Property and Income Tax Was a Particularly Effective Measure.

LONDON, March 31, 11.49 p.m.-At the close of the financial year tonight the government issued a report showing that the total revenue of the United Kingdom for the year amounted to £336,766,824, being an increase of £110,722,744 over last year. The largest increase was in property and income tax, including the supertax, Revenue Above Estimate.

The principal items of revenue durng the past year were as follows: Customs, £59,606,000; excise, £61,-210,000; inheritance tax, £31,035,000; stamp tax, £6,764,000; land tax, £2,-650,000: income tax. £128,320,000: postoffice, £33,900,000; excess profits tax, £140,000; crown lands, £550,000; N IMPERIAL CONTROL Suez Canal stock, £2,432,000; land value duties, £363,000; miscellaneous, £9,797,000; total, £336,767,000. This total is about £31,000,000 above the estimates made by Chancellor Mc-Kenna last September.

In addition the second instalmen of the income tax and a large part of the excess profits tax are still to be collected and added to the receipts for last year. The small amount thus far collected from the excess profits tax is one of the surprising features of the statement indicating the difficulties of adjuseing this tax.

The buoyant yield of revenue during

the last year shows the chancellor may rely on collecting far more during the next year from the existing taxation than he has counted on heretofore. As the full benefit of recent taxation will not be felt for some months, there is a probability that the revenues from the new fiscal year commencing Saturday will yield £450,300,000, or more than louble the yield prior to the war. While further taxations are sure to be indicated in the budget, there is less H. To Consider Change.

Mayor Hett has received official notification from the private bills committee of the Ontario Legislature that they will consider Berlin's private bill to change its incorporated name on Tuesday next. Deputations for and against will be present to present their case.

At the regular meeting of the board of trade, held tonight, the following resolution was unanimously carried. After endorsing national registration it reads: "That this board hereby endorses the resolution of the Hamilton Recruiting League of Mar. 7, adding as arider thereto the recommendation that legislation be passed to prevent men of military age leaving this country during the war and to bring back those who have, already left with the intent to avoid military service."

The dam at the Empire Mills at New-tonbrook has been washed out by the big flood of Wednesday and the heavy accumulation of ice. The mills are located on the York and Markham town line two miles from Yonge street, and were owned by H. Schmidt. The loss will be heavy, extensive damage having been done, but it is understood that the owner will rebuild the dam.

The Risebrough and Jackson concrete dam at Thornhill, built two years ago to conserve the waters of the river and form an artificial lake, were of concrete, and supposed to be able to withstand anything. Wednesday night's big flood, however, proved too much for it. Visitors who were up at the Bloor street site of the old bridge reported last night that not a vistige of it now remains, even the piers having gone out.

EORGETTE, taffeta, crepe de Chine, lace and Habutai silk -these are the materials used alone and in combination, and in excellent qualities. And the prettiness and modishness of the entire collection is quite remarkable even in a season that abounds with attractive waists. For instance:-

A charming black and white blouse has its lower half made of black crepe de Chine, the upper of white Georgette, the two being joined by wide hemstitched scallops. The black material is carried up to the shoulders in suspender form and the sleeves are white. Also obtainable in rose and white and yellow and white.

Wee tucks with cross bar of hemstitching ornament both front and back of a Georgette blouse with pretty convertible collar and a decided contrast is a crepe de Chine blouse with big, flat tucks down the front, military looking straps over the shoulders and a convertible collar that is finished with a flare. These are but examples of a most interesting collection in all the fashionable shades. Sizes 34 to 46.

Remarkable Collection of Women's Suits at \$25.00

T is the most stupendous array of suits at this very moderate price that we have ever displayed, and not only in numbers, but in variety, in values, and in smartness. Every suit is an expression of the recent modes, and while the simpler, more practical suits for walking and sports wear are not lacking, many more elaborate models are included. There are many New York productions, even adaptations of Paris models, as well as suits from our own workrooms.

Variations of the bloused and belted coats are many, some cut with umbrella basques, some pleated, some paneled, and very smart are the wool suits, banded, collared, and cuffed with taffeta. Smart rolling silk collars, often gaily colored, buttons, braidings, embroidery, and hand-made ornaments, or leather straps, all serve to give them distinction, and all the coats are lined with silk or satin.

I think, in suede, and can be had at \$1.25, \$1.50 and \$1.75 a pair—good, better and best, as regards quality. Washable white gloves, too, are more popular than ever, and a perfect boon for general wear. In washable capeskin they can be had in wrist length at \$1.25 and \$1.75; and in washable doeskin at \$1.25, \$1.50 and \$2.00. When it comes to inexpensive coats, two of the most attractive models are in black and white shepherd's check and tan covert cloth respectively. The former is a loose-belted style with epaulets on the shoulders and collars and buttons of black silk. It is \$7.50. The covert cloth coat is in loose box style, with round yoke, pockets and a belt across the front. It is the same price.

Sophia—It seems like harping ceaselessly on one string to suggest chintz by way of curtains. But it is verily a panacea for dull and dead and monotonous rooms in which the only scope for improvement lies in the re-dressing of the windows. If one might only tell you to paint your floor black and tint your walls gray, and cover your big sofa in copper color, it would be a more interesting story. However, since the transformation must be wrought out through the adding of a couple of curtains and a valance, then for the hundredth time in so many days we must fall back on cheery, charming chints. There is a whole host of dolightful patterns in printed linens and shadow cloths in the brown, amber and ivory tints, with a lively dash of purple or rose or blue or green, at \$1.75, \$2.00 and \$2.50 a yard, double width. But I should certainly add side curtains as well as the frill across the top. If not, an uncomfortable air of arrested development will linger about the windows, one fears.

GERMANS MASSACRED PARTY OF PRISONERS

Fired Revolvers at Twenty Artillerymen Who Were Cut Off.

CRUELTY TO MAIMED

Armless and Legless Men Kept Incarcerated and Not Exchanged.

PARIS. March 31.-Henry Crosme former secretary of the French embassy at Vienna and artillery sergeant who recently escaped from the prisoners' camp, at Muenster. Westphalia, Germany, described his experiences to The Associated Press as follows:

"About twenty of us were taken pris-oner after our battery was destroyed and all of us were wounded. The first order we got was to lie down in a bunch when the Germans were hardly yard away. Using revolvers they heap, killing all but six of our party of whom I was one. When I got up spoke a few words of German which saved me. We were conveyed in cattle

"After two days without food we were placed in a camp hollowed out of ground with 15,000 other French,

English and Russian prisoners.
First Flight Failed.
"My first attempt to escape failed when I was four miles from the Dutch frontier. I was brought back and tied to a post with rope twined around me from my neck to my feet. Since then there has been no punishment for prisoners caught trying to escape. The only thing done is to paint three stripes of red, white and blue on an arm to show that the prisoner is a dangerous subject.

"On my second attempt to escape I got away with the help of a friend. It took two days to reach the frontier 80 kilometres distant. We were pursued by dogs, but the supply of pepper which we had brought along was used to put them off the scent. Near the frontier we saw what we thought were sentries, but these turned out to be dummies cunningly cut out of the

hedges at short intervals.
Starved Into Working. "In the camp officers and non-com-missioned officers are not compelled to work, but the rank and file were starved into working in mines and factories after signing a paper that they were 'volunteers' which was then shown to neutral inwere 'volunteers' spectors. GERMAN WAR PRISONERS GET GOOD TREATMENT

Report Presented to Reichstag Says Condtiions Are Greatly Improved.

BERLIN, March 31 .- (Via wireless to Tuckerton.) — A representative of the government outlined today in the reichstag the situation as regards German prisoners of war in Russia and Japan. He reported that the activities of a delegation representing Red Cross commissions of neutral countries had resulted in greatly improving conditions for the prisoners, and he voiced appreciation of the important services thus rendered.

As regards conditions in England, the situation of war prisoners was not unfavorable, the reichstag was told, while in France conditions were rather the reverse in many cases, there being complaint of insufficient food supplies at several places where prisoners

another vote on the temperance ques-tion in the house of commons this afternoon.

It came in a somewhat curious manner. Last Monday night a resolution offered by Mr. Stevens of Vancouver was before the house, calling for nation-wide prohibition. R. B. Bennett of Calgary moved by way of amendment that all the words after "resolved" be stricken out and another and entirely different resolution substituted therefor. His amendment in effect commended the Doherty bill, which forbids importation, of liquor into any province to be dealt with in that province contrary to provincial

The Bennett amendment or substiute was adopted, years 63, nays 46. As nothing remained of the Stevens resolution except the word "resolved," Mr. Speaker Sevigny ruled there was nothing left for the house to vote on. In short, the house had decided against nation-wide prohibition and declared in favor of the Doherty bill. By a Staff Reporter.

OTTAWA, March 30.—There was sent to set a nother vote on the temperance question of the stevens resolution to a vote. Today, therefore, a number of the "drys" recorded their votes in favor of the Bennett substitute for the Stevens re-solution upon the ground that half a loaf was better than none. It being impossible for them to record their votes directly in favor of nation-wide prohibition, they desired to indicate heir approval of the Doherty bill as a step in the right direction. Some Last Ditchers.

