A very large assortment in this line all of dependable quality and good make, in elegant shades, you will be more than pleased with the selection. Specially priced at

**\$1.80**

The Special 20 per cent. Discount for Wednesday morning does not apply to the advertised articles above, but it will be on all other lines as usual.

**A. D. FARRAH & CO.**

## IRISH SITUATION BECOMING SERIOUS

Dublin, Aug. 2.—Fears that the Irish situation which is daily growing more tense, may burst into a general conflagration at any moment are expressed in responsible quarters here. At the present there is virtually no civil law south of the Boyne River except that administered by republican courts but it is pointed out that each day finds the balance between military and revolutionary rule growing more equal.

It is estimated there are between sixty thousand and eighty thousand fully equipped British soldiers in Ireland and they are being re-inforced daily by men arriving from across the channel. As a result there are more frequent and more stubborn battles between the troops and the republic volunteers, who for a time had things much their own way. There have also been more arrests for carrying arms and seditious literature, as reports to courts partial show. It is expected the number of these arrests will increase if the Government succeeds in carrying its "drastic measures" in the house of commons next week.

Reprisals by British policemen and soldiers on villages suspected of harboring men responsible of attacks against the armed forces of the crown are also expected here, the police being particularly aroused over the attacks made on their fellow members. In the meantime the Sinn Feiners, in carrying on their campaign have virtually cleared the county of barracks. They are now turning their attention to country houses where military forces might be housed and a number of these have been burned during the last ten days. Attacks on coast guard stations for the purpose of capturing explosives have been stopped, it having been established that this practice was imperilling the lives of seamen, who could not be informed of marine dangers except by these guards. Homes of coast-guards are not immune, however, and a number of these have lately received attention. In fact, it is commented nothing is safe at present that might be used against the republican movement or that might assist it.

Irish banks which do business with the Bank of England and necessarily make periodical shipments of bullion to the latter institutions have called on military authorities for armed guards for the lorries that move the bullion this has led to reports that the banks' reserves are being moved to England.

In Dublin crowds gather on the streets at night, impeding traffic, and frightening nervous persons on the slightest move and the police stand idly by, seemingly realizing that interference might lead to something more serious. Just before midnight, the curfew hour, the orderly elements stream away to their homes but long after this there are many stragglers about the streets. As a result a score or more are gathered in each night for being out of their homes without permission. At street corners, night and day, can be seen numerous gunmen representing both sides of the conflict. They are ready for action at a moment's notice. Some of these have come from Canada and the United States.

## SOUTH NELSON

Farmers are quite busy with their crop and report a rather small crop. Mr. and Mrs. Andrew McDonald and children of Berlin, N. H. are having old acquaintances in the vicinity.

We are sorry to report the illness of Mrs. Everett Bateman, but hope she will be around soon again. Miss Agnes Flett is spending her vacation with her parents Mr. and Mrs. Geo. Flett. Miss Gillon of North Carolina is also their guest. The C. E. society are holding an ice cream social this evening (Wednesday) in the grove adjoining the Presbyterian church.

Our popular wool-carder, Harry Brown is looking anxiously for rain, much to the disgust of the hay makers.

Mrs. Bate of Newcastle spent the past week with Miss Annie Flett. Miss Lila MacKenzie is visiting in Oak's Queens Co.

## 'FAIR AND WARMER' HAPPY HOUR WED.

May Allison's First Screen Classics Special-Film Version Of Famous Hopwood Stage Farce.

Coming Wednesday to the Happy Hour Theatre is May Allison in one of her new screen Classics, Inc. Spectra's, "Fair and Warmer," the Selwyn and Co. success, by Avery Hopwood. The picture is an adaptation of one of the most successful farces ever presented on the American stage. Its run in New York for two years, and elsewhere for fully as long; and its extended vogue in London pronounce it that.

The advent of Miss Allison, easily one of the most captivating of motion picture comedienne, in a new picture is event enough; but in so celebrated a piece as "Fair and Warmer" those who follow the screen here will be given an exceptional treat.

The story concerns the tribulations of two young married couples. In one case the young wife complains that her husband, Billy, is so perfect that he is dull; and in the other case the young husband, though he adores his wife, employs just the tactics Billy should take advantage of—he goes out of his way to keep his wife guessing. And when circumstances cast together Billy, and he apparently neglected Banny, the result is one of the most absurdly funny series of situations ever contrived, even by Mr. Hopwood, who is admittedly the premier farce writer today in America.

The screen production has been done elaborately, and in some instances the original play has been given additional punch through employment of means at the command of the screen producer, but impossible on the stage. The entire production was done under the personal supervision of Maxwell Karger, director general of Screen Classics, Inc., and the exceptionally able cast known artists as Pell Trenton, Eugene Pallette, Christine Mayo, William Buckley and Effie Conley. Henry Otto directed the production, which was adapted from the stage success by June Mathis and A. P. Younger.

## LABORERS NEEDED WESTERN CANADA

Canadian National Railways Will Give Reduced Fares and Special Train Service On August 6th and 13th.

Harvesters are urgently needed in the West to gather in the wheat yield of Canada.

Estimates are that over 300,000 bushels of wheat stand ready for reaping. This in addition to other grains.

The call of the West is for 20,000 Farm Laborers to harvest this immense grain crop. Canada's prosperity depends on the response.

The Canadian National Railways is prepared for the transport of Harvesters from all parts of the System. From Maritime Provinces special arrangements have been made. Reduced fares to Winnipeg are to be granted on August 6th and 13th and special trains will run via Quebec-Bridge, and from Quebec to Winnipeg via the Transcontinental Line as the best and quickest route from Maritime Provinces points. The trains will carry the best type of new colonist cars, and special arrangements will be made for the supply of box lunches en route. Special provision will be made for women accompanying the party or desiring to take advantage of the excursion rates.

The fare from Newcastle to Winnipeg is \$12.25 plus half a cent per mile to points West of Winnipeg. The return fare is half a cent per mile from all points west of Winnipeg to Winnipeg, and \$12.25 from Winnipeg to Newcastle.

Verification certificates will be furnished by Ticket Agents when issued, is purchased enabling holder to secure return ticket at reduced rate. Full information will be supplied by all Ticket Agents of the CANADIAN NATIONAL RAILWAYS.

## GOV.-GENERAL AND PARTY HERE TODAY

The Governor General and party arrived at Newcastle this morning at 9.30 o'clock, on board the Canadian Fishery Cruiser "Hochelaga", Capt. Barkhouse, docking at the Public Wharf.

His Excellency and party are returning from their trip to Newfoundland, Cape Breton and P. E. Island, during which they enjoyed a number of days fishing off the coast of Newfoundland, and reported a successful catch.

Members of the party include: Their Excellencies The Duke and Duchess of Devonshire; Colonel Henderson, Military Secretary; Earl Dalkeith, Lady Maude MacIntosh, Lady Rachel Cavendish, and Lady Blanche Beresford. While in port an invitation from President George Watt to attend the horse racing in Chatham today, was extended to the party by Mr. E. A. McCurdy, but the party being already late in their itinerary, the kind invitation could not be accepted. The party disembarked and were conveyed to the C. N. Railway depot, where they embarked on a special train which left shortly after for Ottawa, where they will meet the Imperial Press delegation.

Before leaving the Hochelaga, His Excellency, addressed the members of the crew, who were paraded on the deck, and thanked them for the courtesies extended himself and party on their enjoyable trip. Their Excellencies then shook hands with each member.

## Mid-Summer Meet In Chatham This Week

The midsummer race meet to be held at Chatham, August 3, 4 and 5, in connection with the Maritime and Maine Circuit, gives promise of being one of the most successful yet held on the speedway, which holds more than one attraction record. The number of entries received exceed any previous meet and include a lot of new horses as well as many old favorites. The programme consists of eight classes, viz., 2.28 trot, 2.21 trot and pace 2.16 trot and pace, 2.19 trot, 2.14 trot and pace, 2.25 pace, 2.18 trot and pace and 2.08 pace. The track was never in better condition and some fast heats and good contests are anticipated.

## Peter Farren Smashes Track Record

Fredericton's track record and attendance records also were smashed Wednesday when the free-for-all pace for the Barker House Purse of \$1,000 was staged as the feature of the fourth meeting of the Maritime and Maine Circuit.

