VOL. XXXII—No. 11,735

NORTH TORONTO COUNCIL DECIDES TO MAKE APPLICATION AT ONCE FOR ANNEXATION TO THE CITY

Proposal To Take Another Vote Was Defeated by Four to Three at Remarkable Meeting, When Councillor Lawrence Changed His Vote and Decision Was Made To Apply to Railway Board Forthwith.

It is expedient that the Town of North Toronto be annexed to the City of Toronto, and that an application be made forthwith by the Council to the Ontario Railway and Municipal Board, with the consent of the said city to make the necessary order to carry out such annexation, and define the terms and conditions, and that the seal of the corporation be affixed thereto.

This resolution, prepared by Councillor Lawrence and seconded by Councillor Ball, was passed on the stroke of eleven last night, at a remarkable meeting of the North Toronto Town Council. Those who voted in favor were Mayor Brown, Councillors Ball, Huston and Lawrence, while the opposition consisted of Councillors Howe, Baker and Reid.

To accommodate an interested crowd of ratepayers, the meeting was held in the main hall, instead of the usual council chamber, and even then the room was packed to the doors.

Monster Petition. T. W. Banton presented a petition signed by 455 ratepayers praying the council to give effect to the vote of July 6, when unconditional annexation was carried by a majority of 59.

The petition, said Mr. Banton, "represents purely voluntary action on the part of the signatories. There have been no paid canvassers, and no regular organized canvass, or we could have just as easily obtained a thousand names. This readiness to sign the petition shows that in spite of the opposition of the past two weeks, there is no change in opinion as regards the wishes of the majority of the people. Our opponents claim that there was a certain amount of unfairness in the vote of July 6, but if there was any advantage, it lay with the anti-annexationists. The sought to kill annexation by insisting on the insertion of the word 'unconditional'."

Councillor Huston proposed that the petition be received, while Councillor Howe moved an amendment that the petition be received and filed.

Momentous Issue. Councillor Ball, who has consistently advocated in council and in public the annexation of North Toronto with the city, said:

"This is the most momentous issue which the Town of North Toronto has ever had to decide. As one who has always taken a prominent part in supporting the annexation proposal, I consider it would be a gross injustice and a serious hardship if the council, by their action, ignored the vote of July 6. The ratepayers of the town have a definite knowledge of the merits and demerits of the question, and they fully realize that on your vote depends the progress or the stagnation of the town. I can give concrete instances where building operations have been suspended owing to the dilatory attitude of the council in completing annexation, for potential builders prefer to have titles rather than idle stories. I know of cases in Castledale avenue and Glenora avenue where builders have stopped work until some assurance was forthcoming that this council would give effect to the vote of July 6. We have reached a stage when the financial standing of the town is questioned by the banking institutions, and it is absolutely imperative that the town should be linked up with the city and so share in its benefits and responsibilities. There are districts which would pay handsomely to be taken into the city, and I advise you not to let this opportunity pass."

Howe is Opposed. Councillor Howe said: "I can speak with confidence as to the undesirability of being annexed to the city. Mr. Ball's

CANADIAN MINK.

Canadian Mink is in great demand in the fashionable centres of Europe and in New York. The supply heretofore has been shipped by the Hudson Bay Company from Hudson Bay to England by its own boats, but now with the opening of the Canadian West, most of the fur comes thru Edmonton and by rail from there to the seaboard. This means that Toronto and Montreal get the first choice of the select skins where some few years ago London, England, was the distributing market. The Dineen Company, 140 Yonge street, have direct from the Northwest during the last six months. The display of garments now in the show rooms cannot be duplicated elsewhere in the world for the price.

Surplus Products Will Demand Wider Markets Sir Wilfrid Confident

Farmers Will Be Ruined Unless Reciprocity With United States is Adopted, He Asserts at Sturgeon Falls—Hon. Charles Murphy Makes Personal Onslaughts on Borden Cabinet Members.

(By a Staff Reporter.) STURGEON FALLS, Sept. 17.—(Special.)—The chief tendency of the speakers at Sir Wilfrid Laurier's opening meeting of his Ontario tour was to criticize the course of the present administration rather than to give an account of their own stewardship or reasons why the Liberals should again be placed in power at Ottawa. But a notable exception to this was the leader himself, who diverted the whole of the hour in which he occupied the platform to the advocacy of wider markets for the sale of Canada's future surplus supplies. He asserted with a deal of emphasis that reciprocity is not a dead issue, but that the "shallow" loyalty cry employed at the elections a year ago by the opponents of the pact resulted in a false step being taken by the electorate, from which the public will recover in the near future of its own accord, because markets must be found for Canadian products, which he anticipates will be left on the producers' hands, with results ruinous to the latter.

R. E. COOK TO REGAIN OFFICE

Printing Bureau Official, Whose Dismissal Caused Sensation, to Be Made Superintendent.

OTTAWA, Sept. 17.—(Special.)—Following the investigation conducted by the public service commission into the government printing bureau, and the scathing denunciation of the methods used by Hon. Charles Murphy, ex-secretary of state, to bring about the dismissal of R. E. Cook, the announcement made tonight after the meeting of the cabinet council, that the government would appoint an assistant superintendent of printing, is regarded as significant. The marine commission recommended the reinstatement of Mr. Cook and it is believed that he will be given the new position.

YOUNG MAN HELD FOR VETERAN'S DEATH

George Green of Owen Sound Fatally Injured While William Smith Was Engaged in Fight With Boarder—Smith Asserts Green Met Death as Result of Fall.

OWEN SOUND, Sept. 17.—(Special.)—With his head covered with bruises and cuts, George Green, aged about 70 years, a Fenian-rigid veteran, is lying dead, and William Smith, aged 22, now under arrest, may have to answer to a serious charge.

Last Thursday Smith went to the Green home on East 11th street, where he had formerly boarded, and asked to be taken in again. He was refused and thereupon attacked another boarder named Weaver.

While the fight was in progress Mrs. Green ran out and phoned for the police. When she returned she met Smith leaving the house and discovered her husband lying on the floor, bruised and insensible. She called medical aid at once and Green was removed to the hospital, where he died this morning without having recovered consciousness.

After viewing the remains the coroner's jury adjourned until Wednesday evening for a further hearing on the case.

George Green came to Owen Sound last year from Williamsford, where he had lived for many years. He was a frail old man, rather eccentric and was subject to fits. It is thought that he may have fallen down stairs and injured himself. This is the theory advanced by Smith.

ORCHESTRA PLAYS AT ALL CONCERTS

Nahan Franko Will Appear Eight Times During Musical Festival With World's Greatest Artists.

Judging from remarks heard on the street, some skepticism appears to be abroad concerning the musical festival that will mark the opening of the new Arena. The management is naturally a little resentful that it should be thought capable of playing double with the public of Toronto, whose experience has hitherto been of only occasional concerts at high prices. There is no mystery about the engagement of the greatest singers and the leading orchestra on the American operatic and concert stage, and the very moderate prices. These have been rendered possible by the seating capacity of the Arena, which permits of an audience of 7500, all of whom can listen and enjoy. When the public realizes what this magnificent auditorium means for the musical future of the city, they will require no more convincing. To correct another prevailing misconception, it may be added that the Nahan Franko Orchestra will appear at all performances.

YORK PIONEER DIED AGED 93

George Gamble, a Former Resident of Newmarket, Was Lifelong Orangeman and Conservative.

