NINETEENTH YEAR

# THE SCENE IS SET

Now the Exciting News Concerns the Far East, and Russia is  
the Power That is Causing the British Lion to Show His  
Teeth—British Warships at Wei-Hai-Wei Cleared for Action  
and Ordered to Be Ready to Sail at an Hour's Notice—Cable  
News.

The interest in cable despatches has suddenly shifted from Egypt  
to the far east, and this morning's reports indicate a state of affairs  
which may involve a break between Britain and Russia. Something  
serious must surely be on the tapis, when British warships clear the  
decks for action and make ready for sea, as is the case of the squadron  
at Wei-Hai-Wei. The fact that a large Russian  
fleet is assembled at Port Arthur, has an ominous look. Of course  
everything is kept secret as far as possible, but London has received the  
news with a feeling that grave events are imminent. The surmise is that  
Russia, seeing Britain and France preparing, has taken advantage of the  
situation to pursue her characteristic policy of aggression, and seize the  
treaty port of Niu-Chang, which it is said Britain will not permit. A  
couple of weeks ago it was announced that a Russian regiment had  
occupied that port, and as Britain had a gun-boat there and no protest was  
made, it was thought Russia was to have a walk-over in securing the  
valuable strategic position, which would give her control of the whole  
Chinese province of Manchuria.

The World's special correspondent at Halifax this morning an-  
nounces that the Russian liner Halifax City is being hurried over, with  
military supplies. Another ominous fact is that British securities took  
a drop yesterday. A further significant report is that war insurance  
risks have been doubled on British and French vessels sailing from  
New York. Altogether the outlook this morning is equally.

## BYRNE ENDORSED SALISBURY.

He is a Liberal, But There is No  
Party Division Now on the  
Foreign Issue.

London, Nov. 2.—The Right Hon. James  
Byrne, former Under-Secretary of State for  
Foreign Affairs, subsequently President of  
the Board of Trade, and now member of  
Parliament in the Liberal interest for Ab-  
erdeen, speaking in the House of Commons  
last night, endorsed the policy of the  
Government in the Far East, and declared  
that the military control of the navigable  
waters of the Nile, as well as the Nile,  
must be secured to Egypt.

Referring to the increasing cordiality be-  
tween the United States and Great Britain,  
Mr. Byrne said: "When last in the United  
States, I was much struck with the change  
in public sentiment. The spontaneous out-  
burst of feeling in Great Britain when the  
European powers wished to intervene  
against the United States during the re-  
cent war with Spain made the Americans  
understand how close we felt to the tie be-  
tween them and ourselves. They have  
shown that they appreciate and reciprocate  
our sentiment."

"I would never advocate a formal alli-  
ance. At all events, the obstacles at pre-  
sent are serious, but all the conditions ex-  
ist for a solid and durable friendship be-  
tween America and Great Britain. They  
have no adverse interests anywhere in the  
world, and they have common aims in  
certain regions."

"Everywhere where they can render a great  
service to the world, and they can under-  
stand one another better than either can  
understand any foreign country."

"Nature and history mean them to be  
friends, and the closer and deeper that  
friendship is, the more it will be for the  
greatness and welfare of both."

The Situation Unchanged.

London, Nov. 2.—The situation regarding  
Russia is practically unchanged. Baron  
de Courcel, the French Ambassador, who  
on Tuesday, saw Sir Thomas Sanderson,  
Permanent Under-Secretary of State for  
Foreign Affairs, was absent from Lord  
Salisbury's reception yesterday.

The special despatch from Paris repeats  
the semi-official statement that the evacu-  
ation of the Pashoda is accepted in principle,  
but that other points in the Bah-el-Ghazal  
region will be maintained.

Various rumors are afloat as to Abyss-  
inian expeditions nearing the Nile to as-  
sist the French, but nothing authentic is  
known on this point.

M. Delcasse, French Minister of Foreign  
Affairs, is expected to announce his policy  
in the Chamber of Deputies to-morrow (Fri-  
day). It is admitted on all sides that Fa-  
shoda itself offers no difficulty provided a  
way can be found to save French honour  
proper.

## THIS LOOKS OMINOUS.

British Warships at Wei-Hai-Wei  
Cleared for Action and Made  
Ready for Sea.