Peter Farren, owned by D. O'Keefe, of St. John, pacer, gave the talent a terrible bump by winning the race and reducing the track record to 2.09 1/2 in the first heat and bringing it down to 2.08 1/2 in the second heat which made it equal with Chatham for the fastest track record in the Maritime Provinces.

It was Peter's first race, except in matches, this season and he sold as low as from \$20 to \$25 in auctions worth \$140 and \$150. Gilly Brickley passed him in tip top condition and he was able to outpace his field any time with the exception of the third heat when he and Oro Fno and The Problem all made breaks at the head of the stretch and Fern Hal shot through a winner with John A. Hal at her wheel.

The track was lightning fast as shown by the time in the other races as well as Lady Gratian, the Montreal entry, the only favorite to win took a new win race of 2.12 1/2, in beating Sadie Ashbourne, an Aroostock entry in the first heat of the 2.16 pace. Jeanie Frisco owned in Cape Breton made the Canadian clean up complete when she slipped through and won the 2.16 pace unexpectedly the heat being reeled off by 2.12 1/2 with the favorite Royal McKinney his owner R. L. Seely, Fort Fairfield, driving him his first race of the season, second. The meeting will close tomorrow with a free-for-all trot added to the programme and the starters being Bill Shanon, sold last winter for \$1,000, Grace the Hall, and the new one, the Regener, which was sold for \$1,100 in Cape Breton. The other races were: 2.18 trot and pace, 2.25 pace and 2.17 trot.

### Huge Snake Takes Command Of British Ship

For a brief period following her departure from Singapore the bridge of the British Steamship Bolton Castle was temporarily but completely under the control of a gigantic python. In the early hours of the morning on the second day out from the Straits Settlements port, Quartermaster J. R. West was at the wheel, watching his course, when he was startled by a massive head suddenly appearing through the pilot house door. The python calmly took possession of the pilot house, and the ship took a few round turns without a guiding hand before the unwelcome king of the snake species made its exit and allowed the officers to again take control of the vessel.

The last time the officers of the Bolton Castle saw of the visitor was the tail of the python, which measured thirty feet in length, as it disappeared overboard. The trunk of the snake extended from the bridge to the waterline. The python was one of the three shipped aboard the Bolton Castle at Singapore and consigned to a menagerie at New York.

Every 10c Packet of **WILSON'S FLY PADS** WILL KILL MORE FLIES THAN \$8 WORTH OF ANY STICKY FLY CATCHER

Clean to handle. Sold by all Druggists, Grocers and General Stores

### GENUINE ASPIRIN HAS "BAYER CROSS"

Tablets without "Bayer Cross" are not Aspirin at all

Get genuine "Bayer Tablets of Aspirin" in a "Bayer" package, plainly marked with the safety "Bayer Cross". The "Bayer Cross" is your only way of knowing that you are getting genuine Aspirin, prescribed by physicians for fifteen years and proved safe by millions for Headache, Neuralgia, Colds, Rheumatism, Lumbago, Neuritis, and Pain generally. Made in Canada. Handy tin boxes of 12 tablets—also larger sized "Bayer" packages. Aspirin is the trade mark (registered in Canada), of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company, Ltd., will be stamped with their general trade mark, the "Bayer Cross."

### Applied After Shaving Keeps the Skin Soft and Smooth

MANY men suffer from irritation of the skin as a result of shaving. With some it assumes a form of eczema and becomes most annoying and unsightly.

By applying a little of Dr. Chase's Ointment after shaving the irritation is overcome and such ailments as Barber's Itch and Eczema are cured.

60 cents a box, all dealers, or Edimanson, Bates & Co., Ltd., Toronto.

**Dr. Chase's Ointment**

### Stumpage Rate Increased To \$5 Given Six Months In York Co. Jail

Announcement of stumpage regulations for the crown lands of the province of New Brunswick is contained in the royal gazette of last week issue. The rate has been increased to \$5 per thousand feet with increases in other minor particulars. This is the third increase in stumpage rate made by the Foster administration since it took office in 1917. The rate at that time was \$1.50. Since then it has been increased to \$2.50, to \$3.50 and to \$5.00.

The rate of stumpage for the ensuing year and that for last year are as follows: Spruce, pine and hemlock saw logs, per M. superficial feet—1920-21, \$5; 1919-20, \$3.50.

Hardwood timber, up to an average of fourteen inches square, per ton 1920-21, \$1.50; 1919-20, \$1.10.

Hardwood timber, about fourteen inches, additional per inch per ton, 1920-21, ten cents; 1919-20, ten cents.

Hardwood logs per M. superficial feet 1920-21, \$1.25; 1919-20, \$1.25.

Fine timber, up to fourteen inches square per ton 1920-21 \$3; 1919-20, \$2.

Pine timber, additional per inch per ton 1920-21, fifty cents; 1919-20, fifty cents.

Hemlock timber, per ton 1920-21, \$1; 1919-20, \$1.

Spruce timber per ton 1920-21, \$2; 1919-20, \$1.50.

Cedar logs per M 1920-21, \$5; 1919-20, \$3.50.

Railway ties, eight feet length, each 1920-21, seventeen cents; 1919-20, twelve cents.

Hemlock logs, per M. superficial feet, including bark 1920-21, \$1.50; 1919-20, \$5.

White birch, for spool wood, per cord 1920-21, \$1; 1919-20, sixty-five cents.

White birch logs, for spool wood, per M. superficial feet, 1920-21, \$2; 1919-20, \$1.25.

Fir logs, per M. superficial feet 1920-21, \$4.50; 1919-20, \$3.

Poplar logs, per M. superficial feet 1920-21, \$4.50; 1919-20, \$3.

The penalty has been increased from \$7.50 to \$10 per thousand feet on lumber left in the woods contrary to regulations and on logs seized for cutting beyond licensed limits or on unlicensed land. Railway ties must pay twenty-five cents each as penalty if cut beyond licensed limits or on unlicensed land or if the mark for the ties has not been furnished to the department. An increase from \$7.50 to \$10 per thousand has been made in the penalty on spruce or pine used as skids when other varieties of timber are available, also on trees left lodged in the woods. The fee for assignment has been increased from \$4 to \$20. Double stumpage is to be imposed upon logs cut and delivered on a stream or lake where they are liable to float down before being scaled by a government scaler.

No diameter limit is imposed for fir, this being a change. The minimum diameter formerly was nine inches.

### Insane Murderers Headed This Way

A man who escaped with a doctor's automobile from the Bangor state hospital for the insane a few days ago is still missing. The patient, Benjamin Payson, escaped through a subterranean passage, the existence of which was unknown to the officials. The car was found abandoned near Rockland. There is much uneasiness in the country districts.

Another man, Perley Bickford, of Searsport, a violent man, made his get-away from the same institution on Sunday, but was captured later. Bickford is a wild man, and his action being noticed he was found hiding behind a bush.

One man was shot and killed in an attempt of insane criminals to escape from Bridgewater institution. Lots of lunatics, are running around loose in eastern Maine and a general warning has been sent to the authorities. Ralph Peters of Bowdoinham, one of the five who recently escaped from the state hospital for the insane, at Augusta, and was recaptured at Belfast on Sunday, says that two of the party, James Clabby and Peter Vallis, whom they left him were working their way westward and intended to get into New Brunswick by automobile or boat. Both fugitives are murderers. Sheriff Fernandes, of Bangor, has been notified that a motor car was stolen in Belfast on Saturday night and it is thought that the escaped insane carried back to Peters said the men were armed. Balls were shot at shooting and killing. Policeman Mcintosh, of Portland and Sgt. A. J. Wainwright.

### Shamrock IV Beaten In Final Race

Sandy Hook, July 27—Defender Resolute gave the challenger, Shamrock IV, the worst drubbing of the 1920 regatta in the final race of the series today, winning boat for boat thirteen minutes and forty-five seconds—and the America's famous yachting cup remains in the United States.

Overcoming a forty second lead the advantage of a windward berth which Shamrock had taken at the start, the defender held a lead of four minutes and eight seconds at the half-way stake of the thirty-mile course, and crossed the finish line thirteen minutes and five seconds ahead. Including her handicap of six minutes and forty seconds, Resolute won by eighteen minutes and forty-five seconds.

