

Another Strike is Pending on the N. S. & T.R.; Say That Agreement Has Not Been Carried Out Amendments Are Suggested to The Ontario Temperance Act; Liberals in Favor of Referendum

TORONTO, April 22.—For five hours yesterday, the members of the Ontario Legislature engaged in a "free-for-all" on the McCreary resolution asking the Dominion Government to take a referendum on the prohibition of liquor importation. When the House adjourned late last night, two amendments were in the Speaker's hands, but a division seemed still far away. The first day of the debate showed the balance of sentiment in favor of the resolution, but while the Government has reason for believing that the resolution will carry, it was evident last night that the opposition to the proposal will be extensive enough to jeopardize the success of the referendum when it is submitted to the people. The division in the temperance forces was strongly reflected in the debate in the House, and with one or two exceptions, the opposition to the resolution as it stands was based upon the probability that the Federal Act under which a referendum would be held does not apply to Ontario and that any attempt to apply it would be upset in the courts.

Liberal Amendments
This view found expression in the liberal amendments introduced by R. L. Mackin, of West Keok, which were supported by Karl Homuth, the South Waterloo Labor member. The amendment is not a bar to a referendum but demands that before the referendum is submitted, the province submit a stated case to the courts to secure a decision upon whether Ontario comes within the scope of the Federal Act or not. If the courts hold that Ontario, despite its permitted sale of native wine, is a "prohibition" province, then under the amendment the Lieutenant-Governor-in-Council is authorized to ask for a referendum.

Government Responsibility
The position of most of the Conservative members is summed up in the amendment moved just before adjournment by Hammett P. Hill, of West Ottawa, and seconded by Rev. C. H. Buckland, of South Wellington, declaring:
"This House recognizes Ministerial responsibility as the bulwark of British institutions and declares its adherence to the principle of responsible Government, and in accordance therewith, believes that the Government should assume full responsibility for action within the limits of provincial jurisdiction."

The line-up in the House at adjournment showed no support from the U. F. O. ranks and the addition of four Liberals—Tolmie, Windsor Hall, Parry Sound, Calder, North Oxford, and Gurry, South East Toronto. This quartet spoke during the day in favor of the resolution. From the L.Labor ranks the resolution secured but one recruit, though others are expected. The solitary one was Wilson Crockett of South Wentworth, who was ready to let the people settle it.

WELL STOCKED CELLAR DRAWS BOOZE THIEVES
BRIDGEBURG, April 22.—Thief robbers have been active along the lake shore as revealed by complaints made to Chief Edwards of the Ontario police at Port Erie.
Buffalonians owning summer cottages along the lake shore have entered complaint to the effect that their cellars, in many cases filled with Canadian whiskeys and ales, have been entered by an organized gang and much of the contents taken. In one case complaint is made that thirty quart bottles were stolen.
Three men have been arrested in connection with the charges and a general investigation is being conducted into the affair.
Owing to the fact that the summer season has not yet opened along the lake shore, and the owners of homes are absent as yet, looting cellars in this section has apparently proven to be an easy task with the opportunity available at all times.

Seems Like It Would Take A Miracle to Keep This Red Skin Miracle Behind the Bars
There is a question of great importance that is agitating the mind of Chief of Police Konkle and that is, "Will Miracles Never Cease?" Breaking jail? remarks the Grimsby Independent.
Some few moons back an Indian named William Miracle was sent to the county jail in St. Catharines to await trial on a theft charge. One bright morning the turkey opened the door of his cell but he was conspicuous by his absence. He had fled the coop. A few days ago Chief Konkle got wind of his whereabouts and on Monday Chief Smith of Burlington at the instance of Chief Konkle arrested the dusky hued gentleman. Chief Konkle received him in his arms at pumber three

police station in Hamilton on Tuesday afternoon and brought him to Grimsby in Ex-Chief Swayze's new "gasoline wagon" and locked him up in the local calaboose.
About fifteen minutes after being placed in the cell Miracle was seen running out the lane onto the street and up the hill. Chief Konkle was notified but by the time he reached the coop the bird was gone out of sight. He cut up through Andersons peach orchard and went up the mountain on the old Robinson street trail. At the top of the trail he met Thos. Sandy and informed that gentleman that it was easy to escape from Grimsby jail as the Chief went away and forgot to lock the door tightly.

Men on the N. S. & T. R. May Go on Strike

There is another strike impending on the N. S. & T. R. The men had a meeting this morning and discussed the question, but took no action. Another meeting is to be held tonight when it is understood final action will be taken. The men say the agreement made by the Conciliation Board is not being carried out and that old men are being discharged and new ones brought in. That is the burden of their complaint they say.