George Gamble, a highly respected pioneer of York County, died yesterday at his late residence, 19 Charles street, in his 93rd year. Mr. Gamble was a son of the late Capt. Nathaniel Gamble of Newmarket, a United Empire Loyalist. He was a life-long Conservative, an enthusiastic Orangeman, and a staunch adherent of the Anglican Church, having been a member of the Church of the Redeemer since becoming a resident of Toronto. His wife predeceased him eighteen months ago. Two daughters, both living at home, are the surviving members of the family. The funeral, which will be private, will be tomorrow afternoon to St. James' Cemetery.

Will Not Remove C.M.A. Offices

MONTREAL, Sept. 17.—(Can. Press).—After a deputation of Toronto manufacturers had talked over with some of the members of the Montreal branch of the Canadian Manufacturers' Association here this morning the proposal to move the head offices of the association from Toronto to Ottawa, the matter assumed such an aspect that it is believed the project will fall thru. Amongst the Toronto visitors were A. R. Clarke, chairman; R. D. Fairbairn, vice-chairman; F. J. M. Stewart and Frederic Nicholls.

The Toronto members objected strongly, and as they represented the bulk of the members of the association who live in Toronto and east and north of that place, their wishes were considered sufficient to veto the project. A number of the Montreal members also thought it would be better to have the headquarters in a large centre like Montreal or Toronto.

OPERATOR HELD ON SERIOUS CHARGE

Hugh Taylor, Elevator Man in Continental Life Building, Charged With Manslaughter in Connection With Death of James Robertson, Prominent Member of I.O.O.F.

Following the death of James Robertson, who was killed when he fell down the elevator shaft at the Continental Life Building at noon yesterday, Hugh Taylor, elevator operator, was placed under arrest by Detectives Newton and Wallace on a charge of manslaughter. Robertson was riding up in the elevator, according to Taylor, when he attempted to open the outside door of the shaft at the fourth floor before the car stopped. The elevator continued upward with the result that Robertson's head struck the door jam.

The man was stunned and slipped down between the car and the shaft wall, falling on an iron post at the bottom of the shaft. He was dead when picked up. An inquest was opened in the morgue last night by Dr. Gilmore. After viewing the remains the hearing was adjourned until Sept. 24 at 8.30 o'clock. By that time Dr. Clendinning will have a post-mortem report ready.

The dead man had been treasurer of Queen City Court, I.O.O.F., for the past 23 years. He was also a Mason. Robertson was born in Scotland 68 years ago. He was well-known in real estate circles here, conducting a business on Queen street. The widow and children survive. Mr. Robertson lived at 302 McCaul street.

The funeral is in charge of H. Ellis, College street. It will take place from his late residence on Thursday afternoon to the Necropolis.

SIXTEEN KILLED IN LIVERPOOL WRECK

Fifty Others Injured When Chester to Liverpool Express Jumped Tracks and Crashed Into Station Platform—Victims in One Coach Were Cremated.

LIVERPOOL, Sept. 17.—(Canadian Press).—Sixteen persons were killed and fifty injured by the derailment this evening of the express from Chester to Liverpool at Ditton Junction. The train had passed over the long bridge spanning the Mersey and was running down the incline leading to the junction, when at the crossover points the engine jumped the rails and crashed into the buttress of a bridge spanning the line.

The coupling of the car next the engine parted and the train of nine cars sped on to the station. The leading car crashed into the platform with terrific force and was wrecked. One car was overturned and caught fire. In spite of the efforts of a fire brigade it was soon consumed. Several bodies in this car were cremated, but some of the injured were rescued from windows.

The engine driver was crushed to death between the engine and tender and the fireman had both legs broken. He was plied under the locomotive for two hours. Hundreds of laborers and railway employes took part in the work of rescue, while the waiting-rooms were turned into an emergency hospital.

STREET WIDENING SHOULD NOT PROCEED

G. T. Somers Says It Might Be Prudent to Drop the Subject for a Time in Order to Study Question of Diagonal Streets—Board of Trade Contentious.

G. T. Somers, president of the Toronto Board of Trade, was interviewed by the representatives of the morning papers yesterday in regard to the Teraulay street situation.

Speaking for the board of trade, Mr. Somers said: "I am satisfied there is not a member of the board but would unhesitatingly endorse the board's action, that if Teraulay street is not widened to 86 feet as a main thoroughfare, the proposition ought not to be gone on with."

"I should be sorry if it was not gone on with, but, in view of the inflated values as a result of undue publicity and hesitation on the part of the council, I can hardly hold the present council blameless; even though I am satisfied that at present values the proposition could be handled commercially so as to cover its initial cost and provide a revenue in after years."

"You say 86 feet is a necessity. Why?" "Modern transportation is by way of motor cars and in large street cars. Even freight is now handled by large auto trucks, and with less than 86 feet there is not room for adequate thoroughfare and sidewalks, and for a fast moving vehicle to pass a slow moving vehicle without interfering with street car track allowance. So that 86 feet is absolutely essential under modern conditions for any main thoroughfare."

"Do you think the council ought to let the matter drop?" "Well, it might be prudent to do so for a time, at all events for any distance farther than College street, provided expert advice is taken, without publicity, as to an alternative route, and further, as to the wisdom of first opening up diagonal streets. In my opinion the gain in time and in shorter distance by way of diagonal streets, and the saving in cost in not having to buy an established frontage, would probably work so as to save the city not only considerable money, but give them more useful thoroughfares and new frontages that would sell at a price that would more than pay for the undertaking."

"I would, of course, urge that any projected undertaking of this character should be carried on by civic officials, under expert advice, without publicity, and that every feasible route should be considered and the relative advantages of each route weighed one against the other."

WELLAND CANAL SOON TO BE STARTED

Construction Work of Huge Project to Cost \$50,000,000 Likely to Be Begun Early Next Summer, Says Superintendent Weller—Will Be Rushed to Completion.

ST. CATHARINES, Sept. 17.—(Special.)—Superintendent J. L. Weller has issued a statement to the effect that construction work on the new Welland ship canal will commence early next summer, and will occupy five years, in building. The cost will be about \$50,000,000.

Tenders will, it is expected, be called for next winter, and work will be well under way by the end of 1919. Mr. Weller's opinion is that the work is in many ways as stupendous as the Panama Canal project. It will be almost as great an engineering undertaking as regards the locks, the walls of which will be just as high as those of the Panama Canal.

The plan to be followed is that the work is to proceed at various points, and be rushed to completion. Fifty to seventy-five steam shovels and several dredges will work at different sections at the same time.

Plans for the waterway are now almost finished and will be sent to Ottawa in a short time.

GLEN STEWART PROPERTY MAY BE BOUGHT BY THE CITY AT \$600,000, FOR A PARK

Senator Cox Willing to Sell His Property For \$7,500 an Acre and Parks Committee Favors It, But Price May Be Too High—Government Saved \$258,072 on Normal School Taxes.

As a result of the visit of a number of members of the parks committee to the Glen Stewart estate of Senator Cox, lying between Kingston road and Queen street, the city may acquire the property, which is eighty acres in extent, for park purposes. The price is \$600,000, or \$7500 an acre, and it is felt that this is the only feature which will create any opposition. Senator Cox, however, maintains that if his property were subdivided into building lots it could be sold for over \$1,000,000, and hence the price at which it is offered to the city is \$400,000 less than its actual value.

