DEATH OF GRAND DUKE NICHOLAS IS RUMORED

Fresh Outbreak Of Rioting And Looting In Petrograd—Nothing But Unconfirmed Rumors From Best-Litovsk

London, Feb. 8.—An exchange of telegrams from Amsterdam says the German newspapers report the death of the former Grand Duke Nicholas Constantinevich, as the death of the famous Russian military commander, the Grand Duke Nicholas Nikolaevich, and the Nicholas, of Denmark, is reported as having died of cholera and under mysterious circumstances.

London, Feb. 8.—Fresh outbreaks of rioting and looting in Petrograd are chronicled in special despatches from the Russian capital. Wine cellars, jewelry shops and clothing, food and drug stores are being plundered.

Troops employed to suppress the disturbances did much shooting, in which it is estimated that 120 persons were killed. By firing on the mobs the rioters have been able to quell the rioters at intervals during the last three days and nights, but the orgy begins again elsewhere.

Fighting between the Bolsheviks and the Cossacks is said to be increasing in the south and southeast of Russia, where the Cossacks are joining the Bolsheviks in increasing numbers. General Kaledin and Alexieff are reported to have fled from their headquarters at Novo Tcherkassk. General Alexieff is acting independently and is said to be in command of 30,000 men who are marching toward Moscow.

London, Feb. 8.—Silence concerning the negotiations at Brest-Litovsk continues, except for unconfirmed rumors in the German newspapers. It is reported, without foundation, that a deputation of Russian troops from the Bukovina front is on its way to Brest-Litovsk.

The judgment of the court in the case of the Telegraph Company, quoted a message from Sofia, as saying that the suit of the company against the Ex-Imperial Bank, which was announced that the company had lost the case, was a great victory over the Bolsheviks, taking 200 machine guns and 200,000 rifles. It adds that a Bolshevik attempt to capture Kiev failed, the Bolsheviks losing 8,000 men.

THOMAS H. LYDON, Thomas H. Lydon, of Lakewood, superintendent of the Little River reservoir, died this morning at his residence after a lingering illness. He was forty-nine years old. Mr. Lydon, prior to accepting the position as superintendent of the Little River reservoir, was the day clerk at the Water and Sewerage department. Besides his wife he leaves five sons, Russell, Murdock, LeBaron, Kilborn and John; six daughters, Catherine, Helen, Marjory, Beatrice, Dorothy and Carmela, all at home; two sisters, Mrs. Frederick R. Nash of Lynn, Mass., and Mrs. Arthur Rickett of Guilford, Miss. The funeral will take place on Sunday afternoon from the late residence. Mr. Lydon was a very popular citizen and his death will be learned with general regret.

TURKEY IS IN COMPLETE ACCORD WITH HER ALLIES

Statements By German Chancellor Confirmed By Turkish Foreign Minister—Future Policy For The Dardanelles

Amsterdam, Feb. 8.—Turkey is in complete accord with the attitude of Germany and Austria, as expressed in the recent speeches of the German chancellor, Count Von Hertling, and the Austrian foreign minister, Count Czernin, the Turkish foreign minister, Neshim Bey, told the chamber deputies yesterday. He also declared:

"The Dardanelles will remain open in the future to international traffic, as in the past, and on the same conditions."

In his address, as forwarded from Constantinople by way of Vienna, the foreign minister said great difficulties had arisen in connection with the peace negotiations at Brest-Litovsk, but that he had not lost hope. While he was aware of the great desirability of concluding peace, he said, "we never will conclude peace at any price."

Referring to the war aims speeches of Premier Lloyd George and President Wilson, Neshim Bey said:

"We adhere to the standpoint that the fate of national groups which were not independent before the war cannot be regulated except by means of institutions created in accord with the constitutions of each individual country. The foreign minister said he rejected all proposals which meant interference in the internal affairs of the country."

He also declared that he was in complete accord with the German and Austrian policies.

