NEWSPAPER MEN COMING EAST

Canadian Weekly Newspaper Association Will Visit Here In June.

The manager of the Graphic has been notified that a very large party of newspaper men from all over Canada will visit Campbellton in June next.

The Canadian Weekly Newspaper Association, which is composed of the publishers of nearly all the weekly papers in the Dominion are coming east and on to Halifax where they will hold their annual convention on June 18th and 19th.

Last year over five hundred delegates assembled at Ottawa and in 1921 about five hundred met at Vancouver, B. C., so it is expected as many will be down east this year.

So far as known the special train will leave Toronto, June 14th. The first stop in N. B. will be at Fredericton. From Fredericton to St. John the special train will go over the Valley railway. From St. John the delegates will cross the Bay of Digby and proceed thence via the Antigonish Valley to Halifax.

After the convention is over the special train will proceed to Cape Breton, thence to P. E. I. and on to Quebec via the North Shore. Stops will be made at Newcastle and Campbellton.

Among this party will be some of the brightest men in the newspaper field in Canada.

DISASTROUS FIRE AT JACQUET RIVER

Bayview Hotel Completely Destroyed Yesterday Morning With Considerable Loss.

The Bayview Hotel at Jacquet River was completely destroyed by fire yesterday morning. The blaze broke out about eight o'clock and although discovered shortly after its inception the flames got beyond control before any fire-fighting apparatus could be got to the scene. The building carried very little insurance so that the loss which included some furniture will be a heavy one amounting to several thousand dollars.

The cause of the fire is more or less of a mystery which defies elucidation for the entire building is burned to the ground and leaves no chance to establish any clues as to the origin of the blaze. Flames were first discovered on the second floor about the middle of the building and judging from the locality it appears that the fire started in an inside partition in this vicinity. The hotel is heated by stoves but there was neither gas nor pipes in this particular part of the building.

Mr. Paul Doyle was the proprietor and owner of the Bayview. Mr. Doyle is well known to the travelling public on the north shore.

Arrangements will be made for entertainment at this point.

Subscribing for the Graphic.

MEETING OF TOWN COUNCIL

Water and Town Hall Debentures to Be Issued—To Vote on Question.

A meeting of the town council was held on Thursday evening last in the town clerk's office. His Worship Mayor Mackay occupied the chair and Councillors Marquis, Gilker, Graham, Bellefleur, Gorman and St. Onge were present.

The minutes of the previous meeting were read and confirmed.

A communication from Dr. Pinaud, chairman of the local Red Cross Society, was read requesting that a milk inspector be appointed here. This was laid on the table to be taken up later.

A letter from the proprietors of the Central Bookstore was read, stating that during the Christmas season the lights in their store were out on two different nights, there being no electric current to supply them. The store was crowded with customers at the time and consequently goods were broken and some very also stolen. The letter estimated the loss, including the loss of business at from \$175.00 to \$200.00 and offered to settle the matter for a clear receipt of their electric light account amounting to some \$80.00. This matter was referred to the Electric Light Committee they to confer with the town solicitor.

A communication was next read from the Secretary of the Fire Brigade asking for the rooms in the Fire Station Building when vacated by the town clerk and treasurer when these officials occupy their new offices in the new Municipal Building.

A motion was made to have this letter referred to the Public Property and Streets Committee. At this juncture Councillor Graham pointed out that the fire station came under the control of the Fire and Protection Committee. His Worship stated that he understood that all town buildings were under the control of the Public Property and Streets Committee. Coun. Graham then suggested turning to page thirty of the By-Laws and reading the section referring to this matter. This was done and it was found that according to the by-laws the fire committee had control of all fire stations. On a vote being taken the council divided and His Worship gave the deciding vote in favor of the Public Property and Streets Committee.

David Roy, the building inspector, reported the issue of permits during 1922 amounted to \$202,000. He enclosed his account for salary \$120. The report was received and placed on file and salary ordered paid.

The next item was a letter from Clarence B. H. Hann with reference to his assessment. This was referred to the Assessment and Appeals Committee.

A communication from Isaac Boudreau (painter), was read next. This notified the council that unless the lane leading to Billside Street was widened and put in a passable condition he would take legal action in the matter. Referred to Public Property and Streets Committee.

An application from Ernest Sarzen for a job as driver of one of the town motor trucks during the summer was ordered placed on file for future reference.

A communication was read from O. J. Klein, and also another from Colin MacKenzie on behalf of Harry Gilligan, both regarding their assessments for 1922. These were referred to the Assessment and Appeals Committee.

The lease entered into with Robt. L. Duncan for land upon which the pumping station is situated was submitted to the council for signature. The lease covers a period of twenty years at a rental of \$50 per annum and calls for two hundred feet of land on the Walker Brook at this point. Mayor and Town Clerk were authorized to execute same on behalf of the town.

A statement from the Soldiers Memorial Hospital, being a fund account in the Thompson case and amounting to \$275, was presented. Referred to the Public Charities Committee with instructions to consult the town solicitor.

The usual departmental accounts were then heard and ordered paid with the exception of one from J. & D. A. Harquan which included an item for \$25.00 for an ice door for the pumping station. The item, at the price stated, was not quite clear and the bill was held for investigation.

Coun. Gilker from the Assessment and Appeals Committee reported on recommending that a license be issued to George McLeod to conduct a confectionery store on payment of \$15. Report received and adopted.

His Worship then asked deputy Mayor Marquis to take the chair when he moved a motion that an election be held on Tuesday, March 27th, asking the ratepayers for authority to issue debentures to the amount of \$25,000, to cover in part the expenditure for the new town hall. Considerable discussion took place over this matter, it being pointed out that it would be wise to make provision for the issue of bonds to cover capital expenditure on electric light and water as these matters demand attention and their permanent improvement will necessitate considerable outlay. It was also pointed out that \$25,000 would not even cover the total cost of the new municipal building. The Mayor's motion, however, was finally passed.

IN FAVOR OF TOWN

Extracts of Letter From a Prominent Woodstock Citizen.

The following extracts are from a letter written by a prominent Woodstock gentleman to a Campbellton citizen:—

"I have noticed with some amusement the reference in your Tribune to Woodstock, which is held up as a 'horrible example to the town manager plan of civic government. It is hard to understand an argument of this nature when it is couched by the whole country around that we have the best governed town and the records all go to prove that the plan is an entire success. If the learned editor of the Tribune would read over our town report and the literature in connection with the administration of affairs he might, perhaps, take a different view of the situation."

Personally, I have taken a deep interest in the scheme from its inception and I shall watch events in Campbellton with the same interest."

A motion to the effect that the Town Clerk and Town Treasurer be instructed to ascertain the amount of capital expenditure for electric light and water not already covered by a bond issue, was passed. The motion also provided that legislation be asked to issue bonds to cover the amount.

The matter of making provision for more adequate water supply was taken up next. It was suggested that a ten foot dam could be erected on the Walker Brook at a small cost which would supply present needs. It was further pointed out that this dam could be raised sufficiently to meet future requirements. On motion the town engineer was instructed to get an estimate of the cost of such a dam. A further motion was passed to the effect that legislation be provided for the issue of bonds to cover this amount be secured as a precautionary measure in the event of the work being undertaken.

Councillor Gilker brought up the matter of the cost of assessment and suggested that assessors be paid \$5.00 per day, the amount paid to each not to exceed \$200. Other suggestions were advanced but Coun. Gilker's was finally passed.

The Council then adjourned.

HYDRO ELECTRIC AGAIN DISCUSSED

Rate of Nine-Tenths of a Cent Promised on 2000 H. P. Contract.

The Committee of the Whole of the Town Council had a conference here yesterday afternoon with C. O. Foss of the New Brunswick Hydro-Electric Commission in reference to Campbellton being supplied with hydro-electric current from the proposed Grand Falls development. Mr. Foss enquired as to the amount of current Campbellton would likely require in order to place the town's plan in operation before the meeting in figures. Two thousand horse power was submitted as a basis and figuring on this amount Mr. Foss stated a rate of \$22.00 per horse power per year would be given. This, he pointed out, was equal to nine-tenths of a cent per kilowatt hour and was the rate for current supplied at the Campbellton switch board.

Mr. Foss stated that the current could be supplied within eighteen months. This invitation of the commission was to take it from Grand Falls to St. Leonards and from there to Campbellton by way of the I. N. R. route.

The amount of power which would be developed under the plan which is now being considered by the hydro commission is placed at 50,000 H. P. Mr. Foss is making a tour of towns throughout the northern part of the province which are interested in the Grand Falls power project in order to ascertain how much current could be disposed of if the proposed plan were carried through.

On Wednesday afternoon, Mar. 7th, Mrs. J. R. Wood very pleasantly entertained a number of young people at a birthday party in honor of her two little daughters, Misses Viola and Aurel. About twenty-five little folks were in attendance, when singing, games, etc., were enjoyed all returning home about eight o'clock, having had a delightful time. Those present were: Olive and Mary Miller, Jean Baird, Vito Davis, Betty Campbell, Jean Christopher, Doris Adair, Pauline Wall, Kathryn Cassey, Lambert MacNutt, Helen Nelson, Isabel Goddard, Dorothy Sunderland, Helen Duncan, Verna Hamilton, Evelyn Gerard, Dorothy Mundle, Frances Fitzpatrick, Ethel, Earl and Donald Woodworth. The little girls in whose honor the party was given received many dainty gifts from their friends.

