## アた上下A゚モ．

The Western Counties Annual and Almanac for 1887 is now offered to the public．It will be seen at a glance that it is a decided improvement upon，and a much larger and more substantial work than，the Old Kent County Annual which it purperts to supersede．

It is hoped that at least beyond captious criticism the new venture will meet with general ap－ proval．At all events if it does not it will not be because of a paucity of matter，nor because of stinted labor in the endeavor to give not only to the purchaser but to the advertiser material value． We are bound，if not now able，to ultimately make the work the acknowledged Official Annual and Almanac of the District．And we here take the opportunity of saying that our next issue will be as far in advance of the present work as this work is of the Kent County Annual－new matter，new illustrations，better make－up，finer paper and press work to be a special desideratum．

Whilst official data has been chiefly used in the compilation and although the work will be found substantially correct，absolute immunity from error is nevertheless not expected when the minuteness of detail，changes occurring in course of，and typographical slips incidental to，publi－ cation，are considered；and we shall feel obliged if officials and others will report any change， omission or inaccuracy．

A noticeable feature of the work will be the reputable Professional and other lists．Perhaps， in no similar work are found so prominent and exceptional a list of advertisers generally．Our motive in accomplishing this desirable result is obvious；and we trust the public will appreciate it by bestowing their patronage upon so worthy a lot．

We thank the many official and other geritlemen who have so kindly furnished us with official returns and information without which the compilation would have been more difficult and ardu－ ous．All，with a bare exception or two，readily gave us every assistance．

Attention is called to the prospectus of our Historical Gazetteer which is noticed on the last page（ $\mathbf{1 5 2}$ ）of this work．

Yours respectfully，
JAMES SOUTAR，
Chatham．
avis To Printers and Others．－The cuts in this work and in previous issues of the Kent County Annual are for sale．Many of these are fine art－plates and if careful make－up is given them and used with finer ink and paper than what has unfortunately been used in this book they will come out very clear and full in outline．

Cogent Reasons Why the Chatham Wagon

Adopted by the
Government of STANDARD

the Dominion of Canada as the
WAGON，

Should Command your Preference：－
The intrinsic cost and value of it is at least $\$ 10$ more than any other wagon made in Canada，and any unprejudiced practical man will tell you so，and the thousands who now have them in use say so，because it is not only made from the best，carefully selected and thoroughly seasoned timber and best of iron，but the skeins used，made only by us，are superior to any skein made or used in Canada，and are constructed specially to receive our Patent Climax Truss Rod，which doubles the strength of the axle；the boxing of the hubs are pressed，not wedged in ；a guarantee for a year accompanies each wagon，and notwithstanding this additional cost and superiority the Chatham Wagon can be purchased at no greater price than is charged for inferior wagons．Bear in mind，it is the running gear that carries your load，and no amount of fancy painting on the box will make an easy running and great carrier，of a poorly constructed wagon．Liberal terms to parties buying in carload lots．Corres－ pondence solicited．

CHATHAM MANUFACTURING CO．，Limited．

## THE QUEEN AND THE ROYAL FAMILY.

THE QUEEN-Victoria, born at Ken sington Polace, May 24th, 1819; crowned June 28, 1838 , and married Feby 10, 1840, to $H$ is Royal Highness Prince Albert. Her Majesty is the only child of his late Royal Highness Edward, Duke of Kent, son of King George III. The children of Her Majesty are-

Her Royal Highness Victoria Adelaide Mary Louise, (Princess Royal of England and Prussia) born Nov. 21, 1840, and married to his Royal Highness William, the Crown Prince of Germany, Jan. 25, 1853 , and has had issue four sons and four daughters.

His Royal Highness Albert Edward, Prince of Wales, born Nov. 9, 1841 ; married March 10, 1863, Alexandra of Denmark (Princess of Wales) born Dec. I, I844; and has issue, Prince Albert Victor, born Jan. 8, 1864 ; George Frederick Ernest Albert, born June 3, 1865; Louisa Victoria Alexandra Dagmar, born Feb. 20, 1867 ; Vistoria Alexandra Olga Mary, born July 6, I 868 ; and Maude Charlotte Mary Victoria, born Nov. 26, 1869.
Her Royal IIighness Alice Maud Mary, born April 25, 1843 ; married to H.R.H. Prince Frederick Louis of Hesse, July I, 1862, and has issue living four daughters and one son; second son killed by accident, May, 1873. Died Dec. 14,'78.

His Royal Highness Alfred Ernest Albert, Duke of Edinburgh, born Aug. 6, 1844; married Her Imperial Highness the Grand Duchess Marie of Russia, Jan. 23, 1874, and has issue one son and three daughters.

Her Royal Highness Helena Augusta Victoria, born May 25, 1846; married to H. R. H. Prince Frederick Christian Charles Augustus of Schleswig-Holstein-Sonderburg-Augustenburg, July 5, 1866, and has issue two sons and two daughters.

Her Royal Highness Louisa Carolina Alberta born March 18, 1848 ; married to the Marquis of Lorne, eldest son of Duke of Argyle, March 1871.

IIis Royal Highness Arthur William Patrick Albert, born May 1, 1850: married to Princess Louse Margaret of Prussia, March 13, 1879, and has issue one son and one daughter.

His Royal Highness Leopold George Duncan Albert, born April 7, 1853 ; married April 27, 1882, Princess Helen of Waldec, and has issue one daughter. Died March 29, 1884.

Her Royal Highness Beatrice Mary Victoria Feodore, born April 14, 1857; married to Prince Henry o! Battenburg, July 23, 1885.

THE ROYAL GRANTS OR PENSIONS ARE AS FOLLOW : queen's own family.

| Her Majesty the Queen. . . . . . . . $\$ 3,096,895$ |  |
| :---: | :---: |
| Prince of Wales | 600,915 |
| Prince Alfred | 132,980 |
| Prince Arthur | 132,500 |
| *Prince Leopold | 126,750 |
| Princess Royal | 40,000 |
| Princess Helena | 30,000 |
| Princess Louise | 30,000 |
| Princess Beat | 30,000 |

*Since his death the income has been reduced to $\$ 30,000$ for his widow.
The grant to Her Majesty includes income from the Duchy of Lancaster which yields some $\$ 275,000$ per year. Besides, as her private estates, she owns the estates of Osborne, Claremont and Balmoral. She must also have many millions invested. She also owns property at Cobourg and IIohenlode in Europe.

The grant to the Prince of Wales includes $\$ 50,000$ to the Princess and the Revenue of the Duchy of Cornwall worth some $\$ 300,000$ annually. Marlborough House is given him as a London residence His private estate amounts of 14,884 acres yielding a rental of $\$ 47,000$ yearly. He receives also a considerable sum for military services.

Prince Alfred receives free the furnished Palace of Clarence House. He is heir to the Duchy of Saxe Cobourg-Gotha, worth $\$ 150,000$ per annum, and his wife has an annuity of $\$ 56,250$ from the Russian Government, and is the richest heiress of Europe.

Bagshot Park is given to Prince Arthur, and like his elder brothers receives a large sum for military and other appointments. The husband of Princess Louise is heir to the Argyle Dukedom
worth $\$ 254,3$ Io per year. Cousin George, Duke of Cambridge, pockets besides his Annuity of $\$ 60,000$, emoluments to the extent of $\$ 51,015$ per annum. Prince Edward and Prince Leiningen also receive liberal salaries, probably fairly earned. Take it all in all, not only the Queen and family but her "cousins and her aunts and uncles too" are liberally pensioned by the much enduring British taxpayer, and are not apt to suffer for the want of a square meal three or four times a day.

## IMPERIAL OR BRITISH CABINET MINISTERS.

IIOUSE OF LORDS.
Excepting perhaps the one or two creations occasioned by the late changes in Ministries, the membership of the House stands at about 540, an increase of some 20 members since 1884 . The Roll comprises: 3 Princes of Royal blood, 2 Archbishops, 2 Dukes of Blood Royal, 29 Dukes ( 22 sit with inferior titles), 33 Marquises ( 13 sit with inferior titles), about 185 Earls ( 45 sit with inferior titles), 40 Viscounts ( 8 or more sit with inferior titles), some 219 Barons and 3 Lords of Appeal in Ordinary. Of the number 12 are minors.

Included in the above aggregate are 16 Scotch representative Peers who are elected by the Peerage of Scotland from amongst their number for each Parliament. There are also 28 representative Irish Peers elected for life. Lords of Appeal sit by virtue of their office. Bishops also sit by virtue of their Bishoprics-temporal Baronies. Seven Junior Bishops, although spiritual Peers of Parliament, have no seats in the House The 16 Scotch Peers elected last July (1886), comprise 10 Earls and 6 Lordships.

Many Peerages have no representation in the House of Lords. In Scotland 2I leading Peers, in Ireland 67, and in England 7 Peeresses in their own right.

The first name on the Roll is that of the Prince of Wales who is followed by the Royal Dukes, the Archbishop ot Canterbury, Lord Chancellor, Archbishop of York, Lord President of Council and Lord Privy Seal. The political classification of the Lords, not reckoning the Royal Dukes who are supposed to be neutral and abstain from voting on political questions, is in round numbers 300 Tories and 240 Liberals, although in party questions many Liberals vote with the Tories.

Some 440 members and their families own (nearly) $15,000,000$ acres of land or fully one-fifth of the United Kingdom. Of the Church Beneficies of the Church of England, 4000, or nearly $1 / 4$ of the number lie in the patronage of the Lords, scarcely 850 lying in the patronage of the Crown. They or their families are also for the most part Lord Lieutenants of Counties and in that capacity appoint almost all the County Magistrates.

No English Peer or Peeresses can be arrested for debt, need not serve on juries or be called out in the militia. They can sit in any court in England with their hats on, may carry arms, and if they commit a felony they must be tried by their Peers. They do not require the suffrages of the people to elect them to the House; they go there independently of the people, legislate independently of the people if they are so disposed. Ability, talent, popularity-the requisites of a popular choice in the representation for the House of Commons-form no consideration or object with them. "Let their acts be ever so objectional they cannot be ousted at the polls. There is no such a thing as a dissolution of the House of Lords; no such a thing as a political death, but practically a political immortality. They step into the temple of honor through the tombs of their fathers and go on as they did, and because they did-a priveleged class, which in consequence has begot ignorance, selfishness and arrogance.

## THE HOUSE OF COMMONS.

POPULAR PARLIAMENT.
The Roll of membership numbers 670 . England and Wales return 495 members, Scotland 72 and Ireland 103 members. Counties are represented by 377 members, Boroughs by 284, and Universities by 9 members. Under the new Distribution Bill, of 1884 , England and Wales gains 6 new additional members and Scotland 12. Ireland stands the same.
The present electorate, as resulting from the new Franchise Act of 1884, is 5,711,325 or about one elector to every six of population. The following table shows the electorates prior to and under the present Franchise Act, and the representation in the House prior to and under the present Distribution Act.

The anomalies in the old representation were great. One Borough had only 2,426 of a popuIation, 42 less than $7,000,72$ less than 10,000 and 5 less than 20,000 , and the lot returned 144 members. Warwick with a population of 12,000 returned 2 members, whilst Glasgow and Liverpool with populations over 500,000 each, returned but 3 members, and London with a population of over $4,000,000$ returned only $3^{2}$ members. The new Bill greatly equalizes the representation.
In the old House, and the present is not far unlike, 200 members were landowners, owning over $2,000,000$ acres, and nearly seventy were sons or heirs to Peers. Some 275 represented the aristocratic interest, nearly the same number the land interest, 165 the fighting interest, 125 the law interest, II5 the official interest, $\mathbf{I 2 O}$ the railway interest, 75 the literary interest, 25 the banking interest, 25 the liquor interest and about 160 the trade and manufacturing interest. In this classification many members are supposed to appear in different representations.
Three members of the House have sat over 50 years Mr. Talbot has sat continuously for Glamorgan since 1830 , C. P. Villiers has sat continously for Wolverhampton for 50 years. W. E. Gladstone has sat since 1832 and Lord Granville about 50 years.

The old qualification for members of $£ 600$ for Counties and $£ 300$ for Boroughs, has been abolished, and majority-21 years of age-is now the only qualification necessary. Parliaments are limited to seven years duration, unless sooner dissolved.
The political complexion of the present House is 317 conservatives, 76 Liberal-Unionists, 192 Gladstone Liberals and 85 Nationalists. It is, however, somewhat singular that although the Liberals were beaten badly as to membership, the aggregate votes polled in the contested elections were largely in favor of the Liberals. The members receive no pay or indemnification

To the salaries of some of the Governors sums as a table allowance or perquisites, are attached. In several of the islands comprising the Windward and Leeward groupes Lieutenant Governors or Presidents as they may be named, are appointed, at salaries ranging from $\$ 2,000$ to $\$ 5,000$. The Governor of Cyprus is termed High Commissioner.

