VOL. XLVI—No. 25 BRIDGETOWN, ANNAPOLIS COUNTY, N. S., WEDNESDAY, SEPTEMBER 25, 1918 TERMS:—\$1.50 per Year in Advance. Single Copies 3 cents

## THE TIME, NOW! THE PLACE, "THE KEEN KUTTER'S SALE!"

I have all of my competitors **TRIMMED** as regards price and quality, as I am offering a very large lot of goods at last season's prices and the balance at **LESS THAN PRESENT WHOLESALE COST PRICES**

Double and twisted, pure wool, **STOCKINGETTE**, three sizes. Heavy Ribbed **WOOL HOSE**, 6 to 10 inches, 40 to 45 cents. Heavy Ribbed **COTTON HOSE**, "Rock Rib," "Hercules" and "Buster Brown." **The BEST VALUE** in this or any other town.

Ladies', Misses' and Children's Black or White **COTTON HOSE**. Ladies', Misses' and Children's Black or White **SILK LISLE HOSE**. Re our **BEST LINE OF SILK LISLE HOSE** the manufacturers say: "This Hosiery is knit of special two-ply **SILK LISLE YARN** and is warranted to retain its lustre and not to harden up in washing." **MY STOCK IS LAST SEASON'S, AND GUARANTEED STAINLESS DYE.**

I still have a few dozens of **IMPERFECT** White Silk Hose at 35c. per pair. Men's Cotton, Lisle and Silk Half Hose. **GRAND VALUES!** Men's Heavy Work Sox, 22 to 60 cents. **STEP LIVELY!** **LUMBERMEN'S SOX** at less than the present price of the yarn in them. Men's Cottonade Pants, \$1.50 to \$1.75 per pair. Men's Overalls, \$1.10 to \$1.40, worth \$1.40 to \$1.75. **MEN'S WOOL PANTS**, save \$1.00 by buying **NOW!** Boys' Single and Double Weight **KHAKI PANTS**, 90 cents upwards.

Boys' Braces, 12 to 25 cents. Shirts. **GRAND VALUES!** "Near Silk" Olive Khaki Waists. Men's Braces, 30 to 50 cents. Boston Garters, 22 cents. Boys' Wash Suits. Boys' Handkerchiefs. Men's Work Shirts, 55 to 95 cents. Extra Heavy Work Shirts, \$1.20 each. Khaki Work Shirts, \$1.20 to \$1.75. Flannel Work Shirts, \$1.50 to \$2.00. Fine Shirts, all sizes, 75 cents. " " \$1.35 and \$1.50. All sizes. " " 17, 17 1/2, 18 inch, worth \$1.75 to clear \$1.00. White Shirts, \$1.10 and \$1.30 each. White Cotton Night Shirts, with or without Collars, \$1.40 each. Men's White Flannelette Nightshirts, \$1.40 each. Colored Striped " " \$1.10 upwards.

The above are worth more to cut up at the present price of Flannelettes. Don't be one of the "It might have been" procrastinators.

Boys' Fleece Shirts and Drawers, Penman's 34 to 32 inch, 57 cents. Men's Fleece Shirts and Drawers, Penman's, 32 to 44 inch, 90 cents. Heavy Ribbed Cotton and Wool Shirts and Drawers, 95 cents each. All-Wool Shirts and Drawers, \$1.50 each. Sweaters. **A BARGAIN!** Silk Ties, 23 to 35 cents. 23-inch White Flannelette, 16 cents. Wider White Flannelette, 22 and 24 cents. Striped Flannelette, 16 cents upwards. Misses' Ribbed Cotton and Fleece-lined Vests & Drawers. Misses' Heavy Ribbed Wool Vests and Drawers. Last season's. **STOCK LIMITED!**

Printed Cottons, 18 cents upwards. White Checked Muslins, 15 cents up. Unbleached Cottons, 15, 18, 25 cents. Ladies' Cambric Night Dresses, Chemises, Drawers, Corset Covers and Underskirts. **I bought these before the great advance in Cottons, and I am giving my customers the benefit of old prices.** **DON'T BUY MERCER CROCHET COTTON** and destroy your eyesight crocheting before you find out the present cost of White Cottons, Lawns, etc. **IT IS PROHIBITIVE!** I can supply Ready-to-Wear Garments, no doubt not what you are used to, but for war-time alright!

I hold the agency for Bridgetown for **The Justly Celebrated Parisian Corset Company's Corsets, Corset Waists, etc.**, and I am selling a real good Corset with Suspenders at 85c. per pair. **MY BEST CORSET for \$1.50, worth to-day \$2.00 per pair.**

Under date 30th ulto., the above named firm wrote me as follows:

"If the price of materials keeps increasing we will be unable to quote less than \$10.00 per dozen for our lowest Corsets," i. e. for a corset without any suspenders, and so poor that I have never stocked them.

I have another case of my **BEST CORSETS**, 19 to 30 inch, en route. I have tried to place an order for more at a price which would enable me to sell them at present prices, and have failed to do so. Good policy to buy an extra pair now for yourself and one each for the young ladies. **DON'T YOU THINK SO?**

**CLARK'S BEST SPOOL, 300 yds.**, for the balance of this month at 9 cents. Don't get "stung" with 250 yards put up on spindles which are precisely like the 300 yard ones—Why? People in Bridgetown bought them for years before I came here, thinking that they were getting 300 yards of thread. Too bad!

**SNAPS—"Colonial Maid" Snaps**, the kind you have been paying ten cents for elsewhere. **My Sale Price**, all sizes, black or white, 5 cents dozen.

