SPEED RECORDS BROKEN IN CHASE AFTER JOYRIDERS IN STOLEN CAR THREE AUTO PIRATES ARRESTED

M. S. Boehm Recognized Missing Motor on Palmerston Ave., Summoned Officer and Ran Down Suspects After Thrilling Hunt—Trio Found Hiding in Doorways.

Following an exciting automobile chase, in which all regard for Toronto speed limits was thrown to the wind, three young men were arrested Saturday evening, charged with the theft of a motor car belonging to M. S. Boehm of 165 Bay street. Those arrested were Jack Conlin, 33 Adams avenue; Willfred Smithers, 11 Cumberland street, and Fred Spain, 73 Melville avenue.

Mr. Boehm's car was stolen from in front of the garage on Temperance street Saturday afternoon at 3 o'clock. About 5 o'clock at night, while motor-ing with a friend on Palmerston avenue, he noticed 200 yards ahead a car in which were four young men, which looked to be very much like his missing motor. Driving to within 50 feet of it, he found, from the license number, that the car was his and stopped to summon a police constable. But the driver of the car ahead saw the constable board the car, and immediately put on full speed ahead. The custodian of the law said he was justified in following the suspected thieves at their speed, so after them at full tilt dashed the big touring car. For half a dozen blocks up Palmerston the two motor cars, when the first turned in at Palmerston square, when Boehm followed he found his car abandoned at the side of the road, and further search revealed three of the former occupants hidden in doorways along the street.

Blame Fourth Man.
At No. 11 police station, however, the prisoners maintained that the fourth party, who made his escape, must be the original thief, for they had been invited for a ride at Long Branch and accepted. They claimed they were out shooting when the missing man asked them if they wanted a ride to the city.

BOMB EXPLOSION IN FAMOUS TABERNACLE
As Usual, Suffragette Powder Canister Made More Noise Than Havoc.

Canadian Press Despatch.
LONDON, May 10.—A bomb placed by suffragettes exploded this afternoon in the gallery of the Metropolitan Tabernacle in South London, an edifice made famous by the late Rev. Charles H. Spurgeon.

Little damage was done by the explosion. It is believed that the bomb, which consisted of a canister containing about two pounds of powder, was placed in the gallery during the morning service.

Near the spot where the bomb exploded was a card on which was written, "Put your religion into practice and see that women obtain their freedom."

To Relieve Distress

Canadian Press Despatch.
ROME, May 9.—Premier Salandra informed the chamber of deputies this afternoon of the new disaster which had befallen Sicily. He mentioned the villages which had been destroyed and said that measures had been adopted to aid those in distress. He had ordered the under secretary of the colonies, Signor Mosca, who is a Sicilian, to go immediately to the district and assume charge.

DRIVER INJURED WHEN RUNAWAY HITS AUTO

Acting Detective Martin Makes Plucky Stop of Madened Horse After Nat. Oliver Had Been Thrown From Rig and Perhaps Fatally Injured on Yonge.

Nathaniel Oliver, 6 Roslin avenue, sustained a fracture of the base of the skull, and possibly internal injuries, by being thrown from his wagon at the corner of Walker avenue and Yonge street at 9 o'clock Saturday evening.

Driving south on Yonge street, Oliver was overtaken by a horse-drawn wagon, which after passing Wood-lawn avenue the animal got out of control and bolted at break-neck speed down the busy thoroughfare, at the corner of Walker avenue the runaway struck a motor car driven by James McComb of 240 Merton street, and the shock of the collision threw Oliver out on the roadway. He alighted on his head and was knocked unconscious by the fall.

Disengaging himself from the wreckage of the motor car, the animal continued its flight down Yonge, until at the corner of Belmont street Acting Detective Martin of No. 5 division ran out into the roadway and pluckily grabbed the reins on the horse. For 200 yards Martin was dragged down the street before the animal came to a stop.

WARSHIPS ARRIVE AT MEXICAN SEAPORT.

WASHINGTON, May 9.—The arrival of the British cruiser Lancaster from Puerto Mexico, and the United States ship Yankton and navy transport Morro Castle from New Orleans was reported at Vera Cruz tonight by Admiral Badger.

HUERTA'S ENVOYS WERE HONORED BY FUNSTON

Commander at Vera Cruz Offered Party Hospitality Which Was, However, Declined, as Was Also Offer of Passage on Morro Castle

Canadian Press Despatch.
VERA CRUZ, May 10.—President Huerta's three peace commissioners, Emilio Rabasa, Augustin Rodriguez and Luis Elguero, arrived here today on their way to Niagara Falls, Ont., where the conference between the mediators and the representatives of the parties concerned for a settlement of the difficulties between the United States and Mexico will be held. The offer of hospitality made by Brigadier General Funston, as well as Rear-Admiral Badger's offer to give them passage on the Morro Castle and boarded the steamship Kronprinzessin Cecilie, which will probably sail tomorrow for the United States by way of Havana touching at Key West.

By a rearrangement of the little evidence of the American troops, General Funston, in fatigue uniform, Lieut. Ball, General Funston's aide, and Lieut. Cohen, Rear-Admiral Badger's aide, were the only officers present in an official capacity. The station and railroad yards were crowded with Mexicans and Americans. The commissioners came in a special car, there being about fifteen in the party, including Rafael Elguero, brother of Luis Elguero, who will act as secretary, and Manuel Martinez del Campo, Senora Rodriguez and the four daughters of Senor Rabasa, who heads the commission.

Exchanged Handshakes.
The three commissioners stood in a little circle while Thomas J. Ryder, vice-president of the Aguila Oil Company, stepped forward and addressed General Funston:

"General, may I present these gentlemen?" said he.

"Certainly," the general replied. Formal introductions followed, each of the commissioners shaking General Funston by the hand.

Lieut. Cohen then stepped forward. "Accept the compliments of the commander in chief," said he saluting the three commissioners bowed gravely and smiled their acknowledgments.

Lieut. Ball then saluted, and they acknowledged this in the same way.

Desired Hospitality.
Mr. Ryder conferred with the commissioners in Spanish, extending to them, in behalf of Gen. Funston and Admiral Badger, the hospitality of the Morro Castle. He then informed Gen. Funston that the commissioners would accept no hospitality and preferred to sail on the Kronprinzessin Cecilie.

The Duke of Connaught, Governor-General of Canada, is taking steps to have suitable attention and courtesy extended to the South American mediators and the delegates when they assemble at Niagara Falls, Ont., on the 19th. The governor-general has been in communication with the British Embassy here, and it is expected that the British and Canadian authorities will unite in paying suitable attention to the distinguished visitors and in forwarding the mediators' work in every possible way.

HUNDREDS KILLED OR INJURED IN SICILY'S GREAT EARTHQUAKE DEVASTATION OVER WIDE AREA

Full Extent of Disaster May Not Be Known for Weeks—More Than One Hundred Lost Lives in Village of Linera—Rescuers Are Busy

Canadian Press Despatch.
CATANIA, May 10.—Throughout the whole night rescue parties, surgeons, Red Cross attendants and soldiers worked among the ruins of the villages on the western slope of Mount Etna, which was devastated by earthquake. The number of dead up to this evening is officially placed at 139, with about 350 injured, but as yet a large portion of the devastated territory has not been inspected.

The affected zone extends from Zafferano, the highest village on Mount Etna, to the sea, between Ad Reale, on the south, and Giarre on the north. It includes Linera, the centre of the disturbance, Pissano and Santa Venerina.

In Linera alone 110 persons were killed and 300 injured. In the village of Bongiarlo 13 dead and 27 injured have been taken from the ruins. At Consentini 16 were killed and many injured. These villages and many smaller places were practically leveled.

Bodies Lined the Road.
Surgeons performed operations in the open by torchlight. Parents whose relatives are missing still hoped to unearth them alive and urged the rescuing parties to hasten their work of excavation, indicating the places where they thought their families were entombed.

Bodies lined the road, and every effort was made to identify the victims, as many of them will be interred tomorrow, Cardinal Francica, the Archbishop of Catania, gathered the survivors at Bongiarlo today around an altar.

EXPULSION NOT TO BE GENERAL
German Government is Taking Measures Only Against "Undesirables" in Alsace-Lorraine.

Canadian Press Despatch.
BERLIN, May 9.—The German Government today issued a denial of the reports in circulation for several days, that it intended gradually to expel all French residents from Alsace-Lorraine. The reports, it is asserted, emanated from Alsatian members of the imperial parliament and from the members of the Alsatian Diet.

The government declares that it has not adopted any policy of general expulsion of Frenchmen from the conquered provinces, but intimates that the permits of certain undesirable persons will not be renewed upon their expiration. This, however, it declares, applies only to French citizens, who frequently have been refused renewal of the permits in previous years.

