

TROUSERS OF GRACE

Our kind of Trousers may well be called "Trousers of Grace."

They are perfect fitting, well Cut and well Tailored.

There's quite enough discomfort in life without your adding to it by wearing an ill-fitting pair of Trousers.

The right making of Trousers is an undertaking at once—

Artistic, Scientific and Mechanical

Years of experience have given the makers of our Trousers a decided advantage in turning out trousers of grace and good wearing qualities. And they have learned to do this economically—which is greatly to your advantage.

Spring Trousers of all kinds, suitable for all purposes—Work, Play or Dress, \$1.50, \$2, \$2.50, \$3 up to \$6.50.

Go to the exclusive Tailor and you'll pay double our prices and get no better Trousers.

APPRENTICE QUESTION STANDS

Master Printers Want Time to De- liberate Before Altering Rules.

It was decided at yesterday's con- cluding session of the meeting of the Ontario Guild of Master Printers that the question of altering terms of apprenticeship in the trade, was too weighty to be determined offhand, and it was left to the executive to take up the matter. Report thereon will be made at the next meeting to be held in Hamilton on Oct. 10.

It was thought best not to affiliate with the Canadian Press Association, but seek to build up an indepen- dent organization, in which every master printer in the province would be enrolled.

These officers were elected: President, J. Dickson, Ottawa Free Press.

Vice-president, R. H. McBride of the Carswell Co., Toronto; Vice-president, W. J. Keyes of the Print Shop, St. Catharines.

Treasurer, John Law of John Law & Co., Tillsonburg.

Executive, J. D. McKay, New- market; A. Talbot, London; J. Grit- fin, Hamilton.

Pope Has Gout.
Rome, May 15.—The Pope has sus- pended his audiences, owing to the fact that he is suffering from a slight at- tack of gout.

A Change
When Coffee Is Left Off.

It is almost as hard for an old coffee toper to quit the use of coffee as it is for a whisky or tobacco fiend to break off, except that the coffee user can quit coffee and take up Postum Food Coffee without any loss of the taste of the morning beverage. For while Postum is well boiled and served with cream, it is really better in point of flavor than most of the coffee serv- ed nowadays, and to the taste of the connoisseur it is like the flavor of fine Java.

A great transformation takes place in the body within ten days or two weeks after coffee is left off and Postum Food Coffee used, for the reason that the poison to the nerves has been discontinued and in its place is taken a large amount of the most power- ful elements of nourishment.

It is easy to make this test and prove these statements by changing from coffee to Postum Food Coffee.

"There's a reason."

Pharmacy Examination Results

The results of the exams. at the Ontario College of Pharmacy were an- nounced last night as follows:

Medals and scholarships:
John Roberts, scholarship, A. R. Cairncross of London; John Roberts Medal, Samuel Petrie Brantford; col- lege gold medal, H. E. Brantford; dispensing, practical phar- macy, chemistry, practical chemistry, materia medica; V. Cummings, Berlin; dispensing, prescription practical pharmacy, practical chemistry, botany, A. Hunter, Waterloo; dispensing, prescription practical chemistry, Harry Kimp- ton, Tillsonburg; dispensing, practical pharmacy, practical chemistry, materia medica, botany; C. F. Neely, Toronto; dispensing, pharmacy, practical phar- macy, chemistry, practical chemistry.

HIGHLANDERS' CHURCH PARADE

Regiment Will Parade to New St. Andrew's To-Morrow Morning.

The 48th Highlanders will parade at the armories to-morrow at 10 o'clock to attend divine service at New St. Andrew's Church. The St. An- drew's Cadets will march with the regiment.

The route to the church will be via the avenue and Simcoe-street, and, returning, by King, Yonge and Queen- streets.

On the morning of the 24th the Highlanders will troop the colors in the grounds at government house at 10 o'clock.

DELICATE BABIES.

Every delicate baby starts life with a serious handicap, and often the illness is kept a state of constant dread.

Baby's Own Tablets have done more than any other medicine to make weak sickly children well and strong. They give the mother the sense of security, as through their use she sees her delicate child growing healthy and strong.

Dr. Blane, Easton Harbor, N.S. says: "Up to the age of fifteen months my baby was weak and sickly and at that age could not walk. I then began using Baby's Own Tablets, and the change they wrought in his condition was wonderful. He began to walk at one year, and has since been a perfectly well child." Every mother who values the health of her little one should keep a box of Baby's Own Tablets in the house. Sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

YOUNG ENDEAVORERS RALLY

Banners Presented to Energetic Societies—A Young "Chairman."

The 12th annual rally of the Toronto Junior Christian Endeavorers was held last night in Massey Hall. The leagues represented were from the Methodist, Baptist and Presby- terian Churches. The auditorium was well filled with children, while the Alexander choir, which occupied the platform, had a strong following. The different features of the program were rendered chiefly by the members of the societies, but the most attractive was the clever manner in which Master Roy Bott, of Westmoreland Method- ist Society, 12 years of age, performed the duties of chairman. He delivered a well worded address, which was heartily received.

A ten-minute address was also given by Rev. George W. Dewey, pastor of Davenport Methodist Church, while the opening exercises were delivered by Rev. W. H. Harris, Wallace of Bever- ley-Westminster Church, and introductory remarks by H. G. Haw- kins, president of Junior C. E. Union.

The missionary banner to the J. C. E. Union, was presented to Mr. John C. Turner, president of the Union, and the honor roll to Euclid Avenue Methodist Society by J. Hammond, president Toronto C. E. Union.

PALE, FEEBLE GIRLS

A Great Responsibility Rests on Mothers of Growing Girls.

A great and serious responsibility rests upon every mother and daughter is passing over the threshold of girlhood. She is at a crisis, and if she is to be a healthy, happy woman, she must develop rightly now. She must not be pale, sunken-eyed, sallow, languid and bloodless at this time. She must have added strength, both of rich, healthy womanhood. There is only one absolutely certain way to get new rich, health-giving blood, and that is through the use of Dr. Williams' Pink Pills. Every pill helps to make rich life-giving blood that brings strength to every organ in the body and the glow of health to pale, watery cheeks. Thousands of pale, anaemic girls in all parts of Canada have been made well and strong through the use of Dr. Williams' Pink Pills. Mrs. Rachel Johnson, Hoffman N.S., says: "As a result of over- coming school, the health of my daughter, Ellen, became greatly im- paired. She grew extremely nervous, was pale and thin, and suffered from most severe headaches. She had no appetite, and notwithstanding all we did for her in the way of medical treatment, she suffered continually. I began to fear her mental powers were failing. One of my friends strongly urged me to try Dr. Williams' Pink Pills, and as I was willing to do anything that might help her I sent for a supply. At length she took the pills, and her condition was hopeless. Indeed, I began to fear her mental powers were failing. One of my friends strongly urged me to try Dr. Williams' Pink Pills, and as I was willing to do anything that might help her I sent for a supply. At length she took the pills, and her condition was hopeless. Indeed, I began to fear her mental powers were failing. SIR RICHARD'S WISDOM

There was a portentous solemnity about Sir Richard Cartwright's deliverance on senate reform. He could not have been heavier spirited if he had been conscious of putting the senate's second foot into the grave. Sundry of his devoted admirers have likened him to Ezekiel surveying a valley of bleached skeletons, and asking "Can these dry bones live?" Martyr they can, and Sir Richard has his own device for bringing them into the breath of life.

A careful reading of Sir Richard's speech makes one doubtful whether the operation would be worth while. Sir Richard admits there is a strong distinctive case against which he can erect only the flimsiest zareba of fact and argument. His plea for senate revival is vitiated by two or three amazing excursions into the slippery paths of legislative doctrine which make him a distractingly unsafe guide.

Sir Richard, of course, harbors the comforting reflection that he is a Liberal member of a Liberal government. In his more exalted moods, no doubt, he supposes that he and his colleagues have a close kinship with eminent Liberals of the old land, and that their faith and practices would adorn the treasury bench at St. Stephen's. If any man would provide gracious entertainment for British Liberals who are feeling the stress of office, he might send to them copies of Sir Richard's speech as an invitation to behold the lengths to which Canadian Liberalism will go when it has been ten years in office.

With a frankness which it was dangerous to display when reporters were present, Sir Richard divulged to his most confidential colleagues that he has often thought it would be a good thing if members of the house of commons could vote twice upon the same question—once openly in order to please their constituents, and once secretly, in order to give their inner consciences a square deal. Sir Richard tells us that bills have been sent to the senate which the commoners, who passed them, desired to be slaughtered. To prevent repetition of such an orgy of hypocrisy, Sir Richard would concentrate two-facedness in the house of commons by the ingenious device of allowing members of parliament to lie openly, and to act justly in secret.

Here, indeed, is a theme for the caricaturist. Here is a model for constitutional Liberalism! Here is a leaf from the book of twentieth century Machiavelli which the old world should not eagerly read. It is the funniest joke that was ever palmed off upon a legislative assembly, as a grave discovery in political ethics. It is a burlesque on the icy charity which doth hedge the Liberal party.

LOOKS THRU THE WRONG END

To balance his intoxicating hope Sir Richard has confessed that a dreadful fear haunts his severely logical mind. It is that at some time, when the elevating influence of the government which he adorns has been withdrawn—an event which Sir Richard seems confident will not happen in his life-time—a group of forty or fifty faddists may be returned to parliament; there to frighten some blundering premier into passing legislation which for decency's sake should be buried in the disreputable precincts of the senate chamber.

Sir Richard must have shuddered when he invited his venerable friends to contemplate potential disaster of such appalling magnitude. It might have occurred to him that the Canadian people are not such a harum-scarum mob as to send 40 or 50 faddists to parliament. He might also credit his fellow countrymen with owning sufficient common sense to discover their errors before grave mischief has been accomplished. Human nature being what it is, there is little likelihood that this generation will see the end of the strange hallucination which besets otherwise discerning minds, that, by some mysterious influence, a politician who becomes a

senator acquires a double portion of strength and sagacity by slipping away from the house of commons to the senate.

