A FIG-HEADED POLICY.

(From Friday's Daily.) The estimates brought down yesterday by Finance Minister Price Ellison are a disappointment.

Another item of income in which it was hoped that a change would have been made is the personal property tax.

In spite of the prosperity of the country, we note that no effort is to be made to relieve anyone of the burden of taxation.

In the matter of expenditures we note that there are to be increases in the London offices and also in the department of immigration.

We expect to deal with some of the matters of expenditure more particularly when the minister has had an opportunity of explaining what they mean.

We are glad to see that the Mill Bay road is to be completed, that the Women's Institutes, and the S. P. C. A. and Seamen's Institutes are to be recognized, and that rescue homes, here-

pitale and other public works of this nature are to be aided. The increase in the accommodation at the Government buildings was necessary and would have had to be done in the near future no matter what government were in power.

THE INDIAN RESERVE.

There are few subjects in which the people of Victoria are more interested just now than the disposition of the Indian Reserve. Announcement has been made that the reserve will be sold at auction.

The matter of providing parks is at the present time a live question. Large sums of money are proposed to be spent for this purpose, it being recognized that Victoria is destined to become a big city.

TRADE AND NATIONAL SENTIMENT.

Canada looms large in the eyes of the commercial and the political world to-day. Her position and her prospects are being discussed not only in our national legislature, but in the parliamentary assemblies of Great Britain and the United States.

We are neither surprised nor grieved because Mr. Borden, the leader of the opposition to the Laurier government, professes to "view with alarm" the possible consequences of the agreement negotiated with the United States.

We are glad to see that the Mill Bay road is to be completed, that the Women's Institutes, and the S. P. C. A. and Seamen's Institutes are to be recognized, and that rescue homes, here-

to the advent to power of the present government and the adoption of the British preference. Here are the findings of our contemporary.

"In 1880 Canada imported from Great Britain goods to the value of \$24,561,224, and exported to her \$2,846,092, the corresponding amounts for the United States in that year were \$28,346,848 and \$32,349,008.

"Curiously enough, as all who can recall the state of political feeling in this country during the past twenty years can testify, the feeling in favor of Canadian nationality on this continent and of British imperial solidarity has been steadily growing stronger.

The B. C. Anti-Tuberculosis Society is doing a very important work and it is a pity that keener interest is not taken in the movement by the public at large.

The Montreal correspondent of the Toronto World writes that there will be a Dominion general election during the coming fall and that Premiers Roblin of Manitoba and McBride of British Columbia will be recruited in the forces of the opposition.

We hope the deputation from Vancouver that waited on the government Friday in regard to Child labor did not notice the pages who attend the legislators of this province during their sessions in the basement of the Cape Horn Hotel.

The suggestion made before the commission that Chinese who try to evade the customs law by fraudulently importing goods, or who make false declarations shall be prosecuted, seems very reasonable.

In a few months we begin importing California potatoes. Then we have to pay through the nose for them. If the duty were removed we could all use the early new potatoes when our own are not in good condition for consumption.

UP FROM 'FRISCO

LADY MINE ARRIVED HERE THIS MORNING

Vessel Bought for Sealing Purposes Palatial Yacht Will Be Remodelled

(From Friday's Daily.) Making a fast passage up the coast despite a heavy weather, the schooner Lady Mine, purchased by a local syndicate, including Richard Hall and J. A. Borchers, from the San Francisco pilotage agent, arrived in port at 7 o'clock this morning.

There was rather a heavy assemblage of old salts of the sealing and sailing ship class, who, having heard of the fine qualities of the vessel, gathered to inspect her.

The companionways leading to cabin and the forecabin, built of oak, are such a part of the vessel's construction without bumping his head. These, however, are to be torn off and lower ones placed in their stead.

With a length of 82 feet over all, 70 feet between perpendiculars, a beam of 23 feet, a depth of eight feet, and a tonnage of 58 tons, the Lady Mine is a handsome and comfortable vessel.

The Lady Mine was reported having passed Tofino on Wednesday afternoon and was expected at the Cape Horn Hotel for a number of hours and was delayed from reaching port yesterday afternoon.