INSPIRATIONS FOR SPRING IN MEN'S TOGGERY

We have constantly given our Customers the best obtainable in Men's Clothing and Furnishings. This Spring our showing is the best ever. The Quality as usual is the Finest. The Styles and Fabrics are the very Newest.

BORSALINO HATS—Direct from Italy in the Latest English and American Shapes, for particular men, who are particular about style and quality. Eventually you will wear a Borsalino. Price \$7.50
Other Hats: \$3.00, 3.50, \$4.00, \$4.50.

THE HARTT SHOE—We have added this New Line to our stock this Spring in all the Newest Styles in High and Low Shoes. We consider this the Finest Shoe procurable in Canada. Price: \$9.50, 10.50, \$11.00. Other Shoes \$7.00, etc.

FORSYTH SHIRTS—Patterns that are different and exclusive, with and without Collars. Soft and Starched. Price \$2.00 to \$5.00. Other Shirts \$1.00, \$1.50, \$1.75.

HOLEPROOF SILK HOSIERY—The unquestionable guide to Style and Quality plus Durability. We have this Hosiery in all the desirable Shades for Spring and Summer. Price \$1.00, \$1.50 and \$2.00.

"Art Clothes"

We make a specialty of something just a little different in Suits for young men, and men who would stay young. Let us take your measure for that Easter Suit—NOW—in one of our smart spring models.

PRICE \$30 up.

PIUS MICHAUD ON FOREST PROTECTION

Introduces Resolution and Delivers Address in Parliament on Subject.

Forest Protection
Mr. Pius Michaud (Montreal) moved.
That, in the opinion of this House, it is desirable for the purpose of the preservation of our great forest wealth, that the government of Canada should co-operate with the governments of the several provinces.

He said: Mr. Speaker, I have taken a special interest in the Canadian Forestry Association for many years, and have also read carefully all forestry reports published by that association and by the Forestry branch of the Department of the Interior. I beg to congratulate and to thank the personnel of these two bodies for their splendid work. They have taken great pains to secure information on this important subject and I am more than thankful to learn for the facts which I have been enabled to obtain in connection therewith. We are told that a country without a forest is like a man without a heart. We have forests in this country, the estimated value of which is over two billion dollars, an amount sufficient to pay our present national debt. In 1922, there were over 4,000 forest fires in Canada, and Mr. Robson Black, secretary of the Canadian Forestry Association, has stated that these fires destroyed about 150,000,000 cords of timber or fifty years' supply, were destroyed by insects in the last ten years in the province of Quebec. In the same province 800,000 acres were burned over in 1921, and only a little over 1,000 acres were planted. And still millions of trees were exported from Canada to the United States in the same year. The Boston Herald, in connection with this great destruction, says:

What adds to the pity is the most of the timber destroyed by our woodland fires is so young as to belong to generations not old enough to protect it.

So far, I believe, the province of Quebec and New Brunswick have the most practical laws to protect their forest reserves. I have in my possession the Forestry Act of the province of New Brunswick. This was passed in 1918 and has been amended from time to time. I must admit, however, that in New Brunswick we have not to a certain extent legislation enacted by the province of Quebec. Let me acknowledge, Mr. Speaker, that the province of Quebec with its great forest reserves has given an excellent example to all the other provinces of how to take care of this natural wealth.

Reports, based on comprehensive surveys, have been published by the Commission of Conservation in regard to the forests of Nova Scotia and British Columbia and an inventory of the Ontario forests, commenced by that Commission is being completed by the Forestry Branch of the Department of the Interior. The Forestry Branch has in my informed examination a very considerable area of the forest land in the Prairie Provinces and the forest services of Quebec and New Brunswick are collecting data as to the forest resources in their respective provinces, but the information available is still far from complete.

Of the species which are used for the manufacture of pulp, there are estimated to be 850 million cords of spruce, balsam and western hemlock and 400 million cords of jack pine, lodgepole pine, eastern hemlock, poplar and cottonwood; a total of 1,250 million cords. About 650 million cords of this is in eastern Canada, included in the pulpwood estimate is 100 million cords which is also saw material and will doubtless be used to a very considerable extent as fuel.

Accessibility is a most important factor in considering forest resources. It is difficult, however, to estimate the extent to which these resources may become commercially valuable since accessibility depends on changing conditions such as transportation facilities, methods of exploitation, market standards, price of products and cutting regulations. Under present conditions it is doubtful that more than one-half of the saw material and one-third of the pulpwood, exclusive of the prairie provinces, can be considered commercially accessible.

An average annual cut is now approximately as follows:

Million feet B. M.
Lumber 4,000
Pulp, 800,000 cords (estimated) 1,000
Total 11,000

A superficial comparison of the above figures might lead to the conclusion that we still have sufficient timber to supply our requirements for an indefinite period, but such a conclusion is unwarranted when all the facts are considered. It must be remembered that these estimates will change as conditions are reduced.

New Floor Scraping Machine
Have just received a new "Universal" Floor Scraping Machine (one of the best on the market) and am now prepared to scrape hardwood floors of every description in a thoroughly first-class manner at most moderate prices.

used to a greater or less extent by the lumbermen, campers and others who frequent our forests. In this connection it is to be regretted that the government of Canada has not a United States forestry commissioner. In a report recently submitted to Congress—when, by the way, was read as a meeting of our Forestry Association held in Ottawa—concerning the damage to American forests, it is declared:

When the forests fall the lumber business, one of the greatest industries of the country will disappear. Suffering among all building trades will follow; mining will become vastly more expensive. The price of coal, iron and other minerals will rise. When this occurs the railways will be directly affected and the cost of transportation will increase. In brief, when forests commence to fall every man, woman and child in the United States will feel the pinch. Through past misuses forests are undoubtedly falling.

There is a lesson for Canada here. Experts have readily admitted that Canadian forests constitute one of the world's greatest reserves of timber. That they should be ruthlessly wasted by fire and other agencies is tragic and unnecessary.

While it is true that the government has done much to protect the forests, there is very much that yet remains to be done. The population of the consuming area tributary to our forests has increased fivefold during the past half century, but its wood consumption has increased tenfold or more. The natural resources of Canada are the envy of the world. To squander these resources is nothing less than criminal.

On reliable information it seems that about 150,000,000 cords of timber or fifty years' supply, were destroyed by insects in the last ten years in the province of Quebec. In the same province 800,000 acres were burned over in 1921, and only a little over 1,000 acres were planted. And still millions of trees were exported from Canada to the United States in the same year. The Boston Herald, in connection with this great destruction, says:

What adds to the pity is the most of the timber destroyed by our woodland fires is so young as to belong to generations not old enough to protect it.

So far, I believe, the province of Quebec and New Brunswick have the most practical laws to protect their forest reserves. I have in my possession the Forestry Act of the province of New Brunswick. This was passed in 1918 and has been amended from time to time. I must admit, however, that in New Brunswick we have not to a certain extent legislation enacted by the province of Quebec. Let me acknowledge, Mr. Speaker, that the province of Quebec with its great forest reserves has given an excellent example to all the other provinces of how to take care of this natural wealth.

Reports, based on comprehensive surveys, have been published by the Commission of Conservation in regard to the forests of Nova Scotia and British Columbia and an inventory of the Ontario forests, commenced by that Commission is being completed by the Forestry Branch of the Department of the Interior. The Forestry Branch has in my informed examination a very considerable area of the forest land in the Prairie Provinces and the forest services of Quebec and New Brunswick are collecting data as to the forest resources in their respective provinces, but the information available is still far from complete.

Of the species which are used for the manufacture of pulp, there are estimated to be 850 million cords of spruce, balsam and western hemlock and 400 million cords of jack pine, lodgepole pine, eastern hemlock, poplar and cottonwood; a total of 1,250 million cords. About 650 million cords of this is in eastern Canada, included in the pulpwood estimate is 100 million cords which is also saw material and will doubtless be used to a very considerable extent as fuel.

Accessibility is a most important factor in considering forest resources. It is difficult, however, to estimate the extent to which these resources may become commercially valuable since accessibility depends on changing conditions such as transportation facilities, methods of exploitation, market standards, price of products and cutting regulations. Under present conditions it is doubtful that more than one-half of the saw material and one-third of the pulpwood, exclusive of the prairie provinces, can be considered commercially accessible.

An average annual cut is now approximately as follows:

Million feet B. M.
Lumber 4,000
Pulp, 800,000 cords (estimated) 1,000
Total 11,000

A superficial comparison of the above figures might lead to the conclusion that we still have sufficient timber to supply our requirements for an indefinite period, but such a conclusion is unwarranted when all the facts are considered. It must be remembered that these estimates will change as conditions are reduced.

when more authentic information is secured, that a large proportion of the timber can probably never be operated at a profit, that under the present system of exploitation a great deal of the timber is wasted, and that fire, insects and fungi are destroying many times the amount of timber used.