SUBSTANTIAL RECOVERY New York, Feb. 8.—(Wall Street)—Substantial recovery from yesterday's slump was shown by the early dealing on the stock exchange today. Trading declined with the progress of these issues. Liberty second 4's reflected further selling at the low record of 95.72.

UNITED STATES UNDISMAYED BY TUSCANIA DISASTER

Loss of Men on Transport Arouses Fresh Determination To Carry On The War—British Comment—Must Keep The Sea Lanes Clear—Total Of Missing Now Placed At 113; But Later Estimate Says May Be Nearer 200

Washington, Feb. 8.—Advice to the war department accounting for all except 113 of the 2156 American soldiers who were aboard the Tuscania when she was torpedoed Tuesday night, remained unchanged today and officials anxiously awaited additional details expected to clear up the conflict with foreign figures on the losses.

Reports that the British destroyer which was convoying the Tuscania pursued and sank the submarine lack confirmation and the report of the British admiralty is eagerly awaited. Navy officials are inclined to the view that the Tuscania incident is an isolated case and have no reason to change their view that the submarine menace has been overcome.

HOW THE SOLDIERS STOOD THE TEST. London, Feb. 7.—How American soldiers behaved when they found that the boats assigned to them on the Tuscania had been smashed is told by an American officer who landed at an Irish port. The officer said that his men behaved as he had expected them to. Two full boat loads under his command assembled on the deck when the torpedo struck the liner and marched to the boats assigned to them. Arriving at their station they found that both boats had been destroyed.

"The men lined up on deck at attention," said the officer, "and all preserved the utmost composure until a destroyer came along side and effected the transfer from the gradually sinking deck."

"We stood alongside until the last man was taken off, who might be expected, was the commander of the ship. The 100 men in the ship's hospital, including several cases of scarletina, and fever, were among the first taken off."

London, Feb. 8.—Revised figures indicate that the loss of life on the Tuscania probably was considerably in excess of yesterday's revised estimates. It is now believed complete returns will show the number of dead to be nearer 200 than 100.

London, Feb. 8.—That the sinking of the liner Tuscania will stimulate the United States to even greater resolve and sterner efforts on behalf of the fight for democracy is the opinion generally expressed in editorial comment in the morning newspapers.

Satisfaction is expressed and congratulations are extended that this, the first disaster to many American transports, should show the captives of the German boat that the submarines would render the transportation of the American armies impossible and would intimidate the Americans. Nevertheless, it is declared, it is too much to hope that the Tuscania would be the last victim, though the conviction is expressed that the American nation realize fully the difficulties ahead and is prepared to meet them.

Some of the editorials say that the submarine menace has not yet been mastered and remains a grave problem to which the Allies, especially Great Britain and the United States, must devote all their energies in view of the imperative need of keeping the Atlantic route open.

The Daily Telegraph says: "The Americans have defied the pirates all these months and we are convinced that the executive of the labor organizations tonight to nominate a representative of labor. Mr. Gibbons, whose name was among those submitted, will represent organized labor on the board. The powers and duties of the board are officially announced as follows:

1.—To have direction of licenses for export and to make recommendations with regard thereto.

2.—To have direction of license for import and applications to the proper authority for exportation and to permit to export to Canada and to make recommendations with regard thereto.

3.—To undertake and carry out such supervision as may be necessary of all industrial and commercial enterprises and by co-operation with producers to prevent waste of labor, of raw materials and of products.

4.—To make recommendations for the maintenance of the more essential industries as distinguished from those of a less essential character.

5.—To investigate and keep records of the country's stock of raw materials, partially finished products and finished products and when necessary to direct their distribution so as to obtain the best results in the national interest.

6.—To consider and recommend methods of curtailing or prohibiting the use of fuel or electrical energy in the less essential industries.

7.—To direct priority in the distribution of fuel, electrical energy, raw materials and partially finished products.

8.—To investigate generally conditions of trade, industry and production (except food production) and to make recommendations with regard thereto.

