with less fear of burning than in any other kind, because aluminum is a better distributor of heat and retains it longer. This means a saving in fuel. And it means a saving in wear-and-tear expense, too.

"Wear-Ever" utensils are light to handle and easy to clean. They cannot form poisonous compounds with fruit acids or foods.

"Wear-Ever" utensils are made from thick, hard sheet aluminum, 99% pure, without joint, seam or solder. You can let food burn dry without injuring them. Cannot rust—cannot chip or scale—are practically indestructible.

Public Positions Must Go to Returned Soldiers Who Have Given Their Service to Their Country.

Technical Training for Returned Soldiers.

OTTAWA, Feb. 9.—Parliament is more than willing to give our returned soldiers the preference in appointments to the civil service, and to that extent the ordinary office-seeker must take a back seat. The chances that when the war is over, and indeed before its conclusion, the young man or middle-aged who wants a government job will have a poor chance of getting it, if there is a man around who is at all fit for the work and who responded when the call came for service at the front in defence of our liberties. The demonstration that this is so was the chief feature of the proceedings in the house of commons today, and the member who was instrumental in showing it to be the fact was W. S. Middleboro, Conservative member for one of the Greys, and who has more than once visited the Maritime Province.

Sir Robt Borden gave point to the discussion by pronouncing strongly in favor of technical training for returned soldiers, so as to enable them to take up a new business if their old one was gone, or they were unfitted for it, and not only thus maintain themselves, but also add to the wealth and well-being of the community. Incidentally he mentioned that the Government by order-in-council last November, had established the policy that returned soldiers should have the preference in civil service appointments.

Mr. Middleboro's notice was that in the opinion of the house in all future appointments to the civil service of Canada preference should be given to those properly qualified candidates who have served with the Canadian expeditionary forces in the present war. The adoption of such a system would stimulate recruiting and would be simple justice. If no precedent existed, we should create one, but there was precedent in Great Britain and France.

Mr. Middleboro divided the men who returned from the front into four classes:

First—Those whose jobs were still available for them.

Second—They who came back to find themselves superfluous in their absence.

Third—Invalided or wounded men.

Fourth—Those permanently disabled.

If fit for the work, these are the men who should have preference in government employment. All who spoke favored the preference.

FOR THE LITTLE WOMAN SITTING THERE AT HOME.

(Verses By George Willard Bonte.)
He was lying in the trenches with a bullet in his breast,
For the enemy had struck him fair and square,
He could hear the monster forty-twos bombarding in the west,
And their hellish missiles screaming through the air,
He could see the dead and dying, but the end he did not fear,
For his battle-weary mind began to roam,
And he fancied in his wandering that he was drawing near
To the little woman sitting there at home.

He was clinging to the rigging of a cruiser proud and trim,
For a submarine had truly found its prey,
He was waiting for the chilling plunge that meant sure death
to him
And the ever-drifting grave beneath the spray,
He could see his shipmates struggling in the water in despair,
Then the darkness and the choking, briny foam,
But the spirit that was leaving made a swift and earnest
prayer
For the little woman sitting there at home

Thus it is and ever will be, just as long as men are men,
Who must meet with sudden death in peace or war,
When the final hour approaches one will never find a pen
Fast enough to write a life's completed score,
But a tender thought is paramount in every human male
Who lives beneath his Maker's starry dome,
The plea that in extremity to make he'll never fail
For the little woman sitting there at home

them, when they themselves have not saluted. We are eliminating a few of these young 'squirts' from the service." General Hughes is looking for a young man who gave an angry calling down to an elderly private who was walking on Sparks Street and failed to salute him. The officer made a scene which gathered a crowd.

SIR SAM IS ON TO THE SLUATE FIENDS

Ottawa, February 9.—General Sir Sam Hughes is eliminating from the military service, or he proposes trying to do it, "young squirts," as he calls them, who do not realize their position or have too high an estimate of it for their own good or that of men they command. Some complaints have reached Ottawa from Halifax and other points, about every young officer who insists upon receiving a salute from every private they meet, but who are rather careless in returning the courtesy.