It was estimated that in British Columbia fire had destroyed twenty-two times the amount of timber cut prior to 1917, and there is reason to believe that similar conditions exist in the other provinces. The spruce bud-worm has destroyed, it is estimated, at least 100 million cords of pulpwood in Quebec and 15 million cords in New Brunswick during the last ten years. This is in equal to twenty-nine times the annual cut of pulpwood in the whole Dominion. Other insects are also destroying vast amounts of timber. No attempt has been made to estimate the damage done by fungi, but it would appear to be as great as that caused by either of these insects.

It is apparent to all who are familiar with the situation that the timber resources within reach of the established industries, especially in eastern Canada, are being depleted to such an extent that unless provision is made for the growing of new crops of timber, these industries are faced with the necessity of curtailment of production or entire abandonment of their operations. The constantly increasing cost of securing supplies for one saw mill and pulp mill is an evidence of this condition and has led to several of the pulp companies undertaking reforestation measures.

In addition, it must be pointed out that we must be prepared for a greatly increased demand for our forest products. Already the United States is dependent on Canada for two-thirds of its sawmill and our total exports of wood and wood products to the United States in 1922 were valued at over \$148,000,000. With the growth of population and increasing supplies of timber in the United States, we must expect increased demand for our forest products and we should be in a position to take advantage of this export and profitable market at our doors. Canada is the principal source of all kind of timber within the British Empire, and our exports to other parts of the empire and to the Orient are rapidly increasing.

With the growth of population in the Dominion our needs for home consumption are bound to be greater, for, in spite of the use of substitutes, the use of wood continues to increase.

Our immense forest area is capable of providing a very much greater output if handled with the view of maintaining production. This means protection from fire for both mature and young timber, control of insects, insects and fungi by establishing healthy conditions for growth, and the securing of reproduction by either natural or artificial means.

Dry weather will not prevent a tree from growing. Hail storms cannot destroy our forests; yet storms do not affect them; floods only stimulate their growth. Trees do not require cultivation in the sense that other products of the land require it. If the forests are protected from fires and if the timber is cut as it should be, forest products will be assured to us in large quantities for years to come. But in the East we have had some difficulty during the last few years in exporting our lumber, because, about the time we are ready to ship it, our friends in the prairie provinces are ready to ship their wheat, and every available car in the East is taken to the West for that purpose. I am one of those who like to see our friends in the West grow a good crop and export it to advantage, but we in the East have been handicapped for some years on account of this lack of cars. Especially was this the case last fall. We were glad to see the splendid crop that our friends in the West had, going out, as it did, to many different parts of the world, and we admired the splendid results of their efforts to produce much wheat as possible. Our lumbermen in the East, however, were making the request that at least a reasonable percentage of these cars should remain in our province in order to facilitate the export of our lumber. After the lumber is sawn early in the spring, it lies in the yards for three or four months until it dries, and that is about the time that it is shipped to different markets in the United States and other parts of the world. Thus our export season for lumber is the same as the export season for the wheat of the prairie.

In conclusion, I would ask the government to co-operate as much as possible in the preservation of our forests so that they may be made the national asset that they can be if they are conserved as I have suggested.

CLASSIFIED

SAWMILL OUTFIT FOR SALE.
Consisting of 1, 14 H. P. DeLaval gasoline engine with clutch pulley, 1 sawed with 36 inch inserted tooth saw, complete, 1 16 foot carriage with 4 log seat, cable drum and 80 feet steel track; 1 trimmer complete with saw and belt. Offered for \$750.00. Apply to MADAME JENINGCO, Creek Terms, cash. Offer is good until May 1st, 1923. Anybody interested come and see or write to M. SMEARER, Archibald St., N. B. Mar. 15-1p

LOST—Between skating rink and Cemetery Road, a gold wrist watch. Finder kindly leave at this office. Mar. 8-1-pd.

FOR SALE—1 shoe shining outfit, consisting of four chairs, three beautiful signs, 1 large stand and brushes. Apply to MADAME JENINGCO, Creek Terms, cash. Offer is good until May 1st, 1923. Anybody interested come and see or write to M. SMEARER, Archibald St., N. B. Mar. 15-1p

THE OLDER BOYS' CONFERENCE

**North Shore Boys Will Meet
At Chatham March 23rd
to 25th.**

An Older Boy's Conference, open to the boys of the North Shore and Bonaventure, will be held at the Chatham, N. B., and in the United Church of St. Andrew and St. John there, from Friday to Sunday, March 23rd and 25th.

It is organized under the auspices of the Provincial Boys' Work Board of the Maritime Religious Education Council. All boys in their fifteenth year or over who are anxious to make their lives count, and who want to enjoy a get-together of real live fellows for fellowship, fun, instruction and inspiration, are eligible for registration and membership. It is open to all men, ministers, S. S. superintendents, teachers of boys' classes, and others who are interested in the boys of the

community. Leaders of Tuxis Squares or older Trail Rangers' Camps should plan to attend in a body. Registration should be in the hands of the Registrar of the Conference, Mr. Herman S. Murray, Chatham, N. B., three days before the conference, if possible. The programme promises well. At

the opening session on Friday evening the boys will elect their own officers, and from that on to the close the Boys' Conference will be a self governing body. Leaders and speakers will be present from the wider field, including Rev. H. S. B. Strothard and Rev. F. M. Milligan, Methodist and Presbyterian Secretaries, respectively, of Religious Education, and others. The themes of the addresses during the different sessions will include "The Call of the Four Square Life," "The Investment of Life," "The Greater Race," "The Quest for 'h. Best,'" "Revelation," "The Power of Creation," "Games, physical drill, sing songs, and 'stunts' such as healthy whole-souled boys delight in. The Saturday evening banquet will be a feature along with the "toasts" that

follow. A special service of worship for the boys will be held on Sunday afternoon, and the closing service conducted by the boys on Sunday evening at the conclusion of the regular church services. All boys who can possibly attend should plan to be present. All delegates will be entertained free from Friday until Monday trains. Names of delegates to be sent to Mr. Hermann S. Murray, Cha-ham, N. B., three days, if possible, before opening of convention.

Mr. and Mrs. O. J. Klein returned

from a ten days trip to Montreal and Ottawa. While in Montreal they were staying at the Mount Royal Hotel with Mr. and Mrs. John A. O'Connor of Albany, N. Y., and Mr. and Mrs. W. J. Morrissey, of Saratoga Springs, N. J. While in Ottawa they were entertained at luncheon by Sir Thomas

Mulvery, permanent Under-Secretary of State and Lady Mulvery and attended a dinner party at Sir Thomas Mulvery's home.

RESOLUTION OF CONDOLENCE

At a meeting of the School Board held Tuesday evening the following resolution was unanimously adopted: Whereas, Frederick S. Anderson, the Chairman of the Board of School Trustees has departed this life on or about the first day of March, A. D., 1923.

And whereas as Chairman of the Trustees of the Campbellton Public Schools, he has laboured most earnestly for the success and welfare of the schools and done much to advance the cause of education as shown by our schools and as shown in other ways throughout the town and country;

Therefore resolved that we, the Board of S. 1001 Trustees, do place on record our high esteem of the deceased and our sincere appreciation of his splendid services to the cause of education generally and to the success of the working of our Campbellton schools;

And we further place on record our recognition of the great loss we have sustained in the passing away of our esteemed fellow-worker, whom we as a Board will assuredly very much miss; And it is further resolved that a copy of this resolution be sent to the widow and family of the deceased and that the same be transcribed upon our records and published in the press.

Don't forget the Home Cooking Sale
at Mrs. Ruet's Saturday.

ESTATE NOTICE

Notice is hereby given to all persons indebted to the Estate of the late Frederick M. Anderson to make payment of any debts, bills or accounts to Alma S. Anderson, Executrix of the said Estate, and all tenants owing rent to the late Frederick M. Anderson are directed to pay same to Mrs. Annie Collier, wife of John Collier. And all creditors of the estate are requested to make their claims proven within one month from this date.

Dated at the Town of Gambell's this 15th day of March. A. D. 1921.

ALMA S. ANDERSON,

Notice of Legislation

Notice is hereby given that an application will be made at the present session of the Legislature of the Province of New Brunswick for the pas-

(a) \$40,000.00 for defraying cost and expenses incurred in erecting and completing the Town Hall.

(b) \$70,000.00 for installing a supplemental water system for the town.

Dated at the Town of Campbell this 14th day of March, A. D. 1923

PUBLIC MEETING
A public meeting under the auspices of the Red Cross committee will be held in the New Town Hall on Thursday, March 23d, at 8 p. m. in Mayor McKay in the chair. Miss Middleton, director of public health nursing will give an address on Public Health work in the province. Lantern slides will be shown.

The committee and the officials for the coming year will be appointed at this meeting. All are cordially invited.

