unemployed in Hamilton can be given work.

that the bondholders have first claim on the revenue for their six per cent, in-terest, and that the city should continue collecting on the gross receipts as in the past. When Chairman Sweeney was ask-ed to-day if he thought it meant nego-tions were off, said, "I hope not. I would very much like to see some settlement made."

It is not expected that the company's offer to sell the lighting plant to the city will be received for a week or so. The Board of Works will not meet to-morrow night, and Chairman Sweeney points out that there is no need for a rush, as nothing can be done until Engineer Sothman's estimates are received. The company will not sell the city the poles, only the cross-arms and lighting wires on them.

# League.

In the semi-final game for the chamionship of the "Big Three" Indoor League at the Alexandra rink on Saturday afternoon, the Rugby Tigers defeated the Travellers by a score of 11 to 6. A large crowd saw the game. G. Wigle and J. Tracey were the umpires, and the teams were:

and the teams were:

Tigers—Carey p, Campbell c, Isbister Ib, Smith 2b, Tope 3b, Murray ss, Lyon rs, Simpson, If, Barron rf.

Travellers—Smye Is, Dore c, Male p, Tracey Ib, Carroll 2b, Smith rf, W, D. Dore rs, McDonald If.

The final games will be played next Saturday afternoon between the Travellers and the Bankers. The losers of the game are to pay two-thirds of the cost of a supper for all the teams in the league, and the winners the other third. The Tigers will simply eat—and drink; they will not have to pay, pay, pay.

Rev. A. E. Mitchell Will Probably be Called by Knox.

There will be a meeting of Knox Church congregation on April 8 to call a new pastor to fill the vacancy left by Rev. S. B. Nelson, who resigned several weeks ago to go to Minneapolis. It is said to be pretty well understood among the congregation that Rev. A. E. Mitchell, of Erskine Church, Ottawa, who preached here two weeks ago, will be extended the call. There are still two ministers who will preach in Knox

The municipalities which have applied to the Hydro-Electric Power Commission for power contracts will have the forms of contract submitted to their representatives at a meeting to be held in Toronto during the present week, according to a Toronto despatch.

So far as the municipalities in the west are concerned, there is no doubt, as intimated by Premier Whitney, that power will be taken from the Ontario Power Company. Up to the present no actual agreement with the company has been signed.

The city began the work of street and gave about a hundred unemployed men work.

# Special Service In Barton Street

For a considerable time the Barton Street Methodist Church has been giving special attention to Christian among foreigners in the east end, undertaking the problem of helping these people to become Canadian citizens, and they are undertaking it in a vigorous manner. Regular classes are held for their instruction classes are held for their instruction in Bible truth, and in Christian and Canadian citizenship. A lady missionary is employed to go into their homes and help their women and children into better conditions. The workers among these people are meeting with not a little success. Last night a special meeting was held in the church at 8 o'clock for one nationality, the Armenians. There was a large attendance of men, women and children of this race. Rev. S. Sarkissian, a native Armenian, addressed

# SHOT BY COREANS.

DIPLOMATIC ADVISER TO COREAN GOVERNMENT ATTACKED.

Knocked Down by Four Coreans Last Night, Who Wanted to Kill Him-Attacked Again This Morning and Shot Three Times-He Shot One of the Coreans.

San Francisco, March 23.-D. W. Steens, diplomatic adviser to the Corean Council of State, who arrived on Friday from Corea, was attacked and knocked from Corea, was attacked and knocked down by a committee of four angry Cor-eans last night in the lobby of the hotel. Only the prompt arrival of guests and employees of the hotel, in response to his loud cries for help, saved his life, for the Coreans declared later that they would have killed him. Stevens was severely bruised, but not dangerously injured.

severely bruised, but not dangerously injured.

The Coreans took offence at an interview by Stevens upon his arrival here, in which he said the Corean people have been greatly benefited by Japanese protection, and that they are beginning to look more favorably upon it.

D. W. Stevens, adviser to the Corean Council of State, who was attacked by a committee of Coreans in the Fairmont Hotel last night, for favoring the course of Japan in Corea, was shot three times by two Coreans at the Union Ferry building this morning.

Stevens drew a pistol and shot one of the Coreans. The extent of Mr. Stevens' injuries is not yet known.