A few ardent advocates of prohibition like Hon. Charles Marcil, refused to make any compromise with the enemy and recorded their votes today against the proposals of the govern-ment, as outlined in the Bennett amendment. A few other members voted against it because they claimed that the government bill was not fairly the prohibition issue. Mr. Nesbitt of North Oxford, denounced as hypocritical. Would Scare Capital.
In the opinion of R. R. Gamey, the province would be justified in allowing all mining companies to operate without taxation. He warned the house against placing a heavy tax on jury has been committed by agents swearing they had a verbal agreement.

Another important amendment to the statute laws brought in by the attorney-general is one which blocks any suit in the Ontario courts on the rush in and impose heavy taxes. He declared that he had no interest with the company, but he knew the mining

conditions. Sir Thomas White, by his tax on mining companies, had been absolutely wrong, said Mr. Gamey. Mining capital would not come into the country if it was going to be taxed, and the tax put on by Sir Thomas had done much harm to mining development.

Premier Hearst, in speaking on the question, said that if the government Act (Moratorium Act) is extended in its operation until thirty days after the session of 1917 by a third bill introduced by Mr. Lucas. The act since it was first passed has been for yearly periods.

SATURDAY MORNING, APRIL 1.

An Open Wide Investigation Sir Robert Borden should at once

concede what he will be forced to concede later, an wide-open investigation of all charges made of graft in connection with the munitions scandals. Sir Sam Hughes said that J. And yet the country is going on in spite of these disturbances, in way to give ground for the suspicion spite of a great world-wide war which ought to supply thrills enough on its own account for half a century.

of graft in connection with the war is taking, not to mention the meanness munitions contracts sprung in the and sordidness of character which house of commons Tuesday night would lead a man to run his business does not seem to moderate; it runs in this way. In case of a German vicinto longer and wider lanes and alleys, tory his case would be worse than that and, as for the politicians, they have been simply carried off their feet as if by a gale, and everyone is feeling for his hat-and his head.

It is only after three days that the extent of the explosion of Tuesday night and the danger of annihilation up conditions which lead to strikes and that actually hung over the government can be realized. The government were sitting on a hidden mine until Mr. Kyte was near the end of his speech, and they did not seem to realize it. Now they know. But some things are at last beginning to clear, the government are going on with their commission to investigate the fuse contract scandals. Judges Meredith and Duff should start investigating almost immediately; Sir Sam Hughes will be on his way to Canada today, and the government will facilitate in every way the holding of a searching investigation of the Kyte charges. The instructions to the commissioners will be wider than anyone imagines and nets will be put out to land minister, or friend, or adventurer, in every way possible to entangle them. The prosecuting attorney, whoever he may be. will not lack aid and information, and much of it will come freely from Conservative sources. Sir Sam Hughes' danger is his own party and his alliances with men like Allison.

Outstanding features today are that Sir Sam Hughes will have to defend himself and that he will have to produce J. Wesley Allison, who is 'now a fugitive from the Davidson commission and the public accounts committee of the house of commons. The scandals may turn more on things Canadian than on British; more on what took place in Canada than graft on the British taxpayer that was divided in the States. But Sir Sam will have to produce Allison or disown him wid his acts as he already defended and them. It is surely developing a cyclonic centre of scandal and he must appear or disappear into darkness. If he goes, others will go with

But will Mr. Kyte and Mr. Carvell be able to prove wrong doing in cor

names have been published and will they lead up to Canadians in high office, to officials, to members of the munitions board? In other words, was there actual distribution of big sums of British money among the men

named as grafters and among Canadians responsible by office to the Canadian people? So far the opposiion say so and they offer copies of documents and evidence of companies formed and cases made, but will they show that the money passed? The gov ernment are now trying to find this out and are as busy, perhaps more busy than the opposition, to find it out and they hope to know the facts in a few days. They will spare no one in driving home the proof. There is to be no saving of persons.

But the charges made by Mr. Kyte on Tuesday are only a part: others nore glaring of wrong doings in connection with other cases will be made sooner or later. When, will depend upon what turn the debate takes next week. The opposition will force a division of the house on the question of a parliamentary investigation, not one by a commission limited to speci-Daily World \$4.00 per year; Daily World \$5c per month; Sunday World \$3.00 per year; Sunday World 25c per month, including postage.

fied charges. It is here where the scandals situation is likely to grow, and to grow into almost uncontrollable dimensions. The Liberals will demand the fullest inquiry and if it is refused, they may block the passing of legisation, of the estimates, of the public business. The stormlest situation ever known at Ottawa may be just at hand.

Treacherous Results

Labor strikes in Great Britain are difficult to understand at the long range of a transatlantic position. It must be evident that the labor men do not understand the deadly peril in which they are placing their fellow countrymen who are fighting their battles in the trenches, the risk they are running of bringing about the defeat of the allied forces, and the danger for themselves in such a case.

Should Germany win this war, either by the weakness of the allies, contribmillions. All this means that the labor men of Great Britain must be prepared nany every privilege they have gained in the long struggle of democracy for popular rights. This cannot be understood by the workmen of Great Britain or they would not risk so much to gain so little.

There are those who honestly differ with this view. They believe that the war situation to get as much out of the employer who does so, or acts in any that he entertains such a design is even more foolish than the workmen who would object to such action. He is The situation at Ottawa over charges supposed to understand the risks he

In either case, whether it be the workman who hangs back while his fellows are being killed for lack of the material which he is failing to turn out, or the employer who gets the failure to provide that which is required at the front, the harm done to the cause of the allies is just as great as tho those who did it were in alliance with the German Government. They are traitors to the common cause and should the war continue much longer, traitors in acts of this description are apt to be dealt with by military methods.

It would be even more unfair to

change the status of those who enlisted in units of a branch of the service not being recruited in Toronto at the time. Officers came down from Montreal and Kingston and enlisted a large number of men from the university and elsewhere in artillery and other services because there were no such units in Toronto, and the distinct understanding at the time, under which the men were pressed to go, was that they would be treated by Toronto just the same as if they had enlisted in Toronto units.

Defeat at Verdun

Appearances seem to point to a renewal of the main attacks by the Germans on the French positions around Verdun. Various reasons are suggested for this. The question of prestige is, perhaps, as important as any in the German mind. But prestige, like fine words, butters no parsnips. If the Germans had capable leaders they would not have made such a

Censorship Reversed It seems rather an unnecessary pro

edure on the part of an entertainment house to try to discipline a newspaper for expressing its honest views on the character of an entertainment. This is carrying the censorship in another direction than is usually contemplated, and it is no more desirable as censorship in one direction than another. If a newspaper does not give honest criticism of the performances which it is supposed to criticize, it loses any value in that department to the public who read it, and who soon learn to judge whether its opinions are reliable or not. With absence of censorship there must also go freedom of the press, or public opinion, which we believe to be the proper censor, could have no means of expression.

There is very frequently room for an honest difference of opinion concerning a play. The character of the audience must be considered. What would be perfectly proper in a play intended for adults would, or might, be highly improper in a play intended to amuse children. The general characwhat bears no suggestion of evil to another. So we have the motto, "Honi soit qui mal y pense."

He understood the finance minister when he issued his domestic loan had called upon all life insurance companies to invest therein; some had responded but others had not thought fit to do so. Was the bill intended to compel them to so invest?

Sir Thomas White in reply said that ome companies had declined to invest because of Germans interested in the companies as stock-holders or policyholders The measure was a war mea. sure intended only as a temporary expedient, but he did not think the insurance companies could complain of any hardship as they were exempted from the budget tax upon profits and they were getting a good security bearing a high rate of interest.

LEWES, Del., March 31.—Ernst Schiller ,the German stowaway, who captured the British steamer Matoppo, was taken from jail here tonight by detectives and hurried across country to Harrington in an automobile. From this, it is said, he would be taken by train to New York. The detectives said they had received information that attempts would be made to rescue Schiller, and with the consent of the local authorities they decided to take him

Schiller readily consented to removal, saying that he would do anything to keep out of the hands of the British officials. During the afternoon Schiller was

given a hearing before a justice of the peace, and made a detailed statement as to his motives in starting what he termed a privateering expedition. Revenge against England for arresting him as a spy, as well as the spoils he expected to secure, he declared, were the impelling motive. He was un-certain, he said, whether the four men ne had picked to accompany him had pidden on another vessel or had abandoned the enterprise.

NO EXTRA COST UNTIL THE GRADE IS ALTERED

amilton Council Firmly Stated Position to the Highway Commission

AT MEETING LAST NIGHT

Commissioners Refused to Bear Part of Cost of Entrance Into City.

HAMILTON, Saturday, April 7.—Geo. H. Gooderham, M.L.A., chairman of the Toronto-Hamilton Highway Commission, appeared at a meeting of the city coun-cil last evening relative to matters per-tening to the construction of the high

cil last evening relative to matters pertaining to the construction of the highway in this vicinity. He announced that the commission had decided not to pay any part of the cost of theentrance of the roadway into Hamilton, or for the changing of the grades.

Upon hearing this, the members of the council decided to make no further contributions towards the cost of the highway until such time as the commission agreed to alter the grade and pay part of the cost of the entrance of the roadway into Hamilton.

The present grade of the roadway is ten per cent., and the aldermen were given to understand that this would be changed to four, and Mr. Gooderham was told that no further assistance could be expected from Hamilton unless the commission acted in a fair manner.

