VOL. XXXI—No. 11,268

HIS ONLY HOPE FROM PACT THAT IT WOULD LEAD TO ANNEXATION

Frank Talk from Senator Nelson of Minnesota in U.S. Congress—Senator Heyburn Indulges in Pastime of Twisting the British Lion's Tail.

AFTER RECIPROCIITY PASSES BOTTOM TO FALL OUT OF TARIFF

(Canadian Press Despatch.) WASHINGTON, June 20.—Statements in the senate to-day by Senator Heyburn of Idaho, that "what we have taken from England has been taken at the point of the bayonet," produced the only ten-minute of to-day's short debate on the Canadian reciprocity bill. Senator Heyburn's remark, which he later explained, extended only to commercial acquisitions, was challenged by Senator Bacon of Georgia as a "grave matter" in view of the pending arbitration negotiations. "We will have more to enjoy that we have received from England than from all the rest of the world put together," said Senator Gallinger, who brought on the controversy by asking if this nation did not owe more to England in the way of reciprocity than it did to Canada, because of the free trade market, that England had always given to this country and the rest of the world. SENATOR NELSON OF MINNESOTA, DECLARED THAT HIS ONLY HOPE OF BENEFIT FROM THE CANADIAN RECIPROCIITY AGREEMENT WAS THAT IT MIGHT LEAD TO ANNEXATION OF CANADA. He met Senator Gallinger's argument that reciprocity ought to be given to Mexico and all other nations, if given to Canada, by saying that his country could not hope to annex the rest of the world. "BUT IF WE CAN ACCOMPLISH THE ANNEXATION OF CANADA, WE WILL HAVE DONE A GREAT DEAL," SAID SENATOR NELSON.

All Right Except On Reciprocity London Only Place to Hold the Conference

That is Grain Growers' Guide's Opinion of Borden's Winnipeg's Speech—Hopes He Will Learn, Like Sir Wilfrid.

WINNIPEG, June 20.—The Grain Growers' Guide will say to-morrow: "Mr. R. E. Borden, leader of the Conservative party of Canada and the man who will be premier of Canada in the event of a change of government, has begun his tour of the west. His address at Winnipeg on the evening of June 19 was the opening shot of his campaign. In that address Mr. Borden dealt with the questions that are at present agitating the west. As will be seen by the report of his address in another column, Mr. Borden stands right with the western farmers on the Hudson Bay Railway, terminal elevator and chilled meat questions. His statements upon these questions were clear and definite and any certainly gratifying to the western people. "But, satisfactory as is Mr. Borden's attitude upon these matters, his attitude upon reciprocity and the tariff in general is equally unsatisfactory. He opposes reciprocity, and he says that the great obstacles to trade will be removed. Mr. Borden should be given to understand that he cannot expect the support of the west upon his trade policy any more than can Sir Wilfrid Laurier expect the support of the west upon the government policy towards the Hudson Bay Railway, terminal elevators and chilled meat industries. "Sir Wilfrid was skeptical when he came west, but not so when he returned. So let it be with Mr. Borden. The people of the west know what they want and are willing to pay for it. Neither Borden nor Laurier are entitled to deny them their rights. The farmers should make it their duty to state to their views upon the tariff question. All emphasis should be given to this matter, as Mr. Borden is already converted upon most of the other questions. Let his education proceed. He is younger than Sir Wilfrid, yet even the premier was not too old to learn."

NO REDUCTION IN LIGHTING RATES.

KINGSTON, June 20.—(Special.)—Mayor Graham fought to have the city remove the rentals on gas and electric light meters. The council voted it down, believing that the light plant was not yet in a position to make a reduction in the rate. The leak in the intake pipe has at last been discovered by a diver, and after several months' contamination, the citizens again have the privilege of drinking pure water.

The morning paper is becoming more and more the paper of the masses. The live, up-to-date man of woman of the present day is no longer content to wait ten or twelve hours to learn of the daily happenings. The big events in sports and business rarely materialize until the afternoon or evening—then the afternoon and evening is the play time and people hurry away from their usual environment. The unexpected invariably appears in the Toronto Morning World. Have it delivered before breakfast. Any address in the city or suburb for twenty-five cents per month. Phone M. 5208.

BORDEN MEETS THE GRAIN GROWERS

Does Not Mince Matters on Reciprocity and is Heartily Cheered—Addresses Meeting at Brandon—Would Form Special Western Section of Railway Commission.

BRANDON, June 20.—(Special.)—At Brandon for the first time, Mr. Borden met the grain growers. The demands of the association were first presented by J. W. Scollion. He renewed the demands for a reduction in the tariff and for an immediate increase in the British preference to fifty per cent, with free trade with Great Britain in ten years. (Cheers from the delegates.) "We advocate," he went on amid further applause, "the widest possible measure of free trade with the United States, we record our entire disapproval of the tactics in parliament which would force a dissolution on this issue before the west is given its fair representation by redistribution." (Applause.) "After an argument to show the value of the American market, he declared that 'No nation ever refused such an offer under such conditions. We take no stock,' he said, 'in the arguments that reciprocity will lead to annexation, and the disruption of the empire.' J. S. Wood of Oakville dealt with the tariff. A repetition of the demand for 'reciprocal free trade with the United States on all natural products and on manufactures not produced in Great Britain,' again brought cheers, as did also the succeeding reference to the Canadian preference to Great Britain. "We repudiate," he went on, 'any fiscal system that would raise the price of foodstuffs in Great Britain. We repudiate also the idea that our loyalty needs any such stimulus.' Peter Wright of Melville dealt with terminal elevators and the standing demands of the grain growers in regard to government operation of the Hudson Bay Railroad, and government abattoirs for the meat trade were presented, but there was no reference to Mr. Borden's speech. Apparently they had not been received before his representations were decided on. A special memorial was read asking that reciprocity be not forced before redistribution. Mr. Borden was warmly cheered on rising to reply. Chairman Henderson expressed regret that Mr. Borden had announced his policy before hearing their representations. Mr. Borden explained that the difficulty was that he had announced his views on these issues some months ago. Mr. Borden did not hedge for a moment in regard to reciprocity. His statement met with hearty cheers. "I am absolutely opposed to the agreement," he said, "if you gentlemen of the west are prepared to make me prime minister to-morrow. If I would support it, I would not do so (cheers), and with the views I hold on this subject, I would not be fit to be prime minister. I said anything else to you." (Cheers.) "I deprecate," said Mr. Borden further, "the suggestion which was made by one man at least, that those who are in favor of this agreement are not sincere. I respect your views and give you credit for sincerity. I am not in public life for the love of it and I think I claim at least that I have been sincere." "It was suggested that we could do without protection. Well, we cannot build Hudson Bay railways and Georgian canal without money. One Ontario farmer in Ottawa last winter said the farmers would be willing to bear direct taxation."

CORNWALL HOTEL MIGHT HAVE BEEN DESTROYED

Fire Which Broke Out Over Kitchen Subdued by Prompt Action of Citizens and Brigade.

CORNWALL, June 20.—(Special.)—The King George Hotel, the handsome three-story building situated on the corner of Pitt and Second-streets, and just around the corner from the ill-fated Rosemore, which was destroyed about 14 months ago, was in danger of being destroyed about 8.30 o'clock this evening by a fire which broke out over the kitchen in the west corner of the building. The fire was first noticed by the chef, Alex. Dufresne, who was standing on the steps talking with another man, and John McDonald, an employe of Warner's livery stable. An alarm was immediately turned in and the fire occurred a few hours later. It is difficult to estimate the extent of the damage that might have been done. Eight rooms occupied by the female help were badly charred and some of the clothing of the girls was badly damaged by fire and water. Mr. Duquette, the proprietor, was at the Stanley Hotel at the time, but Mrs. Duquette and family were in town. A great many of the guests removed their effects, but as soon as all was damaged to any extent, the fire being confined to the upper portion of the kitchen.

