[Vol. 15]

SUMMARY OF NEWS.

DREADED HURRICANE IN THE WEST INDIES.

On the 22d of Aug. the islands of St. Kitts and Antigua were visited with a dreadful hurricane, which occasioned immense loss of life and property. At St. Kitts it lasted 6 hours with three shocks of an earthquake; during which the barometer fell to 28.6. Throughout the whole island, the most of the buildings are thrown, and the sugar cane completely prostrated. The loss of life is very great. The schooner *Mary* foundered with all on board. A vessel at St. Martins was lost, and ten of her crew perished. A number of persons have also been killed by the falling buildings. The Legislature had been called together.

From Antigua the reports are deplorable. The English Harbour and Falmouth are nearly overthrown; pretty much all the plantations on the island are injured; eleven persons have been killed by the falling buildings, and five churches thrown down. It is supposed that throughout the island there have been two thousand buildings unroofed, and seven hundred totally destroyed. Authentic statements only give us information of eighteen, chiefly of the labouring classes. Immense numbers of cattle and stock of all kinds have been destroyed. The general destruction, including life and property, is supposed to be greater than the losses occasioned by the earthquake of 1843, or by the hurricane of 1854.

From Cayenne.—We are indebted to Captain Siskney, of schooner *Nassau*, arrived at this port from Cayenne 15th August, for papers to the 12th. Slavery was abolished, by public decree, in French Guiana, on the 10th of that month, in virtue of the decree of the republic, of the 25th April, and in the name of the French people. The proclamation was made amidst much ceremony, in the presence of a vast concourse, both civil and military, and with cheers and salutes of cannon. After mass, an immense number of the new citizens, with their wives and sports and great enthusiasm, shouting "Vive la République! Vive la Liberté! Vive la Commune!" *Salem Register.*

Two colored preachers, free men, were arrested in Louisville, the other day, and default of \$500 bail, committed to prison. Unless some friendly hand intervenes, they will be sold for the term of one year, to pay the expenses of prosecution. *Cincinnati Herald.*

Alexander Siddell Mackenzie died at Sing on Wednesday, from an affection of the heart. He was attacked while riding upon his horse, succeeded in getting his feet out of the stirrups, and immediately fell to the ground upon his head; was taken up and carried into a house by two persons who witnessed the fall, and breathed but twice afterwards. His remains were removed in the afternoon to his residence, about two miles below the village. A requiem was held immediately, and a verdict rendered accordingly. Com. Mackenzie is known in the literary world by his books entitled "A Year in Spain," "Spain Revisited," and a work on Great Britain. He was most widely known by his connections with the unfortunate tragedy of the Somers. *New York Tribune.*

SMALL MATTER.—The nerve of a tooth, not as large as the finest capillary needle, will sometimes drive a strong man into distraction. A misquito can make an elephant absolutely mad. The coral reef, causing a navy to founder, is the work of worms. The warrior that withstood death in a thousand forms may be killed by an insect. The deepest wretchedness results from a perpetual denigration of petty trials. A chance look from those we love, often produces exquisite pain or unalloyed pleasure.

GRAMMATICAL WITTICISM.—"Bobby, what's steam?" "Boiling water." "That's right

Compare it." "Positive, but; comparative, boiler; superlative, burst."

The following lines (says the *Calais Advertiser*) from the pen of Mr. M. S. Pike, one of the Harbormen, are as truthful as they are beautiful, and beautiful as they are truthful, and will be read with pleasure by all into whose hands they may fall.

THE TOPER.

BY MARSHALL S. PIKE.

He raises up,
The noxious cup,
With weak and steady arm,
Then quickly quaffs,
And nodding laughs,
To taste its flaming charm.

Then dries he sips,
Then smooths his lips,
And feels a feverish flush;
Thoughts clear and mild,
Now gather wild,
And o'er his memory rush.

A second thirst,
Succeeds the first,
And he must drink once more;
His empty cup,
Again's filled up,
He quaffs it as before.

Now nothing loath,
To use an oath,
He curses life with woe;
Then stands to fight,
But falls in flight,
And proves himself his foe.