9.—To work in co-operation with the Canadian war mission at Washington and through that mission or otherwise to co-operate with the war trade board of the United States or other bodies constituted for the like purpose with a view to securing the most effective unity of action by the two countries for war purposes.

A new order-in-council creating the board also contains a proviso that nothing therein shall take away or affect the power of the food controller. It contains a further proviso that for the present the powers of Mr. Magrath as fuel controller and of Sir Henry Drayton as controller of electrical energy shall continue pending further arrangements as to united control and direction in both fuel and power.

Organized Labor Will Be Represented THEIR DUTIES

To Have General Supervision Over Matters Affecting Production, Imports and Exports—Not to Affect Controllers

Ottawa, Feb. 7.—The government has decided to create a war trade board. The members are: Sir George Foster, minister of trade and commerce; Frank P. Jones, Montreal; John W. McConnell, Montreal; James H. Gandy, Toronto; Charles B. McLaughlin, Toronto; and J. Gibbons, Toronto.

C. W. MacCrath as fuel controller and the Hon. H. Dapault, as chairman of the war production commission, are to be members of the board as ex officio. The minister only serve to stimulate and steady them.

ALLIED MISSIONS REPORTED DRAWN FROM PETROGRAD

Said To Be On Way To Swedish Border, According To Unconfirmed Story—News From The War Fronts

Washington, Feb. 8.—An unconfirmed report that all the Allied missions at Petrograd had been driven out by the Bolshevik government and are on their way to the Swedish border, was received today at the state department through American Minister Morris at Stockholm. The department was not heard from Minister Francis at Petrograd since February 2.

The German artillery has been active north of St. Quentin, according to an official statement issued by the war office today. It reads: "The hostile artillery was active during the night in the neighborhood of Fiesquiers. On the remainder of the front there is nothing of interest to report."

Aerial Operations. London, Feb. 7.—An official announcement dealing with aerial operations issued tonight follows:—"More than a ton of bombs were dropped Wednesday on various targets behind the enemy's lines. Two hostile machines were downed in the air fighting. Two of our machines are missing."

Macedonia. Paris, Feb. 7.—The official report from the war office tonight on operations in Macedonia reads:—"In the environs of Sokol, Serbian infantry repulsed an enemy reconnoitering party. The artillery was active north of Monastir."

"Allied aviators have bombed with success enemy encampments in the valley of the Vardar. Two enemy airplanes were brought down."

Found No Soldiers. With the American Armies in France, Feb. 7.—(By the Associated Press)—The American artillery is keeping up a harassing fire on the German lines, bombarding batteries, trenches, cross roads, dugouts, light railways and houses in which enemy troops are billeted. Patrols have been active. An American patrol last night quietly raided a German trench. They found a loaded rifle on the parapet and frequent foot prints but no soldiers.

PROPOSES INCOME TAX OF FOURTEEN PER CENT. Paris, Feb. 7.—The minister of finance has proposed to raise the income tax from 12 1/2 per cent to 14 per cent.

ABSOLUTE DECREE IN TWO CASES

Fredrickson, Feb. 8.—In the court of divorce and matrimonial cases for New Brunswick, His Honor Judge Crockett this morning granted decrees of absolute divorce in the suits of George Allen Merrill vs. Esther Lillian Merrill and Margaret M. Gerow vs. Bertson L. Gerow, and gave a decision concerning costs in the suit of Harry T. Ward vs. Ward in which divorce was previously refused.

The judgment was that costs shall be taxed by the registrar as between party and party, that there shall be taken from the bill all amounts paid by way of suit money and that the balance be paid to the defendant's proctor within twenty days of taxation.

The suit of Hawkes vs. Hawkes came from Albert county. A. T. Goodwin of Moncton, proctor, is refusing to grant the divorce. The court stated that it was clear that the plaintiff had abandoned and deserted his wife, also that he was not satisfied with the plaintiff's evidence concerning the desertion by the wife, and that the conduct of plaintiff was such that it added to the offense proved on the part of the defendant and so the plaintiff was not entitled to relief at the hands of the court.