MILITARY PROGRAM.

To-morrow the 6th Toronto Infantry Brigade, commanded by Col. Macdonald, will take part in the military review at Queen's Park. At 10.15 a.m. the brigade will march to the park north of the parliament buildings, going via Queen, Yonge and St. Joseph-sts. At 10.40 will be the trooping of the colors by the Royal Grenadiers. At 11.15 a.m. the brigade will commence and will last half an hour. The royal salute will be fired at 11.45. Honorary Member of Travel Club. His Excellency Sir Sydney Oliver, K.C.M.G., governor of Jamaica, who is at present in London attending the coronation, has written to Mr. Lewis W. Clemens, president of the Canadian Travel Club, expressing his pleasure in becoming an honorary member of that organization.

Colonel Will Now Have Lightning Rods on Gun

Insulated Gloves Will Also Deck His Hands When He Goes After the Canvas Backs—Fluid Sneaked in by the Santa Claus Route.

WHIPpany, N. J. June 20.—(Special.)—Col. Charles Williams of this place considers that he has a grudge against the elements for what he regards as a low down trick that was played upon him by an electrical storm here to-day. He says that a visitation of lightning is bad enough at any time, but when it comes in disguise, a veritable wolf in sheep's clothing, and endures the Santa Claus route, it is intolerable. When added to this it remedies with his firearms, it is worse than that, and he says that the old

POLITICAL INTELLIGENCE

WELLAND CONSERVATIVES. WELLAND, June 20.—The convention of the Conservative workers of Welland County was held at the court house here to-day, and addressed by Evan E. Fraser, M.L.A. for this county. J. Stewart Carstairs, Conservative organizer for Ontario, and Dr. Coleridge of Ingersoll.

MANY HORSES UNFIT FOR SERVICE AT CAMP

NIAGARA-ON-THE-LAKE, June 20.—(Special.)—Does the militia department allow the cavalry regiments enough money for their horses? The officers and men contend not, and the result was shown to-day when Lt.-Col. Hall, P.V.O., made his inspection of the horses. Of the 500 mounts in camp, over 40 were pronounced as unfit for service, and if other horses are not available the men will have to go back home.

SOUTH PERTH CONSERVATIVES.

MITCHELL, June 20.—Dr. Steele of Tavistock was to-day renominated by the South Perth Conservatives to contest the riding for the commons. Richard Blain, M.P., and Hon. Nelson Monteith addressed the delegates. Only one name was placed before the convention.

SOUTH HURON CONSERVATIVES.

HENSALL, June 20.—At a convention of 8 South Huron Conservatives to-day, J. J. Merneer of Zurich was nominated for the Dominion house. In all, 11 were nominated and 9 withdrew. On the first ballot Mr. Merneer was chosen over Mr. Broderick of Seaford.

EAST LAMBTON CONSERVATIVES.

WATFORD, June 20.—At the East Lambton Conservative convention to-day, Dr. J. B. Martyn of Aldeniston was chosen as the candidate for the legislature, and J. E. Armstrong, M.P., of Petrolia for the commons.

NORTH NORFOLK LIBERALS.

SIMCOE, June 20.—Col. T. R. Atkinson was chosen as Liberal candidate for the Ontario Legislature by the Liberals of North-Norfolk yesterday afternoon. Speeches were delivered by Hon. W. L. Mackenzie King and Hon. A. G. MacKay.

PORCUPINE BULLETIN.

FORCUPINE, Ont., June 20.—(Special.)—Ballast trains may reach Golden City this week. A small crowd came in last night on hand-cars; preparations are being made for the Pearl Lake railway extension; rails will be laid to point north of Dome to-morrow night.

IN ADEQUATE ROLLING STOCK.

At the board of control meeting yesterday, Controller Church called attention to the inadequate rolling stock used by railroads in and out of Toronto. "Conditions on some trains are slack," he said, "and Controller Hocken. 'There is altogether too much crowding on passenger trains.' The question was referred to the city solicitor for a report.

GORGEOUS SCENE OF IMPERIAL GRAND TOUR

King and Queen Entertain Visiting Royalties at Banquet in Buckingham Palace—Sha' speria Ball in Albert Hall Was a Magnificent Affair.

LONDON, June 20.—The most regal banquet palace of king or emperor ever witnessed and a gorgeous Shakspeare ball under the auspices of noted society leaders stand forth as shining features of the second day of coronation week. The banquet in Buckingham Palace to-night was a scene of imperial grandeur, so far as the assembly of royal and eminent personages, the setting of costly magnificence and beautiful decorations would combine to make it.

The King and Queen entertained the visiting and English royalties, all the special foreign delegations, the foreign ambassadors and ministers, the officers of state and the household, the members of the cabinet and former cabinet members, the heads of the church and judiciary and of the army and navy.

The two largest apartments in the palace, the ball room and the picture gallery which adjoin as a banquet hall. On the tables was displayed the royal gold plate, used only on special occasions, the cost of which is estimated at \$15,000. The plate is a massive piece of silver, one of the Indian wars, whose tall is studded with diamonds. Cut glass worth a fortune, ivory decanters, hundreds of years old, and old wines dating back more than a century were on the board.

The gallery holds more than 800 pictures. The decorations of both rooms are largely gilt, and this background was embellished with banks of palms and giant lilies, white orchids, roses and ferns were stacked on the tables. Yeomen of the guard ranged about the walls, and all diners wore their richest uniforms, decorations, gowns and jewels.

THE SHAKESPEARIAN BALL.

The Shakespearian ball was held in Albert Hall, which is superbly decorated. The dancers numbered thousands, while 400 boxes were occupied by the representatives of foreign nations and the most prominent British officials. As many as 25 quadrilles were danced simultaneously, the participants representing groups of characters from Shakspeare's plays. Leading actors and actresses took part in these quadrilles along with the sea-wards of the smart set. The Duke and Duchess of Connaught, Prince Louis and Princess Victoria, Battenburg, Prince Alexander of Teck, Prince Henry of Prussia and the princesses, Turkish, Russian, Australian, Japanese, Greek, Danish and American representatives were present.

Other important events of the day included luncheons to the Dominion premiers and mayors, the presentation of the Duke and Duchess of Devonshire and a review of the colonial troops by War Secretary Haldane.

At the outbreak of an appeal by the Duke of Devonshire to the "gentlemen of England" to realize at this time their responsibilities to the empire, a meeting was held to-night in Queen's Hall. Patriotic speeches were made and a message of loyalty was sent to the King. Lord Loreburn, lord high chancellor, presided.

One of the most interesting features of the Coronation is a compact by the Established and Free Churches for joint services in many cities. This is the first time that the churches have united on such a scale for any purpose.

NOTABLE CORONATION GUESTS.