Buy your Christmas Handkerchiefs, Pearl Buttons, Ribbons, Embroideries and Laces **NOW** before my stock is exhausted, and save money. I am selling all of them at precisely **LAST SEASON'S PRICES.**

Do you subscribe for **THE WEEKLY MONITOR**? You may easily lose a dollar by not doing so. The price of paper and printer's ink has more than doubled during the last three years. The paper under present management is worth a lot more. The present price for a year's subscription, \$1.50, against the old price, \$1.00, is really a reduction. It used to take the price of six to eight dozen of eggs, not so very long ago, to cover a year's subscription. Now in autumn, and lots of grasshoppers, the price of three dozen will do the trick. Why not secure a neighbor's sub? I want every family hereabouts to subscribe and get the benefit of my advertising.

My Store is open until October the 1st, Mondays and Tuesdays, 9 a.m. until 6 p.m. Saturdays 9a. m. until 11 p.m., **OLD TIME.**

My Store will be open on Tuesday nights, but will **NOT** be open at any time on Wednesdays, Thursdays or Fridays.

## TWELVE PERSONS PERISHED IN FIRE

Plant of the American Button Company, at Newark, Was Destroyed

NEWARK, N. J., Sept. 17.—All police reserves and ambulances in the city were ordered out to a fire which broke out this afternoon in the plant of the American Button Company here. Police reports were that many girls were jumping from the windows of the factory.

Twelve persons are dead, according to the first police reports.

The dead are all girls, employees of the plant, ten of whom were trapped on the fourth floor of the mill, while two others, who jumped to the street, died in an ambulance on the way to a hospital.

After the fire was under control firemen began a search of the building where it was believed additional bodies might be buried under the debris.

## German Spy is Landed Again.

New York, Sept. 22.—"Lieutenant" Robert Fay, convicted German agent, in prison more than two years ago, who was caught in Spain recently, has been brought back to this country and is in the custody here of the Department of Justice. He reached here today under guard from New London (Conn.), where he arrived from Spain on a United States naval vessel.

Disposition of his case awaits instructions from Washington, it was announced by the department of Justice office here. Fay, who styled himself a lieutenant in the Prussian army, was sent to serve a three years' sentence after his conviction in the New York federal court on the charge of conspiring with others in a plot to blow up Entente ships leaving New York harbour. Fay had perfected a powerful bomb, designed to blow up a ship's stern.

**Before Breakfast**

Do YOU take a cup of tea first thing in the morning? A great many people do, and know well its beneficial effect. They say it clears the head, and fits them better for the day's work. But at this time particularly, the Tea used should be of Choice quality and purest flavor. KING COLE Orange Pekoe is eminently fitted for this special service. It is indeed "The 'Extra' in Choice Tea".

## MUST NOT RETURN NAVAL BASES TO GERMANY

Foreign Secretary Balfour Says They Should Not Be Returned to the Enemy

LONDON, September 17.—In his address today voicing his personal view that such a conference as Austria-Hungary suggested in its peace note would be useless, Foreign Secretary Balfour expressed his opposition to the return to Germany of her naval bases in various parts of the world.

"The text of this portion of Mr. Balfour's speech," received today, shows that the Foreign Secretary went somewhat further in his discussion of the subject of Germany's Colonies than the first reports of the address indicated.

"Germany," said Mr. Balfour, "is going to insist upon the return of her Colonies. Here again is a point upon which there can be no misunderstanding. Germany stands on one side and we on the other. I may say it is impossible to conceive that any conversations can bridge over a difference so deep, or to restore to the power of Germany those unhappy populations she misused, or give back to Germany control over those naval bases which can give her control of the means of communication, not only between the British Empire, but between the civilized nations of the world."

Wooden Men and Steel Cars

A. R. Whaley, former operating vice-president of the New Haven, recently inspected the congestion in the Jersey terminals and was discussing it with the yardmaster, an old time railroad man.

"What's the basic trouble?" asked Whaley. "We used to handle things better."

"I'll tell you," said the yardmaster. "Twenty-five years ago, when I and I started, they had wooden cars, but they had men of steel handling them. Now they've got steel cars, but there's a blamed lot of wooden men handling them."

DIED IN MILITARY HOSPITAL.

Mrs. Goucher, of Albany Cross, An-  
napolis County, has received the fol-  
lowing letter:  
5 Ivanhoe Road, Sefton Park,  
Liverpool, England  
August 22nd.

DEAR MRS. GOUCHER:—I am  
deeply grieved to have to tell you that  
your son died at Toxteth Park, Milit-  
ary Hospital, Liverpool, on Sunday  
morning the 18th, at about 6 o'clock  
a. m. He was brought into the hospi-  
tal on Thursday from the transport,  
very ill indeed, and from the first mo-  
ment the doctors had little hope of  
his recovery. He had every care and  
attention. Sister Barrett, who nursed  
him, was devoted to him and did  
everything possible for him and the  
day and night nurses were excellent.  
I am the Canadian Red Cross visitor  
to the hospital and have been with the  
Canadians since they were brought in  
on Thursday last for hours every day  
and therefore I can confidently as-  
sure you that he had every possible  
attention. Another poor fellow died  
within 24 hours after Pearly, and two  
or three others are very ill. I saw  
your son after his death. The Isola-  
tion ward was draped in white and  
white flowers were on the table. The  
boys in the hospital collected wreaths  
for their dead comrades and a large  
beautiful wreath of white flowers, and  
red azaleas was placed on your son's  
coffin from them. I also put on a  
small wreath of white flowers and red  
roses. The coffin was of course draped  
with the flag, "The Union Jack,"  
and over it were placed the wreaths.  
Your son looked very peaceful as he  
lay on the white bed and among the  
white draperies of the coffin. The  
two poor boys were buried together  
yesterday, Wednesday 21st, at 11  
o'clock a. m., at Kirkdale Cemetery  
at the other end of Liverpool. The  
boys all gathered at the hospital gates  
and the two hearses passed out  
through long lines of the boys at at-  
tention, with bowed heads of nurses;