Optical Service That Satisfies

The personal element is emphasized in our Optical Department. Real interest is taken in each eye problem. It is not a matter of selling a pair of glasses, but of performing a professional service in a way that accomplishes the best results for the patient.

The eyes are examined with painstaking care. If glasses are required, they are made and fitted to improve, protect and preserve vision. If they are not needed, we say so frankly. It is service, we will like, and profit by. Use it.

THE WHOLE BODY NEEDS PURE BLOOD

The bones, the muscles, and all the organs of the body depend for their strength and tone and healthy action on pure blood.

If the blood is very impure, the bones become diseased, the muscles become enfeebled, the step loses its elasticity, and there is inability to perform the usual amount of labor. The skin loses its clearness, and pimples, blotches and eruptions appear.

Hood's Serravallo makes pure blood. It is positively unequalled in the treatment of scurvy and other humors, catarrh, rheumatism, dyspepsia, loss of appetite, that tired feeling. Be sure to get Hood's and get it today. All druggists.

VALLEY RAILWAY AFFAIRS AT FREDERICTON—Wm. Fincklewell Retires—Government In Session

Fredericton, Feb. 8.—Capt. Howard F. G. Woodbridge who left Canada with the 53rd Battalion, is expected to arrive here tonight, having landed at Halifax recently. He served in France and suffered shell shock there some time ago. The board of education of the province met here last night, all members being in attendance. Only routine business was transacted. Dr. W. S. Carter, chief superintendent of education, left for St. John this morning on official business. The directors of the St. John and Quebec Railway were before the provincial government this morning, and being late in construction, but one very important thing done by the directors was the adjustment of the accounts of the railway with the Dominion government. The directors were in the province for that purpose; settlement being made at Ottawa and Montreal also. As a result of the adjustment, the province will be required to pay the interest on the bonds. This is a public matter which will be of great importance to the province. It is hoped it will show a steady increase. The accounts were in fact, and were being audited for some time, and the fact of the statement will be received with satisfaction.

STAND IN BOLO CASE

(Continued from page 1)

M. Panoon testified as to the financial domestic wrongs committed against him by Bollo Panoon, and Madame Panoon corroborated him. The prisoner seemed to be deeply moved by the testimony of the Panoons, and said: "I have inflicted great wrongs upon the Panoons, but the vigor of cultured refinement which I had attempted to cover by deficiency of education, has rubbed out promptly and the real Bollo stood out, unrepentant and vulgar."

How to Save Wheat, Beef and Bacon for the men at the front. Issued from the Office of the Food Controller for Canada.

MENU FOR SATURDAY.

Breakfast: Stewed Prunes, Toast, Tea or Coffee, Dish.

Dinner: Oriental Stew, War Bread, Caramel Pudding.

Supper: Cabbage Salad, Graham Bread, Golden-Corn Tea Balls, Preserved Apricots, Tea.

The recipes for Oriental Stew and Golden-Corn Tea Balls mentioned above, are as follows:

Oriental Stew—
Simmer gently together:
2 cups cold mutton, cut in cubes
1 cup water
2 tablespoons drippings
1 chopped onion
2 small cold potatoes sliced
1 cup of cooked peas or cooked string beans chopped.

Season with salt, pepper and a very little curry powder. While stew is heating boil ½ cup rice. When tender put into hot vegetable dish, hollow out the centre and fill with the stew. Serve at once.

Golden-Corn Tea Balls—
Sift together one cupful of cornmeal with one cupful of white flour, four teaspoonfuls of baking powder and one teaspoon of salt. Work in three tablespoonfuls of lard or vegetable shortening with the finger tips. Add enough milk and water in equal amounts, three-quarters of a cupful to one cupful—to make a biscuit dough. Turn out on a floured board, make into rolls, lay on greased tin and let stand for fifteen minutes in a cool place. Brush over with milk or melted butter and bake in a hot oven for twenty minutes.