GUILDY'S STORE ENLARGED.
A survey of J. O. Guildy Shoe Store shows it has been stoutly and the exterior remodelled leads one to think that the fire which damaged this building some time ago was a lucky occurrence. We don't know how the proprietor came out of it financially, but the store as it is now completed is a notable improvement on the old place. Mr. Guildy will now be able to carry a wider range of footwear and will doubtless be in a position to give service prompter and more satisfactory service than ever before. Besides having a nice up-to-date front providing good display room, the furnishings of Douglas fir gives a most pleasing effect. The electric light fixtures are also of a most useful design and are a decided addition to the store.

HOME COOKING SALE.
In aid of Hotel Dieu Hospital at Mrs. Rose's Millinery Parlors on Saturday, March 17th from 2 to 5.

REINSTATED.
Many friends of Mr. W. S. McKimlin will be glad to learn that he has been reinstated in the local freight department without loss of seniority.

CHERRY ASTRAY.
Chief of Police Adams and Officer Burns about midnight Friday discovered a flock of geese flying over town. They certainly were astray this season.

CARD OF THANKS.
Mr. and Mrs. Eugene Tremblay wish to thank their many friends for their many expressions of sympathy and the kindness shown to them in their recent bereavement.

PLAY POSTPONED.
The Tides Head people have postponed their play entitled "Aunt Susan of Pepper's Corner" which they were to have in aid of the Soldiers' Memorial Hospital, until Tuesday March 20th.

SUPPER AND SALE.
Supper will be served in the Sunday School Hall of Wesley Church on Tuesday next March 20th, from 6 to 7 p. m. There will be fancy work and candy for sale. Tickets 40 cts.

NOW IN NEW OFFICES.
The Treasurer, Town Clerk and Town Engineer are now comfortably settled in their new offices in the new town building. A commercial traveler who recently inspected the building says Campbellton has the most up-to-date municipal building in the Maritime Provinces.

PUBLIC MEETING.
A public meeting under the auspices of the Red Cross committee will be held in the New Town Hall on Thursday, March 22nd, at 8 p. m. Mayor McKay in the chair. Miss Milder, director of public health nursing, will give an address on Public Health work in the province. Lantern slides will be shown.

GUIDEY'S STORE ENLARGED.
A survey of J. O. Guidy's store shows it has been enlarged and the exterior remodelled leads one to think that the fire which damaged this building some time ago was a lucky occurrence. We don't know how the proprietor came out of it financially, but the store as it is now, completed is a notable improvement on the old place. Mr. Guidy will now be able to carry a wider range of footwear and will doubtless be in a position to give service prompter and more satisfactory than ever before. Besides having a nice up-to-date front providing good display room, the furnishing of Douglas fir gives a most pleasing effect. The electric light fixtures are also of beautiful design and are a decided addition to the store.

SPRING MILLINERY OPENING.
At Madame Rose's Millinery Parlors on Friday and Saturday March 23rd and 24th. All are cordially invited.
Mrs. M. L. Macdonald

CONGRATULATIONS.
Mr. and Mrs. Wesley Macdonald are receiving congratulations upon the arrival of a daughter at the Soldiers' Memorial Hospital, Monday evening, March 12th.

IMPORTANT MEETING.
All the members of the Catholic Girls Guild are requested to be present at a very important meeting to be held at the Nurses home, Hotel Dieu Hospital on Sunday March 18 at 4:30 p. m.

EDITOR VERY ILL.
Mr. George McDade has received a letter from his father at N. B. Sanitarium, Melrose, Mass., in which he says Mr. Stewart is very ill and it looks as if he can't last much longer. Chatham World.

ST. PATRICK'S DANCE.
The management of the Princess announces that a St. Patrick's Dance will be held in the Palm Room on Saturday night, March 17th. A six piece orchestra with Homeo Arsenault at the piano, will supply the music. This means a social event of real enjoyment.

LAWYERS VS. MINISTERS.
The legal profession put it all over the clergyman yesterday afternoon at the curling rink when a score of 10 to 6 was rolled up. The rinks were made up as follows:
Lawyers: M. A. Kelly, Colin McKenzie, F. P. Matheson, H. A. Carr, Skip.
Clergymen: Rev. Humphrey, Rev. Boothroyd, A. A. Andrew, Rev. McNeil, Skip.

DEATH OF THOS. MURRAY JARDINE.
We record the death of Mr. Thos. Murray Jardine, which sad event occurred on March 12th, 1923, in the Yakima Hospital, Yakima, Wash., U. S. A. The deceased was a son of the late Mr. and Mrs. Robt. Jardine of Campbellton, and was born here on April 7th, 1885. The only surviving member of the family now is Mrs. McLeod of Lawrence, N. S. Mr. James F. Jardine of this town is a nephew.

NEW RECORDS IN BOWLING.
What is probably the best bowling day witnessed in the Province of New Brunswick was seen last week at the Boulevard Bowling Alley here when, in a friendly game with Harry Steves and Guy Wyers, Andrew Dobson made a score of 100 without a spare or a strike, if this has ever been done before Steves broke all previous records in Campbellton by a liberal margin totaling 166, while Wyers followed with 146. The scores were as follows:
Steves 9 8 18 19 10 10 17 20 26 19-166.
Wyers 18 9 15 9 18 16 8 20 19 15-146.
Dobson 10 10 10 10 10 10 10 10 10 10-100.

RESOLUTION OF APPRECIATION.
At a specially called meeting of the Board of Trustees of the Soldiers' Memorial Hospital held on the afternoon of the 12th day of March, A. D. 1923, Hon. E. F. McLatchy, Chairman of the Board in attendance at the meeting gave place to Mr. A. A. Andrew as chairman pro tem, and moved the following resolution prepared by himself, seconded by a few most kindly remarks touching the matter of the death of the late F. M. Anderson, one of the members of the Board of Trustees of the Soldiers' Memorial Hospital.

The resolution, moved by Hon. E. F. McLatchy and seconded by M. A. Kelly, Secretary pro tem, was as follows:

Whereas by the death of Frederick M. Anderson, the Restigouche and Bay Chaleur Soldiers Memorial Hospital has lost one of its best friends and most ardent supporters;

Whereas as one of our Trustees he laboured most earnestly for the success of our hospital, and as Secretary did much to place this institution in the favourable financial position it now holds;

Therefore resolved that we, the Board of Trustees, do place on record our high esteem of the deceased and our sincere appreciation of his splendid services to this institution and for his most generous financial support.

And we further place on record our recognition of the severe loss we have sustained in the passing away of our esteemed fellow-worker.

And further resolved that a copy of this resolution be sent to the bereaved widow and also published in both our town papers.

The resolution was carried unanimously.

(Sgd.) M. ALONZO KELLY, Secretary pro tem.

Gathered by Graphic Correspondents—Contributions to this column are Solicited from every District of the Bay Chaleur.

Flat Lands

Miss Bertha Downes is visiting relatives in Matapedia. Friends are glad to learn that Mr. Archie Downes is able to return to work again after being confined to his home for several days with a sore hand.

Mr. Alex. Irvine of Matapedia, has been visiting her sister, Mrs. Albert Downes for the past week.

Atholville

Mr. H. Doull of Val d'Amour, spent the week-end here.

Miss Helen Mosher is the guest of friends at Dee Side.

Mr. E. H. Sherrard has returned from a short visit to his home in Whiteville.

Mr. Stanley McGarvie was the guest of friends here on Sunday.

Mrs. Mary C. McRae of Paspheiac West is the guest of her daughter, Mrs. J. C. Andrew.

Miss Marion Miller spent the week-end here.

Mr. and Mrs. J. Roix are receiving congratulations on the arrival of a young daughter, Gladys Eleanor.

Mr. Stephen Campbell has returned from Millstream, where he has been employed with the McDonald & Taylor Co.

Miss Irene Clair has returned from Montreal.

Mr. G. A. Wilkins was the guest of friends here on Sunday.

Mrs. E. P. Wetmore very pleasantly entertained the members of the Methodist W. M. S. on Friday evening last.

The members drove from Campbellton and a very pleasant evening was spent after which dainty refreshments were served.

Mr. and Mrs. Osborne Sherrard and little son, arrived here last week and intend spending the summer here.

Mr. Edward Cassey spent the week-end here.

Dawsonville

Friends will be glad to hear that Mrs. Wm. Copeland is able to go out again after being confined to the house with pleurisy.

Mrs. Hugh Thompson and Mr. Theodore Thompson were the guests of Mrs. Wm. Copeland on Sunday afternoon.

Mrs. Vetal Hennigar has returned from St. John after an enjoyable visit, where she accompanied her husband to Lancaster Hospital, the latter being home on a few days' leave.

We are glad to hear that Mr. Wm. Colling is recovering from his severe illness.

Miss Isabel Hill spent the week-end with her parents at Atholville.

Mr. and Mrs. Michael Thompson of Little Sydney, are visiting Mrs.

Thompson's sister, Mrs. Alex. Thompson.

Master Grevendell, little son of Mr. and Mrs. Michael Thompson, is slowly recovering from double pneumonia.

Although it is fine weather it does not prevent a gripe from lurking about. A great number in the community are ill.

Mr. Dan Adams of Glen Levis passed through here on Sunday.

Mrs. Vetal Hennigar was the guest of her mother, Mrs. Jos. Boudreau of Glen Levis on Sunday.