An Ideal Park.
Parks Commissioner Chambers, Aid. Graham, chairman of the parks committee, and Ald. Wankless and Ald. Anderson inspected the property yesterday for the city and pronounced it ideal for park purposes. The site is undulating and there is a beautiful driveway through it. Another feature is the miniature lake, and a stream with a natural spring adds much to the beauty of the place. The property is also beautifully wooded.

The location is also considered ideal for park purposes. Lying between the Kingston road and Queen street it will be easily accessible, and will serve a large and rapidly growing section of the city. There have been numerous complaints of late that the east end was not getting its fair share of parks, and the parks committee must admit that there is considerable justification for the contention.

Must Act at Once.
The city, however, must act quickly to secure the property. Senator Cox has already had the land subdivided with the intention of selling it as building lots, but on learning that the city was desirous of securing it he delayed putting it on the market. He is willing to give the city a couple of weeks to consider the proposition, and hence the

council must give a definite decision at their meeting a week from Monday.

Normal School Taxes.
According to the figures in the city clerk's office, the Ontario Government has saved \$258,072 in the last 43 years thru the exemption of taxes on the normal school property. This figure is the amount of the unpaid taxes and does not take the interest into consideration. The above is an argument advanced by the city as to why the government should give the city special terms in the purchase of the property.

The City's Debt.
For the past nine months of this year the city has increased its debt at the rate of over \$1,000,000 a month, and it is expected that the debt contracted for the whole of the year will be nearly \$10,000,000. Under the next normal school law, however, the city's borrowing power will be increased \$4,000,000, and this will raise the limit of the borrowing power to \$7,000,000.

The following is a summary of the situation regarding the city's debt:

Debt negotiated, 1911	\$4,110,471
Unnegotiated	6,454,828
Total end of 1911	\$10,565,299
Including 9 mos. 1912 and not negotiated	10,000,000
Gross debt, Sept. 1912	\$20,565,299
Sinking fund, about	10,900,000
Net debt	\$9,665,299

Concrete.
Experiments will shortly be undertaken by the works department on a new form of concrete supposed to be obtainable by mixing sand and cement. It is said that the new substance will be waterproof and hence it is expected to be a great improvement on the concrete now used. The department is awaiting the results of tests made in Washington, and if these are successful, the new substance will be tried out on a street in the city.

The Borden Banquet

Yesterday the general public were offered tickets for the banquet to be tendered to the prime minister at the Arena, Monday next, and the board of trade offices were kept busy answering phone calls and attending to the demand for tickets. Mr. Parke and his charming wife will do the honors there in a manner befitting the greatest mining camp in the world, and in the evening Sir Wilfrid will address a mass meeting in Cobalt rink, which will be attended by five thousand citizens of this north county.

FOOD INSPECTION.
Robt. Awde Favours Public Abolition and Educative Campaign.

Chief Food Inspector Robt. Awde of Toronto, in a paper on municipal food inspection, dealing with tuberculosis in cattle, said that the only cure was the erection of a large public abattoir and the closing of all private slaughter houses. To reach this consummation, he said, it would require an educative campaign that would embrace the whole Dominion, resulting in the passing of such legislation as the case demanded, giving to provinces and municipalities power to erect abattoirs and exclude all dressed meats coming in unless they bore the stamp of legalized inspection.

NEEDING REEDED FOR SANITARY INSPECTORS

Important Advances Would Be Made if Diplomas or Certificates Had to Be Secured—Dr. Struthers Says Aim of Medical Inspection in the Schools Is Preventive.

Speaking of the importance of trained sanitary inspectors, Medical Officer of Health Douglas of Winnipeg, at the public health convention yesterday, said, "If communities all over Canada made it compulsory that before a man could secure an appointment as sanitary inspector he should possess a certificate or diploma from some recognized and responsible body as to his familiarity with modern sanitation or practical, at the hands of a medical health officer, I feel certain that one of the most important advances of the time would be made in our work."

HOW TO GET CLEAN MILK.
Dealers Should Be Educated and Reasonable Bylaws Should Be Passed by Each Municipality.

The essentials necessary to secure a safe milk supply, according to Dr. H. E. Whitlaw, medical officer of health for Edmonton, are: First, to have a clearly defined and reasonable bylaw for each municipality which can be distributed to the dealers in milk for their education and information; second, to have a sufficient number of properly qualified dairy inspectors whose most important duty is to carry out an educative campaign among farmers and dealers in milk in an endeavor to secure their co-operation and good-will in obtaining a clean milk supply; third, to have in the larger municipalities at least a well-equipped laboratory under the charge of a competent bacteriologist.

DR. HODGETTS CONDEMNNS SYSTEM OF PHYSICIANS AND SURGEONS.

Bad Housing Conditions.
"We have before us the evidence that bad town planning and housing inevitably lead to increased municipal expenditure, and therefore higher taxes. We know that under inefficient legislation bad housing conditions grow up and continue, and that owing to these evil environments diseases, crime, immorality and poverty, resulting in physical degeneration, inevitably result. Yet here we are planning towns by the hundred each year, building, and I should say throwing, together houses, and worse than all permitting a foreign element to live in worse conditions than would be permitted in the best country, and there is no legislature in Canada which has a statement within its walls of the failure to propose a bill which will in my judgment, adequately meet this alarming and awful situation."

Immigrants.
"Sufficient has been indicated to show that as a nation Canada has a long way to travel yet before the claim can be advanced that it is doing its share to produce a virile race, leave alone the still more important questions of maintaining its vitality."

Poor Examination.
"We have before us the evidence that on our shores a large number of emigrants from Europe. For some time these people came almost without let or hindrance. Then the federal government took a step forward and instituted what is commonly known as the medical inspection of immigrants. How adequate the requirements of an adequate medical inspection need not here be stated, but if the people of this country, and the federal government, are of this Dominion, are satisfied with a medical examination of several hundred persons often speaking a foreign tongue, which is conducted in a few hours, by one or two medical men, then all that can be said is that they are permitting a foreign element to live in worse conditions than would be permitted in the best country, and there is no legislature in Canada which has a statement within its walls of the failure to propose a bill which will in my judgment, adequately meet this alarming and awful situation."

FULL OF QUALITY NOBLEMEN CIGARS

A TRIUMPH

"Thou art a perpetual triumph" - King Henry IV., Act III.

The continuous and increasing popularity of the

"DAVIS" "NOBLEMEN" CIGAR 2 for 25c

is due to the fact that it is "FULL OF QUALITY." "NOBLEMEN" is a perpetual triumph. There are myriads of brands in the cigar "Firmament," but they are mostly like the stars in the "MILKY WAY" - they are unknown. Quality has made the "NOBLEMEN" Cigar a star of the first magnitude - Every smoker knows it. "NOBLEMEN" is clear Havana. Cuban made, and saves the smoker 50 per cent, because it pays less duty.

"NOBLEMEN" also, 2-for-a-quarter. "PERFECTION" 3 for 25c Cigar.

Things Hum at Repository Sale

The Repository did a big business yesterday. Things hummed around this market from early in the morning until late in the evening, and a good many horses changed hands. The city consignments to the Repository auctions are very large, and the buyers and would-be buyers make up a large crowd. There were quite a few out-of-town purchasers at the Repository yesterday.