The Fruitgrowers Are Up in Arms Against Threatened Rate Raise

A fair sized crowd of fruit growers turned out to the specially called meeting of the Niagara Peninsula Fruit Commissioner's Office, Ottawa. The meeting was hurriedly called by the president of the association at the request of Mr. Macintosh of the Fruit Commissioner's Office, Ottawa, to discuss the threatened raise in express rates by the express companies. The companies have laid out the new schedule of rates in a sort of a haphazard way, for instance, the rate between Niagara Falls and Toronto is to be increased 100 per cent. This amount of increase is known as a group and the rate to the same from Clarkson to Oakville into Toronto as it is from Niagara Falls, St. Catharines, Grimsby or any other point east of Hamilton. It is a group rate. The new rate would be sixty cents a hundred into Toronto from any point east to the Falls. Some of the growers were inclined to allow the company a slight increase in their rates providing they receive some service for their money. A committee was appointed to work with Mr. Macintosh in securing data, and for conferring with the express companies to see what arrangements can be made in the matter. The meeting was attended by growers all the way from Clarkson to Niagara-on-the-Lake.

Grantham Council Decides on What Culverts and Roads To Be Built and Improved

The Grantham Township Council met at a special meeting on Tuesday the 20th inst. with members all present.
The object of the meeting was to consider the necessary culverts to be built, and roads improved, after the general inspection of the roads and bridges by the council on Saturday the 17th inst. After much deliberation the following culverts and roads were outlined.
Moved by Councillor Clemens seconded by Councillor Baker, that contractor George North be authorized to build or improve culverts on the undermentioned roads.
Road leading to Niagara Gardens sub-division between lots 10 and 11, 12 feet of an extension to be built on the end of culvert. Bridge near Bench's, 24 feet long. Bridge near Swayze's, 16 feet long. Culvert near Grape Juice Factory, 16 feet long. Carried.
Moved by Deputy Reeve Stewart seconded by D. Deputy Reeve Haynes that the following named roads be outlined for improvements for the present year under the Provincial Highway Act.
Roads in Niagara Gardens, sub-division be graded and cinder paths made. Road between lots 2 and 3 from the Government road to the mountain, better known as the (Lampman Road) graded and later stoned.
Road between lots 4 and 5 graded from the Niagara Stone road to Scott street, Road between 6 and 7

Express Companies Who Were Denied Power to Make a Jump on Commodities Are Now After the Railway Commission Once More.

County Judge L. B. C. Livingstone has just handed down his decision in a peculiar case; that of the Hydro Electric Commission at Welland, vs. R. Hill. The hydro entered suit against Hill on charges that the noises made in his pool room, located over the Hydro offices in Welland, caused loss of business. The case was heard last week, and County Judge Livingstone has just given out a ruling, finding that the nuisance complained of actually existed, and the defendant was responsible for it. He has ordered the issuance of an injunction to be issued immediately, and to come into force for three months to allow any change the which the defendant wishes to make to abate the nuisance. In addition, County Judge Livingstone in his finding assesses all the costs of the case against the defendant Hill. Hill contends that the owner of the building is responsible, as he rented his quarters to him for pool-room purposes, and that a pool room cannot be conducted without a certain amount of noise. He will likely remove from his present quarters in order to escape further suits.

SMALL CHICKS WERE ROASTED IN HEN HOUSE FIRE

The firemen had a run at 1:30 this morning to North street where a chicken house belonging to Mr. Brewster was found in flames. The fire had started from an oil lamp in a brooder in which were about forty little chicks. These chicks and six other chickens were roasted. The loss will reach about \$200.

NO POTATOES FOR A MONTH, SAY TORONTO WOMEN

TORONTO, Ont., April 22.—To lose no time in organizing for the protest against the present price of potatoes, a committee appointed by the local council of women met today. Mrs. Frederick A. Fish, Mrs. Campbell MacIvor and Mrs. A. C. Courtye who are responsible for the launching of the scheme whereby housewives will abstain from the purchase of potatoes for one month, outlined their organization and have arranged for a general conference to be held in the council chamber of the city hall on Friday morning. At this meeting complete organization of the city will begin. The British Rugby Football League of Toronto will open its season next Saturday.

BROWN DESERTED FROM THE U. S. REGULARS TO ENLIST WITH THE CANADIANS; GOT BAD HABITS LATER

Admitted Being Convicted at Welland and Brantford, and Escaping From Custody at Hagersville—Is Given An Indeterminate Sentence by Magistrate.

