THURSDAY MORNING MAY 23 1918

VOL. XXXVIII—No. 13,707 TWO CENTS

NAVAL EXPLIIT BY ITALIANS
RANKS WITH ZEEBRUGGE RAID

One of the Most Audacious
Feats of War, When Aus-
trian Battleship Was Tor-
pedoed in Pola Harbor.

Italian Naval Headquarters, May 22.—
The details of the recent Italian
naval exploit at Pola show that it was
one of the most audacious feats of the
war, worthy to rank with the British
raid at Zeebrugge. Plans were long ma-
de by Lieut. Commander Pellegrini, who
adopted unusual means of secrecy to
execute the project. To divert attention
he took service in the trenches on the
Pavee, and when ready to start gave out
that he was going to visit his friends. He
was accompanied by another officer and
two sailors.

The party was escorted by destroyers
and arrived at Pola at 2 o'clock in the
morning. It was dark, and a light
wind blew off shore, which pre-
vented the sounds of preparation
going landward. The entrance of the
channel was 400 yards across, with a
long neck leading into the great har-
bor, in which lay Austria's fleet of
battleships, cruisers and destroyers,
enshrouded by a frowning terrace of land
batteries.

In the obscurity the guardship at
the entrance was dimly visible swung
to one side, the guards apparently
asleep. There was complete lack of
watchfulness.

Final preparation was now made for
a dash in the darkness. Commander
Pellegrini and his companions put on
rubber suits which could be inflated.
The plan was to discharge torpedoes
at the big ship, turn overboard and
wait for capture or drowning. All realized
that there was practically no chance
of returning alive.

Commander Pellegrini was perfectly
cool as he made good-bye to his superior
officer saying, "You are putting your
head in the lion's mouth."

Three destroyers were ordered to
follow the line of defense. First a
guard ship, then a line of wooden
barges marking a chain of mines, and
then a heavy steel net strung from
bank to bank. How they were able
to penetrate these obstructions must
remain a mystery, but it was apparently
an impossible barrier.

An escort waited almost an hour,
when the silence was suddenly broken
by two distinct explosions of torpedoes,
followed by the sound of an
alarm gun in the inner harbor.

In Heart of Fleet.

Soon after 10 o'clock a party of partic-
ularly steady rowers from the
centre of the harbor, showing that
Commander Pellegrini had penetrated
to the very heart of the fleet and
was sending signals from the midst
of it.

The first signal meant, "Have torped-
ed a battleship," and an escort
said, "Don't mind us; we have no
chance."

This last signal was the agreed
emergency sign which was to be sent up
in case there was no opportunity to
give help. It is believed that they
blew up their craft and took to the
water in accordance with the pro-
gram, as an explosive time bomb had
been set to go off even if the craft
was under water.

Commander Missing.

In the meantime, the sky was vivid
with searchlights and the land bat-
teries were pouring a terrific fire on
the escort. They clung to their work
for a time and then left, with 40
searchlights and countless batteries
playing upon them.

As daylight broke a fleet of enemy
airplanes swooped down, but was
beaten off by a smaller number of
planes, three enemy machines falling
into the water during the aerial bat-
tle.

No word has since been heard of
Commander Pellegrini and his party.
Their signal was definite that a ship
had been hit and aerial photographs are
expected soon to confirm their mes-
sage. There is every reason to be-
lieve that the four men are prisoners.
In any event, their associates and the
country greet the fearless band as
heroes who have reflected lasting
glory on the skill and daring of the
Italian navy.

SHIPPING LOSSES.

Enemy Submarines Destroyed 220,709
Tons of British Shipping in April.

London, May 22.—The admiralty
official statement gives the losses to
British, allied and neutral merchant
tonnage due to enemy action and
pirates in the British Isles on follows:
British, 220,709 tons; allied and neu-
tral, 84,393 tons; total, 305,102. Clearances
in and out of ports, 7,040,309 gross
tons.

GEN. TURNER QUITS.

C. A. P. Cable.
London, May 22.—The following
official announcement appears in the
London Gazette: Lieut.-General Sir
Richard Turner ceases to be general
officer in command of the Canadian
forces in the British Isles on the ap-
pointment of a chief of general staff
of the overseas militia forces of
Canada.

AUSTRIANS GERRYMANDER BOHEMIA
TO DEPRIVE CZECHS OF RIGHTS

New Plan Puts German Minority in Control, Tending
to Dismember Country—To Provoke
Violent Opposition.

Washington, May 22.—Division of Bohemia into twelve districts,
with advantages in the electoral domain given to the German minority
in each so as to reduce the Czech representation in parliament, is pro-
vided in a ministerial decree issued at Vienna.
This decree is undoubtedly a policy of repression, the first act of
which tends to dismember Bohemia by granting to the German elements
the guarantee which they claim. Up to now, indeed, Bohemia com-
prised 13 districts, two of which only had a majority of German popu-
lation, according to statistics from Vienna. In four of these districts
there are hardly any Germans.

The new plan aims at creating in each of the twelve districts a
German minority, and to grant to this minority considerable advantages
in the administrative and electoral domains. It is clear that this de-
vice of the pan-Germans is bound to arouse the most violent opposi-
tion on the part of the Czechs.

DUBLIN'S LORD MAYOR
MAY ABANDON U. S. TRIP

Dublin, May 22.—The Mansion
House anti-conscription conference
resumed its sittings today, and after a
session of two hours adjourned until
tomorrow, when a further statement
will be issued.

A possible hitch in the arrangements
for the lord mayor of Dublin's visit to
Washington is being discussed in the
political circles of Dublin. It is il-
legal, under the Defence of the Realm
Act, to transmit communication with-
out permit otherwise than through the
censored postal channels. If this re-
quirement should be insisted upon in
the lord mayor's case it would be ne-
cessary for him to submit this docu-
ment for approval to the British Gov-
ernment before carrying it to Presi-
dent Wilson. It is very unlikely that
he will be willing to do this, and it
is regarded as possible that the pro-
posed visit will be abandoned.

ENEMY-OWNED COTTON
SOLD AT NEW YORK

New York, May 22.—A large supply
of enemy-owned cotton, purchased
for German and Austrian account
prior to 1916, in anticipation of the
conclusion of peace before the end of
that year, was sold at the cotton ex-
change here today by order of A.
Mitchell Palmer, custodian of alien
property.

Most of the staple sold at from
37 1/2 cents to 38 cents a pound, but
about 200 bales were knocked down
at 29 1/2 cents. It is estimated that the
total sum realized from the sale was
about \$750,000.

Plans for Military Hospital
In Rosedale Near Completion

The World learns on good authority
that the plans for the new military
hospital to be installed at St. An-
drew's College are well advanced, and
that they will be ready and forwarded
to Toronto from Ottawa within the
next two weeks. The government has
finally decided to take over the prop-
erty, and it is said that an agreement
has already been reached between the
minister of public works and the
owners of the property.

DOMINION POLICE
PREPARE BIG RAID

No Man Will Be Secure From
Arrest Without Docu-
mentary Evidence.

Plans are now being made by the
Dominion Police of Toronto to ensure
the observance of the regulations ef-
fective June 1, which call for all men
of military age carrying with them at
all times credentials to show how they
stand in regard to military service.
The Dominion Police announce that
they will start "raiding" operations
in Toronto on a large scale early in
the month of June with the object
of gathering in any men who fail
to obey the regulations about
carrying credentials.

Attention is again drawn to the
order which provides that a man found
without the necessary papers will have
to pay a fine of \$50, be held in custody
until the papers are furnished and is
the object of gathering in any men who
fail to obey the regulations about
carrying credentials.

CHARGES CONSPIRACY
IN SOLDIERS' VOTE

Member for Westmoreland Makes
Specific Accusations in
the Commons.

A JUDICIAL ENQUIRY

Doherty Promises It in Con-
nection With Specific Charges
By Archambault.

The amendment was lost by 31 on
a straight party vote of 61 to 32.

Ottawa, May 22.—Denise charges
by Mr. C. J. Doherty, member for
Westmoreland, of grave irregularities
in connection with the taking of the
soldiers' vote at the last general elec-
tion, which it is anticipated will be
the semi-final session of parliament
today. Despite the long and particu-
larly heated debate precipitated by Mr.
Copp's allegations, which he made up-
on his own responsibility as a member
and the fact that considerable busi-
ness still remains to be dealt with,
the members expect prorogation to
take place Thursday evening.

The member for Westmoreland
coupled with his specific charges,
which were thirty-two in number, a
demand in the form of a formal mo-
tion for an inquiry conducted by a
judge of court of superior jurisdiction
and two counsel, one to be named by
Sir Wilfrid Laurier and the other by
Sir Wilfrid Laurier. The motion was
seconded by J. Archambault of Cham-
bly-Verchères.

The charges included allegations
against the officers who conducted the
election, more particularly in England,
the assertion being made that a con-
spiracy existed with the object of en-
suring the return of candidates sup-
ported by the government. It was as-
serted that opposition scrutineers were
prevented from attending polling
booths or were forcibly removed from
a polling booth and some in many
instances a large fraudulent vote
was being taken; that the questions
which soldiers were asked were filled
in by officers; that the ballots were
being counted wads of ballots that
could not have been put thru the ap-
erture provided, etc., etc.

Mr. Copp based up on the
fact of the taking of the soldiers' vote
from soldiers who acted as deputy-
scrutineers and others, many of
which were taken by the soldiers' vote
scrutineers.

Government's Reply.

Hon. Martin Burrell, who replied
for the government, expressed sur-
prise that the motion should be
brought up at a late stage in the ses-
sion with this matter, more particu-
larly in view of the circumstances
that, apart from the soldiers' vote,
the motion could have been re-
turned. He reviewed the accusations
against officers, and thought it singu-
lar that the charges should be
brought up at a late stage in the ses-
sion, where Mr. Preston was the
chief Laurierite scrutineer. Mr. Pres-
ton, he said, was a strong partisan
of the government, and was naturally
suspect.

The minister said that, while it was
possible, there had been some irregu-
larities, there had been insufficient
notice of voting or impersonating to
justify the suspicion of a dark con-
spiracy.

Mr. Archambault, in seconding Mr.
Copp's motion, declared that 17 offi-
cers and 700 men in training at St.
John's, Que., had transferred their
votes to Chambly-Verchères. They
had stated on their ballot papers that
they could not use their place of
residence, but that it was their desire
to have their vote recorded in his
constituency.