The Governors of India and Canada are termed Governor Generals. Under the Governor General of India are 8 Lieut. Governors or Commissioners as they may be termed, viz: Bengal, Assam, N. W. Provinces and Oudh, Punjab, Central Provinces, Burmah and the great and half regal Governorships of Madras and Bombay, governed in kingly style by Grant Duff, Esq., and Lord Reay respectively. The Governor Generalship of India is Vice regal in standing. Besides the salary named he receives $£ 12,000$, say $\$ 60,000$, as an allowance.

## BRITISH LAND OWNERS

The area of Great Britain is in round figures 72,000,000 acres. 2238 Individuals own 40,000 , 000 or more than one-half of this sum. In England, 4,500 persons possess 17,500,000 ; in Scotland, 1700 persons own 17,000,000; in Ireland, 1942 persons own $12,000,000$ acres-that is $8, \mathrm{I} 42$ individuals hold as theirs $46,500,000$ acres of land in the three countries. Assuming that this land yields a rental or income of $15 \%$ per acre per annum, which is a low estimate this smal groupe of persons receive in round figures some $£ 35,000,000$ yer year.
The area of Scotland is $18,946,694$ acres. Twelve persons possess 4 th of this sum; forty-four persons own almost ( $1 / 2$ ) one half and ( 9 -10ths) nine tenths belong to 1700 individuals. The following list are the 44 persons owning over 100,000 each :

## COUNTRIES UNDER POLITICAL CONTROL.

Practically under her supervision are the Orange Free State, Transvaal and remaining Zululand ; the Samoan Tonga and other neighbouring groupes of South Sea Islands. Egypt is garisoned with British soldier and Affghanistan and Belochistan are really governed and con trolled through the Indian Empire.
The total area of the Empire is in round figures 9,000,000, or to allow for countries more or less under political control, $10,000,000$ of square miles, or one-fifth of the globe, the population of the first area being $305,000,000$ and of the larger, $320,000,000$ inhabitants.
The Revenue of the Empire is $\$ 1015,000,000$. The trade between Great Britain and the Colonies alone is, Imports $\$ 495,000,000$; Exports $\$ 465,000,000$. The total trade of the Empire is $\$ 5,575,000,000$.

One half of the sea going vessels of the world fly the British Flag, manned by 300,000 sailors Two-thirds of the ocean steam fleets belong to the British, and five-sixths of all steamers sailing to American ports are British bottoms. Fitty per cent. of the commerce of the world is carried in British Ships. Two-thirds of the annual tonnage built belong to Rritain. The banks of the Empire transact one-third the business of the entire world. Her manufactures comprise one third those of Europe. Thirty-four per cent., or more than one third of the world's commerce belongs to the British Empire. About 30 per cent. of the steam factory power in the world is British. The wealth of the Empire is computed at $\$ 62,300,000,000$, justifying the old expression that it is the richest State on the face of the earth. The earnings of the United Kingdom, per inhabitant, is double that of Europe, and those of the chief British colonies equal to any nation. It is, in fact, an Empire-"a nation full of life and energy," as Secretary of State, Britain is going to decay don'ted States wrote to his son, adding "when people tell you that Great tration of these assertions the followem." It is the greatest nation in the world. In illusappropos.

## BRITISH VESSELS AND THE WORLD'S SHIPPING COMPARED,

The sea-going merchant fleets of all nationalities aggregate about 50,000 vessels and about 23,000,000 tons. The proportions owned by the chief nations are as follows:

| Great Britain. | Vessels. . 22,500 | Tons. | Vessels. | Tons. |
| :---: | :---: | :---: | :---: | :---: |
| United States. | . 6,600 |  | France . . . . . . . . . . . . . . 2.900 | 1,100,000. |
| Norway... | 4,200 | I,500,000 | Russia . . . . . . . . . . . . . . 3,200 | 1,000,000 |
| Germany... . | 3,000 | 1,500,000 | Russia . . . . . . . . . . . . . . 2,300 | 600,000 |

The percentage owned by the British Empire being between 4 and 5 times that of the United States, 7 times that of Norway, 8 times that of Germany, Io times that of France, II times that of
Italy and I8 times that of Russia.

The comparison :

All Nations
Great Britain. France.
United States. Germany

For instance, Br and 40 times that round figures 7,500 above.

The comparison as to steamships is exhibited in still stronger ght :

|  | Steam Vessels. | Tons. |  | Steam Vessels. | Tons. |
| :---: | :---: | :---: | :---: | :---: | :---: |
| All Nations. | ......... 7,764 | 9,232,000 | Spain. | ... 282 | 305,000 |
| Great Britain | ....... 4,649 | 5,919,000 | Italy . | - 135 | . |
| France. | 458 | 667,000 | Holland | 127 |  |
| United States | .. 422 | 601,000 | Russia. | 194 | 149,000 |
| Germany... | .. 420 | 476,000 |  |  |  |

For instance, Britain's percentage is as 10 to I of France, 10 times that of the United Statesand 40 times that of Russia. The shipping of Canada, included in that of Great Britain, is in round figures 7,500 vessels with a tonnage of some $\mathbf{1}, 350,000$ tons, or fifth in the list given above.

BRITISH FOREIGN TRADE COMPARED.

BRITISH EXPORTS AND IMPORTS COMPARED.

| Gt. | Britain. | IMPORTS. <br> United States. | France. |  | Britain, | EXPORTS. <br> United United | Frarce |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 1850 | \$25 50 | \$ 768 | \$ 625 | 1850 | \$13 00 | \$ 628 | \$ 600 |
| 1860 | 3650 | 1126 | 1430 | 1860 | 2365 | 1275 | 12 |
| 1870 | 4850 | 1200 | 1893 | 1870 | 3175 | 11 <br> 11 <br> 17 <br> 15 | 1575 |
| 1880 | 5950 | 1518 | 2310 | 1880 | 3235 | 1700 | 1875 |

Being the per centage of foreign trade per head of population according to Mr. Griffin. By another authority the proportion of the total foreign trade which probably includes also alb transit trade is,-Great Britain, \$102; France, \$45; Germany, \$35; and the United States \$27 per head of population.

FOREIGN TRADE OF GREAT BRITAIN AND PRINCIPAL NATIONS.

## BRITISH DEBT COMPARED WITH THAT OF OTHER NATIONS.

*Including special debts, the total debt is estimated to be $\$ 3,400,000,000$. Hagainst which stands assets by way of Public Works, etc., nearly $\$ 2,000,000$.

The debt of Great Britain is now properly $\$ 3,585,000,000$. It is decreasing rapidly and at the present decrease ratio under the sinking fund now in operation will wipe itself off early in the next century-1900. It stood in 1815 at $\$ 4,200,000,000$ and consequently has decreased over $\$ 600,000,000-\$ 100,000,000$ of which is since 1870 . But for expensive wars continually cropping up the debt would go down as fast as that of the United States. It forms a safe investment for the monied, is carried at the lowest interest in the world and held entirely within the people of the country. The debts of the Colonial Empire are also held within the British people themselves. The debts of the Colonies are also to a great extent set off by profitable public works.
The debt of the United Kingdom bears lighter upon her people than any other country save perhaps Germany and the United States. The people bear fewer local debts. The debt of the country may be high according to her thickly settled population, but her people are wealthier and earn higher wages and incomes, Her artisans and laborers receive nearly double the wages received on the European Continent, although less than in the British Colonies and the United States. Reference to the debt and wealth ratio, will show Russia, Austria and Italy bearing a heavy delt burden-debts which are carried only at excessive interest and continually increasing.
The wealth of Great Britain is estimated as $\$ 40,640,000,000$, and the income $\$ 6,000,000,000$. The wealth of the Empire is over $\$ 65,000,000,000$. The capital of British capitalists invested in the Colonies is alone $\$ 3,100,000,000$ and proportioned as follows :-

The average wealth per head of Great Britain is $\$ 1240$; France, $\$ 1002$; United States, $\$ 931$.

## THE BRITISH ARMY AND NAVY.

To guard this mighty British Empire at large, there is an army solety under the control of the British Government as follows :

| Colonial Establishment | 95,000 |
| :---: | :---: |
| Indian Establishment |  |
| Indian Army-Native Troops-(with British, igi,000) | 65,000 $\begin{array}{r}190,000 \\ \\ 126,000\end{array}$ |
| Colonial Army-Native Troops (with British, 34,000 | 4,000 |
| ow increased to 150,000.) | \$320,000 |

## An Army under training, fully equipped and armed, of. . <br> 750,000

 (Adding 59,000, sailors and marines, with 40,000 more of a reserve, an army of nearly 900,000 men. But if we add the armies of the protected or quasi politically independent Indian States, which could be made available in at least Asiatic wars, their services having repeatedly been tendered, viz: $(349,835$ with 4,237 guns.An army is obtained, drilled and armed, ready for action on short notice, of . . $1,099,835$
But this is not all. The Colonial Empire also furnishes ready to hand a considerable force of trained and armed men. The Catadian volunteers number 37,350 . Regiments of militia are organized in the Channel Islands and volunteer corps in the colonies of West Indies, Cape, Ceylon, Hong Kong, Malta, Natal, New South Wales (including artillery corps) Tasmania, Victoria, western Australia and India. Besides, in urgent cases of emergency when the empire is seriously threatened, the able-bodied men of the British speaking colonies alone, say between the age of 18 and 45, would furnish an army of $\mathbf{I}, 000,000$ and those of India, many millions more.* In fact, on short notice an additional available force of $1,000,000$ trained soldiers could be put into the field and kept there an indefinite period. No other nation could stand the expense of two campaigns.

The navy comprises about 275 vessels nearly all in commission, the great portion of which are steam vessels of great size, strength, speed, heavily armoured and armed with the heaviest of guns. It will match any two navies of the nations of the world. It is manned by 59,000 sailors and marines with a reserve of 40,000 more.
'Canada alone has a population of able bodied men, between the ages of 18 and $45, \ldots f 840,000$.
CHIEF ARMIES AND NAVIES OF THE WORLD-(Peace Footing.)

"Under Colors-See British Armv. **Four additional ves sels building.
Many of the vessels forming the column "other vessels" are small ships or steam craft, as for instance those of Holland; others again are gunboats. The army of Hollartd includes 30,000 men in the Indies. The army of Turkey is properly very much larger, although not directly with the colors.
The cost of the British Navy, say per every 100 tons of tonnage, is little more than one-half that of France and Germany and but one-third that of Russia. The cost of repairs and maintenance is equally as favorable to the British in comparison. So, also, is the cost of coal and engine room stores. Looked at as a guardian of ocean shipping, the cost of protecting every 100 tons of shipping, is annually for France $\$ 3,890$, Russia $\$ 3,470$, Austria $\$ 1,280$, Italy $\$ 935$, and Great Britain only $\$ 575$.oo.
But numerous and strong war vessels are not alone all powerful. In the event of a war, the vessels of nations having few or no ports outside their own country labor under serious disadvantages. Without coaling at short intervals, of from ten days or two weeks, (and in war coal becomes "contraband of war" in neutral ports) the greatest ironclad becomes useless, and the fast cruiser-commerce-destroyers of an enemy mere logs upon the waters. Without a fine transport service only available in the possession of fine fast passenger fleets and manned by a ready reserve of sailors, no nation can carry on a successful foreign campaign. Britain, possessing a
cordon of fortified stations the world round, can, and at any time, either repair, equip, coal, run for shelter or safety and bring her prizes to, at convenience. Her ships are seldom-need be seldom-beyond a $\mathbf{1}$,ooo miles of her own friendly ports. Coal is truly King! This was shown lately, when on the eve of a prospective Russian-English war, the former country endeavoured to secure through some Sunderland (England) dealers a supply of ro,ooo tons of coal. Contrast Britain's position, when in addition to her enormous out-put at home she has at command the mines of Nova Scotia, British Columbia, New Zealand, Australia and large accumulated stores at every port of her own the world round. She also holds every strategic position which would enable her to protect her own interests and harass an enemy. For instance, no enemy's fleet could leave the mediterranean sea by passing Gibraltar! No enemy could leave it by the Suez Canal and Red Sea, for Perim and Aden practically closes that route as a cork does a bottle. The Persian Gulf and Arabian Sea is equally at her mercy, and from thence the whole Indian Coast and Malayan Seas are under her sway. Cordons of Forts and harbours guard both African shores and the routes to Australia. It is the same on the American continent, and Hong Kong, to belittle it.