The fact that Clarence Brown had served in the Canadian forces overseas, no doubt had something to do with the leniency Magistrate Campbell used today in sentencing him for his admitted offences. Brown admitted that he had done short terms in Brantford and Welland and also that he had deserted from the U. S. regular army in 1916. "I wanted to go overseas but they wouldn't let me as I was only 18, so I decided to get out and go to Canada where I could get over to the fighting," said Brown. He was born in Clyde, N. Y., in 1899. He returned from France last July and, since then has been in continuous trouble. His method was to buy goods on the instalment plan, pay down a small sum, sell them and get out of town. He did that with a \$150 phonograph here and when he left he took a suit of clothes worth \$70, a watch, a bicycle, belonging to the man with whom he roomed. He went to Brantford and was traced there through a girl he had kept company with in St. Catharines. His victim went to Brantford and got the clothes but Brown had pawned the watch and spent the money. The Brantford chief of police insisted on him laying a charge against Brown and having him arrested. Brown was then brought here.

Magistrate Campbell asked him if he had not gone under the names of Pritchard and Kenville and he admitted that he had. He said he would promise to reform if allowed to go. He admitted escaping from custody at Hagersville. "You record all the way through is none too savory," remarked the Magistrate. "I'll sentence you to the provincial reformatory for an indeterminate term, not less than six months."

Brown claims he has made restitution of all the goods he stole.

Bit of Hard Luck Put St. Kitts Team Out of Chance in Finals

A bit of hard luck prevented the St. Catharines Crescents from qualifying for the finals in the intermediate series of the Ontario Basketball League, when they played the fast West End "Y" team at the Collegiate gym last night. A big crowd saw a tremendous battle fought. The St. Kitts team was defeated in the first game in Toronto by 42-34 and as points counted the locals went up against a handicap of eight points last night. The game went away at a furious gait and St. Kitts very quickly overcame the handicap. To hold their lead was the thing, however, and they fought like demons to do so. Their opponents feeling there was just as much at stake, fought with equal enthusiasm, but were outplayed. At half time the score was 20-9 in favor of St. Catharines. After a short rest the two forces engaged again in battle royal and if anything the play was faster than in the first half. For a considerable length of time the locals held a sufficient lead to land them into the finals but gradually the Torontonians worked forward and then for different times it was a tie, that is always counting the eight points handicap. That was all that mattered. Then just at the close with the score 30-21 in favor of St. Catharines the Toronto boys by a lucky cast made their last basket. The time keeper had twice called time before this as dozens in the audience didn't testify but Referee People didn't hear the timekeeper and so he allowed the heart-breaking goal which lost the St. Catharines' chances to win the intermediate title, and that last basket not been allowed. St. Catharines would have got into the finals against London by one point. The teams: Toronto: Yeomans (and McCausland, forwards, Walker, centre, Smith and Parrell, defence, Montgomery and Camm spares. St. Catharines: Bowman and Steele forwards, Barber centre, Moore and Nicholson defence, Disher and Graham spares. A good preliminary was fought between the junior Crescents and the All Stars, the latter winning 27-24. The teams: Crescents, Hicks, Gregg, Upper, Waters, Sullivan and Jeeves spares. All Stars: Donette, Cornelius Schenck and Miller and Alexander spares. The referee was Carl Schmidt.

Revolutionary Movement is Growing in Mexico; Two More States Have Joined Secession; Rebels Threaten Oil Fields

WASHINGTON, April 22.—Reports from Mexico today emphasized the growing strength of the revolution. Advances said Hincago and Tlaxcala, supported by their legislators and state troops, had joined in the secession movement. Other dispatches told of strong additions to the revolutionists led by generals Arnulfo Gomez, Rodolfo Gallegos, Albundino Gomez and Amaro Durango. General Arnulfo Gomez was said to have occupied Tuxpan with 3,000 men and to be threatening the Tampico oil region. The Mexican embassy issued a statement declaring the revolution to be local. The statement added however, that if it secession movement would spread, it would result in the stoppage of business, curtailment of wealth and commerce and the indefinite postponement of the foreign debt. The embassy said the only state governors sympathizing with the rebellion were Governor Enrique Estrada of Zacatecas and the governor of Michigan. This was the first confirmation that the Zacatecas governor had joined the revolution. His secession is regarded as important owing to the position of his state. Another statement from the embassy said General Benjamin Hill, campaign manager for General Obregon, who is siding openly with the revolutionists, had been wounded in a battle at Contreras, in which the rebel forces were defeated. Gen. Hill by birth is an American. The senate committee investigating Mexican relations today summoned General Salvador Alvarado, who was the governor of Yucatan for Carranza during the Heneguin controversy who is now in Washington to appear before it on Tuesday

THE WEATHER

TORONTO, April 22.—An important disturbance now centered in Iowa is moving northeastward, a heavy rain fall has occurred over the great part of Ontario and showers have been almost general in the Western Provinces. FORECASTS—Easterly winds, fair and mild. Friday, Southeast winds, showery and somewhat warmer. Sterling exchange in New York was weaker at \$3.91 to \$3.92. Manager Gibson of the Pittsburgh National League team denied that Carey and Cooper of the Pirates would be traded for Hornsby and Doak of St. Louis.

