MORE GAINS FOR THE ALLIES

SIR JOHN FRENCH Reports That Two Lines of German Trenches Have Been Taken and He is Now Fighting for Third, and Has Taken 3000 Prisoners—French Gain Ground at Souchez and Massiges and Attack German Second Line—Heavy Artillery Duel in Argonne—Next Attempt for Decisive Victory Will Be Easier—Russians Report Success in Four Battles on Eastern Front.

MORE BRITISH GAINS

Having Taken German Second Line, Sir John French is After Third Line of Trenches—More Than 3000 Prisoners Captured, With 21 Guns and Forty Machine Guns.

LONDON, Sept. 29, 12.16 a.m.—An official communication made public, dealing with the operations in France Tuesday, says that in the heavy fighting around Loos the British have taken exceptionally strong German lines of trenches and bomb-proof shelters several hundred yards in extent. Having taken the German second line, the statement says, the British are now after the third line of trenches. In all, more than 3000 prisoners have been taken, and 21 guns and forty machine guns have been captured and others destroyed.

total number of guns captured by us is now 21. There are several more between us and the enemy which have been abandoned by him. "Our number of prisoners now exceeds 3000. "The number of machine guns captured is 40. Many more have been destroyed by our bombardment. "The enemy's lines taken by us are exceptionally strong. They consist of a double front line which included two large works named by him the Hohenzollern and Kaiser William redoubts. These consisted of a network of trenches and bomb-proof shelters several hundred yards in extent. The second line ran just west of Loos. "We are now closely engaged with the enemy's third line. "Our aeroplanes today bombed the railway line near Betaume, wrecking a train. They also damaged the railway near Achiet-le-Grand (Pas de Calais).

ALLIED LOAN OF HALF BILLION IN U.S. ARRANGED

Issue on Five Year Five Per Cent. British and French Bonds. TO SELL BELOW PAR

NEW YORK, Sept. 28.—The agreement between the Anglo-French financial commission and the American bankers with whom they have been conferring over the proposed credit loan to Great Britain and France has resulted in the formation of a definite plan, it was officially announced here tonight for the establishment of a \$500,000,000 loan issue on five-year, 5 per cent. joint British and French bonds, payable jointly and severally by the two nations, upon which the big loan will be a first lien. The bonds will be issued to the public at 98, this yielding approximately 5 1/2 per cent. to the investor and to the nation-wide syndicate of bankers which will subscribe to the loan, at 96. Formation of the syndicate has been left to J. P. Morgan & Co. and a large group of American bankers and financial houses. "The bonds will be issued in denominations as low as \$100 and (Continued on Page 3, Column 1).

MORE PROGRESS IN CHAMPAGNE WHERE ALLIES GAIN STRENGTH

UNITED STATES GETS RID OF AMBASSADOR DUMBA

Formal Recall by Government Announced—Safe Conduct Being Negotiated for by Washington Government for Sailing Fifth of October.

WASHINGTON, Sept. 28.—Dr. Constantin T. Dumba, Austrian ambassador to the United States, has been formally recalled by his government, and the state department is arranging with the British and French embassies here for his safe conduct on a steamer sailing from New York Oct. 5. This announcement was made today by Acting Secretary of State Polk, after receipt of a cablegram from Ambassador Penfield at Vienna, telling of his conversation with Austrian officials, and a message from Dr. Dumba himself asking safe conduct in accordance with the instructions from his government. The incident is now considered closed.

The Second Line of German Trenches is Being Attacked, and Next Move by French and British Will Be Made Easier, Because Enemy's Lines of Communication Are Now Dominated.

LONDON, Sept. 28, 9.05 p.m.—In Champagne the French are attacking the German second line of trenches and are making further progress, but seemingly the allies' offensive movement is not being carried on with the same impetuosity that characterized the first two days of the operations. The successes won are recognized as very important, but the main object, which is to break thru the German lines, has not yet been accomplished. Both the British and French have greatly improved their positions and by gaining the hills and crests from which they can dominate the German lines of communication, their next attempt to secure a decisive victory should be made easier to carry out, in the view of experts here.

ENTIRE REGIMENTS WERE WIPED OUT SAY GERMANS WHO SURRENDERED

Enemy's Lines Were Smothered in Dust, Their Parapets Melted Away and Barbed Wire Entanglements Disappeared.

LONDON, Sept. 28.—(8.55 p.m.)—Reuter's correspondent at the British headquarters in France, in a description of the bombardment which preceded Saturday's attack on the Germans, says: "The German lines became smothered in dust, their parapets melted away, and their barbed wire entanglements disappeared. Those sleeping thirty or forty miles away were awakened by the dull rumbling, while even at that distance the displacement of air was clearly felt. "At the outset the weather prospects were not favorable, but before midnight a change set in and the morning broke dull but fine, with a slight mist, which was reminiscent of the opening days of the Aisne and Neuve Chapelle. "Most of the German prisoners were taken in the village of Loos. The village was surrounded on three sides and the Germans were forced to surrender when their ammunition ran out. They said their losses had been very heavy, entire regiments having been wiped out."

The battle of Champagne is over a 16-mile front, where the French are attacking and who now are within less than two miles of the railway which crosses the country behind the German positions and which has been so useful to them in moving troops and supplies to threatened points. With the French guns within easy range the railway is rendered useless. As usual, there is a great diversion between the German and French official account of the battle. The Germans claim that all the French attacks have been repulsed and that a number of prisoners have been captured. It is the same with regard to the crown prince's offensive in the Argonne. Whereas this is described by the French as an important action, the Germans say it is a minor one, designed to improve the situation, and that the desired result has been achieved.

FRENCH GAIN MORE GROUND AT SOUCHEZ AND MASSIGES

Heavy Artillery Action in Argonne May Be Forerunner of Another French Advance.

PARIS, Sept. 28, 10.30 p.m.—The French troops, fighting on the western front, have made further gains of ground east of Souchez and north of Massiges, the prisoners taken including Germans recently brought back from the Russian front, according to the official communication by the French war office tonight. A heavy artillery action is in progress in the Argonne. The text of the statement follows: "During the day of Sept. 28 our troops continued to gain ground foot by foot in the direction of the ridges to the south of Souchez. We took about 100 prisoners, among whom were men of the Guard Corps brought back a few days ago from the Russian front. "In Champagne likewise new progress has been realized, particularly to the north of Massiges, where we have made an additional eight hundred prisoners. "The enemy has directed against our trenches in the Argonne a violent bombardment to which we have efficaciously replied, but he has attempted no infantry action. "Engagements with grenades have enabled us to regain some parts of our first line, where the enemy had maintained himself since yesterday. "There has been intermittent cannonading in the forest of Le Pretre and in the region of Ban de Sept."

On the Russian Front. There has been no cessation of the heavy fighting on the Russian front. From Riga down to Galicia the armies are contesting every inch of ground, and at least four separate battles are in progress. Field Marshal Von Hindenburg has resumed his effort to deny him so many times. The Germans announce that the Russians have been driven from two successive lines of trenches to the southwest of Dvinsk. Except for Field Marshal Von Mackensen, who is held in the Pripet marshes, all the German generals report advances, even Gen. Von Linsingen, whose army was rather roughly handled by the Russians in Volhynia, having, with the aid of strong reinforcements, been able to take the initiative again. In addition to recapturing Lutsk, he has crossed the Stry River below that fortress.