Mr. Gooderham explained that, while Hamilton had contributed \$30,000 towards the construction of the roadway, \$95,000 had already been expended here for material and labor. It was also explained that the cost of an earth fill for the Valley Inn would cost \$125,000. that the cost of an earth fill for the Val-ley Inn would cost \$125,000.

Hamilton's share of the additional es-timated cost is \$30,000, but there is little likelihood of this amount being contribu-

"HOSPITAL NIGHT," held this week in Convocation Hall, served to remind the public again of the splendid work done by the women of the university and their supporters for No. 4 Canadian General Hospital. The treasurer's report showed that the total receipts had been \$45,600.95, and the following disbursements had been made: Supplies purchased, \$36,492.22; express, etc., shipping requisites, \$265.35; sewing machines, cutting and sewing, labor, \$461.32; stationery, printing, postage, advertising, \$185.77; telephones, \$22.27; expenses of art exhibit, \$14.66. Total expenditures were \$37,441.67, and the balance on hand and in the bank is \$8159.28. The report of the secretary showed that the association has sent out a total of 3340 cases, 1677 of these for No. 4 Hospital, 463 to the Canadian Red Cross Society for use in other hospitals, and quite recently 1200 cases of surgical supplies to French hospitals, through the Canadian Red Cross Society. Of this total, 2210 cases contained surgical supplies, and 1130 cases contained garments, household linen, etc. The number of articles contained in this 1130 was approximately 124,000. CONCERT IN WYCHWOOD

At a concert held in Humewood School, in north Wychwood last night, presided over by Deputy-Reeve W. H. Graham, the capacity of the building was taxed to provide room for the parents and scholars present. An excellent program was given, the proceeds being turned over to the local Red Cross Society. Mrs. D. D. Kilgour and Miss M. Manser, in violin solos, and the pupils in scarf drills, rose dances, club-swinging and sailors' hornpipes, were features of the evening.

BOXERS DISPLAY SKILL ON PRELIMINARY NIGHT

Fourteen Bouts Decided Opening International Tournament Decision Displeases Crowd.

The Riversides' international boxing tournament opened last 'right in the Arena before a good crowd and the bouts were easily up to the standard. The boys were put in the ring promptly and a night's good milling was thoroly enjoyed. A feature was the very many men from the battalions in the competition and also the numbers of officers and men in attendance. The solder boys were always the most popular with the crowd. There was a considerable demonstration against the decision in the 105-lb. bout between Tremaine of Detroit and Gould of the Riversides that the judges gave against the visitor, whom the spectators believed to have won by a fair margin. Tremaine had good style, defence and a nice left. The Detroit handlers declared they would pull out all their men, but soon reconsidered the hasty declaration and their men went on and boxed according to program. The following are the results of the fourteen bouts:

SUES A KENNEL CLUB BECAUSE DOG BIT HER

NEW YORK, March 31 .- It may cost the Westminster Kennel Club some \$25,000 for having accepted the entry of
Jennie Croker Whitman's French bulldog, Le Noir II., two years ago in its
show at the Grand Central Palace. Jane
L. Coughlin brought suit against the
club for that sum yesterday.

The plaintiff alleges she entered a dog
at the defendants' bench show in February, 1914, and that Jennie Crocker
Whitman entered her French bulldog, Le
Noir, at the same show, the two dogs
occupying adjoining stalls. She declares
Le Noir's disposition was as dark as his
name, in that he was "ferocious and
mischievous" in propensities and "accustomed to bite mankind."

Nevertheless, she says, he was not
properly prevented from using his teeth,
with the result that she was "bitten,
clawed, lacerated and wounded," to her
damage in the sum for which she sues. the Westminster Kennel Club some \$25.

> ing League in Two Sections at Detention Camps.

LONDON, March 31.-London has just heard of what is probably the world's

most unique soccer league. It is the Ruhleben Football Association.

This comparatively, new body was established on March 26, 1915, so that only this week it completed the first year of its existence. As the Ruhleben F.A. has not been affiliated with the International Federation, the Deutcher Fussball Verein, or the Football Association of England, its football is unauthorized, unrecognized, and everything else zed, unrecognized, and everything else but Hun. The association has been made in Ger-

many, but the founders and the players are all British: in fact, this is the only British concern conducting operations in Germany. The fact is this association sprang from the brains of the British sprang from the brains of the British civil prisoners of war detained at the camp of Ruhleben, near Berlin.

The league numbers 463 footballers, amateurs and professionals, so that no difficulty was experienced in running two leagues—a first division of fourteen clubs and a second division of thirteen clubs, a cup competition and "international" matches between England and The Rest. It includes such famous players as Steve. matches between England and The Rest. It includes such famous players as Steve Bloomer (barrack 1); H. M. Davies, the Rugby player of Sale (barrack 2); G. The camp contains all sorts and con ditions of men, including jockeys, trainers and four golf professionals, viz., William Jackson (Colchester), Ernest Warburton ("Altrincham, Cheshire"), A. Andrews (Hearts) and Robert Murray (North Berwick).

EXHIBITION GAMES THORN IN SIDE OF THE MAGNATES.

MONTREAL, Que., March 31.—There seems to be considerable trouble brewing about the exhibition matches by the N.H.A. and Portland teams in New York N.H.A. and Portland teams in New York and Boston. The Boston Arena management over the long distance telephone gave the Canadiens permission to play with Portlands in New York, but afterwards objected to it by telegraph, claiming it would interfere with the games between Ottawa, Quebec and Wanderers in Boston.

between Ottawa, Quebec and Wanderers in Boston.

Secretary Frank Calder of the N.H.A. will go to Boston tonight to try and straighten things out.

Intimate friends of T. Emmett Quinn. president of the N.H.A., stated that last night's banquet after the Stanley Cup series was his last public appearance and that his official resignation was only a matter of days.

After the match was over last evening, two of the Portland players told Manager Savage, that when the puck was faced just before Ronan scored the first goal for Canadiens, the puck never dropped on the ice, but was batted away by the Canadien centre player, as it was still in the air.

Riley Hearn, the umpire, at the end, bore out this contention.

OLD CY. YOUNG TURNS THE FIFTY YEAR MARK

Veteran Pitcher Had Marevlous Career in the Big Leagues-Baseball Gossip.

Yesterday marked the beginning of old Cy Young's 30th annum on earth. Denton Technish the baseball world, whose salary wing withstood the stress and strain for twenty-two major seasons, and whose record of victories constituted a mark at which all his successors will probably snoot in vain such was good old Cy.

Christy Mathewson was once looked upon as a possible rival of Denton Tecumseh in the durability record race; but that day is past. Big Six has still a long and weary road to travel if he is to come within hailing distance of the Young mark, and it is dollars to doughnuts that he can never do it.

It was in July, 1910, that old Cy hung up his 500th major league victory. At that time he had lost 302 contests, making a total of 802 games twirned in the big show. That practically ended his career, for he took part in only seventeen games after that, winning eight of them. The total for his major career is 819 games, with 508 victories.

Christy Mathewson is the only twirler of the present era who has come anyway near that record, and he will have to pitch 250 games and win at least half of them, to set up a new mark. Can he put it over? Not in a thousand years, to all appearances, and yet—

In 1906 old Cy was seemingly all thru, played out, done for. That season he won thirteen and lost twenty-one games. The previous year he had lost one more game than he won, being the first time in his history that his balance was on the wrong side of the ledger. At the close of the 1906 season, when it was said that Cy was a goner, his record stood 435 won to 255 lost. Yet for three seasons after this slump old Cy took his regular turn in the box and won well over half of his games, having 21 victories to 11 defeats, while with the Red Sox in 1908.

A Berlin, Ont., despatch says: Prospects for a fast baseball nine from among the men enlisted with the 118th Battalion, now fast reaching the full battalion strength, are bright, and if the proposed khaki league is organized at London during the coming season the local unit will make a bid for championship honors. Pte "Bumpus" Boettger will catch.

will catch.

A great many of the city leaguers are now enlisted with the 118th and many more will follow.

Manager Selke of the Union Jacks, junior O.H.A. runners-up for the past two seasons, has enlisted, as have Master, Clayton and Henry Krug, and it is believed that the whole team will be in khaki before many days pass. Clayton and Krug were both too old to play junior hockey this year.

Portland Players Have Varied Jobs

Practically all the Portland players will go back to the Pacific Coast after they have finished the round of exhibition games they have booked in Ottawa, Quebec and New York.

Capt. Eddie Oatman and Charlie Tobin will hike fer eastern Oregon, where they were during the sunshiny months of 1915. Oatman takes charge of a large grain elevator, and Tobin keeps in condition by Juggling sacks of wheat.

Tommy Dunderdale returns to Winnipeg to re-enter the office of the Winnipeg to re-enter the office of the Winnipeg Liectric Street Railway Company.

Del Irvine is an automobile dealer in Winnipeg, and will return there. He may go to Portland later and permanently reside in the five City.

Tom Murray, guandian of the Portland nets, was an insurance agent at Winnipeg during the off months to the 1914-1915 season, and may return to his old love.

Ernie "Moose" Johnson will resume his spring, summer, and fall job of last year by again signing up for his run on one of the O.-W. R. & N. Company's freight trains. Fred "Smokey" Harris is a brakeman. He worked last summer on a railroad in western Canada, where he will return after this season.

Alf. Barbour, utility man, is a druggist in Portland. Uksila will play baseball in some league in Michigan. He is a shortstop.