He who is in mortal dread of a wholesale invasion of faddists has lost his sense of political prospective. "Faddist" and "agitator" are words which come to the lips of politicians who are blind, weak or foolish, or all three. Every great improvement which has been made in human society has first been called a fad. Every man who has wrought notably for human progress has first been called an agitator. The stone which the builder of to-day rejects, to-morrow becomes the head of the corner.

Sir Richard's talk about faddists is his picturesque, but not novel way of indicating that the senate lawfully performs a serious function in preventing hasty legislation. To prevent the house of commons making a fool of itself you must have this costly, cumbersome aggregation of grey-beards!

For once the admirable old campaigner is looking thru the glass from the wrong end. He surveys a field which, for living purposes, does not exist. The good which the Canadian senate, or any senate, accomplishes by preventing hasty legislation is a mere nothing compared with the good which it prevents by withholding assent from wise legislation. In theory, the second chamber, with license to do everything but handle the purse, is all very well. In practice it has little to commend it. When you talk about checking hasty legislation you insult the house of commons and the people who elect it.

The house of commons is in touch with public opinion—difficult as it often is to believe the fact—the people of this country are not so stupid that they cannot quickly discover ill effects of legislation. The house of commons is capable of correcting its own blunders. The electors of it exercise towards its unfaithful members a punitive power, which they cannot use upon a contumacious, shortsighted senate, fearsome of progress. In every-day business he is a wise man who from the beginning locates responsibility for sins of omission and commission. In politics, that is a wise country which declines to diffuse responsibility for political acts.

There is, of course, an ideal senate. It does not exist in fact, nor even in Sir Richard Cartwright's generous imagination. The labor of constructing it may always be too great. The Liberal party came into power with imposing promises of senate reform. The noblest Roman of them all confesses, after a decade of appointments by an incomparable premier, that in a short time the senate will be almost entirely composed of creatures of the administration. Well may Sir Richard say that the upper chamber should, as far as it can, explain to the public the reason for its existence. That a legislative body which has been in existence 30 years, and has cost the country millions of dollars, needs to explain the reason for its existence is a pretty cogent reason for its disappearance.

F.M.G.'S INDISCRETION

The Toronto Trades and Labor Council has condemned the postmaster-general for excluding The Appeal of Reason from the Canadian mails. So doing, it has followed the lead of the Calgary Council, and has placed itself in line with those who are not unmindful of the terrible fights which were performed many years ago for the liberty of the press, which is synonymous with the liberty of the people.

Mr. Aylesworth is a first-class lawyer, but a very indifferent politician. There is a certain sympathy for a man who does not know good politics from bad. He is apt to be honest, the mistaken. Mr. Aylesworth's manner of addressing pledges given in the North York election makes it less easy than it would otherwise be to credit him with nothing worse than short-sightedness in denying the Canadian post to an American publication which the postmaster-general at Washington does not dream of keeping out of the United States mail.

The Winnipeg Free Press, which is generally distinguished by thorough justification of everything that is done by the government, cannot swallow the Russiyanizing tendency of the postmaster-general. In a second editorial upon the subject, the Free Press says:

The power of an official to debar a publication from the mails—there is a decision determining that the press need not be recognized as one that should not be recognized in a democracy. If publications are unfit for the mails their unfitness should be defined by statutory enactments, and the enforcement of the law should involve a judgment at a competent court. It is reasonably plain that there is to be within the next generation, a great enlargement of the powers of government; which means of course that public officials will come to control our lives with increasing frequency as the years pass.

Court of appeal—Preemptory list for hearing on Monday at 11 a.m.—McWilliams v. Dickson Company, Rev. Dau.

Toronto non-jury sittings—Preemptory list for Monday at 11 a.m.—Attorney-General v. Hargrave (to be continued).

Of course your grocer has WINDSOR TABLE SALT. He will send it to you always, if you specify WINDSOR.

he has in his dealings with private organizations.**MANCHESTER'S COUNTRY SCHOOLS**

Manchester, England, possesses what is perhaps a unique feature in the shape of a country school for town children. It is pleasantly situated at Knoll's Green, Warford, near Moberley, Cheshire, and was built by a committee as the outcome of a movement having for its object the association of a portion of the child life of Manchester with the country. Through the generosity of the chairman, Mr. Herbert Phillips, the committee was enabled to lease five acres of land for the building, garden and playground. Accommodation is provided for eighty children, who sleep and have their meals at the school.

Yours faithfully,

W. H. Riddell,
Secretary.

Mutual Life Assurance Company.

Waterloo, May 17.

do you refer to? It is no less than six times as "The Mutual Life."

Now, sir, as the Mutual Life Assurance Company of Canada sometimes called "The Mutual Life of Canada," and often, for short, "The Mutual Life," we shall esteem it a favor if you will for the future, should occasion arise, make it plain as to which of the two companies you desire to direct the attention of your readers. A few lines in Waterloo, glancing hurriedly over the material in question, have got, as doubts otherwise elsewhere have got, the impression that this company was under fire. We have, I assure you, no wish to "butt in" upon your editorial preserves, but being human, it may be fairly assumed that we have enough coming enough of our own to answer for what has been said, adduced by hasty readers with the sins of omission and commission of other companies, whether native or foreign.

Yours faithfully,

W. H. Riddell,
Secretary.

Mutual Life Assurance Company.

Waterloo, May 17.

We are glad to publish Mr. Riddell's letter, as we think nobody could really mistake the references in the editorial referred to. Every body knows that the Mutual Life of Canada has not wasted money in advertising, and that its ratio of expenses to premium income is the lowest of any Canadian company.—Ed.

A NEW MAGAZINE

"The Canadian Young Man" is the name of a new magazine which is being issued under the auspices of the Methodist Young Men's Association. In addition to the chronicling of doings of the organization, the initial issue has illustrated articles and miscellany of an interesting nature. G. V. Thompson is editor.

TOO MUCH.

Kincardine Review (Lib.): In another column we give the result of the vote on the motion to repeal the salary grab of the Dominion parliament of last session. Already we have expressed our strong opposition to this measure, and propose to stand to our guns. It was an outrageous steal at the expense of the electors of this country, and more, the shame that members of parliament professing to be Liberals should be found voting for it. It will be recalled that the move, but reluctantly, to remain silent when the people's representatives delegate to themselves the power to brazenly misappropriate public funds without the consent of the electorate.

FLOODS IN BRITISH COLUMBIA

Skeena River on Rampage and Setters' Supplies Delayed.

Victoria, B. C., May 18.—(Special).—Word comes from the north that the Skeena River is in full flood and much damage has been caused to along-river properties.

Kitselas Canyon, midway between Hazelton and Port Essington, is impassable and it is feared that steamer Hazelton, which had been engaged for six weeks at the earliest.

The steamer Pineash and Mount Royal, heavily laden for the new G. T. P. country, have been put back to Esquimalt, the Mount Royal being disabled.

Numerous settlers above the canyon are in a serious position, having depended upon the supplies included in the cargo of the two early river craft.

The World has not spared criticism of particular interests which have failed to give a fair deal to the public.

But it has not framed such a general indictment as this, and would not dream of doing so. If and when The World believes that any Toronto "financial experts and business managers" ought to be sent to jail it will name the offenders and abide by the consequences. It will not fear to be specific. But it will not level charges of this description against the whole community of financial and business men. This is the supreme irresponsibility of a public interest which has failed to give a fair deal to the public.

The marine department might have saved trouble by putting the corn juice in as lubricating oil.

In other words, the senate, with Dick Cartwright aboard, is not the barnacle-encrusted outfit it was prior to 1896.

Too bad if parliament hangs on long enough to prevent Dr. Sproule, M.P., getting away for the Alfonso-Ena nuptials.

Just pick the sure ones.

The marine department might have saved trouble by putting the corn juice in as lubricating oil.

In other words, the senate, with Dick Cartwright aboard, is not the barnacle-encrusted outfit it was prior to 1896.

Surrender or Flight" is the czar's choice, and if he can crawl up the bed before the proletarians get at him it will be f-i-e-k-t.

PUNISH, NOT EVICT.

Ohio's Attorney-General Will Sue Anti-Trust Law Violators.

Columbus, Ohio, May 18.—In conformity with a declared policy of administering punishment rather than attorney who violated the anti-trust laws. Attorney-General Ellis to-day filed in the Franklin County courts two suits against companies which are, he claims, decoys of the Standard Oil Co.

The defendants are the Vacuum Oil Co., of Rochester, N.Y., and the Manhattan Oil Co., of Lima, Ohio.

The Vacuum Oil Co. is charged with failure to obey a law which requires foreign companies to report to the secretary of state. The Vacuum Oil Co. is alleged to owe the state \$129,000.

The suit against the Manhattan is for failure to make reports and omitting to pay annual fees.

BURGLAR WAS INJURED IN "CRACKING" A SAFE

Salisbury, Md., May 18.—A gang of five yeggs were upon the safe at the Baltimore & Chesapeake & Atlantic Railroad passenger station here early to-day with nitroglycerine, but secured no cash. One of the burglars was struck by a piece of iron from the same and badly hurt. The others carried him about two miles to a farm house, where they left him unconscious. Three of the fugitives were later captured.

If so, by all means consult C. E. Horn, city passenger and ticket agent of the Grand Trunk Railway, on the corner of King and Yonge streets, who will make you an "itinerary" for as long or as short a trip as you can afford time or money. Among the favorite trips are Montreal, Quebec, Saguenay River, Port Arthur and Old Orchard, New York City, Muskoka, Georgian Bay, Lake Superior, Temagami, Algoma, Park, Detroit, Chicago, Colorado, Pacific Coast, Canadian Northwest & Europe.