Mr. Chester Thompson and Mr. John Thompson are busy hauling logs to the river.

Mrs. John Martin and daughter Margaret and Mrs. Vetal Hennigar, were the guests of Mrs. Thos. H. Demick Tuesday evening.

New Mills School Report

Following is the school report for the month of March:

Number of pupils enrolled 44

Those making perfect attendance—Thelma Bernard, Billy Hayes.

Average made by each pupil as follows:

Grade VI. Mildred E. Edmund, 99.2; Nesta Anderson, 98.2; Ruby Anderson, 99.1; Sylvia Gallen, 99.2; Hector Arsenau, 97.3; Frank McCarron, 95.2; John Mackinnon, 95.2.

Grade V (A) Thelma Edmund, 97.7; Bert McCarron, 93.1; Terman Olsen, 90.2.

Grade V (B) Greta Mealey, 92.3; Elizabeth Young, 88.8.

Grade IV. Billy Hayes, 90.8; May Olsen, 85.3; Joe Gallen, 84.

Grade III. Reggy Anderson, 86; Melvin McCallister, 90; Eva Young, 85; John H. Murchie, 80.

Grade II (A) Jack Young, 89; Alfred Allard, 95; Bobby Flann, 80; John Welsh, 80; Wilson Allard, 70; Delphus Young, 70.

Grade II (B) Jessie Welsh, 90; Hazel Keough, 90; Isabelle Mercier, 80; Martin Keough, 90; Jerome Young, 75; Evangeline Mercier, 65.

JOSEPHINE M. McCARRON, Teacher.

Wyers Brook

We are having very cold weather here at present.

Mrs. John Sharpe of Dee Side, and Mrs. John Mann, were visiting friends in Matapedia West on Thursday.

Miss Dolly Fraser passed through here Thursday.

Mr. Roland McNaughton of Dee

OF INTEREST TO WOMEN

Style Variation Essential

"Woman's dress will never be as uniform as man's," declared Mme. Jeanne Paquin, founder thirty-three years ago and the chief owner of a Paris modiste shop whose gowns are known the world over.

The styles of today range back to those worn by the Egyptians. If we admit that dressing a beautiful woman is an art, then it follows that this art must change as do other arts.

"There can never be a set uniform style for women so long as women wish to be beautiful and men wish to have them so."

Mr. Porter Myles has returned home from the woods, where he has been working for the winter months.

Mrs. James McNaughton of Dee Side was visiting friends here for a few days recently.

Mr. John L. Wyers passed through here on Friday morning.

Mrs. Leslie Myles has returned to her home here, after spending a few days with friends and relatives in Tide Head.

Mann's Settlement

Mr. Stephen Irvine returned home on Saturday from Ottawa where he has spent several months there.

Miss Mary and Mr. Percy Haley of Matapedia spent Sunday evening here the guests of Miss Lily Irvine.

Mr. A. Campbell of St. Alexis spent the weekend in town.

Miss Lydia Lyons spent Sunday at her home here.

The weather is very rough, but one cannot complain as we have had such a long period of fine weather.

Miss Lily Irvine, accompanied by the Misses Lydia Lyons, Hilda Caldwell and Patty Kane, passed through here en route to St. Alexis.

Mr. Gordon Hickey was guest of Mr. William Irvine on Sunday.

Miss Hilda Caldwell paid a flying visit to Matapedia on Wednesday.

Solving the Problem of an Attractive and Sanitary Kitchen

Modern decorations are just beginning to fully appreciate the beauty, sanitary value and clean appeal of the painted wall. If there has been illness in a bedroom, leaving possibly dangerous germs, we are urged to

Mr. Alfred Gilles returned on Friday from a short business trip to Montreal.

The "Women's Institute" met at Mrs. (Dr.) Brunet on Thursday 8th inst. Prevalence of the "flu" and bad weather was again responsible for a small meeting. Next meeting will be held on April 12th again at Mrs. (Dr.) Brunet.

It is hoped that members will notice this reference to our meetings. It being the annual meeting and the day set for election of officers the retiring members were again elected.

Douglastown, Que.

The weather for the past week has been very cold and stormy accompanied by very severe winds.

Dr. McNally from Branchville was in Douglastown during the past week in the interests of his profession.

Mr. Smith E. Baird was a visitor to L'Anse-au-Coyon on Monday.

The Rev. J. P. McGrady D. D. Rector of the Anglican Church in Sandy Beach came here on Tuesday to administer to some of his parishioners who are sick.

Mr. Harold Baird is confined to his home on account of illness. We all wish him an early recovery.

Funeral services seem to be in great demand just now. A large quantity has been cut in this vicinity and shipped mostly to Chandler. Mr. James Morris and Mr. Ronald Kennedy are also buying in large quantities no doubt for the Howard Smith Paper Company of Sandy Beach.

Mrs. Edouard Lorne spent the week-end in Gaspé Basin the guest of her sister Mrs. Edward Fitzpatrick and Mrs. Albert Cosgrove.

Mr. James Morris went to Chandler on Saturday on a business trip. We regret very much to announce that Mr. Baird is seriously ill at his home here. It is our earnest wish that she will regain her old-time health very soon.

This village is having its share of the mild form of "La Grippe". A number of our citizens have been sick, but we are pleased to say that they are now on the road to recovery.

Mr. Manzer Gaul and Mr. Charles Morris have obtained positions with the Howard Smith Paper Company in Sandy Beach.

Mr. Xavier Kennedy has been confined to her bed for several days. Dr. Dillon is in attendance. At writing she is reported much better.

The Forty Hours Devotion was celebrated on Saturday and Sunday last in the Convent of the Lady of the Holy Rosary here.

Do You Feel Tired After Eating

A tired, nervous feeling may be a sign of poisons in your system which prevent proper digestion. Food turns into more poison and gas, making you nervous and weak. Simple buckthorn bark, glycerine, etc., as mixed in Adlerika, cures poison and gas from BOTH upper and lower bowels. Removes old matter you never thought was in your system which poisoned your stomach and made you tired and nervous. Adlerika is EXCELLENT to guard against appendicitis. A. McJ. McDonald, Druggist.

and a blue stenciled border. The work was white, the floor was covered with blue and white linoleum, the curtains were white, with blue borders, and the kitchen furniture was painted white, including the stove, which made a wonderfully dainty and clean kitchen. The curtains were of old cloth, with stenciled borders. The entire room could be washed from ceiling to curtains when needed.

The sanitary value of such a kitchen cannot be too much emphasized, for it is as neat a fitted kitchen as we can usually get, and the tiled kitchen is called the "perfect kitchen." A painted or tiled floor may be used without the linoleum if desired. The black stove, which is so often an unsightly blot in an otherwise pretty room, need be no longer if one cares to use the special paint that comes for the purpose and bring it into harmony with the rest of the room.

Of all places in the house, the kitchen should receive the most careful attention, for it is here that all of our food is prepared. In the kitchen the housewife spends many hours of her time, and therefore it should be clean and cheerful, and a place that may be easily and efficiently cleaned, for work saving is an important part in the calculation of today's housewives.

If in furnishing your kitchen, you buy just plain, unpainted furniture, which is less in price, then paint it properly, you will have furniture that wears well besides fitting into your color scheme. If you wish to decorate the place, you will find cut stencils of great value and inexpensive.

Some New Receipts

Tutti-Frutti Blocks.

1 package cream cheese, 2 teaspoons orange juice, 1/4 cup sweet cream, 6 candied cherries, 1 candied apricot, 1 dozen chopped seeded raisins, 1 strip citron, 1 teaspoon sugar, nutmeg, grated lemon peel, 1 small piece of candied pineapple.

Add cream to the cream-cheese. Chop and mix the fruit, add nutmeg, sugar and orange juice. Mix with cheese mixture. Mold into a square mold and chill. When ready to serve, cut in blocks and serve with buttered toast for afternoon tea.

Fruit Cream Filling.

1/2 cup heavy cream 1-3 cup figs, 1/2 cup powdered sugar, 1-3 cup prunes, 1-3 cup seeded raisins, 1/2 cup grains salt, 2 teaspoons lemon juice, 3 tablespoons chopped walnut meats.

Beat cream until stiff and add sugar, salt, nutmeg, figs, prunes and raisins, cut in very small pieces and add lemon juice.

Apple Cake.

4 cups flour, 1 teaspoon salt, 6 tablespoons baking powder, 1 beaten egg, 4

tablespoons butter, 1 teaspoon cinnamon, 1/2 cup sugar, 1 cup seeded raisins, apples, 2 cups milk.

Sift together the dry ingredients and rub in the butter as for biscuits, add the beaten egg and the milk, work to a smooth dough and press on a shallow baking pan. Spread the top with melted butter and 4 tablespoons sugar mixed with 1 teaspoon of cinnamon. Cover this with one cup of raisins and cover the raisins with peeled, cored and sliced apples. Bake in a moderate oven thirty minutes.

Always The Same—Always The Best

THE Quaker Flour motto means what it says. The Quaker standard is the highest in flour milling, and this standard is rigidly maintained in every bag. First comes the careful cleaning of the grain, then a milling process possible only with the most modern equipment, and finally the constant laboratory and baking tests.