His nerve is dead,
His strength is fled,
Incensate does he lie;
His sight is dim,
A ruddy film,
Has settled o'er his eye.

Thus drunkenly mate,
Worse than a brute,
He can no longer sup;
He sleeps in shame,
And wakes the same,
To curse the Toper's cup.

A SAD STORY is thus related by a New-York paper of the 25th August:—

Dr. Ingram arrived in New York from Liverpool, died at Staten Island on Friday last. His lady died on the passage. They have left three children, the youngest 15 months old. During the passage Mrs. Ingram had been taken with premature confinement, lost her babe, it having lived but two days, but she was recovering and doing well. One night a lady passenger screamed with a fearful cry "oh! we are all going to the bottom," at the same moment the spray was heard dashing over the deck. The passengers sprung in consternation from their berths. Mrs. Ingram, sick as she was, rose in her bed, alarmed with the rest, but her husband came to her told her not to be alarmed, that although there was a heavy blow, it was not a storm, and there was no danger. Mrs. Ingram was on her way to New York, with her children, to visit a favourite sister, whom she had not seen for twenty years, and who was not aware of her coming. After the alarm, Mrs. I lay down again in her berth, but soon rose up—a maniac—reason had forsaken its throne—"get me my gaiters," said she to those around her, "I am going to see my sister—I will soon see my dear sister now." The acknowledged medical skill of her husband, and the kindness of friends, could not avert the blow. In two days she died; her form was unstranded and enclosed in the manner usual at sea, and, amid the imposing solemnities of the burial service of the Church of England, committed to the deep. Up to this moment, Dr. Ingram has done all that

man could do; but he now drooped—he was first observed by the captain playing in the manner of a maniac with a string. The captain told him he had better go down in the cabin, and he would probably feel better. He did so, but soon returned to the quarter deck, without speaking to any one. The captain told his children to go and speak to him, as it might arouse his attention. One of the little ones said to him, "Father, where is ma?" "Where is your Ma?" replied he "oh! she is putting on her gaiters, and getting ready to see her sister—we will soon see her noa." The truth flashed with fearful force upon the captain and all others around him—reason with him, too, had fallen. He took to his bed, was removed to the Hospital at Staten Island on the arrival of the vessel, and every attention paid to him, but without success.

His three little girls were left at the Hospital, no one there knowing that they had any relatives and were about being sent to Wards Island. A vessel arrived at Quarantine, in which was a gentleman who had been desirous of taking passage in the New York, but had to wait for the next packet.—On learning the melancholy fate of his friends, he communicated the intelligence to the sister of Mrs. Ingram (a highly respectable lady named Edwards) to whom the news was sad indeed. Mrs. E., her husband, applied for the children, found them well taken care of, but in the Hospital garb. They have again a home. This is one of many similar scenes attending passenger life.

A MONEY DIGGER.—An inquisitive person seeing a labourer digging on a retired spot, inquired what he was digging for. "Money," was the reply.—The fact was of course duly heralded to the curious in such matters, and the money digger was visited by three or four credulous fellows, when the following dialogue ensued:—Visitors—"We are told that are digging for money!" Labourer—"Well I ain't digging for any thing else, and if you are wise, you had better take hold also." No sooner said than done; the four fellows, thanking the generous deliver for giving them an invitation to share in the golden harvest, doffed their coats and went to work in good earnest, throwing, throwing out many loads of earth, till at length, getting very tired, the following colloquy took place:—Visitors—"When did you get any money last?" Labourer—"Saturday night."—Visitors—"How much?" Labourer—"Four dollars and a half."—That's rather small business," Labourer—"It's pretty well; 6s. a day is the regular price for digging cellars all over town." The visiting loafers dropped spades and vanished, quite out with the man who dug for money at the rate of 6s. a day.

EVERY STATION NECESSARY.—Let us never forget that the every station in life is necessary; that each deserves our respect; that not the station itself, but the worthy fulfilment of its duties, does honor to the man; and that we only merit esteem in so far as we approach, nearest to the perfect performance of the duties assigned to us in the order of things.