Hon. C. J. Doherty, minister of
justice, speaking after midnight, said
that after the house had disposed of
the motion in the usual parliamentary
fashion, it would be a judicial investi-
gation into the allegations of Mr. Archambault in regard to
Chambly-Verchères.

"When," queried opposition mem-
bers, "as promptly as possible," the min-
ister replied.

Mr. Doherty expressed regret that
members of the opposition had observed
statements made by Mr. Archambault,
which, if true, meant that certain sol-
diers had proved themselves to be un-
worthy. He said that Mr. Archam-
bault if in possession of information as
to irregularities should have placed
his information in the hands of the
proper authorities, and that it would
be no wise or advisable to grant
the larger inquiry demanded by the
motion, and which related primar-
ily to the election in England and
France.

Replying to a question by Sir Wil-
frid Laurier, the minister of justice
said that all specific charges such as
those made by Mr. Archambault will
be promptly inquired into.

nificent choice of men's hats and
caps to be found in the
city. Our prices represent
the best value.

GERMANS FAIL IN ENDEAVOR
TO TAKE BRITISH POSITIONS

Attack Near Messil is Repulsed, While
British Carry Out a Successful Raid at
Hebuterne, Inflicting Heavy Casualties.

London, May 22.—The Germans made another attempt today to raid
the British positions near Messil, but were repulsed, according to Field
Marshal Haig's report tonight from British headquarters in France. The
British carried out a raid on the German positions around Hebuterne, with
heavy casualties to the Germans. The report says:

"Early this morning the enemy made a second attempt to raid our
positions southeast of Messil (north of Albert), but was repulsed.

"Another successful raid, in addition to those reported this morning,
was carried out by us last night in the neighborhood of Hebuterne. Heavy
casualties were inflicted on the enemy in these encounters, and we cap-
tured a few prisoners.

"On the remainder of the front there was nothing beyond artillery
activity on both sides in the different sectors."

TOO BADLY BEATEN
TO RESUME DRIVE

Shattered German Divi-
sions Need Much Time
to Recoup.

Washington, May 22.—The
long delay in renewal of the
German drive in Picardy and
Flanders is variously accounted
for by officials of the war de-
partment, among whom it has
come to be a subject of ani-
mated discussion.

The most generally accepted
explanation is that German di-
visions engaged in the first
phases of the battle were so
badly shattered that it has taken
time to restore them to fighting
form.

DIRECT VIOLATION
OF CONSTITUTION

Secretary of Railway Carmen's
Brotherhood Strikes Note of
Discord in Winnipeg Strike.

STREET RAILWAY TIED UP

Approximately Ten Thousand
Men Are Out and Fifteen
Thousand More Expected.

Winnipeg, Man., May 22.—The first
clear note of dissension within the
ranks of the strikers in Winnipeg is
struck today with the publication of
a letter to The Free Press from Henry
Pickett, secretary-treasurer of the
joint executive board, Brotherhood of
Railway Carmen of America, in
which the official states that the
strike vote passed by the railway
carmen in Winnipeg recently is a di-
rect violation of the constitution of
the union and that local and interna-
tional officials of the carmen will
oppose the calling out of the carmen
here. Mr. Pickett states that half
the carmen will not walk out now;
the call should be issued.

Following on the announcement
that the International Typographical
Union strongly condemns the resolu-
tion that Winnipeg types small strike
in sympathy with other unions, it
presents a new phase of the ques-
tion for the labor unions now strik-
ing in Winnipeg. The carmen and
the typographical men both are among
the strikers who are expected to
call a strike at the desired moment.

The trouble, which so far affects only
the employees of the G.N.W. opera-
tors and linemen, arose originally from
the decision of the company to appoint
endosors of the men to join the ranks
of union labor, and specifically from
its determined refusal to reinstate the
Toronto men recently dismissed from its
service.

Another corporation in Canada and still
another one of the largest of its kind in
the United States, are facing the same
problem with equal possibilities for the
future.

Toronto

Toronto Typographical Union elects
officers for the year.

Metropolitan Masonic Lodge is in-
stituted in North Toronto.

Club licenses and licenses for second-
hand shops are increased.

Archie Healey is found in a semi-
conscious state lying in a park.

A lighted cigarette causes a small fire
at Grand Opera House during performance.

The telegraphers of the G.N.W. and
Commercial Union vote solidly for a
strike.

St. Andrew's College Cadet Corps are
reviewed by Lieut.-Col. W. A. McCrim-
mon.

The Ontario Government arranges for
supply of standard feed for hogs and
cattle.

The program for the memorial services
at Queen's Park and the order of parade
of veterans is announced.

Toronto sends a large delegation of
veterans to the provincial conventions
opening at Hamilton today.

The city council will hold a special
meeting today to clear its slate and
health estimates may be discussed again.

A party of twenty officers and nearly
a hundred men have arrived by Halifax
and are expected in Toronto some time
today.

Canadian wool growers are still waiting
on the manufacturers or the war trade
board to make some definite announce-
ment regarding the season's clip.

MASSES OF ENEMY
READY TO STRIKE

German Thrust is Expected
With Only Brief Artil-
lery Action.

AIRMEN MOST ACTIVE

Events Rapidly Shaping
Themselves for Offensive
by Either Side.

Associated Press War Summary.

In the past years of the war a period
of extraordinary activity by the
aerial squadrons of the contending
armies in France has been considered
as an indication that events were
rapidly shaping themselves for an of-
fensive by one side or the other. At
the present moment the most notable
feature of the war situation is the
remarkable work of airmen in various
sectors where a German attack is
looked for.

This activity has not been restricted
to the actual battle area, but far
back of each front there have been
daring raids. The Rhine cities are
being frequently bombed, while Paris
has again been in danger of a new
German attack from the air.

The German plans for a resumption
of the offensive in France have been
seriously hampered by the sudden
blows of the allies here and there
along the front. The Germans have
been forced back at various points
and new lines, which may be more
easily defended, have been established
by the allied nations.

French Gain Ground.

The French have been working in
various sectors, particularly in the
Somme region. They have gained
ground here and there at points where
positions of tactical value were
wrested from the Germans.

Further north the British front has
been fairly quiet, with tremendous
bursts of artillery fire coming at in-
tervals. The German official state-
ment says that German attacks at
various points were repulsed.

Reports from the headquarters of
the French army are to the effect
that there has been a redistribution of
German troops along the entire front.

A German attack is expected soon,
probably in the Somme region, near
Albert, or on the Aves River, where
the German cannon have been thun-
dering for several days, but so far
the German general staff has not
shown its hand.

It is known that there are great
masses of troops within striking dis-
tance of the front, and it is believed
that when the enemy is ready to strike
there will be only brief artillery fire
as a prelude to the actual assault by
his infantry. The last report from the
French war office mentions heavy ar-
tillery fire in the Somme region and
at Flanders, near Ypres, where there
was terrific fighting early in April.

RUMANIAN PEACE HELD
TO BE NULL AND VOID

Paris, May 22.—An official note has
been issued giving the reply of the
French, British, Italian and American
ministers to a letter from Constanti-
nople, the Rumanian foreign min-
ister, informing them that peace has
been signed between Rumania and
the central powers.

The four ministers say that while
they must leave to their governments
the exact definition of their point of
view, they are obliged to declare that
they consider the stipulations of the
treaty null and void "as contrary to
principles, the violation of which com-
pelled the entente to take up arms, as
well as the rights of the powers we
represent."

LONDON MAN BADLY BURNED.

London, May 22.—Henry Littleton,
a laborer employed in the munition
plant of the Empire Brass Works, was
so badly burned when a pot of molten
lead exploded that he is not expected
to recover.

PREMIER ATTENDS WOMEN'S INSTITUTE

Sir William Hearst Addresses Peel County Workers at Brampton.

There was beautiful weather for the annual meeting of the Peel County Women's Institute and an encouraging attendance in attendance.

The following officers were elected: Honorary president, Mrs. Dorrington, Alton; president, Miss Beattie, Port Credit; first vice-president, Mrs. Hodgkiss, Clarkson; second vice-president, Mrs. Meek, Alton; third vice-president, Mrs. G. Graham, Brampton; secretary-treasurer, Miss Susie Campbell, Port Credit; assistant secretary-treasurer, Miss McIntosh, Brampton; auditors, Mrs. Hobberton, Port Credit; and Mrs. Knappan, Brampton.

The financial report is most encouraging, \$9,611.97 being the receipts for 1917 and 1918. The total membership is 868. The total donations to the blind soldiers' fund from all the branches was \$305.45.

The late Mr. Tucker was one of several men employed by the Canadian Pacific Railway Company in repair work on bridges and culverts. Their working and sleeping cars are stationed near the works of the Roman Stone Company on a siding on the outskirts of the town.

WAR SUMMARY THE DAY'S EVENTS REVIEWED

On the British front the heavy fighting still delays. Only active raids are proceeding. One attempted by the enemy yesterday, 2000 men, several attempted by the British succeeded near Arras, Ypres-Comines Canal and Hebuterne.

In their local operations the allies have been driving many little wedges into the German line so that the tiefront in many places resembles a saw. The teeth of this saw rest on spurs, knolls, hillocks, and ridge positions, so that they dominate the enemy positions on the lower level ground.

The driving of these wedges shows that the allied policy is the old one of offensive-defensive. The sudden resort to this policy on the new lines betrays a doubt in the mind of General Foch that the enemy is going to resume his offensive on the lines where he has failed; whether he is going attacking the allies in a new quarter, or whether he is going to remain completely on the defensive in France and Belgium, or is going to reinforce the Austrians for their Italian adventure.

The allies have so defeated the enemy in the air that he will fight on

YORK COUNTY AND SUBURBS

Weston NO CLUE IS FOUND TO WESTON MURDER

Not Even a Suspicion is Discovered Upon Which to Work.

The murder mystery of Sunday night last when George Tucker was stabbed to death while he lay in his bunk in a sleeping car, remains unsolved for the present.

The late Mr. Tucker was one of several men employed by the Canadian Pacific Railway Company in repair work on bridges and culverts.

It is thought he went immediately to his bunk and lay down to rest. At 10.30 a fellow workman returned to the car, after spending the day in the yard, and seeing Tucker in the bunk tried to arouse him, only to discover that Tucker was dead.

Socialists Active Allied Camp Wants Swedish Leader to Call Conference at Berne.

Amsterdam, May 22.—The Socialists of the entire powers, according to Peter Troelstra, the Dutch Socialist leader, have invited Hjalmar Branting, the Swedish Socialist leader, to call a new Socialist conference at Berne.

Pinland has received notice from the allied governments that any move to seize the Mourman railway, from Kola to Petrograd and Moscow, will be a breach of neutrality.