Ice Trust Indicted.

Cleveland, O., May 18.—The grand jury to-day returned indictments against President Norvell and thirteen directors of the City Ice Delivery Co., known locally as the ice trust, on the charge of violating the antitrust anti-trust law.

Excursion to Collingwood.

Parkdale Chosen Friends will run an excursion to Collingwood and Penetanguishene on July 21, good for three days.

Nature's Way is Best.

The function strengthening and tissue building plan of treating chronic, lingering and obstinate cases of disease as pursued by Dr. Pierce, is following after him.

He uses natural remedies, that is extracts from native medicinal roots prepared by processes wrought out by the expenditure of much time and money without the use of alcohol, and by skillful combination in just the right proportions.

Used as ingredients of Dr. Pierce's Golden Medical Discovery, Black Cherry, Quince, Glycerine, Grapes, Honey, Bloodroot and Stone, specially extracted from the influence in cases of lung, bronchial and throat troubles, and this "Discovery" is, therefore, a sovereign remedy for bronchitis, asthmatic, chronic coughs, catarrh and kindred ailments.

The above native roots also have the strongest possible endorsement from the leading medical writers, of all the several schools of practice, for the cure of almost all the diseases, but also for eye, ear, nose, throat, liver, kidneys, bladder and intestinal troubles.

There would hardly be found that this could readily be found, and at prices not as advantageous as those obtained in the United States. The total catch this year of whitefish was 2,817,420 pounds. This would relieve the situation very considerably, and would not prejudice the sale of the coarse fish, which are more abundant in the market.

It is asserted that dishonesty and unbusinesslike methods are apparently shown by many fish dealers and buyers. The fishermen claim that they cannot find a home market for coarse fish, while declaring readiness to supply the market on reasonable notice, before receiving payment.

Referring to the right exercised by the department to compel fishermen to supply peddlars on cash payment, it is suggested that the department undertake to see that dealers in towns and cities are regularly supplied on payment terms, arrangements as to payment being made. It is also suggested that the Dominion government be asked to require that the whole catch of whitefish be sold to the home market.

There would no doubt that this could readily be found, and at prices not as advantageous as those obtained in the United States. The total catch this year of whitefish was 2,817,420 pounds. This would relieve the situation very considerably, and would not prejudice the sale of the coarse fish, which are more abundant in the market.

**ARGUMENT IS CONCLUDED
IN THE LADY WILSON CASE**

Frank Hodgins Speaks of "Serious Mistakes"—Walter Barwick Assails Morson.

Before Judge Winchester in chambers the argument in the case of Lady Wilson v. The Toronto General Trusts Corporation, was concluded yesterday. Frank Hodgins, K. C., for three hours reviewed the evidence regarding commissions, the buying of Scramble mining stock, and especially the evidence of Mr. Plummer, former managing director of the corporation. He quoted legal language on the point of trustees accepting commissions. He charged that the Trusts Company were guilty of numerous mistakes in management of the estate of the late Sir Adam Wilson.

Walter Barwick, K. C., solicitor for the General Trusts Company, gave very brief speaking for about an hour. Judge Winchester will give his decision today.

Mr. Hodgins, K. C., submitted that there could be but one result of this application.

"It would be nothing short of a scandal, in view of what has been disclosed, if we did not give judgment," said Mr. Hodgins. The very fact of rebates alone would warrant that the receipt by a trustee of a secret commission disclosed in the evidence was in the nature of a fraud. Mr. Langmuir himself had admitted this was a most serious mistake.

This case was so strong that no court shut out the investigation. The contest had been waged with bitterness. In regard to the Scramble mining stock alone the fullest disclosures should be made.

Four Points.

There were other motives underlying the opposition. The company had shut the door on Mr. Morson. The attitude of the president and the managing director in denying the responsibility of the purchase of Scramble stock, and in giving up facts only at the point of the bayonet, should be evidence that the enquiry should not stop until the plaintiff could not see to the accounts.

"We should be able to see for ourselves whether Mr. Langmuir's evidence is right or not. We have confidence in ourselves in this application," he said. Had we access to books and cheques, we could readily demonstrate that.

The first point was that the company had admitted receiving rebates; second, that the corporation had bought Scramble stock at 29 cents, and charged Lady Wilson 40 cents; the third had not been proved, and the fourth was not the fault of the Watt House.

Mr. Denison knew nothing of these matters. The corporation had an order holding Lady Wilson responsible; "but at the same time admitted that Shirley Denison had not investigated the investments of capital made by the company."

A Serious Matter.

In the statement of assets no mention had been made of the Scramble stock.

Mr. Hodgins then read a letter from Mr. Langmuir saying that he would show the books. Lady Wilson's evidence would not show the books. "The Trust Company had been charged with fraud," said Mr. Langmuir, "and it is a very serious matter."

"Scramble stock is a serious matter, you know," hinted Mr. Hodgins.

The corporation had denied the right to prove mismanagement, to go into the question of excessive cost or the charge of excessive interests. They had agreed Shirley Denison in the matter and had endeavored to form a contest with Denison which Mr. Hodgins had refused to undertake. No bid professionally, or any other way, could be found in Mr. Hodgins' application.

There was one point, a legal point, but no ulterior motive. Mr. Denison had acted in good faith. Undue weight had been given to the appearance of Mr. Denison in the matter. He has been put forward to an audience and unscrupulous inference made by the defendant to try and cripple Lady Wilson's case. There was no impropriety in Denison's transactions with the Trust Company. He acted in a upright way in his dealings with Lady Wilson.

The Rebates.

"Insurance rebates" evidence was gone over next. Mr. Langmuir had stated that "rebates" was a most point and had been the custom from

WHEN THAT COLD COMES

How is it to be cured? This method is simplicity itself. Rub the cold away with a cloth. Nervous, not a gorgy, and take some hot water before retiring all in bed.

Next morning finds you refreshed, free from cold and bright as a dollar.

These household remedies are wonderfully successful and certainly won't fail in your case. For sale at all dealers.

time immemorial. It had been proved that \$2.50 had been accepted as rebate by the company. Lord Alverstone had pronounced the accepting of commissions my a trustee as secret profit, and the sooner the practice was stopped the better.

The Scramble mining stock had been sold at an improper investment by the president and managing director of the trust company. Interest had been charged on the item of \$1,000 invested in 1887 from Aug. 14, 1886. "One year longer than I was entitled to," said Mr. Hodgins. "It may not be fraud, but it is certainly a mistake." It was further admitted that the stock, bought at 29 cents, was charged at 40 cents. Was this fraud—to charge \$1,000 for a share of \$1,000? This stock was also taken in Plummer's name, altho it is thought it was an investment for the estate.

Mr. Hodgins contended that Mr. Plummer had no right to buy stock at all. Five thousand shares of bean bought and paid for by Trust Company and afterwards transferred to Lady Wilson's account.

A letter from Mr. Plummer to Mr. Morson, in January, stating that Mr. Plummer had thought Scramble a good investment, and when he had not turned a profit, was really Mr. Hodgins who claimed that it substantiated the evidence of Lady Wilson when she emphatically denied giving Plummer any authority to invest in Scramble mining.

The valuation of the Watt House closed the argument for the plaintiff. **Morson's Attitude.**

"It is all very well for my learned friend to take the mild attitude," said Walter Barwick, K. C. The order had been obtained by fraud of Shirley Denison. That is the attitude of the corporation. He occupied the position of a son to a mother and was her solicitor and possessed her confidence.

When Morson appeared on the scene and ousted Denison, his only come-back was to make it hot for the Toronto General Trusts, by sowing dissension. He succeeded in making Lady Wilson believe that something was wrong in October, 1886.

Having succeeded in ousting Denison and having Lady Wilson safely in his clutches, Morson started his campaign of a man.

The keynote of the game was this: In a letter to the Trust Corporation, Morson's attitude was this: "Hand over the trusteeship of the estate and pay me \$30,000 and you won't hear anything more about it." But eminently respectable men, the heads of the corporation, would not be swayed from a man like Morson.

His next step was to issue a postcard to the press of Canada, asking them to come and see what he was going to do to the Toronto General Trusts Corporation.

Lady Wilson had no charge of conspiracy to make against anyone. Lady Wilson would say nothing but the truth, but her memory was not as good as it used to be. She was but putty in Morson's hands, and anything she had said or done was dictated to her by Morson.

At a man's which took up the charges of the petition filed by Morson. That the corporation kept the accounts secret, was false as Mr. Langmuir's evidence had shown.

The corporation had, if it was alleged, absconded with \$100,000, viz., the Thompson estate. This point had not been touched by the council for the plaintiff, and the statement has not yet been retracted.

No Substantiation.

As to the charges of mismanagement, that had been received by the corporation, it had been received from real estate agents, and not accredited to estate, sworn to by Morson, not one vestige of evidence was submitted to substantiate the charges.

The Scramble mining stock question was next sifted. The corporation had been given a chance to defend its investment. She was mining stock crazy like other society ladies at that time. The stock went wrong, like other mining stocks, and Morson saw a possible chance of getting \$1200 out of the Toronto General Trusts Corporation.

On the point of the bayonet, should be evidence that the enquiry should not stop until the plaintiff could not see to the accounts.

"We should be able to see for ourselves whether Mr. Langmuir's evidence is right or not. We have confidence in ourselves in this application," he said. Had we access to books and cheques, we could readily demonstrate that.

The first point was that the company had admitted receiving rebates; second, that the corporation had bought Scramble stock at 29 cents, and charged Lady Wilson 40 cents; the third had not been proved, and the fourth was not the fault of the Watt House.

To Get More Strength from Your Food

OTS of people are starving with a full stomach.