OIL HEATS AT DETROIT, RAIN

Dillon Axworthy Defeats Lord Allen and Sweet Alice in Baby Trot—Joe Patchen II. Leads List in 2.12 Pace.

DETROIT, Sept. 17.—Rain this afternoon interrupted Grand Circuit racing at the Michigan State Fair after five heats had been run off in the various classes. Only one event was decided—the 2-year-old division of the Horseman Futurity, three heats of which were contested yesterday. Dillon Axworthy, beautifully driven by Serrill, captured the fourth and deciding heat today after a hard race from wire to wire.

The three heat winners came out for the final test in the baby division. Dillon Axworthy got away in front and led to the half. Lord Allen then showed in front, and Axworthy again sent into the stretch, when Serrill again sent strong, drew alongside and the three fought it out to the wire, Dillon Axworthy winning by a neck. Sweet Alice and Joe Patchen II. were second and third.

SECOND RACE—Two-year-olds and up, selling, mile and 70 yards: 1. Rayburn, \$100. 2. El Oro, \$100. 3. Hodge, \$100. 4. Bart, \$100. 5. ...

St. Albans Defeat Grace Church

By a score of 31 to 27, St. Albans were returned winners at the Varsity lawn on Saturday afternoon. Captain Harry Hancock of the winning team decided to bat upon a slow wicket. W. Robinson and J. Goodman opened the batting to the bowing of Neale and Robb, carrying the score to 23 before the former was run out for a well-played 14. Goodman lost 15 wicket on the next ball and retired with 12 runs to his credit. Captain Hancock was the only other man on the side to distinguish himself, he scoring 23 in the highest aggressive style, which was well-known to the batsmen. For Grace Church, Robb was the only man to reach double figures, making a well-deserved 14. The bowling analysis showed Robb five for 4, Neale five for 24, Robb one for 19, Hill one for 14, and Atwood one for 14. W. Robinson, run out, 0. J. Goodman, lbw, bowled Neale, 12. Dr. G. S. In the C. and M. League.

St. Cyr's and St. Edmunds played their C. & M. League game in Dovercourt Park on Saturday afternoon, which resulted in a victory for the visiting team after most exciting finish. St. Edmunds, with only five wickets score, but 49, looked like making a Cupps disposed of the remaining five batsmen after most exciting finish. Stokes who bowled through, took four runs, three wickets, and one run, fell for 27 runs, but the two last added 22 before Fraser was bowled. Three batsmen were dismissed in the next 10. Jones closed bowled six wickets at a cost of 16 runs only. Jones, b Stokes, 0. Stroud, b Fraser, 19. Nash, c Fraser, b Stokes, 0. Watson, b Stokes, 0. King, b W. Davis, 0. Watson, b Stokes, 0. Dovercourt Defeats Riverdale

Dovercourt C.C. won from Riverdale C.C. by 47 to 22. Pickersgill, W. Webber, C.C. were the only batsmen to get doubles of the Riverdale. W. Butterfield did good work with the ball for Dovercourt, 7 wickets for 35 runs, and B. Fowler 4 for 28 runs. Result: Chester, c and b Butterfield, 0. Hocking, bowled Fowler, 1. Pickersgill, bowled Fowler, 0. Davidson, bowled Butterfield, 0. Webber, bowled Fowler, 0. Clegg, bowled Butterfield, 0. Allison, c Carter, b Fowler, 4. Martin, bowled Butterfield, 0. Yorkshire Society Beat East Toronto

The Yorkshire Society C.C. played East Toronto on Saturday on the latter's grounds. The game resulted in a win for Yorkshire by 79 runs to 58. F. Joy 18, not out, H. Pugh 12 and J. Horsfield 10 took the batting honours for Yorkshire, while the bowler honours for East Toronto fell to J. Tucker, who took 6 wickets for 29 runs, E. Herbert 1 wicket for 18 runs and McKechnie 1 wicket for 28 runs. F. Herbert batted well for East Toronto for 28 runs. Tucker batting 11, was the only other man to reach double figures. East Toronto batters could not stand to the good bowling of F. Joy, who took 6 wickets for 29 runs, and J. W. Priestley, who took 3 wickets for 28 runs. H. Pugh, as usual, made a couple of fine catches. J. Horsfield also made a good one. The fielding of both teams was remarkably smart. Score: Yorkshire—H. Pugh, c Townsend, b J. Tucker, 12. F. Joy, b J. Tucker, 28. A. Denton, lbw, b McKechnie, 18. W. C. Robinson, b J. Tucker, 2. J. W. Priestley, c and b Tucker, 0. J. Horsfield, b J. Tucker, 10. H. Joy, not out, 0. H. Bastwick, c and b J. Tucker, 0. RAILROAD BAITING IN CANADA.

On Friday, September 13, The Toronto Globe published on its financial page, without comment, a column and a half argument in favor of permitting the railway companies of Canada to increase their freight rates.

RAILROAD BAITING IN CANADA.

W. Thomson, in Boston Transcript. On the same day The Godefrich Star published the same article verbatim on its editorial page, with the heading:

RAILROAD BAITING IN CANADA.

E. W. Thomson, in Boston Transcript. The same article also appears in The Peterboro Examiner under precisely the same heading.

Now are we unduly suspicious in finding therein something more than a coincidence? Did all three newspapers copy the heading from The Boston Transcript, which might naturally enough use the Americanism, "Railroad Baiting," instead of "Railway

Baiting." If they did how comes it, that one and all of these papers found space for a column and a half brief in behalf of the railway companies, but omitted Mr. Thomson's opening paragraph, which indicated that he was not stating his own conclusions, but was merely presenting the railway side of the question? Did they desire the public to believe that the views expressed summed up Mr. Thomson's conclusions after examining both sides of the question?

Or is this the case, and we would like to have these and some other Canadian papers answer "honor" bright: Was not the article, heading and all, reprinted from a leaflet furnished by one of the big railway companies of Canada? Curious it is that The Peterboro Examiner, in lieu of Mr. Thomson's opening paragraph, says:

The following observations on the proposed reduction of freight rates in the west by this noted journalist are of interest just now to Canadians. Mr. Thomson says in part: This is not the first time that The Globe has been a roaring lion on the editorial page and a mild and reassuring Nick Bottom the Weaver on the sporting page or on the financial page, especially the financial.

And, by the way, where does Mr. Thomson get off? We have accepted his statement that the views contained and the arguments set forth in his much republished letter were not his own but those of the railway companies. What are his views? Does he really believe that there is keen competition among our Canadian railway companies? Does he really think that freight rates ought to be higher in the western provinces than they are in the western states, because trainmen have heartier appetites in Manitoba than their fellows in North Dakota?

We do not blame Mr. Thomson for not wishing to be held personally responsible for some of the arguments advanced by the railway magnates. But does he not know that his Transcript letter, minus the first paragraph, is appearing with machine-like regularity as representing his views? Does he not know that it will appear again and again hereafter in many journals throughout the country, willing to feed their readers upon canned news, canned editorials and canned comments furnished "ready to serve" by the big corporations? Mr. Thomson owes it to himself to say what his views are, now that he has made a thorough investigation!

ULSTER—WHAT CONVULSED HER?

Riots in Belfast are as natural as the bluish on the cheek of a sensitive child. But they arise from different causes. Belfast has two cheeks and one of them or the other is always being slapped. It hasn't learned to turn the other, and Sir Edward Carson, Capt. Craig, Mr. Bonar Law and some other gentlemen have been declaring that it would be quite wrong to turn the other. Today a great demonstration is being held in Ireland, under the auspices of the new advocates who advocate rebellion and civil war rather than submission to constitutional procedure.