"The happy baker uses Quaker" because its consistent uniform quality guarantees unvarying success. Equally satisfactory for bread, cakes and pies.

\$10,000 FIRE HERE SATURDAY

Office Building of Richards Mfg. Co., Badly Damaged Last Saturday.

A loss of approximately \$10,000 was occasioned by fire which broke out about 8.30 o'clock Saturday morning in the office building of the Richards Manufacturing Co., on Water Street here. Owing to the fact that flames kept within the double doors and the numerous office partitions this fire was one of the most difficult fires to combat that the local firemen were ever called upon to handle. The blaze was not totally extinguished until 11.15 in the afternoon, being in progress over five hours. The building was insured for \$15,000.

The fire originated in the basement, presumably from due to the hot-air pipes lighting. An effort was made to check the blaze in this vicinity, but this proved futile and it rapidly spread to piles of shavings which were in the cellar. This was so dry that every thing went up like powder filling the basement with dense smoke and forcing those present to abandon the fight and retreat. From here the flames spread up the best pipes, found it's way into the partitions and between the floors and spread in all directions. Within two minutes the smoke oozed into the offices on the east side of the building in such dense volumes that the occupants barely had time to confine their books and papers to the safe and get out.

The fire department responded with their usual promptness and by the time the blaze had progressed beyond the point which the chemical hose could be used effectively, two streams of water were got into play. They were considerably hindered, however, by the course the fire had taken. Although the flames had spread practically all through the building they were between the walls and the double doors and it was necessary to tear the flooring and partitioning open in about a dozen places before the more dangerous channels of flame were located. On each occasion the aperture thus made emitted dense volumes of smoke which filled the building and made it impossible to continue the fight. Finding that the entire building was doomed the office staff, with the assistance of all available trucks, removed the more valuable of the office equipment and all books and vouchers which could not be confined in the safe. At one time it was thought that it would be necessary to bring the fire engine and get an extra stream of water from the river, but the supply from the pump at Water Street kept up with good force. The firemen kept tenaciously to their task, taking turns at the windows for air, and by noon all danger was over.

Saturday morning's blaze is a severe setback to the Stetson Cutler Co., for they had recently acquired this building for a head office here and were remodeling and fitting it up for that purpose. Although the building was not entirely gutted by the recent fire, the interior is ruined and the work which was just about completed will have to be done over in its entirety. The frame of the building, which is a brick structure, is not damaged however, and the work of repairing the interior will begin at once.

IN MEMORIAM.
In loving memory of our dear mother, Isabella Huntington, who fell asleep in Jesus on March 11th, 1920. The rose that is sweetest and fairest, is the rose that is killed by the frost. The love that is sweetest and rarest is the love we have lost; She has left us sad and lonely, not allowed to say good-bye. But we hope and trust to meet her in her home beyond the sky. Sadly missed by her daughters.

APPEARS IN DRAMA.
In a three act drama entitled "The Liars," presented by the Jordan Memorial Sanatorium Amateurs, Mr. John T. Clarke of this town took an important part.

FIRE LOSSES FOR WEEK.
Fire losses in Canada during the week ended March 7, are estimated by the Monetary Times at \$192,150, compared with \$1,292,200 for the same week in 1922.

IN NEW FORM.
The Wesleyan, the official organ of the Methodist Church in this week in a new form and very much improved in appearance. The Wesleyan which was published by the Tribune Printing Company at Sackville.

Wife's Optimism.
Hub—When I see all those folks getting tired of living. Do you think the time will ever come when we shall be out of debt?
Wife (cheerfully)—Why not, dear? You know you are carrying an exceptionally large life insurance.

That employers may make it a condition of employment that employees unions, is the substance of a decision recently rendered by the Supreme Court of Massachusetts.

Prohibition enforcement is a nasty business but not as nasty as the old liquor business.

MR. L. S. BROWN ON CHANGES

How Reorganization Will Affect Moncton and Other Points.

(Moncton Transcript)
A Transcript Representative today sought and was accorded an interview with Mr. L. S. Brown, the newly appointed General Manager of the Eastern Region of the Canadian National Railways. The Transcript asked for information as to whether or not there is a bright side to the many changes and reorganizations that are being made in connection with the Railway business. Mr. Brown assured The Transcript that there is. He has the utmost confidence in Sir Henry Thornton and believes that he is very favorably impressed with the Maritime Province and will not overlook us. As has already been mentioned Mr. Albert T. Weldon and Mr. H. F. Alward with their staffs are being transferred to Moncton.

The Eastern Region is to have its own Purchasing Department with headquarters at Moncton, and Mr. Fred H. Kinnear, who is now the assistant purchasing agent at Toronto, is to be transferred to Moncton. The staffs of the General Manager Mr. L. S. Brown and General Superintendent are to be increased. There will be other shifts made and Mr. Brown is of the impression that Moncton will not suffer much if any. The creating of a unit for this end of the railway system is going to make more business for this particular unit, and the staffs of the different departments are bound to be increased within a short time.

When asked about the Railway shops, Mr. Brown stated that they will not be affected other than the possibility of the staff being increased. Recently there have been taken on fifty additional men at Moncton. These were for the most part men who were laid off a few months ago. Men have also been taken on at River du Loup, Mont Joli, Campbellton and Halifax and at other points along this division.

There are at present about twelve hundred disabled freight cars on the railway between Halifax and River du Loup. This is altogether too many and Mr. Brown states that these cars will be repaired at a very early date and it was chiefly with this view that the men have been taken on. He wants to see the number of disabled cars reduced to five hundred or less in the near future.

PRESENTATION TO REV. AND MRS. E. J. SHAW

On Tuesday evening Feb. 27th at the home of Mr. and Mrs. Gordon Keays of Miller Section in the congregation of Dalhousie the close of Cottage Prayer Meeting brought a pleasant surprise to the Pastor and his wife, Rev. E. J. and Mrs. Shaw.

A large number gathered representing all parts of the congregation. Mr. John McEwan of Upper Charles was appointed Chairman who related the programme for the rest of the evening. Mr. James Wright a Veteran Elder was called upon to read an address expressing the esteem and good will of the congregation. Then Mr. Charles Miller conducted the pastor a short distance and in a few words chose words on behalf of the congregation presented him with a beautiful sash as a token of esteem and Mrs. Miller on behalf of the ladies presented Mrs. Shaw with a handkerchief of friendship. Mr. Shaw suitably responded and thanked them for their friendship and good will. Then the chairman called on Mr. J. E. Dean of Dalhousie for a speech feelingly spoke of the happy relations between pastor and people. After a dainty lunch was served by the ladies a splendid musical programme was carried out. On the whole a most enjoyable evening was spent the meeting came to an end in the usual jovial manner.

Address
Dear Mr. and Mrs. Shaw:
We, the members of your congregation respectfully ask that you and your esteemed wife accept this modest gift, not on account of its intrinsic value, but as a small token of our esteem for you, and as an evidence of our good will, which will be further manifested as time rolls on.

We sincerely trust that you, Mrs. Shaw and your family will enjoy the same.

Note and Comment
The words of the Romans were originally in the form of rolls, wound round small wooden rollers. These "roll books" were called "volumina," and from this has grown the English word volume.

In Uganda the price of a fowl is still two yards of cotton cloth. Two eggs cost a needle, while several old beer bottles will purchase as much firewood as a man can carry.

Red, yellow, purple and some shades of pink are lucky colors in China, while blue green and white are disliked.

The blossom of the tulip tree has been designated as the official State flower of Indiana.

ARCHER CUP REMAINS HERE

Bathurst Curlers Failed to Lift it on Visit Last Week—Close Game.

Two rinks of Bathurst curlers arrived here last Thursday evening and played two rinks of local curlers for the Archer cup. From the first it was a tight game, and at frequent intervals the score was a tie, but finally Campbellton won out by a narrow margin of three points. The scores were as follows:

Campbellton	Bathurst
H. B. Anslow	W. Kenney
R. A. Christie	R. J. Lutes
J. T. Mowat	E. J. White
Rev. W. McNairn	G. W. Ellis
Skip	Skip
13	13
S. Macneil	S. Macneil
M. M. Mowat	S. B. Bond
F. F. Matheson	A. McIntosh
F. P. Wetmore	W. G. Fenwick
Skip	Skip
19	16

A large number of spectators watched the games. The visitors were served with refreshments at the conclusion of the games.

Dalhousie

Miss Mary Farrell of the Dalhousie Superior School teaching staff, who went to Bathurst on Saturday, on business, unfortunately found herself unable to return to resume her duties until Wednesday owing to a heavy cold.

The Maritime Express and the Ocean Limited have been hours late on several occasions during the past week because of the storms. Two rinks of Dalhousie curlers played a friendly game at Bathurst on Thursday with the Bathurst curlers. The rinks were composed of: R. Clark, A. Powell, E. LeCoffre, F. Barberie, skip; H. Trudell, D. G. Stewart, M. McKay, J. B. McKay, skip. The former rink won by one point the latter rink lost by three points.

