BANK MANAGER SUICIDES CAUSE OF DEED UNKNOWN

F. B. McNaughton, Lately Appointed to Merchants' Bank at Tilbury, Shoots Himself.

Tilbury, Dec. 6.—Mr. McNaughton, manager of the Merchants' Bank of this place, committed suicide to-day about 4.30 p.m. by shooting himself thru the heart with a revolver. He had been here only about three or four weeks, coming from Guelph, where he held the position of manager at the Merchants' Bank. His parents live in Quebec.

He was boarding at the International Hotel, and to-day asked the proprietor to make out his bill, as he intended going away. Mr. Macdougall, teller of the Merchants' Bank, was reading in the room just above the bank when the shot was fired. He immediately ran down and tried the door, but found it locked with the key on the inside. He broke a window in order to get in and found Mr. McNaughton lying on the floor just behind the teller's office. He ran out for the doctor, and had him there before five minutes had elapsed, but the man was dead. The doctor pronounced death to have been instantaneous. Mr. McNaughton had just come in from a walk. He went direct to the bank and wrote a note to Mr. Macdougall, giving him his father's address and the combination of the safe, and stated that he had shot himself and was perfectly sane. No cause for the deed was given. Nearly every night he would go to the bank and walk up and down from about 10:30 until 12, as he had something on his mind. An inquest will be held to-morrow.

Secretary of the Winter-Fair Talks of the Big Ontario Show.

A. P. Westervelt, when seen by a World reporter after his trip to Guelph on Saturday, said that the indications pointed to the Fair being bigger than any previous year. Although not many of the exhibits of beef cattle were in their stalls on Saturday, a good many of the dairy cattle were, and every train that came brought milk cows. The work was expected to go on during Sunday, as the entries for this branch of the Fair have to be in their place at 10 a.m.

TORONTO MAN KILLS HIMSELF

Niagara-on-the-Lake, Dec. 6.—Fredrick Bush, an unmarried man about 40 years of age, living alone, was found dead in his home here about 3 o'clock this afternoon. Not having been seen since Thursday night, his neighbors becoming alarmed notified Chief of Police Hill, who forced an entrance, and making an investigation found Fredrick Bush lying on the bed dead, a bloody razor on the window near by and a pool of blood on the floor. A small wound on the left arm showed where an artery had been cut, and the man slowly bled to death. It is supposed that brooding over financial affairs prompted Bush to take his own life. The coroner on being notified decided an inquest unnecessary, as all indications pointed to suicide. The remains were removed to Carleton Place, a detouring establishment and prepared for burial. The deceased is survived by a mother and sister, who reside in Toronto, and who have been notified.

Prof. Baker Unwilling to Become Responsible for Line of Action of Citizens Committee.

On this showing he offered to settle all urgent claims in cash and to put Zion on a cash basis in all future dealings with the outside world. Dr. Dowie's presentation of figures and his offers of settlement were satisfactory to the attorneys. His plan will be submitted to-morrow to a meeting of the receivers, their attorneys and the attorneys for his creditors, and it is believed will be accepted. In that event receivers and all creditors will join hands with Dr. Dowie in petition to Judge Kohlsaat to dismiss the pending litigation and permit Dr. Dowie freedom to gather funds and settle obligations.

Negro Fired Several Shots Tried Murder and Suicide

After Shooting Two Men Turned Revolver on Himself, But His Skull Saved Him.

Hamilton, Dec. 6.—(Special.)—Frank Johnson, 120 South John-street, tried to commit a double murder and suicide Saturday night about 11.50. He fired five shots altogether. He had been drinking for several days. William Howard was conducting his shop for him, and he had engaged another colored man named Nathaniel Moore, who boards at 199 North Catherine-street. Johnson came staggering in about midnight, accused Moore of cheating him out of part of the receipts and declared he would run his own business in the future.