The utterances of the government press indicate that the government means to resort to expulsion more freely than it has done if the anti-German agitation of the Paris press continues, but that it is using expulsion merely as a corrective against French propaganda in the two provinces.

ARMS DID NOT REACH DUBLIN
Twenty Cases Seized on Steamer from Baltimore by British Customs Authorities.

DUBLIN, May 9.—The customs authorities today seized 20 cases of arms on the steamer Lord Charlemont, from Baltimore. The contents of the cases were described in the invoice as fowling pieces manufactured in the U. S. They were consigned to an English firm at Wolverhampton for delivery at Dublin.

The Lord Charlemont sailed from Baltimore April 18, and arrived on May 4 at Belfast, where she discharged a portion of her cargo.

PROROGATION IN THREE WEEKS ANTICIPATED

Government, in Desire to Hasten End, Will Urge Sitings on Holidays—Redistribution and C. N. R. Legislation Are Chief Obstacles to Progress.

By a Staff Reporter.
OTTAWA, May 10.—Mr. John Stanfield, M.P., chief government whip, said today that the government hoped to prorogue by the end of May. Morning sittings commence tomorrow, and from now on the house may be required to sit on Saturdays. It is also hoped that both sides may agree to the house sitting on the 21st (Ascension Day) and on the 25th (Victoria Day). Much, of course, will depend upon the tactics of the opposition respecting the Canadian Northern legislation, especially as indications now point to the redistribution bill going over until next session.

Tomorrow's sitting of the house will be devoted to a long list of government bills, including the bills and resolutions increasing the senatorial representation of Manitoba, Saskatchewan, Alberta and British Columbia. However, the government cannot hope to pass any measure increasing their strength in the senate until some agreement is reached respecting redistribution.

Opening C. N. R. Skirmish.
The house will be moved into committee of the whole upon the Canadian Northern resolution either Tuesday or Wednesday by the prime minister. There will be many questions asked in committee, and some formal discussion, but it is anticipated that the resolution will be reported without any great delay. Upon this resolution will be founded the bill bringing into force the proposed legislation and upon the second reading of the bill the policy of the opposition will be disclosed.

It is not unlikely that the main fight will occur upon an amendment to be offered by Sir Wilfrid Laurier (on or immediately after the second reading) to refer the measure to a special committee of the house, with power to summon and examine under oath and to send for persons, papers and records. The argument will be made that Sir William Mackenzie and Sir Donald Mann should be examined under oath and a general investigation be publicly conducted into the affairs of the big railway system. A motion will no doubt be voted down by the government as a dilatory motion, but it would give the Liberals some parliamentary policy upon which they could unite. There is no question but that they are badly divided on the merits of the proposed legislation, and that many of them are opposed to anything like mere obstructive opposition.

U. S. DELEGATES ARE APPOINTED

Associate Justice Lamar of Supreme Court and Frederick Lehman of St. Louis Chosen.

Canadian Press Despatch.
WASHINGTON, May 10.—Associate Justice Joseph P. Lamar, of the United States Supreme Court, and Frederick W. Lehman, of St. Louis, former solicitor-general, will be the representatives of the United States to confer with the mediators. This became known from an authoritative source tonight. During the day Justice Lamar had a long talk with the president and later he and Mr. Lehman conferred.

The Duke of Connaught, Governor-General of Canada, is taking steps to have suitable attention and courtesy extended to the South American mediators and the delegates when they assemble at Niagara Falls, Ont., on the 19th. The governor-general has been in communication with the British Embassy here, and it is expected that the British and Canadian authorities will unite in paying suitable attention to the distinguished visitors and in forwarding the mediators' work in every possible way.

AUSTRIA SENDS CRUISER TO AMERICAN WATERS
Will Protect Austrians and Hungarians in South America.

VIENNA, May 10.—The naval authorities decided today to send a small cruiser to American waters for the better protection of Austro-Hungarian interests. The vessel will cruise in both north and south Atlantic waters, there being many Austrians and Hungarians in South America.

TRAINS WILL RUN ON NEW LINE THIS WEEK

C. P. R. Second Track From Agincourt to Leaside, the Greatest Piece of Railroad Work Carried on in Ontario for Years, is Just About Completed.

The greatest piece of railroad work that has been carried on in Ontario for some years is now about completed, in the line of the Canadian Pacific, from Agincourt to Leaside, a distance of six to seven miles, and involving enormous steam shovel work in the Wexford cutting in order to lower the grade, and the erection of two immense new bridges over the East and the West Dons, each about 1,000 feet long and over 100 feet high; the two largest bridges within fifty miles or more of Toronto.

Trains will likely run from Leaside to Agincourt over the new line this week and the old track will then be raised to the new grade, except at the two bridges, where the old grade will be maintained until those structures can be overhauled and raised or rebuilt. They may be rebuilt. Both tracks will be used by the end of the week.

The six miles from Agincourt to Leaside will complete the new lake front line (Agincourt-Glen Tay) and a regular express train service over it to Ottawa and Montreal and a local service from Toronto to Belleville inaugurated on June 1.

The construction gangs will be with all their work this week. The public bridge on the York-Scarboro town line over the cutting at Wexford is now under way and will be in use in a fortnight. H. H. Charles has been the resident engineer in charge of all this end of the work with headquarters at Agincourt.

WAR CORRESPONDENTS FREED AFTER ARREST BY MEXICANS

English Newspapermen Had Little Difficulty in Obtaining Release, But Americans, Including Richard Harding Davis, Were Held for a Time in Mexico City.

Canadian Press Despatch.
NEW YORK, May 9.—Word reached New York City last Saturday night that Walter C. Whiffin of the Associated Press staff, who was arrested at Mexico City, had been released by the Mexican authorities.

A despatch from Vera Cruz had stated that Whiffin, with Oliver M. Hooper, correspondent of The London Express, and another English correspondent named Bourne were placed under arrest by the Mexican authorities at Mexico City Thursday evening. They had just arrived from Vera Cruz, and the police were waiting with coaches when the train drew into the station.

All were taken to the jail under guard and Whiffin and Sutton were held for investigation. The two Englishmen were released and the officer who arrested them was reprimanded.

HARDING DAVIS RELEASED, TOO.
NEW YORK, May 10.—Richard Harding Davis and Medill McCormack, American correspondents in Mexico, reported seized by the Mexican authorities in Mexico City, according to despatches received by The New York Tribune last night, have been released according to later advices received by that paper.

Mr. Davis was sent to Mexico by The Tribune. Upon receiving word last night of his arrest The Tribune informed the state department at Wash-

SPECIAL SERVICES MARK ANNIVERSARY

Children's Choir Attractive Feature at Trinity Methodist Celebration.

SUNDAY SCHOOL WORK

Report Shows Scholars Have Carried Out Practical Christianity.

Trinity Methodist Church held its annual anniversary yesterday when special services were held in the morning, afternoon and evening. The most inspiring part of the services was the sight of the choir of 300 children, who occupied the space to the rear of the pulpit. Each was adorned with the floral emblem of mother's day, and all joined in singing of the songs which had been prepared for the occasion. It was Sunday school day, and the sermon which was preached by Rev. Hiram Hull of Dunn avenue Church, was intended particularly for the younger members of the school.

Mr. Perry, the newly appointed superintendent of the school, gave the annual report of the work being carried out by the Sabbath school department of the church. There were 828 on the roll, and the average attendance during the past year was 560. In the Sunday school \$1690 had been collected, and \$400 of this amount had been used for work carried on outside of the school. Besides that sum, \$887 was raised for missionary purposes. During Christmas week, the classes and their teachers had endeavored to alleviate the distress which they found among needy families. Besides an expenditure of \$114 in this connection, there was an immense amount of work done. The flower mission had also done invaluable work, and had placed flowers in many sick rooms.

Loved the Children.
Rev. Mr. Hull, in his talk to the children, told them that Christ cared for the lambs, the flowers and the birds, but most of all for the children. The influence of environment was impressed upon them in simple language. Just as Caesar's image was on the penny which was presented to Jesus by the Pharisees, so the image of Christ was on the bright, happy faces of the children. Since the penny with Caesar's inscription belonged to that ruler, it followed that the children who bore the divine imprint belonged to Christ.

Rev. J. Tovell, the assistant pastor, presided at the service, in the absence of the pastor. The evening sermon was preached by Rev. E. B. Laneley, and it was also of a special character, in keeping with the celebration of the anniversary.

READY FOR ROYAL VISIT.

ST. CATHARINES, May 10.—St. Catharines is decorated to an extent never before attempted in preparation for the visit of His Royal Highness the Duke of Connaught tomorrow morning. The salute of military and mounted escort will be provided as originally intended, although the duke informed the local authorities that this was unnecessary.

FUNERAL OF JAMES WOOD.