As the challenger crossed the mark her British crew let out three ringing cheers for the victory, and the conquerors responded with lusty cheers for Shamrock and her crew.

Sir Thomas Lipton announced immediately after the race that he would build a new challenger and come across again in 1922 to have another try at lifting the America's Cup provided some other yachtsman did not challenge and win the cup sooner.

"I was beaten by a better boat" he said. "I have no complaint to make, but I am greatly disappointed."

Shamrock won all the honors of the start. Resolute started in a very bad pocket underneath Shamrock and the green boat had everything her own way for the first fifteen minutes.

The wind was scarcely more than three knots at the start and both yachts failed to reach the line before the handicap limit of two minutes expired. Shamrock was the first to cross, followed forty seconds later by the defender. Both crossed to the starboard tack, and Shamrock being fifty yards to windward immediately tacked to port. Resolute followed and to the surprise of all began to fall off to leeward. The yachts had not been sailing ten minutes before a tow of barges loomed up ahead. Resolute had to tack to avoid them, but for some reason Shamrock instead of tacking also and following the old adage "always keep between your opponent and the mark", kept on and Resolute having her wind free, held off shore and kept clear of Shamrock thereafter. Shamrock was evidently heading for a better draft of air under the Jersey shore but she failed to find it, while Resolute picked up a favorable slant off shore. Till an hour after the start Shamrock was well in the lead and seemed able to head a couple of points nearer the wind.

Everything seemed to be going unusually well for the green boat and hopes ran high on the yacht Victoria, carrying Sir Thomas Lipton.

Then Resolute began to kick up her heels and overreach her opponent. Adams tacked twice before he succeeded in getting across Shamrock's bow, but he finally landed and after that the race, as between the two boats, were over.

### Frequent Headaches A Sure Sign That the Blood is Watery and Impure

People with thin blood are much more subject to headache than are blooded persons and the term of anemia which afflicts growing girls is almost always accompanied by headache, together with disturbance of the digestive organs.

Whenever you have constant or recurring headache, and pallor of the face, they show that the blood is thin and your efforts should be directed toward building up the blood. A fair treatment with Dr. Williams' Pink Pills will do this effectively, and the rich red blood made by these pills will remove the headache.

More disturbance to the health are caused by their blood than most people have any idea of. When your blood is impoverished, the nerves suffer from lack of nourishment, and you may be troubled with insomnia, neuritis, neuralgia or sciatica. Muscles subject to strain are undermined and you may have muscular rheumatism or lumbago. If your blood is thin and you begin to show symptoms of any of these disorders, try building up the blood with Dr. Williams' Pink Pills, and as the blood is restored to its normal condition every symptom of the trouble will disappear. There are more people who owe their present state of good health to Dr. Williams' Pink Pills than to any other medicine, and most of them do not hesitate to say so.

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.

### FAMILY MARKED BY ODDITY

There lived at Ipswich in the reign of William III a family known as the "odd family," a most appropriate name, as the following facts prove. London Answers states: Every event, good, bad or indifferent came to the family in an odd year or an odd day of the month and every person was odd in manner or behavior or appearance. Even the letters of their Christian names always amounted to an odd number.

The father and mother were Peter and Rahab; their seven children (all boys) bore the names of David, Ezekiel, James, Jonas, Matthew, Roger, and Solomon. The husband possessed only one leg and his wife only one arm; Solomon was blind in his left eye and Roger lost his right in an accident; James had his left ear torn off in a quarrel. Matthew's left hand had but three fingers.

Jonas has a stump foot, David was humpbacked and Ezekiel was six ft. 2 inches at the age of 19. Every one of the children had red hair, notwithstanding the fact that the father's hair was jet black and the mother's white.

Strange at birth, all died as strangely.

The father fell into a deep swamp and was killed. The wife died five days after from starvation. Ezekiel enlisted, was wounded in 23 places but recovered. Roger, James, Jonas, David and Matthew died in 1712 in six different places on the same day; Solomon and Ezekiel were drowned in the Thames in 1723.

### Children Cry for Fletcher's

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

### What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

**"SALADA"**

Is Grown and Packed to Please the Most Critical Tastes

BEHIND every industry in Canada—

—from the patient truck-gardener bowed over his lettuce—

—to the young manufacturer struggling to prove the worth of Canadian skill and Canadian material in some new enterprise—

—stand the railways—the intelligence, the power and the hopes of the railways of Canada.

Not, like the Exploiter, watching to take harsh advantage of hard-times or the follies of a boom—

Not seeking by a moment's shrewdness to "clean up a million and get out!"

Not interested in the price of real estate in just ONE town, or the prosperity of just ONE province—

But, instead, employing their widely-gathered intelligence in the interests of all Canada for all time to come!

For the railways of Canada cannot be lifted up and carried away to serve any other master than Canada!

Their services cannot find any buyer but Canada!

They injure themselves if by asking too high returns To-day they damage the prosperity of the citizens of To-morrow.

The request for increased freight rates is made with these facts in view.

Canada will still have the cheapest, the fastest and the most reliable railways in the world!

This is the third of a series of advertisements published under the authority of **The Railway Association of Canada** formerly the CANADIAN RAILWAY WAR BOARD

**Rev. W.D. Wilson Will Remain**

But His Income Must Be Increased

Rev. W. D. Wilson, chief inspector under the prohibition act, will not accept the position recently offered him of general secretary of the Social Service Council of Canada. Recently a meeting of the N. B. Temperance Alliance executive was

**Cancer Patients Are Improving**

Report From St. Michael's Hospital, Toronto.

TORONTO, July 22—Cancer patients undergoing the new treatment at St. Michael's Hospital continue to show improvement. In one case a patient with cancer of the stomach who was wheeled to the X-ray room for photographs, is now able to walk freely. Other cases show similar beneficial results. With the exception of one case, all report that their condition is improved.

Another clinic was held yesterday afternoon, commencing at 4.30. The lecture room was crowded with patients awaiting treatment, and outside the hospital a big gathering of autos stood waiting for those who were returned home. Dr. Thomas J. Glover, discoverer of the serum, as usual watched the clinic while house surgeons administered the serum.

Afterwards Dr. Glover would say nothing for publication. It was stated that no further patients would be taken, the information coming from Dr. Edmund King, who was in charge of the clinic. In the meantime the patients undergoing the treatment are being closely watched to obtain further evidence as to the value of the serum.

He'd at St. John and the matter of Mr. Wilson's future was discussed. The Alliance have been supplementing the salary of \$2,500 and expenses, which is paid the chief inspector by the government, and it is understood that in order to retain his services they have increased the amount by which they supplement his provincial salary so that his total income will now probably be about \$3,000. It is expected that the next move by the Temperance Alliance will be a demand upon the government for improved conditions for the administration of the prohibition act enforcement.

**Murray Government Returned to Power**

Halifax, N. S. July 27—As a result of the general provincial election held in Nova Scotia today, the Liberal Government, which has been continuously in power for the past thirty-eight years, and headed by George H. Murray, since 1896 was returned with a majority of seven seats in a House of forty-three members, substantially the same as it received as a result of the election in June 1916.

The Liberals gained one seat each in Halifax, Kings, Lunenburg, Richmond and Queens, and lost three seats in Cape Breton, two in Cumberland, one in Antigonish and one in Yarmouth, making their net loss two seats. Included in the seats lost was that of Hon. E. H. Armstrong, commissioner of Public Works and Mines, who was the only member of the Government who went down to defeat although at a late hour Hon. R. M. Moore's seat in Pictou, was still placed in the uncertain lot. The Conservatives with a membership of eleven in the late House under the leadership of W. L. Hall, defeated in Queens County returned a single representative, Dr. J. A. MacDonald, in Richmond. They lost five seats to the Liberals, one each in Queens, Halifax, Kings, Lunenburg and Richmond, three to the farmers two in Colchester and one in Hants, and two to Labor, one in Cape Breton and one in Cumberland, a total of ten seats. The farmers took seven of the fifteen seats for which they contended, and Labor took five out of thirteen candidates. Neither of the two women candidates one on the Conservative ticket in Cumberland and one on the Labor ticket in Pictou made a serious showing.