You know, it's not how much we eat, but how we Digest that makes us Strong, or Brainy, or Successful.

When the Bowels are filled with undigested food we may be a great deal worse off than if we were half starved for want of Food.

Because, food that stays too long in the Bowels decays there, just as if it stayed too long in the open air.

Well, when food decays in the Bowels, through delayed and overdue action, what happens?

The millions of little Suction Pumps that line the Bowels and Intestines then draw Poison from the decayed Food, instead of the Nourishment they were intended to draw.

This Poison gets into the blood and, in time, spreads all over the body, unless the Cause of Constipation is promptly removed.

That Cause of Constipation is Weak, or Lazy, Bowel Muscles.

When your Bowel-Muscles grow flabby they need Exercise to strengthen them—not "Physical" to pamper them.

There's only one kind of Artificial Exercise for the Bowel-Muscles.

Its name is "CASCARET," and its price is Ten Cents a box.

Cascarets act like Exercise on the Muscles of the Bowels, and make them stronger every time they force these Muscles to act naturally.

The stronger these Muscles propel the food, the stronger does the friction of the food act on the flow of Digestive Juices.

The more of these Juices that act on food, the more Nutritious does that food turn into, and the richer nourishment do the little Suction Pumps of the Intestines draw out of it.

STEALS \$10,000 AUTO.

Baring Thief Makes Off With Owner Feeds in Restaurant.

New York, May 18.—A \$10,000 automobile, which was a package containing \$3,000 worth of bonds, scrip and other valuable papers, was stolen early to-day by a daring thief, who jumped into the machine while it stood unoccupied on Broadway, near Forty-second-street. Its owner, J. H. Clarke, an automobile manufacturer, had stepped into a restaurant nearby.

Frick's Assailant Released.
Pittsburg, May 18.—Alexander Berkman, who made an attempt on the life of Henry Clay Frick, during the great steel strike at Homestead in 1892, was released from prison to-day. His sentence was 23 years, but by good service it had been reduced to 14 years.

TORNADO KILLS THIRTEEN.

Many Mourners at Graveside Struck by Lightning.

London, May 18.—A despatch to a news agency from Berlin says that 13 mourners, who were at a grave-side during a funeral at Teschen, Austrian Silesia, to-day were struck by lightning and killed, while twenty others were severely burned.

Reduced Rates for the 24th.

For Victoria Day the C.P.R. will sell round trip tickets at single fare between all stations in Canada and to Detroit and Chicago, and to St. Paul by rail, going May 23 and 24, returning until May 25. Call at the C.P.R. city ticket office, or L.V.R. Passenger Office, 10 East King-street.

Wheat Belt Filling Up.

Battleford, Sask., May 18.—It is estimated that there are now about 100,000 people looking for homesteads, and the fact that there appear to be no more obtainable, that at the end of the year there will not be a homestead left in the noted Saskatchewan wheat belt.

SEVERE ELECTRIC STORM.

Wall of Engine House Blown Down at Port Arthur.

Port Arthur, May 18.—(Special)—

One of the worst electrical, wind and rainstorms that were ever experienced passed over this district last evening and did considerable damage. The wall of the new brick, gas and engine-house of the Atkison Iron Co., which had just been completed by Garnett & McQueen, blew in, and Manager Jones of the blast furnace, who was in the building at the time, was seriously injured by falling brick, etc. McQueen's shop was blown down, but fortunately, no person was hurt. Rain came down in torrents, and a portion of the Canadian Pacific track near Loon Lake was washed out.

TORONTO TO NEW YORK AND PHILADELPHIA.

Two evening trains to New York and Philadelphia, via Grand Trunk and Lehigh Valley. On and after Sunday, May 13, trains will leave Toronto at 5 p.m. and 6.10 p.m. Leaving trains at 6.10 p.m. and 7.20 p.m. Express connection. Fare on all trains \$10.60, Toronto to New York. For tickets and Pullmans, call at G.T.R. City Office, or L.V.R. Passenger Office, 10 East King-street.

STATE IS DOING ENOUGH.

Carnegie Says There's Room for Man Who is Willing to Work.

New York, May 18.—The American to-day says: Talking to a group of young men in the Carl Schurz funeral train yesterday, Andrew Carnegie was led into a discussion of Socialism and of what the men in New York without a dollar should do. He said:

"I am an individualist, and think the state is doing as much as it should. If I were a young man and alone in the world I'd work for a dollar a day if necessary, and I don't think I would ask any one to help me. There is always room for the man who is willing to work, and when I hear to the contrary it seems hard to believe."

"I know of manufacturers who are willing to pay \$3 a day for men, and they tell me they have difficulty in securing labor."

FREE UNTIL CURED

I don't ask you to pay or deposit one cent until I convince you.

Simply call or write for a Belt and wear it for two months, and if cured,

pay me the usual price—in many cases not over \$5.00. If not cured,

return the Belt, and that ends the matter.

If you prefer to pay cash, I

give you the usual wholesale discount.

Be sure you get the genuine.

My great success has brought forth many imitators, and I must caution

the public against their worthless, blistering imitations.

Call to-day and take a Belt along, or write for one and my two valuable books on Electricity and its medical uses. Sent, sealed, free by mail.

DETAILS OF DOUBLE TRAGEDY LIVES LOST IN SWIFT WATERS

How Bellisle and Quance Met Death in Montreal River—Survivors Are Heartbroken.

Coat, May 18.—(Special)—Details of the double drowning accident, which occurred up the Montreal River, have come down with the arrival of the rest of the party.

Russell Cryderman, the prospector, hunter and guide of Sudbury, is broken-hearted. He was in charge of the party, which left Latchford Tuesday, May 8, on a surveying trip eighty miles up the Montreal River, to survey a large iron claim staked out by his father, J. T. Cryderman. The journey was almost done when the tragedy occurred. The surviving members reached the King Edward Hotel, Latchford, in a state of mental and bodily exhaustion brought on by grief and the privations endured on the return trip, by reason of the loss of all their supplies.

In company with J. P. Bellisle and Nelson Pender, Cryderman left Latchford on the 8th inst. Richard Waugh and Norris Quance had started the day previous, and at Mountain Lake, 40 miles from the river, had stopped for the night. They proceeded up the river and passed up the Fox Rapids. It was here that Cryderman left the canoe he had started in and joined Quance and Waugh, as they had the larger canoe. Later the party joined a second crew of the party, who had started a couple of days previous, and which consisted of the three Clark brothers (one from Collingwood, another from Massey, and the third from Orillia). Pat Riley of Wahnapitae and William Treadwell, Indian River, and John L. Morris, Cryderman, Waugh and Quance in No. 2 canoe. Saturday the 12th inst. they got into swift waters below the Fox Rapids. As the canoes were heavily loaded, Riley and Waugh got out and proceeded to walk the branches of a tree which were hanging up the rapids. Riley had said that Cryderman left the canoe he had started in and joined Quance and Waugh, as they had the larger canoe. Later the party joined a second crew of the party, who had started a couple of days previous, and which consisted of the three Clark brothers (one from Collingwood, another from Massey, and the third from Orillia). Pat Riley of Wahnapitae and William Treadwell, Indian River, and John L. Morris, Cryderman, Waugh and Quance in No. 2 canoe. Saturday the 12th inst. they got into swift waters below the Fox Rapids. As the canoes were heavily loaded, Riley and Waugh got out and proceeded to walk the branches of a tree which were hanging up the rapids. Riley had said that Cryderman left the canoe he had started in and joined Quance and Waugh, as they had the larger canoe. Later the party joined a second crew of the party, who had started a couple of days previous, and which consisted of the three Clark brothers (one from Collingwood, another from Massey, and the third from Orillia). Pat Riley of Wahnapitae and William Treadwell, Indian River, and John L. Morris, Cryderman, Waugh and Quance in No. 2 canoe. Saturday the 12th inst. they got into swift waters below the Fox Rapids. As the canoes were heavily loaded, Riley and Waugh got out and proceeded to walk the branches of a tree which were hanging up the rapids. Riley had said that Cryderman left the canoe he had started in and joined Quance and Waugh, as they had the larger canoe. Later the party joined a second crew of the party, who had started a couple of days previous, and which consisted of the three Clark brothers (one from Collingwood, another from Massey, and the third from Orillia). Pat Riley of Wahnapitae and William Treadwell, Indian River, and John L. Morris, Cryderman, Waugh and Quance in No. 2 canoe. Saturday the 12th inst. they got into swift waters below the Fox Rapids. As the canoes were heavily loaded, Riley and Waugh got out and proceeded to walk the branches of a tree which were hanging up the rapids. Riley had said that Cryderman left the canoe he had started in and joined Quance and Waugh, as they had the larger canoe. Later the party joined a second crew of the party, who had started a couple of days previous, and which consisted of the three Clark brothers (one from Collingwood, another from Massey, and the third from Orillia). A BRIDGE AT WILTON AVE.
IT IS TO COST \$170,000

Bylaw Goes to People in June—
Object, to Build Up East End
—City Hall Notes.

The main item at the city hall on Friday was the decision of the works committee to send along to council a proposal to build up the east end of the city by bridging the Don at Wilton-avenue at a cost of \$170,000, the idea to be submitted to the people soon.

The mayor was in a most satisfactory mood yesterday, because he pointed out that the constant visits to Ottawa had been blessed with results inasmuch as the municipalities had been greatly benefited. He did not discuss the salary question in a serious vein, but said he only wanted what the city desired to give him, and he would try to earn all of it.

"I will tell you, our little king," said the mayor, "and this is about the King-street can line. It has been suggested to me that we should make the line from east and west terminable at Yonge-street. There is constantly trouble at the Woodbine or in the subway and I think the suggestion sounds reasonable, tho' I have not discussed it."