Members of the Battlefield column, Northwest Field Force, 1885, are requested to attend the funeral of their late comrade, James Wood, which will be held from 8 to 9 o'clock, Monday, at the residence of Mrs. Wood, 236 Dundas street.

New Muskoka Train.
Commencing Saturday, May 16th, new train will leave Toronto 10.20 a.m. daily, except Sunday, via Grand Trunk Railway System, carrying parlor-library-buffet car and first-class coaches and will arrive Muskoka Wharf 1.40 p.m., making direct connection with steamers for points on Muskoka Lakes. This train will run direct to side of Muskoka Wharf (the original gateway to the famous Muskoka Lakes), thus avoiding any inconvenience to passengers.

Return connection will be made with train leaving Muskoka Wharf 10.30 a.m. daily, except Sunday, arriving Toronto 2.55 p.m.

Tourist tickets at very low fares are now on sale to Muskoka Lakes points, good for stop-over, and valid to return until November 30th, 1914.

Full particulars at city ticket office, northwest corner King and Yonge streets. Phone Main 4299. 12345

EFFICIENT HOUSEKEEPING

BY HENRIETTA D. GRAUEL
DOMESTIC SCIENCE LECTURER

Lettuce, Radishes and Tender Green Onions

THESE GREEN VEGETABLES are now served for breakfast, dinner and supper, and physicians tell us that they make the finest nightcap, in the shape of a salad, that there is. As the salad oil quiets the nerves, promotes sleep and lettuce is soothing, perhaps we shall at last find the fountain of life, or at least good health, in the combination.

The green salad is certainly the most healthful of all, and much better than those made with heavy vegetables or meat, for Americans at best, who eat far too much meat and never enough of the succulent foods.

The head lettuce is of quite so tender and sweet as the open variety, but there seems to be no choice between the bronze and bright green, crinkly kinds. Whatever sort you favor let it be as fresh as possible. If it seems somewhat wilted, dip it in cold water and wrap it in wet paper; put in a cool place, and it will be as crisp as ever in a few hours.

That is, if it is not entirely past reviving.

Radishes, like the lettuce and other salad plants, cannot be too fresh from the ground, nor too tender. When preparing them for the table wash them, cut off the tops, and save these for greens. Put the radishes on ice for an hour or in cold running water. Trim off the tops, so that just a dainty green tip remains, then, with a small, pointed knife, cut the radish downward toward the root until it is in six sections, but not separated from the top. Put into cold water for ten minutes and the slender strips will curl up like a rose. Only the long, thin radishes can be cut in this manner. The short "turnip" radish is cut in circles with a special vegetable knife.

Radishes make the prettiest decoration for salads, and are often cut in thin slices or fancy shapes and mixed with onions and cucumbers for the sake of their brilliant color.

It used to be that a radish was a radish, and that was all there was to be said, but now some kinds are cultivated for their early and quick growth or fine flavor, and others because they have very long, tender pods for pickling, or especially tender, smooth leaves for greens and radish leaf salad. We have on our market at this time, black, red, purple and white radishes, and some 12 separate varieties, each one particularly esteemed by some persons.

Chives are members of the onion family, but mild and Quaker like by comparison to some of their cousins. They grow wild in the Eastern States. Some say the Dutch settlers planted them in the meadows for the cows to eat, so that even the milk could have the esteemed onion flavor so loved by them. They come from small bulbs, which can be had from seedmen, and if planted around the edge of a salad bed will come up for generations.

The small green onion is most valuable in salads. It can be cut so fine as to be cunningly concealed and yields enjoyment to those who would not eat it if they saw it.

A Spanish onion cut in half and rubbed over the salad bowl before the onion is put in will often flavor the mixtures sufficiently for those who are not fond of the penetrating flavor.

Tuberculosis.

The causes are many. It is not always hereditary, but is caused by a direct infection from without of living tubercle bacilli, which may attack the glands, joints, skin or internal organs. If the child has inherited a tendency or acquired a feeble power of resistance, overcoming the bacillus it is in good condition to fall a victim to this dread disease. It may be contracted from living in rooms in which a consumptive has lived, or it may develop after one of the infectious diseases of children.

The bacillus finds access to the tissues in different ways, but its most frequent entrance seems to be thru the air passages into the blood supply, from thence being carried to the parts which have the least resisting power at the time. Dust, which may contain dried tubercle bacilli is to be guarded against in every way. A baby should never be nursed or kissed by a person suffering from tuberculosis. The young child the less able is it to successfully overcome an infection that would not affect an adult at all.

The second most frequent invasion is made by way of the food tract, so that special care must be given to milk and the preparation of children's food.

The open-air treatment is the best preventive known. The child must spend the greater part of his time in the fresh air—in the freshest air possible. He should play in it, eat in it, sleep in it always. The food should consist of easily digested, nourishing things containing a high percentage of protein and fat, milk, eggs, cereals, fresh meat juice and cream. Some form of cod liver oil is usually prescribed by the doctor. Salt baths and sun baths are helpful.

It must be remembered that if a child has suffered from the infectious diseases of childhood especially if they have a marked tendency to lower resistance of the tissues to the tubercle bacillus, so that a period of high protein and fat feeding with an open-air life should be carried out for some time after such illness.

PAID A TRIBUTE TO Y.M.C.A. WORK

Ven. Archdeacon Addressed Record Congregation in St. Paul's Church.

Ven. Archdeacon Cody occupied the pulpit at St. Paul's last night and delivered a sermon to one of the largest congregations that ever gathered in the church. The main body of the church was reserved for the members of the Y. M. C. A., of whom nearly 900 attended, including the directors.

The archdeacon took for his text the first verse of the fifth chapter of Jeremiah, and dealt in a general way with Christian manhood.

He paid tribute to the good work being done by the Y. M. C. A., which he declared to be one of the greatest institutions in the Dominion, doing the good work of nationalizing the city and helping to train and build up a great Canadian nation.

GRADUATE NURSES RECEIVE DIPLOMAS

Brilliant Ceremony Attends Exercises at St. Michael's Hospital.

HISTORY OF BUILDING

Rev. Dean Harris Retained Interesting Reminiscences of Bond St. Institution.

A large gathering of relatives and friends witnessed the graduating exercises in connection with St. Michael's Hospital, Friday afternoon. The lecture hall was draped artistically with red and white, the colors of the school, and in every available spot palms and great bouquets of roses were placed. An orchestra played a delightful introductory and closing number.

Dr. Dwyer presided and introduced the speakers, among whom were Dr. McKewen, Dr. King, Dr. Burnham, Rev. Dean Harris, Mr. M. J. Henny, Rev. Mr. Long and Rev. Father Cline.

The graduates were given advice and congratulations, and Rev. Dean Harris gave some reminiscences of the institution since the time when it was now St. Michael's Hospital was a Baptist Church, then the headquarters of one of the most brilliant literary and historical societies that Toronto ever evolved; next, a boarding-house for young men and, lastly, a hospital.

The diplomas and medals were conferred and distributed by Right Rev. Mr. McCann, who in congratulating the class also extended recognition to the hospital for its ever-increasing progress and facilities for carrying on its great work.

The Graduates.
At the close of the exercises all present were invited to the large tea room, where the guests were waited upon by the graduates and students of the house. Following are the names of those who received diplomas and medals: Miss Katherine Keane, Phelpton; Miss Margaret O'Connor, Toronto; Miss Eva Grogan, Brampton; Miss Clara Currie, Georgetown; Miss Elizabeth Hanlon, Guelph; Miss Agnes Hinch, Tweed; Miss Caroline McBride, Toronto; Miss Margaret Mathers, Lindsay; Miss Mabel I. Dyer, Meaford; Miss Catherine McDonald, Toronto; Miss Dorothy A. Sharples, Toronto; Miss Helen Sibbald, Toronto; Miss Ida McQuillan, Guelph; Miss Eva A. Dunn, Orillia; Miss Bertha Cunningham, Toronto; Miss Gertrude Mulvaney, Lindsay; Miss Margaret McEvoy, Phelpton; Miss Frances C. Stominska, Edmonton, Alta.; and Miss Agnes Chalmers, Dumfries, Scotland.

GRADUATE NURSES RENT BY DISPUTE

Executive Condemned for Dismissal Without Giving Any Explanation for It.

PRESIDENT QUILTS CHAIR

Club Refused to Sustain Ruling—Case May Go to Courts.

At a meeting of the Toronto Graduate Nurses' Club, Sherbourne street, called Friday evening to discuss the dismissal of Miss Mackenzie, the superintendent by the executive committee without its giving any reason for the action, a resolution was passed expressing confidence in Miss Mackenzie, and asking this executive committee to reconsider its decision, and express regret at the arbitrary conduct of the committee. It was said that two-thirds of the 250 members of this club are supporting the cause of Miss Mackenzie.

