THE T. EATON CO LIMITED

ORGANIZED LABOR AND PROHIBITION

Request for Stronger Beer Deferred for One More Year.

METROPOLITAN RAILWAY Arbitration Date Postponed Owing to Absence of Witnesses.

Organized labor throughout the province was represented by a large delegation of members of the Dominion Trades and Labor Congress which waited upon Sir William Hearst and his cabinet at the parliament buildings yesterday, and submitted a large number of resolutions, calling for remedial industrial and social legislation to be enacted at the next meeting of parliament. Among other changes the government was urged to amend the Ontario Temperance Act, so as to permit of the manufacture of a beer of 2 1/2 per cent. alcohol content, rather than a beverage of 2 1/2 per cent. proof spirits. The premier in reply stated that the government did not intend to diverge from its temperance policy at the present time. There were certain points in the Ontario Temperance Act that he did not like in practice, and amendments would be presented at the next session, now receiving the consideration of the government.

"So far as this province is concerned," he added, "I have before me the policy of this government, and I have not changed my mind. As soon as practicable after the soldiers have returned, the question of prohibition will be referred to the people by means of a referendum. Originally it was expected to have done this in the next spring. That is now impossible, as the soldiers will not all be returned by that time. Until that is done there will not be any change in the policy of the government."

Harry Halford of Hamilton, chairman of the deputation, and James Walsh of the Brewery Workers' Union of Toronto, advocated the manufacture of a stronger beer. The work of the country were behind the demand. The present beer, it was pointed out, was injurious to health. Many brewery workers, who had enlisted, were now walking the streets because of the absence of prohibition.

Unfavorable Time. "Sir William further pointed out that the present was not a favorable time for the government to discuss the question of increasing the alcoholic content of beer, as according to the Dominion order-in-council beer stronger than 2 1/2 per cent. proof spirits could not be manufactured until one year after the war. The government was endeavoring to get solutions for some of the features of the statute which were not satisfactory. The prohibition of the importation of liquor, and the abnormal demand during the influenza epidemic were difficulties encountered during the year. When the referendum should be taken the government would be able to take the decision in the matter, and meantime he asked for the co-operation of all classes in enforcing the law."

"Sir William told the deputation when it was urged that attention be given to granting pensions to widows and children of soldiers and civilians. The question receiving consideration. It was proposed, he added, either by commission or otherwise to thoroughly investigate the whole question."

Mothers' Pensions. Speaking on behalf of mothers' pensions, J. T. Gunn of Toronto stated that a mother should be able to rear her children without having to go out into the industrial world. The time has arrived, he added, when action should be taken by the government in this matter.

The Firemen's Union was represented by Delegate Hook, who put in a plea for the two-platoon system. "If this were crystallized into legislation," he said, "the firemen would have time to become acquainted with their families."

Fred Culver for the moving picture operators urged government action to change the conditions under which the operators were required to work. Many of the members of the union were returned soldiers, and they could not stand conditions now existing in many motion picture houses.

Other resolutions were submitted, dealing with the following matters: An eight-hour day for street railway employees, instead of ten; the raising of the compulsory school age from 14 to 16; the appointment of officials to inspect the erecting equipment of painters; a change in the voting hours.

of provincial elections, extending the time from 5 to 9 p.m., and opening at 3 instead of 6 a.m.; the removal of running boards on street cars, and the abolition of enumerators' booths, preparing election lists, and many others. Sir William promised consideration of the many recommendations submitted.

HONOR AMONG THIEVES; TRUSTWORTHY 'FENCES'.

Frank McCulloch, who is to stand trial at the January sessions for the alleged murder of Detective Williams on November 26, was a star witness in Judge Winch's court yesterday, when Edward Herman was charged with receiving tobacco and cigarettes alleged to be stolen from Sam Robertson. "How do you know you were implicated in during the past year?" asked Hartley Dewar, K.C., of the witness, who was very frank in his evidence. McCulloch could not remember at first, but finally recalled six jobs, one at Ottawa, from the proceeds of which he piled secondhand stores in Toronto with a bribe trade. Whenever he had his make did real big jobs, weapons were bought and collected, and boot away. Touching upon the goods under discussion at the moment, witness stated that Herman knew they were stolen before he accepted them. McCulloch under cross-examination stated that he always told truth from the witness stand, and that he knew of twenty or thirty such people.

THE CASE IS BEING CONTINUED TODAY.

VANITY BAG HOOPS.

"Little hoops for women's vanity handbags" uttered Judge Morrison's desk yesterday afternoon and bore mute but eloquent testimony as to the merits or demerits of the action for damages preferred by the F. Machon Company against a company in Toronto for failure to pay money due on a bill of exchange for goods received. The defendants had put in a counter claim for non-delivery according to the specification. Twenty-four hundred of the 300 hoops delivered by the plaintiff company were alleged to have failed to come up to standard. Judgment for both parties.