(Wheat and meat saving recipes by Domestic Science Experts on the staff of the Food Controller's Office.)

Natural Element.
"I see where a Philadelphia fire chief predicts that we shall have fire-women instead of men on the engines and trucks soon."
"Oh, well, that's natural; women were always crazy about house."

FROM OCEAN TO OCEAN

Women Praise Lydia E. Pinkham's Vegetable Compound for Health Restored.

In almost every neighborhood in America are women who have tried this standard remedy for female ills and know its worth.

Albion, Mass.— "Lydia E. Pinkham's Vegetable Compound cured me entirely and now I am a strong well woman."
—Mrs. H. ROSSKAMP, 1447 Devisadero St., San Francisco, Cal.

San Francisco, Cal.— "I was in a very weak nervous condition, having suffered terribly from a female trouble for over five years. I had taken all kinds of medicine and had many different doctors and they all said I would have to be operated on, but Lydia E. Pinkham's Vegetable Compound cured me entirely and now I am a strong well woman."
—Mrs. H. ROSSKAMP, 1447 Devisadero St., San Francisco, Cal.

For special advice in regard to ailments write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of its many years experience is at your service.

Don't Spoil Your Hair By Washing It

When you wash your hair, be careful what you use. Don't use prepared shampoos or anything else that contains too much alkali, for this is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain multi-fatted coconut oil, for this is pure and entirely greaseless. It's very cheap, and beats the most expensive soaps or anything else all to pieces. You can get this at any drug store and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

Amherst Pianos \$25,000 Explosion Sale of Pianos and Players

\$25,000 Stock of Pianos, Player Pianos and Organs of the Amherst Pianos, Limited, 7 Market Square, St. John, N. B., to be sold at Public Sale. This sale includes all New Pianos and Players, all Used Pianos and Players, all New and Used Organs. Sale Started This Morning, Feb. 8.

Facts and Figures of This Great Sale

At the time of the great Halifax explosion our factory in Amherst (N. S.), was working mostly on orders from the J. A. McDonald Piano & Music Co., Ltd., of Halifax. The terrible disaster which was visited upon the city of Halifax has eliminated pianos as a possibility from the minds of the Halifax people for some time to come. Our St. John store being the next most important distributing point have undertaken to shoulder the tremendous task of disposing of practically the entire output of the factory until Halifax will again be ready for its regular quota. We realize that this is a gigantic task. We know that ordinary methods and ordinary means will not accomplish the desired result. Therefore we have with the consent of the officials of the Amherst Pianos Ltd. undertaken the most terrific piano selling drive in the history of the music business in Canada.

The Actual Facts and Figures of This Great Sale

At the stroke of 8 o'clock Friday morning we launched the most astounding Piano Sale of modern times. We have carefully considered all the details. Our St. John store must take up the slack of the Halifax store. We have assembled here on our floors now the greatest collection of Piano bargains ever assembled in one store in the city of St. John. Just a Point some of the Pianos have been used, others shop worn, but in line condition. Still others are old styles taken in on Amherst Pianos and Players, but the vast majority of the Stock is our own high grade standard of quality "AMHERST PIANOS". We start the drive without a single thought only to concentrate on the task of disposing of the enormous surplus stock.

BRITAIN'S HELP FROM THE CUBS

London, Feb. 7, via Reuter's Ottawa agency—Right Honorable Bona Law, chancellor of the exchequer, announces the following further war contributions from British colonies and dependencies: Bahamas, £10,000; Barbados, £40,000 as a free gift making £50,000 altogether; Basutoland, £20,000 for airplanes; British Guiana, sugar valued at £17,000; Gold Coast, £200,000 in ten annual instalments; Nigeria, offer to pay one per centum on £5,000,000 war debt; Zanzibar, £50,000 for airplanes; Hong Kong, \$5,000,000 from loan and revenues; Mauritius, 1,000,000 rupees to be used for airplanes.