Wei-Hai-Wei, Nov. 2.—All the British  
warships here, the first class battleship  
Centurion, the first class cruiser Narcissus,  
the second class cruiser Hermione, the tor-  
pedo boat destroyer Whiting, the torpedo  
boat destroyer Fame, the torpedo boat  
destroyer Hardy and the first class gun-  
boat Peacock, have cleared for action, and  
are ready for sea at an hour's notice.

The first class battleship Victorious and  
the first class cruiser Undaunted, at Chee-  
Foo, not far from here, are coaling to their  
full capacity.

The greatest secrecy is maintained as to  
the meaning of these warlike preparations,  
but there is no doubt important instructions  
are expected at any moment. A large  
Russian fleet is assembled at Port  
Arthur.

## THE SITUATION GRAVE.

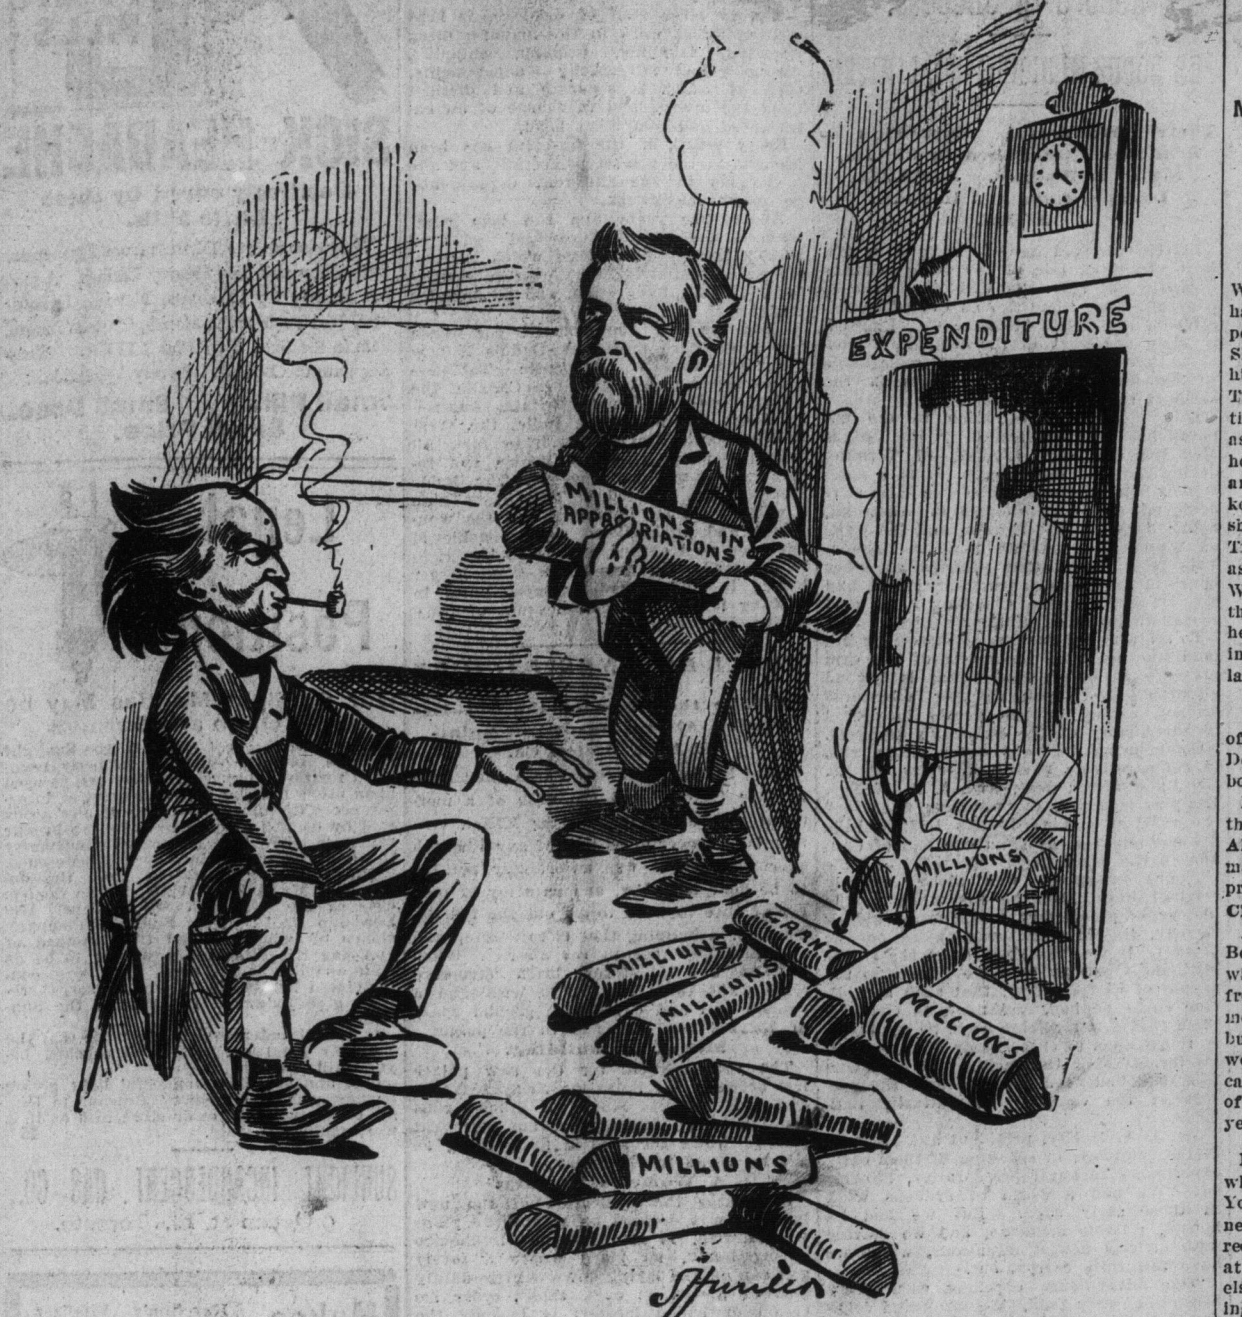

London, Nov. 2.—The despatch from Wei-  
Hai-Wang announcing war preparations of  
the British naval authorities there is re-  
garded here as being of grave importance,  
coupled with the Anglo-French war prepa-  
rations. It is surmised that Russia, profit-  
ing by the present strained relations be-  
tween Great Britain and France, has de-  
cided to push forward her aims in the far  
east by forcibly seizing the valuable treaty  
port of Niu-Chang, which Great Britain  
cannot permit, it is said.

A despatch from London to the Asso-  
ciated Press on Oct. 29 said a cable  
message had been received there from  
Niu-Chang by Russian troops. The de-  
spatch was worded: "A Russian regiment  
occupied the town of Niu-Chang (province  
of Leaung) and the forts at the mouth

## ROSSLAND SPECIAL.

Powder Fumes Killed William Cain  
and Patrick Nolan—More  
Riches.

Rossland, B.C., Nov. 2.—(Special).—Pow-  
der fumes caused the death of William  