**PUTTING AN EGG IN A BOTTLE**  
An egg may be put into a bottle which has a mouth much smaller than the egg, says Popular Mechanics. First soak the egg in vinegar until the shell becomes soft and pliable. It will then be easy to force the egg into the bottle and allow it to remain until the shell becomes hard again. The bottle can then be shown to friends, who are certain to be greatly mystified by the sight of an egg in such a place.

**Decrease In Cost of Sugar Is Probable**

Price of Raw Sugar Has Been Falling Gradually Since May

New York, July 31—The householder may contemplate a lower cost of sugar than that now prevailing if current price movements in the wholesale market prevail. Arbutic Bros., one of the largest refining firms, today reduced the offering price of the refined article three cents a pound to 21 cents for shipments in bulk. Other refiners continue to quote 22 to 22½ cents per pound the American Sugar Refining Company's price being 22½ cents.

Raw sugar has been falling gradually since the end of May, the recession in the last ten days being two cents per pound. Today's quotation for the Cuban raw product delivered at New York was 16.55 compared with 23½ cents when the shortage was most acute two months ago. Sugar brokers reported that increased supplies of raw sugar from Porto Rico, previously held back for two months by a shipping strike at ports of the island, had tended to overload the market. The reflex of this situation, it was said, had been speeded on the part of speculators to liquidate contracts acquired some time ago.

The market for refined sugar has been affected by several factors. High prices in this country during May and June attracted here substantial tonnages of sugar from other countries. Czechoslovakia, being reported as a substantial seller. Disturbed by the upward price movement, sole manufacturers of sugar products, it is said, contracted for greater quantities than they actually needed, and now since it appears as though the shortage is being eased by new receipts these holders are selling out.

The unsettled sugar market has had a pronounced effect this week upon the sugar stocks. At today's lowest quotation of 90½, Punta Alegre Sugar common stock was 10½ points lower than the best price last week. A rally left the quotation at 94. American Sugar Refining was four points lower than the preceding week's maximum price, Cuban American Sugar six points lower—today's decline being three points—and Cuba Cane Sugar 5½ points lower.

The sugar industry has had a highly profitable season, irrespective of the cause of prices during the summer and autumn. Many companies have paid extra dividends. The new Niquero Sugar Company today announced an extra disbursement of \$50 on the 5,000 shares of common and 10,000 shares of preferred stock, payable July 31 to stock owners of record July 22.

**SUNNY CORNER**

Sunny Corner, July 28—Mrs. James Leach was in Newcastle for the day on the 28th.

Miss May Reynolds, Bathurst, is visiting friends at the Corner.

Miss Minnie Allison, Waverton, is the guest of Miss Villa Nolan.

Miss Pearl Wright, Newcastle, spent Wednesday with Miss Hazel Tozer.

Mr. Everett Mullin has returned home, having spent the past six weeks in Pa. U. E.

Mrs. Edith Tozer is visiting her mother in Littleton this week.

**Prospects of Foot-wear Drop Premature**

The inferences drawn from some of the speeches at the recent shoe convention in Montreal that a drop in the price of footwear was immediately in prospect appear to be premature. Prominent shoe men approached on the subject stated that what was intended was that future orders would in all likelihood be placed at reduced prices but that no reduction of any importance was anticipated for some time to come. They explained that goods which have already been ordered will of course, have to be taken up at the present figures.

**HORSE AILMENTS**  
of many kinds quickly remedied with **DOUGLAS' EGYPTIAN LINIMENT**  
The best all-round liniment for the stable as well as for the field. Cures thrush, sprains, bruises, STOPS BLEEDING INSTANTLY AND PREVENTS BLOOD POISONING. Keep it handy.

Over \$5, not exceeding \$10, 6c.  
Over \$10, not exceeding \$50, 10c.  
Over \$50, not exceeding \$50, 15c.

**Paper From Straw**  
Those who have travelled west in the after-harvest season must have been struck by the masses of stacks of straw that dot the prairies. In most cases these stacks are burned as waste though in some localities they are left as shelter for the stock and for such food as may be obtained from them. The scarcity of pulpwood has led to the suggestion that the waste straw—there must be millions of tons of it—may be utilized generally for paper-making and this industry has already passed the experimental stage. In Ontario and in the United States there are several mills making paper from straw and a concern with Toronto capital behind it is surveying Saskatchewan for the location of a mill on dollar mill. Experiments have shown that a ton of paper can be manufactured from two tons of straw, while two tons of coal would be necessary for power, the paper could be turned out at a considerably lower price than that now charged for the pulpwood product.

GOOD ROAD WORK  
The Public Works Department  
are doing some good work on the  
roads, this season. Much needed  
repairs have been made to the  
King's Highway, Jane Street and  
ast'e St eet. For a number of  
years these streets have been badly  
neglected until they were almost im-  
passable. This year the Public  
Works Department, the chairman  
of which is Aldermen Wm. L. Durick,  
has had a large quantity of stone  
hailed and placed on the streets,  
thus providing a good foundation,  
and top dressed with gravel. The  
work is being looked after by Mr.  
Mont Jones, the town's efficient out-  
side manager, and both Ald. Durick  
and Mr. Jones are to be congratulat-  
ed for the good work which they  
are doing. Work such as this speaks  
well for the town manager. Idea,  
which provided that the services of  
a good man is secured, is the only  
correct business method for the  
proper performance of town work.  
Sincerely hope that the good  
work now started will be continued.

The finishing touch of taste

It's A Pleasant  
Outlook  
to know that a damaged tire  
doesn't mean the expense of a new  
one. Just keep our address in  
mind. And when you have a tire  
accident bring the injured one to  
this tire hospital and we'll cure all  
its troubles. Our vulcanizing will  
give you back the tire as good as  
ever. The cost? A mere fraction  
of the expense of a new one.  
LAWLOR & BARRY,  
Newcastle, N. B.

Merchant Is Out  
With The Facts

Feels It His Duty To Tell  
Others How Well Tanlac  
Made Him Feel

"I feel that I am only doing my  
duty when I recommend Tanlac for  
it is the direct cause of my being in  
better health to-day than I have been  
for years," said Elijah N. Thomas,  
Lower Sackville, Halifax, N. S. who  
is well known in the locality, having  
been in the general merchandise  
business for the past eighteen years.  
"For the past six years I had suf-  
fered from a bad form of stomach  
trouble, and although I had tried  
many different treatments and med-  
icines I never found anything to  
help me until I started taking Tanlac.  
My appetite was so poor that many  
times I would get up from the table  
without touching a bite and when I  
did eat a little something, I would  
have a terrible distressing feeling  
in my stomach, gas would begin to  
form and press against my heart  
causing it to palpitate dreadfully  
and I had great difficulty in breath-  
ing. I was constantly belching up  
sour undigested food, suffered with  
heartburn nearly all the time, and  
there was always a bad taste in my  
mouth. Then, too, I would have  
terrible cramping pains which at  
times were so bad I could not  
straighten up when walking and  
would have to go around all humped  
over. I got up almost every morning  
with a dull, mean headache which  
would stay with me all day. I felt  
tired and worn out all the time and  
often was in such misery and felt  
so badly I just had to leave the store  
and go home and lie down. I was  
losing weight all the time, gradually  
getting weaker, could get but little  
sleep, and when I started taking  
TANLAC was in such a miserable  
and run down condition it is im-  
possible for me to describe it.

"I saw so many statements from  
persons who had benefited by Tanlac  
I decided to try it. I will have to  
say, however, I was rather disap-  
pointed with the results of the first  
bottle, and was on the verge of  
giving it up, but my wife persuaded  
me to try another bottle, reminding  
me of the fact that my case was of  
long standing. I am now certainly  
glad I did, for while I have only  
taken five bottles my stomach is in  
good condition and I can eat anything  
I want without having the slightest  
discomfort afterwards. I am never  
troubled with that distressing feel-  
ing in my stomach, gas or heartburn  
and am entirely rid of those terrible  
cramping pains. I sleep fine, never  
have a headache and that tired,  
worn out feeling all gone. Yes, sir,  
I think Tanlac is a grand medicine  
and I would advise anyone to give it  
a trial."  
Tanlac is sold in Newcastle by E.  
J. Morris, in Redbank by Wm. M.  
Sullivan and in Doaktown by G.  
Hildebrand.