Johnson fired at him, and the bullet hit him on the neck, ploughed thru the flesh and lodged in his shoulder. Johnson then turned his attention to Howard, who was lying on a sofa in the hall. Howard implored him not to shoot, and threw up his hands. The drunken man sent two bullets in his direction. One took a little piece of flesh out from between his thumb and

finger, but did no great harm. The other went wild. Turned Weapon on Himself. Johnson went back into the kitchen, and lured the weapon on himself. He held the pistol to his forehead and pulled his hair. With unsteady hand he took aim again, and the bullet grazed his shoulder, tearing out a piece of his shirt. He then threw the revolver behind the door in the belief that he had emptied all his chambers. That was lucky for Constables Barrett and Hassevelt, who came rushing into the house, drew revolvers, and Johnson never had time to place a bullet in the chamber. Moore's wound is much more serious. The bullet entered the right side of his neck, and he is now in the hospital in the patrol wagon. Johnson followed in the ambulance.

Johnson held the pistol close to the top of the forehead the bullet did not penetrate the skull, but simply made a hole. Johnson's wife says he tried to shoot her last Sunday. She hid the revolver, but was forced to hand it over to him again.

FIRED ON NATIVE FORT

Answer to Italian Officer Was a Charge of Shell.

The natives refused to do so, and the order to be carried out unless it had the sanction of the Sultan. Lieut.-Commander Grabau, thereupon, gave the commandant two hours in which to obey the order, and at expiration of that time, the commandant not having complied, fired upon the fort. The fort replied with shell, killing Grabau. The Dhow then put to sea and was picked up by the Italian cruiser Galata, which landed the officer's body here.

TRAMPED TO MILES IN NIGHTDRESS

And Bare Feet—Weak-Minded Girl at 87 Thomas.

St. Thomas, Dec. 5.—Proprietor Seamus H. Laird of the Hutchinson House was surprised about 7.30 this morning when a girl, clad only in a night dress, walked into the front door of the hotel. Her bare feet were bleeding and almost frozen, and her body shook like a leaf as a result of the exposure. The girl was removed to a room upstairs, where her sufferings were attended to. The girl's parents are Mr. and Mrs. Archie Crawford, who live two miles north of Sheddin, and the unfortunate girl is 22 years of age. The mother states that when Mr. Crawford and herself arrived this morning their daughter had left the house, and they immediately instituted a search. She traveled nearly 100 miles, and it is wonder, considering the cold weather and the rough roads, that she ever accomplished her feat. The girl is said to be weak mentally.

GROW COLONIAL COTTON MORAL "CORNER" POINTS

Lancashire Filled With Dismay in Sight of Shortage in U.S. Supply.

London, Dec. 6.—The most important question of the day is the cotton supply. The shortage in the American supply after the recent cotton corner fills Lancashire with dismay, for apart from the sharp advances in prices there is a general admission among manufacturers that cotton cannot be obtained for existing contracts, and that factories must be closed and working people left without employment.

The various incidents this year, beginning with heartless speculations and ending with an alarming shortage in the raw material supply, have convinced Lancashire that a movement must be organized for developing the vast cotton growing resources of the British empire and reeling England from dependence on American supply. This is the more drawn at Liverpool and Manchester, where great excitement prevails, and a hard winter is forecast.

Statisticians demonstrate that the American supply will speedily be inadequate for filling the American demand, and that it will not matter whether Lancashire has its own intelligence bureau in the United States if there is inadequate stock for export.

There is a popular agitation in favor of more cotton growing areas which cannot be controlled by foreign speculators. It may lead to organized measures for restoring the cotton industry to the British West Indies, promoting the expansion of British colonies in West Africa, and the development of growing areas of Egypt and India.

SMALLPOX IN SOCIAL SET.

London Society Women Start an Epidemic on Small Scale. London, Dec. 6.—One of the smartest women in London has been instrumental in causing a smallpox epidemic on a small scale. This woman's footman had the smallpox, and was looked for a country house visit, and, of course, told the fact to her hostess, who cordially begged her to come all the same. She went, but, feeling ill, returned home and had a light attack of the complaint, which both hostess and daughter also caught it, but were not seriously ill. The story has become widely known in society, and the worst of all is that before she attended the London dance on Friday night, she had been in the city for a week, and had been in the city for a week, and had been in the city for a week.