Rulers preceded by a P. have the title of President ; those preceded by a K. or E. have the title of King or Queen and Emperor, respectively. The Rulers of Turkey and Zanzibar are called Sultans ; the ruler of Egypt, Khedive ; the rulers of Persia and Afghanistan, Shahs ; the ruler of Japan, Mikado or Tenno, and the ruler of China Hoang-Ti or Emperor. The ruler of Morocco is termed Emeer, and that of Tunis, Bey.

* The area and population of Russia proper is $2,095,500$ and $87,074,600$ respectively. The area and population of Turkey in Europe is $\mathbf{1 2 5}, 289$ and 8,881,o14. **The area and population of East Roumelia is $\mathbf{1 3}, 500$ and $8 \mathbf{1 5 , 9 4 6}$ respectively

Great Britain, Sweden and Norway, Denmark, Holland, nearly all Germany and Switzerland, the United States, Canada and British Colonies, have, as the prevailing or predominant religion, either the Episcopalian, Protestant, Reformed or Lutheran. All of South America, Spain, Portugal, France, Belgium, Austria and Italy, generally profess the Catholic Religion. Montenegro, Roumania, Russia and Servia follow the Greek Church; and Turkey, Persia, the Mohammedan faith. Most of the leading nations allow universal toleration.

Besides the above lists the following persons, natives, resident, or connected with Canada held titles of the several orders: Sir Hugh Allan; Sir Edward M. Archibald; Hon. Robert Baldwin; Rear Admiral Sir Edward Belcher ; Hon. Henry Black; Sir Richard Bonnycastle Major J. E. Campbell; Sir William Campbell; Hon. T. E. Campbell; Sir George E. Cartier; Sir Samuel Cunard; Sir Dominick Daly; Sir Charles Darling; Hon. C. M. De Salaberry; Sir James Douglas ; Sir Antoine A. Dorion ; Hon. W. H. Draper; Sir Richard England; Sir G. D Gibb, M. D.; Sir Brenton Haliburton; Sir Francis Hincks; Vice-Admiral Robert Hall; Major General F. Heriot; Sir John Inglis; Lieut. Col. Johnson (Ind. Dep.); Sir David Jones; Sir L. H. Lafontane; Sir William Logan; Sir J. B. Macauley; Sir R. G. McDonnell; Sir Allan McNabb; Sir Alex. McKenzie; Sir John Michel; Sir J B. Robinson; Sir D. W. Smith; Sir Henry Smith; Sir James Stewart; Sir E. P. Tache; Alpheus Todd; Sir William Fenwick Williams; Sir Prov. W. Wallis, Admiral of Fleet; Sir William Winnett; and other well-known persons intimately connected with the country's history.
It will be interesting to note that at an early period of our history the establishment of a Canadian nobility was an "idea" of Pitts and attempted to be carried through the Imperia Commons. An historian speaking of it says, "if it had carried many a pleasant farce woul be witnessed - the Duke of Ontario leading in a cart load of hay, my Lord Erie pitching, and Sir Peter Superior making the rick; or perhaps his Lordship would figure as a petty-fogging lawyer, his Grace as a pedlar and Sir Knight as a poor parson starving on 5,000 acres of clergy reserve lands." If Gourlay were now alive he would see these same persons railway magnate who run the Government for their own interests, leading politicians who use their positions to fill their pockets by selling R. R. Charters, grant Government bonuses to railways in which they are interested, or political brokers who effect Government contracts, acquire ranches and timber limits, for an interest or blind share in the same.

RAILWAYS OF CANADA-CONTINUED.

The Hamilton and Northwestern and the Northern Railway of Canada are operated jointly as one system. The Montreal \& Vermont Junction Ry. is operated by the Central Vermont; so also is the Stanstead, Shefford \& Chambly. The St. Lawrence \& Ottawa is now included in the Canada Pacific system. The North Shore now also belongs to the Canada Pacific system.
The cost of the Windsor Branch is included in that of the Intercolonial. The cost of several railways forming the Canada Pacific, Grand Trunk, and New Brunswick systems, represent the O. Mo the present proprietors. In the case of the North Shore and Canada Central (Q. M. O. \& O. Montreal to Ottawa) the Dominion Government pays $5 \%$ on the Dominion bonus to the Quemiles in all. The cost G. T. R'y own about 525 miles of railway in American territory- 3116 Trunk railway (original) was Great Western system was about $\$ 50,510,500$. The old Grand

Amherstburg, each $\$ \mathbf{1} 5,000$, to Canada Southern. County Malden Township and Town of Chatham, $\$ 30,000$; Dresden, $\$ 18$,000; Blenheim $\$ 11000$ County of Kent, $\$ 155,000$; Town of \& Huron. The latter towns the Erie \& Huron Railway to Sarnia, the portion of the County grant named. For the extension of $\$ 14,000$. The Government grant is $\$ 96,000$. This extension will be $203 / 4$ miles in length. Unless on special occasions the Government grants do not exceed, and generally are $\$ 3,200$ per mile.
The speed of passenger trains on the following roads average thus:-Canada Southern and North Shore 35 miles ; Canada Atlantic, Northern and North-Western, Montreal and Vermont, and Main Line, South Eastern, 30 miles; Grand Trunk, whole system 27, parts-40 miles; Second class railways from 20 to 25 ; Erie \& Huron, 25 miles, and Third-class railways from 12 to 18 miles per hour.
Applied to the $4 \mathbf{1} 1 / 2$ miles completed the authorized capital of the Erie \& Huron Railway is $\$ 110,000$. Paid up, $\$ 105,500$. Bonded, $\$ 415,000$. The gross income was $\$ 50,806$, and the total expenses for operating, $\$ 31,773$. The fiscal year closing 30th June, 1886, will show a net ncome of about \$25,000.
The Leamington and St. Clair Railway now in course of construction between Leamington and Comber is 14 miles in length, and receives as bonuses: $\$ 44,800$ from the Government, $\$ 12,000$ from Leamington, $\$ 15,000$ from Mersea, and $\$ 6,000$ from Comber, in all $\$ 77.800$. The capital G. Martin; and with Messrs, Lewis Wigle, M. P.; Secretary, Wm. McSween; and Treasurer, C. the board of Directors.
The total mileage of the Canada Pacific Railway including the North Shore Road and later acquisitions is $42181 / 4$ miles 2,893 of which is the Main Line from Montreal to Port Moody. This does not include the South Eastern, which it is said, the company has since acquired.

The Grants to this Company by the Government alone, have been :
Cash, $\$ 25,000,000$ in 188 1 .
Lands, 25,000,000 acres in 1881.
Loan, 29,880,000 cash, in 1884 .
428 miles of finished road from Port Arthur to W . $641 / 2$ miles of finished road from Port Arthur to Winnipeg. 213 miles of finished road from St. Vincent to Winnipeg. miles of finished road from Savonas Ferry to Port Moody.
Making a total of $7051 / 2$ miles of roads built at a cost of $\$ 40,000,000$ not including survey, \&c.
Provincial Government Aid and Municipal Grants will be seen attached to the different roads. forming the system in the preceding Government railway return,
The Montreal and Lachine Railway, and the St. Lawrence and Champlain Railway-theformer built in 1847, were the initial Canadian Roads. There were but 55 miles of railway ib operation in 1850; in that year, however, the Grand Trunk, Great Western and Northern Ry's. were commenced upon, and were more or less open in 1853 and 1854 respectively.

## AMERICAN CANAL AND RAILWAY LAND GRANTS,

Land Grants were first made to the different States as the works for which they were given
being intirely local undertakings confined to such States. The first grant was to the States of Indiana and Ohio for the purpose of constructing the Wabash and Erie Canal. This was in 1827. Subsequent grants for different canal schemes followed, receiving 4,500,000 acres.

The first railway grant was made to the States of Illinois, Mississippi and Alabama, and out Westerne the Illinois Central railway. This was in 1850; and between that date and 1861 Direct Grants to rail $53,000,000$ acres for railway purposes,
Pacific Railway. The principal of these grants were:

> 1 Union \& Central Pacific Railways....... . . . . . 22,500,000
> 2 Northern Pacific Railway.
> .... ..... 3 Atlantic \& Pacific Railway. 46,000,000 27,000,000 and with lesser grants fully $200,000,000$ acres have altogether been $15,000,000$ In 1864 the grant to the Union Pacific Railway was dogether been granted for railway purposes. second or additional grant that the "Credit Mobilier" sled, and it was in connection with this have been made since 1871.

## HOMEstead ACT

first came into operation in 1862, concurrently with the first Pacific Railway grants and was one of the first acts approved by Abraham Lincoln. Under it some 700,000 entries have been made
and some $8_{5,000,000}$ acres taken up by settlers.

## THE WESTERN DISTRICT.

This territory originally formed a chief and the early settled part of the old District of Hesse, one of the four divisions into which Lord Dorchester had divided the Upper Country (Ontario) in1788 and which, upon the sitting of the first Upper Canada Parliament in 1792, was changed in name to the Western District and then comprehended a considerable area-all west of a meridian passing through the extremity of Long Point. It included the State of Michigan and other now American territory-indeed Detroit was the District town and at the said Parliament was then represented. For, although the lands of Michigan had been ceded to the newly fledged U. S. Republic by the treaty of 1783 , their cession was deferred until re-ceded under the Jay treaty of 1796, because of a breach of faith on the part of the latter Country in connection with the U. E. Loyalists. *

In 1794 territorial counties and townships were formed and first named as presently, (previously townships had been called by numerals) ; and in 1796 the boundaries of the Western District confined to the said meridian on the east, Lake Erie on the south, and the Detroit and Sinclair Rivers on the west, and included all lands north westerly, not within the bounds of the Hudson Bay Company and the treaty of the United States.

In 1798, new districts were formed-twelve in all-the Western, now confined in area to about what is now the Counties of Essex, Kent and Lambton ; the latter two forming one County-Kent, the County of Essex, comprising the Townships of Rochester, Mersea, Gosfield, Maidstone, Sandwich, Colchester, and the tract occupied by the Huron Indians upon the Strait, together with the Islands on the Strait, Lake Erie and Lake St. Clair, opposite thereto; and theCounty of Kent comprising the Townships of Dover, Chatham, Camden, (distinguished by being
${ }^{*}$ For, as Lord Caermarthen puts it to Mr. Adams, "that you have not kept faith with us-you agreed to permit the refugee U.E. Loyalists to return to the various states to collect their debts. Your States have passed laws. prohibiting these people from returning and confiscated the amounts due them to the States - you have not kept faith with us and cannot call upon us to respect the treaty when you have not observed it yourselves."
called Camden West ; the Moravian tract called Orford, and distinguished by being called North and South Orford, Howard, Harwich, Raleigh, Romney, Tilbury, East and West; and Erie and Lap of Sinclair, occupied by the Shawanee Indians, together with the Islands on Lake their names and boundaries will be found. The date of incorporation of other townships with Townships given elsewhere. Lambton County became the tabulated list of Western District regards local matters in 1850, but County became, substantially, a separate County as County for political purposes, and attached to Essex County for general purposes, and to Kent formerly the north portion of Zone, originally other townships have been slightly chanally called North Orford, and the boundaries of some to Essex County in 1852.

The townships comprising the electoral divisions of West Middlesex and West Elgin formed part of the same Western District until 1798, thence that of the London District. The District same. Under the M was some time Vittoria, Norfolk County, but in IS26, London became the in 1850, but in 1854 Elgin County of 1849, Middlesex and Elgin assumed a joint existence
Municipal affairs were manary separated therefrom, becoming an independent county of itself. composed of representatives elected by thagistracy until I842, thence by the District Council present municipal system came into force in 1850 .

## Reeve.

Note. Prior to 1794 some of the earlier organized townships were designated by numerals. The first column means the first proper survey. Settlement was first effected in Mersea, W. Tilbury, and Romney in 1800, and Zone through the Euphemia portion in 1825; Sombra on the "Sny" in 1810; Moore, and other points on the St. Clair river in $18 \mathbf{I}_{3}$, but settlement proper commenced only at the dates given. The area in acres is partly taken from municipal returns and partly from records in the Crown Lands Department. The 4 th Column means first representation in the old District Council. Zone, Anderdon, and north half of Orford were Indian reserves. *Sandwich was divided into East and West Sandwich in 1861; Colchester into North and South in 1880, the former being now represented by one Reeve and the latter by two. North Colchester has an area, as per municipal returns. over 30,000 and South Colchester 34,500 acres. Sandwich East has an area of over 43,000 acres, and Sandwich West 24,500 acres.