This list does not include the cost of local campaigns borne wholly or partly by Nigeria, Gold Coast, East Africa, Uganda and Nyassaland, nor the cost of raising contingents for active service. It also does not include the over payments of the military contribution, the refund of which was waived by the Straits Settlements, Mauritius and various sums voted by colonial governments and assigned by the imperial government to specific purposes, such as the national relief fund.

The thanks of the king have been conveyed to the donors, but the treasury again records its appreciation of the spontaneous and generous contributions.

hitherto produced more than £4,000,000 while a large balance in connection therewith is payable before the close of the financial year on March 31. Public expenditure in every direction has increased considerably, but on the whole, the country's financial position is officially stated as being uncommonly strong.

'BABE' RUTH'S GOLF DRIVES TRAVEL FAR

Star Pitcher of the Red Sox Carries His Batting Punch Over the Links—Other Timely Gossip

Babe Ruth, the Red Sox pitcher, is an ardent golfer and quite an expert one too. Ruth is one of the hardest hitting pitchers in the big leagues and he carries his batting punch on to the links. He was playing at Bellevue, near Boston, one day and some of the drives threatened to land in the next county, but the daddy of them all was the one he hit off the ninth tee.

It is seldom that a drive carries the cross trap on this hole. The hole itself is something like 200 yards, with the trap perhaps 80 yards short of it. Babe not only carried the trap but landed on the roof of the clubhouse, which is at least 100 feet high. If the ball had been straight it would have carried fully 200 yards. Babe is not a bit or miss golfer by any means. Nine out of ten of his swats from the tee are regular direct wallops. More than one promising golf youngster has been kept from taking part in a championship tournament through not being considered of "championship age". That raises the question, what is the minimum championship age? There is no U. S. G. A. rule, the only restriction being the eligibility list which was substituted for the national handicaps that went from scratch to five-inches.

What one fond father has regarded as the proper age for his boy to make a first big effort, has been declared as entirely too young by another. Undoubtedly a great deal depends upon the individual, his temperament, receptive faculties and physique. Unless the lad is gifted with a goodly stock of endurance the strain may work more harm than good.

Some golfers have the knack of gaining knowledge quickly and thoroughly, and are masters of the varied situations which present themselves from time to time, at a very early age in their careers, while others are just the opposite temperament. The last named class gain experience slowly, and it takes many years before they may be said to be thoroughly equipped for the fray.

On the other hand, there are some to

THE SECRET OF SAVING

lies in spending to the best advantage—getting the most for your money. That is what you do when you buy Zam-Buk, and that is why Zam-Buk is the choice of the good housekeeper and careful buyer.

When you buy Zam-Buk you get 100% medicine—not 5% medicine and the balance "fill up" as it is called in the trade. This explains why Zam-Buk goes so much farther than ordinary ointments and why the results are so much better. Zam-Buk is soothing, healing and antiseptic. It ends pain, destroys all germs in a sore or wound—thus preventing any danger of blood-poisoning—and grows new skin. A Zam-Buk cure is permanent because it purifies and heals not only the surface skin, but also the underlying tissues, so that there is no possibility of the disease breaking out again.

Zam-Buk is composed exclusively of vegetable oils and herbal extracts, with absolutely no animal fat or poisonous mineral drugs which only irritate the parts they are intended to heal. It can, therefore, be used on the most sensitive skin and is the best balm for babies.

It is also best for eczema, ringworm, boils, pimples, ulcers, abscesses, blood poisoning and piles. All dealers or Zam-Buk Co., Toronto. 50c. box, \$ for \$1.25.

Salts in Hot Water Clears Pimply Skin

Says we must make kidneys clean the blood, and pimples disappear.

Pimples, sores and boils usually result from toxins, poisons and impurities which are generated in the bowels and then absorbed into the blood, through the very ducts which should absorb only nourishment to sustain the body.