Dodgers Showing Good Work in South - Gossip of the Players.

"I can't see how the other clubs are going to keep the pennant away from us this year," is the way Wilbert Robinson saw things after the Dodgers beat the Mackmen 6 to 4.

Rain is keeping the Yanks around the festive board, where three kings look better than three hits.

Big Bill James, whose arm is the subject of much worry in the Braves' camp at Miami, Fia., cut loose with a few benders of the 1914 type and Manager Stallings is jubilant.

The addition of Adams and Goode to the Phillies gives Moran, who is himself a former Cub, a couple of Chicago feverites. Then there is Milton Stock,

who got his start on the Chicago lots. Fred Luderus is another ex-Cub. Dave Robertson, the clubbing outfielder of the Giants, is still outside of the trenches, and unless he soon comes across he will find himself out of a job.

Players of the Yankees believe that before June 1 Frank Gilhooley will be a more-talked-about tosser in Gotham than Benny Kauff. Some of those who have seen Kauff in action claim there is nothing he can do that Gilhooley is not capable of performing in the same style. Gilhooley has shown sensational form in the south this spring.

Manager Jennings of the Tigers figures that he will have at least four pitchers in shape for the opening of the season. They are George Dauss. Southpaw Covaleskie, Bernie Boland and Bill James. Loudermilk has shown no more control than he ever owned, and is not thought of seriously by the Tigers' boss.

Le Fohl is chaperoning a band of bachelors. Only six members of the Indians are married. They are Steve O'Neill, catcher; Hagerman and Colla-more, pitchers, and Gandil, Turner and Howard, infielders.

Some Cub fans are so superstitious that they would rather see the team lose seven straight in the training season than have it win seven. There has always been bad luck for a team to get away so strong. Then, too, defeats at the start put fight in a team where it is most needed. Some optimists, those Cub fans.

Eddie Foster, star third-sacker of the Senators, is not the only one doing justice to the name. His brother, Paul, is a star forward on the Harrison tech heavyweight basketball team, which went thru the season with but two defeats, losing to Hyde Park in the final clash. Paul looks like a twin brother of Eddie.

Most of the big leaguers have broken camp and are on their way home via one-day stands. Not all of the managers are satisfied with the showing, altho the weather in Dixie this year has never been paralleled.

Joe Tinker will have the remaining fortnight to rush his boys into fighting trim. Right now they don't seem ready for a hard season. There is no especial position on the team that is weak. The squad needs a general going over.

Rowland is elated over the Sox outlook and sees a brilliant future for the team. The boss is getting his pruning hook ready and before the end of the

week will have rid the team of several recruits. Clarence, however, will hot let any real stars go.

Montreal sends the following: That Claude Rossman will sign a contract to play first base for the Royals this season is the confident belief of Dan Howley, leader of the local baseball forces. Rossman is now located in Minnesota, and his only difference with the club is a technical matter not connected with salary. and mis only difference with the club is a technical matter not connected with salary.

Daniel is worrying now as to whether Moran and Ted Cather, secured from the Boston Braves in the Griggs deal, will sign their contracts. If they do, he expects to have one of the strongest outfields in the league.

The news announcement yesterday that Jimmy Dowd, who was bought by Cincianati from the Royals last fall, will be returned and will report at the Royals' training camp at Hacketstown will be gladly received by local fans. Dowd is one of the best pitchers on the circuit. He led the International until the middle of July last season, when he started to dread games thru overwork. Charlie Fullerton, the young pitcher who did so well with the Royals last season, after coming here from the Northwestern League, wrote to Manager Howley yesterday, asking for a contract. He had some difficulty over his salary, but this has evidently been adjusted.

Ray Demmitt, the former Leaf, is playing right field for Columbus.

The McCormick Centre Circle held their first mothers' folk dancing contest yesterday afternoon. The rye waltz was used, and nearly all of the 52 mothers present entered in the contest. The prizes were won as follows: 1. Mrs. Fischborne and Mrs. Higgins; 2, Mrs. Owens and Mrs. Schultz.

After the contest Miss Doran, supervisor, on behalf of the circle, presented Mr. R. L. Beckett, who is leaving the playground work, with a chair.

Luncheon was served, with the tables decorated with Easter colors. or-1, Eva Bury, 34'; 2, Irene Park,

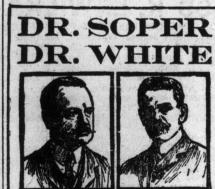

Terry Turner of the *Indians started Terry Turner of the Indians started out with the Columbus team fifteen years ago, and he is still an artist in his line. He began as a third baseman, then played shortstop for years, and now is playing second base, which will be his final location, as he will scarcely go to first. The not quite so fast as he used to be, he is still a first-class ball player.

HUGE MACHINE OF WAR SEEN IN FULL SWING

Sir Reginald Broch, Secretar y of the War Office, Thru One of His Staff, Permitted the Representative of the Associated Press to Get Intimate View of Workings.

Brade, secretary of the war office; received a representative of the Associated Press, and gave facilities, thru one of his staff as escort, to see something the whole establishment, Lord Derby, of his staff as escort, to see something whose scheme for increasing the army has brought him very much in the under the pressure of one of the greatest wars with which it has ever had to cope. It was an experience of several hours, exploring the labyrinths of the vast institution, fairly vibrating is now directing home defense, is now directing home defenses in est wars with which it has ever had in meeting the big part it is taking in

Some idea of the immensity of this war establishment may be had from the fact that its corridors are two miles long—a good brisk walk of an hour. And along these two miles is a goodsized city of people, over 4000, engaged in the infinite details of this war work, reat and small, all the way from Lord Kitchener, secretary of state for war, down to boy scouts and girl messen-gers. And this is only the central establishment, for the war exigencies have outgrown even this huge building, and many outside buildings, business blocks and other premises have been taken in as war office branches. The sudden extension of censoring as a precaution of military defense, has called into service a large army of censors, and a number of large business premises in various quarters have been acquired for the military censors' branch. Three or four other branches are at other points, and practically the whole ordnance branch has grown into a separate government department, with a cabinet minister, Lloyd-George, at its

The Throbbing Centre. Yet the war office still remains the throbbing centre of the war work; here the larger questions of strategy and the campaigns in various theatres of the war are worked out; here the army council and the imperial general staff hold their meetings, and here the many branches of military work ramify from the headquarters of Lord Kitchener, General Sir W. Robertson, chief of the imperial staff; Licut.-Gen. Sir H. Sclater, adjutant-general to the forces; Lieut.-Gen. Sir I. LONDON, March 25 .- Sir Reginald | brass buttons and a brass device on the

There are two outstanding figures of interest at the war office just now, Lord Kitchener, the supreme head of has brought him very much in the public eye, while across the road, at with energy at every point, and yet proceeding with precision and efficiency particular. Lord Kitchener's windows particular. Lord Kitchener's windows look out on the busy traffic of Whitehall, with the Mounted Horse Guards across the way, and the bronze equestrian statue of the Duke of Cambridge, in sweeping plume and full regalia of a field marshal, at the entrance. The offices are stately, with portraits of distinguished war ministers. But under Kitchener they have taken on an air of the camp, with maps all about and on the walls, indicating the campaigns in many fields of British opera. tion, in Flanders, at Salonika, in Egypt and Mesopotamia, and of ally opera-tions on the Austro-Italian front, in Russia, and other points.

Always a Soldier.

Lord Kitchener comes and goes, al-ways as a soldier, in uniform. He goes ways as a soldier, in uniform. He goes in uniform to Euckingham Palace for his conferences with the King, and in uniform to the house of lords, where he is a member, to announce govern-ment policies on the war. His busy hours at headquarters are in the morning and at night, attending war councils, seeing the chief staff officers, and directing plans. He appears always calm and unruffled in the mass of details pressing from every side, and he eturns the salutes of soldiers along he corridors with the same deference they give him, like Washington, who bowed to his servants because ne would not permit his subordinates to outdo him in courtesy. Lord Derby's quarters are across

the corridor, and the he is a civilian and wears no uniform, he is surrounded by a military staff, and is doing on of the most important military works, "establishing a reservoir," he calls it. which will supply a steady stream of recruits as the military authorities branches. Over 100,000 letters are reneed them. Instead of war maps, Lord Derby has a map of the United erage of 40,000 go thru the formality ingdom hanging back of his desk, or his problem has been the assenibling of men in proper quotas from government, eventually under the condifferent points within the country. Field Marshal French's quarters are mere registering of this vast influx of not far away, the centre of bustling activity in connection with the new air defenses. Just what these are, is not being made known, except in the guarded announcements of Lord Kitchener to parliament, as the theory of the war officials is that surprise is an

the ministry of munitions. Under these main heads there are some 120 divisions, taking in the whole range of military activities. The war council is, in effect, made up of the heads of those thail divisions seven in all, with Lord Kitchener as president of the council, and General Robertson, chief of staff; Adjutant General Sclater, Quartermaster-General Cowans, Major-General Von Donop, Parliamentary Secretary Tennant, and Financial Secretary Foster as the other members of the war look up lost documents; ter as the other members of the war council. The general staff, with General Robertson at its head, makes the scientific studies of military de-fense, assembles all the available in-

telligence on different campaigns, furnishes the experts, and has charge of the military inter-communication by telegraph and signalling. The recent transfer of ordnance from