Several young lieutenants have made public scenes in Ottawa when they thought their "importance" had not been sufficiently recognized by men without shoulder decorations. This morning General Hughes made a statement:

"A private is as much entitled to a salute from an officer, as is an officer entitled to a salute from a private. Why, I salute scores of privates every day. It is a matter of common courtesy. Complaints have come from different parts of the country of a few young snobs who persist in calling down men for not saluting

them, when they themselves have not saluted. We are eliminating a few of these young 'squirts' from the service."

All the old familiar faces
In Christ Church, at early dawn
On the great Festival of Easter
And the blessed Christmas morn.

At God's altar they are bending
Lowly each is kneeling there
To receive the blessed sacrament
Which our Lord ordained when here.

They are passing—and we miss them
In the Church at early dawn
Never more to kneel beside them
Till the resurrection morn.

James Edward Keddy, life-long member and a worker of Christ Church, New Ross, departed this life at noon, January 30th, after six months illness at the age of 69 years, 8 days. He was born and died on the same old homestead in the same month. He was a good citizen, a faithful Churchman and a strictly honest man.

He leaves to mourn his loss a devoted wife who was a sister of the late George Reeves of Kentville, seven sons as follows: Arthur, Edward J., Clarence, Michael and Augustine in New Ross; Harold in Billtown, Cornwallis; and George in California. Two daughters are living, Eliza (Mrs. Levi Keddy) Billtown, and Ethel (Mrs. Newton Turner) of New Ross. Three brothers, Nathan W., of Berwick; Alex and George of New Ross; Four sisters, Mrs. James C. Corkum, Mrs. O. S. Elliott and Mrs. Benjamin S. Meister of New Ross and Mrs. S. W. Bligh of Berwick.

The pall bearers were his six sons. Rev. (Captain) Whard-Whate administered the communion to twenty-four mourners, gave a helpful address and finished the ceremony in Church cemetery at the Cross. Mr. Keddy will be much missed in the community he leaves also twenty-two grand children.

CROUP QUICKLY CURED

Don't Let the Child Choke to Death While Waiting For the Doctor.

Hyomei, the miraculous, antiseptic dry air treatment, will cure croup in either the first or second stages. Easily inhaled, even when the breathing is irregular, it reaches more promptly than any other remedy the terribly inflamed membrane of the windpipe. Its soothing balsams act immediately, the inflammation is allayed and the swelling reduced.

George H. King, of 22 Wellington Street, South Woodstock, says: "We would not think of keeping house without Hyomei. It has warded off colds, croup, coughs and sore throats for all of our three children many a time. When a child breathes badly and through the mouth and the glands around the eyes and nose commence to swell, then is the time that we find the Hyomei quickly relieves the trouble and gets the bronchial tubes, lungs and throat cleared up."

Hyomei (pronounced High-ome) is guaranteed by J. D. Clark to cure catarrh, coughs, colds, asthma, bronchitis and croup, or money back. A complete outfit, including a neat hard rubber pocket inhaler, costs only \$1.00. An extra bottle of Hyomei, if afterwards needed, cost but 50 cents.

AT LEAST WE CAN BE MERCIFUL.
(By Harriet Culver)

Back of everything we do or say there lurks a hidden motive—hidden, we fondly believe, from the eyes of the world. Sometimes the motive is hidden even from our better selves so rarely are we absolutely frank with ourselves as to what we purpose doing. We talk much about our inability to understand others when we would experience the same, or even greater difficulty, if we were to sit down with ourselves and try to fathom the motives which are prompting us to the things upon which our hearts are so set.

We cultivate a certain frankness, to be sure, but it is greatly to be doubted whether this apparent frankness is the real thing, or merely a subterfuge to still further hide our real thoughts from the people with whom we are associating.

When we tell a friend that her gown is charming, for instance, the remark sounds like genuine candor. But does the friend always sense the hidden irony, or the extreme satisfaction with which we discover that her gown really isn't one-two-three with our latest discovery? Our candor is of the most patronizing sort if we were really honest with ourselves or with her, but we hope and trust that she doesn't realize this, and we refuse to admit it to our better selves.

Lieut.-Colonel Allison H. Borden, Commanding Officer of New Highland Brigade.

(Presbyterian Witness.)