Cain and Patrick Nolan, miners, at the  
Sunset mine last night. The men went  
into the mine before the gas was blown  
out, felt the effects and tried to escape,  
but were overcome and fell from the lad-  
der, death resulting. Fred Holt was re-  
scued by George Dwyer, who descended in  
a courageous attempt to rescue the others,  
and nearly succumbed himself. The boiler  
was being cleaned, and the hot was not  
working.

## WAR RISKS GO UP.

New York, Nov. 2.—It was learned to-  
day, through the office of the British and  
Foreign Insurance Company, that rates of  
war risks on British and French vessels  
were doubled here yesterday; so that  
French owners must now pay as high as  
14 per cent, war risk on sailing vessels.

Halifax, N.S., Nov. 2.—(Special).—The  
Furness-Liner Halifax City has a large  
consignment of supplies for the mil-

hurried along at all possible speed and is  
expected to arrive here on record time.  
She brings an unusually large supply of  
ammunition and arms for the station, and  
is due on Saturday.

## ANOTHER TANGLE FEARED.

Tribes of Danakils Attacked Abyss-  
inian Envoy Just Returning  
From France.

London, Nov. 2.—The correspondent of  
the Daily Mail says: "The Government  
has received news from Massowah, in the  
Red Sea, that 1800 Danakils, members of a  
tribe under Italian protection, recently at-  
tacked a caravan near Jibuti on the west  
coast of the Gulf of Aden, belonging to the  
Abyssinian envoys, who were returning to  
Paris to the Court of the Emperor Menelik  
of Abyssinia, with M. Lagarde, the repre-  
sentative of the French Government, and the  
late Governor of Obok."

## PROTECTORATE OVER EGYPT.

John Bull Has Taken Action Before  
Any Question of Interference  
Can Be Entertained.