His worship had a communication from a mayor in one of the towns of Japan asking for information as to benefits of municipal ownership.

The Endorse Fleming's Idea.

The works committee met once more yesterday, and endorsed the island breakwater extension proposed by the engineer. Before them was the proposed bridge across the Don at Wilton-avenue, which the engineer said would cost \$170,000. The committee decided to submit a bylaw on the last Saturday in June, and at the same date the Lansdowne-avenue subway bylaw will be submitted.

All the new pavements were passed, but no one knows when they will be started. The James-street extension goes over for another couple of weeks. So does a proposal to cut off a piece of the grass on the James-street side of the city hall, and make a sidewalk 10 feet off the grass.

This is the day of the electric sign. The committee granted a lot of permits for signs to be placed in position.

The telephone company notified the committee that they are going to place wires underground on a number of streets, and the committee concurred.

A letter late from the school board, asking the city to extend Mansfield-avenue to Grace-street. Assessment Commissioner Forman will see the property owners to find out if they are willing to be assessed for the cost.

A bylaw is to be introduced authorizing the engineer and assessment commissioner to recommend the opening of a land as a local improvement between Euclid and Palmerston-avenues.

P. G. Austin wrote about the proposed extension of Abbott-street, and the letter was sent to Commissioner Forman.

Bloor-Street Pavement.

The quarrel over the kind of pavement to be laid on Bloor-street from Yonge-street to Avenue-road was again referred to the engineer. The new legislation warrants the engineer doing what he pleases in choice of pavements, and he will make the start on this street.

In case of a coal strike a Cardin firm has offered to see the city thru. The matter was turned over to the engineer.

All McGhie moved that a bylaw be introduced authorizing the engineer and assistant commissioner to recommend the extension of Millicent-street westerly to Emerson-avenue.

The Toronto Railway Co. feed wires were discussed, and the engineer recommended that the commissioners request to lay conduits on a number of streets to be granted, and the committee adopted the recommendation.

Mr. Graham moved a resolution that Doverscourt cars be run to Exhibition Park during the summer. The committee carried it, and the engineer made the arrangements.

Lack of fuel for the curves is urged by the street railway as an excuse for not going on with the loops.

Junction Water.

The city engineer reports that the city could supply water to Toronto by pipes at \$2 per million gallons, but it would need a new reservoir and would cost \$150,000, and after that some establishment would have to be made for a sinking fund.

The mayor visited the Haven yesterday in view of complaints made by the neighbors who petitioned in objection to an extension of the building. He doesn't know what to do about it. The controllers will take it up again.

More Tax Sales.

The board of control sanctioned the following sales of city property, made by the assessment commissioner:

Albermarle-avenue, north side, lot 33, 28 feet, to George A. Scott, 236 Seaton-street, at \$6 a foot. Taxes, \$1.16 per foot frontage.

Albermarle-avenue, north side, lot 51 and lot 50, 75 feet in all, to George A. Scott, at \$6 per foot. Taxes, \$1.20 per foot frontage.

Vanier-avenue, north side, lots 28 and 29, 70 feet, to W. J. Whaley of 374 Shaw-street, at \$15 per foot frontage. Taxes, \$6.81 per foot.

Dupont-street, to L. J. Bland. Vernon-avenue, 120 feet, at \$14 per foot. Taxes, \$11.86 per foot.

W.H. Strike Monday.

New York, May 18.—By unanimous vote of the New York district council last night, 70,000 brotherhood painters, decorators and paperhangers were ordered to go on strike on Monday morning. The painters recently asked for an increase from \$3.50 a day to \$4, and the decorators from \$4 to \$4.50.

PILES

In Chase's Ointment is a certain and guaranteed cure for all skin diseases and eruptions, for the treatment of piles and protruding piles. See testimonials in the paper. You may use it and get your money back if unsatisfied. \$6, at all dealers or EDMANSON, BATES & CO., Toronto.

IN LETHARGIC STATE.

TAPPER, JR. Thinks It Hard to Rouse the Country.

Montreal, May 18.—Before leaving for the old country Sir Charles Hibbert Tupper, who is one of the pensioners of the government, gave his opinion of the spending-thrift qualities of the government to an interviewer.

"The people of the whole Dominion," observes the former minister of marine and fisheries, "seem to be in a lethargic state as regards the political situation of the country, as may be gathered from the way in which the present federal government are spending public money—truly in a most extravagant fashion. Liberals, however, are not to be blamed for this fact, that the people are politically asleep. However, they will go on until something serious takes place, and then the electors will wake up to the fact that it is time to take a hand in the affairs of their country."

"However, it is hard to believe that it is possible to arouse the interest of people in the matter of \$300,000 or \$300,000, when no interest is taken in the tremendous and lavish expenditure which reaches a total of some eighty-nine million dollars."

GIRL DIED FROM FRIGHT.

Detroit, May 18.—County Chemist Clark reported to-day that no poison was found in the stomach of Miss Vollmer, the Galt, Ontario, young woman, who was found lying on the street in convulsions near her boarding house on the night of May 1, and who died before regaining consciousness.

Her brother's claim that she was frightened to death by a man who had approached her on the street the night or two before and threatened to get even when repulsed by Miss Vollmer is now accepted as the cause of death.

"Tokio" Matting, in green and white, blue and white, and red and white..... 18.00 .38

"Amano" Matting, in green and orange..... 12.00 .35

"Emperor" Matting, an extra strong weave, hand embroidered..... 22.50 .60

"Emperor" Matting, in natural color, with small occasional pattern..... 22.50 .60

Hooks, 5c each. Cleats, 5c each.

Bamboo Verandah Blinds

If your verandah is too much exposed to the sun these shades are just the things you need. The prices we ask are so ridiculously small that you could enclose the whole verandah if need be, at very little expense.

We were sold out of these blinds quite early in the season last year. Better order at once if you want any.

These are the sizes and prices:

6 ft. x 6 ft.75

8 ft. x 6 ft. 1.00

8 ft. x 7 ft. 1.10

8 ft. x 8 ft. 1.25

10 ft. x 8 ft. 1.50

12 ft. x 8 ft. 2.00

Hooks, 5c each. Cleats, 5c each.

Fibre Matting, by the yard, 36 in. wide, per yard, 55c and 60c.

Fibre Matting

A strong and handsome floor covering, made of twisted fibre. It has somewhat the appearance of straw matting, but is more durable and admits of much greater variety in design and color combination.

We show it both by the yard and in rug form, woven in handsome designs, the prevailing colors being soft shades of green, blue, terra cotta and red. Prices are as follows:

12 ft. x 9 ft. \$1.50

9 ft. x 6 ft. 9.50

6 ft. x 6 ft. 6.50

5 ft. x 3 ft. 1.55

5 ft. x 2 ft. 2 in. 1.25

3 ft. x 1 ft. 6 in.75

Rope Matting, by the yard, 36 in. wide, per yard, 55c and 60c.

Mourzouk Rugs

A make ideally suited for use in Summer cottages or on verandas, where the usage is hard and constant. They are woven of heavy coco fibre and manila, in bold, handsome patterns, in which bright shades of red, blue, green, etc., are effectively combined.

WOMAN'S WORLD.

For the Green-to-be.
The trouousseau gowns of the Princess Ena of Battenberg occupy the attention of the world of fashion just now. One of the noticeable points is that all princess style predominates over all others, and that except where the more workmanlike garments are concerned, the skirts of the gowns are long and full. Princess Ena, like her mother and her late grandmother, Queen Victoria, has a thorough appreciation of good lace, and her lingerie, altho exceedingly simple, is beautifully trimmed with ribbons and little curlicues of Nottingham and Irish lace have been used for the gowns. Short puffed sleeves are the rule, exception being made in the case of the tailor-made costumes, yachting suits and coats, when they are of a plainer description and reach to the waist.

Another point which strikes the observer is that many of the dainty muslin or evening gowns are duplicated in several colors, while some of the former are unfilmed and are designed to be worn with a single color throughout. In the case of her cloth tailor-made, Princess Ena has followed the precedent adopted by the Princess of Wales, of having two skirts made to the same costume, one which touches the ground, and the other of walking length.

Her preference for pale pink and blue is noticeable, all her underlinen being adorned with ribbons in these colors. It is worthy of mention, too, in view of the fact that so many people mark their personal belongings with monograms, that the crowns and initials which decorate the lingerie of her royal highness are of the smallest and least ostentatious description, being, in fact, hardly noticeable.

In spite of this position, which the princess is to occupy, the trouousseau is essentially that of a girl in her teens, her youth being kept strictly in view, while, altho everything is of excellent quality, and thoroly up to date, Princess Ena has set an example to other brides in that she expects to be supplied by an entire absence of what is superfluous and unnecessarily extravagant.

Among the simplest of her costumes are those which are made for the princess' yachting excursions, being of coarse white canvas, very plainly made, and adorned with pieces of burlap, white and red, and white and blue. Naturally enough, in view of the long Spanish summers which the royal bride will have to face, the thinness of hot weather fabrics predominate, and a quantity of white negligees are included, many of them being turned out in the old-fashioned spotted muslin which was returned to favor nowadays, and was so popular with our mothers twenty or thirty years ago.

H. Excellency's Interest.

The visit paid to the Renfrew Creamery by His Excellency the Governor-General is just another evidence of the interest he takes in the dairy. He had not been at Rideau Hall one week in his capacity of governor-general when he paid a visit a model farm situated within a few miles of Ottawa, and as soon as Lady Grey arrived he took up the care of the movements. The farm is conducted on the most up-to-date plan, and the handling of the milk done according to the latest scientific methods. It taking first place among the farms of Ontario and Canada. His excellency gave practical evidence of his interest by making arrangements for having government house supplied with milk from there. He is also very fond of taking out to visit distinguished people who are his guests at Rideau. His Excellency and Mrs. Willard, the Governor of Virginia, were of the party, the sleigh overturned in the deep snow, and all were upset, luckily, however, without injury to any. It was chiefly thru his excellency's efforts that a milk distribution was established in Montreal to enable poor mothers to procure a supply of pure milk for their children at a reasonable figure.