We are glad to see the announcement that a Highland Brigade is to be raised in Nova Scotia, with Lieut.-Colonel Borden of the 85th battalion as the commanding officer. There are two features of this new movement which we believe will commend it to the young men of this province. In the first place, a Highland brigade would undoubtedly appeal more strongly than any other sort of unit to the section of our population which is descended from Highland stock, and it is from these that a large proportion of the recruits for this brigade will no doubt be drawn. Highland regiments are famous in the history of our Empire, and there is a certain amount of prestige which attaches to the name itself which will prove a factor in popularizing the new brigade. But a more important feature and one which, we believe, will prove a powerful influence in drawing recruits to the Highland brigade is the personnel of the commanding officers, especially the fact that the popular commander of the 85th is to be the chief officer of the new brigade. The personality of an officer has more perhaps than anything else to do with the popularity of a particular regiment or unit. There have always been officers in the British Army of such high reputation and attractive personality that men considered it an honor and a coveted privilege to serve unprominent among them these, under their command; and der them. What would not the British Tommy do and dare for men like the late Lord Roberts—"Bobs," as they affectionately called him—or "Kitchener of Khartum"? Of course we have no such veterans, of world-wide reputation as these great sol-

diers, in our new Canadian army. But we have men who even since the beginning of the present war, have won the confidence and affection of the men in the Maritime Provinces, is the commander of the 85th Highlanders.

Colonel Borden is not only an efficient officer, he is also a Christian gentleman, whose moral influence over his men is well known. He is soldierly in his bearing, kind and courteous to all under his command—just such a personality as attracts and inspires young men and we believe his name would be one of the most powerful factors in a recruiting campaign. We believe the organization in charge of the recruiting arrangements for the Nova Scotia Brigade have a powerful incentive to place before young men in offering them an opportunity to serve their King and Country under the leadership of Colonel Borden.

Within those busy minds of ours all sorts of fancies play hide and seek with our more serious selves. The baser passions are always battling with our purer thoughts and in the strange hodge podge it is not surprising that we do not always recognize which is in the ascendant.

We question often the sincerity of others when in reality, our own motives may seriously be questioned. We try to appear pleased when chagrin is really the dominant feeling deep within us; and we are placid and calm externally when a very volcano is raging within.

The French Government has placed 100,000 francs at the disposition of the French Minister at Christiania for the aid of the sufferers from the fire at Bergen.

TOWN COUNCIL IN SPECIAL SESSION SATURDAY RE MILITARY HOSPITAL.

The Kentville Town Council convened in special session Saturday afternoon at two o'clock, a temporary military hospital being the subject under discussion.

Mayor Pelton and Councillors Newcombe, Hiltz, DeWolfe, Caldwell, McBride and Lamont, the Recorder and Deputy Clerk were present.

The Mayor explained that this meeting was called to deal with a proposition from the military authorities regarding a temporary hospital for the use of soldiers quartered here suffering from an epidemic of measles and pneumonia and the question had to be decided at once.

Dr. H. B. Webster being present, was on motion asked to address the Council, and did so as follows:

The military authorities want the Town Council to co-operate with them in providing a temporary hospital for the use of the soldiers quartered here who are in need of hospital care and attention. If the Town will provide a suitable building rent free, the military authorities will furnish everything else that is necessary. Dr. Webster continuing said that if the town refused to unite with the authorities in this work there is no doubt whatever but what the soldiers would all be removed from Kentville, in fact he knew they would be, and that the matter should be decided without delay. He said that a place could be secured which had been examined and found suitable.

Lieut. Morris on motion was asked to address the Council. He said that Captain Bruce was making a tour, examining the sanitary conditions here and he says if satisfactory quarters for a temporary hospital be not provided at once, that all the soldiers would be taken away. Lieut. Morris would not say how long the soldiers would remain in Kentville in case the proposition of the military authorities was agreed to. He favored the house under consideration saying it would accommodate about twenty men and the family now there could remain.

Dr. W. B. Moore, as Health Officer for the Town of Kentville was on motion asked to give his opinion. He strongly advised the course proposed, and gave the following special report:

Kentville, Feb. 12, 1916.
Whereas, the Town of Kentville has suffered, and is still suffering from a serious epidemic of influenza, measles and pneumonia affecting a number of the military recruits quartered in the Town, with no means of protecting the general public by segregation of those affected, I, hereby, by virtue of authority vested in me as Health Officer, direct that the house mentioned in the Town of Kentville, which is suitable for the purpose, shall be obtained by the Board of Health for the purpose of a temporary hospital for military recruits.