The Rev. E. J. Shaw and D. G. Stewart left on Tuesday for Bathurst where they attended the quarterly Presbytery meeting. The members of St. Mary's W. A. are making preparations for a sham rock tea and sale of home-cooking, on St. Patrick's Day, in the Clifford Drug Store.

Mrs. W. J. Simpson is leaving this week for Toronto, where she spends the next four weeks as the guest of friends. Miss Dorothy Wyatt, of Summerside P. E. I. is the guest of Mrs. M. McKay for a few days.

Two rinks of Bathurst curlers visited town on Friday, for the purpose of playing a friendly game with the Dalhousie curlers. The local rinks were composed of: C. Bernard, S. I. T. Clifford, A. B. McKinnon, W. A. R. Cragg, skip; F. Synett, G. McKenzie, F. Troy, the Rev. Father Hart, skip. The game ended in a tie, 31-31. The names of the Bathurst players were: The Rev. Father, C. B. Bond, G. W. Ellis, W. G. Fenwick, R. J. Trice, A. S. McInch, S. Morse, E. J. White.

The members of the Presbyterian Mission Band held a supper in the basement of the church on Tuesday evening, which was well patronized. The sum of twenty-five dollars was realized, clear of all expenses.

There is good news for Dalhousie workers and others, in the announcement that the four mill may be expected to resume operations as soon as it.

Ten locomotive engineers have been loaned by the Boston & Maine system to Florida railroads for three months, while the early crops are being harvested.

Sorrows are like thunderclouds; in the distance they look bleak; over our heads, hardly gray.

No wonder egotists find the world so ugly, they see only themselves in it.

And getting better, although all feel the great need of industry here in winter, yet we have sold during the last two months, January and February, more than four times the amount of goods we sold last July and August.

We do not complain about all the money going to mail order houses as we realize that the working man of today, working for today's wages must buy the necessities of life at the lowest possible cost or contract debts which he can hardly hope to pay.

CANADIANS PUT IN NINE MILLIONS

Were Heavy Investors in L. R. Steel Company—Will Lose.

Toronto, March 10—Canadians invested nine millions of dollars in the L. R. Steel Company, of the U. S. This was the definite statement made last night by an official who is in a position to know. An amount of this was re-invested in Canada.

Canadian investors put their money direct into the American company and will now have to look to the proceedings launched in the United States for any return for the millions put into the undertaking of L. R. Steel.

The Restigouche runs out to sea. Two mills did not turn a wheel last year, and the shingle mill has been closed for two years. Friends are pleased to know that Mrs. James Wallace and her children have recovered from an attack of influenza.

The annual meeting of the Dalhousie Branch of the New Brunswick Auxiliary to the Canadian Bible Society, which is an affiliation with the British and Foreign Bible Society, was held on Wednesday evening in the basement of the Presbyterian church, the sermon being preached by the Rev. H. J. Shaw.

The retiring president, H. J. Coleman, offering prayer and also closed the meeting. Mr. Shaw was elected president for the ensuing year, and Mr. Charles Stewart was re-elected secretary-treasurer. A special vote of appreciation was tendered Mr. Stewart for his faithful work during the past fifteen years, and hope was expressed that he might be favored with health to carry on his duties for many years to come. Mr. Stewart replied that having travelled ten years beyond the allotted span of life, he could not expect to hold office for many more years, yet it would be his delight to do whatever he could to help the noble work of the Bible Society.

The annual collections resulted as follows: Charles, Miss Jean McKenzie, \$7.00; Ed River, Mrs. Howard Sanson, \$8.95; Miller's Settlement, Miss Grace Miller, \$7.00; Point La Nin, Mrs. Walter Glover, \$7.50; Dalhousie Junction, John Jamieson, \$15.45; Dalhousie town, Hugh Conacher and Reid Stewart, \$35.00; total \$11.00.

In any case the meek will inherit the earth if the aggressive keep on killing each other off.

The population of "dry" Ontario which is credited with 1,800 drug addicts is approximately three million; the population of "wet" Quebec, which is credited or discredited with 3,800 is less than two and a half million; the population of British Columbia, with its easy-going licensing system, is little more than half a million, and yet it has 2,500 addicts to its account. Evidently therefore, the ability to obtain a tain liquor is no cure for the craving of the "dope" fiend.

Ten locomotive engineers have been loaned by the Boston & Maine system to Florida railroads for three months, while the early crops are being harvested.

Sorrows are like thunderclouds; in the distance they look bleak; over our heads, hardly gray.

Four Years After

BY Canon F. G. Scott, C. M. G., D. S. O.

Copyright, All Rights Reserved.

CHAPTER I.
We found, as the days went by, that the early start determined upon each night for the following morning was more and more difficult to accomplish. A good deal of fatigue was involved in a day's journey, and had felt very comfortable. In the early morning, not even the early start was so easy. The old friend, the light lorry, came up to the door. General Hughes had given it to us for three days. Maurice the driver was in the building and a little bundle of his old friend, the lorry, was tucked under the seat.

We were not going to visit Popers again, as we had far more to do. The dear old church with its guardian spirit, and started off. The blocks of cement, and the mortar, and the dear old church with its guardian spirit, and started off. The blocks of cement, and the mortar, and the dear old church with its guardian spirit, and started off.

We felt quite bad as we passed for the last time over the roads which had once again become so familiar. Starting the lorry off, Mont-de-Cas, once more we passed through Castrale and Pletre and Balloul. From Balloul we turned to the north and made for the town of Berne. The place suffered very heavily during the last year of the war and I do not suppose we had ever seen it before. The town had been then of Canadian troops.

We passed down the road towards Indian Village. In a farmhouse on the right the Guard's Brigade had their headquarters. The Prince of Wales had been billeted with them there. It was along a cross-road that the 3rd Canadian Brigade had marched up to the trenches at Fester. How well I remember shaking hands with the men of the 14th Battalion, as they went into the trenches to face a stronger and more determined enemy. Many of them had come straight from the front.

We passed down the road towards Indian Village. In a farmhouse on the right the Guard's Brigade had their headquarters. The Prince of Wales had been billeted with them there. It was along a cross-road that the 3rd Canadian Brigade had marched up to the trenches at Fester. How well I remember shaking hands with the men of the 14th Battalion, as they went into the trenches to face a stronger and more determined enemy. Many of them had come straight from the front.

from the soil battle of Ypres and Fester, however, new horrors waited them. It was in that cross-road in the same afternoon that I had met General Turner who very early sent me back to Brigade Headquarters. In a large farmhouse, telling me that if I again ventured out of that farmhouse he would certainly order me back to No. 2 General Hospital.

Indian Village, where our dressing stations used to be, consisted now of a row of brick houses. At Gully nothing at all remained. The church is an absolute ruin. Someone has strung up against the roadside, the shrapnel-placed body from the old crucifix which stood there before the war. It looks so pathetic with arms stretched out, where, probably for many centuries, it has aroused the devotion of the passerby. We took a photograph of the place to give to the mother whose splendid young son lies in some unknown corner of the ruined churchyard. A very modern well-built house stands on the opposite side of the road but it has not yet been occupied by the owner. Quinchy looked so lonely.

We found our way over to Berne where we found the little town full of inhabitants. It had been damaged, but not destroyed and its citizens had not all departed. It was a pity to see the old church in ruins. I must have been a very fine one in the pre-war days.

On the other side of the hill, we came to the war-plot which is part of a large communal cemetery. I found the graves of the men and officers of the 1st Battalion killed at Gully, which I had buried there in 1915. They are carefully looked after and were pointed out to me by my little fox, terrier Phil. I had hoped it might be possible to see the woman who sold him to me. I thought I had identified the dog, as I had looked at the man, a tall youth came out who knew nothing of the transaction, and told me that his family had come to the town. The old casual crossed by Waterloo bridge is not far from Berne. It used to be a delightful place to swim, but as we looked at the water in these clearer days I wondered how we could have found refreshment in that murky stream. Hundreds of men used to be in the water at one time, getting a moment's respite from some of the petty annoyances of war. Down the road to the left, General Seely had his headquarters and there I had heard the song of the nightingale for the first time in my life.

We had now before us a straight course to Berne, and as it was getting late, we hurried on at a good speed down the well-macadamised road. At last, about 9 o'clock, we entered the outskirts of the town. The place appeared intensely familiar for the streets looked as they did of old, in spite of the ruins of the Grande Place where the Germans had concentrated their fire. Berne in the evening light had the ordinary appearance of a country town in France. We had been booked to stay at the St. Barnabas Hotel, but even more important than our housing for the night was the housing of our good friend, the light lorry. At last we found a garage and then made our way to the street far distant wherein the hotel was situated. The place gave us a warm reception and we were shown into comfortable rooms neatly furnished and full of the atmosphere of an English home. After a long day spent in a lorry rattling down roads which brought back vivid pictures of the war, it was a delightful relief to find oneself in such a clean and comfortable abode. Owing to our late arrival, dinner was over at the hotel, so we went off to the Coblin Hotel where we had a good meal, then back to our quarters and to dream of the old days when Berne was a little made in the vast desert of desolation.

