Ottawa, Feb. 17.—Geetial—Fairy land has moved to-night from when when the last eight centuries have held friendly converse to the Historical dances and in the grant of the Historical dances and the festal season ere that advent of Lent. To say that the all was successful is but very fairly and inadequately to express the happy cut of hard practice and pleasurable labor, and a great outlay of time and talent and money in planning out hard more more construint and money in planning out hard more more more completely successful and an anearly historically correct as any anclent costumes can possibly be reached in a few fact that negotiation involved the matter of the matter hope that with the completely successful and the nation between the very respect the grandest and mose completely successful and the nation of the matter hope that with the completely successful and the nation of the matter hope that with the complete hard of the matter hope that with the complete hard of the matter hope that with the com

Dufferin's Rail Quidone.
Their Excellencies are to be congratulated on having given what was in every respect the grandest and most completely successful entertainment ever seen in Ottawa, and one which it is doubtful has ever been excelled on this continent, and the ladies and gentlemen who took part in the historical dances deserve the highest possible praise for the careful and painstaking manner in which they prepared and for the excellent manner in which they sustained them. Heretofore the measure of social success in Ottawa has been measured by Lord Dufferin's grand masquerade ball 29 years ago, and which has remained unequalled until to-night, when the record was broken, and in the future the great and overpowering social triumph of Ottawa will be counted as the grand historical ball given by Lord and Lady Aberdeen.

In the Senate Chamber.

The Senate Chamber, and in fact the Scnate wing and the vestibule to the two houses were given up to His Excellency for the occasion and for days past the transformation of the Chamber has being going on, so that tonight it presented a vastly different appearance from its ordinary stately, but cold grandeur, the treatment of the decorations was simple but strikingly effections.

deur. the treatment of the decorations was simple but strikingly effective. Each of the 16 tall, stately marble columns which form the strikingly distinctive feature of the chamber was draped with a long, heavy blue plush streamer, corded and tasseled and surrounted by crowns. Beneath these were shields bearing the coats of arms and mottoes of a number of the Governors of New France under the French regime, and of the Governors of Canada since the cession. On the left, extending along the whole of the eastern wall, and to the centre of the main entrance, were the shields of the French Governors, under each of which a pair of the French standards, the white silken banner spotted with goldwhite silken banner spotted with gold-en fleur de lis, were gracefully draped, while on the right the shields of the English Governors from Murray to Aberdeen were similarly supported with the Union Jack. Between these shields were numerous magnificent
banners and bannerets of crimson velvet, gorgeously ornamented in gold,
the whole decoration being exceedingly
rich and extremely effective,
A New Floor Was Laid.

A New Floor Was Laid.

A new floor was laid on the level of the second row of Senators' desks, thus greatly enlarging the floor space and affording ample room for those forming the various courts to group about the sides of the chamber and stil leave a sufficiently large space in the centre for the special dances of the various courts. The galleries were devoted to those in costume not specially attached to any of the courts, to memters of Parliament and the Senate and to the press, and every available seat was filled, and almost every inch of standing room was occupied. By-careful estimate, there were over two hundred and fifty ladies and gentlemen who participated in the historical dances and formed part of the various courts, while there were fully one thousand other guests who filled the courts, while there were fully one thousand other guests, who filled the galleries and corridors.

The Courts Assemble.

By half-past 9 the different courts had assembled, and shortly after the strains of the National Anthem anwed by the viceregal party. Immediately after Their Excellencies took their places on the dais the first of the historical dances commenced. This was a polka by the Vikings, the first discoverers of Canada, personated by the Government House party. This was a bold, dashing dance, which set things going at a lively pace.

Terrible Fate of a Score of Troy Collar Girls.

FIRE STARTS IN THE FIFTH STORY

Of a Factory Where 300 Operatives Were at Work.

Five of the Girls in Their Frenzy Jump From Windows. Three of Whom Were Instantly Killed-Many Missing-It is Believed That the Deaths Will Number Thirty-How it All Occurred Through the Carelessuess of a Little Boy-List of the Dead, the Missing and the In-

Troy, Feb. 17.-There is mourning in the Troy, Feb. 17.—There is mourning in the homes of Troy collar girls to-night. An untimely and fearful death overtook many of them late this afternoon. Working girls, whose day's labor was almost over, were cut down almost without warning by fire. Three girls jumped to their death from a burning building. Distracted mothers waited for the return of their daughters at night, and they waited in vain. Bright, pretty collar girls, who had left their homes in the morning full of life and health and spirit, never lived to tell the tale of agony, torture and death. Their health and spirit, never lived to tell the tale of agony, torture and death. Their charred bodies are now resting under tons and tons of red hot embers, stone and brick. Identity even when found will probably be impossible. The scene was one that Trojans will never forget. It is a black page in the city's history, unparalleled in its century of existence.