and of course the two doctors were  
also present. But many of the boys,  
the nurses, and the sisters, and I my-  
self had gone on ahead to the ceme-  
tery, which is five miles away, and  
therefore I can only tell you what  
happened at the gates from the ac-  
counts of others. All traffic was  
stopped and all civilians uncovered  
their heads as the hearses passed out.  
At the cemetery the coffin was carried  
into the Nonconformist Chapel, by six  
soldiers and the service was read part-  
ly in the chapel, partly by the grave-  
side. The minister was very sympa-  
thetic and read the service beauti-  
fully. I threw in the first handful of  
earth and the bearers followed after-  
wards. The volleys were fired, and  
the last post sounded, and we turned  
sadly away, leaving Pearly in the sure  
and certain hope of a joyful resurrec-  
tion. He died for righteousness, and  
for the cause of freedom and we in  
England know what German victory  
would mean to the world. You have  
given for right your son and England  
will never forget the sacrifice of the  
Canadians. If you wish to know any-  
thing more, please write to me. I  
would tell you more about your son's  
last days if I could, but he was  
brought into the hospital so ill that  
he said little. On Friday he seemed  
better and asked for a book to read,  
but he became rapidly worse. He  
was very grateful and used to say,  
"Thank you" and smile whenever  
anything was given him, or any one  
spoke to him, but he said little. There  
were Canadians with him in the ward,  
four others, and of these three are  
still very ill. There were many tak-  
en ill with influenza and pneumonia,  
on board the transports in crossing to  
England. In this hospital we had 24  
in from the one transport. I know  
words of comfort are useless, but in  
future days you will be glad your son  
died for the Empire and for the side  
of right. With deepest sympathy, be-  
lieve me.

Yours sincerely,  
(MISS) E. M. PLATT.  
(Outlook please copy.)

Regulations Are Being Enforced

Within the last few weeks many  
fines and closing up orders have been  
inflicted as penalties for violation of  
the Canada Food Board's regulations  
in various parts of Canada. Some of  
the convictions have been obtained by  
the Canada Food Board's own inspec-  
tors, and many more by municipal  
police authorities. It is the duty of  
local officials to see that these im-  
portant regulations are enforced, so  
they have the full authority of law.

when he said—

*"Either the civilian popu-  
lation must go short of many things to which it is accustomed  
in times of peace or our armies must go short of munitions and  
other things indispensable to them."*

NOW the only way we can  
possibly live up to that  
obligation is by going with-  
out in order that our soldiers  
may have. For the money  
we waste is not money at  
all—it is equipment, clothing,  
shot and shell that are ur-  
gently needed in France.

By denying ourselves, there-  
fore, we enable Canada to  
procure to the fullest extent  
the materials and labor which  
she and our Allies need for  
the successful prosecution of  
the war.

What happens when we fail  
to save?

A pull on labor by the Govern-  
ment in one direction and a  
pull on labor by the people  
in the opposite direction.

Hundreds of millions of  
dollars are of no use to the  
country if goods and services  
can be secured only to the  
extent of eighty millions of  
dollars. So we must do every-  
thing in our power to release  
both goods and labor for the  
purposes for which Canada  
needs them.

WHETHER it be food,  
coal, wool, steel, leather,  
labor or transportation, the  
result in all cases is the same.  
Whoever competes with the  
nation by freely satisfying his  
own desires, selfishly appro-  
priates to his own use that  
which is so urgently required  
for our fighting men in  
France.

*For the sake of your country and the boys "over  
there," spend cautiously. Think of what Lord  
Kitchener has said, and ask yourself first, "Is this  
something I really need or can I do without it?"*

DISTINGUISHED VISITORS

The express of Monday brought to our town, Colonel Hirayama, lately of the Japanese Army. He hails from Tokyo, and has seen twenty-seven years in the service, having been through both the China-Japanese war and the Russo-Japanese war, where he received many decorations. Three years ago he retired from the military service and took up the study of Theology, intending to enter the Christian ministry.

The Colonel is reported in the Halifax Echo to have said that he wished to thank the lady missionaries of Canada, who had done so much for Japan. He said that Miss Jost, daughter of the Rev. Dr. Jost, of Bridgetown, and Miss DeWolfe, sister of Capt. F. T. DeWolfe, Halifax, did wonderful work in the hardest districts of Japan, where Buddhism is very strong.

Yesterday other Japanese gentlemen arrived here, Mr. R. Z. Okumura, Y. M. C. A. Secretary from Kobe, and the Rev. T. H. Sagara.

The "Echo" reports them as saying that at the beginning of the war the ladies of Japan sold picture postcards painted by a famous Japanese artist and sold them about the streets, like on tag days here, realizing the sum of \$10,000 towards the fund of 100,000 yens raised altogether to send this deputation to Canada and the United States.

Everyone was intensely enthusiastic, the Empress of Japan gave \$10,000, Terauchi, Premier of Japan, \$3,000; Baron Guoto, Foreign Minister, \$2,000; and so on until the amount was raised. Mr. Sagara said he never dreamed that the deputation would be so well received here.

They are three trim, handsome looking officers in their khaki uniforms and speak English very well. These gentlemen will be present at the United Prayer Meeting this (Wednesday) evening and will give brief addresses in the Bridgetown Methodist church.