Last night at the Metropolitan, the Rev. William Sparing, D.D., delivered a sermon on "The Woman's Proper Sphere." He argued that women should stay in their proper sphere and not seek to enter the male world. He said that women's proper sphere is in the home and in the church.

SIGN OF CHRIST'S COMING

The services at the Salvation Army Temple here were held last night by the Rev. J. Gordon. He preached a sermon on "Signs of Christ's Coming." He argued that the signs of Christ's coming are being fulfilled in the world today.

The Outlook

By J. L. Mitchell & Co. 75 King Edward Street, Toronto.

On Wall Street

McIntyre & Marshall wired J. G. Beatty, King Edward Hotel, at the close of the market today.

McIntyre & Marshall's manipulative movement

in stocks this week seems to have been directed by the Chicago Board of Trade.

The market was probably ripe for such

manipulation, and the Chicago Board of Trade has been about to do it.

The banking interest was disappointing,

but really not little figure, interest rate rather in the character of trading than on outside news or routine matters.

For these reasons, it is doubtful if the

advance can be carried forward much further from the present level, or even sustained.

It has been our experience that such

manipulative movements at this time of year are of a very temporary nature.

Clothes to cover us—clothes to protect us—clothes for attracting attention to us.

FUR GARMENTS come under these headings. Our fur garments, besides covering the first two points, are a particular feature under the last. They are so exclusive in design and in general treatment that they attract attention. After all, isn't that what you expect in a fur garment? Besides ours have the quality to enrich the design.

ALASKA SEAL JACKETS

Special attention this year has been paid to our Alaska Seal Jackets. As of old, they are in our exclusive quality, but fashion dictates that trimmings of different furs are proper, so we have manufactured some having Ermine, Chinchilla, Sable and other Fur Collars and Revers, ranging in price from two hundred dollars upwards.

PERSIAN LAMB JACKETS

PRINTER OBJECTS TO NEW DEVICE

For Public School Work at the Junction—News Notes From Throughout the County.

Toronto Junction, Dec. 6.—(Special.)—The Management Committee of the Public School Board met last night and after considerable discussion as to whether Mr. McDonald was principal or vice-principal of Annetie-street School, decided that he was vice-principal. Mr. Wilson, supervisor of the area schools, is still the accredited principal. Supervisor Wilson desired the board to buy a "dupliator" to print examination papers on. Trustee Rice is a printer and objected to the new device. He objects to imitations of his own work. The printer should be properly printed. This "every man his own printer" was like the invention of egg making, the advertisement for which reads: "Buy your own egg." The board decided that a makeshift printing apparatus was not needed.

Time now for fur caps. Plenty of them waiting to be sold, but it makes a difference where you buy.

Cheap furs always look cheap and very quickly play out. A good fur of any sort is good for several years.

Those who believe in the economy of quality are careful to get the best.

No store in town has anything like the assortment of fur coats. Our business in them is large. We're obliged to carry a big stock.

Think of anything in fur. Then think of this store.

All Young Canada is Drawing Santa Claus. Such a stack of Santa Clauses! You never saw so many of him. All kinds of him—big, little, tall, short, black and white, blue and white, red and white and many other colors. We have so many good ones to-day we print seven of them. If yours is one of them, clip it out and send us your name and address, your age and which of our dollar toys it is that you want.

Friday's Prize Winners. The drawings in Friday's Evening News were made by T. Rennie, 100 Church street, and by another Toronto boy who has not sent in his clipping yet or the name of the prize he wants. He should do so right away.

Here's a nice letter from a little boy whose drawing was not quite good enough for the paper, but was very clever indeed for a little fellow of seven:

Dear Sir: I am going to try and draw Santa Claus because he is a good man. I am seven years old, but my sister is writing my letter because I can't write very good. I am in the senior first class at Dufferin school and my teacher is very nice. My name is Harry Anderson and my address is 208 Waverley St. My mother is going down to your place to-morrow to buy a dress for my sister because she says that Robert Simpson's is the best store to buy nice things. Simpson's is far the best place to buy toys, I say.

If my drawing happens to be put in the paper please may I have a Magic Lantern. Yours Truly, "HARRY".