In Galicia the Russian General Ivanoff is still holding the Austrians back and is himself gaining ground. Montenegro, the smallest of the allied nations, is taking a hand in the general attack on the central powers. She has launched an energetic offensive, according to an unofficial telegram which secured for her the possession of some Austrian positions. Sir Edward Grey, the British foreign secretary, in the house of commons today made statements concerning the Balkan situation which should tend to clear the atmosphere. While saying that Bulgaria had assured the powers that she had no aggressive intentions against her neighborhood states, Sir Edward took occasion to say that country that any aggression would bring to the assistance of any friend of the allies attacked the whole power of the British Empire. The enthusiasm with which the Greeks are answering the call to mobilization is considered in London as also being likely to affect the Balkan situation.

HIGHLANDERS TOOK PART IN ADVANCE

Batch of Wounded from Sunday's Fighting Arrives at Shorncliffe.

NO CANADIANS IN IT?

Third Brigade Held Trenches Near Where Stubborn Fighting Took Place.

Canadian Associated Press Cable. LONDON, Sept. 28.—Queen's Canadian Hospital at Shorncliffe received the first batch of wounded who participated in the British advance Saturday today. The medical staff had expected the arrival of Canadians. The newcomers consisted of men of Scottish and English regiments. None of these could say positively whether the Canadians were engaged, but the third brigade, said one of them, was in the trenches near one point where stubborn fighting took place. There is ample evidence that several Scottish regiments were in action. "Having carried three trenches, the Scots met the Germans in the open. "The Germans," said one Highlander, "appeared to be fearful of the bayonet, and many were very ready to surrender. They put up a fight to check the British advance and there was a terrible fire of German guns, which had been placed in houses, but our onslaught was too great. "Come on boys, nothing can beat ye," shouted our sergeant, who had taken the place of a wounded officer. "We took the village and afterwards the hill."

BIG WAR VOTE PASSED BY FRENCH CHAMBER

Billion Two Hundred Millions Granted for Campaign Till End of Year.

PARIS, Sept. 28, 2.17 p.m.—The senate today passed the bill already approved by the chamber of deputies, providing the sum of 2,240,000,000 francs (\$1,248,000,000) for national defence for the last three months of this year. During the discussion of the bill the minister of finance, M. Ribot, said: "We are preoccupied with England in obtaining a certain stability of negotiations with America, which will permit us to improve the situation as to exchange, and I do not doubt that America will give evidence in real form of its unquestioned sympathy."

GERMAN WAR CAPTIVES REACH SOUTHAMPTON

Three Hundred Men, Mostly Young, in Good Condition, Sent to England.

SOUTHAMPTON, Sept. 28, 9.06 p.m.—Three hundred men, the first detachment of the German prisoners captured by the British in the last battle on the western front were landed here today. The majority of them are young men in good physical condition and well clothed, although much bedraggled and otherwise showing the effects of the severe ordeal which they had undergone.

GERMAN GUARD CORPS ON WAY TO FLANDERS

Big Withdrawal Made From Tenth Army in Vicinity of Vilna.

LONDON, Sept. 29, 3.15 a.m.—A despatch to The Times from Petrograd says: "The military critics here note the almost instantaneous relief on the Russian front between Dvinsk and Osmiana on the resumption of the offensive by the allies in the west, which resulted in the withdrawal of the whole German Guard Corps from Vilna. They expect this transfer to be followed by others of a like character. "This relief was welcome, as Gen. Von Eichhorn's thrust across the Russian communications in the region of Molodechno was still serious and its danger to the Russian retreat not entirely ended. "The Novo Vremya's military critic expresses the belief that the Germans will be obliged to withdraw a complete army from this front for the western front to repair the losses they already have sustained. "Gen. Kurapatkin has been appointed to command an army corps."

PRODUCTS OF PACKERS SENT TO PRIZE COURT

Fats and Oils Discovered Not Consigned to Netherlands Overseas Trust.

LONDON, Sept. 28.—The cargo of packers on the Norwegian steamer Vitalia, from New York Aug. 19 for Rotterdam, was thrown into prize court today, notwithstanding the fact that the goods were consigned to the Netherlands Overseas Trust. The British Government contends that there were fats and oils in the cargo which were not consigned to the Netherlands Trust.

RUSSIANS ADVANCE IN TARNOPOL AREA

Occupy Trenches in Village of Marianka and Progress to Southwest.

GAIN ON NAROTCHE

German Offensives Checked Near Vileika and Southwest of Osmiana.

PETROGRAD, Sept. 28, via London.—The war office communication issued today says: "In the regions of Riga and Dvinsk there is no material change in the situation. The artillery fire in the Dvinsk region has not slackened and the fighting continues with the same fierceness as previously. We have repulsed an enemy offensive in the Narotche River valley in the region of Vileika, east of Osmiana, the Germans succeeded in carrying the village of Lascortz from which, however, we subsequently dislodged them. Stubborn enemy attacks have begun again at this point. At many places the enemy still shows extraordinary artillery activity. On a sector containing a single regiment in this region there were thrown yesterday no less than 10,000 projectiles from heavy guns. "A violent battle is being fought in the region of Litvy, a village southeast of the Baronovitch railway. "South of the Pripet River and on the Galician front the enemy has opened an attack at many places with considerable forces. At the fords of the Stry in the Kolkid region many engagements have occurred with enemy detachments. After a stubborn bayonet fight we occupied trenches in the village of Vorobievka, northwest of Tarnopol. In the region of the village of Marianka, southwest of Tarnopol, the unexpected appearance on their flank of a small Russian detachment threw a German battalion into panic."

AUSTRIANS CHECKED ON BANKS OF DRINA

Serbian Artillery Foils Two Attempts of Enemy to Cross River.

NISH, Sept. 27, via London, Sept. 28.—An official report issued at the war office says: "Two attempts of the enemy to cross the River Drina on the night of the 25th under a heavy artillery fire were repulsed, one in the direction of the Ratcha custom house and the other near Vlahograd, Bosnia."

ALLIES ADVANCING MESSAGE FOR LIEGE

Aviator Dropped French Flags and Proclamations in Belgian Town.

LONDON, Sept. 28.—A despatch to the Exchange Telegraph Company from Amsterdam says: "An aviator flew over Liege yesterday, coming from the south and threw down into the city French flags and documents, containing proclamations announcing that the allies were advancing and calling upon the populace of Liege to keep up their courage. Altho subjected to a heavy fire, the aviator escaped. "This is the first visit of an airman of the entire allies to Liege since the fall of the city, and his appearance is described as greatly cheering the Belgians there."

TRENCHES OF BELGIANS BOARDED BY ENEMY

Distinctive Retailery Fire Answered German Artillery Discharges.

PARIS, Sept. 28.—The Belgian official communication issued tonight reads as follows: "The bombardment continues of our advanced trenches to the south of Neupport, of our principal lines in the neighborhood of Dixmude and Oudecapelle and of our trenches in the direction of Noordschoote and more to the south. We have replied by a destructive retailery fire. There has been no infantry action."

DINEEN'S REPAIR FURS

Comparatively few people realize that with a few alterations and repairs furs which may seem worn out can be put into good order and re-modelled in the latest style. The W. & D. Dineen Co., Limited, 140 Yonge street, have a special department in their factory for work of this nature. Only expert fur cutters and tailors are employed. This is the best time to have your furs fixed up. Bring them in and we will cheerfully give you an estimate of the cost. Take along to the second floor. Fashion charts showing the latest styles for your convenience. Dineen's, 140 Yonge street.

U.S. ASKS RESIGNATION OF MUNICH MINISTER

Thomas Sh. John Gaffney Made Partisan Utterances on European War.