For many years the Lady Mine was used as a pilot boat at San Francisco, and although only being a sailing vessel, she was not replaced by a steamer until four months ago.

Among recent charters to be announced is that of the Norwegian steamship Tordenskjold by Balfour Guthrie & Co. The Tordenskjold has been chartered for the lumber trade.

PORTUGAL FACES ANOTHER CRISIS

(Continued from page 1) prove conditions, the people are sure to turn against the present government. There will be another revolution and another provisional government, republican again, but it will surely be a worse government than the present one.

The new government has not brought the expected relief and the people are gradually becoming disaffected. The department points to the case of Nicaragua as a parallel. Not until December 31, when the Nicaraguan popular assembly recognized Estrada as president, was his representation received at Washington as a minister.

RICH STRIKE IN SHEEP CREEK CAMP

High Grade Ore in Eureka Mine—Shipments From Southeastern B. C.

Nelson, Feb. 8.—The news of a strike of rich ore on the Eureka mine at Sheep Creek was reported by William Kennedy, who has the property under bond to W. J. Van Houten and A. Honeyman of Vancouver. The new strike was an unexpected discovery, and was reached at a depth of 100 feet during the driving of a tunnel which it was figured out would hit the main vein, exposed on the surface, at a depth of about 250 feet. About twenty inches of high-grade ore is exposed and the ore face of the tunnel is in milling ore, the width of which has not yet been discovered by cross-cutting. From the indications, the ore exposed is the top of a large body of ore.

Mr. Van Houten was in the city for the purpose of making a contract for another 150 feet of tunnelling which will reach, it is thought, the main ore body located by the surface showings.

The following are the returns of the ore production and movement for the past week:

WASHINGTON CENSUS RETURNS

Washington, D. C., Feb. 13.—The census bureau announces the population of the incorporated cities and towns of the state of Washington, as follows: Anacortes, 4,181; Chesilatch, 4,507; Cle Elum, 2,749; Snohomish, 2,288; Roslyn, 3,126; Colfax, 2,783; Port Townsend, 4,181; Puyallup, 4,644; South Bend, 3,323. All named show a heavy gain in population over the 1900 census.

APPROVES HOME RULE ALL ROUND

STATEMENT ISSUED BY JOHN REDMOND

No Objection to Federalism but Ireland Must Not Be Kept Waiting

London, Feb. 13.—After much beating about the bush and a general disparagement from the United States that he favored "Home Rule All Round," an issue which figured prominently in British politics just before the last election, John Redmond, the leader of the Irish Nationalist party, on whose good will the Liberal government is at present dependent, has come out with a declaration setting the seal of his approval on the federal scheme. In a statement to the press he says: "Ireland's demand for full legislative and executive control of all purely Irish affairs, subject to the supreme authority of the Imperial parliament. The statute constituting the new Irish parliament must settle the question of what are purely Irish affairs. Therefore that question rests in the hands of the present Imperial parliament. The retention of Irish members in the Imperial parliament, and what number of them should be retained, must also of course be settled by the Imperial statute. When such an Irish parliament as I have indicated has been created, it will be there a ready-made portion of any federal system that Great Britain may create in the future."

IN AID OF DUNCAN CONVALESCENT HOME

Play Will Be Presented by the Dramatic Club—Children's Cinderella

(Special to the Times) Duncan, Feb. 8.—Invitations have been issued by the bachelors of Cowichan for a dance to be given in the Knights of Pythias hall on the 16th. The hall will be elaborately decorated for the occasion and the dancing rooms arranged behind the stage and other sitting out corners. Prof. Harvey's orchestra has been engaged. An energetic committee of gentlemen consisting of J. L. Mutton, Wm. Thompson, F. C. Drake, K. Dunsmuir, J. Wood, J. D. Alexander, J. A. Wallace, J. J. Stewart, A. G. S. Smythe, S. W. Smiley, with F. E. Hall as secretary and F. G. Smith as treasurer, has been formed. Five hundred invitations have been issued. A committee of ladies will supervise the supper arrangements.