the war office to the ministry of mun-itions shows the remarkable development of ordnance, particularly artillery, since it first came into use. It was not until 1483 that England established an ordnance officer, the war office records showing that Rauf Bigod was the first master of ordnance. That was the time the Germans were first using these strange engines called ar- orite, but Welsh came out yesterday with tillery, throwing enormous stones. So an ultimatum in which he remarked that the English appointed a master of ord-Leonard will discover that boxing Welsh the English appointed a master of ord-nance, and soon after Ferdinand of Spain also got some of these new en-gines of warfare, and with them suc-ceeded at last in battering down the walls of Grenada and driving the Meerr out of Spain. From that time walls of Grenada and driving the Moors out of Spain. From that time on artillery was a main factor in set-tling wars, and in England such men as the Duke of Marlborough, Lord Cornwallis, Lord Hoe, and the Duke of Wellington were masters of ordnance. It is a curious fact that after Lord Cornwallis' surrender at Yorktown, he returned to England and became the master general of ordnance. This matter of big guns has been grow-

such a factor that a new cabinet minister took it over as a separate de-

ing ever since, until this war made it

Registry Branch. A visit to the registry branch of the war office gave an idea of the immen-sity of the work going on, for this branch receives everything coming in and distributes the business to all erage of 40,000 go thru the formality of registering. Once registered, a communication is an official record of the 40,000 pieces of separate war business is a prodicious work. VON PAPEN ENDORSED

Plans Were Laid After Project to Invade Canada Was Dropped.

SUPPLIED THE MONEY

More Sensational Revelations Have Been Made by Von der Goltz.

WASHINGTON, D.C., March 31 .-According to the story told justice department agents by Horst Von Der Goltz, the alleged German spy brought to New York by Scotland Yard detectives last Tuesday, the plan to blow up the Welland Canal was known to Capt. Von Papen, the withdrawn German military attache, who furnished money for the work.

Von Der Goltz was quoted as saying that Von Papen had endorsed the Welland Canal proposal after it had been decided that it would be impossib'e to lead a large armed expedition into Canada from the United States. Von Der Goltz had sought to enlist Germans in Baitimore, Hoboken and New York, and department agents say he declared he was acting with knowledge of Von Papen.
Abandoned Invasion Plan.

Von Der Goltz came to the United States in July, 1914, from Mexico, where he had been on General Villa's staff, and reported to Von Papen. The plan to invade Canada, he to'd department agents, had been his, not Von Papen's. After he had obtained Von Papen's endorsement, Von Der Goltz said, he went to Baltimore to induce Germans of the crews of the German merchant vessels tied up there to join him. He also tried to obtain recruits from German sailors

at Hoboken and New York. After a time, Von Der Goltz said, the plan was abandoned. The intended point of invasion, officials said, was "west of the Great Lakes" The force which Von Der Goltz wanted to raise for the expedition was to be sufficiently large to engage the at-tention of the troops Canada was training to send to Europe.

PIECE OF CONCRETE HIT GUELPH'S MAYOR

Effort to Save Bridge in Danger.

GUELPH, March 31.-Mayor Mahoney was the victim of a most pain. ful injury about 5 o'clock this afternoon, when a piece of concrete from the dam in the river, which was being dynamited, struck him just above the ankle on the left foot. The result was a compound fracture of the limb. The city engineer has had a gang of men at work for three days and nights trying to save the bridge at Huskisson

When the water started to rise this afternoon it was seen that the dam or a portion of it would have to be removed to let the water out. The mayor was on the west side of the bridge and about 60 yards from the point of explosion.

ORANGEVILLE, Ont., March 31 .-This has been a busy week for Duffer-in-Halton Battalion, which on Monday and Tuesday will conduct a whirlwind campaign to secure three hundred more recruits ,the balance of Dufferin's quota. The regiment has now seven hundred men. The regimental hand gave a concert here this week, presided over by Lieut.-Col. Domville, which was accompanied by eight of the battalion's officers. The local company has a fife and drum band and

is one hundred strong.

Last night a successful smoker was held. A systematic canvass will be made of the farmers' sons who have not come forward as expected owing it scarcity of help. The population of the county is eighteen thousand, of which for ten thousand, of hich fou teen thousand is rural.

FLOODS CAUSE DAMAGE.

Result the Harbor at Goderich May Have to Be Dredged This Spring.

GODERICH, March 31.—The breaking up of the ice in the river here has caused the water to rise to such an caused the water to rise to such an extent as has never been known here for forty years, say the oldest residents of the town. The water poured out of the mouth of the river in such a current that the ice on the lake adining the harbor became overflooded and much of the water rushed back into the harbor, bringing with it large quantities of sand, and it is said that this will cause the entire harbor to be dredged this spring.

REGINA PROBE DELAYED BY LACK OF WITNESS

Date of Bank Manager Smith's Return to Regina Rather Indefinite.

LANGLEY IS AROUSED

No Evidence Brought Against Him, But He Insists on Vindication.

REGINA, March 31 .- After the royal commission investigating the bribery and liquor charges gets thru with some minor business tomorrow it will adjourn until May 20, when the bribery charges will be taken up. This step was taken because of the uncertainty as to just when E. L. N. Smith, whose evidence is wanted on the bribery charges, will return to the city and also because of the necessity of the commissioners taking their regular court work.

When the Elwood-Brown commission resumed this morning T. W. Chisholm, formerly liquor license inspector, was called to give evidence regarding the Bernhardt charges against Hon. J. A. Sheppard. He denied any pressure had been brought to bear on him by any member of the

J. E. Bradshaw, M.L.A., who had been subpoenaed by Hon. George Langley in connection with the charge against him, was present in court, but Langley asked for a further adjournment to prepare his defence. The commissioners pointed out that so far there was nothing whatever brought

forward against Langley, but the latter insisted on having his defence in.

Charges Against Langley.

H. V. Bigelow, Bradshaw's counsel, said the information on which the charge against Langley was based came to him in writing from a Saskatoon solicitor and without the oppor-tunity of conferring with the witness he felt it desirable to include it in the list. He thought it better that the charge against Langley should be investigated and shown to be false than to remain the subject of common report. After a discussion of the charges remaining open the commission adjourned until tomorrow morn-

ing.
Clayton Petersen asked permission to go to his home in Guelph, from which he said he had been away for five months. He would return on receipt of a telegram, he said. Judge Brown said that it was possible E. N. Smith might not be available to give evidence even in two weeks.

Equipment on Way.

Arrangements are being completed by headquarters for the equipping with war gear during the first of next week of four senior Toronto battalions. The 97th American legion will receive its equipment Saturday or Monday and that for the 76th, 81st, 83rd and 84th battalions will follow.

Altho the local headquarters staff is still waiting for instructions from Ot-tawa, the delay in arranging for sum-mer camping areas is said to be largely due to the fact that many of the units will go overseas shortly. Engineers have not yet been sent out to prepare camp sites. This time last year the

sites were all located. Since the recent arrangements were made between the military and the police the "crime sheet" at the camp shows a decline in the number of mer being charged with offences or placed in detention. Each evening 350 officers and men patrol the streets. Two hundred and fifty are available for duty in the down town area, 50 east of Sher-bourne street and 50 west of Spadina

SCORE'S TALK ON CLOTHES

The Lord Chesterfield is an indica tion of an exceptionally dressy tog coat: the Chesterfield, either double or single-breasted, is distinctly in the lead this season. The roll of the collar is broad and deep and pointed at the lapel in frock coat shape. It will be noticed that the buttons are set we back, showing a broad underlap, while the cut under the arm suppresses the waist in a very stylish marner. We are featuring this special coat at a very moderate price. \$25.00. R. Score & Son, Limited, Tailors and Haberdashers, 77 West King street, Toronto.

VICTORIA CHURCH CONCERT

A successful orchestra concert was given in the Victoria Presbyterian Church, last evening, under the aus-pices of the members of the church orchestra. In addition to the excellent music contributed by the orchestra, of which W. F. Reed is conductor, acceptable numbers were contributed by Miss Edith V. Slaght, Miss Florence Wren, and the Victoria Male Quartette.

SAVED DAY FOR EMPIRE

Sir Robert Borden Asks Citizens to Join in Great National Tribute.

By a Staff Reporter. OTTAWA, Ont., March 30 .- "Sat-

urday, April 2, is the first anniversary of the battle of Ypres, the first important action in which the first Canadian division was engaged. In commemoration of the extraordinary gallantry and determination which they then displayed," announced the premier tonight, "flags will be flown at the masthead at all government buildings, and it is hoped that this decision will be adopted by all persons and institutions thruout the Dominion.

"Canadians will remember how, in the face of an overwhelming attack in which a horrible and unknown method of warfare was used against them, Canadian troops held the line for days. They will remember their thrill of pride when they learned from the empire and the allies. No less in honor of those who fell than in school of instruction, on April 17. Applications for attendance should be in lesson from the people of the old land anniversary should be recognized."

PRUSSIAN LORDS CALL FOR DEBATE ON POLICY

Upper Chamber Demands Right to Discuss Foreign Affairs of Germany.

BERLIN, via Copenhagen to London, March 30 .-- The Prussian House of Lords is unable to share the government's views as expressed in The Norddeutsche Allegemeine Zeitung, Feb. 18, that only the reichstag is competent to discuss the empire's foreign affairs. This declaration is set forth in a statement issued in behalf of both factions in the house.