Many of the most notable Coronation guests have been in London for a week or more, but during the past two days special trains have brought scores of foreign representatives to the capital. These include Crown Prince Frederick William of Germany and the Crown Princess, Prince Henry of Prussia, the Archduke Karl Franz Joseph of Austria-Hungary, the Prince and Princess Maximilian of Baden, Prince Ruprecht of Bavaria, Prince De Linge of Belgium, the Crown Prince of Bulgaria, Prince Tsai Chien of China, the Crown Prince of Denmark, Prince Mohamed Ali Pasha of Egypt, Dejazmatch Kassa of Ethiopia, the Grand Duke and Duchess of Hesse and the Prince and Princess Frederick Charles of Austria, the Grand Duke and Grand Duchess of Mecklenburg-Schwerin, the Crown Prince and Princess and Prince George of Greece, Vice-Admiral Jonquieres and Gen. de Lastours of France, the hereditary Prince of Monaco, the hereditary Prince Danilo and Princess Milica of Montenegro, Prince Henry of the Netherlands, Sid Talb Mokri of Morocco, Johannes Irgens, the Norwegian foreign minister, Yussouf Izzeddin of Persia, the Crown Prince and Crown Princess of Roumania, Grand Duke Michael Alexandrovitch of Russia, Prince Philip, Prince Leopold of Saxe-Coburg, the Prince and Princess Johann George of Saxony, Prince Alexander of Serbia, the Infante Don Fernando of Spain, the hereditary Prince Yussouf Izzeddin of Turkey, and the hereditary Princess of Saxe-Meiningen.

DANCE AT QUEEN'S ROYAL.

There will be a Coronation Dance at the Queen's Royal, Niagara-on-the-Lake to-morrow evening, June 22nd.

THE OUTING DAYS.

It is vacation time for many of us now, and there will be your turn of coming shortly. Do you know that there is a hat for every occasion and for every outing? The Dineen Company has something new in the line of caps and hats for yachting, motoring, camping, canoeing, bowling and all kinds of outdoorings. Made by the best of the world's makers in London, Paris and New York. Call and see the special display to-day.

FIRE AT EDDY WORKS.

OTTAWA, June 20.—Hull got a scare to-night when the siren of the Eddy Works blew after eleven o'clock. The industrial firework plant was on fire. Fireproof construction and the brigade of the works saved the situation, with the loss of \$2000.

EATON'S FRIDAY BARGAINS

Coronation Sale TO-DAY Men's Haberdashery 8 a.m. TO-DAY 8 a.m. AT 148 YONGE STREET. we shall hold a Coronation Sale, as we are closing at 1 p.m. on Thursday. We are going to crowd two days' business into one day's big selling to-day. That means big savings in Men's Furnishings. So come to-day and share in the extraordinary large values we are offering at such remarkably low prices that have never been offered before in this city.

Big Sale of Horses At the Repository Also Vehicles There was a big sale at the Repository yesterday. A great many horses were sold, and a very large number of vehicles. The vehicle sale is becoming almost an annual event, and yesterday it attracted a large crowd. About 50 vehicles were sold outright, and the immense sales ring was quite packed with buyers, milkedowns, phonos, dog-races, surrys, and all such, but practically all were disposed of. The prices ran anywhere from \$10 to \$125. A great many horses were sold, and among the buyers were: A. E. Graham, A. J. Lewis, Mount Goshish, bought a h.g. for \$125. A. Thompson, Toronto, purchased a h.g. for \$125. W. J. Houlihan bought a h.g. for \$125. J. A. Dennis got a h.g. for \$125. J. A. Dennis got a h.g. for \$125. J. A. Dennis got a h.g. for \$125.

And Jeff, Like A Big Boob, Waited By "Bud" Fisher. GEE, HERE'S ANOTE FROM THAT SWELL SCOTCH DANIE I MET YESTERDAY. SHE WANTS ME TO MEET HER AT THE BENCH AROUND THE OLD TREE SHE SAYS FOR ME TO CALL OUT THE SECRET SIGNAL 'HY HO!' SHE SNEAK OUT TO KNOW IT. HE'S FALLING FOR IT STRONG. SOMEHOW THE SKIRTS CAN'T RESIST ME. HY HO! HELLO, MUTT, WHAT YUH DOIN HERE? HUH? ME? OH, I JUST CAME OUT FOR A LITTLE AIR. YUH NEEDNT WAIT FOR ME. JUST FOR A LITTLE AIR. HY, HO! LIGHT JUST DAWNING ON HIM. HEY, JEFF! JUST A MINUTE. WELL, WHAT WAS THE USE OF RUNNING, HE'D HAVE GOT ME LATER ANYWAY.

ST. BASS BEATS DENHAM CAPER SAUCE IS THIRD Only Two Favorites Win on Third Day and Books Keep the Money -Results at Louisville. HAMILTON, June 20.-Fair weather and a good attendance favored the Hamilton Jockey Club for the third day. Eight races were again on the program, with the Dominion Plate for three-year-olds upwards foaled in Canada, at one and an eighth miles, as the feature of the day. App the King's Plate winner, St. Bass, turned the tables on Denham, who beat him on Saturday. Speculation was brisk on this race, with Denham heavily backed at 7 to 5. Form favorites looked for the Valley Farm gelding to repeat his good race of Saturday over St. Bass, but he found the latter a tough opponent. The field got away well to a good break, with Denham out in front setting the pace three lengths in front of St. Bass and Caper Sauce. They ran in this order to the top turn, where St. Bass moved up on even terms and after a hard drive to the stretch St. Bass drew away to win easily by three lengths. Caper Sauce ran his usual honest race and was back up at the wire. Only two favorites got the eye of the judges out of the eight races, and the layers had much the better of the day with the players. The Gibson Handicap furnished a good contest. The winner turned up in Lawton Wiggins, who repeated T. G. Butty's Saturday, when he made Novelty stretch his neck to beat him at three-quarters. In this race The Nigger, who won the Toronto Cup, was heavily backed to win, but after getting off well died away in the run home finishing in Denham, who was the favorite. The winner ran the seven-eighths in 1:21.5, only one-fifth of a second behind the track record. Harkaway took the Steeplechase from Judge Cronin and Day after a close and exciting race thru the field.

To-day's Entries Card For To-Day. HAMILTON, June 20.-The card for tomorrow is as follows: FIRST RACE-Purse, three-year-olds, six furlongs: Ind. Horse, Wt. Ind. Horse, Wt. 1 Apple Prince, 112 1 Eye Straw, 115 2 Trap Rock, 105 1 Warbler, 107 3 Paged, 119 1 Sully Night, 103 4 W. L. Lee, 110 1 Oregon, 109 5 Chertan, 107 1 Meridian, 110 6 Double Five, 119 1 Sidney R., 110 7 Arcton entry.

The World's Selections BY CENTRAL HAMILTON. FIRST RACE-Meridian, Trap Rock, M. W. Littleton. SECOND RACE-Orndram, Rose Lawrence, Sati. THIRD RACE-Woodcraft, Oakhurst, St. Cleger. FOURTH RACE-Waterway, Parr entry, Steve Lane. FIFTH RACE-Zeus, Aylmer, Cliff Edg. SIXTH RACE-Plamma, Florida's Beauty, Leoble Lady. SEVENTH RACE-Lady Sybil, Manheim, Thomey K. EIGHTH RACE-Third Rail, Merman, Supervisor.

Princess Calloway Wins King's Daughter Left, But Came Strong and Finished Third. LATONIA, N.Y., June 20.-One of the best week day crowds of the meeting was at Latonia and enjoyed some excellent sport today. Princess Calloway annexed the fourth race, a mile affair, by a length. King's Daughter got off in her position and came strong in the stretch, but could not get far enough up to get better than third. Summary: FIRST RACE-2-year-olds, selling, 5 furlongs: 1. Merode, 111 (Taplin), straight \$5, place \$2.50, show \$1.50. 2. Lady McGee, 108 (Rice), place \$5.50, show \$3.50. 3. Nancy Grater, 108 (Mountain), show \$2.50. Time 1:01 3/8. Lucky Wish, Dixie Hart, Sable Shampoo, Mandi Zane, Fendant, Fanchette, Doble, and Limousine also ran. HENRIETTA W. left at post.

