Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

- Coloured covers/  
Couverture de couleur
- Covers damaged/  
Couverture endommagée
- Covers restored and/or laminated/  
Couverture restaurée et/ou pelliculée
- Cover title missing/  
Le titre de couverture manque
- Coloured maps/  
Cartes géographiques en couleur
- Coloured ink (i.e. other than blue or black)/  
Encre de couleur (i.e. autre que bleue ou noire)
- Coloured plates and/or illustrations/  
Planches et/ou illustrations en couleur
- Bound with other material/  
Relié avec d'autres documents
- Tight binding may cause shadows or distortion  
along interior margin/  
La reliure serrée peut causer de l'ombre ou de la  
distortion le long de la marge intérieure
- Blank leaves added during restoration may  
appear within the text. Whenever possible, these  
have been omitted from filming/  
Il se peut que certaines pages blanches ajoutées  
lors d'une restauration apparaissent dans le texte,  
mais, lorsque cela était possible, ces pages n'ont  
pas été filmées.
- Additional comments:/  
Commentaires supplémentaires: [Printed ephemera] [4] p.

L'institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

- Coloured pages/  
Pages de couleur
- Pages damaged/  
Pages endommagées
- Pages restored and/or laminated/  
Pages restaurées et/ou pelliculées
- Pages discoloured, stained or faxed/  
Pages décolorées, tachetées ou piquées
- Pages detached/  
Pages détachées
- Showthrough/  
Transparence
- Quality of print varies/  
Qualité inégale de l'impression
- Includes supplementary material/  
Comprend du matériel supplémentaire
- Only edition available/  
Seule édition disponible
- Pages wholly or partially obscured by errata  
slips, tissues, etc., have been refilmed to  
ensure the best possible image/  
Les pages totalement ou partiellement  
obscures par un feuillet d'errata, une pelure,  
etc., ont été filmées à nouveau de façon à  
obtenir la meilleure image possible.

This item is filmed at the reduction ratio checked below/  
Ce document est filmé au taux de réduction indiqué ci-dessous.

10X	14X	18X	22X	26X	30X
			/		

12X                  16X                  20X                  24X                  28X                  32X

The copy filmed here has been reproduced thanks to the generosity of:

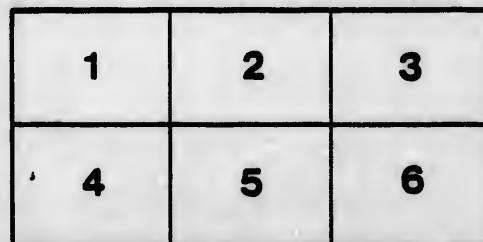

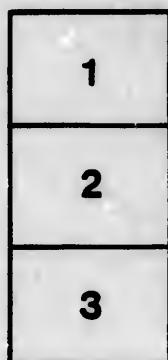

D. B. Weldon Library  
University of Western Ontario  
(Regional History Room)

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ▽ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

D. B. Weldon Library  
University of Western Ontario  
(Regional History Room)

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▽ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

THE LITTLE GIANT

# STEAM COOKER

HOUSEHOLD NECESSITY

To every Family using it.

## Cooking by Steam.

THE BEST AND PUREST HEAT, saves time, space, labor and fuel.

SAVES the food and renders it more palatable, more wholesome, and more nutritious.

ALL THE NUTRIMENT is retained in it.

SCORCHING OR BURNING is an impossibility.

Can be used on any kind of stove. Heat sufficient to make water boil being all that is required to cook four, five, or more different articles at the same time, without imparting the flavor of any to the other.

CABBAGE, ONIONS or FISH, may be cooked at the same time with rice, custard, &c., and none will in the least taste of the other. Potatoes should be cooked in a dish having perforated bottom.

COOKS meat, fowl, &c., perfectly tender in much less time than in the usual way, besides retaining all the juices, Rice, Porridge, Corn Starch, Custard, Milk, Oysters, &c., with no possibility of burning. Keeps food hot and perfectly fresh for hours, without injuring its flavor or drying it up.

No smell of food is experienced while using the Cooker.

## To Lovers of Good and Healthy Cooking.

The amount of food actually saved, by cooking with my Steam Cooker, that either burns or boils away or evaporates, by the ordinary methods, will pay many times its cost in a year, to say nothing of the superiority in appearance and flavor and as a nutriment.

## Oat Meal, Cracked Wheat, Whole Wheat

Graham Flour, Corn Meal, Farina, Rice, Beans, Hominy, Pearl Barley, in all their newly-devised variations, are among the cheapest, most healthy, and delicious articles of food, and are now found, daily, on the tables of both rich and poor. By the ordinary methods of cooking they are often scorched and spoiled, but the *safety, ease and perfection of preparing them in this Steam Cooker, make it invaluable*. No sticking or burning to the kettle. The grain comes out whole and beautiful.