MONDAY NIGHT'S MEETING

In the interest of an Endowment Fund for the Blind for the Maritime Provinces and Dominion of Newfoundland.

Hon. O. T. Daniels presided at a public meeting in the Primrose theatre Monday evening, for the purpose of forming an Auxiliary Society of Workers for the Blind. On the platform were: Mr. John Weir, organizing secretary of the society for the Maritime provinces and the Dominion of Newfoundland; Col. Hirayama, lately of the Japanese army; Rev. E. Underwood and Rev. Dr. Jost.

The object of this meeting was to enlist co-operation of the people in the interest of the blind and the work of giving these people an education at the Halifax School for the Blind similar to that which is being given in the public schools of the Maritime Provinces. While all who took part in the meeting made appropriate remarks, very interesting addresses were given by Mr. Weir and Col. Hirayama. A local society was formed with the following officers: W. R. Longmire, president; Dr. Jost, vice-president; Mrs. Duncan, secretary; and Miss Murray, treasurer. A committee was also formed from representatives of the various denominations.

More particulars concerning this good work will appear in a future issue.

The Latest War News

The Huns and their Allies are losing on every front. The Bulgarian defeat almost equals that in Palestine and Bulgaria's southern front has suddenly collapsed. Turkey has lost Arabia, Mesopotamia and Palestine. In Serbia as well as on the Western front the Huns are giving way and their end must soon come.

Another Pays the Supreme Sacrifice. A telegram announces the death of Stewart Marshall, killed in action. He is a son of Bayard Marshall, of Outram, was about 22 years of age and is survived by his parents, one brother and four sisters who have the deepest sympathy of the residents of their entire community.

REV. A. V. DIMOCK BADLY INJURED

His Son Gordon Was Killed and Another Son Ronald, Injured in Auto Accident.

BERWICK, Sept. 19.—Mr. and Mrs. Herbert Dimock received word today that their son, Rev. Arthur V. Dimock, who is a chaplain in the American army at Camp Evans, Sandford, Maine, with his two sons, Gordon and Ronald, were out autoing on the 14th inst., and while crossing the railroad track were run into by a train, and the auto was smashed to pieces. Mr. Dimock received a bad fracture to his leg. Gordon, who was seventeen and was a very promising young man, was instantly killed, while Ronald received severe injuries and had to be taken with his father to the hospital for treatment.

Rev. A. V. Dimock married Miss Minnie Crisp, of Paradise, a sister of Mrs. Abner Williams, of Bridgetown. He is well known here, having conducted evangelical services in Bridgetown and other parts of this county.

The following despatch to the Boston Globe gives further particulars: SPRINGVALE, Me., Sept. 14.—Gordon Dimock was killed, his father, Rev. Arthur V. Dimock, Chaplain at Camp Devens, and brother, Roland, seriously injured this morning, when the Dimock automobile was struck by a locomotive at the Oakland crossing here.

At first it was thought Roland had only a broken back, but the physicians reported later that he may have internal injuries. Rev. Mr. Dimock's right leg and two ribs are broken and he has a serious head wound and other body injuries. Both are in the Ross Hospital, Sandford, where it is said tonight that their chances for recovery are good.

Mr. Dimock was coming to Sandford from his summer home at Crystal Lake, Gilmanton Iron Works, N. H., to arrange for his two sons to attend the Sandford High School. Only about two more miles remained to complete the journey when the accident occurred. The driver of the automobile did not see the locomotive in time to bring the car to a full stop.

Gordon was dragged about 60 feet and died in 20 minutes after the accident. He had attended the Sandford schools with his brother before and was in the Sandford High football team.

Rev. Mr. Dimock is 45 years old and was acting pastor of the Sandford Baptist church from last November until April, when he became an army chaplain at Ayer, Mass. He was formerly of Nova Scotia, where his parents now reside. Rev. Ira B. Hardy, pastor of the Baptist church of Sandford, left for Crystal Lake to notify Mr. Dimock's wife. The body of the Dimock boy will be taken to Mr. Hardy's residence.

THE ENEMY HAS SPENT HIS EFFORTS

Declares Field Marshal Haig in an Order of the Day.

LONDON, Sept. 16—"We have passed through many dark days. Please God these will never return."

The enemy has now spent his efforts.

The text of the Field Marshal's order of the day reads:

"One month has now passed since the British armies, having successfully withstood all the attacks of the enemy, once more took the offensive in their turn."

ATLIES' VICTORIOUS ADVANCE

"Less than six months after the launching of the great German offensive, which was to have cut the Allied front in two, the Allies armies everywhere today are advancing victoriously side by side over the same battlefield on which, by the courage and steadfastness of their defence, they broke the enemy's assaults."

"Yet more has been done. Already we have pressed beyond our old battle lines of 1917, and have made a wide breach in the enemy's strongest defences."

"In this glorious accomplishment all ranks, arms and services of the British Armies in France, have borne their part in the most worthy and honorable manner."

The capture of 75,000 prisoners and 750 guns in the course of four weeks fighting speaks for the magnitude of your efforts and the magnitude of your achievement.

THANKS THE FIGHTING FORCE

"My thanks are due to all ranks of the fighting forces for their indomitable spirit in defence and their boldness in attack, to all commanders and their staff officers, under whose able direction such great results have been attained, and also to all those whose unsparring labors behind the actual fighting line have contributed essentially to the common cause."

To have commanded this splendid army, which at a time of grave crisis has so nobly done its duty, fills me with pride.