WASHINGTON, Sept. 28.—Thomas Sh. John Gaffney, American consul-general at Munich, Germany, has been asked to resign his post because of partisan utterances on the European war. Officials today would make no announcement concerning the case pending receipt of word from Mr. Gaffney. The consul-general is understood to have made statements reflecting on the president's policy on the European war. He was once before the subject of controversy over expressions con-

ENTIRE GERMAN CORPS DROWNED IN FLOOD?

Petrograd Hears Report of Disaster to Enemy in Pinsk Marshes.

LONDON, Sept. 28, 3.15 a.m.—The Times Petrograd correspondent says: "A report which has been confirmed from a good quarter, is that the 41st German army corps was overtaken by the flooding of the Pinsk marshes, and being unable to escape nearly the whole of the corps perished."

ALLIED LOAN FOR U. S. A. ARRANGED

Announcement of Plan of Flo-tation Issued at New York.

TO SELL UNDER PAR Americans Will Obtain Nearly Five and a Half Per Cent. Interest.

(Continued from Page 1).

subscribers thereto may pay for them by instalments. Repayable in Cash. At maturity these bonds will be repayable in cash or convertible into 4-1/2 per cent. joint Anglo-French bonds, redeemable from 10 to 20 years thereafter by the two governments jointly and severally.

"I am now in a position to make an announcement as to our proceedings. The discussions between the Anglo-French financial commission and the American bankers have resulted in the formation of a definite plan for a loan to the British and the French Govern-ments, to be issued in this country on a broad and popular basis. The proceeds of the loan will be employed ex-clusively in America, for the purpose of making the rate of exchange more stable, thereby helping to maintain the volume of American exports."

"The plan contemplates the issue of \$500,000,000 5 per cent. five-year bonds, constituting a direct joint and several obligation of the British and French Governments, as regards both capital and interest. No other external loan has been issued by either of these governments apart from notes of the French treasury to a limited amount, maturing in six months. The bonds will be repayable at the end of five years, or convertible, at the option of the holder, into 4-1/2 per cent. bonds of the two governments, repayable not earlier than 15 years and not later than 25 years from the present time by the two governments jointly and severally."

"The bonds will be issued to the public at 98, yielding approximately 5-1/2 per cent. to the investor. The work of offering this loan will be carried out by a syndicate which J. P. Morgan & Co. and a large group of American bankers and financial houses will at once set about to form. This group will include representatives of the country and all members of the syndicate will be on precisely the same footing. This syndicate, whose business it will be to arrange that every investor should have an opportunity to subscribe to the issue, will contract to purchase the loan from the two governments at 98."

"It was announced that the bonds would not participate in the loan. Henry P. Davison, of the firm of J. P. Morgan & Co. has issued a statement on behalf of his firm which Sir Henry had concluded reading the Anglo-French commission."

"The commission has made plain by its statement that it has determined at this time to recognize investment conditions in America. It proposes to meet these conditions by issuing an amount which is without precedent, namely, the joint and several promise to pay of Great Britain and France. To this it has attached terms which means a yield to the investor of about five and one-half per cent. per annum and carry with them a conversion privilege which will allow the holder to convert the bonds into the normal conditions of the market. The interests of the investor are also recognized in the decision which the commission has arrived at as low as \$100 and to allow subscribers to make instalment payments for the loan. It is to be noted that as the commission has stated, this is an external loan free from all present or future English and French taxes."

"It is proposed by the commission that the proceeds of the loan be loaned so as in no way to disturb our own money market, and to that end the general plan will be to lease the cash realized from the bonds on deposit with banking institutions which become members of the syndicate through the United States. This proposed loan may in fact be considered as an arrangement made by American commercial and agricultural interests with their regular customers to accept deferred payments covering commodities purchased."

"The agricultural, manufacturing and financial interests of the country should welcome the opportunity to extend credit to any solvent customer where the extension of such credit furthers American trade. The normal export trade of this country to Great Britain and France runs into many hundreds of millions of dollars annually. To preserve such trade under the existing abnormal conditions, we believe the proposed arrangement is imperative, and accordingly we and the many banking institutions and financial houses that will be associated with us will act as managers without compensation."

"The two per cent. margin between the price which the issue will be offered to the public and the syndicate likewise will reimburse members of the syndicate if it is contemplated, for their expense in placing the loan on the market."

"How much of the proposed loan is to go to the credit of France and how much to the credit of Great Britain was not disclosed today."

KITCHENER'S ARMY TOOK PART IN FIGHT

British Troops Out of Trenches Before Daylight to Fight Enemy.

GERMANS QUITE DAZED

All Those in Dugouts Could Only Surrender Before Advance.

LONDON, Sept. 28.—Phillip Gibbs, telegraphing to The Daily Chronicle from British headquarters in France, vividly describes how the British won Loos. Telegraphing under date of Sept. 28, the correspondent says: "The battle began east of Vermelles, south of La Bassée Canal and in the plain of Lens. Our men were out of their trenches before daylight and at deadly grips with the enemy. They were advancing steadily over ground which was no longer barred to them impenetrably by the enemy's trenches upon which they had peered around sandbags and thru loopholes for many long months. Those trenches had been smashed and crumpled by our artillery fire and only in dugouts were there men still living, dazed by the intensity of the bombardment and stupefied into inevitable surrender."

"Fought Behind Wall. It is too soon yet to give any details of this heroic advance to the outskirts of Hulluch and thru the Villages of Loos to the neighboring minefields and slopes of Hill 70. No man saw the attack unless he took part in it and then only his own immediate environment. The battalions disappeared into the fog of smoke from shells and bombs of every kind. They fought behind a veil from which came only the noise of battle, and later the first stream of wounded."

"Of incidents, of casualties, of heroism which ignored the risk of death, nothing can yet be said, for the fighting is still in progress. Only in a few words one may say the essence of truth. The divisions engaged in the struggle yesterday fought with the spirit of men who knew the empire's life depended upon them and gave their own lives with noble generosity. Among them were battalions of the new army—Kitchener's men—who charged with a valor beyond words of praise and with a passionate courage which swept away all resistance, until the object had been attained and the sacrifice consummated."

"No Cessation in Cannonade. Today (Sunday), while the fight was in progress there was a brilliant sunshine and a cloudless blue sky for artillery observation. All day there was no cessation to the cannonade. Of the results nothing can yet be said until the commander-in-chief lifts the veil which hides them all. The result, however, was visible throughout the country, but a few miles from this massacre, Flemish citizens in Sunday clothes walked to their village churches to pray to God for victory, not knowing yet how many more widows there were, nor how many of their sons lay dead. Down the roads came a procession of ambulances filled with wounded. Most of them were sitting up—cases relayed quickly from first aid stations to make way for others. For the most part they smoked as they drove by, with bandaged heads and limbs, and only by the mud tracks did they seem to know that they would one day have guessed the things they had endured. The worst among them were had to see and made one curse again the spirit of war and all its hellishness."

"Prisoners Lay in Group. Another result of the fighting and a proof of the day's victory was seen in the files by the railway line, within sound of the battle. Fourteen hundred German prisoners were there, a great mass of slate gray men lying on the grass and awaiting internment. Nothing of hate could I find for them now; they were prisoners on our hands and nothing of hate was in their eyes for the few fresh-faced Tommies who stood on guard among them with fixed bayonets and herded them about."