"CORONER WOULD GET THEM".

That twenty-two dope fiends at the jail refused ventilation or to take the fresh air or exercise and that they could find no evidence to substantiate the claim of two dope fiends, John Howe and Anthony Rordan, that they were beaten up by guards in the jail, was the subject of the grand jury in the sessions yesterday.

DOUBLE PLATOON AT END OF MONTH

What is being done for the soldier in the way of helping him back from the active service of war to the occupations of civil life, was told yesterday afternoon by H. J. Daly, Ottawa, director of repatriation, in the first of a series of addresses, at the mining building of Toronto University.

DOUBLE PLATOON AT END OF MONTH.

Fire Chief Smith yesterday added twenty-five men to the department, and tomorrow twenty-five more will be enrolled, inaugurating the double platoon system in Adelaide, Richmond, Lombard, Yonge and Portland streets, and possibly also at Berkeley street station. This will affect the most of the stations in the downtown district. Only returned soldiers who are physically fit are being taken on. In spite of the rumors that some veteran captains were going to retire before the installation of the double platoon system, no resignations have yet been received.

General Mewburn Gives Details of Repatriation to Canadian Club.

GOVERNMENT IS GOAT

Detailed Figures of Canadian Forces—Soldier Fatalism and Employment.

An illuminating address upon the problem of demobilization, with some intimations of the government's policy and the treatment to be accorded to the returned soldier, was delivered at the Canadian Club luncheon in the auditorium of the St. James' Cathedral Parish House, yesterday afternoon, by Major-General S. C. Mewburn, minister of militia and defence. Major Wright, president of the Canadian Club, took the chair, and among the prominent guests at the head table were Hon. Dr. Pyne, Bishop Sweeney and Mayor Church. General Mewburn dealt with the work already accomplished, with some of the criticism that had been levelled at the militia department in connection with the demobilizing of the soldiers, and laid down the principles that would guide the government in dealing with the entire problem of demobilization. He explained all that had been done by the department to organize and facilitate the work of demobilization, and asked for the hearty cooperation of the returned soldier in establishing the returned soldier in civil life.

BREAD WRAPPING TO BE ENFORCED

Board of Health Will Buy Hospital Supplies in Open Market.

OSGOODE HALL NEWS

Toronto Railway Company Loses Appeal in McCormack Case.

The board of health, at their regular meeting yesterday, was of the opinion that the matter of standardizing bread should be dealt with. The board has for some time considered action along these lines, but up to the present the delay has been unavoidable, the whole attention of the board being on the influenza epidemic. The principle of wrapping all bread was thoroughly endorsed by the board, and it was decided to take action to enforce this in the near future. Two petitions in this connection were read by the chairman. One was in favor of the wrapping of bread and another was against the enforcing of the law to the effect that all bread must be wrapped. After a lengthy debate the board decided to endorse the petition that all bread be wrapped in the bakeries. In dealing with the tenders for supplies for the hospital, the board decided that in the future, owing to the condition of the market, all purchases be made on the open market, and that the board should be authorized to purchase on credit. The board also decided to purchase for the hospital, and to purchase for the hospital, and to purchase for the hospital.

McCaul Street Residents Enter Protest Against Present Routing.

A deputation of residents from McCaul street waited on Works Commissioner Harris at the city hall yesterday to protest against the present routing of the Bloor street cars. Since the crosstown service was established on Sunday morning there are no cars on McCaul street, except after five o'clock, and then they only run north in the morning rush hours the cars proceed south on Spadina avenue. The deputation was composed of Rev. J. J. Moore, a representative of the Toronto Humane Society; P. E. McLaughlin, Mr. Greig, Mr. Phelan, Mr. Edmund Phillips and Mrs. Monroe. Mr. Harris informed the deputation that under the routing of the city council the routing of cars by the Toronto Street Railway Company. He stated, however, that he would take the matter up with R. J. Fleming and see if something could not be done. Some time ago the city raised an objection regarding the routing of the street cars, but the court held that they had no jurisdiction in the matter. It has been suggested that the Dupont cars, run down Spadina along College, down McCaul and York streets, returning via Bay, Queen, McCaul and Spadina. This would relieve congestion on Yonge street. It is also proposed that Harbour cars be run on McCaul street, and that the York to Front returning via Bay, Queen, McCaul, College and Spadina be more frequent service on the Belt Line is needed now that McCaul cars are cut off, it is pointed out by the Toronto Railway Co. has been asked to consider these proposals.