WORKS COMMITTEE WAS INUNDATED WITH PLANS

New and Poetically Named Subdivisions of City Lots—Department Has Big Pay Roll.

HAMILTON, June 20.—(Special.)—Several real estate promoters appeared before the board of works to-night and nearly inundated the body with plans and surveys of new and poetically named subdivisions of city lots...

Deputations appearing before this board have been rather numerous late, and those present to-night consumed more than an hour in their appeal...

Suffered Greatly From Heart Trouble.

NERVES WERE VERY WEAK.

Mrs. John Farrell, Rose Hill, P.E.I. writes:—It is with the greatest pleasure I write you stating the benefit I have received by using Milburn's Heart and Nerve Pills.

"About five years ago I suffered greatly from heart trouble, and my nerves were very weak. After seeing several doctors and using their medicine, I got no relief until a friend told me of your Heart and Nerve Pills. I took two boxes and they effected a complete cure. I can recommend them highly to all nervous and run-down women."

"I have advised many others to try them and they have all been cured to the proper action of the nerves, so important to the well-being of the heart, depends entirely upon the general condition of the nervous system. If there be nerve derangement of any kind, it is bound to produce heart derangement."

In Milburn's Heart and Nerve Pills is combined a treatment that will cure all forms of nervous disorders, as well as act on the heart itself, and in this is the secret of their success in curing so many cases of heart and nerve trouble.

Milburn's Heart and Nerve Pills are 50c per box, or 3 for \$1.25, at all druggists, or direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

THE WEATHER

METEOROLOGICAL OFFICE, Toronto, June 20.—8 p.m.—The weather to-day has been showery in the Maritime Provinces and Manitoba, and fine in other parts of the Dominion. The temperature continues high in Manitoba, but farther west, and also from Ontario eastward, it has been somewhat lower than yesterday.

Funeral Wednesday, at 2 p.m. Interment at St. John's Cemetery, Norway.

IN MEMORIAM.

BEAMISH—Mrs. Henry Beamish died June 21, 1908. "Mother has gone but not forgotten."

County Council Finishes.

The county councillors this afternoon finished their matters for the nonce and adjourned until called together again by the warden. The assessment equalization question was disposed of by passing a by-law to increase the assessment sufficiently to raise an odd \$67,000, at the 4 mil. rate. Any township, town or village will have the right to appeal against the by-law.

This right may be exercised by Assessors, who are representative of the taxpayers. Guest declared that the \$70 per acre, at which property in that township would be assessed under the new arrangements, is too high. The county fathers sat tight to-day on their last week's decision to buy no more uniforms for the county police force until Constable Bolton's services shall have been dispensed with. Bolton is the man who tried to have the councillors incarcerated in the common goal in the famous house of refuge case.

The board of control this morning received a letter from Martin Malone, barrister, threatening to bring action against the city to compel it to furnish an adequate water service to mountain residents. Another engineer of the east end dumping plant was put to work last night, and the residents of the dissected sections have been assured that they will have plenty of water in future.

Frank Howarth was honorably acquitted by Judge Monk this morning in the criminal court on a charge of perjury. Howarth made an affidavit in another case in which his employer, the International Harvester Co., were interested, in which he swore that on a certain date one Dominic was in the city hospital. It was afterwards discovered that Dominic had been discharged previous to the date given in Howarth's affidavit and the charge of perjury was in consequence laid against him.

Hotel Hanrahan, corner Barton and Catharine-streets, Hamilton, conveniently situated and easily reached from all parts of the city. Engaged in 1908. Modern and strictly first-class American plan. Rates \$1.50 to \$2.00 per day. Thos. Hanrahan, proprietor. Phone 1485.

BORDEN MEETS THE GRAIN GROWERS

Continued From Page 1.

enthusiasm for free trade and the same vigorous denunciation of protection that marked his utterances in 1894. After about ten days of consideration he spoke on the 20th of July to the expectant west in these terms:

"If I had my own way I would have a free British tariff."

"The progress towards his ideal of 1894 is extremely gradual. Having been almost a dictator in this country for fifteen years he still looks forward to the day when he can grant what he promised in 1894."

"A free British tariff is a fine phrase. It suggests to the listener a full and overflowing treasury to which no citizen is called upon to contribute. It might be well to remember that a free British tariff would involve several interesting and important incidents of taxation."

"For example, section one of the British Finance Act of 1910 levies a duty of 20 per cent. of the increased value of what is termed the increment value of land. Tea comes into Canada duty free. Last year the people of Great Britain paid thirty million dollars in taxes on tea. The people of Great Britain last year paid more than \$100,000,000 in income taxes. There are taxes on dwelling houses, carriages, horses, guns, motor cars and many other articles."

"In my judgment the fiscal policy of a free trade nation should be one that advocates free trade without realizing that a large public revenue is a necessity in Canada. We cannot build a national transcontinental and Hudson Bay railways or construct Georgian Bay canals and other great public undertakings without taxation."

"In my judgment the fiscal policy of Canada should be based on a fair and businesslike consideration of ascertained facts. For this purpose a permanent committee of strong and representative men should be created and the advice and report of that commission after due inquiry and investigation should be available to any government which for the time being might hold the reins of power. The power of trusts and combines should be guarded against and checked and justice should be done to the consumer as well as to the producer. The Liberal-Conservative party when it assumes power will establish such a commission."

Mr. Borden then repeated his planks in his Winnipeg speech, in reference to the Hudson Bay Railway, terminal elevators, provincial control of national resources, etc., and continued:

"I am absolutely opposed to the reciprocity compact now pending before parliament."

"We are told that Canada wanted it forty years ago. That is perfectly true, but we are dealing with conditions in 1911 and not conditions in 1867. Because we sought reciprocity in 1867 must we therefore clutch at it to-day? It would be equally reasonable to say that the United States must desist in 1867, should reject it in 1911."

"A great American journal recently made the pregnant declaration that this agreement is well timed to strengthen the American hold upon the

rich fruits of the progress of the Dominion. That reason does not appeal to me, altho it may appeal to the government. The prime minister declares that we must have the example of China, that we must not stand still. We are not standing still, but we are making wonderful progress along a wider and certain path, which we have found for ourselves and the destination of which we know and realize. Why leave that path to traverse a wilderness and avoid the dangers and pitfalls of which no man can foretell.

The Cry of Wider Markets. "But we have the cry of wider markets. Are the markets of the United States wider than those of the Empire? What is the special advantage of reciprocity with a country which produces a surplus of nearly every commodity that we produce in Canada, and which competes with us in every market in the world? Great Britain is Canada's best customer to-day, and the United States is Canada's nearest competitor both at home and abroad."

"Why should the Canadian wheat crop be sent to the United States for manufacture into flour? This would be one of the prices for Canada to pay under the proposed agreement. What further price must we pay? The admission to our markets of the farmers of Argentina, Austria-Hungary, Bolivia, Colombia, Denmark, Japan, Norway, Russia, Spain, Sweden, Switzerland and Venezuela. Many of these countries are large exporters of animals and agricultural products which are produced in this country. Under the proposed treaty these 12 countries are entitled to receive, and will receive, the same right of entry to our market which is conceded to the farmers of the United States. But these 12 countries concede nothing to us in return. These 12 countries have a combined population of 308,000,000, and their combined agricultural production of nearly 1,200,000,000 bushels of wheat."

"It must be borne in mind that the American meat trust, with invested capital of nearly \$300,000,000, does not by any means confine its operations to the United States. It has recently become apparent that this great trust proposes to extend its operations to the great producing countries of the world, viz.: Australia, New Zealand and Argentina. The Australian Government determined to act aggressively and without delay."