Raised Irish Crochet.
The popularity of Irish crochet shows little signs of decline, and the only difficulty to be encountered is that of supplying enough to comply with the unprecedented demand for

what is undoubtedly the most popular lace of the moment. The latest examples, however, possess few attributes in common with lace in the ordinary acceptance of the term, and far more nearly resemble the old-fashioned coarse and clumsy crocheted antimacassars which are hardly seen nowadays, but in country cottages, humble seaside lodgings. Entire gowns are being made of this coarse fabric, the whole work being done by hand and shaped to the figure in the course of crocheting. Fashioned in the princess style and mounted over white silk or gold lace, a gown of this description will represent the smartest wear this summer; no adornment other than that which is provided by the material being employed.

A Dainty Combing Jacket.
A useful and dainty combing jacket may be made from a new hand towel. Fold the towel in half crosswise and crease, then fold in half lengthwise and crease. "Cut up" the lengthwise fold until the width of the jacket is obtained. Then cut the crosswise folds from the centre, two or three inches each way. Buttonhole around the cut edges with rose silk in pale blue or scarlet; turn back and stitch down the corners at the centre to make the towel fit the neck. Tie with a bow at the back, and fasten with a button. The jacket may be decorated with a border done in the filling in stitches used for a huckaback, if desired.

Talked of India.
Miss McKinney, who had spent fifteen years in missionary work in India, gave a very charming talk at the last meeting for the season of the Royal Grenadier Chapter of the Daughters of the Empire. The meeting took place at "Deanscroft," the residence of Mrs. Albert Gooderham, regent of the chapter, and at this close tea was served.

Cream.
Many cannot always afford cream for serving with fruit or puddings. They might try this recipe. It makes a very good substitute. Take one egg white, ten spoonfuls of sugar, one-half small teaspoonful of cornstarch, one cup of milk. Boil like a custard, then add a few spoonfuls of cream if you have it.

Women's Wilful Horrid Ways.
Editor Word: Perhaps you are in the bonds of apron strings and "gassen" print this! But how men can stand it I don't understand—ours into 1906!—goes to the extreme for a couple of years—thank heaven.

Then, fancy the beastly disgusting skirts of women after traveling thru all the imaginable and unimaginable expectorations and other filth of all sorts with which our streets and sidewalks are covered—think of it! These same ladies are hanging up in the same cupboard and wardrobe with our clothing—not to mention the wearing and other apparel of children and babies! Of course there is a bright side—it must be good for doctors, hospitals and the shareholders of Mount Pleasant and other happy hunting grounds!

Then this delightful fad or fashion of antique spoons and forks; these would lose their antiquity if they were washed; so in we go dirty black sticky begrimed spoons and forks. Oh, woman, you are a queer lot, and for these and other things, it is a blessing one can still sign himself.

An Old Bachelor.

The convenience of "shopping by cheque" i.e., paying for purchases by signing a cheque instead of giving bank bills and cheques, appeals to the common-sense of the world of women. This is a great convenience.

The Crown Bank of Canada gives to each of its savings bank customers a dark green leather wallet, in which the bank and cheque-book can easily be carried, and this wallet is small enough to be put into a man's pocket. The convenience is so marked that Crown Bank depositors tell others about it, and women are not slow to take advantage of such an easy way of making payments.

A Delayed Suit.
The appeal of the Ottawa Electric Railway against the judgment of Justice Teetzel in the case of Taylor v. Ottawa Street Electric Railway, which has been dragging for three years, came up in the divisional court yesterday. Taylor, who was injured in a collision, obtained damages for \$1000.

YORK COUNTY AND SUBURBS

Toronto Junction, May 18.—At the police court this morning Harold Wilson of Esther-street, Toronto, was fined \$1 and costs for riding a bicycle on the sidewalk. Rocco Rose, an Italian, in the employ of the C.P.R., was fined \$1 and costs for the same offence. Fred Dixon and Ray Daughton, charged with throwing stones and disturbing the teacher of Elizabeth-street school, were given suspended sentence. P. Jackson and J. Seabrook, summoned for the same offence, did not appear. Magistrate Ellis will issue warrants for their arrest. Three boys, named Careless, Walsh and Leahy, for breaking into a C.P.R. car, were allowed to go on suspended sentence.

The management committee of the Collegiate Institute Board met at five o'clock this afternoon in the town hall.

Chairman Dr. Martin and Trustees Irwin, McEachern and Laughton were present to consider the salary of the teaching staff and received a report as follows:

F. G. Colbeck, \$2000; Vice-Principal R. Gourlay, \$1500; Miss Clares, \$1200; F. Johnstone, \$1100; C. L. Barnes, \$1050; Miss McLellan, \$950; W. A. Evans, \$900.

EMPIRE HOTEL.

336 Yonge-street, most modern and up-to-date hotel in Toronto. Rates \$1.50 to \$2 per day. J. Newton, proprietor. Phone Main 2255.

NORWAY.

On Wednesday evening at the Girls' Branch of the W. A. Mrs. Waters, the president, was made a life member and presented with the certificate framed and with gold badge by her fellow-worker, Miss Williams.

NORTH TORONTO.

Rev. P. W. Currie of Port Colborne and Rev. P. Tibb of the Eglington Presbyterian Church will exchange pulpits to-morrow.

On Thursday evening lightning struck several telephone poles in North Toronto and drivers of horses had the time of their life to keep them from running away. Rev. J. C. Tibb of the First Presbyterian Church was in chunks of ice on John Muirhead's farm, 2nd concession, East York. One of these chunks of ice measured three inches by two and one inch thick. Geo. Gray's house, 2nd con., East York, was struck by lightning. Re-seeding becomes an absolute necessity in a good many places.

Remember the cash auction sale of household furniture this (Saturday) afternoon at 1 o'clock at the residence of Mrs. W. Jackes, corner of Yonge-street and Victoria-avenue.

The Ruthven Lodge, Mount Pleasant Cemetery, was making some improvements to the property on Yonge-street. The old high wooden fence prevents the full effects of the beautiful grounds being seen from Yonge-street and it is suggested that if this were removed and a low rustic iron fence substituted it would give appearance much improved.

York Lodge, A. F. & A. M., held their regular meeting last night. A fraternal visit was made by R. W. Bro. Carlton, D.D.; Grand Master of Toronto West District No. 11, and other masters, officers and members of Ashlar Lodge, St. Andrew's Lodge, Victoria Lodge, as well as individual members of different other lodges. After initiating a candidate to the first degree, the brethren adjourned to the refreshment room.

Floral decorations were supplied by F. Miller & Son, Brevoorde members of the lodge, and the refreshments used by W. W. Edwards.

Remember the cash auction sale of household furniture on Saturday afternoon, May 19, at 1 o'clock at the residence of Mrs. W. Jackes, corner Yonge-street and Victoria-avenue.

CUBA --- THE LAND OF SUNSHINE CANADA-CUBA LAND AND FRUIT COMPANY, LIMITED

LAND IS THE BASIS OF ALL WEALTH

As a permanent place of residence as well as a health and pleasure resort, Cuba, owing to its climatic and scenic charms, is attracting wide attention. Any person from a northern climate can live in Cuba in summer with as much comfort as in Canada, while the winter months are, of course, very much more comfortable than in a land of snow, sleet and blizzards.

On and after June 1st the price of all this Company's land will be increased to \$25.00 per acre, and on the 15th day of August the same land will be further advanced to \$40.00 per acre. The company own and operate over 100 of the finest tobacco plantations, producing the highest grade of tobacco to be found in the world, and are at the present time clearing and planting orange plantations in various parts of the estate for the company's benefit.

By purchasing now you can have your land put under cultivation and planted with orange, by the company at the lowest possible cost, thus preparing for you a future home and a sure independency for life, even if you do not desire to go to the property for a year or more.

SOIL AND PRODUCTS OF CUBA.

In no part of the United States or Canada is found a soil so rich, so fertile, so productive as in Cuba.

There is no garden like this favored spot.

It is perfect in soil and climate.

Three crops a year can be grown. Four hundred years of Spanish influence prevented the development of more than a small portion of this beautiful land, and thousands of acres of virgin soil now awaits the thrifty and energetic Canadian to make it the most productive spot in the world.

PROFITS ON ORANGES AND OTHER CITRUS FRUITS.

As an indication of the profits to be derived from raising oranges and other

citrus fruits, I quote from an official work on Cuba, published: "The person owning an orange grove in a country free from frosts is the most independent and happiest person on earth. A full-grown orange tree will yield from 1000 to 5000 oranges yearly, and like the lemon tree, begins to bear the third year. Before Cuba got its setting back during the war our orange lands were selling from \$2000 to \$5000 per acre, and a three-year-old grove was worth \$1000 per acre. The oldest trees in Cuba are some 100 years old, and each year the crop is greater than the previous year. No limit is placed upon the age of the orange tree; so in beginning an orange grove, remember, if four or five years

are required to bring it into bearing, it will then continue to yield its golden harvest for generations to come, and when once in fruit you can sit beneath its shade almost in idleness and have an abundant competency."

ORANGES

It is claimed by the best authorities on citrus fruits that if all the available lands suited for the purpose in this part of the world were put into cultivation it would be more than twenty years before the market would be supplied to the same extent that it was previous to the freezes in Florida and California.

It must be remembered that an orange grove will mature here in one-

The company's estate covers over 140 square miles of the best fruit, vegetable and tobacco land to be found, and is now under the able management, in Cuba, of Mr. James W. Curry, the former Crown Attorney of Toronto, who is now residing on the company's estate.