THE EDDY LINE

- Matches: 30 to 40 brands, A Match for every purpose, 70,000,000 a day output.
- Indurated Fibreware: WashTubs, Washboards, Milk Pails, Butter Tubs, Household Pails, Fire Pails, Pigeon Nests, Cuspidors.
- Paper Specialties: Paper Bags, Serviettes, Toilet Papers, Sanitary Towels, News Print Paper.

WAY back in 1851, E. B. EDDY began the manufacture of matches in Hull. It may seem that there is no connection between matches and the other products listed here, but there is a real, logical and economical connection. Good matches require soft, smooth-fibred pine. But the match factory receives many grades of pine, together with wood of other sorts. It will not make good matches, but it is quite satisfactory for other products which are derived from wood pulp. So we make matches only from the wood which is suited for that purpose, and the remainder, instead of being wasted or made into poor matches, is used for other things which you need.

EDDY PRODUCTS are used every day in thousands of Canadian homes. Eddy's Matches, Eddy's Indurated Fibreware, and Eddy's Paper Specialties are known everywhere. They not only are efficient time and labor savers, but they help to eliminate the waste of an important national resource.

FIVE SHOP GIRLS HELD.

Five young girls, May Arnold, 21 Sussex avenue; Rhoda Parker, 44½ Appleboro avenue; Margaret Anderson, 161 Brunswick avenue; Lily Maughan, 1118 College street, and Laura Sutherland, 1118 College street, employed by the R. Simpson Co. in the store to help over the Christmas rush, were arrested on Saturday by Detectives Archibald and Armstrong, charged with theft. According to the police the girls had annexed a considerable quantity of goods before the discovery of the thefts was made.

LIEN PROVED COSTLY.

Captain F. W. Harbour bought an auto for \$375 from J. Gorevich in June this year. He gave it a coat of paint and otherwise fixed it up, at extra cost of \$185. The end of July saw Charles Spencer take the automobile away on a claim of lien against Gorevich. Yesterday when the action against the prosecutor was brought by Harbour in Judge Denton's court, the judge ordered Spencer to return the car, and to also pay both Harbour and Gorevich \$25 damages.

CUT HIS THROAT.

Albert Woodward, aged 45, and lodging at 35 Pembroke street, was discovered dead in his bedroom last Saturday afternoon, as a result of cutting his throat with a razor. According to the police, one of the women living in the house heard moans issuing from Woodward's rooms, and trying the door, found it locked. She notified the station, who sent over a policeman to open the door. Woodward was lying on the floor fully dressed, with his head almost completely severed from his body. Nothing is known of Mr. Woodward, except that he was a musician, and had no relatives living in Toronto. The body was removed to the morgue, but it is not yet known whether an inquest will be considered necessary.

Taxation and Transportation.

The Globe approaches the housing question with some degree of wisdom: The Globe in Toronto, and probably also in the other cities of the province, conditions are such that the advancing of public money for housing companies will do little or nothing, coupled with radical changes in the laws regarding the taxation of land and in the available transportation facilities. The Globe ventures to urge Sir William Hearst's aid in the solution of these problems. No satisfactory housing project can be built on present conditions. The housing problem in Toronto is essentially a land and transportation problem. Sir John Willison knows this. So do every other member of the housing commission. The truth of it can be demonstrated to anyone in a two-hour run about the outskirts of the city. Practically all the available land is held at prices which make it impossible for occupation by workmen's homes.

And so forth. We have been saying this and much more than this for ten years at least. But as long as The Globe supports the short-sighted policy of the downtown real estate interests it is only taking away with its left hand what it is ostensibly offering thru Sir William Hearst with its right.

No one has opposed the transportation schemes proposed by The World and its supporters more vehemently than The Globe, except The Telegram. They have been co-partners in obstructing any modification of the iron-bound restriction of Toronto's population to the smallest possible area.

When the purchase of the street railway, the building of tubes and the revolution of our city transportation system was proposed seven or eight years ago, The Globe almost saw the light, but the downtown influence were finally too strong, and on the ground of cost it joined the reactionary Telegram.

The people have been levied on since then in increased rents, increased exactions for land and increased rates due to the inaccessibility of other land, and other charges to an extent that would have purchased the street railway and built all the tubes required to cover it.

The Globe, in search of a horrible example, couples Donlands with the Humber Valley. The Globe best knows whether this be a fair presentation of the situation, but The World knows where land is to be had in which The Globe professes to have search can be obtained within seven or eight miles of Toronto, at from \$5 to \$10 a foot. Two or three thousand acres of such land is available east, northeast, north, northwest and west.