CARNEGIE SUPPORTS TRADE AGREEMENT

Steel King Predicts Great Results Will Follow Its Adoption. Washington, D. C., Feb. 13.—Andrew Carnegie is out for the Taft policy of reciprocity with Canada. In a letter to Senator Beveridge, the iron master says: "There is no possibility of any injury to American commerce through free trade with Canada. With social conditions identical in both countries, the cost of transportation of any commodity is the same. The economic questions may safely be discarded. I predict great results from a friendly agreement with our fellow Americans north of the border."

LOBBIES HIS LIFE

San Diego, Cal., Feb. 13.—The parties to-day are seeking the body of J. H. Gibbons, a third-class petty officer on the cruiser South Dakota, drowned in San Diego bay when a wherry in which he and four sailors were riding, capsized. Only the prompt action of Capt. Hammond of the yacht Ramona, anchored nearby, saved the lives of the other members of the party.

WILD MAN CAUGHT IN ONTARIO FOREST

Lived for Four Years in Crevices in Rocks—Struggle With Captors

Fort William, Ont., Feb. 13.—To all appearances a wild man as the tenizens of the New Ontario forest, which have been his sole companions for the past four years, John Beck, about 40 years old, garbed in a crudely-fashioned coat and trousers of skins, was taken from Vermilion Bay, about a hundred miles northwest of this city, to Kenora, where he will be committed to an institution for the violently insane. Since the winter of 1897, when he lost part of his hand while dynamiting for fish, Beck has lived alone in the wilds near Vermilion Bay, a new station of the Grand Trunk Pacific. His place of abode, a crevice in rocks, twenty miles from the nearest dwelling, was not known until a few days ago. He was feared by construction men and the few lumbermen who visited the district. Fict of his name as a wild man, an untamed being, he never allowed his fellowmen to approach him, and the sight of a human being he vanished in the dense bush. He was finally captured after a desperate struggle by C. P. R. Constable Bell of this city, and a Dominion constable of Kenora. He has lived during four years on raw fish, rabbit and fowl, which he snared or killed with stones or clubs. In the home nature had fashioned for him were found only a pile of dry leaves, two or three dried skins and a pile of stones. Nothing is known as to his antecedents.

INFANT LEFT TO DIE

Collingwood, Ont., Feb. 8.—Some children skating on the harbor here found the body of an infant lodged in the ice. The child had evidently been placed on the ice while still alive. The body was neatly dressed in clean garments and was wrapped in a blanket. A handkerchief was stuffed into its mouth, either to suffocate it or to stifle its cries. The clothing on the body may lead to arrests. The initials "E. T. N." were on the band of the undergarments, an "N" was worked on a corner of the blanket, and the handkerchief bore the letter "T."

**VELVET, Satin and Cloth**  
Costumes in Varied Coloring.

BY MRS. A. T. ASHMORE.

THE number of street gowns that are required for the winter season by the woman who takes any prominent position in the social world is this season more than ever discouraging to the woman herself, who unless she be possessed of a positive mania for clothes hates to spend so much time at her dressmaker's. But fashion demands a variety of dress and her demands must be complied with, and at this time of year when it might have been thought the clothes question was virtually settled as many questions are being asked for the additional street gowns as though the season were not yet begun.

plint of gold or silver showing through the yoke or upper part of waist and sleeves; a short jacket or long coat; either is fashionable, and always handsome fur—these compose the costume, which in spite of its simplicity can be expensive enough to suit even the most extravagant. In black such a costume is considered smartest, but having one black costume does not in any way obviate the necessity for other costumes of the same description, only perhaps more elaborate. Blue in all shades, brown, tan, gray, red, yellow, each and all in velvet are effective and smart. The colored velvets are, as a rule, made up much more elaborately trimmed with embroidery and braiding and with fur, but they are no smarter

not mean the elaborate gown worn under the long loose coat, but the gown that looks well with the short fur jacket. The broadtail or baby lamb jacket is very smart, fanciful in design and trimmed quite elaborately with braid and buttons. These need not be any fur on the skirt; at the same time a band of it looks well, but the gown is supposed to be complete in itself, and the fur jacket is merely the outer garment or wrap worn with it. So soft and beautiful are the markings of the fur that it looks like a piece of moiré. Over velvet it is charming and rather richer in appearance than with the cloth, but a smart black cloth gown is always a desirable addition to the wardrobe.