The New Zealand Government is preparing to adopt the same course. In Argentina conditions are otherwise, and it is apparent that control of the meat trade of Argentina has already passed into the hands of this all-powerful trust. Is there any reason why the animal industry should not have a great future in western Canada with proper assistance, encouragement and protection?"

Foreign Trusts Harder to Curb. "Canada can certainly supply the British market with a large proportion of the animal products now imported from other countries. Is there any reason why this should not be accepted under the direction, control, management and ownership of Canadians? We can deal with our own trusts by appropriate legislation. It is more difficult to deal with those which have their headquarters and base of operations in foreign countries."

"In 1875 the government of this country imposed a duty on meats imported into Canada. The duty did not prove to be sufficient and deputation after deputation came to the government asking for an increase. In the meantime the great American meat trust was sending huge supplies of fresh meat into Canada, refrigerated cars from all the great firms which compose that trust, were daily entering this country and butcher stalls for the sale of Canadian refrigerated cars in all our cities and towns. The duty was increased and with what result?"

"Inside of two years, the refrigerator cars and the beef stalls had almost completely ceased. The production of meat increased by leaps and bounds in the United States, and the packing house products, etc., jumped from \$5,000,000 in 1885, to more than \$17,000,000 in 1903."

"President Taft speaks of this agreement as commercial imperialism. The view which he thus expresses is characterized by his accustomed foresight and shrewdness. The real issue which now presents itself is a British connection versus American dominance. The appeal is made strongly and insistently to the national desire for supposed im-

AT DEATH'S DOOR FROM KIDNEY DISEASE

SAVED ONLY BY "FRUIT-A-TIVES"

CLANBRASSIE, Ont.—"Two years ago, the doctor made forty-four calls on me and then said he had done all he could for me. I was suffering with intense Kidney Trouble and Inflammation had set in. Two other doctors were consulted and agreed that nothing could be done to help me."

"On the recommendation of a neighbor, I took 'Fruit-a-tives' and they cured me. To-day, I take 'Fruit-a-tives' as my only medicine. I am in excellent health and 'Fruit-a-tives' is the medicine that cured me after I had been at death's door for months. I am glad to be able to give you this testimonial. It may benefit some other woman suffering as I suffered, as I believe that I would not be alive to-day had I not used 'Fruit-a-tives.'"

Mrs. P. E. WEBBER. "Fruit-a-tives"—by its marvelous action on the kidneys—completely restores these vital organs to their normal strength and vigor—and cures every trace of kidney trouble. 'Fruit-a-tives' is the only medicine in the world made of fruit. 50c a box, 6 for \$2.50, trial size, 25c. At dealers, or from Fruit-a-tives, Limited, Ottawa.

mediate gain. But it has well been said that a nation cannot live by bread alone.

"One startling feature of the situation is the strong desire and apparent determination of the government to force this measure upon the country without giving the people an opportunity to promote upon the issue. Let us preserve our financial freedom and the control of our own destinies. If our tariff needs revision, let our parliament deal with it in the light of actual conditions and ascertainable facts. So far as we need to look abroad, let us look to London instead of Washington. The great Britain gave to us the market which the United States denied. Shall we reward her by seeking a market granted to us under conditions which shall be excluded? The prime minister only declared that he preferred the American dollar to the British shilling. It is clear that he now prefers an American to a British sovereign. And once more he may plead for time to finish his work. Canada's choice will be otherwise, whether permitted to speak; and work that is mischievous and destructive should remain forever unfinished."

"Hugh John" Joins the Party. The Conservative leader to-day made his first venture into the rural parts of the west. Winnipeg gave him a hearty reception. That was rather as was expected. But the question was, would the country do likewise?"

Mr. Borden left Winnipeg at 8.30 this morning and ran up to Carberry before noon. His party now has an additional strength, which will be otherwise, whether permitted to speak; and work that is mischievous and destructive should remain forever unfinished."

The reception accorded Mr. Borden at Carberry to-day was not of the organized variety. When his train arrived there were only a half dozen people at the depot, and from his stay there was no sign of organized applause. The people received him quietly and listened carefully to his arguments, but cheered little. They did, however, give him a hearty personal reception, and before the meeting was over Arthur Meighen, the M.P. for the riding, drew repeated cheers from criticism of the reciprocity agreement.

There were about 200 people in the hall, when Andrew Broder, the first speaker, rose. It was Mr. Broder's first speech on the tour. He argued strongly against the pact on national grounds. He scored a distinct success by his declaration that the government would not break up the cement merger, because of the personality of the directorate.

"Grits," called out a man in the audience, and there was much laughter. Section for Railway Commission. Mr. Borden's speech contained one new announcement, a declaration in favor of the establishment of a separate section of the railway commission for the west with a western representative on it. He discussed reciprocity briefly only. His declaration that the agreement should be submitted to the people was loudly applauded.

Mr. Meighen made the fighting speech of the afternoon. He went in detail into the question of reciprocity, accused the Liberals of preaching protection in the east and free trade in the west. He renewed his demand for a referendum on agricultural experiments and was cheered freely when he declared that the Conservatives if placed in office, would reduce the tariff to the point where it was needed to preserve Canadian industries. He was also loudly cheered when he said he favored any reduction which would be in the interests of the farmers.

He made the hit of the afternoon with his argument on barley. He declared that the price quoted for barley was for a picked sample sent over from Canada.

J. Moncrieff, of Winnipeg, from the audience, "I gave that statement, the barley was not sent over there. It was brought here and traded by the government inspector. The difference in price was 40 cents." (Cheers.) "I will tell Mr. Moncrieff how to make a fortune, then," retorted Mr. Meighen. "Let him put \$2,000 into a ten per cent margin on that barley if it is the same barley as ours, but it is not the same barley."

Nearly everybody cheered the argument of Mr. Meighen who drew hearty cheers in closing by an appeal to imperial sentiment.

SMALL FARMS AND INTENSIVE CULTIVATION

The Intensive Cultivation of small farms is of great importance to a growing and already congested city, like Toronto. The crowding of non-producers into the cities, where many must live in unhealthy surroundings, and the increased cost of living is a serious social problem.

The remedy is the Five and Ten Acre Farm or Market Garden.

This Little Farm

must be devoted to the raising of little things that bring big prices; crops with which any man can make a small farm as profitable with his own labor as he could make one of many more acres.

Five or Ten Acres

and understanding it, and caring for it, nursing it as you would a child—independence is attained. The old, weary days of clerkship and salary are at an end.

In fancy, see yourself On Your Own Little Farm

forty-five minutes from this big city, compare it with your own lot, 25 x 50 feet, and a tenement to live in—sick children, sickly wife, no pleasure in life, and nothing to look forward to.

Buok Up. Be a Man.

Throw off the yoke. See Mr. Hayes at once: do not delay; make up your mind that

Now is the Day

and hour to see. BROOKSIDE

Brookside is situated on Yonge St.; cars stop at your door. Forty-five minutes from the city. Here you can buy

Four and a Half Acres for \$900.00.

Three hundred cash puts you in possession, the balance spread over five years.

We are ready to show you Brookside any day. Try and arrange with us for Thursday next, the 22nd of June. You will have cause to remember the Coronation

Of His Gracious Majesty George V.

if you celebrate the day by buying your

Future Independence

and the health and happiness of your wife and little ones.

West Toronto North Toronto East Toronto

BIG GRIST OF COUNTY AND SUBURBAN NEWS

North Toronto Council Meets—Great Courage of Markham Lady—News Notes of Interest.