TOWNS AND VILLAGES.
KENT COUNTY.

Note The first column means survey or first settlement as a village. Incorporation means the year when Councils first met. Bothwell, Sandwich and Sarnia were never (properly) villages, the former at least being incorported a town by special Act of Parliament. Chatham was first represented by a second Reeve in 1854 , Windsor in 1859 , Amherstburg same year, Sarnia in 1866 , Strathroy in 1869, Petrolea in 1881 and Ridgetown in 1885. Chath -m was first represented by a third Reeve in 1870, Windsor in 1872, and Sarnia in 1882 . Chatham was separated from the county of Kent in 1880 and Windsor from the County of Essex in 1881.

## MEMBERS OF PARLIAMENT.

HOUSE OF COMMONS

## ELECTORAL DIVISIONS AND THEIR COMPOSITION house of commons.

Essex, North.-Comprises the townships of East and West Sandwich, Maidstone, Rochester,
West Tilbury, and the towns and villages of Windsor, Sandwich and Belle River. Population,
25,659 .
Essex South. - The Townships of Anderdon, Malden, Colchester, Gosfield, Mersea, Pelee, and the towns and villages of Amherstburg, Kingsville, Leamington and Essex Centre. Popula, 21,303
Kent.-Comprises the townships of Dover, Harwich, Raleigh, Tilbury East, Romney, and Bothwes and Blenheim. Population, 29,194
Wallaceburg, Dresden, Thamesville eamden, Zone, Chatham and the towns and villages of and Sombra in Lambton County. Populathwell in Kent County, and the townships of Dawn
Lambton East. - Compren, 22,477
the towns and villages of Arkona, Oil Spring of Warwick, Brooke, Enniskillen, Bosanquet, and s, Alvinston, Watford, Thedford, and Petrolia.
Lambton West. The townships of Sarnia, Plympton, Moore, and the towns and villages of Sarnia, Point E tward, Wyoming and Forest. Population, 20,891.
West Middlesex. Comprises the townships of Adelaide, Eckfrid, Mosa, Metcalfe and towns and villages of Strathroy, Glencoe, Wardsville and Newbury, also Euphemia township in Lambton County. Population, 19,490.

West Elgin.-Comprises the townships of Aldborough, Dunwich, Southwold in Elgin 23.480 .

## HOUSE OF ASSEMBLY.

Essex, North and South.- Have the same limits and boundaries as for the House of Commons, save that Anderdon township is attached to North Essex and West Tilbury to South Essex. Population North Essex, 23,655. South Essex, 23, 307.

Kent, East.--Comprises the townships of Harwich, Howard, Orford, Zone, Camden, and the towns and villages of Blenheim, Ridgetown, Thamesville, Bothwell and Dresden. Population, 25,306.

Kent, West.-The townships of Dover, Chatham, Raleigh, East Tilbury, Romney, and the Town of Chatham and Village of Wallaceburg, Population, 29,004.

Lambton, East.-Comprises the townships of Warwick, Plympton, Bosanquet, Euphemia, Brooke, and the towns and villages of Watford, Forest Arkona, Wyoming, Alvinston and Thed ford. Population. 23,906.

Lambton. West.-The townships of Sarnia, Enniskillen, Dawn, Sombra, Moore, and the towns and villages of Sarnia, Point Edward, Petrolia and Oil Springs. Population. 28,128,

West Middlesex.-Comprises the townships of Caradoc, Eckfrid, Mosa, Delaware, Metcalfe, and the towns and villages of Strathroy, Glencoe, Wardsville and Newbury. Population, 21,495.

West Elgin.-Comprises the townships of Aldborough, Dunwich, Southwold and Town of St. Thomas. Population, 22,581.

The Sandwich office was in operation in 1796 and the probable P. M., Wm. Hands, although apparently, Richard Pollard was in charge. Amherstburg office seems to have been in operation in 1800, but definite information only dates from 1831 when Mr. James Kevil was Post Master. That an office was in existence in 1818 is shown by a Government return which places the salary of the Post Master at $£ 118$. The Edgar Mills office was originally Kilroy.
The mail service until about 1830 was most meagre - prior thereto once a week, earlier once a fortnight, still earlier once a month and about the opening of the century, two to four times per year.
+Besides the salaries named, the following offices earned as money order commissions the following sums :-Amherstburg, $\$ 40.20$; Belle River, $\$ 5.66$; Essex Centre, $\$ 32.31$; Kingsville, $\$ 15.65$; Leamington, $\$ 55.51$; Sandwich, $\$ 9.92$; Tilbury Centre, $\$ 11.44$; Waikerville, $\$ 5.97$;. Windsor, \$-; Woodslee. \$32.64.

Chatham is the only paid Fire Department. Sarnia and Windsor have Water-works ; Point Edward has also a pipe on the main street operated by G. T. Ry. Water-works. The annual cost of the Chatham paid Fire Brigade is about $\$ 5,000$, which includes 3 horses, 5 paid permanent officers and some II men who are upon a small salary and subject to fire calls, and domicile at the Station House. Besides the Paid Officers of the Water-works at Windsor, about 28 men are paid about $\$ 50$ each and subject to fire calls. tThe salary of the fire engineer, Petrolia, includes duties as Chief of Police. *Salary includes position as Chief of Department.

Alvinston, Arkona, Belle River, Essex Centre, Forest, Kingsville, Newbury, Oilsprings, Sandwich, Thedford, Wardsville and Wyoming have no fire brigade.

WATER WORKS.
Sarnia and Windsor have Water-works, the former cost some $\$ 100,000$ and the latter $\$ 148$, 000 (originally $\$ 127,000$ ). The income of the Windsor Water-works is $\$ 21000$; of the Sarnia Works about $\$ 7,500$, The Sarnia Works have a paid staff of one chief engineer at $\$ 600$ and two assistants at $\$ 550$ each. The staff of the Windsor Works is a Secretary at $\$ 700$, one chief engineer at $\$ 900$ and two assistants at $\$ 660$ and $\$ 640$ respectively.

| Registrar of Deeds.... | $\dagger$ | $\dagger$ | + | Turnkey | 600 450 | 650 400 | 650 430 |

${ }^{*}$ Means Judge Deputy and paid only for duties performed. County Councillors are paid about $\$ 3$ per day, Board of Audit similar to Auditors. tThe incomes of Registrars of Deeds are not given as the County Treasurers' retarns of same would perhaps, without considerable explanation, be misleading. But they run from $\$ 2,500$ to $\$ 3,500$, the latter sum being a late return of the County of Kent. The salaries of Judges include $\$ 200$ for travelling allowances. Judges, as Judge Surrogates receive the fees of that office; they also receive as Revising Barristers some $\$ 600$ for that position, or a salary in all of from $\$ 3,000$ to $\$ 3,500$. The salaries of County Treasurer's do not include some small perquisites by way of commissions. The positions of Local Master, H. C. of J. and Local Registrar H. C. \&c., are not minutely defined, as in some cases portions of the latter position are held by the tormer, or vice versa-for instance, in Ke?t and Essex the position of Deputy Registrar in Chancery is held by the Local Master, whilst in Lambton it is aeld by the Deputy Clerk of the Crown.

The Pioneer newspaper of the district was the "Emigrant," published at Sandwich by John Cowan, the first issue of which is dated 17 Nov., 1831, the prospectus reading :-
"The attention which we have been obliged to bestow on the management of the office will not allow us to present our readers with a prospectus of the Emigrant in the present number. We shall briefly state that the paper will be devoted to foreign and domestic intelligence, agriculture, horticulture, the mechanic arts, the sciences, domestic economy and literature; and the support of morality, religion and temperance. The Emigrant will be especially devoted to the agricultural interests and a developement of the resources of this hitherto almost unknown district, with a view of attracting attention to a country which offers to the industrious emigrant advantages not surpassed by any on the continent.

Ed."
The second newspaper was the "Western Herald," published at Sandwich by H. C. Grant which first appeared 27 Feb'y 1838, and the third and first Chatham newspaper "Chatham Journal," published by Charles Dolson, 3oth July, I84i.

## OUR NATIVES.

The existing Indians of the Western District are still comparatively numerous, although, as will be hereafter noticed, a large number are foreign to the soil-not to the manor born-and are now confined exclusively to their settlements. These settlements or reserves are tracts of land which were reserved for their own use, out of the larger tracts which they surrendered to the Crown. The number, area and population of the reserves, date of contracts, and other particulars concerning them are as follows:

Anderdon Reserve, the oldest in the Western District, dates from the 19th of May, 1790, when by treaty the four nations-Ottawas, Chippewas, Pottawattomies and Wyandotte Hurons-for a consideration of $£ 1200$ surrendered to the Crown the tract of lands ( $2,000,000$ aares) lying south of the Indian Line and west of Fish Creek, reserving for themselves the small portion of it situated on the Detroit River, some $7 \times 6$ miles square, and inclosing an area of 23 500 acres. By a surrender dated 11 th September, 1800 , 1240 acres (Huron Church Reserve, 1078 acres) were transferred to the Crown for a consideration of $£ 300$, of which 130 acres of the same were set aside for military and other purposes. A farther and large surrender was made in 1836, when 14,620 acres passed into the hands of the government to be sold for Indian interest, 7,550 acres of which was to be for the exclusive benefit of the Wyandottes and the balance for the other Indians generally. It was at this time that a portion of the Wyandotte tribe in Anderdon and the $\mathbf{W}$ yandotte tribe then located at Sandusky removed to the State of Missouri. Subsequent sales reduced the land area to 4,900 acres, at which the area of the reserve now stands. In 1832 the Indians num'ered 374 ; in 1847 they were 368 ; in 1850 but 90 ; and at present, per last census and government returns, 86. Under the act of 1880 many of the Indians have been enfranchised. "Brave" White, the father of Sol White, M.P., was the last chief.

Caradoc or Upper Thames Reserve results from a treaty dated 18th July, 1822, between the Chippewa Indians and the King of Great Britain, whereby the former surrendered into the latter for a tract of land-"long tract"-north side of the River Thames, part of which had already been covered by the treaty of 9th March, 1819, extending from the Township of London to the Township of Sombra (Sombra had been surrendered by treaty 7th September, 1796, 88,000 cres), and containing 580,000 acres of land, reserving unto themselves a portion of it, comprising 15,320 acres. In 1834 , for a consideration yielding $£ \mathrm{I} 60,3,225$ acres of this reserve was sold, leaving as the present area some 12,095 acres. The unorcupied lands of the reserve are leased to white settlers in the interest of the Indians. There are practically three
settleme and Bea they nun

TH foreign I the reser but own calculate viantowr
settlements comprising the reserve, viz.: Upper Munceytown or Colborne, Old Munceytown, and Bear Creek. The Chippewas only sattled permanently on the reserve about 1830. In 1857 they numbered 340 ; in 1885, 452, or wit' the Munseys, 575.

The Munsey Indians occupy the northern portion of the Caradoc settlement. They are foreign Indians, coming from the United States in 1800 to the number of 240 , and settling on the reserve with the consent of the Chippewas. They occupy about one-third of the reserve, but own no portion of it This large and increasing occupation was more than the Chippewas calculated, and in consequence ill-feeling arose, causing the removal of many Munseys to Moraviantown. In 1857 they numbered 240 ; now only 123 are located there.

Pottawattomies Indians occupy also a portion of the Caradoc reserve, but own none of the land. They live in rear of the settlement, and number a few families, some 20 persons.

The Delaware or Oneida Settlement, occupying lands in the Township of Deleware, are also foreign Indians, who arrived from Oneida Lake, U.S., in 1840. They then numbered 436. This reserve contains 5,400 acres (originally 5,000), and was purchased with money brought with them by the Governor-General of that date. In 1857 they numbered 517, and are now about 770 strong.

Moravian Settlement dates from 1793, when an order-in-council was passed, granting under the auspices of the Society of Moravian Missionaries, to a number of Deleware Indians who had been christianized and brought from the United States, 51, 160 acres in Zone and Orford. This settlement is particularly interesting in its being the scene of the battle ground fought between the American and British armies in 1813 , when the brave Tecumseh fell. Their village, then located on the Zone bank of the Thames, was the immediate theatre of the fight, and in the immediate neighborhood lie buried those who fell in the struggle, as also some of the early missionaries. In 182I the reserve north of the London road on the Zone side was surrendered to the government, and in 1823 surveyed and formed into the Township of Zone (it had hitherto been called North Orford). In 1836 another surrender covering 25,000 and including those already surrendered for an annuity of $£ 150$, and again another surrender in 1857 covering lands in Orford reduced the limits of the reserve to the present bounds-an area of barely 3,000 acres. In 1817 the population was 167 (in 1794 it was 164); it is now 275 .