Widely Varying Models.  
It is interesting this season to note how utterly different are many of the fashions—quite contradictory it would seem. There are most charming gowns without a particle of trimming. One favorite model for an evening gown is of satin without even lace in the sleeves, and another equally popular is of satin entirely covered with a tulle or overdress of white tissue with the tissue almost hidden under its embroidery of crystal beads interspersed with lace medallions, the pattern in each medallion outlined in rhinestones. Nothing more dissimilar than these two gowns, both designed for the same woman, could be imagined, and yet in the lines they are alike. In afternoon and street gowns these same curious contradictions exist, and after all it is a relief not to have everything on the same order.

To illustrate the truism that the exception proves the rule, a woman who is considered one of the best gowned matrons in New York society ordered this winter seven street gowns, all of the same style, and eight evening gowns, all the same but in different colors, and yet these are many women who spend time, thought and money without stint in the effort to secure making in their dress.

The cloth of gold tissue with colored interwoven and a band of plain chiffon of satin make up most effectively, and a

## PRACTICAL DRESS HINTS

There is so much remodeling of dress necessary this season that the tendency is to spend far more money than would be believed in the doing over of last winter's gowns. At first glance the problem of making over the wide skirts into the absurdly narrow ones now fashionable seems comparatively simple, but the task demands skill and patience, and it is really far better to recut the skirt entirely in many instances rather than to attempt to take it in at the various seams. An extremely practical woman who has the clothes question well worked out contends that this is not a season when it pays to make over old clothes. With so little material as is required in the fashionable gown it is better to buy all new, and a remnant of some superb fabric sold at a bargain will make a far smarter garment while the time taken to make the new one will be less than half what the cutting and making over of the old would consume.

Old trimmings can be far better utilized for accessories than for accessories.

FIX THE PAVING SPECIFICATIONS

CONCRETE BASE IS MADE COMPULSORY Patent Process Barred on Base but Not on the Wearing Surface

Despite strenuous objection on the part of a number of the aldermen, the board of works of the city council, at its meeting Friday night, decided that all contracts for asphalt paving shall make compulsory the use of a standard concrete base.

A standard base of cement concrete must be used in connection with all pavements of asphaltic nature. The concrete foundation or base will be five inches thick for light traffic and five inches thick for heavy traffic.

Upon this base is to be placed a wearing surface of an asphaltic nature. The contractor in case of alternative bids will be expected to furnish his own specifications, which will be subject to the approval of the city engineer.

The work will be let on the unit basis, that is, the contractor will be fixed price per square yard of pavement, per linear foot of curb and gutter and per cubic yard of earth excavation and per cubic yard of rock excavation.

The contractor will be allowed to submit alternative bids for an asphaltic pavement, which will include such pavements as the Warwick asphalt pavement, the Westminster pavement, the El Oro asphalt pavement, the Barber asphalt pavement and other similar pavements.

Bidders are warned that all bids must be made upon printed forms supplied by the city engineer, and must be accompanied by a certified cheque payable to the city treasurer for not less than five per cent of the amount of bid.

The bidder must state a price per square yard for his pavement, and leave in the hands of the city 15 per cent of the whole of the contract price for a period of ten years, as a guarantee that he will maintain and keep in good order and condition the said works during such period of ten years.

The bidder shall state a price per square yard, giving to the city a satisfactory bond for 25 per cent of the amount of his contract for a period of five years, as a guarantee that he will maintain and keep in good order and condition the said works during such period of five years.

The bidder shall state a price per square yard, giving to the city a satisfactory bond for 25 per cent of the amount of his contract for a period of five years, as a guarantee that he will maintain and keep in good order and condition the said works during such period of five years.

Contractors may, in tendering upon different work, put in an alternative tender to include two or more of the said works to be tendered for.