WHAT EXCHANGES SAY
 Edmonton Journal (Though they could not bring the Legislature round to their view, Messrs Boyle and Ewing were quite right in urging that the province has a responsibility for the financial condition of the municipalities, and that it cannot absolve itself from this when municipalities go into default. The credit of the whole province is affected by such default, and when it comes about it is so because the Legislature has not done its duty. Mr. Spencer asked what the drought-stricken farmers would think if the Legislature went to the aid of towns that had been over-boosed. They would have no right to object, any more than others would have a right to object in case the Legislature came to the aid of a rural municipality of drought-stricken farmers. In each case it would be a public body which was the creation of the Legislature, and under its control, which would be aided, not the individual living within the borders of the municipality.)

THE FARMER AND HIRED MAN
 Acton Free Press: There is ample reason for sympathetic interest in the farmer's difficulties in the matter of securing much-needed help on the farms these days. Farmers are said to be willing to pay \$50 a month with board, for hired help. The trouble is to find the man to hire. When he's found and finds the farmer is willing to pay \$50, he asks \$60, and stipulates for an eight or nine hour day like the town and city fellow has. The average farmer is not hard on his man, and the rush of work and longer hours lasts only through the busy season. It is little wonder farmers feel annoyed at the constant cry for greater production under existing conditions. Who can reasonably blame them? Many will be obliged to cultivate less and allow portions of the farm to lie dormant.

At a special meeting of the Thorold Council it was decided to move the clocks ahead to daylight saving time on May 1. A committee was also named to act with one from the board and Board of Trade to raise funds for new uniforms for the band.

DEATH LIST OF 140
 BIRMINGHAM, ALTA., April 21—A death list which last night stood at more than 140 and a property loss of many millions of dollars, was the toll exacted by a tornado which yesterday swept a score of towns, villages and isolated farms in eastern Mississippi, northwestern Alabama and the southern counties of Tennessee.

Communication with many of the stricken districts is difficult but fragmentary reports agreed that the tornado swept down with deadly suddenness, obliterating everything that lay in its path. In at least one case—that of Rose Hill, Miss.—practically the entire town, is believed to have been destroyed, and in several instances all members of a family were reported to have been killed.

Many Communities Suffer
 Striking first apparently in Lauderdale county, Miss., about 10 o'clock this morning, the storm swept a narrow path across the state, carrying destruction to a dozen or more communities. About the same time death and damage from the same or similar disturbances was reported from counties in the northwestern corner of Alabama, the extreme fork of the wind being expended before the Tennessee line was reached, in Williamson and Maury counties.

START TOMORROW AND KEEP IT UP EVERY MORNING
 into the habit of drinking a glass of hot water before breakfast.

Millions of folks bathe internally now instead of loading their system with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles according to hot water enthusiasts. There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day, become food for the millions of bacteria which infest the bowels, the quick result is poisons and toxins which are then absorbed into the blood, causing headache, bilious attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments. People who feel good one day and badly the next, but who simply can not get feeling riza, are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to make anyone a real crank on the subject of internal sanitation.

Growth Shows Desire To Extend Army Work

Commissioner W. J. Richards, chief of the Salvation Army in Eastern Canada, has completed his fifth year in that capacity. During that time the Army has seen one of its greatest periods of usefulness. This period takes in the "war years." The great war had been under way since August and new problems presented themselves to the organization when he assumed command. These problems required a large measure of initiative to overcome. The task of rendering the highest and most efficient service was shouldered and Canada paid tribute to the success which attended those efforts by over subscribing the amount asked for during the Shield Drive.

Commissioner Richards is a forceful man. He is a man of few words. He believes in doing things. During the five years, more than 11,000 persons are recorded as having sought salvation. Notwithstanding the losses due to war, there are today nearly 2,000 more names on the Membership Roll than there were in this territory five years ago.

In July, 1915, Canada East was separated from Canada West, the dividing line being Port Arthur. Ever in view of this, there are now only forty one fewer officers in active service in the Eastern territory alone than there were in the combined territories five years ago.

