COMMUNIST MONEY AN AWKWARD PROBLEM

Hungarian Government Will Probably Give It Small Temporary Value.

Berlin, Aug. 15.—One of the first things taken up for discussion by the new Hungarian cabinet was the question of what should be done with the money issued while the Communists were in power. The Soviet money, despatches from Budapest say, will be declared false or will be given a temporary value so that the Hungarians who were forced to accept from the Bela Kun regime will not lose everything. It is to be probable that the Communist or "white money" will be given an arbitrary value of five or ten percent of the name by which the almost worthless Austro-Hungarian crowns are known.

FORD MAY RECOVER ONLY SIX CENTS COSTS

Mount Clemens, Mich., Aug. 15.—
The amount of costs that Henry Ford
may receive from The Chicago Tri-
bune, in addition to the six cents dam-
ages awarded him last night by a jury,
which heard his libel suit against the
Chicago newspaper, will not exceed
\$50. Under a Michigan law where
nominal damages are awarded, not
more than \$50 costs can be assessed
against the losing party.
Among some attorneys, the opinion
was held that in cases where damages
awarded amount to less than \$50, the
costs collectible may not exceed the
judgment awarded. In this event, Mr.
Ford could demand only six cents
costs from The Tribune.

VETOES THE REPEAL OF DAYLIGHT SAVING

President Wilson Says It is a
Question of Lesser of
Two Evils.

Washington, Aug. 15.—President
Wilson today vetoed the bill repealing
the daylight saving law.

Declaring the pressing need of the
country was for production by indus-
try, the president said he had been
obliged to balance one set of disad-
vantages against another and decide
which was the most serious for the
country.

The president said he returned the
bill without his approval with "the
utmost reluctance" because he real-
ized "the very considerable and in
some respects very serious inconve-
niences to which the daylight saving
law affects the farmers of the coun-
try."

This was the second time the presi-
dent had vetoed repeal of the law by
which the clocks are set forward an
hour on the last Sunday in March and
turned back the last Sunday in Octo-
ber. The first veto was several weeks
ago, the repeal being attached as a
rider to the annual agricultural appro-
priation bill.

The Turn in the Long Lane

of household drudgery is in sight. The Electrical Era now has a significant meaning to the housewife; she has come to realize that efficiency and electric labour-saving devices go hand in hand.

Using a sewing-machine need no longer be a back-breaking process. Simply place a "Home Motor" against the hand wheel of your machine, lightly press a pedal with your foot and this willing little motor will do all the hard work while you sit at ease in a comfortable chair, directing the seams, tucks or shirring. There are

no belts, screws, bolts or clamps to bother with. When not being used to drive a sewing-machine, the "Home Motor" can be converted into an electric fan or will grind knives and polish silver.

C.G.E. Electric Labour Saving Devices did not reach their present-day state of perfection overnight. They are the product of years of earnest, painstaking, research work, and are chosen for no other reason than to give the housewife service.

Ask your dealer to show you C.G.E. Electric Labour Saving Devices.

DANFORTH THEATRE BUSINESS MEN
SEATING ARRIVES TO BOOST BLOOD
 Messrs. Jule and Jay Allen Form Association to Improve Bathurst Section—Charter Applied For.

After having traced them half way across the United States and a large portion of Canada, Messrs. Jule and Jay J. Allen received with great relief yesterday the news of the arrival of the 1800 seats for their new Danforth theatre, which will be opened on Monday evening. The handsome structure is entirely complete and it is promised that it will show the people of Toronto something new in the way of cinema house construction.

The business men on Bloor street, for several blocks on either side of Bathurst street, have formed a Business Men's Association, and have applied for a charter.

The objects of the association are to better local conditions, and to make this section one of the most attractive business sections in the city.

At present the street railway track allowance is in very bad condition, cobble stones are at all angles, and in some places have disappeared.

There will be no formalities for the Monday evening performance, but the theatre will be open to the general public, Madge Kennedy will be the star in "Thru the Wrong Door," and there will be a Christmas play.

MAYOR MAKES PLEA FOR MOTOR BUSES
CARE OF INFANTS OUT OF WEDLOCK

Street Car Strike Showed Value of Gasoline Transportation.
 Board of Health Recommends Child Welfare Council to Investigate.

A strong plea for motor buses is made by Mayor Church, who states that he will bring the matter before the next meeting of the board of control. He declares the system would give urgent relief in districts where there is no other form of transportation.

The efficient provision and care for infants and children born out of wedlock, as well as homeless children in general, formed the subject of an important report yesterday by Dr. C. J. Hastings to the local board of health, who recommended that the matter be referred to the child welfare council of Toronto to report at its earliest convenience.

Dr. Hastings' proposed reforms may be summarized as follows: Legislation should be obtained prohibiting the placing out of children either free or boarding houses, except by some responsible agency, authorized by the province to do this work, probably the children's aid societies.