When it would have been possible to control the tracts of land, the exploitation of which The Globe now deplores, The Globe lent no assistance to the World in the endeavor to bring about such control. There were two methods proposed. One was annexation under conditions whereby local improvements should be made by property owners before placing their sites on the market. The other was the plan of metropolitan area control, which has worked so well in many places. Neither plan found favor with The Globe and its supporters, and as a result we have congested areas, threatened slums, a housing problem, tenement proposals and all other kinds of land evils.

We congratulate The Globe on waking up, if only for the municipal elections. Every channel of education that the people have brought to bear upon them will help to make known the real difficulties. We agree with The Globe that the taxation of land and transportation are immediately necessary remedies. If Sir William Hearst could be as bold in these matters as he has been in some others his reputation would soon distance that of his immediate predecessor. An attempt is being made to place a vested interest in a large tract of downtown real estate, by permitting three-story tenements, the whole policy being merely another millstone hung around the neck of the city.

The Telegram's Respect for Facts

Toronto Telegram: Bloor street viaduct would be still in the prospective stage if T. L. Church, supported only by Thomas Foster and Alfred Maguire, and opposed by FIVE OF THE SIX CITY PAPERS, had not fought the city's way to victory in the long battle for a reorganized works department.

The worst obstructionists to the Bloor street viaduct work were the obstructionists to the T. L. Church-Thomas Foster demand for reorganization in the works department. The Toronto World and Donlands democracy have a place among the obstructive and reactionary forces that delayed progress on the Bloor street viaduct by delaying reform in the works department.

Thoroughgoing reform of the old Toronto works department was the essential condition of progress with the Bloor street viaduct. Any other big public improvement. That reform was brought about mainly by the courage and initiative of T. L. Church.

When The World started ten years ago on a campaign of reconstruction in the city hall, recommending five independent heads of departments, W. T. (now Sir Thomas) White as city treasurer, Mr. Pipe of Montreal as city engineer, and other outstanding men for the legal, the transportation and the health department, The Telegram had nothing but jibes and sneers for the proposal. The World continued the campaign and finally The Telegram took it up. The Telegram has never originated anything worth while, but frequently borrows its neighbors' ideas after it has abused them.

We are not concerned about the credit to be had from getting things done, and we are always glad when a stream of intelligence strikes down and awakens its energies in any good cause. It really does not matter if The Telegram imagines to do everything when it does a little. Every little helps.

When the late Aid, Wickert tolled devotedly over the financial situation of the city, it was to The World he turned as a sympathetic supporter of progressive policies. The Telegram naturally abused him and ridiculed his financial plans and tried to show that his figures were wrong. It considered it necessary to do this in defence of some of its proteges.

The World continued to support Aid, Wickert and his policies finally triumphed. The Telegram of course claimed all the credit for carrying out the plans he had formulated, and for the appointment of Mr. Bradshaw as commissioner of finance.

It is to laugh. However, we are quite content to have the things done that we point out as necessary to be done, and we are pleased when The Telegram assists. The Telegram now wishes to take the credit of building the Bloor street viaduct as above noted. The real reason in this is that last perceived—the gleam of intelligence having broken through that the Bloor street viaduct is a good thing and might serve Mayor Church as a political asset. But surely The Telegram does not think the people are all simpletons!

If the Bloor street viaduct had been built when we first suggested it, the cost would have been about a fourth of the final figures. Even the second estimate was under a million. The Telegram's obstruction doubled this cost, and now it takes credit for its action.

GIVING HER HOUSE A BAD NAME

MRS. VAN DUTCH: "I will not haf der police hending round my place. Get out!"

THE WIFE

By JANE PHELPS

Brian a True Prophet.
CHAPTER XXIII.
The United States had declared war. What had led up to this declaration is now an old story, too old to repeat here. Brian Hackett's excitement was intense. The night the papers proclaimed in black headlines that Uncle Sam had decided to join the allies he never slept a wink, neither did he allow Ruth to do so. He talked all night long.

"We will surely win, but it's going to be a stiff fight, Ruth. Lots of men don't want my name at the foot of the list of men volunteering. I should be ashamed to look in the glass if I wasn't somewhere near the top of the list."

"What, am I to do, Brian?" Ruth had listened to his ravings very quietly. He had talked for such a long time, and not one word of her sorrow at leaving her, her loneliness when he should be gone; or the anxiety she would have to go.

"Right along doing just what you are doing now, of course. That is what makes it possible for me to go—you being able to take care of yourself."

Brian did not intend to be cruel, but nevertheless he was. Ruth shivered, and hot tears welled up in her eyes. That was all the thought he had for her. She was capable of earning her living; let her do it, was his attitude.