The Russian policy of the allies is developing. They are going to open fronts from the Arctic, the Pacific and the Indian Oceans.

The effects of the allied and pan-Slav propaganda in Bohemia, aided by hunger, have made the Austrian Government resort to repressive measures. Vienna is in a state of political excitement of redistributing the seats in Bohemia so as to allow the German minority to return to the majority of members to the Austrian diet.

The full story of the recent naval raid on Pola shows that Italy has a surprisingly efficient navy. Since the German capture of the Russian Black Sea fleet and shipping, the allies have to guard more closely the Dardanelles to prevent the slipping of armed raiders out into the Mediterranean.

The allies have so defeated the enemy in the air that he will fight on

Earls court GREATER INTEREST IN CHILD WELFARE

Earls court Women's Institute in Annual Session.

LADY EATON SPEAKS Col. Nasmith Gives Address on Problems of Health.

The sixth annual Women's Institute and Child Welfare exhibit was in Earls court Central Methodist Church Wednesday and was opened tomorrow.

On the platform with Mr. Bryce, were Lady Eaton, Col. G. G. Nasmith, C.M.G., Th. D., Mrs. Nasmith, Mrs. Wallace Barrett, and Alderman Brooks Sykes.

Health and Disease. Col. Nasmith gave an address on present day health. He spoke of the prevalence of disease in all walks of life.

He further stated that more diseases would be found in 100,000 civilians than in 100,000 soldiers.

West Toronto AN UNTIMELY DEATH.

Mr. and Mrs. Ross Milne Loss Their Only Child.

Minnie Kathleen Milne, the only child of Ross and Mrs. Milne, died yesterday at the home of her mother's uncle, John Shaw, 207 Medland street, at the age of 14.

WESTERN AVENUE CONCERT.

A concert in aid of the Red Cross was given yesterday afternoon by the teachers and pupils of Western Avenue School, Miss Mary E. Cherry, principal.

LAUNDRY TRUCK HITS CAR.

While Charles Baughman's car was standing on Mavelly street, near Dundas street, it was struck yesterday by a New Method Laundry truck, driven by Victor Hall, 324 East Dundas street, ran into it, and a great quantity of laundry was scattered.

WORKMAN HURTS FOOT.

George Lou, 18 Feignmouth avenue, North Eastcourt, an employe of Fairbanks-Morse Co., had his foot badly cut by the factory yesterday afternoon about five o'clock.

VICTORIA LODGE MEETS.

West Toronto Masons Have Visit From High Official.

Danforth MARKET FACILITIES BEING CRITICIZED

Ratepayer Says Produce Should Come From Greater Distance to Toronto.

"It is time the city council made a greater use of our civic market by operating in a much larger capacity than at present," said Albert Hanna, a member of the Danforth Ratepayers' Association, yesterday.

"I ask you, this week-end, to make a distance of from 50 to 100 miles," said Mr. Hanna, who added that there was no reason for the consumer to be compelled to pay two classes of whole sale prices in order to get his food supply.

Health and Disease. Col. Nasmith gave an address on present day health. He spoke of the prevalence of disease in all walks of life.

METHODISTS ELECT LAY REPRESENTATIVES

Lay representatives of the eastern section to the annual conference of Methodists were elected at a meeting held in Danforth Methodist Church auditorium, Danforth avenue, yesterday.

Metropolitan Lodge, U.D., A.F. & A.M., was instituted last night in the York Masonic Temple, corner of Yonge street and Eglinton avenue.

WOODMEN'S ENTERTAINMENT.

Riverdale Camp Honors its Departing Clerk With Presentation.

Swiss Government Signs New Treaty With Germany

Berne, May 22.—After amicable negotiations to France, the Swiss Government resolved today to sign the new treaty with Germany by which Switzerland would be provided with German coal until January 31, 1919.

### OVER ONE HUNDRED MEN ON WAY BACK

Twenty Officers and Men Arrive at Halifax From War Zone.

A contingent of over 100 returned soldiers has arrived in Halifax and is expected to reach Toronto some time today. Twenty members of the party are officers. The list of those returning is announced as follows: Major R. J. Armour, 98 St. George street; Major P. E. Boyde, 112 St. Clair avenue; Lieut. C. H. Briscoe, Howard street; Lieut.-Col. Cutcliffe, 93 Dufferin avenue; Lieut. Col. Emsley, Whitby; Major T. R. Loudon, Toronto; Lieut.-Col. McLeod, Whitby; Lieut. J. G. S. Morris, 832 Dovercourt road; Major W. F. Newman, 28 Palmerston avenue; Brantford; Captain J. E. Oxley, 27 Delsie avenue; Capt. E. D. Pennington, Dundas; Lieut. Poock, 75 Badgerow avenue; Lieut. D. Roden, 1 Clarendon crescent; Capt. J. T. Stritret, 589 Sherbourne street; Major H. A. Stewart, 32 Hess street, Hamilton; Lieut.-Col. Sharpe, Uxbridge; Lieut. G. E. Street, 62 Dufferin avenue; Brantford; Capt. L. T. Trump, 5 Balmi avenue; Capt. W. T. Tall, General Postoffice, Toronto. Following are the Toronto men on the list: W. E. Atkins, 134 Arundel; J. A. Armitage, 139 Oiler; T. Bell, 25 Luttrell; J. Bennett, 3 Burnfield; P. Borwick, 165 Lansdowne avenue; W. E. Boniface, 33 Albany; D. Boyd, 65 West Lodge; A. Bjowa, 12 Candor; W. Britton, 221 Bee; A. Burton, 518 Rose; J. Borketh, 221 Gerrard; H. Cousins, 21 Moscow; W. Cross, 66 Edgewood; J. Davey, 95 Carlaw; T. Davidson, 313 Crawford; S. Dahoney,

682 Ontario; G. Donatt; A. Douglas, 548 St. Clarens; G. Dennis, 1 Brant place; D. Doo, 415 Ashdale; H. Emmett, 166 Dovercourt; R. E. Endicott, 248 Bellwoods; D. Forrester, 1190 West Queen street; J. P. Gury, 64 Northport; S. Gower, 1 Woodstock; A. Gray, 456 Church; W. Henson, 24 Dupont; W. H. Horton, 144 First; L. Hozack, 546 Lansdowne; T. Hielditch, 730 Brock; S. Hinesfarb, 124 D'Arvy; E. Home, 226 Poplar Plains; R. Harbord, 10 Randolph; Hubbard, 113 Victor; H. Hassott, 208 Poplar Plains; A. Jackson, 42 Rose; E. Le Charles, 285 Parliament; A. Larington, 54% Homewood; H. Langley, 88 Stafford; C. Malacride, Simcoe street; R. Marshall, 145 Linden; A. J. McDermid, 55 Glenville; T. T. McConnell, 15 Curzon; J. P. McLennan, 146 Hamilton; A. McMillivray, 67 Alexander; W. G. McCallum, 2 Annette; G. McDonald, 118 Sherbourne; R. Heil, 523 Willard; K. Oldfield, 19 Dugwell; H. Porter, 13 Florence; L. H. Jurdy, 77 Lewis; H. Purvy, 204 Shore; R. W. Pringle, 42 Maitland; H. Parker, 23 Tennis crescent; W. Reid, 313 East Gerrard street; A. E. Rogers, 144 Boon; F. M. Russel, 151 Davenport; E. P. Rogers, 319 Ontario; W. Rogers, 135 Simpson; A. D. D. Shephard, 178 Duchesse; E. Shepherd, 9 Abbs; Standon, 85 Eaton; J. Short, 227 Bolton; E. W. Sparks, 101 Nairn; A. R. Spicer, 745 Paper; J. Smethorst, 13 Highland; C. A. Shaddock, Scarboro Junction; A. Taylor, 166 Ashdale; H. H. Thompson, 50 Chester; C. Thompson, 177 Seaton; R. H. Thomas, 55 Munro; C. Triggs, 36 Uxbridge; A. Taylor, 11 Madison; W. E. Usher, 874 Bathurst; S. W. Vale, 149 Robina; E. Whyte, 272 Delaware; H. J. Wignall, 63 Foxley; E. Ward, 50 Alicia; H. J. Woodyear, 6 Dartford; W. Woodward, 142 Riverdale; Young, 251 Sherbourne.

### GOVERNMENT ARRANGES FOR STANDARD FEEDS

Arrangements have been made by the Ontario Government, thru the organization of resources committee, for a supply of oil cake, gluten meal, tankage and corn to come from the United States, following a conference with the food administration at Washington. This meal will be brought to Ontario, where proportion of bran and shorts will be added and the whole made into a standard feed for hogs and cattle. These preparations are being made to offset for next winter feed conditions such as prevailed last, and to assure the farmers of a good standard feed for their stock. Previously there have been embargoes on this food from time to time, but with the new co-operation it will be possible for farmers to secure a certified product. The department of agriculture will assist the manufacturers to distribute the feed by organizing farmers who will purchase in carload lots.

### Chairman Coal Dealers' Section Says There is No Discrimination

Referring to a meeting of coal dealers of the County of York held in the Carr-Rite Hotel yesterday with the object of appointing a buying commission and thus eliminate the possibility of unfair discrimination against them by the Toronto wholesalers, H. A. Harrington, chairman of the coal dealers' section of the Retail Merchants' Association, said that he was not advised of the meeting and consequently was not there. He felt, however, that there was no discrimination practiced to the detriment of the York County dealers. At the present time it is not possible to give satisfactory deliveries to every dealer, but Mr. Harrington feels that the situation will shortly become easier due to an expected cessation of traffic along the United States railways.

### ALL CIVIC FOREMEN MAY GET WAR BONUS

Request of Publicity Manager of Exhibition for Appropriation Turned Down.

Mayor Church moved a resolution at yesterday's session of the board of control which provided for a war bonus to all civic foremen, temporary or permanent. The foremen will also get Saturday afternoons off if the recommendations of the board carry.

The board also recommended to council a \$200 increase in the salary of Sergeant S. B. Weir, a jail farm official. He will now receive almost \$1200 a year. The request of J. B. Hay, publicity manager of the Canadian National Exhibition, for an appropriation of \$250 toward the expense of advertising Toronto and the Exhibition at a convention of rotary clubs which is to be held at Kansas City, was voted down by the board.