Find the Right Thing for Asthma

Ontario Lady Just Bats Vicks Over Throat and Chest.

Here is the last word in treating colds, coughs, asthma, whooping cough, croup, and all the ailments of the throat and chest. Get into bed and have the covering loose about the neck. All night long breathe in the healing vapors of Camphor, Menthol, Eucalyptus, Turpentine, etc. The application also sets like a heating blanket or plaster. It is almost sure to loosen the cold before morning.

Mrs. J. Saunders of 285 Barton St., East Hamilton, Ont., says: "I was bothered with asthma and a very bad cold in my chest. I applied Vicks VapoRub, rubbing it on with my fingers, and found it gave me wonderful relief. I would be pleased to recommend it to anyone having a bad cold or in case of asthma. As a family medicine it has no equal. I know it will help others and it has helped me."

Treatment with Vicks is especially desirable for children as it avoids sores, blisters, and skin irritations. At all drug stores 50c a jar. For best results, write Vicks Chemical Co., 844 St. Paul St., Montreal, P. Q.

Though Vicks is new in Canada, it enjoys a remarkable sale. Over seven million jars used yearly.

FEEDING FOR EGG PRODUCTION

(Experimental Farm Notes.)

In feeding poultry for egg production, and more particularly in winter, the question is not only what to feed, but also how to feed, for the best possible results, if fed intelligently, will fall to give satisfactory results.

When the chemical composition of an egg, and the omnivorous nature of the fowl are taken into consideration, it is obvious that elements from the three natural kingdoms, vegetable, animal and mineral, must enter into a well balanced poultry ration. The first of these furnishes by far the greater part of the nourishment, either in the shape of whole or ground grain, or as green feed. The second, animal and mineral, must enter into a well balanced poultry ration. The first of these furnishes by far the greater part of the nourishment, either in the shape of whole or ground grain, or as green feed.

Experience has proven that one of the best mixtures of grain for scratch feed is that composed of equal parts by weight of wheat and cracked corn. If wheat is not available at a reasonable price, a mixture of cracked corn and oats, equal parts, plus half parts of barley, will also do. In addition to this scratch grain, a bucketful will prove quite satisfactory.

Feed mash, which may consist of equal parts by weight of corn flour, bran, middlings, finely ground oats, and alfalfa, plus half parts of barley, will also do. In addition to this scratch grain, a bucketful will prove quite satisfactory.

Grand Casapedia

Friends of Mr. Robert Harrison who has been seriously ill with influenza, will be glad to know that he is gradually recovering.

Mrs. Malcolm Coull who has spent the winter at Des Moines, P. Q., with her mother Mrs. James McNaughton returned home Monday.

Mr. Alexander Walsh left on Monday for a trip to Detroit, Mich., while there he will be the guest of his daughter, Mrs. F. Cormier.

Most of the folk who have confined to the house for influenza are now convalescent.

The lumber camp of the R. H. Montgomery, Co., are gradually breaking up and men are returning to their homes, after spending a long winter in the woods.

The schools have been closed here for several weeks owing to much sickness, but some of them re-opened Monday.

OBITUARY

Mrs. Joseph F. Doherty

On March 1st, 1923, one of the old residents passed away in the person of Mrs. Joseph F. Doherty, who died in sight of a well lived home. — Do not her seventy-ninth year, after a brief illness of four days in the district of Albany, Esquimaux, where she was born.

Mrs. Doherty was Elsie, young daughter of the late John Campbell, Esq., J. P. and his wife Elsie. She was born in Scotland in 1822. She was the last survivor of her family within nine months three have passed away: an older brother, James died in Cedar Springs, Ont., at the advanced age of eighty-seven years, and the youngest brother, Peter in Esquimaux, at the age of eighty-one years and six months.

So the last member of this old, well known and highly respected family has gone home. Mrs. Doherty was conscious to the last, death had no terrors for her. She knew in whom she believed and could cheerfully lay down the burden of life to enter into the rest prepared for the people of God.

The funeral of the 3rd inst., was conducted by the pastor, Rev. Mr. Gough, assisted by Rev. Mr. King. The hymns were "What a Friend We Have in Jesus," and "Lead Kindly Light" and a most impressive address was delivered by Rev. Mr. Gough.

The pall-bearers were Messrs. William Carmichael, Andrew Fair, Cameron Brown, Joseph Dolton, Joseph Gough, and Charles Chambers.

The respect and esteem of the community was shown by the large funeral, forty horses followed the remains to the pretty little "God's Acre" on the Shore of Baie des Chaleurs, where lie many relatives of the deceased.

Mrs. Doherty is survived by her husband who has always taken a deep interest in the welfare of the community, Messrs. I. Wallace, engineer on the Quebec and Montreal Ry. New Carlisle, and three sons of the late Peter and three sons of the late Peter Campbell of Esquimaux.

The sympathy of a large circle of friends and acquaintances is with the family in their bereavement and loneliness.

SUGGESTIONS FOR HUSBAND AND WIFE

New York Attorney for Legal Aid Society Has Some New Ideas.

New York, March 14.—Leonard McGee, attorney for the Legal Aid Society, from his experience in the handling of cases of domestic infidelity has evolved twenty suggestions for husband and wife to follow to avoid estrangement. He presented them at a recent meeting of the society. Here are Mr. McGee's suggestions for wives:

1.—Do not be extravagant. Upon the proper and careful expenditure of your husband's income depends his willingness to exert himself for the maintenance of your home. Nothing appeals more strongly to a man than the prospect of acquiring that independence of which a bank account is the guaranty.

2.—Keep your home clean. Nothing is more refreshing to the eyes of the tired, nerve racked worker than the sight of a well tidied home. — Do not permit your person to become unattractive. — A slovenly wife makes a husband's home a prison.

3.—Do not receive attentions from other men. Husbands are often jealous and some are suspicious with out cause. Do not supply the cause. — Do not spend too much time with friends. — Do not receive attentions from other men. Husbands are often jealous and some are suspicious with out cause. Do not supply the cause.

4.—Do not accept advice from the neighbors or stress too greatly even that of your own family concerning the management of your domestic affairs. Think for yourself. Have a plan of your own for the solution of home problems. In all cases consult first with your husband. Much advice of the wrong kind is worse than none.

5.—Do not disparage your husband. Your ill-advised opinion of him, uttered in a moment of petulance, may be eagerly seized upon by others as the true measure of his character and abilities. Ideas often become entities.

6.—Be attentive in little things. The smile is an antidote to the toxin of ill-humor. Consideration of your husband's feelings makes him respectful of yours. An indifferent wife is often supplanted by an ardent mistress.

7.—Be tactful. Be feminine. Men in last analysts, are but overgrown children. They do not mind coaxing, but they resist coercion. Most men prefer their opposites. Femininity attracts and compels. By the same token, masculinity in the female repels.

8.—Do every EVER STOP TO THINK. That every town should have such a bustling spirit that no visitor could escape its influence. That you should think how your town happened.

9.—That it is a story of progress and development. That it reveals a story of action and achievement.

10.—That no boom has furnished the formula of success. That constructive work, plus faith and action have made your town what it is today.

11.—That there has not been a broken link in the steady growth of your town.

12.—That it was first started by men with a vision.

13.—That you have the same class of men in your town today.

MOTHER OF TWIN BOYS

Tells How Lydia E. Pinkham's Vegetable Compound Relieved Her of Inflammation and Great Weakness

West St. John, N. B.—"I was in a general run-down condition following the birth of my twin boys. I had a great deal of inflammation, with pains and weakness. Finally my doctor recommended Lydia E. Pinkham's Vegetable Compound. He said that your medicine would be the only thing to build me up. I am sure he is right, for I am feeling much better and am gaining in weight, having gone down to ninety-three pounds. I was in bed for over a month, but am up again now. I have recommended the Vegetable Compound to my friends and give you permission to use my letter."

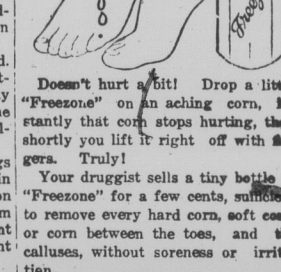

Mrs. ELLEN A. RYAN, 42 Rodney St., West St. John, N. B.

There are many women who find their household duties almost unbearable owing to some weakness or derangement. The trouble may be slight, yet cause such annoying symptoms as dragging pains, weakness and a run-down feeling. Lydia E. Pinkham's Vegetable Compound is a splendid means for such conditions. It has in many cases relieved these symptoms by removing the cause of them. Mrs. Ryan's experience is but one of many.

You might be interested in reading Mrs. Pinkham's Private Text-Book upon the "Ailments of Women." You can get a copy free by writing the Lydia E. Pinkham Medicine Co., Lowell, Ontario.

CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly!

Your druggist sells a tiny bottle of "Freezone" for a few cents, enough to remove every hard corn, soft corn, or corn between the toes, on the calluses, without soreness or irritation.

Phone, Write or Wire for BONELESS HAMS, SHORT ROLL BACON, LONG ROLL BACON, SAUSAGE, HEAD CHEESE. Orders Shipped Prompt.