The house of lords, it is added, re

cognizes, however, that any such discussion must take into consideration the military situation and limits itself accordingly. Particularly must the line be drawn at matters affecting the emperor's power to command. The lords declare that, while fully recognizing the extraordinary difficulties of the problems presented, they hold the view that "mistakes have been made in various directions in the in-

ternal policy."

The declaration mentions especially the desire for an improvement in tension of German might, 'Man

PLAYS, PICTURES AND MUSIC

"THE STORY OF THE ROSARY."

A living document on the many phases of a country's life in war-time is, "The Story of the Rosary," the great military play, which will be presented by George P. Driscoll, the Canadian theatrical man, at the Grand Opera House next week. with a distinguished company. It is set in many old world places and has four acts and twelve scenes. The scenic work of Gerdon Hammond is eye-filling. The play opens with a scene of splendor—a regimental ball such as preceded the battle of Waterloo, and saddened by the same circumstances, a declaration of war, thru scenes of the Royal Light Infantry in billets; part of the battle field, big guns and falling walls, and quaint old world places. "TALK! TALK! TALK!"

Coming to the Alexandra next week is the season's newest musical comedy, "Talk! Talk!" by J. Ernest Lawrence and A. G. Duggan. Marguerite Walsh and Charles H. Downey, with Roy McKellar of "Golden Age" fame last season will head a cast of over 100 clever amateur artists. The piece has been supplied with pienty of clever, tuneful melodies, smart sayings, songs and dances with a wealth of mirth-provoking incidents. It tells the story of a bevy of beautiful girls, winners of a newspaper's beauty contest on their way to the west. A train wreck, hold-up by bandits, confidence schemes are all intermingled and provide many thrills. Under the patronage of the 50,000 club, the receipts will go in their entirety to the Toronto and York and Patriotic Fund.

SHEA'S THEATRE.

For next week the Shea management announces as the headline attraction John B. Hymer's comedy playlet, "Petticoats," with Grace Dunbar Nile and a capable supporting cast. The story of the sketch hinges upon the efforts of a group of college girls to make a handsome young doctor propose. The complications that ensue provoke gales of laughter. The special feature will be Harry and Emma Sharrocks in their psychic offering, "Behind the Grand Stand." Amazing instances of mindreading mingled with clever comedy make the offering attractive. Ernest R. Ball, remarked here for his association with Maude Lambert, offers a song sketch at the plano and his repertoire embraces many of his recent successes. Claire Vincent and Company in "The Recoil" have a clever comedy playlet with a touch of pathos in it, while the Doce Sisters are seen in a song and dance a touch of pathos in it, while the Doce Sisters are seen in a song and dance offering. Bert and Betty Wheeler in bits of everything sing, dance and ex-change some bright chatter. Fred and Adelo Astaire with smart songs and dances; Togan and Geneva in a novel wire offering and the kinetograph com-plete the bill.

THE HIPPODROME.

Quaint Spanish songs and dances, to-Quaint Spanish songs and dances, together with some clever instrumental numbers, will feature the bill at the Hippodrome next week, which is headed by "The Five Romeros," a quintet of talented musicians. Francis X. Bushman and his clever partner, Beverley Bayne, will be featured in the latest Metro wonder-play, "Man and His Soul." It is one of the greatest of the recent releases and gripping situations. Charlotte Perry and Company in "Into the Light" present a serio-comic sketch with the principal scene in a court room. Grace Wasson is a novelty comedienne, who sings and dances equally well, while Hodge and equally well, while Hodge and dances equally well, while Hodge and Lowell in a singing and talking specialty introduce some smart sayings and new songs. Morton and Wallace have a number of clever aerial feats, which they execute in a clean-cut fashion, and with the newest feature film comedies complete a good bill

LOEW'S THEATRE.

The veteran George Primrose, for years The veteran George Primrose, for years the leading minstrel in America, will make his first appearance on the Loew circuit when he heads the bill at Loew's Yonge Street Theatre the coming week with his big minstrel review, including seven well-known old-time minstrel men. Primrose is still the wonderful entertainer that he was in the days of his youth. Another feature on this program tainer that he was in the days of his youth. Another feature on this program will be William O'Clare and His Shamrock Girls, in a review of Irish melodies. Tom and Stacia Moore will offer a comedy satire entitled "My Dream Girl." Others will include Marie Hart, formerly of Marie and Billy Hart, singer, dancer, slack-wire walker and cornetist McCormack and Irving, in a comedy skit entitled "Between Decks:" Dave Wellingentitled "Between Decks;" Dave Wellington, eccentric juggler, and Guiran and Newell, pantomimic acrobats.

"GREEN STOCKINGS" AT STRAND. A feature of quite exceptional strength will be presented at the Strand Theatre on Monday. Tuesday and Wednesday next. This will be "Green Stockings." the film version of A. E. W. Mason's

Look and Feel Clean, Sweet and Fresh Every Day

Drink a glass of real hot water before breakfast to wash out poisons.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath. Folks who are accustomed to fee dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy hy opening the sluices of the system morning and flushing out the whole of the internal poisonous stag-

nant matter. Everyone, whether ailing, sick well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside

bothered with constipation, bilous models, stomach trouble, rheumatism:

The city's health generally showed improvement, there being fewer cases of diphtheria, typhoid, tuberculosis, chicken pox, whooping cough, mumps, spinal meningitis and diphtheria carriers urged to get a quarter pound of limestone phosphate from the drug store which will cost very little, but is sufficient to make anyone a prointernal sanitation.

TURN HAIR DARK WITH SAGE TEA Suckling & Co.

Mixed With Sulphur Darkens So Naturally Nobody Can Tell.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grand-mother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advan-

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of duct, improved by the addition of cure ingredients, called "Wyeth's Sage and Sulphur Compound," for about 50 cents a bottle. It is very popular because nobody can discover it has been applied. Simply moisten your comb or soft brush with it and draw this through your hair, taking one small strand at a time: by mornone small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive. This ready-to-use preparation is a delightful toilet requisite for those who lightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

masterpiece of that name. The production is presented by a superb cast, headed by Lillian Walker. The photo-play is worthy of the novel and is distinguished by that exquisitely subtle humor which marks A. E. W. Mason at his best. The staging and settings are of quite unusual excellence.

"ROSELAND GIRLS."

"The Roseland Girls," one of th quartet of all-star burlesque attractions that are on tour this season under the direction of Blutch Cooper, and with which Solly Ward, the well-known comedian, and dainty Virginia Ware are comedian, and dainty Virginia Ware are the stars, is to open an engagement at the Gayety Theatre with the opening performance on Monday matinee. This season the organization, which numbers more than two score singers, dancers and comedians, is presenting a program of more than the usual merit. There are two one-act musical comedy offerings, which are entitled "Love, Law and Politics" and "A Call for Volunteers." The cast, in addition to Mr. Ward and Miss Ware, also includes Murray Harris, Tom Nolan. Charles Keith, Lillian English, Jeanne Eames and Stella Wood.

"FOLLIES OF PLEASURE." In the race for success in the bur-lesque field, the pace this season will be set by Rube Bernstein's "Follies of Plea-sure," the famous show they are all talk-ing about, and which will be the attrac-tion at the Star Theatre the coming week, commencing Monday matinee. This aggregation is, without question, the most meritorious and costly ever organized to tour the burlesque circuit. In the magnificence of its scenic a costume equipment, as well as in the talent of the artists and the up-to-date quality of the entertainment provided, "The Follies of Pleasure" is really a Broadway musical review—better, in fact, because it possesses a vim, snap and dash that the latter often lacks.

MISCHA ELMAN'S PROGRAM.

Seats for Mischa Elman's recital at Massey Hall on April 10 will be on sale at the box office on Monday morning. His program for the concert, which will be held a week from Monday night, will be as follows:
1. (Vivaldi), Concerto in G minor, Allegro, Adagio, Allegro.
2. (Ernst), Concerto, F sharp-minor,
Op. 23, Allegro Moderato.
3. (Scolero), Variations on a theme by Mozart.

BUSHMAN-BAYNE BALL

The moving picture ball at the Arena next Wednesday night in honor of Francis X. Bushman and Beverly Bayne promises to be the climax of social gayety and entertainment of this season. There will be dancing for everybody from 10.30 p.m. to 1 a.m., but it is before that hour that the real novelty and surprise features will be revealed. The entertainment begins at 8.30, and will be under the direction of Mr. and Mrs. Mosher, the well-known society dancers. Nearly a hundred of the most graceful dancers in Toronto, all of them in costume, will be seen in elaborate group expositions of the sprightly polka, the dainty gavotte, the stately minuet, the fox-trot, the Russian folk and ancient Greek dances. The American Legion, which will provide the guard of honor for the distinguished guests, will also present a picked squad of fifty men, who will perform the American manual of arms as an exhibition drill. The grand march at 10.30 will be led by Miss Bayne, with Mayor Church as her partner. as her partner.

CITY HALL NOTES

Civic grants to overseas battaiolns and an additional grant of \$80,000 towards the building of the Toronto-Hamilton Highway are matters that may cause considerable discussion at Monday's meeting of the city council.