Walpole Island Reserve, according to some authorities, was set aside shortly after the revolutionary war, for the purpose of placing thereon a number of scattered bands of Chippewa Indians, who had been engaged in the war on the British side, and were being collected by their own kinsman, Col. McKee, of the Indian Department--the "White Elk," according to Indian nomenclature. Be this as it may, the reserve was at all events covered by the treaty of 1825-27, when Wawanosh and other Indians surrendered the lands lying in Lambton county and the Huron district-Huron, Bruce, Perth, and part of Middlesex-and reserving the portions now known as Kettle Point, Sarnia, St. Clair, Walpole, etc. The Chippewas first settled permanently on the reserve in 1831, and the Pottawattomies in 1841, but meantime many white settlers-profligates and others-had possessed themselves of the best lands through fraud or otherwise, so that in 1837 there was scarcely an acre of arable land left, and in 1839 it was necessary to pass an act of parliament to recover the stolen lands, which being done were put in charge of a resident superintendent. At this time but 300 Indians remained on the reserve, but in 1842 when the government notified absentees that presents would not be paid them the number increased to 1140. In 1850 the number decreased to 1,000 , and at present the population is: Chippewas (and merged Ottawas), 640; Pottawattomies, 170; in all 810 . The area of the reserve is about 10,000 acres. The old Moore or St. Clair reserve, 2,575 acres, also belonged to the Walpole bands, being transferred in 1836 from the Sarnia bands along with $\$ \mathbf{1}, 400$ as a share of the Huron tract annuity.

Sarnia Reserve, which includes all the Lambton reserves (excepting the old Moore reserve transferred to Walpole) dates from 8th July, 1827, when, for an annuity of $\$ 4,400$, the Chippewa Indians surrendered $2,200,000$ acres known as the Huron tract, reserving for themselves the following portions: River Aux Sables, 2,650 acres ; Bear Creek (leased only), 400 acres ; Kettle Point, 2,446 acres ; Sarnia, 10,280 acres; and Moore or St. Clair, 2,675 acres. In 1840, for an yearly consideration of $\$ 2,600,2,540$ acres of the rear portion and 198 acres of the portion adjoining the town of Sarnia, of the Sarnia reserve were sold, and subsequently in 1849 , or since, the Moore reserve was sold on behalf of the Walpole bands. The present area of the reserve is 6,200 acres at Sarnia and about 5,000 at Kettle Point and River Sauble. The Indians first settled permanently on the reserve in 1831. In 1851 the population was 680 ; in 1857 but 512 , and at present about 484 .

(I) $\$ 40,885$ of this amount has been paid to 18 enfranchised Indians, leaving a capital of $\$ 29,944$. (2) $\$ 4$ Chippewas and $\$ \mathrm{I}$. 50 Pottawattomies. (3) Includes $\$ 6, \mathrm{I}_{57}$ capital and $\$ 486$ income of Pottawattomies. (4) Includes $\$ 2,670$ capital and $\$ 135$ income pertaining to Munseys.

The Caradoc Indians sustain three school teachers at the cost of $\$ 200, \$ 200$, and $\$ 250$ respectively. The Oneida Indians sustain"three school teachers, partly by Indian school fund and partly bv English church and Methodist church missions; salaries about $\$ 250$ each. TheMoravians sustain one teacher at their own expense, $\$ 350$. The Sarnia Indians sustain one 'teacher at their own expense, $\$ 250$, and two teachers, $\$ 200$ and $\$ 250$, at the expense of the Methodist mission and the Indian school fund jointly. The Walpole Indians sustain one school teacher, salary $\$ 300$, at their expense jointly with English church missions, and one teacher, salary $\$ 250$, at expense of Indian school fund and Methodist missions. The Mount Elgin Institute is supported from Indian funds.

POPULATION OF LAMBTON COUNTY-1817-188i.

(1) Exclusive of 600 Indians on Walpole Island, St. Clair river, etc. (2) Exclusive of Indians. (3) Included in returns for Township of Moore. (4) Then included in, as a part of, Zone, Kent County. (5) No returns: little or no settlement ; originally a portion of the "Huron tract." (6) The population of Port Sarnia was 426 in 1844 Petrolea in $1855^{-6}$ had a population of 2300 ; Point Edward at same period 600 . Included Indians.

POPULATION OF ESSEX COUNTY-1817-1881,

(1) Includes roo soldiers and the population of Amherstburg. (2) Huron Indians. (3) Including the Town of Sandwich. (4) Exclusive of Indians. Mersea includes Pelee Island, which had a popnlation of 150 in 1871 and 36 i in 188 I . Amherstburg in $1842-4$ had a population of 985 ; Sandwich in 1844430 , and Windsor in 1844300 . For the present and past Indian population see Indian settlements.

POPULATION OF THE COUNTY OF KENT--1817-1881.

(o) Includes Talbot Street, Orford. (1) Includes 54 in Baldoon settlement. (2) Moravian Indians. (3) Chatham Village numbered 812. In 1830 there were but 4000 in Kent and Lambton, and in 1835300 in Chatham (4) Included in Howard. (5) Included in Tilbury. (6) Included in Camden. In 1842 Zone then included EuphemiaIn 1842 population of Kent and Lambton, $16,0>0$. *Gourlay's History. +Western District returns. ICensus returns.

In 1810 the old Western District contained 22 shops and 10 taverns. There were two Roman Catholic, and one Church of England, churches. In 1817 there were 43 shops, 23 taverns, 2 churches, 6 ministers, 14 schools, 6 doctors, 10 windmills, 4 water gristmills, 1 water sawmill and 5 distilleries. In 1842 but 76,899 acres were cultivated and 41,726 wild lands taken up. The total assessment was but $£ 323,551$ ( $\$ \mathrm{I}, 294,204$ ). There were 15 stone horses and 4,669 3-year-old horses; 3,849 4-year-old oxen ; 9,219 cows, and 4,843 and other tixable cattle. There were 19 sawmills, 13 gristmills, and 8 distilleries; 31 4-wheeled carriag s, 462 -wheeled carriages, and 7I wagons; 61 shops and 10 storehouses.

The population of the municipalities comprising West Elgin (without St. Thomas, which is 9,269) are: Aldborough, 4,718; Dunwich, 4,290; and Southwold, 5206.

The population of the municipalities comprising West Middlesex are: Mosa, 2,673 ; Eckfrid, 3,023; Metcalfe, 2,192 ; Delaware, 2,674 ; Caradoc, 5,230 ; Strathroy, 3,817 ; Glencoe, 80I; Newbury, 546 ; and Wardsville, 540. Adding Newbury and Wardsville to Mosa the township population will be 3,759 , and adding Glencoe to Eckfrid the full township population will be 3,824 .

Excepting the Village of Delaware (the locat:on of Eben Allen's grant of 2,200 acres by Governor Simcoe in 1793), which contained a few settlers, the Muncey Indians and a few whites strung along the London Road at long intervals, there was no substantial settlement in West Middlesex until 1830. In 1842 Mosa contained but 1,154 , and in 1850 1,775 population; Eckfrid, $\mathbf{I}, 174$ and $\mathbf{1}, 091$ (?) respectively ; Metcalfe in 1850, 953 ; and Delaware and Caradoc in the former year (1842) 468 and 972 population respectively.

Settlement commenced in West Elgin in 1803•181I. In 1817 Aldborough had a population of 400 , I school, I store, and I tavern; Dunwich 500, I school, I store, I tavern, and grist water-mill ; and Southwold 900, 3 schools, 1 store, and 2 taverns. The same townships in 1842 had a population of 737,712, and 2,890 respectively. Dunwich and Aldborough were settled in 1803 and Southwold in 181I.

The equalized assessrient, although struck in 1886, was done upon the previous year's returns. "Income all Scurces," is obviously approximated. Collectors Rolls, Dover, do not include the non-resident taxes. The Debenture Debt column may include, or may exclude, interest in the items. The debt of Raleigh, part of that of Brooke is independent of interest, and perhaps other municipalities include it *The amounts standing opposite North Colchester and Aldborough are the annual charges against the debt. †Enniskillen enjoys the sensible plan of a township school section with a school board of eight covering all the schools.

WEATHER TABLE-FALL OF RAIN AND SNOW, 1885.

## A METEOROLOGICAL REGISTER.

Results of the Registrations at the Toronto Observatory, being the average markings of the following headings for the past 40 years:
temperature.
Mean temperature of the year
Mean temperature of the warmest month.................................................. $44^{\circ} .25$
Mean temperature of the coldest month. . ........................................ $67^{\circ} .75$
Highest temperature he coldest month
$22^{\circ} .75$
Lowest temperature $91^{\circ}$. oo
Range of the year $12^{\circ} .25$
....................103 ${ }^{\circ} .25$
Total depth of rain in inches. ............. . .
Number of days in which rain fell. $\qquad$
Greatest depth in one month.
8.75 inches.

Greatest number of rainy days, in one month 110 days.

Greatest amount of rain in one day 3.50 inches.

Month in which the greatest 13 days.
Month in which the greatest depth fell, Sepfember. .......................... 2.0 inches frequent, October,

## snow.

Total depth of snow in inches
Number of days in which snow fell
71.25 inches.

Greatest depth of snow in one month
63.75 days.

Greatest number of snowy days in one month 17.25 inches.

Greatest amount of snow fall in one day 14.00 days.

Month in which snow was most frequent, January ; in which the greatest depth fell,
February.
10.00 inches CLGUDS AND WINDS.
The most cloudy month of the year was December ; the least cloudy, August. The greatest velocity of the wind was a fraction over 40 miles per hour, and the mean velocity about $71 / 4$ miles. March was the most windy month and July the least.

Note.-Daily stages are generally well appointed 2 -horse conveyances of ample seating capacity. Some of the others are irregular in their accommodation and at times merely a single seated conveyance. Stages stop at all intervening points on the route between the places named. Stages generally leave connections to arrive at railway stations for east bound and leave stations upon arrival of west-bound mail trains.

Five minute conversations within 15 mile radius, 15 c .; 75 miles, 25 c.; 150 miles, 50 c .; 225 miles, 75 c .; half rates are charged for every additional five minutes' conversation. Messages of 20 words sent to points in Canada at the same price as five minute conversations, and half rates for every additional 20 words. Delivery of messages, 10 cents.

## MERCANTILE LAW.

## PROMISSORY NOTES, BILLS OF EXCHANGE, ETC,

The words "value received " are not legally necessary in a promissory note, but should always be inserted, so as to express a consideration for the promise.

A note drawn on Sunday is not void, but the law will not aid in its collection.
If a note be lost or stolen it does not release the maker ; he must pay it.
A note obtained by fraud, or from a person in a state of intoxication with intent to defraud, cannot be collected.
A consideration must be given for a note to make it valid, as between maker and payee, bu an innocent purchaser (one ignorant of the facts) may recover the amount from either of them A note falling due on a Sunday or a legal holiday is not payable until the day following.
A note commencing "I promise to pay," and signed by two or more parties, becomes a joint or several note.
Notes bear interest only when so stated, and then only legal interest until paid. But any interest may be collected if so stated.
A note made by a minor is void. So is one made by an idiot.
An endorser of a note is exempt from liability if not served with a notice of its dishonor.
Signatures made with a lead pencil are good in law.

Trade orders (a form of draft used by tradesmen) should be presented by the payee within a reasonable time, otherwise the maker will be relieved from liability if the amount cannot be reCheque person on whom it is drawn.
Cheques are treated the same as bills of exchange and must be presented the same day as re-
ceived or the day following
Demand notes are payable upon presentation without grace and bear legal interest after de-
Time promissory notes are endorser of a demand note is holden only for a reasonable time. pired; if not then paid the endorsers, if any, should be legally notified to for payment has ex-

## leases, tenancies.

An agreement for a lease must be in writing A lease for 3 years or over must be in writing ; under 3 years a verbal lease is sufficient A tenancy by the year requires a six months' notice to is required whery tenancy a month's notice, and a weekly tenancy a week's notice. No notice lords can generally follow goods ease is definite. No rent can be distrained for until due. Landhave precedence of all claims against the same, save for the leased premises for 30 days and will

## PARTNERSHIPS.

Each individual of a firm (excepting special partners) is liable for the whole amount of the debts of the firm.
A special partner is only responsible for the interest or capital he has in the business; but he cannot (must not) interfere in the management.
Any one who permits his name to be used in a firm, or who shares in the profits of the business, is liable to the public as a partner
The acts of one partner binds all the others when done in pursuance of the business of the firm,
but one partner cannot bind his co-partner by an instrument under seal unless he is authorized by, an instrument under seal to do so.
Death of a partner always dissolves a partnership unless provided against in the agreement. The sale of a partner's interest without consent will also dissolve partnership.