### Guarantors Get Stung

Guarantors of the contractor who erected the new building at the women's jail farm asked the board to assume part of the \$13,000 which had been expended above contract figures. The solicitor for the contractors pointed out that weather and other obstacles had prevented progress on the work. Mayor Church expressed the opinion that the firm had been stung, and that while the city had incurred no liability it might be well to get more details. Controller McBride stated that the city should sue for damages in respect to the delay in the completion of the building, while Controller Maguire pointed out that the building cost more than the figure estimated by the city architect by \$5000. It was finally decided to vote down the request.

### WE ARE PLUMBERS AT LARGE

We mean by this, that we cover the entire city. Ours is a city-wide plumbing service, as accessible to the citizen in the East, North, South, as it is to our next door neighbor. Our motor cars are at your call any hour of the day or night. They are fully equipped with every necessary tool, appliance and material, for any kind of work. It is because of this prompt motor car service, and skilled workmen, that we use the term "Plumbers at large."

WE INSTALL BATHS, CLOSETS, BOILERS, ATTEND TO REPAIRS, FIX TAPS, ETC.

Phone Park 738-739

### ELECTED DELEGATES.

The following members of the Parkdale G.W.V.A. have been elected delegates to the convention which is in progress at Hamilton: President H. R. Bell, Secretary E. H. Bell, R. W. Fletcher, W. A. Herron and J. Valenti.

### TAR AND FEATHER CASE RESULTS IN "NO BILL"

The grand jury yesterday at the general sessions returned a "no bill" in the case of Arthur Edmunds, charged with inciting certain parties to unlawfully commit an assault on Frederick Spade.

It will be remembered that Edmunds, better known as the "pocket Hercules" was alleged, during a recent meeting of the central branch of the G. W. V. A. at Columbus Hall, to have incited a number of returned men to commit an assault on Frederick Spade, of 1 Jersey avenue. It was reported at the time that he had been tarred and feathered by some persons unknown. Spade was alleged to have persecuted a neighbor, Mrs. Holmes, whose husband is at the front.

### STREET RAILWAY WINS CASE.

In the county court before Judge Coatsworth and a jury yesterday a verdict was given in favor of the Toronto Street Railway in the case where Mrs. Fred Swan, of 1944 East Queen street, was suing for \$500 damages. It was alleged that as she was alighting from a King street car at the corner of Morley avenue in August, 1917, she was thrown violently to the ground owing to the car starting.

### FOUND GUILTY OF THEFT.

Returned Man and Friend Off on Suspended Sentence.

In the general sessions yesterday afternoon Judge Winchester found Harry Hillson, a returned soldier, wearing a golden stripe on his arm, and John Dunning, an honorably discharged man, guilty of stealing the sum of \$3.50 from Fred Bushby, a mechanic of the R. F. C. It occurred at the corner of Wellington and Niagara streets during a drunken bout and the men contended that Bushby paid a share towards a bottle of whiskey which was drunk on the railway tracks. In response to the plea of their counsel, W. Menton, his honor

### The Safest Matches in the World Also the Cheapest

## EDDY'S

### "SILENT 500'S"

SAFEST because they are impregnated with a chemical solution which renders the stick "dead" immediately the match is extinguished. CHEAPEST because there are more perfect matches to the single box than in any other box on the market. War time economy and your own good sense will urge the necessity of buying none but EDDY'S MATCHES.

THE E. B. EDDY COMPANY LIMITED HULL, CANADA

took a lenient view of the case and allowed them out on suspended sentence.

### TRUE BILL AGAINST MORTON.

The grand jury at the general sessions yesterday returned a true bill in the case of Anthony J. Morton on a charge of theft and receiving.

After every meal... FROM ELEVATOR... Bodies Arrived From England... stor"

# Annual Stock-Taking Sale

THURSDAY MORNING, MAY 23

A Field of Social Service.

Dr. Jennie Callias, who is a practicing
physician in Omaha, Nebraska, and
is also her husband, Dr. William
Frederick Callias, spoke to a group of
social service workers yesterday at the
Central Y. M. C. A. which included the
chief of police, Col. Grassett, and the
deputy chief, Mr. Archibald.

Twenty years ago Omaha was no-
torious for its red-light district, but
today this has been entirely cleared
away, and no house of vice on a com-
mercial basis exists there so far as
is known.

Besides the preventive work much
has been done to provide legitimate
amusements. The churches were asked
to provide dancing rooms and the
Episcopal churches responded, but the
Methodists and Presbyterians re-
fused. Chaperones were provided for
the dancing rooms. The Rotary Club
lends its hall, and other organizations
are similarly helpful. Community
singing, dancing in the park pavilions,
which Dr. Callias strongly recom-
mended, and other amusements were
provided, tennis, well chosen "movies,"
and so on, as deterrents from vice, al-
ways with plenty of help from com-
petent and responsible chaperones.

Ladies of means and leisure have
abandoned their pug-dogs for this
practical work. Hostess houses are
organized by the Y. W. C. A., but this
most general work is widely supported
by the people who can afford to be
generous on a large scale. The work
has done much to turn people inside
out, and lead them to loosen up in
social service. The immense field for
effort of this sort is scarcely appre-
ciated, but in a real democratic
society more attention will have to be
paid to the social needs of those who
lack opportunities by those who can
afford to supply them.

Adequate Pensions.

Mr. Frank Darling, who has spent
so much time and study on the sub-
ject as to have become an expert, has
been speaking on the important sub-
ject of pensions. From the statements
made constantly about the amounts
awarded to disabled soldiers it
would seem that no proper con-
ception of what is required for a
disabled man to live upon, or to as-
sist him to live upon if he is able
to do a little work, has come to the
authorities.

Mr. Darling wisely indicates the
Scylla and Charybdis of the pension
boots of the strictly business view-
point and the sentimental viewpoint.
To treat the men wholly on a busi-
ness basis with no regard for the
future, and the only consideration en-
tertained being how cheaply the prob-
lem can be disposed of, is simply the
way to encourage anarchy and Bol-
shevism in future. We do not want
a horde of broken and discon-
tented men to foster sedition and
class strife in years to come. Very
few cases of men requiring pensions
can be settled immediately. A sys-
tem which would require periodical
reporting at regular intervals until a
settled normal condition was defined
should not be an impossible ideal.

Mr. Darling suggests the case of a
man awarded a pension of \$10 a
week, who sets to work and earns \$20,
when his pension is at once cut off.
This was found in England to place
a premium on idleness. A man may
be able to work temporarily or get
occasional employment, yet be far
from able to support himself, and
even a little temporary exertion may
send him back again into poor health.
The cases of shell shock, which have
recently been divided into two classes,
can never be disposed of without long
observation and treatment.

Men who are discharged when feel-
ing pretty well may, in a compara-
tively short time, fall into poor health,
which may continue to degenerate. A
pension system which fails to recog-
nize a claim of this kind is not a
satisfactory one.

There must be many in Canada who
remember the numbers of discharged

soldiers and sailors of the Orleanian
war and the Indian mutiny. Wooden
leggs, armless sleeves, all sorts of facial
wrecks, wandering about the coun-
try, begging, singing ballads, trying
to pick up a living in any way pos-
sible. It ought to be possible to pre-
vent that sort of thing in Canada.
The only way to prevent it properly
is to make it unnecessary. But we
have not made provision, Mr. Darling
says, for the men who thru ill-health
and lack of pensions would create
just such a condition.

Other People's Opinions

Rosedale and the Soldiers.

Editor World: Apropos of an article
which appeared in The World of May
8, under the heading, "Rosedale Opin-
ions Show Differences," we, a couple
of returned men, would like to express
as well as our limited vocabulary will
allow, our utter contempt for those
senseless ingrates who so fully exposed
their bitterness of feeling and im-
agination at that meeting.

To commence with: What disposi-
tion would suit them best for the dis-
posed of these poor battered dervishes?
Osterize them? They, poor fellows,
have exposed their bodies to the iron
fist of the barbarous Hun to confirm
the very security and protection these
fustidious and somewhat hypocri-
tical, selfish and peckish men
persons now enjoy. After a young man
has been the hell after his young
body has been racked and ruined for
the protection of another person or
group of persons, what a thoughtless
and brutal thing to do. Brand him
a moral leper. There you are; that is
it in a nutshell. There is no getting
away from the realization of it, that
there are people in Canada, and most
evidently, such as some of the resi-
dents of Rosedale district, who regard
the returned soldier as something un-
clean and those who associate with
the returned men as riff-raff.

Poor mothers and sisters, who in
many cases are sacrificing their very
dear blood. The nincompoop who
said Rosedale would be undesirable
for the soldiers on account of the
mosquitoes should have his head ex-
posed and those who have hon-
ours, sash and bayonets will not be
troubled much with mosquitoes, es-
pecially if Dr. Millar can stand them.

ALLIES TO SAVE LIVES OF STARVING BELGIANS

Washington, May 22.—President
Wilson today approved arrangements
which will remove the menace of
starvation which the ten million in-
habitants in German-occupied Bel-
gium and France have been facing.

SOLD HORSE FOR \$21

St. Thomas, May 22.—Herbert Sin-
clair, a London youth, was brought to
the city last evening and appeared
before Magistrate Maxwell this morn-
ing and pleaded guilty to the theft of
a horse and buggy from the Palace
Livery, St. Thomas. The horse was
outfit a few weeks ago and disapp-
eared. He claims he gave the horse to
a friend at Fulham, near Ingersoll,
the name of the horse being "Buck,"
name so this afternoon a police of-
ficer, accompanied by the culprit,
motored to Ingersoll to locate the out-
fit. The horse and buggy were found
in London for some time. Magistrate
Maxwell deferred sentence until next
week.

WOOL GRADING.

Quep, May 22.—R. W. Wade, sec-
retary of the Ontario Sheep Breeders'
Association, stated today that he fully
expected the amount of wool to be
graded would be double last year's
amount. The grading of this wool
which is arriving in large quantities
daily, will commence on Tuesday of
next week, and continue until finished.

SEVERE STORM.

Woodstock, May 22.—A severe elec-
trical storm raged over the city today
and the rain fell in torrents. The tall
steeple of the Central Methodist
Church was struck by lightning and
badly shattered. The bolt struck at the
top of the pinnacle and passed on
down, tearing everything with it, em-
erging at the buttress. The damage
will exceed \$1,000. The accompanying
rain was worth thousands of dollars
to Oxford County, as one farmer ex-
pressed it.

PTE. GILLICHE MISSING.

St. Thomas, May 22.—I. Gilliche, of
this city has been notified that his
brother, Pte. James Gilliche, is missing.
Pte. Gilliche, after going overseas, was
sent to the front with a Scottish re-
giment. His brother, Pte. Robert Gil-
liche of St. Thomas was wounded in
the battle of the Somme and was in-
valided home some months ago.