The fire started in J. Stathelmer & Co.'s shirt waist factory and Van Sant & Jacob's collar factory at 5.30 o'clock this afternoon. There were 300 girls at work in the shop and in Van Sant & Jacobs' collar factory, which is situated in the same building.

which is situated in the same building.

It Was an Awful Affair.

The flames spread so rapidly that the narrow stairway, which was the only exit outside of the fire escapes in the rear, was almost immediately cut off, and during the panic that followed five girls jumped from the windows, three of them to their death, and many others were injured.

The dead: Mrs. Horbort of Water-street, Mrs. Kane of 195 Fourth-street and Mrs. Foley.

Missing: Miss Mamie Danks, Miss Kittle O'Connor, Miss Kane and Miss Foley.

The injured: Miss Mamie Day, burned and bruised; Miss Lillie Kreiger, badly bruised; Alfred Casey, fireman, Osgood Co., driven insane by shock; Miss Mamie Downs of Sixth-aveaue, almost suffocated; Miss Annette Harrington, face and hands burned; Miss Lillie Outhout, West Troy, badly burned; Miss Clementine Lloyd, Miss Gertrude Lloyd, Miss Johnston, all three of Laningburgh, badly and perhaps fatally burned; James Ross, crushed by falling walls, leg broken and seriously injured; Officer Burke, crushed by falling walls, condition serious; Officer Guy, badly bruised; Officer Watson, scalp wound and briused; Alfred Casey, fireman, Osgood Co., spine injured; John Ormsby, fireman, Osgood Co., knee hurt; John Boland, fireman, Eddy Co., scalp wound and leg broken.

Twenty Girls Burned to Death.

It is believed by everybody, even the proprietors and employes in the shops, that about 20 girls were overcome before they reached the street and were burned up in the building. People who are familiar with the interior of the building, and who know how limited are the means of escape, place the total loss at least 30.

The scene of the catastrophe was at the corner of Broadway and River-street, a portion of the city characterized for its immense business buildings. The structure is known as the Burdett building. The building is six stories in height. It was occupied by J. Stethelmer & Co., manufacturers of ladies' shirt walsts, whose factory was situated on the fifth floor; Van Sant & Jacobs, manufacturers of collars and cuffs, who occupied the three floors below, and a restaurant and saloon on the ground floor. There were also several other minor enterprises carried on in the building.

Funeral from his aunt's residence, 100 property Loss Reaches \$400,000.

The spread of the flames was remarkable. There was a strong wind blowing at the time, and in less than it takes to tell it the building was after from top to bottom. Twenty streams of water seemed to have no effect, and there was every indication early in the evening that the entire block would be consumed. The fire extended into the big structure north and gutted it, the Western Union building was burned out and it was not until about four hours after the fire started that it was under control. The loss will probably reach \$400,000. The three women who were killed by jumping from the windows were almost unrecognizable when picked up, so fearfully were their heads crushed. Many of the injured were those caught under falling walls.

Dovercourt Hall, Bloor street and Dovercourt road, should be crowded on Thursday evening next, when a benefit concert will be given in aid of the destitute family of James Reid, who was killed on the railway on New Year's Eve. The affair is under the auspices of Portsmouth Lodge, S.O.E. B.S., of which deceased was a member, and a first-class program has been arranged, which will be well worth the price of admission. Tickets at 15c each can be procured at Shaftesbury Hall.

conclusion of last night's performance, and it was a big one, too; nearly every available seat downstairs having been occupied, while the balcony and gallery were crowded. The "Brooklyn Handlcap," the product of Alice E. Ives' clever pen, was the attraction, and it contains just enough sensationalism and just enough climax to make it immensely popular with Toronto audiences. The climax in the third act, where the pretty Miss Freddy assists in stopping the bold, bad Jack Prentice, as he is about to skedaddle with the stolen diamonds, behind a handsome pair of real, live horses, and the almost simultaneous appearance of two Broadway cable cars, is splendidly presented, and causes a "hurrah" from 3, 31-2, 4c per lb.

Stonenell Killed in England.

London, Feb. 17.—The 6-year-old horse
Stonenell, formerly the property of Michael
F. Dwyer, became frightened at a pack of
foxbounds while exercising on the Lewes
race course to-day and fell and broke his
leg. The horse was immediately killed.

When Flyers are at Their Best.