## Brown Bread.

Graham, Indian and Boston Brown Bread, cook beautifully in it.

## Steam Puddings.

Try one in the Little Giant Cooker, and we are confident you will not go back to the old method.

## Corn Starch.

Custard, and all dishes prepared in milk and water, are cooked with absolute safety and delicacy. Meat, fowl and fish, are cooked without exposure to the air or water, thus preserving all the flavor and juices.

---

## EXPLANATION.

---

In the cut **A** represents the outer vessel of Cooker, a portion of the side being removed to show a part of the inside. Near the bottom, (which may be straight or in the form of a tea-kettle bottom) is a partition, through which holes are made for the passage of steam from steam chamber, **C**, into cooking chamber above it, where it comes in direct contact with the dishes **E** and **B**, containing articles to be cooked. The dishes **E** are held in position by a frame, which can be lifted out of vessel **A**, and replaced at pleasure. As the holes through partition are not of sufficient capacity to allow the steam to pass into cooking chamber as rapidly as it is generated, it becomes superheated by partial confinement in chamber **C** and enters cooking chamber very hot and dry to do its work.

By the use of frame, several dishes can be cooked at the same time. When cooking, a space should be left between the surface of the water and upper part of partition, which space forms steam chamber **C**. The Cooker may be made of any desired shape or size. Preferable size of vessel **A**, (exclusive of cover,) is 14 inches high by 12 in diameter, which will be found large enough for most any private family. In this size partition will be 3 inches high, and dish **E**, 2½ inches deep, leaving a space of 8½ inches between partition and dish **E**. The operator can see when the water is getting low by looking in the small attachment near the bottom, which can be replenished by pouring a small quantity therein from a tea-kettle spout. After using, the partition should be removed from vessel **A**, the water emptied, and the whole made dry, to prevent corroding.

To guard against infringements I require all my agents to solder on every Cooker a brass label similar to the form at the side of this. Any person making, selling or using, a Cooker without my label, will be prosecuted for infringement.

FISHER'S  
STEAM COOKER,  
Patented 1884.  
CLINTON, ONT.

## TESTIMONIALS.

As the construction of the Steam Cooker will be easily understood, and its value will be so apparent to all who read this Circular, I subjoin extracts from only a few testimonials, all of which are perfectly reliable:

MR. A. S. FISHER,

Your Steam Cooker is an unqualified success. The food cooked in it is never burned, and always better flavored than when cooked by other means. Meat is more thoroughly and uniformly done, and the flavor richer. For porridge and puddings of all kinds it is also the perfect thing. I heartily commend it to every one for its economy of food, and its convenience and comfort.

MARTHA W. CAMPBELL,  
Wife of Rev. T. M. Campbell  
Methodist Parsonage, {  
Goderich, July 2, 1884.

MR. A. S. FISHER.

Having used your Steam Cooker in the family for some time, I have great pleasure in bearing testimony to its merits. We find it very useful.

JAMES CASWELL.  
Anburn, July 3, 1884.

MR. A. S. FISHER.

I am very much pleased with your Steam-Cooker. It surpasses my expectations altogether. It saves work and improves the flavor of all food cooked in it. I could not be induced to part with it if I could not get another. Every family should have one.

Mrs. W. DONNERTY.  
Clinton, Sept. 15, 1884.

MR. A. S. FISHER.

I take pleasure in certifying that I am delighted with your Steam Cooker, and could not be induced to part with it, as it has become a household necessity. It saves time, work and fuel, and imparts a richness and relish to all kinds of food not to be obtained when cooked by the old methods.

Mrs. W. S. HARLAND,  
Wife of W. S. Harland, of the  
firm of Harland Bros.  
Clinton, July 21, 1884.

MR. A. S. FISHER.

I scolded my husband when he brought home one of your Steam Cookers, thinking it of no use, but after thoroughly testing it, I could not be induced to part with it. I am very fond of my cup of tea, but would sooner give it up than to part with the Cooker. Every family should have one.

Mrs. JOHN ELLIOTT,  
Wife of J. Elliott, farmer.  
Goderich township, July 24, 1884.

MR. A. S. FISHER.

The Cooker you sent me is too small. I have sold it. Please send me a larger size. I feel quite lost without it. The work of cooking with it seemed like play. Will you kindly send one immediately.

Mrs. A. BENN.  
Montreal, Sept. 9, 1884.

RETAIL PRICE OF THE ABOVE SIZE EACH.

75

## TERMS TO MANUFACTURERS.

I send to order, a sample Cooker, at retail price, but if the party ordering buys from me the required number of patent labels (which are 50 cents each) to secure the exclusive right to manufacture in his town, I deduct the price of Cooker from the amount charged for labels.