On Parliament Hill

By TOM KING

Ottawa, May 22.—The house is busy
tonight holding a post-mortem over
the crushing defeat of the Laurier
Liberals at the last general election.
Mr. Copp of Westmoreland was chief
coroner. He laid open the remains,
and after examining the heart, lungs
and other vital organs, discovered un-
mistakable signs of fraud and con-
spiracy. For some reason he demil-
icized himself in England, paying no
attention at all to what occurred at
the polling in Canada or on the con-
tinent of Europe. Irregularities, fraud,
coercion and conspiracy, he said,
characterized and vitiated the taking
of the soldier vote in the United King-
dom. Mr. Copp has rather a rasping
voice and a monotonous delivery.
Moreover, he felt it his duty to get
into the Hansard report a great list
of names and addresses. And indeed,
his case was weighted down with
detail. Moreover, he spoke not
from his own knowledge, but from in-
formation furnished by a certain
staunch upholder of purity in elec-
tions, Mr. W. T. R. Preston. From a
place in the gallery, Mr. Preston ob-
served the number for Westmore-
land present his case.

Mr. Copp's principal charge was
that a great many of the soldiers
voted not in the constituency in which
they resided, but in the constituency
where their votes would do the most
good. Not only this, but a great many
American citizens voted in any consti-
tency and placed their ballots where
they were needed. To avoid mistakes
they were given envelopes with their
names already filled in before they
entered the polling booth and in this
way their ballots were allocated in
favor of particular candidates. There
were no charges of coercion and un-
fair treatment of Liberal scruti-
ners. Mr. Preston, himself, the chief
scrutiner for the Laurier Liber-
als, was prevented from exercising
his functions at least at one polling
booth, and was even placed under
rest and looked up in the guard room
for several hours. At the time he got
out the poll was closed. Ballot box
"stuffing" was also alleged, and the
charge supported by affidavits.

Hon. Martin Burrell, secretary of
state, replying for the government, ad-
mitted that a widespread impression
existed among the soldiers overseas
that the treatment of Liberal scruti-
ners they desired. This impression
also existed among the soldiers in
Canada, but he pointed out that some
18,000 ballots were cast in constitu-
encies, with the exception of the machine
gunners. The compound which had
been vacated by Col. Lepan and the
staff of the Polish army and will be
the headquarters of Col. McLeary, is
not yet occupied. The Army Service
Corps is making good headway with
the staff of the headquarters, but the
arrival of the headquarters staff, accord-
ing to schedule, is not due until the 27th.

As a matter of fact, there seems to
have been some switching of ballots,
and the result in several constitu-
encies may have been affected. Mr.
Archibald, who is a member of the
House, told of an effort to get for his
opponent the votes of 1,500 soldiers
in a garrison in St. John, Que., none
of whom had ever been in the army
and Vercheres, and few of whom
had any right to vote at all in Can-
ada. The debate will continue until
a few hours, may extend itself late
into the night and cover a good deal
of territory.

But the government is not paying
much attention to the debate, having
other fish to fry. The western farm-
ers are protesting vigorously against
the recent order to suspend draft-
ing young men between 20 and 23,
and compelling the men in class A ex-
empted as farmers by the local tri-
bunals. They claim that 35,000 men
will be taken from the land, and that
production will be seriously curtailed.
These representations are not coming
from the farmers or the government,
but from big men in the west, who have
been the backbone of the Union
government to that part of the coun-
try. The names of the men are being
published, but they are names that
are familiar to the public.

The situation is frankly critical.
Prime Minister Borden has called the
prime minister to ease up on the de-
scription of farm labor, and the pres-
sure comes from within as well as
from without the cabinet, and from
both sides of the house. Sir George
Foster this morning more than in-
timated that some statement might be
made on the subject today by the
government, but he was not given the
statement may not be given to the
public until after prorogation.

DANISH COMMISSION LAYS.

Washington, May 22.—The Danish
commission, which has just landed at
a Canadian port, is coming to Wash-
ington to continue negotiations look-
ing to the rationing of Denmark and
to the release of Danish ships to the
United States. So far the United
States and Denmark have come to no
definite agreement respecting food
shipments to Denmark and cargoes are
being forwarded under a temporary
arrangement.

RADIAL EMPLOYEES GET RAISE.

Quep, May 22.—At the special
meeting of the directors of the Quep
Radial Railway held today, it was the
unanimous opinion that the men were
entitled to some increase, and an offer
of 27 cents per hour for first year men,
and 28 cents after that period will be
made by the directors.

FREIGHTER ON FIRE.

A Pacific Port, May 22.—The Erma
Maru, referred to in Canadian des-
patches as being a fire on the Canadian
coast is believed here to be the Burma
Maru, which left a Pacific port yes-
terday for the orient. The Burma
Maru is a freighter of the Osaka Sh-
osen Kaisha line. Shipping records
make no mention of the Erma Maru.

FARMERS' QUESTION IS BEING CONSIDERED

Col. Currie Asks Whether There
is to Be Modification of
Order-in-Council.

Ottawa, May 22.—In the house this
morning Sir Wilfrid Laurier again
drew the attention of the government
to the fact that men are being called
from various parts of Quebec and the
Maritime Provinces to report person-
ally for duty at the time when they
were most needed for seeding. Sir
Wilfrid said that in some cases the
men, in order to report in person, had
to make a return journey of four
days. He suggested that reporting in
person in such cases should be obvi-
ated.

RIFLE STORES MYTHS.

Inquiry by Becker Reveals Nothing
About Million Mousers Alleged
Stored in United States.

New York, May 22.—Germany's re-
ported importation and storage in this
country of large numbers of Mauser
rifles and quantities of ammunition
was declared a myth by Deputy State
Attorney General Becker at his con-
clusion today of his inquiry into rum-
ors of the existence of these munitions.
He thought that the stories
about the importation of a German plot
to foment revolt against British rule
in India.

ADVANCE PARTIES ONLY AT NIAGARA CAMP YET

Niagara Camp, May 22.—The Cana-
dian section of Niagara camp is not
expected to take definite form until
the week-end. At present it only con-
sists of small scattered advance par-
ties, with the exception of the machine
gunners. The compound which had
been vacated by Col. Lepan and the
staff of the Polish army and will be
the headquarters of Col. McLeary, is
not yet occupied. The Army Service
Corps is making good headway with
the staff of the headquarters, but the
arrival of the headquarters staff, accord-
ing to schedule, is not due until the 27th.

WATERED THE MILK.

Woodstock, May 22.—John Thorndon,
a farmer residing in West Oxford,
was fined \$40 and costs in court to-
day for sending watered milk to the
Beachville Creamery. His milk had
been returned to him on a previous oc-
casion when the factometer tests
showed that the milk was not pure.

BABY GIRL BURNED.

Leamington, May 22.—Lorrain Rob-
inson, five-year-old daughter of John
Robinson, was terribly burned when
the sleeve of her dress caught as she
was lighting a firecracker with a
match. It is expected she will re-
cover.

THE WOMAN WHO CHANGED

BY JANE PHELPS

Dressed for the Dance.
CHAPTER LXXXIII.
I never dressed so hurriedly in my
life—nor with such calmness. I was
so angry, I was cold as a stone. "I
will show Julia Collins," I mumbled,
over and over, as I rearranged my
hair and changed my stockings and
slippers. I had decided to wear a
dress the color of the sea when the
sun is on the water. It was one
that George had admired when it had
been sent home. There was a lovely
ornament for my hair, with it, and I
wore my pearls. I threw a wonderful
wrap of softest silk and chiffon
over my shoulders, and hurried
downstairs just in time to meet
George and Mrs. Collins as they came
out of the dining-room.

"What possessed you to come with
Mrs. Collins?" he asked.
"Why?"
"Oh—well—I don't suppose I
should say it, but she used to be
such a pal of your husband's in all
these places. It is clever of her, all
right, to tag along, now that he's
married." Clark hadn't much tact at
any time. When I grew older, I re-
alized how more tactless had been
that particular speech.

George came for me at super-
time. I could depend on him for the
proprietor. In some way, I would
turn the tables on Julia Collins be-
fore we left. I should be even will-
ing to have George send for Mrs. Cox-
ton to help me, rather than to fail!
I had a delightful evening in spite
of her, however. It was almost morn-
ing when we returned to the hotel.
George warned me to sleep late.
"You will lose your looks, if you
do not," he said as he kissed me
good night.

All My Theories Upset.
The next day I was sitting on the
wide veranda of the hotel, waiting
for George to come to luncheon with
me, when I overheard a conversation
between Julia Collins and another
woman. Neither of them knew
there was a giant palm hid me from
them.

"No! A woman is a fool to tie
herself down with children," Julia
said. "A man gets to going out alone,
and leaving her at home. I know
dozens of unhappy married people
who date their unhappiness from the
time the wife was unable to go
about with her husband because a
child was expected."
I got up quietly and escaped to my
room. I had so longed for a child.
Ever since I had talked with that
woman on the train, and seen the de-
light with which the young husband
and father had greeted his baby, I
had longed with all my heart to have
this additional claim on my hus-
band's love.

## DOUBLE WIN FOR DAN HOWLEY LEAFS GET GOOD PITCHING

### Justin is Victor in Opening Game--Crale Twirls Nice Ball and Wins Second Game With Two-Base Hit--Smart Fielding Features.

Dan Howley's boys came into their own yesterday. The Leafs played right smart ball in both ends of the double offering, and the result was that Jack Dunn took the count in both contests.

The Leafs were accorded excellent pitching by Justin and Crable, and they played like champions behind the good flinging. Justin had a good edge on Lewis in the opening fixture, which the Leafs won 3 to 1. Sharp work on bases by the local club was a contrast to their work in the other home games to date.

Crale pitched steady ball in the second. He held Baltimore hitless for four innings and won his game 2 to 1.

The first game was a tidy argument. Toronto won 3 to 1 and earned their victory with smart fielding and good judgment on the bases. A thunderstorm hovered near, but only a few drops of rain fell. The game was held up for a few minutes at one stage.

Justin pitched good steady ball and worked himself out of a couple of tight spots like a major. For three innings he bowled over the Birds like nineties. The Orioles looked dangerous in the fourth, but Hal pitched himself out of a tight corner nicely. Lewry opened this round with the first Baltimore hit. Dyerst lifted to Thrasher, but Mulvey walked. Shannon lined to Lear and Griffin beat out an infield hit. Egan ended it by rolling out.