For many years the Nationalists were told that if they would abandon methods of violence and adopt the great British method of constitutional agitation all would be well. Having adopted the advice, and under constitutional agitation, having arrived at the long-sought goal, Mr. Redmond must be chagrined to perceive that things are very far from well, and that the gentlemen who formerly advised him to give up methods of violence are now themselves taking up his discarded policy. What is to be the result? Will the Nationalists turn the other cheek, or will they turn back to the old Adam of unrighteousness whose ways have become the model and example of Unionists?

THE BIG COMPANY'S BIG MELON

In spite of denials, the impression is general that the working agreement between the two companies now admitted to exist, foreshadows the absorption of the Alien Steamship Line by the Canadian Pacific Railway Company. The formal announcement we can well understand, might be held back until the consent of the government had been obtained to the cutting of the \$60,000,000 melon, which the C. P. R. proposes to slice up and distribute to its stockholders.

JAMAICA'S OUTLOOK.

Editor World: As a Canadian who has spent considerable time in Jamaica, perhaps you will allow me to say a few words concerning the article in your columns Sept. 15, mentioning The Morning Post's report re Jamaica and U. S. A.

The points mentioned are comparatively few, and as far as the personal observation of Jamaica is concerned, I am much impressed by the alacrity with which the United States, but they are not in close contact with Americans as we are and, consequently have much to learn.

The Winnipeg Free Press, delving into what is for many of us an ancient history, is busy seeking to prove that the original shareholders of the Canadian Pacific Railway Company took no such chances as to receive their \$25,000,000 and the 25,000,000 acres of land from the government provided for in the original contract, but repeatedly obtained concessions, advances, guarantees and loans from the Dominion Government, a considerable portion of which was absorbed in paying dividends. The astonishing statement is made and apparently proved from official records beyond dispute, that these shareholders had set aside, and actually paid to themselves in dividends between 1881 and 1884 the aggregate sum of \$10,000,000, or 40 per cent. of the actual capital account. There was never, according to the Free Press, any risking of private capital to promote a national enterprise, but rather a systematic exploitation of national spirit for the aggrandizement of a few business men who sought and have ever since received a princely income from a beggarly investment.

The Saskatchewan Phoenix reminds us that the Canadian Pacific Railway Co. actually sold to the Dominion Government for \$10,000,000 some of the land given to it without charge, to aid in the construction of the road; that it has received millions of dollars in the way of subsidies from the Dominion and provincial governments and municipalities for subsidiary lines, and that it has been holding vast areas of valuable land exempt from taxation. Commenting upon Sir Thomas Shaughnessy's statement that the company desires to protect its present shareholders, the Phoenix points out that only ten per cent. of the present shareholders are Canadians.

The Edmonton Capital takes issue with some of the statements made by Sir Thomas in his Winnipeg interview, beginning a somewhat vitriolic reply as follows:

While Thomas Shaughnessy was explaining the policy of the Canadian Pacific Railway with regard to the \$60,000,000 stock issue, it is proposed to sell to the present stockholders for \$60,000,000 less than the market price, he should have explained by what line of argument he proposes to justify the stock issue at all.

Shaughnessy says in effect that, while the government has the right to absolutely prohibit the stock issue, to do so would compel the company to curtail expenditures, that the company would be unable to carry out its betterments, and that the public would suffer thru an inefficient service. In this declaration Shaughnessy is making a statement which nobody in the Dominion of Canada knows better than Shaughnessy himself is absolutely untrue. The Canadian Pacific does not have to sell one dollar's worth of

making a god of one product, namely, sugar, and seems well on her way to do the same with bananas. But there are other products. Let our merchants and tourists visit this beautiful island, and they cannot fail to be attracted by the opportunities that await development.

LET RATES ALONE DRAYTON'S ADVICE

New Chairman of Dominion Railway Board Takes Firm Attitude Regarding Western Freights.

OTTAWA, Sept. 17.—(Can. Press.)—That pending the conclusion of the enquiry now being conducted into western freight rates, these are not to be increased by the railways was laid down as a rule today by Chairman H. L. Drayton, K.C., the new head of the railway board who took his seat for the first time, yesterday.

Judging from his first appearance Mr. Drayton is a man with ideas of his own and force of character to back them up. "I consider it entirely improper that any freight rates should be increased pending the conclusion of the present enquiry," he stated in the opening case. "So the railways have been notified and now have an opportunity to say why an order should not issue prohibiting any such increases."

CHILD PROBLEM DISCUSSED BY DOCTORS

"If Canada Is to Rear Imperial Race It Will Not Be by Raising Children in Slums," Says Archdeacon Cody — Dr. Hodgetts Says the Housing Problem Must Be Faced.

The great strides that have been made, and are being made in the preservation of health in Canada, the pressing needs of the housing problem, and the welfare of the child, were taken up at the second annual banquet of the Canadian Health Association at McConkey's, last night.

Yom Kippur—The Day of Atonement.

For the information of the general public, and more especially for the use of the daily newspapers, the Central Conference of American Rabbis has widely distributed the following information concerning the Day of Atonement:

The Day of Atonement or Yom Kippur, is the most sacred of all Jewish holy days. It occurs this year on Saturday, Sept. 21, beginning, as do all Jewish holidays, on the evening of the day previous and closing at sundown on that day. In the Jewish calendar it falls on the 10th day of the seventh month, Tishri, and is the culmination of 10 days of solemn meditation and reflection that began with the new year. It is ordained in Leviticus XVI, 29-34, and is Scripturally known as a "Sabbath of solemn rest," i.e., of complete cessation from all ordinary avocations and occupations. This includes even the satisfying of the wants of the body. The observant Jew abstains completely from all food and drink during the continuance of the day.

This fast is the interpretation of the passage, "Ye shall afflict your souls on this day," and is in keeping with the spirit of the day, i.e., the subordination of the physical to the spiritual side of our nature. It is a day devoted to prayer and penitence, a day wherein, through confession and contrition, the soul aims to be at one with God, to seek His mercy and earn His pardon. The ancient service of the day, with its elaborate ritual and imposing priestly sacrifice and confessional, has disappeared before the truer spiritual significance that makes its appeal to each individual heart and to each single soul. The service lays stress upon the Divine grace and mercy that are freely held out to the sin-laden breast through penitence and contrition. The great lesson of the day is that a contrite heart and a humble spirit are God's most acceptable sacrifices, and that the fountain of His freely flowing forgiveness is inexhaustible.

FACTORY BURNED EARLY TONIGHT "ALL A BLUFF"

H. L. Wood's Showcase Factory on Cameron Street Totally Destroyed Shortly Before 2 A.M. Today.

Shortly before 2 o'clock this morning the show case factory owned by H. L. Wood & Co., at 18 Cameron street, took fire, and in a few minutes the entire building was in flames. Fed by a large stock of hardwood and pine, used in the manufacture of show cases, the flames spread with great rapidity, and the frame building was entirely destroyed. The building is situated in a congested district, and hundreds of people were awakened by the noise of the fire.

The damage, it is estimated, will amount to about \$1000.

IRATE DEPUTIES FOUGHT POLICE

Opening Session of Hungarian Parliament Marked by Terrific Battle With Clenched Fists.