"We have passed through many dark days together. Please God these never will return. The enemy has now spent his effort, and we rely confidently on each one of you to turn to full advantage the opportunity your skill, courage and resolution have created."

A Heavy War Loss

The world's stock of sheep has decreased by 54,000,000 head since the war began. Millions of cattle and swine have also been destroyed.

While the war lasts the resulting shortage in cattle and hogs will have to be in part endured in order to conserve grain for shipment overseas.

But the immense gap between supply and demand must be bridged as far as possible to save a desperate situation.

The most effective step that we can take at present is to greatly increase the number of sheep. These can be successfully maintained on pasture in summer without any supplementary food, and in winter on hay and roots with a very trifling amount of grain.

In the present crisis, and especially in view of the shortage of mill feeds which must follow a low yield of grain in the west, it is imperative to increase the stock of sheep in Eastern Canada.

In this connection we direct attention to the joint policy of the Federal and Provincial Departments of Agriculture which is advertised in a late issue of this paper.

Save Gasoline on Sunday.

Owners of automobiles are asked to join in the Canada-wide movement for economy in the use of gasoline, especially on Sundays and continue until the need for thrift in using this form of fuel is over.

It is estimated that if pleasure riding is suspended next Sunday \$150,000 will be saved in Canada on that day alone.

Canada is organizing a voluntary movement to suspend the use of motor cars for pleasure on Sunday, as has been done in the United States.

The Canadian Automobile Association is requesting its members to suspend the Sunday use of their cars until further notice, or at least to eliminate pleasure trips and to use automobiles only for necessary errands on Sunday.

This movement is now on foot all over Canada and promises to meet with a great measure of success. It is a matter of national and patriotic sacrifice.

Soldiers' Sore Feet.

This is one of the many ailments for which Zam-Buk is needed at the front. It soothes tired, aching feet, heals blisters and cures "trench feet."

Regular applications of this balm will keep the feet in perfect condition.

Pte. Frank Gaskin, of the 4th Canadian Infantry, writing from France, says: "After heavy marching, I find nothing so good as Zam-Buk for sore and tired feet."

Your soldier friends need Zam-Buk also for cuts, burns, barbed wire scratches, and sores of all kinds. Be sure to put some in your next parcel. All dealers or Zam-Buk Co., Toronto. 50c. box, 3 for \$1.25.

HAVRINCOURT CAPTURED BY BRITISH

Treseau and Moeuvres, Also Occupied by General Haig's Troops.

LONDON, September 12—The British have made further important progress towards Cambrai, having captured the towns of Havrincourt Treseau and Moeuvres, penetrated into the old British defense line at several places and crossed the canal Du Nord, north of Havrincourt, according to Field Marshal Haig's communication issued tonight.

Approximately a thousand Germans were made prisoners in the operations.

The text of the statement follows: "Our operations in the Havrincourt sector were continued with great success this morning, in spite of the unfavorable weather."

"English troops attacked and captured Treseau and the old British trench lines to the east, and north of it. On their right New Zealand troops made progress east of Gouzeaucourt wood, overcoming the obstinate resistance of a German Jaeger division."

YORKSHIRE TROOPS SUCCESS

"At Havrincourt the 62nd (Yorkshire) division, which carried the village on November 20, 1917, attacked for a second time over the same ground, and with like success. Other English troops attacked across the canal Du Nord north of Havrincourt. After sharp fighting our troops captured the village, together with the section of the Hindenburg line between the village and the canal."

"North of Bapaume-Cambrai road Lancashire troops completed the capture of Moeuvres also after sharp fighting."

"About one thousand prisoners have been taken by us in these operations."

"On the northern portion of the front further progress has been made by us today south of LaBasse Canal and northwest of Armentieres."

MADE GOOD PROGRESS

LONDON, September 12—The text of the statement issued today reads: "Yesterday evening our troops captured Attilly, Vermand and Vandelles and during the night they made progress in the eastern outskirts of Holmon wood."

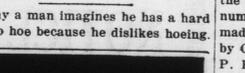

"English troops carried out successful local operations yesterday afternoon in the Havrincourt and Moeuvres sectors, overcoming considerable hostile opposition. Our troops have crossed the canal Du Nord northwest of Havrincourt and have established themselves on the west bank of the canal east and north of Moeuvres."

"During the night our troops attacked and captured a strongly fortified position known as the railway triangle, southwest of La Basse, taking a number of prisoners and machine guns."

Embargo of Apples Will Not Be Removed

OTTAWA, September 16—A definite announcement is made by the Department of Agriculture, that there is no possibility of removal or modification of the embargo on the shipment of apples and other fruits to Great Britain, until shipping conditions change for the better.

RELENTLESS FAMINE SWEEPING OVER RUSSIA

The Bolsheviks Deeds of Terrorism Will Engrave the Lenin and Trotsky Regime

LONDON, Sept. 16—Implacable forces are driving the Bolsheviks to deeds of terrorism that are forerunners of a debacle which is certain to engulf the Lenin and Trotsky regime.

Famine is sweeping over Russia and this is an enemy that Bolshevism is powerless to overcome. It is relentless—it strikes everywhere.

The Bolsheviks have launched feeble counter-attacks, now against the British, now against the Czech-Slovaks, as a diversion. Their enemy, famine, has pursued them relentlessly, and each diversion has only succeeded in carrying them deeper into the mire of despondency.

Still, the Bolsheviks are strongest force in Russia, which is indicative of the chaos of the demoralized, disorganized and hungry country. Good judges see no prospect of their immediate overthrow.

There is no organized anti-Bolshevik army that could take Moscow.