Special to The Toronto World. GUELPH, Sept. 28.—The Officers' Training Corps at the Ontario Agricultural College got off to a splendid start when 210 of the 270 odd students at the college turned out today for the first drill. Capt. W. H. Day was in command.

GEN. MARCHAND WOUNDED. PARIS, Sept. 28.—Brigadier-General Marchand of Fashoda fame, who has distinguished himself several times upon the field in the present war, was wounded in the fighting in the Champagne district when the French forces took the offensive Saturday. The general was hit in the abdomen by a fragment of shell. His condition is serious.

GERMAN WARSHIPS FIGHT BRITISH SUBMARINES Heavy Firing Heard Off Southern Coast of Sweden Monday.

LONDON, Sept. 28.—Despatches from Stockholm today reported heavy firing off the southern coast of Sweden, early yesterday. It was suggested that the fog was so dense that sailing skippers could not see what was occurring, but it was believed German warships were engaged with British submarines, attempting to enter the Baltic.

REQUIRE SIX MILLION FOR PATRIOTIC FUND

Expenditure is Expected to Exceed This Sum Next Year. ASSIST MANY FAMILIES FORCES CONCENTRATED Four Million Already Expended—Increase Due to Recruiting.

By a Staff Reporter. OTTAWA, Sept. 28.—This year's expenditure of nearly \$4,000,000 from the patriotic fund is expected to be largely exceeded during 1916, when the expenditure is likely to go over \$6,000,000. This will be due to the rapidly growing number of men in the Canadian overseas forces and the corresponding number of families to be assisted. Campaigns are being organized all over the country to raise the necessary money. The recruiting has been so heavy in the west that even with the magnificent efforts being made by the people out there to raise funds to aid the families of these men who go to the front, they will be quite unable to raise enough, and some of the funds raised in the east will have to be used to make up the deficit. It will be remembered, however, that many of the men who won everlasting glory for themselves and their country at historic St. Julien were from western Canada.

In Alberta, where one man out of the west has contributed more than any other province, the results of the patriotic fund. Deduction From Salaries. The civil servants in Alberta have donated \$100,000 during the present year, and by act of parliament passed by the legislature in October, every civil servant in future will be subjected to a deduction each month of five per cent. from salaries up to \$125 per month, and ten per cent. over \$125 per month. All the money collected is divided between the north and south Alberta patriotic fund. Sir Herbert Ames, who will be back in Ottawa this week, has just returned from a tour in the Province of Alberta. He had at his disposal a special train, from which he addressed meetings of officials and municipal men, organizing the fund campaign after the manner of a political tour.

Two important gifts have been announced this week. The County of Bruce has decided to give \$4000 per month till the end of the war, and Huron County has agreed to give \$6000 per month for five months, and thereafter \$5000 per month until the termination of the war. SCORCE'S CLOTHES. A look at our ad on page 8 will convince you that we are equal to the occasion. BOHEMIANS BOTHERED. NEW YORK, Sept. 28.—The massacre of 4000 Bohemian troops, composing the 24th Bohemian Regiment, by their own officers for refusing to fight the Serbians was described by Ottawa, Sept. 28, 370 Lexington avenue, manager for Emmy Destinn, the Metropolitan opera singer. Mr. Bartlik, who obtained the information from a relative arriving in America from Bohemia a short time ago, vouches for its authenticity. C. P. R. EARNINGS. MONTREAL, Sept. 28.—The C. P. R. financial statement for August gives gross earnings at \$5,801,452; working expenses, \$5,353,137, leaving net profits of \$3,448,315. For the two months ended August 31 the figures are: Gross earnings, \$16,896,827; working expenses, \$10,454,109; net profits, \$6,242,718. In August 1914, the net profits were \$3,369,158, and for the two months ended 31st August, 1914, \$7,141,604.

SCHOONER LOST IN LAKE ONTARIO WITH FIFTEEN LIVES

Capt. McDonald, Wife and Crew Went Down With "Hoodoo" Vessel. WORST GALE IN YEARS Eyewitness of Tragedy Says It Was Impossible to Aid Cheboygan.

Special to The Toronto World. KINGSTON, Ont., Sept. 25.—In the terrific gale which swept over Lake Ontario Saturday night and all day Sunday, Captain McDonald, his wife and crew of three men lost their lives when the schooner Cheboygan, bound from Kingston to Buffalo with a cargo of coal, foundered at what is known as Nut Island, a very small island about four miles from Amherst Island. Those on board the schooner were: Capt. and Mrs. McDonald, William Younger of Kingston, Robert Milne of Port Hope and Jerry Lavis of Cobourg. The tragedy was witnessed by Joseph Bray, who lives on Amherst Island. He saw the schooner battling with the sea and saw her go down. Mariners state that the storm was the worst experienced in the lake in years and that no life boat could have been manned in such a storm. The story of the catastrophe was brought to the city this morning by Mr. Bray. He says that one spar of the boat is sticking up out of the water and that this is all that is left to tell the story of the wreck.

Beyond All Aid. The Cheboygan, a three-masted vessel, was owned by Captain McDonald, which was wrecked that was impossible to put out to save the crew, owing to the storm. When he first noticed the vessel, she was a misty about as if a mere toy boat. The schooner left Kingston about 9 o'clock Saturday morning, and at that time the weather was quite calm, with no sign whatever of a storm. The schooner was very heavily loaded, her bulwarks being but three feet above the surface of the water. Mr. Bray was watching her for a few minutes when he noticed the hull of the boat disappear and the three masts suddenly drop out of sight. When the storm eventually subsided, which was not until late night, just a small portion of one of the masts could be seen. Owing to the storm having cut off telegraph and telephone communication Mr. Bray was unable to send word of the wreck to Kingston until this morning. A representative of The World learned that the vessel was missing and every 27 hours enlisted in the search for the wreck to Kingston until this morning. A representative of The World learned that the vessel was missing and every 27 hours enlisted in the search for the wreck to Kingston until this morning.

Capt. McDonald lived in Toronto for some time and also resided in Owen Sound. He was a six-foot captain for many years, but this year took over this year, his wife-making all the trips with him. The Cheboygan, as a result of many mishaps which occurred on her, was known in marine circles as a "hoodoo" vessel. Two months ago, while on her way from Owen Sound to Toronto with coal, she ran into a bad storm and was given up for lost. This time, however, the schooner managed to get in some cove out of the way for shelter. Three times the vessel ran aground near Nine Mile Point. All the men drowned are well-known on the lakes, with the exception of W. Joyner. He was, until a few weeks ago, a conductor on the street railway here and only joined the boat when she cleared on Saturday last.

WILL NOT SERVE MEN IN UNIFORM WITH SPIRITS Ottawa Hotelmen Fall in Line With Other Cities in Ontario. By a Staff Reporter. OTTAWA, Sept. 28.—Following the example set by some other cities in Ontario, the staff of the 48 hotel-keepers in Ottawa have signed an agreement not to serve any person in military uniform on and after Friday, Oct. 1, with wines or spirits. The soldiers, however, will be served with lagers and ales. The suggestion came from the hotel-keepers themselves, who believed that the military authorities would approve of it. All the leading hotels have signed.

Big Order of Blankets. An order for \$6,000,000 worth of blankets has just been received in Canada from the Russian Government, and it is awaiting the acceptance of the Canadian mills. The Dominion's manufacturers are anxious to accept the new contract, but they are much pressed for time, owing to the war orders they are already engaged on. They will probably hold a conference to discuss the matter. That the war will end by the winter of 1916 is indicated by the quality of blankets called for in the \$6,000,000 order. For the manufacturers state that the quality is such that the blankets could not possibly last more than one winter. The government, which places an order of this kind, they think, can perceive the end of the war.