The board of works committee reserves the right to object any or all bids or to the bids of any firm or individual, and the committee reserves the

SMITH'S "PLOT" FALLS TO PIECES

WITNESSES SWEAR "NOTHING IN IT" Royal Commission on Chinese Immigration Terminates Sessions Here

The Chinese commission spent yesterday afternoon trying to discover from a number of Chinese merchants the person or persons responsible for the conspiracy of W. J. Taylor, C. J. who appeared at the passport examination in October last on behalf of the Chinese board of trade.

Wong Wah and Lim Bang admitted having gone to Mr. Taylor's office on behalf of the board of trade, to engage him, and the commission then directed its efforts to discover who paid Mr. Taylor for his services.

Dr. C. H. Vrooman, medical superintendent, in his report says: "Looking to the future I would say British Columbia has a unique opportunity to become the most foremost of Canadian provinces in the fight against tuberculosis."

Of the 58 admissions there were 41 males and 17 females; in nationalities: Canadian, 27; Scotch, 13; English, 11; Americans, 4; Irish, 3; and Italian, 1. The patients were drawn from the following points: Vancouver, 23; Victoria, 10; New Westminster, 4; Kamloops, 3; Mars, 3; Salmon Arm, 2; Cascade, 1; Revelstoke, 1; Duncan, 1; Union Bay, 1; Stewart, 1; Sidney, 1; Ashcroft, 1; Pentecost, 1; Cumberland, 1; Nakusp, 1; Ymir, 1; Merritt, 1 and Ferrie, 1.

One of the interesting features of the report was the fact that those most susceptible to consumption are between the ages of 20 and 30. The statistics were: Between the ages of 10 and 15, 2 cases; 16 and 20, 5 cases; 20 and 25, 12 cases; 25 and 30, 15 cases; 30 and 35, 9 cases; 35 and 40, 5 cases; 40 and 45, 4 cases; 45 and 50, 3 cases; 50 and 60, 1 case, and between 60 and 70, 1 case.

The board of directors report showed that the full maintenance cost for 1910 was \$20,240.07, an average cost per patient per day of \$2.05. The board regretted to have to report that no hospital was yet built for advanced consumptives.

Dr. C. J. Fagan made an appeal for the prohibition of indiscriminate vaccination. There were letters relating to this practice, but they were not enforced by municipalities. Dr. A. P. Proctor and Dr. Brydson Jack insisted strongly on the need for preventive measures.

Officers were elected as follows: Hon. president, James Dunsmyth; president, A. C. Flumerfelt; vice-presidents, R. Marpole, J. S. C. Fraser and A. J. Galletty; treasurer, George A. Kitch; secretary, Dr. C. J. Fagan; auditor, Dr. F. P. Underhill; Dr. R. E. M. Eberts, K. C.; medical superintendent at Tranquille, Dr. C. H. Vrooman; board of directors, Dr. A. P. Proctor, Dr. F. P. # Miss Emma Sehl's Wedding

The Hampstead papers to hand by the last English mail contain an account of the wedding of Miss Emma Sehl to Mr. E. S. G. Dottridge, as follows:

On Wednesday, January 4th, at the Church of the Oratory, Brompton, an interesting wedding took place, the contracting parties being Miss Emma Sehl, of Victoria, B. C., and Mr. E. S. G. Dottridge, F. R. G. S., only son of Mr. Edwin Dottridge, J. P., of 5, Heath Drive, Hampstead, London, England.

The beautiful edifice formed a fitting setting to one of the prettiest weddings held within its precincts. Punctually at 2.30 the bride arrived accompanied by Mr. J. H. Turner, formerly premier of British Columbia and

Miss Kitty Dottridge, cousin of the groom. The four bridesmaids preceded the bride and until near the top of the aisle, when they stood aside to allow her to pass through to her expectant groom, who was ably supported by Mr. Sharp, his best man.