It is the function of the kidneys to filter impurities from the blood and cast them out in the form of urine, but in many instances the bowels create more toxins and impurities than the kidneys can eliminate, so the next best means of getting rid of these impurities which often break out all over the skin in the form of pimples.

The surest way to clear the skin of these eruptions, says a noted authority, is to get from any pharmacy about four ounces of Jad Salts and take a tablespoonful in a glass of hot water each morning before breakfast for one week. This will prevent the formation of toxins in the bowels. It also stimulates the kidneys to normal activity, thus coaxing them to filter the blood of impurities and clearing the skin of pimples.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia. Here you have a pleasant, effervescent drink which usually makes pimples disappear, cleanses the blood and is excellent for the kidneys as well.

ence is as naught to them when the occasion of extreme strain and stress arises. In the excitement of the moment their early teachings are forgotten, and they play the game in a manner that suggests the fact that their primitive instincts are in command for the time being. This is the class of individual who seldom wins big events, as his temperament is not equal to a big occasion.

But nearly every golfer who aspires to championship honors at some period of his career has to proceed through a time which may be termed "the nervously anxious stage." It is a time

LEGISLATURE TO MEET MARCH 7

Fredericton, Feb. 7.—Hon. W. E. Foster, premier of New Brunswick, announced this afternoon that the provincial legislature would meet March 7.

The premier is making an early announcement of the opening of the legislature in order to give every opportunity for the early introduction of private legislation, including bills from cities, towns and incorporated villages. In past sessions tardiness in the introduction of legislation of this class has much delayed the business of the legislature.

The original date selected for the opening of the legislature was February 26. The conference of provincial premiers to begin at Ottawa February 17 caused a postponement of one week as Premier Foster will attend the conference. Other members of the executive may attend. They are Hon. P. J. Veniot, minister of public works; Hon. C. W. Robinson, Hon. J. E. Tweeddale, minister of agriculture; Hon. E. A. Smith, minister of lands and mines.

In connection with the recommendations made by John Hall, a public health expert from New Jersey, who made a survey of New Brunswick last summer, Hon. W. F. Roberts stated today that an expert who will be in charge of a laboratory at St. John had been engaged and probably would be in the province within six weeks. The establishment of a department of public health with a minister as the head is expected to follow whatever steps are taken at the coming session of the legislature. Hon. Dr. Roberts is regarded as the logical choice for the post.

Walter Ditchell's bill providing for a bone-dry prohibition with the exception of the sale of wine for sacramental purposes and of intoxicating liquors for medicinal, mechanical, manufacturing or industrial purposes, was put through the second and third reading.

FOR RUSSIAN REFUGEES.
 A concert and dance held Monday evening under the auspices of the ladies' Russian refugee committee to raise funds for orphans and the aged, was a decided success. An impromptu programme of vocal solos and recitations was given after which dancing was enjoyed. Music was furnished by the Boyaner trio. Refreshments were served. In order to swell the fund two raffles were held. The first was a ticket to the Imperial Theatre for three months, which was won by Mrs. S. K. Cohen, and from which \$25 was realized. The second was a handsome crocheted bag donated by Mrs. Max Ross, which was won by Mrs. L. Bruger and from which \$10 was realized. The net proceeds amounted to \$14.58.

FEAR APPLE CROP WILL GO TO WASTE
 Halifax, Feb. 8.—G. H. Vroom, chief fruit inspector, announced that there are 180,000 barrels of apples still in the Annapolis Valley. The English market for these is entirely cut off and the western markets cannot be reached to any great extent on account of transportation conditions. Although the fruit growers and dealers are alarmed at the prospect, they are being maintained at figures that are keeping local sales at the minimum. Six hundred cars are needed to move the fruit from the valley. Food Controller Thompson has been told of the conditions, and asked to take steps to prevent much of this fruit from becoming an absolute waste.