## CONTRACTS.

A verbal contract for the sale of lands is not enforceable by action
paid to bind the bargain makes no difference ; it must be in writing. The fact that money was $\rightarrow$ A minor, idiot or lunatic cannot convey lands unless with the sang.
cery ; conveyances otherwise made are void.
A verbal contract (other than for lands)
without it is void. A contract made by letter be supported by a consideration ; an agreement goods over $\$ 40$ value must be in writing orter or telegraph is binding. Contracts for the sale of

## SUNDRIES.

Principals are responsible for the acts of their agents when done under the scope and by virtue of the agency. A subsequent ratification of an agent's act will bind the principal.
Guarantees must be in writing and definite as to what is covered.
to pay interest. Printed bill heads intimating andess there is an express or implied agreement culated by the legal rule.
nterest is cal-
Six years from the last payment is the limit for action on promissory notes and accounts
Married women can acquire and hold property and may carry on business independent of thei any employment or trade their debts. The wages or earnings of a married woman acquired in for her separate use independent of her hataty from her husband shall belong and pertain to her

A servant is bound obedience will justify a dismissal. Master engagements. Wrongful dismissal, or desertion must give reasonable notice to terminate damages

A chattel mortgage must be renewed within 30 days prect
the date of the last filing or it becomes void as against preceding the expiration of one year from A late Chancery Court decision makes the dischanst judgment creditors.
sory upon presentation of the full sum of the discharge of certain real estate mortgages compulPurchasers of Canadian railway tickets may fund of all the unused or unearned portion may demand within 30 days of the issue thereof, a rethe ordinary rate between the points of getting on and stopping off.

Where money has been sent as part payment towards a maturing note with the request or understanding that a renewal be granted for the balance, holders of the note refusing to grant a renewal must return the payment of money to the sender.

The courts are undecided as to the rights of telegraph companies to remove portions of trees interfering with their wires ; but the latter have no right to mutilate them if other courses are reasonably available and open tor the passage of their lines.

An idiot or a person of unsound mind cannot make a will. A will made under fear of bodily injury is void. A gift made by will to an attesting witness thereof, or to the husband or wife of the witness, is void. A will should be signed by the witnesses in the presence of each other and the testator.

Ignorance of the law excuses no one. The law compels no one to do impossibilities. It is a fraud to conceal a fraud.

## CAPIAS-IMPRISONMENT FOR DEBT.

No capias shall issue from any court against the person of any one unless the debt is for an amount over $\$ 100$, and only then upon the affidavit of a person that he knows he is to abscond.
It is supposed imprisonment for debt has been abolished. With the above exception it is, so far as the large debtor is concerned; he may, in spite of executions to any extent, which do not effect his large income or official salary, travel the public ways with every freedom and laugh his debtors (and the courts) to scorn. But an unfortunate and impecunious small debtor, perhaps most likely in receipt of a miserable wage only, may be ordered by the county judge to make such monthly payments towards the payment of the debt as his honor may see fit, and in default committed to jail! A queer anomoly of law !

## ABSCONDER'S GOODS

May be attached upon any attempt to remove them from the Province or County by any person to whom the absconder is indebted, in a sum not less than $\$ 4$, and not exceeding $\$ 100$, or $\$ 200$ if the amount or balance of the original amount is ascertained by the signature of the absconder.

## MECHANICS' LIENS.

Unless there is an express agreement to the contrary, every mechanic, machinist, builder, miner, laborer, contractor or other person doing work upon or furnishing materials to be used in the construction or repair of any building or erection ; or erecting, furnishing or placing machinery of any kind in, upon, or in connection with any building, erection or mine, shall, by virtue - of being so employed or furnishing, have a lien or charge for his price of work, machinery or materials upon such building erection or mines, and the lands occupied thereby, or enjoined therewith, and limited in amount to such sum as is justly due to the person entitled to such lien.

Claims may be filed before or during the progress of the works aforesaid, or within 30 days from the completion thereof, or from the supplying or placing of the macineery aforesaid.

Claims shall cease at expiration of 30 days from the time the work is dune or delivery of material ; and if, within 90 days after registration of claim, no steps have been taken to realize upon it. For prior claims by way of mortgage, etc., see 38 Vic., Chap. 20, Secs. 3 and 4, and for registrations against lands registered under "Land Titles Act, 1885," see 49 Vic., Chap. 16, Secs. 46 and 47.

## GARNISHEE ACT.

No debt due or accruing to a mechanic, workman, laborer, servant, clerk or employee, for or in respect of his wages or salary, shall be liable to seizure or attachment under this Act, unless such debt exceeds the sum of $\$ 25$, and then only to the extent of such excess.

## GOODS OR CHATTELS EXEMPT FROM EXECUTION.

1st. The bed, bedding and bedsteads in ordinary use by the debtor and his family.
2d. The necessary and ordinary wearing apparel of debtor and his family.
3d. One stove and pipes, and one crane and its appendages, and one pair of andirons, one set of cooking utensils, one pair tongs and shovel, one table, six chairs, six knives, six forks, six plates, six tea cups, six saucers, one sugar basin, one milk jug, one tea pot, six spoons, all spin-ning-wheels and weaving looms in domestic use, and io volumes of books, one axe, one saw, one gun, six traps, and such fishing nets and seines as are in common use.

4th All necessary fuel, meat, fish, flour and vegetables actually provided for family use, and not more than sufficient for the ordinary consumption of the debtor and his family for thirty days, and not exceeding in value the sum of $\$ 40$.
6 th. Tools and implemen, two hogs, and food therefor for thirty days.
value of $\$ 60$
occupation, to the 7th. Articles in secs. 3, 4, 5 and 6 are not exempt from seizure in satisfaction of a debt conThe debtor may select out of
the act.
Bees are also exempt, save in section 7. Absconders' goods (goods of absconders) are not
nempt. exempt.

## WAGES-MASTER AND SERVANT.

Any one or more Justices of the Peace, upon the oath of any mechanic, servant or laborer against his master or employer concerning any non-payment of wages, may summon such master or employer to appear before him or them at a reasonable time, to be stated in the summons, and he or they shall examine into the matter of the complaint whether the master or employer appears or not, and upon proof of the cause of complaint the Justice or Justices may discharge such servant or laborer from the service or employment of su:h master, and may direct the payment to him of any wages found to be due, not exceeding the sum of $\$ 40$, and shall make suyand in case of no the said wages as to him or them seems just and reasonable, with costs, Justice case of non-payment, for the space of 21 days after such order has been made, such together with the costs of conviction and of the distress.

## INSURANCE ACT.

Any person may insure his life for the whole term thereof, or for any definite period, for the benefit of his wife, or of his wife and children, or of his wife and some of the children, or for his as he may deem proper, where them, and may apportion the amount of the insurance money
Upon the death of the person whsurance is effected for the benefit of more than one. shall be payable according to the terms of is insured, the insurance money due upon the policy creditors whomsoever. Act, finds himself unable to cone effected or hereafter effects an insurance, on the terms of this Company granting the same, and accept in the premiums, he may surrender the policy to the premiums paid would represent, payable sum as the the said Company may accept such surrender and in the same manner as the original policy ; and any such declaration or direction in farender, and grant such paid up policy, notwithstanding instred.
The person insured may, from time to time, borrow on the security of the policy, such sums as may be necessary to keep the said policy in force, and the sums so borrowed shall be a first lien on the policy, notwithstanding any such direction in favor of the wife and children, or any
or either of them.

## ROAD LAW.

Ist. In case any person travelling or being upon any highway, in charge of a vehicle drawn by one or more horses, or one or more other animals meets, another vehicle dirawn as aforesaid, he shali turn out to the right from the centre of the road, allowing to the vehicle so met one half

In case any person in charge of a vehicle, or of a horse or other animal, used as the means of conveyance, travelling or being on any highway as aforesaid, is through drunkenness unable to drive or ride the same with safety to other persons travelling on or being upon the highway, he shall incur the penalties imposed by this Act.

PENALTIES.
Proved under oath by one creditable witness before any Justice of the Peace having jurisdiction, $\$ \mathrm{I}$ to $\$ 20$ at discretion, with costs, to be paid forthwith or distress enforced, and failing, imprisonment from I to 20 days.

Persons guilty of using profane or indecent language, or driving furiously, are subject to the above penalties.

## EXEMPTIONS FROM TOLL.

Persons going to and from Divine service, and vehicles laden with manure from incorporated villages and towns.

## ROAD MANNERS.

The Road Law now practically gives the traveller the use, for the time being, of the right half of the highway in which to perform his journey, and in its proper enjoyment no one has the right to hinder or obstruct him. The law says the road shall be sufficiently wide to permit of two teams easily passing abreast, and that each team shall turn towards the right Not only does the law apply to teams, but also to conveyances and vehicles of every description. It applies even to foot passengers, who may choose such part of the right side of the road as he may see fit, and teams must yield it to them. This is clearly so in winter, and no one is obliged to step out into the snow for any vehicle.

If the law is so clear for teams meeting one another it is equally so for teams passing. Where a team desires to proceed faster than the, eam it may overtake, the latter or advance team must turn off and allow sufficient space and reãsonable opportunity for the rear and faster travelling team to pass without delay or obstruction

Such is the law whatever the conveyance or load, and whether the one side of the highway be a deep mud puddle and the other side high and dry. But it applies only to the proper use of the road, not to its abuse. No one has a right to feed his cattle there or to cut grass or trees, much less to deposit logs, wood, old wagons and other things thereon. Nor has he a right to mutilate and destroy fences and trees, stone or maltreat animals, and use abusive language. It will simply protect him in his right to pass and repass on it in an orderly and becoming manner.

Now as to boad manners, which in many cases are at variance with the law and sometimes not very creditable to people practising them. Do unto others as you would be done to. Always promptly give the full half of the road space; you will be apt to be equally treated. If your neighbor has a heavy load consult his convenience as far as possible; you may sometimes be loaded. It has been customary to turn out for logs, wood and heavy loads. In winter it is sometimes dangerous for such loads to turn out. But remember it is not a right, it is a favor, and those receiving it should reciprocate-a fact which, I am sorry to say, is seldom done.

## Land measures and homestead laws.

Under the improved system of survey now in force-a system practically in use in all Western States-surveyed lands in Manitoba, N. W. Territories and the Western States are laid oft in four-sided townships of six miles square, containing 36 sections of 640 acres, or one square mile each, which are sub-divided into quarter sections of 160 acres each, and in the case of Canadian
lands is exclusive of road allowances.
The sections of a township are num
diagram read from the north east combered I to 36 , and in the American surveys as per annexed south-east corner. Nos. 16 and 36 form the school Canadian surveys read upwards from the II and 29 those of the Canadian townships, Lots Nos 8 nd 26 American township, and Nos. Bay Company's sections. The School Lands are Nos 8 and 26 in each township are the Hudson in the township, and on the American side care reserved for the support of schools established realized. Where there are railway grants and the section until the upset price of $\$ 7$ per acre is the latter invariably compose the even sections and railway alternate with Government sections, canadian land grants, homesteads pre-emptions, etc. Homesteads, for 160 acres, are available to every mor of the who is the sole head of a family, free of payment, who will the age of majority, or any woman and occupy and cultivate the same for a period of three yill make a continued residence thereon, ing and cultivating each year io or 15 acres-in one Homesteads not exceeding 160 acres and buildings thereon of whatever value self and family. execution.
Pre-emptions, for 160 acres additional, are available to every homesteader whe may occupy and cultivate the same, and will pay. in one sum (some $4 / 10$ of the price) at the end of three years the balance in easy after instalments of $\$ 2$ or $\$ 2.50$ per acre, according to the classin which the lands are situated, and provided that he or she may have fulfilled the obligations of homestead to which the pre-emption is attached.
Entry. - Persons entering upon homesteads must do so within six months of the time of recording certificate of entry, and may not absent himself or herself from the homestead for a longer
period than six months without speciol ficate of entry is $\$ 10$; for pre-emption $\$ 10$ ave of the Minister of the Interior. The fees for certiis issued.
No tree culture claim is allowed as in the United States.