REAL Home Comfort Begins with Good Lighting.

INSURE your own comfort—and your family's—by looking over your lighting requirements NOW. For the long winter that's ahead we want to help you select the best light you have ever known. We have set apart this week for that purpose.

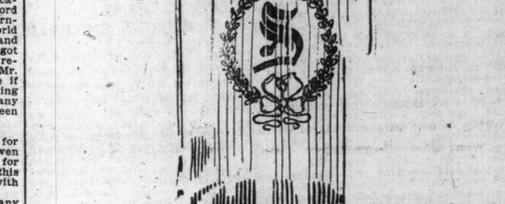

This is National Gas Lighting Week—

a week devoted to the solving of your lighting problems. Come to our office today. You will find there a display of the recent scientific developments in gas lighting that will surprise and delight you. Among the many lights on display you will find the one best suited to your needs. We are showing the very latest in Portables, Domes, Showers, Indirect Bowls, Bracket Fixtures—lamps for utility, lamps for decoration. You know that gas is the ideal, most useful light. Let us advise with you as to just what type of gas light is best adapted to your home.

WORLD READERS

who have been disappointed in obtaining a set of the sterling silver decorated Tumblers can now obtain them, as a big shipment has been received. Scores of women readers have applied for a second set after obtaining one of these dainty thin blown, silver inlaid and rimmed glasses.

In view of the uncertainty of obtaining an ample supply, applicants will be limited to two sets only, as The World is desirous that every reader have the opportunity to possess one. A single coupon clipped from another page, together with 59 cents, will enable you to obtain a set. Clip the coupon today. Distribution offices, 40 Richmond Street West, Toronto, and 15 Main Street East, Hamilton.

AGRICULTURAL COLLEGE RAISES MONEY FOR GUNS

Twenty-Five Hundred Dollars Subscribed by Staff at Guelph. Special to The Toronto World. GUELPH, Sept. 28.—Recently the staff of the Ontario Agricultural College started out with the idea of raising \$2000 as a contribution toward the purchase of machine guns for the Canadian forces. The money was promptly forthcoming, but pending consideration of a more general movement in the same direction, which might embrace the Ontario Department of Agriculture, was not forwarded until today. President Creelman has now forwarded a cheque for \$2500 to the receiver-general at Ottawa, to be used by the militia department in the purchase of machine guns.

SEVEN HORSES LOST IN FIRE AT RODNEY

Damage Five Thousand Dollars—Soldiers Winter in St. Thomas. Special to The Toronto World. ST. THOMAS, Ont., Sept. 28.—At an early hour this morning fire destroyed the garage, livery stable and barns of John McArthur at Rodney. Seven horses were found smothered to death. The loss is estimated at \$5000. It is believed the 70th Battalion will be stationed in St. Thomas this winter with splendid quarters in the Thomas Brothers' factory. Recruiting is going on at the rate of twenty men a day, which is most encouraging. The first company of the Eighth is now completely and the second company is rapidly filling up. These two companies consisting of 500 men will be attached to the 70th Battalion.

THE SCOTLAND WOOLEN MILLS COMPANY, LIMITED,

doesn't claim to sell the "cheapest" tailored suit or overcoat in Canada --it never did. But it does insist that \$18 is the lowest price you can get a serviceable tailored suit or overcoat for--and it has the testimony of almost the entire Canadian and British woolen industry to back it up. British woollens have risen in price. It is the purpose of this original one-price institution to give you the greatest \$18 tailoring value in Canada, and you can satisfy yourself they are most assuredly doing so if you will only look under the big signs in front of Toronto Arcade, 139 Yonge street. They have one price, one value, one service--BUT SUCH A ONE!--and an unflinching guarantee goes with each order.

TO SUPPLY PUREST OF DAIRY PRODUCTS

Farmers' Dairy in New Sanitary Building, Has Fine Plant.

BATHED IN SUNSHINE

Twentieth Century Sanitation and Hygiene in Use Here.

Bathed in sunshine, flooded with light, no dark corner to be found anywhere on the premises, the new headquarters of the Farmers' Dairy Company, Limited, on Palmer road, presents one of the finest illustrations conceivable of twentieth century sanitation and hygiene.

The building itself is remarkable for its absolute cleanliness, its white enameled walls, hardwood or cement floorings, with stone corners, its great glass surfaces, all defying dust collecting, and forming an impregnable barrier against the all-devouring microbe.

Established six years ago, the concern has far outgrown its earlier quarters and equipment, and the decision to develop in order to meet the demands of the present day has resulted in the erection of a dairy plant unequalled on the continent of North America in up-to-dateness of machinery and method.

When the milk reaches the vats above it goes into the heaters, where the temperature is at 142 degrees Fahrenheit, and in the big white and gold receptacles it is kept for that minute when pasteurizing is in progress.

The cold storage room in which everything is kept from the time it is ready for shipment until it is placed in the regions, is kept at a temperature of 24 degrees by means of the blast system, the cold air being drawn into the apartment by large fans and the warm air drawn out.

Today's Paris communique reads: "In the Argonne district we made advances yesterday evening, and last night we gained ground step by step in the directions of the hills to the east and to the southeast of Souchez."

Official Statement: "In the Argonne district we made advances yesterday evening, and last night we gained ground step by step in the directions of the hills to the east and to the southeast of Souchez."

BRITAIN NOW READY FOR BALKAN CRISIS

Bulgaria's Intention Believed to Be Amicable Towards Entente.

WILL DEFEND RIGHTS

Mr. Asquith Appeals for Cessation of National Controversy.

LONDON, Sept. 28.—Premier Asquith appealed in parliament today for a united nation, without factional disputes. A number of questions had been put to the premier relative to recruiting and national service, but he declared he could give no answers at this time.

It was then that the prime minister made this appeal: "I ask all sections of the house to abstain from pressing questions. The government's service cannot be hindered more at the present moment than by suggestions of a division of opinion upon this matter."

No Aggressive Intentions: "Our official information from the Bulgarian Government," said Sir Edward Grey, "is that they have taken up a position of armed neutrality to defend their rights and independence, and that they have no aggressive intentions whatever against their Balkan neighbors."

After making the categorical announcement that if Bulgaria should assume an aggressive attitude towards Great Britain's allies, the government would take action, Sir Edward continued: "We are, of course, in consultation with our allies on the situation, and I believe the view I express is theirs also; our policy being to secure an agreement in respect to the Balkan States which will ensure each of them not only independence, but a brilliant future, based on a general principle of territorial and political union and kindred nationality."

"To secure this agreement we recognized that the legitimate aspirations of the Balkan States must find satisfaction. The policy of Germany, on the other hand, has been to create for her own purposes disunion and war among the Balkan States. She made use of Austria-Hungary to precipitate the European war, with the result that empire is completely subordinated to Germany and dependent upon her."

Turkey Subordinated: "Turkey, whose interests would have been preserved if she had remained neutral, has been gratuitously forced by Germany into this war and is now being subordinated and made dependent on Germany in order to realize Germany's aspirations and influence from Berlin to Bagdad."

"In the same way, it would naturally be Germany's policy so to use any of the Balkan States, with the inevitable result that that state eventually would be subordinated to her and that, the territorial gains might be promised, she would lose her independence."

This is directly contrary to the policy of the allies, which is to further the national aspirations of the Balkan States without sacrificing the independence of any of them.