New York, Nov. 2.—The Journal has the  
following special cable from London:  
If indications, preparations and guarded  
hints mean anything they mean that the  
British Government is about to perpetrate  
a coup which is nothing more nor less than  
the proclamation of Egypt as a British pro-  
tectorate—that is to say, as an integral  
portion of the British Empire.

## THOSE 445 MEN JACKETS AT DUNEEN.

They are made of the choicest select  
Electric Seal, exceptionally rich in lus-  
trous fur quality, lying in appearance with  
the finest creations in Alaska Seal. The  
jackets are fashioned on a model of ex-  
quisite style, of the newest and dressiest  
fashions, and they are finished with perfect  
taste in every detail. If it were possible  
for any other fur house to equal them in  
quality, style or price, you might perhaps  
see such jackets elsewhere. They were  
made to prove to you that a lower  
quality Duneen can produce for \$15.  
They are 24 inches long. Others, exactly  
like these, but 25 inch lengths, are \$20. In  
style and appearance they are as elegant  
as if the cost were \$150. A visit through  
Duneen's fur departments in the new store,  
140 Yonge-street, corner Temperance, proves  
a delightful revelation to ladies interested  
in new fur fancies, and everything is tick-  
eted with Duneen's low cash prices in plain  
figures.

## BIG MICHIGAN DEAL.

Standard Oil People to Work Copper  
Mines.

Old Cosens' Property on Michig-  
an Island Taken Over by Iron  
Ore Deposits Northwest of Lake  
Superior—Stocks.

Houghton, Mich., Nov. 2.—(Special).—  
Nathan P. Leopold of Chicago sent seven  
men yesterday to Michigamoon Island,  
Canada, on north shore of Lake Superior,  
and within one month will have 100 miners  
there reopening the old copper mines. Leo-  
pold has reopened the Isle Royale and Ar-  
cadia mines here, now valued at nearly  
six millions, within the past two years.  
Standard Oil people who are in Arcadia  
mine are also in the Michigamoon venture.

The announcement contained in the above  
despatch is a most important one. In the  
vicinity of Houghton, in the State of Mich-  
igan, on the south shore of Lake Superior,  
lies the greatest group of copper mines in  
the world. The group includes the  
Leopold and Meigs, the late Boyette and  
the Arcadia. Seven of these properties  
have in recent years yielded \$11,000,000 in  
dividends. It has for a long time been  
thought by mining men that the copper belt  
thus found on Superior's south shore dipped  
under the lake and reappears in the Mich-  
igan country on the north shore. The  
property on Michigamoon Island, which Mr.  
Leopold is taking up for the Standard Oil  
people, consists of the old Cosens holdings,  
partly purchased by Saut Ste. Marie, men  
some 15 years ago.

Another interesting feature of the deal is  
that it has been engineered by a Toronto  
firm, as in fact most of the important  
Canadian mining transactions are worked.  
Messrs. E. L. Sawyer & Co. of King-street  
are understood to have got Mr. Leopold  
and his associates into this venture. The  
latter have taken over the property under  
a working option.

Vancouver, B.C., Nov. 2.—(Special Letter).  
—A great many prospectors are returning  
from the Peace River and Oniméca coun-  
tries over the Edmonton trail. They pro-  
mote the trail a long and tedious one, but  
the food supply is so abundant even at the  
Hudson Bay posts that it pays to go in  
comparatively light. Besides this the game  
is very abundant. The report of the Peace  
River country is not encouraging. It is  
said that there is gold everywhere, even  
on the mountain tops, but so fine that it  
will float in water, and is impossible to  
separate from the slime in the sluice boxes.  
This is the verdict of hundreds of Ameri-

No. 2, Pickering Township (Cherrywood)  
gives Dryden 9 majority.  
No. 3, Birch Township (Gregg's School-

Osler's net majority 100, with all places

In the general election of 1894, when Mr.  
Miller was the Conservative candidate, the  
majority for Hon. John Dryden was 320.  
With all the machinery of corruption then  
operating, Osler's net majority was 100, with all places

## FRAUDULENT IMITATIONS SHOULD BE STOPPED AT ONCE.

In view of the wholesale counterfeiting  
of well-known names, it is refreshing  
to see in G. W. Muller's windows a  
whole line of the famous "Muller" glass  
from 50c each down. Last week  
there was a display of "Bendure," another  
splendid Havana cigar. The Government  
has been asked to protect the public against  
spurious imitations of these cigars, and it  
is likely that the Inland Revenue inspectors  
will be instructed to enforce the regula-  
tions under the Act to prevent the sale of  
goods under false trade descriptions. The  
Government will surely refuse to counten-  
ance such a conspiracy against the business  
man who produces fraudulent.