## american land grants, etc.

The pre-emption law gives to any citizen of the United States, and to those who have declared their intention to become such who are heads of families, or single men, or women over the age of 21 years, 160 acres of land within the limits of land granted to any railroad company, at $\$ 2$. 50 and continued residence for one year. $\$ \mathbf{1} 25$ per acre, on condition of permanent improvement
The homestead law grants to year.
the limits, on condition of permanent 1 ler 160 acres beyond railroad limits, or 160 acres within out costs, except land office fees, whimprovement and continued residence for five years, withment price, $\$ \mathrm{I} .25$ or $\$ 2.50$ as the case may be, the settler may prove acres. By paying Governexpiration of one year's continued reside, Hettler may prove up and acquire title at the longer period than six months at any one time withinesteaders cannot absent themselves for a cally make the homestead their home for the walance of the two years or so, and must practitheir claim and improvements do not transfer therewith the period of completeaders disposing of vices. 160 acres, either within or without the limits of a railroad grant, on condition that one-sixteenth of the land so taken shall be planted with trees, cultivated and protected for eight years, when final proof can be made and patent secured.

Under the operation of these laws, any settler (every son and daughter of a family, if of age) can secure from 240 to 320 acres of land at a most trifling cost. Homesteads in regions requiring irrigation cover 640 acres.
Homesteads are exempt from execution. Until lands are patented no taxes are payable.
A person cannot take up a homestead and a pre-emption at the same time. But a homestead and a tree claim, or a pre-emption and a tree claim may be held at the same time, and in the latter case he or she may prove up on a pre-emption and then enter upon a homestead. Entry upon a homestead must commence within 6 months after recording same ; upon a pre-emption at once.

तथा Descriptive Land Pamphlets, giving full particulars of lands, to be had, of James Soutar, Chatham.

## HANDY FACTS FOR EVERYBODY.

A cask of lime ( 240 lbs .) will make from $74-5$ to 8 cubic feet of stiff paste.
A cask of cement ( 300 lbs .) will make from 37 -Io to $3 \frac{3 / 4}{}$ cubic feet of stiff paste.
Eight (8) bushels of good lime, 16 bushels of sand and one bushel of hair will make enough good mortar sufficient to plaster 100 square yards of wall. One-third barrel stucco and four times the same in white sand will hard finish 100 yards.
Two thousand ordinary sized lath, 13 lbs. nails, $31 / 2$ barrels lime, 3 bushels hair and 6 loads sand will plaster 100 square yards of two slipped-coats of wall.

Two thousand ordinary sized lath, 13 lbs. nails, 4 bushels hair, 4 barrels lime, $2 / 3$ barrel lump lime, one-half barrel cement, $21 / 2$ bushels white sand, and 7 loads ordinary sand will plaster 100 square yards of three-coat hard finished walls.
Stone mortar requires 8 parts cement, 3 parts lime and 31 parts sand. Brick mortar requires 8 parts cement, 3 parts lime and 27 parts sand. Coarse brown mortar (common lime mortar) requires I part lime, 2 to $21 / 4$ parts sand and $\mathrm{I}-6$ part hair.
A cord ot stone, 3 bushels of lime and a cubic yard of sand will lay 100 cubic feet of wall. One (I) barrel of lime (it must be good) will lay 1000 brick; 2 barrels of lime one cord of rubble stone.

To the cubic foot it will take 15 bricks for an 8 inch, $221 / 2$ for a twelve ( $\mathbf{1} 2$ ) inch, and 30 for a sixteen (16) inch wall of standard bricks- $8 \times 4 \times 2$ inches. Mortar will fill $1-6$ space.
Five courses of brick will lay one foot in height on a chimney; six bricks in a course will make a flue eight inches wide and twelve inches long, and eight bricks in a course will make a flue eight inches wide and sixteen inches long.

One thousand shingles, laid 4 inches to the weather, will cover 100 square feet of surface, and 5 lbs . of shingle nails will fasten them on.

It takes 9 shingles to the square foot if exposed 4 inches to the weather; 8 shingles if exposed $41 / 2$ inches, and $71-5$ shingles if exposed 5 inches to the weather.

One fourth pitch of a roof takes rafters $9 / 16$ th the width of a building; one-third pitch 3-5 the width. A building 30 feet wide will require 18 -foot rafters, exclusive of projection.

A square of slating (or slate) is ICO superficial feet, standard lap, 3 inches. The pitch of a slate roof should not be less than one inch in height to four inches in length. The dimensions of slates are from $7 \times 13$ to $16 \times 24$ inches, in thickness from 316 to $5-16$ of an inch and in weight from $21 / 2$ to $41 / 2 \mathrm{lbs}$. per square foot.

One-fifth more siding and flooring is needed than the number of square feet of surface to be covered, because of the lap in the siding and matching of the floor.

Laths are from $1 / 4$ to $I^{1 / 2}$ inches by 4 feet long, and a bundle contains 100.

## INTERESTING FACTS AND USEFUL THINGS TO KNOW.

Kerosene applied with a rag to stoves will keep them from rusting during the summer. It is also an excellent preservative to apply to all iron utensils about a farm.

To prevent lamp chimneys from cracking put them into, a kettle of cold water and gradually heat until it boils, and then let it as gradually cool.

To cleanse mica take a little vinegar and water and wash it carefully with a soft cloth ; the acid removes all stains, and if a little pains are taken to clean the corners thoroughly and wipe them dry, the mica will look as good as new.

To purify water apply alum in a powdered state at the rate of one tablespoonful to a hogshead of water ; stir well. At the end of a few hours the water will be clear and fresh
If you clean your mirror with a soft paper instead of a cloth, time and trouble will both be saved, as there will be no lint, and the glass will have a better polish.
To remove stains from ivory take two tablespoonfuls of boiling water, and in it dissolve as much oxalic acid as will lie on a sixpence. Dip a linen rag into the solution whilst it is hot, and rub the stains with it. When they disappear the ivory must be wiped with a damp sponge.
To drive nails, screws, etc., in hard wood dip the points in soap or grease before driving. To draw nails give them first a smart blow to start them from their rusted position. To clinch cut nails first heat them red hot, then dip them into cold water.
A spoonful of salt thrown upon a coal fire while it is low will help it very much.
Oil can be removed from carpets or woolen stuff by applying dry buckwheat flour plentifully. use water
Cut fingers and bruises of all kinds, if wrapped in cloth wet in alum water, heal with a rapidity that is truly wonderful.

For the sting of a bee use ammonia, wet salt, or a slice of an onion.
Protecting window plants. Few people seem to realize the protection there is in common brown paper, or in the ordinary paper on which newspapers are printed. In a fairly well-constructed dwelling house, if the plants be taken from the windows in the evening, placed in a corner near the fireplace free from draught, with a newspaper thrown over them, they would generally be safe.

One part carbolic acid to eight parts olive oil in saturated linen rags spread over burns or scalds and covered with oil silk to exclude the air is an excellent remedy.

The best emetics to take in case of poison being swallowed, is common mustard mixed in warm water, or tartar emetic in warm water. After thorough action continue by giving warm
water alone.
Kerosene will remove stains from clean varnished furniture ; it will also soften boots hardened by water, and will also, if applied with a rag, make your tea-kettle as bright as new. A piece of rubber belting tacked round the pulley will prevent belts from slipping.
Carbolic acid is the best of all disinfectants, and if applied with a considerable volume of sand or freely diluted in water, is the best for water closets and out door use. In sick rooms equal parts of turpentine and carbolic acid, say a half teaspoonful in boiling water from time to time repeated, is an excellent disinfectant and air purifier.
Rubbing the glass of windows inside and outside with glycerine will prevent their frosting in cold weather.
An earthen bowl full of quick lime, which should be changed when slacked, will remove all damp and mildew from closets.
If the inner sash of shop front windows are made close fitting the outer or street windows may be kept free from frost by simply boring small holes and permitting the outside air to freely enter the space between the windows.

## THINGS NOT GENERALLY KNOWN.

That 30 inches by 9 feet space for horses and 32 inches by 9 feet space for beeves is required in the transportation of the same.

That the carload is nominally 2000 lbs ., as it is also 70 bbls . of salt, 70 bbls . of lime, 90 bbls . of flour, 60 bbls. of whiskey, 340 bushels of wheat, 400 bushels of barley, 400 bushels of corn, 680 bushels of oats, 300 bushels of flax seed, 366 bushels ( 140 bbls .) of apples, 340 bushels of potatoes, and 1000 bushels of bran.

That the carload is also 18 to 20 head of cattle, 50 to 60 head of hogs, 90 to 100 head of sheep, 9,000 feet of dry solid pine boards, $\mathbf{1 7}, 000$ feet siding, 40,000 shingles, and 6 cords of soft wood, That a ship's register is 100 cubic feet to the ton; a ton of shipping 40 cubic feet. Grain in bulk 33.16 bushels to the ton.
That a cord of wood is $8 \times 4 \times 4=128$ cubic feet ; a toise of stone $6 \times 6 \times 6=216$ cubic feet.
That the standard barrel is: Length 28 inches, diameter of head 17 inches, diameter at buing 19 inches, and volume 7689 cubic inches.
That a barrel of pork weighs 200 lbs ., a barrel of flour 196 lbs ., a barrel of rice 600 lbs , a barrel of salt 280 lbs , a barrel of lime 240 lbs ., a barrel of cement 300 lbs .
That a hand is 4 inches long, a span 9 inches, a fathom 6 feet, a league 3 miles, and a sea mile 6140 feet
That the shoemaker's numbers are $28-\mathbf{I}$ to $\mathbf{I}_{3}$ and $\mathbf{I}$ to 15 , the difference in each length being .333 or $1 / 3 \mathrm{~d}$ inch.

That lime in slaking absorbs a mean of $21 / 2$ times its volume and $21 / 4$ times its weight in water.
That lime and sand and cement and sand lessen about $1 / 3 \mathrm{~d}$ in volume when mixed together.
That from 8 to 12 per cent. loss (in weight) in the ordinary storage of coal will be sustained in a period of 12 to 24 months.
That the average weight of men is $1411 / 2 \mathrm{lbs}$.; that of women is $1241 / 2 \mathrm{lbs}$.
That trees in the early part of April contain 20 per cent. more water than they do in January.
That sea water contains from 4 to $51 / 3$ ounces of salt per gallon and weighs $641 / 3 \mathrm{lbs}$. per cubic foot.
That a cubic foot of fresh water weighs $621 / 3 \mathrm{lbs}$., and a cubic foot of ice $571 / 4 \mathrm{lbs}$.
That the British gold standard is II parts gold and I part alloy; the American standard 9 parts gold and I part of alloy, or $331 / 3$ cents in favor of the British.

That the British silver standard is 37 parts silver and 3 parts alloy ; the American standard 9 parts silver and I part alloy, or 3 cents in favor of the British.

That the value of a ton of pure gold is $\$ 602.799$, and the value of a ton of pure silver $\$ 37,705$.
That the weight of a ton in cubic feet of loose earth is 24 ; coarse sand, 183.5 ; clay, 183.5 ; earth with gravel, $174-5$; clay with gravel, $142-5$; and common soil, $153-5$.
That $\$ \mathrm{I}, 0 \mathrm{oco}, 000$ of gold coin will weigh $3,685.8 \mathrm{lbs}$. avoirdupois, and $\$ \mathrm{r}, 000,000$ of silver coin will weigh $58,925.9 \mathrm{lbs}$.
That the curvature of the statute mile is 7 inches; of a nautical mile, 7.96 inches.
That lager beer contains 2 to 5 per cent. alcohol ; old cider, 5 to 9 ; ale, 7 to 10 ; elder wine, 8 to 9 ; and gooseberry wine, II to 12 per cent.
That a cordwood pile contains per cord of 128 cubic feet but 71.68 of wood, the balance being 56.32 feet of space.
That the greatest sea depth as ascertained by sounding is $51 / 4$ miles or 25,720 feet. The greatest sea waves never exceed 22 feet in height.
That the forms of religion practised in the world number 1,000 , and the number of languages spoken number 3,064.

That the Old Testament contains 2,728,100 letters, 592,493 words, 23,214 verses, 929 chapters, and 39 books.
That ihe New Testament contains 838,380 letters, $18 \mathbf{I}, 253$ words, 7,959 verses, 260 chapters, and 27 books.
That the famous "Mason and Dixon Line" was so named from the fact that it was run by the British engineers Charles Mason and Jeremiah Dixon between 15 th November, 1763, and 26th December, 1767.

That the Canada Company was nominally established to pay off the $\mathbf{1 8 1 2}$ war losses, receiving their lands $\mathbf{1}, 200,000$ acres for $2 \mathrm{~s} .101 / 2 \mathrm{~d}$. stg. per acre, but practically owing to allowances, for Is. $101 / 2 \mathrm{~d}$. stg. per acre.
That 2 inches good clear ice will bear men to walk; 4 inches, horses and riders; 6 inches to 8 inches, teams with light to heavy loads; and io inches will sustain a pressure of 1,000 pounds per square foot.