FRENCH HAMMER AT SECOND DEFENCES

The Dalton

THE Dalton Adding Machine, with only ten keys, does more than the old style machines with eighty or one hundred keys--and does it quicker. In fact, it is the fastest adding machine ever touched by the fingers of an operator.

In its operation there is no jumping from column to column—you simply depress the keys in the order in which the figures occur in the amount. The machine automatically places units under units, tens under tens, etc., without the operator giving the matter a thought.

The Dalton adds, subtracts, multiplies, divides, figures fractions as well as whole numbers, cross-foots, computes interest; figures costs, payrolls, charge sheets; pro-rates, verifies invoices, foots trial balances, checks postings, figures percentages and discounts, makes out monthly statements. In fact, the Dalton takes care of anything that comes under the head of figure work with ease, accuracy and dispatch, rendering a physical audit slip of the work performed.

The W. R. Brock Company, Limited, bought their first Dalton in 1912. They say: "We have had no trouble of any kind, although, owing to its adaptability, we make more use of the Dalton than we did of the machine which it replaced."

The Laurentide Paper Company, Limited, bought their first Dalton in 1912—several since then. They say: "Mechanically, it is a wonderful piece of work, and most reliable. The Dalton is the best machine we have ever used."

The Hydro-Electric Power Commission say: "The Dalton is all you claim it to be, and has never given the slightest trouble. The touch method of operation makes the work very fast, and relieves the strain due to the constant shifting of the eyes from paper to keyboard necessary on other machines."

THE Dalton is sold through our offices in all Canadian cities. Dalton users anywhere in the Dominion are assured of the same efficient service that goes with the Underwood typewriter.

IF YOU are interested in an adding and calculating machine—simpler, faster, of broader scope, and more efficient than any other you have seen—we are ready to show it to you in your own office. A request for a demonstration, or for literature, will receive prompt attention.

WEDNESDAY MORNING, SEPT. 29.

A Vital Question

Mr. Bryan's paper, The Commoner, declares that the question is more vital to the future of the United States than the establishment and maintenance of reasonable ocean freight rates. The United States Interstate Commerce Commission at the request of the president is now enquiring into the subject and will report before the next session of congress. The report will no doubt furnish Mr. Wilson with munitions of war to beat down the strong opposition to his ship purchase bill.

Ocean freight rates are not beyond all regulation, as many people appear to think. In war time they are quite within the control of Great Britain, whose extensive merchant marine is subject to requisition by the admiralty. In times of peace an international commission with powers like the railway commission's could be established by agreement between the leading nations. Each country can regulate ocean rates to some extent, especially where the railway companies of that country own ocean fleets and transport by land and sea. Perhaps the most effective regulator, however, is state competition.

That is why the Wilson administration is bent upon having ocean freights owned and controlled by the government. Those fleets will be designed primarily to serve Pan-American trade, but the possible extension of state-owned competition will at once strongly affect transatlantic rates. Just now of course abnormally high ocean freight rates are to be expected. A large number of ships have been commandeered by the admiralty and are serving as transports or auxiliaries. There are fewer vessels than formerly to serve the trade of the world and those still at the beck and call of commerce run the risk of capture and destruction. Under the circumstances ocean freight rates might have legitimately advanced 100 per cent, but nothing less than a cut-throat combine can account for their advancing 500 per cent.

The British merchantmen that carry our wheat across the sea at exorbitant rates will have to give up a considerable portion of their booty by way of a tax on war profits. That will be some consolation. But is not the tax really paid by the producer? Possibly the sequestered profits could be applied in some way to the relief of the Canadian grain grower by giving him a real preference over his American competitor in the British market.

The New Zealand Plan

New Zealand, the country where poverty is unknown, is successfully stimulating agriculture by extending credits to farmers. The government in 18 years has loaned \$65,000,000, and has cleared \$1,500,000. It borrows the money at 2 1/2 per cent and lends it to the farmers at 4 1/2 per cent. By simply repaying a sum equal to 6 per cent of the principal the farmer after 21 years, finds his land cleared and the entire debt paid off.

Government help of this kind would be of great value to the homesteader and the farmer of the Canadian west and to farmers in other parts of the Dominion as well. The principle has been admitted to some extent in this country, where the national credit has been used to supply the farmer with seed grain and other necessities. In 1907 the plan was worked so loosely that a great part of the money never came back to the treasury, and in 1915 the plan was edited upon to repay the true advance out of his first crop. True, now he has to pay only one-half out of his first crop, but would it not be wiser to have these dealings between the government and individual citizens conducted through an independent commission?

Everyone seems to agree that agricultural credit banks are a good thing. But deputations coming to Ottawa are referred back to their provincial governments, apparently upon the ground that such banks in Australia are state institutions. To our mind all banking is a federal affair in Canada, and we believe that something could be done to aid the farmer along the lines established in New Zealand. Possibly the finance min-

LIKE THE DEACON'S ONE-HOSS SHAY

'Twill go to pieces all at once.

ister should be authorized to rediscout with national currency farm mortgages discounted by the chartered banks. Such securities can be rediscouted in the United States under the Federal Reserve Bank Act.

However that may be, our present banking system does not extend to the farmer the credit he needs and ought to have. Hence the demand for the west for the establishment of small local banks. Those voicing that demand, however, do not explain how the unit banks can compete with the chartered banks which at present emit the currency of the country and regulate its volume. If our present banking and currency system is to continue substantially as it is, and has been since confederation, then relief for the farmer can only come thru the government lending him money directly after the manner of the New Zealand Government. Until the national government assumes the leadership of the banking business there is not likely to be any great extension of credit any more than there is likely to be any great expansion of currency. Relief to the farmer and business man alike, can be afforded, in our opinion, by the establishment of a national bank of issue and rediscout. The establishment of such a bank would liberate for investment the vast liquid reserves now hoarded by our chartered banks. It would also guard against that stagnation which comes periodically when the banks systematically shut down all credits, no matter what security is offered to them.

Canada is suffering from contracted currency and unduly restricted credits, and she fails to use the collective credit of the nation to establish and stimulate the legitimate business of the country. Not patchwork experiments, but a thorough overhauling of our entire financial system is the necessity of the hour.

Peace Not Ashamed of War

Four good Americans yesterday signed the register of those who wish the University of Toronto to delight in honor. It is no slight on his conferees to say that Hon. Joseph Hoche Choate stood out among them pre-eminently. Mr. Howland has made himself renowned as a publisher. Messrs. Osborne and Stewart have made themselves notable in the legal and business worlds. The absentees, Nicholas Murray Butler, president of Columbia University, and Alton Brooks Parker, once Democratic candidate for the presidency, did not find it convenient to be present.

Mr. Choate was equal to six in himself. His spontaneous and sparkling oratory, simple and buoyant as the fresh winds of morning, bore lightly a burden of weighty and noble thought. He was neutral, he said, nationally, speaking for himself, he declared that wherever men fought for liberty and justice and civilization, they had his full sympathy. He stily added his belief that ninety millions of his countrymen were in full sympathy with him.

He proceeded to recall his work at the last Hague Convention, when for four months, as he said, he sat "check by law with the Germans and the Austrians and the Turks and the other outlying nations." They had made rules and regulations and conventions and agreements, and there was not one of those agreements that had not been torn into shreds by the authors of the war since that time and east to the winds.

He commended the motto of his university, Harvard, which was "Veritas" as the one thing that was needed

BRITAIN SEEKS COAL MINERS IN CANADA

Commission Endeavors to Secure Men Out of Work in British Columbia.