Heavy Crop Of Spruce  
Seed This year

The Commission of Conservation  
has received reports from a number  
of points in Ontario, Quebec and  
New Brunswick indicating that this  
is an exceptionally heavy seed year  
for white spruce in eastern Canada.  
There promises to be a good yield  
of white pine seed as well. Last  
year there was practically no spruce  
seed in eastern Canada. Heavy seed  
years for spruce and pine usually  
occur only every fourth year, there-  
fore those who wish to collect the  
seed should take advantage of the  
abundant crop this year.  
White spruce seed ripens in Sep-  
tember and the cones should be col-  
lected just before they open. If  
picked too early, the seeds will be  
immature, and if left till the cones  
open, the seeds will have dropped out.  
The increasing attention being given  
to reforestation has developed a  
large home market for tree seeds.  
In addition to the various govern-  
mental and commercial nurseries,  
several of the pulp companies, in-  
cluding the Laurentide, Abitibi, Span-  
ish River and Riordon, have nurse-  
ries. There are also good markets  
in the United States and Great Brit-  
ain for Canadian tree seeds. Here-  
before, the nurseries on this contin-  
ent have had to depend largely on  
European seed, owing to the limited  
amount of native seed collect-  
ed. The European seed has not  
been entirely satisfactory for our  
climate and hardy native stock is  
preferred when obtainable.  
During the last few years the de-  
mand for tree seeds has always ex-  
ceeded the supply and this spring  
\$40.00 per lb. could be secured for  
white spruce seed. This, however,  
is exceptionally high, \$5.00 being con-  
sidered a reasonable price. The cost  
of collecting and preparing the seed  
for the market varies with the local  
conditions, but in a good seed year  
it should not exceed \$2.00 per lb.

Shamrock Left  
Sandy Hook For The  
Hudson River

Shamrock IV., the defeated cup  
challenger, left Sandy Hook shortly  
after noon Wednesday for an an-  
chorage in the Hudson River. The  
crew of Shamrock accompanied the  
yacht in the houseboat Killarney  
which has been their home during  
the regatta. The challenger was  
still flying her little green flag, and  
passing steamers gave her almost  
a continuous ovation of whistle sal-  
utes as she passed up the Harbor.  
Sir Thomas Lipton, owner of Sham-  
rock, said that he had not made up  
his mind what he would do with  
the racer and the trial boat, the  
twenty-three metre Shamrock. It  
is understood that he has received of-  
fers for both yachts from United  
States yachtsmen.

The crew of the challenger will be  
sent home on the first available ship,  
Sir Thomas said, adding: "Those  
boys have wives and little ones whom  
they are anxious to see."

By-Elections May  
Come Shortly

Printing of the numerous forms  
and other documents necessitated by  
the new Franchise Act, is now prac-  
tically complete and writs for the  
by-elections may be expected shortly.  
It is the intention of the Government  
to hold the elections as early as  
possible.  
Six weeks, it is estimated, will, of  
necessity, elapse after the issue of  
the writs before the elections can  
actually be held. The delay is re-  
quired for the preparation of lists,  
appointment of deputy returning of-  
ficers, location of polling stations,  
and the giving of the requisite days  
of notice as required under the act.

SOUTH NELSON

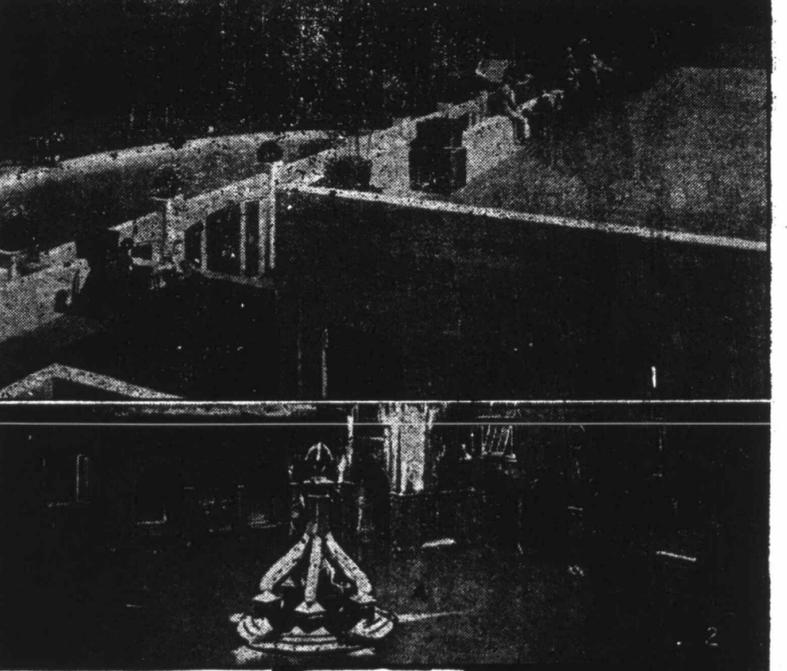

The Misses Lillian and Helena  
Fleet of Alberta spent part of last  
week visiting friends here.  
Miss Joseph Appleby accompanied  
by her friend Miss Emma Dunker of  
New York returned to Boston on  
Saturday.  
Miss Lillian Coughlan who has  
been spending her holidays with her  
father, expects to return to Moncton  
soon.  
Mrs. S. A. Cameron and children of  
Winnipeg spent part of last week  
with Mrs. Bert Brown.  
Some of our young men intend  
going West on the harvest train.  
Mr. James Moar of Chatham was  
the guest of Mrs. Alex Brown Friday.

MILL SAW BILLS

The Advocate Office has just  
finished printing a stock of the latest  
Mill Saw Bills, which was drafted  
up by the Mill owners on the Mir-  
amichi River. This Saw Bill is suit-  
able for any mill on the river and  
we are now prepared to supply  
them to all desiring same.

First Showing of  
**New Fall Garments.**  
The women of Newcastle and along the Miramichi are invited to  
see the advance styles we are now showing in New Coats and  
Dresses for Fall Wear.  
You will like these New Garments for they are the most pleasing  
and attractive models we have ever shown.

LIMITED

Canadian and English Hot Springs

Recently the Canadian Pacific  
Railway, in the town of the Prince  
of Wales in Canada was shown three  
times a day for three days at Bath,  
England. The mayor of the town and  
thousands of the residents of the  
town and district were exceedingly  
interested in these pictures, which  
not only showed the splendor of his  
Royal Highness in the Dominion but  
also gave vivid details of many of  
the beautiful scenes of our country.  
Those who have visited the hot  
sulphur springs at Banff in the Cana-  
dian Pacific Rockies or the Halesley  
spring on the Arrow Lakes and de-  
sired healthful benefit from them  
will be glad to learn something about  
the springs at Bath which are the  
only hot springs in the United King-  
dom.  
About the middle of 1755 the old  
Priory or medieval Abbey, which  
stood at the south-western corner of  
the existing Abbey at Bath, was  
pulled down to give place to a suite  
of baths for the Duke of Kingston. In  
removing the foundations, a number  
of stone coffins were found, and, on  
striking further, the hot mineral wa-  
ter gushed forth and interrupted the  
work. The site being drained, some-  
what necessary was disclosed, and sub-  
sequently a number of baths and sa-  
linothecae. That there lay buried still  
further remains of what must have  
been an extensive Roman bathing  
system, indications were unmistak-  
able. The rectangular bath, now  
commonly known as the Lopus bath,  
was uncovered, and at either end of  
it a semi-circular deep bath, entered  
by seven steps. The apertures lay  
on the eastern side, together with a  
number of square baths and other  
apartments which apparently bath-  
ers used preparatory to entering the  
hot chambers. Some of these rooms  
were paved with flag stones, others  
were beautifully treated with various  
colored tesserae.  
Excavations were not then pur-  
sued; other buildings were quickly  
erected over the site, and during the  
next hundred years no attention was  
given to the place.  
It was the year 1878 that marked  
the most important epoch in the re-  
discovery of the baths. Engineering  
works were at that time undertaken  
to remedy a leakage from the Prin-  
ciple spring, and it was discovered  
that from this leakage the Kingston  
baths, then in private hands, derived  
the whole of their supply. Insur-  
ances ceased, but the Corporation of  
Bath desired their rights in respect to the  
water ascending from the King's  
spring, and the draining of the site