NORTH TORONTO, June 20.—(Special.)—The town council met to-night, all the members being present.

An order received from the police magistrate, Chas. E. Higgins of Beamsville, stating that he had committed E. Reynolds, a lad of 11 years to the Industrial Home for theft.

Mayor Brown stated that the board of control at the morning meeting had unanimously favored the principle of annexation and the town officials will report on the matter.

WEST TORONTO.

WEST TORONTO, June 20.—(Special.)—We find that the late James Banks came to his death accidentally by means of an electric shock received on the morning of Friday, June 16.

All stores in West Toronto will close for Coronation Day. In view of this, the merchants, instead of closing tomorrow (Wednesday) afternoon, will remain open both in the afternoon and evening.

Everybody is Glad Now That Work Went Thru.

AGINCOURT.

AGINCOURT, June 20.—(Special.)—The deceased lady, Mrs. Henderson, found by Mr. and Mrs. T. A. Paterson on Sunday evening a short distance from Ellison's and Jean Nelson.

Surmises have been issued against three Scarborough farmers, John Feeney, James Fitzgibbon and Jean Nelson, charging them with contravening the orders of the Scarborough Board of Health.

LEMONADE READY MADE

Dalton's Concentrated Lemonade is all ready for the ice and water. It's a pure lemon product, sweetened with the delicious flavor of the fresh, ripe fruit. It contains no other acid.

Beware of the Imitator—Insist on Dalton's

ITCHING SCALP FALLING HAIR

To prevent dry, thin and falling hair, remove dandruff, allay itching and irritation of the scalp, and promote the growth and beauty of the hair, frequent shampoos with Cuticura Soap, assisted by occasional dressings with Cuticura Ointment have been equally effective in the treatment of itching, disfiguring scalp dandruff, and the alarming loss of hair which so often results.

My disease started with a little itching on my head. Then I began to itch. The more I scratched, the worse it grew until it spread all over my head. So I shaved my head and shaved my head as far as a piece of beef and my head commenced to fall out in bunches.

Will Welcome Visitors.

DOVERCOURT.

The 800 people who attended the annual excursion of Davenport-road Church (Presbyterian) to Rosebank last Saturday enjoyed themselves immensely swimming, boating and engaging in athletic sports.

YORK TOWNSHIP COUNCIL.

At Monday's meeting of the York Township Council, with Rev. Watson presiding and all the members present, W. F. Maclean, M.P., made a strong plea for the improvement of the Donkey Mills-road, as well as the Lawrence side-road.

ST. PAUL'S GARDEN PARTY.

The annual garden party in connection with St. Paul's Anglican Church, L'Amoreux, will this year be held at the home of Mr. and Mrs. Thos. St. Paul, a mile and a quarter north of Agincourt.

YORK MILLS.

A Coronation service will be held in St. John's Church, York Mills, on Monday, June 22, at 10 a.m. The Annual Parish Festival will take place on Saturday, June 24, in Mr. G. Balfour's field opposite Stop 21 on Toronto and York Junction Railroads.

KINGDON-CAMERON.

On June 14 at "The Willows," Etobicoke, the residence of Mr. and Mrs. Colin Cameron, the marriage of their second daughter, Miss Bertha, to Mr. William J. Kingdon, eldest son of Jas. Kingdon, Thistleton, took place in the lawn, which was prettily decorated with ferns and marigolds.

Improved Grand Trunk Summer Service, Effective June 24.

3:15 a.m. Penetang-Huntsville Express (daily except Sunday) will not to Huntsville, making direct connection with steamer "Waubesa" for Honey Harbour Point, Parry Sound and intermediate points.

MRS. TORRINGTON

Electing President of the National Council of Women.

ATLAS NEEDED TO PROCEED PERJURY

Application For Full Pardon Will Be Made—Judge Riddell Pleased With Verdict.

When at three o'clock yesterday afternoon, after something less than an hour's deliberation, the jury of the criminal assizes brought in a verdict of not guilty in the now celebrated Atlas case, there was the making of a demonstration in court.

Address of counsel and the judge's charge were completed by noon and the jury was then sent to luncheon.

STORM IN A CUP

Controllers Resent Dr. Hastings' Action Re Public Drinking Cups.

The public drinking cup was the subject of a somewhat lively bit of discussion at the board of control meeting yesterday, and quite a storm brewed therein for a while.

Acting-Mayor Spence read a letter from the property commissioner containing notification that to-day all common drinking vessels would be removed from the City Hall and that each person wishing therein must provide a private drinking utensil.

"I doubt the authority of the property commissioner to issue this order or the authority of the medical health officer to instruct him to do so," said Controller Spence.

Dr. Hastings was asked for an explanation.

"I was instructed by the city solicitor that I should notify the officials responsible for conditions in the various departments," said he. "I notified the board of education and the property commissioner."

"You'd better get the city solicitor's advice put in writing," said the acting mayor. "We hold ourselves the responsible parties here. All orders should come thru this board. Run up and we'll run the city hall."

The medical health officer will have another conference with the city solicitor before taking another fall out of the ubiquitous common drinking cup.

WILL ERECT SKYSCRAPER

Ten-Storey Building for East Adelaide street.

The properties from 42 to 52 on the north-east side of Adelaide street have been sold to Hon. J. H. Phippen, K.C., and Noel Marshall. The price mentioned is \$1,000 per foot, making a total of \$80,000, the property having a frontage of 80 feet.

The property is situated immediately east of the post office, extending easterly to a lane which runs from Adelaide to Lombard street.

A handsome modern office building ten stories high, will be erected on the site, the area of which is somewhat greater than that of the Lumsden building.

The assessment on Nos. 42 to 52 is set at \$19,275.

More Restaurants Fined.

For selling on Sunday, two blocks of the cream, which were carried from the premises, H. R. Webb, a Lake Shore-road restaurant keeper, paid \$5 and costs in police court yesterday morning. Emil Boker, who also keeps a restaurant in the Lake Shore-road, paid a like amount for selling cigars.

One Mail Delivery To-Morrow.

There will only be one delivery in the morning, on Coronation Day. The lobby of the general post office will be open for business from 7 to 11 a.m. and from 5 to 7 p.m.

Loyal Prisoners.

KINGSTON, Ont., June 20.—(Special.)—The penitentiary prisoners are asking for a special coronation dinner, but so far no special orders have been received from Ottawa.

Trustees Will Resign.

STREET CARS KILLED TWELVE.

According to returns issued by the Ontario Railway and Municipal Board, 12 persons were killed and 720 injured by street cars in Toronto in 1910. The report says that 112 persons were injured from "causes beyond their own control." The others "from their own carelessness. The deaths on all the electric roads numbered 24.

Muskoka Lakes

The best accommodation at reduced rates at all hotels during June and July. Your choice of over 100 stopping places. Get hot and time-tables from Muskoka Navigation Co., Gravenhurst, Ont.

ARE YOU GOING TO EUROPE

The best and most convenient way to carry your money is in "TRAVELERS' CHEQUES."
For sale with A. F. WEBSTER & CO., N. E. corner King and Yonge Streets, Toronto.

Request Program.

If there is any particular piece of music you would like to hear played by the Sixty-fifth Regimental Band at Scarborough Beach on Friday night, mention its name on a postcard to Bandmaster Powell at the park. As far as possible, he will meet all requests.

Some Sniffs and Many Kicks.

People living near St. Clair-avenue and Keele-street are complaining to the health department about the additions to the atmosphere in their neighborhood. Every evening between 8 and 12 of the clock an odor that rises to heaven and spreads itself over a broad area becomes patent, a little patent for the average nostril. So the residents in the locality sniff—and kick. They allege that the D. B. Martin Co. are the offenders and ask an investigation. It will be granted.