Mrs. Struthers Quit Chair.
The proceedings were marked by a lively and sharp discussion. Although the meeting was called especially to deal with the case of Miss Mackenzie, members of the executive continued to bring out in their refusal to tell why they had so dealt with her and attempts at bringing out the information were frustrated by Mrs. Struthers, the president, declaring all motions for explanations out of order. As a result the ruling of the chair was finally questioned and on a motion being put that the chair be not sustained, it was carried by a vote of 45 to 15. Mrs. Struthers then tried to dismiss the meeting without having a motion for adjournment before her, and being also frustrated in this attempt, she withdrew in great indignation.

Mrs. Mill Pellatt, vice-president, then took the chair and the resolution of confidence in Miss Mackenzie given above, was passed, on motion of Mrs. Pafford and Miss Scott.

Supports Mrs. Struthers.
A letter was read from John Ross Robertson, who provided the club with its quarters, approving of the dismissal of Miss Mackenzie by the executive, and incidentally saying that the lease of the club house would expire on June 1st.

It was said by members of the club that the dispute would probably be carried to the courts.

GOOPS
By GELETT BURGESS

Joshua Jones
A careless Goop
He loses everything
He loses knives
and books and collars
Umbrellas, overcoats
and dollars!
He leaves them here,
And then forgets them—
Do take care!

Don't Be A Goop!

HE

This New Electric Stove at Hydro
El Glostovo
for \$3.25—not \$6.50!

Who wants El Glostovo?
Every home in Toronto that wishes to do away with the drudgery of hot kitchen cooking—and to save \$3.25 in cash.

What is El Glostovo?
It's the new Electric Stove, stands just 4 inches high, cooking surface 7 1/2 inches across. All you do is attach the cord to any lamp socket and presto! in 15 seconds you have a glowing bed of electric elements to boil, fry and toast over, that beats ordinary stoves "all hollow." No dirt, no smoke, no stifling heat, nothing but comfort. Use El Glostovo in the kitchen, diningroom, porch, den, anywhere you like. Costs just 1 1/2 cents per hour to use!

Why is El Glostovo only \$3.25?
This week, by special arrangement with the manufacturers, on a big purchase, Hydro is reducing the price of El Glostovo exactly one half. It comes complete with 8 feet of cord and attachment plug and is guaranteed for five years. This offer is good for this week only. Call in today or phone your order early.

WE DELIVER TO YOUR HOME FREE.

RINGS ARE WORN ON FIRST FINGER

Must Be of Antique Setting and Display Old-Fashioned Styles.

Accordian pleating is very fashionable and introduced even when the material used is of quite a heavy nature. In the crepe suit costumes narrow pleatings are used in the place of plain tiers, and are arranged in clusters of two or three low on the hips. Pleated ruffles in the softer materials are placed on the bottom edge of summer frocks, to produce a decidedly flare effect. Chiffon and organdie are finely pleated and invisibly wired when applied to the neck of a blouse or coat.

Fields are the ruling fashions of the day. All the most exclusive dress fabrics exploit daring plaids—daring checks and color combination. Rattles show checks of the pepper-and-salt type in various colors—tans, greens, reds and blues of every hue are combined and the tones brought out by the use of gorgeously shaded silk trimmings. Plaid taffeta is unrivaled as a street costume material, and fine lace, deep, closely pleated, is fascinating trimming on these quaintly fashioned suits.

How People Feel When They Have Tape Worm

Tape worm is bred from a parasite. This parasite is a creature male and female in one. It is of pear shape, having two, four and six suckers. It lays the eggs, which are only connected together with slime. They develop and form a body, which is the worm. Each point is an individual, having a sucker or mouth. The worm grows much longer than the bowels, where it is located, and sometimes a whole colony of them are found, enough to make a quart of solid worm, and when put in a bucket of water would apparently fill it. It is the hardest task in the world to destroy this parasite without doing injury to the individual who may be so unfortunate as to have it, as the parasite clings to the bowels, freeing itself from the body of the worm, and remains there to breed another. It is an internal demon, and causes its victims to suffer all the symptoms of disease imaginable. The cleverest physicians are led to believe the patient is suffering from some other disease, as nearly every person has different symptoms. Some have been treated for cancer of the bowels, consumption of the bowels, inflammation of the bowels, appendicitis, and other complaints, when one or more of these internal demons were eating their lives away.

Prof. Mulvaney has made the discovery to free the victim of this monster without injury to the system, destroying the parasite as well as expelling the worm with one dose of medicine, without any previous starvation. Visit his office, where he has in his possession the most wonderful collection of these death-dealing monsters in the world, which have been expelled from hundreds of people by his famous remedy, some bottles containing colonies of worms, and anyone seeing them cannot imagine how a person could possibly live with them in the bowels. It is surprising the number of people that have them, and it is surprising the Professor has in his possession are enough to convince us of this alarming fact. Some of the most prominent symptoms are: ravenous appetite, dizzy spells, headaches, cramps in the bowels, also a feeling of something moving in the bowels, also a feeling as though something were crawling up the throat. The only certainty of having one in the system is when segments or joints are seen, which come away almost any time. They are flat, and from three-quarters of an inch to an inch long, which have often been mistaken for pin worms by those who do not know the difference. There are many other feelings of distress which would take too long to enumerate. Strange to say, some people of strong constitution have very little distress.

Prof. Mulvaney's world famous Tape Worm Exterminator is safe, sure and harmless. No starvation, no danger; is not disagreeable to take. One dose nearly always effects a cure. Further information free. Phone Park 4830. 167 Dundas street, Toronto.

SCHOOL GARDENING CONTEST.

CORNWALL, May 10.—The Cornwall Y. M. C. A. has rented a large plot of ground on Amelia street, and have it divided into plots 10x15 feet, where the school children of the town will raise flowers and vegetables this summer. Seeds have been supplied the children at one cent a package, as the result of their summer's labors will be shown at a school fair, to be held in September. Scoring will be conducted weekly and monthly, and prizes will be awarded to the successful competitors.

DAILY MAGAZINE PAGE FOR EVERYBODY

How Should Parents Regard Their Children?

By Winifred Black

Copyright, 1914, by Newspaper Feature Service, Inc.

THE teachers have started a league. Have you heard about it? They call it the Parents' League—but it's really the teachers in disguise.

One of the teachers who's helping to start the league in one part of the country has just been telling me about it.

"We can't stand it another minute," said Teacher. "We really can't. We're willing to make the girls brush their hair and the boys brush their teeth. We don't object to finding out whether the girls have anything for breakfast at all or if the boys really go home to luncheon, or just play ball and then come back too hungry to work."

"We don't mind trying to teach not only the lessons in the books—but all the lessons outside the books as well—kindness, courtesy, morality, honesty, ambition. These things are not down in the curriculum, but we're supposed to teach them just the same. We don't mind it in the least; we're used to it."

"It wasn't so hard a few years ago; but now, with the moving pictures and the cheap theatres and the vulgar songs and the queer dances, we really don't know what in the world we're going to do with our children, unless the parents consent to take some sort of slight interest in their own children."

"That's what the league is for—here is what is says in the bylaws and constitution about the object of the league:

"The object of the league is to unite parents in an effort to promote the moral, mental and physical well-being of their children by establishing wholesome standards in matters affecting their education, amusements and home life."

What the Parents Want.

I began to laugh, but Teacher looked at me reproachfully.

"How can you laugh?" she said. "It's no joke, I can tell you. I teach in a private school and I have in my special classes 35 children, boys and girls, and I don't if one of those children ever says one word to either father or mother beyond 'good morning' and 'good night' and 'I wish I had father or mother come to school at 8:15—the parents insist upon that. They breakfast alone—mother and father are not up yet; they bring their luncheon, and they stay till 6 o'clock."

"Mother and father insist upon that, too. And it is better than letting them go home—there's nobody there to look after them."

"Mother is at a tango class, or she's playing bridge, or she's motoring, and father is out on the links or down in the gymnasium, or over at the club talking polo ponies."

"My sister teaches in a public high school—'Her children have just about the same kind of a time, only they're left to themselves more. The public school teachers won't take any responsibility for their pupils personally after 4 o'clock."

"My sister says her parents are busy, too. Father's down town at business and mother is studying Strindberg or joining a culture club, or reading a paper on 'The Moral Effect of Women on the Business World,' or shopping, or having tea at one of the department stores. And Teacher has to take the entire moral as well as the mental training of the children in her school upon herself. And Teacher is getting tired of it. Besides, we're afraid, we teachers."

"We do everything we can, but we're afraid."

Teacher showed me the constitution and the bylaws of the new League, and she told me that they were forming it all over the country, and that it was sometimes difficult to get the parents to join—because parents seem to be such busy people and to belong to so many leagues already.