Willis Troy, who knows Zimmerman as well as any man, said recently that he did not believe half that has been printed recently about the great racer's career in Australia. It has been said, among other things, that the "Skeeter" had lost his marvelous burst of speed, but Mr. Troy smiles at this, and says that he is only on the threshold of his prime, and that he has a long career ahead of him. Zimmy is 26. Peter Berlo is 32, and has been campaigning for years, yet at New Orleans a few weeks ago he rode a mile faster than any bicyclist ever covered the distance before. This, is mentloned as showing that Zimmerman still has plenty of time to race, if he so desires. Medinger, at 38, was the fastest sprinter in France in 1894, while Dubois, another Frenchman, displayed great speed at 39. It is thought that Zimmerman will sign a three years' contract with a bicycle house in New York upon his return. This same house made him an offer of \$10,000 a year for three years early last season, but the champion refused it. When Flyers are at Their Best.

One of the effects of the recent convention of wheelmen at Baltimore was the killing of class B. This class was inaugurated by Howard E. Raymond as a weak attempt to straddle the guestion of professionalism. The straddling business was disgusting to all honest-minded sporting men from the date of its conception, and the longer it lasted the more unpopular it grew. There will now be but two classes of racing men-amateurs and professionals. The former class B men have been given the privilege of going back to amateurism or joining the professional ranks. The majority of them will do the latter, as the restrictions on the amateurs will make it a very unprofitable class to race in to any but the purest amateur. To restrain himself to racing within 100 miles of his own home and to a prize of not over \$35 in value would certainly not be tempting to the hardened circuit chaser. With all the old circuit racers in the cash prize ranks there is certain to be a great boom in professional bicycle racing in this country during the coming season. With the strict discipline that is now enforced by the Racing Board there is no doubt that bicycle racing will be one of the cleanest sports before the public.

APPARENT STRENGTH OF THE SCHEMERS IN COUNCIL.

Another Discussion Which, Like its Predecessors, Amounted to Nothing and the Matter Went Back to the Works Committee—\$200,000 to be Raised to Complete the Court House.

The City Council devoted most of its time yesterday to discussing the aqueduct question. Among the spectators eccupying the side benches were the well-known promoters and capitalists, ex-Ald. Bates, Capt. Smith, W. F. Sexton, Horatio C. Hocken, P. G. Close and W. H. Wallbridge. The result of the meeting is that the whole question goes back to the Board of Works, where the same old battle will be fought over again. The meeting showed that there are only six out-and-out "aqueduct" aldermen in the council, who are prepared to swallow any old thing. They are Ald. Canada's Greatest Store.

Many Improvements!

How to make the store better and more useful is a constant study. Indifference is no longer excusable. Every convenience must be provided for shoppers, and everything done that can be done to insure their comfort and satisfaction. It is safe to assume that the retail trade of this continent shows no equipment much more complete than this.

There are any number of handsomer buildings, but it's the business itself that we try to hold up as the one and only thing to be looked at. The organization is better to-day than ever before and the service is better. There are reasons for business creeping up and up in this unpretentious building, covering acres of selling space, miles of floor streets, and a village of busy people.

A Flower Show!

Part of the Millinery display is the magnificent collection of Artificial Flowers, and near-by is a handsome assortment of Cut Flowers. The two stocks vie with each other for supremacy, and quick sales maintain the enthusiasm as nothing else can. For Millinery purposes we show a wide range of

-Flowers from Paris -Flowers from Berlin -Flowers from London -Flowers from New York

All at insignificant prices. The Cut Flowers are fresh daily, and we're having all we can do to keep up with the demand. No extravagance here. Everything is figured on a dry goods basis. We need no brilliant setting of special circumstances. We simply offer the goods in largest quantity to select from, in lowest uniform prices, and with guarantees of quality.

A February Cyclone!

This is the place where trade winds meet and this the store where the unexpected is sure to happen. But, strange to say, it recommends a reduction of the tariff to a free trade basis as the only means of giving to Canadian workmen their own market. This is advanced by The Globe as a serious argument, and not as a joke. In our opinion there is but one method, and it is a simple land thorough one, of retaining the furniture business in Canada. That method is to shut out the product of foreign manufacturers. That is exactly what our present tariff does in regard to all kinds of ordinary furniture, but it seems to be ineffective in keeping out an extra fine class of furniture, for which there is a demand only among the very wealthy. While the National Pelicy has had the effect of developing the Canadian furniture industry, and of giving employment to Canadian workmen, it has not, as The Globe asserts, increased the price beyond what it would be under a free trade tariff. The proof of Canada's ability to manufacture cheap furniture is to be found in a comparison of the prices that a comparison of the prices that prevail in this country with those that obtain in other countries. We venture can be purchased in Toronto as cheaply as, if not cheaper than, in Buffalo, Detroit, or any other American city. We challenge The Globe to disprove our assertion by comparing the prices of similar articles in Toronto and in Buffalo, the nearest American city to Toronto, A comparison of the kind suggested will be more satisfactory and convincing, one way or the other, than the arguments of a theorist who easons on hypothetical, not on actual, conditions. The other comment that we have referred to is made by the T. ciple with this firm to buy in the cheapest market, and in adhering to

ingmen, who, in turn, distribute it among the farmers and their fellowartisans.