Dunn's only run was over in the fifth. Bishop singled and McAlpin laid down a neat bunt. Lewis grounded out, but Lawry tripled to deep centre to lift the run over. Justin struck out Dyerst.

Bowman made a bad bog on Mulvey's roller to open the sixth, but it availed the enemy nothing, as they could not find the Toronto pitcher for a hit. Justin kept the Dummies hitless for the next two rounds and allowed them a single in the ninth. Five safeties were the total of work of the Birds in the first game.

The second also went to the Leafs, this time 2 to 1. Perhaps the most pleasing feature was the pitching of George Crable. The veteran southpaw twirled heady ball all the way and had Baltimore subdued in nearly evenly round. Baltimore's one run came by bunching two of their seven hits at the right time. A double play of sharp order looked nice in the second. Griffin was walked and Egan popped out. Bishop fanned and Fisher cut the ball sharply. Wagner and caught Griffin off second.

Baltimore's one run came in the seventh. Griffin tripled to deep centre and rode home on Bishop's sharp single to the same field. The Orioles gathered in two hits in the last box, but were unable to get a tally.

Lawry was called out on a close play in the eighth inning when Crable fielded his roller and threw to Onslow. Dunn and Lowry kicked so hard on the decision that both were banished from the field. Lewis finished at second base. Dan's men opened the scoring early.

## Good Afternoon for Dan's Leaflets

Three-base hit--Lawry. Stolen bases--Onslow. Sacrifice hits--Bailey, McAlpin, Wagner. Double-play--Lawry to McAlpin to Griffin. Left on base--Baltimore 5, Toronto 9. Base on balls--Off Lewis 5, off Justin 2. Struck out--By Lewis 2, by Justin 4. Umpire--Westervelt. Time of game--1:52.

The Leafs got eight blows for their share. Lied opened the first round by cutting one to left, but nobody could bring him home. The same thing happened when Thrasher banded one into right in the second.

The third session produced two of the Leafs' three corners. Lied got a free ticket and Bailey sacrificed. Onslow hit smartly to left, but it took Wagner's sacrifice fly to score Lied. Onslow also tallied when Shannon's return was wide and the ball went to the stand. Lear fouled out.

A double play killed a bright chance in the fourth. The Leafs waited until the eighth for the other run. With one down Lear smacked to left and along came Thrasher with a safety. Bowman forced Thrasher at second, but Lear scored by fast sprinting. It was clever baserunning and was appreciated by the fans.

Totals.....	29	8	27

Two-base hits--Wagner, Crable. Three-base hit--Griffin. Stolen bases--Dyerst, Onslow 2, Lear. Double-play--Fisher to Wagner. Bishop to Egan to Griffin. Left on base--Baltimore 7, Toronto 7. Bases on balls--Off Mason 4, off Crable 2. Struck out--By Mason 1, by Crable 5. Umpire--Westervelt. Time of game--1:50.

By putting over their first run in the opening inning. With two down Onslow beat out one, stole second and went to third when Egan threw into centre field. Wagner's two-base clout to left field scored him. Wagner tried to make third but was nipped off.

The Birds pulled a double play in the third that spoiled things. With one down the Leafs soon filled the bases with three hits. Wagner hit sharply to third, but Bishop grabbed it, shot the ball home to Egan to head off Lied, and it was hurried to first to complete the double.

The seventh was the other scoring inning. Thrasher walked, but was forced at second by Bowman. Fisher cut a hit to left, but it took Crable's double to centre to score the run. Dyerst nearly pulled off a sensational catch on Crable's long hit here.

IDA PAYS TRIBUTE TO SMART BASEBALL

Bubbles Over With Joy at Wednesday Performance of Leaflets.

By Ida L. Webster. In the first place, if the owners and the president of this new International League are going to continue in this cheap one-man umpire system, which is now in vogue, they had better call all bets off and scratch the whole thing for the rest of the season, or such time as they feel that they are in a position to spend a few more dollars and get two umpires in the ring at these contests.

LIVE STOCK MARKET

Briefly summarized Wednesday's market at the Union Stock Yards for good to choice heavy steers and heifers was steady to firm, but the lighter cattle, and there was a fair to heavy run of them, were hard to cash, except at a concession. Taken all round with this exception the market held steady to firm. Steers and lambs were steady and calves strong and higher from 10c to 25c per cwt.

SPECIAL NOTES.

There were a number of strong prices, but the outstanding feature was the sale by Quinn & Hisey of a couple of half cow heaves at the high price of \$17 per cwt.

REPRESENTATIVE SALES.

Quinn & Hisey, Quinn & Hisey sold 1 heifer, weighing 720 lbs., at \$17 per cwt.; 1 heifer, 600 lbs., at \$16.50; 1 steer, 1120 lbs., at \$16.50; 1 heifer, 900 lbs., at \$16.50; 1 steer, 1000 lbs., at \$16.50; # CANADA IS FOREMOST GOLD MINING AREA

## Supply of Labor Must Be Greatly Increased, However, if Mines Are to Be Worked on Extensive Scale.

Out of the great Utah Copper Co. grew the Alaska Gold Mines Company, the former an immense success, the latter practically a decided failure. D. C. Jackson is responsible for both companies. It was he who first conceived the idea that low-grade sulphides and carbonates of copper could be made to pay if worked in quantities. The Alaska Gold Mines Utah Copper has about 400,000,000 tons of ore, which is removed by steam shovels, and its two mills have a combined capacity of 40,000 tons per day. In his Alaska plan, Mr. Jackson sought to apply to gold mining the methods which had proved so successful with copper. But over 200 million tons of ore have not yet been found in hundreds of millions of tons. The Alaska Gold has, in fact, only 2,000,000 tons now available, and the grade is disappointingly low. There were 2,546,346 tons treated in 1917, this gave an average of \$1.10 per ton, and \$1.10 per ton. The recovery, however, cost 50 cents per ton, the operating cost 1 cent and the profit 50 cents per ton, or \$270,526.61 on the entire tonnage sent to the mill.

No Profit in Sight.

Owing to the shortage of labor and the increased cost of labor, the Alaska supplies during the war the management are not expecting to operate at a profit during the present year. The Alaska looks for the continuance of operations is not very hopeful. Over \$12,000,000 has been invested in the mine. It is true the grade of the ore is lower than the preliminary work indicated, but the result must have a tendency to discourage the exploitation of very low-grade ores in the future. The future of Porcupine and the values assumed when the exploration began, the extra costs occasioned by the war would have wiped out all profits.

The result has, however, shown that it is feasible to reduce costs to an amount almost negligible when ore occurs in large volumes and electric power is available. At the Alaska Gold costs of both mining and milling have been less than anticipated, as already stated, amounting together to only 77 cents per ton. This has an important bearing on the future of porcupine, where there is almost an unlimited tonnage which will average over \$7. Hand-some profits per ton and large tonnages

# Relaxation of Mining Laws Would Help Gold Production

The factors working against gold production in northern Ontario are principally the high cost of materials and labor scarcity. The mines could possibly adjust themselves to the first, but it is impossible to operate a property economically without an adequate force of men. The mining industry, like others, has suffered from enlistments, and men have not come in to replace those who have left the camps. There is a large amount of labor in the north country, which appears to be at present misplaced. This is that engaged in new staking and assessment work, both of which come under the control of the provincial government. What is wanted now is production and not new prospects. Men will be called away from working mines at the gold camps this summer to perform assessment work on properties already staked, and a large body of prospectors will be scattered thru the country hunting up new claims. The government might well consider whether it would not be advisable to extend the time for doing assessment work and also to hold up mining licenses for a time. This labor would then be diverted to actual producing mines, and such properties as the Big Dome in Porcupine could offer no excuse for not adding to the world's available gold supply.

# DOMINE TO CONTINUE GOOD PROGRESS DEVELOPMENT WORK MADE ON OPHIR

## Good Demand for Dome Superintendent Donaldson Stock Features Trading on Standard Exchange.

Bar silver closed unchanged yesterday at 46 1/2 in London and 90 1/2 in New York.

Good demand for Dome continues to be a feature of an otherwise rather uninteresting market on the Standard Exchange. Dome continued firm yesterday at \$6.00 to \$6.05 and more than 400 shares changed hands, bringing the total turnover in two days to nearly 1000 shares on the local market. It became known yesterday that the date of the annual meeting, which will be held in Toronto, has been fixed for June 11. It is stated unofficially that the annual report for the fiscal year ended in March will show reserves smaller than those at the end of the previous fiscal year, owing to the company's policy of stockpiling work. The development of ore bodies. The Dome management, it is stated, however, is following a program by which sufficient men are kept at work to prevent its formerly well organized force from falling to pieces. The main shaft is being sunk to the 1200-foot level with a sump of 50 feet, and from that point a drift will be made to cut the vein which the diamond drill struck between the Dome and the boundary of the Dome Extension. If the vein is as rich as the one which justified milling, milling operations will start.

Hollinger at 4.90, Newray at 22, and Waspika at 39 showed no net change. McIntyre was a point off at 130 and Dome Extension was firm at 14 1/2.

In the Cobalt group Adanac was soft, selling a point lower at 9 1/2, in the face of continued firmness of the stock. Nipissing was down to 8.50, comparing with the previous sale at 9.00, but Dome Lake was firm at 14.00. Hargraves, La Rose, Peterson Lake and Beaver closed on a parity with Tuesday's closing figures.

# DOMINION CANNERS SHOWS STRENGTH

## Steel of Canada Sags When Directors Declare Regular Dividend.

Steel of Canada and Dominion Canners were the only issues in which more than a casual interest was shown in trading on the Toronto Exchange yesterday. In the case of the former the fact that the directors were scheduled to meet yesterday prompted a small amount of buying based upon the faint hope that the directors might see fit to raise the quarterly dividend of 1 1/2 per cent. In the afternoon when it became known that the regular rate had not been declared, the stock, which had earlier sold as high as 66 1/2, dipped to 65 1/2, a shade under the closing price of Tuesday. Only 50 shares of Dominion Canners changed hands, but there was quite a wide movement, the stock after opening at 35 and selling up to 42, reacting to 39 1/2. Dominion Canners was on offer on Tuesday at 35 1/2. There has been steady accumulation of this issue since it was placed on a dividend basis last January.

The general market was quiet and steady. Brazilian was better at 30 1/2 and Maple Leaf and Quebec Railway firm at 26 1/2 and 22 respectively. Canada Bread again sold at 19 1/2. The third was firm, the only one dealt in, was steady at 9 1/2.

The day's transactions—Shares, 601; bar loans, \$3600.