Isolated bands of White Guards are operating in various parts of the country, destroying railroads and bridges and threatening and pillaging towns conducting a sort of guerilla warfare and increasing the amount and extent of the famine, but only indirectly weakening the Bolshevik regime.

Questions in Russia will grow worse before they grow better. The intervention of the Allies will prove successful as it increases in power and extent. The Bolsheviks have an army partly Russian, partly Lettish. The Letts are always the extreme Socialists and were the chief factors in the revolution of 1905. They form the backbone of the army, and until it is overthrown or won over, conditions must remain desperate indeed.

The latest Archangel episode is indicative of the general conditions of Russia. One Chaplin, a Russian officer, collected a group of brother militarists who had no use for the Socialists, and proceeded to arrest the Achayevskoi government, which had invited the allies to come to Archangel. These Russian officers are impatient with the Socialists and are anxious for a purely military government. So the allies must play the part of mediators, disarm the Chaplin group and endeavor to organize coalition government. Whether this promise will prove any more effective than other attempts of a similar nature is a matter of speculation. It is a repetition of the Horvath episode. The allies have tried many policies with Russia. They have supported or tried to back many movements, none of which has been successful.

The next logical step will be the substitution of the Zemstvos for the Soviets. While the allies are considering the Zemstvos, which are more representative of the people than the Soviets, because the latter cater to only one class of people, the Germans are undecided as to whether to back the Bolshevik or monarchial forces.

A month ago the Germans considered that the Bolsheviks had run their course and that the monarchial government should be re-established, but conditions have changed materially recently. The Russian church might prove a useful ally, but the Bolsheviks offer a greater immediate opportunity.

GIRLS! WHITEN SKIN WITH LEMON JUICE

Make a Beauty Lotion for a Few Cents to Remove Tan, Freckles, Sallowness.

Your grocer has the lemons and any drug store or toilet counter will supply you with three ounces of orchard white for a few cents. Squeeze the juice of two fresh lemons into a bottle, then put in the orchard white and shake well. This makes a quarter pint of the very best lemon skin whitener and complexion beautifier known.

Massage this fragrant, creamy lotion daily into the face, neck, arms and hands and just see how freckles, tan, sallowness, redness and roughness disappear and how smooth, soft and clear the skin becomes. Yes! It is harmless, and the beautiful results will surprise you.

The Climate of Siberia.

OTTAWA, September 16—That popular ideas as to the climate and resources of Siberia, where a Canadian force will be fighting in the cause of the Allies, are incorrect, was one of a number of interesting statements made in regard to that country today, by Col. J. S. Dennis, head of the C. P. R. department of natural resources, who is in the capital on government business.

"The climate of Siberia, speaking generally," said Col. Dennis, "is not as severe as that of Manitoba. It rather resembles that of Northern Alberta."

No More Ford Cars For a While

DETROIT, September 9—Production of motor cars by the Ford Motor Company has been suspended entirely it was officially announced at the plant here today. This move will enable the company to devote its entire facilities to government work, the announcement said.

High Prices for Wool and Mutton are Assured for Some Years AFTER THE WAR. Now is THE TIME TO INCREASE Nova Scotia Flocks. KEEP YOUR EWE LAMBS.

If you have more than you need induce your neighbors to purchase them for breeding purposes. Do not sell them to the butcher unless you cannot help it.

1918 legislation requires the compulsory taxation of every dog in Nova Scotia and provides for paying compensation to owners of sheep destroyed by dogs, the owners of which are not known. Now let every farmer who can, help meet war demands by keeping sheep.

The Nova Scotia Department of Agriculture in co-operation with the Live Stock Division of the Dominion Department of Agriculture, announce the following policies:

- 1. Several hundred selected grade ewe lambs have been purchased and will be sold at cost to bona fide sheep breeders wishing to secure them.
2. The Departments will pay transportation on these ewe lambs from place of purchase to destination.
3. If parties wishing to secure ewe lambs for breeding purposes will write the Nova Scotia Department of Agriculture, Truro, they will get advice relative to price and other particulars. If all lambs already secured are disposed of, an effort will be made to purchase more. Get orders in early, as later prices may be higher.
4. The Live Stock Division of the Federal Department of Agriculture will assist as heretofore in the distribution of pure bred rams.
5. To supplement the distribution of pure breed rams, the Provincial Department of Agriculture will secure and ship at cost, high class unregistered ram lambs at slightly higher than butcher prices.
6. Mr. S. A. Logan, in charge of Sheep Extension Work of the Nova Scotia Department of Agriculture will as far as possible, call on parties wishing help with their sheep flocks or requiring further information in regard to the increasing of their flocks.

For further particulars write SHEEP DIVISION, Nova Scotia Dept. of Agriculture, Truro, N. S. or S. A. LOGAN, in charge of Sheep Extension Work, Amherst, N. S. M. CUMMING, Secretary for Agriculture, Province of Nova Scotia

Build up the Mighty National Force

FOR fifty years the Teuton peoples have been trained, disciplined, whipped, into servile cogs of an implacable military machine, by which is maintained the Prussian doctrine of might, and the Kaiser's autocracy. The Teutons deny themselves, they make sacrifices, because they are trained or forced to do so, but they do it.

The peoples of the Allied nations must make great sacrifices and tremendous efforts in order to defeat the enemies of freedom, but because they are free peoples it is left largely to the individual to say what or how much self-denial each will practice.

So if freedom is to prevail individuals must make voluntary sacrifices which in the aggregate will be greater than the forced sacrifices of the enemies of freedom.

THE measure of your love of freedom is your willingness to deny yourself so that the strength of the nation for war effort will be increased.