"I shall worry so, Brian."
"Nonsense! Think of the poor women who can't earn money like you can, whose husbands will have to go. You won't hear them whining, I'll bet."
"I'm not whining—I'm frightened."
"Frightened—at what?"
"For fear you won't come back."
"What's the odds if I don't? Some of us are bound to get out, it better be me than a man with a family of kids."
Ruth opened her lips to say something, closed them tightly again. Then said:
"Oh, Brian, don't talk like that."
"It's the truth. Then: 'I wonder what branch of service you are adapted for—rather, where are you the most. I wish I knew, I can hardly wait until morning. I tell you, Ruth, the little old 'S. A.' will astonish those fellows over there. Not only the Germans, whom we are going to wipe off the map, but the allies. Really none of the foreign nations have the slightest idea of what a big boy Uncle Sam is, and what a kick he can kick up when he makes up his mind to scrap. They think we are a nation of money-grabbers. They will get a few eye-openers. They will find we are a nation of fighters."
"I know, Brian, but you must stop thinking and talking and go to sleep. You will be worn out with all this excitement." Ruth, as was usual in such matters, thought only of him. That he was also keeping her awake, that she would be tired and feel unwell the next day, meant nothing as compared to his well-being.

POLITICAL NOTES AND VIEWS

THREE members of the Dominion Government were in the city yesterday: Sir Thomas White, minister of finance; Major-General S. C. McBurn, minister of militia and defence, and Hon. N. W. Rowell, president of the privy council. General McBurn spoke at the Canadian Club luncheon on demobilization. Hon. Mr. Rowell leaves this afternoon for Bowmanville, where he will address his constituents on "One Year of Union Government."

And as some of the ministers were departing or preparing to depart for the capital last evening, in came Sir Wilfrid Laurier on the Canadian Northern day express from Ottawa, accompanied by Lucien Dugas, his private secretary. Sir Wilfrid is merely here on a personal visit to his old friend P. C. Larkin, but he will be passing company with Premier Martin at this time in said to be of considerable significance.

The Regina Leader says the resignation will be received with surprise and regret. The Leader agrees with Mr. Motherwell that the Union government has many shortcomings, but cannot agree with him in thinking that the government and legislature of Saskatchewan should take any steps to elect it from office.

The Liberals of eastern Ontario are to hold a meeting at Ottawa on Jan. 14 to form an Eastern Ontario Liberal Association. The meeting or convention will be much of the same character as the one recently held at London.

And speaking of that London convention we recall how Sir Wilfrid Laurier has been denounced for saying that the Germans were "one of the noblest races in the world." Sir Wilfrid has recently written a letter denouncing The Winnipeg Free Press as a willfully garbling what he did say in the connection in the London speech. He quotes from the verbatim report of his speech on that occasion to prove that what he did say was that the Germans before the war were regarded as one of the noblest races, etc., and says that The Free Press omitted the qualifying phrase with intent to deceive.

The United Farmers of Ontario will hold their annual provincial convention in this city commencing today. Among other business to come before the convention will be the adoption of the platform of principles recently enunciated by the Canadian Council of Agriculture at Winnipeg.

The United Farmers of Alberta, a powerful organization under the presidency of H. W. Wood, will hold their annual convention at Edmonton on January 21-24. Rural credits and a general consideration of the banking and currency question will be the principal theme under discussion. J. W. Leedy, formerly governor of

If the City of Toronto Were Your Own Business:

You would want it on a sound financial basis. You would pay as you go, reduce debt charges and refrain, as far as possible, from capital expenditures during the next few uncertain years.

With the opportunity—and the intention—of acquiring the street railway in 1921, you would want to be free from all financial obligations that might prevent the taking over of this public utility.

You would want to estimate your income and expenditure with accuracy. You would not want to be lulled into a false sense of security by over-estimating income and under-estimating expenditure.

You would want efficiency in every department and full value for every dollar expended.

Exercise your franchise on New Year's Day to elect the best representatives to your civic government for 1919.

CONTROLLER JOHN O'NEILL

Mayoralty Candidate

Kansas, will suggest amendments to the Canadian Banking Act. Vere Brown, superintendent of the western branches of the Bank of Commerce, has accepted the invitation to address the convention on the same subject.

The resignation of Hon. W. R. Motherwell as minister of agriculture in the Saskatchewan government, has received considerable comment from the press. Mr. Motherwell entered the government in 1905, when Saskatchewan first became a province, and his parting company with Premier Martin at this time is said to be of considerable significance.

The Regina Leader says the resignation will be received with surprise and regret. The Leader agrees with Mr. Motherwell that the Union government has many shortcomings, but cannot agree with him in thinking that the government and legislature of Saskatchewan should take any steps to elect it from office.

The Winnipeg Tribune thinks Mr. Motherwell can easily be spared from the government. One reason given for his resignation is the legislation about to be brought down to ensure the use of English as the only language of instruction in the schools, and with this legislation The Tribune declares itself to be in full accord.

