Independent Direct Acting Steam Pumps have a special advantage in Boiler Feeding, inasmuch as speed can be adjusted automatically, or otherwise, to run continuously and maintain water at uniform height. These Pumps can safely be run at speed which makes them an efficient Fire Pump.

## "Mother's Fool."

"Tis plain to me," said the farmer's wife. These boys will make their mark in life: They never were made to handle a hoe, And at once to a college they ought to go. Yes, John and Henry, 'tis clear to me, Great men in this world are sure to be; But Tom, he's little above a fool-So John and Henry must go to school."

"Now, really, wife," quoth Farmer Brown, As he sets his mug of cider down, ' Tom does more work in a day for me Than both of his brothers do in three. Book learnin' will never plant beans or corn Nor hoe potatoes, sure as you're born-Nor mend a rod of broken fence; For my part give me common sense."

But his wife the roost was bound to rule. And so " the boys" were sent to school; While, Tom, of course was left behind, For his mother said he had no mind. Five years at school the students spent, Then each one into business went. John learned to play the flute and fiddle, And parted his hair (of course) in the middle.

Though he said not a word but trimmed his And hoed his corn and sowed his peas; But somehow, either by "hook or crook," He managed to read full many a book.

Well, the war broke out, and "Captain Tom," To battle a hundred soldiers led; And when the enemy's flag went down, Came marching home as "General Brown."

But he went to work on the farm again, Planted his corn and sowed his grain. Repaired the house and broken tence, And people said he had "common sense." mon sense was rather rare, And the State House needed a portion there: So our "family dunce" moved into town. And the people called him "Governor

Farmers would do well, therefore, to experiment with the simple specific recomment with the simple specific recommentled by Mr. Sergent in the Lancet. Tobacco, Soap, Molasses, Meal, Pork, The method of cure was adopted by this gentleman for several years past -and always with perfect scccess he avers-is to shave off the whole of the houlms the moment the disease shows in any plot. The correction shows in any plot. The operation may be performed either with a sharp scythe or a reaping-hook, and when it is completed the shorn haulms should be immediately carted away. By these simple means, Mr. Sargent claims that the disease absolutely stopped, and although the potatoes do not subsequently increase in size, HALLETT & CO., Portland, Maine. what there is of them at the time of the operation remains perfectly good in the ground until due. Perhaps it may be said that the cure would be THE Subscriber offers for Sale the Dwellalmost as had as the discovery of the Bullion HOUSE and PREMISES owned by almost as bad as the disease, inasmuch as it would stop growth altogether and delay ripening. As Mr. Sargent has himself proved the efficiency of his specific to Ladies', Girls' & Children's HATS, a certain extent, the experiment is not altogether untried. It might therefore come in very usefully this autumn should the disease appear, as there seems some reason to fear, in the middle of harvesting oper-

Attachment to Newspapers.

Some one who seems to know about the relation of a good newspaper to the family writes as follows:—

"The strong attachment of subscribers to well conducted newspapers is fully confirmed by publishers. "Stop my paper," words of dread to beginmy paper, words of dread to order the paper in business, lose their terror after a paper has been established for a GROCERY STORE term of years. So long as a paper pursues a just, honorable and judicious course, meeting the wants of its customers in all respects, the ties of frendship between the subscribers

A QUESTION FOR THE REFORM CAMP. -By the Canadian census of 1871 there were 64,500 American born people in this country. By the United States census of 1870, there were 460,000 Canadian born people there. Now the question for Mr. Edgar's debating society is—If Free Trade is good and Protection evil, what disbolism induced 4,000,000 Free Traders to send 460,000 of their number to a Protection west virginia, tive country, while 40,000,000 Protectionists sent only 65,000 of their number to a Free Trade country?-Mail. ....

Nos. 5's to 10's. WHITE, BLUE, RED, ORANGE AND GREEN. Made of Good American Cotton with great care Correctly numbered and Warranted Full Length and Weight.

E would ask the purchasers of Cotton Warp to remember that our Yarn is spun on Throstle Frames, which makes a stronger yarn than the Ring Frames, used in making American yarn.

It is also better twisted and more carefully recled; each hank being tied up in 7 leas of 120 yards each. This make it much more easy to wind than when it is put up without leas—as the American is—and also saves a great deal of waste. great deal of waste.

Those acquainted with weaving will understand the great advantage it is to them to use yarn put up in this manner.

### COTTON CARPET WARP, Made of No. 10 Yarn, 4-Ply Twisted. WHITE, RED, BROWN, SLATE, &C.

All fast colors. Each 5 lb. bundle contains 10,000 yards in Each 5 lb. bundle contains 10,000 yards in length and will make a length of Carpet in proportion to the number of ends in width.

We have put more twist into this warp than it formerly had, and it will now make a more durable Carpet than can be made with any other material. Since its introduction by us, a few years ago, it has come into very general use throughout the country.

All our goods have our name and address upon them. None other are genuine.

GANG AND ROTARY SAW MILLS.

Patent Rotary SAW CARRIAGE. This invention pronounced the "Ne Plus-ultra" of Saw Mills, is des-

tined to sweep all rivals from the field. Interlocking hook and lever dogs are used, by which the logs are dogged and canted automatically .--The Head Blocks are fitted with sliding racks, which move forward and D. J. M. LAUGHLAN. STEPHEN WITTAKER, back, and by this means, long sweeping logs can be sprung straight, and tapering logs can be cut to the greatest possible advantage. When the log is sawed, the head blocks are run back by friction ready to receive another log as the carriage is returning.

> by a man who rides on the carriage. This mill has shown itself in actual competition, capable of rivaling one of the best Ganzs in New Brunswick, and cutting ready for edging a log per minute. The right to Manufacture and Sell this mill in the Dominion of Canada, has been purchased by the subscriber, any further information may be had by communicating with me.