Do you believe it, all this that Teacher says? Teacher is a good woman and a clever woman, and a woman who speaks the truth, but really I wonder—

Can it be possible that we're all going, just the least little bit in the world, crazy—we American mothers.

I met a woman the other day, and her eyes were shining and her face was like the face of a happy little child.

"I'm going to see 'The Blue Bird,'" she said. "Have you seen it?—oh, no, that isn't seeing it. Come with me, I'm going with the children."

And I went with the woman, and we took the children, and never, so long as I live, shall I forget that afternoon.

Trading Gold for What?

They weren't mortals who sat there with us in the stuffy theatre—they were Faith and Hope and Charity—and Love and Trust and Fidelity—and they laughed and they cried and they clasped their little hands and were not ashamed—and they believed it all—the beautiful, beautiful story of the search for happiness and the finding of it in the little kitchen in the little home of the humble, simple people.

And when we went out of the theatre I looked at my friend and she was smiling and the tears stood in her eyes—and I understood then why she alone of all the women I know has the face of a happy child.

Once when I was a little girl my mother gave me a ring of gold for my birthday, and I went to school, and a clever child who always was at the head of the arithmetic class persuaded me to trade the ring of gold for a ring of glass beads she had made herself and a handful of parched corn. I did not want to make the trade—I almost cried at the thought of giving up the shining ring of gold—but the clever child was a good talker and she lived in a fine house—and let her have my little ring of gold.

And my mother looked at me reproachfully—but she did not make me go and get the ring again.

"You'll learn," she said, "my little girl—you'll learn." And oh, how bitterly I learned.

Are we trading a ring of purest gold for one of cheap and sordid making when we give up the companionship of children for anything that this world can possibly give us?

Sometimes it seems so, doesn't it, members of the Parents' League?

Advice to Girls

By Annie Laurie

Dear Annie Laurie: I guess you are used to hearing of folks' troubles, at least I hope so at all events, because I want to tell you mine. You see I have such a dear boy cousin, but the trouble is every one thinks I am too much in love with him. I try not to show that I really care, but the more I try the more I show up the true side. Don't you think it is horrid for others to interfere with us? Do you think I should persist in acting indifferently to him or should I show him that I really care?

I hope you won't laugh at me, for I really do love him. I am just 20 years old, and I feel that it is such a responsible age. RUTH.

He doesn't seem to be in love with you does he? He likes you just as a nice cousin should like you. And cousins, you know, must not love each other, not boys and girls. They're first cousins. Keep away from your cousin for a while and don't let him suspect for a minute that you think you are in love with him. You aren't, you know, at all. Not really—you're just in love with love, and he's good-looking and jolly and agreeable—and so you've made yourself believe that you're dying of love for him. Yes, I guess I did think 20 was a "responsible age" when I was 20. Dear me, that was a long time ago.

WHY you dear little Ruth, what a character you are to be sure. You write just exactly as you talk, don't you. I can fairly see you standing right before me. "Every one" seems to be right in this affair. You really are in love with your cousin—very much indeed, too much in love, if you ask me.

Miss Laurie will welcome letters of inquiry on subjects of feminine interest from young women readers of this paper and will reply to them in these columns. They should be addressed to her, care this office.

INTO THE OPEN :: :: By Michelson

THEY have danced all winter and all spring under ballroom lights, in the cleared spaces of dining halls, in home impromptus, and not a few times in solitary practice. And now comes the lure of outdoors. The spell of new steps is still upon them. The bubble of music—any old music—is sufficient incentive for that other music of motion to which youth and age alike are giving themselves over as never before since dancing began to happen. All nature is piping its syncopation. The birds are twittering a tango; the breeze is murmuring a hesitation. Wars or rumors of wars have never stopped such music or such response. It seems that it is always dancing time. Poor old "bridge" is forgotten. There is only one season to an enthusiasm. It is the season of NOW.

Peter's Adventures in Matrimony

By Leona Dalrymple

Author of the new novel, "Diane of the Green Van," awarded a prize of \$10,000 by Ida M. Tarbell and S. S. McClure as judges.

The truth about "the girl in the case" distinguishes this new series by Miss Dalrymple. Her character studies will not appear unfamiliar to the majority of readers, who will follow the fortunes of "Peter" with interest.

What "Forgetting" Meant.

"H. Peter!" wailed Mary. "I've forgotten the fire!" I didn't say anything, and it was considerable contumace on my part that I didn't, for Mary is always forgetting fires. They go out with systematic and fendish regularity. Mary

seems to have a blighting glance with fire. Sometimes she has but to look at glowing coals and shortly after they expire. Then, of course, Peter dutifully trots about and builds them over again.

Such are the privileges of matrimony and chivalry. If I let the fire go out, I build it again myself. I wonder just how much profanity and cynicism fires have incited.

On the way downstairs I noticed a rickety step and spoke of it immediately.

Marriage teaches a man to voice his most trivial complaints with startling promptitude. No matter how modest

and shy and agreeable he's been in pre-nuptial days, there's something about marriage that gives him real courage, and when anything's wrong through the fault of his wife, his tongue takes up its biting task with marvellous facility. So with the cellar step.

I spoke some of carelessness, some of the immediate need of a carpenter, and some of the likelihood of my breaking my neck and leaving Mary a widow. This evoked absolutely no response from the kitchen, and I stopped sarcastically and inquired if Mary desired to be a widow. All of which was very foolish, but marriage seems to provoke a certain type of wrath—a futile, childish, unreasoning sort of wrath, and the house was cold and the fire was out, and I was tired.

From the kitchen came Mary's voice, airy controlled, though I fancied I detected a shadow of guilt in it.

"Peter," she said, "I simply shall not answer you when you speak in that unreasonable manner. The fire's out and that's all there is to it. And if the cellar step's rickety, that's no reason why you should stop on the broken step and grumble about my becoming a widow. If you stand on the step long enough likely I'll be one before the fire's built."

Which wasn't bad for Mary, but it made me exceedingly wrathful, and I went on down and flung sticks about.

Then I built a fire so hot that she had to throw open all the windows to cool the house.

Now this is a record of the aliphod

way in which Mary ignores important things that need correction. My anger evaded one good thing. I was not called upon to build a new fire for weeks. I thought with a glow of relief that Mary was learning the science of heating until I discovered that she was coaxing the grocer boy into building a series of fires and permitting him to put his charges on the bill.

When next I descended the cellar stairs to build a fire I had not half on the rickety step to discourse upon Mary's potential widowhood. I crashed heavily through it and nearly made the potentiality a reality.

I struck my head and wrenched my ankle and lay there biting my lips with pain and rage. My temper is growing worse by the day.

"From the kitchen a startled scream had followed my crash.

"Oh, Peter!" cried Mary, "did you fall?"

Did I fall? Great Snakes! What a bromidic torture such phrases are! I was too mad to answer, and Mary came rushing down the stairs and narrowly escaped a tumble herself.

"Oh, Peter," she wailed, "are you dead?"

This was even less sensible, and I didn't answer. Mary halted on the bottom step and bent solicitously over me.

"Peter," she said firmly, "you're not unconscious—you're merely sulking. I'm sorry I forgot the step. Honestly I meant each day to send for the carpenter, and—and I just forgot—and—and now I'll send for the doctor."

There was surely an infernal sermon in her speech.

With the Bark on—By W. Bob Holland

The cyclone is a splendid example of misdirected energy. . . . You must settle down if you would settle up. . . . No man knows how fast he can run until he is pursued by a bigger man. . . . The roof that leaks attracts more attention than the one that keeps the rain out. . . . Foresight may be as good as hindsight, but it is never so convincing. . . . Competition may be the life of trade, but it sometimes means starvation to traders. . . . Practice does not make perfect when following an imperfect model. . . . One of the inconsistencies of human emotions is shown when a man deserts a wife in order to commit bigamy. . . . Politicians should remember that political lies which have been nailed too often will not hold water. . . . The gas jet that will not take the chill out of the room in the winter will make the apartment unbearably hot in July.

Secrets of Health and Happiness

What Hydrophobia Is; How to Treat an Attack

By Dr. LEONARD KEENE HIRSHBERG

A. B. M. A., M. D. (Johns Hopkins).

NOT every man who was mad had rabies; not every dog that fears water has hydrophobia. None the less, the bite of a dog is just as liable to originate rabies in you in the winter as it is in the summer, or in the dog days.

Many who all come to physicians and hospitals and say, "I have heart disease." Another comes and she says: "Oh, doctor, I am paralyzed." Yet another comes and speaks thus: "Doctor, I cannot swallow; I have a furious aversion to water. I have not been scratched, licked or bitten by a dog, yet I have hydrophobia."

Yet it is not so. All of these—who are ill have read or heard or thought about the distempers they insist upon having.