More adequate accommodation should be provided for the care of mothers during the nursing period and for their placings and supervision afterwards. This should not be done "in bulk," but by means of the "cottage system."

Separation of Mother. The question of whether or not the mother should be separated from the child after the nursing period should be decided only after a careful examination by a trained psychiatrist.

Strike Set Example. The recent street railway strike showed a large number of people how they could be readily transported by motor, and I intend to bring the matter before the board of control at the next meeting.

SATURDAY MORNING, AUG. 16.

Lord Grey of Falloden.

In choosing Lord Grey of Falloden as ambassador to the United States the British government has come back to the control of the premier, Mr. Lloyd George. It is undoubted that ill-health was the cause of Lord Grey's retirement at the time of the reorganization of the war cabinet when Mr. Lloyd George took his place.

Lord Grey has a unique reputation among diplomats and statesmen, and those who know him best believe it a fortunate occurrence that he has been persuaded to accept a position in which all his deftness and wisdom will be invoked.

Lord Grey, in some respects, is the father of the league of nations, and on this account his presence at Washington will be peculiarly appropriate. His practical experience has developed a singular gift of intuition, and his sympathies are of a cosmopolitan order well in harmony with the policy of United States policy, while his practical common sense is well adapted to dealing with the shortcomings to be met in the realization of these professions.

This was exactly the attitude assumed towards the whole German embargo previous to April, 1917, and a reversion to that view has taken place on the part of a large section of the United States public. The war has taught them no lesson. Until compelled to take part once more they desire to hold aloof, "the world forgetting, by the world forgot."

This, however, is an impossible position. China maintained it for ten or twelve thousand years, and now the last state of that nation is worse than the first. To China the United States is not possible, because the United States is embarked on the sea of foreign commerce.

Also the United States has Mexico to consider, perhaps even to contend with. And Europe is quite interested in Mexico that may occupy a great deal of Lord Grey's attention.

Whatever his problems may be or the demands made upon him, the new ambassador is one of the wisest, shrewdest, most far-seeing and intuitive Englishmen that could have been chosen for this important mission.

A Convention Cannot Be Packed. Several Conservative members of the legislature have stated that they cannot see the good of holding a convention, and one or two who have been inclined to believe that it would come to naught by reason of the possibility of the convention being packed.

by that of keeping in office, but he is no more numerous than the ordinary garden variety of Liberal. The election will turn on the appeal made to the independent voter, the soldier, the laborer, the farmer voter.

The government declines to sanction the only course which would create an authentic appeal as only a regularly called convention could make, and the result will be that thousands of voters will hearken to other appeals and contribute to that change which so many old observers see ahead.

The refusal of a convention also makes a sinister impression on the ordinary citizen who wonders what there is to conceal, and if the Conservative party is not to be trusted, or does not trust its leaders.

Hydro Commission Claims.

It will be news to many people that from the Hydro Commission, which is a public ownership project, organized by the people, for the people and has no other object than the people's benefit, the government collected duty on all the machinery that the commission was compelled to import in order to comply with the demands made by the power controller for war purposes.

The total sum claimed is \$4,902,000, which represents extra charges to power consumers of which they would have had the advantage in reduced rates but for the war.

DISCONTINANCES SIR HARRY DRAVTON

(Continued From Page 1).

and a former candidate, presided. A county executive representing all townships was elected.

At a meeting of the board of health yesterday some very interesting facts were brought to the attention of the public which go to prove what we have been "ranting" for months, and that is that there is urgent need of a child's welfare bureau.

Not only is there need for the bureau, but there is more need for a home where newly born infants may be placed, or all those under four years, as the Children's Aid do not handle younger children than that.

According to Dr. Hastings, every year sees many thousands of children tendered to the city, and as it is not always a child of Toronto parents, it is hardly up to the taxpayers of this community to support the expense.

On the other hand, the provincial authorities have steadily refused to take any responsibility in the matter of taking care of orphans who are born of illegitimate parents, or those who are abandoned by their legitimate ones.

In fact, there is nothing for the poor little innocents, more than a baby farm, and in some cases the home proves to be a good one, while in others it is anything but that.

It is quite necessary that when newly born infants are taken in by the city, it is quite necessary that the mother be in close proximity. The representative of the city, and therefore even the most kind, the kindest thoughts behind the actions of the local authorities, yet what would it avail?

The province of Ontario must provide a home for all the babies who are not wanted by their own, or who for some reason or other cannot be kept by their mother. In the last-class might come the babies of soldiers who went overseas and who did not provide for the mothers of the child, or it might mean the children of women who are legitimately wedded, to returning one day in their absence, whose transgressed the laws of convention.