W. B. MOORE, M. D., M. H. O., Town of Kentville.
On motion the Council adjourned and resolved itself into a Board of Health. Coun. Caldwell moved that the Health Officer's report be received and adopted and that the Board of Health take the necessary steps to secure the building to be used by the military authorities as a temporary hospital, and that the Mayor and Councillors McBride and the Health Officer be a committee to attend to this matter, which motion was seconded by Councillor Newcombe and passed unanimously.
Council adjourned.

Kentville Board of Trade Discusses Matters of Much Importance.

Demonstration Building for Short Course Work—Exhibitions of Poultry and Other Gatherings—Committees Appointed.

The Kentville Board of Trade held a most interesting session Thursday evening, Feb. 10th in Town Hall when live topics of interest were brought before the Board and intelligently dealt with. The Council of the Board convened at 7.30 o'clock, President W. S. Blair in the chair. Committees for the year were elected as follows:

Town Improvement—Prof. W. S. Blair, A. E. Calkin, W. A. Hiltz, Geo. E. Herman, Rev. T. C. Mellor.

Schools—Wm. Yould, H. G. Harris, R. H. Lamont, T. P. Calkin, Capt. William McBride.

Tourist—R. U. Parker, S. Strong, G. E. Calkin, H. L. Cole, R. T. Caldwell.

Press—Geo. E. Herman, H. G. Harris, E. B. Newcombe, K. T. Rogers, M. E. Giffen.

Industrial—Geo. E. Graham, Geo. C. Roy, T. P. Calkin, A. L. Pelton, R. T. Caldwell.

Trade and Transportation—D. J. Murphy, G. C. Hare, C. B. Lockhart, F. B. Newcombe, P. Innes.

A number of accounts were read and ordered to be paid.

The Board of Trade meeting convened at 8.30 o'clock with the President in the chair.

After the reading of the minutes, Messrs R. D. L. Bligh and J. Everett Kinsman were elected members of the Board.

A communication was read from J. R. Webster, enclosing one from R. U. Parker calling attention to the fact that no Winter Fair would be held at Amherst this year and suggesting that it might be possible to hold a Provincial Horse Show here in the spring.

The President called the attention of the Board to the advisability of holding a Fruit Exhibition next fall. He also referred to the need and possibility of having a Demonstration or Institute Building for Exhibitions of Poultry and Short Course Work as well as other gatherings. He also called attention to the Institute at Lawrencetown opened this week, and stated that some correspondence was being carried on about these different subjects.

On motion Committees were appointed to take up the different subjects as follows:

Horse Show—J. R. Webster, R. H. Lamont, Dr. W. B. Moore, H. L. Cole, J. Roy Hiltz, John Tobin, with power to add to committee.

Exhibition—Geo. C. Roy, A. E. Calkin, R. H. Lamont, G. E. Calkin, J. Everett Kinsman.

Demonstration or Institute Building—Prof. W. S. Blair, Dr. W. B. Moore, Rev. R. B. Layton, E. B. Newcombe, P. Innes, T. P. Calkin.

The President reported a deficit in Poultry Show, and on motion it was ordered that such deficit be paid by the Board. Amount not to exceed \$10.00, account to be furnished the Board before payment.

An interesting statement was given of Farm Crops and Live Stock in Kings County, showing from the 1910 statistics that in nearly all kinds of crops this County leads all the other Counties of the Province, the number of pure bred horses owned in the County being nearly twice that of Cumberland and nearly as many as the Counties of Hants, Annapolis, Colchester and Pictou combined. While in pure bred cattle Kings County was only led by Cumberland by 39 head, the figures being—Cumberland 463; Kings 424. This clearly shows that Kings County is an Agricultural as well as a Fruit Producing County.

NATIONAL PROHIBITION

It was moved, seconded and passed that the Board place itself on record as favoring the Prohibition of the Liquor Traffic for Canada for the duration of the war, and for three years thereafter as per communication from the National Temperance Federation, and that Rev. R. B. Layton and Secretary, be a committee to draft resolution and forward same to the Premier.
Board adjourned.