Often, indeed, unguarded medical men of easy dispositions fall in with and agree to the patient's personal—yet wrong—diagnosis. Thus little accretions into mighty oak fallacies grow.

Odd it is and besides that intermingled with the public conception of hydrophobia there should be a thousand and one misunderstandings and dangerous superstitions. This variety of human error is not the spice and flavor of life, but the ignorant poisoning which leads to death.

Not only clean pet dogs, but cats, rabbits, white mice, rats, cattle, horses, birds, guinea pigs and every wild animal from mankind down can inoculate the Nouguchi microbe of rabies or hydrophobia into you.

Fear is no Cause. This vicious and always fatal scourge—if not prevented by the Pasteur vaccine—cannot be caught by fear. No matter what newspaper accounts you may read to the contrary, rabies is a cough may be all right. The whooping cough microbe, which is only real when these ultra-microscopic animalcules enter your tissues by way of the bite, the blood or the saliva of a rabid creature.

Hydrophobia or the "madness" of rabies, does not drive people crazy. There is no more firmly rooted error in the popular mind than the one which makes your friends think that hydrophobia "drives people crazy."

It does nothing of the sort. Human beings with this "madness" are perfectly sane. That is until they die.

Any one bitten by a mad dog must at once have the wound burned out with nitric acid and immediately begin the Pasteur preventive vaccination.

Rabies does not develop at once. The Nouguchi microbe begins to incubate and hatch for three and more weeks.

It is during this "latent" or "germ growing" interval that the Pasteur preventive vaccine gets in its work. It forces the tissue juices to make an anti-vaccine which kills the hydrophobia virus.

Five Days Limit. The Pasteur treatment is a preventive vaccination and not a "cure" as the unbelievers in this dread plague assume. Dr. Moon of Chicago has lately cured a couple of dogs of rabies, but there never has been any human being who escaped death from this "madness."

It kills everybody once hydrophobia develops. Furthermore, it kills everybody of "alleged rabies" still suffering after five days, you may be sure it is not hydrophobia, and therefore possibly not

chinery which he did not understand and could not explain. It was probably the first attempt at a steamboat.

Guns are said to have been used by the Chinese before the beginning of the Christian era of general interest. He will not undertake to prescribe or offer advice for individual cases. Where the subject is not of general interest letters will be answered personally if a stamped and addressed envelope is enclosed. Address all inquiries to Dr. L. K. Hirshberg, care this office.

Coats of arms were first employed in England during the reign of Richard I, and became hereditary in families in the following century. They originated from the painted banners carried by knights and nobles.

Paquinades took their name from the shop of a Roman tailor named Paquin, the square in front of which maintained a celebrated statue, on the pedestal of which all sorts of squibs and lanterns were posted.

The buttons on the backs and sleeves of men's coats are reminders of the time when the coat skirts and sleeves were buttoned back when walking or driving. The flaps have disappeared; the buttons have remained.

Elly describes a boat he had seen which was propelled by wheels driven by a pot of hot water and some rags.

PLACE a union label on the actor and give him the same right for justice in his work that the bricklayers and other workers enjoy.

Do the same for actresses and save them from nervous prostration brought on by having to worry their young lives out over going in debt for dresses only to wear them a few times in some theatrical attire.

That is the system which Fola LaFollette, daughter of the senator from Wisconsin and wife of George Middleton, playwright, and ardent feminist, hopes to see put into operation through the newly formed Actors' Equity Association, in which she is a lively factor.

"The time has come when acting is a part of big business," exclaimed Mrs. LaFollette-Middleton to me, her blue eyes gleaming with enthusiasm, and her soft golden hair seeming at strange variance with the seriousness of the big progressive problem she is forever tackling.

"Every other trade has the protection of the union. Theatrical workers, with the exception of the actors, are beautifully organized. The time has come when the actor must be unionized. He is losing many liberties and much business progress by not being protected."

"Of course my sympathies are directly with the stage women and their clothes from the standpoint of dress, and they have such dreadful struggles to keep going."

"Once almost any makeshift would do. But now the actress has become the demonstrator of the newest and smartest fashions. She sets the mode. No longer can she pin some cotton flannel

rags on a piece of white cloth and call it ermine. Furs must be just as real on the stage lady as on the society woman."

"And the actress pays for all this perfection of dress. She takes the chance of the play being the success the manager is always sure it will be, and gets just the right clothes for the part she has to play. Frequently she goes in debt for them. If the play is a success this is not a serious matter. But if after five nights it closes it is different. There when the dresses with their freshness intact and the bills for them to be met, private life, and they will not be allowed in any other production in which she may be fortunate enough to find an engagement. They are declared identified with the other play, though they may not have been seen a dozen times. There is another set of new clothes to be bought."

"Let's do a bit of figuring. If the salary she receives is sufficient if one could be sure of a long season. The leading woman may receive \$200 or \$250 a week. She is sure in even the less important productions to get \$100."

"That sounds very magnificent to the girl who is struggling along on \$12, but when everything is considered it is pitifully small."

"It will take at least calculation every cent of four or five weeks' salary to pay for the gowns. But there may be no such length of life for the play. Then what?"

"It is delightful to think that the stage has reached so important a place in setting the styles for the feminine world, but it sets them at a frightful cost to the actress. Worry over finances is not conducive to Art. Justice through unionization seems to me to be the solution."

Miss Kathleen O'Connor is giving a piano recital in the Toronto College of Music, Pembroke street, on Thursday evening at 8.15 o'clock, assisted by Miss Olive Lynd Casey and Miss Maude

IRISH LEAGUERS CABLED REDMOND

Passed Resolution Denouncing Preamble of Anti-Home Rule Resolution. P. F. CRONIN'S ADDRESS

Read Documents Hitherto Unpublished Concerning Irish Question.

In an address before the Toronto branch of the United Irish League, St. Mary's Hall, yesterday, P. F. Cronin read manuscript copies of documents heretofore unpublished, showing the assistance which the government of Ireland when the Duke of Argyll, then Marquis of Lorne, was Governor-General of Canada, secured the sympathetic interest of the Canadian ministry in promoting settlement of the Irish problem.

Mr. and Mrs. Percy Parker gave a supper at the York Club on Friday night, when a large number of gentlemen were present, including Mr. and Mrs. Martin Harvey, Mr. and Mrs. O'Neill, Captain and Mrs. Pellatt, Mrs. Magann.

CHOOSE OFFICERS FOR LAKE VESSELS

Northern Navigation Company Names Capt. Foots to New Noronic.

The men who will officer the Northern Navigation Company's steamer for 1914 are announced by General Manager H. H. Gilderleeve.

The new S.S. Noronic, which goes into commission next month, has called for the promotion of Capt. R. D. Foots, who previously captained the S.S. lake figure has just earned the distinction which will be his as first officer of the flagship. The chief engineer will be Mr. S. Brishay, steward, W. T. Hunter, and H. B. Storey is purser.

Officers of the other steamers are as follows: Harmonic—Captain, A. L. Campbell; chief engineer, James Wilson; steward, Chas. Thorne; purser, J. H. Gehegan. Huronic—Captain, A. M. Wright; chief engineer, S. Burgess; steward, E. J. Kane; purser, J. McCambridge. Midland—Captain, J. D. Montgomery; chief engineer, John O'Brien; steward, David Crowe; purser, A. S. Whylock. Wauabic—Captain, G. W. Kinno; chief engineer, S. Seaty; steward, Miss E. Smith; purser, George Gillson.

"Most of our officers have grown up in the service of the company," said General Manager Gilderleeve, commenting on his latest selection. "You know it takes something else besides experience to fit a man as an officer of our line. He must have, in addition to expert knowledge, personality, a great deal of tact, must inspire confidence in the line among his men; in short, must be a natural leader, as well as a practical man.

"In addition to all these attributes, all our men must be total abstainers from all spirituous liquors. That has been a rule of our company for some years, and it is the general opinion in Sarnia, where our company makes its headquarters, that in order to be an official of the Northern Navigation Company it is necessary to be of Scotch antecedents and eat porridge for breakfast."

MEETING CALLED IN IULSTER'S CAUSE

Overseas Club So Decides as Result of Queen's Park Demonstration.

"That the Overseas Club approves and endorses in its entirety the sentiments and substance of the Queen's Park Ulster resolution, and that as the prime object of this club is to spread the British influence throughout the British Empire, we further resolve to request a meeting of representative sections of each of our loyal and patriotic associations in this city to meet with us at our hall in the Sons of England building at an early date, and jointly to emphasize our support of the Queen's Park Ulster resolution and pledge our several societies to aid by every means possible in maintaining intact the integrity of our empire."

The foregoing resolution was passed yesterday at a meeting of the Overseas Club executive committee, called especially to deal with this question by George D. White, vice-president.

A SHAKSPEAREAN TREAT.