Violent deaths in the city during March totaled 20, two less than the previous month. Seven were found dead and five died as a result of railway accidents. Gas poisoning was responsible for four, two were killed in motor accidents, one by a street car and another from burns.

Arrangements will be made for a celebration of the Shakespeare tercen-tenary in the Toronto schools and colleges at a conference to be held on Monday between Chief Inspector Cowley of the Board of Education, Prof. A. T. de Lury of Toronto University and Principal Smith of Parkdale Collegiate Institute.

According to the report of the medical health officer, the month of March showed a considerable decrease in the number of measles cases as compared number of measies cases as compared with February, only 134 cases having been reported last month, while in the previous month there were 491. In March, 1915, there were only 22 cases. The city's health generally showed improvement, there being fewer cases of

EXPENDITURES ON THE NEW HIGHWAY

An analysis of the expenditures of the Toronto-Hamilton Fighway Com-mission, as prepared by George H. Gooderham, M.L.A., for the information of the board of control, contains some interesting particlars. It shows that the amount expended in the City of Toronto was about 165 per cent. of the original grant of \$150,000 made by the city, or approximately \$240,000, while in the City of Hamilton over three times the original grant (\$30,-000) was expended, or about 300 per cent.

SENECA FEATURE OF STRENGTH IN MINES

Advanced on Declaration of Dividend - Vipond Dropped Back.

Irregularity characterized trading in mining stocks at the Standard Stock Exchange yesterday. The notable features were the decline in Vipond and the advance in Seneca Superior, the latter caused by the declaration of another 20 per cent. dividend. The trend of the market generally, owever, was softer and the volume

of trading was small, totaling some 68,000 shares.

There seemed to be no particular reason for the quiet spell which has taken hold of the market for the last few days, except that the speculative element is not active, making the market a purely traders' one. It is thought that no real general activity will develop until the minister of finance brings down the final draft of the war tax on mining companies.

of 60 3-4 and many experts are predicting even higher figures. was one of the most active. It opened at 37, sold down to 36 1-2, sold up again to 28 and closed at 37 1-4. Dome Lake showed a softer tendency, open-ing at 23 3-4 and selling down to 27 1-2. Big Dome was inactive and Hollinger was also quiet, only an odd lot of 10 shares being sold at \$27. There was but little trading in Mc-Intyre and it changed hands between 90 and 91 1-2, closing at the latter price Porcupine Crown sold at the steady price of 72 for a block of 2000 hares. Schumacher changed hands at 43.

A bear drive on Vipond succeeded in breaking the price of the stock from 67 down to 59. It closed a little better at 60. Quite a lot of the stock was sold during the day. Teck-Hughes was quiet at 19 1-2 and West Dome sold from 16 3-4 to 17. West Dome Consolidated was fairly active between 25 1-4 and 25 1-2. In the Cohalt stocks Seneca was the

eature, opening at 56 and selling up to 65, closing at the top point. The dividend announcement was the cause Wool, rejections 0 40 0 44 of the upturn. Timiskaming was slightly easier, selling from 55 1.2 down to 54 1-2. Peterson Lake was cuiet, easing off slightly from 26 3.4 to 26 1-2. McKinley-Darragh strengthmarket being watched closely by local traders.

TRY TO GAIN RELEASE OF SEIZED SECURITIES

U. S. Authorities Endeavor to Liberate Quantity Captured by British Navv.

BELIEVED TO BE FOE'S

Wireless Message From Frankfort Firm Asked Consignees to Protest.

LONDON. March 31, 7 p.m.-Negotiations are proceeding with the American Government regarding seizures of American securities en route from Holland. The foreign office states that none were seized except when there was strong evidence that the securities had recently been in Germany and Germans were profiting by their sale Such securities bore German stamp or marks that dividends had recently been paid to German banks. A vehement protest was made by a American firm in the case of one par ticularly large seizure. The protest was on the ground that only neutra

interests were involved in the trans-

action, but the government intercepted a message from a Frankfort firm asking the American consignees to pro The foreign office explained vester day's order-in-council cancelling ad-herence to certain sections of the declaration of London which made dis-tinctions between the treatment of ab-solute and of conditional contraband The foreign office says such distinctions have ceased to have any practical importance in this war and at this stage of the war, and that consequently the government declared its right to pursue a policy of seizing con-

ditional contraband consigned to neutral ports.

It takes the ground that since the German Government has taken con-trol of many commodities which are not munitions of war, such commodi-ties have the same status as tho they are consigned directly to the army or the government.

DRY GOODS TRADE FLOURISHING Toronto reports to Bradstreet's sav

that trade conditions continue active, exceptionally active in spots. A feature of the week in dry goods houses has been the large volume of sorting was highly professional, the public Silver held steady at the high point of 60 3-4 and many experts are prelicting even higher figures.

The spring that the high point orders. Not only have dry goods firms experienced this, but boot and shoe firms emphasize the fact. The spring break up has given new stimulus to are evincing no special desire to reabusiness. People thruout the country lize except in instances where unusual must have good shoes and rubbers now. Travelers report favorably. The leather trade continues strong, with tanners working hard to keep in striktanners working hard to keep in strik-ing distance with contracts. Skilled labor is scarce. This complaint is heard in nearly all departments of bus-mon continued its methodical slow iness. The grocery trade is running about normal, with prices, especially foreign goods, firmer. Eggs were reduced a cent in the produce market, manipulative. The cement part reduced in the produce market, same amount. Cheese is firm, as are potatoes and beans. Cattle were firm adopted in Steel of Canada, which this week and hogs advanced to \$11.25. on the off cars basis, which is another new high level.

How Dreams Come True.

s3500—"DREAMS of Oe Luxe home all my own." But why dream? Sleepseers accomplish nothing. Wake up, wake up, then gasoline your heels and get here quick to secure this compelling bargain and make your dream come true; built to sell for forty-rive hundred; builder quitting the city, drops to a severe sacrifice for quick cash; situated near Danforth's two million viaduct, and also near to business; select residential—new, solid brick residence, & elegantly finished and ornately decorated rooms, complete bath, sunroom, six oak and maple floors, mahogany and oak mantels, gas and coal grates, sliding and swing doors, bay windows, beamed, panelled and stucco dining-room, through hall, pantry, furnace, gas, electric, concrete cellar, tubs, spacious brick pier verandah, cement walks, slate roof, front dormer balcony—a cosy nook—in nautical phrase, "The crow's nest," where two or more mutuals may love to sit in the gloaming, unobserved, high above the avenue. Many thrifty people are paying lavishly for the privilege of occupying "box-stalls" in community houses, or fashionable apartments, who, having the deed of this de luxe home, would at once become distinctively influential in the life of this classical avenue, but their influence is nil, owing to the commonality of their "rabbit-warren" environment. "Friends, come up higher" and bunch with the elect. Simpson's Estate, 1 Chester, corner Danforth avenue.

THE STRONG FEATURE

St. Lawrence Scores a Fifteen Point Rise and Steamships Common Also Strong.

The advent of stocks on the Toronto markets which have been unsaleable since the war is clear evidence of the change in conditions. Sawyer-Massey has come to life, likewise Macdonald and Quebec Railway. Yesterday's market, like many of its predecessors, contributing only in a small measure to the volume of trading. Holders advances have occurred. St. Law-rence was the feature of buoyancy yesterday with a 15-point rise from while most butter prices hardened the newed operations and this issue was was a point higher. Nova Scotia Steel and Steel Corporation quiet and unchanged. The other issues dealt in showed little feature, and Mackay common was the only weak spot. Loans are more readily available than for some time, and favored in this way further specializing with advances is quite in line of possibilities.

NO BRONZE TORPEDOES USED BY BRITISH NAV British Admiralty Issues an Offi-

cial Denial of German Accusation. LONDON, March 31.—The British Admiralty today issued an official de-nial of the semi-official German accu-

sation that the British navy uses bronze torpedoes. Following the sinking of the Dutch liner Tubantia, and the damaging of the Sussex, it was asserted in London despatches that fragments of bronze, found aboard both vessels, virtually proved they were attacked by German "U" boats, since only Ger-many used the Schwarskopf bronze

The semi-official German news agency yesterday quoted an Amster-dam newspaper as authority for the statement that both the English and Dutch use bronze torpedoes.

RAIL STOCKS SUFFERED

Movement Began Against These Col. Cantley Declared Last Year Issues on New York Exchange.

COPPERS GET BRISKER

Munitions and Affiliated Industrials Followed Usual Erratic Course.

NEW YORK, March 31.—Professional selling, which concentrated around some of the leading railways, was a factor of considerable importance in today's irregular and sluggish market. The movement against rails began at midday, New Haven being depressed 2 points to 63, its lowest price of the current year and was followed by unusually heavy offerings of New York Central, that stock making an extreme decline of 1% to 1034. Reading, Southern Pacific and other active stocks of that division also suffered more or less.

other active stocks of that division also suffered more or less.

Trading prior to the drive against investment issues was distinguished for greater activity in the coppers, particularly Kennecott, which, with Miami, Inspiration and Anaconda, averaged gains of a point or better. Kennecott's activity featured the intermediate session, its rise of 1% to 58½ being accomplished on sales of over a score of individual lots ranging from 1000 to 3000 shares.

Dealings in Kennecott overshadowed all other stocks with a total of 8000 shares for that issue. Aside from reiterations of rumors, an increasing demand for the metal Kennecott's advance was connected with statements of a character favorable to one of its chief subsidiaries.