In the Field Report two very striking indications of financial growth are given. In 1914, the Self-Denial total for the combined territories was \$43,726. In 1919, for Canada East alone, it was \$75,501. Harvest Fest

tival returns have been doubled. Shows Solid Growth. In all the various departments the corded. This shows that as often as humanly possible every opportunity has been seized for the advancement of every branch of the organization. Inasmuch as every act of service means the welfare of somebody, the

same rate of growth has been reposition which the Salvation Army occupies today indicates tremendously increased service to the community. This service has been rendered under the leadership of Commissioner W. J. Richards. His five years in Canada have been five big years for

the Salvation Army in Canada, and give great promise for the future. **HARD, SOFT OR BLEEDING** No matter what kind or where located, any corn is promptly cured by Putnam's Corn Extractor; being purely vegetable it causes no pain. Ladies! Keep It on The Dresser
 Few drops on corn or callus stops pain, then they lift off.

Your high heels, have put corns on your toes and calluses on your feet, but why care now? This tiny bottle holds an almost magic fluid. A genius in Cincinnati discovered this ether compound and named it freezone. Small bottles of freezone can be had at any drug store for a few cents. Never limp or twist your face in pain again, but get a bottle of freezone and apply a few drops on your tender, aching corn or callus. Instantly the soreness disappears and shortly you will find the corn or callus so shriveled and loose that you lift it off with fingers. Just think! You get rid of a hard corn, soft corn or a corn between the toes, as well as hardened calluses, without suffering one particle, without the slightest irritation of the surrounding skin. Just a touch of freezone on a sore corn gives instant relief.

Getting Divorces is Funny Proposition in England; Very Costly, But Easy

LONDON, April 21—When the British divorce court reopened after the Christmas holidays, 1,322 cases were on the list for trial. It is notable that out of the 1,322 cases on the list only 134 were defended cases. The others may be put down roughly as all collusive, to

the extent that both parties want the divorce at least. The judges know that they are collusive but in the state of the British divorce law they can do nothing but close their eyes and pronounce decrees. Of course, every now and again someone gets careless and the judge has a chance to read a homily on the sacredness of the law. If the present tendency goes on England no longer will be able to

neer at America as the land of easy divorce. If one has the money to pay the lawyers divorce is as easy in England for either man or woman, as in most of the states of America. It is true that a man may only obtain a divorce for the one cause of misconduct and that a woman to secure a divorce must prove both misconduct and either cruelty or desertion. The result of this state of affairs is that the wife usually is the petitioner. A formal case of misconduct is made out against the husband and a carefully rehearsed blow before servant or other third party is good enough legal cruelty. When desertion is chosen as the second ground for divorce, however, the skill of the lawyer comes into play in a very pretty comedy. The process is as follows.

The husband leave home, and after he has been gone a week or two the aggrieved wife writes a pathetic letter asking him to return to her. Usually her lawyer writes it and she signs it. Then the husband replies that to return is impossible. Armed with these documents, the wife goes before the court and secures a decree of restitution of conjugal rights under which the husband is ordered to return to his wife within 14 days. The judge, when he signs the order, knows the husband won't return and the wife who sues for it would be a surprised and disappointed woman if he did. At the end of the 14 days the husband by his failure to obey the order, has established legal desertion and the wife gets her divorce.

Doubtless one of the causes of the present increase in divorce is the necessity for the dissolution of hasty war marriages. Boys and girls married on a few days acquaintance and the boy went to the war. He came home after four or five years to find responsibilities of which he had never thought before, and the girl too, had had the same period to think things over. Many, of course made other arrangements, without waiting for the husband's return and divorces are necessary now to regulate matters.

Divorce is still costly in England. An undefended case costs about \$750 and a defended one may run to any amount. A poor man, if he can scrape up \$250 for fees, maybe permitted to sue "in forma pauperis" but he must have the \$250 before he is allowed to be a pauper.

OTTAWA, April 21—A letter protesting against section 10 of the new Franchise Bill and bearing the signature of Tom Moore, president of the Trades and Labor Congress of Canada, a swell as the representatives of the four great railroad brotherhoods, has been sent to Hon. Huh Guthrie, Solicitor-General. This letter states that the section named appears to disbar labor or organizations from contributing directly to election expenses or raising money by individual subscriptions to defray such expenses.