A charming program of Shakspearean music and readings was given at St. Joseph's College on Saturday evening by the Catholic Young Women's Literary Association. Those taking part were Mrs. J. B. O'Donoghue, Misses Kate and Evelyn O'Donoghue, Miss Laidlaw, Mrs. W. N. Wilkinson and Miss Hart. The entertainment was much enjoyed by the staff, pupils of the house and friends of the college.

BAD TIMES SENT AS PUNISHMENT

Too Much Stock Gambling in Canada, Says Rev. R. N. Burns.

PUBLIC EASY PICKING

Guests at Card Parties Preyed Upon to Pay Expenses.

Bad times are sent by the Almighty as a punishment for stock gambling, according to the views Rev. R. N. Burns, D.D., expressed last night at Berkeley Street Methodist Church. "Racing and Gambling" was the topic bulletined. Dr. Burns' strictures were equally applied to the church, society, commerce and professional gamblers.

Churches which had grab-bag or lottery features of any kind at bazaars were guilty of the moral offence of instilling a gambling spirit. A glaring portrayal of Toronto society as seen by the preacher, disclosed a startling condition of affairs. He knew of a banker who sent a check for \$100 to defray the losses sustained by his daughter at a bridge party, but he accompanied the remittance with a notification that no other invitations from the recipients would be welcome.

Dr. Burns declared that some Toronto hostesses "prey on their guests" by presiding at bridge parties, but he was equally severe on the gamblers in commerce thru trade dealing in the evils of buying and selling futures.

The "black legs" who came to the Canadian tracks were reported to find Toronto public easy picking. All financial transactions which were not governed by the principle of mutual benefit to buyer and seller were fundamentally dishonest, they promoted recklessness and avarice.

NIAGARA FALLS VISITED BY DUKE

Royal Party Spent Four Hours on American Side Seeing.

Special to The Toronto World. NIAGARA FALLS, N. Y., May 10.—The Duke of Connaught, Governor-General of Canada, was a visitor to the Falls today. He spent four hours on the American side of the river. The duke was accompanied by Princess Patricia and his suite.

The royal train arrived at the Grand Trunk station on the Canadian side shortly after 10 o'clock this morning. The duke and his party spent the morning in a trip around the scenic belt line. The greater part of the afternoon was spent in an automobile trip to various points of interest on this side of the river.

The royal party spent the night on their private train. At 10 o'clock tomorrow morning the train will leave for St. Catharines. The duke will make an official visit to that city.

Important Announcements Regarding Canadian Pacific Change of Time, May 31st, 1914.

In connection with the coming change of time on the Canadian Pacific Railway effective May 31st several important announcements have been made, notable among these being the inauguration of solid de luxe trains carrying observation compartment library car and electric-lighted sleepers, together with adequate dining car service between Montreal-Toronto-Detroit-Chicago, via Canadian Pacific and Michigan Central Railroads. These palatial trains will be known as the "Canadian" and the "American," the former leaving Chicago 9.30 a.m., Detroit 4.05 p.m., Windsor 5.25 p.m., London 8.15 p.m., arriving Toronto 11.50 p.m., leaving Toronto 11.40 p.m., arriving Montreal 9.00 a.m. daily. The "American" will leave Montreal 8.45 a.m., Toronto 6.10 p.m., London 2.23 p.m., Windsor 12.20 p.m., Detroit 11.55 p.m. (central time), arriving Chicago 7.45 a.m. (C.T.). These two trains will be operated through the Michigan Central tunnel between Windsor and Detroit.

Full particulars regarding general change of time will be announced in the near future.

SPRINKLER SYSTEM PREVENTED BAD FIRE

All That Firemen Had to Do Was to Sweep Water From Building.

The efficiency of a sprinkler system in preventing the spread of fire was demonstrated on Saturday afternoon, shortly after four o'clock, in the building at 5 Jordan street. A small fire broke out in the building, which, if it had not been extinguished in its incipency, would have destroyed the entire building, which is an old structure. Forbes and Allan Keith of Keith's Limited, saw the firemen going to the building in answer to the alarm, and when they arrived at the scene a few minutes later there was nothing for the firemen to do but sweep out the water which had put out the fire. The sprinkler head above the pile of papers where the fire started had been opened by the heat, and the one sprinkler prevented the spread of the fire.

FELL DOWN STAIRS.

As a result of a fall down stairs at her home at 24 Smith street Saturday evening, Mrs. W. Ryan was conveyed to St. Michael's Hospital in the police ambulance with a fracture of the right hip.

CONSTABLE SAVED MAN FROM SELF-MURDER

Took Loaded Revolver From Joseph Grover and Sent Him to Hospital.

Arrested on Teravay street as a vagrant, Joseph Grover, no home, was found to be carrying a loaded 38 calibre revolver when searched at No. 2 police station. From Grover's actions the officer on the beat decided the man was either drunk or sick, and when he walked up a dark lane, followed him and placed him under arrest. At No. 2 station Grover was found to be so ill he could hardly stand, and the desk sergeant sent him to the hospital.

From the man's statements the police believe he intended to commit suicide on himself, but was prevented by the prompt action of the constable.

HOLY NAME SOCIETY.

St. Joseph's Church, Leslie street branch of the Holy Name Society, attending the 8 o'clock mass yesterday communion.

In the afternoon a meeting was held in the school room, presided over by Thomas Finucan was in the chair. Resolutions for the June devotionary were discussed with usual routine.

It was proposed that each member subscribe \$1 to the funds of the society. The membership is now 160.

Passenger Traffic.

NEW YORK STOCKS BUOYANT AT CLOSE

Early Weakness Due to Disquieting News Was Later Overcome.

BANKS GAINED CASH

Statement Up to Expectations—Missouri Pacific Was Under Pressure.

NEW YORK, May 9.—After a bad start today, the stock market made steady improvement. Indications favored another decline, but the market developed unexpected strength. Prices were fractionally over yesterday's close, with manifestations of real strength in a few issues, including Reading and Chesapeake and Ohio.

Traders were bearish before the opening. The market was disquieted by Mexican affairs was disquieting. Prices of American stocks in London were lower. The Missouri Pacific problem was complicated by the fact that the company's needs at this time, Yesterdays sharp decline had unsettled confidence in the underlying strength of the market.

Under these circumstances, traders expected little difficulty in bringing about a further decline. Stocks were offered freely at the opening and there was a general scaling down of quotations. With a few exceptions, however, recessions were limited to fractions. Pressure on the market failed to bring about long stock in volume. It was apparent, moreover, that a better demand existed at the lower level established yesterday, and the market soon began to swing upward. The bears ceased selling and began to cover. The improvement was slow, but it continued uninterrupted to the close.

Steel Earnings Poor. U. S. Steel's earnings for the first three months of the year reflected the continued slowness of steel trade conditions, but the decrease of \$75,000,000 was larger than had been predicted. The amount of unfilled orders on the Steel Corporation's books at the first of the month fell under the total of Dec. 31 last and was the smallest of any month since November of 1911.

Missouri Pacific broke nearly two points on sales of 3000 shares at opening today, but later recovered. The bonds reflected more definitely the failure of recent financial plans. At the day's low prices, the convertibles were two points lower and the 4s were down 3/4.

The expected gain in cash, amounting to nearly \$10,000,000, was shown in the bank statement. In view of the continued accumulation of funds here and the unusually low rates for loans of all periods, the announcement of \$10,000,000 had been engaged for Paris had little effect.

WEEK CLOSES FIRM FOR MINING SHARES

Big Dome, Hollinger, Dome Extension and Peterson Lake in Demand

The mining market was fairly active and strong on Saturday in almost every stock. Dome Lake advanced 1 1/2 points on the opening to 37 and closed around the top prices and looks as if it will go higher.

Big Dome opened at \$10 and sold up to \$10.25. New York seems to have turned buyer for this stock and it is held on good authority that a dividend will be paid at the meeting to be held this month.

Dome Extension advanced to 9c. It is rumored that the Big Dome are again making some arrangements with the Dome Ex. people for control.

Hollinger was 20 points higher at the close of the week and it is not difficult to anticipate this. Beaver was strong, selling up to 25 and closing at that figure bid. This stock seems to have turned buyer for this stock and it is ready to advance again.

Great Northern was strong, selling up to 5 1/2, and Teck-Hughes was in demand around 1 1/2. Both these stocks look as if they would advance in value.

Financing was strong at 13 3/4 bid. There are some big orders in the market for this stock, and it looks as if the buyers will have to advance in price before they are filled.

Peterson Lake was active and sold up to 2 3/4. There were about 15,000 shares wanted around 2 1/2, but there seemed to be very little stock in the market. Peterson Lake will be ex-dividend next week, 1 1/2 per cent, and it would not be surprising to see a big buying movement start in before then.