The Ottawa Citizen finds that Mr. Motherwell resigned as a protest against the continuance of the War-time Elections Act, and the Dominion Government's plan of soldier settlement. Whether he be right or wrong the Citizen thinks it a refreshing thing to find a public man in Canada

giving up office with all its emoluments on a question of principle. The Ottawa Journal on the other hand dismisses the resignation with the terse comment: "Perhaps Hon. Mr. Motherwell of Saskatchewan thought he could deliver all the west for Laurier, and tumbled at the first turn."

The London Free Press and The Toronto News publish substantially similar dispatches from Ottawa, hailing Mr. Motherwell's retirement as a vindication of Union government. They say that at the recent interprovincial conference a great deal of intriguing went on against the federal government. Some of the western ministers at that conference antagonized the War-time Elections Act, the soldier settlement legislation, and the proposed land settlement scheme of Hon. J. A. Calder. They were anxious to split the forces of Union government in the west, and Mr. Motherwell finally Premier Martin should denounce the Union government.

That Premier Martin accepted Mr. Motherwell's resignation is taken as a conclusive proof that he remains a staunch supporter of that government. As the premier of the largest western province and the most likely leader in sight of the re-united Liberal party in case it ever becomes reunited, his decision is regarded as a momentous indication that for a time at least the government may count on a solid parliamentary delegation from the west.

Premier Martin, however, in his letter to Mr. Motherwell, contents himself with pointing out that the provincial government is not called upon to interfere in federal politics. The real difference between them may be on the school question.

TENANTS GET DAMAGES.

Wm. Kohler and Ira Embree, proprietors of the Mechanies Tool Case Manufacturing Co., yesterday won their suit for damages against Harry Biddell for breach of contract, and were awarded \$550 damages by the jury in Judge Coatsworth's court. Prosecutors, smashed partitions and other inconveniences suffered by a mother and four children were among the alleged grievances of the plaintiffs who were tenants of defendants.

The Friends of France realized \$500 at their very successful bazaar in aid of French refugees.

"OH LOOK" AT ALEXANDRA.

PLAYS, PICTURES AND MUSIC

"OH LOOK" AT ALEXANDRA.

"Oh, Look," the musical comedy at the Royal Alexandra this week, is the latest New York concentration of jazz music and ragtime, with the salacious exploits of the Dolly Sisters, and Harry Fox's characteristic humor to give the show consistency and make it a joy.

AT THE GAYETY.

Everything in burlesque plus, and some, would sum up Fred Irvell's Matinee at the Gayety Theatre yesterday, with a well-known Toronto girl, Frances Bennett, in the leading role.

AT LOEW'S THEATRE.

"It always thought that they would come out, but not on a piece of string," said Admiral Beatty, of the German fleet, but there they are strung along, cruiser after cruiser, and U-boat after U-boat on the screen at Loew's Theatre.

GERMAN FLEET AT HIPPODROME

This week's bill at the Hippodrome is of a very superior character, and the management is taking the capacity of the building all day. The news features of the picture part of the entertainment are the pictures of the action, and include pictures of the surrender of the great German fleet to Admiral David Beatty.

"MONTE CARLO GIRLS."

That clever little comedian, Frank Rags Murphy, is back again at the Strand this week with the Monte Carlo Girls. Unlike many other burlesque shows, this production has a plot, written and produced by Joe Wilton, and the Mr. Wilton has written many plays, the action of the Monte Carlo Girls show, as seen yesterday, would be hard to beat.

"MY COUSIN" AT ALLEN.

Motion-picture lovers will have an opportunity all this week of seeing the Enrico Caruso splendid pictures in his initial film performance in Toronto at the Allen, where he is appearing in "My Cousin." In this picture Caruso takes a dual role, that of Tommaso, an artist, and that of Carolo, a famous grand opera singer.

ORPHEUS TO BE REPEATED.

Maestro Carboni's clever production of "Orpheus," which met with so much success at Massey Hall, recently, will be reproduced at the Princess Theatre on Thursday evening, December 19, with the same artists as before, together with the Toronto Operatic Chorus and the Somers School of Dancing.

Notice to Subscribers

In order to avoid any possible misunderstanding on the part of subscribers to the Toronto Operatic Chorus and the 50,000 Club, arising from the announcement of the armistice, the secretary of the chorus wishes to state that its pledges to subscribers are for the duration of the war, which means until the soldier is actually discharged.

"Ex-Kaiser Looked Haggard," Reports Canadian Officer

St. John, N.E., Dec. 16.—Major Norris A. Scovill, of Gagetown, N.E., who returned on the Minnedosa, is one of the few Canadian officers who have seen William Hohenzollern, the ex-Kaiser, while bicycling near Amerongen on the day after the former Kaiser's flight.