How to Make Unfermented Bread.—After a considerable number of trials, I have adopted the following mode of making the unfermented bread which is now regularly used in my house:—I carefully mix, by sifting with the flour, first tartaric acid, and next bicarbonate of soda, in following proportions, viz:—to 14 pounds, avoirdupois, of flour, 8 drachms of tartaric acid, and 11 drachms of soda of soda. Once mixed, it will keep any length of time, and is always ready for use. Sufficient cold water to make it into dough, rather thinner than ordinary, and immediate baking in a quick oven, (either in tins or not) is all that is required to make it into bread. The bread is of excellent quality, and is much admired by all who have tasted it. *Gardener's Chronicle.*

SUMMARY OF NEWS

The Flour Market in New York.—The New York *Sun* of last Friday, thus speaks of the effects of the European news on the flour market in that city:—

The publication of a week's later news from Europe this morning in an *Extra Sun*, created an unusual excitement in Wall street. Expectation was on tip toe for the results of the harvest in Britain and Ireland, and when it became known that an average crop was expected, and that a large part of the potato crop had escaped the rot, speculators looked "blue," but none pitted them. Flour, corn, wheat, &c., declined rapidly, while United States stock and cotton became firmer.

The fall in breadstuffs, which occurred today, will prove a *salutary* warning to our merchants and capitalists, some of whom are heavy losers. Had they followed the advice of the *New York Sun* they might have escaped. Our prices of breadstuffs must go still lower, to enable us to compete with Russia in supplying the English market.

BALTIMORE, Sept. 12.—SERIOUS RAIL ROAD ACCIDENT.—The train of cars from Washington, crowded with passengers, including a military and fire company, ran off the track this morning, about five miles from this city. The locomotive, tender, and three of the cars were literally smashed to atoms. A man named Casigan had his foot injured; Walter Harding, of the navy yard, his fingers cut off; Mr. Kelly had his legs badly bruised; and a Mr. Cooper, of the District of Columbia, his head cut entirely off. Many others were more or less injured by the accident.

ICE.—The New Orleans Bulletin of the 6th instant states that quite a panic has existed in that city for forty hours, by the unpleasant and unexpected announcement that the entire stock of ice was nearly exhausted, and the exhausted, and the supply would only hold out for two or three days. Many of the ice houses had already closed, and the price had advanced to five cents per pound, with prospect of being double that rate probably tomorrow.

DIVING BELL.—A correspondent of the Eastport Sentinel states that a company of gentlemen from Boston are now at work near Grand Manan, with an apparatus invented by a gentleman who belongs to Boston. The operator has to descend to the depth of one hundred and twenty feet from the surface, where he is enabled to remain for one hour or longer, as the occasions may require—and freely converses, through a tube, to the distance of two hundred feet.

TEMPERANCE PROJECT.—The Worcester (Eng.) *Journal* says that in Leicester an agitation is going on in favor of the formation of a model parish, in which alcoholic drinks are to be entirely prohibited. Upwards of £3000 has already been subscribed.

FROM CAPE TOWN.—C. G. H. The fine barque *Win. H. Shaler*, Capt. Holmes, arrived at this port yesterday afternoon, from Cape Town, which place she left on the 14th July.

No new disturbances had occurred on the Caffre frontier. Several military villages had been established on the frontier and were rapidly increasing in population.—*Boston Journal*.

THE CHOLERA.—The cholera has subsided in St. Petersburg; Constantinople, and in Jassy. The Russian physicians have declared that the ravages of the plague in their country had been principally owing to the immoderate use of spirituous liquors by the people.

FALL MACKEREL.—The Halifax Recorder says some years have elapsed since the catch of Mackerel has been so extensive as within the past fortnight. Notwithstanding the blow on Friday night, some hundreds of barrels were stopped between Fresh Water Bridge and the Black Rock; we believe a similar occurrence is not on record. In fact, the whole harbor, particularly Bedford Basin, is literally swarming with mackerel.