This self-denial must take the form of money-saving—thrift. Each person knows in what way he or she may save.

The national need says you must save, but free Canada leaves it to you to say by what means and to what extent you will save.

NOW, it is for you, each of us, everyone of us to say how much patriotic endeavor, how much loyal sacrifice we will make by saving our money, by "doing without" so that each day will see a surplus to add to our own and the nation's strength. No matter how small the surplus it is important because each saving is an effort made, and many small individual efforts make the mighty national force.

A Splendid Sheep Law.

The Nova Scotia Act for the protection of the sheep against dogs permits any owner of sheep to destroy at any hour of the day or night, any dog found worrying or terrifying sheep or lambs.

An amendment passed last session makes it compulsory for every municipality to collect a minimum tax of \$1.00 on every male dog and \$5.00 on every female. This dog tax supplies a fund for the repayment of sheep owners who have lambs or sheep destroyed by dogs of which the owners

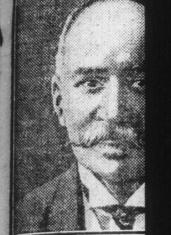

are either not known or not able to pay. In this amendment together with the old law, Nova Scotia has legislation for the protection of sheep which is no longer in America, and there is no longer any excuse on the dog's part for not keeping sheep.

It has now become a patriotic duty to add to the old flock or establish a new one of this most profitable stock breeding within the reach of all, the Federal and Provincial Departments of Agriculture are co-operating to furnish ewes at the lowest figure, and to assist in locating and supplying registered and unregistered rams. The advertised policy of the Joint Department has appeared in a late issue of this paper.

**Autumn Cultivation for  
Weed Control**

(Experimental Farms Note)

The ploughing of the land in  
the fall is desirable as a part of  
the regular work of the farm  
since it enables the ground to  
be got into proper condition  
for sowing the seed in spring  
considerable earlier than would  
otherwise be the case. But it  
is perhaps of even greater im-  
portance as a means of keeping  
weeds in check. In the case of  
perennial weeds the mere turn-  
ing up and exposing of the  
rootstocks to the action of the  
frost will serve as a consider-  
able check to the weeds in cases  
where they are not killed out-  
right. Where it is desirable to  
collect and burn creeping root-  
stocks this can be more readily  
accomplished where the ground  
has been pulverized by the  
frost and snow of winter.

In case of annual weeds these  
are of two classes from the  
point of view of their life-his-  
tory. One group requires a  
resting period before the seeds  
will germinate and this holds  
good even if the conditions  
with regard to moisture and  
temperature are suitable.

These normally germinate in  
the spring of the following  
year after they are shed, but  
in many species the germina-  
tion can be delayed for several  
years if the seeds are buried to  
a considerable depth in the soil.  
'This is there of such species as  
Wild Oats and Wild Mustard.

Each time the surface of the  
ground is disturbed some of  
these buried seeds will even-  
tually become clear of them.  
In another group of annual  
species known as Winters An-  
nuals, the seeds germinate im-  
mediately after they are scat-  
tered and pass the winter in  
the form of a small seedling  
plant which survives under  
the snow and resumes growth  
in the following spring. Be-  
longing to this group are the  
following weeds:-Chess, Purple  
Cockle, Night-flowering  
Catchfly, Stinkweed, Shep-  
ard's Purse, False Flax, Ball  
Mustard, Wild Radish, Hare's  
Ear Mustard, Tumbling Must-  
ard, Peppergrass, Wormseed  
Mustard, Corn Cromwell,  
Blue Bur or Stickweed, and  
Stinking Mayweed. It is in  
the case of these weed that  
autumn cultivation is specially  
desirable as if they are turned  
under with the blow and cover-  
ed sufficiently deeply, very few  
of them will be able to con-  
tinue their growth after the  
snow melts.

Help The Boys "Over There"  
By Saving Gasoline  
The Allies need gasoline.  
Waste none of it on Sunday

all motor car owners to com-

The safety of the State being  
the supreme law, personal en-

time. To save gasoline is to  
save money. It will also en-  
sure a more adequate supply of  
"gas" for the needs of our war

essential. To comply with the  
Fuel Controller's request will  
save \$150,000 on a single Sun-

save hundreds of thousands of  
gallons. A word to the wise  
motor car owner is sufficient!

do me any good. A  
friend advised me  
to take Lydia E. Pinkham's Vege-

Why will women drag along from day

such misery as did Mrs. Courtney, when  
such letters as this are continually being  
published. Every woman who suffers  
from displacements, irregularities, in-

**Nova Scotia's Stake in Forest  
Protection**

In practically all parts of  
Canada, the immediate incen-  
tive to forest protection re-  
forms has been a series of dis-  
astrous forest fires. Nova  
Scotia's unfortunate experience  
this summer will probably  
bring about a provincial system  
of fire prevention such as On-  
tario, Quebec, New Brunswick  
and British Columbia have al-  
ready put into effect with  
splendid results. There was  
lost this year probably one  
hundred times the cost of a  
wideawake provincial forester  
who could co-ordinate the  
work of the municipal guard-  
ians and carry on valuable  
educational work at the same  
time.

Nova Scotia is now the only  
Canadian province having con-  
trol of forest resources which  
has not inaugurated modern  
methods of forest protection.  
New Brunswick introduced a  
new and thorough system last  
year, which all classes of citi-  
zens already hail as a sensible  
advance in the interest.

Public feeling in Nova  
Scotia has been so aroused over  
the forest fire losses this sum-  
mer that any Government ac-  
tion securing the appointment  
of a skilled Provincial Forester  
having authority to organize  
and direct the present fire  
guardian machinery along  
more effective lines would be  
certain of generous support.