IRISH COMEDY AT THE GRAND.

Following closely along the same lines as "Peg of My Heart" and "The Brat" is "The Laughing of Mother Machree," playing for the week's engagement at the Grand Opera House.

THE BILL AT SHEA'S.

Shea's offer a particularly entertaining bill this week, and the honours are divided between Ida May Chadwick, "The Dancing Ace," and Jack Wyatt and his Scotch lads and Lasky in a song and dance act.

DOUGLAS FAIRBANKS.

The first of this week's attractions at the Strand, "His Picture in the Paper," has in the leading role the interesting picture of the famous newspaper editor, William Randolph Hearst.

GOOD BILL AT MADISON.

It is certainly a great bill at the Madison Theatre. The famous Chaplin film, "Shoulder Arms," is being shown at the Madison Theatre all this week, and is attracting a large audience. In addition, there is an excellent feature, entitled "His Birthright," starring Eugene O'Brien. This is a stirring melodrama of love and revenge, and gives the eminent Japanese actor a role of great strength.

"THE BETTER 'OLE."

Messrs. Allen, with their commendable desire to satisfy their patrons, Better 'Ole' to Massey Hall for the Christmas week, beginning Dec. 23, on the account of the fact that so many hundreds of people could not get admission to the Allen Theatre when they were there.

Environment.

That is exactly what such photographers as this are doing for the present generation. We will have a clearer realization of the bitterness of the struggle that we have been through because "The Better 'Ole'" has enabled us to envision the thing in our minds. This play makes the deeds of our brave soldiers seem more wonderful than ever, and the treachery and brutality of the un-speakable Hun more revolting than the imagination ever dreamed.

COMING TO PRINCESS.

There is to be one more opportunity for local players to enjoy the performance of Guy Bates Post in "The Masquerader." Richard Walton Terry is to send his star to the Alexandra for the week beginning Monday, January 6. The coming engagement will be the last opportunity to see Mr. Post in his impersonation of John Chilcote and John Loder.

EAST-END HOLDS RIOTOUS MEETING

Ratepayers Clamorously Denounce Dr. Noble's Double School System.
An indignation meeting of the east end ratepayers was held last night in the Earl Grey School, Jones avenue, to protest against the school hours that are being tried out in the junior classes in that school.

At Earl Grey School an unexpected scene of affairs exists. The youngsters in the school are heavier than was anticipated, and in order to relieve the congestion until further plans could be formulated, Dr. Noble's plan of half-day sessions was put into use as an experiment. This is only the case with the junior classes, the senior pupils continuing the regular routine regular hours, in the case of the little children, however, half of them attend school from 8.30 until 11, and the rest from 11 to 1.

Coombs, it is said, will receive a salary of \$7500, with a bonus if he succeeds in piloting the team to the top of the league race, or to a place among the leaders.

UNIVERSITY REGISTRATION

The ranks of the Toronto University are being increased every day by the registration of returned men in the various faculties. Since the armistice was signed, sixty have registered in arts and fifty in applied science. Doubtless this increase will continue, and by next spring the university body will have reached its pre-war strength.

FIRMER TONE IN TORONTO MARKET

Dominion Bank Sells Four Points Higher—War Loans in Demand.

Stocks in general presented a firm appearance in the Toronto market yesterday with further evidence of the security of bank stocks and a much-improved demand for the listed war loans.

In the war loans, interest centred in the morning in the 1925 issues, large blocks changing hands at the firm quotation of 39 1/2.

GAINS ARE NUMEROUS IN MONTREAL MARKET

Canadian Car Preferred and Spanish River Preferred Are Most Active.

Montreal, Dec. 16.—Offerings of Canadian stocks proved small today when an improved tone to the New York market, and evidence of a strong recovery in the situation here, brought in a little buying.

There was a lull in the recent demand for bank shares, but prices on the whole continued strong. A broken lot of Montreal sold at 21 1/2.

DEFIATION INEVITABLE IN NEW YORK MARKET

Necessary Adjustment to Be Followed By More Healthy Conditions.

Henry Clews says of the New York market outlook: An unsettled stock market must be anticipated for the immediate future. With the adjustment necessary to declining commodity prices, as well as the fading away of war profits, considerable deflation must be expected.

TRADE TOPICS

The features of the week in business are the increased price of coffee and salt. Retail trade is brisk with Christmas shopping.

In wholesale hardware, there is no change, and the cancellation of munition contracts creates uncertainty as to retooling trade to ordinary lines.

In the provision market prices are high, with eggs the feature. The demand for smoked and cured meats is moderate, but prices are firmly held.