BUENOS AYRES papers to July 5th, report

a great revival of trade, a fall in the rates of exchange, an advance in the value of government securities, a great influx of shipping and glowing prospects of future prosperity in that metropolis of the Argentine Union. Farmers, mechanics and labourers, as well as clerks and accountants find active employment as soon as they arrive.

THE WEST INDIAN HURRICANE.—The Baltimore papers contain further details of the hurricane at Antigua. The Antigua Observer says:—“On the island, previously studied with most structures and populous villages, in this brief interval has become a waste of rubbish and ruin.” In the Old Road Division every cottage lies prostrate. The village of Johnson Point, comprising 120 or 200 dwellings, is almost annihilated—only three good houses being left standing. Three persons were crushed to death and others severely wounded. The newly-erected church of All Saints was leveled to the ground; St. Barnabas's has also been destroyed. It is supposed that throughout the island seven hundred houses have been totally destroyed, and two thousand unroofed. Eighteen persons are known to have been killed; besides immense numbers of cattle. The loss of the government at English Harbour is over \$100,000. In one case, an overseer's house was lifted up in the air, and thrown upside down, twenty-five yards from its foundation. In the house were an infant and its mother, who escaped uninjured.

Latest from France.—The New York *Journal of Commerce* contains the following, received from London by telegraph:—Liverpool, Sept. 2.—Paris advices, dated yesterday, have come to hand. They inform us that the city was much excited in consequence of the warlike and determined tone of the Government on the affairs between Austria and Italy. It is confidently expected that should Austria persist in rejecting the offered mediation of France and England, the former, with the cordial approval of England, will adopt without delay measures of a coercive character to compel the settlement of the dispute.

FROM MEXICO.—A late arrival at New Orleans from Vera Cruz brings the following:—Tampico.—The Monitor of the 15th states that information has reached the capital, that the utmost discord reigns among the inhabitants of Tampico. It believes that the government should take steps to apply a remedy to disaffection there, and to put down the disposition manifested by the inhabitants to become independent of the rest of the Republic. Projects of annexation are openly discussed at Tampico, and volunteers lately belonging to the Louisiana regiment are continually arriving to assist, when the time arrives, towards the realization of these projects.

THE CROPS.—The New Brunswick says:—We learn from different sections of the Province, that the crops this season, with the exception of the potatoes, will turn out very abundant. In some sections, the potatoes have been nearly destroyed, while in others they have escaped almost unimpaired, and upon the whole, it is expected that there will be about half a crop. The *Reporter* says, that there is more corn growing along the line of the River St. John at the present period, than ever was produced before in a single season; it is also nearly ripe, and having a fine warm season, without sustaining any injury from early frosts, the yield will be abundant.

The same paper gives the following advice to its Country readers:—If you cannot feed your old horses upon hay, shoot them, and grind your oats for the use of your family. You will not only find the meal thus produced equal to imported flour but you will also find that the quantity generally consumed by a span of horses in the year, will prove enough to supply three ordinary families for the same period.

DISTINGUISHED ARRIVALS.—His Honor Judge Carter and Lady, who came out in the Europa, arrived in this City on Saturday night, and took lodgings at the St. John Hotel. They are accompanied by Mr. Heywood, member of the Imperial Parliament. The Hon. Mr. Aylwin, a member the Canadian Government, arrived on Saturday, and proceeds in the steamer to Boston this morning. Bishop Walsh, the Roman Catholic

Bishop of Halifax, also arrived on Saturday, via Windsor.—New Brunswick.