# THOSE YUKON CHARGES

Major Walsh Says He Had No Interview With Miss Shaw of The  
London Times—Allan and Dominion Lines May Be Pressed  
Into Naval Service—La Patrie Alleges That Late Honore  
Mercier's Tomb Was Robbed of Floral Decorations—Mon-  
treal Notes.

Montreal, Nov. 2.—(Special).—Major  
Walsh, late Administrator of the Yukon,  
has made a very important statement to a  
personnel friend here regarding Miss Flora  
Shaw's charges, as far as they relate to  
himself. The Major declares he only saw  
The Times correspondent twice. The first  
time she came to the Major's office and  
asked him if she could have a couple of  
hours' interview with him. He complied,  
and Miss Shaw was to return and talk Yu-  
kon from 3 to 5. She, however, failed to  
show up, and soon after the Major met The  
Times correspondent in the street. She  
asked about his office hours, and Major  
Walsh told her he was at home from 9 in  
the morning till 5 in the afternoon. Again,  
he says, Miss Flora Shaw came not, and,  
in fact, the Administrator did not see the  
lady journalist afterwards.

## His Pressure Into Service.

Although nothing has yet been heard  
officially from the Admiralty, the Allan and  
Dominion Lines expect that their best  
boats may be requisitioned at any moment.  
It is understood that the Canadian and  
the Californian will be selected from the  
Allans, while the Labrador and the Scots-  
man from the Dominion Line will be also  
pressed into the English naval service.

## Charged With Wholesale Stealing.

A man named Edna Kennedy, of New  
Bedford, Mass., is in the toils here charged  
with stealing horses, harness and carriages  
from different people at the locality just  
mentioned. The thief had been located,  
but as soon as he heard that the officers  
were on his track, Daigle shipped out and  
came to Canada. He accuses other people  
of the crimes with which he is charged,  
yet his accusations are not relied upon.

## New York State Election.

Ex-Governor Washburn of Minnesota,  
who arrived here to-day en route from New  
York, states that the wheat crop in Min-  
nesota and North and South Dakota will  
reach 200,000,000 bushels, and that the mills  
at Minneapolis are grinding 1,000,000 bush-  
els per week. General Washburn, in speak-  
ing of the political interests, states that

## THE CARBOLIC ACID ROAD TO DEATH.

Chosen by Miss Edna Leslie of Sea-  
forth Last Night—Her Sad  
Story Told.

Margaret Kennedy, alias Edna Kennedy  
and Edna Leslie, committed suicide a few  
minutes after 10 o'clock last night in the  
restaurant of the Hotel St. James, 131 King-  
street west. The raid was accomplished  
by carbolic acid, which the young girl  
had bought a short while before at Alex  
McLaren's drug store at No. 181 King-  
street west. About 8 o'clock she visited C.  
Hatchers' drug store and borrowed 25c  
from the proprietor, with the intention of  
going to a lunch house to get a meal.

After leaving the store she wandered about  
the streets and wound up at McLaren's  
store, where the fatal draught was procur-  
ed. She then walked down the street to the  
Ford restaurant. She ordered an oyster  
stew, and when about half through her  
meal suddenly took a bottle from her pocket  
and in one gulp swallowed the biggest part  
of the contents. The people of the restau-  
rant were in the kitchen at the time and  
hearing a cry rushed to the dining room,  
to see the woman struggling in great pain.

She told Mrs. Ford that she had taken the  
poison, as she was tired of life and wanted  
to die. Mrs. Ford's son Percy rushed to  
the street and brought in P. C. Childs, who  
in turn called the ambulance. Dr. Garratt  
of Bay-street and Dr. Graham of the  
Emergency Hospital were also notified, but  
on reaching the scene of the sad affair the  
victim was so far gone that no efforts  
were made to revive her. The patrol was  
summoned and the body removed to the  
Morgue, where an inquest will be held this  
afternoon at 3 o'clock by Coroner Grogan.