Special Report of Health Officer of the Town of Kentville

To the Mayor and Town Council of Kentville, N. S. Gentlemen:

Having been requested by the military authorities to inspect and report upon the sanitary conditions of the places in which the military recruits were quartered, I have made a careful inspection as required, in company with Lieutenant Morris, 112th Regiment, and reported somewhat in detail.

I beg to present herewith a brief synopsis of my report to the Military.

There has been very little evidence of overcrowding and steps were taken to remedy what existed by better distribution. While some places were rather dilapidated, with little furnishings and not prepossessing in appearance, the essential requirements of sanitary housing, namely, sufficient light and facilities for ventilation, sufficient space, plumbing free from defects in lavatories and bathrooms, excellent water supply in quality and quantity, and as clean in rooms and beds as the habits of some of the recruits would permit, were well fulfilled.

My opinion, based upon fair

knowledge and a careful consideration of the facts, is that the disease from which recruits suffered, principally La Grippe, Measles of a severe type with complications, Pneumonia, etc., of wide-spread distribution with several fatalities have not been due to any insanitary conditions of a preventable character, within the town, or in the quarters in which the recruits have been housed.

It is gratifying, however, to be able to state, that as you are aware, owing to the difficulty of handling cases of disease in ordinary houses, under epidemic conditions, steps are being taken by the military authorities, to provide a suitable temporary hospital.

The general healthfulness of the Town of Kentville, with its very low average mortality rate for many years, can scarcely be surpassed anywhere and it can reasonably be assumed that in no other available place can the health and comfort of the recruits be assured to a greater degree.

Respectfully submitted,
W. B. MOORE, M. H. O.

HUGE PROFITS MADE BY FARMERS' COMPANY

The Recent Annual Meeting of the Grain Growers' Grain Company Revealed a Most Successful Year

A glance over the balance sheet of the Grain Growers' Grain Company for the year ending August 31st last as presented at their annual meeting indicates that the farmers are no such amateurs in the business world as has often been alleged in controversies arising out of the sale of implements. The farmers' co-operative movement must be in good hand judging by the splendid earnings of the parent company.

The statement shows that on a paid up capital of about \$870,000, profits for the year were \$227,000, or more than 25% of the paid-up capital. A reader of the "Grain Growers' Guide," who sees the financial statement of the farmers' big company, and particularly if he subscribes to the policy of the "Guide," would be inclined to think that there must be a big mistake about this statement, and that it was really the balance sheet of one of the big railway or banks or milling companies, or even a manufacturing concern, in which he has been taught to believe the profits are never less than 25%.

However much criticism might be heaped on a milling company (or some similar institution) which showed profits of 25% on its paid-up capital, by certain writers in the West, there is no business man, either in the East or the West, who will begrudge the farmers' company the excellent profits they have made. Whether the co-operative principle has been adhered to rigidly, by those behind the company in question, or not, there is no doubt that the investors in the company have received a substantial return, much higher than is usual in the average commercial enterprise.

If this company continues to make these huge profits, it would seem that those interested would have to be more guarded in the future in their condemnation of those who enter enterprises which have come under the attack of the farmers are fortunate if they have an annual statement showing half the percentage of profits of the farmers' company.

FREE WHEAT

Globe Saw Little in it Three Years Ago—interesting Retrospect—

When the free wheat question came up again this fall, some one with a good memory recalled that the Toronto "Globe" over two years ago, had an article setting forth the facts against free wheat in a very convincing way.

Recourse was had to the back files of the "Globe," and it was found that on Friday, April 25th, 1913, the "Globe" had a special article on its financial page, entitled "Canada's Grain and Flour and Wheat Tariff Bill." The burden of this article was that the flour and wheat trade would scarcely be affected. The most striking comment in the article in question is as follows, under the heading "Effect on our Wheat":

"The reduction proposed in the duty on wheat will affect the Canadian producer very little now. The United States is producing too much surplus wheat in these days to afford us a profitable market there. With reserves on March 31st amounting to about 156,000,000 bushels and a new winter crop coming in about the 1st of July, which promises to greatly exceed that of a year ago, the United States is a huge exporter yet. With her new irrigation methods there are large wheat areas yet untouched. There is promise that she will be a large exporter for many years to come. Prevailing prices in American markets reflect the relative position of the two countries. The present period is a good time to compare prices, as the export season, on this side of the water, is progressing towards its close. In Winnipeg yesterday futures were selling as follows: May, 93%; July, 94%; October, 89%. In Minneapolis they were selling May at 83%; July, 90%; September, 91%. In Kansas City, May at 89%; July 85%; September, 85%. Except for some weeks in December last, cash and future prices in the United States markets have been below Winnipeg. Britain is the great consuming market of both Canada and the United States. The 1912, 66-68 bushels of wheat went from Canada to Britain. The past year Liverpool has largely controlled the future markets in both countries."