THE ELECTRIC TELEGRAPH.—The preliminary arrangements having been made, Mr. Darrow, the Agent for the U. S. Electric Telegraph Company proceeded down the St. Andrews road on Tuesday, to purchase and contract for posts, and commence the work of constructing the line from Calais to this City, with the least possible delay. There is little doubt, that from the energy and activity of the American Company, we shall be put in instant communication with New Orleans, and all other ports and places in the United States, at which there is a station, as well as in Canada, by the first day of December next, the time proposed for opening the line.—*Ibid.*

THE FISHERIES.—A correspondent of an American paper recommends the fishermen of the United States, to establish a fishing station at Canso, for the purpose of prosecuting the fisheries. He says:—

It is a point clearly established that the natural qualities of Nova-Scotia are superior to those enjoyed by our own people for prosecuting the fishing business. A tax of 20 per cent on the labour of the foreigner is not sufficient to place the American fishermen on an equal footing with him, no in my opinion would 40 per cent, did the foreigner expend the same amount of mental and physical labour, enterprise and industry that the American does. We have ample knowledge of properly curing fish, and putting them up in marketable form, well acquainted with the domestic as well as the foreign markets, where the fish are consumed, and possess in this respect, superior advantages to our eastern neighbours.

Mackerel do not swarm our shores with that abundance they do his, consequently it must cost us more to produce a given number of mackerel than our neighbour, as comparatively he fishes at home at a small expense and we go abroad at a heavy expense.

To obviate this in a measure, let us possess ourselves of his vantage ground, by going on his own soil.

Little Canso is thought to be the best and most eligible point. From her you have a fishing coast the very best in the world, stretching in various directions 200 miles, numbering 8 or 10,000 fishermen with a consuming population of 35 or 40,000, requiring all the necessaries of life.

The commencement must be made by February 1st, such as engaging coopers, laborers, barrels and procuring supplies for the fishermen.

THE STANDARD
IS PUBLISHED ON WEDNESDAY AND SATURDAY MORNING
BY A. W. SMITH.

THE STANDARD.
ST. ANDREWS, SATURDAY, SEP. 23, 1848

The English Mail had not arrived up to the time of our paper being put to press (half-past 5 o'clock p. m.) We have, made such selections from our Colonial and United States papers, as may be interesting to our readers.

The Hon. Philip S. White, P.M.W.P. of the Sons of Temperance, purposes visiting the Divisions at Eastport, Calais, and Saint Stephen, during the next week, and will also deliver public lectures upon Temperance.

Mr. James Clarke, Pilot, informs us of a most praiseworthy act on the part of Capt. Whitcomb, of the U. S. Cutter *Alert*, stationed at Eastport, which deserves notice. The Barque *Aganora*, Hicks, master, had been lying off Eastport waiting for a crew, and when ready for sea, the men refused to get the vessel under way, for the master or the other officers of the ship. Mr. Clark was then sent to the Captain of the Cutter for assistance, which was cheerfully rendered; and upon a signal from the ship a boat with twelve hands from the "Alert" came along.

side, and the "Aganora" was sent. The men from the Cutter ship until she was some 600 yards off. It is with much pleasure we trust and friendly facts, Whitcomb and his officers trusty assistance to British.

EXERCISES.—HOME INDUSTRY direct the attention of Merch to the advertisement of Mr. has commenced the business place. He is a young man, but habits—a native of this man and deserves encouragement.

MARRIAGE.—On Tuesday evening, Thomas B. Millidge, Esq. of St. John, B. Louisa Elizabeth, eldest daughter of Mr. A. Pike, Esq., R. N. to another daughter of Capt. Thos. city.

DIE.—At the residence of Mr. Law, St. Andrews, on 11 Jarvis, eldest of the ladies of that place, in the 5 leaving a large circle of to mourn their bereavement. The deceased underwent full illness, which she bore with fortitude, constantly cheerful and conversational, leaving the most perfect Divine will and holding a rare example of how die.

...and the "Agenora" was soon under way. The men from the Cutter did not leave the ship until she was some distance at sea. It is with much pleasure we record such distinguished and friendly facts, on the part of Capt. Whitcomb and his officers, in thus rendering timely assistance to British shipping.

ESCAPE FROM INDUSTRY.—We beg leave to direct the attention of Merchants and ship owners to the advertisement of Mr. Samuel Cochran, who has commenced the business of Sailing in this place. He is a young man of industry and sober habits—a native of this Town—a good workman and deserves encouragement.