- (1) Banff Springs Hotel—Guests watching the bathers in  
the sulphur bath outside the hotel.
- (2) The King's Spring at Bath, England; the only Hot Spring  
in Britain.
- (3) The Roman Baths, at Bath, known as Aquas Sulis.

and other necessary works proceed-  
ed. It was then perceived that the  
foundations of a number of the med-  
ieval houses rested upon what was  
little better than a morass, and Ma-  
jor Davis, to whose unvaried zeal  
and skilful excavation the city is so  
much indebted, found, after further  
exploration and careful tunnelling,  
that he had at last sighted upon the  
hidden treasure. Difficult and cost-  
ly as was the subsequent work of un-  
covering these remains, the late Ma-  
jor Davis set himself with indefatig-  
able perseverance to push it forward.  
The facts that the baths were some  
20 feet below the street level and  
that continuance of the excavations  
necessarily involved the demolition  
of much valuable property were seri-  
ous considerations which all had  
their effect in retarding progress.  
Later on public interest increased  
and the houses were removed, the  
immense deposits of other ages car-  
ried away and the large area of Roman  
remains revealed. About 1878  
when the great rectangular bath was  
excavated by portions of the surface of  
the outfall drain were discovered. In  
1883 the hypocaust on the western  
side of the circular bath was dis-  
covered, in 1885 the circular bath  
itself, in 1888 the latrine and struc-  
tural hypocaust, in 1897 the bath be-  
neath the basement of the modern  
baths, and in 1898 another rectangu-  
lar bath was excavated.  
That the builders of these baths  
were attracted into the valley by the  
hot springs about the middle of the  
first century, certainly not very long  
after the Romans first occupied Brit-  
ain, we have fairly conclusive evi-  
dence. A coin of Claudius was found  
in such a position as to suggest to  
some authorities the theory that it  
might have been specially placed to  
commemorate the foundation of the  
baths. At any rate from the stones  
and altars dug up from time to time  
(one stone bears reference to a defi-  
nite date A.D. 17-21, and the charac-  
teristic of a few of the sculptured  
remains some vigorous occupation of  
Bath can be ascribed, with tolerable  
accuracy, to the last 50 or 60 years  
of the first century.

Cassidy accompanied by her daughter, Miss Florence returned on Wednesday from a pleasant visit to friends in Fredericton. Mrs. James Leake accompanied by her daughter Hazel of Sussex, and Miss Jean Wathen of Harcourt are the guests of Mrs. S. V. Sisson. Miss Ruth Henderson student nurse at the Johns Hopkins Hospital who has been visiting her parents in Douglastown has returned to Baltimore. Miss Debora Lampkey of Harcourt accompanied by Mrs. Fred Traer of Chatham spent Sunday with Mrs. H. T. Atkinson of Chatham Head. Messrs. Percy Dickson of Moncton George Dawes of St. John and Allan J. Ferguson of Newcastle are enjoying their annual fishing trip on the Miramichi this week. Hon. John Morrissey, Mayor D. P. Doyle, Mr-Mayor C. J. Morrissey, Ald. Wm. L. Durick and Mr. John Fallon attended the C. M. B. A. meeting in Chatham last Tuesday evening. Mrs. Alex. Stewart and sister Miss Grace Scully, of Vancouver, B. C. who have been visiting Mr. and Mrs. E. H. Grenley left Thursday for their home, stopping off for a short visit with Toronto friends en-route. Mr. William Richards the popular manager of the Opera House left yesterday for Montreal, from which city he sails on Saturday for his old home in London, England. Mr. Richards will be absent for about three months. Mr. and Mrs. Thos. Hutchison and family of Edmundston motored to Fredericton on July 23rd, spent a short time there visiting friends then motored to Lower Derby to spend a few days with Mrs. Hutchison's parents, Mr. and Mrs. Malcolm Ames. On the 25th accompanied by Mrs. Ames they went through to Harcourt to visit Mrs. Hutchison's old home before returning to Edmundston.

WEDDINGS

SHANNON-HYLAND St. Thomas church, Redbank, August 2nd, was the scene of a quiet but very pretty wedding, when Rev. Father Duffy united in the holy bonds of matrimony, Mr. William Shannon of Nelson to Miss Elizabeth Hyland of Red Bank. The bride was becomingly attired in a suit of navy blue taffeta with picture hat. The bridesmaid was Miss Kathleen Hyland, sister of the bride, who wore navy blue silk with hat to match. After the ceremony the happy couple motored to Newcastle where they took the express for Fredericton. Mr. and Mrs. Shannon have the best wishes of their many friends for a long and happy wedded life. O'NEIL-HYLAND On July 23th in St. Thomas' Church Redbank, by Rev. Fr. Ducey, Mr. Walter O'Neil, of Escuminac was married to Miss Nellie Hyland, daughter of Mr. and James Hyland, Redbank. The bride was charmingly attired in white satin and georgette, with white picture hat to match. They were attended by Miss Tressa Hyland, sister of the bride and Mr. Edward Carroll. After the ceremony Mr. and Mrs. O'Neil left for St. John, Halifax and other points; on their return they will reside at Escuminac.

OBITUARY

ARCHIBALD WRIGHT Mr. Archibald Wright, an old and respected resident of Newcastle, passed away Wednesday afternoon at 2.30 o'clock after an illness of some months, but was only confined to bed for a few days. Deceased was 74 years old and is survived by his wife, four daughters, Pearl at home, Mrs. Peery Lindon, Mrs. Hanley and Mrs. Herbert J. Kane, all residing in Newcastle, and one son, Joseph of Amesbury, Mass. Another son is Clarence Wright, who is supposed to have lost his life in the woods five months ago; also surviving are two brothers, William Wright of Newcastle and John of Bangor, Me. The funeral, was held Friday morning to St. Mary's Catholic church.

WM. CARRUTHERS The death of Mr. William Carruthers, an old and highly respected resident of Millerton, occurred on Sunday, July 25th at the home of his son Charles in Plymouth, Michigan. Mr. Carruthers had been in failing health for several months, and hoping that the change might benefit him, his son Charles had taken him and Mrs. Carruthers to Plymouth last week, thus the news of his death came as a great shock to his many friends on the North Shore. Mr. Carruthers was a man of sterling character and a faithful attendant of the Presbyterian church. He is survived by his wife, his son Charles, and the following grand children, Mrs. Genevieve Keane, Esso, Donald, Douglas and Helen Carruthers and one great-grand child Virginia Keane. Interment was made in Plymouth, his remains were laid beside those of his son William, who died last fall. Mr. and Mrs. Carruthers had just celebrated their fiftieth anniversary. Telegraph please copy

The many friends of Mrs. John W. Campbell of Chatham will be grieved to hear of her death which occurred suddenly last Monday July 26th of Paralysis at her home, Queen street. She had attended church Sunday evening and was around all day Monday in her usual health. About midnight Mr. Campbell was awakened by her heavy breathing. The other members of the family were summoned to their mother's bedside, but she passed quietly away a few minutes later without regaining consciousness. Mrs. Campbell had sustained a paralytic stroke about eight years ago, from the effects of which she had never fully recovered. Deceased, who was well and favorably known was 85 years of age and is survived by her husband, one son Fred at home, and three daughters, Mrs. Watson Touchie of Loggieville, Misses Ethel and Marguerite at home. The funeral was held Wednesday afternoon at 2.30, interment at Riverside cemetery.

DO YOUR FEET BURN?

Then use Zam-Buk. There is nothing so soothing for tender, aching or blistered feet. It will end the burning, draw out the soreness, prevent blistering and give you perfect foot comfort. Also there is nothing so good as Zam-Buk for sunburn, heat rashes, blistered hands, aching muscles, mosquito and insect bites, cuts, bruises, burns and all skin injuries and ailments. 50c. all druggists and stores.

C. M. DICKISON OPTICIAN Newcastle, N. B.

TENDERS

For Purchase of the Miramichi Hotel, Newcastle, N. B.

TENDERS for the purchase of the Miramichi Hotel, Newcastle, New Brunswick, will be received by the undersigned Solicitor up till noon on Saturday, the Seventh day of August, A. D. 1920.