# Gold in War Times

A superficial view of the necessity of producing gold in war times has been taken at various times since the beginning of the war, and by many it has been held that gold mining was unnecessary and diverted labor from other channels of industry where it might better be used.

The most complete answer to such a view has been given in a recent technical journal by the eminent authority on gold, Mr. Hennen Jennings, Consulting Engineer of the U. S. Bureau of Mines. The following are some of the most important excerpts, in the light of which it is hard to understand why the gold producers of Northern Ontario, which are the principal sources of gold in Canada, have not been given more practical encouragement by the Government in their patriotic undertaking of trying to keep up production under difficulties such as never before existed in Canadian mining history.

The production of gold, according to this authority, which reached its zenith in 1915, dropped sharply in 1916 and there is shown a still further material decline in the year 1917. On the other hand, the war debts of the belligerent countries have increased tremendously. The total indebtedness of the Entente Allies is estimated at over \$80,000,000,000, and that of the enemy Alliance at over \$40,000,000,000. "Accepting \$10,000,000,000 as the proper gold reserve of the world," says this writer, "it may be calculated that at the beginning of the war the gold reserve was 35% of the total debts of the belligerents, while at the present time it is only about 8%."

"Should the obtaining of new gold cease while drafts on the old coins are vastly increased, the whole storage battery of gold energy may get so out of adjustment as not to do useful work, and gold would become demonetized and the accumulated energy of centuries past, locked up in old coins, become inert and valueless. Should all gold mining stop or very radically diminish, this would be the result."

"Our government securities and Liberty bonds, pledged on a gold basis, take the place of gold coins only so long as the people in this and foreign countries have faith that the government can make good its promises. When this is seriously doubted by the many, gold will go to a premium."

"The financial integrity of the country has been pledged on a gold basis. As 90% of the gold output of the world comes from Allies' territory, as a war measure it is plain that it is to the advantage of the Allies to uphold the gold standard. For the past ten years, the world's yearly output of gold has been almost stationary, and the present high cost of labor and supplies is acting very seriously against any increased production."

"To stop gold mining in a time of financial stress, as has been indicated, would be like closing the doors of a bank when a run is made on it. It, therefore, must be evident that it is vital for this, and all Allied countries, to encourage gold mining as far as possible."

A movement, derogatory to the Canadian gold stocks, has been inaugurated by some brokers, who have advised the sale of high-class Canadian gold securities in favor of the purchase of doubtful promotions outside of the Dominion. We believe that such advice is against the best interests of investors and advise the retention of the gold issues until such time as the market price more accurately represents the intrinsic value of the shares.

# COMPETITION PROVES TOO KEEN FOR VIPOND

## Larger Mines Are Able to Offer Better Inducements to Workers.

Dealing with the decision of the management of the Porcupine-Vipond, North Thompson to stop, as soon as practicable, all milling and mining operations, The Northern Miner says: "This action has been expected for some time. The Vipond operations have been satisfactory from a development standpoint, but the mine could not compete satisfactorily with the larger mines for labor for producing. "The getting of supplies at anything like reasonable prices has become an enormous problem, more so for small mines like the Vipond than for the larger operators. "It is possible that, except for pumping to keep the mine dry, all operations underground will cease for a time. On the other hand the management yet may make financial and other necessary arrangements to start almost at once on exploration and development. "It was proposed a year ago to continue the shaft to the 800-foot level. It was then, and is now, to a depth of 400 feet. The development program of the company was continued, with a view to continue the shaft to the 1200 foot level, establishing levels at each one hundred feet depth and cross-cutting to the main body on which practically all work has been done. It is further proposed to cross-cut toward the Porcupine Crown line at about two hundred feet, where it is anticipated, at least a section of the Porcupine Crown ore body will have dipped into Vipond ground."

# ACTIVITY EVIDENT IN MATACHEWAN DISTRICT

Some Difficulty, However, in Securing Men for Assessment Work.

Elk Lake, May 22.—Considerable activity is in evidence in the Fort Matatchewan district, although some difficulty is being experienced in securing the desired number of men to do the necessary assessment work. The plant for the Otis property will perhaps not be used until the end of the summer, the present program of exploration being made up chiefly of surface work and of diamond drilling. The first hole, it is stated, will be put down at an angle of about 20 degrees and will be driven across the large mineralized dike. This operation is an important one and will throw much light on the value of the dike, which in places on surface carries such rich values.

# NEW YORK CURB.

Hamilton B. Wills received the following wire at the close of the New York Curb yesterday: The market on the New York Curb was very strong today, as was to be expected after yesterday's reaction. Among the industrials Aetna was the star performer. Wright-Martin rallied fractionally but there seems to be a disposition on the part of insiders to tire out the public before the big indicated advance takes place.

In the oil division Houston still continued its somewhat upward course and made another record high. Cuden & Co. advanced fractionally.

# DIKE OF SULPHIDE.

Considerable interest is being shown in connection with a large dike of sulphide which is in evidence in the Townships of Oto and Eby, near Swastika. The dike has been traced for a distance of two or three miles, and is said to contain encouraging quantities of sulphur.

# AT PORCUPINE V.N.T.

It is stated that the Porcupine V.N.T. will complete its contract with the Thompson-Krist and that a shaft will be sunk on the former to the 1200-foot level.

# BIG DEVELOPMENTS AT DAVIDSON MINE

## Directors Visit Property Following Favorable Report by Prominent Engineers.

South Porcupine, Ont., May 22.—A party of directors of the Davidson Gold Mines arrived here today on a visit to the company's mine. The writer understands that this visit was prompted by the highly favorable report recently submitted by two prominent mining engineers, indicating that the ore system is an unusual one, with possibilities that may prove Davidson the super-mine of Northern Ontario. It is said the examination reveals the fact that a system of veins cross-cut each other, forming a dome, which gives the appearance of making an ore body of tremendous width and extent. It is also said that development plans suggested by the engineers who made the examination, are under consideration by the directors and that they expect to begin the present visit of company officials.

Mining extraction is now running 36 per cent, and mill-head values are being made to work out well in excess of assay tests. It would, therefore, seem that the average grade of the ore will prove considerably higher than the estimate made previously by the company. The comparisons made to date, point to an average grade of \$15 to the ton or over, which is considerably higher than the average of the mines in the district. The mill is now treating a larger daily tonnage and May's production should be in excess of April's.

# HARD SUMMER AHEAD FOR THE GOLD MINES

The coming summer, says The Northern Miner, will be a hard one for the gold mines. A large number of men have been drafted into the army, and conscriptions of aliens by the government will take many more. Men have left the mining camps for farms, particularly for western Canada, and the influx of a few months ago, when there was surplus labor in Cobalt, has been more than counterbalanced.

It is generally considered that if the gold mines of northern Ontario can pull thru until the fall they will have plenty of labor for next winter.

# TO ESTABLISH SPAIN UPON A GOLD BASIS

Madrid, May 22.—The finance ministry has presented a bill in parliament the effect of which will be to place Spain on a gold basis. It provides that silver shall not be legal tender in amounts of more than fifty pesetas, except for payments to the government. Until facilities have been provided for mining the required amount of gold, foreign gold coins will have currency in Spain, their value in pesetas being stamped on them. Bills of the denomination of 25 pesetas will be withdrawn from circulation after January 1 next. The government will be authorized to redeem exterior loans, wholly or in part, issuing an internal loan, if necessary, to obtain funds for the operation.

# BIG LEDGE MEETING.

New York, May 22.—The special annual meeting of Big Ledge Copper Company has been called to be held June 20 at Prescott, Ariz. The annual meeting, which was scheduled to be held earlier this year, was omitted because of the death of President LeDuc. It is understood that some important changes in the personnel of officials and directors will be made at the meeting.

# CORN DEPRESSED BY BEARISH NEWS

## Near Completion of Planting Weakens Market at Chicago.

Chicago, May 22.—Assertions that planting for the most part would be completed within the week had a bearish effect today on corn. The market closed at 76c to 74c net lower, with May \$1.04 1/2 and July \$1.04 1/2 to \$1.05. Oats declined 1/2c to 3/4c to 2 1/2c net. The outcome in provisions varied from yesterday's finish to 7 1/2c down.

That the market was somewhat weaker than the planting period served to weaken the corn market.

Speculation that the factory had been removed from the grain belt led to downturns in the oats market. Export buying was only at prices which dealers here could not meet.

Provisions average higher with hogs, but realizing sales caused a reaction.

# Board of Trade

Manitoba Wheat in Store Fort William, Minn. (Including 2 1/2c Tax).

# GRAIN AT WINNIPEG

Winnipeg, May 22.—The cash grain markets continued quiet again today and the volume of business was small. The movement of grain continues to decrease and the daily arrival of cars at Winnipeg are averaging about 125 cars for all grains, showing a big decrease from a year ago.

Oats closed 1 1/2c lower for May and 3c lower for July.

Barley closed 3 1/2c higher for May.

Flax closed 7 1/2c lower for May and 5 1/2c lower for July.

Winnipeg market: Oats—May, 57 1/2c to 55 1/2c; July, 59 1/2c to 57 1/2c.

Barley—May, 52 1/2c; extra No. 1 feed, 52 1/2c; No. 1 feed, 79 1/2c; No. 2 feed, 76 1/2c.

Flax—No. 3 C.W., \$1.05; No. 2 C.W., \$1.00; No. 1 C.W., \$0.95.

# LONDON STOCK MARKET.

London, May 22.—The stock market maintained a good tone today despite the smallness of business. Gilt-edged securities were firm on the prospects of the reinvestment of £50,000,000 government dividends to be disbursed at the end of the month. Shipping shares were in demand on international Mercantile Marine purchase reports. Banking shares were lower and speculative issues quiet.

Money was slightly dearer and discount rates were steady.

IMPERIAL BANK OF CANADA

PROCEEDINGS of the Forty-Third Annual Meeting of the Shareholders

Held at the Banking House of the Institution, in Toronto, on Wednesday, 22nd May, 1918, at 12 Noon.

The Forty-third Annual Meeting of the Imperial Bank of Canada was held in pursuance of the terms of the Charter at the Banking House of the Institution, 22nd May, 1918.

The Directors have pleasure in submitting to the Shareholders the Forty-third Annual Report and Balance Sheet of the affairs of the Bank, as on 30th April, 1918, accompanied by statement of Profit and Loss Account, showing the result of the operations for the fiscal year:

Table with 2 columns: Description and Amount. Includes items like Balance at credit of Profit and Loss Account, Dividends, and Balance of Account carried forward.