BUDAPEST, Sept. 17.—(Can. Press.)—The Hungarian parliament, which began its opening session today, was the scene this afternoon of a free fight between the police and the deputies. The violence was unprecedented and the din of the trumpets, motor horns and cow bells continued all day long. Count Stephen Tisa, president of the lower house, who was jeered from the moment he entered the chamber, surrendered the chair at 3 o'clock to Vice-President Beothy, but the uproar did not abate. At 4 o'clock a strong force of police entered the building. Count Tisa, who was in the lobby, declared that he would summon them into the chamber if necessary. This was eventually done.

Red, White and Blue Turbans Also Attested Patriotism—Demonstrations Along Route.

KAMLOOPS, B.C., Sept. 17.—(Can. Press.)—As the governor-general's train flying the royal standard was leaving Revelstoke this morning for today's run, their royal highnesses were interested in observing among the cheering crowd on the platform three Hindus, whose turbans were of red, white and blue. At Tappen, where a stop of five minutes was made, the school children, headed by two boys carrying a large Union Jack, sang "God Save the King" and the "Maple Leaf," and presented flowers, melons, plums and apples grown there to their royal highnesses.

MY ELECTRIC BELT WILL CURE YOU IF YOU WILL GIVE IT A TRIAL

YOU NEED HELP? Do Not Let False Pride or Modesty Prevent You From Obtaining Relief at Once

To be strong and manly is the aim of every man, and yet how many we find who are wasting the vitality and strength which nature gives them. Instead of developing into the strong, vigorous, manly young fellows that nature intended them to be they find themselves broken down and despondent—no ambition to do anything. They struggle aimlessly along, sooner or later to become victims of dreaded disease, their finer sensibilities blunted and their nerves shattered.

You can talk with the men and women who have been cured by my treatment, and that's worth considering. I might preach for years in my efforts to gather converts to my way of curing diseases, and nobody would pay attention to my arguments. But when I tell you I have cured your neighbor, Mr. Walker, or your old friend, Mr. Williams, and that you can go and ask them, then I have given you proof, and you know that I can do all that I claim.

The Nursery

Contributed Ideas

Recently I made a pale blue carriage quilt for a baby. I had a piece of cotton ball fringe left from curtains. I cut out the little white balls I used one of them as a finish wherever I tied down the quilt. When completed the comforter was very pretty, the little white balls on the blue being more original and a great deal more effective than the usual little knots or bows.

A book for paper dolls was made of a lot of large envelopes. Holes were punched on the side opposite the flap and the envelopes were then tied together—as many as were needed. On each envelope was written the name of the doll to be kept in that particular place. In each big envelope was placed a small one—visiting card size—for the hats.

Pockets for the little girl's handkerchief may be made of material to match each dress. Make pockets three and one-half inches by two and one-half inches, turning in the ends. Hem the tops and fasten two straps of linen tape, one-fourth inch wide, to top of underneath side of pocket. Also very convenient to carry the collapsible drinking cup, so necessary for the children at school.

Before each meal I tie a damp sponge on my wet lamie's high chair and am never obliged to get up for a face cloth for sticky fingers or a milk-spilling accident. After meals wash sponge and hang it in sun, so it is ready again. It's not elegant, but useful.

My own suggestion to you today is to write Dr. J. W. S. McCulloch, chief officer of health, Parliament Buildings, Toronto, to ask him to send you "Little Talk About the Baby." This little book is written by Dr. Helen MacMurphy, and is furnished free of charge by the Ontario Department of Health. It contains clear, concise information about baby, his clothes, his bath, his food and so on. Although every point taken up here is fully explained in the nursery column, you will find the pamphlet a very useful addition to your baby literature.

Madam Butterfly

Puccini's "Madam Butterfly" attracted a capacity audience to the Royal Alexandra last night. The opera had a very satisfactory rendering by the Aborn Company, which again showed its high quality and general level of excellence. Miss Ivy Scott, who took the part of Cho-Cho-San, "Madam Butterfly," took full advantage of its opportunities and showed herself fully equal to its exacting demands. Her vocalization and enunciation were alike admirable and her coloratura effects and sympathetic acting were heartily acknowledged. Miss Zoe Fulton gave splendid support as Suzuki.

Mr. Baron as Lieut. Pinkerton sang with taste and feeling and the other roles were very acceptably filled. The opera was beautifully staged. Tonight Puccini's "La Boheme" will be presented.

GRAPE RECIPES

Grape Jelly—Pick over, wash and drain grapes, then remove stems. Put a few at a time in a preserving kettle and mash with a wooden potato masher. Bring to the boiling point and let simmer 30 minutes. Strain thru a coarse strainer. Place in a sunny window and let stand 24 hours. Cover and keep in a cool, dry place. Sugar should always be heated for jelly making. Simply put in a granite-ware dish, place in the oven, leaving the door ajar, and stir occasionally, that the sugar may heat evenly without becoming brown.

Spiced Grape Jelly—Pick over, wash, drain and stem one peck of wild grapes. To the grapes add one quart of vinegar, one-fourth cupful of each of whole cloves and stick cinnamon. Heat gradually to the boiling point, and let simmer till the grapes are soft. Strain thru a double thickness of cheesecloth or jelly bag, return to preserving kettle, again bring to boiling point and let simmer 30 minutes. Add six pounds of granulated sugar which has been heated; let simmer five minutes and pour into glasses. Place in a sunny window and let stand 24 hours. Cover and keep in a dry, cool place.

Grape Marmalade—Pick over, wash, drain and remove stems from grapes. Separate pulp from skins, put pulp in a preserving kettle, heat gradually to the boiling point and let simmer until the seeds separate from the pulp; then rub thru a hair sieve. Return to kettle with skins, add an equal measure of sugar, again bring to the boiling point and let simmer 30 minutes, stirring occasionally with a wooden spoon to prevent burning. Store in a stone jar or tumbler.

Toronto Man Cured of Intolerable Itch

By Cuticura Soap and Cuticura Ointment
"I just want to say a good word for Cuticura Soap and Ointment. Four or five years ago I was in Port Arthur, and I had an attack of the Itch. It certainly was an intolerable nuisance. The itching was principally at night before I went to bed. The Itch was especially annoying when I was in bed. I went to two doctors about it, and tried many other remedies, but I was unable to get any relief. I was told to take a hot bath, use Cuticura Soap and Ointment, and I did so. I took his advice, and, sure enough, the Itch was cured. I had probably been troubled with the Itch for two or three months before I tried Cuticura Soap and Ointment, and they completely cured me of this intolerable nuisance. After one warm bath with Cuticura Soap and Ointment, the Itch was never troubled with the Itch again. Anything in this testimonial I would be prepared to swear to in a court of law. (Signed) J. E. Hooper, 266 Parliament Street, Toronto, Jan. 13, 1913."

SOIREE MUSICAL

Under the patronage of Lady Falconbridge a soiree musicale was given by Mr. Edward Hesselberg, pianist, yesterday afternoon in Loreto Abbey before a large audience of alumnae and citizens. Mrs. Hesselberg is a noted pianist and has taken up his residence in Toronto. He will instruct the advanced pupils of the abbey in the piano and will be examined in music. He played a very difficult but interesting program, the chief novelties being the Reverte by Viextemps, the Dolian Harp Etude by Chopin, Leschetzky's Paraphrase for left hand solo, Rubinstein's Romance and Mr. "Russian Suite." He displayed a most brilliant technique; and in the shorter forms a penchant for poetic treatment was noticeable. Mrs. Hesselberg was presented by the pupils of the abbey with a beautiful bouquet. Among the others present were: Mrs. L. Cochrane, Mrs. Dwyer, Mrs. Murphy, Mrs. Wheaton, Port Arthur, and Consul Chilton.