In either case the child is the one to suffer. At this time, with conditions as they are, the suffering is most acute. Mostly because they are shifted from pillar to post, and better to be in a home, or at least in a systematic manner.

Dr. Hastings and his co-workers on the board of health have been battling with the problem of the child, and yet the only solution lies in the obtaining immediately of a home where these unfortunate little ones could be placed.

There are any number of buildings not being used at the present time, which a few months ago were fitted up for munition factories. One such building has been taken into at least a temporary institution. The kiddies will not want style, and the cost of putting in the necessities would not be great.

When one seriously considers the matter, it is easy to see that the question is a vital one, and also one which is commanding the aid and attention of every grown person in the province. Surely the asking for this dire necessity is not to be presumptuous, and in the hands of the children's aid society, the premier are endowed with the amount of humanity it will take to make such a necessity a reality?

MOTHER ACCUSES ISLAND Y. W. C. A.

Rescued Child From Lake, Refused Shelter or Fire, is Story.

A helping hand is seldom given just when it is needed and especially if such help is unobeyed. Last Monday a Toronto lady of Centre Island badly needed some assistance and so, she states, applied at the summer residence of a society whose watchword is "service," and who appeal to the public for financial support, and was refused any assistance.

As this is a story of plaintiff and defendant it will be best to follow the legal procedure and give the plaintiff's side of the story first.

Last Monday, Mrs. F. A. Giles, 52 Brownlow avenue, North Toronto, went to Centre Island with her husband and five children to spend the day—it was a kind of annual treat for the children. It was a hot day and the clothes were drying on the beach.

Year-old girl, more venturesome than her friends, ran too far out from shore, lost her footing and sank into deep water. The mother, describing her feelings at that moment, says, "I cannot tell you how I felt when I saw she was helpless, in fact, I did not wait to think I just went in as I was, clothes and all. I thought my darling was drowned, but when I had waded out almost up to my shoulders in water I managed to catch hold of her and pull her back to the beach.

I feel it was only the goodness of God that allowed me to reach her in time. Had I slipped or stepped into a hole all would have been over, for I do not know the first thing about swimming."

Drenched to the Skin. The above is the preamble of the story of Mrs. Giles' complaint. Leaving her little girl, who was really more frightened than hurt, to be looked after by her friends, the drenched-to-the-skin mother was advised to go to the summer holiday home of the Young Women's Christian Association, which was close to the scene of the accident.

Her experience there is best told in her own words. She says: "I took my purse with me and with the utmost confidence knocked at the front door of the home—I was confident as I knew such institutions as the Y. W. C. A. exist to help people in distress and trouble. My knock was answered by a person who came outside and shut the door. When I told her my story, she needed no further explanation that all their rooms were occupied and that they had no place to dry clothes inside, but if I liked I could go to the back of the house and dry my clothes in the garden. There was never a mention of a towel or robe to put around me whilst my clothes were drying, and when I was wet to the skin, I told this person I could not sit in her garden in such a condition and I should have to apply to some of the private houses until I found some humane person who would help me. I may here mention that the person of the home were having lunch when I called, but they did not offer me even a cup of tea to warm me up.

Good Samaritans. When I left the grounds of the home two ladies were passing. I went right up to them and told my story. Without hesitation they gave me their address and told me to ask for all I needed and leave my clothes to dry. They loaned me their clothes to come home in and I left my own clothes as they were soaking wet when we left the island at three o'clock. I am not as young as I was and I might have easily contracted a very serious illness, had my exposure if those kind ladies, who lent me their clothes, had not come along."

Y.W.C.A. Version. That is the plaintiff's story, now to see what the defendant has to say in the matter. The World yesterday found Miss J. M. Pierce, the secretary of the Young Women's Christian Association, who is residing at the home at Centre Island, for the summer. Miss Pierce was unfortunately away from the island last Monday, and Miss M. E. Fritzell, who is the club and social secretary of the Y.W.C.A. was in charge and was the lady who received Mrs. Giles when she called. Miss Pierce said yesterday that, when she returned last Monday evening Miss Fritzell reported to her that she had received a visit from a very strange woman, who said she had fallen into the water and wanted to know if (the home) had a coal fire, by which she could sit and dry her clothes. Miss

Fritzell explained that they had no coal fire, but they had a small gas stove and the woman could sit by that whilst her clothes were drying and she also offered to lend her some dry clothes. She suggested that the wet clothes be put out in the back garden in the sun to dry. The woman, according to Miss Fritzell, mumbled

something more about a coal fire and said such an arrangement as suggested would not do and left without another word. In regard to the closing of the door, it was a screen door and closed automatically. "That is all we know about the matter," continued Miss Pierce. "We had thought no more about it until The World came here today. I have talked it over with Miss Fritzell again and she is positive she offered the woman some clothes."