On and after June 1st the price of all this Company's land will be increased to \$25.00 per acre, and on the 15th day of August the same land will be further advanced to \$40.00 per acre.

The company own and operate over 100 of the finest tobacco plantations, producing the highest grade of tobacco to be found in the world, and are at the present time clearing and planting orange

plantations in various parts of the estate for the company's benefit.

By purchasing now you can have your land put under cultivation and planted with orange, by the company at the lowest possible cost, thus preparing for you a future home and a sure independency for life, even if you do not desire to go to the property for a year or more.

third less time than in California or Florida.

Governor-General Charles H. Allen said: "A ten-acre orange grove once in bearing gives a comfortable income, sufficient to support a family in the best country style."

"When an orange tree is in full bearing it is valued at \$100." Florida Fruits and How to Grow Them.

TRUCK GROWING IN CUBA.

Of all agricultural pursuits that of growing vegetables as a commercial venture has hidden in the possibilities much to attract not only the tiller of the soil but many of those who have surplus money accumulated in other than agricultural pursuits.

It is easily within the bounds of probability to estimate a crop of vegetables that can be grown during the winter months at a thousand to two thousand dollars profit per acre, and in one takes into consideration the small vegetable pieces worked by the Chinese around Havana it would be reasonable to say into thousands of dollars per acre.

PARROKETS AND BEAUTIFUL HUMMINGBIRDS.

Parrots and beautiful hummingbirds, brilliant as winged jewels, quail and wild pigeons are found in the woods, and ducks along the coast. Such game is plentiful, as very few natives own guns, owing to the license of \$10 a year required of those who keep them.

There are positively no poisonous snakes or insects or dangerous wild animals on the Island. The largest four-footed animal found is the "hutia," about the size of a large squirrel. You can sleep in the open air in the woods or in a tent without the slightest danger from beast or reptiles. Mosquitoes and even common house flies are never troublesome in summer.

PUBLIC AMUSEMENTS

The second week of Mr. Willard's engagement at the Princess Theatre will begin with the presentation of "The Midshipman," which will be repeated at the special matinee on Thursday afternoon (Queen's Birthday). On Tuesday evening "The Professor Love Story" will be given, and Wednesday evening "David Garrick," preceded by the one-act comedy entitled "The Silent Woman," which will be repeated at the Saturday matinee. Thursday evening "The Bright Side" which Mr. Willard has revived for occasion by request; on Friday evening, for the first time here, as Benjamin Goldfinch, in Sydney Grundy's delightful comedy, "A Pair of Spectacles." Mr. Willard has elsewhere made a charming success of the benevolent optimism, whose views of human nature are temporarily perverted by the use of his brother's spectacles. The engagement will close on Saturday night with "Tom Pinch."

Mr. Willard will revive "The Cardigan" and other plays of the current season, and he also expects to produce an entirely new comedy, the writing of which is already well on the way. There is the possibility, too, of his being seen

in a strong drama, somewhat on the lines of "The Middleman."

"Texas," the new play of ranch life comes to the Grand Theatre during its long run in New York. The Brooklyn Eagle said: "Texas is a success without the aid of gun-powder." By this is meant that "Texas" is not a play that depends upon the number of killings in it to make it popular with the people. It is a story absorbing play of plain life on the frontier, bordering on Mexico. Its characters are cowboys, grizzled ranchmen, swarthy greasers and lovely women. The hero is Jack Dallam, and the heroine Texas here, as Benjamin Goldfinch, in Sydney Grundy's delightful comedy, "A Pair of Spectacles." Mr. Willard has elsewhere made a charming success of the benevolent optimism, whose views of human nature are temporarily perverted by the use of his brother's spectacles. The engagement will close on Saturday night with "Tom Pinch."

To those who like religious plays, and to those interested in the story of the Christ, "The Holy City," the attraction at the Majestic Theatre next week will appeal. The play starts with the coming of John the Baptist, and ends with the ascension of the Lord. Nowhere

can the most devout be offended by coarseness. Nowhere else is there such reverence as is taken with the portrayal of the characters. That of the Christ is not attempted, for two reasons, the feeling that it is impossible, and that it might be considered sacrilegious. The costuming of the characters is replete with gaudiness. The scenes and parts are taken by capable actors, and the story has interwoven with it a love story which is subdued to the grander theme. During the engagement a matinee will be given every day.

For next week Manager Shea has succeeded in securing a whole bill of headline acts. Miss Cameron is a big favorite here. She sang "Little Dolly Dimples Made a Hit" in "Puff, Puff, Pouf," and has a great selection of songs, some special extra attractions, the Peoria "The German Girl," the two Ashtonians, who are the crazy jugglers; Blackford and Harlowe, noted for their singing abilities and their stunning appearance; Marion and Pearl acrobatic comedians, together with the big feature star, Cunning, the man who cannot be caught up, and who will invite the most sceptical of jokers to produce a lock that will hinder his perfect freedom.

The production of Shakespeare's plays at Toronto University has become a most attractive feature of convocation week proceedings, and it is with considerable trouble that Mr. Guest enables his company to appear in the open air, far out of regard for the general wishes of the university body. This year the performances are to be held on Wednesday, Thursday and Saturday, June 6, 7 and 9. The sale of reserved seats will be at Tyrrell's bookstore, but the subscription list is now open at Massey Hall.

Dr. F. H. Torrington will leave for the west early in June in connection with the interests of the Toronto College of

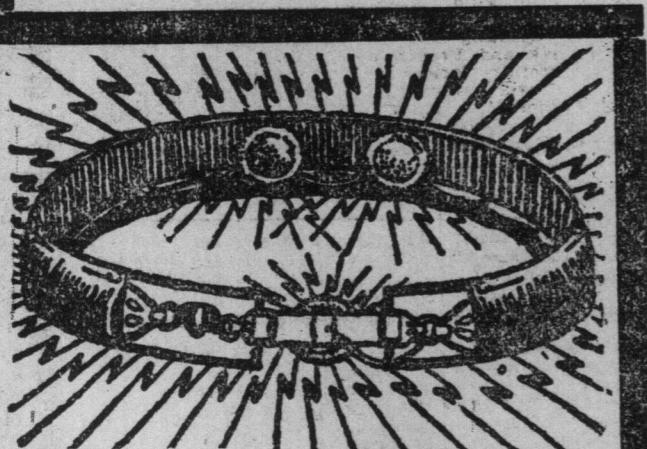

LEONIE LEIGH
as Herodias in "The Holy City,"
at the Majestic.

Music, and also to give several organ recitals by invitation in Sault Ste. Marie, Port Arthur and Winnipeg. Accompanied by Mrs. Torrington, he will proceed as far as Vancouver and Victoria.

Mabel Dixey, in "Texas," the new frontier play at the Grand next week.

A Cure For Weak Men

Every man who is weak and "going back" knows that there ought to be something that will restore that old "steam" to his physical body. He has tried the usual drug method and found that a fizzle, and yet he knows there must be something.

I know it, too, and I've got it. It's Electricity. You can't name anything more likely to have that force which a weak man lacks. It's a natural power. I can pump it into a weak man while he sleeps, and make him feel like a Sandow in no time. It's the fire of life.

If you have been paying money to doctors and taking nasty drugs for years, and after getting no benefit from it all you find a new lease of life after using my Belt for a month you will be enthusiastic. You will want to go out to the highways and shout, to the echo of the mountains.

and you won't care who knows that you were once a weakling, because you are cured and a man again. My Belt is easy to use; put it on when you go to bed; you feel the glowing heat from it (no sting or burn, as in old-style belts), and you feel the nerves tingle with the new life flowing into them. You get up in the morning feeling like a two-year-old.

I have an Electric Belt that does cure, and I am offering it to you in such a way that you take no chances whatever. Give me your name and address, with a statement of your case, and I will at once arrange a Belt suitable for your case, and,

When You Are Cured, Pay Me.

What the Cured Say.

I can express my opinion of your Belt and its effects in my case in a very few words. It cured me. Chas. Jackman, Kilkis, Ont.

I have been cured of weakness and varicose and feel like a different man. I would not be without your Belt for anything. D. J. Steen, St. John's, Ont.

Your Belt cured me and I feel like a new man. Fred. J. Cuter, Brookville, Ont.

I cannot say too much for your Belt; it is better than drugs. John Guergens, Neustadt, Ont.

Since using the belt, I have never been troubled with rheumatism again. Crawley, Collingwood, Ont.

Men, why will you be weak? Why do you not listen to the flight of time, to the echo of the thousands of grateful voices raised in thanks to DR. McLAUGHLIN'S ELECTRIC BELT? Why do you go from day to day, realizing that you are losing your nerve, your strength, your health, and feel the life-blood flowing.

Now, if you suffer, do not lay this aside and say you will try it later.

Act to-day—NOW.

You will come and see me I will fix you up. If you can't call, let me send you my book full of things a man finds interesting to strength and courage, which will excite everything. If you send this coupon.

Office Hours—9 a.m. to 6 p.m. Wed. and Sat. till 8:30 p.m. Consultation free.

DR. M. O. McLAUGHLIN,
112 Yonge Street,
TORONTO, CANADA.

Please send me your book, free.

5-50

Dr. Torrington's program for next season will include the usual Christmas production of the "Madame Butterfly" cantata by Max Bruch, "The Cross of Fire" founded on an incident in Sir Walter Scott's "Lady of the Lake," and Rossini's "Stabat Mater," on the program of the Toronto Festival Chorus and Orchestra.

SIMELTER FOR NEW ONTARIO

Work on Plant Will Be Begun in Two Weeks Near Cobalt.