By a Staff Reporter.
OTTAWA, Sept. 28.—The British commission sent to Canada to look into the possibility of securing unemployed miners in British Columbia to go to England to take the place of the vast number of British coal miners who have gone to the war, landed at New York and went right thru to Vancouver, where they arrived yesterday. The commissioners are Robert Baird, representing the mine owners, and T. Richardson, M.P., an official of the Coal Miners' Union.

As there are a large number of miners out of work in British Columbia, and they themselves enquired about the possibility of going to England to work, it is possible that a considerable number may be taken over.

Dr. Locke's New Map

We understand that the public librarian, Dr. George Locke, ever on the alert to sharpen the intelligence and understanding of the city, has ordered a relief map of Europe, which will be displayed in the reference library, preferably on a table under glass.

It is quite impossible for the layman to understand military strategy from ordinary maps. With a relief map on a proper scale it is seen at a glance why armies are driven to the plains to fight and why they do not wish to attain.

The line of least resistance becomes at once apparent, and the study of the war becomes less of a mystery than it otherwise must be.

The scale of the new map is 18 miles to the inch, and the relief 5000 feet to the inch. The size is five feet by three and it will doubtless be an object of much attention when it is installed.

DELIGHTED TO ACCEPT.

The Marchioness of Aberdeen has cabled to Mrs. Irvine, corresponding secretary of the Local Council of Women, that she will be delighted to accept the invitation of that organization to a reception, to be given in her honor, on the evening of Wednesday, Oct. 19. The marchioness and marchioness sail on the Adriatic on Sept. 29.

WILLS PROBATED

Probate has been asked in the surrogate court of the will of the late Lieut.-Col. Jeffrey Hale Burland, the Montreal millionaire, who died in London, Eng., while representing the Canadian Red Cross Society. The testator leaves a total estate of \$2,029,542. The assets in New Glasgow, amounting to \$140,694 and two life insurance policies amounting to \$28,887. The widow receives \$50,000 in currency, all the household effects and the choice of the testator's late residence on Sherbrooke street, or Pine avenue to Montreal. Sisters and numerous nephews and nieces also share in the estate.

By the will of the late F. A. Death, who died on Aug. 2, 1915, his widow will receive all his estate, amounting to \$12,515. His estate consists of an equity of \$4450 in 227 Wright avenue, mortgages \$4028, promissory notes \$3018, cash \$110, sixty shares of the stock of Desno, Watow, amounting to \$600, and household furniture of the value of \$300.

Application was made yesterday to the surrogate court for the administration of the estate of the late George Castle. The will directs that the testator's three children shall receive equal shares of the estate when they reach the age of 25. The estate has a total value of \$38,262. Mrs. Eleanor Castle will receive the proceeds from a \$3000 life insurance policy.

MUNITION FIRM DISPUTE SETTLED BY ARBITRATOR

Judge Coatsworth, Chairman of Board Which Ended New Glasgow Strike.

By a Staff Reporter.
OTTAWA, Sept. 28.—The dispute between the Nova Scotia Steel and Cast Iron Co. of Trenton, N.S., and the Eastern Car Co. of Trenton, N.S., on the one side and their employees on the other, has been amicably settled by the board of arbitrators, of which Judge Coatsworth of Toronto was chairman.

Some 8000 employees engaged on munitions of war were affected. The decision, which is understood to be a compromise, has been accepted by both sides.

WANTS GERMANS TO SWEAR FOR HIM

John Respa, Alleged Dynamiter, Will Try to Prove a New York Alibi.

CASES AT OSGOODE

Appeal of Houseboat Owner Against Liquor Fine is Dismissed.

Mr. Justice Middleton gave judgment yesterday at Osgoode Hall in the application of John Respa for an order directing that a commission be appointed to take the evidence of witnesses at Hoboken, New Jersey, who are declared to be material to the defence of Respa, who is charged with the Peabody explosion, and had tried to blow up the armories.

Charles Lefler, who is at present serving a ten year sentence on a dynamite charge, has stated that Respa accompanied his sister, Mrs. Karl Schmidt to the factory at which Lefler was nightwatchman and carried away suitcases containing dynamite for the purpose of causing an explosion in a house boat on the Saugeen River. Respa told him he had caused the Peabody explosion, and had tried to blow up the armories.

Unless she is given safe conduct to Canada and immunity from arrest, Mrs. Schmidt refuses to come and give evidence. Respa declares that Hoboken witnesses can prove that he was working in Frank Boemlinhausen's garage there for some time prior to and several weeks after the explosion.

Mr. Justice Middleton has handed out judgment dismissing the appeal. Himmelspach and two others were fined \$200 each by the magistrate of Owen Sound on a charge of violating the liquor law. The accused were enjoying a pleasure trip in a house boat on the Saugeen River and for their own use it was stated had brought along a quantity of beer. The first three were fined \$200 each and the other on \$40. Accused were Rex v. Himmelspach and others. Mr. Justice Middleton has handed out judgment dismissing the appeal. Himmelspach and two others were fined \$200 each by the magistrate of Owen Sound on a charge of violating the liquor law. The accused were enjoying a pleasure trip in a house boat on the Saugeen River and for their own use it was stated had brought along a quantity of beer. The first three were fined \$200 each and the other on \$40. Accused were Rex v. Himmelspach and others.

Mr. Justice Middleton also dismissed the appeal of the Thames Quarry Co. from the award of Judge Winchester, allowing the company but \$28 in its claim against the Roman Catholic Episcopal Corporation. The church was erecting a building on Gerrard street, and made a contract with one McNeill for excavating brick and stone work. McNeill failed to carry out the contract, and negotiations took place between the plaintiffs and the church, whereby the company was to undertake and complete the work. The company agreed to do all the work required to fill the contract for \$1250. This sum was paid by the church.

The agreement provided that the company should supply the material and perform all labor in connection with the building of the foundation and setting steps, but it was claimed that the plaintiffs had done extra work and sought to recover \$1028.23. The referee allowed only \$28.

Denise Contractor's Appeal.
Mr. Justice Middleton also dismissed the appeal of the Denise Contractor's Appeal.

In the appeal of the liquidator from the finding of Judge Stone in his report on the winding-up of the Norwalk Mining Co., Justice Middleton refuses to reverse the finding. The liquidator charged that the directors were liable for \$117,287, but his lordship states, in dismissing the appeal, that the conduct of the directors has been honest throughout.

"Legislative sympathy is entirely with the debtor," remarks his lordship.

COL. LOGIE AND LICENSE BOARD HELD CONFERENCE

Dry Restrictions for Soldiers Are Now Under Discussion.

Drastic action, with a view to preventing drinking among the soldiers all over the province, was proposed and discussed yesterday at a conference between Col. Logie, officer commanding Niagara Camp, and Chairman Flavelle and Commissioner Dane of the Ontario License Board.

"We have been in conference with the colonel nearly the whole day, but we can make nothing public until the matter is finally settled," said Chairman Flavelle yesterday. Tomorrow another conference will be held and may have decisive results. After the meeting of the board would take place a conference with Premier Hearst. Some time ago members of the board intimated that the board would take steps to curtail drinking among soldiers in Ontario cities and towns during the winter months, and intimated that the views of the military authorities would be met as far as possible. According to the statute, the board has the power to lessen the number of selling hours where it deems necessary, and, in fact, can take pretty nearly any action it wishes.

FROST WILL HELP STANDING CORN CROP.