The bridesmaids were dressed alike in dresses of soft white satin, covered with tunic of Irish crochet lace, edged with brown fur. Pink velvet ribbon was seen in a sash like effect which came from the shoulders beneath the tunic and ended in a large bow at the end of the skirt. With these dresses were worn large black silk beaver hats with oxidized silver cords and tassels, and rolled gracefully upon one side showing the pale pink silk beaver underneath. The finishing touch was added by large flat muffs of white satin-edged with opalescent fringe, the

now agent general for British Columbia in London, who gave her away. The bride looked charming in a handsome wedding gown, composed almost entirely of the richest white chiffon velvet which was relieved with bands of gray silver, silver, and leaves and floral and crystal embroidery. From the front of the corsage depended a beautiful panel of white nylon, embroidered in silver. A girlande of pearls outlined the high neckline, and fell in two long ends finished with pearl and crystal tassels. The full court train was inset between the shoulders in a novel shape surrounded entirely with a narrow band of roses and myrtle and lined with silver tissue

brown fur bordering a band of lace put diagonally across the muff; one large water lily and leaves trimming the corner. The ceremony was conducted by the Rev. Father McKee, and during the bride and bridegroom's absence in the vestry a selection was played on the organ by Mr. Devery. The beautiful flowers which decorated the church were afterwards by the bride's request sent to a hospital. After a short wait the guests were gladdened by the sight of the bride and bridegroom looking radiant and happy, who amid the smiles of their well-wishers and the strains of Mendelssohn's Wedding March, left the church for the Hans Crescent hotel.

## CHURCH LANDS ARE SUBJECT TO TAXES

### Exemption Granted in Past at New Westminster Decried Illegal

New Westminster, Feb. 5.—Perhaps the most noteworthy item to be brought to the attention of the city council at its last meeting was introduced at the close of the meeting by Mayor Lee. He stated that he had been advised by one of the men who is making the reassessment of the city that exemptions on church lands was illegal under the Municipal Assessor's Act. The buildings could be exempted from taxation but it was expressly stated in the act that the land occupied by the church does not take the exemption. This was, however, never applied to lands occupied by hospitals and orphanages.

Mayor Lee stated, however, that the City Council overrode this law by passing a by-law exempting the church property. The by-law would have to be submitted to the people the same as a money bill. He did not suggest any further bringing in such a by-law, and it is believed that the council will not attempt to make the second initiative it is possible that all church lands will be taxed this year for the first time in the history of the city.

The bowling alleys and pool room regulations by-law was read a second and third time and passed. It provides that these places shall close at 10 o'clock and Alderman Bryson took exception to that clause, moving an amendment that the hour be 11 instead of 10. His amendment was seconded by Ald. Johnston, but the rest of the council voted for the original hour and that carried.

Ald. Dodd gave notice that the next meeting of the council he would introduce an amendment to the road tax by-law, and Ald. Lynch intimated that he would introduce a parks by-law. On the suggestion of Ald. Johnston the police will be instructed to see that men leaving rigs on the street be compelled to comply with the law relating to them. The council also discussed the matter of the street lighting, and it was decided that the council should be kept advised of the progress of the work.

## ACCIDENTAL DEATH.

### Vanouver, Feb. 9.—After lasting for two days the funeral of the death of Frederick Vincent, who was killed last Saturday at Macdonald, Gowaki & Co.'s rock bunkers on the south side of False Creek, was brought to a close as the body was taken to the Victoria crematorium.

H. T. Tisdall, foreman for Macdonald, Gowaki & Co., who was only within a few feet of the young brakeman when he was killed, was one of the witnesses. The witness stated that Vincent had signalled to the motorman to proceed, while he was standing on the platform of the car, which was standing at the entrance of the bunkers. The motorman had gone ahead towards the car, which was to be coupled to the train. When only a short distance from the car, Vincent had jumped from the platform, run ahead and met the coupling. After doing this, he had then attempted to get out from between the cars to the open space between the bunker supports, when he was caught by the man of the car, and he past the next support. The witness stated further that he himself had coupled cars many times, but never had attempted to get out while the cars were in motion. In regard to the couplings, it was stated that these cars were coupled with link and pin couplings. The conductors in charge of the train, R. R. Mills, the motorman, G. P. Boston, and the truck operator, Edward Baker, were on the motorcar when the accident happened, and the last they had seen of the victim had been when Vincent had signalled to run towards the bunkers in order to make the second coupling. The conductor stated that the deceased had been one of the most careful brakemen who had ever worked for him.