The property comprises the main brick building of four stories, with annex, and can accommodate seventy-five guests. Six large sample rooms, bowling alley, pool rooms, garage and barns, will also be included in the proposed sale. The Hotel is well furnished and the tenders invited are to include offers for the furniture as well as the buildings. The Miramichi Hotel is the only Commercial House at Newcastle, which is the Shiretown of Northumberland County. The large number of commercial men visiting Newcastle as well as the numerous guests from various parts of the North Shore afford an exceptional opportunity for the conduct of this Hotel.

The Owner does not bid herself to accept the highest or any tender. Please address all tenders to GEORGE M. McDADE, Solicitor, P. O. Box 337, Chatham, N. B. 11.

## Employment Service Of Canada

The Employment Service of the Department of Labour reports that the Dominion and Provincial offices of the Employment Service of Canada for week ended July 17 show an increase in placements as compared with the returns for the preceding week. The offices reported that they had made 7478 references to regular positions and 7122 of these received employment. This represents an increase of 14 when compared with the previous week when 7108 placements were reported. In addition 1858 casual jobs were supplied as compared with 1818 during the week ended July 10.

During the week 8,349 applicants registered, of whom 971 were women and 7,378 were men. This is a decrease of 290 in registration when compared with 8,639 applicants reported during the preceding week. The number of vacancies notified by employers to the Service during the week totalled 9,879 of which 1,047 were for women and 8,832 were for men. This represents an increase of 452 when compared with 9,427 vacancies reported during the week previous. Of the placements in regular employment 701 were of women workers and 6,421 were of men.

Of the placements in regular employment, 95 were reported by New Brunswick offices, as compared with 82 during the week preceding. Quebec offices reported 185 placements, 156 within the province, and 28 in other provinces, as compared with a total of 224 during the previous week. Placements reported by Ontario offices totalled 2,741 of which 2,707 were within the province and 34 in other provinces as compared with a total of 2,610 during the preceding week. Placements were reported by the Province of Ontario as follows: 960 by Manitoba offices, 838 within the province and 122 in other provinces as compared with a total of 965 during the preceding week. 687 by Saskatchewan offices, 12 of which were in other provinces, as compared with a total of 755 during the preceding week; 1,359 by Alberta offices, 1,354 within the province and 5 in other provinces, as compared with 1,303 during the week preceding. British Columbia offices reported 1,095 placements, 1,082 within the province and 13 in other provinces, as compared with a total of 1,169 during the week ended July 10.

## WELCOME RELIEF FROM ECZEMA

Complete Treatment That Gives Gratifying Results

Winnipeg, Ont.  
"I had an attack of Weeping Eczema so bad that my clothes would be wet through at times. For four months, I suffered terribly, I could get no relief until I tried 'Fruit-a-tives' and 'Sootha-Salva'. Altogether, I have used three boxes of 'Sootha-Salva' and two of 'Fruit-a-tives', and am entirely well."  
G. W. HALL.  
Both these favorite remedies are sold by dealers at 50c. a box, 6 for \$2.50, or sent on receipt of price by Fruit-a-tives Limited, Ottawa. 'Fruit-a-tives' is also put up in a trial size which sells for 25c.

## Newspapers Necessary To Business

A dispute over print paper charges caused newspaper proprietors of Winnipeg, Man. to suspend publication. A recent dispatch from Winnipeg (furnished the sequel). The customary activity and gaiety of the street largely disappeared. Wildest rumors became current as to local and world wide news development, with the great mass of the population unable to tell what to believe. Tremendous decrease in business was felt. Mercantile houses usually crowded by bargain hunters and other customers at this time of the year suffered at a loss. Traction companies, theaters, and other enterprises and industries reported a decline in the volume of business. The conclusion generally drawn from Winnipeg's experience is that business cannot be effectively transacted and the daily life of the city cannot function without newspapers.

## 500 Letters For Lonely Man

About a fortnight ago an English ladler wrote the editor of a Halifax newspaper that he was coming out to Nova Scotia to seek a new bride, and would like to receive letters from Nova Scotia girls. The editor published his letter over the signature "Lonely" and asked his young lady readers to write the Englishman in care of the paper, enclosing their photographs. More than five hundred letters and photographs were received for Lonely at the newspaper office, and the Englishman when he arrived last week was confronted with a pile of love letters of a nature that would daunt the Sultan of Turkey. Up to the time of writing the visitor was still working overtime at his correspondence and had made no selection.

## Printer Helped Publisher

"He's pretty rich and important now, Cyrus K. Curtis is, with his Philadelphia Ledger, Saturday Evening Post, Ladies' Home Journal and everything, but I guess he wouldn't have gone very far if I hadn't given him a leg up."  
William C. Allan, veteran printer and at present a real estate dealer in Minneapolis, leaned back in his chair and laughed.  
"I was living in Boston at the time, along in 1872," he continued. "I was running a printing shop, doing work for newspapers and such, and getting to know a mighty fine lot of people."  
"Among them was this young Curtis, about twenty-five he was then, and up and coming as they make 'em. He had a little one-horse paper he called the People's Ledger that he loved more than most men do their first baby."  
"He wrote most everything in it, acted as office boy and janitor, subscription collector and advertising agent and everything but printer. He had to let me do that."  
"I like a young fellow that puts up a good fight, and he was doing that. Handsome he was, with a taking sort of way with him, polite and friendly; he was a great boy. Chock full of ambition as a boy is full of turkey on Thanksgiving; and I guess in a different sort of way it hurt him about as much."  
"He wanted to be the greatest publisher in the world, with nothing to start on but brains and elbow grease. That's a good combination but it causes a lot of grief first and last."  
"Partner Shuts Door on Opportunity"  
"When I first got to know the young fellow he had a partner that he'd talked around with that pleasant manner of his. The partner had some money in the business and things didn't look so bad, but after a while he got cold feet and left Curtis in the hole. I often think how mad he must be now if he is still alive."  
"Curtis wasn't the discouraged kind but pitched in and tried to advertise. He used to walk around to all the news stands and call for the People's Ledger. So the men would order some copies of the paper to relieve so particular a customer."  
"Things went from bad to worse. My bill kept getting bigger and bigger, though I didn't nag him none; I liked 'em and I always like to help a fellow that's in a hard place when he's got something to him. It got up to about \$800 finally, and in those days that much money would buy something worth having."  
"He did his best to keep it down though. He started to run his paper on the patent inside plan, that is buying used plates with stories and poems; 'boiler plate' we called it then. Of course that didn't make the paper so terribly attractive, but he was doing his best."  
"He had lots of friends, and he'd borrow a fiver or tenner now and then from all of them. There was an old doctor who loved him like a son that kept him eating."  
"I gave him up finally and went to Philadelphia where he had a sort of partnership, advising him in a farmers paper there. I guess it was pretty much the same story all over again for awhile; anyway I didn't

hear from him for four or five years. I'd said goodbye to my money and counted it just one more bad debt. A printer always knows a lot about bad debts.

"But it turned out it was about the best investment I had ever made. I've had my ups and downs, and when things were about the blackest for me, here comes Cyrus Curtis looking me up and paying me that \$800 with interest at 6 per cent."

"He said then that if I ever was to know financial stringency I was to let him know at once. Since then I've had considerable communication with him."

"He told me about going back to Boston and looking up the people he owed money to. A lot of them were still there and the old gang had a grand time getting together and reminiscing, but the old doctor that he was fondest of had died."

"His sons were alive though, only poor and struggling. He took care of them so's they could feel that their father had left them a mighty good legacy after all. Seemed like almost everybody that had lent Curtis money got to be in distressing circumstances financially afterwards, but I guess he assisted getting them out."

Mr. Allan went to Minnesota the year the territory was made a state, and fought in the Indian outbreak at Litchfield. After a dozen years he returned to Boston where a relative induced him to buy a printing office and settle there. The call of the West was too strong however, and after his adventure with Mr. Curtis he returned to Minneapolis in time to begin work for the newly established Tribune, where he worked until 1882.

## This is Better Than Laxatives

One NR Tablet Each Night For A Week Will Cure Your Constipation and Make Constant Dosing Unnecessary. Try It.