Where You'll Find Fire Boxes

The latest revised list of the number and location of fire alarm boxes is given below. Residents are advised to clip the list and keep it for reference in case of fire:

- 3—Packard Electric Works, Race Street.
- 4—Central Fire Hall
- 5—Police Station, Park Street
- 6—Catharine and Edmund Sts.
- 7—Pelham Road and Chetwood Street
- 8—Brewery and St. Paul Sts.
- 9—Neptune Hose Hall, St. Paul St. West
- 12—Yate and Trafalgar Streets
- 13—Yate and Ann Sts.
- 14—Church and Ontario Sts.
- 15—Queen and Duke Sts.
- 16—Welland Ave. at Lake St.
- 17—Ontario and Welland Ave.
- 18—Lock 2, Welland Vale
- 21—St. Paul and Geneva Sts.
- 23—Queenston and Calvin Sts.
- 24—Queenston and John Sts.
- 25—Thorold Road at Whitman & Barnes plant.
- 26—Queenston St. and Westchester Avenue
- 27—Queenston St. and Vine St.
- 28—Vint St. at Railroad Crossing
- 29—Page and Davidson Sts.
- 31—King and Academy Sts.
- 32—Church St. near Court St.
- 34—Welland Ave. and Court St.
- 35—Church and Geneva Sts.
- 36—Welland Ave. and Geneva St.
- 37—Welland Ave. and Niagara St.
- 38—George and Derby Sts.
- 39—Lyman and Raymond Sts.
- 41—Niagara St. and Canal Bridge
- 42—Wiley St. and Russell Ave.
- 43—Geneva and Daotah Sts.
- 45—Russell Ave. and Rodman St.
- 46—George and Albert Sts.
- 47—Lake Ave. and Dufferin St.
- 48—York and Louisa Sts.
- 51—Ontario and McKinnon Dash
- 52—York St. and Lowell Ave.
- 53—Lake St. Fire Hall.
- 54—Thomas and Louisa Sts.
- 56—Henry and Elizabeth Sts.
- 57—Facer and Currie Sts.
- 61—Queen and King Sts.
- 62—St. Paul and Queen Sts.
- 63—Maple Leaf Milling Co's. Office, St. Paul St.

In case of a general alarm the city bell will ring as follows: 1—12—123—twice, followed by the number of the box from where the alarm is being rung.

DEER SEASON SHORTENED

Toronto fur dealers, represented by George Mordeith, John Hallan, W. R. Sweeney and S. Brazier, protested to the Fish and Game Committee of the Legislature against the present royalty system, because of the extra clerical work entailed. They suggested a new licensing fee graded from the farmer or trapper to the ultimate dealer. They were asked to submit proposals in writing. Despite objections from the C. N. R. and C. P. R. who claimed that shortening of the deer season in the north would injure tourist traffic the committee reduced the open season north of the French and Mattawa Rivers by 15 days, commencing October 15. That the bounty on wolves would be increased from \$20 to \$50 was recommended.

PROTECTING HUMAN LIVES

The Ontario Safety League continues to place a large amount of literature in the hands of motorists, school children, industrial workers, and others throughout the Province. In the first three months of 1920 the

League has distributed an enormous amount of safety material, including 35,000 industrial safety bulletins; 32,400 school safety bulletins; 8,500 special bulletins; 8,500 traffic bulletins; 2,700 electric railway bulletins; 150,000 motorist's safety book-marks; 10,200 health bulletins; 6,500 news letters; 9,000 safety calendars; 12,000 leaflets to the "new man"; 125,000 gummed seals; 3,000 safety cards and posters.

The League will hold an annual meeting in Toronto, beginning Tuesday, April 13th at the King Edward Hotel.

A. F. OF L. OPPOSES INFUX OF CAN. LABOR INTO U. S.

WASHINGTON, April 19—To prevent an influx of Canadian and Mexican laborers into this country the American Federation of Labor through Frank Morrison, its Secretary, asked Congress yesterday to "take any necessary action" to abrogate orders of the Department of Labor permitting temporary admission of Canadians and Mexicans to work this year in the beet sugar industry in Colorado and other Western States.

Do not forget to file your

Income Tax Return on or before the 30th of April, 1920.

Dominion of Canada

Department of Finance

ALL persons residing in Canada, employed in Canada, or carrying on business in Canada, are liable to a tax on income, as follows:—

1. Every unmarried person, or widow, or widower, without dependants as defined by the Act, who during the calendar year 1919 received or earned \$1,000 or more.
2. All other individuals who during the calendar year 1919 received or earned \$2,000 or more.
3. Every corporation and joint stock company whose profits exceeded \$2,000 during the fiscal year ended in 1919.

Forms to be used in filing returns on or before the 30th of April, 1920.

ALL INDIVIDUALS other than farmers and ranchers must use Form T 1.

FARMERS AND RANCHERS must use Form T 1A.

CORPORATIONS and joint stock companies must use Form T 2.

Penalty

Every person required to make a return, who fails to do so within the time limit, shall be subject to a penalty of Twenty-five per centum of the amount of the tax payable.