A BIG REDUCTION IN TRAIN SERVICE
 Montreal, Feb. 7.—The Canadian Railway War Board has decided, subject to confirmation by the authorities at Ottawa, to reduce the passenger train service by 428,000 passenger train miles between this date and the end of April. This is calculated to effect a saving of \$2,000,000 in cost in addition to the 600 tons already saved in a similar way. No freight, except food for the Allies, will be handled on any Canadian railway during the three heaviest days, Feb. 9, 10 and 11. Freight already loaded will move at the minimum. Six hundred cars are needed to move the fruit from the valley. Food Controller Thompson has been told of the conditions, and asked to take steps to prevent much of this fruit from becoming an absolute waste.

BOMB ANDREWS GETS STRIPE
 Mrs. Thomas Andrews, 48 Erie street, has received a letter from her son, Bomb Harry Andrews, who is with a well known New Brunswick unit in France. Along with the letter is a fine photo of a group of eighteen, including Bomb Andrews and Gunner Robertson of St. John. The letter was written Jan. 14, and the writer acknowledged receipt of parcels. He said he had received his first stripe. He is in the same company Andrew Gibson was in when wounded, and of which the late Thomas Stone was a member. Of the eighteen men in the photograph only two are of the original members.

NO WAR TIME ELECTION IN ONTARIO IS THE AGREEMENT BETWEEN PARTIES.
 Toronto, Feb. 7.—There will be no war time election in the province of Ontario. When the legislature re-assembled for the evening sitting tonight, an event of itself unique so early in the session, the premier, Sir William Hearst, rose and made the announcement that he had decided to accept the proposition of the leader of the opposition made in the afternoon to postpone the life of the legislature.

GENEVA RED CROSS APPEALS AGAINST USE OF POISONOUS GASES.
 Geneva, Feb. 6.—The international committee of the Geneva Red Cross unanimously decided at a meeting held today to address an energetic appeal to the governments of belligerent countries not to employ poisonous gases in warfare. The text of the appeal will shortly be published. Swiss military circles are of the opinion that the appeal is too belated to have any vital effect on coming battles.

SOLDIERS MUST KEEP OFF STREETS, SAYS MAGISTRATE
 "Men in uniform have no business to be allowed out after 9 o'clock. If their officers give them a late pass they must keep off our streets." These were the words of Magistrate Ritchie at this morning's police court, when two cases of assault, one against sailors and one against soldiers, were brought up before him.
 Three sailors from one of the vessels now in port were charged with being drunk in Brunswick street last night, breaking the window in Fleming's shop, causing damage of from \$40 to \$50. They were charged with being drunk and with another man there at the time. The three pleaded not guilty to all charges and, after some evidence was heard, they were sent below until it could be ascertained where they got the liquor. His Honor said they were liable to a fine of \$1,000.
 An aged man was charged with being drunk. He said that he bought a bottle of liquor in Montreal for \$4 and came on to St. John. He was remanded.
 D. J. Brown was registered for allowing a boy under age to drive his team. He was sent below by His Honor to "make arrangements."
 The motor ambulance was reported for driving without a 1918 number and, after evidence was shown of receiving a letter from the department of public works which stated that no number was necessary, the magistrate postponed the case until tomorrow morning.
 J. Griffin was charged with leaving his horse on Feb. 5 unfastened. "Well, Your Honor," he said, "it was that cold Tuesday this week and I just left the horse a second to get something from the ship when he started off for the barn." The penalty of \$10 was struck but allowed to stand.

AGAIN ARRESTED FOR GAMBLING CHARGE BUT GAIN THEIR LIBERTY
 For a second time within a few months the occupants arrested on a charge of gambling, let out on deposit and promptly guarded from becoming any the wiser. The statement was made at the police court this morning that "the commissioner" was consulted and gave orders regarding the matter. On Tuesday night the detectives raided the place and brought the prisoners to the guard room, where they were again let out on deposit. They have not returned and the police court knows nothing about them. Chief of Police Simpson, when interviewed this morning said, "I know nothing whatever about it." The detective force and police department likewise display lack of any knowledge on the subject.