Says R. E. Kemerer in his weekly market letter: "It has been most interesting to observe the steady growth and the widening of public interest in the mining shares which has been going on for some time past. This widespread interest makes not only an active trading market but is also contributory to the technical soundness of the market, since a considerable portion of the stocks purchased by the occasional traders is taken out of the market for an indefinite period, and, as profits appear on the shares purchased, more stock is purchased to folcnased, more stock is purchased to fol low in the wake of the earlier ven-tures. Speaking for myself, at no time have I found interest so widespread as it now is nor purchases so distributed over the whole list."

Hamilton B. Wills. in his weekly market letter says: "A heavy inflow ct water on the 200-foot level in Gif-ford-Cobalt somewhat hindered a full drilling force being put to work last week, but this has been overcome by the erection of a bulkhead and this morning I am advised from Cobalt one drill is now at work. Great care is being taken to engage the highest calibre of men so that no delays or errors will interfere with the pro-perty being brought to the producing point as quickly as possible. Efforts are now being made to obtain the services of a prominent geological ex-pert whose duties will be to direct underground operations and solve the faulting system in the formation."

 Dominion Canners management have passed thru some anxious and trying years, but in all my experience I cannot recall a year where the issues involved in the fluctuations and departure from normal conditions were anything like so great as during the 1915 iron and steel trade.

It was only during the last few weeks of the calendar year 1914 that any improvement was manifested when certain munition work was undertaken and some two hundred thousand shrapnel shell bodies were produced at the New Glasgow plant. During the ciosing months of 1915 we contracted for a further large tonnage of shell forgings, including larger sizes than have hitherto been made in the Dominion. To enable us to undertake this munition work it was decided to instal a further unit of larger and more powermy experience I cannot recall a year where the issues involved in the fluc-

LONDON STOCK EXCHANGE.

LONDON, March 31.—The demand for money slackened today and with the government disbursing rates were easier. Discounts were quiet.

The tone of the stock market was steady, but no increase in business is anticipated, pending the announcement of the budget. There were just sufficient orders to maintain the allied bonds and gilt-edged securities generally. Rubber shares and Russian mines were active and copper stocks improved with the metal, but Argentine issues and home rails declined under realizing. American securities closed steady after a fair number of markings.

Reports From Illinois Indicated Prospects Were Now Up to Average.

LIVERPOOL WAS HIGHER

Oats Depressed by Advices of Rapid Progress of Seeding.

CHICAGO, March 31.—Assertions of an improvement in domestic crop conditions gave an advantage today to the bears in wheat and so, too, did news of a German success at Verdun. The market closed weak, ½c to ½c net lower, with May at \$1.13% and July at \$1.10%. Corn wound up a snade to ½c higher, oats off ½c to ½c and provisions down 2½c to 22½c.

Would be a shade to 4c higher, dats off 2½c.

1 minois points were chiefly responsible for reports of a betterment in the crop outlook. For example, Watseka, Ill., sent word that owing to favorable weather of the last few days the prospect in surrounding counties was now up to the average. At Champaign, Ill., the opinion was ventured that little or no acreage would be abandoned, altho a month ago it looked as if nearly all winter wheat would have to be plowed up. Such advices tended to cause holders to sell out on all hard spots in the market, notably soon after the opening, which was higher on all hard spots in the market, notably soon after the opening, which was higher with Liverpool on account of delays to shipments from Argentina and Australia. Selling that followed announcement of German progress near Verdun appeared to be at variance with reasoning which has heretofore guided wheat speculators. Notice of an embargo by the Grand Trunk Rallway on grain shipments to the east acted as more or less an offset Trunk Railway on grain shipments to the east acted as more or less an offset for seaboard sales of one million bushels for export, especially as most of the total was Canadian-grown.

Oats were depressed by the advices of the rapid progress of seeding. Signs pointed to a good sized total acreage.

Declines in the hog market weakened provisions. Weakness of cotton seed oil counted also against the bulls and so, too, did predictions that the monthly warehouse statement here would show an increase in the stock of lard.

SISTER: READ MY FREE OFFER.

I am a woman.

I know a woman's trials.

I know her need of sympathy and help.

If you, my sister, are unhappy because of inhealth, and feel unfit for household duties, social pleasures, or daily employment, write and tell me just how you suffer, and ask for my free ten days trial of a home tre-tment suited to your needs with references to Canadian ladies who gladly tell how they have regained health, strength, and happiness by its use. I want to tell you all about this successful method of home treatment for yourself, my reader, for your daughter, your sister, or your mother. I want to tell you how to cure yourselves at home at triffing cost, and without aid from anyone. Men cannot understand women's sufferings; what we women know from experience, we know better than any doctor; and thousands have proved there is hope even for the hopeless in my method of home treatment. an accordion, yet has a funny head on the front half instead of a keyboard, and a grotesque hemisphere on the other? When closed, it looks like a globe or a baseball, and pulled apart, as you pull an accordion, it elongates like a wooly worm. If you can picture to yourself "the man in our town who was so wondrous wise; he jumped into a bramble bush and scratched out both his eyes," as stretching the front half of the eyeball away from the posterior half, you can appreciate a very common source of near-sightedness. Hyopia is the pundit's name for near-sightedness. The eyeball is so stretched that the focus of illuminated

objects fails to reach the distant backwall of the retina. Briefly, the retina does not catch a clear picture of what is going on in the world. In the healthy eye the muscle of the iris is loose and relaxed. The lens itself is set to see distant scenes. In the near-sighted it is not possible to relax these structures beyond the normal.

Eye-glasses and other devices of human ingenuity are available partly correct near-sightedness, far-sightedness and astigmatism. Astigmatism, unlike the other two deformities, has to do rather with the cornea or the lens and irregularities or faulty contour of their surfaces,

and little or nothing to do with the whole globe of the eye. If the front surface of the eye is too flat, too bulging, or too much corrugated the light that strikes the eye may be bent differently-refracted irregularly—to each point of the compass. By comparing the cornea or front of the eye to a compass or a clock dial, each point of the compass, or each position of the clock hands when both are straightened as between 12 and 6, 3 and 9, 11 and 5, and each one refracting the light at a different "bend." then you will understand what astignatism is. Of course, astigmatism never involves all of the diameters of the cornea. On the other hand, there is rarely so perfect an eye but that one diameter is "adigmatic." It is one of the common complications of poor vision or "weak eyes," for

Pleasures

Other Eye-Faults Really Are

By Charles Weeks.

MUCH has been written on the profits of the poultry business from a financial standpoint and little of the pleasures, health and happiness derived from keeping fowls. Blessed is the man whose choicest pleasure is his work. And how much more satisfactory is that work when we realize that it gives all that this world has to give, health of body and peace of mind and room to exercise all our faculties. Some one has said: "Get your pleasures out of your work"

plant life, who revels in the sunshin out under the open sky, who is intoxi cated with the fresh air and the vigo of an outdoor life, to this man the poultry business is an ideal business. To the man who loves close rooms and musty volumes there is little for him in the poultry business. But if you love freedom, love independence, and like to be your own master, then go out on a little poultry ranch and live the natural life.

The man who gets out of bed in the morning with a dread in his heart of the day's work before him has sadly missed his calling. Life is short and the first thing we know we are shuffled off without ever tasting of the natural joys of living. Your work should be so wholesome, so interesting that you would spring from the restful night's slumber to meet it. If you have found your calling your work will be one long holiday.

But work to be a pleasure must be

as in other work. There is no work which responds so quickly to thoro and order as the work on an egg farm Hens are such sensitive creatures, they

his body.

The artificial pleasures of the cities cannot be compared to the natural pleasures where the red-combed hens are singing and cackling.

The question is, are you satisfied with your present vocation, or are you forever dreaming of an afterwhile when you will be doing what your heart so much desires? Are you tired of office work, of stupid inside grinding of being an automaton? Let me ing, of being an automaton? Let me tell you there is room for a good living and all that this old mother earth ever gives to any man right on two acres of soil. The only question is, can you so manipulate these two acres so that your table will be spread with the choicest products of the soil and the purest food from cow and hen? There is a way to do it and why not learn this fine art of living the sim-ple life when it brings all that is worth while. Of course it takes time and study to systematize two acres into a

"The Woman Without Fear"

As an actress—a portrayer of emotions without the aid of the spoken word—Pearl White is one of the really great figures of filmdom.

In the role of "Elaine" in the famous "Exploits" Miss White, the "Peerless Fearless" girl, thrilled two continents. You who saw Miss White then will want to see her now in "The Iron Claw" -her greatest triumph! "Elaine" has been outdone in this—the most sensationally dramatic motion picture serial of the age.

Creighton Hale, the inimitable Jameson of the "Exploits of Elaine," whose careless swagger and dashing buoyancy have made him the target of marriage proposals innumerable, is cast in the role of a clever and courageous

Sheldon Lewis, famous wherever motion pictures are shown as "The Clutching Hand," he whose forceful personality, whose dramatic sweep and power have gained him the reputation of "the most fascinating villain on the screen," is cast in a sinister role.

If you want to meet the brain-child of a daring author whose imagination and pen-power know no bounds or limitations, read "The Iron Claw" stories by Arthur Stringer. They will be published weekly in this newspaper simultaneously with the appearance of the pictures in local theatres.