After examining the witnesses, the jury retired, returning the following verdict: "The deceased came to his end, by being crushed to death between the end of a car being operated by the B. C. Electric Railway Company and a bunker support, situated near the south end of the Grandville Street bridge. We also find that the construction of these bunkers are such as to be extremely dangerous to those operating cars beneath them."

The jury returned a verdict of accidental death. The jury also found that the construction of the bunkers was such as to be extremely dangerous to those operating cars beneath them.

## HIGH SCHOOL TEAM WON HOCKEY GAME

### Girls Uphold Victoria's Honor Against Vancouver by Score of Three to One

The Victoria High school hockey girls had no difficulty in defeating the Vancouver girls at Brockton Point on Saturday. With the exception of the first few minutes the local girls had the game well in hand and were at no time very hard pressed. Five minutes after the blow of the whistle the Terminal City forwards carried the ball into Victoria's territory and with a neatly played shot Miss Gladys Cocking beat the Capital City custodian, Miss Carter. After this Victoria settled down to hard work and with their splendid combination had Vancouver guessing all the time. As half time drew near Miss Jackson, who was playing a brilliant game, scored Victoria's first goal.

The second half was all in favor of Victoria and in spite of the home team's good defence Miss Jackson managed to find the net with two well directed shots. The game ended with the yellow and black two in the lead. The Misses Maine Cressford, Nassan and Taylor were the outstanding players for Victoria, and for Vancouver the Misses Paterson and Cocking were the stars.

Week-end Notes and Incidents of the Arm. An old Swish, with one eye, a dejected look and a note of interrogation in his face, may be seen almost every week-end playing his calling in the water tower arm. The old chap has had a good command of English and has some difficulty in making himself understood. But he does make the fact clear that he is in search of some one who will be content until he has found the object or objects of his quest. Upon almost every occasion the curious or inquisitive fisherman will note that carefully stowed away in the "well" of the Swish's canoe are at least two magnificent "springs" and a liberal stock of grills. When the governor encounters the lone fisherman with the solitary eye, particularly when in company) he has been observed to look quite self-conscious. He even becomes embarrassed when the cynic slyly remarks that "the market is depressed now that the captain has taken up another hobby and the competition for big baskets has ceased."

The one eyed man was not doing business this week-end. Neither was any one else. The weather was too boisterous, and the governor's guests were compelled to return home bearing no richer reward than a sense of their host's unbounded hospitality.

## WILL ADVERTISE PRINCE RUPERT

### Board of Trade Appoints Committee Which Will Prepare Pamphlet

Prince Rupert, Feb. 9.—Hundreds of inquiries from all parts of Canada, the United States and Europe come in to M. M. Stephens, the secretary of the Board of Trade of Prince Rupert. Since the task of replying to these letters is getting beyond the power of the secretary of the board, a text meeting of the board was held in his office to discuss plans for issuing the facts so often sought regarding Rupert in pamphlet form.

A campaign of advertising for Prince Rupert will be opened to extend even further the range of inquiries, and a pamphlet covering the field of enquiry fully will be prepared. The claims of the interior territory will be advanced, especially set forth, and the city itself will be well dealt with. An advertising committee composed of the following members was appointed: W. P. Lynch, W. M. Law, J. G. Scott, R. A. White, and G. W. Nickerson.

Other business dealt with involved some criticism of the post office. The need for premises nearer the business section was emphasized. It was suggested that the department at Ottawa be notified of the need for expansion in the present post office to meet the needs of the growing city and meantime a committee was appointed to interview the postmaster and go into the whole matter. The members named are Scott, E. A. Wits, G. F. Bandt and M. M. Stephens. The Finance Committee for the year was appointed as follows: A. E. McMaster, J. H. Thomson, and H. F. Wilson. Also the By-law Committee, viz., F. Stork, W. Lynch, D. H. Morrison, W. Law and F. Mobley. The secretary is to take up the matter of a waiting room on the wharf and to try to get something done towards meeting the need. He will also look into the matter of local express rates which are thought by the Board of Trade to be exorbitant, and reports of motions will be made to the various express companies.