MARRIED

On Tuesday evening, at the residence of Thomas B. Milbridge, Esquire, by the Rev. Mr. Stewart, Andrew Ramstead, Weimore, Esquire, of St. John, Barrister at Law, to Louisa Elizabeth, eldest daughter of the late Thomas Lonsdown, Esquire. On the 12th inst., at Heron Bay, Kent, England, by the Rev. Mr. Meredith, Thomas R. Pike, Esq., R. N., to Anne Leonard, second daughter of Capt. Thos. Beer R.N., of this city.

DIED.

At the residence of her son-in-law, Capt. Law, St. Andrews, on the 19th inst. Mrs. Anne Jarvis, widow of the late Mr. Stephen Jarvis of that place, in the 86th year of her age, leaving a large circle of relatives and friends to mourn their bereavement. The deceased underwent a long and painful illness, which she bore with a truly Christian fortitude, constantly evincing in her demeanor and conversation, amidst all her sufferings, the most perfect resignation to the Divine will, and holding out to the very end, a rare example of how a true Christian can die.

Militia Notice.

THE FIRST BATTALION of the Charlotte County Militia, are hereby ordered to assemble at the Western Block House, on SATURDAY the 21st of OCTOBER next, at 10 o'clock, A. M. FOR DRILL AND INSPECTION. James Agnew.

BANKERS—Bank of New Brunswick.
SECRETARY & TREASURER—Mr. C. L. Street.

George D. Street, Esq. Agent, St. Andrews.
Alexander Campbell, Esq., Agent, St. Stephens.

THIS SOCIETY is established on a mutual simplified system—the most approved in England; and founded on a basis so sound as to give the most effectual security to its members.

THE DESIGN OF THIS SOCIETY IS—
First—To enable persons to become their own Landlords, and purchase Freehold or Leasehold Property, by advances made by the Society.

(£300 positively advanced for £236 a year for eleven and a half years, which sum pays both principal and interest. Other sums in proportion.)

Secondly—To provide a safe and profitable Fund for SAVINGS, or INVESTMENTS for small or large sums of money. (This Society offers opportunities in this respect which no other Institution in this Province can do.—Savings Bank only pay 5 per cent, whereas this Society pays 6 per cent. Compound interest.)

THE OTHER IMPORTANT ADVANTAGES ARE—
1st—No money is lent but on security on Real Property.

2d—New Members are admitted up to the time the Society will end, with equal propinquity advantages.

3d—Any Member may withdraw the amount of his Shares at any time after the first year with the compound interest thereon. Shares may be transferred at any time.

4th—Members may invest their Money in PAID UP SHARES which will necessarily be doubled £20 at the commencement being worth £120 at the conclusion.

5th—Mortgages can be repaid at any time with proper notice.

6th—The Accounts and Bank Book are open for the inspection of members at every monthly meeting.

7th—Securities given by all Officers of Trust.

The Board of Directors in St. John have the GENERAL MANAGEMENT of the Society—but for the purpose of accommodating persons resident in other parts of the Province, Branch Offices, or Agencies are formed—where Shares can be obtained, and all the payments made, in the various districts; and Local Boards of Management will be established as soon as the number of Shares taken in any district render it advisable.

The Funds are procured from the Monthly Subscription of the Members, and also from Money invested in Paid up Shares, which will always ensure ample means for meeting the advances required.

The PROFITS are certain, because the amount paid by the borrowers, for an advance, must necessarily form the fund for paying the lender.

The EXPENSES of the Society are small, as the Officers act gratuitously, with the exception of the Secretary and Treasurer.

The FEES and FINES form a Contingent Fund out of which the expenses are paid, and the balance, which will be very considerable, will go into the general Fund, which will lessen the duration of the Society.

Every information, with copies of Prospectus, Rules, &c. can be obtained on application at the Office of the Society—or at the Offices of the Agents.

By order of the Board,
CHARLES L. STREET,
Secretary & Treasurer.
Prince William street, St. John, N. B.
December 25, 1847.

NOTICE.

A Meeting of the Stockholders of the Charlotte County Bank, will take place at their Banking House on Monday the 1st proximo at noon, to elect Directors and take into consideration such matters as may be laid before them.