Any person, whether taxable, or otherwise, who fails to make a return or provide information duly required according to the provision of the Act, shall be liable on summary conviction to a penalty of \$100 for each day during which the default continues. Also any person making a false statement in any return or in any information required by the Minister, shall be liable, on summary conviction, to a penalty not exceeding \$10,000, or to six months' imprisonment or to both fine and imprisonment.

General Instructions.

Obtain Forms from the Inspectors or Assistant Inspectors of Taxation or from Postmasters.

Read carefully all instructions on Form before filling it in.

Prepay postage on letters and documents forwarded by mail to Inspectors of Taxation.

Make your returns promptly and avoid penalties.

Address INSPECTOR OF TAXATION, HAMILTON, ONT.

R. W. BREADNER, Commissioner of Taxation.

Pin Your Faith to Hobbs' Gold Medal Lines

"ATTENTION!"

EVERY article you buy at any of the following hardware stores will give you "Distinguished Service" if you make sure when buying that it bears the famous GOLD MEDAL Label.

"Quality" and "Hobbs Gold Medal" mean the same. Look for the Gold Medal Label—a symbol of service. You'll find it on Harvest Tools, Garden Tools, Saws, Lawn Mowers, Sewing Machines, Roofing, Washers and Wringers, Cutlery, Sporting Goods, Refrigerators, Binder Twine, etc.

PAINT LENGTHENS LIFE OF BUILDINGS AND MACHINES

Many an old ship has stood the racket of ocean travel for years mainly on the strength of the tar or paint applied to her sides, but sailors do not wait for the ship's hull to become weather beaten before applying the first coat of paint. Farmers, on the other hand, seem much inclined to let their buildings reach a state of partial decay before making any special effort to safeguard them against the play of wind and water. As a matter of fact, nothing appys better than paint applied immediately after the building is constructed, in lengthening the life of the structure. The same applies to farm machinery parts

especially the wooden parts and it will always pay to paint such repairs to machinery wagons, etc., as have to be made before the work season for these articles commences.

Good paint applied to farm buildings and machinery, not only prevents the good management employed in serves them, but calls attention to running the farm, a fact that helps greatly in case the owner wishes to sell tither the farm or some of its products. Many farmers have paid so much attention to the economic value of th efarm that they have neglected an important side of farm life. There is no reason why the farmer and his family should not have as attractive a home as attractive as the city dweller has. The farmer's neighbors

as well as the passing observer, will judge him largely by the care he takes of his stock, his machinery, and his buildings.

Painting is the easiest and least expensive way of making sure of neat clean surroundings, and is the best way of preserving the lumber in buildings, implements or machinery. With spring approaching, the time has arrived for going the rounds of the machine shed to lick out these ar-

ticles that can be moved to a warm building for retouching with paint in addition to their annual overhaul and repair.

A LOVELY REGION

One hundred and forty five miles north of Toronto lies the "Lakelands Region" one of the most attractive of the summer play grounds in the Highlands of Ontario. It is 1,000 feet above sea level, is immune from Hay Fever, has good boating and fishing, golf, and is supplied with some of the best summer hotels in Canada among which is Bigwin Inn accommodating 500 guests. For description literature with list of hotels, rates, maps, etc., apply to any Agent of Grand Trunk or writt to C. E. Hornington, D.P.A., Toronto, Ont.

PREVENT APPLE SCAB

Much of the Loss Through This Disease Is Needless.

Careful Spraying Will Do the Trick—Three Spraying Necessary—Either Lime Sulphur or Bordeaux Mixture May Be Used.

(Contributed by Ontario Department of Agriculture, Toronto.)

THIS is the most common and most serious disease of apples in Ontario. It occurs wherever apples are grown, and the scab spots on the fruit and leaves are familiar to almost every fruit grower. In wet seasons it causes a financial loss of many thousands of dollars to the fruit growers of the Province. This is to a large extent a needless loss, for Apple Scab can almost always be prevented no matter how wet the season may be, by thorough, timely and intelligent spraying, in combination with the proper pruning of the trees. The scab only develops and spreads during wet weather. The times of the year therefore when we get our wet weather are the times we have to spray if we are going to prevent scab. One spraying with either lime sulphur or Bordeaux mixture is not sufficient to prevent scab, as the rain gradually washes the spray off, and as the leaves and fruits are growing larger develop more surface to cover. In order to be sure of preventing the disease we must spray from three to six times during the season, the number of sprayings depending upon whether the weather is wet or dry. The first spraying should be done just as or soon after the leaf buds burst. For this application use commercial lime-sulphur, strength 1 gallon commercial to 7 gallons of water. If the grower is certain that there is no San Jose Scale in the orchard and very little Oyster Shell Scale, a weaker solution may be used, 1 gallon to about 20 gallons of water, or Bordeaux mixture 4.4.40 formula may be substituted.