Within two weeks it is expected work will begin on the first cobalt smelting and refining plant in New Ontario. The Cobalt Smelting and Refining Company has purchased 10 acres of ground at Argentia, two miles north of the Town of Cobalt. The property is on the T. & N. O. Railway, and extends to Cross Lake River. The capitalists associated with the enterprise are principally from the United States, but John Kerr of Petrolea, and two of the largest mine owners of Cobalt are also interested. The company, which received its charter yesterday from the Ontario government, has a capital of \$250,000 and \$120,000 will be spent on erecting the plant. The process of smelting and refining has been purchased from Thomas H. Miller, Detroit, C. H. Gowman and J. H. Schindl, Chicago, who are the promoters. George Crompton, Toronto, is a member of the company.

The process is entirely new, and by everything except the sulphur is extracted from the ores. Of two runs made last week satisfactory results were obtained at the demonstrating plant at Detroit. Ore was taken from two mines, one being rich in silver and the other in cobalt and nickel. The result was a loss of silver of only 4 ounces to the ton. The plant will be erected in 10 ton sections, and the building is designed for a capacity of 120 tons of ore a day. The company will pay for the ore at the smelter.

Before the ore from Cobalt has been sent to New Jersey, for the process of refining, but there the cobalt and arsenic are wasted. By the new process these commodities will be saved, and the company will pay for nickel and cobalt. It is expected that the second section of the plant will be ready in 90 days. A good deal of the machinery has been purchased.

Veterans' Church Parade.

The Army and Navy Veterans annual church parade will be held tomorrow afternoon at St. Stephen's Church. Members will assemble in Denison-square at 2:45 and march headed by the Q. O. R. bugle band, to the church where the service begins at 4:15. Rev. Mr. Brougham will preach the sermon.

An invitation is extended to all military men to join in the parade and especially soldiers lately arrived from across the ocean.

RAILWAY MEN IN TOWN.

Mr. Charles S. Lee, general passenger agent of the Lehigh Valley Railway, New York, was in town yesterday.

Also Wm. B. Wheeler of the Lehigh Valley Railway, Buffalo. Both gentlemen paid a visit to the World Office.

They expressed both surprise and gratification at the rapid growth of the City of Toronto.

WHY GO TO BAD NAUHEIM, GERMANY?

THE GARDEN OF NAUHEIM HAS ARRANGED SUITABLE TREATING ROOMS in which to give the Nauehm Treatment. The treating rooms are located in a quiet spot, where Sunshine and Pure Air add to the effectiveness of the Nauehm Treatment in cases of Rheumatism, Gout, Sciatica, Heart Disease and Skin Diseases. For information and address: GENERAL DIRECTOR, BO KING ST. EAST, TORONTO, O.N.T. Phones Park 2296, Main 0286. THE CANADIAN NAUHEIM will send an agent to the station to meet the train at any hour and patients will be taken to the treating rooms and returned to their homes gratis when taking the Nauehm Treatment. Telephone Park 2296. NAUHEIM TREATING ROOMS.

THE FACTS OF 1905 ABOUT

*The Mutual Life Insurance
OF CANADA.*

The 35th Annual Report of the Mutual Life of Canada is the best proof of the popularity and strength of purely mutual life insurance.

New Insurance... \$6,014,760.00
Gain in Insurance... 3,720,984.00
Income... 1,956,518.91
Gain in Assets... 1,75,561.70
Surplus on Government Standard... 1,261,905.00

With such facts as these to guide them, is it any wonder that the Mutual Life of Canada is writing more policies and bigger policies than ever before—and that 1906 thus far has shown still greater increases over 1905?

Head Office—Waterloo, Ont.

RAPID TRANSIT TUBES FAULTY

Mayor McClellan Announces Sections Must Be Rebuilt.

New York, N.Y., May 18.—Mayor McClellan announced yesterday that crushed by the weight of sand and water the roofs of the rapid transit tubes under the East River connecting with the subway system in Manhattan with Brooklyn have been shattered so seriously at various points that they must be rebuilt before trains can pass thru them.

Experts declare that the present conditions

DAVITT'S NARROW ESCAPE.

Operation Saves Him From Death by Lockjaw.

Dublin, May 18.—Sgt. James Davitt, who is now improving, had a most narrow escape from death as the result of a complication of blood-poisoning and a wild form of lockjaw. The trouble commenced with a bad tooth. The surgeon advised the removal of the tooth, necessitating an operation. Blood-poisoning, accompanied by a form of lockjaw, followed. For 48 hours his life was despaired of, when another operation was decided upon, and this time it was successfully performed.

Simplified Spelling Board.

At a meeting in New York on May 9, of the executive of the simplified spelling board, the Canadian names were adopted that of W. P. MacLean, M. P. of the Toronto World, and Dr. A. H. Mackay of Halifax, superintendent of education for Nova Scotia. The names of four eminent British scholars were rejected by the board, and were announced when their suggestions were received. The list of those who have signed adherence to the use and promotion of the simplified spelling is recommended by the board, and very large and influential made up of many of the most enlightened educationists and literary men in America.

STILL SHAKING.

Oakland, Cal., May 18.—A slight shock of earthquake was felt at Oakland last night and at San Jose and other points.

**HAMILTON HAS ARRANGED
FOR RECEPTION OF HERO**

Takes Place Tuesday Evening,
Rain or Fine—Governor-General's Visit.

Hamilton, May 18.—(Special)—It was arranged this evening that the reception to the Marathon race hero would take place next Tuesday evening regardless of the weather. Both steamboat companies wanted the honor of carrying him, and the reception committee from Toronto, but the Hamilton Steamboat Company, which made its offer first, was chosen. Its steamer will arrive here about 7 o'clock. If the weather is bad the reception will take place at Victoria Park, and if it rains in the drill hall. A civic address will be presented to Sherring by Mayor Bligh, and after a short program he will be turned over to St. Patrick's, who will entertain him. The band has been engaged. The hero will ride at the head of the procession in an automobile. Many of the aldermen will go to Toronto Tuesday to take part in the demonstration there.

Saltfleet Township Council has made an application to the railway commissioners to have the line between the St. Marys & Hamilton Railway located on the filtering basin lands. The fire and water committee met this evening and passed a resolution against it.

George Mulligan, 34 Gloucester street, and Leo Barry, 42 North Catharine street, were rescued unharmed from the storm this evening. They were rescued by Andy Mulligan and James O'Neill.

The Citizens' League, which will carry on moral reform campaign, was organized this evening, with the following officers: Sir Thomas Taylor, president; Dr. J. W. Wood, vice-president; Alfred Powis, vice-president; William Ambrose, secretary; Charles W. Heming, assistant secretary; J. J. Greene, treasurer.

The Hamilton Scientific Association elected the following officers this evening: Dr. R. C. Smith, president; Dr. Marsh and James Gadson, vice-presidents; Harry Jenkins, corresponding secretary; J. F. Ballard, recording secretary; P. L. Sciven, treasurer; Col. C. G. Grant, curator; J. M. Williams, assistant curator.

The Mayor, his general and party, will attend morning service at Christ Church Cathedral next Sunday morning. His excellency will be the guest of Hon. William Gibson while in the city.

The local Liberal executive will offer Bill Sherring a government job at \$50 a month, with prospects of advancement.

Dr. Frank Coleman is suing H. S. Bastedo for fees for performing an operation for appendicitis. The doctor is the physician of the C.O.F. Lodge that the defendant belongs to. The doctor holds that he is bound to act only as a physician, and not a surgeon for lodge members.

Charlie Conkle, the local wrestler, who claimed the lightweight championship, met his Waterloo this evening in a match with Actor "Unknown," who won the first fall in 12.21; Conkle, the second in 45.23, and the "Unknown" the third in 17.02.

The Toronto Daily and Sunday World delivered to any address in Hamilton before 7 a.m.; daily, 25c a month; Sunday, 50c a month. Royal Hotel Building, Royal Hotel Building, Phone 965.

Martinez Cigars, 5 cents, to-day, at Billy Carroll's Opera House Cigar Store.

Summer Schedule.

The Hamilton Steamboat Company will put the Modjeska into commission next week, the first trip being on Tuesday, when the Modjeska will take the Marathon victor Sherring home, leaving here at 5 p.m. On Wednesday the Modjeska will leave for Niagara on a three-trip daily service, leaving Toronto at 9 a.m., 2 and 5.15 p.m., and Hamilton at 8.30 a.m., 2 and 5.15 p.m. Five trips are billed for Victoria Day. To-day the Macassa leaves on her regular schedule at 4.30 p.m. A 50c return rate is in force and a ten trip ticket is issued for \$2.

Summer Vests.

The Hamilton Steamboat Company will put the Modjeska into commission next week, the first trip being on Tuesday, when the Modjeska will take the Marathon victor Sherring home, leaving here at 5 p.m. On Wednesday the Modjeska will leave for Niagara on a three-trip daily service, leaving Toronto at 9 a.m., 2 and 5.15 p.m., and Hamilton at 8.30 a.m., 2 and 5.15 p.m. Five trips are billed for Victoria Day. To-day the Macassa leaves on her regular schedule at 4.30 p.m. A 50c return rate is in force and a ten trip ticket is issued for \$2.

New Soft Hats.

Seven colors to choose from—a perfect assortment—\$2.00 to \$8.00—

Special English made Derby and Soft Hats—young men's blocks—at.....

Silk Hats—5.00 to 8.00—Caps—50c to 5.00—

Summer Vests.

Plain white and fancies—neatest of patterns—2.00 to 4.00—

Half Hose—Plain and fancy French lace threads—50c a pair—6 pairs for 2.75—

Lighter weight underwear in French lace thread—1.00 to 1.50—

Summer Shirts—plain and plaided bosoms—in a lot of new and exclusive patterns—1.00 up—

Summer Neckwear—some of the smartest novelties we've ever shown in strings and four in-hands—50c—75c and 1.00—