FOR YOUR NOTEBOOK

Blotters kept in the kitchen will be found useful for a number of purposes. Buy a package of ordinary desk blotters, and when fruit juice or grease of any kind is spilled on the table, apply the edge of a clean blotter, and most of the liquid will be quickly absorbed. Grease spilled on the floor may be taken up in the same way. For very bad grease spots on the floor, a cotton dress sprinkler plentifully wet with kerosene or turpentine, and covered with paper, iron it with a hot iron for a few minutes, then blot with a clean cloth. The grease remains. Little crotonne aprons with several rubber-lined pockets will be welcomed by the woman who must take a long journey on the train. The pocket will hold comb and brush, hairpins and various toilet accessories and saves much time when dressing in the morning.

REV. W. H. CLARKE DIED YESTERDAY

Rector of St. Barnabas' Church and Founder of Parish Was Well Known All Thru Ontario.

Rev. William H. Clarke, M.A., rector of St. Barnabas Church, died at his late residence, 54 Lakeview avenue, yesterday, in his 66th year. The late rector of St. Barnabas was born at Paris, Ontario. He graduated at Trinity College with the degree of B.A., after which he took the degree of M.A. His first charge was at Haliburton, where he ministered for several years. His second parish was at Bolton, Ont. Coming to Toronto a quarter of a century ago, he founded the parish of St. Barnabas. The surviving members of his family are two brothers, Charles Clarke, Chicago, near Chicago, Toronto, and an elder, Mr. Wilfrid Leigh Maloney of Downsview.

To Clean Hats and Clothes

Every woman is eager to know how to make garments, hats and feathers appear as good as new. The New York Times gives these directions as reliable: To clean white slippers—Wash the slippers well with benzine, using a soft brush; rinse well in fresh benzine, and while the slippers are wet rub with a tooth brush into the leather. This helps to remove the black marks the slippers obtain by wearing. Then put the slippers to dry and they will be as good as new.

The steam barge was formerly a United States vessel, but was transferred into the Canadian registry last spring, and was operated by Montreal parties. The vessel was an old timer, being built at Cleveland in 1886, and rebuilt at Detroit in 1902.

VERY ROMANTIC.

The young girl was greatly excited. "I am told you once met the great composer Rossini," she cried. "Yes," said the old man, "I met him once." "You met the great composer of 'William Tell'?" "The same."

How grand! How romantic! And would you please tell me what he had to say?"

"Well, he didn't have very much to say. He was eating spaghetti at the time and you know that facilitates conversation."—Kansas City Journal.

Roman Catholics to Build Own Schools in Winnipeg

However, Proposal is That Public School Board Will Lease Buildings and Administer Schools—Arrangements Appear to Satisfy Both Sides.

WINNIPEG, Sept. 17.—(Can. Press.)—At the recent session of the Manitoba Legislature an amendment to the Manitoba school law was introduced by Hon. G. B. Caldwell, minister of education, and enacted, having the effect of permitting the segregation of Roman Catholic children in separate school-rooms under the public school system. Out of this has grown the proposition that the Winnipeg Public School Board shall lease over the parochial schools maintained in this city by Roman Catholics.

Heavy Drinker Cured

Samaria Cured Him and He Helps Others.
A man who has been released from the awful cravings of drink and whose first thought is to help others, knows the spirit of true brotherhood and philanthropy. Read his letter: The Samaritan Remedy Co., Toronto, Ont.

STAMINA

Samaria Prescription is tasteless and odorless, and dissolves instantly in tea or coffee, or can be mixed with food. It can be given with or without the patient's knowledge. It removes the craving for drink, builds up the system and restores the nerves. Drink becomes distasteful and even nauseous. One drink of whiskey always invites another. The inflamed nerves and stomach create a craving that must either be satisfied by more whiskey or removed by scientific treatment.

PREFERENCE IN EMPIRE TRADE

Duke of Westminster Announces Important Propaganda at Meeting of British Motor Car Makers.

LONDON, Sept. 17.—(Can. Press.)—Twenty leading British motor manufacturers discussed a campaign to oppose the American invasion at a luncheon given today by Ralph D. Blumenthal, editor of the London Daily Express, which is promoting a movement against American automobiles.

The formation of a big British corporation for the combination of existing companies and the establishment of a protective tariff were the definite plans proposed. Several of the manufacturers made speeches, in which they all agreed that the British factories and workmen should supply the home market with low priced machines, many thousands of which are now coming to England from America.

A letter sent by the Duke of Westminster, read at the luncheon, discussed the fact that the imperial preference league is raising a fund of \$2,000,000 to be used in preparing a propaganda in favor of an imperial tariff and an imperial preference scheme, which would give some of the colonial market to British manufacturers.

There was much talk of gaining the colonial market. A difference of opinion prevailed regarding the quality of American low-priced cars. S. P. Edze, a well known automobilist, contended that the British stopped an invasion of American bicycles and boots by including better articles, but that American cars were in a different class.

EAST INDIA GAZETTE

Two Autograph Volumes Presented to Military Institute.

Major Orlando Heron and James W. Barry have presented the military institute with two autograph volumes of the East India Gazette, which belong to the illustrious Anglo-Indian general, Sir Charles Napier, conqueror of Sind.

In 1841, when the Duke of Wellington was asked to name three general officers in India, the Iron Duke said: "Send Napier. Send Napier. Send Napier."

"Send Napier. Send Napier. Send Napier." was sent and conquered Sind. The story is told that when he had done this he telegraphed his chief of staff, "Send Napier."

DEER WEATHER THROUGHOUT WEST

Prospects for Completion of Harvesting and Threshing of Best Despite Touch of Frost.

WINNIPEG, Sept. 17.—(Special.)—The weather today was much warmer than it has been for the last three or four days, and was ideal for the remainder of the harvesting and threshing. The majority of the places heard from report clear, bright skies, with field operations progressing satisfactorily.

Frost appeared at a large number of points in Saskatchewan and Alberta last night, with six degrees reported at Coronation, Alberta, and Moose Jaw, Sask. There were heavy frosts over northern Manitoba, but none in this vicinity, and south to the boundary high temperatures prevailed.

Threshing is completed on the farm of McLennan and Stevens, adjoining the Town of Portage la Prairie. Threshing machines show the crop as being thirty-nine bushels to the acre and the elevator weighs forty pounds of No. 1 northern quality. The whole of the portage plains, it is expected, will show similar results.

543,000 DIDN'T VOTE

Eastern Province Did Better Than Western on Sept. 21.

OTTAWA, SEPT. 17.—A blue book giving final details of votes cast in the general election of September 21 last shows that out of a total of 1,350,000 voters on the lists of the nine provinces, 1,307,528 exercised the franchise.

In Ontario the actual vote cast was 480,572 out of a total qualified list of 692,455. In Quebec 324,039 out of 455,288; Nova Scotia 113,000 out of 136,994; New Brunswick 79,078 out of 101,112; Manitoba 37,886 out of 53,588; British Columbia 43,553 out of 53,081; Saskatchewan 89,443 out of 124,414; Alberta 69,775 out of 107,228.