The second spraying should be given just before the blossoms open, that is, just when they are showing pink, using commercial lime-sulphur strength 1 gallon to 35 gallons of water, or Bordeaux mixture 4.4.40 formula.

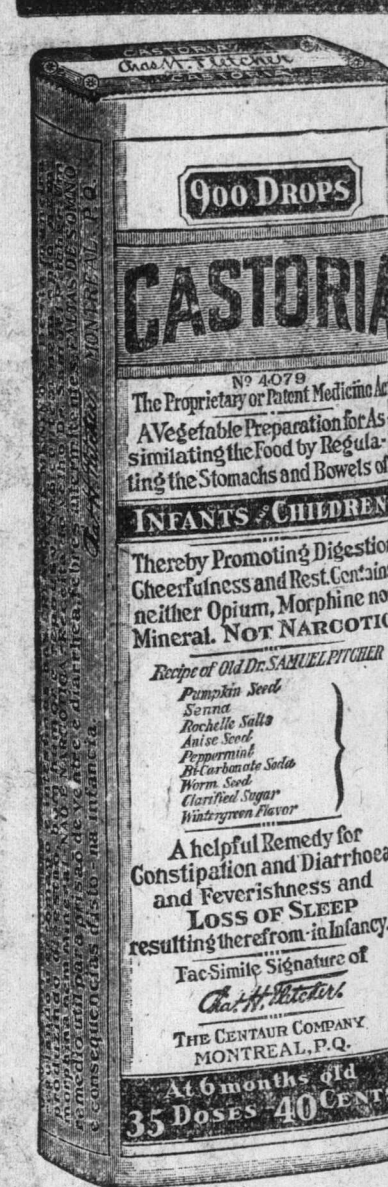

In average seasons the third application should be given immediately after the blossoms have all or nearly all fallen, with lime-sulphur strength, 1 gallon to 40 gallons of water. This is generally the most important spray for the control of Apple Scab and always for Codling Moth, and it must be promptly applied, as a delay of a day or two may make all the difference between success and failure. Bordeaux mixture should not be used at this time, as it is almost sure to cause the fruit to be russeted. Arsenate of lead should be added for the second and third sprayings to control Codling Moth and other biting insects.

In seasons of normal weather conditions these first three sprayings should control the scab completely. In some seasons, however, additional applications are absolutely necessary if the scab is to be prevented. The time of these will depend upon when we get our cold, wet weather. In some seasons there is a long period of cold, wet weather between the date when the blossoms begin to burst and when they fall. Sometimes the length of this period is three or four weeks, in such cases it is necessary to give an intermediate spraying between the second and third. Hence, if the grower finds at the end of twelve days or two weeks after he has applied the second spray that the weather is still cold and wet and development of the blossoms is very slow, another spraying should be given at once to protect the young blossoms and foliage. This should be of the same strength as for the third regular spraying, but poison should be omitted because of the bees. It is very important to observe carefully the weather conditions and apply this spray when necessary.

Spraying early in August is an insurance against late infection of Apple Scab and Sooty Fungus. In wet autumns such spraying is necessary to prevent late attacks of scab, especially with varieties such as McIntosh, Red and Snows, which are very susceptible to scab. For this application use a weak lime-sulphur solution, 1 gallon to 40 or 45 gallons of water, or Bordeaux mixture. No poison should be used at this time. Often if the spraying is done later than the first or second week in August there is a chance of the fruit being discolored at picking time. Should the dust method prove satisfactory it could be used at any time in the fall without danger of staining the fruit. If the early sprayings are thoroughly done, and the fall is not extremely wet, usually the crop will remain clean without this last application.

Thoroughness in spraying—Very few men spray thoroughly enough to get the best results. The object of spraying is to cover the surfaces of the leaves and fruits with a good fungicide (a substance which destroys the spores of fungi), such as lime-sulphur or Bordeaux mixture, so that when a spore reaches leaf or fruit it is destroyed and cannot grow and cause scab. We see, therefore, that if spraying is to accomplish its object it must be very thoroughly done; every fruit and leaf must be completely covered with the fungicide so that there is not the least space on which a spore can germinate. Thorough spraying necessitates the liberal use of the spray mixture. A large apple tree will require from six to ten gallons or more to cover it properly. Care must be taken to reach every side of the young forming fruit or (in other words) of the calyxes or flower cup which develop into the fruits.—Prof. J. E. Howitt, O. A. College, Guelph.

The Pittsburgh Pirates stopped the victorious march of the Cincinnati National League team on Sunday.