MAYOR FLEMING'S MECLIGENCE

It is announced that the two electric light companies have completed their scheme of amalgamation, and that the two companies are now one concern. Mayor Fleming asserted some time ago that he was going to take steps to prevent the amalgamation, and the City Solicitor was instructed to take action in the matter. Nothing appears to have been done by either the Solicitor or the Mayor. We have heard of no application in the courts for an injunction to restrain the companies from amalgamating. If advantage were taken of the situation, we believe the amalgamated company could have been forced to pay to the city a percentage on all its business, as well as to submit to a certain maximum schedule of rates. When the two companies proposed to amalgamate a condition was created very similar to that which wristed wheth the Rell Telegopone.

The 23rd annual general meeting of the shareholders of the western Canada Loan & Savings Company was held at its head office, 76 Church street, in this city, yesterday morning, Senator Allan in the chair. The report for the past year, considering the decline in interest and the amount of interest have been the rule throughout the year appear to have been extremely satisfactory, especially in Manitoba, where the magnificent crops of 1895 have enabled the farmers of that province to greatly reduce their liabilities. The directors of the Western Canada look forward in coming years to a continuance of the prosperity which has in the past so characterized the affairs of the company. Careful and economical management and under all circumstances.

While it is admitted that the Roman Catholics have a grievance, yet, on the other hand, it is also a fact that the Manitoba Legislature was within its legal right in passing the law of 1890. This fact would seen to point to a compromise as being the proper solution of the difficulty. A scholar spends only about 30 hours a week at school, leaving him 138 during which he is under the control of his parents. The latter surely have ample opportunity in this time to give him whatever religious instructions they may think necessary. No one objects to the Catholics giving their children religious instructions, but there is very serious objection to using State funds for this purpose. The Toronto World has a "scoop" on its contemporaries to-day in the shape of a special from Manitoba, in which it is declared that Premjer Greenway is about to throw another bomb in the political camp by causing the complete secularization of the Manitoba schools. When the two companies proposed to amalgamate a condition was created very similar to that which existed when the Bell Telephone Company was obliged to limit its rates and pay over to the city 5 per cent. of its gross earnings. In the case of the Telephone Company, the city insisted on a percentage and reduced rates in consideration of its granting the company a monopoly of the business for five years.

In its agreement with the city it is expressly stipulated by the Incandescent Electric Light Company that it shall not amalgamate with any other concern under penalty of refetiting its moves that the electric companies were ingested to the contingent action. The Mayor had ample warning that the electric companies were in the charter and shall not amalgamate with any other than the electric companies were in the charter and shall not amalgamate a condition was created very similar to that the different to the company and under all circumstances.

The Directors have for some time past considered it desirable to reduce the amount of deposit in their Savings Bank Branch, and notified their Depositors accordingly. A very considerable amount of the money withdrawn in consequence has been re-invested in Currency Bonds, which are rapidly becoming a very popular form of investment among all classes of the community.

In looking forward to the future, Debentures and on Deposit taken together is less than in 1894. The Sterling Debentures however, are some \$91,000 in excess of last year, while the Currency Bonds are of the same amount. The reduction is in the same amount of money held on deposit, which is \$100,754.62 less than in 1894.

Do You Suffer From Asthma?

If you do read the following:

Toronto, 25th Aug., 1895.

"I suffer from asthma more or less constantly, but of late have been very fead, so that I could not walk a block for lack of breath. I had tried many remedies without relief. Four days ago my mother gave me the remains of a bottle of Pinemalt. Already I can walk down town and back with ease, so greatly has it helped me."

DR. J. L. SMITH.

Pinemalt abounds in the antigerm, cleansing, healing and soothing properties of strobus pine. These and other pulmonary agents suspended in malt make the most effective remedy ever discovered for all ailments of the throat and chest. Ask your druggist, in chronic cases and consumption, for Pinemalt and Hypophosphites, instead of plain Pinemalt.

32 Adelaide-street East. 245 Provisions lower on receipts of 38,000 hogs, against estimates of about 30,000. There was some selling by scattered holders, but local bear operators and packers had quite generally discounted the increased receipts, consequently the market did not break as much as expected. It was dull and heavy, however, and looked like dragging lower, and especially if to-morrow's estimated receipts of hogs—25,000—are realized. We still think that agound \$10 for pork, \$5.50 for lard and 5 cents for ribs, it will be safe to buy for a turn. A slight improvement in the cash trade is noticeable the past few days, which is natural at the decline.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Qocon. Mr. Epps has provided for our breakfast and supper a delicately-davored beverage, which may save us many heavy doctors bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette,