A suggestion by A. T. McMaster that a show case of grains, etc., the product of the interior lands, should be displayed on the wharf met with approval, and will probably take shape as the improvements on the wharf proceed.

"ENCOURAGING SETTLERS." To the Editor—The enclosed correspondence passed between the Hon. Richard McBride and us if you can make any use of it towards elucidating the grievances of the small holder I should esteem your services greatly.

I may say that others who have purchased land from the railway belt are exempt from this abominable tax, and the claim dropped, and the land we have is more valuable than the land which has been deeded to E. & N. railway belt and thence to Mr. Haslem, thence to Stephenson, McB. Smith & Cox, and thence to us, F. and R. Saunders.

I may say that we are entitled to burn up all the timber on our own place according to the government agent's advice, and to pay nothing for that waste of luxury. In this is not a farce, especially as the same government spend so many millions to "preserve the timber" of the F. AND R. SAUNDERS. Alberti, V. I., B. C., Feb. 5, 1911.

(Copy Letter.) To the Hon. Richard McBride, Victoria: Dear Sir—After reading your speech in the Vancouver Daily Province of Jan. 6, 1911, delivered at the Stockbreeders' Association, in which you stated: "It was the business of the government to assist in every possible way, and in this direction the department of agriculture was doing all that was possible, consistent with the provincial assets; that you wanted the people to always remember the department was not established for the purpose of carrying on the formal business of the government, but was intended to assist the development of agriculture in every possible way." Now, sir, my brother and I were induced to come to Alberti through a pamphlet issued by the government in Victoria three years ago, which stated there were 4,800 acres in Alberti valley open to pre-emption. We arrived here two years before the government had issued this. This caused us to buy land, as we had only the amount the book advised, viz., \$200, we could not afford to travel further. We purchased 1 1/2 acres from Messrs. Stephenson, McB. Smith and Cox at \$100 per acre, and were told all on the land was ours.

Now, sir, we have worked hard to clear and stump what little has been done, and have lately resorted to cutting firewood to help us to get powder and also to live, and find on calling on a customer for balance due that the government agent sent the customer word he received 26c per cord royalty on all the wood we supplied, although we bought the two lots and all the timber was ours. Now, sir, does the above go to prove the speech made on behalf of agriculture, does it go to assist the settler in any way, whatever? Your kind attention to this matter will greatly oblige us. Yours truly, F. AND R. SAUNDERS.

Prime Minister's Office, Victoria, Jan. 19, 1911. Messrs. F. and R. Saunders, Alberti, B.C.: Gentlemen—I beg to acknowledge your favour of Jan. 14 with respect to the tax upon cordwood. I might explain that this tax is one that applies to the province as a whole, as you will see by reference to the schedule. The vote on a motion to regain the present membership of 291 resulted in 125 for to 188 against.

ANGLICAN COLLEGE AT UNIVERSITY

Synod of Diocese of New Westminster Approves the Proposal

Vancouver, Feb. 10.—The synod of the diocese of New Westminster at its twenty-seventh annual meeting signified its approval of the proposal of the plan to establish an Anglican college consisting of two halls to be attached to the provincial university at Point Grey. The plan upon which it is suggested the college shall be founded was detailed in the Bishop of New Westminster's charge and agreed upon by the three bishops of the province. It is as follows:

There shall be an Anglican theological college of British Columbia with a board of governors, consisting of the bishops of the several dioceses of the province, the two halls hereinafter to be mentioned, ex-officio, and three lay and three clerical members representing each diocese in the province elected in such a manner as the several dioceses may determine. Vacancies among the elected members of the board of governors shall be filled by the respective bishops till the next meeting of the synod of the diocese.

CITY TREES DAMAGED

Vernon, Feb. 10.—At the last meeting of the city council Ald. Smith made mention that he noticed all the poles in the city plastered all over with bills, and asked if this could not be put upon the city. He further said that he had stopped a man who had been driving nails into the trees to put up posters, and was of opinion that the persons responsible for this sort of thing should be punished.