"If that is so," asked The World, "how do you account for Mrs. Giles directly on leaving here accepting from strangers just the same kind of treatment as you say was offered her by Miss Fritzell?"

Quite Unaccountable. "It's quite unaccountable, except that the poor woman may have been so upset by her recent experiences that she did not for the moment quite realize what Miss Fritzell had offered to do for her."

Miss Pierce says the Y.W.C.A. is out to serve, and they do serve to good effect. Of course, they may make mistakes sometimes—who does not? but in the case of Mrs. Giles, she is positive no mistake was made by an official of the Y.W.C.A.

SCHULTE'S TRIPLE WINS IN ELEVENTH

Leafs Take Both Games, Tho' the Peas' Pitchers Look Best on Paper.

Jersey City, Aug. 15.—Altogether in both games, Toronto defeated Jersey City twice here today—3 to 1 and 1 to 0. The second contest went eleven innings.

Not an extra man was used by either team in each game. Schacht outpitched Herche in the first, 8 to 4, losing in the sixth, when the Leafs put over three runs. Opening to his mound, Schacht singled; Sandberg hit safely, putting Schulte on third; Herche flied to Fitzsimmons; Spencer hit too hard for Schacht; he recovered the ball, but threw wild to first, and Schulte and Sandberg scored. Spencer reaching third, Gonzalez flied to Zimmerman, scoring Spencer. Whitman got two bases on Moore's low throw to first, but Onslow lined to Fitzsimmons.

The Leafs scored their solitary run of the day in the fourth, but it required four hits, three clean singles filling the bases and a slow roller ending in the tally, with two out.

In the second game, Biemiller outpitched Justin, 9 to 4, but the Skeeter twirler was wild as a March hare, passing nine to first. It was not until the eleventh that one of these bases on balls to Benny Purcell was followed by Schulte's triple for the run that made a clean-up on the afternoon. Wildfire had three of the four hits clear to Biemiller.

Kane did some quick fielding on Schulte's triple, and had the ball in Catcher Cobb's hands as Purcell dove head first toward the plate, but O'Brien declared Purcell safe, and the verdict of the indicator-holder threw the hooks into Jersey City, as the tally awarded to Biemiller. Purcell's triple was the only one of the afternoon that Jersey City proving unable to benefit from the perfect defence of the Maple Leafs.

Toronto scored its first run in the strongest kind of support, their perfect defence being responsible for the Jersey City shortage in tallies. In the first game three of the snappiest double plays checked the Skeeters on their way around the circuit. Herche started the attack, while Justin Purcell instituted the other two. Whitman's brilliant work in left guard was also a big obstacle to the Leafs.

At St. Louis—St. Louis batted its way to an 8-to-2 victory over Philadelphia and Philadelphia over Boston, after eleven innings on his sixteenth birthday. John Collins' great hit was the big factor in Chicago's victory. Collins was injured as a pinner runner for Grand, who had caught the ninth inning. Collins scored the tying run in the fourth inning, who replaced Hoyt in the eleventh inning, and scored twice, including two triples and three doubles. Score: St. Louis, 8; Philadelphia, 2.

At Cleveland—Washington turned the tables on Cleveland yesterday, winning in the ninth inning by a score of 3 to 2. Kane, Spencer, sacrifice hits—Moore, Gonzalez, Schulte. Double-play—Justin and Onslow. Left on bases—Jersey City 7.

PRE-HOLIDAY AIR LOCAL MARKET Trading Shrinks to Small Proportions—Maple Leaf is Up Again.

Stocks moved narrowly on the Toronto market yesterday, the circumstance being that the market was on the edge of a holiday tending to curb what might have otherwise been a more active market.

On today's further declines French exchange was at a discount of about 35 per cent, while Italian rates showed a depreciation of almost 45 per cent, dealers predicting still lower quotations.

THE TREASURY SHARES OF THE BALDWIN GOLD MINE Offer an exceptional opportunity for substantial profits. Now that the strike seems to be nearly over we strongly advise all prospective purchasers and shareholders who have been thinking of buying BALDWIN to consider that the essentials of success are all combined in this wonderful property. These essentials are:

(1) A good property, (2) Adequate working capital, (3) Efficient management, and (4) The property is so strategically situated on the railroad where operations can be carried on, both from the labor and supply point of view, at much smaller costs than those of other mines which are farther away from the railroad.

IMPORTANT NEWS The Directors of the Baldwin wish to advise the public that there are some very important negotiations pending in connection with the BALDWIN shares which will add considerably to the intrinsic value of this stock. Shareholders, do not allow yourself to be persuaded to sell any of these shares at the present market price. The new developments will, undoubtedly, place a value on these shares far exceeding the market value. Buy All You Can at 30c. Only a Small Allotment Left at This Price. TANNER, GATES & CO.