The late Miss Kennedy was about 23  
years of age, and of late had become very  
delicate in health, so that she weighed only  
90 pounds. She had lived in Toronto for  
the past seven years, but made no place her  
particular home, having stayed with people  
who would take her in. Her mother lives  
in Seaforth, her father having died some  
years ago, and it is said, left her a small  
income. The family consisted of two  
children, the brother living at home with  
his mother, Mr. Harbottle, when seen last  
night, said that he had known the deceased  
for some time, and from what she had told  
him on different occasions her relatives  
were people in the best of circumstances.

Her mother, she said, had written to her  
only a few days ago, and would be in To-  
ronto to-day to take her home. Miss Ken-  
nedy was a victim of consumption, having  
been twice in the General Hospital on cer-  
tificates from Dr. Sheard and Dr. Garratt,  
a few days ago her condition was very  
bad. That the girl was evidently tired of  
life can be seen from the fact that she  
attempted to take her life a short time ago  
in the Pacific Building, Front and Scott-  
streets, by inhaling gas, but was found and  
brought round again. A young newsboy  
named Willie Montgomery, who recognized  
the girl last night, said she was with the  
deceased all evening, and was waiting out-  
side the eating house when she took the  
poison. He had met her in a hotel and ac-  
companied her to McLaren's drug store,  
where she told him to wait outside, as she  
wanted to purchase some cough drops.

After coming out of the store she went  
with him to the restaurant and left him  
at the door. Many other people who live  
in that vicinity know the dead girl, but  
had never heard her talk of her relatives.

# The Made-to-Fit Idea

is what gives Oak Hall Clothing its prestige. Our Clothing is carefully made and if the fit is not perfect in every detail our expert tailors are at your service. It doesn't much matter what your shape is. Tall and slim or short and stout we can fit you. And, to all intents and purposes, you will still be a tailor-made man—only your purse will not have suffered so greatly.

Fine Dress Suits and Overcoats \$10.00 to \$18.00.  
Good Business Suits and Overcoats \$5.00 to \$9.00.

## Boys' Clothes

We are just as particular about Boys' Clothes. In fact, the makers tell us we are over particular on many points; that our demands make added carefulness that customers will never know or appreciate. But we know they will—we know that goodness tells and that nothing makes more lasting friends than clothing that gives honest, good-looking service to the public. We take no risks; we buy from none but well-tried mills in Canada and abroad. We have absolute confidence in the goodness and unmatchableness of our Boys' Clothing.

At \$5.00 Beavers and Suits for ages 10 to 18 that are unequalled for style and good value.  
At \$3.50 Suits and Beavers for ages 4 to 9 that are stylish and dressy.

## CONSPIRACY CASE CLOSED ON THE DODDS

Stares-Cook Combination Acquitted by Judge Snider Yesterday.

Stares Was on the Stand for Over Three Hours—Why He Did Not Keep Books—Other Charges Dropped—Cook Had No Interest in the Firm—News From Hamilton.

Hamilton, Nov. 2.—(Special).—The conspiracy case in which Stares and Cook, furniture dealers, are the defendants, was continued before Judge Snider this morning. J. R. Shaw of the Furniture Dealers' Association, Toronto, swore that in the presence of Detective Heffernan, Hotelkeeper Clancy of Toronto said that both Stares and Cook owed him money last July when he received consignments of furniture from them. He said that he had no invoice at the time, although he produced one in the witness box yesterday.

Simon Lawry testified to seeing a bale of what appeared to be wool leaving the rear of the King William street store seven days before the assignment. On the Saturday night of the assignment he saw young Alfred Stares running out of the store, with chains getting away with half a dozen, two at a time.

Thomas Wallinger, an employee of Stares & Co., heard Cook say the week of the assignment that he was shipping \$400 worth of furniture to Muskoka.

Alf Hewitt said he saw the contents of Stares & Co.'s warehouse, store at Stares & Co., on Friday, Aug. 5, the day before the assignment.

John McCarthy, hotelkeeper, Tullamore, bought furniture from Stares & Co., and gave a horse, valued at \$25, and a note for \$47 in payment. He paid \$10 on the note, and also has a hotel bill against Stares, dated July 22, as a counter account.

This closed the evidence for the prosecution.

Mr. Carscallen, counsel for the prisoners, held that no case had been made out. The only thing that could be pressed by the Crown was that no books had been kept for a month before the assignment.

The Crown Attorney contended that when Stares and Cook went down to the store after the assignment and the latter secured the books of the business, he did so, intending to, and did, pick out some of these leases, which the creditors had never seen since. There were no entries of any of these leases in the books of the business, which it is alleged had not seen the leases in the store, they would never have heard of again. That some of them were held by the Crown Attorney was shown by the discovery of one in Cook's pocket.