## RULE TO ESTIMATE THE WEIGHT OF CATTLE BY MEASUREMENT.

Measure with a tape line from the top of the shoulder to the tail head, and mark this for length; then measure the girt immediately behind the shoulder, and mark this for the girt. Multiply the girt by itself in inches, and divide the product by the length in inches. Divide the product by $7: 344$, and the quotient is the weight in imperial stones, which to reduce to pounds, multiply by eight. If the animal is very fat add $\mathbf{I}$-20th, if lean deduct $\mathbf{1}$-2oth; the skin will weigh $\mathbf{I}-16$ th ; the tallow i-12th. No rule can be regarded as absolutely correct. Formation of animal, breed, fattening condition will alter cases.
Another Way.-Multiply half the girt by itself in feet, and the same by the length in feet, and the product will be the net weight in stones of eight lbs. each.

## RULE TO MEASURE GRAIN IN A BIN OR BOX.

Multiply the length by the width, and the product by the height, all in inches; divide by 2150 (the capacity in cubic inches of the Winchester bushel, the English being 2218-2), and the product will give the number of bushels in the bin. The grain should be spread level.

## RULE TO MEASURE CORN IN A CRIB.

Measure the width, depth and length, and multiply as with grain bin, in inches; divide the product by 4.300 , and the quotient will be the number of bushels. Where the crib is wider at the top than the bottom, measure for width at such a height as will give you true width.

## RULE TO MEASURE ROOTS IN A PIT OR ROOT HOUSE.

Ascertain the cubic dimensions in inches as in preceding rules for grain, making allowance for the slope of the ridge by measuring only half the hright level the top and have a solid cubic heap. A space which would hold as would be required to the ear, would hold thirty of roots and forty of grain.

## RULE TO MEASURE HAY IN THE STACK OR MOW

If it be a square or oblong stack with a pitched roof, measure the height in feet from the bottom to the eaves; add to this half the height from the eaves to the ridge, and altogether this will give real and total height. Multiply the total height by the breadth, and both by the length. tiply the number of cubic yards quotient will be the number of cubic yards in the stack. Mul-correct-to say 80 lbs . for a new sta weight in lbs. of a single cubic yard, which will be pretty year old-and the product will be the conolbs. for one a few months old, and 112 lbs . for one a ber of lbs. in a ton, and the quotient will give of the stack in lbs., divide this by 2,000 , the numa round stack, find the height of the eaves and the number of tons. To find the weight of hay in to the top, which will give the true height. Mad one-third of the measurement from the eaves duct by the decimal, .0795; this will give the area cf girth, multiply it by itself and the proheight, and the product will be the contents of the stack in cubic. Meet ; diply the area by the true as with square stacks.

To estimi.te contents of mows, where the top is level square stack, omitting the allowance for the sloping roof.

TABLE OF STANDARD WEIGHTS OF GRAIN, SEEDS, ETC., PER BUSHEL.

## TABLE GIVING QUANTITY OF SEED USUALLY SOWN UPON AN ACRE, <br> name of seed

| NAME OF SEED. |  |

## CARPENTER'S, PLASTERER'S AND BRICKLAYER'S WORK.

To find how many Square Yards in a Floor or Wall ; multiply the length by the width oy height (in feet) and divide the product by 9.
How many Square Yards in a Floor 18 ft . long and 14 ft . wide ; $\mathbf{I}^{2} \times 18=252$ sq. feet.
and how many yards of Carpet $3 / 4$ yard wide, will it take?
To divide by a Fraction, multiply the number by the denominator, and divide the product by the numerator.
To multiply by a Fraction, multiply by the numerator and divide by the denominator.
9) $252(28$ sq. yds. Ans.

$$
\begin{array}{r}
28 \\
4 \\
\hline
\end{array}
$$

3) $112(371 / 3$ yds. carpet.

Fi.al how many Square Yards in the four walls and ceiling of a room $18 \mathrm{bv} 20,1 \mathrm{ft}$. high ; and the Cost of plastering the same at 15 cts . per square yard.

The length of the four walls is (twice 20 and twice 18) 76 feet, which multiplied by the height, gives the sq. ft. in he walls. The length multiplied by the width, gives the sq. ft . in the ceiling,
$76 \times 1 \mathrm{I}=836 \mathrm{sq} . \mathrm{ft}$. in four walls. $18 \times 20=360$ " " ceiling.
9) $1196(133 \mathrm{sq}$. yds. nearly.

$$
.15
$$

Ans. $\$ 19.95$ for plastering.

To measure Square Timbers : multiply the length, width and thickness together, and dividethe product by 12 .
How many square feet in a joist $2 \times 8,18 \mathrm{ft}$. long ? $2 \times 8 \times 18=288 \div 12=24 \mathrm{ft}$. Ans.

$$
\text { sill } 8 \times 8,22 \mathrm{ft} \text {. long ? } 8 \times 8 \times 22=1408 \div 12=1171 / 3 \mathrm{ft} \text {. Ans. }
$$ BRICKS.

To find the number of bricks required in a building : Rule-Multiply the number of cubic feet by $22 \frac{1}{2}$. The number of cubic feet is found by multiplying the length, height and thickness (in feet) together. Bricks are usually made 8 inches long, 4 inches wide and 2 inches thick : hence it requires 27 bricks to make a cubic foot without mortar, but it is generally assumed that. the mortar fills $\mathbf{I}-6$ of the space.
To the cubic foot, it takes 15 for an eight inch., $22 \frac{1}{2}$ for a twelve inch, and 30 for a sixteen inch Wall.

How many Brick will it take to build a house, whose walls are 156 ft . long, 20 ft . high and 16 inches ( $11 / 3 \mathrm{ft}$.) thick ; deducting $640 \mathrm{cu} . \mathrm{ft}$. for doors and windows ?
$156 \times 20 \times 11 / 3=4160 \mathrm{cu} . \mathrm{ft}$.
Less $640=3520 \mathrm{cu} . \mathrm{ft}$. $22 \frac{1}{2}$

Ans. 79200 brick.

SHINGLES
required in a roof. To the Square Foot, it takes 9 if exposed 4 inches ; 8 if exposed $4 \frac{1}{2}$ inches, and $7 \mathbf{1}-5$ if exposed 5 inches to the weather.

Find the number of Shingles required to cover a roof 38 ft . long, and the rafters on each side 14 ft . Shingles exposed $4 \frac{1}{2}$ inches.

$$
28 \times 38=1064 \underset{\text { CISTERN M SASURE. }}{\text { (sq. ft.) }} \times 8=8512 \text { shingles. Answer. }
$$

To find the capacity of a round cistern or Tank ; multiply the square of the average diameter by the depth, and take $3-16$ of the product. For great accuracy, multiply by 1865 instead of taking 3-16.

For square Cisterns or Tanks ; multiply the cu. ft. by $23 / 8$ (tenths.)
Find the capacity of a round Cistern, 6 ft . in diameter and $6 \times 6 \times 8=288$ 8 ft , deep.

$$
\text { Ans. } 54 \text { bbls. of } 31 \frac{1}{2} \text { gals. }
$$

How many barrels will a square Tank hold, 10 ft . long, 7 ft . wide and 6 ft . deep? $6 \times 7 \times 10=$ .420 (cubic feet) $\times 23 / 8=99{ }^{3} \mathrm{bbls}$. Ans.

```
- WOOD MEASURE.
```

To find the contents of Cord Wood ; multiply the length, width and height together and divide the product by 128 .

How many Cords in a pile of Wood 4 ft . wide, 5 ft . high and 24 ft . long ? $4 \times 5 \times 24=48 \mathrm{o}$ (cu ft.) $\div 128=33 / 4$ cords.

BARREL MEASURE.
To find the contents of a Barrel or Cask ; multiply the square of the average diameter by the depth, and this product by 0034 .

How many Gallons will a Barrel hold, 20 inches in diameter and 32 inches deep ? $20 \times 20 \times 32=12800 \times 0034=43.52$ gals.

## TO MEASURE IRREGULAR LAND SURFACES :

To find the number of acres in a rectangular piece of land (a rectangle has all square ccrners) -Multiply the length by the breadth (in rods) and divide by 160 ; or, if the dimensions are measured in feet, divide by 43,560 . When the opposite sides are unequal, add them, and take half the sum, for the mean length or width.

Find how many Acres in a field, 96 rods 2$) 85=40 \times 45 \quad 96$ Length. long and 40 rods wide at one end, and 45 at the other. Answer, $25 \frac{1}{2}$ acres.
$42 \frac{1}{2}$ mean width. 160$) 4080\left(25 \frac{1}{2}\right.$ acres.
To find the Circumference of a Circle ; multiply the diameter by 3.1416. To find the Area of a Circle ; multiply the square of the diameter by . 7854 To find the Surface of a Globe ; multiply the square of the diameter by 3.1416. To find the Solidity of a Globe ; multiply the cube of the diameter by .5236 .

## INLAND REVENUE RETURNS

Show that the consumption of Spirits in Ontario per head of population has decreased within the past 20 years fully one third, and tobacco has increased in the same period fully cne-half. The consumption of beer has also increased considerably, nearly $1 / 4$ th since 1875.

For the Dominion the consumption per he. 1 in round figures is : $11 / 4$ Galls. Spirits ; $n \frac{1 / 2}{2}$ Galls. Beer ; Petroleum the same as Spirits and Tobacco 2 lbs . The selfish and filthy habit of tobacco using might also very fitly enter the denunciatory category of temperance enthusiasts.

An average of the past 2 or 3 years show that $25,000,000$ lbs. grain was used, $1,400,000$ galls. of proof spirits made and $\$ \mathbf{I}, 400,000$ duty paid each year at Walker's Distillery, Walkerville.

## "CONSUMMATIONS DEVOUTLY TO BE WISHED."

County Councils of 5 members elected directly by the people.
Township School Boards of 5 members elected directly by the people.
Statute Labor payable in labor abolished, and its substitution by cash payments.
Road Masters abolished and the appointment of one capable township Road Commissioner, instead.

Better paid Municipal Officials-Clerks, \&c., and their positions protected, and not as now, practically exposed to the lowest bidder independent of qualifications.
The levelling and rolling of newly graded road work made compulsory; also the dumping of earth from public ditches upon the public road prevented unless done in a manner not to interfere with the comfort and safety of travellers

Exemptions from taxation abolished-let it be whatever person or whatever property.
More equality in taxation, so that the poor would not bear the heaviest burden of it.

## THE Western Counties HISTORICAL GAZETTEER.

A surfeit of County, Directories-Compilations generally composed of reproduced assessment rolls and voters' lists of rural municipalities, burden the shelves and desks of business and professional people. The equally necessary town and village directory, because more laborious and costly to compile, is unseen. We purpose to supply the want.
Not only will we furnish a full, complete and reliable directory of names of the business, professional and trades people and chief inhabitants of all towns, villages, hamlets and country places in the western counties of Ontario, but will also give, what shall be the chief fcature of the work, a short succinct sketch of the early settlement, chief settlers and historical associations of each place; its resources and industries; railway, shipping and banking facilities; express, postal, telegraph and telephone service ; school and church accommodation. It will also combine a general sketch of the district.

It will enumerate and locate all post offices, school houses, churches, mills, dairies, cheese factories, stock farms, bee farms, nurseries, not forgetting the oil and salt companies, and other institutions and industries.
It will contain a classified business list not only of business people of the towns and villages, but mill owners, stock raisers, stock buyers, auctioneers and other traders resident in the country.
It will embrace the political and municipal history of the district generally, that of the different municipalities, and, in tabulated form, a list of all past district and county councillors and officials.
It will contain much statistical information respecting the district, which will be put in tabulated form for purposes of comparison.
Accompanying the descriptive and historical sketches will be given fine illustrations of public buildings and institutions, and portraits of old settlers, leading and representative men of the different localities.
It will also contain, by way of an appendix, much general, useful information :- tables, ${ }^{\text {Trules, }}$ weights, measures, laws and tabulated infurmation generally, by the score.-Price $\$ 3$.

## WANTED.

2057 Capable and reliable persons in every chief town and locality are wanted to obtain reliable information, list the inhabitants, etc., and to solicit subscriptions.
Persons in possession of old and rare books and documents, information and anecdotes respecting old settlers, localities and times-let such be papers apparently worthless and events apparently frivolous-will much oblige by communicating the same to the publisher. Reliable and useful information paid for. Books, etc., will be carefully preserved and returned.

JAMES SOUTAR,
PUBLISHER,
Chatham, Ont.