As nearly all the grain has been cut and is in the barns, the frost of Monday evening will not hurt the farmers through the province, according to agricultural department officials. In fact, the frost will tend to sweeten the corn which is still standing and make it even better quality.

For over half a century the O'Keefe Brewery Company has brewed Canada's Best Beers.

Only the best Canadian barley malt, choicest hops and filtered water. Put up in Canadian bottles by Canadian workmen. Canadian labels and Crown stoppers.

At all Hotels and Dealers.

Ten Goal Lead for Weston's Good Team Brooklyn Put Out Phillie's Are Safe

WESTON LOOK LIKE EASY CHAMPIONS TEN GOAL MARGIN Swamped Orangeville in First of Home and Home Games for Intermediate Honors.

SCORE TWELVE TO TWO Northern Town Team Only Made It Interesting in the Second Quarter.

With the exception of the second quarter, when some fine lacrosse was played, the game between Weston and the Dufferin of Orangeville for the intermediate championship of the O.A.L.A. was a very one-sided affair.

Weston—Goal, Howatree; point, McEwen; cover, Holly; defence, Ramshaw, Lacey, centre, Clayton; home, H. Coulter, G. Coulter; outside, Dickson; inside, Smith.

Orangeville—Goal, Booth; point, Channing; cover, Chapman; defence, Cranston, Scott; centre, Stevanovich; home, Keith, Ewing; outside, O. Brown; inside, J. Brown.

Weston won the draw and attacked from the start, but good checking prevented a score.

Play rapidly improved in the second quarter and several hard attempts by the Coulter were frustrated by the fine work of the defence.

Weston were the much heavier team, and they used it to good advantage, the Dufferin attempt at body-checking drew first fumble.

Weston got away from the face-off, and Ramshaw sent a pass from G. Coulter wide of the mark.

OVERSEAS, TAKE NOTICE. All Overseas players are specially requested to meet Trainer A. Jennings at Fred Victor Hall tonight at eight o'clock.

Help the Boys On Saturday "Pete" Hocking will likely handle the "midget" game at Rosedale on Saturday.

GOOD-BY BROOKLYN PHILLIES SLAM THEM Four in a Row for the Cubs—Walter Johnson Blanks the Tigers.

At Brooklyn—(National)—The Dodgers rang down the curtain on their home grounds with a poorly played game, losing to the Phillies 9 to 4.

At Chicago—Chicago made it four straight from Cincinnati yesterday, the locals taking both games of the doubleheader, 7 to 3 and 5 to 0.

At Washington—(American)—Walter Johnson won his game with Detroit 3 to 0.

At Detroit—(American)—Walter Johnson struck out ten men in the first five innings of his second game.

Former Discards Will Profit in World's Series Coin of Destiny Has Flipped Luckily for Barry, Hoblitzell, Gregg, Whitted, Chalmers, Demaree, Stock, Becker, Neihoff, Byrne, McQuillen and Others.

Many a discarded ballplayer in the past two years has fallen heir to the luck that befalls a man who turns into a castern and comes up with a watch and chain or a baby grand piano.

Stallings in his process of reconstruction in the spring of 1914, Dusey was with share of the October receipts, and in the winter he was sent to Philadelphia.

Now comes George Whitted, styled by Hub Perdue the luckiest Rockefeller in baseball. Perdue was a glorious glee when he left the tail-end Braves in June, 1914, and Whitted turned up as a contender, stormed with anger.

CARRIGAN'S BEST BET AGAINST THE PHILLIES

George Foster, mainstay in the box for the Red Sox, who will probably bear the brunt of the pitching in the coming world series.

WEST END Y. NOTES The senior harrier committee, under the management of C. Whyte, have drafted out a program for the next few weeks which will be welcomed by many of the runners.

HOW YOUNG TORONTO TOOK TO THE BATHS At the City Playgrounds during the past summer 825 visited the baths.

At Pittsburgh—Pittsburgh defeated Newark 7 to 2. Knetzer, for the locals, allowed two hits, while his team mates pitched on the new members.

HUGHES AND BRYANS JOIN THE SCULLERS M'EVENUE'S WORK Ex-Varsity Players Turn Up at Rosedale—New Tricks Unearthed Every Night.

BURKART AND MOORE Join T. Rand A.A. — Local Teams Play on the Holiday — Rugby Gossip.

T.R. and A.A. had a squad of 25 out at Victoria College grounds last night. Dede Burkart and Bert Moore donned uniforms for the first time, and the Black and White will take a formidable team up to Hamilton to play the Tigers Saturday.

The O.R.F.U. schedule has not been drafted as yet, but will be ready by the end of the week.

Parkdale Intermediate O.R.F.U. team will practice Wednesday and Friday at the O.R.F.U. Trinity lounge grounds, at 5.30 o'clock.

Jack O'Connor, Argos' great back, made his first appearance of the season at Rosedale last night.

Hamilton Rowing Club has been hot after Argonauts to journey to Hamilton on the holiday. The double blue will visit.

Argonaut members and their friends may secure season tickets at the secretary's office, Room 23, 24 Victoria street.

The addition of Bush, Ingram, Vaughan and Emerson will give the Ottawa Football Club a big policeman, who has played in the Ottawa Football Club for many years.

A large number of new men who will try for the Ottawa second team were out on Saturday afternoon.

Owing to the suspension of Intercollegiate football, Mel G. Brook, director of sports at the Western University, is endeavoring to make some arrangement with the London O.R.F.U. team to play under the name of the college.

London Free Press: The fact that the O.R.F.U. has turned down the applications of two Niagara training camp teams of overseas battalions to affiliate with the O.R.F.U. this season gives rise to the assumption that the second request of the 70th Battalion, encamped in this city, will be with the Ottawa before the latter part of the week.

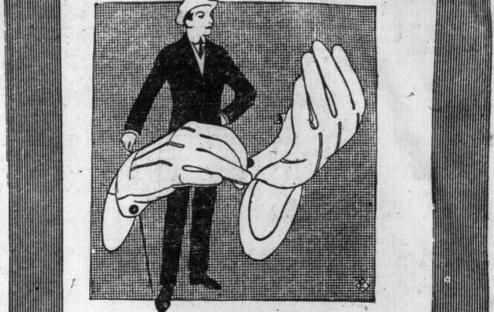

Montreal Mail: It has been ascertained in local football circles for the purpose of effort will be made by the McGill College Football Club to retain Coach Frank Shaughnessy this fall.

EATON'S LIMITED TORONTO CANADA

Rugby Club Preparing For a Busy Campaign

An Ottawa despatch says: There were several surprises this afternoon at the practice of the Ottawa Football Club.

What the Ottawas low require more than anything else is a good kicking back. Don Brophy was ideal for that purpose, and while Ray Conyers and George Boucher are good in the hand, they get the height or distance that Brophy so easily acquires.

It is hard to say who will get the quarterback position with the Tigers this season, but in all probability Clement will be the unanimous choice.

It is the desire of Millard Gibson, manager of the Hamilton Rowing Club, to get a chance to meet an American college crew before this season's opening.

Do Not Miss Dennison's Crepe Paper Demonstrations

Here is an opportunity for every lady in Toronto to learn what can be done with crepe paper. Mrs. Wilson, from New York, will give free instruction for the next two weeks in the Stationery Department on the making of Candles, Paper Flowers, Fancy Costume, Dressing Rope Weaving. The material is quite inexpensive and many beautiful things may be made at little cost.

This is the first display of the kind ever held in Toronto and we invite you to pay us a visit, and you will learn something quite new and most fascinating. (Main Floor).