Evidence for the defence was given this afternoon. Stares was on the stand nearly three hours. He swore Cook was only an employee, with no interest in the business. He explained the various transactions, denying acting dishonestly or in any way conspiring with Cook to defraud the creditors.

He also denied that any property was concealed anywhere. He admitted paying \$325 out of the \$350 he got from Cook on Aug. 5, the day he assigned. He attributed his failure to check books since last June to "carelessness." Cook swore he worked for Stares on wages since March. He denied conspiring with Stares or knowing anything of concealed goods.

Judge Snider, after reviewing the evidence at length, held that the charge of conspiracy had fallen through, and he acquitted the prisoners. Several other charges of theft and concealing property were also dropped.

**Art School Directors Meet.**  
The Art School Directors held their monthly meeting this afternoon. The interior management committee reported 156 pupils, as against 144 last year. There was an increase of pupils in the evening classes, but a falling off in the Saturday morning classes. Judge Snider advised the directors he could not accept the position of director.

**Court of Revision.**  
The Court of Revision this afternoon and evening heard appeals from Ward 2 property owners, and as a result struck off \$80,330. M. C. McKee failed to pay \$15,000 assessment on his James-st. property. He, however, was successful in getting struck off \$700 assessment on income from mortgages.

**Sawyer-Massey Rumor.**  
In connection with the rumor of the possibility of the removal of the Sawyer-Massey works to Toronto, a statement is made that the company has no desire to use the Lawry and Pearson cases to squeeze the city. What the company wants is more money, and it is more water for fire protection. The works are extensive and valuable and the six-inch main does not give water supply which the city considers sufficient for fire purposes. If a proposition is made to the city, it will certainly include the laying of a 10 or 12-inch main.

**Minor Matters.**  
There is an epidemic of typhoid fever in Burlington just now. About 50 residents are ill with it. There have been no deaths, however.

Bull Penon, a farmer, had to pay \$5 to-day for running a toll gate, evading 5 cents toll.

A poorly covered electric light wire caused a blaze in the H. G. and B. R. station early this morning.

Entries for the dog show next Saturday closed last night. Over 100 were received. Toronto dog owners made a large number of entries.

The annual meeting of the Working Men's East End Club, was held to-night. Rev. C. Whitcomb, president, presented a report showing the club's progress during last year. The financial statement showed a balance on hand.

Rev. C. Whitcomb was elected president and H. Vernon, sec.-treas. Addresses were delivered by H. Vernon, H. D. Bonny, Mr. McLellan and Ald. Findlay.

The annual matches of the Westworth Plowing Club were held this afternoon on an Asylum Farm. A number of contestants were present from Scarborough. The championship prize was won by Wm. Captain, an Indian, from the Ojibwa reserves.

Bishop Du Moulin delivered an address at the Brotherhood of St. Andrew's meeting in the Church of Ascension school rooms to-night.

## OF PROSPERITY

A Toronto Firm's Remarkable Record of Success.

THE DODDS MEDICINE CO., LIMITED.

Their Wonderful Expansion—Branches Established in Buffalo, N.Y.; Melbourne, Australia; London, Eng., and in South Africa.

Letters received recently from Mr. R. C. Davies, late of the Law Security Company, of this city, and who went to Australia some time ago as the representative of the Dodds Medicine Co., Limited, show that the most remarkable success has crowned his labors in the Land of the Southern Cross. This is a record that perhaps no other house in America can truthfully claim, and the Dodds Medicine Company have good reason to be proud of their success. To all who are anxious to succeed in life (and who are not) the record of this firm presents an object lesson that is beyond all price. Every man, whether in business or not, cannot but be deeply interested in the history of the company's progress.

Commencing business seven years ago, in comparatively modest quarters, at No. 536 Bloor street west, with J. A. McKee, Esq., as manager, the company undertook the task of making Dodds' Kidney Pills a household remedy from one end of Canada to the other.

Their enterprise was along entirely original lines. For the first time in the history of proprietary medicines, a kidney remedy, in pill form, was placed on the market. It was the business of the Dodds Medicine Company to make a medicine that the people of Canada, first, that such a medicine could be had, and next, to convince them that this medicine could be confidently relied upon to cure their ailments.

How thoroughly and how well this task had been accomplished, the success of the company emphatically indicates.