MURRAY-KAY, LIMITED HELD ANNUAL MEETING

Douglas K. Ridout Elected President, and Good Reports of Business Were Presented.

The annual meeting of the Murray-Kay, Limited, was held at the company's offices on Saturday. The report was placed before the meeting and showed the year of 1913-14, net profit of \$1,122,321.01, out of which the directors paid the regular quarterly dividends at the rate of 7 per cent per annum on the preference stock. The directors also transferred substantial amounts to reserve account for depreciation of fixtures and had and doubtful debts, and an evidence of conservative management.

The report, in addition, shows a very large reduction in liabilities. The following were elected directors for the ensuing year: Douglas K. Ridout, W. Parkyn Murray, E. Dymont, C. A. Barnard, Geo. H. Goodenham, J. W. Dryden, J. A. Murray, W. T. Bradshaw. At a subsequent meeting of the directors, Douglas K. Ridout was elected president, and W. Parkyn Murray, vice-president.

MONTEAL POWER.

Montreal Light, Heat and Power Co. earned close to 18 per cent on its \$18,000,000 outstanding common stock during the past year. A reduction in rates to customers is anticipated.

MONTEAL STOCKS RALLIED AT CLOSE

Sharp Recovery in Dominion Iron Was Outstanding Feature.

BANKS GAINED CASH

Statement Up to Expectations—Missouri Pacific Was Under Pressure.

MONTEAL, May 9.—The local list today opened lower due to weakness at London and New York, but responded to the upturn in New York. For the day the market carried the weight of cases fractional net gains for the day were shown. C.P.R. came over lower from London, but the opening here was higher than the close at 189 5/8, but 3/8 down from last sale on the day previous. It sold at 1 1/2, but recovered and closed unchanged at 1 1/2. The bid price of 189 5/8 was 1/8 up.

After opening at a new low of 22 iron sold off sharply to 21. The upturn was due to the late trading carried the price to 23 1/2, the high of the day, and the last sale at that price was 1 1/4 higher than the day before. The upturn from preferred declined to a new low of 78 for the year and lower than it sold during 1913. Steel Company of Canada common was not traded in, but closed weak, 12 bid and offered at 14 1/2. Toronto Railway opened off 1 at 14 1/2 and only improved 1/8. Richefeu was lower at 95, Lake of the Woods common 2 1/4 at 127, Detroit 1 at 13 and Brazilian 1/2 at 75 1/4. The closing quotation in local issues was higher than last sale. Canada Cement Co., pref. touched a new low of 88 1/2, but closing bid at 88 1/4 was higher by 3/4 than Friday.

Total business 2,311 shares, 978 rights, 1,650 mining and \$2,000 bonds.

Random Notes on the Mining Stocks.

Chambers-Perland is looked upon as presenting a magnificent speculative chance. It may develop into a very big mine. The minority of the shareholders are now very desirous that R. T. Shillington, M.L.A., will unite with the majority and carry out the plan from controlling the situation. Mr. Shillington is said to hold about 10,000 shares. Should he go with the majority, the minority would have two-thirds of all the shares on his side. He could have the adjourned meeting held in Toronto. He could keep Chambers-Perland among the active stocks. He could represent most fully the interests of the investing public. He will likely be appealed to by the present minority to stand by them and thus head off any further effort by Captain Jorgensen to buy everything in his own way.

Lieut.-Colonel John Carson, president of the Reserve Mining Company, who went to England some weeks ago in connection with the case pending before the privy council and judgment of the court has been rendered in favor of the company, will not sail for home until the 16th, as he has some other business to attend to before returning. Speaking of the disposition would now be made of the 221,000 shares of stock held in the treasury of the company, which was the result of the law suit, the director of the company said that it was the intention of the board to hold the stock for its original purpose, that of providing funds for the proper carrying on of the company's business, should occasion arise.

The mill ore reserves of the Beaver Consolidated mine are estimated at 1,200,000 ounces. This consists of broken ore only, no attempt being made to estimate a place.

Work at the Porcupine Crown Mine is proving up the property satisfactorily. It is probable that the next few months will see the solution of the various problems in connection with the vein. Sinking has already begun for the 800-foot level, and if the values continue to depth, this is the policy which will be pursued for some time to come. The original ore shoot, about 15,000 tons of ore is now broken down and is in the stage of being sampled. The broken down checks closely with original estimates. The mill is giving satisfaction and seems likely from extraction figures obtainable to be the most efficient cyanide plant in America. Extraction is running over 97 per cent, and frequently approaches the 98 per cent mark. Such a record is phenomenal.

Hollinger's diamond drill is reported to have brought up rich gold quartz from a depth of 2,000 feet, which gold has never been found in Canada. Dr. Malcolm MacLaren and other eminent geologists see no reason to doubt the existence of the ore. Above 500 feet to a depth of 6,000 feet or more, depends on the unbroken continuity of the igneous keowatin complex. The city of gold. It will, however, show the gold occurs at the surface, practically in that section between the Hollinger and the Dome, where the keowatin is the only formation. The Hollinger intends to continue drilling for another 1,000 feet. But the 2,000 feet already proved give assurance of a great future for the mines of Porcupine. Above 500 feet the Hollinger is estimated to yield 200,000 ounces. Equal values to 2,000 feet, which may now be regarded as reasonably certain, mean a large production for this mine alone, and there are probably a number of other properties which on development may prove equally remunerative.

HOW MONEY FLOWS INTO THIS COUNTRY

The United States, says The Wall Street Journal, has invested approximately \$400,000,000 in Canada. Of this in land, apart from lumber and mining developments.

Drain in men and money from the United States has been large. Estimated sum taken by the American into Canada when he settles there, the pean immigrant, and the \$16 of the Euro-British settler. This has totaled, in the aggregate, principally from the U. S. into western Canada, Alberta, Saskatchewan and British Columbia, a sum in cash and property amounting to possibly \$150,000,000 annually.

CROPS OF EUROPE IN POOR CONDITION

Wheat Rose at Chicago on Prospect of Briek Export Demand.

CHICAGO, May 9.—Adverse crop conditions in Europe from the Atlantic to the Black Sea, more than counter-balance today the effect of the great wheat harvest which is looked for in the United States. The market closed steady at a gain of a shade to 1-1/4 cent. Corn finished 1-1/2 to 1-3/4 cent off to 1-1/2 cent unchanged to a shade lower, and provisions virtually the same as last night.

The bulls had the advantage in wheat from the start until the last lap of the bell. Buying on the part of houses with export connections was considerable more in evidence, through than transactions in new crop shipments to arrive. There was good authority for statements that the foreign business here reached a big total notwithstanding that only 200,000 bushels was officially confirmed.

In addition to the fact that all European quotations were higher and that sharp competition was in progress for cargoes, the bull side pointed to rapidly decreasing stocks northwest and southwest. St. Louis sent word that the store there was the scantiest ever known at this time of year. There was also a few scattering reports of deterioration in a small area along the Missouri-Illinois boundary, but elsewhere the reports indicated a yield gathered by an expert as equal to all that the soil can produce.

Altho Argentina storms made corn advance a little the market afterward weakened. Country offerings here increased and larger receipts are expected soon. Planting in Illinois is being completed by the beginning of next week.

Trading in oats was purely local and the range of prices narrow. Receipts of farm produce on the street market were fairly steady. Grain, other than hay, 45 conveyances of one kind or another containing mixed produce, and fresh supplies of butter and eggs, with a light delivery of fresh dressed poultry.

Trade generally was good, with prices scattered. Country offerings here increased and larger receipts are expected soon. Planting in Illinois is being completed by the beginning of next week.

There may be reasons for this, but in any event, we will sell the stock at the best price in the market.

Now that Peterson Lake has been made a dividend payer, it is essential for holders to have the stock put in their own names if they expect to get the dividend checks. We will have this done for any holder free and return the stock without delay. Too much significance should not be paid to the fact that the stock did not sell higher yesterday. There may be reasons for this, but in any event, we will sell the stock at the best price in the market.

Bridal Stationery

FOR THE JUNE WEDDING.

Here is a most important item! The bride wants stationery. The correct styles in her invitation announcements, a-home cards, paper and envelopes for acknowledging gifts are most essential. Our new cabinet contains 50 sheets white kid finish note paper, with inside and outside envelopes to match.

The invitations may be had in the script, old English and other styles of lettering from an engraved plate, or neatly printed from type.

The finest workmanship will be employed in the execution of the order, and you will find our prices very moderate.

Make a call at the Stationery Department, on the Main Floor, and see the new samples.

What Do You Lack?

The time-honored cry of the London vendors did not imply the actual ability to supply the lack outside of the particular vendor's individual line.

Here, however, is a list that proves the readiness of the Simpson Store to supply almost every possible need of the Toronto householder and housewife.