**Harvesting and Storing

(Experimental Farms Note)

While vegetables have been  
harvested continuously in  
many gardens in Canada since  
radish and spinach were ready  
for use in early spring, the  
time has come when the bulk  
of the crop must be gathered  
to escape hard frost.

As beans discolour and  
mould very readily, it is im-  
portant to dry them as soon as  
possible, and to keep them dry.  
They should be spread out  
thinly under cover, and turn-  
ed every two or three days  
until quite dry. If it is neces-  
sary to harvest the plants be-  
fore they are thoroughly ripe  
they can be hung up outside  
until dry.

There will be many potatoes  
which will not ripen before the  
plants are killed by the frost.  
If the fully-grown green speci-  
mens are picked before being  
frozen, and each specimen  
wrapped in paper and stored  
in closed boxes, they will be  
found, from tests made at the  
Experimental Farm, to ripen  
better than by exposing them  
to the sun. Even if put into  
closed boxes without wrapping  
each specimen, they ripen  
well.

Frequently cauliflowers are  
just beginning to head when it  
becomes necessary to harvest  
them owing to severe frosts.  
If the plants are pulled and re-  
planted in boxes in the cellar,  
and kept watered, they will go  
on developing, and one can  
have cauliflower for some  
weeks. Brussels sprouts can  
also be replanted in this way.  
Both of these vegetables may,  
however, be left in the ground  
for some weeks yet.

If cabbage begin to split  
and it is not yet time to har-  
vest them, the splitting will be  
prevented to some extent by  
twisting the plants so as to  
loosen them. This checks the  
flow of sap into the head. If  
the cello is warm and dry, and  
the cabbage have to be harvest-  
ed owing to the frost, they will  
keep well for a time outside if  
covered with leaves.

Where the accommodation  
is poor, celery may be kept  
outside in the soil well into  
the winter by opening a trench  
preferably a narrow one fifteen  
or sixteen inches wide, and  
deep enough so that the tops  
of the celery will come about  
level with the surface of the  
ground. The celery plants are  
put close together in it, and  
before there are severe  
frosts, a thin layer of straw or  
leaves is put over the top.

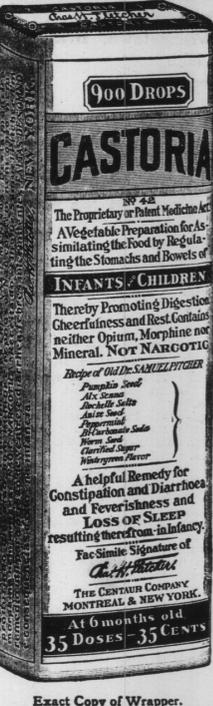

When the cold weather comes  
a heavier covering of leaves  
may be put over, if it is desir-  
able to leave the celery  
longer, and then twelve  
to fifteen inches of soil  
over that. By putting suffi-  
cient leaves or straw over the  
soil again, frost may be kept  
out, and the celery dug out as  
required.

In harvesting potatoes, any  
which show signs of decay  
should be kept separate from  
the rest, and used first, thus  
helping to avoid the develop-  
ment of rot when stored.  
Potatoes should be dry when  
they are stored.  
Keep onions dry, spread  
thinly. Squashes, pumpkins  
and ciccrons should be kept in  
a moderately warm, not a  
cool, place.

**Take the Long View**

"It is more than ever necessary to  
take the long view." Sir William  
Goode, of the British Ministry of Food,  
told the Consumers' Council in refer-  
ence to food production. "Food Pro-  
duction," he said, "must be kept up to  
the highest possible quantity. Cheap  
prices today, if it means less food or  
no food tomorrow, is a fool's ben-  
efaction."

It is almost as difficult for some  
women to get their hats on in the  
evening as it is for the men to get  
theirs on in the morning.

**Different  
Kinds of  
Heat**

Your furnace should not  
only give you plenty of  
heat, but the right quality  
of heat.  
Some houses would be  
better without any heat  
than the kind their fur-  
naces give them.  
If you study the Sunshine  
Furnace you will know  
what the right kind of heat  
is and how to get it.

Y. M. C. A.

E. J. Arnot, Halifax, has  
been appointed head of the  
Maritime Provinces Division of  
the new Y. M. C. A. Town  
and County Department  
whose objective is a widespread  
constructive welfare work for  
boys and young men in the  
rural communities. A Sec-  
retary will be appointed in each  
county to work in close coop-  
eration with the Ministers and  
teachers, and who will organ-  
ize Boy Scout Corps, Agricul-  
tural Clubs for boys and girls,  
and Pig Clubs. Boys' Confer-  
ences and Summer Camps will  
also be held at various points.  
An outstanding feature of  
the new Department's activi-  
ties will be the promotion of the  
Canadian Standard Efficiency  
Training for boys in their teens.  
This program which aims at

inculcating high deals of Chris-  
tian citizenship, bears the  
"Made in Canada" mark, and  
its excellence is such that it has  
been adopted on a very large  
scale in the United States.  
It teaches the basic value of  
four things, the home and com-  
munity, the church, the school  
and personal health and habits.  
The Department will also  
feature games, demonstrations  
in school grounds and will  
hold an annual Union Play  
Day for each county.  
Mr. Arnot was for four  
years a highly successful  
County Secretary in Lenawee  
County, Michigan, and he  
brings to his new field in the  
Maritime Provinces a trained  
enthusiasm that will repeat  
his success here.  
If a man's first love is himself, he  
never finds a satisfactory successor.