Scrap metal dealers are not offering any available material. Business is bad, and until a readjustment of the iron and steel situation, no improvement is expected.

There are no new features in the money market. Discounts in business are practically unchanged.

LIVERPOOL COTTON. Liverpool, Dec. 16.—Cotton futures closed steady, December, 20.31; January, 19.69; February, 18.15; March, 17.31; April, 16.27.

RALLY BY DOME; HOLLINGER FIRM

McIntyre, Teck-Hughes, McKinley, Nipissing and Gifford Well Supported.

There was some tendency toward irregularity in the local mining market yesterday, but while a number of small fractions to about two points, there were other stocks, including Dome, Hollinger, McIntyre and Teck-Hughes, the gold group, and Nipissing, McKinley-Darragh and Gifford of the silver list, which were firm to strong without.

Dome gave a good account of itself yesterday, particularly in New York, where, after opening at 12 1/2 as compared with 12 1/2-13 on Saturday, it rose to 13.00, and held the full gain at the close.

McIntyre advanced 1/2 to 36, and Teck-Hughes advanced 1/2 to 36. The assumption of operations on the part of the last-named has done much to dissipate apprehensions as to the company's outlook for meeting its financial obligations.

Davidson was subjected to some pressure, dipping to 61, but rallying to 62 so that the day's loss was reduced to a point. While Davidson is now about nine points under the high point established some weeks ago, it is still at double the price prevailing not many months ago.

There was a lull in the recent demand for bank shares, but prices on the whole continued strong. A broken lot of Montreal sold at 21 1/2.

NEW YORK STOCKS MOVE NARROWLY

Oils, Motors, Coppers and Shippings Are Most Prominent Issues.

New York, Dec. 16.—The monotony of today's dull and professional stock market was occasionally relieved by movements, mainly upward, in issues of the speculative class, while representative stocks traversed their recent narrow limits.

More than a proportionate share of the very meagre operations consisted of the popular oils, motors, coppers and shippings, together with some of the foodstuffs specialties which usually follow in their train.

The oil stocks attracted attention because of advances received over the week-end indicating a recurrence of unsettled conditions south of the Rio Grande. Mexican Petroleum, however, scored an extreme gain of four points, while Royal Dutch and Pan-American Petroleum also registered very substantial advances.

Rails and seasoned industrials and equipments were steady to firm, but the light heavy stocks of autos received again ascribed to post-war market affecting transportation and industrial conditions, these reasons applying with equal force to the copper trade.

Firmer tendencies developed in the first hour, the government crop report exerting a favorable influence on its showing of a 16 per cent increase in wheat acreage and very material improvement of general conditions over the average of the past ten years.

Aside from moderate reactions in shippings and oils, the market registered no important quotations shortly before the closing. United States Steel gained a point and coppers denoting short covering. Sales amounted to 240,000 shares.

Declines of 1 to 2 points in leading railway issues caused a heavy bond market, with Liberty issues were steady and international securities scarcely altered. Total sales, par value, aggregated \$10,675,000. Old United States bonds unchanged on call.

VICTORY BONDS PRICES RAISED

The special Victory Loan committee has taken action as recently foreshadowed by advancing the selling price of the new bonds all along the line. The new prices and the prices prevailing in the market of trading yesterday are shown below. Interest added to the quoted price in each case.

Table with columns: Victory Bonds, Price, Interest.

U. S. WINTER WHEAT WILL BE HUGE CROP

Acreage is Largely Increased and Condition is Best on Record.

Washington, Dec. 16.—A huge winter wheat crop, larger by 50,000,000 bushels than any year in the history of American agriculture, was forecast today by the department of agriculture.

The government's appeal made before the coming of peace was in effect saying an acreage of 47,500,000 was desirable and the guaranteed price of wheat was planted during the winter extraordinary effort on the part of the farmers, said the department's announcement. As a result 49,027,000 acres were planted during a long and almost perfect season.

The fall growing season has been one of the finest ever known, resulting in the crop being in the best condition ever recorded on December 1, and giving promise of heavy yields.

An average spring wheat crop would place next year's production of wheat beyond a billion bushels and exceed the record crop of 1915. Last year's spring wheat production was 855,000,000 bushels.

Winnipeg Grain Market. Winnipeg, Dec. 16.—Oats closed 2c lower for 1 1/2c lower for May. Barley closed 2 1/2c lower for both months. Black closed 1/2c higher for both months.

Winnipeg markets: Oats—Dec. close \$2.10, close \$2.05; May, open \$2.10, close \$2.05. Barley—Dec. close \$1.01 1/2; May, open \$1.10, close \$1.05. Rye—Dec. close \$2.24; May, open \$2.33, close \$2.24.