The figures show that in all five eastern provinces the vote was more largely recorded than in the four western provinces.

Three Months in Central

Henry Tilly Sentenced for Shooting With Intent.

For firing a shot into the leg of John Jones at 283 Church street, Henry Tilly received a sentence of three months in the central prison. Tilly had not been at his home for three years, but decided to spend a week with his mother. During this visit, Jones had some hot words with Mrs. Tilly, and during the meal, the son threw the revolver and fired. Detective Taylor placed the man under arrest on Monday night. At that time Tilly still had the revolver in his pocket, and the jury found that he was a fending his life.

RESCUED "OLIVER MOWATS" CREW.

KINGSTON, Sept. 17.—(Special.)—The schooner Oliver Mowats, the oldest schooner running out of this port, was aground on Yorkshir Island, Lake Ontario, in a heavy fog this morning, and members of the crew had to be taken off in a yawl boat.

The schooner was running light on the way to Oswego to load coal. The steamer Donnelly of the wrecking company was sent to raise the vessel. Luckily no lives were lost.

LICENSE INSPECTOR QUILTS.

DURHAM, Sept. 17.—(Can. Press.)—Thomas Davis, South Gray's license inspector, has resigned his post, his duties to cease on October 1. The pay allowed for the position and the dissatisfaction of the temperance people, who claimed that he was not doing his full duty, were the chief causes of the resignation.

TRUE BILLS RETURNED

The grand jury of the criminal sessions yesterday returned the following true bills: Michael Abraham, theft and receiving; Frank McCarron, theft and receiving.

A no bill verdict was returned in the charge of criminal negligence against Barney and Hannah Brice. The charge was that the couple did not take the necessary care of a female child, three hours old, while in transit from Coburne to Toronto on Aug. 19 last.

Seven Thousand Men Building Smaller Six Cylinder Packard

The Packard motor carriage shops have been turned over to the new model—an unparalleled concentration of energy and resources to complete the production of Packard "38". Perhaps you were among the hundreds who wanted a Packard "48" and spoke too late. The output of that model for summer and fall was practically sold out six weeks after the spring announcement. Now you have an opportunity to reserve an early delivery date for the new "38", consort of the Dominant Packard Six. In road efficiency, ease of riding and luxurious appointment, the smaller six typifies Packard quality.

Left drive and control; electric self starter. Starting, lighting, ignition and carburetor controls on steering column. Sixty horsepower shown by brake test.

Real Estate and Building--News and Opportunities

McMASTER BUYS 30-ACRE SITE

University Will Erect Half-Million-Dollar Building at Avenue Road and Eglinton Avenue.

McMaster University has purchased the Loreto Abbey, about thirty acres at the northwest corner of Eglinton Avenue and Avenue Road as the site of a new half million dollar building. The University of Toronto is known to be after the present McMaster structure for a residence.

Money Scarce And Real Estate Is Affected

The tightness of money is having some effect on realty purchases, particularly of properties to which there is a speculative side. Sales of house properties appear to be very numerous even for this season of the year, and this despite the difficulty often encountered in raising money on mortgages. Rates are higher than at any time in the year. The big discounts at which fifty per cent mortgages can be secured are causing many investors to enquire into this form of investment.

Offer City Property for East End Park

The south half of Monarch Park, about ten acres, which was left intact in the process of subdividing, has been offered the city by Tanner and Gates at a price below offers from private sources. This part of the property, from which there is a fine view over the surrounding country and the lake, did not lend itself readily to development, being cut by a ravine, and so was not platted out. It is heavily wooded.

HYDRO APPEALS ITS ASSESSMENT

Commission Claims to Be Exempt, But City Contends That Business Should Be Taxed.

Whether or not the Hydro-Electric Commission is liable to assessment on its property in the city, formed the basis of argument between A. F. Lobb, K.C., for the commission, and the court of revision yesterday afternoon.

—22 Bid for Vipond—Buffalo
Quotation Advances 15 Points
—Clifford Up at 5 3-4 Bid.

Cobalt Lake continued its ascension today. It sold up early in the morning to 35, the highest mark yet, and a bid was offered at that figure with 3 1/2 bid. A little stock of Peterson Lake was sold on the market, and the price went down to 7 1/2, being offered at a quarter on the close. The bid in the market was passed on the close to 6 1/2. The market was quiet, and the price of the stock was offered under 7. The bid for Vipond was up, selling at 12.45. It closed at 12.40 bid.

TIME BRINGS CHANGES IN WALL STREET

NEW YORK, Sept. 12.—Those who follow the speculation in the depleted "cats and dogs" should consider the changed situation of the industrial concerns. Most of the companies whose stocks have advanced of late are now in a position of considerable strength. They have weathered periods of depression, and have strengthened their position by increasing their efficiency and introducing improvements and economies in the process of manufacture. There are, of course, a few companies whose stocks have not yet reached the test of bad times, but most of the industrials have.

NEW YORK, Sept. 12.—Once more an official denial of a statement that the C.P.R. and the Allan Steamship Lines had merged has been issued here. This time Mr. Andrew Allan has been responsible for the contradiction, and the cause of it was a report of the merger which had been published in the London papers. Mr. Allan said all the talk about the C.P.R. and the Allan Lines had been caused by their entering into a mutually satisfactory arrangement in regard to the handling of business at St. John, N.B., in the winter.

DOMINION IRON DIVIDEND.

There is Merit in a Name

When it stands for quality of materials and priority of style in Men's Clothing.

Our tailors have correctly designed and carefully built our suits and overcoats to meet exactly the wants of the average man who insists on being becomingly clothed.

They have caught the fashion wave as it is shown to us by the English tailors, many of whose best productions are included among our new stocks.

Men's Fall Weight Overcoats

These coats are English in materials, and in many cases English made, with a London trade-mark upon the m.

The "Salon" Rug

Exquisitely delicate French effects for drawing room and reception room. In the production of these beautiful rugs the finest designs and colorings of the most costly French Savonnerie and Aubusson Tapestry Rugs have been copied in every detail. They are woven entirely in one piece in the most delightful color combinations, such as rose centre with grey borders, pastel greens, with very soft tans, and the gray blue; also delicate tan grounds, in handsome medallion designs. There are no other rugs, except the original hand-made pieces, which convey so accurately the inimitable French treatment of their own period work, as do these beautiful "Salon" Axminsters, and considering their splendid quality and unusual merit the cost is exceedingly small.

8.3 x 11.6.	Priced	\$48.25
9.0 x 10.6.	Priced	\$48.25
9.0 x 12.0.	Priced	\$55.00
9.10 x 13.2.	Priced	\$64.50

THE "YAPRACK" RUG

Handsomely rich Oriental designs and colors, in a hard-wearing Saxony pile rug, for dining-room, library, hall, etc. This rug, amongst the high-class reproductions of the Oriental, is, perhaps, the most eminently satisfactory, on account of its wonderful durability. It is made of a long, twisted yarn, which, when woven, gives the tufted effect of the hand-made fabric, and a wonderful richness and lustre to the colors employed, which are all mellow and subdued, and yet have great warmth. These are priced as follows:

9.0 x 10.6	\$45.00	9.0 x 12.0	\$52.50