Poor digestion and assimilation mean a poorly nourished body and low vitality. Poor elimination means clogged bowels, fermentation, putrefaction and the formation of poisonous gases which are absorbed by the blood and carried through the body. The result is weakness, headaches, dizziness, coated tongue, inactive liver, bilious attacks, loss of energy, nervousness, poor appetite, impoverished blood, sallow complexion, pimples, skin disease, and often times serious illness. Ordinary laxatives, purges and cathartics—salo, oil, calomel and the like—may relieve for a few hours, but real, lasting benefit can only come through use of medicine that tones up and strengthens the digestive as well as the eliminative organs. Get a 25c box of Nature's Remedy (NR Tablets) and take one tablet each night for a week. Relief will follow the very first dose, but a few days will elapse before you feel and realize the fullest benefit. When you get strengthened and feel just right again you need not take medicine every day—an occasional NR Tablet will then keep your system in good condition and you will always feel your best. Remember, keeping well is easier and cheaper than getting well. Nature's Remedy (NR Tablets) are sold, guaranteed and recommended by your druggist.

## To Those Who Bake

EXPERIENCE has taught good cooks that there is no flour quite as good as Beaver Flour.

# BEAVER FLOUR

is the ideal flour for all baking purposes. It is a bleached flour, combining the richness and delicate qualities of the world-famed Ontario Winter Wheat with the strength and body of Western Hard Wheat.

Beaver Flour imparts to bakings the qualities which make your bread, pies, cakes and pastries real food treats.

Try it! Sold by your grocer.

## LIFE WAS A MISERY TO HER

Says this Woman Until Relieved by Lydia E. Pinkham's Vegetable Compound.

Owen Sound, Ont.—"I suffered for ten years with female organic trouble, neuralgia and indigestion, and was weak and had such bad pains I could hardly walk or stand up at times. When I would sweep I would have to go and lie down. I could not sleep at night, and would wander around the house half the time. I tried everything but nothing did me any good, and the last doctor I had told me he never expected me to be on my feet again or able to do a day's work. One day one of your little books was left at my door and my husband said I should try a bottle of Lydia E. Pinkham's Vegetable Compound. I thank God I did, for it cured me, and I am now well and strong. I think there is no remedy like the Vegetable Compound for anyone who has my troubles, and have recommended it to my neighbors. You can publish my letter for the benefit of those I can't reach."  
—Mrs. HENRY A. MITCHELL, 1767 1/2 Ave., East, Owen Sound, Ont.  
If you have any symptom about which you would like to know write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for helpful advice given free of charge.

## Preparing Grains For Fall Fairs

It pays to advertise. There is no better advertisement than to be a prize winner at the Fall Fair and no crop on the farm can be exhibited to better advantage than the cereal crop. To attain the best results, a special plot should be maintained and kept thoroughly clean, free from weeds and all impurities. Harvesting should be done by hand, keeping the sheaves as neat and straight as possible.  
First and foremost the grain in the sheaf must not be weathered, it must be perfectly dry and of good colour. The best results are obtained by the use of slightly immature straw, as it will be found to be less brittle and easier to handle. The straw should be spread in thin layers in the sun to dry; the sun will bleach the straw as well as dry it. Use only straight, uniform straws to make the sheaf; two or three sheaves should be collected in the field to allow for waste.  
The majority of persons have the idea that all should be placed on the same level. This would give us the square head in which, when tied, the majority of the straws would break off below the head. The ideal rounded head with, the ideal sheaf has a rounded head with a gradual curve. This rounded head is procured by allowing the central straws to stand a little higher than the surrounding straws and each layer of heads that are added, to gradually slope away from the centre. The large sheaf may be conveniently formed by first making a number of small sheaves and then placing them together as though they were individual heads. Gradually sloping them off in the same manner. To finish the sheaf a layer of individual heads should be placed around the whole producing a finished exhibition sheaf. All the loose leaves should be plucked off the outside of the sheaf with a jack-knife leaving only the white shining straws, and all heads that do not conform to the symmetry of the head be cut off, leaving a perfect sheaf. Colored ribbon about 1/4 to 1/2 inches wide may be used with good effect to cover the binding strings.  
The remainder of the plot should be threshed by hand. This will form the bulk sample for the Fair. If the plot was kept pure in the field there will be very little that will need to be done to the threshed sample. A good fanning mill will remove all broken and small kernels, all chaff and dirt. The fanning mill must be clean, many an excellent sample has been ruined by a dirty fanning mill. Thoroughness is the secret of a good sample, the fanning mill should not be spared even if it means fanning away 50% of the original sample.  
The bulk sample may be double bagged for shipping to the Fair. The sheaf should be shipped in a box, 14 inches longer and 1-3 inches broader and deeper than the sheaf. The sheaf should be wrapped in paper and tied, fitted into the box and kept in position by supports.  
With our present day standards always improving, great care must be taken in preparing the exhibits for our Fall Fairs. No prize will be won by the farmer who puts up a rough sheaf or a poor sample. The secret of success is thoroughness.

**MILL SAW BILLS**  
The Advocate Office has just finished printing a stock of the latest Mill Saw Bills, which was drafted by the Mill owners of the Miramichi River. This Saw Bill is suitable for any mill on the river and we are now prepared to supply them to all desiring same.

## CLIMBING THE CANADIAN ALPS

The Yoho Glacier near Field, B.C., is a Beautiful Sight for the Climber.

Sections of the Alpine Club of Canada in all parts of the Dominion have received the anniversary message of the director, Arthur O. Wheeler, interprovincial boundary survey commissioner for B.C. There is much in this document of special interest to members of the club, but there is also a great deal which affects the general public, since it looks forward to a greatly increased tide of summer travel into the fastnesses of the great hills.  
The director's message opens with comments on the prosperous standing of the club and the success of the camp at Yoho lake last summer. Thanks are also tendered to many who helped to make the camp successful. Mention is made of renewed photographic activities in the mountains and of the fact that the challenge cup for competition by amateur mountaineers was won last summer by Dr. H. E. Bulyea of Edmonton.  
With reference to the erection of a suitable memorial to the soldiers members of the Alpine club, the director says: "It is decided to do this on two separate lines, first, to place a record of all our members on military service, and particularly those who have joined the supreme honor roll, on the club house grounds at Banff, and second, the erection of a hut above timber line at some serviceable place in the Canadian Rockies for the use of our members and possibly the public who are inter-

ested in making mountain climbs." With reference to independent mountaineering during the past year mention is made of the first ascents of Mt. King George, and several other peaks of the Royal Group, lying in hitherto unexplored district fifty miles southwest of Banff. Mt. Sir Douglas and Mt. Joffe were also climbed for the first time last summer.  
After some comment on the Banff winter carnival, in which the Alpine club takes an active interest, having been donors of a challenge cup for hockey, the director takes up the matter of the forthcoming "Welcome Home" camp to be held at Mt. Assiniboine from July 20th to 31st, 1920. At this camp more than 300 people will be placed under canvas and the special feature will be the fact that all guests of the club. The camp will be situated three days' journey from the railroad and transportation of baggage will be by a specially organized pack train known as the "Alpine club pack train." Of special interest to the general public is the fact that this pack train will be in operation throughout the summer and anyone wishing to make a really interesting trip into the heart of the mountains can do so at a minimum expense. The camp at Mt. Assiniboine and the "Overnight Camps" on the way thither from Banff will be open to the public from the first of July until

the end of September, except during the two weeks when they will be occupied by members of the Alpine club. At any time during the summer, walking tours may be taken to Mt. Assiniboine and these camps will be open to furnish good meals and a bed to the tramp at the end of his day's journey. There is only one way to really see the mountain and that is on foot, but so far this pleasure has been confined to the very few, on account of the difficulty of carrying food and bedding. These difficulties are now to be removed and it is planned in coming years to arrange many such walking and riding tours for the benefit of the public.  
In conclusion the director quotes the verses of a gifted Calgary poetess, Miss Marian L. Moodie:  
Oh wind that comes out of the West,  
The land of the sunset skies,  
Where far o'er yon mountain's crest  
Those glorious colors rise,  
You bring me the fragrance of pine,  
The coolness of mountain snow,  
The music of falling streams by the hills where the lilies grow.  
Oh wind that comes out of the West,  
You sigh on your way to the plain.  
The mountain land is the best,  
Will you not come back again?  
Glow skies with your golden light,  
Blow softly-wind from the hill,  
For my heart has a longing tonight,  
That only the mountains can fill.