Toronto

Car Line on Ossington-Avenue.

The city engineer explains that the short car track extension on Ossington-avenue, north of Bloor-street, was permitted by the city so that the street railway would have some means of getting its cars should a blockade occur on Bloor-west. It is also anticipated that some time a car will be run up Ossington-avenue.

Big Increases.

According to the assessment returns Ward Five shows a population increase of 5,000 over last year and a property increase of \$2,500,000. Wards Five, Six and Seven show a total increase in population over 1910 of approximately 17,444.

Last Regular Meeting.
At the city council meeting on Friday adjournment will probably be taken for the summer vacation. This means that regular meetings will be dispensed with and that council will only be called together as "business" makes meetings necessary.

AS USUAL - G. T. R. LEADS IN SUMMER TOURIST SERVICE.
Charming Muskoka, Beautiful Lake of Bays, Picturesque Georgian Bay, Scenic Algonquin Park, Maganetawan and French Rivers, Peerless Temagami.

Service in Effect June 24, From Toronto.

MUSKOKA LAKES
By all means the favorite way is the pioneer route along shore of Lake Simcoe and Lake Couchiching and across the Severn to Muskoka Wharf, the starting point of the Muskoka Lakes steamer. Do not miss the beautiful sail up Muskoka Lakes to Beausart, and Indian River to Port Carling, thence to Lake Rousseau and Lake Joseph. Handsome coaches, buffet and cafe cars. (Night train sleeper open at 9.30 p.m.)

2.15 A. M. (DAILY).
12.20 P. M. (Daily, except Sunday).

LAKE OF BAYS
Owing to the ever-increasing popularity of the Lake of Bays Region as a summer resort it has been decided to increase the train service, making it truly convenient for Toronto people to visit these delightful lakes. Night trains carry through Pullman sleepers. Day trains carry Parlor-Library-Cafe and Buffet cars.

2.15 A. M. (DAILY).
12.20 P. M. (Daily, except Sunday).

GEORGIAN BAY
New solid train, parlor car and coaches, to Penetang Wharf, where steamer Waubic takes you to Honey Harbor, Go Home Bay, Minnecock, San Souci, Rose Point, Parry Sound, one of the most charming trips in America.

Dome Extension Touches 800 Other Porcupines Weaker

Porcupine Gold Camp

Dome Extension the Bright Spot In a Rather Depressed Market

General List Inclined to Waver and Prices Go Some Lower—Cobalts Quiet—Slump in Rochester.

World Office, Tuesday Evening, June 20.

There was a continuation of the profit-taking movement in the local mining exchanges to-day, and under this pressure prices recorded still further declines in a number of instances, inside interests being apparently loth to support the market until some of the selling had been cleared up.

Dome Extension was the bright spot again, these shares continuing their advance, and this time moving up to an advance of five points from the previous high level. The stock was in scant supply at the opening, and traders found difficulty in getting their orders filled except by raising their bids in short order.

Foley-O'Brien was another feature, but in this instance the price showed signs of wavering at certain intervals. The stock at no time reached the high point touched yesterday, and at one period sold as low as \$1.30, closing seven points above that quotation. Supporting orders made their appearance late in the day.

The big Porcupines were easier, with lower prices in Hollinger and Rea. Hollinger was evidently suffering from a profit-taking disposition, for the stock closed at \$15.00 bid, with stock offering at \$15.20, which was also the low price for the day. This was 70 points below yesterday's bottom sale, but the market was left much to its own devices and it was apparent that the stocks which came out in the late advance had not been thoroughly assimilated. A period of waiting and quiet absorption will not come at all amiss at this time, and should do not a little to put the market in a strong technical position.

Cobalts were weak, with this tendency especially marked in Temiskaming and Rochester. The former issue dropped to \$5.12, a loss of a point from the opening sale. The only reason that can be assigned for the action of the shares is that holders are selling out and getting into foreign securities.

Rochester was off two points to 21-2, and no reason was forthcoming to explain the slump.

La Rose Dividend At Same Old Rate

Surplus of \$1,250,000, But Directors Are Still Conservative—Regular Dividend on Nip.

NEW YORK, June 20.—Altho the La Rose Mining Co. has a surplus of over \$1,250,000, the directors today decided not to raise the dividend. The sum of \$150,000 will be paid out of the regular quarterly two per cent. dividend, but no more for the present. The dividend is payable July 20. This decision was not reached without a protracted and at times a stormy discussion. Many of the directors favored an increase in the distribution of the company's earnings, but President McGilbon opposed it.

The Nipissing Company declared the regular quarterly five per cent. dividend, and an extra dividend of 1-1/2 per cent., as usual, payable July 20. The surplus on hand at present was stated to be about \$1,400,000, consisting of cash, ore at the mines, and at the smelters, and in transit.

Shaft Down 87 Feet On Standard Property

Cross-Cutting and Drifting to Intercept the Vein Struck—Work Goes Along Merrily

PORCUPINE CITY, June 14.—(From Our Man Up North.)—The shaft at the Standard Mines is down 87 feet in the porphyry ridge that runs thru the south portion of the claim, and cross-cutting to intercept the vein which the ridge as well as drifting along in the quartz has started.

Recent fires that swept thru that section have the mine management a severe case, but the only harm done was the burning of timber along the edge of the cleared spot where the mine buildings stand. The burning is such that future danger from fires is practically impossible.

On account of the inconvenience in getting water for drill work, the diamond drilling along the ridge has been postponed till some future date, and the drill is now working on the Preston East Dome.

Manager Silver, who left yesterday for Montreal, said: "Work is progressing handsomely. We are everything now running smoothly and expect to have the drift along the vein with all possible haste."

Chas. Fox.

AT 200-FOOT DEPTH

Underground Work at Rea Mine Progresses Satisfactorily.

Eventual information from the Rea mine is highly favorable. The company is now working nearly fifty men, and it is expected that as many more will be shortly taken on to surface work as the company's large claim.

Underground work is going on at the 200-foot level, drifts being run east and west on road levels, equal to any other level in the mine. There are drills working at present, but the plant is sufficient to operate about thirty.

The company's second shaft is down 80 feet, and the same vein on which the 200 feet shaft is sunk and which will be further put down to 500 feet.

REVIVAL OF INTEREST IN STURGEON LAKE GOLD

Grand Trunk Pacific Ushers in New Era For Gold Mining in Northern Ontario.

The discovery of the Porcupine gold fields has greatly revived the interest in the older goldfields of Northern Ontario. Some are located about Sturgeon Lake, north of Fort William; others about the River and Lake of the Woods district. But something else has also occurred to stimulate interest in these older fields, and especially in the case of Sturgeon Lake goldfields; namely, the recent installation of a railway service to the Lake Superior Branch of the Grand Trunk Pacific. This latter fact has taken the Toronto stock market by surprise. A similar policy is being pursued by other lines in the region to other old mines in the Sturgeon Lake and Rainy River.

Some time ago The World published a lot of information about the Sturgeon Lake fields. We are indebted to The Canadian Mining Journal for further information, which we reprint below. It shows that gold mining will be again an active feature of the country about Lake Superior. It is interesting reading to those who are watching gold mining in Canada.

From The Canadian Mining Journal for June:

Editor's Note.—The following article was written at the request of The Journal. It is based upon the private report compiled by Mr. J. C. Houston. The present owners of the St. Anthony Mine are floating a new company, which cannot, of course, assume responsibility for the accuracy of the samples and assays, we are satisfied that they have been done honestly and carefully.