Can this be grip?
Can this be that?
A pain which sticks
Up through my hat,
An ache that twists
My neck and knees,
A tickling thing
Which makes me sneeze
A lumpy lump
Which makes me croak,
Pipes all stuffed up
Until I choke,
Germs chasing them—
Selves through my veins
And filling me
With fiendish pains,
Twisting my nerves
With red-hot hooks
Making me hate
Cigars and books,
And eats and sleeps
And drinks and talks,
And south born winds
And garden walks;
And makes me feel
A dragin' lump,
A piebald chump,
And puts my liver
Out of whack,
And puts a crick
Into my back,
And makes hot marbles
Of my eyes,
And fills my days and
Nights with sighs,
And makes we want
To draw one breath
And my old
Fool self to death?
O, burning lungs!
And red-hot head!
Is this the grip
Of which I've read?
It's the grip
Makes me so sore
It's all that's said
Of it, and more!
It's all that's dreamed
Of it, then some!
It puts the whole
World on the bum!
Can grip give such
An awful twist?
Now, let me see,
Who have I kissed?

ANTI-DUMPING CLAUSE

President Wilson to Bring in Tariff Legislation Similar to Canadian

An agitation has begun in the United States to secure an anti-dumping clause in the tariff similar to that contained in the Canadian tariff. The anti-dumping clause in the Canadian tariff was inserted for the purpose of preventing the dumping of United States or other foreign goods into Canada at greatly reduced prices during periods of depression. In pointing out this fact during a discussion of anti-dumping legislation, "The New York Journal of Commerce makes a good case, probably without intending to do so, for the trade policy of Canada:

"On the general question of protection against 'dumping' the situation of the United States is quite different from that of Canada or South Africa. With Canada it was chiefly a feature of its protective policy to prevent the unloading in the Dominion markets of surplus goods from the United States at reduced prices. Canada, with its vast territory, has only about one-twelfth of the population of the United States. Its manufacturing industries are mainly in the stage of infancy or youthful adolescence, and located in the east contiguous to the most highly developed field of American industries. The United States has no reason to fear competition from nearby countries in its own markets, and its situation with reference to European competitors is quite different from that of Canada. Its industrial and commercial strength ought to be equal to that of any existing rivals, and the power of those in Europe now at war with each other will be greatly diminished instead of increased when their struggle is over. Why should we have more fear of their commercial rivalry than before?"

Briefly put, this argument may be summed up thus: United States industry is so powerful and so wealthy that it does not need protection against Canadian industry. Conversely, as Canadian industry is much less powerful and much less wealthy than United States industry, Canadian industry needs protection. We have seldom seen the case so clearly stated in a United States paper.

FARMERS' COMPANY AND WHEAT PURCHASING

Annual Report Shows That the Farmers' Company is a Big Operator in the Wheat Market

It has been customary in certain quarters in the West to regard the manipulating of the wheat market as something which resulted in lower prices for the grain grower. It has been charged that buying and selling of wheat on a speculative basis tends to deprive the grower of some of his profits. It would appear, however, that the Grain Growers' Grain Company, which has now had nearly ten years' experience, finds that there is nothing wrong or against the farmer's interest in buying and selling grain in the world markets, because their annual report reveals that they have become one of the biggest and boldest operators on this continent. They have recently opened an office in New York to be in a better position to reap the quick profits which come from handling a large trade close to where the business is done. The farmers' co-operative movement, as far as buying and selling grain is concerned, seems to be approaching closer every year to the very methods in protest against which it came into being a few years ago. It is only another case where experience has proved business must be conducted more or less along lines that have been established and approved by years of practice and custom.