This amount has been applied as follows: Dividends at the rate of 12 per cent per annum, Annual Contribution to Officers' Pension and Guarantee Funds, Contributions to Patriotic and other War Funds, etc.

During the year a Branch of the Bank at Fernleigh, Alta., has been opened as a sub-branch in New York. The following Branches have been closed: Upper Bridge Branch in the Province of British Columbia, Arrowhead and Athabasca in the Province of Saskatchewan, Pilot Butte, etc.

A further subscription of \$25,000 (being the fourth for a similar amount) has been made to the Canadian Patriotic Fund, the payment of which will be made during the course of the coming year.

The Directors testify with pleasure to the loyalty, zeal and faithfulness of the staff, which under the present conditions is laboring under a heavy strain. It is the intention to ask your authority to contribute substantial amounts to the Pension Fund of the Staff.

Table of LIABILITIES. Includes items like Deposits not bearing interest, Deposits bearing interest, and Total Liabilities to the public.

Table of ASSETS. Includes items like Dominion Government Notes, Deposits in the Central Gold Reserves, and Loans to Provincial Governments.

Other Current Loans and Discounts in Canada (less rebate of 40,302,958.23), Liabilities of Customers under Letters of Credit, etc.

AUDITORS REPORT TO SHAREHOLDERS. We have compared the above Balance Sheet with the books and accounts at the Chief Office of Imperial Bank of Canada and with the certified returns received from its Branches, and after checking the cash and verifying the securities at the Chief Office at certain of the principal Branches on 30th April, 1918, we certify that in our opinion such Balance Sheet exhibits a true and correct view of the Bank's affairs according to the best of our information, the explanations given to us and as shown by the books of the Bank.

In addition to the examinations mentioned, the cash and securities at the Chief Office and certain of the principal Branches were checked and verified by us during the year and found to be in accord with the books of the Bank. All information and explanations required have been given to us and all transactions of the Bank which have come under our notice, have in our opinion been within the powers of the Bank.

The number of Shareholders in the Bank has been increased during the year from 1873 to 1921. The customary motions were made and carried unanimously. Mr. G. T. Clarkson, F.C.A., Toronto, and Mr. R. J. Dilworth, F.C.A., Toronto, were appointed Auditors of the Bank for the ensuing year.

The Scrutineers appointed at the meeting reported the following Shareholders duly elected Directors for the ensuing year: Messrs. Peleg Howland, Elias Rogers, William Hamay, of Bowland, How, Scotland, Cynthia Mulock, William Hamay, Merritt, M.D., of Chatham, Sir William Gage, Sir James Atkins, K.C. (Winnipeg), Hon. W. J. Hanna, M.P., John Northway, J. F. Michie, J. W. Woods, E. Hay.

At a subsequent meeting of the Directors, Mr. Peleg Howland was re-elected President and Mr. Elias Rogers Vice-President for the ensuing year.

PELEG HOWLAND, President. E. HAY, General Manager.

TWIN CITY COMPANY ASKS SIX-CENT FARE. Horace Lowry, president of the Twin City Rapid Transit, will ask the Minneapolis and St. Paul City Councils to grant a 6-cent fare for the company.

TUCKETTS' DIVIDEND. Tucketts Company has declared a dividend of 1 1/2 per cent. on preferred stock, payable July 15 to three years, and is willing, should a surplus result from the higher fare, that the city direct its expenditure.

NEW YORK STOCKS

Many Issues Lose Two to Four Points in Final Hour's Unloading.

RAILS FIRST TO SAG

U. S. Steel, After Early Strength, Finishes With Loss of Point.

New York, May 22.—Disregarding the removal of the railroad presidents and fresh complications in the international situation, the stock market proceeded today to resume its advance, but fell back sharply later. The early rise differed radically from recent movements, however, in that stocks hitherto backward or dormant were most conspicuous. Low-priced specialties such as Cotton Oil, Linseed, Virginia-Carolina Chemical, Agricultural Chemicals, Corn Products, and Hides and Leather common and preferred were 2 to 5 points higher at noon, after which the general reacting began.

Heavy Unloading. Shipments of copper and allied metals, as well as motors, oils and an impressive array of unclassified issues were carried down to 4 points in the more extensive offerings of the late hour, short selling evidently playing a part.

CANADA PERMANENT WILL EXTEND SCOPE

Oxford Permanent Loan and Savings Society to Be Absorbed.

ADVANTAGES MUTUAL

Canada Permanent to Carry Operations Further Into Splendid Community.

Arrangements have been completed, subject to confirmation by the shareholders of the respective companies, for the purchase by the Canada Permanent Mortgage Corporation of all the assets and business of the Oxford Permanent Loan and Savings Society of Woodstock. The latter society has been in existence for 52 years, and has been ably and carefully managed.

The liabilities of the Oxford Permanent on the same date were: Deposits, \$487,242; debentures, \$246,656, and undivided profits, \$261,923. It has a paid-up capital of \$291,640, and the reserve fund and contingent account amount to \$145,300, or approximately 100 per cent of the capital. The shareholders have been receiving a dividend of seven per cent. The purchase will be effected by the Canada Permanent Corporation assuming the liabilities and by issuing to the shareholders of the Oxford Permanent debentures at the rate of \$150 for each \$100 of stock in the company. The shareholders will be interested at five and one-half per cent. The price is, therefore, equivalent to the book value of the net assets.

Mutually Advantageous. It is the intention of the Canada Permanent to continue the office in Woodstock under the management of Malcolm Douglas, who for so many years has been the successful manager of the local society.

Special general meetings of the shareholders of the respective companies have been called. The Oxford Permanent to be held at Woodstock on July 19 and the Canada Permanent at Toronto on July 23. The date of the latter has been deferred to give ample time to fully acquaint all the shareholders with the conditions of the sale, as a considerable number of these shareholders are resident in Great Britain, on the continent of Europe, in South America and some even in Asia.

The directors of the Canada Permanent Mortgage Corporation are: W. C. Macdonald, president; W. D. Matthews, first vice-president; I. S. Hudson, second vice-president; Col. A. F. Gooderham, J. H. G. Hamlyn, J. P. Campbell, S. B. C. Edinburgh, John Massey, F. Gordon Oiler, E. R. C. Clarkson and William Mulock. A. S. Hudson and John Massey are also joint general managers. The assistant general manager is George H. Smith.

MEETINGS CALLED. Special general meetings of the shareholders of the respective companies have been called. The Oxford Permanent to be held at Woodstock on July 19 and the Canada Permanent at Toronto on July 23.

At the annual meeting of the Imperial Bank of Canada, held yesterday, keen satisfaction was expressed with the results of operations for the fiscal year, which ended on April 30.

World shows net profits of \$1,185,062, or \$65,000 in excess of those of the preceding year. After liberal contributions to patriotic funds, meeting all charges and paying dividends, a surplus of \$10,086 is exhibited.

The bank increased its liability to the public slightly over \$1,000,000 during the year, this being made up of a gain of more than nine million dollars in deposits and more than two million dollars in circulation of the bank's notes.

The strong position of the Imperial Bank is better realized when it is pointed out that the resources of the bank are seven million dollars in equal to the capital.

Security holdings, which now amount to twenty million dollars, show an increase of about five millions. One notable feature is the expansion in loans to municipalities, due to the fact that municipalities are able to borrow outside of Canada.

The Imperial Bank's advances in this connection amounted at the end of April to \$15,751,000, an increase of \$5,554,000.

While the bank has shown caution with regard to call loans, reducing those outstanding by nearly \$1,500,000, current loans increased about a million dollars, and amount to \$41,132,000.

The interesting announcement was made at the meeting that the stock

They're smart looking suits! Medium grey and black hopsack weave, tweed mixture, single-breasted, three-button models, soft roll lapels, unlined sacques. Well tailored trousers, finished with belt loops and cuff bottoms. Sizes 36 to 44. Priced at only \$12.50.

### Better Get a Raincoat for the Holiday

Men's Raincoats made of an imported English Tweed, thoroughly rubberized to insure an absolutely rainproof fabric. They're a medium grey shade with small black overcheck.

Popular trencher model with all around belt, convertible collar, patch pockets with flaps; all edges and seams sewn on and cemented.

May be worn as a raincoat or spring overcoat. Sizes 35 to 44. For \$15.00.

Similar Raincoats, \$12.50 to \$18.00. Paramatta Raincoats, \$10.00 to \$18.00.

### A Man Needs a Spring-Weight Coat These Days

When you throw off your winter coat for the season and neglect to provide yourself with a handy lightweight coat, you take chances that imperil your health. Colds and their ill-effects, however, need not be countenanced for one moment with one of these dressy coats at hand.

At \$12.95

Choose from smart English and Canadian Tweeds, in new colors of brown and grey, grey and black, brown and black, and others in a wide variety of striking patterns. Single-breasted, one-half belted backs, military effect, English slip-on, with natural shoulders and full back; also the popular pinch-backs. Sizes and patterns come in ones and twos of a kind, so hustle here for yours. Sizes 32 to 44.

## The "Twenty-Fourth" Opens the Season for New Straw and Panama Hats!

There's nothing like a new straw or Panama hat to put "pep" into a man—except it be getting one for so little as our moderate prices indicate.

Superior assortments and noteworthy values have secured for the Simpson Men's Store the patronage of that representative class of men and young men who put the seal of approval on prescribed fashions.

Whichever size, style or price your taste and fancy dictate—you'll easily find a becoming hat to suit you.

### Sennit and Split Braid Straws \$2, \$2.50, \$3, \$3.50, \$4

"Super styles" you'll say when you set eyes on them. And what a comprehensive variety! You couldn't think of a single style that's missing. Crowns and brims in all the authentic styles—everything. Step in and see them today.

### Genuine S. American Panamas At \$5.00, \$6.50 up to \$8.00

Your kind of Panama is here, surely. The telescope shapes with slightly curled and pencil edge brims—the Fedora shapes with flat set, slightly curled and pencil edge brims—and the Optimo or Neglige shapes with medium and full curled brim.

### A Sennit Braid Boater Is Priced at \$4.00

This particular style has a fascination for the young man—he insists upon it unanimously. Plenty of them, too, in every size. For \$4.00.

### A Split Braid Boater Is Shown at \$3.00

This style is equally becoming to men and young men—it is the cosmopolitan of hats, so to speak. And just \$3.00.

### A Fancy Hat Band Will Add the Distinctive Touch!

Many men prefer the fancy band to the conventional black one on their hats. So we've prepared an excellent variety in popular widths. 25c, 50c, 75c and \$1.00.