The building of the new transcontinental railroad thru Northern Ontario and particularly thru that section of Ontario north and west of Fort Arthur, known as Sturgeon Lake district, has made readily accessible and brought into some prominence the gold bearing areas of that locality. On account of the inaccessibility of the district little development work has been done in the past on the numerous prospects staked in the Sturgeon Lake, Sturgeon Lake and Rainy River gold-bearing quartz of almost incredible richness have been brought into the hands of the public. The lake is now reached in the winter by one of the hundred miles of lake and river navigation and then by the Canadian Pacific Railway from Ignace.

Where Sturgeon Lake Is.

To those who are familiar with the location of this gold field it may be well to explain that the route from the east, by the St. Anthony mine, is about 100 miles west of Toronto, and about four hundred miles east of Winnipeg. From Fort William a branch of the Grand Trunk Pacific is now open for traffic as far west as Superior Junction, one hundred and eighty miles from Toronto. The Transcontinental Railroad line of the Grand Trunk Pacific is now being built east from that point, and it is inside the angle formed by the junction of the two lines that the Sturgeon Lake gold district is situated, practically forms the third side of a triangle. The Transcontinental reaches within three and one-half miles of the main line of the G. T. P., while the south end, or the foot of the lake, is within six miles of the Port Arthur branch of the G. T. P.

As many of the supplies for the building of this section of the Transcontinental Railroad east of Superior Junction were brought over the lake, the contractors found it advantageous to connect the foot of the lake with the railroad by a short spur. When they established a boat service on the lake so that there is now a continuous water and rail connection with the outside world. In the old days freight was taken by canoe from the shore to a landing place, often at a cost of \$200 a ton; but now it may be billed thru from any point and at most reasonable rates. The contractors are now building line and boats to the advantage of the mining people in the district. Once the main line of the Transcontinental is in operation, facilities for getting in freight will be even better and the rates lower. Since nearly all the properties now being developed in the Sturgeon Lake district are either on islands in the lake itself, or on the shore, and since summer passenger landings passengers can be brought on the docks of all of these, it will eliminate much of the hardship and expense of other days, and rapid development of the more valuable properties is sure to follow.

Porcupine Gold Spot

We predict that Porcupine Gold Spot will show a five or ten cent profit inside of 30 days, and we recommend strongly the purchase of this 10 cent Porcupine issue, traded in on the Dominion Stock Exchange.

Gold Spot owns its properties in the name of a trust, and is well located, and a crew of men are working on them, in charge of a competent engineer.

The company is organized under Ontario laws for \$1,000,000, par value \$1, with a good treasury reserve.

Buy stocks of Ontario organized companies, and companies FREE FROM DEBT. No further payments to be made on their properties. (The latter is most important.)

For particulars on Gold Spot or any of the big or little Porcupine issues, and for latest map and prospect, write to:

Security Company, Ltd. Members Dominion Exchange, 110 Kent Bldg., Toronto, Can.

Which of the 10

CENT STOCKS will make good? In the history of the gold camps some of the 10 cent stocks have made good in the great gold field boom. Mohawk sold at 10 cents, and went to \$20. In the Cobalt boom Crown Reserve went from 10 cents to \$4.25, and became a great dividend payer.

Some of the low priced Porcupine issues will make good. Our advice is to buy a listed 10 cent Porcupine issue, sell it when it shows you a good profit, trade in the stock, and if you get news of a good gold strike on the property, buy into it immediately, even if you sold at a profit previously.

Our clients have already made money in the 10 cent Porcupine stocks.

A Lot of Work Under Way.

A visit to the various claims now being developed in this district shows that the summer is to be a busy one. At the Rainbow property, which is situated on an island about midway in the lake, there is a showing of blue quartz in a vein some 20 inches wide which carries assays of 100 to 150 ounces of gold. The vein is situated in the shallow pits, which were sunk on the vein. The values also extend into the wall rock for about two feet, thus giving a considerable width of about four feet of milling ore. This property is owned by English capitalists and work is being pushed vigorously under the supervision of a mining engineer of wide experience in Australia and the West African gold fields.

Besides the Rainbow property there are many other locations upon which a good deal of work has been done, such as the Douglas, the Dawson, the Whelan, the Faucett and the Covenay. Some of these, however, has reached the producing stage. The only property on the lake that has been developed to the point where it is now being situated at the head of the lake and which has recently been acquired by

HOME EXTENSION

I advised the purchase of this stock from 50c upwards, and still think it is a good buy at the market.

DOME WILL BE BEST ON CONTINENT

Elaborate Plant Rapidly Nearing Completion—Ore Body of Tremendous Extent.

PORCUPINE CITY, June 13.—(From Our Man Up North.)—With a hundred men applying their building knowledge to the enormous task before them, the Dome mine's stamp mill and cyanide plant gradually form a little nearer to completion each day. Master Mechanic Hansen, who has charge of the work now, promises to have the mill running order by Oct. 15. The plant is being built by the Merrill Metallurgical Company.

The structure will cover over an acre of ground. In addition to the foundations prepared for the batteries of 40 stamps, enormous foundations of cement have been put in for the 11 large tanks. The bed for the plant was blasted out of solid rock.

A Most Up-to-date Plant.

It is doubtful if there is a mill on the American continent as complete as this one will be. Millwright Myles, who did the planning for the company, spent several months last fall and winter visiting the big mills on the continent in order to get a line on the good features, so as to combine them in the Dome plant.

When in running order the plant will consist of a power house containing six 100-horsepower boilers, now complete and installed. Of these one boiler is in operation, the others being dismantled. The power house stands 300 feet to the east of the stamp mill and 200 feet to the north of the main work, from which all the ore will be taken.

Over the mouth of the main shaft, which has been widened and is now being deepened, a three-story rock crusher has been erected. Several enormous crushers are in place to break the rock into finer particles than it generally comes from the shaft.

Many and Varied Processes.

Conveyors will carry the rock to the mill, where a finer grade of crushing will again take place before the rock goes to the bins. The stamps, which weigh 1250 pounds each, and have a speed of 110 drops per minute, grind the rock into dust, which goes to the secondary amalgamating plates, which carry with a slope as distance is covered.

From the plates there are many processes which the pulp must pass thru, and the machinery provided for this work is elaborate in the extreme. There are more than a dozen different methods to another, 11 water tanks being provided for the mill purposes. Classifying presses, slime presses, concentrating cones, and other machinery, all of which will be necessary to set the machines in motion when power is applied, and which will require maintenance a month of hard, careful labor to place, are a part of the mill's make-up.

The flow-sheet to be used in the plant is of special interest, and its work will be watched carefully by mill men, as it is the only kind yet devised for use in the Porcupine camp.

Ore Carefully Tested.

Before the Dome plant was devised and planned, bags of the quartz and schist from the shafts and also from the surface were taken to different mills over the continent and treated. In this way not only was the character of the mill necessary to treat the ore learned, but something of the ease with which the rock yields to treatment was also ascertained.

It was found that the quartz alone worked up nicely and was extremely easy to handle, but where the schist was concerned the work was more tenacious. As nearly all Porcupine quartz is netted with schist, a mill to treat that standard of rock had to be planned.

Hidden Riches of the Mine.

All the mining work at the Dome is being done on surface prospecting being attempted for the Dome's area of quartz covers fully four acres, and is sufficient as an ore body to last for ten years. Depth to the extent of 700 feet with a core drill, shows the same formation as appears on the surface. Capt. Anchor, who had charge of the mine work, sampled the rock every foot of the way down and made tests of a sample of rock from every bucketful that came out of the shaft. In this way an extremely careful average was obtained as to the run of the quartz