Mr. J. A. McKee, president and manager of the company, in speaking of their early experience, said that no case had been made out. The only thing that could be pressed by the Crown was that no books had been kept for a month before the assignment.

A very large staff of employees is kept continually at work in the manufacturing—sorting, labelling, packing, shipping, business, and advertising departments, each of which is separate and distinct from the others, and in charge of an experienced and competent head.

Every detail of the business has been brought to the utmost perfection, and the operations in the different departments go on like clockwork.

About two years ago the firm commenced the manufacture and sale of Dodds' Dyspepsia Tablets, which have almost immediately become the favorite remedy for dyspepsia, indigestion, and all stomach troubles.

Day by day the demand for these tablets grows larger and larger. In Canada, the United States, Great Britain, Australia, South Africa, British India, the West Indies, South America, and, in fact, all over the world, they are known and recognized by millions of people. TAINING and  
UTILIZING heat  
on the floor of an  
apartment, in-  
stead of the  
ceiling, is the  
great desiderat-  
um.

Ontario,  
Heater you put  
in my office  
a success in every way.  
The floor, from which  
heat is radiated, is the  
most warm and comfortable  
in another direction. In many  
cases a furnace or radiator  
in which even a breath of air  
is lost, is a waste of money  
and causes much suffering  
from the stomach. The

Nov. 2.—Mrs. A. Shear-

England, yesterday. She was  
aged 84. Her husband, Mr. A. Shear-

last week.

Fill.—Dyspepsia is a foe with  
which we are constantly  
struggling. Subdued, and to all  
its victims it makes its  
in another direction. In many

VICTORY FOR PROHIBITION.

That is the Claim of Mrs. Thornley,  
Who Routinely Scores the  
Government.

Ottawa, Nov. 2.—Mrs. Thornley, the Pro-  
vincial President, delivered her annual ad-  
dress at the W.C.T.U. Convention. She said  
that against almost unconquerable odds  
the temperance party scored a victory for  
prohibition. "Let us thank God from our  
innmost hearts, for the battle was the  
Lord's; there were no shamless deceptions  
and unexpected treachery, yet, despite it  
all, the Dominion of Canada had declared  
for abolition of the manufacture, importation  
and sale of intoxicants."

She proceeded to say that, with the evi-  
dence of such political rascality and trick-  
ery, it was a wonder that there was any  
majority, and scored the Government for  
the delay in introducing the prohibition bill.  
Mrs. Thornley said when the bill was  
presented "we found it had a catch ques-  
tion on the ballot. It was not alcoholic,  
but intoxicating liquors, of which we had  
asked the prohibition."

"One half per cent. of alcohol makes an  
alcoholic liquor, but it takes a good deal  
more than the double of that to make it  
intoxicating. The voter was directed to  
provision for the sale of alcoholic bever-  
ages. He was further requested to decide  
whether or no alcohol might be manufac-  
tured. Sweet cider is manufactured. Hard  
cider makes head, is any wonder that  
our opponents found a bonanza at this  
point? Mr. Fisher's explanation was not  
embodied in the bill and the words of the  
hellot contradicted him, for while cider is  
not intoxicating for some time, it is al-  
coholic, under ordinary conditions, in 48  
hours. The elector had to record himself  
against the manufacture of cider and the  
use of all alcoholic liquors, if he was to be  
counted in favor of national prohibition."

"One begins to realize the magnitude of  
the victory as they study out the un-  
necessary obstacles that had to be sur-  
mounted to reach it. The reason for the cam-  
paign," she said, "was bad for the vote,  
the worst in the year; the polling booth  
arrangements were so bad that the wonder  
is that the majority was so large. By the  
Parliamentary Companion," she said, "the  
W.C.T.U. had a minority of 40,000  
votes in the Dominion."

After referring to the Quebec people as  
being ignorant, Mrs. Thornley asks that  
the mandate of the people be carried out,  
and prohibition granted, and concludes as  
follows:

"Now that the census of the people puts  
to flight the doubt of their desire for such  
legislation, let us have prohibition and let  
the opening act of the coming House be  
such resolute action as will carry out the  
like as shall reassure the doubters and  
restore the hearty confidence of three  
years ago."

The warrant that was issued for an in-  
quest on the body of Miss Minnie Hume,  
who dropped dead on Queen-street Monday  
at noon, was withdrawn yesterday. The  
post mortem showing that death was due  
to natural causes.
